**1.01 Entry into a Material Definitive Agreement.**

On September 18, 2014, Sinocoking Coal & Coke Chemical Industries, Inc. (the “Company”) and two institutional investors entered into a securities purchase agreement (the “Purchase Agreement”) in connection with an offering (the “Offering”), pursuant to which the Company agreed to sell to investors 2,818,845 shares to be issued on the initial closing of this Offering (the “Initial Offering”). The Initial Offering includes Series A warrants to purchase an aggregate of 1,409,423 shares of common stock and Series B warrants, which are not exercisable for six months, may become exercisable only to the extent the Company does not have an effective registration statement available for the shares underlying such warrants and in any event expire after certain registration conditions are satisfied, to purchase an aggregate of 1,644,737 shares of common stock.

Under the Purchase Agreement, the investors will also have an option to purchase up to \$10 million of additional shares and warrants for a period beginning six months and one day from the date the Initial Offering closes and ending ten months from the date the Initial Offering closes (subject to extension in certain circumstances as described in the Purchase Agreement) (the “Option Period”). At any time during the Option Period, the investors in the initial closing of Shares and Series A and Series B warrants will have the option to purchase their pro rata share of up to 1,644,737 shares of common stock and would receive a pro rata share of Series C Warrants to purchase an aggregate of up to 822,369 shares of our common stock at a price equal to the last consolidated closing bid price of the Company's common stock as determined in accordance with NASDAQ rules immediately preceding the Company entering into the Purchase Agreement, which amount was \$6.08.

The aggregate gross proceeds from the sale of the common shares in the Initial Offering, before deducting fees to the Placement Agent and other estimated offering expenses payable by the Company will be approximately \$14.3 million. This amount does not include any proceeds from warrant exercises.

The Series A warrants will be exercisable immediately as of the date of issuance at an exercise price of \$6.38 per common share and expire four years from the date of issuance. The exercise price of the Series A warrants is subject to customary adjustment in the case of future issuances or deemed issuances of common shares, stock splits, stock dividends, combinations of shares and similar recapitalization transactions. A holder of the Series A warrants also will have the right to exercise its warrants on a cashless basis if the registration statement or prospectus contained therein is not available for the issuance of the common shares issuable upon exercise thereof. The exercisability of the Series A warrants may be limited if, upon exercise, the holder or any of its affiliates would beneficially own more than 9.99% of the Company's common shares.

The Series B warrants will be exercisable at an exercise price of \$6.08 per share at any time following six months and one day from the date the Initial Offering closes and prior to ten months from the date the Initial Offering closes (subject to extension in certain circumstances as described in the Purchase Agreement) only if the Company's shelf registration statement on Form S-3 (File No. 333-178325), is not effective or is not otherwise available for the issuance of the Shares issuable during the Option Period or any prospectus contained therein is not available for use (a

“Registration Failure”). The Series B warrants expire on the date ten months from the date the Initial Offering closes if no Registration Failure has occurred prior thereto or, if a Registration Failure does occur prior to such date, on the fourth anniversary of such Registration Failure. The exercise price of the Series B warrants is subject to customary adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions. A holder of the Series B warrants also will have the right to exercise its warrants on a cashless basis if the registration statement or prospectus contained therein is not available for the issuance of the common shares issuable upon exercise thereof. The exercisability of the Series B warrants may be limited if, upon exercise, the holder or any of its affiliates would beneficially own more than 9.99% of the Company’s common shares.

The Series C warrants will be exercisable immediately as of the date of issuance at an exercise price of \$6.08 per common share and expire four years from the date of issuance. The exercise price of the Series C warrants is subject to customary adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions. A holder of the Series C warrants also will have the right to exercise its warrants on a cashless basis if the registration statement or prospectus contained therein is not available for the issuance of the common shares issuable upon exercise thereof. The exercisability of the Series C warrants may be limited if, upon exercise, the holder or any of its affiliates would beneficially own more than 9.99% of the Company’s common shares.

Under the Purchase Agreement, the Company has agreed with each of the purchasers that, subject to certain exceptions, it will not, within the 20 trading days following the closing of the Initial Offering (which period may be extended in certain circumstances), enter into any agreement to issue or announce the issuance or proposed issuance of any equity security or equity-linked or related security (other than certain excluded securities as described in the Purchase Agreement).

The Company has also agreed with each of the purchasers that while the warrants are outstanding, it will not effect or enter into an agreement to effect a “Variable Rate Transaction,” which means a transaction in which the Company:

issues or sells any convertible securities either (A) at a conversion, exercise or exchange rate or other price that is based upon and/or varies with the trading prices of, or quotations for, of the Company’s common shares at any time after the initial issuance of such convertible securities, or (B) with a conversion, exercise or exchange price that is subject to being reset at some future date after the initial issuance of such convertible securities or upon the occurrence of specified or contingent events directly or indirectly related to the business of the Company or the market for the Company’s common shares, other than pursuant to a customary “weighted average” anti-dilution provision; or

enters into any agreement (including, without limitation, an equity line of credit) whereby the Company may sell securities at a future determined price (other than standard and customary “preemptive” or “participation” rights).

The Company has also agreed with each of the purchasers if the Company issues securities (other than certain excluded securities as described in the Purchase Agreement) within the 12 months following the closing of the Initial Offering, the purchasers shall have the right to purchase 35% of the securities on the same terms, conditions and price provided for in the proposed issuance of securities.

The Company has also agreed to indemnify each of the purchasers against certain losses resulting from its breach of any of its representations, warranties, or covenants under agreements with each of the purchasers, as well as under certain other circumstances described in the Purchase Agreement.

The Company expects the Initial Offering will close on or before September 23, 2014. After giving effect to the Initial Offering, but without giving effect to the exercise of the warrants being offered, the Company will have 23,960,217 common shares outstanding.

The Offering was effected as a takedown off the Company’s shelf registration statement on Form S-3 (File No. 333-178325), which became effective on May 10, 2012, pursuant to a prospectus supplement filed with the Securities and Exchange Commission.

In connection with the Offering, on September 9, 2014, the Company entered into an engagement letter agreement (the “Placement Agent Agreement”) with FT Global Capital, Inc. (the “Placement Agent”) pursuant to which the Placement Agent agreed to act as the exclusive placement agent on a best efforts basis in the Offering. The Placement Agent will be entitled to a cash fee of 6% of the gross proceeds paid to the Company for the securities the Company sells in this Offering. Additionally, the Company shall issue to the Placement Agent warrants (“Placement Agent Warrants”) equal to 8% of the aggregate number of shares sold to the Investors in this Offering. The Placement Agent Warrants will be on substantially the same terms as the Series A warrants issued pursuant to the Purchase Agreement, provided that such warrants will not be exercisable for a period of six months and one day from the date of the Initial Offering and shall expire four and one-half years hereafter.

The foregoing summaries of the terms of the form of Series A warrant, Series B warrant, Series C warrant, the Purchase Agreement and the Placement Agent Agreement are subject to, and qualified in their entirety by, such documents attached hereto as Exhibits 4.1, 4.2, 4.3, 10.1 and 10.2, respectively, which are incorporated herein by reference.
