**PROXY STATEMENT
April 10, 2006**

This Proxy Statement is furnished by the Board of Directors of Berry Petroleum Company (respectively the Board and the Company or Berry) in connection with the solicitation of proxies for use at the Annual Meeting of Shareholders to be held on May 17, 2006, or at any adjournment thereof (the Annual Meeting or Meeting) pursuant to the Notice of said Meeting. This Proxy Statement and the proxies solicited hereby are being first mailed to shareholders of the Company on or about April 10, 2006.

VOTING SECURITIES

March 20, 2006 has been fixed as the record date for determination of shareholders entitled to notice of, and to vote at, the Annual Meeting or any adjournment thereof. As of March 20, 2006 there were 21,097,288 and 898,892 shares, respectively, of Class A Common Stock (Common Stock) and Class B Stock (Class B Stock), par value \$.01 per share, issued and outstanding, referred to collectively as the Capital Stock.

Berry's Certificate of Incorporation provides that, except for proposed amendments to Berry's Certificate of Incorporation adversely affecting the rights of a particular class (which must be approved by the affected class voting separately), the Common Stock and the Class B Stock will vote

as a single class on all matters upon which the Capital Stock is entitled to vote. Each share of Common Stock is entitled to one vote and each share of Class B Stock is entitled to 95% of one vote. The Certificate of Incorporation also provides for certain adjustments to the Capital Stock in the event a separate class vote is imposed by applicable law. Holders of the Capital Stock are entitled to cumulative voting rights for election of Directors. Cumulative voting rights entitle a shareholder to cast as many votes as is equal to the number of Directors to be elected multiplied by the number of shares owned by such shareholder. A shareholder may cast all of such shareholder's votes as calculated above for one candidate or may distribute the votes among two or more candidates. Unless otherwise instructed, the shares represented by proxies will be voted in the discretion of the proxy holders so as to elect the maximum number of Management nominees which may be elected by cumulative voting.

GENERAL INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Who may vote at the Annual Meeting?

The Board of Directors has set March 20, 2006 as the record date for the Annual Meeting. If you were the owner of Berry Capital Stock at the close of business on March 20, 2006, you may vote at the Annual Meeting. Class A Common shareholders are entitled to one vote for each share of Common Stock held on the record date and Class B shareholders are entitled to 95/100 of a vote for each share of Class B Stock held on the record date, including shares:

held directly in your name with our transfer agent as a shareholder of record; and

held for you in an account with a broker, bank or other nominee (shares held in street name).

A list of shareholders entitled to vote at the Annual Meeting will be open to the examination of any shareholder, for any purpose germane to the Annual Meeting, during normal business hours for a period of ten days before the Annual Meeting at our corporate offices at 5201 Truxtun Avenue, Suite 300, Bakersfield, California 93309, and at the time and place of the Annual Meeting.

1

How many shares must be present to hold the Annual Meeting?

A majority of our shares of Capital Stock outstanding as of the record date must be present at the Annual Meeting in order to hold the meeting and conduct business. This is called a quorum. On the record date, there were 21,097,288 shares of Berry Class A Common Stock and 898,892 shares of Class B Stock outstanding. Your shares are counted as present at the Annual Meeting if you:

are present and vote in person at the Annual Meeting; or

have properly submitted your proxy card by mail or voted your proxy card by telephone or via the internet prior to the Annual Meeting.

What proposals will be voted on at the Annual Meeting?

The items scheduled to be voted on at the Annual Meeting are:

the election of nine director nominees to the Board of Directors until the next Annual Meeting of Shareholders, or until their respective successors are elected and qualified;

the proposed amendment to the Company's Restated Certificate of Incorporation increasing the authorized shares of Class A Common Stock from 50,000,000 to 100,000,000 and the Class B Stock from 1,500,000 to 3,000,000 shares; and

Such other business as may be properly brought before the meeting or any adjournment thereof.

We are not currently aware of any other business to be acted upon at the Annual Meeting. If any other matters are properly submitted for consideration at the Annual Meeting, including any proposal to adjourn the Annual Meeting, the persons named as proxies shall vote the shares

Edgar Filing: BERRY PETROLEUM CO - Form DEF 14A

represented thereby in accordance with the recommendations of the Board of Directors. Adjournment of the Annual Meeting may be made for the purpose of, among other things, soliciting additional proxies. Any adjournment may be made from time to time by approval of the holders of our Capital Stock representing a majority of the votes present in person or by proxy at the Annual Meeting, whether or not a quorum exists, without further notice other than by an announcement made at the Annual Meeting.

How does the Board of Directors recommend that I vote?

The Board of Directors recommends that you vote:

FOR the director nominees named in this Proxy Statement; and

FOR the proposed amendment to the Company's Restated Certificate of Incorporation increasing the authorized shares of Class A Common Stock from 50,000,000 to 100,000,000 and the Class B Stock from 1,500,000 to 3,000,000.

How many votes are required to approve each proposal?

Directors are elected by a plurality of the votes cast at the Annual Meeting. This means that the nine nominees who receive the largest number of FOR votes cast will be elected as directors.

Approval of the proposed amendment to the Company's Restated Certificate of Incorporation increasing the authorized shares of Class A Common Stock from 50,000,000 to 100,000,000 and the Class B Stock from 1,500,000 to 3,000,000 requires the affirmative vote of the holders of shares of Berry Capital Stock that represent a majority of the votes of all of the shares outstanding as of the record date and entitled to vote on the proposal.

How are votes counted?

You may either vote FOR or WITHHOLD authority to vote for our director nominees. If you withhold authority to vote with respect to any nominee, your shares will be counted for purposes of establishing a quorum, but will have no effect on the election of that nominee.

You may vote FOR, AGAINST or ABSTAIN on the other proposals to be presented at the Annual Meeting and set forth in the Notice of Annual Meeting of Shareholders. If you abstain from voting on these

2

proposals, your shares will be counted as present for purposes of establishing a quorum at the Annual Meeting. An abstention will have the same effect as a vote against the proposal.

Broker non-votes are counted as present for purposes of determining the presence or absence of a quorum for the transaction of business but will not be counted for purposes of determining whether a proposal has been approved. Broker non-votes occur when brokers do not receive voting instructions from their customers and the broker does not have discretionary voting authority with respect to a proposal. If you hold shares through a broker, bank or other nominee and you do not give instructions as to how to vote, your broker may have authority to vote your shares on certain routine items but not on other items. Broker non-votes will not be counted for purposes of the election of directors. Pursuant to the rules of the New York Stock Exchange, brokers will have discretion to vote on the proposal to increase the authorized shares being presented at this meeting.

The persons named as proxies are Officers of Berry. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted in accordance with the instructions given. If you sign and submit your proxy card without voting instructions, your shares will be voted in accordance with the recommendations of the Board of Directors.

How do I vote my shares without attending the Annual Meeting?

Whether you are a shareholder of record or hold your shares in street name, you may direct your vote without attending the Annual Meeting in person. If you are a shareholder of record, you may vote by signing and dating your enclosed proxy card and mailing it in the postage-paid

Edgar Filing: BERRY PETROLEUM CO - Form DEF 14A

envelope provided. You should sign your name exactly as it appears on the proxy card. If you are signing in a representative capacity (for example, as guardian, executor, trustee, custodian, attorney or officer of a corporation), you should indicate your name and title or capacity. You may also vote by telephone or internet by following the instructions on the enclosed proxy card.

If your shares are registered in the name of a bank or a brokerage firm, you may be eligible to vote your shares electronically over the internet or by telephone. A large number of banks and brokerage firms participate in the ADP Investor Communications Services online program. This program provides eligible shareholders that hold shares in street name the opportunity to vote via the internet or by telephone. If your bank or brokerage firm is participating in ADP's program, your proxy materials will provide voting instructions. Eligible shareholders who elected to receive our Proxy Statement and Annual Report to Shareholders via the internet will be receiving an e-mail on or about April 12, 2006 with information explaining how to access Annual Meeting materials and instructions for voting. If you provide specific voting instructions by mail, telephone or the internet, your shares will be voted by your broker or nominee as you have directed.

How do I vote my shares in person at the Annual Meeting?

Even if you plan to attend the Annual Meeting, we encourage you to vote by signing, dating and returning the enclosed proxy card or otherwise voting your proxy via the telephone or internet so your vote will be counted if you are unable to, or later decide not to, attend the Annual Meeting. If you are a shareholder of record, you may vote in person by marking and signing the ballot to be provided at the Annual Meeting. If you hold your shares in street name, you must obtain a proxy in your name from your bank, broker or other shareholder of record in order to vote by ballot at the Annual Meeting.

What happens if my shares are held in more than one account?

If your shares are held in more than one account, you will receive a proxy card (or other voting instructions if your shares are held in street name) for each account. To ensure that all of your shares in each account are voted, you must sign, date and return each proxy card you receive or otherwise vote your proxy via the telephone or internet.

3

May I revoke my proxy and change my vote?

You may revoke your proxy at any time before it is voted by:

submitting a properly signed proxy card with a later date;

delivering a written notice of revocation bearing a later date than your proxy card to Berry Petroleum Company, 5201 Truxtun Avenue, Suite 300, Bakersfield, California 93309, Attention: Corporate Secretary; or

voting in person at the Annual Meeting.

SHAREHOLDERS ARE URGED, WHETHER OR NOT THEY EXPECT TO ATTEND THE ANNUAL MEETING, TO COMPLETE, SIGN AND DATE THE ACCOMPANYING PROXY AND RETURN IT PROMPTLY IN THE ENCLOSED ENVELOPE OR OTHERWISE VOTE YOUR PROXY VIA THE TELEPHONE OR INTERNET.

Unless otherwise directed in the accompanying Proxy, persons named therein will vote FOR the election of the nine Director nominees listed under the Nominees for Election section below and FOR the proposed amendment to the Company's Restated Certificate of Incorporation increasing the number of authorized shares of Class A Common Stock, \$.01 par value, from 50,000,000 to 100,000,000 and increasing the number of authorized shares of Class B Stock, \$.01 par value, from 1,500,000 to 3,000,000. As to any other business that may properly come before the Meeting, the proxy holders will vote in accordance with the recommendations of the Board of Directors.

He has more than 25 years of experience in the oil and gas industry.

During the previous year, Mr. John A. Hagg retired from the Board on August 30, 2005, having joined the Board in 1990. Mr. William F. Berry is retiring from the Board effective May 17, 2006, having served on the Board since the formation of the Company in 1985 and having also served as a member of the board for one of the predecessor companies to Berry Petroleum Company. The Company wishes to express its gratitude to Mr. Berry and to Mr. Hagg for their respective long service on behalf of the Company.

Governance and Board Matters

Berry Petroleum Company is committed to having sound corporate governance principles. Having such principles is essential to running Berry's business efficiently and to maintaining Berry's integrity in the marketplace. Berry's Corporate Governance Guidelines, Code of Business Conduct and Ethics, Code of Ethics for Senior Financial Officers and other documents of interest are available at <http://www.bry.com> or by writing to the Company, attention Investor Relations. Board Independence

In February 2005, the Board, upon recommendation of the Corporate Governance and Nominating Committee, adopted the following Director Independence Standards:

DIRECTOR INDEPENDENCE STANDARDS

To be considered independent for purposes of these standards, a member (Director) of the Board of Directors (Board) of Berry Petroleum Company (Company) must be affirmatively determined, by resolution of the Board as a whole, after due deliberation, to have no material relationship with the Company other than as a Director, either directly or indirectly (such as a partner or executive officer of another entity that has a relationship with the Company). In each case, the Board shall broadly consider all relevant facts and circumstances. These determinations will be made public annually prior to the Directors standing for election to the Board. In each case, the Board shall broadly consider all relevant facts and circumstances and shall apply, among others, the following standards:

1. In no event will a Director be considered independent if:
 - (i) the Director is or has been within the last three years, employed by the Company. Employment as an interim Chairman, President, Chief Executive Officer or other Executive Officer will not disqualify a Director from being considered independent following that employment;
 - (ii) an immediate family member of the Director is or has been within the last three years employed by the Company as an Executive Officer;
 - (iii) the Director, or an immediate family member of the Director, has received, during any twelve-month period within the last three years, more than \$100,000 in direct compensation from the Company (other than Director's fees and pension or other forms of deferred compensation for prior service with the Company). Compensation received by a Director for service as an interim Chairman, President, Chief Executive Officer or other Executive Officer and compensation received by a member of the Director's immediate family for service as a non-executive employee of the Company will not be considered in determining independence under this test;
 - (iv) the Director, or an immediate family member, is a current partner of a firm that is the Company's internal or external auditor or its principal outside law firm;
 - (v) the Director is a current employee of the Company's internal or external auditor or its principal outside law firm;
 - (vi) an immediate family member of the Director is currently employed by the Company's internal or external auditor or its principal outside law firm and such family member participates in the firm's audit, assurance or tax compliance (but not tax planning) practice;
 - (vii) the Director or an immediate family member was, within the last three years (but is no longer) a partner or employee of the Company's internal or external auditor or its principal outside law firm and personally worked on the Company's audit within that time;

- (viii) the Director, or an immediate family member, is, or has been within the last three years, employed as an executive officer of another company where any of the Company's present Executive Officers, at the same time, serves or served on that company's compensation committee; and
- (ix) the Director is a current employee, or any of the Director's immediate family is a current executive officer, of a company (including any tax-exempt entity) that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three

9

fiscal years, exceeds the greater of \$1,000,000 or 2% of such other company's consolidated gross revenues.

2. The mere ownership by a Director of equity securities of the Company shall not in and of itself be deemed to be a material relationship or transaction that would cause a Director not to be independent.
3. To help maintain the independence of the Board, all Directors are required to deal at arm's length with the Company and to disclose circumstances material to the Director that might be perceived as a conflict of interest.
4. Whether Directors meet these categorical independence tests will be reviewed and will be made public annually prior to their standing for re-election to the Board. For relationships not covered by these guidelines, the determination of whether the relationship is material or not, and therefore whether the Director would be independent or not, shall be made by the Directors who satisfy the independence guidelines.

The Board has determined after careful review that with the exception of Mr. Heinemann, the President and Chief Executive Officer, each of the current Directors (Mr. Joseph H. Bryant, Mr. Ralph B. Busch, III, Mr. William E. Bush, Jr., Mr. Stephen L. Cropper, Mr. J. Herbert Gaul, Jr., Mr. Thomas J. Jamieson, Mr. J. Frank Keller and Mr. Martin H. Young, Jr.) standing for re-election has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company) and is independent within the meaning of the Company's Director Independence Standards. All Board committees are entirely comprised of independent Directors.

Shareholders should specify the name and address of the nominee and the qualifications of such nominee for membership on the Board of Directors. All such recommendations will be brought to the attention of the Corporate Governance and Nominating Committee.

Evaluating Nominees for Director

Recommendations for open Board positions may come from a variety of sources including business contacts of current and former Directors or Officers, the use of a professional search firm selected by the Corporate Governance and Nominating Committee and shareholder nominations. In evaluating such recommendations, the Corporate Governance and Nominating Committee seeks to achieve a balance of knowledge, skills and experience on the Board. Each nominee will be considered based on the need or desire to fill existing vacancies or expand the size of the Board and otherwise to select nominees that best suit the Company's needs.

The 2005 Equity Incentive Plan which was approved by shareholders in May 2005 allows for equity grants to Directors as recommended by the Compensation Committee and approved by the Board of Directors. Under the 2005 Equity Incentive Plan 5,000 options were granted to the non-employee Directors on December 15, 2005. The Option grants to non-employee Directors consisted of 5,000 options on December 15, 2005 at \$61.29, 5,000 options on December 2, 2004 at \$43.54 and 5,000 options on December 2, 2003 at \$19.22. Report of the Compensation Committee of the Board of Directors

Executive Compensation

The Compensation Committee of the Board has furnished the following report on executive compensation for fiscal 2005.

As of October 1, 2005, the Compensation Committee of the Board of Directors consists of Messrs. Berry, Bryant, Busch, and Jamieson. Mr. Jamieson has served as Chairman of the Committee since May 12, 2005. Mr. Bryant was added to the Committee effective October 1, 2005. From February 25, 2005, until August 30, 2005, the Compensation Committee of the Board of Directors consisted of Messrs. Berry, Hagg and Jamieson with Mr. Hagg serving as Chairman of the Committee from February 25, 2005 until May 12, 2005. This is the Report of the current Compensation Committee reflecting its philosophy and actions during 2005. All members of the Committee have been determined to be independent by the Board of Directors. The Committee is committed to a strong link between business performance and the attainment of strategic goals. The overall compensation and benefit programs are also reviewed taking into consideration the competitive employment environment. The specific duties and responsibilities of the Committee are described in the Charter of the Committee which is available on the Company's website at <http://www.bry.com> or by writing to the Company, attention Investor Relations.

In carrying out its responsibilities, the Committee is authorized to engage outside advisors as the Committee deems appropriate and does so periodically.

The Company's compensation policy is designed to support the overall objective of maximizing the return to Berry's shareholders by:

Attracting, developing, rewarding, and retaining highly qualified and productive individuals.

Directly aligning compensation to both Company and individual performance.

Ensuring compensation levels that are externally competitive and internally equitable.

Encouraging executive stock ownership to enhance a mutuality of interest with the Company's shareholders.

It is the Committee's practice to provide incentives that promote both short term and long term financial objectives of the Company and are appropriate to the nature of the assets of the Company. Base salary and short term incentive plan compensation are designed to reward achievement of short term objectives while the long term incentive plan compensation is intended to encourage employees, particularly executives, to focus on the long term goals of the Company.

During 2005, the Committee met four times. The Committee engaged the services of an independent compensation consultant who met with the Chairman several times and produced for the Committee a compensation study providing competitive data for companies deemed comparable to the Company as well as providing information on different structures for Executive Officer and Director compensation. The companies deemed comparable to the Company for this purpose are also shown as the peer group on the Performance Graph in this Proxy Statement. In addition, the Company subscribed to several industry services providing competitive salary and benefit information for a variety of positions and keyed to the geographic areas in which the Company conducts its business.

The following is a description of the elements of executive compensation and how each relates to the objectives and policy outlined above.

Base Salary

The Committee reviews each Executive Officer and certain other Management employees' salaries annually. In determining appropriate salary levels, the Committee considers the level and scope of responsibility, experience, Company and individual performance, internal equity, as well as pay practices of other companies relating to executives of similar responsibility. By design, the Company strives to set executives' salaries at or close to competitive market levels.

Short Term Incentive Plan Compensation

Under the auspices of the Compensation Committee and the Board of Directors, the Company developed an Incentive Compensation Plan that was implemented in 2005. All full time employees are included in the plan for compensation purposes. This new incentive plan is based on individual performance and Companywide and regional

performance metrics which include targets for: 1) production, 2) reserve additions, 3) operating costs, 4) finding and development costs, 5) net income and 6) environmental, health and safety results. The plan is intended to align employee incentives to achievement of the Company's strategic plans. Total payout under this plan is limited to approximately 3.5% of the Company's annual net income. The amount an individual may earn is directly dependent upon the individual's performance, position, responsibility, and ability to impact the Company's operating and/or financial success. External market data is reviewed periodically to determine the competitiveness of the Company's incentive programs.

Prior to 2005 cash bonuses to executives and other employees to recognize and reward Company and individual performance were awarded under the Short Term Incentive Plan (the Bonus Plan). Subject to the Board's discretion to vary the targets, the Bonus Plan was restructured in 2001 to focus on three specific Company targets, those being: 1) production volume, 2) reserve replacement and 3) non-steam operating costs. Based on the Company's net income, the Bonus Plan dedicated an annual incentive fund for eligible employees involved in decision-making roles which affected the Company's business performance and the attainment of established strategic goals. Bonuses were also awarded at the discretion of the Chief Executive Officer to other employees whose efforts and performance were judged to be exceptional.

The Company anticipates that future annual bonuses, if any, will be determined at year end. Cash bonuses paid in 2005, 2004 and 2003 were \$1,488,000, \$996,000 and \$465,000, respectively. Cash bonuses of \$2,896,000 were approved in December 2005, subject to adjustment based on full year 2005 results, and paid in January 2006 under the Incentive Compensation Plan outlined above. The change in 2005 to include virtually all employees in the short term incentive program, combined with the significant increase in the number of employees and the substantial increase in the growth and profitability of the Company, resulted in the increases in the bonuses paid in 2005 and 2006.

Long Term Incentive Plan Compensation

Commencing in 1994, long term incentive was issued pursuant to the terms of the 1994 Non-Statutory Stock Option Plan which expired as of December 2, 2004 (1994 Plan). In May 2005, the shareholders approved the Berry Petroleum Company 2005 Equity Incentive Plan (2005 Plan). The 2005 Plan and the 1994 Plan are collectively referred to as the Equity Plans.

The purpose of these plans is to provide meaningful incentives to employees to: 1) be focused on the long-term goal of maximizing shareholder value, 2) encourage Management to own and hold the Company's stock, 3) tie Management and employee's long-term economic interests directly to those of the Company's shareholders, and 4) recruit and retain highly qualified and productive individuals.

While the Compensation Committee maintains substantial flexibility in the operation of the Equity Plans, the 2005 Plan contains the ability to link the quantity of options and other equity awards allowable for grant to the Company's performance measured in comparison to a select peer group of other U.S. based exploration and production companies. The Equity Plans utilize vesting periods to encourage key employees to continue in the employment of the Company. All equity awards, which have an exercise price, are granted at market value on the date of grant. Restricted stock units (RSU) are awarded at market but do not have an exercise price that must be paid to exercise the RSU. The Compensation Committee is charged with the responsibility for administering the Equity Plans. The Compensation Committee is also charged with the responsibility, subject in certain circumstances to approval by the independent Directors of the entire Board, for awarding equity grants, including non-statutory stock options, RSUs and other types of awards allowed under the 2005 Plan.

Under the Equity Plans, options granted in 2005, 2004, and 2003 to employees were 259,463, 527,750 and 366,500, respectively. In addition, under the 2005 Plan 70,950 RSUs were awarded to employees in 2005.

401 (k) Excess Company Match

As described otherwise in this Proxy Statement, the Company maintains a 401 (k) Plan with the Company matching a certain portion of employee's contributions. All employees of the Company are encouraged to participate. The Chief Executive Officer and other executives participate in the same manner as all other employees, however, under Internal Revenue Code (IRC) limitations, the amount that the executives can contribute (and therefore the corresponding Company match) is limited such that the executives do not necessarily receive the same proportionate

benefit as all other employees. The Company has provided that the difference between what the executives would otherwise receive as a contribution into the Plan based on their eligible 401(k) compensation and the limit on that contribution should be paid to the executives as additional compensation each year. For 2005, the total amount paid in January 2006 for the excess Company match to the executives who were subject to the cap was \$20,904.

Executive Life Insurance Policies

Since 1984, the Company had provided its senior executives with a form of executive life insurance and since 1992 the Company had provided split dollar life insurance for the senior executives. Under the commonly used methodology for payment of premiums, it could have been deemed that some of the premium paid by the Company would have been considered a loan to the executive. Pending clarification and interpretation of the rules of the Internal Revenue Service and the Securities and Exchange Commission relative to the interpretation of this program, in 2003 and 2004, the Company changed its program such that these executive employees were charged with paying their own policy premiums. In March 2005, the previous split dollar life insurance policies were terminated and new executive life insurance policies were purchased. In 2005, the Company incurred expenses of \$66,600 for the executive group subject to this benefit.

Other Benefits

The Executive Officers are entitled to the same benefits coverage as all other employees such as health insurance, 125 Cafeteria Plan, reimbursement of ordinary and reasonable business expenses, and the like with the exception that certain of the executives receive a monthly automobile allowance. In 2005, the total amount the Company paid for automobile allowances for all executives was \$49,650.

Commencing in December 2005, the Company approved for certain senior executives an amount toward assisting those executives with financial planning services. The allowed amount is \$7,500 for Mr. Heinemann, \$5,000 for each Executive Vice President and \$2,500 for each Vice President. No payments have been made toward these services as of March 1, 2006.

The Company does not currently offer any deferred compensation program or supplemental executive retirement plan for or to its senior executives, although the Company is considering such a program in the future.

Chief Executive Officer

The Committee believes Mr. Heinemann has done an outstanding job of leading and managing the Company during a rapidly-changing period for the Company. In 2004, Mr. Heinemann, as interim Chief Executive Officer, was able to lead the Company without significant disruption in its business. Ultimately, Mr. Heinemann and the Board agreed to his being named permanent President and Chief Executive Officer thereby affording the Company minimal disruption and the services of a person already familiar with the Company and with an extensive industry background and, in particular, technical skills, knowledge and experience. In 2005, Mr. Heinemann has done an excellent job of continuing the momentum of the Company through: 1) management of the Company's growth in production and reserves and corresponding growth of the Company's operations, 2) the accomplishment of one of its key strategic goals of diversifying into additional core areas outside of California and specifically in the Rocky Mountains and Mid-Continent Region and in natural gas production through the culmination of several joint venture arrangements with industry partners in the Uinta Basin area, the acquisition of production in the Tri-State Niobrara Basin and other acquisitions within the same areas, building on the Company's core properties, and 3) ongoing expanded technical enhancement of the core California operations.

Upon Mr. Heinemann's appointment as full time President and Chief Executive Officer, the Company and Mr. Heinemann entered into a written Employment Agreement which provides for a Base Salary of \$375,000 and specifies Mr. Heinemann's eligibility for discretionary annual bonuses. The term of the Agreement is three years unless earlier terminated pursuant to its terms. In the event of a termination without cause, the Company shall pay Mr. Heinemann the lesser of two (2) years of his Base Salary or the Base Salary for the remainder of the term of the Agreement, provided that if the Company terminates the Agreement without cause in the third year of the term, the payment shall be one (1) year of Base Salary. In addition, the Company and Mr. Heinemann entered into a Salary Continuation Agreement payable upon a change of control comparable to that afforded to other senior executives pursuant to which the payment owed would be two times the total of Mr. Heinemann's then regular Base Salary and an amount equal to the average of his discretionary bonus received for the two fiscal years immediately prior

to the change of control. Mr. Heinemann's Employment Agreement and Salary Continuation Agreement were filed as an exhibit to the Company's Form 10-Q filed with the SEC on August 9, 2004. The Committee is evaluating revising the employment contracts of Mr. Heinemann and anticipates amended agreements will be entered into this calendar year. In 2004, Mr. Heinemann received a signing bonus of \$300,000 as well as a stock option grant of 100,000 stock options as an inducement for Mr. Heinemann to accept the position and in recognition of his foregoing other business opportunities.

Mr. Heinemann continues to maintain his residence in Texas, traveling frequently to the Company headquarters in California and to the Denver regional office, as well as frequent meetings in other locales on Company business. The Company pays for Mr. Heinemann's travel expenses and other appropriate business expenses. Mr. Heinemann does not receive an auto allowance as do other executives. Mr. Heinemann's compensation incentives are primarily derived from the Bonus Plan and the 2005 Plan. The ultimate value of the stock options and restricted stock units received and other equity incentives that may be granted in the future are directly related to the Company's current and future stock performance. In recognition of his and the Company's performance in 2005, in 2006, Mr. Heinemann was paid a cash bonus of \$500,000, his annual salary was increased to \$500,000 and on December 15, 2005 he was awarded 75,000 stock options and 10,000 restricted stock units each vesting 25% per year over four years.

For the period of April 1, 2004 to April 26, 2004, Mr. Heinemann served as Chairman of the Board for which he was paid an annual Director's fee at the rate of \$125,000 with no additional compensation for the meeting or quarterly fees that are paid to other non-employee Directors. Effective April 26, 2004 until June 16, 2004, Mr. Heinemann's compensation as interim President and interim Chief Executive Officer was equal to an annual salary of \$375,000 paid in the same manner as paid to all other employees with no additional compensation for the meeting or quarterly fees that are paid to non-employee Directors.

When the Committee considers any component of the Chief Executive Officer's total compensation, the aggregate amounts and mix of all the components, including accumulated (realized and unrealized) option gains and value of restricted stock unit awards are considered. As part of its decision making, the Committee does consider the relationship between each management level of compensation within the Company as it relates to other management levels.

Compliance with Section 162(m) of the Internal Revenue Code

The Company's policy with respect to compensation paid to its Executive Officers is, to the extent possible, to deduct compensation that qualifies under Section 162(m) of the IRC, as amended, as an expense. Section 162(m) of the IRC and related Treasury Department regulations restrict deductibility of executive compensation paid to the Company's Chief Executive Officer and each of the four other most highly compensated Executive Officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such Officers in any year and does not qualify for an exception under the statute or regulations. The Committee endeavors to maximize deductibility of compensation under Section 162(m) of the IRC to the extent practicable while maintaining a competitive, performance-based compensation program. However, tax consequences, including but not limited to tax deductibility, are subject to many factors (such as changes in the tax laws and regulations or interpretations thereof) that are beyond the control of either the Committee or the Company. In addition, the Committee believes that it is important for it to retain maximum flexibility in designing compensation programs that meet its stated objectives and fit within the Committee's guiding principles. For all of the foregoing reasons, the Committee, while considering tax deductibility as one of its factors in determining compensation, has not and will not limit compensation to those levels or types of compensation that will be deductible. The Committee will, of course, consider alternative forms of compensation, consistent with its compensation goals that preserve deductibility.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Eagle Creek Mining & Drilling, Inc.

Eagle Creek Mining & Drilling, Inc. (Eagle Creek), a California corporation, was a wholly-owned subsidiary of the Company's predecessor, Berry Holding Company, until it was spun off to the majority shareholders of the predecessor in 1984. On November 30, 1989, Eagle Creek purchased the assets of S&D Supply Company (S&D), a California partnership. S&D, a retail distributor of oilfield parts and supplies, is now a division of Eagle Creek. The five-year contract whereby the Company purchased oilfield parts and supplies from S&D at competitive prices expired November 30, 1999 and was not renewed. Even though the contract expired, based on competitive pricing, the Company continues to purchase oilfield parts and supplies from S&D. The amounts paid to S&D in 2005, 2004 and 2003 were \$890,919, \$635,552 and \$352,873, respectively. Mr. Bush is a director of Eagle Creek and collectively Mr. Bush and his immediate family, Mr. Busch and his immediate family and Mr. Berry and his immediate family own more than 10% but less than 30% of the stock of Eagle Creek.

Victory Settlement Trust

In connection with the reorganization of the Company in 1985, a shareholder of Berry Holding Company (BHC), Victory Oil Company (Victory), a California partnership, brought suit against Berry Holding Company (one of Berry's predecessor companies prior to the reorganization in 1985) and all of its Directors and Officers and certain significant shareholders seeking to enjoin the reorganization. As a result of the reorganization, Victory's shares of BHC stock were converted into shares of Berry Common Stock representing approximately 9.7% of the shares of Berry Common Stock outstanding immediately subsequent to the reorganization. In 1986, Berry and Victory, together with certain of its affiliates, entered into the Instrument for Settlement of Claims and Mutual Release (the Settlement Agreement).

The Settlement Agreement provided for the exchange (and retirement) of all shares of Common Stock of Berry held by Victory and certain of its affiliates for certain assets (the Settlement Assets) conveyed by Berry to Victory. The Settlement Assets consisted of (i) a 5% overriding royalty interest in the production removed or sold from certain real property situated in the Midway-Sunset field which is referred to as the Maxwell property (Maxwell Royalty) and (ii) a parcel of real property in Napa, California.

The shares of BHC originally acquired by Victory and the shares of Berry Common Stock issued to Victory in exchange for the BHC Stock in the reorganization (the Victory Shares) were acquired subject to a legend provision designed to carry out certain provisions of the Will of Clarence J. Berry, the founder of Berry's predecessor companies. The legend enforces an Equitable Charge (the Equitable Charge) which requires that 37.5% of the dividends declared and paid on such shares from time to time be distributed to a group of lifetime income beneficiaries (the B

Group).

As a result of the Settlement Agreement, the B Group was deprived of the distributions related to the stock that they would have received on the Victory Shares under the Equitable Charge. In order to adequately protect the interests of the B Group, Berry executed a Declaration of Trust (the Victory Settlement Trust). In recognition of the obligations of Berry and Victory with respect to the Equitable Charge, Victory agreed in the Settlement Agreement to pay to Berry in its capacity as trustee under the Victory Settlement Trust, 20% of the 5% Maxwell Royalty (Maxwell B Group Payments). The Maxwell B Group Payments will continue until the death of the last surviving member of the B Group, at which time the payments will cease and the Victory Settlement Trust will terminate. There is one surviving member of the B Group.

Under the Settlement Agreement, Berry agreed to guarantee that the B Group will receive the same distributions under the Equitable Charge that they would have received had the Victory shares remained as issued and outstanding shares. Accordingly, when Berry declares and pays dividends on its capital stock, it is obligated to calculate separately the applicable distribution (the Trust Payment). Berry will make payments from the Victory Settlement Trust to the surviving member of the B Group, which payments may constitute all or a part of the Trust Payment in March and September of each year. Such payments will be made to the surviving member of the B Group for the remainder of his life. Typically, the Maxwell B Group Payments have contributed to a portion or all of the Trust Payment. Pursuant to the Settlement Agreement, Berry paid \$186,325 to the Victory Settlement Trust in 2005.

**PROPOSAL NO. 2 AMENDMENT OF THE RESTATED
CERTIFICATE OF INCORPORATION TO INCREASE THE
NUMBER OF AUTHORIZED SHARES OF CAPITAL STOCK**

The Board of Directors of the Company has adopted a resolution recommending to the shareholders the adoption of an amendment of the Restated Certificate of Incorporation of the Company to increase the authorized number of shares of Class A Common Stock, \$.01 par value, from 50,000,000 to 100,000,000 and the authorized number of shares of Class B Stock, \$.01 par value, from 1,500,000 to 3,000,000. To reflect the increase, Article Fourth (a) of the Company's Restated Certificate of Incorporation would be amended to read in its entirety as follows:

Fourth: (a) The total number of shares of stock which the Corporation shall have authority to issue is one hundred five million shares, consisting of one hundred million shares of Class A Common Stock (Class A Stock) having par value of \$.01 per share, three million shares of Class B Stock having par value of \$.01 per share, and two million shares of Preferred Stock having a par value of \$.01 per share. The Class A Stock and Class B Stock are sometimes collectively referred to herein as the Capital Stock.

If the proposed amendment is approved by the shareholders, the Company intends to file a complete restatement, incorporating the proposed amendment, of the Company's Restated Certificate of Incorporation as soon as practicable following the Annual Meeting. The certificate authorizes the Board of Directors, without further shareholder action, to provide for the issuance from time to time of authorized but unissued shares of the Capital Stock of the Company and to determine and approve the consideration for which shares are to be issued and other terms of the offering.

Additionally, on March 1, 2006, the Board of Directors declared a contingent 2-for-1 stock split in the form of a stock dividend. If, and only if, the proposed amendment to the Company's Restated Certificate of Incorporation, is approved by the shareholders at the Annual Meeting, and the number of shares of both the Class A Common Stock and Class B Stock authorized is thereby increased to 103,000,000, the additional shares will be distributed on June 2, 2006 to record holders of the Capital Stock as of the close of business on May 17, 2006. Pursuant to the Company's Restated Certificate of Incorporation, any split of the Class A Common Stock, \$.01 par value, must be accompanied by a proportionate split of the Class B Stock, \$.01 par value. Therefore, only one resolution has been submitted to the shareholders authorizing the increase in the authorized number of shares of the Class A Common Stock, \$.01 par value and the Class B Stock, \$.01 par value.

As of March 20, 2006, 21,097,288 shares of Class A Common Stock and 898,892 shares of Class B Stock were outstanding. An additional 4,036,277 shares of Class A Common Stock are reserved for issuance under the Company's Equity Plans and for issuance on conversion of the Class B Stock into Class A Common Stock and 250,000 shares are reserved for use under the Company's Rights Agreement dated December 8, 1999. Shares of Class A Common Stock and Class B Stock are each entitled to one vote and 95% of one vote, respectively. Each share of Class B Stock is entitled to a \$1.00 per share preference in the event of liquidation or dissolution. Further, each share of Class B Stock is convertible into one share of Class A Common Stock at the option of the holder. The Class A Common Stock and Class B Stock do not have preemptive rights.

In addition to enabling the contingent 2-for-1 stock split in the form of a stock dividend, the proposed additional shares will enhance the Company's flexibility in connection with possible future actions, such as stock splits, stock dividends, acquisitions of property and securities of

other companies, financings, and other corporate purposes. The Board of Directors will determine whether, when and on what terms the issuance of shares of Class A Common Stock or Class B Stock may be warranted in connection with any of the foregoing purposes. The Board of Directors believes that it is beneficial to the Company to have the additional shares available for such purposes without delay or the necessity of a special meeting of shareholders. Other than the contingent 2-for-1 stock split and the obligations referred to above for which shares of Class A Common Stock have already been reserved, the Company has no immediate plans, arrangements, commitments or understandings with respect to the issuance of any of the additional shares of Common Stock which would be authorized by the proposed amendment. If the proposed amendment is approved by the shareholders, the additional shares will be available for issuance from time to time without further action by the shareholders (unless required by the Company's Certificate of Incorporation, applicable law, regulatory agencies or by the rules of any stock exchange on which the Company's securities may then be listed) and without first offering those shares to the shareholders. The issuance of Common Stock, or securities convertible into Common Stock, on other than a pro-rata basis would result in the dilution of a present shareholder's interest in the Company.

This proposal is not made in response to any effort of which the Company is aware to accumulate its stock or to obtain control of the Company nor does the Company intend to use the additional shares of Capital Stock to oppose a hostile takeover attempt or to delay or prevent changes in control of Management. Under certain circumstances, however, such unissued shares could be used to create obstacles or to frustrate persons seeking to affect a takeover or otherwise gain control of the Company with a view to instituting a merger, sale of all or any part of the Company's assets, or other similar transaction which may not be in the best interests of the shareholders. As of this date, the Company is unaware of any pending or threatened efforts to acquire control of the Company.

In considering this proposal, shareholders should review the information set forth in the Company's Annual Report to shareholders for the fiscal year ended December 31, 2005 (the Annual Report) and the Company's financial statements, related notes, supplemental information and the report of the independent registered public accounting firm thereon set forth in pages 42 through 67 of the Annual Report, all of which are incorporated herein by reference.

The adoption of this amendment will require the affirmative vote of a majority of the outstanding Class A Common Stock and Class B Stock entitled to vote, voting together as a single class. Provision is made on the form of proxy for shareholders to vote FOR or AGAINST or to

ABSTAIN from voting on, the adoption of this proposed amendment. The proxies solicited hereby will be voted to authorize such increase and to adopt such amendment to the Company's Restated Certificate of Incorporation unless the shareholder specifies otherwise. However, the New York Stock Exchange precludes brokers from exercising voting discretion on certain proposals without specific instructions from the beneficial owner. This results in a broker non-vote on such a proposal. A broker non-vote is counted as present for purposes of determining the presence or absence of a quorum and has the effect of a negative vote when a majority of the voting power of the issued and outstanding shares is required for approval of a particular proposal. Pursuant to the rules of the New York Stock Exchange, brokers will have discretion to vote on this proposal presented at this meeting.

The reported last sale price of the Common Stock on the composite tape on March 20, 2006 was \$67.49 per share. The book value of the Capital Stock at December 31, 2005 was \$28.87 per share.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE AMENDMENT OF THE RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF CLASS A COMMON STOCK AND CLASS B STOCK.
