FORM 6-K

On July 9, 2004, SAP Aktiengesellschaft Systeme, Anwendungen, Produkte in der Datenverarbeitung, a stock corporation organized under the laws of the Federal Republic of Germany (SAP), issued a press release (the Press Release) pre-announcing SAP s financial results for the second quarter ended June 30, 2004. The Press Release is attached as Exhibit 99.1 hereto and incorporated by reference herein.

The press release discloses pro forma operating income, which is considered a non-GAAP financial measure. Generally, a non-GAAP financial measure is a numerical measure of a company s performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. Pro forma operating income excludes acquisition related charges and settlements of stock-based compensation plans as well as stock-based compensation expenses. Management believes that this pro forma measure provides supplemental meaningful information to the investor to fully assess our financial performance of the core operations. Management excludes stock-based compensation expenses because we have no direct influence over the actual expense of these awards once we enter into Stock-Based Compensation Plans. However this measure should be considered in addition to, and not as a substitute for, or superior to, operating income, or other measures of financial performance prepared in accordance with GAAP.

As used herein, GAAP refers to generally accepted accounting principles in the United States.

Any statements contained in this document that are not historical facts are forward-looking statements as defined in the U.S. Private Securities Litigation Reform Act of 1995. Words such as anticipate, believe, estimate, expect, forecast, intend, may, plan, project, predict, should and will and similar expressions as they relate to SA to identify such forward-looking statements. SAP undertakes no obligation to publicly update or revise any forward-looking statements. All forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. The factors that could affect SAP s future financial results are discussed more fully in SAP s filings with the U.S. Securities and Exchange Commission (the SEC), including SAP s most recent Annual Report on Form 20-F for 2003 filed with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates.
