VIRTRA SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

1.

Basis of Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the U.S. Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2002. They do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, except as disclosed herein, there has been no material change in the information disclosed in the notes to the financial statements for the year ended December 31, 2002 included in the Company's Form 10-KSB and Form DEF 14A filed with the Securities

and Exchange Commission. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been included. Operating results for the interim periods are not necessarily indicative of the results that may be expected for the respective full year.

2.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ from those estimates.

3.

Income Taxes

The difference between the 34% federal statutory income tax rate and amounts shown in the accompanying interim consolidated financial statements is primarily attributable to an increase in the valuation allowance applied against the tax benefit from the future utilization of net operating loss carryforwards.

4.

Subsequent Event

On April 30, 2003, VirTra Systems, Inc. (the Company) entered into an agreement to sell its contracts and the assets used in its theme park operations for \$120,000, payable in four equal installments of \$30,000 upon signing of the term sheet; \$30,000 on April 30, 2003; \$30,000 on May 31, 2003; and \$30,000 on June 30, 2003. The transaction resulted in a loss on sale of assets of approximately \$35,000.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The statements contained in this Report that are not historical are forward-looking statements, including statements regarding our expectations, intentions, beliefs or strategies regarding the future. Forward-looking statements include our statements regarding liquidity, anticipated cash needs, and availability and anticipated expense levels. All forward-looking statements included in this Report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statement. It is important to note that our actual results could differ materially from those in such forward-looking statements. The following discussion and analysis should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Report.

Overview

Effective May 6, 2002, our name was changed from GameCom, Inc. to VirTra Systems, Inc., pursuant to authority granted to the board of directors by the shareholders at its September, 2001 meeting.

Effective September, 2001, we completed the acquisition of Ferris Industries, Inc., a leading developer and operator of virtual reality devices. Ferris designed, developed, and distributed technically-advanced products for the entertainment, simulation, promotion, and education markets. Its virtual reality (VR) devices are computer-based and allow people to view and manipulate graphical representations of physical reality. The acquisition provided us with a wider array of products within our industry, an experienced management team, an existing revenue stream, and established distribution channels. Until we acquired Ferris, we had devoted substantially all of our efforts to implementing our `Net GameLink™ product, an interactive entertainment system designed to allow a number of players to compete with one another in a game via an intranet or the Internet. We intend to continue development and deployment of that entertainment system while at the same time expanding Ferris' business. Post-merger, the anticipated deployment of our existing virtual reality technology is anticipated to be highly profitable.

The Ferris acquisition was accounted for as a pooling of interests. Ferris was much larger than GameCom in terms of assets, and had substantial revenues whereas GameCom had essentially no revenues at the time of the acquisition. As a result, the discussion below relates in major part to the former Ferris operations rather than GameCom's.

Future revenues and profits will depend upon various factors, including market acceptance of our two advanced training systems, and the success of our continued sales to the advertising/promotion market. Our anticipated entry into the training/simulation market was advanced by the aftermath of September 11, 2001. We unveiled our initial product in this market, the IVR-p™ advanced training simulator, in December, and we have recently conducted numerous demonstrations of the IVR-p™ in Washington, D.C. We remain in advanced discussions with representatives of Homeland Security regarding our technology, and our capabilities in the detection and mitigation of risks; in fact, we have recently learned that one federal protective agency has budgeted to buy several of our advanced systems upon the agency's approval of the applicable prototype. There can be no assurances that these advanced discussions will be fruitful or that the prototype will be satisfactory.

We face all of the risks, expenses, and difficulties frequently encountered in connection with the expansion and development of a business, difficulties in maintaining delivery schedules if and when volume increases, the need to develop support arrangements for systems at widely dispersed physical locations, and the need to control operating and general and administrative expenses. While the Ferris acquisition provided an established stream of revenues and historically favorable gross margins, Ferris had not yet generated a profit, and substantial additional capital, or major highly-profitable custom applications, will be needed if those operations are to become profitable.

Results of Operations

Three Months Ended March 31, 2003 Compared to Three Months Ended March 31, 2002

Three major factors affected our results of operations for the three months ended March 31, 2003, compared to the corresponding period of 2002. First, revenues increased. Second, general and administrative expense decreased. Finally, interest expense and finance charges also decreased.

Revenues from both of our historic virtual reality product lines -- theme parks and arcades and custom applications -- are somewhat unpredictable. Theme park and arcade revenues are affected by both the overall traffic at facilities of this type and by the extent to which we are able to provide new and attractive content to attract more users and increase repeat business. Custom applications tend to consist of a few large projects at any time, and the stage of completion of any particular project can significantly affect revenue. We had revenue of \$393,806 for the three months ended March 31, 2003, compared to \$207,101 for the corresponding three months of 2002. Revenue from theme parks and arcades declined primarily because of a significant national decline in theme park attendance, and because we did not substantially update the content of our virtual reality systems at these facilities during 2002 or 2003. Revenue from custom applications and other sources increased. The main components of this item are revenue from the recently announced and completed contract with Shell/Pennzoil for a promotional virtual reality project, as well as the initial revenue from the recently-announced *Red Baron® 3-D Flying Adventure™*. Cost of sales and services increased almost directly in proportion to the increased revenue from custom applications. General and administrative costs of \$325,330 for the three months ended March 31, 2003, compared to \$433,576 for the three months ended March 31, 2002, decreased primarily due to a reduction in professional and consulting fees, and management's efforts

to reduce general overhead expense.

Interest expense and finance charges decreased to \$228,422 for the three months ended March 31, 2003, compared to \$480,746 for the corresponding period of 2002, largely because of a significant reduction in common shares issued as interest or financing fees, and because the debt issuance costs on a majority of the product financing arrangements have now been fully amortized.

Liquidity and Plan of Operations

As of March 31, 2003 our liquidity position remained precarious. However, our recent increase in revenue from custom applications for the advertising/promotional market has given us some breathing room. As of March 31, 2003 we had current liabilities of \$9,375,286, including \$5,426,982 in obligations under the lease financing for the virtual reality systems formerly utilized in our amusement applications, \$1,214,491 in accounts payable, and short-term notes payable of \$859,106, some of which were either demand indebtedness or were payable at an earlier date and were in default. As of March 31, 2003 there were only \$100,846 in current assets available to meet those liabilities. We will be able to continue operations only if holders of our short-term notes and lease obligations continue to forebear enforcement of those obligations.

On July 12, 2002, we entered into an agreement with Dutchess Private Equities, L.P., pursuant to which Dutchess and other investors participated in the private placement of \$450,000.00 in convertible debentures, as well as a private equity line of \$5,000,000.00 over the next two years. Registration of the shares to be issued under the terms of the agreement was accomplished pursuant to the terms of an SB-2 filed with the Securities and Exchange Commission on August 12, 2002, and which became effective on September 2, 2002. Dutchess has fully funded the debentures.

The Dutchess private equity line may not be a viable funding mechanism, as the price and volume of trading in our shares may be too low to make that source of financing attractive. To date we have met our capital requirements by acquiring needed equipment under non-cancelable leasing arrangements, through capital contributions, loans from principal shareholders and officers, certain private placement offerings, and the Dutchess convertible debentures. For the three months ended March 31, 2003, the net loss was (\$320,459). Approximately \$210,225 of the loss was attributable to non-cash charges for depreciation and amortization, amortization of interest and debt issuance costs, payment in common stock of financing fees and interest, and increases in accounts payable and accrued liabilities. After taking into account the non-cash items included in that loss, our cash requirements were approximately \$130,000. To cover these cash requirements, we utilized our cash on hand in the sum of \$98,442, and increased our book overdraft by \$31,585.

The opinion of our independent auditor for each of the last two fiscal years expressed substantial doubt as to our ability to continue as a going concern. We will either need substantial additional capital, or to be successful with lucrative custom application projects in the promotional/advertising markets, or for our entry into the training/simulation market to be successful so as to generate profits to fund the company. We may need additional financing in order to carry out our expansion plans. Based upon our anticipated increase in the stock's trading volume following our entry into the training/simulation market, management believes that the Dutchess financing will allow us to continue our operations for at least the next 12 months, provided holders of our short-term notes and equipment lease obligations continue to give us the breathing room necessary for our new applications to make significant contributions to revenue.

Item 3.

Controls and Procedures

Based upon an evaluation performed within 90 days of this report, our CEO and CFO has concluded that our disclosure controls and procedures are effective to ensure that material information relating to our company is made known to management, including the CEO and CFO, particularly during the period when our periodic reports are being prepared, and that our internal controls are effective to provide reasonable assurance that our financial statements are fairly presented in conformity with generally accepted accounting principles.

In accord with SEC requirements, the CEO and CFO notes that, since the date of his evaluation to the date of this Quarterly Report, there have been no significant changes in internal controls or in other factors that could significantly affect internal controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

On May 8, 2003, we filed a declaratory judgment lawsuit in the 348th state district court of Tarrant County, Texas against Legg Mason Wood Walker Incorporated and the Depository & Clearing Corporation, now pending as cause number 348-198792-03. In this suit, we refer to the district court's prior ruling that our cancellation of shares of the company's common stock formerly in the name of William E. K. Hathaway II c/o Olympic Holdings, L.L.C. was proper, and in this suit we seek a further judicial determination that Hathaway's subsequent endorsement of his certificate to these companies was ineffective, as the certificate was no longer genuine and could not be registered, and further due to other alleged irregularities, resulting in our having no liability to these companies.

Item 4. Submission of Matters to a Vote of Security Holders

N/A

Item 5. Other Information

On May 6, 2003, we sold our amusement/theme park operations, formerly known as our *VR Zones*, to Global VR for a negotiated cash price of \$120,000. This sale is designed to allow us to focus our attention on the larger and potentially more lucrative training/simulation market.

VIRTRA SYSTEMS, INC.

UNAUDITED PROFORMA FINANCIAL STATEMENTS

On April 30, 2003, VirTra Systems, Inc. (the Company) entered into an agreement to sell its contracts and the assets used in its theme park operations for \$120,000 payable in four equal installments of \$30,000 upon signing of the term sheet; \$30,000 on April 30, 2003; \$30,000 on May 31, 2003; and \$30,000 on June 30, 2003. The following Unaudited Proforma Balance Sheet as of March 31, 2003 gives effect to the transaction as if it had occurred at that date. The Unaudited Proforma Statement of Operations for the three months ended March 31, 2003 and the year ended December 31, 2002 give effect to the transaction as if it had occurred on January 1, 2002.

The Unaudited Proforma Financial Statements are presented for informational purposes only and are not necessarily indicative of the results of operations that would have been achieved had the transaction been completed at January 1, 2002, nor are they indicative of the Company's future results of operations.

The Unaudited Proforma Financial Statements should be read in conjunction with the historical financial statements of the Company and related notes thereto.

VIRTRA SYSTEMS, INC.

NOTES TO UNAUDITED PROFORMA FINANCIAL STATEMENTS

1.

Basis of Presentation

On April 30, 2003, VirTra Systems, Inc. (the Company) entered into an agreement to sell its contracts and the assets used in its theme park operations for \$120,000 payable in four equal installments of \$30,000 upon signing of the term sheet; \$30,000 on April 30, 2003; \$30,000 on May 31, 2003; and \$30,000 on June 30, 2003. The following Unaudited Proforma Balance Sheet as of March 31, 2003 gives effect to the transaction as if it had occurred at that date. The Unaudited Proforma Statement of Operations for the three months ended March 31, 2003 and the year ended December 31, 2002 give effect to the transaction as if it had occurred on January 1, 2002.

The Company believes that the assumptions used in preparing the unaudited proforma financial statements provide a reasonable basis for presenting all of the significant effects of the sale of the assets used in its theme park operations and that the proforma adjustments give effect to those assumptions in the Unaudited Proforma Financial Statements.

2.

Earnings Per Share

Net loss per share of common stock was computed by dividing the net income available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Due to the net loss, all of the common stock equivalents were excluded from this calculation due to their anti-dilutive effect.

3.

Proforma Adjustments

Proforma adjustments to the Unaudited Proforma Balance Sheet are as follows:

a.

Reflects the note receivable established for the purchase of the assets.

b.

Reflects the disposition of the assets sold and related accumulated depreciation.

c.

Reflects the loss incurred on sale of the assets.

Proforma adjustments to the Unaudited Proforma Statements of Operations are as follows:

a.

Reflects the removal of the revenue, cost of sales and general and administrative expenses related to the theme park operations.

b.

Reflects the effect on net loss and loss per share upon removal of the theme park operations.

Item 6. Exhibits and Reports on Form 8-K.

(a) Exhibits

2 Asset Purchase Agreement

99.1 Chief Executive Officer and Chief Financial Officer - Sarbanes-Oxley Act Section 906 Certification

(b) We have not filed any reports on Form 8-K during the last quarter of the period covered by this report.

SIGNATURES

Pursuant to the requirements of the Securities and Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Chief Executive Officer and Chief Financial Officer - Sarbanes-Oxley Act Section 302 Certification

I, L. Kelly Jones, certify that:

Edgar Filing: VIRTRA SYSTEMS INC - Form 10QSB

1. I have reviewed this quarterly report on Form 10-QSB of Virtra Systems, Inc.;

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;

 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and

 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
