BED BATH & BEYOND INC. AND SUBSIDIARIES  
Notes to Consolidated Financial Statements  
(unaudited)

1) Basis of Presentation

The accompanying consolidated financial statements have been prepared without audit. In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting of only normal recurring accruals and elimination of intercompany balances and transactions) necessary to present fairly the financial position of Bed Bath & Beyond Inc. and subsidiaries (the "Company") as of June 1, 2013 and March 2, 2013 and the results of its operations, comprehensive income and cash flows for the three months ended June 1, 2013 and May 26, 2012, respectively.

The accompanying unaudited consolidated financial statements are presented in accordance with the requirements for Form 10-Q and consequently do not include all the disclosures normally required by U.S. generally accepted accounting principles ("GAAP"). Reference should be made to Bed Bath & Beyond Inc.'s Annual Report on Form 10-K for the fiscal year ended March 2, 2013 for additional disclosures, including a summary of the Company's significant accounting policies, and to subsequently filed Forms 8-K.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under U.S. generally accepted accounting principles and therefore is not a reportable segment.

2) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., "the exit price") in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The hierarchy for inputs used in measuring fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs are inputs that reflect a company's judgment concerning the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.
- Level 2 – Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

As of June 1, 2013, the Company's financial assets utilizing Level 1 inputs include long term investment securities traded on active securities exchanges. The Company did not have any financial assets utilizing Level 2 inputs. Financial assets utilizing Level 3 inputs included long term investments in auction rate securities consisting of preferred shares of closed end municipal bond funds (See "Investment Securities," Note 4).

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the Company's degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or liability must be classified in its entirety based on the lowest level of input that is significant to the measurement of fair value.

---

Valuation techniques used by the Company must be consistent with at least one of the three possible approaches: the market approach, income approach and/or cost approach. The Company's Level 1 valuations are based on the market approach and consist primarily of quoted prices for identical items on active securities exchanges. The Company's Level 3 valuations of auction rate securities, which had temporary valuation adjustments of approximately \$2.4 million and \$2.0 million as of June 1, 2013 and March 2, 2013, respectively, are based on the income approach, specifically, discounted cash flow analyses which utilize significant inputs based on the Company's estimates and assumptions. As of June 1, 2013, the inputs used in the Company's discounted cash flow analysis included current coupon rates ranging from 0.20% to 0.25%, an estimated redemption period of 5 years and a discount rate of 1.21%. The discount rate was based on market rates for risk-free tax-exempt securities, as adjusted for a risk premium to reflect the lack of liquidity of these investments. Assuming a higher discount rate, a longer estimated redemption period and lower coupon rates would result in a lower fair market value. Conversely, assuming a lower discount rate, a shorter estimated redemption period and higher coupon rates would result in a higher fair market value.

The following tables present the valuation of the Company's financial assets as of June 1, 2013 and March 2, 2013, measured at fair value on a recurring basis by input level:

## Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, investment securities, accounts payable and certain other liabilities. The Company's investment securities consist primarily of U.S. Treasury securities, which are stated at amortized cost, and auction rate securities, which are stated at their approximate fair value. The book value of all financial instruments is representative of their fair values.

## 3) Cash and Cash Equivalents

Included in cash and cash equivalents are credit and debit card receivables from banks, which typically settle within five business days, of \$88.1 million and \$87.8 million as of June 1, 2013 and March 2, 2013, respectively.

## 4) Investment Securities

The Company's investment securities as of June 1, 2013 and March 2, 2013 are as follows:

(in millions)	June 1, 2013	March 2, 2013
Available-for-sale securities:		
Long term	\$48.6	\$49.0
Trading securities:		
Long term	32.2	28.3
Held-to-maturity securities:		
Short term	481.8	449.9
Total investment securities	\$562.6	\$527.2

## Auction Rate Securities

As of June 1, 2013 and March 2, 2013, the Company's available-for-sale investment securities represented approximately \$51.0 million par value of auction rate securities, less temporary valuation adjustments of approximately \$2.4 million and \$2.0 million, respectively. Since these valuation adjustments are deemed to be temporary, they are recorded in accumulated other comprehensive loss, net of a related tax benefit, and did not affect the Company's net earnings. These securities at par are invested in preferred shares of closed end municipal bond funds, which are required, pursuant to the Investment Company Act of 1940, to maintain minimum asset coverage ratios of 200%. All of these available-for-sale investments carried triple-A credit ratings from one or more of the major credit rating agencies as of June 1, 2013 and March 2, 2013, and none of them are mortgage-backed debt obligations. As of June 1, 2013 and March 2, 2013, the Company's available-for-sale investments have been in a continuous unrealized loss position for 12 months or more, however, the Company believes that the unrealized losses are temporary and reflect the investments' current lack of liquidity. Due to their lack of liquidity, the Company classified approximately \$48.6 million and \$49.0 million of these investments as long term investment securities at June 1, 2013 and March 2, 2013, respectively.

## U.S. Treasury Securities

As of June 1, 2013 and March 2, 2013, the Company's short term held-to-maturity securities included approximately \$481.8 million and approximately \$449.9 million, respectively, of U.S. Treasury Bills with remaining maturities of less than one year. These securities are stated at their amortized cost which approximates fair value, which is based on quoted prices in active markets for identical instruments (i.e., Level 1 valuation).

Long Term Trading Investment Securities

The Company's long term trading investment securities, which are provided as investment options to the participants of the nonqualified deferred compensation plan, are stated at fair market value. The values of these trading investment securities included in the table above are approximately \$32.2 million and \$28.3 million as of June 1, 2013 and March 2, 2013, respectively.

---

## 5) Property and Equipment

As of June 1, 2013 and March 2, 2013, included in property and equipment, net is accumulated depreciation and amortization of approximately \$1.9 billion and \$1.8 billion, respectively.

## 6) Stock-Based Compensation

The Company measures all employee stock-based compensation awards using a fair value method and records such expense, net of estimated forfeitures, in its consolidated financial statements. Currently, the Company's stock-based compensation relates to restricted stock awards and stock options. The Company's restricted stock awards are considered nonvested share awards.

Stock-based compensation expense for the three months ended June 1, 2013 and May 26, 2012 was approximately \$14.8 million (\$9.3 million after tax or \$0.04 per diluted share) and approximately \$12.8 million (\$8.5 million after tax or \$0.04 per diluted share), respectively. In addition, the amount of stock-based compensation cost capitalized for the three months ended June 1, 2013 and May 26, 2012 was approximately \$0.4 million and \$0.3 million, respectively.

## Incentive Compensation Plans

The Company currently grants awards under the Bed Bath & Beyond 2012 Incentive Compensation Plan (the "2012 Plan"), which amended and restated the Bed Bath & Beyond 2004 Incentive Compensation Plan (the "2004 Plan"). The 2012 Plan includes an aggregate of 43.2 million common shares authorized for issuance. Outstanding awards that were covered by the 2004 Plan continue to be in effect under the 2012 Plan.

The 2012 Plan is a flexible compensation plan that enables the Company to offer incentive compensation through stock options (whether nonqualified stock options or incentive stock options), restricted stock awards, stock appreciation rights, performance awards and other stock based awards, including cash awards. Under the 2012 Plan, grants are determined by the Compensation Committee for those awards granted to executive officers and by an appropriate committee for all other awards granted. Awards of stock options and restricted stock generally vest in five equal annual installments beginning one to three years from the date of grant.

The Company generally issues new shares for stock option exercises and restricted stock awards. As of June 1, 2013, unrecognized compensation expense related to the unvested portion of the Company's stock options and restricted stock awards was \$33.6 million and \$153.2 million, respectively, which is expected to be recognized over a weighted average period of 3.4 years and 4.1 years, respectively.

## Stock Options

Stock option grants are issued at fair market value on the date of grant and generally become exercisable in either three or five equal annual installments beginning one year from the date of grant for options issued since May 10, 2010, and beginning one to three years from the date of grant for options issued prior to May 10, 2010, in each case, subject, in general to the recipient remaining in the Company's employ or service on specified vesting dates. Option grants expire eight years after the date of grant for stock options issued since May 10, 2004, and expire ten years after the date of grant for stock options issued prior to May 10, 2004. All option grants are nonqualified.

The fair value of the stock options granted was estimated on the date of the grant using a Black-Scholes option-pricing model that uses the assumptions noted in the following table.

Black-Scholes Valuation Assumptions (1)	Three Months Ended			
	June 1, 2013		May 26, 2012	
Weighted Average Expected Life (in years) (2)	6.6		6.5	
Weighted Average Expected Volatility (3)	29.27	%	31.06	%
Weighted Average Risk Free Interest Rates (4)	1.11	%	1.14	%
Expected Dividend Yield	-		-	

(1) Forfeitures are estimated based on historical experience.

(2) The expected life of stock options is estimated based on historical experience.

(3) Expected volatility is based on the average of historical and implied volatility. The historical volatility is determined by observing actual prices of the Company's stock over a period commensurate with the expected life of the awards. The implied volatility represents the implied volatility of the Company's call options, which are actively traded on multiple exchanges, had remaining maturities in excess of twelve months, had market prices close to the exercise prices of the employee stock options and were measured on the stock option grant date.

(4) Based on the U.S. Treasury constant maturity interest rate whose term is consistent with the expected life of the stock options.

Changes in the Company's stock options for the three months ended June 1, 2013 were as follows:

(Shares in thousands)	Number of Stock Options	Weighted Average Exercise Price
Options outstanding, beginning of period	5,006	\$ 42.32
Granted	563	69.78
Exercised	(577 )	38.92
Forfeited or expired	(2 )	37.79
Options outstanding, end of period	4,990	\$ 45.81
Options exercisable, end of period	3,195	\$ 39.38

The weighted average fair value for the stock options granted during the first three months of fiscal 2013 and 2012 was \$22.28 and \$23.06, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options outstanding as of June 1, 2013 was 4.1 years and \$113.4 million, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options exercisable as of June 1, 2013 was 2.9 years and \$92.3 million, respectively. The total intrinsic value for stock options exercised during the first three months of fiscal 2013 and 2012 was \$15.5 million and \$21.8 million, respectively.

Net cash proceeds from the exercise of stock options for the first three months of fiscal 2013 were \$22.5 million and the net associated income tax benefit was \$11.3 million.

#### Restricted Stock

Restricted stock awards are issued and measured at fair market value on the date of grant and generally become vested in five equal annual installments beginning one to three years from the date of grant, subject, in general, to the recipient remaining in the Company's employ or service on specified vesting dates. Vesting of restricted stock awarded to certain of the Company's executives is dependent on the Company's achievement of a performance-based test for the fiscal year of grant and, assuming achievement of the performance-based test, time vesting, subject, in general, to the executive remaining in the Company's employ on specified vesting dates. The Company recognizes compensation

expense related to these awards based on the assumption that the performance-based test will be achieved. Vesting of restricted stock awarded to the Company's other employees is based solely on time vesting.

Changes in the Company's restricted stock for the three months ended June 1, 2013 were as follows:

-11-

---

(Shares in thousands)	Number of Restricted Shares	Weighted Average Grant-Date Fair Value
Unvested restricted stock, beginning of period	4,063	\$ 45.98
Granted	706	69.54
Vested	(836 )	38.32
Forfeited	(22 )	53.79
Unvested restricted stock, end of period	3,911	\$ 51.83

#### 7) Shareholders' Equity

Between December 2004 and December 2012, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$7.450 billion of its shares of common stock. The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations. The Company also purchases shares of its common stock to cover employee related taxes withheld on vested restricted stock awards. In the first three months of fiscal 2013, the Company repurchased approximately 5.0 million shares of its common stock for a total cost of approximately \$324.4 million, bringing the aggregate total of common stock repurchased to approximately 116.2 million shares for a total cost of approximately \$5.4 billion since the initial authorization in December 2004. The Company has approximately \$2.1 billion remaining of authorized share repurchases as of June 1, 2013.

#### 8) Earnings Per Share

The Company presents earnings per share on a basic and diluted basis. Basic earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding. Diluted earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding, including the dilutive effect of stock-based awards as calculated under the treasury stock method.

Stock-based awards for the three months ended June 1, 2013 of approximately 1.5 million and for the three months ended May 26, 2012 of approximately 1.0 million were excluded from the computation of diluted earnings per share as the effect would be anti-dilutive.

#### 9) Lines of Credit

At June 1, 2013, the Company maintained two uncommitted lines of credit of \$100 million each, with expiration dates of September 1, 2013 and February 28, 2014, respectively. These uncommitted lines of credit are currently and are expected to be used for letters of credit in the ordinary course of business. During the first three months of fiscal 2013, the Company did not have any direct borrowings under the uncommitted lines of credit. Although no assurances can be provided, the Company intends to renew both uncommitted lines of credit before the respective expiration dates.

#### 10) Supplemental Cash Flow Information

The Company paid income taxes of \$76.7 million and \$72.8 million in the first three months of fiscal 2013 and 2012, respectively. In addition, the Company had interest payments of approximately \$2.4 million in the first three months of fiscal 2013. The amount of interest paid by the Company in the first three months of fiscal 2012 was not material.

The Company recorded an accrual for capital expenditures of \$27.4 million and \$23.1 million as of June 1, 2013 and May 26, 2012, respectively.

11) Acquisitions

On June 1, 2012, the Company acquired Linen Holdings, LLC (“Linen Holdings”), a distributor of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, food service, healthcare and other industries, for an aggregate purchase price of approximately \$108.1 million. The purchase price includes approximately \$24.0 million for tradenames and approximately \$40.2 million for goodwill. Linen Holdings is included within the Institutional Sales operating segment. In the first quarter of fiscal 2013, the Company has finalized the valuation of assets acquired and liabilities assumed.

-12-

---

Since the date of acquisition, the results of Linen Holdings' operations, which are not material, have been included in the Company's results of operations.

On June 29, 2012, the Company acquired Cost Plus, Inc. ("World Market"), a retailer selling a wide range of home decorating items, furniture, gifts, holiday and other seasonal items, and specialty food and beverages, for an aggregate purchase price of approximately \$560.5 million, including the payment of assumed borrowings of \$25.5 million under a credit facility. The acquisition was consummated by a wholly owned subsidiary of the Company through a tender offer and merger, pursuant to which the Company acquired all of the outstanding shares of common stock of World Market. World Market is included within the North American Retail operating segment.

In the first quarter of fiscal 2013, the Company has finalized the valuation of assets acquired and liabilities assumed. The following table summarizes the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition.

(in millions)	As of June 29, 2012
Current assets	\$ 222.0
Property and equipment and other non-current assets	132.4
Intangible assets	211.6
Goodwill	247.4
Total assets acquired	813.4
Accounts payable and other liabilities	(252.9 )
Borrowings under credit facility	(25.5 )
Total liabilities acquired	(278.4 )
Total net assets acquired	\$ 535.0

Included within intangible assets above is approximately \$196.5 million for tradenames, which is not subject to amortization. The tradenames and goodwill are not expected to be deductible for tax purposes.

Since the date of acquisition, the results of World Market's operations, which are not material, have been included in the Company's results of operations and no proforma disclosure of financial information has been presented.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

Bed Bath & Beyond Inc. and subsidiaries (the "Company") operates a chain of 1,478 retail stores under the names Bed Bath & Beyond ("BBB"), Christmas Tree Shops or andThat! (collectively, "CTS"), Harmon or Harmon Face Values (collectively, "Harmon"), buybuy BABY and World Market or Cost Plus World Market (collectively, "World Market"). The Company includes Linen Holdings, a distributor of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, food service, healthcare and other industries. (See Note 11 "Acquisitions" in the unaudited notes to the consolidated financial statements for information regarding the acquisitions of World Market and Linen Holdings). Additionally, the Company is a partner in a joint venture which operates three retail stores in Mexico under the name Bed Bath & Beyond.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under U.S. generally accepted accounting principles and therefore is not a reportable segment.

The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products. The Company's objective is to be a customer's first choice for products and services in the categories offered, in the markets in which the Company operates.

The Company's strategy is to achieve this objective through excellent customer service, an extensive breadth, depth and differentiated assortment and introduction of new merchandising offerings, supported by the continuous development and improvement of its infrastructure.

Operating in the highly competitive retail industry, the Company, along with other retail companies, is influenced by a number of factors including, but not limited to, general economic conditions including the housing market, relatively high unemployment and historically high commodity prices; the overall macroeconomic environment and related changes in the retailing environment; consumer preferences and spending habits; unusual weather patterns and natural disasters; competition from existing and potential competitors; evolving technology; and the ability to find suitable locations at acceptable occupancy costs and other terms to support the Company's expansion program. The Company cannot predict whether, when or the manner in which these factors could affect the Company's operating results.

For fiscal 2013, the results of operations include Linen Holdings and World Market from the beginning of the fiscal year. For fiscal 2012, the results of operations include Linen Holdings since the date of acquisition on June 1, 2012 and World Market since the date of acquisition on June 29, 2012.

The following represents an overview of the Company's financial performance for the periods indicated:

- For the three months ended June 1, 2013, the Company's net sales were \$2.612 billion, an increase of approximately 17.8% as compared with the three months ended May 26, 2012.
- Comparable store sales for the fiscal first quarter of 2013 increased by approximately 3.4% as compared with an increase of approximately 3.0% for the corresponding period last year.

A store is considered a comparable store when it has been open for twelve full months following its grand opening period (typically four to six weeks). Stores relocated or expanded are excluded from comparable store sales if the

change in square footage would cause meaningful disparity in sales over the prior period. In the case of a store to be closed, such store's sales are not considered comparable once the store closing process has commenced. Linen Holdings is excluded from the comparable store sales calculations and will continue to be excluded on an ongoing basis as long as it does not meet the above definition of comparable store sales. World Market is excluded from the comparable store sales calculations for the fiscal first quarter of 2013 and will be included commencing at the beginning of the fiscal third quarter of 2013.

- Gross profit for the three months ended June 1, 2013 was \$1.033 billion, or 39.5% of net sales, compared with \$887.2 million, or 40.0% of net sales, for the three months ended May 26, 2012.

-14-

---

- Selling, general and administrative expenses (“SG&A”) for the three months ended June 1, 2013 were \$709.9 million, or 27.2% of net sales, compared with \$573.8 million, or 25.9% of net sales, for the three months ended May 26, 2012.
- The effective tax rate for the three months ended June 1, 2013 was 37.3% compared with 33.8% for the three months ended May 26, 2012. The tax rate included discrete items of an approximate \$2.6 million net benefit and \$14.6 million net benefit, respectively, for the three months ended June 1, 2013 and May 26, 2012.
- For the three months ended June 1, 2013, net earnings per diluted share were \$0.93 (\$202.5 million), an increase of approximately 4.5%, as compared with net earnings per diluted share of \$0.89 (\$206.8 million) for the three months ended May 26, 2012. The increase in net earnings per diluted share for the three months ended June 1, 2013 is primarily the result of the impact of the Company’s repurchases of its common stock partially offset by the items described above.

During the three months ended June 1, 2013, the Company continued the integration of the two fiscal 2012 acquisitions as well as advancing initiatives such as: enhancing the omni channel experience for its customers by replacing both back end and customer facing systems; increasing the investment in people and systems to upgrade the Company’s data and analytics capabilities; the commencement of the initial phase of a new information technology data center to enhance the Company’s disaster recovery capabilities and support its overall information technology systems; and retrofitting energy saving equipment in the Company’s stores.

Capital expenditures for the three months ended June 1, 2013 and May 26, 2012 were \$65.0 million and \$70.8 million, respectively. The Company remains committed to making the required investments in its infrastructure to help position the Company for continued growth and success. The Company continues to review and prioritize its capital needs while continuing to make investments, principally for new stores, existing store improvements, information technology enhancements, including omni channel capabilities, and other projects whose impact is considered important to its future.

During the three months ended June 1, 2013 and May 26, 2012, the Company repurchased approximately 5.0 million and 4.6 million shares, respectively, of its common stock at a total cost of approximately \$324.4 million and \$306.3 million, respectively. Since the end of the fiscal first quarter of 2011, the Company has returned approximately 95% of its cash flows from operations to its shareholders through share repurchase programs.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long term objectives. For all of fiscal 2013, the Company expects that the total number of new store openings across all concepts will be in the mid-thirties. During the fiscal first quarter of 2013, the Company opened a total of eight new stores and closed one store.

## Results of Operations

### Net Sales

Since fiscal 2012 was a fifty-three week year, fiscal 2013 started a week later than fiscal 2012. The comparable store sales calendar compares the same calendar weeks. The table below summarizes by fiscal quarter the time period for the financial reporting calendar and the comparable store sales calendar.

Edgar Filing: BED BATH & BEYOND INC - Form 10-Q

Financial Reporting Calendar

Fiscal 2013 (fifty-two weeks)

Fiscal 2012 (fifty-three weeks)

First Quarter	March 3, 2013 - June 1, 2013	February 26, 2012 - May 26, 2012
Second Quarter	June 2, 2013 - August 31, 2013	May 27, 2012 - August 25, 2012
Third Quarter	September 1, 2013 - November 30, 2013	August 26, 2012 - November 24, 2012
Fourth Quarter	December 1, 2013 - March 1, 2014	November 25, 2012 - March 2, 2013

Comparable Store Sales Calendar

Fiscal 2013 (fifty-two weeks)

Fiscal 2012 (fifty-two weeks)

First Quarter	March 3, 2013 - June 1, 2013	March 4, 2012 - June 2, 2012
Second Quarter	June 2, 2013 - August 31, 2013	June 3, 2012 - September 1, 2012
Third Quarter	September 1, 2013 - November 30, 2013	September 2, 2012 - December 1, 2012
Fourth Quarter	December 1, 2013 - March 1, 2014	December 2, 2012 - March 2, 2013

Net sales for the three months ended June 1, 2013 were \$2.612 billion, an increase of \$393.8 million or approximately 17.8% over net sales of \$2.218 billion for the corresponding quarter last year. For the three months ended June 1, 2013, approximately 68% of the increase in net sales was attributable to the inclusion of World Market and Linen Holdings, approximately 24% of the increase was attributable to an increase in sales of comparable stores based upon the financial reporting calendar (not the comparable store sales calendar) and the remaining 8% of the increase was primarily attributable to an increase in the Company's new store sales.

For the three months ended June 1, 2013, comparable store sales for 1,169 stores represented \$2.289 billion of net sales and for the three months ended May 26, 2012, comparable store sales for 1,127 stores represented \$2.148 billion of net sales. The number of stores includes only those which constituted a comparable store for the entire respective fiscal period. The increase in comparable store sales, which excludes World Market and Linen Holdings, for the three months ended June 1, 2013 was approximately 3.4%, as compared with an increase of approximately 3.0% for the comparable period last year. The increase in comparable store sales for the fiscal first quarter of 2013 was due to increases in both the number of transactions and the average transaction amount.

Sales of domestics merchandise and home furnishings for the Company accounted for approximately 37% and 63% of net sales, respectively, for the three months ended June 1, 2013 and approximately 40% and 60% of net sales, respectively, for the three months ended May 26, 2012.

Gross Profit

Gross profit for the three months ended June 1, 2013 was \$1.033 billion, or 39.5% of net sales, compared with \$887.2 million, or 40.0% of net sales, for the three months ended May 26, 2012. The decrease in the gross profit margin as a

percentage of net sales for the three months ended June 1, 2013 was primarily attributed to an increase in coupons, due to increases in both the redemptions and the average coupon amount, and a shift in the mix of merchandise sold to lower margin categories.

#### Selling, General and Administrative Expenses

SG&A for the three months ended June 1, 2013 was \$709.9 million, or 27.2% of net sales, compared with \$573.8 million, or 25.9% of net sales, for the three months ended May 26, 2012. The increase in SG&A as a percentage of net sales for the three months ended June 1, 2013 was primarily due to relative increases in payroll and payroll-related items (including salaries and workers' compensation insurance) and advertising expenses. As a percentage of net sales, these expense items were higher due to the inclusion of the financial results of the acquisitions completed in the second quarter of fiscal 2012.

#### Operating Profit

Operating profit for the three months ended June 1, 2013 was \$323.1 million, or 12.4% of net sales, compared with \$313.4 million, or 14.1% of net sales, during the comparable period last year. The change in operating profit as a percentage of net sales was the result of the changes in gross profit margin and SG&A as a percentage of net sales as described above.

#### Interest Expense, net

Interest expense was \$0.2 million for the three months ended June 1, 2013 compared with \$1.1 million for the three months ended May 26, 2012.

#### Income Taxes

The effective tax rate for the three months ended June 1, 2013 was 37.3% compared with 33.8% for the three months ended May 26, 2012. The tax rate for the three months ended June 1, 2013 and May 26, 2012 included net benefits of approximately \$2.6 million and \$14.6 million, respectively, primarily due to the recognition of favorable discrete state tax items.

The Company expects continued volatility in the effective tax rate from quarter to quarter because the Company is required each quarter to determine whether new information changes the assessment of both the probability that a tax position will effectively be sustained and the appropriateness of the amount of recognized benefit.

#### Net Earnings

As a result of the factors described above, net earnings for the three months ended June 1, 2013 were \$202.5 million compared with \$206.8 million for the corresponding period in fiscal 2012.

#### Expansion Program

The Company is engaged in an ongoing expansion program involving the opening of new stores in both new and existing markets, the expansion or relocation of existing stores and the continuous review of strategic acquisitions.

As a result of this program, the Company operated 1,008 BBB stores, 266 World Market stores, 83 buybuy BABY stores, 73 CTS stores and 48 Harmon stores at the end of the fiscal first quarter of 2013, compared with 995 BBB stores, 68 buybuy BABY stores, 72 CTS stores and 45 Harmon stores at the end of the corresponding quarter last year. At June 1, 2013, Company-wide total store square footage, including the 266 World Market stores, was approximately 42.2 million square feet. Additionally, the Company is a partner in a joint venture which operated a total of three retail stores in Mexico under the name Bed Bath & Beyond.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long-term objectives. During the fiscal first quarter of 2013, the Company opened a total of eight new stores and closed one store. For all of fiscal 2013, the Company expects that the total number of new store openings across all concepts will be in the mid-thirties. The continued growth of the Company is dependent, in part, upon the Company's ability to execute its expansion program successfully.

#### Liquidity and Capital Resources

The Company has been able to finance its operations, including its expansion program, entirely through internally generated funds. For fiscal 2013, the Company believes that it can continue to finance its operations, including its expansion program, share repurchase program and planned capital expenditures entirely through existing and internally generated funds. The Company periodically reviews its alternatives with respect to optimizing its capital structure. Capital expenditures for fiscal 2013, principally for new stores, existing store improvements, information technology enhancements, including omni channel capabilities, and other projects are planned to be approximately \$350 million, subject to the timing and composition of the projects. Some of the initiatives included in capital expenditures for fiscal 2013 are: enhancing the omni channel experience for its customers through replacing both back end and customer facing systems, upgrading the Company's mobile sites and applications, enhancing network

communications in the stores and implementing point of sale improvements; building, equipping and staffing a new information technology data center to enhance disaster recovery capabilities and to support the Company's ongoing technology initiatives; and retrofitting energy saving equipment in the Company's stores.

Fiscal 2013 compared to Fiscal 2012

Net cash provided by operating activities for the three months ended June 1, 2013 was \$272.5 million, compared with \$272.4 million in the corresponding period in fiscal 2012. Year over year, the Company experienced an increase in cash provided by the net components of working capital (primarily merchandise inventories, partially offset by accounts payable), which was partially offset by a decrease in net earnings.

-17-

---

Retail inventory at cost per square foot was \$59.51 as of June 1, 2013, compared to \$60.63 as of May 26, 2012.

Net cash used in investing activities for the three months ended June 1, 2013 was \$96.7 million, compared with net cash provided by investing activities of \$76.4 million in the corresponding period of fiscal 2012. For the three months ended June 1, 2013, net cash used in investing activities was due to \$65.0 million of capital expenditures and \$31.8 million of purchases of investment securities, net of redemptions. For the three months ended May 26, 2012, net cash provided by investing activities was due to \$147.2 million of redemptions of investment securities, net of purchases, partially offset by \$70.8 million of capital expenditures.

Net cash used in financing activities for the three months ended June 1, 2013 was \$300.9 million, compared with \$276.8 million in the corresponding period of fiscal 2012. The increase in net cash used was primarily due to an increase in common stock repurchases of \$18.2 million and a \$3.7 million decrease in cash proceeds from the exercise of stock options.

#### Auction Rate Securities

As of June 1, 2013, the Company held approximately \$48.6 million of net investments in auction rate securities. Beginning in 2008, the auction process for the Company's auction rate securities failed and continues to fail. These failed auctions result in a lack of liquidity in the securities but do not affect the underlying collateral of the securities. All of these investments carry triple-A credit ratings from one or more of the major credit rating agencies. As of June 1, 2013, these securities had a temporary valuation adjustment of approximately \$2.4 million to reflect their current lack of liquidity. Since this valuation adjustment is deemed to be temporary, it was recorded in accumulated other comprehensive loss, net of a related tax benefit, and did not affect the Company's net earnings for the three months ended June 1, 2013. The Company will continue to monitor the market for these securities and will expense any permanent changes to the value of the remaining securities, if any, as they occur.

The Company does not anticipate that any continuing lack of liquidity in its auction rate securities will affect its ability to finance its operations, including its expansion program, share repurchase program, and planned capital expenditures. The Company continues to monitor efforts by the financial markets to find alternative means for restoring the liquidity of these investments. These investments will remain primarily classified as non-current assets until the Company has better visibility as to when their liquidity will be restored. The classification and valuation of these securities will continue to be reviewed quarterly.

#### Seasonality

The Company's sales exhibit seasonality with sales levels generally higher in the calendar months of August, November and December, and generally lower in February.

#### Critical Accounting Policies

See "Critical Accounting Policies" under Item 7 of the Company's Annual Report on Form 10-K for the fiscal year ended March 2, 2013 ("2012 Form 10-K"), filed with the Securities and Exchange Commission ("SEC") and incorporated by reference herein. There were no changes to the Company's critical accounting policies during the first three months of fiscal 2013.

#### Forward-Looking Statements

This Form 10-Q may contain forward-looking statements. Many of these forward-looking statements can be identified by use of words such as may, will, expect, anticipate, approximate, estimate, assume, continue, model, project, plan, and similar words and phrases. The Company's actual results and future financial condition may differ materially from

those expressed in any such forward-looking statements as a result of many factors. Such factors include, without limitation: general economic conditions including the housing market, a challenging overall macroeconomic environment and related changes in the retailing environment, consumer preferences and spending habits; demographics and other macroeconomic factors that may impact the level of spending for the types of merchandise sold by the Company; civil disturbances and terrorist acts; unusual weather patterns and natural disasters; competition from existing and potential competitors; competition from other channels of distribution; pricing pressures; the ability to attract and retain qualified employees in all areas of the organization; the cost of labor, merchandise and other costs and expenses; the ability to find suitable locations at acceptable occupancy costs and other terms to support the Company's expansion program; uncertainty in financial markets; disruptions to the Company's information technology systems including but not limited to security breaches of the Company's systems protecting consumer and employee information; reputational risk arising from the acts of third parties; changes to statutory, regulatory and legal requirements; new, or developments in existing, litigation, claims or assessments; changes to, or new, tax laws or interpretation of existing tax laws; changes to, or new, accounting standards including, without limitation, changes to lease accounting standards; and the integration of acquired businesses. The Company does not undertake any obligation to update its forward-looking statements.

## Available Information

The Company makes available as soon as reasonably practicable after filing with the SEC, free of charge, through its website, [www.bedbathandbeyond.com](http://www.bedbathandbeyond.com), the Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, electronically filed or furnished pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company's exposure to market risk for changes in interest rates relates primarily to the Company's investment securities. The Company's market risks at June 1, 2013 are similar to those disclosed in Item 7A of the Company's 2012 Form 10-K.

## Item 4. Controls and Procedures

### (a) Disclosure Controls and Procedures

The Company's Principal Executive Officer and Principal Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 240.13a-15(e) and 15d-15(e)) as of June 1, 2013 (the end of the period covered by this quarterly report on Form 10-Q). Based on that evaluation, the Principal Executive Officer and the Principal Financial Officer have concluded that the Company's current disclosure controls and procedures are effective to ensure that information required to be disclosed by our management in the reports that it files or submits under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

### (b) Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal controls over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

## PART II - OTHER INFORMATION

## Item 1. Legal Proceedings

The Company is party to various legal proceedings arising in the ordinary course of business, which the Company does not believe to be material to the Company's business or financial condition.

## Item 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, carefully consider the factors discussed under "Risk Factors" in the Company's 2012 Form 10-K as filed with the Securities and Exchange Commission. These risks could materially adversely affect the Company's business, financial condition and results of operations. These risks are not the only risks the Company faces. The Company's operations could also be affected by additional factors that are not presently known to the Company or by factors that the Company currently considers immaterial to its business.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company's purchases of its common stock during the first quarter of fiscal 2013 were as follows:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Approximate Dollar
				Value of Shares that May Yet Be Purchased Under the Plans or Programs (1) (2)
March 3, 2013 - March 30, 2013	1,550,400	\$ 60.05	1,550,400	\$ 2,325,039,852
March 31, 2013 - April 27, 2013	1,451,900	\$ 65.18	1,451,900	\$ 2,230,405,862
April 28, 2013 - June 1, 2013	1,982,700	\$ 68.93	1,982,700	\$ 2,093,744,529
Total	4,985,000	\$ 65.07	4,985,000	\$ 2,093,744,529

(1) Between December 2004 and December 2012, the Company's Board of Directors authorized, through share repurchase programs, the repurchase of \$7.450 billion of its shares of common stock. The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations. Shares purchased indicated in this table also include the withholding of a portion of restricted shares to cover taxes on vested restricted shares.

(2) Excludes brokerage commissions paid by the Company.
