NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 NMHG HOLDING CO. AND SUBSIDIARIES
 SEPTEMBER 30, 2002
 (Tabular Amounts in Millions)

Note 1 - Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of NMHG Holding Co. ("NMHG Holding," the parent company), a Delaware corporation, and its wholly owned subsidiaries, NACCO Materials Handling Group, Inc. ("NMHG Wholesale") and NMHG Distribution Co. ("NMHG Retail") (collectively, "NMHG" or the "Company"). NMHG Holding is a wholly owned subsidiary of NACCO Industries, Inc. ("NACCO"). The Company's subsidiaries operate in the lift truck industry. NMHG segments its lift truck operations into two components: wholesale manufacturing and retail distribution. Intercompany accounts and transactions have been eliminated.

NMHG designs, engineers, manufactures, sells, services and leases a full line of lift trucks and service parts marketed worldwide under the Hyster(R) and Yale(R) brand names. NMHG Wholesale includes the manufacture and sale of lift trucks and related service parts, primarily to independent and wholly owned Hyster and Yale retail dealerships. NMHG Retail includes the sale, service and rental of Hyster and Yale lift trucks and related service parts by wholly owned retail dealerships and rental companies.

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position of the Company as of September 30, 2002 and the results of its operations for the three and nine month periods ended September 30, 2002 and 2001 and the results of its

Edgar Filing: NMHG HOLDING CO - Form 10-Q

cash flows and changes in stockholder's equity for the nine month periods ended September 30, 2002 and 2001 have been included.

Operating results for the three and nine month periods ended September 30, 2002 are not necessarily indicative of the results that may be expected for the remainder of the year ending December 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto for the fiscal year ended December 31, 2001 included in the Company's Registration Statement on Form S-4, as amended.

Note 2 - Inventories

Inventories are summarized as follows:

	(UNAUDITED) SEPTEMBER 30 2002 -----	(AUDITED) DECEMBER 31 2001 -----
Manufactured inventories:		
Finished goods and service parts	\$ 101.5	\$ 99.6
Raw materials and work in process	110.3	111.4
	-----	-----
Total manufactured inventories	211.8	211.0
Retail inventories	29.1	35.8
	-----	-----
Total inventories at FIFO	240.9	246.8
LIFO reserve	(10.9)	(12.3)
	-----	-----
	\$ 230.0	\$ 234.5
	=====	=====

The cost of certain manufactured and retail inventories has been determined using the LIFO method. At September 30, 2002 and December 31, 2001, 63 and 68 percent of total inventories, respectively, were determined using the LIFO method. An actual valuation of inventory under the LIFO method can be made only at the end of the year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these estimates are subject to change and may be different than the actual inventory levels and costs at year-end, interim results are subject to the final year-end LIFO inventory valuation.

Note 3 - Restructuring Charges

The changes to the Company's restructuring accruals since December 31, 2001 are as follows:

Edgar Filing: NMHG HOLDING CO - Form 10-Q

	Severance -----	Lease Impairment -----	Curtailment Losses - Pension and Other Post-Employment Benefits -----
NMHG Wholesale			
Balance at December 31, 2001	\$ 5.3	\$ ---	\$ 7.5
Foreign currency effect	.3	---	---
Payments	(3.3)	---	---
	-----	-----	-----
Balance at September 30, 2002	\$ 2.3	\$ ---	\$ 7.5
	=====	=====	=====
NMHG Retail			
Balance at December 31, 2001	\$ 3.9	\$.4	\$ ---
Foreign currency effect	.2	---	---
Payments	(1.5)	(.2)	---
	-----	-----	-----
Balance at September 30, 2002	\$ 2.6	\$.2	\$ ---
	=====	=====	=====

NMHG Wholesale: The reserve balance at NMHG Wholesale consists of two restructuring programs: the 2001 closure of the Danville, Illinois facility and the restructuring of the European wholesale operations initiated in 2001. The Danville program, which was approved and accrued in December 2000, was essentially completed in 2001. In the first nine months of 2002, final severance payments of \$2.1 million were made to 217 employees. The reserve balance for curtailment losses relating to pension and other post-employment benefits relates entirely to the closure of the Danville facility and will not be paid until employees reach retirement age. In the first nine months of 2002, NMHG Wholesale recognized a charge of approximately \$1.9 million, which had not previously been accrued and is not included in the table above, related primarily to the costs of the idle Danville facility. Cost savings primarily from reduced employee wages and benefits of approximately \$9.0 million pre-tax were realized in the first nine months of 2002 related to this program. Cost savings primarily from reduced employee wages and benefits are estimated to be \$2.9 million pre-tax, net of idle facility costs, for the remainder of 2002, \$11.4 million pre-tax, net of idle facility costs, in 2003 and \$13.4 million pre-tax annually thereafter, as a result of anticipated improved manufacturing efficiencies and reduced fixed factory overhead. Although a significant portion of the projected savings is the result of a reduction in fixed factory costs, the overall benefit estimates could vary depending on unit volumes and the resulting impact on manufacturing efficiencies.

In 2001, NMHG Wholesale recognized a restructuring charge of approximately \$4.5 million pre-tax for severance and other employee benefits to be paid to 285 direct and indirect factory labor and administrative personnel in Europe. Of this amount, \$3.2 million remained unpaid as of December 31, 2001. Payments of \$1.2 million were made in the first nine months of 2002 to 58 employees. The majority of the headcount reductions were made by the end of the first nine months of 2002. Pursuant to local country requirements, the remaining headcount reductions will be initiated in the fourth quarter of 2002, with the initiation of severance payments thereafter. Cost savings primarily from reduced employee wages and benefits of approximately \$4.4 million pre-tax were realized in the first nine months of 2002 related to this program. Cost savings primarily from reduced employee wages and benefits for the remainder of 2002 are estimated to be \$2.2 million pre-tax and \$8.4 million pre-tax annually thereafter. Although a majority of the projected savings is the result of a reduction in fixed factory

Edgar Filing: NMHG HOLDING CO - Form 10-Q

costs, the overall benefit estimates could vary depending on unit volumes and the resulting impact on manufacturing efficiencies.

NMHG Retail: NMHG Retail recognized a restructuring charge of approximately \$4.7 million pre-tax in 2001, of which \$0.4 million relates to lease termination costs and \$4.3 million relates to severance and other employee benefits to be paid to 138 service technicians, salesmen and administrative personnel at wholly owned dealers in Europe. During 2001, severance payments of \$0.4 million were made to approximately 40 employees. In the first nine months of 2002, severance payments of \$1.5 million were

made to 87 employees. A majority of the headcount reductions were made by the end of the first half of 2002. Cost savings primarily from reduced employee wages, employee benefits and lease costs of approximately \$1.9 million pre-tax were realized in the first nine months of 2002 related to this program and are estimated to be \$0.9 million pre-tax for the remainder of 2002. Cost savings primarily from reduced employee wages, employee benefits and lease costs are estimated to be \$2.9 million pre-tax annually beginning in 2003. Estimated benefits could be reduced by additional severance payments, if any, made to employees above the statutory or contractually required amount that was accrued in 2001.

Note 4 - Accounting for Goodwill

On January 1, 2002, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." This Statement establishes accounting and reporting standards for goodwill and other intangible assets and supersedes APB Opinion No. 17, "Intangible Assets." Goodwill and other intangibles that have indefinite lives will no longer be amortized, but will be subject to annual impairment tests. All other intangible assets will continue to be amortized over their estimated useful lives, which are no longer limited to 40 years. Effective January 1, 2002, the Company discontinued amortization of its goodwill in accordance with this Statement. The amortization periods of the Company's other intangible assets were not revised as a result of the adoption of this Statement. Adjusted net income (loss) assuming the adoption of this Statement in the prior year, is as follows:

	THREE MONTHS ENDED SEPTEMBER 30		NINE MONTHS ENDED SEPTEMBER 30	
	2002	2001	2002	2001
Reported net income (loss)	\$ (.8)	\$ (32.6)	\$ 2.3	\$ (23.1)
Add back: goodwill amortization	---	3.2	---	9.7
Adjusted net income (loss)	\$ (.8)	\$ (29.4)	\$ 2.3	\$ (13.4)

In addition, this Statement requires goodwill to be tested for impairment at the

Edgar Filing: NMHG HOLDING CO - Form 10-Q

beginning of the fiscal year of adoption, January 1, 2002 for the Company, and, thereafter, at least annually at a level of reporting defined in the Statement as a "reporting unit," using a two-step process. The first step requires comparison of the reporting unit's fair market value to its carrying value. If the fair market value of the reporting unit exceeds its carrying value, no further analysis is necessary and goodwill is not impaired. If the carrying value of the reporting unit exceeds its fair market value, then the second step, as defined in the Statement, must be completed. The second step, if necessary, requires the determination of the fair market value of each existing asset and liability of the applicable reporting unit to enable the derivation of the "implied" fair market value of goodwill. If the implied fair market value of goodwill is less than the carrying value of goodwill, then an impairment loss must be recognized.

During the second quarter of 2002, the Company completed its impairment testing of goodwill as described above. For each of the Company's reporting units, the fair market value of the reporting unit exceeded the reporting unit's carrying value; therefore, there is no goodwill impairment as of the testing date, January 1, 2002.

The process to test goodwill for impairment included an allocation of goodwill among the Company's reporting units. As a result of this allocation process, goodwill that was previously reported in the Company's reportable segment, NMHG Retail, was reallocated to NMHG Wholesale. This reallocation was primarily based on an analysis of the synergy benefits that arose as a result of the acquisitions of the retail dealerships. As a result, goodwill of approximately \$40.3 million that was previously reported in NMHG Retail is now reported in NMHG Wholesale.

Following is a summary of the changes in goodwill during the first nine months of 2002:

	Carrying Amount of Goodwill		
	NMHG Wholesale	NMHG Retail	NMHG Consolidated
Balance at December 31, 2001	\$ 304.6	\$ 39.6	\$ 344.2
Reclassification to other intangibles	---	(1.8)	(1.8)
Reallocation among segments	40.3	(40.3)	---
Impairment of investment	(1.6)	---	(1.6)
Foreign currency translation	(.1)	2.5	2.4
	-----	-----	-----
Balance at September 30, 2002	\$ 343.2	\$ ---	\$ 343.2
	=====	=====	=====

During 2002, \$1.8 million that was previously preliminarily classified as goodwill relating to an acquisition of a retail dealership in 2001 was reclassified to other intangibles. Amortization of these intangibles began in the second quarter of 2002. Amortization expense was \$0.2 million in the nine months ended September 30, 2002. Expected annual amortization expense of other intangible assets for the next five years is as follows: \$0.3 million in 2002,

Edgar Filing: NMHG HOLDING CO - Form 10-Q

\$0.2 million in 2003, \$0.2 million in 2004, \$0.2 million 2005 and \$0.2 million in 2006.

During the third quarter of 2002, NMHG Wholesale recognized an impairment charge of \$1.6 million relating to the goodwill associated with the 2000 acquisition of a 25 percent interest in a parts distributor. This investment is accounted for using the equity method. As such, the impairment of the goodwill relating to the investment was recognized in accordance with APB Opinion No. 18, "The Equity Method of Accounting for Investments in Common Stock," as an other than temporary impairment in the value of the investment. The impairment charge is recognized in the 2002 statement of operations on the line "income (loss) from unconsolidated affiliates."

Note 5 - Debt Financing

On May 9, 2002, NMHG replaced its primary financing agreement, an unsecured floating-rate revolving line of credit with availability of \$350.0 million, certain other lines of credit with availability of \$28.6 million and a program to sell accounts receivable in Europe, with the proceeds from the sale of \$250.0 million of 10% unsecured Senior Notes due 2009 and borrowings under a secured, floating-rate revolving credit facility which expires in May 2005. The proceeds from the Senior Notes were reduced by an original issue discount of \$3.1 million.

The \$250.0 million of 10% Senior Notes mature on May 15, 2009. The Senior Notes are senior unsecured obligations of NMHG Holding and are guaranteed by substantially all of NMHG's domestic subsidiaries. NMHG Holding has the option to redeem all or a portion of the Senior Notes on or after May 15, 2006 at the redemption prices set forth in the Indenture governing the Senior Notes.

Availability under the new revolving credit facility is up to \$175.0 million and is governed by a borrowing base derived from advance rates against the inventory and accounts receivable of the "borrowers." Adjustments to reserves booked against these assets, including inventory reserves, will change the eligible borrowing base and thereby impact the liquidity provided by the facility. The borrowers, as defined in the new revolving credit facility, include NMHG Holding and certain domestic and foreign subsidiaries of NMHG Holding. Borrowings bear interest at a floating rate, which can be either a base rate or LIBOR, as defined, plus an applicable margin. The initial applicable margins, effective through September 30, 2002, for base rate loans and LIBOR loans are 2.00% and 3.00%, respectively. The new revolving credit facility also requires a fee of 0.5% per annum on the unused commitment. Subsequent to September 30, 2002, the margins and unused commitment fee will be subject to quarterly adjustment based on a leverage ratio.

At September 30, 2002, the borrowing base under the new revolving credit facility was \$93.6 million, which has been reduced by the commitments or availability under certain foreign credit facilities and an excess availability requirement of \$15.0 million. Borrowings outstanding under this facility were \$22.0 million at September 30, 2002. Therefore, at September 30, 2002, the excess availability under the new revolving credit facility was \$71.6 million.

The domestic floating rate of interest applicable to this facility on September 30, 2002 was 5.61%, including the applicable floating rate margin. The new revolving credit facility includes a subfacility for foreign borrowers

which can be denominated in British pounds sterling or euros. The foreign floating rate of interest applicable to this subfacility on September 30, 2002 was 6.96%, including the applicable floating rate margin. Included in the

Edgar Filing: NMHG HOLDING CO - Form 10-Q

borrowing capacity is a \$15.0 million overdraft facility available to foreign borrowers. The initial applicable margin, effective through September 30, 2002, for overdraft loans is 3.25% above the London base rate, as defined. The new revolving credit facility is guaranteed by certain domestic and foreign subsidiaries of NMHG Holding and is secured by substantially all of the assets, other than property, plant and equipment, of the borrowers and guarantors, both domestic and foreign, under the facility.

The terms of the new revolving credit facility provide that availability is reduced by the commitments or availability under a foreign credit facility of the borrowers and certain foreign working capital facilities. A foreign credit facility commitment of approximately U.S. \$18.3 million on September 30, 2002, denominated in Australian dollars, reduced the amount of availability under the new revolving credit facility. In addition, availability under the new revolving credit facility was reduced by \$5.5 million for a working capital facility denominated in Chinese yuan. If the commitments or availability under these facilities are increased, availability under the new revolving credit facility will be reduced. The \$93.6 million of borrowing base capacity under the new revolving credit facility at September 30, 2002 reflected reductions for these foreign credit facilities.

Both the new revolving credit facility and terms of the Senior Notes include restrictive covenants which, among other things, limit the payment of dividends to NACCO. The new revolving credit facility also requires NMHG to meet certain financial tests, including, but not limited to, minimum excess availability, maximum capital expenditures, maximum leverage ratio and minimum fixed charge coverage ratio tests. The borrowers must maintain aggregate excess availability under the new revolving credit facility of at least \$15.0 million.

NMHG paid financing fees of approximately \$15.1 million related to this refinancing. These fees were deferred and are being amortized as interest expense in the statement of operations over the respective terms of the new financing facilities.

As a result of the refinancing of NMHG's floating-rate revolving credit facility, NMHG terminated all of its interest rate swap agreements with all related cash outflows occurring during the third quarter of 2002. NMHG terminated interest rate swap agreements with a total notional amount of \$285.0 million and a total net payable balance of \$11.5 million at the respective dates of termination. Prior to the refinancing, however, certain of these interest rate swap agreements qualified for hedge accounting treatment in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended. As such, the mark-to-market of these interest rate swap agreements were previously recognized as a component of other comprehensive income (loss) in stockholder's equity.

Prior to the cessation of hedge accounting resulting from the May 9, 2002 refinancing, the balance in other comprehensive income (loss) for NMHG's interest rate swap agreements that qualified for hedge accounting was a pre-tax loss of \$4.2 million (\$2.6 million after-tax). This balance is being amortized into the statement of operations over the original remaining lives of the terminated interest rate swap agreements in accordance with the provisions in SFAS No. 133, as amended. The amount of amortization of accumulated other comprehensive income included in the statement of operations on the line "losses on interest rate swap agreements" during the three and nine months ended September 30, 2002 was a pre-tax expense of \$0.8 million and \$1.7 million, respectively.

The mark-to-market of the interest rate swap agreements that was included in the statement of operations during the three and nine months ended September 30, 2002 because these derivatives did not qualify for hedge accounting treatment during that period was an expense of \$1.3 million and \$3.2 million,

Edgar Filing: NMHG HOLDING CO - Form 10-Q

respectively, and is included on the line, "losses on interest rate swap agreements."

Note 6 - Condensed Consolidating Guarantor and Non-Guarantor Financial Information

The following tables set forth the condensed consolidating statements of operations and cash flows for each of the three and nine month periods ended September 30, 2002 and 2001 and the condensed consolidating balance sheets as of September 30, 2002 and December 31, 2001. The following information is included as a result of the guarantee of the Senior Notes (as discussed in Note 5) by each of NMHG's wholly owned U.S. subsidiaries ("Guarantor Companies"). None of the Company's other subsidiaries has guaranteed the Senior Notes. Each of the guarantees is joint and several and full and unconditional. "NMHG Holding" includes the consolidated financial results of the parent company only, with all of its wholly owned subsidiaries accounted for under the equity method.

UNAUDITED CONDENSED CONSOLIDATING STATEMENT OF OPERATIONS FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2002 (In millions)

	NMHG Holding -----	Guarantor Companies -----	Non-Guarantor Companies -----	Consolidating Eliminations -----	NM Conso -----

	=====	=====

NACCO charges fees to its operating subsidiaries, including NMHG. The amounts charged to NMHG were \$1.7 million and \$5.2 million for the three and nine month periods ended September 30, 2002, respectively. This compares with \$1.9 million and \$5.7 million for the three and nine month periods ended September 30, 2001, respectively.

Note 8 - Accounting Standards Not Yet Adopted

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections." SFAS No. 145 requires gains and losses on extinguishments of debt to be reclassified as income or loss from continuing operations rather than as extraordinary items as previously required by SFAS No. 4, "Reporting Gains and Losses from Extinguishment of Debt." SFAS No. 145 also amends SFAS No. 13 to require certain modifications to capital leases to be treated as sale-leaseback transactions and modifies the accounting for subleases when the original lessee remains a secondary obligor, or guarantor. SFAS No. 145 also rescinded SFAS No. 44, which addressed the accounting for intangible assets of motor carriers and made numerous technical corrections.

The provisions of SFAS No. 145 related to the rescission of SFAS No. 4 are effective for fiscal years beginning after May 15, 2002, with restatement of prior periods for any gain or loss on the extinguishment of debt that was classified as an extraordinary item in prior periods, as necessary. The remaining provisions of SFAS No. 145 are effective for transactions and reporting subsequent to May 15, 2002. The adoption of SFAS No. 145 did not have a material impact to the Company's financial position or results of operations.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

In June 2002, the FASB issued SFAS No. 146, "Accounting for Exit or Disposal Activities". SFAS No. 146 is effective for exit or disposal activities initiated after December 31, 2002. SFAS No. 146 requires that liabilities for one-time termination benefits that will be incurred over future service periods should be measured at the fair value as of the termination date and recognized over the future service period. This statement also requires that liabilities associated with disposal activities should be recorded when incurred. These liabilities should be adjusted for subsequent changes resulting from revisions to either the timing or amount of estimated cash flows, discounted at the original credit-adjusted risk-free rate. Interest on the liability would be accreted and charged to expense as an operating item. The Company does not expect the adoption of this statement to have a material impact to the Company's financial position or results of operations.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations (Tabular Amounts in Millions)

===== Critical Accounting Policies and Estimates =====

Please refer to the discussion of the Company's Critical Accounting Policies and Estimates as disclosed on pages 26 through 28 in the Company's Registration Statement on Form S-4, as amended. In addition to those policies and estimates set forth in the Registration Statement, as a result of the adoption of SFAS No. 142, as discussed in Note 4 to the Unaudited Condensed Consolidated Financial Statements in this Form 10-Q, the Company also considers the accounting for its goodwill, which is a significant asset to the Company, to be a critical accounting policy. Changes in management's judgments and estimates could significantly affect the Company's analysis of the impairment of goodwill. To test goodwill for impairment, the Company is required to estimate the fair market value of each of its reporting units. Using management judgments, a model was developed to estimate the fair market value of the reporting units. This fair market value model incorporated the Company's estimates of future cash flows, estimated allocations of certain assets and cash flows among reporting units, estimates of future growth rates and management's judgment regarding the applicable discount rates to use to discount those estimated cash flows. Changes to these judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units which could result in an impairment of goodwill.

Effective tax rate				
Wholesale	See (a)	23.2%	9.1%	See (a)
Retail (including eliminations)	27.3%	29.1%	32.0%	29.8%
NMHG Consolidated	36.8%	25.6%	See (a)	See (a)

(a) The effective tax rate is not meaningful.

In the third quarter of 2002, NMHG Wholesale recognized a tax benefit of \$0.1 million on a relatively small amount of pre-tax income primarily due to a true-up in the estimated effective tax rate for the nine months ended September 30, 2002. The effective tax rate for the nine months ended September 30, 2002 is 9.1 percent for NMHG Wholesale and is not meaningful for NMHG Consolidated due to a \$1.9 million tax benefit recognized in the first quarter of 2002 related to the recognition of previously generated losses in China, combined with a relatively low level of pre-tax income in the first nine months of 2002. These factors resulted in a net tax benefit for NMHG Consolidated that exceeds the pre-tax loss. For the nine months ended September 30, 2001, the effective tax rate for NMHG Wholesale and NMHG Consolidated is not meaningful. The tax benefit on the pre-tax loss in the first nine months of 2001 is offset by nondeductible goodwill amortization and other nondeductible items creating a tax provision instead of a tax benefit on the NMHG Consolidated pre-tax loss.

FINANCIAL REVIEW - continued

Edgar Filing: NMHG HOLDING CO - Form 10-Q

Third Quarter of 2002 Compared with Third Quarter of 2001

NMHG Wholesale: Revenues increased to \$342.3 million in the third quarter of 2002, an increase of 9 percent from \$314.4 million in the third quarter of 2001. The increase in revenues was due primarily to increased unit volumes in the Americas and Europe, favorable currency movements in Europe and a shift in mix to higher-priced units. Unit shipments increased 6 percent to 15,299 units in the third quarter of 2002 as compared with 14,452 units in the third quarter of 2001.

Operating profit increased to \$12.9 million in the third quarter of 2002 from an operating loss of \$20.8 million in the third quarter of 2001. Operating profit improved primarily due to (i) lower manufacturing costs driven by the completion of the Danville restructuring program in the fourth quarter of 2001 and global procurement and cost control programs, (ii) a favorable shift in mix to higher-margin lift trucks, (iii) a non-comparable restructuring expense of \$3.6 million recognized in the third quarter of 2001 for a European restructuring program and (iv) the elimination of goodwill amortization of \$2.9 million. See Note 3 and Note 4 to the Unaudited Condensed Consolidated Financial Statements in this Form 10-Q for a discussion of the NMHG Wholesale restructuring programs and the adoption of SFAS No. 142, respectively.

Net income of \$0.8 million for the third quarter of 2002 improved from a net loss of \$19.7 million in the third quarter of 2001 due to the factors affecting operating profit. These improvements were partially offset by increased interest expense, the negative effect of interest rate swap agreements, the amortization of deferred financing fees and a \$1.9 million after-tax impairment of certain investments in unconsolidated affiliates.

Both the increase in interest rates and the amortization of deferred financing fees relate to the refinancing of NMHG's debt during the second quarter of 2002, which is discussed further in the Liquidity and Capital Resources section of this Form 10-Q.

The worldwide backlog level increased to 18,700 units at September 30, 2002 from 14,400 units at September 30, 2001 and 17,500 units at the end of the second quarter of 2002 primarily due to an increase in demand.

NMHG Retail (net of eliminations): Revenues decreased to \$43.3 million in the third quarter of 2002 from \$45.7 million in the third quarter of 2001. This decrease is primarily due to the sale of certain European retail dealerships in the fourth quarter of 2001 (the "sold operations"), which were included in the results for the third quarter of 2001, partially offset by increased rental revenues in Asia-Pacific. Revenues generated in the third quarter of 2001 by the sold operations were \$5.7 million, net of intercompany eliminations.

Operating profit increased to \$0.2 million from an operating loss of \$15.9 million in the third quarter of 2001. The operating loss in the third quarter of 2001 included several special adjustments, primarily in Europe, including a \$4.7 million restructuring charge for downsizing retail operations in Europe and charges of approximately \$7.6 million to establish full accounting consistency among owned dealers on a global basis, true up those dealers previously reporting on a one-month lag to report on months consistent with the rest of NMHG and to reduce asset values and increase reserves reflective of the weakened capital goods market. In addition, the operating loss in the third quarter of 2001 includes an operating loss incurred by the sold operations. The operating results in the third quarter of 2002 as compared with the third quarter of 2001 also benefit from lower operating costs in Europe resulting from restructuring programs implemented in 2001 and the elimination of goodwill amortization.

Net loss improved to \$1.6 million in the third quarter of 2002 from \$12.9

Edgar Filing: NMHG HOLDING CO - Form 10-Q

million in the third quarter of 2001 primarily as a result of the items affecting operating income.

FINANCIAL REVIEW - continued

First Nine Months of 2002 Compared with First Nine Months of 2001

NMHG Wholesale: Revenues decreased to \$1,017.2 million in the first nine months of 2002 from \$1,149.3 million in the first nine months of 2001. The decline in revenues was primarily driven by decreased unit volume in the first half of the year, partially offset by increased volume in the third quarter of 2002. Unit shipments declined 15 percent to 46,405 units in the first nine months of 2002 as compared with 54,478 units in the first nine months of 2001.

Despite the volume decline, operating profit increased to \$32.5 million in the first nine months of 2002 from \$9.4 million in the first nine months of 2001. The increase in operating profit was primarily driven by a shift in mix to higher-margin lift trucks; the positive impact from improvement programs initiated in 2001, including the completion of the Danville, Illinois, plant closure in the fourth quarter of 2001 and the benefits of procurement, restructuring and cost control programs; and the elimination of goodwill amortization, partially offset by reduced unit volume.

Net income increased to \$8.9 million in the first nine months of 2002 from a net loss of \$2.4 million in the first nine months of 2001 as a result of the factors affecting operating profit, partially offset by additional interest and other-net expenses due to the factors discussed for the third quarter operating results, above.

Also affecting the year over year comparability of net income is a pre-tax insurance recovery of \$8.0 million (\$5.0 million after-tax) included in other income (expense) in the first nine months of 2001 relating to flood damage in September 2000 at NMHG's Sumitomo-NACCO joint venture in Japan and a \$1.3 million after-tax charge in 2001 for the cumulative effect of accounting changes for derivatives and pension costs.

NMHG Retail (net of eliminations): Revenues decreased to \$128.9 million for the first nine months of 2002 from \$151.1 million for the first nine months of 2001. Revenues declined primarily due to the elimination of the sold operations, which generated revenues of \$18.1 million, net of intercompany eliminations, for the first nine months of 2001. Operating loss in the first nine months of 2002 was \$2.4 million compared with an operating loss of \$22.1 million in the first nine months of 2001. Operating results improved primarily due to (i) several unusual adjustments recognized in 2001, as noted in the discussion of the third quarter operating results, (ii) lower operating costs in Europe resulting from restructuring programs implemented in 2001, (iii) the elimination of losses incurred by the sold operations in 2001 and (iv) the elimination of goodwill amortization of \$1.0 million. Net loss was \$6.6 million for the nine months ended September 30, 2002 compared with \$20.7 million for the first nine months of 2001, primarily due to the factors affecting operating loss.

LIQUIDITY AND CAPITAL RESOURCES

Expenditures for property, plant and equipment were \$9.7 million for NMHG Wholesale and \$2.4 million for NMHG Retail during the first nine months of 2002. These capital expenditures include investments in machinery and equipment,

Edgar Filing: NMHG HOLDING CO - Form 10-Q

tooling for new products, information systems and lease and rental fleet. It is estimated that NMHG's capital expenditures for the remainder of 2002 will be approximately \$5.5 million for NMHG Wholesale and \$0.8 million for NMHG Retail. Planned expenditures for the remainder of 2002 include tooling for new products, investments in worldwide information systems and additions to retail lease and rental fleet. The principal sources of financing for these capital expenditures are internally generated funds and bank borrowings.

FINANCIAL REVIEW - continued

LIQUIDITY AND CAPITAL RESOURCES - continued

On May 9, 2002, NMHG replaced its primary financing agreement, an unsecured floating-rate revolving line of credit with availability of \$350.0 million, certain other lines of credit with availability of \$28.6 million and a program to sell accounts receivable in Europe, with the proceeds from the sale of \$250.0 million of 10% unsecured Senior Notes due 2009 and borrowings under a secured, floating-rate revolving credit facility which expires in May 2005. The proceeds from the Senior Notes were reduced by an original issue discount of \$3.1 million.

The \$250.0 million of 10% Senior Notes mature on May 15, 2009. The Senior Notes are senior unsecured obligations of NMHG Holding and are guaranteed by substantially all of NMHG's domestic subsidiaries. NMHG Holding has the option to redeem all or a portion of the Senior Notes on or after May 15, 2006 at the redemption prices set forth in the Indenture governing the Senior Notes.

Availability under the new revolving credit facility is up to \$175.0 million and is governed by a borrowing base derived from advance rates against the inventory and accounts receivable of the "borrowers." Adjustments to reserves booked against these assets, including inventory reserves, will change the eligible borrowing base and thereby impact the liquidity provided by the facility. The borrowers, as defined in the new revolving credit facility, include NMHG Holding and certain domestic and foreign subsidiaries of NMHG Holding. Borrowings bear interest at a floating rate, which can be either a base rate or LIBOR, as defined, plus an applicable margin. The initial applicable margins, effective through September 30, 2002, for base rate loans and LIBOR loans are 2.00% and 3.00%, respectively. The new revolving credit facility also requires a fee of 0.5% per annum on the unused commitment. Subsequent to September 30, 2002, the margins and unused commitment fee will be subject to adjustment based on a leverage ratio.

At September 30, 2002, the borrowing base under the new revolving credit facility was \$93.6 million, which has been reduced by the commitments or availability under certain foreign credit facilities and an excess availability requirement of \$15.0 million. Borrowings outstanding under this facility were \$22.0 million at September 30, 2002. Therefore, at September 30, 2002, the availability under the new revolving credit facility was \$71.6 million.

The domestic floating rate of interest applicable to this facility on September 30, 2002 was 5.61%, including the applicable floating rate margin. The new revolving credit facility includes a subfacility for foreign borrowers which can be denominated in British pounds sterling or euros. The foreign floating rate of interest applicable to this subfacility on September 30, 2002 was 6.96%, including the applicable floating rate margin. Included in the borrowing capacity is a \$15.0 million overdraft facility available to foreign borrowers. The initial applicable margin, effective through September 30, 2002, for

Edgar Filing: NMHG HOLDING CO - Form 10-Q

overdraft loans is 3.25% above the London base rate, as defined. The new revolving credit facility is guaranteed by certain domestic and foreign subsidiaries of NMHG Holding and secured by substantially all of the assets, other than property, plant and equipment, of the borrowers and guarantors, both domestic and foreign, under the facility.

The terms of the new revolving credit facility provide that availability is reduced by the commitments or availability under a foreign credit facility of the borrowers and certain foreign working capital facilities. A foreign credit facility commitment of approximately U.S. \$18.3 million on September 30, 2002, denominated in Australian dollars, reduced the amount of availability under the new revolving credit facility. In addition, availability under the new revolving credit facility was reduced by \$5.5 million for a working capital facility denominated in Chinese yuan. If the commitments or availability under these facilities are increased, availability under the new revolving credit facility will be reduced. The \$93.6 million of capacity under the new revolving credit facility at September 30, 2002 reflected the reduction of these foreign credit facilities.

Both the new revolving credit facility and terms of the Senior Notes include restrictive covenants which, among other things, limit the payment of dividends to NACCO. The new revolving credit facility also requires NMHG to meet certain financial tests, including, but not limited to, minimum excess availability, maximum capital expenditures, maximum leverage ratio and minimum fixed charge coverage ratio tests. The borrowers must maintain aggregate excess availability under the new revolving credit facility of at least \$15.0 million.

NMHG paid financing fees of approximately \$15.1 million related to this refinancing. These fees were deferred and are being amortized as interest expense in the statement of operations over the respective terms of the new financing facilities.

FINANCIAL REVIEW - continued

LIQUIDITY AND CAPITAL RESOURCES - continued

As a result of the refinancing of NMHG's floating-rate revolving credit facility, NMHG terminated all of its interest rate swap agreements with all related cash outflows occurring during the third quarter of 2002. NMHG terminated interest rate swap agreements with a total notional amount of \$285.0 million and a total net payable balance of \$11.5 million at the respective dates of termination. See further discussion in Note 5 to the Unaudited Condensed Consolidated Financial Statements included in this Form 10-Q.

Since December 31, 2001, in the ordinary course of business, NMHG Retail continued to make payments under existing operating lease agreements and enter into new operating lease agreements, primarily for rental equipment. As a result of obligations incurred by entering into new leases, partially offset by lease payments made in the ordinary course of business and the sale of one of its remaining German dealerships in the third quarter of 2002, the Company's future minimum lease payments increased \$13.6 million from \$141.6 million at December 31, 2001.

In addition, NMHG had contingent obligations for guarantees related to third party financing of NMHG's lift trucks in the amount of \$134.9 million at September 30, 2002 compared with contingent obligations of a similar nature of \$158.0 million at December 31, 2001.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

NMHG believes that funds available under the new revolving credit facility, other available lines of credit and operating cash flows are sufficient to finance all of its operating needs and commitments arising during the foreseeable future.

NMHG Wholesale's capital structure is presented below:

	SEPTEMBER 30 2002 -----	DECEMBER 31 2001 -----
NMHG Wholesale:		
Total net tangible assets	\$ 271.6	\$ 375.2
Advances to (from) NMHG Retail	(15.5)	70.2
Goodwill at cost	486.5	446.0
	-----	-----
Net assets before goodwill amortization	742.6	891.4
Accumulated goodwill amortization	(143.3)	(141.4)
Advances from NACCO	---	(8.0)
Advances from NMHG Holding	(247.2)	---
Other debt	(24.1)	(300.9)
Minority interest	(1.4)	(2.3)
	-----	-----
Stockholder's equity	\$ 326.6	\$ 438.8
	=====	=====
Debt to total capitalization	45%	41%

The decrease in net tangible assets of \$103.6 million is primarily due to a \$79.2 million decrease in investments in NMHG Retail which was allocated to NMHG Holding and is not held by NMHG Wholesale. The remaining \$24.4 million decrease in net tangible assets is due to a \$30.1 million decrease in cash and cash equivalents, a \$12.1 million decrease in property, plant and equipment and a \$4.3 million decrease in net deferred tax assets combined with an \$11.4 million increase in intercompany interest payable, somewhat offset by a \$30.3 increase in total receivables. Accounts receivable increased primarily due to the second quarter 2002 termination of an agreement to sell European accounts receivable as part of NMHG's debt refinancing.

FINANCIAL REVIEW - continued

LIQUIDITY AND CAPITAL RESOURCES - continued

As a result of NMHG's debt refinancing, certain of NMHG Wholesale's borrowings that were previously from external sources are now financed with an intercompany advance from NMHG Holding. As such, advances from NMHG Holding replaced the majority of NMHG Wholesale's "other debt." Furthermore, at September 30, 2002, NMHG Wholesale has a net payable to NMHG Retail instead of a net receivable from NMHG Retail due to changes in the internal capitalization between NMHG Wholesale, NMHG Retail and NMHG Holding. Part of the reason for this

Edgar Filing: NMHG HOLDING CO - Form 10-Q

recapitalization was due to a reallocation of goodwill from NMHG Retail to NMHG Wholesale of approximately \$40.3 million as part of the adoption of SFAS No. 142. See further discussion in Note 4 to the Unaudited Condensed Consolidated Financial Statements in this Form 10-Q.

Stockholder's equity decreased due to a dividend to NMHG Holding of \$117.7 million and a dividend to NACCO of \$15.0 million, partially offset by an \$8.2 million favorable adjustment to the foreign currency cumulative translation balance, net income for the first nine months of 2002 of \$8.9 million and a \$3.7 million decrease in the deferred loss on derivatives.

NMHG Retail's capital structure is presented below:

	SEPTEMBER 30 2002 -----	DECEMBER 31 2001 -----
NMHG Retail:		
Total net tangible assets	\$ 80.3	\$ 109.5
Advances to (from) NMHG Wholesale	15.5	(70.2)
Goodwill and other intangibles at cost	1.8	45.2
	-----	-----
Net assets before goodwill amortization	97.6	84.5
Accumulated goodwill and other intangible amortization	(.2)	(5.6)
Advances from NMHG Holding	(16.8)	---
Other debt	(48.3)	(53.5)
	-----	-----
Stockholder's equity	\$ 32.3	\$ 25.4
	=====	=====
Debt to total capitalization	67%	68%

The decrease in total net tangible assets of \$29.2 million is primarily due to a \$14.9 million decrease in net intercompany and other receivables and a \$7.3 million decline in inventory. The decrease in net intercompany accounts receivable is primarily due to the settlement of fiscal 2001 intercompany tax advances with NMHG Wholesale. Other receivables decreased primarily due to proceeds received in the first quarter of 2002 for the 2001 sold operations. A portion of these proceeds was used to pay down debt.

As noted above, changes in the internal capitalization between NMHG Wholesale, NMHG Retail and NMHG Holding resulted in a net advance to NMHG Wholesale at September 30, 2002 as compared with a net advance from NMHG Wholesale at December 31, 2001. This recapitalization is primarily due to the transfer of net goodwill to NMHG Wholesale.

The increase in stockholder's equity is due to a \$12.6 million reallocation of equity to NMHG Holding and a \$1.0 million favorable adjustment to the foreign currency cumulative translation balance, partially offset by a \$6.6 million net loss for the first nine months of 2002. The reallocation of equity among segments does not affect NMHG's consolidated equity position.

Edgar Filing: NMHG HOLDING CO - Form 10-Q

EFFECTS OF FOREIGN CURRENCY

NMHG operates internationally and enters into transactions denominated in foreign currencies. As such, the Company's financial results are subject to the variability that arises from exchange rate movements. The effects of foreign currency fluctuations on revenues, operating income and net income are addressed in the discussion of operating results, above.

OUTLOOK

NMHG Wholesale

NMHG Wholesale expects improved operating results in the fourth quarter of 2002, compared with the fourth quarter of 2001, due to anticipated increased lift truck shipments and lower operating expenses as a result of previously initiated cost reduction programs, including restructuring programs, procurement initiatives and other strategic programs. NMHG Wholesale also expects to continue incurring increased interest expense and amortization of deferred financing fees as a result of the May 2002 refinancing of NMHG's debt.

NMHG Retail

NMHG Retail expects to continue its programs to improve the performance of its wholly owned dealerships as part of its objective for reaching at least break-even results.

NMHG Consolidated - Pension Cost

Based on actuarial calculations performed in accordance with SFAS No. 87, "Employers' Accounting for Pensions," as of September 30, 2002, the measurement date for the Company's pension plans, the Company expects an increase in its pension expense for 2003 as compared with 2002 of \$1.6 million pre-tax. In addition, the Company will recognize an additional minimum pension liability adjustment in the fourth quarter of 2002 to reflect the amount that the pension plans' accumulated benefit obligation exceeds the plans' assets in excess of amounts previously accrued for pension costs. A large portion of this minimum pension liability adjustment will be reflected as a reduction to stockholder's equity as a component of accumulated other comprehensive income (loss).

The statements contained in this Form 10-Q that are not historical facts are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are made subject to certain risks and uncertainties which could cause actual results to differ materially from those presented in these forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Such risks and uncertainties with respect to the Company's operations include, without limitation:

- (1) changes in demand for lift trucks and related aftermarket parts and service on a worldwide basis, especially in the U.S. where the company derives a majority of its sales,
- (2) changes in sales prices,
- (3) delays in delivery or changes in costs of raw materials or sourced products and labor,
- (4) delays in manufacturing and delivery schedules,
- (5) exchange rate fluctuations, changes in foreign import tariffs and monetary policies and other changes in the regulatory climate in the foreign countries in which NMHG operates and/or sells products,
- (6) product liability or other litigation, warranty claims or returns of products,
- (7) delays in or increased costs of restructuring programs,
- (8) the effectiveness of the cost reduction programs implemented globally, including the

Edgar Filing: NMHG HOLDING CO - Form 10-Q

successful implementation of procurement initiatives, (9) acquisitions and/or dispositions of dealerships by NMHG, (10) costs related to the integration of acquisitions, (11) the impact of the introduction of the euro, including increased competition, foreign currency exchange movements and/or changes in operating costs and (12) the uncertain impact on the economy or the public's confidence in general from terrorist activities and the consequent climate of war.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures: We maintain a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Within the 90-day period prior to the filing of this report, an evaluation was carried out under the supervision and with the participation of the Company's management, including the Principal Executive Officer and the Principal Financial Officer, of the effectiveness of our disclosure controls and procedures. Based on that evaluation, these officers have concluded that the Company's disclosure controls and procedures are effective.

Changes in internal controls: Subsequent to the date of their evaluation, there have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls, including any corrective action with regard to significant deficiencies and material weaknesses.
