Court dismisses a Motion for Class Action Against Matav

NETANYA, Israel, February 16, 2006 **Matav- Cable Systems Media Ltd. (Nasdaq: MATV News)**, a leading Israeli provider of digital cable television services, today announced that the Tel-Aviv-Jaffa District Court denied a motion to recognize a class action against Matav which was filed on April 22, 1999. The previously reported motion alleged, inter alia, that Matav constitutes a monopoly and that it adversely exploited its position in the market, in a manner which is, or may be, damaging to the general public by setting and collecting an unreasonable and unfair fee for its services.

As detailed above the District Court denied the motion on February 16, 2006.

Matav is one of Israel's three cable television providers, serving roughly 25 percent of the population. Matav's current investments include 1.2 percent of Partner Communications Ltd., a GSM mobile phone company and 10 percent of Barak I.T.C. (1995) Ltd., one of the three international telephony providers in Israel.
