Report of the Audit Committee on the Audit of Our Financial Statements

The following is the report of the Audit Committee with respect to BioTime’s audited financial statements for the year ended December 31, 2012. The information contained in this report shall not be deemed “soliciting material” or otherwise considered “filed” with the SEC, and such information shall not be incorporated by reference into any future filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, except to the extent that BioTime specifically incorporates such information by reference in such filing.

The members of the Audit Committee, other than Mr. Farrell who was not then a member of the Audit Committee, held discussions with our management and representatives of Rothstein Kass, our independent registered public accountants, concerning the audit of our financial statements for the year ended December 31, 2012. The independent public accountants are responsible for performing an independent audit of our consolidated financial statements and issuing an opinion on the conformity of those audited financial statements with generally accepted accounting principles. Our auditors also audit our internal control over financial reporting. The Audit Committee does not itself prepare financial statements or perform audits, and its members are not auditors or certifiers of BioTime’s financial statements.

The Audit Committee members, other than Mr. Farrell, reviewed and discussed with management and representatives of the auditors the audited financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2012. Our auditors also discussed with the Audit Committee, other than Mr. Farrell, the adequacy of BioTime’s internal control over financial reporting.

The Audit Committee members, other than Mr. Farrell, discussed with the auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees). Our auditors submitted to the Audit Committee the written disclosures and the letter mandated by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence. Based on the reviews and discussions referred to above, the Audit Committee, other than Mr. Farrell who was not then a member of the Committee, unanimously approved the inclusion of the audited financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission (the "SEC").

The Audit Committee also met on a quarterly basis with the auditors during 2012 to review and discuss our financial statements for the quarter and the adequacy of internal control over financial reporting. Two of the current members of the Audit Committee, Mr. Farrell and Dr. von Eschenbach, did not participate in those quarterly meetings during 2012 because they did not join the Committee until March 19, 2013 and December 20, 2012, respectively.

Compensation Discussion and Analysis

Elements of Executive Compensation

Our compensation policies have been influenced by the need to attract and retain executives with the scientific and management expertise to conduct our research and product development program in a highly competitive industry dominated by larger, more highly capitalized companies. The compensation we provide our executive officers currently has the following primary components:

- Base salary;
- annual cash bonuses based on corporate and individual performance;
- long-term incentives in the form of stock options;
- health insurance; and
- 401(k) plan participation with employer contributions.

In determining compensation for our executive officers, the Compensation Committee considers a variety of factors. For 2012 compensation, the most important factors were:

- BioTime's and its subsidiaries' growth and progress in scientific research;
- extraordinary performance by an individual during the year;
 - retention concerns;
 - the executive's tenure and experience;
 - the executive's historical compensation;
 - market data;
- our financial position and capital resources; and
 - fairness.

In reviewing each executive's overall compensation, the Compensation Committee considers an aggregate view of base salary and bonus opportunities, previous stock option grants, and the dollar value of benefits and perquisites. Executive compensation is also influenced by the cost of living in the San Francisco Bay Area. These factors have been balanced against our financial position and capital resources. In evaluating the compensation of executive officers, the Compensation Committee considers input from the Chief Executive Officer who is most familiar with their performance.

BioTime is a growing company and our compensation policies are still evolving. In course of BioTime's growth and integration of newly acquired companies, we may implement new compensation plans and policies and modify existing ones. Accordingly, executive compensation paid during 2012 may or may not be reflective of the compensation that will be paid during subsequent years, except to the extent that the executives receive compensation under employment agreements that continue in effect during those years. In this regard, the Compensation Committee may consider the implementation of performance based bonus programs under which awards would be based upon the attainment of pre-set quantified bench marks or goals. The Compensation Committee may, as permitted by the Compensation Committee Charter, engage the services of an independent executive compensation consulting firm to review our current compensation plans and procedures and to provide additional information about comparative compensation offered by peer companies, market survey information, and information about trends in executive compensation.

Base Salaries

The minimum base salaries of Michael D. West, our Chief Executive Officer, Robert W. Peabody, our Senior Vice President and Chief Operating Officer, Peter S. Garcia, our Chief Financial Officer, and William P. Tew, our Chief Commercial Officer are defined by their respective employment agreements which were approved by the Board of Directors, without the vote of Dr. West in the case of his employment agreement. The base salaries for our executive officers were established based on the scope of their responsibilities and are intended to be competitive with the compensation paid to executives with comparable qualifications, experience and responsibilities in similar businesses of comparable size. Base salaries are reviewed annually and adjusted from time to time to realign salaries with market levels and to reflect the growth of the company and the increasing responsibilities of the executives.

During the past year three years, BioTime has organized or acquired new subsidiaries through which it is conducting its regenerative medicine and stem cell research business. The organization of BioTime Asia, Limited and LifeMap Sciences, Inc., the acquisition of ES Cell International Pte Ltd., and the acquisition of a controlling interest in CellCure Neurosciences, Ltd. has transformed BioTime into an international company, and has placed greater demands on the time and efforts of Dr. West, Mr. Peabody, and Mr. Garcia, including overseas travel in the management and oversight of our offshore companies. The Committee also expects the inception of operations by Asterias and the integration of its technology with BioTime's following the completion of the asset contribution transaction under the Asset Contribution Agreement among Asterias, BioTime and Geron Corporation will result in a significant demand on the time of Dr. West.

During February 2013, the Compensation Committee reviewed the base salaries of Dr. West, Mr. Peabody, Mr. Garcia, and Dr. Tew which had been set at \$660,500, \$386,900, 324,000 and \$265,000 during 2012, which included \$300,000 and \$150,000 that Dr. West and Mr. Peabody, respectively, received from BioTime subsidiaries. Based on a comparison of those salaries to salaries paid by competing companies, including companies located in the San Francisco Bay area, and increased support of BioTime's subsidiaries, the Compensation Committee determined that, commencing in 2013, Dr. West will receive a base annual salary of \$680,315, including \$440,315 from BioTime and \$240,000 from BioTime subsidiaries. Mr. Peabody will receive a base annual salary of \$367,607, including \$247,607 from BioTime, and \$120,000 from BioTime subsidiaries, provided that \$30,000 from BioTime Asia, Limited will be eliminated after the closing of the Asset Contribution Agreement transaction among BioTime, Asterias, and Geron

Corporation with the potential of his salary being increased based upon his role at Asterias, which has yet to be determined.

The Compensation Committee approved a base annual salary of \$374,000 for Mr. Garcia, including \$274,000 from BioTime and \$100,000 from Asterias, reflecting the significance of his role as Chief Financial Officer of that subsidiary, resulting in a net increase of \$50,000 in his total salary from BioTime and subsidiaries.

The Committee reviewed Dr. Tew's base salary and determined that his annual salary should be set at \$285,000 based upon his salary increase in mid-2012, and the shift of focus of his job responsibilities from commercialization of research products to the development of Renevia™. The Committee may review Dr. Tew's base salary and consider whether a larger increase is merited based upon further review of the scope of Dr. Tew's responsibilities and progress made in the clinical product development of Renevia™ in 2013.

Bonuses

Bonuses may be earned by each executive officer based upon the achievement of personal goals established in the executive's employment agreement, or based upon the personal performance of an executive in helping the company or a subsidiary attain its strategic objectives, as determined by the Compensation Committee. Because we are still conducting research and development, and have not attained a level of profitability, the use of performance milestones based upon profit levels and return on equity as the basis for incentive compensation has not been considered appropriate. Instead, the incentive awards in the past have been tied to the achievement of company strategic goals and personal performance. Personal performance is related to the functional responsibility of each executive officer. Important milestones that have been considered by the Compensation Committee or the Board of Directors in determining incentive bonuses or bonus provisions in employment agreements in the past have included (i) procuring additional capital and research grants, (ii) licensing products and technology, (iii) completing specified research and development goals, and (iv) achieving organizational goals such as the acquisition of other businesses and the integration of those businesses into our organization.

The Committee considered executive accomplishments and performance during 2012 for bonus awards, along with financial factors, including our cash position and commitments, and the status of the pending asset acquisition by Asterias. The Committee recommended the discretionary bonuses for 2012 be awarded to Dr. West, Mr. Garcia, and Dr. Tew in the amounts of \$35,000, \$100,000, and \$20,000, respectively, which were paid in February 2013. In addition, contracted bonuses were awarded to Dr. West and Mr. Peabody in the amounts of \$65,000 and \$45,000, respectively, the details of which are described below.

Funding for research is critical to our business. Under his employment agreement, Dr. West is entitled to receive an annual bonus equal to the lesser of (A) \$65,000 or (B) the sum of 65% of Consulting Fees and 6.5% of Grant Funds we receive during each fiscal year; provided that (x) we obtained the grant that is the source of the Grant Funds during the term of his employment, (y) the grant that is the source of the Grant Funds is not a renewal, extension, modification, or novation of a grant (or a new grant to fund the continuation of a study funded by a prior grant from the same source) obtained by us prior to his employment, and (z) the grant that is the source of the Grant Funds was not obtained by us substantially through the efforts of any consultant or independent contractor compensated by us for obtaining the grant. Grant Funds means money actually paid to us during a fiscal year as a research grant by any federal or state government agency or any not for profit non-government organization, and expressly excludes (1) license fees, (2) royalties, (3) Consulting Fees, (4) capital contributions to us or any of our subsidiaries, or any joint venture of any kind (regardless of the legal entity through which the joint venture is conducted) to which we are a party, and (5) any other payments received by us from a business or commercial enterprise for research and development of products or technology pursuant to a contract or agreement for the commercial development of a product or technology. Consulting Fees means money we receive under a contract that entitles us to receive a cash fee for providing scientific and technical advice to third parties concerning stem cells. During 2012, Dr. West received a bonus of \$65,000 based on BioTime's receipt of Grant Funds.

Under his employment agreement, Mr. Peabody is entitled to receive an annual bonus equal to the lesser of (A) \$45,000 or (B) the sum of 35% of Consulting Fees and 3.5% of Grant Funds determined on the same basis used to determine the annual bonus under Dr. West's employment agreement. During 2012, Mr. Peabody received a bonus of \$45,000 based on BioTime's receipt of Grant Funds.

Stock Option Awards

Stock options are an important part of the compensation packages for BioTime's employees, directors, and consultants. We strongly believe that attracting and retaining the services of employees, directors, and consultants depends in great measure upon the ability of BioTime and its subsidiaries to provide the kind of incentives that are derived from the ownership of stock and stock options, which are offered by competing pharmaceutical development and bio-technology companies. This is especially true for us and our subsidiaries since the base compensation that we and our subsidiaries offer is often lower than the compensation packages offered by competing companies. For these reasons, six of our subsidiaries have adopted stock option plans with the approval of our Board of Directors, including the independent directors. One of our other subsidiaries, CellCure Neurosciences, Ltd., had already adopted its own stock option plan before we acquired our interest in that subsidiary.

Our stock options programs are intended to align the long-term interests of executives with the interests of shareholders by offering potential gains if our stock price increases, and to provide incentives for employees to work towards the long-term success of BioTime and its subsidiaries by using vesting schedules over several years. We use a combination of BioTime stock options and subsidiary stock options. Because of the direct relationship between the value of a BioTime stock option and the increased market price of our common shares after the grant date, we feel that stock options will continue to be important to motivate our executive officers and employees to manage BioTime in a manner that is consistent with both the long-term interests of our shareholders and our business objectives.

We believe that having subsidiaries that focus on particular disease therapies or research products will facilitate the optimization of scientific and commercial collaborations, thereby improving the probability that a subsidiary company will eventually become an industry leader. We also believe that high-quality executives are likely to be more attracted to managing subsidiary companies than to heading divisions within a larger company. The organization of our regenerative medicine business into subsidiaries has also facilitated our ability to obtain financing for our regenerative medicine programs. We believe that granting stock options in a subsidiary company provides incentives for executives and other employees to work towards the long-term success of that subsidiary so that it can grow to become a self-sufficient, "stand alone" company, at which time holders of stock in the subsidiary may realize value for their subsidiary shares.

The stock option plans of BioTime and its subsidiaries also permit the sale of restricted stock in lieu of granting stock options. Although we have not sold restricted stock to executives, we may do so in the future. The ownership of restricted stock requires the executive to make a current financial commitment to the company, which we believe may strengthen the executive's ties to the company, especially in the case of a subsidiary where no public market exists for its common stock. The purchase of restricted stock may also offer long-term tax advantages to the executives. Our new Equity Incentive Plan also permits us to award (a) stock appreciation rights through which executives may receive cash awards based upon the excess of the market price of our common shares over the strike price of the stock appreciation rights granted, and (b) restricted stock units through which an executive may receive common shares or cash payments upon the vesting of the units and satisfaction of any conditions of the award.

We and our subsidiaries did not grant any stock options to our executive officers during 2012.

During February 2013, the Committee recommended to the Board of Directors that annual grants of stock options be made to executive officers and other employees based upon their professional level in the organization and their annual performance using the following matrix as a guideline:

Position	Number of Option Shares
Chief Executive Officer	200,000
Senior Executive/Officer	100,000
Vice President/Senior Director	50,000
Director/Manager	25,000
Senior Professional	10,000
Technical/Administrative	5,000

Consistent with that recommendation, the Committee recommended, and the Board of Directors has approved, the following stock option grants to executive officers:

Name	Position	Number of Option Shares
Michael D. West	Chief Executive Officer	200,000
Robert W. Peabody	Sr. V.P. Chief Operating Officer	100,000
Peter S. Garcia	Chief Financial Officer	100,000
William P. Tew	Chief Commercial Officer	100,000

The stock options were granted under the new Equity Incentive Plan and are conditioned upon shareholder approval of the Plan.

Severance and Change of Control Payments

The employment agreements of our executive officers contain provisions entitling them to severance benefits in the event that their employment is terminated by us or following a "Change of Control" of BioTime.

If we terminate Dr. West's or Mr. Peabody's employment without "cause" as defined in their respective employment agreements the terminated executive will be entitled to severance benefits, consisting of payment of six months base salary, and 50% of his then unvested BioTime stock options will vest. However, if a termination of the executive's employment without "cause" occurs within twelve months following a "Change of Control," he will be entitled to twelve months base salary, and 100% of his then unvested BioTime options will vest.

If we terminate Mr. Garcia's employment without "cause" as defined in his employment agreement, he will be entitled to severance benefits consisting of payment of six months base salary which may be paid in a lump sum or, at the election of the BioTime, in installments consistent with the payment of his salary while employed by the BioTime, and 50% of his then unvested BioTime stock options will vest. However, if a termination of the Mr. Garcia's employment without "cause" occurs within twelve months following a "Change of Control," he will be entitled to twelve months base salary, and 100% of his then unvested BioTime options will vest.

If we terminate Dr. Tew’s employment without “cause” as defined in his employment agreement, he will be entitled to severance benefits consisting of payment of six months base salary which may be paid in a lump sum or, at the election of BioTime, in installments consistent with the payment of his salary while employed by BioTime.

In order to receive the severance benefits, the executive must execute a general release of all claims against BioTime and must return all BioTime property in the executive’s possession.

“Change of Control” means (A) the acquisition of our voting securities by a person or an Affiliated Group entitling the holder to elect a majority of our directors; provided, that an increase in the amount of voting securities held by a person or Affiliated Group who on the date of the Employment Agreement beneficially owned (as defined in Section 13(d) of the Securities Exchange Act of 1934, as amended, and the regulations thereunder) more than 10% of our voting securities shall not constitute a Change of Control; and provided, further, that an acquisition of voting securities by one or more persons acting as an underwriter in connection with a sale or distribution of voting securities shall not constitute a Change of Control, (B) the sale of all or substantially all of our assets; or (C) a merger or consolidation in which we merge or consolidate into another corporation or entity in which our shareholders immediately before the merger or consolidation do not own, in the aggregate, voting securities of the surviving corporation or entity (or the ultimate parent of the surviving corporation or entity) entitling them, in the aggregate (and without regard to whether they constitute an Affiliated Group) to elect a majority of the directors or persons holding similar powers of the surviving corporation or entity (or the ultimate parent of the surviving corporation or entity). A Change of Control shall not be deemed to have occurred if all of the persons acquiring our voting securities or assets, or merging or consolidating with us, are one or more of our direct or indirect subsidiaries or parent corporations. "Affiliated Group" means (A) a person and one or more other persons in control of, controlled by, or under common control with, such person; and (B) two or more persons who, by written agreement among them, act in concert to acquire voting securities entitling them to elect a majority of our directors. “Person” includes both people and entities.

The following tables show certain information relating to the compensation of our Chief Executive Officer and our Chief Financial Officer, and our Senior Vice-President and Chief Operating Officer, and Chief Commercial Officer who were our only other executive officers whose compensation exceeded \$100,000 during 2012, who are collectively referred to as the “Named Executive Officers.”

- (1) These options were granted upon his employment with BioTime and were fully vested and exercisable as of December 31, 2012.
 - (2) These options become exercisable in equal monthly installments from the date of grant over a four year period provided that Dr. West remains an employee or director of OncoCyte or BioTime.
 - (3) These options become exercisable in equal monthly installments from the date of grant over a four year period provided that Dr. West remains an employee or director of OrthoCyte or BioTime.

 - (6) These options become exercisable in equal monthly installments from the date of grant over a forty-two month period provided that Dr. West remains an employee or director of LifeMap Sciences, Inc. or BioTime. The LifeMap Sciences stock option plan originally authorized the sale of up to 8,000,000 shares of its common stock through the exercise of stock options or under restricted stock purchase agreements. During 2012, the LifeMap Sciences stock option plan was amended to reflect a 1 for 4 reverse stock split and a change in the plan that resulted in the reduction of certain options granted. As a result, the total number of shares that may be issued under the plan was adjusted to 1,842,269. Dr. West was originally granted 625,000 options under the LifeMap Sciences stock option plan. However as a result of the 1 for 4 reverse stock split and the change in the plan aforementioned, the 625,000 options originally granted at an exercise price of \$0.08333 per share were adjusted to 44,642 options at an exercise price of \$0.50 per share.
 - (7) These options become exercisable in equal monthly installments from the date of grant over a four year period provided that Mr. Peabody remains an employee or director of OncoCyte or BioTime.

 - (11) These options become exercisable in equal monthly installments from the date of grant over a forty-two month period provided that Mr. Peabody remains an employee or director of LifeMap Sciences, Inc. or BioTime. The LifeMap Sciences stock option plan originally authorized the sale of up to 8,000,000 shares of its common stock through the exercise of stock options or under restricted stock purchase agreements. During 2012, the LifeMap Sciences stock option plan was amended to reflect a 1 for 4 reverse stock split and a change in the plan that resulted in the reduction of certain options granted. As a result, the total number of shares that may be issued under the plan was adjusted to 1,842,269. Mr. Peabody was originally granted 312,500 options under the LifeMap Sciences stock option plan. However as a result of the 1 for 4 reverse stock split and the change in the plan aforementioned, the 312,500 options originally granted at an exercise price of \$0.08333 per share were

adjusted to 22,321 options at an exercise price of \$0.50 per share.

(12) These options become exercisable in equal monthly installments from the date of grant over a four year period during the term of Mr. Garcia's employment.

(13) These options become exercisable in equal monthly installments from the date of grant over a four year period during the term of Dr. Tew's employment.

Option Exercises and Stock Awards Vested in 2012

The following table includes certain information with respect to BioTime stock options exercised by our Named Executive Officers during the year ended December 31, 2012.

Name	Option Awards	
	Number of Shares Acquired On Exercise (#)	Value Realized on Exercise (\$)
Michael D. West	20,000	\$78,800
Robert W. Peabody	-	\$-
Peter S. Garcia	-	\$-
William P. Tew	-	\$-

Potential Payments Upon Termination or Change in Control

As discussed above, under the terms of their employment agreements, certain BioTime executive officers may receive severance payments upon termination of their employment without "cause" or following a "Change of Control" of BioTime. The table below summarizes the potential severance payments under the individual employment agreements for those executive officers if a termination without "cause" or a Change of Control event occurred on December 31, 2012.

Officer and Position	Benefit	Before Change in Control Termination w/o Cause (1)	After Change of Control Termination w/o Cause
Michael D. West, Chief Executive Officer	Cash Payment(1) Option Vesting(2)	\$ 180,250 - -	\$ 360,500 - -
Robert W. Peabody, Senior Vice President and Chief Operating Officer	Cash Payment(1) Option Vesting(2)	\$ 118,450 - -	\$ 236,900 - -
Peter S. Garcia, Chief Financial Officer	Cash Payment (1) Option Vesting(2)	\$ 81,000 - -	\$ 324,000 - -
William P. Tew, Chief Commercial Officer	Cash Payment(1) Option Vesting(2)	\$ 59,375 - -	\$ 59,375 - -

(1) Amounts represent lump sum severance payments that could be paid to the executive officer under such executive's employment agreement as of December 31, 2012.

(2) Amounts represent an estimate of the intrinsic value of options that would become fully vested and exercisable based on a market value of \$3.14 per common share as of December 31, 2012. The estimated value for Dr. West and Mr. Peabody are zero as their options were fully vested. The estimated value for Mr. Garcia and Dr. Tew are zero as their exercise price is greater than the closing stock price on December 31, 2012.

Other Compensation Plans

We do not have any pension plans, defined benefit plans, or non-qualified deferred compensation plans. We do make contributions to 401(k) plans for participating executive officers and other employees.

Consideration of Shareholder Advisory Vote on Executive Compensation.

The results of our last advisory vote on executive compensation showed that 99% of the shares that voted approved the compensation we provided to our "Named Executive Officers" during 2010. Our Compensation Committee is pleased that our shareholders have express satisfaction with the Committee's compensation decisions. The compensation policies applied by the Compensation Committee in determining the compensation of our executive officers during 2012 were consistent with those applied in setting the compensation amounts for 2010 that were approved by our shareholders' advisory vote last year.

Risk Considerations and Recoupment Policies

The Compensation Committee considers, in establishing and reviewing the executive compensation program, whether the program encourages unnecessary or excessive risk taking. Our executive compensation arrangements include a fixed salary that provides a steady income so that executives do not feel pressured to focus exclusively on stock price performance or short term financial targets to the detriment of our long-term operational and strategic objectives. We supplement fixed salaries with discretionary bonus awards based on the executive's performance as well as the performance of BioTime and its subsidiaries, and bonus awards based on BioTime's receipt of research grant funding. The stock options that we have granted to our executive officers under the Equity Incentive Plan vest over four years, assuring that the executives take a long-term perspective in viewing their equity ownership.

Because BioTime has not adopted compensation plans, or made incentive awards, based on quantified financial performance measures, we have not adopted specific policies regarding the adjustment or recovery of awards or payments if the relevant performance measures are restated or otherwise adjusted in a manner that would reduce the size of an award or payment. We may adopt such policies, however, if we adopt incentive compensation plans or grant incentive bonuses based on financial performance measures.

Tax Considerations

Section 162(m) of the Internal Revenue Code places a \$1 million limit on the amount of compensation that a company can deduct in any one year for compensation paid to its chief executive officer and the three most highly-compensated executive officers employed by the company at the end of the year, other than the company's chief financial officer. The \$1 million deduction limit does not apply to compensation that is performance-based and provided under a shareholder-approved plan. The Compensation Committee has never awarded cash compensation, in the form of salary and bonuses, in excess of the \$1 million limit. BioTime's stock option awards are designed to qualify for tax deductibility. Notwithstanding the foregoing, we may elect to pay compensation to executive officers that may not be fully deductible if we believe that is necessary to attract, retain and reward high-performing executives.

Item 13. Certain Relationships and Related Transactions and Director Independence

Certain Transactions

Since July 1 2009, Alfred D. Kingsley has made available to us the use of approximately 900 square feet of office space in New York City. We pay the office building owner \$5,050 per month for the use of the space.

During July 2012, Alfred D. Kingsley and his affiliate Greenway Partners, L.P. entered into a Share Exchange and Contribution Agreement (the "LifeMap Agreement") with our subsidiary LifeMap Sciences, Inc. pursuant to which Mr. Kingsley and Greenway agreed to contribute to LifeMap Sciences, in the aggregate, BioTime common shares having an aggregate value of not less than \$2,000,000 and not more than \$3,000,000 (determined as provided in the LifeMap Agreement) in exchange for shares of LifeMap Sciences common stock, no par value, at an initial price of \$1.75 per LifeMap Sciences share. Pursuant to the LifeMap Agreement, during July 2012, Mr. Kingsley contributed 140,000 BioTime common shares and Greenway contributed 280,000 BioTime common shares to LifeMap Sciences and received in exchange, respectively, 381,288 and 762,576 shares of LifeMap Sciences common stock. The number of shares of LifeMap Sciences common stock issued was determined by multiplying the number of BioTime common shares contributed by the highest weighted average closing price per share on the NYSE MKT for any ten trading days during the period from June 15, 2012 through July 31, 2012 (the "First Outside Date"), and dividing that amount by \$1.75 which was the agreed Exchange Price Per Share of LifeMap Sciences common stock.

The LifeMap Agreement provided that if the BioTime common shares contributed to LifeMap Sciences by Mr. Kingsley and Greenway were valued at less than \$3,000,000 on the First Outside Date, they could contribute additional BioTime common shares to LifeMap Sciences so that the total number of BioTime common shares so contributed would have a total value of \$3,000,000. Any additional BioTime common shares so contributed would be valued as of September 30, 2012 (the "Second Outside Date") at the highest weighted average closing price per share on the NYSE MKT for any ten trading days during the period from August 1, 2012 through the Second Outside Date. The LifeMap Agreement was subsequently amended to extend the Second Outside Date to December 14, 2012. On December 14, 2012, Mr. Kingsley and Greenway contributed, respectively, 57,511 and 115,022 additional BioTime common shares to LifeMap Sciences and received, respectively, 142,522 and 285,044 shares of LifeMap Sciences common stock. The additional BioTime common shares so contributed were valued as of December 14, 2012 at the highest weighted average closing price per share on the NYSE MKT for any ten trading days during the period from August 1, 2012 through December 14, 2012.

Under the LifeMap Agreement, the Exchange Price Per Share was subject to reduction, and additional shares of LifeMap Sciences common stock would have been issued in exchange for the BioTime common shares received by LifeMap Sciences, if on or before December 31, 2012 LifeMap Sciences sold shares of its common stock or other securities exercisable or exchangeable for, or convertible into, its common stock for a price per share of common stock lower than \$1.75, other than pursuant to options granted under LifeMap Sciences' stock option plan. However, no sales of LifeMap Sciences common stock or other securities at prices lower than \$1.75 occurred prior to that date and no such adjustment was made.

We have filed a registration statement to register the BioTime common shares received by LifeMap Sciences for resale under the Securities Act, and LifeMap Sciences may then sell some or all of those shares from time to time to finance its operations.

As a result of the exchange of BioTime common shares for shares of LifeMap Sciences common stock by Mr. Kingsley and Greenway, and by virtue of the grant of options to purchase 22,321 shares of LifeMap Sciences common stock to Mr. Kingsley during March 2011 which vest in equal monthly installments over a four-year period, Mr. Kingsley beneficially owned 13.5% of the outstanding shares of LifeMap Sciences common stock as of April 29, 2013. Mr. Kingsley is the Chairman of our Board of Directors and is a member of the Board of Directors of LifeMap Sciences. The LifeMap Agreement was approved by LifeMap Sciences' Board of Directors, without the vote of Mr. Kingsley, and by our Audit Committee pursuant to our Related Person Transaction Policy.

Related Person Transaction Policy

During April 2011, we adopted a Related Person Transaction Policy that applies to transactions exceeding \$120,000 in which any of our officers, directors, beneficial owners of more than 5% of our common shares, or any member of their immediate family, has a direct or indirect material interest, determined in accordance with the policy (a "Related Party Transaction"). A Related Party Transaction must be reported to our outside legal counsel, our Chief Operating Officer, and our Chief Financial Officer, and will be subject to review and approval by our Audit Committee prior to effectiveness or consummation, to the extent practical. In addition, any Related Party Transaction that is ongoing in nature will be reviewed by the Audit Committee annually to ensure that the transaction has been conducted in accordance with any previous approval and that all required disclosures regarding the transaction are made.

As appropriate for the circumstances, the Audit Committee will review and consider:

- the interest of the officer, director, beneficial owner of more than 5% of our common shares, or any member of their immediate family (“Related Person”) in the Related Person Transaction;
 - the approximate dollar value of the amount involved in the Related Person Transaction;
- the approximate dollar value of the amount of the Related Person’s interest in the transaction without regard to the amount of any profit or loss;
 - whether the transaction was undertaken in the ordinary course of our business;
- whether the transaction with the Related Person is proposed to be, or was, entered into on terms no less favorable to us than terms that could have been reached with an unrelated third party;
 - the purpose of, and the potential benefits to the transaction to us; and
- any other information regarding the Related Person Transaction or the Related Person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee will review all relevant information available to it about a Related Person Transaction. The Audit Committee may approve or ratify the Related Person Transaction only if the Audit Committee determines that, under all of the circumstances, the transaction is in, or is not in conflict with, our best interests. The Audit Committee may, in its sole discretion, impose such conditions as it deems appropriate on us or the Related Person in connection with approval of the Related Person Transaction.

A copy of our Related Person Transaction Policy can be found on our website at www.biotimeinc.com.

Director Independence

Our Board of Directors has determined that Neal C. Bradsher, Arnold I. Burns, Stephen C. Farrell, Pedro Lichtinger, and Andrew C. von Eschenbach qualify as “independent” in accordance with Section 803(A) of the NYSE MKT Company Guide. The members of our Audit Committee and our Compensation Committee also meet the independence standards under Section 803(B)(2) of the NYSE MKT Company Guide and Section 10A-3 under the Securities Exchange Act of 1934, as amended. Abraham E. Cohen, who served as a director and member of our Audit Committee, our Compensation Committee, and our Nominating/Corporate Governance Committee until his death during November 2012, was also “independent” under those standards.

The only compensation or remuneration that BioTime has provided to Mr. Bradsher, Mr. Burns, Mr. Farrell, Mr. Lichtinger, and Dr. von Eschenbach during their tenure as directors has been, and for Mr. Cohen was, compensation as non-employee directors. None of these directors, nor any of the members of their families, have participated in any transaction with us that would disqualify them as “independent” directors under the standard described above.

Michael D. West and Judith Segall do not qualify as “independent” because they are our full-time employees. Alfred D. Kingsley does not qualify as “independent” because he receives compensation for serving in an executive role as Chairman of certain of our subsidiaries.

Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Exchange Act requires our directors and executive officers and persons who own more than ten percent (10%) of a registered class of our equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of common shares and other BioTime equity securities. Officers, directors and greater than ten percent beneficial owners are required by SEC regulations to furnish us with copies of all reports they file under Section 16(a).

To our knowledge, based solely on our review of the copies of such reports furnished to us, all Section 16(a) filing requirements applicable to our officers, directors, and greater than ten percent beneficial owners were complied with during the fiscal year ended December 31, 2012.

Item 14. Principal Accounting Fees and Services

Rothstein Kass has served as our independent registered public accountants since February 2007 and audited our annual financial statements for the fiscal years ended December 31, 2012 and December 31, 2011.

Audit and Quarterly Review Fees. Rothstein Kass billed us \$323,500 in 2012 and \$203,000 in 2011, respectively, for the audit of our annual financial statements and for the review of our financial statements included in our quarterly reports on Form 10-Q.

Tax Fees. Rothstein Kass billed us \$65,000 and \$62,000, respectively, for review and preparation of U.S. federal, state, and local tax returns during the fiscal years ended December 31, 2012 and December 31, 2011.

The prior approval of the Board of Directors or Audit Committee is required for the engagement of our auditors to perform any non-audit services for us. Other than de minimis services incidental to audit services, non-audit services shall generally be limited to tax services such as advice and planning and financial due diligence services. All fees for such non-audit services must be approved by the Board of Directors or Audit Committee, except to the extent otherwise permitted by applicable SEC regulations.
