### PEAPACK-GLADSTONE FINANCIAL CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Certain information and footnote disclosures normally included in the unaudited consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Annual Report on Form 10-K for the period ended December 31, 2007 for Peapack-Gladstone Financial Corporation (the "Corporation").

Principles of Consolidation: The Corporation considers that all adjustments necessary for a fair presentation of the statement of the financial position and results of operations in accordance with U.S. generally accepted accounting principles for these periods have been made. Results for such interim periods are not necessarily indicative of results for a full year.

The consolidated financial statements of Peapack-Gladstone Financial Corporation are prepared on the accrual basis and include the accounts of the Corporation and its wholly owned subsidiary, Peapack-Gladstone Bank. All significant intercompany balances and transactions have been eliminated from the accompanying consolidated financial statements.

Allowance for Loan Losses: The allowance for loan losses is maintained at a level considered adequate to provide for probable incurred loan losses in the Corporation's loan portfolio. The allowance is based on management's evaluation of the loan portfolio considering, among other things, current economic conditions, the volume and nature of the loan portfolio, historical loan loss experience, and individual credit situations. The allowance is increased by provisions charged to expense and reduced by charge-offs net of recoveries.

Stock Option Plans: The Corporation has stock option plans that allow the granting of shares of the Corporation's common stock as incentive stock options, nonqualified stock options, restricted stock awards and stock appreciation rights to directors, officers, employees and independent contractors of the Corporation and its subsidiaries. The options granted under these plans are exercisable at a price equal to the fair market value of common stock on the date of grant and expire not more than ten years after the date of grant. Stock options may vest during a period of up to five years after the date of grant.

For the three months ended March 31, 2008 and 2007, the Corporation recorded total compensation cost for share-based payment arrangements of \$101 thousand and \$45 thousand, respectively, with a recognized tax benefit of \$6 thousand and \$4 thousand for the three months ended March 31, 2008 and 2007, respectively.

As of March 31, 2008, there was approximately \$1.2 million of unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the Corporation's stock incentive plans. That cost is expected to be recognized over a weighted average period of 1.9 years.

For the Corporation's stock option plans, changes in options outstanding during the three months ended March 31, 2008 were as follows:

	Number of	Exercise Price	А	eighted verage xercise	•	gregate trinsic
(Dollars in thousands except share data)	Shares	Per Share		Price	٢	Value
Balance, December 31, 2007	583,812	\$ 13.62-\$32.14	\$	24.77		
Granted	64,860	24.57-27.04		24.59		
Exercised	(22,066)	16.86-18.23		17.50		
Forfeited	(100)	27.90		27.90		
Balance, March 31, 2008	626,506	\$ 13.62-\$32.14	\$	25.01	\$	1,931
Options exercisable, March 31, 2008	496,757				\$	1,764

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Corporation's closing stock price on the last trading day of the first quarter of 2008 and the exercise price, multiplied by the number of in-the-money options).

The aggregate intrinsic value of options exercised during the three months ended March 31, 2008 and 2007 was \$172 thousand and \$211 thousand, respectively.

The per share weighted-average fair value of stock options granted during the first three months of 2008 and 2007 for all plans was \$10.79 and \$10.24, respectively, on the date of grant using the Black Scholes option-pricing model with the following weighted average assumptions:

	2008	2007
Dividend yield	2.37%	1.99%

Expected life	7 years	5 years
Risk-free interest rate	3.86%	4.56%

Earnings per Common Share – Basic and Diluted: The following is a reconciliation of the calculation of basic and diluted earnings per share. Basic net income per common share is calculated by dividing net income to common shareholders by the weighted average common shares outstanding during the reporting period. Diluted net income per common share is computed similarly to that of basic net income per common share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if all potentially dilutive common shares, principally stock options, were issued during the reporting period utilizing the Treasury stock method.

	Three Months Ended March 31,			
(In Thousands, except per share data)	2008		2007	
Net Income to Common Shareholders	\$ 3,463	\$	2,692	
Basic Weighted-Average Common Shares Outstanding	8,296,494		8,273,250	
Plus: Common Stock Equivalents	101,257		127,349	
Diluted Weighted-Average Common Shares Outstanding	8,397,751		8,400,599	
Net Income Per Common Share				

Basic	\$ 0.42	\$ 0.33
Diluted	0.41	0.32

Stock options with an exercise price below the Corporation's market price equal to 380,252 and 373,264 shares were not included in the computation of diluted earnings per share in the first quarters of 2008 and 2007, respectively because they were antidilutive.

8

### Table of Contents

Income Taxes: The Corporation files a consolidated Federal income tax return and separate state income tax returns for each subsidiary based on current laws and regulations.

The Corporation is no longer subject to examination by the U.S. Federal tax authorities for years prior to 2004 or by New Jersey tax authorities for years prior to 2003. The Corporation does not expect the total amount of unrecognized tax benefits to significantly increase in the next 12 months.

The Corporation recognizes interest related to income tax matters as interest expense and penalties related to income tax matters as other expense. The Corporation did not have any amounts accrued for interest and penalties at January 1, 2008.

Comprehensive Income: Comprehensive income consists of net income and the change during the period in the Corporation's pension benefit obligation and the net unrealized gains and losses on securities available for sale during the applicable period of time less adjustments for realized gains and losses. Total comprehensive income for the three months ended March 31, 2008 and 2007 was \$332 thousand and \$3.0 million, respectively.

Reclassification: Certain reclassifications have been made in the prior periods' financial statements in order to conform to the 2008 presentation.

### 2. LOANS

Loans outstanding as of March 31, 2008, and December 31, 2007, consisted of the following:

	Ν	March 31,		cember 31,	
(In thousands)		2008		2007	
Residential real estate	\$	494,806	\$	497,016	
Commercial real estate		249,654		237,316	
Commercial loans		132,478		129,747	
Construction loans		51,928		60,589	
Consumer loans		34,353		37,264	
Other loans		20,139		19,248	
Total loans	\$	983,358	\$	981,180	

Non-performing assets, which are loans past due in excess of 90 days and still accruing, non-accrual loans and other real estate owned totaled \$5.5 million at March 31, 2008 and \$2.1 million at December 31, 2007. Management believes that the value of the real estate exceeds the balance due on the loans and expects no loss.

### 3. FEDERAL HOME LOAN BANK ADVANCES AND OTHER BORROWINGS

Advances from the Federal Home Loan Bank of New York (FHLB) totaled \$40.7 million and \$29.2 million at March 31, 2008 and December 31, 2007, respectively, with a weighted average interest rate of 3.59 percent and 3.69 percent, respectively. Advances totaling \$13.0 million at March 31, 2008, have fixed maturity dates, while advances totaling \$4.7 million were amortizing advances with monthly payments of principal and interest. These advances are secured by blanket pledges of certain 1-4 family residential mortgages totaling \$27.5 million at March 31, 2008.

At March 31, 2008, the Corporation had \$23.0 million in fixed rates advances that are noncallable for one, two or three years and then callable quarterly within final maturities of three, five or ten years. These advances are secured by pledges of investment securities totaling \$24.4 million at March 31, 2008.

### Table of Contents

There were no overnight borrowings at March 31, 2008, while overnight borrowings at December 31, 2007 totaled \$15.7 million. For the three months ended March 31, 2008 and 2007, overnight borrowings from the FHLB averaged \$1.8 million with a weighted average interest rate of 3.98 percent and \$4.3 million with a weighted average interest rate of 5.37 percent, respectively.

The final maturity dates of the advances and other borrowings are scheduled as follows:

(In thousands)	
2008	\$ -
2009	2,000
2010	13,390
2011	3,000
2012	5,000
Over 5 years	17,268
Total	\$ 40,658

### 4. BENEFIT PLANS

The Corporation has a defined benefit pension plan covering substantially all of its salaried employees.

The net periodic expense for the periods indicated included the following components:

	Three Months Ended March 31,		
(In thousands)	2008 2007		
Service cost	\$ 434	\$	438
Interest cost	229		195
Expected return on plan assets	(289)		(252)
Amortization of:			
Net loss	9		9
Unrecognized prior service cost	-		-
Unrecognized remaining net assets	(2)		(2)
Net periodic benefit cost	\$ 381	\$	388

The Corporation expects to contribute \$1.1 million to its pension plan in 2008. As of March 31, 2008, contributions of \$270 thousand had been made for the current year.

5.

#### **BUSINESS SEGMENTS**

Late in 2007, the Corporation changed internal accounting and reporting processes in order to segregate and assess its results among two operating segments, Banking and Trust and adopted the new processes as of January 1, 2008. Management uses certain methodologies to allocate income and expense to the business segments. A funds transfer pricing methodology is used to assign interest income and interest expense to each interest-earning asset and interest-bearing liability on a matched maturity funding basis. Certain indirect expenses are allocated to segments. These include support unit expenses such as technology and operations and other support functions. Taxes are allocated to each segment based on the effective rate for the period shown.

Banking

The Banking segment includes commercial, commercial real estate, residential and consumer lending activities; deposit generation; operation of ATMs; telephone and internet banking services; merchant credit card services and customer support and sales.

### PGB Trust & Investments

PGB Trust & Investments includes asset management services provided for individuals and institutions; personal trust services, including services as executor, trustee, administrator, custodian and guardian; corporate trust services including services as trustee for pension and profit sharing plans; and other financial planning and advisory services.

The following table presents the statements of income and total assets for the Corporation's reportable segments for the three months ended March 31, 2008.

	PGB Trust					
		Banking	& In	vestments		Total
(In thousands)		2008		2008		2008
Net interest income	\$	9,803	\$	711	\$	10,514
Noninterest income		1,175		2,554		3,729
Total income		10,978		3,265		14,243
Provision for loan losses		430		-		430
Premises and equipment expense		1,828		212		2,040
Other noninterest expense		4,893		1,676		6,569
Total noninterest expense		7,151		1,888		9,039
Income before income tax expense		3,827		1,377		5,204
Income tax expense		1,280		461		1,741
Net income	\$	2,547	\$	916	\$	3,463
Total assets at period end	\$	1,395,184	\$	652	\$	1,395,836
6.	FAIR VALUE					

Statement 157 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) or identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

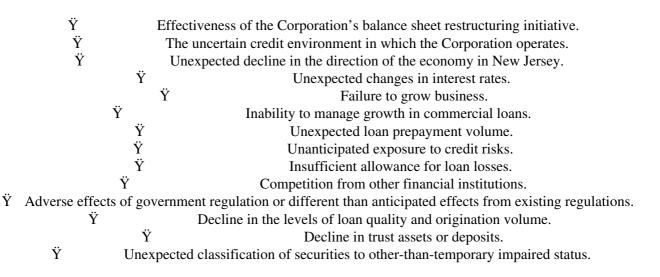

Assets Measured on a Recurring Basis

	Fair Value Measurements at March 31, 20 Using					
		Quoted Prices in Active Markets	Significant			
	March 31, 2008	For Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)		
Assets: Available for Sale Securities	\$ 228,885	\$ 2,711	\$ 226,174	\$-		

#### Item 2

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL: The following discussion and analysis contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are not historical facts and include expressions about management's view of future interest income and net loans, management's confidence and strategies and management's expectations about new and existing programs and products, relationships, opportunities and market conditions. These statements may be identified by such forward-looking terminology as "expect", "look", "believe", "anticipate", "may", "will", or similar statements or variations of such terms. Actual results may differ materially from such forward-looking statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following possibilities:

The Corporation assumes no responsibility to update such forward-looking statements in the future.

### Table of Contents

CRITICAL ACCOUNTING POLICIES AND ESTIMATES: "Management's Discussion and Analysis of Financial Condition and Results of Operations" is based upon the Corporation's consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires the Corporation to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Note 1 to the Corporation's Audited Consolidated Financial Statements included in the December 31, 2007 Annual Report on Form 10-K, contains a summary of the Corporation's significant accounting policies. Management believes the Corporation's policy with respect to the methodology for the determination of the allowance for loan losses involves a higher degree of complexity and requires management to make difficult and subjective judgments, which often require assumptions or estimates about highly uncertain matters. Changes in these judgments, assumptions or estimates could materially impact results of operations. This critical policy and its application are periodically reviewed with the Audit Committee and the Board of Directors.

The provision for loan losses is based upon management's evaluation of the adequacy of the allowance, including an assessment of known and inherent risks in the portfolio, giving consideration to the size and composition of the loan portfolio, actual loan loss experience, level of delinquencies, detailed analysis of individual loans for which full collectibility may not be assured, the existence and estimated net realizable value of any underlying collateral and guarantees securing the loans, and current economic and market conditions. Although management uses the best information available, the level of the allowance for loan losses remains an estimate, which is subject to significant judgment and short-term change. Various regulatory agencies, as an integral part of their examination process, periodically review the Corporation's provision for loan losses. Such agencies may require the Corporation to make additional provisions for loan losses based upon information available to them at the time of their examination. Furthermore, the majority of the Corporation's loans are secured by real estate in the State of New Jersey. Accordingly, the collectibility of a substantial portion of the carrying value of the Corporation's loan portfolio is susceptible to changes in local market conditions and may be adversely affected should real estate values decline or should New Jersey experience adverse economic conditions. Future adjustments to the provision for loan losses may be necessary due to economic, operating, regulatory and other conditions beyond the Corporation's control.

EXECUTIVE SUMMARY: For the first quarter of 2008, the Corporation's net income was \$3.5 million as compared to \$2.7 million for the first quarter of 2007, an increase of \$771 thousand, or 28.6 percent. Earnings per share were \$0.41 per diluted share in the first quarter of 2008 as compared to \$0.32 per diluted share for the first quarter of 2007. The primary factor contributing to the increase in net income is the improvement in net interest income and the net interest margin, which is explained below. Annualized return on average assets for the quarter was 1.02 percent and annualized return on average equity was 12.81 percent for the first quarter of 2008.

On a fully tax-equivalent basis, net interest income was \$10.8 million in the first quarter of 2008 as compared to \$8.6 million in the first quarter of 2007, an increase of \$2.2 million or 26.2 percent from the same quarter last year. The net interest margin was 3.34 percent for the first quarter of 2008 as compared to 2.82 percent for the same quarter of 2007 and 3.21 percent in the fourth quarter of 2007.

Average loans increased \$111.7 million or 12.8 percent to \$982.6 million for the first quarter of 2008. The Corporation's long-term plan calls for a substantial shift in the asset mix, with less emphasis on residential mortgages and more emphasis on higher yielding commercial loans and commercial mortgages. As a result of this strategy, the average commercial loan portfolios grew \$112.2 million or 35.2 percent, while the average mortgage loan portfolio declined by \$3.0 million or 0.6 percent. Loan rates declined seven basis points from the first quarter of 2007 to 5.99 percent for the same quarter of 2008.

### Table of Contents

Deposits averaged \$1.2 billion in the first quarter of 2008, growing \$56.9 million, or 5.0 percent, over the levels of the first quarter of 2007. Deposit gathering remains highly competitive as short-term market rates have declined in the past few months. In the first quarter of 2008, rates paid for interest-bearing deposits were 2.95 percent as compared to 3.63 percent for the first quarter of 2007, a decline of 68 basis points.

### EARNINGS ANALYSIS

NET INTEREST INCOME: On a tax-equivalent basis on interest-earning assets and before the provision for loan losses, net interest income was \$10.8 million for the first quarter of 2008 as compared to \$8.6 million for the same quarter of 2007, an increase of \$2.2 million or 26.2 percent. The net interest margin, on a fully tax-equivalent basis, was 3.34 percent and 2.82 percent in the first quarters of 2008 and 2007, respectively, an increase of 52 basis points. When compared to the fourth quarter of 2007, net interest income for the first quarter of 2008, rose \$553 thousand, or 5.4 percent, from \$10.2 million on a tax-equivalent basis. On a fully tax equivalent basis, the net interest margin, increased from 3.21 percent in the fourth quarter of 2007, to 3.34 percent in the first quarter of 2008.

Average loans for the first quarter of 2008 increased \$111.7 million or 12.8 percent to \$982.6 million from \$870.9 million for the first quarter of 2007. The average mortgage loan portfolio declined by \$3.0 million or 0.6 percent, during this period, while the average commercial loan portfolios grew \$112.2 million or 35.2 percent. Our long-term plan calls for a substantial shift in our asset mix, with less emphasis on residential mortgages and more emphasis on higher yielding commercial loans and commercial mortgages. We believe this material shift in our asset mix will deliver substantially superior earnings performance over the coming years and improvement has already been seen in our net interest margin since last year.

Average deposits were \$1.2 billion the first quarter of 2008, growing \$56.9 million, or 5.0 percent from the averages reported for the same quarter of 2007. For the first quarters of 2008 and 2007, certificates of deposit averaged \$403.9 million and \$372.3 million, increasing \$31.6 million or 8.5 percent. In the first quarter of 2008, money market accounts averaged \$406.1 million, an increase of \$28.0 million, or 7.4 percent, over the same quarter in 2007. Certificates of deposit and money market accounts remain the Corporation's fastest growing categories of deposits and pay the highest rates, averaging 4.46 percent and 2.61 percent, respectively, in the first quarter. The high yield money market account has experienced the largest growth, \$97.8 million, or 52.0 percent, and has remained popular with the Bank's customers. Average demand deposits were \$185.8 million for the first quarter of 2008, an increase of \$5.6 million or 3.1 percent, from the year ago period. Average overnight borrowings declined \$2.5 million from \$4.3 million in the first quarter of 2007 to \$1.8 million for the first quarter of 2008, as other borrowings increased to \$15.6 million, or 65.7 percent.

On a tax-equivalent basis, average interest rates remained relatively flat, 5.76 percent for the first quarter of 2008 as compared to 5.77 percent for the same quarter last year. Average interest rates earned on investment securities increased 19 basis points to 5.21 percent for the first quarter of 2008; however, average balances had declined \$50.1 million causing interest income from investments to decline \$490 thousand. Average interest rates earned on loans declined 7 basis points to 5.99 percent from 6.06 percent for the same period in 2007.

The average interest rates paid on interest-bearing liabilities in the first quarters of 2008 and 2007 was 2.98 percent and 3.63 percent, respectively, a 65 basis point decrease. While the average rate paid on money market accounts declined 145 basis points to 2.61 percent for the first quarter of 2008, average rates paid on certificates of deposit declined only 34 basis points. The average rates paid on borrowings declined to 3.61 percent in the first quarter of 2008 from 3.77 percent in the first quarter of 2007 due in part to the reduction in short-term market rates.

The cost of funds decreased to 2.53 percent for the first quarter of 2008 as compared to 3.07 percent for the same period in 2007. The net interest income and net interest margin has benefited from the Federal Reserve Board's decisions to reduce the fed funds target rate 200 basis points in the first quarter of 2008. We expect that further interest rate reductions are possible and anticipate that these rate cuts will further lower the cost of funds.

The following tables reflect the components of net interest income for the periods indicated:

### Average Balance Sheet Unaudited Quarters Ended (Tax-Equivalent Basis, Dollars in Thousands)

	March 31, 2008			March 31, 2007			
	Average	Income/		Average	Income/
