### Market conditions

Market conditions remain broadly unchanged, as significant promotional activity is required to deliver seat factors.

### Strategic Developments

British Airways announced plans to re-structure its business with a 35 per cent reduction in the number of its 1,715 managers by March 2008. The figure comprises a 50 per cent reduction in senior managers from 414 to 207, and a 30 percent reduction in middle managers from 1,301 jobs to 911 jobs. This brings the total number of job cuts to 597. The proposed management job cuts are set to save the airline GBP50 million as part of its drive to achieve a GBP300 million cost reduction programme by March 2007, announced in January 2004.

The company announced a pre-tax profit of GBP241 million (2004: GBP293 million) for the three months ended September 30, 2005. The three month pre-tax figures took the result for the half-year to GBP365 million (2004: GBP368 million). Operating profit for the quarter was GBP261 million (2004: GBP245 million).

The airline said it will invest GBP100 million in a major overhaul of its longhaul business class. The enhanced changes will be introduced from mid 2006. The multi-million pound investment will build on the success of the airline's existing Club World flat bed and will set new standards for the business traveller.

British Airways and The Tussauds Group signed a memorandum of understanding agreeing the sale of the airline's entire interests in the British Airways London Eye including its one-third share and its outstanding loan to the company for GBP95 million. The airline plans to continue its brand association with the attraction by extending its franchise agreement.
