BT Group Half Year Results and Interim Report

Chairman's Statement

These strong half year results show sustained momentum across the business with

Edgar Filing: BT GROUP PLC - Form 6-K

revenues up 3 per cent and earnings per share before specific items up 19 per cent.

I am pleased to report that we will be paying an interim dividend of 5.1 pence, up 19 per cent on last year, showing our continued commitment to improving shareholder returns and our confidence for the future.

Sir Christopher Bland, 8 November 2006

Review

These results show another strong team performance with every part of the business playing its part. Revenue increased 3 per cent with continued strong growth in new wave revenue, up 20 per cent, driven by our networked IT services, broadband and mobility businesses. Total networked IT services contract wins amounted to GBP4.0 billion over the last twelve months. BT had 9.3 million wholesale broadband connections at 30 September 2006, including 838,000 local loop unbundled lines, an increase of 2.8 million connections year on year. The strong growth in new wave revenue more than offset the 4 per cent decline in traditional revenue.

Group profit before taxation, specific items and leaver costs increased by 17 per cent driven by operational efficiencies and a reduction in net finance costs, partly offset by the costs of supporting the growth in new wave activities. Reported profit before taxation, including specific items and leaver costs, was 26 per cent higher than last year. Specific items for the half year were GBP3 million (see note 2) and principally comprise costs of GBP23 million relating to the further rationalisation of the group's office portfolio, partly offset by a profit of GBP20 million arising from the group's partial disposal of its interest in an associated undertaking.

Earnings per share before specific items and leaver costs were 11.8 pence, an increase of 20 per cent. Reported earnings per share, including specific items and leaver costs, were 28 per cent higher at 11.3 pence.

Net debt was GBP8,079 million, GBP54 million below last year. Free cash flow generated in the first half amounted to GBP321 million.

An interim dividend of 5.1 pence per share will be paid on 12 February 2007 to shareholders on the register on 29 December 2006.

Our performance underpins our confidence that we will continue to grow revenue, EBITDA, earnings per share and dividends this financial year. Revenue growth will continue to be fuelled by new wave services; EBITDA improvement will be driven by the continued growth in BT Retail's profitability and an acceleration through the year of the EBITDA growth in BT Global Services. We are confident in our ability to improve shareholder returns and accelerate the strategic transformation of the business.

This advertisement is a summary of the interim results of BT Group plc ("the group") for the six months ended 30 September 2006. The full interim results statement, including the group's results for the three months ended 30 September 2006, is available on the internet at www.btplc.com/Sharesandperformance. Independent Review Report to BT Group plc

Introduction

Edgar Filing: BT GROUP PLC - Form 6-K

We have been instructed by the group to review the financial information for the six months ended 30 September 2006, which comprises the summarised group income statement, group statement of recognised income and expense, group cash flow statement and group balance sheet at 30 September 2006. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by the directors. The Listing Rules of the Financial Services Authority require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

This interim report has been prepared in accordance with the basis set out in note 1.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies have been consistently applied. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance. Accordingly we do not express an audit opinion on the financial information. This report, including the conclusion, has been prepared for and only for the group for the purpose of the Listing Rules of the Financial Services Authority and for no other purpose. We do not, in producing this report, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 September 2006.

	<u>14,697</u> =====	<u>15,511</u> =====	<u>15,220</u> =====

Notes

- 1 The financial information set out in these interim financial results has been prepared in accordance with the Listing Rules of the Financial Services Authority. The accounting policies which have been applied to prepare these interim financial results are the same as those used for preparation of the audited consolidated financial statements for the year ended 31 March 2006.

- 2 The results as shown in the summarised income statement are reported inclusive of specific items. Specific items comprise significant one off or unusual items, which are separately identified and disclosed. This is consistent with the way that financial performance is measured by management and provides a meaningful analysis of the trading results of the group. Specific items recognised for the six months ended 30 September 2006 were a net charge before taxation of GBP3 million (2005: GBP82 million). Costs of GBP23 million relating to the further rationalisation of the group's office portfolio were incurred (2005: GBP12 million). This was partly offset by a profit of GBP20 million arising from the group's disposal of 6 per cent of its equity interest in Tech Mahindra Limited, an associated undertaking, reducing the group's holding to 36 per cent. In the prior year, a provision of GBP70 million was recognised relating to the incremental and directly attributable costs in connection with creating the Openreach line of business.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
