PROXY STATEMENT

June 30, 2003

The Board of Directors of Environmental Power Corporation, a Delaware corporation (we , us , the Company or EPC), is soliciting proxies in the form enclosed with this proxy statement for use at the Company's Annual Meeting of Stockholders to be held on Friday, July 25, 2003 at 10:00 a.m. E.D.T. at the Hyatt Regency Boston, One Avenue de Lafayette, Boston, Massachusetts, and any adjournments thereof (the Meeting).

GENERAL INFORMATION ABOUT THE MEETING AND VOTING

How Proxies Work

EPC's Board of Directors is asking for your proxy. Giving us your proxy means that you authorize us to vote your shares at the Meeting in the manner that you direct, or if you do not direct us, in the manner as recommended by the Board of Directors in this proxy statement. You may vote for the director nominees or withhold your vote for any nominee. You also may vote for or against the other proposals or abstain from voting.

Who May Vote

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

Holders of EPC's Common Stock at the close of business on June 30, 2003 are entitled to receive notice of and to vote their shares at the Meeting. As of June 30, 2003, there were 21,791,279 shares of Common Stock outstanding. Each share of Common Stock is entitled to one vote on each matter properly brought before the Meeting.

How to Vote

You may vote in person at the Meeting or by proxy. We recommend that you vote by proxy even if you plan to attend the Meeting in person. You may change your vote at the Meeting in one of the ways described below. All shares represented by proxies that have been properly voted and not revoked will be voted at the Meeting. If you sign and return your proxy card, but do not give voting instructions, the shares represented by that proxy will be voted as recommended by the Board of Directors. If you choose to vote by proxy, simply mark your proxy, date and sign it, and return it in the enclosed postage-paid envelope. If you attend the Annual Meeting, you will be able to vote your shares, even if you already voted by mail. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the Meeting.

Revoking a Proxy

You may revoke your proxy before it is voted by:

providing written notice to the corporate Secretary of EPC before or at the Meeting;

submitting a new proxy with a later date; or

voting by ballot at the Meeting.

The last vote you submit chronologically (by any means) will supersede your prior vote(s). Your attendance at the Meeting will not, by itself, revoke your proxy.

Quorum

In order to carry on the business of the Meeting, we must have a quorum. This means that at least a majority of the outstanding shares eligible to vote must be represented at the Meeting, either by proxy or in person. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum. Treasury shares, which are shares owned by EPC itself, are not voted and do not count for this purpose.

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

One Cate Street, 4th Floor

Portsmouth, New Hampshire 03801

Votes Needed

The director nominees who receive the most votes will be elected to fill the seats on the Board of Directors. Approval of the other proposals requires the favorable vote of a majority of the votes cast. Only votes for or against a proposal count as votes cast. Abstentions and broker non-votes are not counted as votes cast and therefore will have no effect on the outcome of the matters to be voted on at the Meeting. Broker non-votes occur when a broker returns a proxy, but indicates that it does not have authority to vote on a particular proposal.

Voting on Other Matters

If other matters are properly presented at the Meeting for consideration, the persons named in the proxy will have the discretion to vote on those matters for you. At the date that this Proxy Statement went to press, we did not know of any other matters to be raised at the Meeting and, pursuant to the Company's Bylaws, the date by which other matters must have been submitted has passed.

Solicitation of Proxies

The Company will pay the expenses of soliciting proxies. Proxies may be solicited on our behalf by directors, officers or employees, without additional remuneration, in person or by telephone, by mail, electronic transmission and facsimile transmission. Brokers, custodians and fiduciaries will be requested to forward proxy soliciting material to the owners of Common Stock held in their names and, as required by law, the Company will reimburse them for their reasonable out-of-pocket expenses for this service.

The Audit Committee may retain independent counsel, accountants, or others to assist it in the conduct of any investigation and the Company will provide appropriate funding for payment of such services, as determined by the Audit Committee. The current Audit Committee members are Messrs. Blampied and Matthews, each of whom is an independent director. The Committee met three times in 2002. The responsibilities and activities of the Audit Committee are described in greater detail in the Report of the Audit Committee

The Compensation Committee oversees the compensation structure for the Chairman and Chief Executive Officer and the President and Chief Operating Officer of the Company, evaluates the performance and sets the compensation of such officers and administers the Company's stock incentive plans. The Compensation Committee may retain, at the Company's expense, such independent counsel or other advisors as it deems necessary. The current Compensation Committee members are Messrs. Knight, Schumacher, and Weisberg. The Compensation Committee met three (3) times in 2002. The activities of the Compensation Committee are described in greater detail in the Compensation Committee Report on Executive Compensation .

Additionally, each non-employee director may receive option grants under our 1993 Director Option Plan for 40,000 options on the first anniversary of service and 10,000 options on subsequent anniversaries. Weisberg, Thomas M. Matthews, Jessie J. Knight, Jr., and August Schumacher, Jr. have been nominated by the Board of Directors for election at the Meeting. The Company's Board of Directors does not have a nominating committee. Each of the nominees has expressed his ability and willingness to serve as a director of the Company. However, if any such nominee were to become unable or unwilling to serve, proxies may be voted for the election of some other person at the discretion of the proxy holders.

Board Recommendation

The Board of Directors recommends a vote **FOR** each of the nominees to the Board of Directors.

PROPOSAL 2 APPROVAL OF AMENDMENT AND RESTATEMENT OF THE 2002 DIRECTOR OPTION PLAN

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

The 2002 Director Option Plan (the Director Plan) was initially adopted by the Board of Directors of the Company on June 17, 2002 and approved by the Company s stockholders on July 25, 2002. The purpose of the Director Plan is to encourage ownership in the Company by non-employee directors of the Company (Outside Directors) whose services are considered essential to the Company s future progress and efforts to capitalize on

8

ENVIRONMENTAL POWER CORPORATION

One Cate Street, 4th Floor

Portsmouth, New Hampshire 03801

new opportunities. While Outside Directors are eligible for grants under the Company s 2001 Stock Incentive Plan, the Board of Directors believes that stock option grants under the Director Plan have been, and will continue to be, an important compensation element in attracting and retaining Outside Directors whose continued services are considered essential to the Company s future success.

Accordingly, on June 12, 2003, the Board of Directors voted, subject to stockholder approval, to amend and restate the 2002 Director Plan to change the timing of option grants to Outside Directors under the 2002 Director Plan and the number of shares of Common Stock subject to such option grants.

The 2002 Director Plan, as currently in effect, and the proposed amendments, are summarized below. This summary is qualified in its entirety by reference to the full text of the 2002 Director Plan, a copy of which (as proposed to be amended) is attached to the electronic copy of this Proxy Statement filed with the SEC and may be accessed from the SEC s website at www.sec.gov. Copies of the 2002 Director Plan are also available upon request to the Secretary of the Company.

Summary of the 2002 Director Option Plan

The Board of Directors supervises and administers the Director Plan. A total of 2,000,000 shares of Common Stock may be issued upon the exercise of options granted under the Director Plan. As of May 31, 2003, no options granted under the Director Plan had been exercised, and options for 200,000 shares were outstanding under this plan at an average exercise price of \$0.34 per share. Only Outside Directors of the Company are eligible to receive options under the Director Plan. The Company currently has four Outside Directors (which number may change in the future). All options granted under the Director Plan are non-statutory stock options not entitled to special tax treatment under Section 422 of the Internal Revenue Code.

The Director Plan currently provides for the automatic grant of stock options under the following circumstances:

an option to purchase 50,000 shares of Common Stock was granted automatically to each person newly elected as an Outside Director of the Company on July 25, 2002 (the date of the 2002 Annual Meeting of Stockholders of the Company);

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

thereafter, the Director Plan provides that an additional option to purchase 50,000 shares of Common Stock would be granted automatically to each Outside Director on each anniversary (occurring after July 25, 2002) of the date he or she was first elected to the Board of Directors, provided he or she continues to serve as an Outside Director as of such date; and

notwithstanding the foregoing, options granted under the Company's 1993 Director Option Plan within twelve months prior to a grant under the Director Plan would reduce the size of the grant under the Director Plan. The 1993 Director Option Plan will expire on July 13, 2003.

All options granted under the Director Plan are immediately exercisable. The exercise price for each option is at the fair market value per share of the Company's common stock on the date the Outside Director becomes eligible for the option. Options granted under the Director Plan may provide for the payment of the exercise price in the following ways:

cash, by check (bank check, certified check or personal check), by money order, or with the approval of the Company in its sole and absolute discretion (and upon such terms and conditions as the Company may require);

by delivering to the Company for cancellation Common Stock with a fair market value as of the date of exercise equal to the option price or the portion thereof being paid by tendering such shares;

by delivering to the Company the full option price in a combination of cash and the holder's full recourse liability promissory note with a principal amount not to exceed 80% of the option price and

9

ENVIRONMENTAL POWER CORPORATION

One Cate Street, 4th Floor

Portsmouth, New Hampshire 03801

a term not to exceed five years; or

by delivering to the Company with an aggregate fair market value and a principal amount equal to the option price.

Options granted under the Director Plan are not transferable except by the laws of descent and distribution or pursuant to a qualified domestic relations order (as defined in the Internal Revenue Code). If the option holder becomes disabled or dies while serving as a director, his or her representative may exercise the option in full during the year following his or her disability or death. Otherwise, no option may be exercised more than ten years after the date of grant or 90 days after the Outside Director ceases to be a director of the Company.

The proposed amendments to the Director Plan would change the terms of the plan in the following manner:

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

an option to purchase 100,000 shares of Common Stock would be granted to each person serving as an Outside Director at the first meeting of the Board of Directors following each Annual Meeting of Stockholders of the Company at which directors are elected or the first anniversary of the date of the last automatic option grant, whichever is later; and

no Outside Director will be granted a number of options under the Director Plan which exceeds 100,000 shares in any twelve-month period.

The Board of Directors may suspend, discontinue or amend the Director Plan, provided, however, that without approval of the stockholders of the Company, no amendment may change the number of shares subject to the Director Plan or the number of shares issuable to any Outside Director under the Director Plan, change the designation of the class of directors eligible to receive options, or materially increase the benefits accruing to participants under the Director Plan. The Director Plan may not be amended more than once in any six-month period.

Federal Income Tax Consequences

The following is a summary of the United States federal income tax consequences that generally will arise with respect to options granted under the Director Plan and with respect to the sale of shares of Common Stock acquired under this plan.

Tax Consequences to Outside Directors. An Outside Director will not recognize taxable income upon the grant of an option under the Director Plan. Nevertheless, an Outside Director generally will recognize ordinary compensation income upon the exercise of the option in an amount equal to the excess of the fair market value of the Common Stock acquired through the exercise of the option (the "Option Stock") on the exercise date over the exercise price.

An Outside Director will have a tax basis for any Option Stock equal to the exercise price plus any income recognized with respect to the option. Upon selling Option Stock, an Outside Director generally will recognize capital gain or loss in an amount equal to the difference between the sale price of the Option Stock and the Outside Director's tax basis in the Option Stock. This capital gain or loss will be a long-term capital gain or loss if the Outside Director has held the Option Stock for more than one year prior to the date of the sale and will be a short-term capital gain or loss if the Outside Director has held the Option Stock for a shorter period.

Tax Consequences to the Company. The grant of an option under the Director Plan will have no tax consequences to the Company. The Company generally will be entitled to a business-expense deduction, however, with respect to any ordinary compensation income recognized by an Outside Director.

Board Recommendation

The Board of Directors of the Company believes that the amendments to the Director Plan are in the best interests of the Company and its stockholders and recommends a vote FOR this proposal.

PROPOSAL 3 APPROVAL OF 2003 INCENTIVE COMPENSATION PLAN

The 2003 Incentive Compensation Plan (the "Incentive Plan") was adopted by the Board of Directors of the Company on June 12, 2003, subject to the approval of the Company's stockholders at the Meeting. The purpose of the Incentive Plan is to align the goals of our employees, management and directors with the Company's business goals. The Incentive Plan provides for either cash or stock-based compensation upon the Company's achievement of specific and measurable business milestones. The Company's management has determined that these milestones represent the critical steps needed to reach the Company's goals.

The Incentive Plan is summarized below. This summary is qualified in its entirety by reference to the full text of the Incentive Plan, a copy of which is attached to the electronic copy of this Proxy Statement filed with the SEC and may be accessed from the SEC's website at www.sec.gov. Copies of the Incentive Plan are also available upon request to the Secretary of the Company.

Summary of the 2003 Incentive Compensation Plan

All employees of the Company or its subsidiary, Microgy Cogeneration Systems, Inc. ("Microgy"), and all directors of the Company, in each case as of June 1, 2003, are eligible to participate in the Incentive Plan. As of June 1, 2003, 11 employees and seven directors of the Company would be eligible to participate in the Incentive Plan if it is approved by the stockholders. Future employees may be allowed to participate, subject to the terms and conditions of the Incentive Plan, with the approval of management. Eligible employees and directors who elected to participate in the Incentive Plan are referred to as "Participants". If an eligible employee elects to participate in the Incentive Plan, his or her base salary will be adjusted effective July 1, 2003. If an eligible director elects to participate in the Incentive Plan, his or her base annual director fee (which, for purposes of the Incentive Plan, is assumed to be \$12,000) will be reduced by an amount specific to each eligible director effective July 1, 2003. An eligible employee or director who does not elect to participate in the Incentive Plan by July 1, 2003 is prohibited from participating in the Incentive Plan at a later date.

The Incentive Plan will be administered by a committee designated by the Board of Directors comprised solely of "outside directors" within the meaning of Section 162(m) of the Code and "non-employee directors" within the meaning of Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (the "Committee"). The Board of Directors also has the authority to exercise the powers and duties of the Committee under the Incentive Plan. The Board of Directors currently expects that the Incentive Plan will be administered by the Compensation Committee.

The Incentive Plan provides for grants of incentive compensation awards ("Awards") upon the substantial completion of the following milestones:

The Company has commenced construction of an anaerobic digester facility on or before August 31, 2003;

The Company has commenced construction of three or more anaerobic digester facilities on or before December 31, 2003;

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

The first anaerobic digester facility is operating at stated capacity, and permanent financing is in place (without penalties) with respect to such facility on or before June 30, 2004;

The Company has commenced construction of a total of eight or more anaerobic digester facilities on or before June 30, 2004;

The three facilities that started in 2003 are operating at stated capacity, and the Company commences an additional five anaerobic digester facility projects on or before December 31, 2004; and

The Company achieves positive cash flow on or before June 30, 2005, which the Committee determines, based on the backlog of facility projects, is sustainable for a period of not less than one year (the Final Milestone). For this

11

ENVIRONMENTAL POWER CORPORATION

Portsmouth, New Hampshire 03801

purpose, a backlog of five facility projects shall be deemed sufficient to create positive cash flow which is sustainable for one year.

Whether a particular milestone has been achieved will be determined by the Committee in its sole discretion.

The amount of a Participant's Award upon the achievement of each milestone other than the Final Milestone will be equal to the Participant's base pay (as of April 1, 2003) multiplied by the Participant's Award Percentage. The Participant's Award Percentage is equal to the Participant's Adjustment Factor (as set forth below) multiplied by a percentage between 10% and 30%, for Participants who are employees, and 1% and 100%, for participants who are directors, as determined by the Company in its sole discretion prior to the date the Participant elects to participate in the Incentive Plan. The Adjustment Factor is as follows:

<u>Participant's Base Pay</u>	<u>Adjustment Factor</u>
\$0 to \$125,000	80%
\$125,000 to \$199,999	67%
\$200,000 or more	50%

A director who is a Participant will be deemed to have base pay equal to \$2,000 multiplied by the number of board meetings attended by such director.

The amount of a Participant's Award upon the achievement of the Final Milestone will be equal to the 2.5 times the sum of the dollar amount of all of the Awards earned by the Participant prior to the completion of the Final Milestone, multiplied by the ratio of the fair market value of a share of Common Stock at the time of the Award to \$1.50.

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

A Participant whose employment with the Company or Microgy terminates, or who ceases to be a director of the Company, on or before the beginning of the 30-day period preceding the achievement of a milestone shall not be eligible for an Incentive Compensation Award with respect to such milestone. Awards under the Incentive Plan will be made, at the discretion of the Committee, in:

cash or shares of Common Stock contributed to the Company's 401(k) Plan on behalf of a Participant, subject to certain limitations set forth in the Incentive Plan;

shares of Common Stock subject to a restricted stock agreement providing for vesting in increments of 25% per calendar quarter beginning on June 30, 2005 and ending on March 31, 2006 (Restricted Shares), to the extent in excess of the amount which can be contributed to the 401(k) Plan;

direct cash payments, to the extent in excess of the amount which can be contributed to the 401(k) Plan; or

a combination of the foregoing.

An aggregate of up to 2,000,000 shares of Common Stock may be issued to participants in the Incentive Plan pursuant to Awards granted under the Incentive Plan.

New Plan Benefits

With respect to the completion of each milestone other than the Final Milestone, the maximum values of the amounts that may be awarded under the Incentive Plan with respect to each Participant are as follows:

<u>PARTICIPANT</u>	<u>MAXIMUM VALUES</u>
Steven J. Brunner	\$ 6,880
Daniel J. Eastman	\$ 9,020

12

ENVIRONMENTAL POWER CORPORATION

Joseph E. Cresci	\$ 60,000
Tammy Johnson	\$ 3,440
Donald A. Livingston	\$ 20,000
Jeffrey R. Macartney	\$ 10,667
Michael A. McCabe	\$ 9,600

Because the amounts to be received upon completion of the Final Milestone are dependent upon the future performance of the Company and the future price of its Common Stock, it is not possible for the Company to determine at this time the amounts to be received by participants in the Incentive Plan.

Federal Income Tax Consequences

401(k) Plan Contributions. Contributions to and distributions from the 401(k) Plan in connection with Awards under the Incentive Plan will be governed by the normal rules regarding tax-qualified plan contributions and distributions, including the rules relating to excise taxes and penalties regarding early withdrawals. In general, income that would otherwise be recognized by a Participant upon the grant of an Award which is contributed to the 401(k) Plan will be deferred.

Restricted Shares. A Participant will not have income upon the grant of Restricted Shares unless an election under Section 83(b) of the Code is made within 30 days of the date of grant. If a timely 83(b) election is made, then a Participant will have compensation income equal to the value of the shares less the purchase price, which, under the Incentive Plan, may be nominal. When the shares are sold, the Participant will have capital gain or loss equal to the difference between the sales proceeds and the value of the shares on the date of grant. If the Participant does not make an 83(b) election, then, when the shares vest, the Participant will have compensation income equal to the value of the shares on the vesting date less the purchase price. When the shares are sold, the Participant will have capital gain or loss equal to the sales proceeds less the value of the shares on the vesting date. Any capital gain or loss will be long-term if the Participant held the shares for more than one year and otherwise will be short-term.

Cash. Any cash received directly by a Participant under the Incentive Plan will result in compensation income to the Participant equal to the amount of cash received.

Tax Consequences to the Company. There will be no tax consequences to the Company except that we will be entitled to a deduction when a Participant has compensation income. Any such deduction will be subject to the limitations of Section 162(m) of the Code.

Board Recommendations

The Board of Directors of the Company believes that the Incentive Plan is in the best interests of the Company and its stockholders and recommends a vote **FOR** this proposal.

Defined Benefit Pension Plan: Effective January 1, 1998 we established a non-contributory defined benefit pension plan (the Pension Plan) covering all of our employees who are at least 21 years of age and who have completed at least one year of service. Under the Pension Plan, the benefits payable to each employee at normal retirement age 62 are based on years of service and compensation during the three consecutive years of the latest 10 years immediately preceding retirement which would yield the highest monthly benefit payment. Employees who have at least 20 years of service at the time of their retirement would receive the maximum retirement benefit. Our general funding policy is to contribute annually to the Pension Plan the maximum amount that can be deducted for Federal income tax purposes.

Effective January 1, 2003 we amended the Pension Plan to provide that benefits earned after 2002 will accrue at the rate of 1.5% of average compensation (with no cap on service) and will be payable at age 65 rather than age 62. Existing accrued benefits will remain intact. The amended Pension Plan has a two-year waiting period before employees enter the Pension Plan, rather than one year. Employees who join the Pension Plan after two years will be fully vested at that time.

The following table shows the estimated annual pension benefits payable upon retirement to a participant in the Pension Plan for various salary levels and years of service.

During fiscal year 2002, the maximum amount of annual compensation which may be included for Pension Plan purposes was \$200,000. The figures shown above apply under the Pension Plan as amended. The benefit amounts listed are not subject to any deduction for Social Security or other offset amounts. As a result of limitations imposed under the Federal income tax law, the maximum annual benefit payable under the Pension Plan for the fiscal year ending December 31, 2002 is \$160,000, although the amount will be actuarially adjusted in accordance with Federal income tax regulations if payments commence prior to or following the date that unreduced Social Security benefits become payable. As of December 31, 2002, Messrs. Cresci and Livingston each had twenty years of credited service under the Plan.

Report of the Compensation Committee on Executive Compensation

The Compensation Committee of the Board of Directors determines the Company's executive compensation policy and sets compensation for the Chairman and Chief Executive Officer (the "CEO") and the President and Chief Operating Officer (the "COO").

The Compensation Committee's policy is to offer the CEO and COO competitive compensation packages that will permit the Company to attract and retain individuals with superior abilities and to motivate and reward such individuals on the basis of the Company's performance in an appropriate fashion in the long-term interests of the Company and its stockholders. Currently, executive compensation is comprised of salary and cash bonuses that may be awarded from time to time. In previous years, the Company offered its executive officers long-term incentive opportunities in the form of stock options and restricted stock awards under the Company's now expired 1990 Stock Plan. The Board of Directors determined that it was in the best interest of the Company to establish another stock incentive plan, in order to continue to offer long-term incentive opportunities for executive officers and other employees. In November 2001, the Company's stockholders approved the 2001 Stock Incentive Plan.

The Compensation Committee takes into account various qualitative and quantitative indicators of corporate and individual performance in determining the level and composition of compensation for the CEO and COO. The Compensation Committee does not utilize any specific quantitative formula or targets in making compensation decisions. While the Compensation Committee considers corporate performance measures such as net income, earnings per share, return on assets and return on equity, the Compensation Committee also appreciates the importance of achievements that may be difficult to quantify, and accordingly recognizes qualitative factors, such as successful supervision of major projects and demonstrated leadership ability. Base salaries for the CEO and COO are established at levels considered appropriate in light of the duties and scope of responsibilities of each officer's position. Salaries are generally reviewed periodically and adjusted as warranted to reflect individual officer performance. The Compensation Committee focuses primarily on total annual compensation, including incentive awards and benefits derived from other fringe benefits such as the Pension Plan, rather than base salary alone, as the appropriate measure of executive officer performance and contribution. Compensation decisions regarding executive officers other than the CEO and COO are made by the CEO and COO.

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

As discussed in the section Compensation of Executive Officers above, the Company established the Pension Plan effective January 1, 1998 to provide retirement benefits to all of its eligible employees including the CEO and COO. The Company funded its 1998 contribution to the Pension Plan of \$255,062 during 1999, which contribution benefited the CEO and COO in the amounts of \$132,416 and \$109,431, respectively. In December 1998, in anticipation of receiving this benefit from the Pension Plan, the CEO and COO each elected to repay to the Company a portion of their 1998 compensation in an amount equal to the benefit they would receive from the 1998 contribution to the Pension Plan. As a result, the 1998 annual compensations of the CEO and COO were reduced from \$200,000 and \$200,000, respectively, to \$67,584 and \$90,569, respectively. Effective January 1, 2003 we amended the Pension Plan, as described above.

During 1999, the responsibilities of the CEO and COO became less complex after the settlement of the Milesburg litigation, therefore the Compensation Committee set a lower base salary for the CEO and COO and established a policy of rewarding these executive officers with cash bonuses which were tied to successful achievements, improvements in results and the fulfillment of corporate goals. In March 1999, to further these objectives, the Compensation Committee ratified the establishment of the Pension Plan, reduced the annual base salaries for the

17

ENVIRONMENTAL POWER CORPORATION

One Cate Street, 4th Floor

Portsmouth, New Hampshire 03801

CEO and COO from \$200,000 to \$150,000, and considered various bonus incentives for these executive officers. The Compensation Committee considered the lower base salaries, when combined with the estimated benefits that the CEO and COO would receive from the Pension Plan and bonus incentives, to be an appropriate compensation package for the CEO and COO at that time.

In April 2000, the Compensation Committee awarded the CEO and COO each a bonus of \$100,000. In deciding to award this bonus, the Compensation Committee considered factors including the very successful results achieved by the CEO and COO in the settlement of the Company's long-standing litigation with Pennsylvania Electric Company.

In December 2000, the Compensation Committee awarded the CEO and COO each a bonus of \$250,000 to acknowledge the significant progress made toward the settlement of the Sunnyside litigation as well as the increase in their duties to formulate and assess restructuring options, consider sale and merger proposals, and evaluate prospects for business expansion. However, due to concerns about the Company's ongoing cash requirements, the Compensation Committee requested that the CEO and COO use substantially all of the proceeds from these cash bonuses to repay their outstanding loans due to the Company. The Compensation Committee agreed, however, to allow the CEO and COO to borrow back sufficient funds to pay their individual tax obligations resulting from these bonuses subject to the Company's receipt of a settlement payment from the Sunnyside litigation. The Compensation Committee felt this arrangement properly compensated the CEO and COO for their present achievements, duties and responsibilities while also preserving the Company's cash resources for ongoing business activities.

April 2001, the Company received \$1,500,000 pursuant to a settlement of the Sunnyside litigation and the CEO and COO each borrowed back \$100,000 from the Company. On June 15, 2001 in order to reflect the increase in their workload and responsibility due the imminent acquisition of Microgy, the salaries of the CEO and COO were increased to their present level of \$400,000. There were no cash bonuses paid to these executives in 2001.

Edgar Filing: ENVIRONMENTAL POWER CORP - Form DEF 14A

In 1993, Congress enacted Section 162(m) of the Internal Revenue Code, which prevents publicly held corporations from deducting compensation in excess of \$1 million paid to CEO's and the four highest compensated officers unless the compensation is performance-based. The Company's compensation program currently is not of a level such that this limit would apply.

Jessie Knight, Jr.

Employment Termination and Change-in-Control Arrangements

While not party to a formal employment agreement, in April 2002 EPC and Mr. Macartney executed summary terms of EPC's employment of Mr. Macartney as Chief Financial Officer of EPC. Under such terms, Mr. Macartney receives a base salary of \$160,000 annually, subject to discretionary salary increases and annual discretionary bonuses determined by the Chief Executive Officer. Mr. Macartney received an option grant to acquire 100,000 shares of Common Stock at an exercise price of \$0.58 per share in May 2002 upon becoming Chief Financial Officer of EPC and is eligible for an annual discretionary option grant to be determined by the CEO. EPC provides a leased vehicle for Mr. Macartney's use. Mr. Macartney is an at-will employee. However, in the event Mr. Macartney's employment is terminated as a result of a new CEO hiring a new CFO, Mr. Macartney will receive one year's severance and benefits, including health coverage and use of the company leased vehicle for one year. Mr. Macartney would then also be granted an additional option to purchase 100,000 shares of Common Stock. All 200,000 options granted to Mr. Macartney would become immediately vested and would remain exercisable based on the dates in the stock option agreements. In the event Mr. Macartney's employment is terminated for any other reason, he will receive six months severance and benefits, including but not limited to health coverage and use of the company leased vehicle for six months. The 100,000 options he currently holds would become immediately vested and be exercisable based on the dates in the stock option agreement.

During 1993 and 1995, Messrs. Cresci and Livingston exercised options to purchase shares of the Company's Common Stock. As payment for the exercise price of these stock options, EPC accepted promissory notes payable upon our demand from Messrs. Cresci and Livingston aggregating \$332,875 and \$428,281, respectively. In 2000, EPC asked that a portion of these notes be repaid using the proceeds from bonuses due to concerns about ongoing cash requirements. In April 2001, the Company received \$1,500,000 pursuant to a settlement of the Sunnyside litigation and Messrs. Cresci and Livingston were allowed to each borrow \$100,000. As of December 31, 2002, Messrs. Cresci and Livingston had aggregate balances due to EPC of \$186,875 and \$410,498, respectively under these notes and loans.
