Executive officers, directors and greater than 10% beneficial owners are required by Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of the forms furnished to us or written representations from the reporting persons that no reports were required, we believe that, during 2003, all of our executive officers, directors and greater than 10% beneficial owners complied with all applicable Section 16(a) filing requirements, except that Mary K. Murray, our Executive Vice President and Chief Financial Officer, filed a late Form 4 on April 3, 2003 to report restricted stock that she acquired on March 27, 2003 and James N. Contardi, our Executive Vice President and President, EMEA Region, filed a Form 5 on February 12, 2004 belatedly reporting an October 28, 2003 sale of our common stock.

Initial and annual grants of stock options priced at fair market value on the terms set forth in the Automatic Option Grant Program of our 1995 Stock Option/Stock Issuance Plan (1995 Plan). Additional grants of stock options may be awarded under the Discretionary Option Grant Program of our 1995 Plan.

Directors who are also employees are not paid any fees or additional compensation for services as members of our Board of Directors or any committee of our Board of Directors. Directors are reimbursed for out-of-pocket expenses incurred in attending meetings of our Board of Directors and committees on which they serve.

Under the Automatic Option Grant Program of our 1995 Plan, each person who becomes a non-employee Board member automatically is granted at that time an option for 8,000 shares of common stock. In addition, on the date of each annual stockholders meeting, each individual who continues to serve as a non-employee Board member after such meeting will automatically be granted an option to purchase 8,000 shares of common stock under the 1995 Plan, provided such individual has served as a non-employee Board member for at least six months. Each option will have an exercise price per share equal to 100% of the fair market value per share of our common stock on the option grant date and a maximum term of ten years measured from the option grant date. Each option will be immediately exercisable for all the option shares, but we may repurchase, at the exercise price paid per share, all unvested shares held at the cessation of the director's Board service. Each option grant will vest, and our repurchase rights will lapse, in four equal annual installments, with the first such installment vesting one year from the option grant date.

Under the Discretionary Option Grant Program of our 1995 Plan, our Board of Directors will determine which eligible individuals receive option grants, the time or times when those grants are to be made, the number of shares subject to each such grant, the vesting schedule (if any) to be in effect for the option grant and the maximum term for which any granted option is to remain outstanding. Each granted option will have an exercise price determined by the Board of Directors but shall in no event be less than 85% of the fair market value of the shares on the grant date. No granted option will have a term in excess of ten years, and the option will generally become exercisable in one or more installments over a specified period of service measured from the vesting commencement date. However, one or more options may be structured so that they will be immediately exercisable for any or all of the option shares. Shares acquired under such options will be subject to repurchase by us, at the exercise price paid per share, if the optionee ceases service with our company prior to vesting in those shares.

Option grants to non-employee directors during 2003 are detailed in the following table. The exercise price per share for all grants was equal to the fair market value per share of common stock on the grant date with the exception of the discretionary stock option grant to Michael Jordan on May 6, 2003, the grant price of which was greater than fair market value on the grant date. Options granted under the Automatic Option Grant Program were granted in accordance with the terms set forth above. Such options are immediately exercisable and vest in four equal annual installments. Grants issued from the Discretionary Option Grant Program are not exercisable until they vest. Each of these options will vest 25% upon completion of the first year of service measured from the vesting commencement date and pro rata over a 36-month period thereafter.

We maintain directors' and officers' liability insurance and our Bylaws provide for mandatory indemnification of directors to the fullest extent permitted by Delaware law. We have entered into indemnification agreements with all of our directors. In addition, our Restated Certificate of Incorporation limits the liability of our directors to us and our stockholders for breaches of the directors' fiduciary duties to the fullest extent permitted by Delaware law.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

The executive officers serve at the discretion of our Board of Directors. James Contardi, our Executive Vice President and President, EMEA Region, entered into a letter agreement with the company, dated February 5, 2004, providing that if Mr. Contardi's employment terminates before July 2005 other than as a result of the officer's voluntary resignation or termination for cause, he would be entitled to receive, in consideration for a release and waiver of claims against the company, (i) a severance payment of six (6) months of base salary, (ii) a lump sum payment of \$20,000 for benefits reimbursement, and (iii) relocation services for Mr. Contardi and his family in accordance with the company's expatriate relocation policy. The term of the agreement expires upon the earlier to occur of (i) July 15, 2004, or (ii) Mr. Contardi's relocation to the United States.

Certain provisions of the 1995 Plan may have the effect of discouraging, delaying or preventing a change in control of us or unsolicited acquisition proposals. The Plan Administrator under the 1995 Plan may structure one or more outstanding options granted to our executive officers so that these options immediately accelerate in the event the executive officers are terminated involuntarily within a designated period (not to exceed 12 months) following the effective date of any change in control. All options granted under the 1995 Plan prior to January 16, 2001 provide for immediate acceleration in the event the optionee is involuntarily terminated within 18 months following the effective date of any change of control.

We have entered into indemnification agreements with all of our executive officers. We maintain directors' and officers' liability insurance and our Bylaws provide for mandatory indemnification of officers to the fullest extent permitted by Delaware law.

- (1) Generally, options vest over a four-year period. Additionally, some options may be exercised prior to vesting subject to our right to repurchase at cost any unvested shares purchased prior to vesting in the event of the optionee's termination of employment. In 2003, none of the options granted to the named officers were exercisable prior to vesting. Each option expires on the earlier of ten years from the date of grant or within a specified period following termination of the optionee's employment with us.
- (2) The exercise price may be paid in cash or through a special same-day sale procedure through a broker of their choice.
- (3) Under rules promulgated by the SEC, these stock valuations represent the hypothetical gain, or option spread, that would exist for these options based on assumed 5% or 10% stock price appreciation from the date of grant until the end of the options' ten-year term. The 5% or 10% assumed annual rate of appreciation is specified in SEC rules. These assumptions are not intended to forecast future appreciation of our stock price. There can be no assurance that the potential realizable values shown in this table will be achieved. The potential realizable value computation does not take into account federal or state income tax consequences of option exercises or sales of appreciated stock.
- (4) Options were granted on November 17, 2003.
- (5) Options were granted on December 15, 2003.

We have a standing Compensation Committee currently composed of Messrs. Cash (Chairman) and Crandall. The Compensation Committee met seven times in 2003. The Compensation Committee administers our stock plans. The Compensation Committee has the responsibility for establishing the compensation payable to our Chief Executive Officer and is responsible for establishing compensation payable to our other executive officers based on recommendations made by the Chief Executive Officer. The Compensation Committee also is responsible for the overall administration of our employee benefit plans, including our employee stock purchase plans.

None of the members of the Compensation Committee is an officer or employee, or former officer or employee, of us or any of our subsidiaries. No current executive officer served as a member of the board of directors or compensation committee of any other entity that has or has had one or more executive officers serving as a member of our Board of Directors or Compensation Committee during 2003.

Report on Executive Compensation

The Compensation Committee serves under a charter adopted by the Board of Directors and is composed entirely of non-employee directors. The primary functions of the Compensation Committee include:

Setting the compensation of the Chief Executive Officer.

Reviewing the strategic approach to compensation for key executives, including their total annual compensation targets and payouts.

Approving the size of the annual stock option pool as well as the individual stock option grants to executive officers and certain other employees.

Compensation Philosophy and Objectives

As a company, our primary objective is to maximize our long-term value for our stockholders. Accomplishing this objective requires developing and marketing products and services that provide solutions for our customers. The primary goal of the Compensation Committee is to align executive compensation with our short-term and long-term business objectives and operating performance. To accomplish this goal, we must develop compensation practices that allow us to attract and retain the people needed to define, create and market innovative products and services.

The Committee applies the following philosophical framework to executive compensation:

Provide a competitive total compensation package that considers compensation practices of selected peer companies in the software industry and other companies with which we are competing for executive-level individuals.

Design total compensation on principles that will lead to pay for performance. Performance above expectations should be recognized with a higher level of compensation while performance below expectations should be addressed with a lower payout of variable compensation.

Tie a significant portion of each executive's total compensation to the overall performance of the company considering targets for financial results and organizational development.

Align the financial interests of each executive with those of our stockholders utilizing long-term, equity-based incentives.

Our executive compensation program includes the following key elements:

Base salary

Variable cash incentives

Equity-based incentives

Benefits

Each executive officer's compensation package is designed to provide an appropriately weighted mix of these elements, which cumulatively provide a level of total compensation roughly equivalent to that paid by a selected group of peer companies within the software industry.

Base Salary

Base salary and base salary adjustments for executive officers are determined by qualitative and quantitative factors relating to corporate and individual performance, and are evaluated in relation to salaries paid to executive officers at peer companies within the software industry.

Variable Cash Incentives

Annual cash incentive bonus programs are maintained to reward executive officers for attaining defined performance goals, including company-wide performance targets, business unit performance and individual goals.

During 2003, based on the company's overall operating performance, our Chief Executive Officer elected not to receive a cash incentive bonus. Additionally, overall cash incentive bonus payouts for other key executives were significantly reduced for the fiscal year.

Equity-based Incentives

We utilize our 1995 Plan to further align the interests of stockholders and management by creating common incentives related to the possession by management of a substantial economic interest in the long-term appreciation of our stock. Generally, options under the 1995 Plan are granted with exercise prices set at the fair market value of the underlying stock on the date of grant, have a term of ten years, and are subject to vesting over four years. In determining the size of an option to be granted to an executive officer, the Compensation Committee takes into account the executive officer's position and level of responsibility, the executive officer's existing stock and unvested option holdings, the potential reward to the executive officer if the stock price appreciates in the public market and the competitiveness of the executive officer's overall compensation arrangements, including stock options, although outstanding performance by an individual also may be taken into consideration. Option grants also may be made to new executives upon commencement of employment and, on occasion, to executives in connection with a significant change in job responsibility.

The 1995 Plan was adopted by our Board of Directors and approved by our stockholders in 1995 and is administered by the Compensation Committee. Our Compensation Committee, when determining the size of annual grants to executive officers in 2003, focused on competitive peer data, experience and subjective information. They concluded that the stock and option holdings of the executives that received options were below the levels needed to provide the appropriate retention value. The 2003 option grants were designed to provide equity incentives to retain executive officers in light of significant changes to our business in fiscal year 2003.

Benefits

Benefits offered to our executive officers serve as a safety net of protection against the financial catastrophes that can result from illness, disability or death. Benefits offered to our executive officers are substantially the same as those offered to all of our regular employees. Additional life insurance protection is provided to the Chief Executive Officer and the Chief Operating Officer.

We maintain a tax-qualified deferred compensation plan, or 401(k) Savings Plan, for the benefit of all of our eligible full-time employees. Under the plan, participants may elect to contribute, through salary reductions, up to 25% of their annual compensation subject to a statutory maximum. We do not currently provide additional matching contributions under the 401(k) Savings Plan, but may do so in the future. The 401(k) Savings Plan is designed to qualify under Section 401 of the Code so that contributions by employees or by us to the plan, and income earned on plan contributions, are not taxable to employees until withdrawn from the 401(k) Savings Plan, and so that contributions by us, if any, will be deductible by us when made. The trustee under the plan, at the direction of each plan participant, currently invests the assets of the 401(k) Savings Plan in fourteen investment options, which exclude i2 stock.

Compliance with the Internal Revenue Code

Section 162(m) of the Code imposes a limit on tax deductions for annual compensation, other than performance-based compensation, in excess of \$1,000,000 paid by a corporation to its chief executive officer and the other four most highly compensated executive officers of a corporation. We have not established a policy with regard to Section 162(m) of the Code, since we have not and do not currently anticipate paying cash compensation in excess of \$1,000,000 per annum to any employee. None of the compensation paid by us in 2003 was subject to the limitation on deductibility. The Board of Directors and Compensation Committee will continue to assess the impact of Section 162(m) of the Code on its

compensation practices and determine what further action, if any, is appropriate.

CEO Compensation

During 2001, Mr. Sidhu asked that his base salary be reduced for an indefinite period of time to an amount necessary to cover the non-company paid portion of the costs associated with certain employee benefits. For 2002 and 2003, Mr. Sidhu again asked that his compensation remain at these levels. The Compensation Committee will continue to assess the market data and peer company practices for the position of Chief Executive Officer to ensure that, when reinstated, Mr. Sidhu's compensation is competitive relative to our company's stated compensation philosophy.
