PROSPECTUS

\$21,500,000

MuniYield New Jersey Fund, Inc.

Auction Market Preferred Stock (AMPS)

860 Shares, Series C

Liquidation Preference \$25,000 per Share

MuniYield New Jersey Fund, Inc. is a non-diversified, closed-end fund. The investment objective of the Fund is to provide shareholders with as high a level of current income exempt from Federal income taxes and New Jersey personal income tax as is consistent with its investment policies and prudent investment management. The Fund seeks to achieve its investment objective by investing, as a fundamental policy, at least 80% of an aggregate of the Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations the interest on which, in the opinion of bond counsel to the issuer, is excludable from gross income for Federal income tax purposes (except that the interest may be includable in taxable income for purposes of the Federal alternative minimum tax) and exempt from New Jersey personal income tax. Under normal market conditions, the Fund invests primarily in long term municipal obligations that are rated investment grade or, if unrated, are considered by the Fund's investment adviser to be of comparable quality. The Fund may invest in certain tax exempt securities classified as private activity bonds, as discussed within, that may subject certain investors in the Fund to an alternative minimum tax. There can be no assurance that the Fund's investment objective will be realized.

This prospectus contains information you should know before investing, including information about risks. Please read it before you invest and keep it for future reference. The Fund's statement of additional information, dated _____, 2004, contains further information about the Fund and is incorporated by reference (legally considered to be part of this prospectus) and the table of contents of the statement of additional information appears on page 51 of this prospectus. You may request a free copy by writing or calling the Fund at (800) 543-6217.

Certain capitalized terms used herein not otherwise defined in this prospectus have the meaning provided in the Glossary at the back of this prospectus.

Investing in the AMPS involves certain risks that are described in the Risk Factors and Special Considerations section beginning on page 8 of this prospectus. The minimum purchase amount for the AMPS is \$25,000.

	<u>Per Share</u>	<u>Total</u>
Public offering price	\$ 25,000	\$ 21,500,000
Underwriting discount	\$250	\$215,000
Proceeds, before expenses, to the Fund (1)	\$ 24,750	\$ 21,285,000

Edgar Filing: MUNIYIELD NEW JERSEY FUND INC - Form N-2/A

- (1) The estimated offering expenses payable by the Fund are \$135,000.

The public offering price per share will be increased by the amount of accumulated dividends, if any, from the date the shares are first issued.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

One certificate for the Series C AMPS will be ready for delivery to the nominee of The Depository Trust Company on or about _____, 2004.

Merrill Lynch & Co.

The date of this prospectus is _____, 2004.

PROSPECTUS SUMMARY

This summary is qualified in its entirety by reference to the detailed information included in this prospectus and the statement of additional information.

The Fund MuniYield New Jersey Fund, Inc. is a non-diversified, closed-end management investment company.

The Offering The Fund is offering a total of 860 shares of Auction Market Preferred Stock, Series C, at a purchase price of \$25,000 per share plus accumulated dividends, if any, from the date the shares are first issued. The shares of AMPS are being offered by Merrill Lynch, Pierce, Fenner & Smith Incorporated (Merrill Lynch), as underwriter.

The Series C AMPS will be shares of preferred stock of the Fund that entitle their holders to receive cash dividends at an annual rate that may vary for the successive dividend periods. In general, except as described below, each dividend period for the Series C AMPS following the initial dividend period will be seven days. The applicable dividend for a particular dividend period will be determined by an auction conducted on the business day next preceding the start of that dividend period.

Investors and potential investors in shares of Series C AMPS may participate in auctions for the AMPS through their broker-dealers.

Generally, AMPS investors will not receive certificates representing ownership of their shares. Ownership of AMPS will be maintained in book-entry form by the securities depository (The Depository Trust Company) or its nominee for the account of the investor's agent member (generally the investor's broker-dealer). The investor's agent member, in turn, will maintain records of such investor's beneficial ownership of AMPS.

Investment Objective and Policies The investment objective of the Fund is to provide shareholders with as high a level of current income exempt from Federal income taxes and New Jersey personal income tax as is consistent with its investment policies and prudent investment management. The Fund seeks to achieve its investment objective by investing, as a fundamental policy, at least 80% of an aggregate of the Fund's net assets (including proceeds from the issuance of any preferred stock) and the proceeds of any borrowings for investment purposes, in a portfolio of municipal obligations issued by or on behalf of the State of New Jersey, its political subdivisions, agencies and instrumentalities and by other qualifying issuers, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for Federal income tax purposes (except that the interest may be includable in taxable income for purposes of the Federal alternative minimum tax) and exempt from New Jersey personal income tax (New Jersey Municipal Bonds). The Fund also may invest in municipal obligations issued by or on behalf of states, territories and possessions of the United States and their political subdivisions, agencies or instrumentalities, each of which pays interest that, in the opinion of bond counsel to the issuer, is excludable from gross income for Federal income tax purposes but is not exempt from gross income for New Jersey personal income tax purposes (Municipal Bonds). In general, the Fund does not intend for its investments to earn a large amount of interest income that is not exempt from Federal income tax (except that the interest may be includable in taxable income for purposes of the Federal alternative minimum

Table of Contents

tax) or New Jersey personal income tax. The average maturity of the Fund's portfolio securities varies from time to time based upon an assessment of economic and market conditions by Fund Asset Management, L.P., the Fund's investment adviser (the Investment Adviser). The Fund intends to invest primarily in long term Municipal Bonds (that is, Municipal Bonds with maturities of more than ten years). However, the Fund also may invest in intermediate term Municipal Bonds with maturities of between three years and ten years. The Fund also may invest from time to time in short term Municipal Bonds with maturities of less than three years. There can be no assurance that the Fund's investment objective will be realized.

Investment Grade Municipal Bonds. Under normal market conditions, the Fund invests primarily in a portfolio of long term New Jersey Municipal Bonds and Municipal Bonds that are rated investment grade by one or more nationally recognized statistical rating organizations (NRSROs) or in unrated bonds considered by the Investment Adviser to be of comparable quality. In assessing the quality of Municipal Bonds, the Investment Adviser takes into account the nature of any letters of credit or similar credit enhancement to which particular Municipal Bonds are entitled and the creditworthiness of the financial institution that provided such credit enhancement.

Indexed and Inverse Floating Rate Securities. The Fund may invest in securities whose potential returns are directly related to changes in an underlying index or interest rate, known as indexed securities. The return on indexed securities will rise when the underlying index or interest rate rises and fall when the index or interest rate falls. The Fund may also invest in securities whose return is inversely related to changes in an interest rate (inverse floaters). In general, income on inverse floaters will decrease when short term interest rates increase and increase when short term interest rates decrease. Investments in inverse floaters may subject the Fund to the risks of reduced or eliminated interest payments and loss of principal. In addition, certain indexed securities and inverse floaters may increase or decrease in value at a greater rate than the underlying interest rate, which effectively leverages the Fund's investment. As a result, the market value of such securities will generally be more volatile than that of fixed rate, tax exempt securities. Both indexed securities and inverse floaters are derivative securities and can be considered speculative.

Hedging Transactions. The Fund may seek to hedge its portfolio against changes in interest rates using options and financial futures contracts or swap transactions. The Fund's hedging transactions are designed to reduce volatility, but come at some cost. For example, the Fund may try to limit its risk of loss from a decline in price of a portfolio security by purchasing a put option. However, the Fund must pay for the option, and the price of the security may not in fact drop. In large part, the success of the Fund's hedging activities depends on its ability to forecast movements in securities prices and interest rates. The Fund is not required to hedge its portfolio and may choose not to do so. The Fund cannot guarantee that any hedging strategies it uses will work.

Swap Agreements. The Fund is authorized to enter into swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in the market value of a specific bond, basket of bonds or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain exposure to a bond or market without owning or taking physical custody of securities.

Table of Contents

Tax Considerations. While exempt interest distributions derived from interest or gains on New Jersey Municipal Bonds are excluded from gross income for Federal income tax and exempt from New Jersey personal income tax (if certain requirements are met), they may be subject to the Federal alternative minimum tax in certain circumstances. Distributions of any capital gain or other taxable income will be taxable to stockholders. The Fund may not be a suitable investment for investors subject to the Federal alternative minimum tax or who would become subject to such tax by investing in the Fund. See Taxes.

Investment Adviser The Investment Adviser provides investment advisory and administrative services to the Fund. For its services, the Fund pays the Investment Adviser a monthly fee at the annual rate of 0.50% of the Fund’s average weekly net assets (including any proceeds from the issuance of preferred stock).

Dividends and Dividend Periods Dividends on the Series C AMPS will be cumulative from the date the shares are first issued and payable at the annualized cash dividend rate for the initial dividend period on the initial dividend payment date as follows:

<u>AMPS Series</u>	<u>Initial Dividend Rate</u>	<u>Initial Dividend Period Ending</u>	<u>Initial Dividend Payment Date</u>
Series C	%	, 2004	, 2004

After the initial dividend period, each dividend period for the Series C AMPS will generally consist of seven days; provided however, that, before any auction, the Fund may decide, subject to certain limitations and only if it gives notice to holders, to declare a special dividend period of up to five years.

After the initial dividend period, in the case of dividend periods that are not special dividend periods, dividends generally will be payable on each succeeding Tuesday in the case of the Series C AMPS.

Dividends for the Series C AMPS will be paid through the securities depository (The Depository Trust Company) on each dividend payment date for the AMPS.

For each subsequent dividend period, the auction agent (The Bank of New York) will hold an auction to determine the cash dividend rate on the shares of Series C AMPS.

Determination of Maximum Dividend Rates Generally, the applicable dividend rate for any dividend period for the Series C AMPS will not be more than the maximum applicable rate attributable to such shares. The maximum applicable rate will be the higher of (A) the applicable percentage of the reference rate on the auction date or (B) the applicable spread plus the reference rate on the auction date. The reference rate is (A) the higher of the applicable LIBOR Rate (as defined in the Glossary) and the Taxable Equivalent of the Short Term Municipal Bond Rate (as defined in the Glossary) (for a dividend period or special dividend period of 364 or fewer days), or (B) the applicable Treasury Index Rate (as defined in the Glossary) (for a special dividend period of 365 days or more). The maximum applicable rate for the Series C AMPS will depend on the credit rating assigned to the shares, the length of the dividend period and whether or not the Fund has given notification prior to the auction

Table of Contents

for the dividend period that any taxable income will be included in the dividend on the AMPS for that dividend period. The applicable percentage and applicable spread are as follows:

Credit Ratings		Applicable Percentage of Reference Rate No	Applicable Percentage of Reference Rate	Applicable Spread Over Reference Rate No	Applicable Spread Over Reference Rate
Moody s	S&P	Notification	Notification	Notification	Notification
Aaa	AAA	110%	125%	1.10%	1.25%
Aa3 to Aa1	AA- to AA+	125%	150%	1.25%	1.50%
A3 to A1	A- to A+	150%	200%	1.50%	2.00%
Baa3 to Baa1	BBB- to BBB+	175%	250%	1.75%	2.50%
Below Baa3	Below BBB-	200%	300%	2.00%	3.00%

The applicable percentage and the applicable spread as so determined may be subject to upward but not downward adjustment in the discretion of the Board of Directors of the Fund after consultation with the broker-dealers participating in the auction for the AMPS.

There is no minimum applicable dividend rate for any dividend period.

Other AMPS

The Fund has outstanding 3,900 shares of two other series of Auction Market Preferred Stock, each with a liquidation preference of \$25,000 per share, plus accumulated but unpaid dividends, for an aggregate initial liquidation preference of \$97,500,000 (the Other AMPS). The Other AMPS are as follows: 2,400 shares of Auction Market Preferred Stock, Series A; and 1,500 shares of Auction Market Preferred Stock, Series B. The Series C AMPS offered hereby rank on a parity with the Other AMPS with respect to dividends and liquidation preference.

Asset Maintenance

Under the Fund s Articles Supplementary creating the Series C AMPS (the Articles Supplementary), the Fund must maintain:

asset coverage of the AMPS and Other AMPS as required by the rating agencies rating the AMPS, and

asset coverage of the AMPS and Other AMPS of at least 200% as required by the Investment Company Act of 1940 (the 1940 Act).

The Fund estimates that, based on the composition of its portfolio at May 31, 2004, asset coverage of the AMPS and Other AMPS as required by the 1940 Act would be approximately 275% immediately after the Fund issues the shares of AMPS offered by this prospectus representing approximately 36% of the Fund s capital, or approximately 57% of the Fund s common stock equity, immediately after the issuance of such AMPS.

Mandatory Redemption If the required asset coverage is not maintained or, when necessary, restored, the Fund must redeem shares of AMPS at the price of \$25,000 per share plus accumulated but unpaid dividends thereon (whether or not earned or declared). The provisions of the 1940 Act may restrict the Fund s ability to make such a mandatory redemption.

Optional Redemption The Fund may, at its option, choose to redeem all or some of the shares of AMPS on any dividend payment date at the price of \$25,000 per share, plus accumulated but unpaid dividends thereon (whether or not earned or declared), plus

any applicable premium.

Table of Contents

Liquidation Preference The liquidation preference (that is, the amount the Fund must pay to holders of AMPS if the Fund is liquidated) of each share of AMPS will be \$25,000, plus an amount equal to accumulated but unpaid dividends (whether or not earned or declared).

Ratings The AMPS will be issued with a rating of Aaa from Moody's Investors Service, Inc. (Moody's) and AAA from Standard & Poor's (S&P).

Voting Rights The 1940 Act requires that the holders of AMPS and any other preferred stock, including the Other AMPS, voting as a separate class, have the right to elect at least two directors at all times and to elect a majority of the directors at any time when dividends on the AMPS or any other preferred stock, including the Other AMPS, are unpaid for two full years. The Fund's Charter, the 1940 Act and the General Corporation Laws of the State of Maryland require holders of AMPS and any other preferred stock, including the Other AMPS, to vote as a separate class on certain other matters.

Table of Contents

RISK FACTORS AND SPECIAL CONSIDERATIONS

An investment in the Fund's AMPS should not constitute a complete investment program.

Investment Considerations. Investors in AMPS should consider the following factors:

The credit ratings of the AMPS could be reduced or terminated while an investor holds the AMPS.

Neither broker-dealers nor the Fund are obligated to purchase shares of AMPS in an auction or otherwise, nor is the Fund required to redeem shares of AMPS in the event of a failed auction.

If sufficient bids do not exist in an auction, the applicable dividend rate will be the maximum applicable dividend rate, and in such event, owners of AMPS wishing to sell will not be able to sell all, and may not be able to sell any, AMPS in the auction. As a result, investors may not have liquidity of investment.

Broker-dealers may submit orders in auctions for the AMPS for their own account. If a broker-dealer submits an order for its own account in any auction, it may have knowledge of orders placed through it in that auction and therefore have an advantage over other bidders, but such broker-dealer would not have knowledge of orders submitted by other broker-dealers in that auction.

A broker-dealer may bid in an auction in order to prevent what would otherwise be (i) a failed auction, (ii) an all-hold auction, or (iii) an applicable dividend rate that the broker-dealer believes, in its sole discretion, does not reflect the market for the AMPS at the time of the auction. A broker-dealer may, but is not obligated to, advise owners of AMPS that the dividend rate that would apply in an all-hold auction may be lower than would apply if owners submit bids and such advice, if given, may facilitate the submission of bids by owners that would avoid the occurrence of an all-hold auction.

Merrill Lynch has advised the Fund that it and certain other broker-dealers and other participants in the auction rate securities markets, including both taxable and tax exempt markets, have received a letter from the Commission requesting that each of them voluntarily conduct an investigation regarding their respective practices and procedures in those markets. Merrill Lynch is cooperating and expects to continue to cooperate with the Commission in providing the requested information. No assurance can be given as to whether the results of this process will affect the market for AMPS or the auctions.

Secondary Market. Broker-dealers have no obligation to maintain a secondary trading market in the AMPS outside of auctions and there can be no assurance that a secondary market for the AMPS will develop or, if it does develop, that it will provide holders with a liquid trading market. The AMPS will not be registered on any stock exchange or on any automated quotation system. An increase in the level of interest rates likely will have an adverse effect on the secondary market price of the AMPS, and a selling stockholder may have to sell AMPS between auctions at a price per share of less than \$25,000.

Rating Agencies. The Fund will issue the AMPS only if the AMPS have received a rating of Aaa from Moody's and AAA from S&P. As a result of such ratings the Fund will be subject to guidelines of Moody's, S&P or another substitute NRSRO that may issue ratings for its preferred stock. These guidelines may impose asset coverage or portfolio composition requirements that are more stringent than those imposed by the 1940 Act and may prohibit or limit the use by the Fund of certain portfolio management techniques or investments. The Fund does not expect

Edgar Filing: MUNIYIELD NEW JERSEY FUND INC - Form N-2/A

these guidelines to prevent the Investment Adviser from managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Also, under certain circumstances, the Fund may voluntarily terminate compliance with Moody's or S&P's guidelines, or both, in which case the AMPS may no longer be rated by Moody's or S&P, as applicable, but will be rated by at least one rating agency.

Table of Contents

New Jersey Municipal Bonds. The Fund is more exposed to risks affecting issuers of New Jersey Municipal Bonds than in a municipal bond fund that invests more widely. New Jersey and the nation are expected to have economic momentum heading into 2005. June 2004 forecasts project continued improvements in the economy although growth rates are expected to moderate somewhat in 2005. New Jersey's economy is expected to follow the national trend in 2005. New Jersey and the nation may experience further near-term slow growth, and the expected pace of economic expansion may stall if consumers, investors, and businesses become more cautious than currently assumed. Nevertheless, the fundamental of the State's economic health remain stable and the long-term prospects for economic growth in New Jersey in 2005 and beyond are favorable. On July 27, 2004, S&P and Fitch Ratings (Fitch) downgraded the State of New Jersey's general obligation bonds from AA to AA-. On July 28, 2004, Moody's downgraded the State of New Jersey's general obligation bonds from Aa2 to Aa3.

Interest Rate Risk and AMPS. The Fund issues shares of AMPS, which generally pay dividends based on short term interest rates. The Fund generally will purchase New Jersey Municipal Bonds and Municipal Bonds that pay interest at fixed or adjustable rates. If short term interest rates rise, dividend rates on the shares of AMPS may rise so that the amount of dividends paid to the holders of shares of AMPS exceeds the income from the Fund's portfolio securities. Because income from the Fund's entire investment portfolio (not just the portion of the portfolio purchased with the proceeds of the AMPS offering) is available to pay dividends on the shares of AMPS, dividend rates on the shares of AMPS would need to greatly exceed the Fund's net portfolio income before the Fund's ability to pay dividends on the shares of AMPS would be jeopardized. If market interest rates rise, this could negatively impact the value of the Fund's investment portfolio, reducing the amount of assets serving as asset coverage for the AMPS. If the asset coverage becomes too low, the Fund may be required to redeem some or all of the shares of AMPS.

Non-Diversification. The Fund is registered as a non-diversified investment company. This means that the Fund may invest a greater percentage of its assets in a single issuer than a diversified investment company. Since the Fund may invest a relatively high percentage of its assets in a limited number of issuers, the Fund may be more exposed to any single economic, political or regulatory occurrence than a more widely-diversified fund. Even as a non-diversified fund, the Fund must still meet the diversification requirements applicable to regulated investment companies under the Federal income tax laws.

Market Risk and Selection Risk. Market risk is the risk that the bond market will go down in value, including the possibility that the market will go down sharply and unpredictably. Selection risk is the risk that the securities that Fund management selects will underperform the bond market, the relevant indices, or other funds with similar investment objectives and investment strategies.

Tax Exempt Securities Market Risk. The amount of public information available about New Jersey Municipal Bonds and Municipal Bonds in the Fund's portfolio is generally less than that for corporate equities or bonds, and the investment performance of the Fund may, therefore, be more dependent on the analytical abilities of the Investment Adviser than the performance of a stock fund or taxable bond fund.

Interest Rate and Credit Risk. The Fund invests in New Jersey Municipal Bonds and Municipal Bonds, which are subject to interest rate and credit risk. Interest rate risk is the risk that prices of New Jersey Municipal Bonds and Municipal Bonds generally increase when interest rates decline and decrease when interest rates increase. Prices of longer term securities generally change more in response to interest rate changes than prices of shorter term securities. The Fund's use of leverage by the issuance of preferred stock and its investment in inverse floating obligations, as discussed below, may increase interest rate risk. Because market interest rates are currently near their lowest levels in many years, there is a greater risk that the Fund's portfolio will decline in value if interest rates increase in the future. Credit risk is the risk that the issuer will be unable to pay the interest or principal when due. Changes in an issuer's credit rating or the market's perception of an issuer's creditworthiness may affect the value of the Fund's investment in that issuer. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation.

Table of Contents

Call and Redemption Risk. A New Jersey Municipal Bond s or Municipal Bond s issuer may call the bond for redemption before it matures. If this happens to a New Jersey Municipal Bond or Municipal Bond that the Fund holds, the Fund may lose income and may have to invest the proceeds in New Jersey Municipal Bonds or Municipal Bonds with lower yields.

Rating Categories. The Fund intends to invest in New Jersey Municipal Bonds and Municipal Bonds that are rated investment grade by S&P, Moody s or Fitch, or in unrated New Jersey Municipal Bonds and Municipal Bonds that are considered by the Investment Adviser to possess similar credit characteristics. Obligations rated in the lowest investment grade category may have certain speculative characteristics. For example, their prices are more volatile, economic downturns and financial setbacks may affect their prices more negatively, and their trading market may be more limited.

Reinvestment Risk. Reinvestment risk is the risk that income from the Fund s portfolio will decline if and when the Fund invests the proceeds from matured, traded or called bonds at market interest rates that are below the portfolio s current earnings rate. A decline in income could negatively affect the Fund s yield, return or the market price of the common stock.

Private Activity Bonds. The Fund may invest in certain tax exempt securities classified as private activity bonds. These bonds may subject certain investors in the Fund to the Federal alternative minimum tax.

Liquidity of Investments. Certain New Jersey Municipal Bonds and Municipal Bonds in which the Fund invests may lack an established secondary trading market or may be otherwise considered illiquid. Liquidity of a security relates to the ability to easily dispose of the security and the price to be obtained and does not generally relate to the credit risk or likelihood of receipt of cash at maturity. Illiquid securities may trade at a discount from comparable, more liquid investments.

Portfolio Strategies. The Fund may engage in various portfolio strategies both to seek to increase the return of the Fund and to seek to hedge its portfolio against adverse effects from movements in interest rates and in the securities markets. These portfolio strategies include the use of derivatives, such as indexed securities, inverse floating rate securities, options, futures, options on futures, interest rate swap transactions and credit default swaps. Such strategies subject the Fund to the risk that, if the Investment Adviser incorrectly forecasts market values, interest rates or other applicable factors, the Fund s performance could suffer. Certain of these strategies, such as investments in inverse floating rate securities and credit default swaps, may provide investment leverage to the Fund s portfolio. The Fund is not required to use derivatives or other portfolio strategies to seek to increase return or to seek to hedge its portfolio and may choose not to do so. There can be no assurance that the Fund s portfolio strategies will be effective. Some of the derivative strategies that the Fund may use to seek to increase its return are riskier than its hedging transactions and have speculative characteristics. Such strategies do not attempt to limit the Fund s risk of loss.

General Risks Related to Derivatives. Derivatives are financial contracts or instruments whose value depends on, or is derived from, the value of an underlying asset, reference rate or index (or relationship between two indices). The Fund may invest in a variety of derivative instruments for investment purposes, hedging purposes or to seek to increase its return, such as options, futures contracts and swap agreements. The Fund may use derivatives as a substitute for taking a position in an underlying security or other asset and/or as part of a strategy designed to reduce exposure to other risks, such as interest rate risk. The Fund also may use derivatives to add leverage to the portfolio and/or to hedge against increases in the Fund s costs associated with the dividend payments on the preferred stock, including the AMPS. The Fund also may invest in certain derivative products that pay tax exempt income interest via a trust or partnership through which the Fund holds interests in one or more underlying long term municipal securities. The Fund s use of derivative instruments involves risks different from, and possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives are subject to a number of risks such as liquidity risk, interest rate risk, credit risk,

Table of Contents

leverage risk and management risk. They also involve the risk of mispricing or improper valuation and correlation risk (*i.e.*, the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index). If the Fund invests in a derivative instrument it could lose more than the principal amount invested. Moreover, derivatives raise certain tax, legal, regulatory and accounting issues that may not be presented by investments in New Jersey Municipal Bonds and Municipal Bonds, and there is some risk that certain issues could be resolved in a manner that could adversely impact the performance of the Fund and/or the tax exempt nature of the dividends paid by the Fund.

Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial.

Swaps. Swap agreements are types of derivatives. In order to seek to hedge the value of the Fund's portfolio, to hedge against increases in the Fund's cost associated with the interest payments on its outstanding borrowings or to seek to increase the Fund's return, the Fund may enter into interest rate or credit default swap transactions. In interest rate swap transactions, there is a risk that yields will move in the direction opposite of the direction anticipated by the Fund, which would cause the Fund to make payments to its counterparty in the transaction that could adversely affect Fund performance. In addition to the risks applicable to swaps generally, credit default swap transactions involve special risks because they are difficult to value, are highly susceptible to liquidity and credit risk, and generally pay a return to the party that has paid the premium only in the event of an actual default by the issuer of the underlying obligation (as opposed to a credit downgrade or other indication of financial difficulty). The Fund is not required to enter into interest rate or credit default swap transactions for hedging purposes or to enhance its return and may choose not to do so.

Taxability Risk. The Fund intends to minimize the payment of taxable income to stockholders by investing in New Jersey Municipal Bonds, Municipal Bonds and other tax exempt securities in reliance on an opinion of bond counsel to the issuer that the interest paid on those securities will be excludable from gross income for Federal income tax purposes and exempt from New Jersey personal income tax. Such securities, however, may be determined for Federal income tax purposes to pay, or to have paid, taxable income subsequent to the Fund's acquisition of the securities. In that event, the Internal Revenue Service may demand that the Fund pay taxes on the affected interest income, and, if the Fund agrees to do so, the Fund's yield on its common stock could be adversely affected. A determination that interest on a security held by the Fund is includable in gross income for Federal income tax purposes retroactively to its date of issue may, likewise, cause a portion of prior distributions received by stockholders, including holders of AMPS, to be taxable to those stockholders in the year of receipt. The Fund will not pay an Additional Dividend (as defined herein) to a holder of AMPS under these circumstances. If a security acquired based on reliance on such an opinion of counsel is subsequently determined to pay interest that is includable in gross income for Federal income tax purposes, the Fund will dispose of that security as soon as reasonably practicable.

Antitakeover Provisions. The Fund's Charter, By-laws and the General Corporation Law of the State of Maryland include provisions that could limit the ability of other entities or persons to acquire control of the Fund or to change the composition of its Board of Directors. Such provisions could limit the ability of stockholders to sell their shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of the Fund.

Market Disruption. The terrorist attacks in the United States on September 11, 2001 had a disruptive effect on the securities markets, some of which were closed for a four-day period. The continued threat of similar attacks, and related events, including U.S. military actions in Iraq and continued unrest in the Middle East, have led to increased short term market volatility and may have long term effects on U.S. and world economies and markets. Similar disruptions of the financial markets could adversely affect the market prices of the Fund's portfolio securities, interest rates, auctions, secondary trading, ratings, credit risk, inflation and other factors relating to the Fund's AMPS.

Table of Contents**FINANCIAL HIGHLIGHTS**

The following Financial Highlights table is intended to help you understand the Fund's financial performance for the periods shown. Certain information reflects financial results for a single share of common stock or preferred stock of the Fund. The total returns in the table represent the rate an investor would have earned or lost on an investment in shares of common stock of the Fund (assuming reinvestment of all dividends). The information with respect to the fiscal years ended November 30, 1994 to November 30, 2003 has been audited by Deloitte & Touche LLP whose report for the fiscal year ended November 30, 2003, along with the financial statements of the Fund, is included in the Fund's 2003 Annual Report, which is incorporated by reference herein. The information with respect to the six months ended May 31, 2004 is unaudited and is included in the Fund's 2004 Semi-Annual Report, which is incorporated by reference herein. You may obtain a copy of the 2003 Annual Report and the 2004 Semi-Annual Report at no cost by calling (800) 543-6217 between 8:30 a.m. and 5:30 p.m. Eastern time on any business day.

The following per share data and ratios have been derived from information provided in the financial statements.

	For the Six Months Ended May 31, 2004 (unaudited)	For the Year Ended November 30,
