## Item 2.02 Results of Operations and Financial Condition.

The Second Quarter 2005 Press Release furnished hereto as Exhibit 99.1, and the Supplemental Information document furnished hereto as Exhibit 99.2, were posted on the Schlumberger internet web site (www.slb.com/ir) on July 22, 2005.

In addition to financial results determined in accordance with generally accepted accounting principles (GAAP) that are included in the attached Second Quarter 2005 Press Release and Supplemental Information document, these documents also include the following non-GAAP financial measures (as defined under the SEC s Regulation G):

*Net debt:* Net debt is gross debt less cash, short-term investments and fixed income investments held to maturity. Management believes that net debt provides useful information regarding the level of Schlumberger s indebtedness by reflecting cash and investments that could be used to repay debt, and that the level of net debt provides useful information as to the results of Schlumberger s deleveraging efforts.

Income from continuing operations before charges and credits, diluted earnings per share before charges and credits, pretax return on sales before charges and credits, after tax before minority interest return on sales, and effective tax rate before charges and credits: Management believes that the exclusion of charges and credits enables it to evaluate more effectively Schlumberger s operations period over period and to identify operating trends that could otherwise be masked by the excluded items.

**Return on Capital Employed:** Return on capital employed (ROCE) is computed as (1) net income from continuing operations excluding charges plus minority interest plus interest expense minus interest income minus tax benefit on interest expense, divided by (2) the average of stockholders equity plus average net debt plus average minority interest. Management believes that ROCE provides useful information regarding the value Schlumberger creates for the providers of capital, namely stockholders and bondholders, by reflecting the level of net income generated by continuing operations using a given level of capital.

The foregoing non-GAAP financial measures should be considered in addition to, not as a substitute for, or superior to, total debt, net income, cash flows or other measures of financial performance prepared in accordance with GAAP as more fully discussed in Schlumberger s financial statements and filings with the Securities and Exchange Commission.
