Shanghai Petrochemical Announces 2006 First Quarterly Results

Hong Kong, April 26, 2006 Sinopec Shanghai Petrochemical Company Limited (Shanghai Petrochemical or the Company) (HKEx:338; SSE: 600688; NYSE: SHI) announced today the unaudited operating results of the Company and its subsidiaries (the Group) for the three-month period ended March 31, 2006 (the Period). In accordance with PRC Accounting Standards, during the Period, the Group s income from principal operations amounted to RMB11,334 million, an increase of 6.41% as compared to the corresponding period of the previous year. Net loss amounted to RMB154 million.

Mr. Rong Guangdao, Chairman of Shanghai Petrochemical, said, In the first quarter of 2006, international crude oil prices continued to rise substantially, thereby significantly increasing the production costs of the Group. In addition, as the prices of petroleum products were controlled by the State, there was limited room for prices of petroleum products to increase. As such, the gap between the domestic and international prices of petroleum products was rapidly enlarged. The first quarterly results of the Group suffered a loss.

During the Period, the Group s sales of synthetic fibers, resins and plastics, intermediate petrochemicals and petroleum products amounted to RMB1,096 million, RMB3,659 million, RMB1,474 million and RMB4,699 million, respectively. Other than the increase of 29.64% in the weighted average selling price of petroleum products as compared to the corresponding period of the previous year, the weighted average selling prices for synthetic fibers, resins and plastics and intermediate petrochemicals decreased by 4.14%, 2.66% and 12.63%, respectively.

During the Period, the Group processed 2,309,900 tons of crude oil (of which 62,800 tons were on sub-contracted basis), representing an increase of 1.42% as compared to the corresponding period of the previous year. The Group s unit cost of crude oil processed amounted to RMB3,678.45 per ton, an increase of 43.15% as compared to the corresponding period of the previous year.

Shanghai Petrochemical Announces 2006 First Quarterly Results p.2

Looking ahead, Mr. Rong said, As the current international crude oil prices fluctuate at a high level and mechanisms for adjustment of prices of petroleum products have not been implemented in a way which completely reflect the current high crude oil prices, it is estimated that the net profit of the Group for the half year will drop substantially when compared to the previous year. As such, in response to the changing macro-economic conditions and the industry's growth cycle, the Group will further increase operational efficiency, enhance management and accelerate development, with a view to achieving satisfactory operating results for 2006.

Shanghai Petrochemical is one of the largest petrochemical companies in the PRC and was one of the first Chinese companies to make a global securities offering. Located in Jinshan District in the southwest of Shanghai, it is a highly integrated petrochemical complex which processes crude oil into a broad range of synthetic fibers, resins and plastics, intermediate petrochemicals and petroleum products.

Table of Contents**3 MANAGEMENT DISCUSSION AND ANALYSIS****3.1 Overview and brief analysis of the Group's operating activities during the reporting period**

In the first quarter of 2006, international crude oil prices continued to rise substantially, thereby increasing the production cost of the Group significantly. As the prices of petroleum products were controlled by the State, there was limited room for prices of petroleum products to increase. As such, the gap between the domestic and international prices of petroleum products was rapidly enlarged. The first quarterly results of the Group suffered a loss.

The Group's income from principal operations during the first quarter of 2006 amounted to RMB11,334 million, an increase of 6.41% as compared to the corresponding period of the previous year. Sales of synthetic fibers, resins and plastics, intermediate petrochemicals and petroleum products amounted to RMB1,096 million, RMB3,659 million, RMB1,474 million and RMB4,699 million, respectively. The Group's net loss for the period amounted to RMB154 million.

In the first quarter of 2006, the Group processed 2,309,900 tons (of which 62,800 tons were on sub-contracted basis) crude oil, representing an increase of 1.42% as compared to the corresponding period of the previous year. The Group's unit cost of crude oil processed amounted to RMB3,678.45 per ton, an increase of 43.15% as compared to the corresponding period of the previous year. Other than the increase in weighted average selling price of petroleum products of 29.64% as compared to the corresponding period of the previous year, the weighted average selling prices of the Group's synthetic fibers, resins and plastics and intermediate petrochemical products decreased by 4.14%, 2.66% and 12.63%, respectively.

Price-setting principles of connected transactions

The directors (including non-independent directors) of the Group are of the opinion that the above connected transactions were conducted on normal commercial terms or, on terms no less favorable than terms available to the Group from independent third parties or to the third parties from the Group, and in the ordinary course of business. This was confirmed by the independent non-executive directors of the Company.

Table of Contents

3.1.2 *Profit structure during the reporting period (reasons for significant changes in profit from principal operations, profit from other operations, expenses for the period, investment income, subsidy income and net non-operating expenses over total profit as compared to the previous reporting period)*

- 1) Profit from principal operations suffered a loss was due to the substantial increase in the Group's production costs as a result of the continued significant upsurge of international crude oil prices. However, as prices were controlled by the State, increase of product selling prices was under pressure especially for petroleum products. The refining industry, as a whole, suffered a loss.
- 2) The decrease of financial expenses was due to the decrease of financing costs as a result of the issue of short-term commercial paper and the exchange gain generated from the appreciation of Renminbi.
- 3) Investment income increased as compared to the first quarter of 2005 was due to the one lump sum recognition of the Company's investment in a joint venture during the reporting period- the pre-operating expenses of Shanghai Secco Petrochemical Company Limited from its establishment to commencement of operation amounted to RMB136 million.

3.1.3 *Reasons for substantial changes in the profitability (gross profit margin) of the principal operations as compared to the previous reporting period*

The weakening of the profitability of principal operations was due to the substantial increase in the Group's production costs as a result of the continued significant upsurge of international crude oil prices. As prices were controlled by the State, increase of product selling prices was under pressure especially for petroleum products. The refining industry, as a whole, suffered a loss.

3.2 Reasons for the projection of possible losses in accumulated net profit for the period of the beginning of the year to the next reporting period or the warning for possible significant changes as compared to the same period of the previous year

As the current international crude oil prices fluctuate at a high level and mechanisms for adjustment of prices of petroleum products have not been implemented in a way which completely reflect the current high crude oil prices, the Board estimates that the net profit of the Group for the six months ended 30 June 2006 will drop substantially when compared to the net profit for the six months ended 30 June 2005.

Resolutions of the Eleventh Meeting of the Fifth Session of the Board of Directors

The Company and all members of the board of directors confirm that the information contained in this announcement is true, accurate and complete, and severally and jointly accept full responsibility for any false statements, misleading representations or material omissions in this announcement.

The directors were informed on the convening of the eleventh meeting of the fifth session of the board of directors of Sinopec Shanghai Petrochemical Company Limited (the Company) (the Meeting) via facsimile and mail on April 12, 2006. The Meeting was held on April 26, 2006 by means of correspondence. Of the 12 directors entitled to attend the Meeting, 12 of them attended the Meeting. The Meeting complied with the requirements of the PRC Company Law and the articles of association of the Company. Mr. Rong Guangdao, Chairman of the Company, presided over the Meeting. The Meeting considered and approved the following resolutions:

Resolution 1 The 2006 first quarterly report; the authorization given to the secretary to the board of directors (the Board) to submit the report to the Shanghai Stock Exchange, The Stock Exchange of Hong Kong Limited and the New York Stock Exchange; and the announcement of the first quarterly report after 4:15 p.m. on April 26, 2006 and the publication of the report in designated newspapers of Hong Kong and Shanghai on April 27, 2006 were considered and approved (with 12 votes in favor, 0 vote against, 0 abstention);

As the current international price of crude oil fluctuates at a high level and mechanisms for adjustment of prices of petroleum products have not been implemented in a way which completely reflect the current high crude oil prices, the Board estimates that the net profit of the Group for the six months ended June 30, 2006 will drop substantially as compared with the net profit for the six months ended June 30, 2005.

Resolution 2 The submission of the 20-F to the Securities and Exchange Commission of the USA and the submission of the relevant information in respect of the Board meeting to the New York Stock Exchange were considered and approved (with 12 votes in favor, 0 vote against, 0 abstention);

Resolution 3 The re-arrangement of members of the fifth session of the Board was considered and approved (with 12 votes in favor, 0 vote against, 0 abstention);

Owing to the change of work of Mr. Wu Haijun and Mr. Gao Jinping, directors, the requests put forward by Mr. Wu Haijun and Mr. Gao Jinping to cease to be the Company's directors were approved. The Board has nominated Mr. Li Honggen and Mr. Dai Jinbao to be candidates for the directors of fifth session of the Board and the same will be tabled to the annual general meeting for approval.

For the biographies of the candidates please refer to the AGM notice of the Company, which will be published on China Securities Journal, Shanghai Securities News, Hong Kong Commercial Daily and South China Morning Post on April 27, 2006.
