## 10. Property, plant and equipment and construction in progress

### (a) Change in assets estimated useful lives

The estimated useful lives of certain existing network equipment are affected by the maturity of 3G technology. During the first half of 2006, the Group reviewed the current conditions of existing network equipment and assessed the impact of the continuous development in the telecommunications technology on that network equipment. As a result, the Group revised the estimated useful lives of 2G network equipment from 7 years to 5 years.

The change in accounting estimate is accounted for prospectively from 1 January 2006. The depreciation expenses for the six months ended 30 June 2006 increased by approximately RMB6,529,000,000 as a result of this change in useful lives.

### (b) Acquisition of property, plant and equipment and construction in progress

During the six months ended 30 June 2006, the Group incurred capital expenditure of property, plant and equipment and construction in progress with a cost of RMB31,925,000,000 (for the six months ended 30 June 2005: RMB25,957,000,000).

### (c) Disposal/write-off of property, plant and equipment

Property, plant and equipment with net book value of RMB59,000,000 were disposed of during the six months ended 30 June 2006 (for the six months ended 30 June 2005: RMB163,000,000), resulting in a gain on disposal of RMB9,000,000 (for the six months ended 30 June 2005 (loss on disposal): RMB99,000,000).

Property, plant and equipment with net book value of RMB721,000,000 were written off during the six months ended 30 June 2006 (for the six months ended 30 June 2005: RMB4,556,000,000).

**11. Acquisition of a subsidiary**

On 10 November 2005, the Group, through Fit Best Limited, a company incorporated in the British Virgin Islands which is a wholly-owned subsidiary of the Company, made a voluntary conditional cash offer to acquire all the issued shares of China Resources Peoples Telephone Company Limited (currently known as China Mobile Peoples Telephone Company Limited, or Peoples Telephone), a mobile telecommunications services provider based in Hong Kong with its shares listed on The Stock Exchange of Hong Kong Limited (the SEHK). The offer became unconditional in all respects on 29 December 2005.

On 5 January 2006, Fit Best Limited successfully acquired 736,221,101 shares of Peoples Telephone, representing 99.0% of the issued shares of Peoples Telephone. Up to 12 January 2006, the Company received additional valid acceptance in respect of the voluntary conditional cash offer to acquire 5,073,500 shares of Peoples Telephone, representing 0.68% of the issued shares of Peoples Telephone. At the same day, the Company applied the provisions of the Hong Kong Companies Ordinance to compulsorily acquire any remaining issued shares of Peoples Telephone.

On 28 March 2006, the compulsory acquisition of all the issued and outstanding shares of Peoples Telephone was completed at a total cash consideration of HK\$3,384,000,000 (approximately RMB3,520,000,000) and the listing of the shares of Peoples Telephone on the SEHK was withdrawn with effect from 29 March 2006.

The newly acquired subsidiary has contributed profit for the period of RMB118,000,000 (equivalent to HK\$114,000,000). If the acquisition had occurred on 1 January 2006, the estimated Group revenue and profit for the period would be approximately the same as compared to the actual result. The acquisition had the following effect on Group's assets and liabilities:

	<b>Recognized values on acquisition RMB million</b>	<b>Pre-acquisition carrying amounts RMB million</b>

**22. Possible impact of amendments, new standards and interpretations issued but not yet effective for the annual accounting period ending 31 December 2006**

Up to the date of issue of the interim financial report, the HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the accounting period ending 31 December 2006 and which have not been adopted in the interim financial report.

Of these developments, the following relate to matters that may be relevant to the Group's operations and financial statements:

HKFRS 7	Financial instruments: disclosures	<b>Effective for accounting periods beginning on or after</b> 1 January 2007
Amendment to HKAS 1	Presentation of financial statements: capital disclosures	1 January 2007

The Group is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations is expected to be in the period of initial application. So far it has concluded that while the adoption of them may result in new or amended disclosures, it is unlikely to have a significant impact on the Group's results of operations and financial position.

## DISCUSSION OF SELECTED ITEMS IN THE INTERIM RESULTS

### 1. Strong cash flow and sound capital structure

The Group continued to sustain its robust cash flow as a result of favorable business growth, proactive cost control measures, meticulous capital expenditure management and the effect of economies of scale. The Group's free cash flow (net cash generated from operating activities after deduction of capital expenditure incurred) was RMB47,182 million for the six months ended 30 June 2006. As at 30 June 2006, the Group's total cash and bank balances were RMB141,300 million, of which 95.2 per cent., 0.6 per cent. and 4.2 per cent. were denominated in RMB, U.S. dollars and Hong Kong dollars, respectively.

As at 30 June 2006, the Group's debt to capitalization ratio (capitalization represents the sum of total debt and total shareholders' equity value) was approximately 11.4 per cent. At the end of June 2006, short-term and long-term borrowings of the Group totaled RMB37,808 million, representing a decrease of RMB164 million from year-end 2005, which reflects that the Group's financial position continued to remain at a sound level. Of the total borrowings, 37.5 per cent. was in RMB (consisting principally of RMB bonds), and 62.5 per cent. was in U.S. dollars (consisting principally of the balances of the deferred consideration for the acquisitions of the eight and the ten provincial telecommunications operators). Approximately 75.8 per cent. of the Group's borrowings were made at floating interest rates. The actual average interest rate of borrowings (including capitalized interest) of the Group was approximately 3.22 per cent. in the first half of 2006, whereas the actual interest coverage multiple (ratio of profit before interest and tax to interest expenses) amounted to 72 times.

The Group will continue to pursue prudent financial principles, strictly control financial risks, maintain its strong cash-flow generating capability, allocate its resources in a scientific manner, maintain a prudent debt policy and reinforce and develop favorable economic efficiency, with a view to generating greater returns for our shareholders continuously.

### 2. Capital expenditure

The Group's capital expenditure for the first half of 2006 totaled approximately RMB31,925 million. Capital expenditure was mainly used for the construction of GSM networks, support systems, transmission facilities, infrastructure buildings and for the development of new technologies and new businesses. Capital expenditure was financed primarily by cash flow generated from operations. The Group will continue to pursue rational investments and cautiously consider the cost efficiency of any capital investment, with a view to ensuring favorable investment returns.

### 3. Personnel expenses

The Group continued to strengthen its highly-efficient staff management and incentive structure, promote human resources management, persistently implement effective and comprehensive budget management and performance-based evaluation, thereby maintaining a competitive advantage in terms of human resources while effectively controlling personnel expenses. Personnel expenses were RMB7,990 million in the first half of 2006, and accounted for 5.8 per cent. of the operating revenue which remained generally stable when compared with the same period in the prior year. The Group had a total of 105,456 employees as at 30 June 2006. In order to align the interest of the employees with that of the shareholders, the Group granted share options to employees pursuant to the share option scheme of the Company. The relevant cost of share options have been included in the above personnel expenses. Further details of the share option schemes and the share options granted are set out in Note 18 of the Notes on the Unaudited Interim Financial Report and in the section Other Information Directors, Chief Executive's and Employees Rights to Acquire Shares in the interim report to be sent to shareholders.

### 4. Depreciation expenses and assets disposed/written off

In view of the maturity of 3G technology, the technical life and the estimated useful lives of certain existing network equipment are being affected. In accordance with prudent financial principles, the Company reviewed and assessed the situation of current network assets and decided to revise the estimated useful lives of 2G network equipment from 7 years to 5 years in the first half of 2006. The change in accounting estimate is accounted for prospectively from 1 January 2006. Depreciation expense was RMB34,542 million in the first half of 2006, representing an increase of 24.6 per cent. over the same period of the prior year, of which such change of estimated useful lives had resulted in an increase of depreciation expense by RMB6,529 million.

In addition, the Group continued to upgrade and replace certain functional obsolete equipment during the first half of 2006 and the relevant assets of RMB712 million were disposed and written off.

## Edgar Filing: CHINA MOBILE LTD /ADR/ - Form 6-K

The change of estimated useful lives of certain assets is consistent with the prudent approach of the Group's financial principles that has been persistently adopted. It truly reflects the actual usage condition of those assets and further optimizes the asset quality, thereby laying down a solid foundation for the migration to next generation network and for the future development of our new businesses.

### **PROSPECTS**

In the second half of 2006, the Group will continue to pursue rational competition, develop new customers, new businesses and new voice usage, endeavor to maintain growth with innovation and further promote the development of economies of scale. In addition to its comprehensive development, the Group will increase its efforts in developing mobile telecommunications in rural areas through the establishment and enhancement of fundamental mobile telecommunications coverage network, service and sales networks and agricultural information network for rural areas. The Group will, on the strength of its voice business, continue to develop value-added businesses, strengthen the preparation of new product and application offerings, ceaselessly create new business areas and strive to become the Mobile Information Expert.
