MANAGEMENT PROXY CIRCULAR

Solicitation of Proxies

This management proxy circular is furnished in connection with the solicitation of proxies by the management of the Company for use at the annual meeting of shareholders to be held at 9:00 a.m. (EDT) on Tuesday, May 15, 2007 at the principal executive offices of GSI Group Inc., 39 Manning Road, Billerica, MA 01821. The solicitation will be made by mail, but proxies may also be solicited personally by employees of the Company. The cost of solicitation has been or will be borne by the Company. The Company may also pay brokers or nominees holding common shares of the Company in their names or in the names of their principals for their reasonable expenses in sending solicitation material to their principals.

The notice of the meeting, this management proxy circular, the form of proxy and a copy of the Company's annual report will be forwarded on or about Tuesday, April 17, 2007 to the Company's shareholders of record as of the close of business on Monday, March 26, 2007.

Appointment and Revocation of Proxies

The persons named in the enclosed form of proxy are officers of the Company. **A shareholder may appoint a person to represent him or her at the meeting, other than the persons already named in the attached form of proxy, by inserting the name of such other person in the blank space provided in the form of proxy or by completing another proper form of proxy. Such person need not be a shareholder.** The completed form of proxy must be deposited with the Company at its principal executive offices at 39 Manning Road, Billerica, Massachusetts 01821, or with Computershare Investor Services Inc., 100 University Avenue, 9th Floor, Toronto, Ontario, Canada, M5J 2Y1, in either case no later than 5:00 p.m. (EDT) on Friday, May 11, 2007, or, if the meeting is adjourned or postponed, prior to 5:00 p.m. (EDT) on the last business day prior to the date fixed for the adjourned or postponed meeting.

The shareholder executing the form of proxy may revoke it as to any matter on which a vote has not already been cast pursuant to the authority conferred by such proxy: (a) by delivering another properly executed form of proxy bearing a later date and depositing it in the manner described above; (b) by delivering an instrument in writing revoking the proxy, executed by the shareholder or by the shareholder's attorney authorized in writing: (i) at the registered office of the Company, at any time up to and including the last business day preceding the date of the meeting, or at any reconvened meeting following its adjournment or postponement, or (ii) with the chairman of the meeting on the day of the meeting, or at any reconvened meeting following its adjournment or postponement; or (c) in any other manner permitted by law.

Voting of Proxies

The officers named in the form of proxy attached to this management proxy circular will vote or withhold from voting the common shares of the Company in respect of which they are appointed proxy in accordance with the directions of the shareholder appointing them and, if a shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly. In the absence of such direction, the shares will be voted:

in favor of the election as Directors of the nominees named in this management proxy circular; and

in favor of the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007.

The Board of Directors of the Company has fixed the close of business on Monday, March 26, 2007 as the record date for the determination of shareholders entitled to vote at the meeting. At the close of business on that date there were outstanding and entitled to vote 41,930,099 common shares of the Company. Each share is entitled to one vote, which may be cast as follows:

the vote for the election as Directors of the nominees named in this management proxy circular is cumulative and is described in more detail below;

the vote for the ratification of the appointment of the independent registered public accounting firm requires the approval of a majority of the common shares represented and cast in respect of such matter to be effective.

No votes may be taken at the meeting, other than a vote to adjourn, unless a quorum has been constituted consisting of the representation of at least thirty-three and one-third percent (33 1/3%) of the outstanding shares as of the record date. Votes will be tabulated by the Company's transfer agent subject to the supervision of persons designated by the Board of Directors of the Company as inspectors of election.

Voting for the Election of Directors. Section 65(1) of the *Business Corporations Act* (New Brunswick) provides for cumulative voting for the election of Directors so that each shareholder entitled to vote at an election of Directors has the right to cast an aggregate number of votes equal to the number of votes attached to the shares held by such shareholder multiplied by the number of Directors to be elected, and may cast all such votes in favor of a single candidate or distribute them among the candidates in any manner the shareholder decides. The statute further provides, in section 65(2), that a separate vote of shareholders shall be taken with respect to each candidate nominated for director unless a resolution of the shareholders is passed unanimously permitting two or more persons to be elected by a single resolution. Where a shareholder has voted for more than one candidate without specifying the distribution of votes among such candidates, the shareholder shall be deemed to have divided the votes equally among the candidates for whom such shareholder voted. If a shareholder desires to distribute votes otherwise than equally among the nominees for whom such shareholder has directed the persons in the enclosed form of proxy to vote, such shareholder must do so personally at the meeting or by another form of proxy. **On any ballot that may be called for the election of Directors, the persons named in the enclosed form of proxy intend to cast the votes to which the shares represented by such proxy are entitled equally among all the proposed nominees whose names are set forth in the table under Election of Directors below, except those, if any, excluded by the shareholder in the proxy, or unless the shareholder who has given such proxy has directed that the shares be withheld from voting in the election of Directors.**

Ownership of Directors and Executive Officers. As of the close of business Monday, March 26, 2007, the Directors and executive officers of the Company and their respective affiliates, as a group, may be deemed to be the beneficial owners of 2,101,068 common shares, representing approximately 5% of the outstanding common shares. The Directors and executive officers of the Company have indicated that they intend to vote their respective common shares **in favor** of the election as Directors of the nominees named in this management proxy circular, and **in favor** of the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm.

The enclosed form of proxy confers discretionary authority on the person named therein with respect to amendments to or variations of matters identified in the notice of meeting and other matters that may properly come before the meeting. At the date of this management proxy circular, the management of the Company knows of no such amendments, variations or other matters.

Voting and Ownership of Shares

As of the record date the Company had 41,930,099 common shares outstanding. Each shareholder of record, as of the close of business on Monday, March 26, 2007, is entitled to one vote for each common share held, except to the extent that such shareholder has transferred the ownership of any shares after such date and the

transferee of such shares establishes proper ownership thereof and demands not later than ten (10) days before the meeting to be added to the list of shareholders entitled to vote at the meeting in which case such transferee will be entitled to vote such shares. The failure of any shareholder to receive a notice of meeting of shareholders does not deprive the shareholder of a vote at the meeting.

Broker Non-Votes

A broker non-vote occurs when a broker submits a proxy card with respect to common shares held in a fiduciary capacity (typically referred to as being held in street name), but declines to vote on a particular matter because the broker has not received voting instructions from the beneficial owner. Under the rules that govern brokers who are voting with respect to shares held in street name, brokers have the discretion to vote such shares on routine matters, but not on non-routine matters. Routine matters include the election of Directors and ratification of the independent registered public accounting firm. Non-routine matters include matters such as amendments to or adoption of stock option plans, adoption of shareholder rights plans or amendments to our Articles of Continuance. For purposes of determining the presence or absence of a quorum, votes withheld, abstentions and broker non-votes will be counted as present. With respect to the approval of any particular proposal, abstentions and broker non-votes will not be counted in determining the number of votes cast.

ELECTION OF DIRECTORS

The Articles of Continuance of the Company provide that its Board of Directors is to be comprised of a minimum of five (5) and a maximum of fifteen (15) Directors, as determined from time to time by resolution of the Board of Directors. The Board of Directors has resolved that the entire Board of Directors will consist of seven (7) Directors. Below are the names of the persons for whom it is intended that votes be cast for their election as Directors pursuant to the proxy that is hereby solicited unless the shareholder directs therein that his, her or its shares be withheld from voting. Each Director will hold office until the next annual meeting, until his/her successor is elected or appointed, or until his/her earlier death, resignation or removal.

Management does not contemplate that any of the nominees named below will be unable to serve as a director, but if that should occur for any reason prior to the meeting, where the proxy is granted to the management nominees, the management nominees reserve the right to vote for other nominees in their discretion unless directed to withhold from voting. The following table states, with respect to each person nominated for election as a director, the name, age, position held with the Company (where applicable), the year first elected or appointed as a director, committee memberships and the person's principal occupation and employment during the past five (5) years.

If shareholders do not ratify the appointment of Ernst & Young LLP of Boston, Massachusetts as the Company s independent registered public accounting firm for the current fiscal year ending December 31, 2007, the Audit Committee of the Board of Directors will evaluate what would be in the best interests of the Company and its shareholders, and consider whether to select a new independent registered public accounting firm for the current fiscal year or whether to wait until the completion of the audit for the current fiscal year before changing independent registered public accounting firms.

The Board of Directors recommends a vote **FOR** ratification of this appointment.

The Compensation Committee also administers the issuance of stock options and other equity awards. The Directors currently serving on the Compensation Committee are Messrs. Pond and Griffiths, and Ms Hatsopoulos with Ms Hatsopoulos serving as Chairman. The Compensation Committee held seven (7) meetings (including four meetings by telephone) during fiscal 2006. The Board of Directors has determined that the members of the Nominating and Corporate Governance Committee are independent as defined by NASDAQ Stock Market's Marketplace Rules.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is responsible for the following: (a) identifying individuals qualified to become board members and recommending such individuals to the Board as director nominees; (b) developing and recommending to the board a set of corporate governance principles applicable to the Company; and (c) reviewing the qualifications of Directors eligible to become members of the different committees of the board, and recommending to the board director nominees for each committee; and (d) determining Board and Committee compensation. The Directors currently serving on the Nominating and Corporate Governance Committee are Messrs. Pond, and Virgilio and Ms Hatsopoulos, with Mr. Pond serving as Chairman. The Nominating and Corporate Governance Committee held five (5) meetings (including one meeting by telephone) during fiscal 2006.

The Nominating and Corporate Governance Committee and the Board of Directors have not established a formal process with regard to any director candidates recommended by shareholders. This is due to the following factors: (i) limited number of such recommendations, (ii) the need to evaluate such recommendations on a case-by-case basis, and (iii) the expectation that recommendations from shareholders would be considered in the same manner as recommendations by a director or an officer of the Company. Under the Company's By-Law Number 1, a shareholder may recommend a director nominee if the recommendation is signed by one or more holders of shares representing in the aggregate not less than 5% of the common shares of the Company entitled to vote at the shareholder's meeting to which the nomination is to be presented. Any shareholder, as described in the preceding sentence, wishing to recommend candidates for consideration by the Nominating and Corporate Governance Committee and the full Board of Directors may do so by writing to the Secretary of the Company and providing the candidate's name, biographical data and qualifications.

The criteria that the Nominating and Corporate Governance Committee has established regarding the minimum qualifications for committee-recommended nominees is available on the Company's Web site at <http://www.gsig.com/investors/>, under the title of Director Selection and Board Composition. These criteria center on finding candidates who have the highest level of integrity, are financially literate, have motivation and sufficient time to devote themselves to Company matters and who have skills that complement the skills and knowledge of the current Directors. The nominees named in this management proxy circular are all incumbent Directors and have been selected and recommended by the current Board of Directors, including the President and Chief Executive Officer.

The Board has published director selection and board composition guidelines on its website. New directors must demonstrate the highest ethical standards, and have an understanding of developing technologies, market trends, quality systems and production processes. Candidates must also be willing to devote adequate time to

develop an understanding of the Company's unique products and businesses. The Board is committed to a policy of equal opportunity in who it recommends to shareholders as potential director candidates.

Currently, six of the seven Directors are independent, including the Chairman, Mr. Black.

In 2005, an Executive Search Committee was formed consisting of Messrs. Black, Garrettson, and Griffiths to direct the search for a new President and Chief Executive Officer. This Committee was dissolved when Sergio Edelstein, the current President and Chief Executive Officer, commenced employment with the Company on July 10, 2006. On this same date, this Committee was dissolved. The Executive Search Committee engaged the firm of GA Partners to identify and refer candidates to the Executive Search Committee in accordance with specific criteria provided.

Annually, the Nominating and Corporate Governance Committee reviews and approves a Board self-evaluation form. This form is distributed to each Board member at the end of the calendar year. Directors individually rate the total board as to its overall capability in certain specified important areas. The Board also assesses the presence of specified enabling factors that can assist the Board in carrying out its duties more effectively. Finally, the Board assesses its overall effectiveness in carrying out certain specified duties. The assessments are tabulated and distributed to the entire Board, where they are discussed in a group session. The results of the assessment are compared with the previous year and appropriate actions are taken to improve performance. In addition, the Nominating and Corporate Governance Committee evaluates its own performance and discusses the results with the full Board.

Technology Committee. The Technology Committee reviews, evaluates and makes recommendations to the Board regarding the Company's major technology initiatives, including its research and development activities. The Committee also evaluates technical and market risks associated with new product development programs, and assesses both existing and new potential technology markets. The Committee currently consists of Phillip Griffiths (Chair), Garrett Garrettson and Sergio Edelstein. The Committee is assisted by Kurt Pelsue, Chief Technology Officer for the Company. The Technology Committee held five (5) meetings (including four meetings by telephone) during fiscal 2006.

COMMUNICATIONS WITH DIRECTORS

The Board of Directors has not established a formal process for shareholders to send communications to the Board of Directors and individual Directors due to the limited number of such communications historically. However, the names of all Directors are available to shareholders in this management proxy circular and on the Company website. If the Company receives any shareholder communication intended for the full Board of Directors or any individual Director, the Company will forward all such communications to the full Board of Directors or such individual Director, unless the communication is clearly of a marketing nature or is unduly hostile, threatening, illegal, or similarly inappropriate, in which case the Company has the authority to discard the communication or take appropriate legal action regarding the communication. The Company has also established a confidential hotline for communication between Company employees and members of the Audit Committee.

Report of the Nominating and Corporate Governance Committee

Statement of Corporate Governance Practices for NI 58-101 Purposes

The Board of Directors and senior management of the Company consider good corporate governance to be central to the effective operation of the Company. As part of the Company's commitment to effective corporate governance, the Board of Directors, with the assistance of the Nominating and Corporate Governance Committee, monitors changes in legal requirements and best practices. During the past year, there have been several changes to the corporate governance and corporate governance disclosure requirements applicable to the Company. Specifically, the Canadian Securities Administrators introduced in final form National Instrument 58-101 Disclosure of Corporate Governance Practices (the National Instrument) and National Policy 58-201 Corporate Governance Guidelines (the National Policy), both of which came into force on June 30, 2005. The Board of Directors and the Company have devoted significant attention and resources to ensuring that the Company's system of corporate governance meets or exceeds applicable legal and stock exchange requirements. Set out below is a description of certain corporate governance practices of the Company, as required by the National Instrument.

Board of Directors

The National Policy recommends that boards of directors of reporting issuers be composed of a majority of independent directors. With six of seven Directors considered independent, the Board of Directors is composed of a majority of independent Directors. The six independent Directors are: Messrs. Richard B. Black, Phillip A. Griffiths, Byron O. Pond, Benjamin J. Virgilio and Garrett A. Garrettson and Ms. Marina Hatsopoulos. Dr. Sergio Edelstein, the Company's President and Chief Executive Officer, has a material relationship with the Company and is therefore not independent. The Company has taken steps to ensure that adequate structures and processes are in place to permit the Board of Directors to function independently of management. The non-employee Directors hold executive sessions without management every Board meeting. In addition, and to ensure independence from management, Dr. Edelstein is requested to withdraw, where appropriate, from meetings of the Board of Directors and similarly from any meetings of Committees to which he may be invited.

The Company and the Board of Directors recognize the significant commitment involved in being a member of the Board of Directors. Accordingly, Directors notify the Chairman of the Board of a change in status including if they have begun serving on another corporate board of Directors or with any governmental advisory or charitable organization. The Nominating and Corporate Governance Committee is responsible for evaluating whether continued membership on the Board of Directors is appropriate. Currently, Messrs. Black, Garrettson, Griffiths, Pond, and Ms Hatsopoulos are Directors of the Company who serve on the boards of directors of other public and private companies as described in the biographies in the section of this management information circular titled Election of Directors .

With respect to the attendance of Directors at Board of Directors and committee meetings, please refer to the section of this management information circular titled Board of Directors and Committee Meetings .

Board Mandate

The Board of Directors is responsible for the overall stewardship of the Company. The Board of Directors discharges this responsibility directly and through delegation of specific responsibilities to committees of the Board of Directors, the Chairman of the Board and officers of the Company. The Board of Directors has established four committees to assist with its responsibilities: the Audit Committee; the Compensation Committee; the Nominating and Corporate Governance Committee; and the Technology Committee. Each of the Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee and Technology Committee has a charter defining its responsibilities. The Board of Directors does not have an executive committee. Please see additional disclosure relating to each of the Committees of the Board of Directors under the section of this management information circular titled, Board of Directors and Committee Meetings above.

Position Descriptions

The Board of Directors has developed position descriptions for the Chair of each committee of the Board of Directors. The Board of Directors has also developed a position description for the Chief Executive Officer of the Company.

Orientation and Continuing Education

Responsibility for orientation programs for new directors is assigned to the Nominating and Corporate Governance Committee. In this regard, the Nominating and Corporate Governance Committee's duties include ensuring the adequacy of the orientation and education program for new members of the Board of Directors. The Chairman of the Committee reviews with each new member of the Board of Directors (i) certain information and materials regarding the Company, including the role of the Board of Directors and its committees and (ii) the legal obligations of a Director of the Company. The Nominating and Corporate Governance Committee is also responsible for arranging continuing education for Directors in order to ensure that Directors maintain the skill and knowledge necessary to meet their obligations as Directors.

Ethical Business Conduct

The Company has in place a Code of Ethics that applies to all Directors, officers, and employees. The Code of Ethics sets out in detail the core values and the principles by which the Company is governed and addresses topics such as: honest and ethical conduct and conflicts of interest; compliance with applicable laws and Company policies and procedures; public disclosure and books and records; use of corporate assets and opportunities; confidentiality of corporate information; reporting responsibilities and procedures; and non-retaliation.

The Nominating and Corporate Governance Committee is responsible for reviewing the Code of Ethics. The Company's Human Resources Department is responsible for communicating the Code of Ethics to Directors, officers and employees. The Audit Committee monitors overall compliance with the Code of Ethics for the Directors, officers, and employees of the Company. All issues and concerns specifically related to accounting, internal financial controls and/or auditing will be reviewed and forwarded to the Audit Committee. A copy of the Code of Ethics is available on the Company's Web site at <http://www.gsig.com>.

The Board of Directors and the Audit Committee have established a hotline to encourage employees, officers and Directors to raise concerns regarding matters covered by the Code of Ethics (including accounting, internal controls or auditing matters) on a confidential basis free from discrimination, retaliation or harassment.

In addition, in order to ensure independent judgment in considering transactions/agreements in which a Director/officer has a material interest, all related party transactions are approved by the independent Directors and all payments under related party transactions are approved by the Audit Committee.

Assessments

The Nominating and Corporate Governance Committee is responsible for assessing the effectiveness of the Board of Directors as a whole and the committees of the Board of Directors. Each Director is required to complete, on an annual basis, a written evaluation with respect to: (i) the performance of the Board of Directors; and (ii) the performance of committees. The Nominating and Corporate Governance Committee reviews the evaluations with the Chairman of the Board. The results of the evaluations are summarized and presented to the full Board of Directors.

In carrying out the purpose set forth above, the Technology Committee:

- (a) Reviews, evaluates and makes recommendations to the Board regarding the Company's major technology plans and strategies, including its research and development activities, and evaluates technical and market risks associated with product development and investment.

COMPENSATION DISCUSSION & ANALYSIS

The following discussion and analysis contains statements regarding future individual and company performance targets and goals. These targets and goals are disclosed in the limited context of Company's compensation programs and should not be understood to be statements of management's expectations or estimates of results or other guidance. The Company specifically cautions investors not to apply these statements to other contexts.

The following details the Company's philosophy and policies regarding executive compensation, the process that is used to set executive compensation within the Company, the elements of the executive compensation program, and the role of the Compensation Committee of the Board of Directors of GSI Group Inc. (the Committee) and the executive staff in setting executive compensation. In this section, the use of the terms, we, our, us and the Committee refers to the Compensation Committee unless otherwise specified.

The Compensation Committee

The Compensation Committee is responsible for setting, implementing and monitoring the Company's executive compensation policy, subject to the ultimate authority of the Board of Directors. The Committee works with the CEO and, where appropriate, outside consultants, HR representatives and the General Counsel on compensation issues. The compensation policy seeks to further important strategic Company goals and to incentivize and retain a highly qualified executive team with the ultimate goal of building long-term shareholder value.

Committee Members and Independence

The current members of the Committee are Marina Hatsopoulos (Chair), Byron O. Pond and Phillip Griffiths. Between January - July 2006, the members of the Committee were Benjamin Virgilio (Chair), Marina Hatsopoulos and Byron Pond. Committee assignments changed as of the July 2006 Board of Directors meeting pursuant to the annual recommendations of the Nominating and Governance Committee. Mr. Pond is the Chair of the Nominating and Governance Committee. Each member of the Compensation Committee from January 2006 through the present has been qualified as independent under NASDAQ listing standards and following an annual independence review performed by the Nominating and Governance Committee.

Role of the Committee

The Committee operates pursuant to a written Charter. The Charter sets forth the Committee's purpose, authority and responsibilities, and procedures. The Charter is reviewed and approved by the Board of Directors, and is available for review at the Investor Relations section of the Company's website (www.gsig.com).

In summary, the Committee's responsibilities include:

To review and approve the compensation policies of the Company generally;

To annually review and evaluate the performance of the Company's senior managers, including the CEO;

To annually review and recommend to the Board of Directors the compensation for the Company's senior managers, including the CEO;

To annually review and approve the annual and long-term compensation-based performance objectives for the Company's senior managers, including the CEO;

To annually review and make recommendations to the Board of Directors with respect to grants under the Company's incentive compensation and equity-based compensation plans.

To annually review the Compensation Discussion and Analysis section of the Company's annual proxy statement.

The Committee meets as often as the Chair deems appropriate and not less than four times per year. In 2006, the Committee met ten times, including one telephonic meeting. The Committee reports its actions and recommendations to the full Board of Directors at each quarterly Board meeting. The Committee meets in executive session, and where appropriate, with members of management, including the CEO, outside consultants, HR representatives and the General Counsel. The Committee typically receives study materials in advance of each meeting. Depending on the agenda, these materials may include:

Financial reports

Individual performance reports

Stock ownership and option holding reports

Peer group compensation data

Individual compensation tally sheets

External Peer and Survey Data

The Committee is authorized to retain such outside consultants and advisors as it deems appropriate in its sole discretion. During 2006, the Committee retained Pearl Meyer and Associates as an outside compensation consultant to advise it in connection with developing a compensation package for Sergio Edelstein, and to provide survey data in connection with annual executive compensation reviews. In addition, at the Committee's request, the Company engaged Pearl Meyer in regard to developing stock ownership guidelines. Going forward, the Committee has requested that the Company not retain Pearl Meyer for other projects to insure Pearl's independence in connection with advising the Committee. In addition, the Company subscribes to the Radford Compensation Survey and makes that data available to the Committee as well. For purposes of executive compensation during 2006, Pearl Meyer identified 13 Peer Group companies including:

Axsys Technologies	Coherent
CyberOptics	Cymer
Electro Scientific Industries	FEI Company
II-VI Incorporated	Keithley Instruments
MRV Communication	Newport Corporation
Rofin-Sinar Technologies	Veeco Instruments
Zygo Corporation	

The Peer Group is compared to GSI in the following table:

	Revenue	Market Cap
Company	(\$M)	(\$M)
GSI Group Inc.	\$ 313.6	\$ 405.9*
Peer Group 25 th Percentile	\$ 142.2	\$ 280.2
Peer Group 50 th Percentile	\$ 287.7	\$ 634.5
Peer Group 75 th Percentile	\$ 403.7	\$ 716.9

* Market cap as of NASDAQ market close on December 29, 2006

The Peer Group is subject to change from year to year based on changes in relative size, capitalization and other factors. During 2006, Pearl Meyer also provided the Committee with CEO compensation data from both the Peer Group and also from a second group of technology companies (the Technology Group) in the \$300 - \$600 Million market capitalization range. The Technology Group included:

Applied Micro Circuits Corp.	Atari Inc.
Genesis Microchip Inc.	Informatica Corp.
Magnetek Inc.	Manhattan Associates Inc.
Openwave Systems Inc.	RCN Corp.
Transaction Systems Architects Inc.	

The Committee looks at multiple compensation data sets because the Company operates under a hybrid business model that includes both systems businesses (semiconductor wafer processing, circuit trimming, and paste inspection) and component technology businesses (galvanometers, encoders, high speed spindles, and lasers). Because the Company competes against systems manufacturers, laser manufacturers, and component manufacturers in differing markets with differing market dynamics, it is difficult to capture a single peer group that faithfully tracks against the Company.

Peer Group compensation data from Pearl looked first to proxy disclosures by Peer Group members by title or functional position. If a functionally equivalent position was disclosed, the Committee used the compensation

data in its survey. If there was no functionally equivalent position disclosed, or where there was insufficient match data, Pearl ranked salaries and then applied the rankings against internal GSI executive positions on a best fit basis. For GSI divisional manager, Pearl looked at compensation data for CEOs with company annual revenues less than \$150 million. Where possible, data was normalized to reflect unique grant situations (e.g., new hires, bi-annual grants, etc.).

The Committee does not believe it is appropriate to set executive compensation levels based exclusively on compensation surveys and benchmarking. Rather, the Committee and the CEO use these surveys and benchmarking as tools for internally confirming that the Company's executive compensation program is, in the aggregate, reasonable in scope, market-competitive, and consistent from year to year. Other important factors that drive compensation decisions include individual qualifications and expertise, responsibility, annual individual performance, salary history and requirements of new hires, particular industry and market conditions within a business set, and executive performance as a group against both annual and long-term goals and the long term retention of a qualified management team. Finally, the Committee measures performance against the executive team's success in building shareholder value.

Executive Compensation Philosophy

The executive compensation program is intended to align the interests of management and the shareholders by rewarding performance against strategic objectives that will help to build long-term shareholder value. The following principles guide the company's executive compensation program.

1. Executives who perform should expect to receive a fair salary that is commensurate with market conditions. Historically, the Company has looked to establish salary structures that are around the mean of the Company's peers.
2. Bonuses and equity grants are intended to reflect a pay for performance culture. Absent unusual circumstances, performance-based grants should measure performance over multiple years to encourage building long-term growth over short-term profit enhancements.
3. Performance shall be measured primarily against a mix of annual and long term objective financial criteria that include a mix of absolute measures (e.g., profitability goals) and relative measures (e.g., market share, performance relative to peers, etc.).
4. Equity grant metrics should not be revised after the grant date absent unusual circumstances that make application of the metrics substantially unfair to participants.
5. Equity grant metrics should fairly account for the effects of single events such as acquisitions and reorganizations.
6. Total compensation is a function of individual responsibility within the Company, and the ability to contribute meaningfully to the strategic growth of the Company.
7. More highly compensated executives have more significant portions of their total compensation package tied directly to performance-based metrics.
8. Total compensation should be sufficiently competitive to allow the Company to attract the best possible candidates and to motivate them to meet or exceed performance metrics that will build long-term shareholder value.
9. Equity-based performance metrics should not target short-term goals or short-term financial enhancements unless those goals are also congruent with building long-term shareholder value.

In applying the above principles, the Committee seeks to maintain the highest quality management team possible, and to build management's long term commitment to the Company through a compensation program that provides appropriate long term incentives built on concrete, objective financial and strategic goals.

Elements of Executive Compensation

Executive compensation at the Company is comprised of base salary, annual incentive compensation, equity-based compensation, perquisites and retirement benefits. In selected instances, compensation can also include special incentive compensation and severance benefits. Compensation benefits vary between executives based on the Committee's determination as to what is appropriate under the policies set forth above. Each element is discussed below:

Base Salary: Base salary is compensation for services rendered in the job that the executive was hired to perform. In setting base salary, the Company considers qualifications and experience, prior employment (including historical compensation), industry knowledge, scope of responsibilities (including potential growth in responsibilities), individual performance, quality of leadership, internal pay equity, survey data, and tax deductibility. No specific weighting is applied to the factors. Salaries are set once per year as part of the compensation review process. Merit increases to salaries are based on individual performance and peer group data.

Annual Cash Bonus Incentive: Annual incentive cash compensation is an opportunity to earn additional cash compensation based on individual and executive group performance. The CEO is primarily responsible for setting executive incentive compensation for subordinate officers, and the Committee is primarily responsible for setting the CEO's incentive compensation. Compensation is earned based on meeting individual performance goals tailored to the executive's role in the Company. Cash bonuses are intended to be earned based on performance against goals which are difficult for participants to achieve, but are fair. Goals are primarily weighted to company-wide financial performance, and to a lesser extent against personal performance goals. In 2006, 70% of the cash bonus opportunity was measured against operating profit, and 30% was measured against personal goals. Performance criteria are determined annually by the CEO and the Compensation Committee.

Equity-Based Compensation: The Company uses equity-based compensation to align executive compensation with long-term goals that enhance shareholder value. Equity grants are also intended to incentivize an executive to remain with the Company over the long term by allowing the executive to earn shares over a multi-year vesting period. Since 2006, the Company has not granted any stock options, opting instead to issue time and performance-based restricted stock grants. The time-based grants are intended to guarantee that an executive can build equity in the Company in exchange for continuous service during the vesting period. Performance-based restricted stock grants are intended to reward the executive team as a whole for accomplishing financial goals that enhance shareholder value. The Company established operating income targets in the 2006 Incentive Compensation Plan. For 2007 grants, the Company has expanded performance metrics to include both operating income and revenue growth.

Perquisites and Retirement Benefits: Executives receive perquisites including, in various cases, a car allowance, tax preparation fee reimbursement, disability insurance, and other benefits, all of which are detailed in Summary Compensation Table below.

Management Retention Agreements: In June 2006, the Company entered into retention agreements with all of its senior executives. Under these agreements, executives who remain with the Company for the 12 months ending June 2007 will be eligible for a one-time bonus of \$100,000. The Committee deemed the Agreements in the best interest of the Company because Charles Winston, the long-time CEO, was retiring. The Committee believed that retaining the existing management through the CEO transition period was critical for the successful transition to a new CEO. The Committee has no plan to continue this retention program after June 2007.

Deferred Compensation Plans: Prior to 2006, the Company offered deferred compensation plans to selected individuals at the Company. As of 2006, the only executive with a deferred compensation plan was Charles Winston. Under Mr. Winston's deferred compensation plan, he had the opportunity to elect to defer compensation payments, and to receive market rate interest from the Company on his deferred income account. No other executives have deferred compensation plans.

CEO Compensation

In August 2005, the Board of Directors formed a CEO Search Committee. The members of the Committee included Garrett Garrettson, Richard Black and Phillip Griffiths. The Committee retained GA Partners, an executive search firm, to assist it in identifying and vetting outside candidates for the position. The search was conducted on a nation-wide basis and a number of candidates from across the country were considered. The position required that the individual relocate to the greater Boston area. The Committee and GA Partners met with all candidates for the CEO position. The Committee met telephonically on 41 separate occasions between August 2005 and June 2006. The Committee, with the assistance of the search firm, identified and interviewed multiple candidates, ultimately narrowing the selection to three outside candidates and one internal candidate. Each member of the Board of Directors interviewed each of the finalists at least once. The three outside finalists and all of the internal candidates were also psychologically profiled. After considering all of the information, the Committee ultimately recommended Mr. Edelstein to the full Board as the most qualified candidate for the position. Mr. Edelstein was living and working in California at the time. With the Board's approval, the Committee then negotiated Mr. Edelstein's compensation package.

Mr. Edelstein entered into an employment letter agreement with the Company on June 3, 2006. Mr. Edelstein's employment letter sets forth the following compensation elements: salary, annual bonus opportunity, sign-on equity grant, annual long term incentive plan (LTIP) opportunity and perquisites. The Compensation Committee, working in conjunction with a CEO Search Committee made up of other Board members, negotiated the terms of Mr. Edelstein's agreement. The Committee was guided in negotiating Mr. Edelstein's agreement by: benchmarking data; the Company's existing CEO compensation program; Mr. Edelstein's salary history; and input from GA Partners. The terms of Mr. Edelstein's compensation are set forth in the notes to the Summary Compensation Table following this section.

On July 10, 2006, the Company changed its President and CEO. From January to July, 2006, Charles Winston was the Company's President and CEO. On July 10, 2006, Mr. Edelstein succeeded Mr. Winston as President and CEO. Mr. Winston had previously executed a three-year employment agreement with the Company on January 1, 2004. Under the terms of the 2004 agreement, Mr. Winston held the CEO position until December 31, 2006, with a right thereafter to part-time employment for the two years at 50% of his base pay. Because the Board believed it was in the best interest of the Company to place a new CEO before the end of the calendar year, the Committee negotiated an early termination of Mr. Winston's contract. Under the terms of this agreement, Mr. Winston will remain as a part-time employee for the two years ending December 2008. The terms of Mr. Winston's 2006 transition agreement are set forth in the notes to the summary compensation tables following this section.

The Compensation Calendar

The standard compensation cycle calls for the CEO to present a draft strategic plan presentation to the Committee at the October Committee meeting. The presentation includes a draft three-year strategic plan and draft long-term incentive plan (LTIP). Based on Committee feedback, a final Strategic Plan and LTIP Proposal is submitted for approval at the December Board of Directors meeting. Starting in January, the Compensation Committee solicits private CEO performance feedback from each member of the executive staff and the Board of Directors. The CEO submits a self evaluation which is circulated and discussed by the Committee members. At the February Committee meeting, the CEO provides the Committee with a detailed executive team compensation proposal, including performance reviews for the prior year, proposed bonus payouts based on performance, new objectives for the coming year and proposed LTIP grants. In advance of the meeting, the Committee is provided with individual compensation tally sheets, individual performance reviews, and annual compensation survey data. Based on Committee approval and recommendation, individual compensation packages for the coming year are then approved and presented at the February Board of Directors meeting. As part of this process, management completes individual performance reviews in January, which are used to calculate bonus and incentive compensation payments. Those recommendations are presented to the Committee in February for approval. In the event that payments are contingent upon meeting a financial goal, payments are made only after the audited year-end financial results are released in March.

Tax and Accounting Implications

The Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code. Section 162(m) provides that a company may not deduct compensation in excess of \$1 million per annum that is paid to a defined group of executives. The Company has determined that compensation paid under the various executive compensation plans during fiscal year 2006 is deductible for federal income tax purposes.

Beginning on January 1, 2006, the Company began accounting for stock-based payments in accordance with FASB Statement 123(R). In December 2005, the Board of Directors voted to accelerate all outstanding executive and non-executive options. Executives and directors who received the benefit of the acceleration additionally entered into agreements restricting their ability to sell option shares. The Board took the above steps to avoid the accounting impact of FASB123(R). Since December 2005, all equity grants have been made in the form of restricted stock grants.

COMPENSATION TABLES

The following table sets forth information with respect to the compensation earned during the fiscal year ended December 31, 2006 by the Company's Chief Executive Officer and the four other most highly compensated executive officers of the Company who received annual compensation in excess of \$100,000 (collectively, with the Chief Executive Officer, the Named Executive Officers).

All Stock Awards made in 2006 were made pursuant to the Company's 2006 Equity Incentive Plan. All the Stock Awards made in 2006 were restricted stock granted at the closing price of the Company's stock on NASDAQ on the date of the grant. The amount indicated in the Stock Awards column is the proportionate amount of the restricted stock grants made in 2006 subject to time vesting and/or the meeting of performance criteria calculated in accordance with SFAS 123R. The assumptions used by the Company in valuing the Stock Awards are explained in the footnotes to the Company's annual report. Details of the restricted stock granted to each officer in 2006 are contained in the narrative to the Grants of Plan-Based Award Table below.

All amounts contained in the Non-Equity Incentive Plan Compensation column represent annual cash bonuses paid on the basis of the attainment of performance targets set in the first quarter of 2006 for completion by the end of fiscal year 2006. The targets are a combination of operating metrics and specific individual goals as described in the Compensation Discussion and Analysis section of this Proxy Statement.

15 Annual Cash Bonus as reported in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

16 All amounts in this column refer to either the Annual Cash Bonus or Retention Bonus. Neither of these amounts have a threshold or maximum amount or equivalent.

The 7/10/2006 Grant referred to in footnote 3 consists of:

174,057 restricted shares which vest in annual equal amounts commencing on 7/10/2007, 7/10/2008, and 7/10/2009; and

150,000 restricted shares which vest based upon the achievement of identified targets for revenue growth and operating income growth measured during the calendar years 2007 through 2009; and

56,133 restricted shares which use the following criteria as measured during the calendar year 2006:

Operating Income %	% of Restricted Shares Vested
9%	30%
9.5%	66%
10%	100%

Any portion of the 56,133 restricted shares that are attained under the above performance criteria shall then vest in three equal annual installments commencing on July 10, 2007.

All restricted shares in the 7/10/2006 Grant have been pro-rated from July 10, 2006 through December 31, 2006.

Where Operating Income is net of all incentive programs, including transitioning CEO and CFO, accounting charges related to equity grants, and other expenses that may occur, except for the following which shall not be considered expense: (1) up to \$475,000 of expenses related to ETI foreign tax credit program and (2) compensation for the new CEO and (3) \$264,000 of non-cash expense related to the Company's 2006 stock option review.

The Retention Bonus referred to in footnotes 5, 8, and 11 is a lump sum payment made to the executive if he remains in his current position during the twelve months following the commencement of Mr. Edelstein's employment on July 10, 2006 (Retention Term). The executive shall also receive this lump sum payment in the

event that his employment with the Company is terminated without cause during the Retention Term. Cause is defined as a good faith finding by the Board of Directors of the Company of: (1) gross negligence or willful misconduct by the executive in connection with the effective discharge of his duties; (2) failure of the executive to perform the duties and responsibilities required of his position, after not less than two written notices and an opportunity to cure; (3) misappropriation by the executive for his or her personal benefit any business opportunity of the Company or its affiliates; (4) embezzlement or other financial fraud committed by the executive; (5) the executive knowingly allowing any third party to commit any of the acts set forth in points (3) and (4); (5) the executive's indictment and subsequent conviction of, or entry of a plea of no contest to, any crime involving his or her business practices.

The 5/18/2006 Grant of performance based restricted shares in footnotes 6, 9, and 13 shall be measured as follows during 2006:

Operating Income %	% of Restricted Shares Vested
9.0%	30%
9.5%	66%
10.0%	100%
10.5% or greater	126%

Any portion of the 5/18/2006 Grant that is attained under the performance criteria above shall then vest in three equal annual installments commencing on March 10, 2007 except in the event that 10.5% or greater of the Operating Income is achieved. In this event, 26% of the performance based restricted shares would have vested 100% on March 10, 2007 with the remaining performance based restricted shares vesting in three equal annual installments commencing on March 10, 2007.

The 7/24/2006 Grant of performance based restricted shares was the result of the Compensation Committee's modification of 2005 awards from cash to restricted stock. These shares as noted in footnotes 10 and 14 shall vest upon achievement of the Operating Profit targets below as measured in the years 2006, 2007, and 2008:

Annual Operating Profit %	% of Restricted Shares Vested
14.5%	25%
15.0%	50%
16.0%	75%
17.0% or greater	100%

Once restricted shares are vested, future vesting of restricted shares is reduced by the amount already vested, the total cannot exceed 100% over the vesting period.

In 2006, no restricted shares vested under the 7/24/2006 Grant, and therefore no expense was recognized.

Mr. Bowen was offered this agreement by the Company due to the potential risk to Mr. Bowen's tenure in accepting the CFO position when the Company was searching for a new President and CEO. The termination benefit

expires on June 14, 2007.

Executive Retirement and Severance Benefits Agreement

Thomas Swain executed an Executive Retirement and Severance Benefits Agreement with the Company on January 17, 2005. This Agreement provides the following benefits:

CEO not less than one (1) year prior to the date of retirement specified in the notice. In such an event, the Executive will receive the following retirement benefits, provided that the Executive continues to comply with any post-retirement obligations such Executive has to the Company: 1) the Executive may elect for the Company to retain the Executive for part-time employment for up to three (3) years from the Executive's retirement date, and such part-time employment shall not be more than fifty percent (50%) of full-time; 2) continued health and dental group benefits to the Executive and the Executive's family at the same level as was provided to the Executive as of the Executive's retirement date; and 3) all stock options granted to the Executive prior to such retirement shall continue to vest during the period of such part-time employment. 2. If the Executive is terminated by the Company for any reason other than death, disability, or Cause (all as defined in the Agreement) or the Executive terminates his or her employment with the Company for Good Reason (as defined in the Agreement), then the Executive shall receive the following termination benefits: 1) eighteen (18) months of base salary, and 2) continued health and dental group benefits to the Executive and the Executive's family at the same level as was provided to the Executive as of the Executive's termination date for the earlier of two (2) years or employment by another company which provides health and dental insurance benefits to the Executive. These termination benefits are conditioned upon the Executive signing a release of claims and compliance with all post-termination obligations the Executive has to the Company. No such benefits are available upon the resignation (other than for good cause) or retirement of the Executive.

3. Upon the death of the Executive, the Executive's heirs will be entitled to receive the Executive's termination benefits in point 2 above provided such heirs sign a release of claims as described in the Agreement.

4. During either (i) the Executive's part-time employment and for a period of one year thereafter, or (ii) during the period that the Executive is eligible to receive termination benefits and for a period of one year thereafter, the Executive is prohibited, without the Company's prior written consent, from competing with the Company or soliciting employees from the Company.

5. All claims for any benefits under the Agreement shall be determined by the Board of Directors of the Company. All disputes shall be settled exclusively by binding arbitration in Boston, Massachusetts, U.S.A.

EQUITY COMPENSATION PLANS

The Company has several stock option plans most of which were adopted in conjunction with the merger of General Scanning, Inc. and Lumonics in 1999. The principal plans under which stock options are outstanding are the 1992 Stock Option Plan of GSI (1992 Option Plan) and the 1995 Stock Option Plan of Lumonics, Inc., as subsequently amended (1995 Award Plan). The company also has a small number of outstanding warrants for the purchase of common stock issued to under the 1995 Directors' Warrant Plan of GSI. In May 2006, the shareholders approved the adoption of the 2006 GSI Group Inc. Equity Incentive Plan (the 2006 Plan). The Company intends for all future equity grants to proceed under the 2006 Plan.

At December 31, 2006 approximately 2,342,000 options with exercise prices ranging from \$3.71 per share to \$15.17 per share were held by employees and directors. Under the terms of the 1995 Award Plan and 2006 Equity Incentive Plan, any option shares that expire will be returned to the 2006 Equity Incentive Plan pool.

On May 15, 2006, the shareholders voted to adopt the 2006 Equity Incentive Plan. All awards granted after this date will come out of the 2006 Equity Incentive Plan, and none will be issued from the 1995 Award Plan, which is deemed to be terminated as of this date. The 2006 Equity Incentive Plan allows for the grant of restricted common shares and stock appreciation rights in addition to the grant of incentive stock options and non-qualified stock options (collectively, awards). Subject to the requirements of the 2006 Equity Incentive Plan, the Compensation Committee, or in lieu thereof the Board of Directors, has the authority to select those directors, consultants, and employees to whom awards will be granted, the grant date, the number of awards to be granted and other terms and conditions of the awards. The exercise price of incentive stock options and non-qualified stock options remain as the closing price of the Company's common shares on the NASDAQ Exchange on the date of grant. If a SAR is granted in conjunction with an option or a portion thereof, the exercise price may not be less than the exercise price of the related option. Restricted shares will vest as approved by the Compensation Committee. The Compensation Committee has the power to amend, modify, or terminate the 2006 Equity Incentive Plan provided that the Participant's rights are not materially adversely affected and subject to any approvals required under the applicable regulatory requirements. As of the close of business on December 31, 2006, there remain 1,125,436 common shares authorized to be issued under the 2006 Equity Incentive Plan.

No past financial assistance has been given to participants to assist them in purchasing common shares under the 2006 Equity Incentive Plan, nor is such financial assistance contemplated. The 2006 Equity Incentive Plan contains no provision for the Company to provide any such assistance.

The agreement with V2Air LLC was terminated on July 26, 2006.
