MATSUSHITA REPORTS FIRST HALF FAVORABLE OPERATING RESULTS

- Sales and Earnings Exceed the Previous Forecast -

Osaka, Japan, October 30, 2007 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MCI]) today reported its consolidated financial results for the second quarter and first half, and non-consolidated (parent company alone) results for the first half, ended September 30, 2007, of the current fiscal year, ending March 31, 2008 (fiscal 2008).

Consolidated Second-quarter Results

Consolidated group sales for the second quarter increased 1% to 2,285.8 billion yen (U.S.\$19.88 billion), from 2,252.6 billion yen in the same three-month period a year ago. Explaining the second quarter results, the company cited sales gains in all product categories except JVC (Victor Company of Japan, Ltd. and its subsidiaries)¹. Of the consolidated group total, domestic sales decreased 1% to 1,109.8 billion yen (\$9.65 billion), from 1,118.2 billion yen a year ago. Overseas sales increased 4% to 1,176.0 billion yen (\$10.23 billion), from 1,134.4 billion yen in the second quarter of fiscal 2007.

¹ Victor Company of Japan, Ltd. and its consolidated subsidiaries became associated companies under the equity method from Matsushita's consolidated subsidiaries from August 2007. Accordingly, sales of JVC from August 2007 to September 2007 are excluded from the consolidated group sales. For more information, see Note 3 of the Notes to consolidated financial statements on page 16.

During the second quarter under review, the electronics industry faced severe business conditions in Japan and overseas, due mainly to rising prices for crude oil and other raw materials and continued price declines caused by ever-intensified global competition, mainly in digital products. Under these circumstances, in fiscal 2008, the first year of the new mid-term management plan GP3, Matsushita is implementing initiatives to accelerate steady growth with profitability.

As part of such efforts, the company continues to strengthen a new series of V-products, as a core of its growth strategy, to capture leading market shares and make a significant contribution to overall business results. In overseas businesses, Matsushita is implementing initiatives to strengthen marketing activities tailored to regional characteristics. In addition, Matsushita is striving to transform itself into a manufacturing-oriented company one that combines all the business activities of the Group toward the launch of products, thereby contributing to the creation of customer value. Matsushita is promoting wider collaboration across business fields and operating regions in order to reinforce product design and quality, procurement, logistics, overseas sales and other areas of its operations.

Regarding earnings, operating profit² for the second quarter was up 3%, to 146.1 billion yen (\$1.27 billion), from 142.3 billion yen in the same period a year ago, despite the effects from rising raw materials prices and ever-intensified global price competition. This improvement was due primarily to sales gains and the cost reduction efforts including materials costs and fixed costs, as well as the effects of a weaker yen. In other income (deductions), the company recorded 14.9 billion yen (\$129 million) as expenses associated with the implementation of early retirement programs and also incurred expenditures on product quality. These factors, as well as the previous year's gains of 27.3 billion yen on the sale of the investments regarding cable broadcasting business and proceeds from tangible fixed assets, led to pre-tax income of 103.7 billion yen (\$902 million), down 34% from 157.1 billion yen in the previous year's second quarter. Net income was also down 17% to 65.8 billion yen (\$572 million), as compared with 79.3 billion yen in the previous year's second quarter.

² For information about operating profit, see Note 2 of the Notes to consolidated financial statements on page 16.

Consolidated First-half Results

Combining the second quarter results with those of the first quarter, consolidated group sales for the first fiscal half ended September 30, 2007 increased 3% to 4,525.3 billion yen (\$39.35 billion), compared with 4,389.5 billion yen in the same six-month period a year ago. Explaining the first half results, the company cited sales gains in all product categories except JVC. Domestic sales amounted to 2,187.8 billion yen (\$19.02 billion), a slight increase from a year ago, while overseas sales increased 6% to 2,337.5 billion yen (\$20.33 billion) from 2,209.4 billion yen in the previous year's first half, due mainly to favorable sales overall.

For reasons similar to those given for second quarter results, the company's operating profit for the first fiscal half increased 6% to 220.0 billion yen (\$1.91 billion), from 207.4 billion yen in the comparable period a year ago. In other income (deductions), the company recorded 15.8 billion yen (\$138 million) as expenses associated with the implementation of early retirement programs, and expenditures on product quality. These factors, as well as the previous year's gains of 27.3 billion yen on the sale of the investments regarding cable broadcasting business, led to pre-tax income of 187.6 billion yen (\$1.63 billion), down 19% from 232.5 billion yen last year. Net income was also down 9% to 105.1 billion yen (\$914 million), as compared with 115.1 billion yen in the first half of the previous year. The company's net income per common share was 49.32 yen (\$0.43) on a diluted basis, versus 52.38 yen in the first half of last year.

Consolidated First-half Sales Breakdown by Product Category

The company's first-half consolidated sales by product category, as compared with prior year amounts, are summarized as follows:

AVC Networks

AVC Networks sales increased 8% to 1,920.2 billion yen (\$16.70 billion), from 1,777.7 billion yen in last year's first half. Sales of video and audio equipment increased 6% from the previous year's first half, due mainly to favorable sales in digital AV products such as flat-panel TVs and digital cameras.

In information and communications equipment, strong sales of automotive electronics and mobile phones led to a 10% increase overall.

Home Appliances

Sales of Home Appliances increased 8% to 641.8 billion yen (\$5.58 billion), compared with 596.2 billion yen in last year's first half, due mainly to double-digit sales growth in white goods such as air conditioners, compressors and microwave ovens.

Components and Devices

Sales of Components and Devices were also up 5% to 586.0 billion yen (\$5.10 billion), compared with 558.4 billion yen in the same period of the previous year. Favorable sales were recorded mainly in general electronic components, thereby achieving an overall increase in sales in this category.

MEW and PanaHome

Sales of MEW and PanaHome increased 5% to 849.1 billion yen (\$7.38 billion), from 811.8 billion yen last year. At Matsushita Electric Works, Ltd. (MEW) and its subsidiaries, sales gains were recorded in electrical construction materials and electronic and plastic materials. At PanaHome Corporation, sales maintained the same level as the previous year's first fiscal half.

JVC

Sales of JVC (Victor Company of Japan, Ltd. and its subsidiaries) totaled 180.5 billion yen (\$1.57 billion).

Other

Sales of Other totaled 347.7 billion yen (\$3.02 billion), up 7% from 323.8 billion yen in the same period a year ago. Sales increases were recorded in factory automation equipment within this category.

Consolidated Financial Condition

Net cash provided by operating activities in the fiscal 2008 first half amounted to 181.7 billion yen (\$1.58 billion). This was due mainly to cash inflows from net income and depreciation. Net cash provided by investing activities amounted to 15.5 billion yen (\$135 million). Capital expenditures for tangible fixed assets were 219.0 billion yen, mainly consisting of manufacturing facilities for priority business areas such as plasma display panels (PDPs) and semiconductors, while the company recorded a decrease in time deposits of 188.2 billion yen and proceeds of 123.3 billion yen from the sale of fixed assets from the end of fiscal 2007 (March 31, 2007). Net cash used in financing activities was 106.9 billion yen (\$930 million). Major factors included the repurchase of the company's common stock and the payment of cash dividends. In addition to all these activities, cash and cash equivalents decreased 93.4 billion yen (\$812 million), since JVC and its consolidated subsidiaries became Matsushita's associated companies under the equity method from consolidated subsidiaries in the first fiscal half. Accordingly, cash and cash equivalents amounted to 1,222.5 billion yen (\$10.63 billion) at the end of the first fiscal half, down 14.1 billion yen from the end of the last fiscal year (March 31, 2007).

The company's consolidated total assets as of September 30, 2007 decreased by 329.7 billion yen as compared with the end of the last fiscal year, to 7,567.3 billion yen (\$65.80 billion). This decrease was due mainly to the effect of the aforementioned change in JVC. Stockholders' equity decreased 10.6 billion yen, as compared with the end of the last fiscal year, to 3,906.2 billion yen (\$33.97 billion) as of September 30, 2007. This was due mainly to an increase in treasury stock on continued repurchases of the company's own shares and a decrease in other comprehensive income, despite increases in retained earnings.

Interim and Year-end Dividend

The Board of Directors of the company resolved today to distribute an interim (semiannual) cash dividend of 17.5 yen per common share to shareholders of record as of September 30, 2007, payable November 30, 2007. This is an increase from last year's interim dividend (15 yen). The company also plans to distribute a year-end cash dividend of 17.5 yen per common share (payable to shareholders of record as of March 31, 2008). If implemented, total dividends for fiscal 2008, including the aforementioned interim dividend of 17.5 yen per common share, will be 35 yen per common share.

Outlook for the Full Fiscal Year 2008

Considering these conditions, the forecast for the full fiscal year 2008, ending March 31, 2008, remains unchanged from the forecast announced on July 24, 2007.
