Section 2 Financial Information**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On March 7, 2008, BWAY Holding Company (the Company, we or our) announced its intent to close the Company's Franklin Park, Illinois material center, which engages in cutting, coating and printing of metal for our metal can assembly operations and for outside customers. We expect to begin the facility shutdown in the third quarter of fiscal 2008, and we expect the facility to be closed in the first quarter of fiscal 2009. Approximately 80 hourly and approximately 16 salaried employees will be affected by the facility closure.

The closure of the Franklin Park facility is expected to result in greater production efficiencies, better utilization of working capital and cost savings. We will shift all production from the Franklin Park facility to our material center operations that have existing capacity, primarily at our facilities in Cincinnati, Ohio and Trenton, New Jersey. Our material center operations are part of our metal packaging segment.

We expect to incur pre-tax restructuring expenses of approximately \$6.8 million, which consists of approximately \$0.9 million of severance and benefits, approximately \$3.0 million to satisfy a withdrawal obligation associated with our portion of unfunded benefit obligations of a labor union sponsored multiemployer pension plan and approximately \$2.9 million of facility shutdown and holding costs. The facility holding costs include approximately \$1.7 million related to long-term lease obligations, net of estimated sublease proceeds. We estimate that of these pre-tax expenses, approximately \$4.3 million will be recognized in fiscal 2008 and approximately \$2.5 million will be recognized in fiscal 2009. We expect to pay the \$3.0 million estimated pension withdrawal liability equally over a five year period beginning in fiscal 2009. We estimate that tax benefits related to the \$6.8 million in restructuring charges will result in income tax deductions in the period in which the expenses are paid.

We expect to record additional depreciation expense in the remainder of fiscal 2008 of approximately \$2.0 million related to the shortened expected useful lives of certain assets, primarily machinery and equipment that will be dismantled and permanently taken out of service. We expect to expend approximately \$1.7 million in capital expenditures related to rebuilding and installing certain assets that will be relocated from the Franklin Park facility and used at other of our facilities. Of the \$1.7 million in capital expenditures, we expect to expend \$0.9 million and \$0.8 million in fiscal 2008 and 2009, respectively.

The following table summarizes the exit plan, as discussed above:

<i>(Dollars in Millions)</i>	Summary of Exit Plan			Timing of Expenses	
	Cash	Non-Cash	Total	2008	2009
Severance and benefits	\$ 0.9	\$	\$ 0.9	\$ 0.6	\$ 0.3
Pension withdrawal obligation	3.0		3.0	3.0	
Shutdown costs	1.0		1.0	0.3	0.7
Facility holding costs, net	1.9		1.9	0.4	1.5
Accelerated depreciation		2.0	2.0	2.0	
Total expenses	6.8	2.0	8.8	\$ 6.3	\$ 2.5
Capital expenditures	1.7		1.7		
Exit plan total	\$ 8.5	\$ 2.0	\$ 10.5		

Timing of Capital Expenditures and Pre-Tax Cash Flows

Fiscal 2008	\$ 2.2
Fiscal 2009	3.1
Fiscal 2010 - 2013	3.2

In addition to the amounts noted above, we expect to pay approximately \$0.3 million of accrued vacation earned.

The amounts and timing of cash flows estimated above are preliminary and may vary materially based on various factors, including the timing in the execution of the exit plan, our ability to sublease the facility and the final determination of the pension withdrawal liability based on an actuarial valuation prepared by the trustees of the plan.
