PROSPECTUS SUMMARY

The following is a summary of some of the information contained or incorporated by reference in this prospectus. To understand this offering fully, you should read carefully the entire prospectus, including the risk factors, the financial statements and the documents incorporated herein by reference. Unless otherwise indicated, the terms Corcept, we, us, our, our company the company and our business refer to Corcept Therapeutics Incorporated.

Overview

We are a pharmaceutical company engaged in the development of drugs for the treatment of severe psychiatric and metabolic diseases. Our current focus is on the development of drugs for disorders that are associated with a steroid hormone called cortisol. Elevated levels and abnormal release patterns of cortisol have been implicated in a broad range of human disorders. Our scientific founders are responsible for many of the critical discoveries illustrating the link between psychiatric and metabolic disorders and aberrant cortisol. Since our inception in May 1998, we have been developing our lead product, CORLUX[®], a glucocorticoid receptor II, or GR-II, antagonist. CORLUX modulates the effect of cortisol by selectively blocking the binding of cortisol to one of its two known receptors, the GR-II receptor, also known as the Type II or GR receptor.

Psychotic depression. We have an exclusive patent license from Stanford University for the use of GR-II antagonists to treat the psychotic features of psychotic major depression, hereinafter referred to as psychotic depression. The United States Food and Drug Administration, or FDA, has granted fast track status to our program to evaluate the safety and efficacy of CORLUX for the treatment of the psychotic features of psychotic depression. Psychotic depression affects approximately three million people annually in the US. There is no FDA-approved treatment for psychotic depression. Psychiatrists currently use two approaches: electroconvulsive therapy, or ECT, which involves passing an electrical current through the brain until the patient has a seizure, and combination drug therapy (simultaneous use of antidepressant and antipsychotic medications). Both ECT and combination drug therapy almost always have slow onsets of action and debilitating side effects. By modifying the level and release pattern of cortisol within the human body, we believe that CORLUX may be able to treat the psychotic features of psychotic depression more quickly and effectively and with fewer side effects than is possible with currently available treatments.

Three Phase 3 clinical trials have been completed. While the response rate to medicine exceeded the response rate to placebo in each of these studies for the primary endpoint, a 50% reduction in the Brief Psychiatric Rating Scale Positive Symptom Subscale (BPRS PSS) at day 7 sustained to day 56, in none of these studies was the difference in response rate statistically significant. However a robust relationship was demonstrated between higher dosing plasma level and a higher response rate. This relationship was tested prospectively in the last of our completed Phase 3 trials using a predetermined plasma concentration that correlates with response and was met with statistical significance. We believe that the confirmation of a drug concentration/response correlation threshold for efficacy provides a strong basis for our fourth Phase 3 study, which commenced enrollment in March 2008.

If we obtain FDA approval, we initially intend to market and sell CORLUX for psychotic depression in the United States directly to hospitals with in-patient psychiatric units, first focusing on those that use ECT. We then intend to expand our sales efforts to address the larger group of psychotic depression patients currently undergoing combination drug therapy. Given the concentrated nature of the initial target audience, we believe that we will be able to generate significant revenue with a relatively small, highly-focused medical education and commercialization team.

Antipsychotic-induced Weight Gain Mitigation. In June 2007, we announced preliminary top-line results of our proof-of-concept study evaluating the ability of CORLUX to mitigate weight gain associated with the administration of olanzapine. The top line results indicated a statistically significant reduction in weight gain in those subjects who took olanzapine plus CORLUX compared to those who took olanzapine alone. The purpose of this study was to explore the hypothesis that GR-II antagonists would mitigate weight gain associated with atypical antipsychotic medications, such as olanzapine, risperidone, clozapine and quetiapine, which are widely used to treat schizophrenia and bipolar disorder. All medications in this group

Table of Contents

are associated with treatment emergent weight gain of varying degrees and carry a warning label relating to treatment emergent hyperglycemia and diabetes mellitus. Eli Lilly provided olanzapine and financial support for this study.

Cushing's Syndrome. The FDA has granted Orphan Drug Designation for CORLUX for the treatment of endogenous Cushing's Syndrome, hereinafter referred to as Cushing's Syndrome a disorder caused by prolonged exposure of the body's tissues to high levels of the hormone cortisol. Orphan drugs obtain seven years of marketing exclusivity from the date of approval, as well as tax credits for clinical trial costs, marketing application filing fee waivers and assistance from the FDA in the drug development process.

The Investigational New Drug application, or IND, for the evaluation of CORLUX for the treatment of Cushing's Syndrome was opened in September 2007. The FDA has indicated that a single study may provide a reasonable basis for the submission of a New Drug Application, or NDA, for this indication. This trial was opened for enrollment late in December 2007.

In addition to the above, we also own or have exclusively licensed issued patents and patent applications relating to the treatment of several disorders that we believe also result from, or are negatively affected by, prolonged exposure to elevated cortisol including increasing the therapeutic response to ECT, mild cognitive impairment, stress disorders and the treatment of delirium. We also have filed patent applications for additional diseases that may benefit from treatment with a drug that blocks the GR-II receptor.

We were incorporated in the State of Delaware on May 13, 1998. Our registered trademarks include Corcept® and CORLUX. Other service marks, trademarks and tradenames referred to in this prospectus are the property of their respective owners.

Table of Contents**EQUITY FINANCING WITH KINGSBRIDGE CAPITAL**

On March 25, 2008, we entered into a Committed Equity Financing Facility, or CEFF, with Kingsbridge, pursuant to which Kingsbridge committed to purchase, from time to time over a period of three years, shares of our common stock for cash consideration up to an aggregate of the lesser of up to \$60 million or up to 9,646,159 shares of our common stock, subject to certain conditions and restrictions. In connection with the CEFF, we entered into a common stock purchase agreement and registration rights agreement with Kingsbridge, both dated March 25, 2008, and on that date we also issued a warrant to Kingsbridge to purchase 330,000 shares of our common stock at a price of \$3.525 per share. This warrant is fully exercisable beginning six months after March 25, 2008 and for a period of five years thereafter.

The shares of common stock that may be issued to Kingsbridge under the common stock purchase agreement and the warrant will be issued pursuant to an exemption from registration under the Securities Act of 1933, as amended, or the Securities Act. Pursuant to the registration rights agreement, we have filed a registration statement of which this prospectus is a part, covering the possible resale by Kingsbridge of any shares that we may issue to Kingsbridge under the common stock purchase agreement or upon exercise of the warrant. Through this prospectus, the selling stockholder may offer to the public for resale shares of our common stock that we may issue to Kingsbridge pursuant to the common stock purchase agreement, or that Kingsbridge may acquire upon exercise of the warrant.

For a period of 36 months from the first trading day following the effectiveness of this prospectus, we may, from time to time, at our discretion, and subject to certain conditions that we must satisfy, draw down funds under the CEFF by selling shares of our common stock to Kingsbridge. The purchase price of these shares will be at a discount ranging from 6 to 10 percent, depending on the volume weighted average price of the common stock during the eight-day pricing period, provided that the minimum acceptable purchase price for any shares to be issued to Kingsbridge during the eight-day period is determined by the higher of \$1.50 or 90% of Corcept's common stock closing price the day before the commencement of each draw down. The discount on each of these eight trading days will be determined as follows:

VWAP*	Percent of VWAP (Applicable Discount)	
Greater than \$11.00 per share	94%	(6)%
Less than or equal to \$11.00 per shares but greater than or equal to \$6.01 per share	92%	(8)%
Less than or equal to \$6.00 per share but greater than or equal to \$1.50 per share.	90%	(10)%

* As set forth in the common stock purchase agreement, VWAP means the volume weighted average price (the aggregate sales price of all trades of our common stock during each trading day divided by the total number of shares of common stock traded during that trading day) of our common stock during any trading day as reported by Bloomberg, L.P. using the AQR function. The VWAP and corresponding discount will be determined for each of the eight trading days during a draw down pricing period.

During the eight trading day pricing period for a draw down, if the VWAP for any one trading day is less than the greater of (i) \$1.50 or (ii) 90 percent of the closing price of our common stock for the trading day immediately preceding the beginning of the draw down period, the VWAP from that trading day will not be used in calculating the number of shares to be issued in connection with that draw down, and the draw down amount for that pricing period will be reduced by one-eighth of the draw down amount we had initially specified. In addition, if trading in our common stock is suspended for any reason for more than three consecutive or non-consecutive hours during any trading day during a draw down pricing period, that trading day will not be used in calculating the number of shares to be issued in connection with that draw down, and the draw down amount for that pricing period will be reduced by one eighth of the draw down amount we had initially specified.

Table of Contents

The maximum number of shares of common stock that we can issue pursuant to the CEFF is 9,646,159 shares. An additional 330,000 shares of common stock are issuable if Kingsbridge exercises the warrant that we issued to it in connection with its entry into the CEFF. We intend to exercise our right to draw down amounts under the CEFF, if and to the extent available, at such times as we have a need for additional capital and when we believe that sales of stock under the CEFF provide an appropriate means of raising capital.

Our ability to require Kingsbridge to purchase our common stock is subject to various limitations. Each draw down can access capital in tranches of up to 1.25% of Corcept's market capitalization at the time of the initiation of the draw down period, or, at our option, the lesser of (a) 2.5% of Corcept's market capitalization at the time of the initiation of the draw down period, and (b) an alternative draw down amount as defined in the agreement; provided, however, that in no event may the maximum draw down amount exceed \$10 million per tranche, subject to certain conditions. Unless Kingsbridge agrees otherwise, a minimum of seven trading days must elapse between the expiration of any draw down pricing period and the beginning of the next draw down pricing period.

The CEFF does not prohibit the Company from conducting additional debt or equity financings, other than financings similar to the CEFF and other future priced securities.

The issuance of our common stock under the CEFF or upon exercise of the Kingsbridge warrant will have no effect on the rights or privileges of existing holders of common stock except that the economic and voting interests of each stockholder will be diluted as a result of the issuance. Although the number of shares of common stock that stockholders presently own will not decrease, these shares will represent a smaller percentage of our total shares that will be outstanding after any issuances of shares of common stock to Kingsbridge. If we draw down amounts under the CEFF when our share price is decreasing, we will need to issue more shares to raise the same amount than if our stock price was higher. Such issuances will have a dilutive effect and may further decrease our stock price.

Kingsbridge agreed in the common stock purchase agreement that during the term of the CEFF, neither Kingsbridge nor any of its affiliates, nor any entity managed or controlled by it, will, or cause or assist any person to, enter into or execute any short sale of any shares of our common stock as defined in Regulation SHO promulgated under the Securities Exchange Act of 1934, as amended.

Before Kingsbridge is obligated to buy any shares of our common stock pursuant to a draw down, the following conditions, none of which is in Kingsbridge's control, must be met:

Each of our representations and warranties in the common stock purchase agreement shall be true and correct in all material respects as of the date when made and as of the draw down exercise date as though made at that time, except for representations and warranties that are expressly made as of a particular date.

We shall have performed, satisfied and complied in all material respects with all covenants, agreements and conditions required by the common stock purchase agreement, the registration rights agreement and the warrant to be performed, satisfied or complied with by us.

We shall have complied in all material respects with all applicable federal, state and local governmental laws, rules, regulations and ordinances in connection with the execution, delivery and performance of the common stock purchase agreement and the consummation of the transactions it contemplates.

The registration statement, which includes this prospectus, shall have previously become effective and shall remain effective.

We shall not have knowledge of any event that could reasonably be expected to have the effect of causing the registration statement applicable to Kingsbridge's resale of shares of our common stock to be suspended or otherwise ineffective.

Table of Contents

Trading in our common stock shall not have been suspended by the Securities and Exchange Commission, or the SEC, the Nasdaq Capital Market or the National Association of Securities Dealers and trading in securities generally on the Nasdaq Capital Market shall not have been suspended or limited.

No statute, rule, regulation, executive order, decree, ruling or injunction shall have been enacted, entered, promulgated, endorsed or, to the knowledge of us, threatened by any court or governmental authority which prohibits the consummation of or which would materially modify or delay any of the transactions contemplated by the common stock purchase agreement.

No action, suit or proceeding before any arbitrator or any court or governmental authority shall have been commenced or, to the knowledge of us, threatened, and, to the knowledge of us, no inquiry or investigation by any governmental authority shall have been threatened, against us or any of our officers, directors or affiliates seeking to enjoin, prevent or change the transactions contemplated by the common stock purchase agreement or seeking damages in connection with such transactions.

We shall have sufficient shares of common stock, calculated using the closing trade price of the common stock as of the trading day immediately preceding a draw down, registered under the registration statement to issue and sell such shares in accordance with such draw down.

The warrant to purchase 330,000 shares of our common stock shall have been duly executed, delivered and issued to Kingsbridge, and we shall not be in default in any material respect under the warrant.

Kingsbridge shall have received an opinion from our outside legal counsel in the form previously agreed to.

There is no guarantee that we will be able to meet the foregoing conditions or any other conditions under the common stock purchase agreement or that we will be able to draw down any portion of the amounts available under the CEFF.

We also entered into a registration rights agreement with Kingsbridge. Pursuant to the registration rights agreement, we have filed a registration statement, which includes this prospectus, with the SEC relating to Kingsbridge's resale of any shares of common stock purchased by Kingsbridge under the common stock purchase agreement or issued to Kingsbridge as a result of the exercise of the Kingsbridge warrant. The effectiveness of this registration statement is a condition precedent to our ability to sell common stock to Kingsbridge under the common stock purchase agreement. We are entitled in certain circumstances, including the existence of certain kinds of nonpublic information, to deliver a blackout notice to Kingsbridge to suspend the use of this prospectus and prohibit Kingsbridge from selling shares under this prospectus. If we deliver a blackout notice in the 15 trading days following the settlement of a draw down, or if the registration statement of which this prospectus is a part is not effective in circumstances not permitted by the registration rights agreement, then we must pay amounts to Kingsbridge, or issue Kingsbridge additional shares in lieu of payment, in an amount based on the number of shares held by Kingsbridge that were purchased pursuant to the draw down and the change in the market price of our common stock between the date the blackout notice is delivered (or the registration statement is not effective) and the date the prospectus again becomes available.

Kingsbridge may, upon one business day's notice to us, terminate the CEFF if we enter into a transaction prohibited by the common stock purchase agreement without Kingsbridge's prior written consent or within one business day's notice if Kingsbridge provides written notice of a material adverse effect to us and such material adverse effect continues for a period of ten trading days after the receipt by us of such notice. Kingsbridge may also terminate the CEFF upon one business day's notice to us at any time in the event that a registration statement is not initially declared effective in accordance with the registration rights agreement, provided, however, that in the event the registration statement is declared effective prior to the delivery of such notice, Kingsbridge shall have no right to terminate the CEFF. We may terminate the CEFF upon one business day's notice to Kingsbridge, except that we may not terminate the CEFF during any draw down pricing period. In addition, either we or Kingsbridge may terminate the CEFF upon one business day's notice if the other party has breached a material representation, warranty or covenant to the common stock purchase agreement and such breach is not remedied within ten trading days after notice of such breach is delivered to the breaching party.

Table of Contents

The foregoing summary of the CEFF does not purport to be complete and is qualified by reference to the common stock purchase agreement, the registration rights agreement and the warrant, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part.

In the event of our liquidation, dissolution or winding up, holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities and the satisfaction of any liquidation preference granted to the holders of any outstanding shares of preferred stock.

Holders of common stock have no preemptive or conversion rights or other subscription rights, and there are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock are, and the shares of common stock offered by us in this offering, when issued and paid for, will be fully paid and nonassessable. The rights, preferences and privileges of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which we may designate in the future.

Preferred Stock

The board of directors is authorized, subject to any limitations prescribed by law, without stockholder approval, to issue up to an aggregate of 10,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions granted to or imposed upon the preferred stock, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences. The rights of the holders of common stock will be subject to, and may be adversely affected by, the rights of holders of any preferred stock that may be issued in the future. Issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control of Corcept. We have no present plans to issue any shares of preferred stock.

Registration Rights

Registration rights with respect to March 2008 private offering. In connection with the sale of an aggregate of 8,923,210 shares of our common stock and warrants to purchase an aggregate of 4,461,599 shares of common stock on March 14, 2008, or the March 2008 Offering, we entered into a registration rights agreement with the purchasers. Pursuant to the registration rights agreement, we agreed to prepare and file a registration statement, the March 2008 Offering registration statement, with the Securities and Exchange Commission within 30 days of the closing of the offering for purposes of registering the resale of the shares of common stock sold in the offering and the shares of common stock issuable upon exercise of the warrants sold in the offering, and any shares of common stock issued as a dividend or other distribution with respect to those shares. We agreed to use our best efforts to cause the March 2008 Offering registration statement to be declared effective by the Securities and Exchange Commission within 90 days after the closing of the offering (105 days in the event the March 2008 Offering registration statement is reviewed by the Securities and Exchange Commission). If we fail to meet either of these deadlines, fail to meet filing or effectiveness deadlines with respect to any additional registration statements required by the registration rights agreement, or fail to keep any of the March 2008 Offering registration statements continuously effective (with limited exceptions), we may be obligated to pay to the holders of the shares and warrants liquidated damages in the amount of 1% per month of the purchase price for the shares and warrants, up to a maximum cap of 10%. We also agreed, among other things, to indemnify the selling holders under the March 2008 Offering registration statements from certain liabilities and to pay all fees and expenses (excluding underwriting discounts and selling commissions and all legal fees of any selling holder) incident to our obligations under the registration rights agreement. We have filed the March 2008 Offering registration statement with the SEC and intend to use our best efforts to cause that registration statement to be declared effective within the time period required by the registration rights agreement with the purchasers in this offering.

Table of Contents

Registration rights with respect to shares covered by this registration statement and prospectus Shares subject to issuance upon exercise of warrant granted to Kingsbridge Capital, and shares sold in connection with the Committee Equity Financing Facility, or CEFF, with Kingsbridge Capital. In connection with establishing the CEFF with Kingsbridge Capital, we entered into a registration rights agreement with Kingsbridge. Pursuant to the registration rights agreement, we have filed the Kingsbridge registration statement, of which this prospectus forms a part, with the Securities and Exchange Commission within 60 days of the execution of our agreements with Kingsbridge relating to the resale by Kingsbridge of up to 9,646,159 shares of common stock purchasable by Kingsbridge under the CEFF and up to 330,000 shares of common stock issuable upon exercise of a warrant issued to Kingsbridge. We have agreed to use our commercially reasonable efforts to cause the Kingsbridge registration statement to be declared effective by the Securities and Exchange Commission within 180 days of the execution of our agreements with Kingsbridge. The effectiveness of the Kingsbridge registration statement is a condition precedent to our ability to sell common stock to Kingsbridge under the CEFF. We are entitled in certain circumstances, including the existence of certain kinds of nonpublic information, to deliver a blackout notice to Kingsbridge to suspend the use of the Kingsbridge prospectus and prohibit Kingsbridge from selling shares under that prospectus. If we deliver a blackout notice in the 15 trading days following the settlement of a draw down, or if the Kingsbridge registration statement of which the Kingsbridge prospectus is a part is not effective in circumstances not permitted by the agreement, then we must pay amounts to Kingsbridge, or issue Kingsbridge additional shares in lieu of payment, calculated by means of a varying percentage of an amount based on the number of shares held by Kingsbridge and the change in the market price of our common stock between the date the blackout notice is delivered (or the Kingsbridge registration statement is not effective) and the date the prospectus again becomes available. We have filed the Kingsbridge registration statement, of which this prospectus is a part, and intend to use our commercially reasonable efforts to cause the Kingsbridge registration statement to be declared effective, within the time periods required by the registration rights agreement with Kingsbridge.

Prior registration rights. A total of approximately 15.5 million shares of our common stock issued prior to our initial public offering or in connection with other private offerings completed during the last two years, the majority of which are held by our officers, directors and principal stockholders, are subject to registration rights pursuant to which we have agreed to file with the Securities and Exchange Commission registration statements covering the resale of these shares. We intend to file the registration statement covering these earlier shares shortly after filing the registration statements in connection with the March 2008 Offering and the Kingsbridge CEFF.

Delaware Anti-Takeover Law and Charter and Bylaw Provisions

Amended and Restated Certificate of Incorporation and Bylaws

Some provisions of Delaware law and our amended and restated certificate of incorporation and bylaws contain provisions that could make the following transactions more difficult:

acquisition of us by means of a tender offer;

acquisition of us by means of a proxy contest or otherwise; or

removal of our incumbent officers and directors.

These provisions, summarized below, are expected to discourage coercive takeover practices and inadequate takeover bids and to promote stability in our management. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors.

Undesignated Preferred Stock. The ability to authorize undesignated preferred stock makes it possible for our board of directors to issue one or more series of preferred stock with voting or other rights or preferences that could impede the success of any attempt to change control of Corcept. These and other provisions may have the effect of deferring hostile takeovers or delaying changes in control or management of our company.

Table of Contents

Stockholder Meetings. Our charter documents provide that a special meeting of stockholders may be called only by the chairman of the board or by our president, or by a resolution adopted by a majority of our board of directors.

Requirements for Advance Notification of Stockholder Nominations and Proposals. Our bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors.

Elimination of Stockholder Action by Written Consent. Our amended and restated certificate of incorporation eliminates the right of stockholders to act by written consent without a meeting.

Amendment of Bylaws. Any amendment of our bylaws by our stockholders requires approval by holders of at least 66 2/3% of our then outstanding common stock, voting together as a single class.

Delaware Anti-Takeover Statute

We are subject to Section 203 of the Delaware General Corporation Law. This law prohibits a publicly-held Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder unless:

prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned by persons who are directors and also officers and by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or subsequent to the date of the transaction, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

Section 203 defines "business combination" to include:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition of 10% or more of our assets involving the interested stockholder;

in general, any transaction that results in the issuance or transfer by us of any of our stock to the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

Edgar Filing: CORCEPT THERAPEUTICS INC - Form S-1

In general, Section 203 defines an interested stockholder as an entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by the entity or person.

PLAN OF DISTRIBUTION

We are registering 9,976,159 shares of common stock under this prospectus on behalf of Kingsbridge. Except as described below, to our knowledge, the selling stockholder has not entered into any agreement, arrangement or understanding with any particular broker or market maker with respect to the shares of common stock offered hereby, nor, except as described below, do we know the identity of any brokers or market makers that may participate in the sale of the shares.

The selling stockholder may decide not to sell any shares. The selling stockholder may from time to time offer some or all of the shares of common stock through brokers, dealers or agents who may receive compensation in the form of discounts, concessions or commissions from the selling stockholder and/or the purchasers of the shares of common stock for whom they may act as agent. In effecting sales, broker-dealers that are engaged by the selling stockholder may arrange for other broker-dealers to participate. Kingsbridge is an underwriter within the meaning of the Securities Act. Any brokers, dealers or agents who participate in the distribution of the shares of common stock may also be deemed to be underwriters, and any profits on the sale of the shares of common stock by them and any discounts, commissions or concessions received by any such brokers, dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act. Kingsbridge has advised us that it may effect resales of our common stock through any one or more registered broker-dealers. Because the selling stockholder is deemed to be an underwriter, the selling stockholder will be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Securities Exchange Act of 1934, as amended, or the Exchange Act.

The selling stockholder will act independently of us in making decisions with respect to the timing, manner and size of each sale. Such sales may be made over the Nasdaq Capital Market, on the over-the-counter market, otherwise or in a combination of such methods of sale, at then prevailing market prices, at prices related to prevailing market prices or at negotiated prices. The shares of common stock may be sold according to one or more of the following methods:

a block trade in which the broker or dealer so engaged will attempt to sell the shares of common stock as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;

an over-the-counter distribution in accordance with the Nasdaq rules;

ordinary brokerage transactions and transactions in which the broker solicits purchasers;

privately negotiated transactions;

a combination of such methods of sale; and

any other method permitted pursuant to applicable law.

Table of Contents

Any shares covered by this prospectus which qualify for sale pursuant to Rule 144 of the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus. In addition, the selling stockholder may transfer the shares by other means not described in this prospectus.

Any broker-dealer participating in such transactions as agent may receive commissions from Kingsbridge (and, if they act as agent for the purchaser of such shares, from such purchaser). Broker-dealers may agree with Kingsbridge to sell a specified number of shares at a stipulated price per share, and, to the extent such a broker-dealer is unable to do so acting as agent for Kingsbridge, to purchase as principal any unsold shares at the price required to fulfill the broker-dealer commitment to Kingsbridge. Broker-dealers who acquire shares as principal may thereafter resell such shares from time to time in transactions (which may involve crosses and block transactions and which may involve sales to and through other broker-dealers, including transactions of the nature described above) on the Nasdaq Capital Market, on the over-the-counter market, in privately-negotiated transactions or otherwise at market prices prevailing at the time of sale or at negotiated prices, and in connection with such resales may pay to or receive from the purchasers of such shares commissions computed as described above. To the extent required under the Securities Act, an amendment to this prospectus, or a supplemental prospectus will be filed, disclosing:

the name of any such broker-dealers;

the number of shares involved;

the price at which such shares are to be sold;

the commission paid or discounts or concessions allowed to such broker-dealers, where applicable;

that such broker-dealers did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus, as supplemented; and

other facts material to the transaction.

Underwriters and purchasers that are deemed underwriters under the Securities Act may engage in transactions that stabilize, maintain or otherwise affect the price of the securities, including the entry of stabilizing bids or syndicate covering transactions or the imposition of penalty bids. Kingsbridge and any other persons participating in the sale or distribution of the shares will be subject to the applicable provisions of the Exchange Act and the rules and regulations thereunder including, without limitation, Regulation M. These provisions may restrict certain activities of, and limit the timing of, purchases by the selling stockholder or other persons or entities. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to special exceptions or exemptions. Regulation M may restrict the ability of any person engaged in the distribution of the securities to engage in market-making and certain other activities with respect to those securities. In addition, the anti-manipulation rules under the Exchange Act may apply to sales of the securities in the market. All of these limitations may affect the marketability of the shares and the ability of any person to engage in market-making activities with respect to the securities.

We have agreed to pay the expenses of registering the shares of common stock under the Securities Act, including registration and filing fees, printing expenses, administrative expenses and certain legal and accounting fees, as well as certain fees of counsel for the selling stockholder incurred in the preparation of the CEFF agreements and the registration statement of which this prospectus forms a part. The selling stockholder will bear all discounts, commissions or other amounts payable to underwriters, dealers or agents, as well as transfer taxes and certain other expenses associated with the sale of securities.

Under the terms of the Kingsbridge common stock purchase agreement and the registration rights agreement, we have agreed to indemnify the selling stockholder and certain other persons against certain liabilities in connection with the offering of the shares of common stock offered hereby, including liabilities arising under the Securities Act or, if such indemnity is unavailable, to contribute toward amounts required to be paid in respect of such liabilities.

Table of Contents

At any time a particular offer of the shares of common stock is made, a revised prospectus or prospectus supplement, if required, will be distributed. Such prospectus supplement or post-effective amendment will be filed with the SEC, to reflect the disclosure of required additional information with respect to the distribution of the shares of common stock. We may suspend the sale of shares by the selling stockholder pursuant to this prospectus for certain periods of time for certain reasons, including if the prospectus is required to be supplemented or amended to include additional material information.
