ANNOUNCEMENT OF FINANCIAL RESULTS

MATSUSHITA REPORTS FIRST QUARTER NET PROFIT INCREASE

- Strong sales of digital products led to favorable first quarter results -

Osaka, Japan, July 29, 2008 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MC]) today reported its consolidated financial results for the first quarter, ended June 30, 2008, of the current fiscal year ending March 31, 2009 (fiscal 2009).

First-quarter Results

Consolidated group sales for the first quarter decreased 4% to 2,152.0 billion yen, from 2,239.5 billion yen in the same three-month period a year ago. Explaining the first quarter results, although sales gains were recorded mainly in digital AV products, total sales declined because sales of JVC (Victor Company of Japan, Ltd. and its subsidiaries)¹ were included in the consolidated group sales in the previous year's comparable period. Of the consolidated group total, domestic sales decreased 3%, to 1,045.2 billion yen, from 1,078.0 billion yen a year ago. Overseas sales decreased 5%, to 1,106.8 billion yen, from 1,161.5 billion yen in the first quarter of the previous year.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

¹ Victor Company of Japan, Ltd. and its subsidiaries became associated companies under the equity method from Matsushita's consolidated subsidiaries from August 2007. For more information, see Note 6 of the Notes to consolidated financial statements on page 11.

Table of Contents

- 2 -

In the electronics industry during the first quarter under review, while there was a growing demand before the Beijing Olympics, severe business conditions continued in Japan and overseas, due mainly to price declines centered on digital products, a stronger yen against the U.S. dollar and rising prices for raw materials and energy. Under these circumstances, in fiscal 2009 as the middle year of the three-year mid-term management plan GP3, Matsushita is striving to produce successful results and create a new trend for achieving goals. Aiming at getting growth back on track and strengthening profitability, Matsushita is implementing initiatives focused on four major themes: double-digit growth in overseas sales, expansion of four strategic businesses, manufacturing innovation and the eco ideas strategy.

Regarding earnings, operating profit² for the first quarter was up 48%, to 109.6 billion yen, from 73.9 billion yen in the same period a year ago. Despite the negative effects of intensified global price competition and a stronger yen against the U.S. dollar, as well as rising prices for crude oil and other raw materials, this improvement was due primarily to sales gains in real terms excluding the effects of JVC, and comprehensive cost reduction activities including materials costs and fixed costs. These and other factors resulted in pre-tax income of 119.3 billion yen, up 42% from 84.0 billion yen in the same period a year ago. Net income increased 86% to 73.0 billion yen, from 39.3 billion yen in the same quarter of the previous year.

Consolidated Sales Breakdown by Product Category

The company's first quarter consolidated sales by product category, as compared with prior year amounts, are summarized as follows:

Digital AVC Networks³

Digital AVC Networks sales increased 5% to 975.5 billion yen, compared with 924.7 billion yen in the same period of the previous year. Sales of video and audio equipment increased 16% from the previous year. This result is due primarily to strong sales of flat-panel TVs, as well as favorable sales in digital cameras and DVD recorders. Sales of information and communications equipment decreased 3%, due mainly to sluggish sales in automotive electronics equipment.

² For information about operating profit, see Note 2 of Notes to consolidated financial statements on page 11.

³ From fiscal 2009, the name of AVC Networks was changed to Digital AVC Networks.

Table of Contents

- 3 -

Home Appliances

Sales of Home Appliances increased 1% to 342.7 billion yen, compared with 339.9 billion yen in the previous year. Despite a sales decline in both compressors and other products, favorable sales in refrigerators and electric lamps led to an overall sales increase.

MEW and PanaHome

Sales of MEW and PanaHome increased 1% to 389.2 billion yen from 385.7 billion yen a year ago. At MEW and its subsidiaries, sales gains were recorded with favorable sales in electrical construction materials and automation controls. At PanaHome Corporation and its subsidiaries, sluggish housing market conditions led to a decrease in sales.

Components and Devices

Sales of Components and Devices decreased 5% to 269.3 billion yen, compared with 284.7 billion yen in the previous year. Sluggish sales of general electronic components and batteries resulted in a decrease in sales.

Other

Sales for Other increased 4% to 175.3 billion yen, from 169.2 billion yen in the same period a year ago. Sales gains were recorded in factory automation equipment within this category.

Consolidated Financial Condition

The company's consolidated total assets as of June 30, 2008 increased 171.6 billion yen to 7,615.2 billion yen, compared with 7,443.6 billion yen at the end of fiscal 2008. This increase was due primarily to an increase in inventories for seasonal factors. Stockholders' equity increased 25.4 billion yen, compared with the end of the last fiscal year, to 3,767.7 billion yen. This result was due mainly to an increase in retained earnings and accumulated other comprehensive income, sufficient to offset the effects of repurchases of the company's own shares from the market.

Outlook for Fiscal 2009

The company expects the business environment from this fiscal year's second quarter onward to remain severe, with uncertainty of the global economy centered on the United States, and further price declines as a result of ever-intensified competition, as well as increasing prices for crude oil and other raw materials. Considering these conditions, the forecast for fiscal 2009, ending March 31, 2009, remains unchanged from the forecast announced on April 28, 2008.

Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, is one of the world's leading manufacturers of electronic and electric products for consumer, business and industrial use. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya and New York stock exchanges.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, deferred tax assets and uncertain tax positions; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Table of Contents

- 11 -

Notes to consolidated financial statements:

1. The company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP).
2. In order to be consistent with generally accepted financial reporting practices in Japan, operating profit is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Please refer to the accompanying consolidated statement of income and Note 5 for U.S. GAAP reconciliation.
3. The company changed the measurement date to March 31 for those postretirement benefit plans with a December 31 measurement date in conformity with the provisions regarding the change in the measurement date of postretirement benefit plan of SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statement No. 87, 88, 106, and 132(R). With the change in the measurement date, beginning fiscal 2009 balance of retained earnings and pension liability adjustments of accumulated other comprehensive income (loss) has been reduced by 3,727 million yen and 73,571 million yen, respectively.
4. Comprehensive income was reported as a gain of 180,193 million yen for the first quarter of fiscal 2009. Comprehensive income includes net income and increases (decreases) in accumulated other comprehensive income (loss) for this period.
5. Under U.S. GAAP, expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit in the statement of income.
6. Victor Company of Japan, Ltd. (JVC) issued and allocated new shares of common stock to third parties on August 10, 2007 for a cash consideration of 35 billion yen. As a result, the company's shareholding in JVC decreased from 52.4% to 36.8%. JVC and its subsidiaries became associated companies under the equity method from consolidated subsidiaries from August 2007.
7. Regarding consolidated segment profit, expenses for basic research and administrative expenses at the corporate headquarters level are treated as unallocatable expenses for each business segment, and are included in Corporate and eliminations.
8. The company's business segments are classified according to a business domain-based management system, which focuses on global consolidated management by each business domain, in order to ensure consistency of its internal management structure and disclosure. The company has changed the transaction between Global Procurement Service Company and other segments since April 1, 2008. Accordingly, segment information for Other and Corporate and eliminations of fiscal 2008 has been reclassified to conform to the presentation for fiscal 2009.

Table of Contents

- 12 -

Principal internal divisional companies or units and subsidiaries operating in respective segments are as follows:

Digital AVC Networks

Panasonic AVC Networks Company, Panasonic Communications Co., Ltd.,

Panasonic Mobile Communications Co., Ltd., Panasonic Automotive Systems Company,

Panasonic System Solutions Japan Co., Ltd., Panasonic Shikoku Electronics Co., Ltd.

Home Appliances

Matsushita Home Appliances Company, Lighting Company,

Matsushita Ecology Systems Co., Ltd.

MEW and PanaHome

Matsushita Electric Works, Ltd., PanaHome Corporation

Components and Devices

Semiconductor Company, Matsushita Battery Industrial Co., Ltd.,

Panasonic Electronic Devices Co., Ltd., Motor Company

Other

Panasonic Factory Solutions Co., Ltd., Matsushita Welding Systems Co., Ltd.

JVC and its subsidiaries became associated companies under the equity method from consolidated subsidiaries from August 2007.

From fiscal 2009, the name of AVC Networks was changed to Digital AVC Networks.

Sales and segment profits of business fields are calculated as the simple total of business segments making up each business field.

9. In a new phase of further growth, Matsushita has been accelerating initiatives to achieve global excellence. From fiscal 2009 onward, in order to further clarify its business fields for investors, Matsushita discloses three new business fields of the group which consist of five segments as follows:

Digital AVC Networks Solution

Digital AVC Networks

Solutions for the Environment and Comfortable Living

Home Appliances

MEW and PanaHome

Devices and Industry Solution

Components and Devices

Other

Matsushita to Absorb Wholly-Owned Subsidiary

Osaka, Japan, July 29, 2008 Matsushita Electric Industrial Co., Ltd. (MEI [NYSE symbol: MC]), best known for its Panasonic brand, today announced that its Board of Directors has decided that MEI will absorb Matsushita Battery Industrial Co., Ltd. (MBI), a wholly-owned subsidiary of MEI. The merger is expected to take effect on October 1, 2008.

In accordance with MEI's corporate name change and this merger as of October 1, MBI will newly start as Energy Company, an internal divisional company of Panasonic Corporation.

Details of the merger are outlined below.

1. Purpose of merger

Under the three-year mid-term management plan GP3, starting from fiscal 2008, MEI aims for achieving global excellence by accelerating growth strategies and implementing initiatives for innovating management quality, based on the concept of steady growth with profitability.

In primary batteries, MEI anticipates greater demand for alkaline batteries globally shifting from manganese batteries. In rechargeable batteries, the market is expected to grow mainly in lithium-ion batteries, as a result of increasing demand for mobile equipment.

Under these growing market conditions, through this merger, MBI will utilize companywide management resources and schemes, promote human resources development by a broad exchange of personnels, and reinforce its development structure both in Japan and overseas. Thus, MBI will strive to strengthen its battery business globally, and accelerate its growth strategies toward realization of the GP3 plan.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, deferred tax assets and uncertain tax positions; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Matsushita to Absorb Wholly-Owned Subsidiary

Osaka, Japan, July 29, 2008 Matsushita Electric Industrial Co., Ltd. (MEI [NYSE symbol: MC]), best known for its Panasonic brand, today announced that its Board of Directors has decided that MEI will absorb Matsushita Technology Information Service Co., Ltd. (MTIS), a wholly-owned subsidiary of MEI. The merger is expected to take effect on October 1, 2008.

Details of the merger are outlined below.

1. Purpose of merger

Under the three-year mid-term management plan GP3, starting from fiscal 2008, MEI aims for achieving global excellence by accelerating growth strategies and implementing initiatives for innovating management quality, based on the concept of steady growth with profitability.

With the aim of ensuring both business competitiveness and information security, MEI will absorb MTIS, which undertakes research, analysis and documentation of technology and patent information, and the entrusted development of research systems.

Through this merger, MEI will strengthen its research and acquisition of intellectual property right, thereby accelerating its enhancement of global intellectual property.

Panasonic to Build Lithium-ion Battery Plant in Osaka

- 123 billion yen investment for new plant and buildup of existing facilities -

Osaka, Japan Matsushita Battery Industrial Co., Ltd. (MBI), a consolidated subsidiary of Matsushita Electric Industry Co., Ltd. (MEI [NYSE symbol: MC]) known for its Panasonic brand products, today announced the company's plan to construct a new flagship lithium-ion battery plant in Osaka City. With two other existing manufacturing bases in Osaka Prefecture and Wakayama Prefecture, MBI will integrate the new plant to reinforce the production of rechargeable batteries in Japan.

The new plant will be the main manufacturing site, employing an integrated manufacturing system controlling everything from electrode production, cell assembly and charge-discharge testing to packaging and shipping. Especially, the electrode production facilities will ensure the safety of lithium-ion battery products as well as a safe manufacturing process. The plant will be strategically located in Osaka City to provide logistical advantages when working with its other plants in Osaka and Wakayama Prefectures.

MBI will invest about 100 billion yen in the new plant, which will be built in two phases. The first phase construction will begin in December 2008 with the aim of commencing electrode production in October 2009 and battery cell production in April 2010 with a capacity of 300 million battery cells. When the second phase construction is completed, the new plant will have a total production capacity of about 600 million lithium-ion battery cells per year (50 million cells per month).

In addition, the company plans to invest about 23 billion yen to improve the productivity of the existing two plants. With a total investment of 123 billion yen in these domestic plants, the company aims to firmly establish a global manufacturing system that can satisfy the growing and diversifying global market needs. This requires the cooperating of domestic plants with the overseas plant in Wuxi, China, capable of producing batteries in various varieties and volumes.

Demand for environmentally-friendly, rechargeable batteries shows notable increases not only in major markets like Europe, the U.S. and Japan, but also in emerging markets like BRIC countries, as demand for mobile devices like laptop PCs and cell phones are on the rise.

Table of Contents

Making MBI one of the world's top manufacturers of lithium-ion batteries, the plant will help to accelerate the company's growth strategy to meet market needs and take advantage of its technological prowess in manufacturing safe batteries with high energy capacity.

The company aims to build a safe, secure and environmentally-friendly factory by implementing a safe manufacturing environment and maintaining high energy efficiency. The factory aims to reduce CO₂ emissions by 30% based on the basic unit* from the level of fiscal year 2009 ending March 2009.

* CO₂ emissions/(Consolidated sales/Bank of Japan's corporate goods price index [electrical equipment])

<Profile of New Plant>

Name:	Suminoe Plant (tentative)
Location:	Hirabayashi-Kita, Suminoe Ward, Osaka City, Osaka Prefecture
Investment:	Approximately 100 billion yen
Products:	Lithium-ion batteries (cylindrical, prismatic)
Production Capacity:	Approximately 600 million battery cells per year at full operation 1st phase 300 million cells per year (25 million per month) 2nd phase 300 million cells per year (25 million per month)
Construction:	Starting in December 2008
Schedule:	Completion of construction of electrode building in June 2009 Start of electrode production in October 2009 Commence to mass produce battery cells (1st phase) in April 2010 Commence to mass produce battery cells (2nd phase) in October 2011
Area space:	Approximately 147,000 square meters
Floor space:	Approximately 150,000 square meters

Matsushita Battery Industrial Co., Ltd.

Matsushita Battery Industrial Co., Ltd. is a subsidiary of Matsushita Electric Industrial Co., Ltd. engaged in the sale and production of batteries. The company is a world-class manufacturer of products such as dry batteries, lithium ion batteries and auto batteries.
