Chairman's Statement

Dear Shareholders,

In order to speed up the full services offering process, the Company has entered into an agreement with China Unicom on the acquisition of CDMA business, which would allow the Company to quickly enter into the mobile communications market and attain enormous development potential. This will also enhance the incorporation of mobile elements into our integrated information services, strengthening our core competitiveness. In the first half of this year, the unexpected serious natural disasters such as snowstorms and earthquake together with the intensified market competition, have given us unprecedented harsh challenges. However, with the unwavering dedication and exceptional endurance of the Company's management and all our people, the Company achieved encouraging results. In our fight against the disasters and the subsequent reconstruction works, China Telecom well-demonstrated not only its outstanding capability for ensuring communications, but also its high regards of responsibility towards the society and its shareholders. Facing intense market competition, we continuously expanded the market with customer focused to maintain the stability of the Company's fundamentals and lay a solid foundation for the full services offering in the future.

A-2

FINANCIAL RESULTS

In the first half of 2008, the Company's financial performance remained stable. Operating revenues reached RMB90,434 million, up by 0.8% from the same period last year, of which RMB1,028 million was accounted for by the amortisation of upfront connection fees. Excluding the upfront connection fees, the operating revenues were RMB89,406 million, a 1.5% growth from the same period last year. Revenue from wireline voice service was RMB50,510 million, a 11.8% decrease from the same period last year. Revenues from Internet and data services as well as value-added and integrated information application services reached RMB24,534 million and RMB11,987 million respectively, representing 27.3% and 31.6% growth from the same period last year. EBITDA^{1,2} was RMB44,268 million, a 1.9% decrease from the same period last year, and the EBITDA margin was 49.5%. Profit attributable to equity holders^{1,2} of the Company was RMB11,606 million, a 4.0% decrease from the same period last year, and basic earnings per share^{1,2} was RMB0.14. Capital expenditure was RMB18,783 million, a 9.5% decrease from the same period last year. Free cash flow³ reached RMB21,669 million, a 11.3% increase from the same period last year.

Taking into consideration the Company's business development needs and its cash flow position, the Board of Directors has resolved not to pay any interim dividend for the year in order to maintain adequate funding flexibility. The Board of Directors will proactively consider the final dividend proposal at the time of reviewing the full year results and propose to the shareholders' general meeting accordingly.

BUSINESS PERFORMANCE

In the first half of 2008, the Company continued to proactively and effectively implement strategic transformation. Focused on providing integrated information services to customers, we keep on innovating business model, expanding business services, and advancing customer brand management to continuously optimise subscriber base and revenue structure.

With regard to government and enterprise customers, we strengthened the specialised marketing of BizNavigator and promoted the Internet-oriented integrated information services and applications services, enhancing the penetration of businesses such as information security products, video application products and enterprise switchboard while effectively consolidating the traditional voice services. With respect to our service approach, we continued to strengthen the coordination mechanism for cross-region services. Back-end network maintenance support personnel were embedded in the front-end sales force to provide differentiated network support services and to further improve responsiveness to customers' needs. Being the Company's core value customers, the government and enterprise customer base continued to expand in the first half of 2008, resulting in a significant increase in revenue with a 13.5% growth from the same period last year.

¹ Including the amortisation of the upfront connection fees, EBITDA was RMB45,296 million, profit attributable to equity holders of the Company was RMB12,634 million and basic earnings per share was RMB0.16.

² The natural disasters such as snowstorms and earthquake cost approximately additional RMB1,700 million to the network operation costs with an after tax effect of approximately RMB1,281 million in the first half of 2008. The implementation of new income tax law resulted in a tax saving of approximately RMB706 million. Excluding the amortisation of the upfront connection fees, the impact of natural disasters such as snowstorms and earthquake and of the variation in income tax rate, EBITDA was RMB45,968 million, a 1.9% growth from the same period last year, profit attributable to equity holders of the Company was RMB12,181 million, a 0.8% growth from the same period last year and basic earnings per share was RMB0.15.

³ Free cash flow is calculated from EBITDA (excluding amortisation of the upfront connection fees) minus capital expenditure and income tax.

Chairman's Statement

With regard to household customers, we continued to increase our marketing efforts for broadband access products. In accordance with customers' demand, we also integrated various services and products to enrich the "One Home" brand contents to provide one-stop communications, wealth management, live broadcasting, information and entertainment services to household customers. By the end of June 2008, the household penetration rate of "One Home" reached 14.4%, a 5.8 percentage point growth from the beginning of the year. In the first half of the year, revenue from household customers maintained steady growth of 2.9% from the same period last year.

Due to its rapid development, the non-voice service has become the consistent driver for the revenue growth of the Company. In the first half of 2008, revenue from the non-voice service as a percentage of operating revenues reached 43.5%, a 8.5 percentage point growth from the same period last year. The Company further explored the broadband access subscribers market and maintained the rapid growth of subscriber base and service revenue. The broadband subscribers in the first half of the year increased by 4.30 million to a total number of 39.95 million. Revenue from broadband access reached RMB19,279 million, a 31.3% growth from the same period last year. At the same time, the Company adhered to the strategy of leveraging informatisation applications to drive business development and continued to promote the rapid development of "Best Tone" and ICT services (including IT services and applications as well as video applications such as "Mega Eye"). In the first half of the year, revenues from "Best Tone" and ICT services grew by 56.7% and 101.8% respectively, contributing 0.87 and 1.19 percentage point growth to the total revenue.

In the first half of 2008, there was a significant decline in the Company's wireline voice service. Revenues from local telephone services and long distance services fell 13.9% and 9.4% respectively from the same period last year. There was a net decrease of 5.44 million access lines in service in the first half of the year, mainly of low-end subscribers. As a result of continuing significant reduction in mobile tariff, the imbalanced competitive landscape has worsened with immense pressure on expanding new market shares of wireline voice service. In response, we insisted on profitable development of voice service and controlled marketing expenditure of low return. We also insisted on driving the voice services through integrated development with transformation services, and continuously enriched informatisation applications to provide differentiated services for different customers with a view to consolidating our traditional voice services.

OPERATING MODEL

In line with the Company's strategic transformation, we continued to adjust and optimise our organisational structure, innovate operating model, and strengthen vertically-integrated operation to cater to the needs of the full services offering. We completed the organisational structure reform from headquarter with provincial subsidiaries to headquarter with provincial branches in the first half of the year to improve the execution efficiency and set a solid foundation for our upcoming full services offering. Leveraging the characteristics of the Company's resources, and our competitive edge of providing total solutions to customers while avoiding the disadvantages of single business offering, we optimised the front-end and back-end structures with the front-end operation focusing on customer segments and the back-end support to consolidate. These allowed us to bring the advantages of full services offering and focus on our target customers to enhance customer segment oriented marketing and product development. We also integrated the mobile operation management into the Company's organisational structure to establish a vertically-integrated full services operating structure. In addition, the successful acquisition of the Beijing Telecom in the first half of the year expanded the Company's geographical scope of operation. This is beneficial to providing national or transnational networking services for government and enterprise customers and further consolidates the Company's competitive edge in the high-end government and enterprise market.

CORPORATE GOVERNANCE

To protect the interest of our shareholders, customers and staff, we have strived to increase our corporate value by maintaining and strengthening high standards of corporate governance, continuously increasing transparency and ensuring the healthy development of the Company. Our efforts in corporate governance have been widely recognised by the capital market. In the first half of the year, we were awarded Asia's Best Managed Fixed Telecom Company by *Euromoney*. In accrediting Asia's Best Companies for the year of 2008 by *FinanceAsia*, the Company was awarded the Best Managed Company China. In addition, the Company was accredited with CAPITAL Outstanding China Enterprise Awards Telecommunications by *CAPITAL* for three consecutive years. Further, our website (www.chinatelecom-h.com) was accredited in IR Global Rankings 2008 as the Best Investor Relations Website in China.

ACQUISITION OF MOBILE BUSINESSES

The Company has entered into a detailed agreement with China Unicom based on the CDMA business acquisition framework agreement. We will launch mobile services operation by leasing the CDMA network assets to be acquired by our parent company. The lease agreement is subject to our independent shareholders' approval. We will endeavour to achieve smooth transition of CDMA network operation and its earliest independent operation. The aforesaid arrangements will enable the Company to obtain on taking over the CDMA business, relatively complete mobile network resources and customer service system with stand-alone operation and continuous service capability. This is beneficial for the Company to quickly enter into the fast-growing mobile telecommunications market in China and achieve full services offering. The Company's core competitiveness can also be strengthened continuously by proactively implementing customer-focused differentiation operation strategy.

Chairman's Statement

FUTURE OUTLOOK

Despite the various challenges for the Company, the full services offering would bring us development opportunities. The severely imbalanced competition landscape in China's telecommunications market will be gradually improved as the telecommunications sector reform and restructuring continues to deepen. However, there will be short-term downward pressure on our profit as the market share of wireline subscribers will continue to shrink in the near term while our forthcoming mobile services operation will need significant investment at the initial stage.

The Company will leverage transformation to drive full services offering. We aim to effectively converge the mobile elements with the integrated information services and implement differentiation development strategy with a focus on mid-to-high-end urban customers. Taking advantage of our customer resources, direct sales channels and multi-service operations, we will incorporate mobile elements into the brand operations of BizNavigator and One Home to provide our customers with differentiated integrated information services based on Mobile Internet and Fixed-Mobile Convergence (FMC), enhancing the brand influence and penetration. At the same time, with regards to customers' demand and experience, we will improve our network coverage and optimise our network quality. We will also coordinate the existing wireline and mobile network resources to drive synergy and improve network utilisation and economise network construction and operating costs, striving to achieve the profitable scale development of the mobile business.

We are full of passion about the future. We firmly believe that the full services offering will greatly enhance our core competitiveness. The Company's business development is going to reach a new stage of growth and together we will strive for the success to make our long time dream come true. China Telecom would thrive again and create more value for our shareholders.

Independent Review Report of the International Auditor

To the Board of Directors of

China Telecom Corporation Limited

INTRODUCTION

We have reviewed the interim financial statements set out on pages 8 to 33 which comprises the consolidated balance sheet of China Telecom Corporation Limited as at 30 June 2008, the consolidated income statement, the consolidated statement of changes in equity and the consolidated cash flow statement for the six-month period ended 30 June 2008 and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of interim financial statements to be in compliance with the relevant provisions thereof and International Accounting Standard 34 Interim financial reporting issued by the International Accounting Standards Board. The directors are responsible for the preparation and presentation of the interim financial statements in accordance with International Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial statements and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, Review of interim financial information performed by the independent auditor of the entity issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial statements as at and for the six-month period ended 30 June 2008 are not prepared, in all material respects, in accordance with International Accounting Standard 34 Interim financial reporting .

Notes to the Unaudited Interim Financial Statements

*for the six-month period ended 30 June 2008***1. PRINCIPAL ACTIVITIES**

China Telecom Corporation Limited (the Company) and its subsidiaries (hereinafter, collectively referred to as the Group) are engaged in the provision of wireline telecommunications and related services in Shanghai Municipality, Guangdong Province, Jiangsu Province, Zhejiang Province, Anhui Province, Fujian Province, Jiangxi Province, Guangxi Zhuang Autonomous Region, Chongqing Municipality, Sichuan Province, Hubei Province, Hunan Province, Hainan Province, Guizhou Province, Yunnan Province, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Hui Autonomous Region and Xinjiang Uygur Autonomous Region of the People's Republic of China (the PRC). Following the Fourth Acquisition (see Note 2), the Group began to provide wireline telecommunications and related services in Beijing Municipality in July 2008. The Group offers a comprehensive range of wireline telecommunications services to residential and business customers, including local, domestic long distance (DLD) and International, Hong Kong, Macau and Taiwan long distance telephone services, Internet and managed data, leased line, and other related services. The Group also provides leased line and other related services in the Asia Pacific region and certain countries of South and North America.

2. ACQUISITION

Pursuant to an acquisition agreement entered into by the Company and China Telecommunications Corporation (China Telecom) and together with its subsidiaries other than the Company are referred to as China Telecom Group) on 31 March 2008, the Company acquired the entire equity interest in China Telecom Group Beijing Corporation (Beijing Telecom) or the Fourth Acquired Company) from China Telecom for a total purchase price of RMB5,557 million (hereinafter, referred to as the Fourth Acquisition). The Fourth Acquisition was completed in June 2008.

3. BASIS OF PRESENTATION

Since the Group and the Fourth Acquired Company are under common control of China Telecom, the Fourth Acquisition has been accounted for as a combination of entities under common control. Accordingly, the assets and liabilities of the Fourth Acquired Company have been accounted for at historical amounts and the consolidated financial statements of the Company prior to the Fourth Acquisition have been restated to include the results of operations and assets and liabilities of the Fourth Acquired Company on a combined basis. The accumulated profits of the Fourth Acquired Company prior to 30 June 2008 were distributed to China Telecom and have been reflected as a distribution to China Telecom in the consolidated statement of changes in equity for the six-month period ended 30 June 2008. The purchase price payable by the Company for the acquisition of the Fourth Acquired Company has been accounted for as an equity transaction in the consolidated statement of changes in equity.

4. BASIS OF PREPARATION

These interim financial statements have been prepared in accordance with International Accounting Standard 34 (IAS 34) Interim Financial Reporting promulgated by the International Accounting Standards Board and the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. These interim financial statements, which were authorised for issuance by the Board of Directors on 28 August 2008, reflect the unaudited financial position of the Group as at 30 June 2008 and the unaudited results of operations and cash flows of the Group for the six-month period then ended, which are not necessarily indicative of the results of operations and cash flows expected for the year ending 31 December 2008.

These interim financial statements have been prepared in accordance with the same accounting policies adopted in the 2007 annual financial statements.

The preparation of interim financial statements in conformity with IAS 34 Interim Financial Reporting requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

These interim financial statements contain consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2007 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards (IFRSs).

Notes to the Unaudited Interim Financial Statements (Continued)

*for the six-month period ended 30 June 2008***4. BASIS OF PREPARATION (CONTINUED)**

These interim financial statements are unaudited, but have been reviewed by the Audit Committee of the Company. These interim financial statements have also been reviewed by the Company's international auditors in accordance with Hong Kong Standards on Review Engagements 2410 Review of interim financial information performed by the independent auditor of the entity issued by the Hong Kong Institute of Certified Public Accountants.

The financial information relating to the financial year ended 31 December 2007 that is included in these interim financial statements as being previously reported information does not constitute the Group's statutory financial statements for that financial year but is derived from those financial statements. The statutory financial statements for the year ended 31 December 2007 are available from the Company's registered office. The Company's international auditors have expressed an unqualified opinion on those financial statements in their report dated 31 March 2008.

5. SEGMENTAL REPORTING

A business segment is a distinguishable component of the Group that is engaged in providing products or services and is subject to risks and rewards that are different from those of other segments. For the periods presented, the Group has one business segment which is the provision of wireline telecommunications services. No analysis of the Group's operating revenues and profit before taxation by geographical segment has been presented as the majority of the Group's operating activities are carried out in the PRC and less than 10 percent of the Group's operating revenues and profit before taxation were derived from activities outside the PRC. A majority of the Group's assets are located in the PRC and less than 10 percent of the Group's total assets are located outside the PRC.

*for the six-month period ended 30 June 2008***19. RELATED PARTY TRANSACTIONS (CONTINUED)****(b) Key management personnel compensation**

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including directors and supervisors of the Group.

Key management personnel compensation of the Group is summarised as follows:

	Six-month periods ended 30 June	
	2008 RMB thousands	2007 RMB thousands
Short-term employee benefits	4,272	3,948
Post-employment benefits	317	301
	4,589	4,249

The above remuneration is included in personnel expenses.

(c) Contributions to post-employment benefit plans

As stipulated by the regulations of the PRC, the Group participates in various defined contribution retirement plans organised by municipal and provincial governments for its employees. The Group is required to make contributions to the post-employment benefit plans at rates ranging from 18% to 20% of the salaries, bonuses and certain allowances of the employees. A member of the plan is entitled to a pension equal to a fixed proportion of the salary prevailing at the member's retirement date. The Group has no other material obligation for the payment of pension benefits associated with these plans beyond the contributions described above.

The Group's contributions for the six-month period ended 30 June 2008 were RMB1,251 million (six-month period ended 30 June 2007: RMB1,219 million).

The amount payable for contributions to defined contribution retirement plans as at 30 June 2008 was RMB622 million (31 December 2007: RMB561 million).

(d) Transactions with other state-controlled entities in the PRC

The Group is a state-controlled public utilities enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the State through government authorities, agencies, affiliations and other organisations (collectively referred to as state-controlled entities).

for the six-month period ended 30 June 2008

19. RELATED PARTY TRANSACTIONS (CONTINUED)

(d) Transactions with other state-controlled entities in the PRC (continued)

Apart from transactions with parent company and its affiliates, the Group has transactions with other state-controlled entities which include but are not limited to the following:

sales and purchases of goods, properties and other assets

rendering and receiving services

lease of assets

depositing and borrowing money

use of public utilities

These transactions are conducted in the ordinary course of the Group's business on terms comparable to those with other entities that are not state-controlled. The Group prices its telecommunication services and products based on government-regulated tariff rates, where applicable, or based on commercial negotiations. The Group has also established its procurement policies and approval processes for purchases of products and services, which do not depend on whether the counterparties are state-controlled entities or not.

Having considered the transactions potentially affected by related party relationships, the entity's pricing strategy, procurement policies and approval processes, and the information that would be necessary for an understanding of the potential effect of the related party relationships on the financial statements, the directors are of the opinion that the following related party transactions require disclosure of numeric details:

(i) Transactions with other state-controlled telecommunications operators in the PRC

The Group's wireline telecommunications networks interconnect with the networks of other state-controlled telecommunications operators. The Group also leases wireline telecommunications networks to these operators in the normal course of business. The interconnection and leased line charges are regulated by the Ministry of Information Industry. The extent of the Group's interconnection and leased line transactions with other state-controlled telecommunications operators in the PRC is as follows:

	Six-month periods ended 30 June	
	2008	2007
	RMB	RMB
	millions	millions
Interconnection revenues	5,815	6,176

Edgar Filing: CHINA TELECOM CORP LTD - Form 6-K

20. POST BALANCE SHEET EVENTS

On 27 July 2008, the Company entered into a business acquisition agreement with China Unicom Limited and China Unicom Corporation Limited (collectively "China Unicom"), pursuant to which, the Company shall acquire the CDMA mobile communication business and relevant assets and liabilities from China Unicom at the purchase price of RMB43.8 billion. The acquisition is expected to be substantially completed in late November 2008.

In connection with the acquisition of CDMA business from China Unicom and subject to independent shareholders' approval, the Company also entered into a lease agreement ("CDMA Network Lease") with China Telecom, pursuant to which, China Telecom will lease the capacity on the constructed CDMA mobile communication network ("CDMA Network") required by the Company to operate the CDMA business. The CDMA Network Lease is expected to have an initial term from 1 October 2008 (or such other date as agreed by the Company and China Telecom) to 31 December 2010. The lease fee for the CDMA Network is expected to be 28% of the CDMA business revenue (the service revenue generated from the Company's CDMA telecommunication business which shall be calculated by the total revenue from CDMA business minus any upfront non-refundable revenue arising out of CDMA business and any revenue from sale of telecommunication products in connection with CDMA business, as derived from the Company's financial statements) for each of the period from 1 October 2008 (or such other date as agreed by the Company and China Telecom) to 31 December 2008 and the years ending 31 December 2009 and 2010. The CDMA Network Lease is renewable at the option of the Company with the lease period, lease fee and the minimum annual lease fee to be re-negotiated between the Company and China Telecom.

AUDIT COMMITTEE

The audit committee has reviewed with management and the Company's international auditor, KPMG, the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of the Company's Interim Report for the six months ended 30 June 2008.

COMPLIANCE WITH THE CODE ON CORPORATE GOVERNANCE PRACTICES

The Company has attached great importance to corporate governance. We continued to make efforts in improving the Company's internal control mechanisms, strengthening information disclosure and enhancing the Company's transparency, developing corporate governance practices and protecting shareholders' interests to the maximum degree.

Save for the roles of Chairman and Chief Executive Officer of the Company being performed by the same individual, for the six months period ended 30 June 2008, the Company has been in compliance with all the code provisions as set out in Appendix 14 Code on Corporate Governance Practices of the Listing Rules.

In the Company's opinion, through supervision of the Board and independent non-executive directors, and effective control of the Company's internal check and balance mechanism, the same individual performing the roles of Chairman and Chief Executive Officer can achieve the goal of improving the Company's efficiency in decision-making and execution, and effectively capture business opportunities. Many international leading corporations also have a similar arrangement.

COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as set out in Appendix 10 of the Listing Rules to govern securities transactions by Directors. Further to the specific enquiries made by the Company to all Directors, they have confirmed their compliance with the Model Code throughout the period from 1 January 2008 to 30 June 2008.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this report may be viewed as forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 (as amended) and Section 21E of the U.S. Securities Exchange Act of 1934 (as amended). Such forward-looking statements are subject to known and unknown risks, uncertainties and other factors, which may cause the actual performance, financial condition or results of operations of the Company to be materially different from any future performance, financial condition or results of operations implied by such forward-looking statements. In addition, we do not intend to update these forward-looking statements. Further information regarding these risks, uncertainties and other factors is included in the Company's most recent Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the SEC) and in the Company's other filings with the SEC.
