Item 2.05 Costs Associated with Exit or Disposal Activities.

On September 24, 2008, TorreyPines Therapeutics, Inc. (the Company) initiated a strategic restructuring in connection with the September 30, 2008 conclusion of the Alzheimer's disease genetics collaboration agreement between the Company and Eisai Co., Ltd. As part of the restructuring, the Company will transition from a discovery and development company to a development-only company. The Company will focus on its three clinical development programs: tezampanel, NGX426 and NGX267. The strategic restructuring will result in an immediate reduction in the Company's workforce of approximately 50%. The Company intends to provide cash severance payments and continuation of benefits to employees directly affected by the workforce reduction. The Company estimates that it will incur a charge of approximately \$0.2 million in the third quarter of 2008 for costs related to severance and continuation of benefits. Additionally, the Company estimates it will record a charge of \$0.5 million in the third quarter of 2008 related to research equipment for which the Company has no future use. The Company expects to complete the activities related to this strategic restructuring during the third quarter of 2008. As described above, the Company estimates that the total amount expected to be expensed in connection with the restructuring will be \$0.7 million with no estimated future expenses.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

As part of the Company's restructuring and reduction in workforce described in Item 2.05 above, the employment of Steven Wagner, Ph.D, Chief Scientific Officer, will terminate effective September 30, 2008.

Item 8.01. Other Events

On September 25, 2008, the Company issued a press release announcing that it will transition from a discovery and development company to a development-only company, focusing on its three clinical development programs: tezampanel, NGX426 and NGX267. As part of this transition and in conjunction with the September 30, 2008 conclusion of the Alzheimer's disease genetics collaboration agreement between the company and Eisai Co., Ltd., the Company intends to reduce its workforce by approximately 50%. A copy of the press release is attached as Exhibit 99.1.

Statements in this report that are not strictly historical in nature constitute forward-looking statements. Such statements include, but are not limited to, references to the Company's estimated charges resulting from the restructuring. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause TorreyPines' actual results to be materially different from historical results or from any results expressed or implied by such forward-looking statements. TorreyPines' results may be affected by risks related to competition from other biotechnology and pharmaceutical companies, its effectiveness at managing its financial resources, its ability to successfully develop and market products, difficulties or delays in its pre-clinical studies or clinical trials, difficulties or delays in

manufacturing its clinical trials materials, the scope and validity of patent protection for its products, regulatory developments involving future products and its ability to obtain additional funding to support its operations. Risk factors that may cause actual results to differ are more fully discussed in TorreyPines' SEC filings, including TorreyPines' Form 10-K for the year ended December 31, 2007 and TorreyPines' Form 10-Q for the quarter ended June 30, 2008. All forward-looking statements are qualified in their entirety by this cautionary statement. TorreyPines is providing this information as of this date and does not undertake any obligation to update any forward-looking statements contained in this report as a result of new information, future events or otherwise.
