*PRELIMINARY PROSPECTUS (Subject to Completion), dated November 18, 2008*

**Mitsubishi UFJ Financial Group, Inc.**

**Shares of Common Stock**

**In the Form of Shares and American Depositary Shares**

Mitsubishi UFJ Financial Group, Inc., a joint stock company incorporated with limited liability under the laws of Japan, is offering shares of its common stock, in the form of shares and American Depositary Shares, or ADSs, in the United States and Canada. The offered shares are newly issued shares and treasury shares sold by us. Each ADS represents one share of our common stock.

Concurrent with this offering, we are conducting an offering of \_\_\_\_\_ shares of our common stock in Japan and an offering of \_\_\_\_\_ shares of our common stock, in the form of shares and ADSs, outside of Japan, the United States and Canada. These offerings, together with the offering in the United States and Canada, are collectively referred to in this prospectus as the global offering.

Shares of our common stock are listed on the First Section of the Tokyo Stock Exchange, the Osaka Securities Exchange and the Nagoya Stock Exchange in Japan. ADSs, each representing one share of common stock are listed on the New York Stock Exchange under the symbol MTU . On November 14, 2008, the last reported sales price was ¥595 per share of common stock on the Tokyo Stock Exchange and \$6.00 per ADS on the New York Stock Exchange.

**Investing in the shares of our common stock or ADSs involves risks. See Risk Factors beginning on page 6 of this prospectus.**

	Per ADS	Total <sup>(1)</sup>	Per share of common stock	Total <sup>(2)</sup>
Public offering price	\$	\$	¥	¥
Underwriting discounts and commissions	\$	\$	¥	¥
Proceeds, before expenses, to the issuer	\$	\$	¥	¥

(1) Assuming all shares to be sold in the U.S. offering will be sold in the form of ADSs.

(2) Assuming none of the shares to be sold in the U.S. offering will be sold in the form of ADSs.

We have granted the U.S. underwriters and the international underwriters options to purchase up to an additional \_\_\_\_\_ shares and \_\_\_\_\_ shares, respectively, of our common stock, in the form of shares or ADSs, solely to cover any over-allotments. In addition, we have granted Nomura Securities Co., Ltd. an option to purchase up to an additional \_\_\_\_\_ shares of our common stock in connection with any over-allotments in the Japanese offering.

Neither the U.S. Securities and Exchange Commission nor any state securities commission has approved or disapproved these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The shares are offered by the U.S. underwriters as specified in this prospectus. Payment for the shares will be made in yen for value on or about \_\_\_\_\_, 2008 (Tokyo time), and the shares will be delivered in Tokyo on \_\_\_\_\_, 2008 (Tokyo time) through clearing accounts with the Japan Securities Depository Center, Inc., or JASDEC, under the central clearing system in Japan. Payments for the ADSs will be made in U.S. dollars for value on or about \_\_\_\_\_, 2008 (New York time), and the ADSs will be delivered in book-entry form through The Depository Trust Company on or about \_\_\_\_\_, 2008 (New York time).

It is important for you to read and consider all information contained in, or incorporated by reference into, this prospectus in making your investment decision. You should also read and consider the information in the documents we have referred you to in Where You Can Obtain More Information in this prospectus.

In this prospectus, as the context requires, when we use the words we, us, our or MUFG, we mean the combined business and operations of Mitsubishi UFJ Financial Group, Inc., or formerly Mitsubishi Tokyo Financial Group, Inc., and its consolidated subsidiaries, as well as Mitsubishi UFJ Financial Group, Inc. References to MTFG and UFJ Holdings are to the Mitsubishi Tokyo Financial Group, Inc. and to UFJ Holdings, Inc., respectively, as well as to MTFG and UFJ Holdings and their respective consolidated subsidiaries, as the context requires. Unless the context otherwise requires, references in this prospectus to the financial results or business of the UFJ group refer to those of UFJ Holdings and its consolidated subsidiaries. We use the word you to refer to prospective investors in the shares and ADSs.

In this prospectus, references to dollars, U.S.\$, \$ and U.S. dollars mean the currency of the United States, and references to yen, ¥ and J mean the currency of Japan.

In this prospectus, all U.S. dollar and yen figures and percentages have been rounded to the figures shown unless otherwise specified. Accordingly, the total of each column of figures may not be equal to the total of the relevant individual items. Unless otherwise specified, the financial information presented in this prospectus and the consolidated financial statements of MUFG and UFJ Holdings are prepared in accordance with accounting principles generally accepted in the United States, or U.S. GAAP. However, the financial information set forth in the appendices to this prospectus are prepared in accordance with accounting principles generally accepted in Japan, or Japanese GAAP. Our fiscal year ends on March 31 of each year. References to years not specified as being fiscal years are to calendar years.

You should rely only on the information contained or incorporated by reference in this prospectus. We have not, and the U.S. underwriters have not, authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the U.S. underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus and in the documents incorporated by reference herein is accurate only as of their respective dates. Our business, financial condition, results of operations and prospects may have changed since those dates.

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

We expect that the offering price of the shares will be set at or below the prevailing market price of our shares on the Tokyo Stock Exchange at the time of pricing and the offering price of the ADSs will be set with reference to such price.

## **Table of Contents**

<b>Use of proceeds</b>	We expect to receive net proceeds from the global offering of approximately ¥ (assuming that the over-allotment options are exercised in full), which we will use to make investments in our consolidated subsidiaries to strengthen our overall group capital base.
<b>Dividends</b>	Purchasers of shares of our common stock or ADSs will not be entitled to receive any interim dividend that may be paid to shareholders of record as of September 30, 2008, but will be entitled to receive the full amount of any dividend that may be paid to shareholders of record as of March 31, 2009. Dividend payments to non-resident holders of shares or ADSs will be subject to Japanese withholding taxes. Dividends on our common stock are paid in Japanese yen. Subject to the terms of the deposit agreement, the depository for the ADSs will convert any cash dividends into U.S. dollars. Any dividends paid to holders of ADSs will be less the fees and expenses payable under the deposit agreement and any applicable taxes. See Item 10.B. Memorandum and Articles of Association American Depositary Shares in our annual report on Form 20-F.
<b>Listing</b>	Shares of our common stock are listed on the First Section of the Tokyo Stock Exchange, the Osaka Securities Exchange and the Nagoya Stock Exchange in Japan. ADSs, each representing one share of common stock, are listed on the New York Stock Exchange under the symbol MTU .
<b>Voting rights</b>	Holders of our common stock have the right to one vote for each unit, consisting of 100 shares of common stock, held on all matters submitted to a vote of shareholders. Holders of ADSs will have the right to instruct the depository to exercise on their behalf one vote per 100 ADSs, subject to some restrictions.
<b>Lock-up</b>	We have agreed with the global coordinators (as set forth in Underwriting ) to restrictions on the sale of shares of our common stock for a period of 180 days from the date of this prospectus, subject to limited exceptions and to extension in certain limited circumstances as described in Underwriting.
<b>Payment and settlement</b>	The underwriters expect to make payment for the shares to be sold in the global offering (including shares underlying any ADSs sold) on or about , 2008 (Tokyo time) and to deliver the common stock in Tokyo through clearing accounts with JASDEC on or about , 2008 (Tokyo time). The underwriters expect to deliver ADSs in New York, New York through the facilities of The Depository Trust Company on or about , 2008 (New York time). Delivery of the shares and the ADSs in the U.S. offering and the international offering is expected to occur, subject to receipt and acceptance by the underwriters, on , 2008, which is later than three business days after pricing of the global offering, as described in the expected timetable below. Because of the longer settlement period, purchasers who wish to trade shares or ADSs

**Table of Contents**

on or soon after pricing may need to specify alternative settlement arrangements to prevent a failed settlement. Until delivery by the underwriters against payment, ADSs relating to the shares sold in the global offering will be traded on the New York Stock Exchange on a "when issued" basis. The shares and ADSs will not be traded on a "when issued" basis on the Tokyo Stock Exchange, the Osaka Securities Exchange, the Nagoya Stock Exchange or any other market. Because of this longer settlement period, you may be required to comply with applicable margin requirements.

**Expected timetable**

The expected timetable for the global offering is as follows:

Marketing of the global offering will commence on November 18, 2008.

Pricing of the global offering is expected following the close of the market in Japan on a date (the pricing date) that will be between December 8 and December 10, 2008.

Japanese subscription period will commence one trading day after the pricing date (Tokyo time) and close two trading days after the pricing date (Tokyo time).

Delivery of the shares of common stock in the U.S. offering, the Japanese offering and the international offering is expected on the sixth trading day after the pricing date (Tokyo time).

Delivery of the ADSs in the U.S. offering and the international offering are expected on the sixth trading day after the pricing date (New York time).

**Table of Contents**

**RISK FACTORS**

*Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below and the more detailed explanation of risks described in our annual report on Form 20-F for the fiscal year ended March 31, 2008 under the caption Item 3D. Risk Factors, as well as all the other information including our consolidated financial statements and related notes, included in, or incorporated by reference into, this prospectus.*

*Our business, operating results and financial condition could be materially and adversely affected by any of the factors discussed below. The trading price of our common stock could decline due to any of these factors. This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the risks faced by us described below and elsewhere in this prospectus. See Cautionary Statement Concerning Forward-Looking Statements.*

**Risks Related to Recent Developments**

*Our recently completed and planned investments may increase our exposure to market fluctuations and other factors over which we have little or no control.*

In line with our ongoing strategic effort to create a leading comprehensive financial group that offers a broad range of financial products and services, we have recently agreed to enter into, and have entered into, several business combinations and strategic business alliances. For example,

on October 2, 2008, we acquired 9.9% of the issued shares of Aberdeen Asset Management PLC, or Aberdeen, and intend to increase our holdings but not to a level that exceeds 19.9%, subject to receiving the required regulatory approvals;

on October 13, 2008, we purchased approximately \$9 billion of preferred shares of Morgan Stanley, which provided us with an approximately 21% interest in Morgan Stanley on a fully diluted basis at the time of our purchase, which interest decreased to approximately 20% on a fully diluted basis as a result of the U.S. Department of the Treasury's subsequent purchase of a warrant to purchase up to 65,245,759 shares of common stock;

on October 21, 2008, we completed a tender offer for outstanding common shares of ACOM Co., Ltd., raising our stake in ACOM to approximately 40.0%; and

on September 26, 2008, BTMU completed a tender offer for the outstanding shares of common stock of UnionBanCal Corporation, or UNBC, raising our stake in UNBC to approximately 98.0%. We and BTMU subsequently acquired the remaining outstanding shares of UNBC through a merger on November 5, 2008 and, as a result, UNBC became our wholly owned indirect subsidiary.

The fair value of our investments in those financial institutions may be impaired if their business results are adversely affected by current or future financial market instability or otherwise, resulting in a decline in the fair value of their securities that is other than temporary. In particular, the value of Morgan Stanley's securities has fluctuated significantly in recent periods. The price of Morgan Stanley's common stock

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

declined approximately 60.9% from \$24.75 at the close of trading on September 26, 2008, the day immediately prior to the date on which we entered into the strategic capital alliance agreement, to \$9.68 at the close of trading on October 10, 2008, the trading day immediately prior to the date on which we acquired the preferred shares under the amended agreement. The closing price of Morgan Stanley's common stock on November 14, 2008 was \$12.03. Any significant impairment of the fair value of our investments could have a material adverse impact on our results of operations and financial condition.

The most significant investments we have made or announced in the current fiscal year involve companies in industries undergoing significant restructuring. As a result, it may be difficult to evaluate the prospects of such investments based on historical results, and our results of operations may be subject to greater uncertainty.

## **Table of Contents**

In addition, changes in economic policies of governments and central banks, laws and regulations, including capital adequacy requirements for financial institutions, and applicable accounting rules implemented in response to current and future market fluctuations, may have a greater impact on our results of operations and financial condition because of our recent investments.

In cases where we hold a minority interest in the investees, we typically cannot control the operations and assets of these investees or make major decisions without the consent of other shareholders or participants, or at all. For example, we may be unable to implement proposals that we may make in an effort to further develop our global strategic alliance with Morgan Stanley. In some cases, increasing our shareholding to a controlling stake could also trigger additional regulatory approvals and subject us to significantly increased regulatory supervision. If our investees encounter financial or other business difficulties, if their strategic objectives change or if they no longer perceive us to be an attractive alliance partner, they may no longer desire or be able to participate in alliances with us. Our business and results of operations could be adversely affected if we are unable to continue with one or more strategic business alliances.

*If the Japanese stock market or other global markets decline in the future, we may incur losses on our securities portfolio and our capital ratios will be adversely affected.*

We hold large amounts of marketable equity securities, of which a significant portion are securities of Japanese issuers. The market values of these securities are inherently volatile. We have recently experienced impairment losses on our marketable equity securities as a result of a decline in Japanese stock prices. The Nikkei Stock Average, which is an average of 225 blue chip stocks listed on the Tokyo Stock Exchange, declined from ¥12,525.54 at March 31, 2008 to ¥11,259.86 at September 30, 2008, and further down to a 26-year low at ¥7,162.90 on October 27, 2008. The Nikkei Stock Average was ¥8,462.39 on November 14, 2008. The Tokyo Stock Price Index, or TOPIX, a composite index of all stocks listed on the First Section of the Tokyo Stock Exchange, the index declined from 1,212.96 at March 31, 2008 to 1,087.41 at September 30, 2008, and further down to 746.46 at October 27, 2008. The TOPIX was 846.91 on November 14, 2008. If the Japanese stock market or other global markets further decline or do not improve, we may incur additional losses on our securities portfolio. Further declines in the Japanese stock market or other global markets may also materially adversely affect our capital ratios, results of operations and financial condition.

*We are subject to increased regulatory requirements and supervision in the United States as a financial holding company.*

On October 6, 2008, we became a financial holding company in the United States for purposes of U.S. federal banking law and may engage in a substantially broader range of non-banking activities in the United States, including insurance, securities, merchant banking and other financial activities, compared to when we were a bank holding company. To maintain our financial holding company status, we are required to meet or exceed certain capital ratios and certain examination ratings. In addition, our regulatory compliance expenses may increase. If we cease to meet any of the requirements for financial holding company status, we may be required to discontinue newly authorized financial activities and suffer other adverse consequences. See Recent Developments.

## **Risks Related to Investing in Our Shares**

*Rights of shareholders under Japanese law may be different from those under the laws of jurisdictions within the United States and other countries.*

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

Our articles of incorporation, the regulations of our board of directors and the Company Law of Japan, or the Company Law (also known as the Corporation Act), govern our corporate affairs. Legal principles relating to such matters as the validity of corporate procedures, directors and officers fiduciary duties and shareholders rights are different from those that would apply if we were not a Japanese corporation. Shareholders rights under Japanese law are different in some respects from shareholders rights under the laws of jurisdictions within the United States and other countries. You may have more difficulty in asserting your rights as a shareholder than you would as a shareholder of a corporation organized in a jurisdiction outside of Japan.

## **Table of Contents**

*It may not be possible for investors to effect service of process within the United States upon us or our directors, corporate auditors or other management members, or to enforce against us or those persons judgments obtained in U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States.*

We are a joint stock company incorporated under the laws of Japan. Almost all of our directors, corporate auditors or other management members reside outside the United States. Many of our assets and the assets of these persons are located in Japan and elsewhere outside the United States. It may not be possible, therefore, for U.S. investors to effect service of process within the United States upon us or these persons or to enforce, against us or these persons, judgments obtained in the U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States. We believe that there is doubt as to the enforceability in Japan, in original actions or in actions to enforce judgments of U.S. courts, of claims predicated solely upon the federal securities laws of the United States.

*A long settlement period may impair the liquidity of your shares.*

Delivery of the shares is expected to occur, subject to our receipt of payment and acceptance of delivery by the underwriters, on the sixth trading day after the offering is priced (Tokyo time), which is later than the typical three business day settlement period following the pricing of an offering in the United States. The shares will not trade on a when issued basis on the Tokyo Stock Exchange or any other market. Accordingly, during the period between pricing and settlement, the liquidity of your shares may be impaired. In addition, because of the longer settlement period, you may need to specify alternative settlement arrangements to prevent a failed settlement if you wish to trade your shares, and may be required to comply with applicable margin requirements.

## **Risks Related to Investing in Our ADSs**

*As a holder of ADSs, you have fewer rights than a shareholder and you must act through the depositary to exercise these rights.*

The rights of our shareholders under Japanese law to take actions such as voting their shares, receiving dividends and distributions, bringing derivative actions, examining our accounting books and records and exercising appraisal rights are available only to shareholders of record. Because the depositary, through its custodian, is the holder of record of the shares underlying the ADSs, a holder of ADSs may not be entitled to the same rights as a shareholder. In your capacity as an ADS holder, you may not be able to bring a derivative action, examine our accounting books and records or exercise appraisal rights.

*Foreign exchange rate fluctuations may affect the U.S. dollar value of our ADSs and dividends payable to holders of our ADSs.*

Market prices for our ADSs may fall if the value of the yen declines against the U.S. dollar. In addition, the U.S. dollar amount of cash dividends and other cash payments made to holders of our ADSs would be reduced if the value of the yen declines against the U.S. dollar.

*A long settlement period may impair the liquidity of your ADSs.*

Delivery of the ADSs is expected to occur, subject to our receipt of payment and acceptance of delivery by the underwriters, on the sixth trading day after the offering is priced (New York time), which is later than the typical three business day settlement period following the pricing of an offering. Until delivery by the underwriters against payment, ADSs relating to the shares sold in the global offering will be traded on the New York Stock Exchange on a when issued basis. The ADSs, however, will not trade on a when issued basis on the Tokyo Stock Exchange, the Osaka Securities Exchange, the Nagoya Stock Exchange or any other market. Accordingly, during the period between pricing and settlement, the liquidity of your ADSs may be impaired. In addition, because of the longer settlement period, you may need to specify alternative settlement arrangements to prevent a failed settlement if you wish to trade your ADSs, and may be required to comply with applicable margin requirements.

**CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS**

This prospectus contains statements that constitute forward-looking statements. Forward-looking statements appear in a number of places in this prospectus and include statements regarding our current intent, belief, targets or expectations or the current intent, belief, targets or expectations of our management with respect to, among others:

financial condition;

results of operations;

business plans and other management objectives;

business strategies, competitive positions and growth opportunities;

the benefits of recently completed or announced transactions and realization of related financial and operating synergies and efficiencies, including estimated cost savings and revenue enhancement;

the financial and regulatory environment in which we operate;

our problem loan levels and loan losses; and

the equity, other financial product, foreign exchange and real estate markets.

In many, but not all, cases, we use words such as aim, anticipate, believe, estimate, expect, hope, intend, may, plan, predict, should, will, would and similar expressions, as they relate to us or our management, to identify forward-looking statements. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize or should underlying assumptions prove incorrect, actual results may vary materially from those which are anticipated, aimed at, believed, estimated, expected, intended or planned.

Forward-looking statements are not guarantees of future performance and involve risks and uncertainties. Actual results may differ from those in forward-looking statements as a result of various factors. We identify in Risk Factors and elsewhere in this prospectus as well as other information included in, or incorporated by reference into, this prospectus important factors that could cause actual results to differ. Important factors that could cause actual results to differ materially from estimates or forecasts contained in the forward-looking statements include, among others:

negative changes in economic conditions in Japan and other countries;

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

continued extreme market volatility due to ongoing global financial instability;

the ability to integrate our businesses, product lines and branch offices with newly acquired or soon-to-be-acquired businesses in a manner that achieves the expected benefits;

timing, impact and other uncertainties associated with our other or future acquisitions or combinations and the integration of these other future acquisitions;

changes in the monetary and interest rate policies of the Bank of Japan and other central banks;

the ongoing integration of the information systems at our commercial bank subsidiary;

fluctuations in interest rates, equity prices and currency exchange rates, the adequacy of loan loss reserves, the inability to hedge certain risks economically, changes in consumer spending and other habits, as well as the impact of tax and other legislation and other regulations in the jurisdictions in which we and our affiliates operate;

risks of international business;

regulatory risks;

contingent liabilities;

competitive factors in the industries in which we compete, and the impact of competitive services and pricing in our market;

risks associated with debt service requirements;

degree of financial leverage; and

other risks referenced from time to time in our filings with the U.S. Securities and Exchange Commission.

We do not intend to update these forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise.

**USE OF PROCEEDS**

We expect to receive approximately ¥            billion in net cash proceeds from the issuance and sale of new shares and the sale of treasury shares in the global offering, which we plan to use to make investments in our consolidated subsidiaries to strengthen our overall group capital base.

These amounts are after deducting the underwriters' discounts and commissions and ¥            of estimated aggregate expenses payable by us.

If the U.S. underwriters, the international underwriters and the Japanese underwriters elect to exercise their options to purchase up to an additional            ,            and            shares, respectively, of our common stock in full, we expect to receive an additional ¥            in net cash proceeds, which we also plan to use to make investments in our consolidated subsidiaries to strengthen our overall group capital base.

**RECENT DEVELOPMENTS**

**Effects of Challenging Business Environment in Recent Periods**

The global financial market instability initially triggered by disruptions in the U.S. credit markets and negative trends in the global economy has continued to worsen in recent months. Japan is also experiencing a difficult business environment with the Nikkei Stock Average, which is an average of 225 blue chip stocks listed on the Tokyo Stock Exchange, reaching a 26-year low of ¥7,162.90 on October 27, 2008.

The difficult business environment in Japan and globally has adversely affected our business and financial results in recent periods. Although we have not compiled any updated interim U.S. GAAP financial information since we published our U.S. GAAP financial information as of and for the fiscal year ended March 31, 2008, we announced on November 18, 2008, our interim Japanese GAAP financial data as of and for the six months ended September 30, 2008. Our interim Japanese GAAP financial results were adversely affected by the ongoing global financial instability and negative trends in the Japanese economy. For a detailed discussion of our interim Japanese GAAP financial information as of and for the six months ended September 30, 2008, please see Annex B to this prospectus. However, because there are significant differences between U.S. GAAP and Japanese GAAP, the interim Japanese GAAP financial information that we published is not directly comparable to the information set forth in our consolidated financial statements prepared in accordance with U.S. GAAP and incorporated by reference into this prospectus. Please refer to the unaudited reverse reconciliation of selected financial information included in Annex A to this prospectus for a quantification of the material differences between U.S. GAAP and Japanese GAAP with respect to our most recently completed fiscal year.

We expect the severe business conditions, resulting from the global financial market instability and the slowdown in the economy in Japan and globally, to continue in the near term. As a result, our future operating and financial results are highly uncertain and subject to significant change. For example, although in May 2008, we were forecasting Japanese GAAP financial results for the current fiscal year to be substantially in line with the prior fiscal year's Japanese GAAP results, the recent negative developments caused us to announce significant downward adjustments to our Japanese GAAP financial forecasts on October 31, 2008. Specifically, in comparison to our Japanese GAAP financial forecasts for the current fiscal year announced in May 2008, we lowered our ordinary profit forecast by more than half and our net income forecast by approximately two-thirds. We announced lower financial forecasts for the current fiscal year because we expect:

lower fees from investment products in retail business and derivative transactions in corporate banking business;

lower trading income;

increased impairment losses on equity securities resulting from the continuing decline in equity security prices in Japan generally; and

increased credit costs resulting mainly from deteriorating business conditions for our customers.

In response to the current global financial difficulties, various measures have been taken, or are being contemplated, by the Japanese central bank, the Japanese government and other organizations to stabilize and stimulate the Japanese economy. For example,

on October 31, 2008, the Bank of Japan lowered its target for the uncollateralized overnight call rate by 20 basis points to 0.3%;

the government has taken certain measures with respect to equity transactions, including tighter restrictions on short sales of listed shares and relaxing restrictions on share buy-backs;

there are media reports that the Banks Shareholdings Purchase Corporation may resume purchasing shares held by banks; and

## **Table of Contents**

the Japanese Financial Services Agency is expected to implement revised capital adequacy guidelines under which a bank (including a bank holding company) with international operations will no longer be required to reflect in its Tier 1 capital unrealized gains or losses on yen-denominated Japanese government bonds and certain other securities (excluding shares) with a risk weight of 0% under the Standard Approach.

Despite these newly implemented or contemplated measures, the financial markets or overall economy in Japan and globally may not improve in the near term. In fact, business conditions in Japan and globally could become even more challenging than we currently anticipate and as a result, our actual Japanese GAAP results for the current fiscal year may be lower than our current financial forecasts. See Cautionary Statement Concerning Forward-Looking Statements. Although we periodically issue forecasts of our Japanese GAAP financial results, they are made in order to comply with the Tokyo Stock Exchange requirements based on various assumptions and estimates, and investors should not place any reliance on them.

## **Strategic Global Alliance with Morgan Stanley**

On October 13, 2008, we acquired approximately \$7,839.2 million of perpetual non-cumulative convertible preferred stock without voting rights and approximately \$1,160.8 million of perpetual non-cumulative non-convertible preferred stock without voting rights issued by Morgan Stanley. The acquisition was made pursuant to an agreement with Morgan Stanley to enter into a strategic capital alliance originally executed on September 29, 2008, and subsequently modified on October 3, October 8 and October 13, 2008.

The acquired shares of the convertible preferred stock are convertible to 310,464,033 shares of common stock (at a conversion price of US\$25.25 per share). One half of the convertible preferred stock will be converted to common stock one year after our investment, subject to approval by shareholders, if the price of Morgan Stanley's common stock exceeds \$37.875 for 20 or more days out of 30 consecutive trading days. The remainder of the convertible preferred stock will be converted to common stock two years after our investment, subject to approval by shareholders, if the same conditions are satisfied. The non-convertible preferred stock is redeemable at Morgan Stanley's option on or after three years of our investment for an aggregate redemption price of approximately \$1,276.9 million. The shares of the convertible and non-convertible preferred stock have a fixed annual dividend of 10%. The convertible shares provided us with an aggregate of approximately 21% of the voting rights of Morgan Stanley on a fully diluted basis at the time of our acquisition. The conversion terms contained in the convertible preferred stock are subject to the approval of Morgan Stanley's shareholders. If Morgan Stanley fails to obtain the required shareholder approval by February 17, 2009, the annual dividend rate on the convertible preferred stock will increase from 10% to 13% until Morgan Stanley receives shareholder approval.

We have the right to maintain a 20% investment ratio in Morgan Stanley on a fully diluted basis and, as long as we hold an investment ratio of 10% or more in Morgan Stanley on a fully diluted basis, we have the right to appoint one director and one observer to its board. Beginning one year after our investment, we also have the right to demand that Morgan Stanley register, under the Securities Act of 1933, the shares of common stock issued or issuable by Morgan Stanley that we request to be so registered on up to five occasions, subject to certain conditions.

Through our capital alliance with Morgan Stanley, we plan to pursue a global strategic alliance in corporate and investment banking, retail, investment management and other businesses. In order to maximize the effectiveness of the alliance, we and Morgan Stanley are targeting to establish a concrete strategy by June 30, 2009. We have formed a steering committee among senior executives of MUFG and Morgan Stanley and have begun preliminary discussions regarding the alliance.

In a separate transaction, on October 28, 2008, the U.S. Department of the Treasury purchased for an aggregate purchase price of \$10,000,000,000, (1) 10,000,000 shares of fixed rate cumulative perpetual preferred stock, and (2) a warrant to purchase up to 65,245,759 shares

of common stock, of Morgan Stanley. The purchase

was made under the TARP Capital Purchase Program, announced on October 14, 2008, through which the Treasury Department will invest in various U.S. financial institutions. As a result of this purchase, our investment ratio in Morgan Stanley decreased to approximately 20% on a fully diluted basis.

### **Completion of Tender Offer and Merger to Acquire All the Outstanding Shares of UNBC**

On September 26, 2008, we and BTMU completed a cash tender offer for approximately \$3.5 billion to purchase all of the outstanding shares of UNBC that we and our affiliates did not already own. As of the close of the offer, shares representing approximately 33.6% of the outstanding shares of UNBC had been validly tendered or guaranteed to be delivered. When added to our and our affiliates' 64.4% stake at the time, the amount represented approximately 98.0% of UNBC's total outstanding shares. All shareholders who tendered shares were paid \$73.50 per share in cash. In accordance with the merger agreement between BTMU and UNBC announced on August 18, 2008, BTMU and UNBC carried out, on November 5, 2008, a second-step merger as a result of which UNBC became a wholly owned subsidiary of us and each remaining share of UNBC common stock not purchased in the tender offer was converted, subject to appraisal rights, into the right to receive \$73.50 per share in cash.

UNBC is a San Francisco-based bank holding company, and its primary subsidiary is Union Bank of California, N.A. (UBOC). UBOC provides a comprehensive array of personal and commercial financial products and services to individuals, businesses and government agencies. As of June 30, 2008, UBOC had 337 banking offices in California, Oregon and Washington and two international offices.

### **Completion of Tender Offer to Acquire Additional Shares of ACOM Co., Ltd.**

On October 21, 2008, we completed a tender offer and acquired, for ¥4,000 per share in cash, 38,140,009 shares of common stock of ACOM, an equity method investee engaged in the consumer loan business in which we held approximately 15% of the voting rights. As a result, we increased our voting rights to approximately 40%, and intend to make ACOM a consolidated subsidiary under Japanese GAAP.

The acquisition of additional shares of ACOM complements our related efforts to increase the competitiveness of our consumer finance operations, which include a business and capital alliance among JACCS Co., Ltd., BTMU and Mitsubishi UFJ NICOS centering on credit card related operations, installment credit sales, settlement operations and housing loan related operations. In connection with the alliance, Mitsubishi UFJ NICOS transferred its installment credit sales and other businesses to JACCS in April 2008, and BTMU increased its stake in JACCS to approximately 20% of the voting rights in March 2008.

### **Permission to Operate as Financial Holding Companies in the United States**

We, BTMU, MUTB and UNBC have received notification from the Board of Governors of the U.S. Federal Reserve System that our elections to become financial holding companies under the U.S. Bank Holding Company Act became effective as of October 6, 2008. This change in status means that we are able to engage in a broader range of financial activities without prior regulatory approval. More specifically, we will be able to engage in financial activities such as a full range of securities and insurance businesses, as well as merchant banking activities.

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

Under our financial holding company status, we are also subject to additional regulatory requirements. For example, each of our banking subsidiaries with operations in the United States must be well capitalized, meaning a Tier 1 risk-based capital ratio of at least 6% and a total risk-based capital ratio of at least 10%. Our U.S. banking operations must also be well managed, including that they maintain examination ratings that are at least satisfactory. Failure to comply with such requirements would require us to prepare a remediation plan and we would not be able to undertake new business activities or acquisitions based on our status as a financial holding company during any period of noncompliance.

### **Strategic Business and Capital Alliance between Mitsubishi UFJ Trust and Banking Corporation, or MUTB, and Aberdeen Asset Management**

On October 2, 2008, MUTB and Aberdeen entered into a strategic business and capital alliance. Aberdeen is an asset management company based in Scotland and manages a wide range of investment products, including emerging market equities, global equities, and global fixed income. Under the business alliance, MUTB has an exclusive right to access Aberdeen's services on behalf of domestic institutional investors, such as pension funds, in Japan. We believe the alliance will enable MUTB to meet its clients' demands for global investment products.

As part of the capital alliance, MUTB initially acquired 9.9% of Aberdeen's issued share capital for approximately ¥20 billion on October 2, 2008. Subject to receiving the required regulatory approvals, MUTB intends to increase its holdings but not to a level that exceeds 19.9%. MUTB may appoint a representative as a non-executive director to the board of Aberdeen if MUTB's holding reaches 15% or more of Aberdeen's issued share capital. MUTB has agreed that, until April 2, 2010, it will not raise its holding in Aberdeen's shares beyond 19.9%, subject to some exceptions.

MUTB and Aberdeen plan to continue to work towards further strengthening of their strategic alliance by collaborating in marketing and product development.

### **Issuance of Preferred Shares in Japan**

In order to further strengthen our financial base for our group's future growth, on November 17, 2008, we issued and sold 156,000,000 shares of non-convertible preferred stock, First Series Class 5 Preferred Stock, through a third-party allotment to Japanese institutional investors. A dividend of ¥43 per share of preferred stock will be paid for the fiscal year ending March 31, 2009 and, thereafter, a dividend of ¥115 per share of preferred stock will be paid annually, subject to certain conditions, in priority to the common shares. We received approximately ¥389.9 billion in net cash proceeds from the third-party allotment. We plan to use the net proceeds from the issuance and sale of the preferred shares to invest in our consolidated subsidiaries.

Morgan Stanley & Co. Incorporated, J.P. Morgan Securities Inc. and Nomura Securities International, Inc. are joint bookrunners of the U.S. offering. As joint bookrunners on behalf of the U.S. underwriting syndicate, Morgan Stanley & Co. Incorporated, J.P. Morgan Securities Inc. and Nomura Securities International, Inc. will be responsible for recording a list of potential investors that have expressed an interest in purchasing the shares or ADSs as part of this offering. You may contact the representatives of the U.S. underwriters for information on how to purchase the shares or ADSs in this offering. You may contact Morgan Stanley & Co. Incorporated at 1585 Broadway, New York, NY 10036, J.P. Morgan Securities Inc. at 277 Park Avenue, New York, NY 10172 and Nomura Securities International, Inc. at 2 World Financial Center, Building B, New York, NY 10281.

Mitsubishi UFJ Securities (USA), Inc. will act as a selling agent in the U.S. offering.

The U.S. underwriters may elect to take delivery of all or a portion of the shares purchased in the form of ADSs. The U.S. underwriters are offering the ADSs and shares subject to their acceptance of the ADSs and shares from us and subject to prior sale. The U.S. underwriting agreement provides that the obligations of the several U.S. underwriters to pay for and accept delivery of the ADSs and shares offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The U.S. underwriters are obligated to take and pay for all of the ADSs and shares offered by this prospectus, if any such ADSs or shares are taken. If a U.S. underwriter defaults, the U.S. underwriting agreement provides that the underwriting commitments of the non-defaulting U.S. underwriters may be increased or the U.S. underwriting agreement may be terminated.

We have also entered into an international underwriting agreement with certain international underwriters. The international underwriting agreement provides for the concurrent offering and sale by us outside the United States, Japan and Canada of an aggregate of \_\_\_\_\_ shares of common stock, a portion of which may be represented by ADSs. Morgan Stanley & Co. International plc, J.P. Morgan Securities Ltd. and Nomura

## **Table of Contents**

International plc are joint bookrunners of the international offering. Further, we have entered into a Japanese underwriting agreement with certain Japanese underwriters. The Japanese underwriting agreement provides for the concurrent offering and sale by us in Japan of an aggregate of \_\_\_\_\_ shares of common stock. Mitsubishi UFJ Securities Co., Ltd. and Nomura Securities Co., Ltd. are the representatives of the Japanese offering. The closing for the sale of shares in the U.S. offering is conditioned upon the closing of the international offering and the Japanese offering, and the closing for the sale of shares in the international offering is conditioned upon the closing of the U.S. offering and the Japanese offering. The closing for the sale of the shares in the Japanese offering, however, is not conditioned upon the closing of the U.S. offering or the international offering. If the sale of shares in the Japanese offering does not close, the sale of the shares in the other offerings will not close unless the global coordinators elect to waive the respective closing conditions.

We have granted the U.S. underwriters and the international underwriters options, exercisable by \_\_\_\_\_, 2008, to purchase up to an additional \_\_\_\_\_ shares and \_\_\_\_\_ shares, respectively, of our common stock, in the form of shares or ADSs, at the public offering price set forth on the cover page of this prospectus, less underwriting discounts and commissions, solely for the purpose of covering any over-allotments made in connection with the U.S. and international offerings. If any shares or ADSs are purchased by the U.S. underwriters pursuant to their options, the U.S. underwriters will severally purchase shares or ADSs in approximately the same proportions set forth in the preceding table. In addition, in connection with the Japanese offering, we have granted Nomura Securities Co., Ltd. an option, exercisable on January 13, 2009, to purchase up to an additional \_\_\_\_\_ shares of our common stock. In connection with the Japanese offering, Nomura Securities Co., Ltd. will enter into share borrowing arrangements to cover over-allotments.

## **Intersyndicate Agreement**

The U.S. underwriters, the international underwriters and the Japanese underwriters have entered into an intersyndicate agreement that provides for the coordination of their activities. Under the intersyndicate agreement, the U.S. underwriters, the international underwriters and the Japanese underwriters have agreed that the Japanese underwriters may sell a limited number of shares to the U.S. underwriters and the international underwriters for re-sale by the U.S. underwriters in the U.S. offering and the international underwriters in the international offering. The U.S. underwriters and the international underwriters may also transfer or sell shares between their respective syndicates. To the extent there are transfers or sales of shares between the three underwriting groups under the intersyndicate agreement, the number of shares or ADSs initially available for sale in the U.S. offering may be greater or less than the number of shares described on the cover page of this prospectus as being offered in the U.S. offering.

Pursuant to the intersyndicate agreement, as part of the distribution of our shares in the global offering and subject to certain exceptions, the U.S. underwriters, the international underwriters and the Japanese underwriters have agreed that (1) the U.S. underwriters will neither purchase, directly or indirectly, any shares offered in the global offering for the account of any person other than a United States or Canadian person, nor offer or sell, directly or indirectly, any shares or ADSs offered in the global offering or distribute any prospectus relating to such shares outside the United States or Canada or to any person or entity other than a United States or Canadian person, (2) the international underwriters will neither purchase, directly or indirectly, any shares offered in the global offering for the account of any United States, Canadian or Japanese person, nor offer or sell, directly or indirectly, any shares or ADSs offered in the global offering or distribute any prospectus relating to such shares in the United States, Canada or Japan or to any United States, Canadian or Japanese person, and (3) the Japanese underwriters will neither purchase, directly or indirectly, any shares offered in the global offering for the account of any person or entity other than a Japanese person, nor offer or sell, directly or indirectly, any such shares or distribute any prospectus relating to such shares outside Japan or to any person or entity other than a Japanese person.

**Table of Contents****Commissions and Discounts**

The U.S. representatives have advised us that the U.S. underwriters initially propose to offer part of the ADSs and shares directly to the public, subject to the limitations below, at the public offering prices listed on the cover page of this prospectus and part to certain dealers at prices that represent a selling concession not in excess of \$            per ADS and ¥            per share. After the initial offering of the ADSs and shares, the offering prices and other selling terms may from time to time be varied by the U.S. representatives.

The purchase price for shares offered by this prospectus and in the international and Japanese offerings, as well as the commission we must pay on each share, will be the same.

The following table shows the public offering price, underwriting discounts and commissions and proceeds to us for the U.S. offering, each on a per ADS and total basis and on a per share and total basis. The figures in the U.S. dollar Total column assume that all shares to be sold in the U.S. offering will be sold in the form of ADSs, while the figures in the Japanese yen Total column assume that none of the shares to be sold in the U.S. offering will be sold in the form of ADSs.

	Per ADS	Total	Per Share	Total
Public offering price	\$	\$	¥	¥
Underwriting discounts and commissions	\$	\$	¥	¥
Proceeds, before expenses, to us	\$	\$	¥	¥

We will receive the proceeds from the U.S. underwriters in Japanese yen regardless of whether the shares are sold in the form of ADSs or shares although the U.S. underwriters may receive payment in dollars.

The U.S. underwriting discount consists of the difference between the amounts paid by the U.S. underwriters to purchase the ADSs and shares from us and the offering price of the ADSs and shares to the public. The U.S. underwriting discounts and commissions are        % of the total gross amount of the U.S. offering.

We estimate that the total expenses of the U.S. offering, excluding U.S. underwriting discounts and commissions, will be approximately \$8,091,540. The expenses are payable by us and consist of the following:

a U.S. Securities and Exchange Commission registration fee of \$59,540;

a FINRA filing fee of \$76,000;

a New York Stock Exchange listing fee of \$36,000;

stamp and registration taxes of \$5,002,000;

estimated printing expenses of \$48,000;

estimated legal fees and expenses of \$441,000;

estimated accounting fees and expenses of \$280,000;

reimbursement of travel, advertising and other expenses of \$160,000; and

estimated other expenses of \$1,989,000.

### **No Sale of Similar Securities**

We have agreed that, without the prior written consent of the global coordinators, we will not, and will not permit any of our consolidated subsidiaries under Japanese GAAP or any person acting on our or their behalf, to, during the period ending 180 days after the date of this prospectus:

offer, pledge, issue, announce the intention to sell, sell, contract to sell any shares or ADSs,

sell any option or contract to purchase any shares or ADSs,

purchase any option or contract to sell any shares or ADSs,

### **Stock Exchange Listings**

Our common stock is listed on the First Section of the Tokyo Stock Exchange, the Osaka Securities Exchange and the Nagoya Stock Exchange in Japan. ADSs representing our common stock are listed on the New York Stock Exchange under the symbol MTU .

### **Price Stabilization and Short Positions**

Until the distribution of the shares and ADSs in the U.S. offering is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our shares and ADSs. However, the representatives of the U.S. underwriters and the international underwriters, or any person acting for them, on behalf of the U.S. underwriters or the international underwriters, may engage in transactions that stabilize the price of the shares and ADSs, such as bids or purchases to peg, fix or maintain that price.

If the U.S. underwriters or the international underwriters create a short position in the shares or ADSs in connection with the U.S. offering or the international offering, i.e., if they sell more shares or ADSs than are listed on the cover of this prospectus, the representatives of the U.S. underwriters or the international underwriters, as the case may be, may reduce that short position by bidding for or purchasing shares or ADSs in the open market. Purchases of the shares or ADSs to stabilize their prices or to reduce a short position may have the effect of raising or maintaining the market price of our shares and ADSs or preventing or retarding a decline in the market price of our shares and ADSs. As a result, the price of our shares and ADSs may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the U.S. underwriters or the international underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the shares and ADSs. In addition, neither we nor any of the U.S. underwriters or the international underwriters makes any representation that the representatives of the U.S. underwriters or the international underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice. These transactions may be effected on the New York Stock Exchange or otherwise in the United States.

In addition to stabilization and short position transactions of the U.S. underwriters and the international underwriters described above in connection with the U.S. and international offerings, Nomura Securities Co., Ltd., on behalf of the Japanese underwriters, may engage in transactions in connection with the Japanese offering that maintain a stabilizing bid on the Tokyo Stock Exchange, the Osaka Securities Exchange and the Nagoya Stock Exchange, at a higher level than that which might otherwise prevail for a limited period after the date of this prospectus in accordance with applicable laws and regulations. Any such stabilization transactions in connection with the Japanese offering will be conducted by and through Nomura Securities Co., Ltd. in consultation with Mitsubishi UFJ Securities Co., Ltd., Morgan Stanley Japan Securities Co., Ltd. and JPMorgan Securities Japan Co., Ltd., and in compliance with all applicable laws. Nomura Securities Co., Ltd. may also purchase in the open market to reduce any syndicate short position created by over-allotment sales in lieu of exercising all or part of the over-allotment option in consultation with Mitsubishi UFJ Securities Co., Ltd. and in compliance with all applicable laws. Nomura Securities Co., Ltd. is not required to engage in these activities and may end any of these activities at any time. Such transactions may have the effect of raising or maintaining the market price of our shares or preventing or retarding a decline in the market price of our shares. As a result, the price of our shares may be higher than the price that might otherwise exist in the open market.

### **Stamp Taxes and Other Charges**

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

**LIMITATIONS ON ENFORCEMENT OF U.S. LAWS**

MUFG is a joint stock company incorporated in Japan. All of our directors and executive officers, and certain experts named in this prospectus, are residents of countries other than the United States. As a result, you should note that it may be difficult or impossible to serve legal process on us or our directors and executive officers, or to force us or them to appear in a U.S. court. Our legal counsel in Japan, Nagashima Ohno & Tsunematsu, has advised us that there is doubt as to the enforceability in Japan, in original actions or in actions to enforce judgments of U.S. courts, of civil liabilities based solely on U.S. securities laws. A Japanese court may refuse to allow an original action based on U.S. securities laws.

Our legal counsel has further advised that the United States and Japan do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, if you obtain a civil judgment by a U.S. court, you will not necessarily be able to enforce it in Japan.

The agent for service of process for MUFG is Mitsubishi UFJ Financial Group, Inc., Corporate Governance Division for the United States, 1251 Avenue of the Americas, New York, New York 10020-1104, Attention: Robert E. Hand, Esq., General Counsel.

### **Explanation of Differences between U.S. GAAP and Japanese GAAP**

Major factors which explain the differences shown in the above table are as follows:

#### **1. Investment securities**

The cost basis of certain securities is different under Japanese GAAP and U.S. GAAP due primarily to the following:

On October 1, 2005, Mitsubishi Tokyo Financial Group, Inc. ( MTFG ) merged with UFJ Holdings, Inc. ( UFJ Holdings ), with MTFG being the surviving entity, and was renamed Mitsubishi UFJ Financial Group, Inc. Under U.S. GAAP, in accordance with Statements of Financial Accounting Standards, or SFAS, No. 141, Business Combinations ( SFAS No. 141 ), the assets and liabilities of companies acquired in purchase transactions are recorded at fair value at the date of acquisition. Therefore, the new cost basis of investment securities, including available-for-sale and other investment securities, of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. Under Japanese GAAP, the new cost basis was not established for certain investment securities and they were carried over at their historical cost basis.

Certain wash sales accounted for as sales under Japanese GAAP did not meet sale accounting criteria under U.S. GAAP. Although such wash sales often resulted in gains under Japanese GAAP, those gains were not recorded under U.S. GAAP and as a result, the cost basis of such investments tended to be lower under U.S. GAAP.

U.S. GAAP requires declines in the fair value of securities below their cost basis that are deemed to be other-than-temporary to be recorded in earnings as impairment losses. In determining whether a decline in fair value is other-than-temporary, in addition to the ability and positive intent to hold the investments for a period sufficient to allow for any anticipated recovery in fair value, factors such as the extent of decline in fair value below cost and the length of time that the decline has continued are considered. If a decline in fair value exceeds 20% or a decline in fair value has continued for six months or more, such decline is generally deemed as other-than-temporary. The financial condition and near-term prospects of issuers are also considered, primarily based on the credit standing of the issuers as determined by the credit rating system. These are more strict criteria than Japanese GAAP, although recognition of impairment losses of investment securities is also required under Japanese GAAP when a decline in the market value below the cost is substantial, based on the extent of decline in market value and the credit standing of the issuers.

Exchanges of investments as part of business combinations have been accounted for at cost under Japanese GAAP, while U.S. GAAP requires accounting for the transactions at fair value when investments in acquired companies are exchanged for surviving companies in accordance with Emergency Issues Task Force, or EITF, 91-5, Nonmonetary Exchange of Cost-Method Investments.

In addition, changes in the fair value of available-for-sale debt securities denominated in foreign currency due to changes in foreign exchange rates are recognized as profits or losses under Japanese GAAP, while they are included in other changes in equity from nonowner sources under U.S. GAAP in accordance with EITF 96-15, Accounting for the Effects of Changes in Foreign Currency Exchange Rates on Foreign-Currency-Denominated Available-for-Sale Debt Securities.

#### **2. Loans**

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of loans of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. Under Japanese GAAP, the new cost basis was not established and they were recorded at their historical cost basis.

In addition, under U.S. GAAP, loan origination fees, net of certain direct origination costs, are deferred and recognized over the contractual life of the loans, while under Japanese GAAP, they are primarily expensed at the time of origination.

A-2

## **Table of Contents**

Further, certain transfers of loans accounted for as sales under Japanese GAAP were not accounted for as sales under U.S. GAAP in accordance with SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, a replacement of FASB Statement No. 125, which requires more strict criteria for a transfer of loans to qualify as a sale.

### **3. Allowance for credit losses**

Under U.S. GAAP, the credit loss allowance for impaired loans is calculated primarily based on the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's observable market price, or the fair value of the collateral if the loan is collateral dependent, in accordance with SFAS No. 114, Accounting by Creditors for Impairment of a Loan. Under Japanese GAAP, an allowance is provided for certain types of impaired loans based on historical loss experience for borrowers with equivalent credit quality on a group basis. This difference between U.S. GAAP and Japanese GAAP generally results in a larger amount of allowance for credit losses under U.S. GAAP.

In addition, under U.S. GAAP, any subsequent increases in the expected cash flows from purchased impaired loans from UFJ Holdings were not accounted for as reversals of the allowance for credit losses but rather as adjustments to accretable yields under AICPA Statement of Position (SOP) 03-3, Accounting for Certain Loans or Debt Securities Acquired in a Transfer. Under Japanese GAAP, reversals of the allowance for credit losses on such loans are credited directly to income.

### **4. Fixed assets**

The differences between Japanese GAAP and U.S. GAAP principally consist of (1) Premises and equipment, (2) Real estate sale and lease back, and (3) Land revaluation.

#### ***(1) Premises and equipment***

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of premises and equipment of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. As part of the new cost basis, depreciation of premises and equipment were adjusted over the remaining useful lives. Under Japanese GAAP, the new cost basis was not established for certain items and they were recorded at their historical cost basis.

In addition, under U.S. GAAP, the cost of a nonmonetary asset acquired in exchange for another nonmonetary asset is booked at the fair value of the asset surrendered or that of the asset received, and a gain or loss is recognized on the exchange, unless the exchange is not essentially the culmination of an earning process in accordance with All Points Bulletin, or APB, No. 29, Accounting for Nonmonetary Transactions. Under Japanese GAAP, the cost of the asset surrendered is assigned to the newly acquired asset in certain types of exchange transactions, resulting in no gain or loss on the nonmonetary exchange.

Further, under U.S. GAAP, in accordance with SFAS No. 143, Accounting for Asset Retirement Obligations, the present value of expected retirement obligations associated with the restoration of certain leased fixed assets to their original condition and the associated increase in asset

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

retirement costs are recorded as a liability and leasehold improvements respectively in the period in which the obligation is incurred and a reasonable estimate can be made. Under Japanese GAAP, diverse accounting practices have developed for obligations associated with the retirement of tangible long-lived assets. MUFG accounts for such obligations at the time management makes a decision to dismantle or dispose of an asset.

### *(2) Real estate sale and leaseback*

In March 1999, The Bank of Tokyo-Mitsubishi, Ltd. ( Bank of Tokyo-Mitsubishi ) transferred a 50% undivided interest in its head office land and building and in its main office land and buildings to a third-party

A-3

## **Table of Contents**

real estate company and, at the same time, entered into an agreement to lease back a portion of the transferred buildings from the buyer over a period of seven years. In August 2005, Bank of Tokyo-Mitsubishi bought back the 50% undivided interest in these office buildings and land. Also, BTMU entered into sales agreements to sell its buildings and land and, under separate agreements, leased those properties back for their business operations, including bank branches.

BTMU either provided nonrecourse financings to the buyers for the sales proceeds or held the equities of the buyers. This series of transactions has been accounted for as a sale and an operating lease under Japanese GAAP, while it has been accounted for as financing arrangements under U.S. GAAP in accordance with EITF D-24, Sale-Leaseback Transactions with Continuing Involvement and/or SFAS No. 98, Accounting for Leases: Sale-Leaseback Transactions Involving Real Estate, Sales-Type Leases of Real Estate, Definition of the Lease Term, and Initial Direct Costs of Direct Financing Leases, with sales proceeds recognized as a financing obligation since BTMU was considered to have continuing involvement with the properties. The properties were reported on the consolidated balance sheet and depreciated.

### ***(3) Land revaluation***

Under Japanese GAAP, land used for business operations of domestic subsidiaries was revalued as of March 31, 1998 for Bank of Tokyo-Mitsubishi, as of March 31, 2002 for The Mitsubishi Trust and Banking Corporation and as of December 31, 2001 for other domestic subsidiaries of MTFG with the corresponding impact recorded directly in equity as well as related deferred tax assets/liabilities, pursuant to the Law concerning Revaluation of Land. U.S. GAAP does not allow revaluation of operating assets and requires land to be recorded at cost. Accordingly, land held on the revaluation dates are recorded at different values.

### **5. Pension liability**

Under U.S. GAAP, in accordance with SFAS 158, the funded status of defined benefit plans are recognized as assets or liabilities in a consolidated balance sheet and changes in the funded status are recognized through comprehensive income.

Further, net periodic costs, including amortization of unrecognized net obligation at transition and amortization of net actuarial gain or loss, are accounted for differently mainly due to the differences in the adoption dates of the applicable accounting standards and amortization periods.

### **6. Non-interest-earning deposits made under government-led restructuring program**

MUFG made non-interest-earning deposits with funds which were established under a government-led restructuring program for the loans of seven failed housing loan companies in the fiscal year ended March 31, 1997. Under U.S. GAAP, these deposits were discounted to present value at the time of deposit, and subsequently have been accreted with the recognition of the corresponding interest income during the period through the expected maturity date. Under Japanese GAAP, these deposits were booked at amounts of funding without discounting.

### **7. Derivative financial instruments and hedging activities**

MUFG utilizes derivatives to manage its exposures to fluctuations in market factors such as interest rates and foreign exchange rates arising from mismatches in the risk profiles of assets and liabilities. Under U.S. GAAP, most derivatives used by MUFG are accounted for as trading assets or liabilities because they do not qualify for hedge accounting under the criteria prescribed in SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. Japanese GAAP permits hedge accounting for certain derivative hedging activities, including portfolio hedges, using less restrictive hedging criteria.

A-4

## **Table of Contents**

In addition, bifurcation requirements are different between U.S. GAAP and Japanese GAAP. Certain embedded derivatives deemed as clearly and closely related to the host contracts under U.S. GAAP are bifurcated from their host contracts under Japanese GAAP when such embedded derivatives are processed separately from the host contracts for internal management purposes.

Further, under U.S. GAAP, net unrealized gains at the inception of derivatives are deferred when the fair values of such derivatives are not based on quoted market prices or assumptions observable in markets in accordance with EITF 02-3, *Issues Involved in Accounting for Derivative Contracts Held for Trading Purposes and Contracts Involved in Energy Trading and Risk Management Activities*. Accordingly, under U.S. GAAP, gains and losses from such contracts are recognized at a later date as compared with Japanese GAAP.

### **8. Compensated absences**

Under U.S. GAAP, in accordance with SFAS No. 43, *Accounting for Compensated Absences*, an employer is required to accrue a liability for employees' rights to receive compensation for future absences such as unused vacations and holidays when certain conditions are met (for example, unexpired vacation benefits that employees have earned but have not yet taken). Under Japanese GAAP, employers are not required to recognize liabilities for such short-term employee benefits.

### **9. Deposits**

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of deposits of UFJ Holdings was established and they were recognized at fair value as of October 1, 2005. Under Japanese GAAP, the new cost basis was not established and they were recorded at their historical cost basis.

### **10. Long-term debt**

Under U.S. GAAP, in accordance with SFAS No. 141, the new cost basis of long-term debt of UFJ Holdings was established and it was recognized at fair value as of October 1, 2005. As part of the new cost basis, amortization of premiums and discounts of the long-term debt are adjusted over the remaining contractual maturity. Under Japanese GAAP, the new cost basis was not established and the long-term debt recorded at its historical cost basis.

### **11. Consolidation**

The scope of consolidation is different under U.S. GAAP and Japanese GAAP primarily because, under U.S. GAAP, the primary beneficiary must consolidate variable interest entities based on variable interests in accordance with FASB Interpretation, or FIN, No. 46(R), *Consolidation of Variable Interest Entities* an interpretation of ARB No. 51, which resulted in additional consolidation of certain variable interest entities. Japanese GAAP does not have a concept of variable interest entities.

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

On the other hand, certain variable interest entities including funding vehicles, which are consolidated under Japanese GAAP due to the majority ownership of the voting rights, are not consolidated under U.S. GAAP because MUFG and its consolidated subsidiaries are not their primary beneficiaries.

**12. Goodwill**

Under U.S. GAAP, in accordance with SFAS No. 141, the share of net assets of companies acquired in purchase transactions are recorded at fair value at the date of acquisition. The share of historical cost basis of individual assets and liabilities is adjusted to reflect their fair value. Goodwill is the difference between the purchase price consideration and the share of fair value of the net assets acquired, including any identified intangible assets. Under SFAS No. 142, "Goodwill and Other Intangible Assets," goodwill is not amortized, but is subject to an annual impairment test at the reporting unit level, and also reviewed more frequently if events or changes in circumstance indicate that the goodwill might be impaired. Under Japanese GAAP, the acquisition of UFJ Holdings has been accounted for by a method similar to pooling-of-interests, and consequently goodwill has not been recognized.

**13. Intangible assets**

## Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form F-3ASR

Under U.S. GAAP, in accordance with SFAS No. 141, all identifiable intangible assets acquired in purchase transactions are recorded at fair value at the date of acquisition. Intangible assets with definite useful lives are amortized over their estimated useful life and reviewed for impairment whenever events or changes in circumstance indicate that their carrying amount may not be recoverable. Intangible assets with indefinite useful lives are tested for impairment at least annually, and also reviewed more frequently if events or changes in circumstance indicate that the assets might be impaired. Under Japanese GAAP, intangible assets have not been recognized in connection with the acquisition of UFJ Holdings.

### **14. Foreign currency translation**

Under U.S. GAAP, foreign currency denominated income and expenses are translated into Japanese yen using average rates of exchange for the fiscal period. Under Japanese GAAP, they are translated at the fiscal year-end foreign exchange rates.

**Minority Interest**

Under U.S. GAAP, the minority interest is included in other liabilities. Under Japanese GAAP, the minority interest is presented as a separate line item of net assets due to changes in relative accounting standards (in relation to the changes, shareholders equity was renamed as net assets )

The reconciliations of minority interest in shareholders equity and net income also include the effects of consolidation and deconsolidation of certain variable interest entities under U.S. GAAP as described in 11. Consolidation above.

**Table of Contents****ANNEX B****EXCERPT FROM PRESS RELEASE OF MUFG, DATED NOVEMBER 18, 2008, ANNOUNCING ITS JAPANESE GAAP RESULTS FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2008**

On November 18, 2008, we published our unaudited interim Japanese GAAP financial results for the six months ended September 30, 2008. Accordingly, we set forth in this Annex B a discussion of certain financial information prepared in accordance with Japanese GAAP. **Japanese GAAP, however, is significantly different in certain respects from accounting principles generally accepted in other countries, including U.S. GAAP. The differences between Japanese GAAP and U.S. GAAP could result in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP.** See Annex A: Unaudited Reverse Reconciliation of Selected Financial Information.

1. MUFG falls under the category of Specified Business Corporation (*Tokutei Jigyō Gaisya*) under Article 17-15-2 of the Cabinet Office Ordinance Concerning Disclosure of Public Companies and accordingly, prepares its interim consolidated financial statements and interim non-consolidated financial statements for the six months ended September 30, 2008.
2. This financial summary report and the accompanying financial highlights contain forward-looking statements regarding estimations, forecasts, targets and plans in relation to the results of operations, financial conditions and other overall management of the company and/or the group as a whole (the forward-looking statements). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimations, forecasts, targets and plans regarding future events, certain assumptions have been made. Accordingly, due to various risks and uncertainties, the statements and assumptions are inherently not guarantees of future performance, may be considered differently from alternative perspectives and may result in material differences from the actual result. For the main factors that may effect the current forecasts, please see Consolidated Summary Report, Annual Securities Report, Disclosure Book, Annual Report, and other current disclosures that the company has announced.
3. The financial information included in this financial summary report is prepared and presented in accordance with accounting principles generally accepted in Japan (Japanese GAAP). Differences exist between Japanese GAAP and the accounting principles generally accepted in the United States (U.S. GAAP) in certain material respects. Such differences have resulted in the past, and are expected to continue to result for this period and future periods, in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP. For example, differences in consolidation basis or accounting for business combinations, including but not limited to amortization and impairment of goodwill, could result in significant differences in our reported financial results between Japanese GAAP and U.S. GAAP. Readers should consult their own professional advisors for an understanding of the differences between Japanese GAAP and U.S. GAAP and how those differences might affect our reported financial results. We will publish our U.S. GAAP financial results in a separate disclosure document when such information becomes available.

**Qualitative Information and Financial Statements**

**1. Qualitative information related to the results of operations**

With respect to the economic and financial environment for the April-September period of fiscal 2008, the economic slowdown in the United States and Europe became evident, as the intensified financial crisis in the United States triggered by the subprime problem spilled over to Europe. The Asian and emerging economies followed a slowing trend, despite some signs of firmness. Meanwhile, concerns on a global inflation persisted due to rising prices of energy and raw materials. In Japan, the economy was underpinned by its exports to emerging countries, but corporate performance remained sluggish, reflecting the economic slowdown in the United States and Europe and rising prices of fuels and raw materials. Private consumption also remained stagnant due to inflation and a weakness in wages. Consumer prices increased their rate of growth due to rising prices of crude oil and food.

In the financial environment, the U.S. federal funds target rate was lowered to 2 percent in response to the subprime problem, and in the Euro zone, the European Central Bank kept its key interest rate unchanged after raising it to 4.25 percent in summer in order to curb inflation. The Bank of Japan left the uncollateralized overnight call rate target intact at 0.5 percent, but upward pressure on Japan's short-term interest rates persisted on the back of the financial market turmoil in the United States and Europe. Long-term interest rates temporarily surged toward the middle of June in reaction to the rapid rise in interest rates in the United States and Europe, but followed a downward trend due to the accelerating flight to quality stemming from the intensified financial crisis in the United States thereafter. In the foreign exchange market, the yen fluctuated in the 100 yen range against the dollar, amid growing concerns over an economic slowdown in the United States and Japan.

Under such business environment, consolidated gross profits for the six months ended September 30, 2008 decreased by 100.3 billion yen from the previous interim period to 1,696.5 billion yen. This was mainly due to a decrease of a fees from derivative transactions and net fees and commissions such as investment trust related businesses, insurance businesses, securities businesses and real estate businesses, even though net interest income remain unchanged. Net business profits before credit costs for trust accounts and provision for general allowance for credit losses for the six months ended September 30, 2008 decreased by 111.6 billion yen from the previous interim period to 623.8 billion yen, because general and administrative expenses increased by 11.2 billion yen due to an increase of expenses relating to systems integration.

In addition, consolidated net income for the six months ended September 30, 2008 was 92.0 billion yen, a decrease of 164.6 billion yen compared with the previous interim period. Because total credit costs increased by 67.4 billion yen compared with the previous interim period due to credit rating changes which reflected a domestic and overseas economic slowdown and deterioration of corporate performance, and net gains (losses) on equity securities decrease by 129.7 billion yen compared with the previous interim period due to an occurrence of losses on write-down of equity securities by 145.2 billion yen.

**2. Qualitative information related to the financial conditions**

Total assets as of September 30, 2008 increased by 1,031.1 billion yen from March 31, 2008 to 194,024.2 billion yen, and total net assets as of September 30, 2008 decreased by 557.1 billion yen from March 31, 2008 to 9,042.6 billion yen. The decrease in total net assets reflected a decrease of total valuation and translation adjustments by 766.6 billion yen, which are mainly due to a decrease of net unrealized gains (losses) on other securities reflecting a deterioration of stock prices in domestic stock markets, even though total shareholder's equity increased by 197.6 billion yen due to a decrease of treasury stock with a share exchange of our stock and a Mitsubishi UFJ NICOS Co., Ltd.'s stock.

With regards to major items of assets, securities as of September 30, 2008 decreased by 2,180.3 billion yen from March 31, 2008 to 38,671.3 billion yen, and loans and bills discounted as of September 30, 2008 increased by 1,906.3 billion yen from March 31, 2008 to 90,445.1 billion yen. With regards to major items of liabilities, deposits as of September 30, 2008 decreased by 1,508.9 billion yen from March 31, 2008 to 119,798.3 billion yen.

MUFG's consolidated risk-adjusted capital ratio based on the Basel 2 Standards as of September 30, 2008 was 10.55 % (Preliminary basis), a decrease of 0.64 percentage points from March 31, 2008.

The following Specified Subsidiary was newly consolidated during the period.

Name	Location	Stated Capital	Primary Business	Ownership
MUFG Capital Finance 7 Limited	Grand Cayman, Cayman Islands	222,000 million yen	Finance	100%

This Specified Subsidiary is an overseas special purpose company established for issuance of non-dilutive preferred securities.

- (2) Changes in accounting policies, procedures and presentation rules applied in the preparation of the interim consolidated financial statements

The Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements (ASBJ PITF No.18, May 17, 2006) is applicable to fiscal years beginning on or after April 1, 2008, and MUFG has adopted this practical solution starting in this fiscal period. The adoption of the practical solution resulted in a 7,218 million yen increase in each of ordinary profits and income before income taxes and others for the six months ended September 30, 2008.

(Additional information)

Net actuarial loss (gain) not recognized as net periodic cost of retirement benefits, which is recorded on the financial statements of foreign subsidiaries under US GAAP in accordance with Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (FASB Statement No.158) and which was previously deducted from net assets and allocated to Other assets or Reserve for retirement benefits in the consolidation process, is recorded separately, net of related tax effects and minority interests portion, as Pension liability adjustments of subsidiaries preparing financial statements under US GAAP, under valuation and translation adjustments in net assets. This change resulted in a 21,136 million yen decrease in Other assets, a 9,620 million yen increase in Reserve for retirement benefits, a 11,814 million yen decrease in Deferred tax assets and a 6,573 million yen decrease in Minority interests.

**The Accounting Standard for Lease Transactions**

Finance leases other than those that were deemed to transfer the ownership of leased property to the lessees have previously been accounted for in a similar manner to operating leases. However, the Accounting Standard for Lease Transactions (ASBJ Statement No.13, March 30, 2007) and the Implementation Guidance on the Accounting Standard for Lease Transactions (ASBJ Guidance No.16, March 30, 2007) became applicable to fiscal years beginning on or after April 1, 2008, and MUFG adopted this accounting standard and practical guideline starting in this fiscal period.

(As lessees)

Domestic consolidated subsidiaries finance leases other than those that are deemed to transfer the ownership of leased property to the lessees, which commenced in fiscal years beginning prior to April 1, 2008, are accounted for in a similar way to operating leases. Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees, which commenced in fiscal years beginning on or after April 1, 2008, are accounted for in a similar way to purchases and depreciation for lease assets is computed under the straight-line method over the lease term with zero residual value unless residual value is guaranteed by the corresponding lease contracts. The adoption of the new standard did not have a material impact on the interim consolidated statement of income.

(As lessors)

Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees are accounted for in a similar way to sales and income and expenses related to such leases are recognized by allocating interest equivalents to applicable fiscal periods instead of recording sales and costs of goods sold. The adoption of the new standard resulted in a 58,083 million yen decrease in Ordinary income (including a 4,266 million yen increase in Interest income and a 62,349 million yen decrease in Other ordinary income), a 58,295 million yen decrease in Ordinary expenses (including a 56,376 million yen decrease in Other ordinary expenses), a 212 million yen increase in Ordinary profits, a 6,107 million yen increase in Extraordinary gains and a 6,319 million yen increase in Income before income taxes and others for the six months ended September 30, 2008.

Net presentation of derivative instruments subject to master netting agreements

Beginning in this fiscal period, MUFG has started to record in its financial statements, on a gross basis, the fair value amounts recognized for derivative instruments executed with the same counterparty as assets and liabilities, which were previously netted out if there was a legally valid master netting agreement between the two parties.

MUFG examined its relevant accounting presentation practice from a viewpoint of best financial disclosure practice relating to credit risk and determined that its financial statements under Japanese GAAP should be prepared without offsetting derivative assets and liabilities because the amounts of cash collateral received or payable for derivative transactions have recently been increasing and, as a result, it is no longer sufficiently reasonable to offset only the fair value amounts recognized as assets and liabilities for derivative instruments.

This change resulted in a 3,336,769 million yen increase in Trading assets , a 3,384,170 million yen increase in Trading liabilities , a 1,141,588 million yen increase in Other assets and a 1,094,188 million yen increase in Other liabilities as of September 30, 2008.

Evaluation of securities

(Additional information)

Floating-rate Japanese government bonds which are included Securities have previously been evaluated based on market values. The domestic consolidated banking subsidiary has examined its accounting treatment for Floating-rate Japanese government bonds in accordance with the

Practical Solution on Measurement of Fair Value of Financial Assets (ASBJ PITF No.25, October 28, 2008) and determined that market values at the end of the interim period cannot be deemed as fair values and evaluates its Floating-rate Japanese government bonds based on reasonably estimated amounts starting in this fiscal period.

This change resulted in a 122,235 million yen increase in Securities , a 41,083 million yen decrease in Deferred tax assets and a 81,152 million yen increase in Net unrealized gains (losses) on other securities .

**(3) Classification Based on Prior Year Operating Results as Provided in the JICPA Audit Committee Report No.66**

Although we recorded taxable income for the six months ended September 30, 2008, we are classified as 4 described above since we have material net operating losses carried forwards. However since we believe the net operating losses carried forwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4.

(Five years future taxable income is estimable.)

[Extraordinary Factors Such as Changes in Laws and Regulations]

Our net operating losses carried forwards were incurred due to, among other things, the followings : (i) we accelerated the final disposition of non performing loans in response to both the Emergency Economic Package , which provided guidance to major banks to remove claims to debtors classified as likely to become bankrupt or below from their balance sheets, and the Program for Financial Revival , which urged major banks to reduce the ratio of non performing loans to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the Law Concerning Restriction, etc. of Banks Shareholdings etc .

**(3) Classification Based on Prior Year Operating Results as Provided in the JICPA Audit Committee Report No.66**

Although we recorded taxable income for the six months ended September 30, 2008, we are classified as 4 described above since we have material net operating losses carried forwards. However since we believe the net operating losses carried forwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4.

(Five years future taxable income is estimable.)

[Extraordinary Factors Such as Changes in Laws and Regulations]

Our net operating losses carried forwards were incurred due to, among other things, the followings : (i) we accelerated the final disposition of non performing loans in response to both the Emergency Economic Package , which provided guidance to major banks to remove claims to debtors classified as likely to become bankrupt or below from their balance sheets, and the Program for Financial Revival , which urged major banks to reduce the ratio of non performing loans to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the Law Concerning Restriction, etc. of Banks Shareholdings etc .

**(4) Collectability of Deferred Tax Assets at September 30, 2008 (Assumptions)**

**(Reference)****1. Exposure to Securitized Products and Related Investments and GSE Related Investments****(1) Exposure to securitized products and related investments**

Our exposure to securitized products and related investments as of September 30, 2008 is outlined below. (Figures are on a managerial basis and rounded off.)

[Balance, net unrealized gains (losses), realized losses]

The balance as of the end of September 2008 decreased to ¥3.12 trillion in total, a decrease of ¥201 billion compared with the balance as of the end of March 2008. This decrease was mainly due to sales and redemptions, and the balance denominated in local currencies decreased at the end of September 2008.

Net unrealized losses were ¥501 billion, and the rate of decline in market value was 16.1%, an increase of 6.5% from the rate at the end of March 2008.

The effect on the P/L for the six months ended September 30, 2008 was a loss of ¥41 billion, mainly due to losses on disposal of residential mortgage-backed securities (RMBS). (The realized losses for the fiscal year ended March 31, 2008 were ¥117 billion.)

[Special Purpose Entities (SPEs)]

We are engaged in sponsoring ABCP issuance for securitizing our clients' assets.

The balance of assets purchased by ABCP conduits (special purpose companies for issuing ABCP) as of the end of September 2008 was ¥4.98 trillion (¥1.74 trillion overseas).

The purchased assets are mainly receivables and they do not include residential mortgages.  
[Monoline insurer related]

There is no credit outstanding or credit derivative transactions with monoline insurers.

**(2) Exposure to GSE related investments**

We hold mortgage-backed securities arranged and guaranteed by Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac) and Government National Mortgage Association (Ginnie Mae), mainly as part of our ALM operation relating to foreign currencies.

Our holding balance of these mortgage-backed securities as of the end of September 2008 was ¥2,838 billion in total, a decrease of ¥302 billion compared with the balance as of the end of June 2008. Net unrealized losses were ¥33 billion, a decrease of ¥18 billion from the losses as of the end of June 2008, and the rate of decline in market value was 1.1%, a decrease of 0.5% from the rate at the end of June 2008.

Our holding balance of debt securities issued by the above three institutions and Federal Home Loan Banks (Agency Securities) as of the end of September 2008 was ¥117 billion, a decrease of ¥70 billion compared with the balance as of the end of June 2008. Net unrealized gains were not significant.

**Item 8. Indemnification of Directors and Officers**

Article 330 of the Company Law of Japan makes the provisions of Section 10, Chapter 2, Book III of the Civil Code applicable to the relationship between the registrant and its directors and corporate auditors. Section 10, which consists of Articles 643 to 656, when so applied to the directors and corporate auditors, among other things, provides in effect that:

- (1) any director or corporate auditor of a company may demand advance payment of expenses which are considered necessary for the management of the affairs of such company entrusted to him;
- (2) if a director or a corporate auditor of a company has defrayed any expenses which are considered necessary for the management of the affairs entrusted to him, he may demand reimbursement therefor together with interest thereon from the company;
- (3) if a director or a corporate auditor has assumed an obligation necessary for the management of the affairs entrusted to him, he may require the company to perform it in his place or, if it is not due, to furnish adequate security; and
- (4) if a director or a corporate auditor, without any fault on his part, sustains damage through the management of the affairs entrusted to him, he may demand compensation therefor from the company.

Under Article 388 of the Company Law, a company may not refuse a demand from a corporate auditor referred to in subparagraphs (1) through (3) above unless the company establishes that the relevant expense or obligations was or is not necessary for the performance of the corporate auditor's duties.

The form of underwriting agreement filed as Exhibit 1.1 to this registration statement provides for indemnification and contribution by the underwriters with respect to certain liabilities of directors, officers and other controlling persons of the registrant.

The registrant has indemnification arrangements with all directors and corporate auditors. Such arrangements cover certain liabilities and litigation expenses, including liabilities under U.S. securities laws, arising from actions taken by such persons in their capacity as directors and corporate auditors, except to the extent that it is finally judicially determined that any such liability resulted from gross negligence or willful conduct of the directors or corporate auditors.

Under the Company Law and the registrant's articles of incorporation, the registrant may exempt, by resolution of the board of directors, its directors and corporate auditors from liabilities to the company arising in connection with their failure to execute their duties, within the limits stipulated by applicable laws and regulations. In addition, the registrant have entered into a liability limitation agreement with each outside director and outside corporate auditor which limits the maximum amount of their liability to the company arising in connection with a failure to

execute their duties to the greater of either ¥10 million or the aggregate sum of the amounts prescribed in paragraph 1 of Article 425 of the Company Law and Article 113 and 114 of the Company Law Enforcement Regulations.

**Item 10. Undertakings**

The undersigned registrant hereby undertakes:

- (1) to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
  - (i) to include any prospectus required by Section 10(a)(3) of the U.S. Securities Act of 1933;
  - (ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;
  - (iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

*provided, however, that:*

the undertakings set forth in paragraphs (1)(i), (1)(ii) and (1)(iii) above do not apply if the registration statement is on Form F-3 and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the U.S. Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

- (2) That, for the purpose of determining any liability under the U.S. Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the U.S. Securities Act of 1933 need not be furnished, *provided*, that MUFG includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (4) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3 a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the U.S. Securities Act of 1933 or Item 8.A. of Form 20-F if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by MUFG pursuant to Section 13 or Section 15(d) of the U.S. Securities Exchange Act of 1934 that are incorporated by reference in this registration statement.

- (5) That, for the purpose of determining liability under the U.S. Securities Act of 1933 to any purchaser:
- (a) Each prospectus filed by the registrants pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

**Table of Contents**

- (b) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the U.S. Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or
  
- (6) That, for the purpose of determining liability of the registrant under the U.S. Securities Act of 1933 to any purchaser in the initial distribution of the securities:

The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the U.S. Securities Act of 1933, each filing of MUFG's annual report pursuant to Section 13(a) or Section 15(d) of the U.S. Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the U.S. Securities Exchange Act of 1934) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered herein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

The undersigned registrant hereby undertakes that:

- (1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

- (2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement

relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

Insofar as indemnification for liabilities arising under the U.S. Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the U.S. Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the U.S. Securities Act of 1933 and will be governed by the final adjudication of such issue.
