MATERIAL CHANGE REPORT

Item 1 Name and Address of Company

Minera Andes Inc.

Suite A, 111 East Magnesium Road

Spokane, Washington

99208

Item 2 Date of Material Change

The material change occurred on December 17 and December 19, 2008.

Item 3 News Release

A News Release was disseminated to CNW Group, CNW News Wire Ltd., Vancouver, British Columbia, on December 19, 2008.

Item 4 Summary of Material Change

Minera Andes Inc. (the Corporation or Minera Andes) announced that following a meeting of the shareholders of Minera Santa Cruz, S.A. (MSC) on December 17, 2008, the shareholders of MSC can expect to receive a cash call of US\$23 million to finance further expansion and development of the San José project. MSC is owned, indirectly, as to 51% by Hochschild Mining plc (Hochschild) and as to 49% by the Corporation. MSC is the registered owner of the San José gold project in Argentina. The Corporation s share of the cash call is approximately US\$11.3 million, payable by mid-February, 2009. Failure by the Corporation to pay this amount when due will likely result in a dilution of the Corporation s interest in MSC below 49%. The Corporation is investigating financing alternatives available to it.

The Corporation received the formal notice for the cash call of US\$23 million on December 19, 2008.

Item 5.1 Full Description of Material Change

At the meeting of the shareholders of MSC on December 17, 2008 the shareholders were advised that a cash call would be made for US\$23 million to finance further expansion and development of the San José project. MSC is owned, indirectly, as to 51% by Hochschild Mining plc (Hochschild) and as to 49% by the Corporation. MSC is the registered owner of the San José gold project in Argentina.

Formal notice of the cash call by MSC to the shareholders of MSC was provided on December 19, 2008. The cash call requires the shareholders of MSC to subscribe for additional shares of MSC. The aggregate number of shares to be subscribed for is

77,418,000 common shares in the capital of MSC (the New Shares). The New Shares will be issued at a price per share of one Peso for an aggregate subscription price of Pesos 77,418,000 (equivalent to US\$23 million) (exchange rate US\$1 equals Peso3.366).

The Corporation's share of the cash call is US\$11,270,000 payable on or before February 17, 2009 by a subscription by the Corporation for 39,483,180 New Shares. If the Corporation does not subscribe for its portion of the New Shares but Hochschild does subscribe for its portion of the New Shares, then the Corporation's interest in MSC will be diluted from 49% to 43%. However, if the Corporation fails to subscribe for its portion of the New Shares then, provided Hochschild subscribed for its portion of the New Shares, Hochschild has the right under Argentinean corporate law and under the joint venture agreement governing the San José project, to also subscribe for the Corporation's portion of New Shares. If the Corporation failed to subscribe for its portion of the New Shares and Hochschild exercised this right, then the Corporation's interest in MSC would be further diluted to 38%.

The Corporation's current cash position is approximately US\$3.3 million. The Corporation is investigating financing alternatives available to it to fund this cash call. There can be no assurance that the Corporation will be able to obtain the funds necessary to pay for its portion of the cash call. There is therefore no assurance that the Corporation's interest in the San José project will not be diluted below 49%.

The cash call by MSC is being made notwithstanding previous assurances by Hochschild that additional cash calls would not be required as the mill and plant are operating and Phase I of the initial expansion has been completed. Further plant expansion costs were therefore expected to be paid from cash flow.
