PART I. FINANCIAL INFORMATION

Item 1. Financial Statements
Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments necessary for the fair presentation of the financial position and results of operations of Saul Centers, Inc. for the interim periods have been included. All such adjustments are of a normal recurring nature. These consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements of Saul Centers, Inc. for the year ended December 31, 2008, which are included in its Annual Report on Form 10-K. The results of operations for interim periods are not necessarily indicative of results to be expected for the year.

Notes to Consolidated Financial Statements (Unaudited)

1. Organization, Formation and Structure

Saul Centers, Inc. (Saul Centers) was incorporated under the Maryland General Corporation Law on June 10, 1993. Saul Centers operates as a real estate investment trust (a REIT) under the Internal Revenue Code of 1986, as amended (the Code). A REIT is required to annually distribute at least 90% of its REIT taxable income (excluding net capital gains) to its stockholders and meet certain organizational and other requirements. Saul Centers has made and intends to continue to make regular quarterly distributions to its stockholders. Saul Centers, together with its wholly owned subsidiaries and the limited partnerships of which Saul Centers or one of its subsidiaries is the sole general partner, are referred to collectively as the Company. B. Francis Saul II serves as Chairman of the Board of Directors and Chief Executive Officer of Saul Centers.

Saul Centers was formed to continue and expand the shopping center business previously owned and conducted by the B.F. Saul Real Estate Investment Trust, the B.F. Saul Company, Chevy Chase Bank, F.S.B. and certain other affiliated entities, each of which, with the exception of Chevy Chase Bank, F.S.B., is currently controlled by B. Francis Saul II and his family members (collectively, The Saul Organization). On August 26, 1993, members of The Saul Organization transferred to Saul Holdings Limited Partnership, a newly formed Maryland limited partnership (the Operating Partnership), and two newly formed subsidiary limited partnerships (the Subsidiary Partnerships), and collectively with the Operating Partnership, the Partnerships, shopping center and office properties, and the management functions related to the transferred properties. Since its formation, the Company has developed and purchased additional properties.

The following table lists the properties acquired and/or developed by the Company since December 31, 2006. All of the following properties are operating shopping centers.

Name of Property	Location	Date of Acquisition/ Development
<i>Acquisitions</i>		
Orchard Park	Dunwoody, GA	2007
Great Falls Shopping Center	Great Falls, VA	2008
BJ's Wholesale Club	Alexandria, VA	2008
Marketplace at Sea Colony	Bethany Beach, DE	2008
<i>Developments</i>		
Lansdowne Town Center	Leesburg, VA	2006/7
Ashland Square Phase I	Manassas, VA	2007
Northrock	Warrenton, VA	2008/9
Westview Village	Frederick, MD	2007/9

As of June 30, 2009, the Company's properties (the Current Portfolio Properties) consisted of 47 operating shopping center properties (the Shopping Centers), five predominantly office operating properties (the Office Properties) and four (non-operating) land or development properties.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

In September 1997, the Company established Saul QRS, Inc., a wholly owned subsidiary of Saul Centers, to facilitate the placement of collateralized mortgage debt. Saul QRS, Inc. was created to succeed to the interest of Saul Centers as the sole general partner of Saul Subsidiary I Limited Partnership. The remaining limited partnership interests in Saul Subsidiary I Limited Partnership and Saul Subsidiary II Limited Partnership are held by the Operating Partnership as the sole limited partner. Through this structure, the Company owns 100% of the Current Portfolio Properties.

2. Summary of Significant Accounting Policies

Nature of Operations

The Company, which conducts all of its activities through its subsidiaries, the Operating Partnership and Subsidiary Partnerships, engages in the ownership, operation, management, leasing, acquisition, renovation, expansion, development and financing of community and neighborhood shopping centers and office properties, primarily in the Washington, DC/Baltimore metropolitan area.

Because the properties are located primarily in the Washington, DC/Baltimore metropolitan area, the Company is subject to a concentration of credit risk related to these properties. A majority of the Shopping Centers are anchored by several major tenants. As of June 30, 2009, thirty-one of the Shopping Centers were anchored by a grocery store and offer primarily day-to-day necessities and services. Only two retail tenants, Giant Food (4.5%), a tenant at eight Shopping Centers and Safeway (3.2%), a tenant at eight Shopping Centers and one office tenant, the United States Government (2.8%), a tenant at six properties, individually accounted for more than 2.5% of the Company's total revenue for the six months ended June 30, 2009.

Principles of Consolidation

The accompanying consolidated financial statements of the Company include the accounts of Saul Centers and its subsidiaries, including the Operating Partnership and Subsidiary Partnerships, which are majority owned by Saul Centers. All significant intercompany balances and transactions have been eliminated in consolidation.

Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments necessary for the fair presentation of the financial position and results of operations of Saul Centers, Inc. for the interim periods have been included. All such adjustments are of a normal recurring nature. These consolidated financial statements and the accompanying notes should be read in conjunction with the audited consolidated financial statements of Saul Centers, Inc. for the year ended December 31, 2008, which are included in its Annual Report on Form 10-K. The results of operations for interim periods are not necessarily indicative of results to be expected for the year.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Real Estate Investment Properties

The Company purchases real estate investment properties from time to time and allocates the purchase price to various components, such as land, buildings, and intangibles related to in-place leases and customer relationships in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations. The purchase price is allocated based on the relative fair value of each component. The fair value of buildings is determined as if the buildings were vacant upon acquisition and subsequently leased at market rental rates. As such, the determination of fair value considers the present value of all cash flows expected to be generated from the property including an initial lease up period. The Company determines the fair value of above and below market intangibles associated with in-place leases by assessing the net effective rent and remaining term of the lease relative to market terms for similar leases at acquisition. In the case of above and below market leases, the Company considers the remaining contractual lease period and renewal periods, taking into consideration the likelihood of the tenant exercising its renewal options. The fair value of a below market lease component is recorded as deferred income and amortized as additional lease revenue over the remaining contractual lease period and any renewal option periods included in the valuation analysis. The fair value of above market lease intangibles is recorded as a deferred asset and is amortized as a reduction of lease revenue over the remaining contractual lease term. The Company determines the fair value of at-market in-place leases considering the cost of acquiring similar leases, the foregone rents associated with the lease-up period and carrying costs associated with the lease-up period. Intangible assets associated with at-market in-place leases are amortized as additional expense over the remaining contractual lease term. To the extent customer relationship intangibles are present in an acquisition, the fair value of the intangibles are amortized over the life of the customer relationship. The Company has never recorded a customer relationship intangible asset.

If there is an event or change in circumstance that indicates an impairment in the value of a real estate investment property, the Company prepares an impairment analysis to assess that the carrying value of the real estate investment property does not exceed its estimated fair value. The Company considers both quantitative and qualitative factors including recurring operating losses, significant decreases in occupancy, and significant adverse changes in legal factors and business climate. If impairment indicators are present the Company performs a comparison of the projected cash flows of the property over its remaining useful life, on an undiscounted basis, to the carrying value of that property. The Company assesses its undiscounted projected cash flows based upon estimated capitalization rates, historic operating results and market conditions that

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

may affect the property. If such carrying value is greater than the undiscounted projected cash flows, the Company would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its then estimated fair market value. The value of any property is sensitive to the actual results of any of the aforementioned estimated factors, either individually or taken as a whole. Should the actual results differ from management's projections, the valuation could be negatively or positively affected. The Company has not recognized an impairment loss on any of its real estate during the six month periods ended June 30, 2009 and 2008, respectively.

Interest, real estate taxes, development-related salary costs and other carrying costs are capitalized on projects under development and construction. Once construction is substantially completed and the assets are placed in service, their rental income, real estate tax expense, property operating expenses (consisting of payroll, repairs and maintenance, utilities, insurance and other property related expenses) and depreciation are included in current operations. Property operating expenses are charged to operations as incurred. Interest expense capitalized totaled approximately \$2,869,000 and approximately \$1,686,000, for the six month periods ended June 30, 2009 and 2008, respectively. In the initial rental operations of development projects, a project is considered substantially complete and available for occupancy upon completion of tenant improvements, but no later than one year from the cessation of major construction activity. Substantially completed portions of a project are accounted for as separate projects.

Depreciation is calculated using the straight-line method and estimated useful lives of 35 to 50 years for base buildings and up to 20 years for certain other improvements that extend the useful lives. In addition, we capitalize leasehold improvements when certain criteria are met, including when we supervise construction and will own the improvement. Tenant improvements are amortized, over the shorter of the lives of the related leases or the useful life of the improvement, using the straight-line method. The depreciation component included in depreciation and amortization expense in the consolidated statements of operations, totaled approximately \$11,767,000 and \$11,629,000, for the six month periods ended June 30, 2009 and 2008, respectively. Repair and maintenance expense, included in property operating expenses for the six month periods ended June 30, 2009 and 2008, was approximately \$4,669,000 and \$4,344,000, respectively.

Deferred Leasing Costs

Certain initial direct costs incurred by the Company in negotiating and consummating a successful lease are capitalized and amortized over the initial base term of the lease. In addition, deferred leasing costs include amounts attributed to in place leases associated with acquisition properties as determined pursuant to the application of SFAS No. 141. These costs are amortized over the remaining initial term of the leases acquired. Collectively, these deferred leasing costs total approximately \$16,427,000 and \$16,901,000, net of accumulated amortization of approximately \$14,800,000 and \$15,196,000, as of June 30, 2009 and December 31, 2008, respectively. Amortization expense, included in depreciation and amortization in the consolidated statements of operations, totaled approximately \$2,357,000 and \$2,303,000, for the six months ended June 30, 2009 and 2008, respectively. Deferred leasing costs consist of commissions paid to third-party leasing agents as well as internal direct costs such as employee compensation and payroll-related fringe benefits directly related to time spent performing

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

leasing-related activities for successful leases. Such activities include evaluating the prospective tenant's financial condition, evaluating and recording guarantees, collateral and other security arrangements, negotiating lease terms, preparing lease documents and closing the transaction. The carrying amount of these costs is written-off to expense if the applicable lease is terminated prior to expiration of the initial lease term.

Construction In Progress

Construction in progress includes preconstruction costs and development costs of active projects. Preconstruction costs associated with these active projects include legal, zoning and permitting costs and other project carrying costs incurred prior to the commencement of construction. Development costs include direct construction costs and indirect costs incurred subsequent to the start of construction such as architectural, engineering, construction management and carrying costs consisting of interest, real estate taxes and insurance. Construction in progress balances as of June 30, 2009 and December 31, 2008 are as follows:

Construction in Progress

<i>(Dollars in thousands)</i>	June 30, 2009	December 31, 2008
Clarendon Center	\$ 72,670	\$ 49,836
Northrock	17,016	21,656
Westview Village	20,170	17,240
Smallwood Village Center		6,290
Boulevard	1,325	2,925
Other	1,067	973
Total	\$ 112,248	\$ 98,920

As of June 30, 2009, 47% of the Boulevard redevelopment's leasable area had been placed in operation (approximately 3,730 square feet of space). The redevelopment costs related to the area in operation have been reclassified to buildings. The costs reported in Construction in Progress above reflect the costs incurred as of June 30, 2009 and December 31, 2008 for the remaining 53% and 100% of the project, respectively. As of June 30, 2009, 54% of the Northrock development's leasable area had been placed in operation (approximately 56,000 square feet of space). The development costs related to the area in operation have been reclassified to land and buildings. The costs reported in Construction in Progress above reflect the costs incurred as of June 30, 2009 and December 31, 2008 for the remaining 46% and 100% of the project, respectively. Also as of June 30, 2009, 6% of the Westview Village development's leasable area had been placed in operation (approximately 6,400 square feet of space). The development costs related to the area in operation have been reclassified to land and buildings. The costs reported in Construction in Progress above reflect the costs incurred as of June 30, 2009 and December 31, 2008 for the remaining 94% and 100% of the project, respectively.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Accounts Receivable, Accrued Income and Allowance for Doubtful Accounts

Accounts receivable primarily represent amounts currently due from tenants in accordance with the terms of the respective leases. Receivables are reviewed monthly and when, in the opinion of management, collection of the entire receivable is doubtful, revenue accrual is discontinued and an allowance for doubtful accounts is established. Accounts receivable in the accompanying financial statements are shown net of an allowance for doubtful accounts of approximately \$1,023,000 and \$914,000, at June 30, 2009 and December 31, 2008, respectively.

In addition to amounts due currently, accounts receivable includes accrued income of approximately \$26,006,000 and \$25,766,000, at June 30, 2009 and December 31, 2008, respectively, representing the cumulative difference between minimum rental income recognized on a straight-line basis and contractual payments due under the terms of respective tenant leases. These amounts are presented after netting allowances of approximately \$34,000 and \$51,000, respectively, for tenants whose rent payment history or financial condition casts doubt upon the tenant's ability to perform under its lease obligations.

Cash and Cash Equivalents

Cash and cash equivalents include short-term investments. Short-term investments are highly liquid investments that are both readily convertible to cash or so near their maturity that they present insignificant risk of changes in value arising from interest rate fluctuations. Short-term investments include money market accounts and other investments which generally mature within three months, measured from the acquisition date. The Company's June 30, 2009 cash balances are held in non-interest bearing accounts, which are fully insured by the Federal Government.

Deferred Debt Costs

Deferred debt costs consist of fees and costs incurred to obtain long-term financing, construction financing and the revolving line of credit. These fees and costs are capitalized and amortized on a straight-line basis over the terms of the respective loans or agreements, which approximates the effective interest method. Deferred debt costs in the accompanying financial statements are shown net of accumulated amortization of approximately \$5,055,000 and \$5,079,000, at June 30, 2009 and December 31, 2008, respectively.

Deferred Income

Deferred income consists of payments received from tenants prior to the time they are earned and recognized by the Company as revenue. These payments include prepayment of the following month's rent, prepayment of real estate taxes when the taxing jurisdiction has a fiscal year differing from the calendar year reimbursements specified in the lease agreement and advance payments by tenants for tenant construction work provided by the Company. In addition, deferred income includes the fair value of a below market lease component associated with acquisition properties as determined pursuant to the application of SFAS No. 141.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Revenue Recognition

Rental and interest income is accrued as earned except when doubt exists as to collectability, in which case the accrual is discontinued. Recognition of rental income commences when control of the space has been given to the tenant. When rental payments due under leases vary from a straight-line basis because of free rent periods or scheduled rent increases, income is recognized on a straight-line basis throughout the initial term of the lease. Expense recoveries represent a portion of property operating expenses billed to tenants, including common area maintenance, real estate taxes and other recoverable costs. Expense recoveries are recognized in the period when the expenses are incurred. Rental income based on a tenant's revenues, known as percentage rent, is accrued when a tenant reports sales that exceed a specified breakpoint, pursuant to the terms of their respective leases.

Income Taxes

The Company made an election to be treated, and intends to continue operating so as to qualify as a REIT under the Code, commencing with its taxable year ended December 31, 1993. A REIT generally will not be subject to federal income taxation, provided that distributions to its stockholders equal or exceed its REIT taxable income and complies with certain other requirements. Therefore, no provision has been made for federal income taxes in the accompanying consolidated financial statements.

Stock-based Employee Compensation, Deferred Compensation and Stock Plan for Directors

Effective January 2003, the Company adopted the fair value method to value and account for employee stock options using the prospective transition method specified under SFAS No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure* and accounts for stock-based compensation according to SFAS No. 123R. The Company had no options eligible for valuation prior to the grant of options in 2003. The fair value of options granted is determined at the time of each award using the Black-Scholes model, a widely used method for valuing stock-based employee compensation, and the following assumptions: (1) Expected Volatility. Expected volatility is determined using the most recent trading history of the Company's common stock (month-end closing prices) corresponding to the average expected term of the options, (2) Average Expected Term. The options are assumed to be outstanding for a term calculated considering prior exercise history, scheduled vesting and the expiration date, (3) Expected Dividend Yield. This rate is a value management determines after considering the Company's current and historic dividend yield rates, the Company's yield in relation to other retail REITs and the Company's market yield at the grant date, and (4) Risk-free Interest Rate. This rate is based upon the market yields of US Treasury obligations with maturities corresponding to the average expected term of the options at the grant date. The Company amortizes the value of options granted, ratably over the vesting period, and includes the amounts as compensation in general and administrative expenses.

The Company established a stock option plan in 1993 (the 1993 Plan) for the purpose of attracting and retaining executive officers and other key personnel. The 1993 Plan provided for grants of options to purchase a specified number of shares of common stock. A total of 400,000 shares were made available under the 1993 Plan. The 1993 Plan authorized the

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Compensation Committee of the Board of Directors to grant options at an exercise price not less than the market value of the common stock on the date the option is granted. Following a May 23, 2003 grant of shares, no additional shares remained for issuance under the 1993 Plan.

At the annual meeting of the Company's stockholders in 2004, the stockholders approved the adoption of the 2004 stock plan (the 2004 Plan) for the purpose of attracting and retaining executive officers, directors and other key personnel. The 2004 Plan, as amended in 2008, provides for grants of options to purchase up to 1,000,000 shares of common stock as well as grants of up to 200,000 shares of common stock to directors. The 2004 Plan authorizes the Compensation Committee of the Board of Directors to grant options at an exercise price which may not be less than the market value of the common stock on the date the option is granted.

Pursuant to the 2004 Plan, the Compensation Committee established a Deferred Compensation Plan for Directors for the benefit of its directors and their beneficiaries. The 2004 Plan replaced the Company's previous Deferred Compensation and Stock Plan for Directors. A director may elect to defer all or part of his or her director's fees and has the option to have the fees paid in cash, in shares of common stock or in a combination of cash and shares of common stock upon termination from the Board. If the director elects to have fees paid in stock, fees earned during a calendar quarter are aggregated and divided by the common stock's closing market price on the first trading day of the following quarter to determine the number of shares to be allocated to the director. As of June 30, 2009, 210,000 shares are currently credited to the directors pursuant to the deferred compensation plans.

The Compensation Committee has also approved an annual award of shares of the Company's common stock as additional compensation to each director serving on the Board of Directors as of the record date for the Annual Meeting of Stockholders. The shares are awarded as of each Annual Meeting of Shareholders, and their issuance may not be deferred. Each director was issued 200 shares, as of the 2009 Annual Meeting of Shareholders. The shares were valued at the closing stock price on the dates the shares were awarded and the total value is included in general and administrative expenses upon grant date.

Noncontrolling Interest

Saul Centers is the sole general partner of the Operating Partnership, owning a 76.7% common interest as of June 30, 2009. Noncontrolling interest in the Operating Partnership is comprised of limited partnership units owned by The Saul Organization. Noncontrolling interest as reflected on the accompanying balance sheets is increased for earnings allocated to limited partnership interests and distributions reinvested in additional units, and is decreased for limited partner distributions. Noncontrolling interest as reflected on the statements of operations represent earnings allocated to limited partnership interests held by the Saul Organization.

Per Share Data

Per share data is calculated in accordance with SFAS No. 128, Earnings Per Share. Per share data for net income (basic and diluted) is computed using weighted average shares of common stock. Convertible limited partnership units and employee stock options are the Company's potentially dilutive securities. For all periods presented, the convertible limited partnership units are non-dilutive. Options granted in 2003 and 2004 are dilutive because the

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

average share price of the Company's common stock exceeds the exercise prices. Options granted 2005-2009 (332,500 options) are excluded because the average price of the Company's common stock was below the exercise prices as of June 30, 2009 and thus are non-dilutive. The treasury stock method was used to measure the effect of the dilution.

Basic and Diluted Shares Outstanding

<i>(In thousands)</i>	Quarter ended June 30,		Six months ended June 30,	
	2009	2008	2009	2008
Weighted average common shares outstanding-Basic	17,882	17,803	17,876	17,785
Effect of dilutive options	35	175	32	176
Weighted average common shares outstanding-Diluted	17,917	17,978	17,908	17,961

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. The reclassifications have no impact on operating results previously reported.

Legal Contingencies

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. Once it has been determined that a loss is probable to occur, the estimated amount of the loss is recorded in the financial statements.

Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interest in Consolidated Financial Statements (SFAS No. 160). SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. SFAS No. 160 establishes consistent accounting and reporting standards for the noncontrolling (or minority) interest in a subsidiary and for the deconsolidation of a subsidiary. The adoption of SFAS No. 160, for all periods presented, on January 1, 2009 resulted in (i) the reclassification of minority interest in the consolidated balance sheets of the Company to noncontrolling interest, a component of permanent equity, (ii) the reclassification of minority interest expense to net income attributable to noncontrolling interest on the consolidated statements of operations, (iii) the inclusion of noncontrolling interest in the statement of stockholders' equity, and (iv) additional disclosures, including noncontrolling interest activity for the quarter and six months ended June 30, 2009 and 2008.

On December 4, 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (SFAS No. 141(R)). SFAS No. 141(R) changes the accounting for business combinations. Under SFAS No. 141(R), an acquiring entity is required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

exceptions. Transaction costs are no longer included in the measurement of the business acquired. Instead, these items are expensed as incurred. SFAS No. 141(R) also includes a substantial number of new disclosure requirements. SFAS No. 141(R) applies prospectively to business combinations occurring during fiscal years beginning on or after December 15, 2008, which for the Company began with the 2009 calendar year. SFAS No. 141(R) will impact the Company's financial statements dependent on the level of acquisition activity in 2009 and beyond.

SFAS No. 107-1 and APB Opinion No. 28-1 requires fair value disclosures for financial instruments that are not reflected in the consolidated balance sheets at fair value. Prior to the issuance of FAS No. 107-1 and APB Opinion No. 28-1, the fair values of those assets and liabilities were only disclosed annually. With the issuance of FAS No. 107-1 and APB Opinion No. 28-1, the Company is now required to disclose this information on a quarterly basis, providing quantitative and qualitative information about fair value estimates for all financial instruments not measured in the consolidated balance sheets at fair value. SFAS No. 107-1 and APB Opinion No. 28-1 were adopted by the Company in the second quarter of 2009. See Footnote No. 10, Fair Value of Financial Instruments for the relevant disclosures.

SFAS No. 165 establishes the accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date, that is, whether that date represents the date the financial statements were issued or were available to be issued. SFAS No. 165 was adopted by the Company in the second quarter of 2009 and the adoption of which did not have a material impact on our financial statements. See Footnote No. 13, Subsequent Events for the related disclosures.

3. Real Estate Acquired

Westview Village

In November 2007, the Company purchased a land parcel in the Westview development on Buckeystown Pike (MD Route 85) in Frederick, Maryland. The purchase price was \$5.0 million. Construction of the building shell was completed in the second quarter of 2009, and the project's initial tenants have opened for business.

Northrock

In January 2008, the Company acquired an undeveloped land parcel in Warrenton, Virginia, located at the southwest corner of the U.S. Route 29/211 and Fletcher Drive intersection. The land purchase price was \$12.5 million. The Company has substantially completed construction of a neighborhood shopping center, and the Harris Teeter supermarket and one pad building tenant have commenced operations.

Great Falls Center

On March 28, 2008, the Company completed the acquisition of the Safeway-anchored Great Falls Center located in Great Falls, Virginia. The center was acquired for a purchase price of \$36.6 million subject to the assumption of a \$10.3 million mortgage loan. As of the date of acquisition, management determined the mortgage loan was fairly valued because the terms of the loan were not materially different from market terms.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

BJ's Wholesale Club

On March 28, 2008, the Company completed the acquisition of the single tenant property anchored by BJ's Wholesale Club, located in Alexandria, Virginia. The property was acquired for a purchase price of \$21.0 million.

Marketplace at Sea Colony

On March 28, 2008, the Company completed the acquisition of Marketplace at Sea Colony, located in Bethany Beach, Delaware. The center was acquired for a purchase price of \$3.0 million.

4. Noncontrolling Interest - Holders of Convertible Limited Partnership Units in the Operating Partnership

The Saul Organization has a 23.3% limited partnership interest, represented by approximately 5,416,000 convertible limited partnership units, in the Operating Partnership, as of June 30, 2009. These convertible limited partnership units are convertible into shares of Saul Centers' common stock, at the option of the unit holder, on a one-for-one basis provided that, in accordance with the Saul Centers, Inc. Articles of Incorporation, the rights may not be exercised at any time that The Saul Organization beneficially owns, directly or indirectly, in the aggregate more than 39.9% of the value of the outstanding common stock and preferred stock of Saul Centers (the "Equity Securities"). As of June 30, 2009, all 5,416,000 units were convertible into shares of Saul Centers common stock.

The impact of The Saul Organization's approximately 23.3% limited partnership interest in the Operating Partnership is reflected as Noncontrolling Interest in the accompanying consolidated financial statements. Fully converted partnership units and diluted weighted average shares outstanding for the quarter ended June 30, 2009 and 2008, were approximately 23,333,000 and 23,394,000, respectively and for the six months ended June 30, 2009 and 2008, were approximately 23,324,000 and 23,377,000, respectively.

Noncontrolling Interest

<i>(In thousands)</i>	Quarter ended June 30,		Six months ended June 30,	
	2009	2008	2009	2008
Beginning balance	\$ 2,664	\$ 4,347	\$ 2,967	\$ 4,745
Income allocation	1,195	1,946	3,004	4,094
Distributions	(2,112)	(2,546)	(4,224)	(5,092)

Notes to Consolidated Financial Statements (Unaudited)

5. Mortgage Notes Payable, Revolving Credit Facility, Interest and Amortization of Deferred Debt Costs

The Company's outstanding debt, including amounts owed under the Company's revolving credit facility, totaled approximately \$621,256,000 at June 30, 2009, of which approximately \$573,527,000 was fixed-rate debt and approximately \$47,729,000 was variable rate debt.

Included in the variable rate debt total was \$15,000,000 outstanding on the Company's \$120,000,000 unsecured revolving credit facility at June 30, 2009. The facility provides working capital and funds for acquisitions, certain developments and redevelopments, has a three-year term expiring on December 19, 2010 and provides for an additional one-year extension at the Company's option, subject to the Company's satisfaction of certain conditions. Letters of credit may be issued under the revolving credit facility. As of June 30, 2009, of the \$120,000,000 available for borrowing, \$15,000,000 was outstanding, approximately \$177,000 was committed for letters of credit, and the resulting balance of approximately \$104,823,000 was available to borrow for working capital, operating property acquisitions or development projects. Interest rate pricing under the facility is primarily determined by operating income from the Company's existing unencumbered properties and to a lesser extent, certain leverage tests. As of June 30, 2009, operating income from the unencumbered properties determined the interest rate for up to \$103,000,000 of the line's available borrowings, with interest expense to be calculated based upon LIBOR plus a spread of 3.65% to 3.90%. The remaining \$17,000,000 of the line's availability is determined based upon the Company's consolidated operating income after debt service. On this portion of the facility, interest accrues at a rate of LIBOR plus a spread of 4.45% to 5.25%, determined by certain leverage tests. The Company may elect to use the 1, 2, 3 or 6 month LIBOR, but in no event shall LIBOR be less than 1.5%.

On April 30, 2009, the Company entered into a Modification Agreement, in effect until August 1, 2009, which reduced the Debt Service Coverage covenant under its revolving credit facility from 1.6x to 1.5x and increased the interest rate from a range of LIBOR plus 1.40% to 1.65%, with no LIBOR floor. The maximum commitment under the revolving credit facility was reduced from \$150,000,000 to \$120,000,000.

Saul Centers is a guarantor of the revolving credit facility, of which the Operating Partnership is the borrower. Saul Centers is also the guarantor of the Northrock construction loan (approximately \$17,256,000 outstanding at June 30, 2009) and the Clarendon Center construction loan (approximately \$15,473,000 outstanding at June 30, 2009). The fixed-rate notes payable are all non-recourse debt except for \$1,875,000 of the increase to the Shops at Fairfax and Boulevard mortgage and \$3,882,000 of the Great Falls Center mortgage, both of which are guaranteed by Saul Centers.

On May 14, 2009, the Company closed on the final portion of its April 2008 forward commitment secured by the Great Falls Center. The additional funding totaled \$1,882,000 which was based upon the achievement of certain leasing requirements. The loan matures February 1, 2024, requires equal monthly principal and interest payments of \$12,518, based upon a 7.00% interest rate and 30-year principal amortization, and requires a final principal payment of approximately \$1,414,000 at maturity.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Also during May and June 2009, the Company refinanced the mortgage debt secured by four properties. The Company replaced mortgage debt, due to mature December 2011, with new 15-year fixed-rate mortgage debt. The amount borrowed on the new loans totaled \$85,000,000 and replaced balances outstanding of \$48,059,000. Because the refinanced properties were included in a cross-collateralized pool of six properties, the Company was required to pay down outstanding debt balances of two remaining properties in the amount of \$4,806,000. Terms of the new mortgage debt are as follows:

On May 28, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$16,000,000, secured by Village Center. The loan matures June 1, 2024, requires equal monthly principal and interest payments of \$119,282, based upon a 7.6% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$10,060,000 at maturity.

On June 2, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$18,500,000, secured by Leesburg Pike. The loan matures June 1, 2024, requires equal monthly principal and interest payments of \$134,913, based upon a 7.35% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$11,506,000 at maturity.

On June 12, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$17,000,000, secured by Van Ness Square. The loan matures July 1, 2024, requires equal monthly principal and interest payments of \$132,450, based upon a 8.11% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$11,453,000 at maturity.

On June 19, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$33,500,000, secured by Avenel Business Park. The loan matures July 1, 2024, requires equal monthly principal and interest payments of \$246,474, based upon a 7.45% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$20,926,000 at maturity.

In May 2008, the Company closed on a \$21,822,000 secured construction loan, to fund the development of Northrock shopping center in Warrenton, Virginia. Funding in the amount of approximately \$6,495,000 occurred at closing. The loan accrues interest, payable at an interest rate of LIBOR plus 3.0% with a LIBOR minimum of 1.5%. The loan matures on May 1, 2011, with one 2-year extension option, exercisable at the Company's election subject to completion of improvements and certain debt service coverage requirements. The loan is 100% guaranteed by the Company until such time as the construction is complete, at which time the guarantee will be limited to 50% of the total principal outstanding. Approximately \$17,256,000 is outstanding as of June 30, 2009. Concurrent with the execution of the April 30, 2009 revolving credit facility modification agreement, the Company and its lender modified the terms of the construction loan for a 90-day period, to reflect a similar change to the debt service coverage covenant. Additionally, the pricing of the loan was changed to accrue interest payable from an interest rate of LIBOR plus 1.6%, with no LIBOR minimum.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Also in May 2008, the Company closed a \$157,500,000 secured construction loan to finance the development of Clarendon Center, a mixed-use development adjacent to the Clarendon Metro station in Arlington, Virginia. The Company has guaranteed the loan, with the guarantee to be reduced subject to certain conditions related to pre-leasing, completion of construction and net operating income from the project. The loan accrues interest at an interest rate of LIBOR plus 2.5% and matures on November 14, 2011, which term may be extended by the Company for two additional 9-month periods, subject to the satisfaction of certain conditions. Approximately \$15,473,000 was outstanding as of June 30, 2009.

At December 31, 2008, the Company's outstanding debt totaled approximately \$567,495,000, of which approximately \$548,265,000 was fixed rate and \$19,230,000 was variable rate debt. No balances were outstanding on the Company's \$150,000,000 unsecured revolving credit facility as of December 31, 2008.

At June 30, 2009, the scheduled maturities of all debt, including scheduled principal amortization, for years ending December 31, were as follows:

Debt Maturity Schedule

<i>(Dollars in thousands)</i>	Balloon Payments	Scheduled Principal Amortization	Total
July 1 through December 31, 2009	\$	\$ 9,847	\$ 9,847
2010	15,000 ^(a)	16,908	31,908
2011	51,988 ^(b)	17,826	69,814
2012	96,300	16,452	112,752
2013	39,440	10,785	50,225
2014	13,176	10,687	23,863
Thereafter	246,344	76,503	322,847
	\$ 462,248	\$ 159,008	\$ 621,256

(a) Revolving Credit Facility.

(b) Includes the Clarendon Center and Northrock construction loan balances as of June 30, 2009, totaling \$32,729.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

Interest expense and amortization of deferred debt costs for the quarters and six month periods ended June 30, 2009 and 2008, respectively were as follows:

Interest Expense and Amortization of Deferred Debt Costs

<i>(Dollars in thousands)</i>	Quarter ended		Six months ended	
	June 30, 2009	June 30, 2008	June 30, 2009	June 30, 2008
Interest incurred	\$ 9,720	\$ 9,324	\$ 18,976	\$ 18,410
Amortization of deferred debt costs	292	300	591	585
Costs related to modification of revolving credit facility	280		280	
Capitalized interest	(1,510)	(919)	(2,869)	(1,686)
	\$ 8,782	\$ 8,705	\$ 16,978	\$ 17,309

6. Stockholders Equity and Noncontrolling Interest

The consolidated statements of operations include net income attributable to noncontrolling interest of \$3,004,000 and \$4,094,000 for the six months ended June 30, 2009 and 2008, respectively, representing The Saul Organization's limited partnership interest share of net income for each period.

On March 20, 2008, the Company filed a shelf registration statement (the Shelf Registration Statement) with the SEC relating to the future offering of up to an aggregate of \$140,000,000 of preferred stock and depositary shares. On March 27, 2008, the Company sold 3,000,000 depositary shares, each representing 1/100th of a share of 9% Series B Cumulative Redeemable Preferred Stock, providing net cash proceeds of \$72,100,000. The underwriters exercised an over-allotment option, purchasing an additional 173,115 depositary shares providing additional net cash proceeds of \$4,200,000.

The depositary shares may be redeemed, in whole or in part, at the \$25.00 liquidation preference at the Company's option on or after March 15, 2013. The depositary shares pay an annual dividend of \$2.25 per share, equivalent to 9% of the \$25.00 liquidation preference. The Series B preferred stock has no stated maturity, is not subject to any sinking fund or mandatory redemption and is not convertible into any other securities of the Company. Investors in the depositary shares generally have no voting rights, but will have limited voting rights if the Company fails to pay dividends for six or more quarters (whether or not declared or consecutive) and in certain other events.

7. Related Party Transactions

Chevy Chase Bank was an affiliate of The Saul Organization until February 28, 2009 and leases space in 20 of the Company's properties. Total rental income from Chevy Chase Bank amounted to approximately \$658,000 for the two months ended February 28, 2009 and \$1,674,000 for the six months ended June 30, 2008.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

The Chairman and Chief Executive Officer, the President, the Senior Vice President- General Counsel and the Vice President-Chief Accounting Officer of the Company are also officers of various members of The Saul Organization and their management time is shared with The Saul Organization. Their annual compensation is fixed by the Compensation Committee of the Board of Directors, with the exception of the Vice President-Chief Accounting Officer whose share of annual compensation allocated to the Company is determined by the shared services agreement (described below).

The Company participates in a multiemployer profit sharing retirement plan with other entities within The Saul Organization which covers those full-time employees who meet the requirements as specified in the plan. From January 1, 2002 until December 31, 2008, only employer contributions were made to the plan. Beginning January 1, 2009, all employer contributions were made to individual 401(K) accounts. Each participant who is entitled to be credited with at least one hour of service on or after January 1, 2002, is 100% vested in his or her employer contribution account and no portion of such account shall be forfeitable. Employer contributions, at the discretionary amount of up to six percent of the employee's cash compensation, subject to certain limits, were \$223,000 and \$207,000, for the six months ended June 30, 2009 and 2008, respectively. There are no past service costs associated with the plan since it is of the defined-contribution type.

The Company also participates in a multiemployer nonqualified deferred plan with entities in The Saul Organization which covers those full-time employees who meet the requirements as specified in the plan. The plan, which can be modified or discontinued at any time, requires participating employees to defer 2% of their compensation over a specified amount. The Company is required to contribute three times the amount deferred by employees. The Company's contribution totaled approximately \$119,000 and \$61,000, for the six months ended June 30, 2009 and 2008, respectively. All amounts deferred by employees and the Company are fully vested. The cumulative unfunded liability under this plan was approximately \$1,212,000 and \$1,082,000 at June 30, 2009 and December 31, 2008, respectively, and is included in accounts payable, accrued expenses and other liabilities in the consolidated balance sheets.

The Company has entered into a shared services agreement (the Agreement) with The Saul Organization that provides for the sharing of certain personnel and ancillary functions such as computer hardware, software, and support services and certain direct and indirect administrative personnel. The Agreement was not impacted by the February 28, 2009 sale of Chevy Chase Bank. The method for determining the cost of the shared services is provided for in the Agreement and depending upon the service, is based upon head count, estimates of usage or estimates of time incurred, as applicable. The terms of the Agreement and the payments made thereunder are deemed reasonable by management and are reviewed annually by the Audit Committee of the Board of Directors, which consists entirely of independent directors. Billings by The Saul Organization for the Company's share of these ancillary costs and expenses for the six months ended June 30, 2009 and 2008, which included rental expense for the Company's headquarters lease, totaled approximately \$2,816,000 and \$2,603,000, respectively. The amounts are expensed when billed and are primarily reported as general and administrative expenses in these consolidated financial statements. As of June 30, 2009 and December 31, 2008, accounts payable, accrued expenses and other liabilities included approximately \$300,000 and \$324,000, respectively, representing billings due to The Saul Organization for the Company's share of these ancillary costs and expenses.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

The Company's corporate headquarters lease, which commenced in March 2002, is leased by a member of The Saul Organization. The 10-year lease provides for base rent escalated at 3% per year, with payment of a pro-rata share of operating expenses over a base year amount. Pursuant to the Agreement, the Company pays an allocation of total rental payments on a percentage proportionate to the number of employees employed by the Company and The Saul Organization. The Company's rent expense for the six months ended June 30, 2009 and 2008 was approximately \$420,000 and \$404,000, respectively, and is included in general and administrative expense.

The B. F. Saul Insurance Agency of Maryland, Inc., a subsidiary of the B. F. Saul Company and a member of the Saul Organization, is a general insurance agency that receives commissions and counter-signature fees in connection with our insurance program. Such commissions and fees amounted to \$104,000 and \$136,000 for the six months ended June 30, 2009 and 2008, respectively.

8. Non-Operating Items

Loss on Early Extinguishment of Debt

In conjunction with the early repayment of four mortgage loans refinanced during May and June 2009 as described in Note 5, the Company incurred prepayment penalties of \$1,442,000 and wrote-off unamortized deferred debt costs of \$218,000 for a combined charge of \$1,660,000.

Gain on Property Dispositions

The gain on property disposition of approximately \$205,000 during the quarter ended June 30, 2008 represents proceeds from an insurance settlement for HVAC units vandalized at the Company's West Park shopping center in Oklahoma City, Oklahoma. There were no property dispositions during the six months ended June 30, 2009.

9. Stock Option Plans

The Company has established two stock incentive plans, the 1993 plan and the 2004 plan (together, the Plans). Under the Plans, options were granted at an exercise price not less than the market value of the common stock on the date of grant and expire ten years from the date of grant. Officer options vest ratably over four years following the grant and are expensed straight-line over the vesting period. Director options vest immediately and are expensed as of the date of grant.

Table of Contents

Notes to Consolidated Financial Statements (Unaudited)

The table below summarizes the option activity for the six months ended June 30, 2009:

	Number of Shares	Wtd Avg Exercise Price/sh	Aggregate Intrinsic Value
Outstanding at January 1	593,628	\$ 37.25	
Granted	32,500	32.68	
Exercised			
Expired/Forfeited			
Outstanding June 30	626,128	37.02	\$ 958,000
Exercisable at June 30	558,628	34.94	958,000

The intrinsic value measures the price difference between the options' exercise price and the closing share price quoted by the New York Stock Exchange as of the date of measurement. The intrinsic value for shares exercised during the period, had there been any, would have been calculated by using the closing share price on the date of exercise. At June 30, 2009, the closing share price of \$29.57 was lower than the exercise price of all options granted subsequent to 2004. Therefore only options granted during 2003 and 2004 had intrinsic value as of June 30, 2009. The weighted average remaining contractual life of the Company's outstanding and exercisable options is 6.2 and 6.0 years, respectively.

10. Fair Value of Financial Instruments

Statement of Financial Accounting Standards No. 107, Disclosure about Fair Value of Financial Instruments, requires disclosure about the fair value of financial instruments. The carrying values of cash and cash equivalents, accounts receivable, net, accounts payable and accrued expenses are reasonable estimates of their fair value. Based upon management's estimate of borrowing rates and loan terms currently available to the Company for fixed-rate financing, the fair value of the fixed-rate notes payable are slightly less than the \$573,527,000 and \$548,265,000 carrying value at June 30, 2009 and December 31, 2008, respectively. Management estimates that the fair value of these fixed rate notes payable, assuming long-term interest rates of approximately 7.60% and 7.15%, would be approximately \$556,194,000 and \$525,285,000, as of June 30, 2009 and December 31, 2008, respectively.

11. Commitments and Contingencies

The Company is not subject to any material litigation, nor, to management's knowledge, is any material litigation currently threatened against the Company, other than routine litigation and administrative proceedings arising in the ordinary course of business. Management believes that these items, individually or in the aggregate, will not have a material adverse impact on the Company or the Current Portfolio Properties.

Notes to Consolidated Financial Statements (Unaudited)

12. Business Segments

The Company has two reportable business segments: Shopping Centers and Office Properties. The accounting policies for the segments presented below are the same as those described in the summary of significant accounting policies (see Note 2). The Company evaluates performance based upon net operating income for properties in each segment.

<i>(Dollars in thousands)</i>	Shopping Centers	Office Properties	Corporate and Other ⁽¹⁾	Consolidated Totals

13. Subsequent Events

The Company has reviewed operating activities for the period subsequent to June 30, 2009 and prior to the date the financial statements are issued or are available to be issued, August 10, 2009.

On July 9, 2009, the Company entered into a Second Modification Agreement to its \$120,000,000 unsecured revolving credit facility. The modification extended the maturity date of the facility from December 19, 2010 to June 30, 2012, which term may be extended by the Company for one additional year subject to the Company's satisfaction of certain conditions. Until December 31, 2010, certain or all of the lenders may, upon request by the Company, increase the revolving credit facility line by \$30,000,000. The modification reduced the interest expense coverage from 2.5x to 2.2x, reduced the existing debt service coverage from 1.5x to 1.4x (and recharacterized such test as fixed charge coverage) and created a new debt service coverage test (exclusive of preferred stock dividends) of 1.6x.

On July 28, 2009, Company entered into a Third Modification Agreement increasing the maximum commitment under the facility from \$120,000,000 to \$150,000,000 with the addition of a fourth lender.

Also in July 2009, the Company repaid the full outstanding balance of \$15,000,000 on the unsecured revolving credit facility.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This section should be read in conjunction with the consolidated financial statements of the Company and the accompanying notes in Item 1. Financial Statements of this report and the more detailed information contained in our Form 10-K for the year ended December 31, 2008. Historical results and percentage relationships set forth in Item 1 and this section should not be taken as indicative of future operations of the Company. Capitalized terms used but not otherwise defined in this section, have the meanings given to them in Item 1 of this Form 10-Q.

Forward-Looking Statements

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are generally characterized by terms such as believe, expect and may.

Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, the Company's actual results could differ materially from those given in the forward-looking statements as a result of changes in factors which include among others, the following:

risks related to the continuation or worsening of the domestic and global credit markets and their effect on discretionary spending;

risks that the Company's tenants will not pay rent;

risks related to the Company's reliance on shopping center anchor tenants and other significant tenants;

risks related to the Company's substantial relationships with members of The Saul Organization;

risks of financing, such as increases in interest rates, restrictions imposed by the Company's debt, the Company's ability to meet existing financial covenants and the Company's ability to consummate planned and additional financings on acceptable terms;

risks related to the Company's development activities;

risks that the Company's growth will be limited if the Company cannot obtain additional capital;

risks that planned and additional acquisitions or redevelopments may not be consummated, or if they are consummated, that they will not perform as expected;

risks generally incident to the ownership of real property, including adverse changes in economic conditions, changes in the investment climate for real estate, changes in real estate taxes and other operating expenses, adverse changes in governmental rules and fiscal policies, the relative illiquidity of real estate and environmental risks;

risks related to the Company's status as a REIT for federal income tax purposes, such as the existence of complex regulations relating to the Company's status as a REIT, the effect of future changes in REIT requirements as a result of new legislation and the adverse consequences of the failure to qualify as a REIT; and

Edgar Filing: SAUL CENTERS INC - Form 10-Q

such other risks as described in Part I, Item 1A of our Form 10-K for the year ended December 31, 2008.

-30-

Table of Contents

General

The following discussion is based primarily on the consolidated financial statements of the Company, as of June 30, 2009 and for the three and six-month periods ended June 30, 2009.

Overview

The Company's principal business activity is the ownership, management and development of income-producing properties. The Company's long-term objectives are to increase cash flow from operations and to maximize capital appreciation of its real estate investments.

The Company's primary operating strategy is to focus on its community and neighborhood shopping center business and to operate its properties to achieve both cash flow growth and capital appreciation. Management believes there is potential for growth in cash flow as existing leases for space in the Shopping Centers expire and are renewed, or newly available or vacant space is leased. The Company intends to renegotiate leases where possible and seek new tenants for available space in order to maximize this potential for increased cash flow. As leases expire, management expects to revise rental rates, lease terms and conditions, relocate existing tenants, reconfigure tenant spaces and introduce new tenants with the goal of increasing cash flow. In those circumstances in which leases are not otherwise expiring, management selectively attempts to increase cash flow through a variety of means, or in connection with renovations or relocations, recapturing leases with below market rents and re-leasing at market rates, as well as replacing financially troubled tenants. When possible, management also will seek to include scheduled increases in base rent, as well as percentage rental provisions, in its leases.

The Company's redevelopment and renovation objective is to selectively and opportunistically redevelop and renovate its properties, by replacing leases with below market rents with strong, traffic-generating anchor stores such as supermarkets and drug stores, as well as other desirable local, regional and national tenants. The Company's strategy remains focused on continuing the operating performance and internal growth of its existing Shopping Centers, while enhancing this growth with selective retail redevelopments and renovations.

In light of the currently constrained capital market, management believes acquisition and development opportunities for investment in existing and new shopping center and office properties are limited. However, management believes that the Company is positioned to take advantage of these opportunities when market conditions change because of its conservative capital structure. It is management's view that several of the sub-markets in which the Company operates have very attractive supply/demand characteristics. The Company will continue to evaluate acquisition, development and redevelopment as an integral part of its overall business plan.

The current downturn in the national economy has negatively affected both the office and retail markets in the metropolitan Washington, D.C. area, where the majority of the Company's properties are located. Continued stress in the local economies where the Company's properties are located may lead to increased tenant bankruptcies, increased vacancies and decreased rental rates.

Table of Contents

With a severe decline in overall consumer spending, retailers continue to struggle with declining sales and limited access to capital. Store closings are on the increase and retailers expanding their store count have become extremely rare. Vacancies remain high compared to prior periods. Our overall portfolio leasing percentage was 91.8% at June 30, 2009 compared to 94.2% at December 31, 2008, and 94.8% at June 30, 2008.

The Company maintains a ratio of total debt to total assets of under 50%, which allows the Company to obtain additional secured borrowings, if necessary. As of June 30, 2009, fixed-rate debt represented approximately 92% of the Company's notes payable, thus minimizing the effect of increased interest rates on the Company's financial condition. The Company's earliest significant fixed rate debt maturity is not until 2011. As of August 10, 2009, the Company had no borrowings on its \$150,000,000 revolving credit facility.

Although it is management's present intention to concentrate future acquisition and development activities on community and neighborhood shopping centers and office properties in the Washington, DC/Baltimore metropolitan area and the southeastern region of the United States, the Company may, in the future, also acquire other types of real estate in other areas of the country as opportunities present themselves. While the Company may diversify in terms of property locations, size and market, the Company does not set any limit on the amount or percentage of Company assets that may be invested in any one property or any one geographic area.

Critical Accounting Policies

The Company's accounting policies are in conformity with U.S. generally accepted accounting principles (GAAP). The preparation of financial statements in conformity with GAAP requires management to use judgment in the application of accounting policies, including making estimates and assumptions. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the Company's financial statements and the reported amounts of revenue and expenses during the reporting periods. If judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of the financial statements. Below is a discussion of accounting policies which the Company considers critical in that they may require judgment in their application or require estimates about matters which are inherently uncertain. Additional discussion of accounting policies which the Company considers significant, including further discussion of the critical accounting policies described below, can be found in the notes to the Consolidated Financial Statements.

Real Estate Investments

Real estate investment properties are stated at historic cost less depreciation. The Company intends to own its real estate investment properties over a long-term. No real estate investment properties have been sold since the Company's formation in 1993. Management

Table of Contents

believes that these assets have generally appreciated in value since their acquisition and, accordingly, the aggregate current value exceeds their aggregate net book value and also exceeds the value of the Company's liabilities as reported in these financial statements. Because these financial statements are prepared in conformity with U.S. GAAP, they do not report the current value of the Company's real estate investment properties. The Company purchases real estate investment properties from time to time and allocates the purchase price to various components, such as land, buildings, and intangibles related to in-place leases and customer relationships in accordance with Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations. The purchase price is allocated based on the relative fair value of each component. The fair value of buildings is determined as if the buildings were vacant upon acquisition and subsequently leased at market rental rates. As such, the determination of fair value considers the present value of all cash flows expected to be generated from the property including an initial lease up period. The Company determines the fair value of above and below market intangibles associated with in-place leases by assessing the net effective rent and remaining term of the lease relative to market terms for similar leases at acquisition. In the case of above and below market leases, the Company considers the remaining contractual lease period and renewal periods, taking into consideration the likelihood of the tenant exercising its renewal options. The fair value of a below market lease component is recorded as deferred income and amortized as additional lease revenue over the remaining contractual lease period and any renewal option periods included in the valuation analysis. The fair value of above market lease intangibles is recorded as a deferred asset and is amortized as a reduction of lease revenue over the remaining contractual lease term. The Company determines the fair value of at-market in-place leases considering the cost of acquiring similar leases, the foregone rents associated with the lease-up period and carrying costs associated with the lease-up period. Intangible assets associated with at-market in-place leases are amortized as additional expense over the remaining contractual lease term. To the extent customer relationship intangibles are present in an acquisition, the fair value of the intangibles are amortized over the life of the customer relationship.

If there is an event or change in circumstance that indicates an impairment in the value of a real estate investment property, the Company prepares an impairment analysis to assess that the carrying value of the real estate investment property does not exceed its estimated fair value. The Company considers both quantitative and qualitative factors including recurring operating losses, significant decreases in occupancy, and significant adverse changes in legal factors and business climate. If impairment indicators are present, the Company performs a comparison of the projected cash flows of the property over its remaining useful life, on an undiscounted basis, to the carrying value of that property. The Company assesses its undiscounted projected cash flows based upon estimated capitalization rates, historic operating results and market conditions that may affect the property. If such carrying value is greater than the undiscounted projected cash flows, the Company would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its then estimated fair market value. The value of any property is sensitive to the actual results of any of the aforementioned estimated factors, either individually or taken as a whole. Should the actual results differ from management's projections, the valuation could be negatively or positively affected.

When incurred, the Company capitalizes the cost of improvements that extend the useful life of property and equipment. All repair and maintenance expenditures are expensed when incurred. In addition, we capitalize leasehold improvements when certain criteria are met, including when we supervise construction and will own the improvement. Tenant improvements we own are depreciated over the life of the respective lease or the estimated useful life of the improvements, whichever is shorter.

Table of Contents

Interest, real estate taxes, development-related salary costs and other carrying costs are capitalized on projects under construction. Once construction is substantially complete and the assets are placed in service, rental income, direct operating expenses, and depreciation associated with such properties are included in current operations.

In the initial rental operations of development projects, a project is considered substantially complete and available for occupancy upon completion of tenant improvements, but no later than one year from the cessation of major construction activity. Substantially completed portions of a project are accounted for as separate projects. Depreciation is calculated using the straight-line method and estimated useful lives of 35 to 50 years for base buildings and up to 20 years for certain other improvements.

Deferred Leasing Costs

Certain initial direct costs incurred by the Company in negotiating and consummating successful leases are capitalized and amortized over the initial base term of the leases. Deferred leasing costs consist of commissions paid to third-party leasing agents as well as internal direct costs such as employee compensation and payroll-related fringe benefits directly related to time spent performing successful leasing-related activities. Such activities include evaluating prospective tenants' financial condition, evaluating and recording guarantees, collateral and other security arrangements, negotiating lease terms, preparing lease documents and closing transactions. In addition, deferred leasing costs include amounts attributed to in-place leases associated with acquisition properties as determined pursuant to the application of SFAS No. 141.

Revenue Recognition

Rental and interest income is accrued as earned except when doubt exists as to collectability, in which case the accrual is discontinued. Recognition of rental income commences when control of the space has been given to the tenant. When rental payments due under leases vary from a straight-line basis because of free rent periods or scheduled rent increases, income is recognized on a straight-line basis throughout the initial term of the lease. Expense recoveries represent a portion of property operating expenses billed to tenants, including common area maintenance, real estate taxes and other recoverable costs. Expense recoveries are recognized in the period when the expenses are incurred. Rental income based on a tenant's revenue, known as percentage rent, is accrued when a tenant reports sales that exceed a specified breakpoint specified in the lease agreement.

Allowance for Doubtful Accounts - Current and Deferred Receivables

Accounts receivable primarily represent amounts accrued and unpaid from tenants in accordance with the terms of the respective leases, subject to the Company's revenue recognition policy. Receivables are reviewed monthly and reserves are established with a charge to current period operations when, in the opinion of management, collection of the receivable is doubtful.

Table of Contents

In addition to rents due currently, accounts receivable include amounts representing minimum rental income accrued on a straight-line basis to be paid by tenants over the remaining term of their respective leases. Reserves are established with a charge to income for tenants whose rent payment history or financial condition casts doubt upon the tenant's ability to perform under its lease obligations.

Legal Contingencies

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, the Company believes the final outcome of such matters will not have a material adverse effect on its financial position or the results of operations. Once it has been determined that a loss is probable to occur, the estimated amount of the loss is recorded in the financial statements. Both the amount of the loss and the point at which its occurrence is considered probable can be difficult to determine.

Results of Operations**Quarter ended June 30, 2009 compared to quarter ended June 30, 2008**

Revenue	Quarters ended		2009 to 2008	
	June 30,		Change	
<i>(Dollars in thousands)</i>	2009	2008	\$	%
Base rent	\$ 31,131	\$ 31,751	\$ (620)	-2.0%
Expense recoveries	7,048	6,945	103	1.5%
Percentage rent	328	232	96	41.4%
Other	909	1,177	(268)	-22.8%
Total revenue	\$ 39,416	\$ 40,105	\$ (689)	-1.7%

Note: *(Dollars in thousands)*

Base rent includes \$282 and \$291 for the quarters ended June 30, 2009 and 2008, respectively, to recognize base rent on a straight-line basis. In addition, base rent includes \$308 and \$437, for the quarters ended June 30, 2009 and 2008, respectively, to recognize income from the amortization of in-place leases in accordance with SFAS No. 141.

Total revenue decreased 1.7% in the quarter ended June 30, 2009 (2009 Quarter) compared to the corresponding prior year's quarter (2008 Quarter). The revenue decrease for the 2009 Quarter resulted from declining revenues from core properties (properties which were in operation for both quarters) due to decreased occupancy levels and the resulting loss of base rent. Partially offsetting the core property revenue decline was rental income from the

Table of Contents

operations of two developed properties initiating operations in March and April 2009. The properties (Northrock and Westview) are defined as the Development Properties, and contributed \$154,000 of increased revenue. A discussion of the components of revenue follows.

Base rent. The decrease in base rent for the 2009 Quarter versus the 2008 Quarter was attributable to vacancies during the quarter at four shopping centers; small shop space at Lansdowne Town Center and Broadlands Village, both located in Loudoun County, Virginia; an anchor space at Seven Corners in Falls Church, Virginia; an anchor space at White Oak in Silver Spring, Maryland and one office property, Avenel Business Park (approximately \$753,000). The vacant anchor spaces at both Seven Corners and White Oak have been re-leased, with rents commencing in June and July 2009, respectively. Partially offsetting the decreased base rent from the aforementioned five properties were leases in effect at the Development Properties (approximately \$150,000).

Expense recoveries. Expense recoveries represent a portion of property operating expenses billable to tenants, including common area maintenance, real estate taxes and other recoverable costs. The amount of expense recoveries recognized in the 2009 Quarter compared to the 2008 Quarter was less than the increase in property operating expenses and real estate taxes because credits were issued to some tenants upon the annual reconciliation of prior year billings, an increase in non-recoverable expenses such as advertising, legal and other professional services as well as reduced occupancy in certain of the properties.

Percentage rent. Percentage rent is rental revenue calculated on the portion of a tenant's sales revenue that exceeds a specified breakpoint. The largest contribution to the increase for the 2009 Quarter was percentage rent received from a new Seven Corners restaurant which did not operate during the 2008 Quarter (approximately \$39,000).

Other revenue. Other revenue consists primarily of parking revenue at three of the Office Properties, temporary lease rental income, payments associated with early termination of leases and interest income from the investment of cash balances. The decrease in other revenue for the 2009 Quarter resulted primarily from a decrease in interest income on invested cash balances (approximately \$241,000) and decreased lease termination fees (approximately \$75,000) offset in part by increased parking revenue primarily at 601 Pennsylvania Avenue (approximately \$67,000).

Table of Contents

Operating Expenses

<i>(Dollars in thousands)</i>	Quarters ended		2009 to 2008	
	June 30,		Change	
	2009	2008	\$	%
Property operating expenses	\$ 4,845	\$ 4,527	\$ 318	7.0%
Provision for credit losses	232	241	(9)	-3.7%
Real estate taxes	4,620	4,278	342	8.0%
Interest expense and amortization of deferred debt costs	8,782	8,705	77	0.9%
Depreciation and amortization of leasing costs	7,083	6,989	94	1.3%
General and administrative	3,280	3,190	90	2.8%
Total operating expenses	\$ 28,842	\$ 27,930	\$ 912	3.3%

Increases in operating expenses resulted primarily from increased property taxes and property operating expenses from the operation of the core properties.

Property operating expenses. Property operating expenses consist of repairs and maintenance, utilities, payroll, insurance and other property related expenses. During the 2009 Quarter, the Company incurred increased non-recoverable expenses, particularly tenant legal and litigation expenses (approximately \$114,000), legal related to the refinancing of four properties (approximately \$42,000) and advertising expenses (approximately \$33,000).

Provision for credit losses. The provision for credit losses represents the Company's estimation of amounts previously included in income and owed by tenants that may not be collectible. The 2009 Quarter's loss provision is consistent with the 2008 Quarter's provision. The quarterly provisions for credit losses represent approximately six tenths of one percent (0.6%) of total revenue for 2009 and 2008 Quarters, respectively, and reflect the impact of the challenging economic conditions.

Real estate taxes. The increase in real estate taxes for the 2009 Quarter versus the 2008 Quarter was primarily due to an 8.0% increase in core property real estate tax expense over the 2008 Quarter's amount, impacted largely by increased taxes at several of the Company's Northern Virginia shopping centers and 601 Pennsylvania Avenue.

Interest expense and amortization of deferred debt. Interest expense increased in the 2009 Quarter versus the 2008 Quarter due primarily to costs incurred to modify the Company's revolving credit facility in the amount of \$280,000. Partially offsetting the impact of the line modification costs were increased construction loan borrowing and the resulting increase in capitalized interest. The Company increased indebtedness to fund its development and construction costs, however these interest costs were capitalized as project costs and did not impact interest expense for the 2009 Quarter. The Company also increased indebtedness with the refinancing of four mortgage loans at the end of the 2009 Quarter, but the impact to interest

Table of Contents

expense will not be fully recognized until the following quarter. Average outstanding borrowing for the 2009 Quarter increased approximately \$40,126,000 from the 2008 Quarter. The new borrowing reduced the average interest rate by 0.23%. The combined impact of the new borrowings, at a lower average rate, resulted in an approximately \$321,000 increase in interest expense. Interest capitalized as a cost of construction and development projects increased during the 2009 Quarter compared to the 2008 Quarter decreased interest expense by approximately \$591,000 (\$1,510,000 versus \$919,000) resulting primarily from construction activity at Clarendon Center, Northrock and Westview Village. Decreased deferred debt cost amortization reduced interest expense by approximately \$8,000 (\$292,000 versus \$300,000).

Depreciation and amortization of deferred leasing costs. The increase in depreciation and amortization of deferred leasing costs resulted primarily from the Development Properties and properties acquired and placed in service during the preceding twelve months.

General and administrative. General and administrative expenses consist of payroll, administrative and other overhead expenses. The majority of the general and administrative expense increase during the 2009 Quarter resulted from increased state income taxes (approximately \$61,000).

Loss on Early Extinguishment of Debt. These are primarily pre-payment penalties for the early retirement of mortgage debt (approximately \$1,442,000). The Company refinanced mortgage debt with outstanding balances totaling \$48,059,000, prior to its December 2011 maturity, in order to obtain new mortgage debt totaling \$85,000,000. Also included are write-offs of unamortized deferred debt costs related to the repaid mortgages (approximately \$218,000). There were no early extinguishment of debt costs in the 2008 Quarter.

Six months ended June 30, 2009 compared to the six months ended June 30, 2008**Revenue**

<i>(Dollars in thousands)</i>	Six months ended		2009 to 2008	
	2009	2008	Change	%
Base rent	\$ 61,796	\$ 62,133	\$ (337)	-0.5%
Expense recoveries	14,628	14,078	550	3.9%
Percentage rent	561	546	15	2.7%
Other	2,120	2,070	50	2.4%
Total revenue	\$ 79,105	\$ 78,827	\$ 278	0.4%

Note: *(Dollars in thousands)*

Base rent includes \$240 and \$611 for the six months ended June 30, 2009 and 2008, respectively, to recognize base rent on a straight-line basis. In addition, base rent includes \$655 and \$569, for the six months ended June 30, 2009 and 2008, respectively, to recognize income from the amortization of in-place leases in accordance with SFAS No. 141.

Table of Contents

Total revenue increased 0.4% in the six months ended June 30, 2009 (2009 Period) compared to the corresponding prior year s period (2008 Period). The revenue increase for the 2009 Period resulted from rental income from the operations of the Development Properties and three 2008 acquisition properties, (Great Falls Center, BJ s Wholesale Club and Marketplace at Sea Colony) together defined as the Development and Acquisition Properties, which contributed \$1,411,000 of increased revenue. Partially offsetting the increase from the Development and Acquisition Properties was declining revenues from the core properties (properties which were in operation for both periods) due to decreased occupancy levels and the resulting loss of base rent. A discussion of the components of revenue follows.

Base rent. The decrease in base rent for the 2009 Period versus the 2008 Period was attributable to vacancies during the six months at four shopping centers; small shop space at Broadlands Village and Ashburn Village, both located in Loudoun County, Virginia; an anchor space at Seven Corners in Falls Church, Virginia; and an anchor space at White Oak in Silver Spring, Maryland (approximately \$1,166,000). The vacant anchor spaces at both Seven Corners and White Oak have been re-leased with rents commencing in June and July 2009, respectively. Increased vacancy at two office properties, Avenel Business Park and Van Ness Square (approximately \$397,000), also contributed to the base rent decrease. Partially offsetting the core property base rent decline was base rent on leases in effect at the Development and Acquisition Properties (approximately \$1,190,000).

Expense recoveries. Expense recoveries represent a portion of property operating expenses billable to tenants, including common area maintenance, real estate taxes and other recoverable costs. The amount of expense recoveries recognized in the 2009 Period compared to the 2008 Period was less than the increase in property operating expenses and real estate taxes because credits were issued to some tenants upon the annual reconciliation of prior year billings, increases in non-recoverable expenses such as advertising, legal and other professional services, and reduced occupancy in certain of the properties. The operation of the Development and Acquisition Properties contributed toward the increase in expense recoveries (approximately \$192,000).

Other revenue. Other revenue consists primarily of parking revenue at three of the Office Properties, temporary lease rental income, payments associated with early termination of leases and interest income from the investment of cash balances. The increase in other revenue for the 2009 Period resulted primarily from increased lease termination fees (approximately \$273,000) and parking revenue (approximately \$134,000) offset in part by decreased interest income on invested cash balances (approximately \$305,000).

Table of ContentsOperating Expenses

<i>(Dollars in thousands)</i>	Six months ended		2009 to 2008	
	June 30,		Change	
	2009	2008	\$	%
Property operating expenses	\$ 10,215	\$ 9,512	\$ 703	7.4%
Provision for credit losses	559	424	135	31.8%
Real estate taxes	9,036	8,289	747	9.0%
Interest expense and amortization of deferred debt costs	16,978	17,309	(331)	-1.9%
Depreciation and amortization of leasing costs	14,124	13,932	192	1.4%
General and administrative	6,069	6,113	(44)	-0.7%
Total operating expenses	\$ 56,981	\$ 55,579	\$ 1,402	2.5%

Increases in operating expenses resulted primarily from increased property taxes and the operation and financing of the Development and Acquisition Properties as well as increased provision for credit losses throughout the remaining core properties.

Property operating expenses. Property operating expenses consist of repairs and maintenance, utilities, payroll, insurance and other property related expenses. Increased repairs and maintenance at the core shopping centers, primarily due to increased snow removal costs (50.2% or approximately \$353,000), tenant legal and litigation expenses (32.3% or approximately \$227,000) and expenses required to operate the Development and Acquisition Properties (20.1% or approximately \$141,000) produced the 2009 Period expense increase.

Provision for credit losses. The provision for credit losses represents the Company's estimation of amounts previously included in income and owed by tenants that may not be collectible. The \$135,000 increase, primarily independent small shop retailers, in the 2009 Period's loss provision versus the 2008 Period resulted from tenant vacancies caused by the current economic downturn. The provision for credit losses of approximately seven tenths of one percent (0.7%) and five tenths of one percent (0.5%), of total revenue for 2009 and 2008 Periods, respectively, reflects the impact of the currently unfavorable economic condition.

Real estate taxes. The increase in real estate taxes for the 2009 Period versus the 2008 Period was primarily due to a same property shopping center increase of \$453,000 (60.7% of total real estate tax increase), a 7.7% increase over the 2008 Period's amount, impacted largely by increased taxes at several of the Company's Northern Virginia shopping centers. The Office Properties, particularly 601 Pennsylvania Avenue, contributed to the increase (26.2% or approximately \$196,000), an 8.5% increase of the 2008 Period's amount, as well as the Development and Acquisition Properties (13.1% or approximately \$98,000).

Table of Contents

Interest expense and amortization of deferred debt. Interest expense decreased in the 2009 Period versus the 2008 Period due primarily to increased capitalized interest as a result of the Company's development activity. The Company increased indebtedness to fund its development and construction costs, however these interest costs were capitalized as project costs and did not impact interest expense for the 2009 Period. The Company also increased indebtedness with the refinancing of four mortgage loans at the end of the 2009 Period, but the impact to interest expense will not be fully recognized until the following quarter. Average outstanding borrowing for the 2009 Period increased approximately \$36,166,000 from the 2008 Period. The new borrowing reduced the average interest rate by 0.24%. The combined impact of the new borrowings, at a lower average rate, resulted in an approximately \$490,000 increase in interest expense. Interest capitalized as a cost of construction and development projects increased during the 2009 Period compared to the 2008 Period which decreased interest expense by approximately \$1,183,000 (\$2,869,000 versus \$1,686,000) resulting primarily from construction activity at Clarendon Center, Northrock and Westview Village. Increased deferred debt cost amortization increased interest expense by approximately \$6,000 (\$591,000 versus \$585,000). Also increasing interest expense for the 2009 Period were costs incurred to modify the Company's revolving credit facility in the amount of \$280,000.

Depreciation and amortization of deferred leasing costs. The increase in depreciation and amortization of deferred leasing costs resulted primarily from the Development and Acquisition Properties placed in service during the preceding twelve months.

General and administrative. General and administrative expenses consist of payroll, administrative and other overhead expenses. The general and administrative expense decrease during the 2009 Period resulted from reduced professional expenses (approximately \$72,000), options expense (approximately \$67,000) and abandoned acquisition costs (approximately \$64,000) offset in part by increased payroll benefit expenses (approximately \$127,000).

Loss on Early Extinguishment of Debt. These are primarily pre-payment penalties for the early retirement of mortgage debt (approximately \$1,442,000). The Company refinanced mortgage debt with outstanding balances totaling \$48,059,000, prior to its December 2011 maturity, in order to obtain new mortgage debt totaling \$85,000,000. Also included are write-offs of unamortized deferred debt costs related to the repaid mortgages (approximately \$218,000). There were no early extinguishment of debt costs in the 2008 Period.

Table of Contents**Liquidity and Capital Resources**

Cash and cash equivalents were \$38,213,000 and \$36,964,000 at June 30, 2009 and 2008, respectively. The Company's cash flow is affected by its operating, investing and financing activities, as described below.

<i>(Dollars in thousands)</i>	Six Months Ended June 30,	
	2009	2008
Cash provided by operating activities	\$ 35,797	\$ 39,634
Cash used in investing activities	(37,907)	(83,215)
Cash provided by financing activities	27,317	74,780
 Increase in cash and cash equivalents	 \$ 25,207	 \$ 31,199

Operating Activities

Cash provided by operating activities represents cash received primarily from rental income, plus other income, less property operating expenses, normal recurring general and administrative expenses and interest payments on debt outstanding.

Investing Activities

Cash used in investing activities includes property acquisitions, developments, redevelopments, tenant improvements and other property capital expenditures. Investing activities for the 2009 Period primarily reflect the development and construction costs of Clarendon Center, Northrock and Westview Village. Investing activities for the 2008 Period primarily reflect the acquisition of three operating properties (Great Falls Center, BJ's Wholesale Club and Marketplace at Sea Colony) and a land parcel (Northrock) and to a lesser extent development costs of Clarendon Center, Northrock and Westview Village. Tenant improvement and property capital expenditures totaled \$4,548,000 and \$5,156,000, for the 2009 and 2008 Periods, respectively.

Financing Activities

Cash provided by financing activities for the six months ended June 30, 2009 primarily reflects:

proceeds of \$86,882,000 received from fixed-rate mortgage notes payable originated during the period;

proceeds of \$30,000,000 received from advances provided by the revolving credit facility during the period;

proceeds of \$13,499,000 received from construction loan draws during the period; and

proceeds of \$470,000 from the issuance of common stock from shares issued under the dividend reinvestment program;

Table of Contents

which was partially offset by:

the repayment of mortgage note payable borrowings totaling \$61,620,000;

the repayment of \$15,000,000 on the revolving credit facility;

distributions to common stockholders during the period totaling \$13,937,000;

distributions to holders of convertible limited partnership units in the Operating Partnership during the period totaling \$4,224,000;
and

distributions made to preferred stockholders during the period totaling \$7,570,000; and

payments of \$1,183,000 for financing costs of mortgage notes payable.

Cash provided by financing activities for the six months ended June 30, 2008 primarily reflects:

proceeds of \$76,317,000 received from the issuance of Series B preferred stock during the period;

proceeds of \$38,184,000 received from fixed-rate mortgage notes payable originated during the period;

proceeds of \$19,000,000 received from advances provided by the revolving credit facility during the period; and

proceeds of \$2,896,000 received from the issuance of common stock from options exercised and shares issued under the dividend reinvestment program.

which was partially offset by:

the repayment of mortgage note payable borrowings totaling \$8,065,000;

repayments of \$27,000,000 on the revolving credit facility;

distributions to common stockholders during the period totaling \$16,699,000;

distributions to holders of convertible limited partnership units in the Operating Partnership during the period totaling \$5,092,000;

Edgar Filing: SAUL CENTERS INC - Form 10-Q

distributions made to preferred stockholders during the period totaling \$4,000,000; and

payments of \$761,000 for financing costs of mortgage notes payable.

-43-

Table of Contents

Liquidity Requirements

Short-term liquidity requirements consist primarily of normal recurring operating expenses and capital expenditures, debt service requirements (including debt service relating to additional and replacement debt), distributions to common and preferred stockholders, distributions to unit holders and amounts required for expansion and renovation of the Current Portfolio Properties and selective acquisition and development of additional properties. In order to qualify as a REIT for federal income tax purposes, the Company must distribute to its stockholders at least 90% of its real estate investment trust taxable income, as defined in the Code. The Company expects to meet these short-term liquidity requirements (other than amounts required for additional property acquisitions and developments) through cash provided from operations, available cash and its existing line of credit.

Long-term liquidity requirements consist primarily of obligations under our long-term debt and dividends paid to our preferred shareholders. We anticipate that long-term liquidity requirements will also include amounts required for property acquisitions and developments. Management anticipates that during the coming year the Company:

may redevelop certain of the Current Portfolio Properties,

may develop additional freestanding outparcels or expansions within certain of the Shopping Centers,

will continue to develop its construction in progress properties.

Acquisition and development of properties are undertaken only after careful analysis and review, and management's determination that such properties are expected to provide long-term earnings and cash flow growth. During the coming year, developments, expansions or acquisitions are expected to be funded with available cash, bank borrowings from the Company's credit line, construction and permanent financing, proceeds from the operation of the Company's dividend reinvestment plan or other external debt or equity capital resources available to the Company and proceeds from the sale of properties. Borrowings may be at the Saul Centers, Operating Partnership or Subsidiary Partnership level, and securities offerings may include (subject to certain limitations) the issuance of additional limited partnership interests in the Operating Partnership which can be converted into shares of Saul Centers common stock. The availability and terms of any such financing will depend upon market and other conditions.

Table of Contents

As of June 30, 2009, the scheduled maturities, including scheduled principal amortization, of all debt for years ended December 31, are as follows:

<i>(Dollars in thousands)</i>	Balloon Payments	Scheduled Principal Amortization	Total
July 1 through December 31, 2009	\$	\$ 9,847	\$ 9,847
2010	15,000 ^(a)	16,908	31,908
2011	51,988 ^(b)	17,826	69,814
2012	96,300	16,452	112,752
2013	39,440	10,785	50,225
2014	13,176	10,687	23,863
Thereafter	246,344	76,503	322,847
	\$ 462,248	\$ 159,008	\$ 621,256

(a) Revolving Credit Facility balance, paid off in July 2009. (b) Includes the Clarendon Center and Northrock construction loan balances as of June 30, 2009, totaling \$32,729, which amounts will increase substantially through 2011. The commitments of these loans total \$179,300. Management believes that the Company's capital resources, which at June 30, 2009 included cash balances of approximately \$38,213,000 and borrowing availability of approximately \$104,823,000 on its unsecured revolving credit facility, will be sufficient to meet its liquidity needs for the foreseeable future.

Dividend Reinvestments

In December 1995, the Company established a Dividend Reinvestment and Stock Purchase Plan (the "DRIP") to allow its common stockholders and holders of limited partnership interests an opportunity to buy additional shares of common stock by reinvesting all or a portion of their dividends or distributions. The DRIP provides for investing in newly issued shares of common stock at a 3% discount from market price without payment of any brokerage commissions, service charges or other expenses. All expenses of the DRIP are paid by the Company. The Company issued 9,416 and 49,389 shares under the DRIP at a weighted average discounted price of \$31.86 and \$49.14 per share, during the six month periods ended June 30, 2009 and 2008, respectively. The Company also credited 5,393 and 4,199 shares to directors pursuant to the reinvestment of dividends specified by the Directors' Deferred Compensation Plan at a weighted average discounted price of \$31.88 and \$49.14 per share, during the six month periods ended June 30, 2009 and 2008, respectively.

Capital Strategy and Financing Activity

As a general policy, the Company intends to maintain a ratio of its total debt to total asset value of 50% or less and to actively manage the Company's leverage and debt expense on an ongoing basis in order to maintain prudent coverage of fixed charges. Asset value is the

Table of Contents

aggregate fair market value of the Current Portfolio Properties and any subsequently acquired properties as reasonably determined by management by reference to the properties' aggregate cash flow. Given the Company's current debt level, it is management's belief that the ratio of the Company's debt to total asset value was below 50% as of June 30, 2009.

The organizational documents of the Company do not limit the absolute amount or percentage of indebtedness that it may incur. The Board of Directors may, from time to time, reevaluate the Company's debt/capitalization strategy in light of current economic conditions, relative costs of capital, market values of the Company's property portfolio, opportunities for acquisition, development or expansion, and such other factors as the Board of Directors then deems relevant. The Board of Directors may modify the Company's debt/capitalization strategy based on such a reevaluation without shareholder approval and consequently, may increase or decrease the Company's debt to total asset ratio above or below 50% or may waive the strategy for certain periods of time. The Company selectively continues to refinance or renegotiate the terms of its outstanding debt in order to achieve longer maturities, and obtain generally more favorable loan terms, consistent with its long-term plans.

The Company maintains an unsecured revolving credit facility. The facility is intended to provide working capital and funds for acquisitions, certain developments and redevelopments. The credit facility has a three-year term expiring December 19, 2010 and provides for an additional one-year extension at the Company's option, subject to the Company's satisfaction of certain conditions. Letters of credit may be issued under the facility. On June 30, 2009, of the \$120,000,000 available for borrowing under the line facility, \$15,000,000 was outstanding, approximately \$177,000 was committed for letters of credit, and the resulting balance of approximately \$104,823,000 was available to borrow for working capital, operating property acquisitions or development projects. Interest rate pricing under the facility is primarily determined by operating income from the Company's existing unencumbered properties and to a lesser extent, certain leverage tests. As of June 30, 2009, operating income from the unencumbered properties determined the interest rate for up to \$103,000,000 of the line's available borrowings, with interest expense to be calculated based upon LIBOR plus a spread of 3.65% to 3.90%. The remaining \$17,000,000 of the line's availability is determined based upon the Company's consolidated operating income after debt service. On this portion of the facility, interest accrues at a rate of LIBOR plus a spread of 4.45% to 5.25%, determined by certain leverage tests. The Company may elect to use the 1, 2, 3 or 6 month LIBOR, but in no event shall LIBOR be less than 1.5%.

As of June 30, 2009, borrowings of \$15,000,000 were outstanding under the facility. The facility requires the Company and its subsidiaries to maintain certain financial covenants. As of June 30, 2009, the material covenants required the Company, on a consolidated basis, to:

limit the amount of debt so as to maintain a gross asset value, as defined in the loan agreement, in excess of liabilities of at least \$600 million plus 90% of the Company's future net equity proceeds;

limit the amount of debt as a percentage of gross asset value, as defined in the loan agreement, to less than 60% (leverage ratio);

Table of Contents

limit the amount of debt so that interest coverage will exceed 2.5x on a trailing 12-full calendar month basis (interest expense coverage);

limit the amount of debt so that interest, scheduled principal amortization and preferred dividend coverage exceeds 1.5x (debt service coverage); and

limit the amount of variable rate debt and debt with initial loan terms of less than five years to no more than 40% of total debt. As of June 30, 2009, the Company was in compliance with all such covenants.

The Company improved its line of credit flexibility and extended maturity dates of both of its revolving credit facility and selected secured debt financings beyond 2011. On April 30, 2009, the Company entered into a Modification Agreement, in effect until August 1, 2009, which reduced the Debt Service Coverage ratio under its Line of Credit from 1.6x to 1.5x. Borrowings under the line of credit, based on the Company's leverage, are at LIBOR plus 3.725%, with a LIBOR floor of 1.50%, an increase from the former LIBOR plus 1.475%. The maximum commitment under the Line of Credit was reduced from \$150,000,000 to \$120,000,000. On July 9, 2009, the Company entered into a Second Modification Agreement which extended the maturity date of the facility from December 19, 2010 to June 30, 2012, with an option for the Company to extend for one additional year subject to the Company's satisfaction of certain conditions. The modification reduced the interest expense coverage for the facility from 2.5x to 2.2x, reduced the existing debt service coverage from 1.5x to 1.4x (and recharacterized the test as fixed charge coverage) and created a new debt service coverage (exclusive of preferred stock dividends) of 1.6x. On July 28, 2009, Company entered into a Third Modification Agreement increasing the maximum commitment under the facility from \$120,000,000 to \$150,000,000 with the addition of a fourth lender. Also in July 2009, the Company repaid the full outstanding balance of \$15,000,000 on the unsecured revolving credit facility.

Saul Centers is a guarantor of the revolving credit facility, of which the Operating Partnership is the borrower. Saul Centers is also the guarantor of the Northrock construction loan (approximately \$17,256,000 outstanding at June 30, 2009) and the Clarendon Center construction loan (approximately \$15,473,000 outstanding at June 30, 2009). The fixed-rate notes payable are all non-recourse debt except for \$1,875,000 of the increase to the Shops at Fairfax and Boulevard mortgage and \$3,882,000 of the Great Falls Center mortgage, both of which are guaranteed by Saul Centers.

On May 14, 2009, the Company closed on the final portion of its April 2008 forward commitment secured by the Great Falls Center. The additional funding totaled \$1,882,000 which was based upon the achievement of certain leasing requirements. The loan matures February 1, 2024, requires equal monthly principal and interest payments of \$12,518, based upon a 7.00% interest rate and 30-year principal amortization, and requires a final principal payment of approximately \$1,414,000 at maturity.

Table of Contents

Also during May and June 2009, the Company refinanced the mortgage debt secured by four properties. The Company replaced mortgage debt, due to mature December 2011, with new 15-year fixed-rate mortgage debt. The amount borrowed on the new loans totaled \$85,000,000 and replaced balances outstanding of \$48,059,000. In conjunction with the early repayment of the in-place debt, the Company incurred prepayment penalties of \$1,442,000 and wrote-off unamortized deferred debt costs totaling \$218,000. Because the refinanced properties were included in a cross-collateralized pool of six properties, the Company was required to pay down outstanding debt balances of two remaining properties in the amount of \$4,806,000. Terms of the new mortgage debt are as follows:

On May 28, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$16,000,000, secured by Village Center. The loan matures June 1, 2024, requires equal monthly principal and interest payments of \$119,282, based upon a 7.6% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$10,060,000 at maturity.

On June 2, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$18,500,000, secured by Leesburg Pike. The loan matures June 1, 2024, requires equal monthly principal and interest payments of \$134,913, based upon a 7.35% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$11,506,000 at maturity.

On June 12, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$17,000,000, secured by Van Ness Square. The loan matures July 1, 2024, requires equal monthly principal and interest payments of \$132,450, based upon a 8.11% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$11,453,000 at maturity.

On June 19, 2009, the Company closed on a new 15-year, fixed-rate mortgage loan in the amount of \$33,500,000, secured by Avenel Business Park. The loan matures July 1, 2024, requires equal monthly principal and interest payments of \$246,474, based upon a 7.45% interest rate and 25-year principal amortization, and requires a final principal payment of approximately \$20,926,000 at maturity.

In May 2008, the Company closed on a \$21,822,000 secured construction loan, to fund the development of Northrock shopping center in Warrenton, Virginia. Funding in the amount of approximately \$6,495,000 occurred at closing. The loan accrues interest, payable at an interest rate of LIBOR plus 3.0% with a LIBOR minimum of 1.5%. The loan matures on May 1, 2011, with one 2-year extension option, exercisable at the Company's election subject to completion of improvements and certain debt service coverage requirements. The loan is 100% guaranteed by the Company until such time as the construction is complete, at which time the guarantee will be limited to 50% of the total principal outstanding. Approximately \$17,256,000 is outstanding as of June 30, 2009. Concurrent with the execution of the April 30, 2009 revolving credit facility modification agreement, the Company and its lender modified the terms of the construction loan for a 90-day period, to reflect a similar change to the debt service coverage covenant. Additionally, the pricing of the loan was changed to accrue interest payable from an interest rate of LIBOR plus 1.6%, with no LIBOR minimum.

Also in May 2008, the Company closed a \$157,500,000 secured construction loan to finance the development of Clarendon Center, a mixed-use development adjacent to the Clarendon Metro station in Arlington, Virginia. The Company has guaranteed the loan, with the

Table of Contents

guarantee to be reduced subject to certain conditions related to pre-leasing, completion of construction and net operating income from the project. The loan accrues interest at an interest rate of LIBOR plus 2.5% and matures on November 14, 2011, which term may be extended by the Company for two additional 9-month periods, subject to the satisfaction of certain conditions. Approximately \$15,473,000 was outstanding as of June 30, 2009.

Preferred Stock Issue

On March 20, 2008, the Company filed a shelf registration statement (the Shelf Registration Statement) with the SEC relating to the future offering of up to an aggregate of \$140 million of preferred stock and depositary shares. On March 27, 2008, the Company sold 3,000,000 depositary shares, each representing 1/100th of a share of 9% Series B Cumulative Redeemable Preferred Stock, providing net cash proceeds of \$72.1 million. The underwriters exercised an over-allotment option, purchasing an additional 173,115 depositary shares providing additional net cash proceeds of \$4.2 million.

The depositary shares may be redeemed, in whole or in part, at the \$25.00 liquidation preference at the Company's option on or after March 15, 2013. The depositary shares pay an annual dividend of \$2.25 per share, equivalent to 9% of the \$25.00 liquidation preference. The first dividend was paid on July 15, 2008 and covered the period from March 27, 2008 through June 30, 2008. The Series B preferred stock has no stated maturity, is not subject to any sinking fund or mandatory redemption and is not convertible into any other securities of the Company. Investors in the depositary shares generally have no voting rights, but will have limited voting rights if the Company fails to pay dividends for six or more quarters (whether or not declared or consecutive) and in certain other events.

Net proceeds from the issuance of approximately \$76.3 million were used to fully repay \$22.0 million then outstanding under the Company's revolving credit facility and approximately \$31.5 million was used to acquire three operating shopping center properties on March 28, 2008 (\$61.1 million acquisition cost less financing proceeds of \$29.6 million from loans secured by the acquisition properties). The remaining \$22.8 million was initially invested in short-term certificates of deposit and subsequently used to fund certain of the Company's development and redevelopment projects.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that are reasonably likely to have a current or future material effect on the Company's financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

Table of Contents**Funds From Operations**

For the quarter ended June 30, 2009, the Company reported Funds From Operations (FFO)⁽¹⁾ available to common shareholders of approximately \$12,212,000, representing a 20.6% decrease over the comparative 2008 quarter's FFO available to common shareholders. For the six months ended June 30, 2009, the Company reported FFO available to common shareholders of approximately \$27,018,000, representing a 13.7% decrease over the comparative 2008 period's FFO available to common shareholders. The following table presents a reconciliation from net income to FFO available to common stockholders for the periods indicated:

Funds From Operations Reconciliation

<i>(Amounts in thousands)</i>	Quarter ended June 30,		Six months ended June 30,	
	2009	2008	2009	2008
Net income attributable to Saul Centers	\$ 7,719	\$ 10,229	\$ 17,460	\$ 19,359
Less: Gain on property dispositions				(205)
Add:				
Depreciation & amortization of real property	7,083	6,989	14,124	13,932
Noncontrolling interest	1,195	1,946	3,004	4,094
FFO	15,997	19,164	34,588	37,180
Subtract:				
Preferred stock dividends	(3,785)	(3,786)	(7,570)	(5,883)
FFO available to common shareholders	\$ 12,212	\$ 15,378	\$ 27,018	\$ 31,297
Average shares & units used to compute FFO per share	23,333	23,394	23,324	23,377

- (1) The National Association of Real Estate Investment Trusts (NAREIT) developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO is defined by NAREIT as net income, computed in accordance with GAAP, plus income attributable to the noncontrolling interest, extraordinary items and real estate depreciation and amortization, excluding gains or losses from property dispositions. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs, which is disclosed in the Company's Consolidated Statements of Cash Flows for the applicable periods. There are no material legal or functional restrictions on the use of FFO. FFO should not be considered as an alternative to net income, its most directly comparable GAAP measure, as an indicator of the Company's operating performance, or as an alternative to cash flows as a measure of liquidity. Management considers FFO a meaningful supplemental measure of operating performance because it primarily excludes the assumption that the value of the real estate assets diminishes predictably over time (i.e. depreciation), which is contrary to what we believe occurs with our assets, and because industry analysts have accepted it as a performance measure. FFO may not be comparable to similarly titled measures employed by other REITs.

Acquisitions, Redevelopments and Renovations

Management anticipates that during the coming year the Company: i) may redevelop certain of the Current Portfolio Properties, ii) may develop additional freestanding outparcels or expansions within certain of the Shopping Centers, and iii) will continue to develop its construction in progress properties. Acquisition and development of properties are undertaken only after careful analysis and review, and management's determination that such properties are expected to provide long-term earnings and cash flow growth. During the balance of the year,

Table of Contents

any developments, expansions or acquisitions are expected to be funded with bank borrowings from the Company's credit line, construction financing, proceeds from the operation of the Company's dividend reinvestment plan or other external capital resources available to the Company.

The Company has been selectively involved in acquisition, development, redevelopment and renovation activities. It continues to evaluate the acquisition of land parcels for retail and office development and acquisitions of operating properties for opportunities to enhance operating income and cash flow growth. The Company also continues to take advantage of redevelopment, renovation and expansion opportunities within the portfolio, as demonstrated by its recent activities at Smallwood Village Center and Boulevard shopping centers. The following describes the acquisition, development, redevelopment and renovation activities of the Company in 2007, 2008 and the six months ended June 30, 2009.

Smallwood Village Center

On January 27, 2006, the Company acquired the 198,000 square foot Smallwood Village Center, located on 25 acres within the St. Charles planned community of Waldorf, Maryland. The center was acquired for a purchase price of \$17.5 million subject to the assumption of an \$11.3 million mortgage loan, and was 77.1% leased at June 30, 2009. The Company commenced construction during the first quarter of 2008 on a capital improvement project to improve access to the center, reconfigure portions of the center and upgrade the center's façade and common areas. The redeveloped center totals approximately 173,000 square feet. Substantial completion of construction was achieved during the second quarter of 2009. Project costs totaled approximately \$6.9 million.

Clarendon Center

The Company owns an assemblage of land parcels (including its Clarendon and Clarendon Station operating properties) totaling approximately 1.5 acres adjacent to the Clarendon Metro Station in Arlington, Virginia. In June 2006, the Company obtained zoning approvals for a mixed-use development project to include up to approximately 45,000 square feet of retail space, 170,000 square feet of office space and 244 residential units. The total development costs are expected to be approximately \$195.0 million, a portion of which will be funded with the \$157.5 million construction loan that the Company closed in May 2008. The south block's four-level sub-surface parking garage was structurally completed during the second quarter of 2009 and above grade construction has commenced. Structural concrete work is currently proceeding on levels two through six of the office and residential buildings. Excavation, sheeting and shoring of the north block is nearing completion. The Company estimates substantial completion of shell construction in late 2010.

Westview Village

In November 2007, the Company purchased a 10.4 acre site in the Westview development on Buckeystown Pike (MD Route 85) in Frederick, Maryland. The purchase price was \$5.0 million. The development totals approximately 105,000 square feet of commercial space, including 60,000 square feet of retail shop space, 15,000 square feet of retail pads and 30,000 square feet of professional office space. The Company is currently marketing the space and as of June 30, 2009, has executed leases for 19,673 square feet, or approximately 26% of the total retail space. The Company commenced construction in early 2008 and anticipates total construction and development costs, including land, to be approximately \$26.5 million. Substantial completion of the building shell was achieved during the second quarter of 2009, and the project's initial tenants have opened for business.

Table of Contents

Northrock

In January 2008, the Company acquired approximately 15.4 acres of undeveloped land in Warrenton, Virginia, located at the southwest corner of the U. S. Route 29/211 and Fletcher Drive intersection. The Company is constructing Northrock shopping center, a neighborhood shopping center totaling approximately 103,000 square feet of leasable area. Approximately 62% of the project is leased at June 30, 2009. The Harris Teeter supermarket chain leases a 52,700 square foot grocery store which opened in early June 2009. Additionally, the Company has executed a lease with Chevy Chase Bank for a pad building which opened February 2009 and has executed leases for 7,896 square feet of shop space. The Company purchased the land for \$12.5 million, with total construction and development costs, including land, projected to be approximately \$27.9 million. The majority of the development costs were funded with the \$21.8 million construction loan the Company closed in May 2008. Substantial completion of construction was achieved during the first quarter of 2009.

Great Falls Center

On March 28, 2008, the Company completed the acquisition of the Safeway-anchored Great Falls Center located in Great Falls, Virginia. The center was 91.0% leased at June 30, 2009 and was acquired for a purchase price of \$36.6 million, subject to the assumption of a \$10.3 million mortgage loan.

BJ's Wholesale Club

On March 28, 2008, the Company completed the acquisition of the single tenant property anchored by BJ's Wholesale Club, located in Alexandria, Virginia. The center was 100% leased at June 30, 2009 and was acquired for a purchase price of \$21.0 million.

Marketplace at Sea Colony

On March 28, 2008, the Company completed the acquisition of Marketplace at Sea Colony, located in Bethany Beach, Delaware. The center was 100% leased at June 30, 2009 and was acquired for a purchase price of \$3.0 million.

Boulevard

During the second quarter of 2008, permits were issued for the redevelopment of a portion of the Boulevard shopping center. A vacant pad building previously occupied by a furniture store was demolished. The center's in-line shop space was expanded by approximately 8,000 square feet for small shop retail and a Chevy Chase Bank pad building was constructed and commenced operations. As of June 30, 2009, four shop spaces and the bank pad were leased totaling 9,270 square feet, or 79.8% of the 11,610 square feet of newly constructed space. Substantial completion of construction was achieved during the first quarter of 2009 and total construction and development costs were approximately \$2.8 million.

Table of ContentsPortfolio Leasing Status

The following chart sets forth certain information regarding the operating portfolio for the periods ended June 30, 2009 and 2008, respectively.

As of	Total Properties		Total Square Footage		Percent Leased	
	Shopping Centers	Office	Shopping Centers	Office	Shopping Centers	Office
June 30, 2009	47	5	7,199,000	1,206,000	91.9%	91.2%
2008	45	5	7,001,000	1,206,000	94.8%	95.4%

On a same property basis, 93.1% of the portfolio was leased, compared to the prior year level of 94.8%. The 2009 leasing percentages decreased due to a net decrease of approximately 144,000 square feet of leased space. The major contributors to the leasing decrease in the shopping center portfolio were Southdale in Glen Burnie, Maryland where the Company's only Circuit City store vacated (37,000 square feet) and the Company's four Loudoun County centers (26,000 square feet). Two properties in the office portfolio also contributed to the leasing decrease, Crosstown Business Center in Tulsa, Oklahoma (19,000 square feet) and Avenel Business Park in Gaithersburg, Maryland (33,000 square feet).

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to certain financial market risks, the most predominant being fluctuations in interest rates. Interest rate fluctuations are monitored by management as an integral part of the Company's overall risk management program, which recognizes the unpredictability of financial markets and seeks to reduce the potentially adverse effect on the Company's results of operations. The Company does not enter into financial instruments for trading purposes.

The Company is exposed to interest rate fluctuations primarily as a result of any variable-rate debt used to finance the Company's development and acquisition activities and for general corporate purposes. As of June 30, 2009, the Company had variable-rate indebtedness totaling \$47,729,000. Interest rate fluctuations will affect the Company's annual interest expense accrued on its variable-rate debt. If the interest rate on the Company's variable-rate debt instruments outstanding at June 30, 2009 had been one percent higher, our annual interest expense accrued relating to these debt instruments would have increased by \$477,290, based on those balances. Interest rate fluctuations will also affect the fair value of the Company's fixed-rate debt instruments. As of June 30, 2009, the Company had fixed-rate indebtedness totaling \$573,527,000. If interest rates on the Company's fixed-rate debt instruments at June 30, 2009 had been one percent higher, the fair value of those debt instruments on that date would have decreased by approximately \$31,351,000.

Table of Contents

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in the Company's reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chairman and Chief Executive Officer, its Senior Vice President-Chief Financial Officer, Secretary and Treasurer, and its Vice President-Chief Accounting Officer as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of disclosure controls and procedures in Rule 13a-15(e) promulgated under the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including its Chairman and Chief Executive Officer, its Senior Vice President-Chief Financial Officer, Secretary and Treasurer, and its Vice President-Chief Accounting Officer of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2009. Based on the foregoing, the Company's Chairman and Chief Executive Officer, its Senior Vice President-Chief Financial Officer, Secretary and Treasurer and its Vice President-Chief Accounting Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2009.

During the quarter ended June 30, 2009, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

The Company has no material updates to the risk factors presented in Item 1A. Risk Factors in the 2008 Annual Report of the Company on Form 10-K.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

966 shares were acquired at a price of \$31.30 per share, by B. Francis Saul II, the Company's Chairman of the Board and Chief Executive Officer, and his spouse, through participation in the Company's Dividend Reinvestment and Stock Purchase Plan for the April 30, 2009 dividend distribution.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

On April 24, 2009, the Company held its Annual Meeting of Stockholders, at which Philip D. Caraci, Gilbert M. Grosvenor, Philip C. Jackson, Jr., David B. Kay and Mark Sullivan III were reelected to the Board of Directors for three year terms expiring at the 2012 Annual Meeting. The terms of the remaining Board members did not expire as of the April 24, 2009 meeting and those individuals continue as directors of the Company. Holders of 16,828,893 shares of the Company's common stock voted in person at the meeting or by proxy (representing 95.4% of outstanding shares eligible to vote) as follows; Mr. Caraci: in favor 16,676,575, withheld 152,318. Mr. Grosvenor: in favor 16,728,243, withheld 100,650. Mr. Jackson: in favor 16,726,488, withheld 102,405. Mr. Kay: in favor 16,748,817, withheld 80,076. Mr. Sullivan: in favor 16,734,574, withheld 94,319. In addition, 16,806,381 voted in favor, 13,928 voted against and 8,584 abstained for, ratification of Ernst & Young as independent public accountants.
