Item 8.01. Other Events

On January 1, 2009, Genesis Energy, L.P. (Genesis) adopted Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51 (SFAS 160). Additionally, on January 1, 2009, Genesis adopted Emerging Issues Task Force 07-4, Application of the Two-Class Method under FASB Statement No. 128 to Master Limited Partnerships (EITF 07-4).

SFAS 160 establishes accounting and reporting standards for noncontrolling interests, which have been referred to as minority interests in prior literature. A noncontrolling interest is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent company. This new standard requires, among other things, that (i) ownership interests of noncontrolling interests be presented as a component of equity on the balance sheet (i.e. elimination of the mezzanine minority interest category); (ii) elimination of minority interest expense as a line item on the statement of operations and, as a result, that net income be allocated between the parent and the noncontrolling interests on the face of the statement of operations; and (iii) enhanced disclosures regarding noncontrolling interests.

EITF 07-4 affects the computation of earnings per unit by the incentive distribution rights we are contractually obligated to distribute at the end of the current reporting period. In periods when earnings are in excess of cash distributions, we will reduce net income or loss for the current reporting period (for purposes of calculating earnings or loss per unit) by the amount of available cash that will be distributed to our limited partners and general partner for its general partner interest and incentive distribution rights for the reporting period, and the remainder will be allocated to the limited partners and general partner in accordance with their ownership interests. When cash distributions exceed current-period earnings, net income or loss (for purposes of calculating earnings or loss per unit) will be reduced (or increased) by cash distributions, and the resulting excess of distributions over earnings will be allocated to the general partner and limited partners based on their respective sharing of losses.

Attached as Exhibits 99.1, 99.2 and 99.3 to this Current Report on Form 8-K and incorporated herein by reference are retrospectively adjusted versions of Items 6, 7 and 8 of Genesis Annual Report on Form 10-K for the fiscal year ended December 31, 2008, as filed with the Securities and Exchange Commission (SEC) on March 16, 2009, which reflect the adoption of SFAS 160 and EITF 07-4 and the resulting change in the presentation and disclosure requirements relating to the financial statements for all periods presented in accordance with the requirements of SFAS 160 and EITF 07-4. All other Items of the Form 10-K remain unchanged. The information in Exhibits 99.1, 99.2 and 99.3 does not reflect events or developments that occurred after March 16, 2009. More current information is contained in Genesis Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2009, June 30, 2009 and September 30, 2009 and other filings with the SEC. The Form 10-Q and other filings contain important information regarding events or developments that have occurred since the filing of the 2008 Form 10-K. This Current Report on Form 8-K should be read in conjunction with the portions of the Form 10-K that have not been updated herein.
