SEC Safe Harbor Statement

Forward looking Statement

This presentation contains forward-looking statements, which address a variety of subjects including, for example, the Company's assessment of the long-term prospects for its market, the trend toward outsourcing key processes, the opportunity base, the prospects for improved profitability over the long-term, the anticipated impact of the investment and cost reduction plan in fiscal 2012 and 2013 as a result of the investment and cost reduction plan, the impact of the tax benefit preservation plan and

win. All statements other than statements of historical fact, including without limitation, those with respect to the Company's operations and revenue, lower its costs, improve its gross margins, reach and sustain profitability, reach its long-term objectives on its business strategy, including the investment and costs savings plan and the continued and increased demand for and market conditions, especially in the technology sector are uncertain and subject to volatility; demand for our clients' products may decrease; the Company's management may face strain on managerial and operational resources as they try to oversee the expansion; the expected benefits of its restructuring and cost cutting actions; the Company may not be able to expand its operations in accordance with its business strategy; the Company may not have sufficient cash and other resources, and the Company's financial balances may not be sufficient to allow the Company to meet all of its business and investment goals; the Company may experience changes in its operations and personnel in accordance with its business strategy; the Company derives a significant portion of its revenue from a small number of customers and a few large customers could significantly damage the Company's financial condition and results of operations; the Company frequently sells its products on an order basis rather than pursuant to contracts with minimum purchase requirements, and therefore its sales and the amount of profit are subject to demand variability; risks inherent with conducting international operations; tax rate expectations are based on current tax law and changes in tax jurisdictions in which profits are determined to be earned and taxed, changes in estimates of credits, benefits and deductions, the ability to utilize various tax authorities, including payment of interest and penalties and the ability to realize deferred tax assets; the potential tax benefits of carryforwards may not be realized and the tax benefit preservation plan may not be effective in preserving those benefits; the non-recovery of unpredictable and liquidity events for companies in the Company's venture capital portfolio may not occur; and increased competition in the industry in which the Company competes. For a detailed discussion of cautionary statements that may affect the Company's future results of operations, see the Company's filings with the Securities and Exchange Commission, including the Company's most recent Annual Report on Form 10-K. Forward-looking statements represent management's current expectations and are inherently uncertain. We do not undertake any obligation to update or revise these forward-looking statements.

Important Additional Information

On December 2, 2011, ModusLink filed with the Securities and Exchange Commission (the "SEC") a definitive proxy statement for its 2011 Annual Meeting of stockholders (the "2011 Annual Meeting") and has mailed the definitive proxy statement to its stockholders. The definitive proxy statement contains information about the identity and interests of ModusLink's directors, director nominees and certain of its officers and employees that may be deemed to be material to the solicitation of ModusLink's stockholders in connection with the 2011 Annual Meeting.

Copies of ModusLink's definitive proxy statement, any other relevant documents and other materials filed with the SEC concerning the 2011 Annual Meeting are available for viewing and downloading at www.sec.gov and www.ir.moduslink.com. The definitive proxy statement and any other relevant documents filed with the SEC concerning the 2011 Annual Meeting and stockholders should carefully read the definitive proxy statement, the accompanying WHITE proxy card and other materials filed with the SEC concerning the 2011 Annual Meeting, before making any voting decision.

Agenda

ModusLink Overview and Background

Taking Action to Best Position ModusLink for Long-Term Success

Board of Directors

Experienced and Independent

Peerless Systems and the Proxy Contest

Conclusion: Vote for ModusLink Nominees on the WHITE Proxy Card

3

Improving Operations

Executing investments in sales and marketing and cost reduction plan to respond to adverse economic conditions

Plan is focused on putting company on path to sustained growth in revenue and profits

Enhancing Corporate Governance

Appointed stockholder nominee, Jeff Fenton, to Board in leadership role in November 2010

Separated Chairman and CEO roles

Maximizing Stockholder Value

Returned
nearly
\$97
million
in
cash
to
stockholders
since
fiscal
2008

Commenced review of strategic alternatives, chaired by Mr. Fenton

Adopted a tax benefit preservation plan

Delivering Results

Actions taken bearing fruit, and the Company's performance is improving

For first quarter fiscal 2012, ModusLink reported its highest gross profit margin in nearly two years, its first operating profit in six quarters and several new client program wins

4

Robust Change is Underway at ModusLink

necessary

to

position the Company for improved profitability over the long term

16

Strategic Plan to Put Company on
Path to Sustained Growth in Revenue and Profits

As market headwinds persisted,
Company conducted comprehensive
review of business to determine

additional ways to enhance operations

Developed and have begun to
execute an investment and
cost reduction plan to:

Increase revenue from new programs

Significantly improve profitability

Put new leadership in place to drive
improved results

Sales Acceleration

& Increased

Market Penetration

Strengthening

Leadership

Cost Alignment &

Working Capital

Improvements

17

Investment and Cost Reduction Plan:
Sales Acceleration and Increased Market Penetration

Increase new business revenue to annual levels of
\$150 million to \$200 million

Overcome challenges related to volatility in volumes and use of less materials in packaged products, while fulfilling our cost value proposition to clients
Objectives

Increasing quota-bearing sales people by at least 30%

Price optimization strategies

Improving sales targeting including subcategories within target markets

Sales force effectiveness and account planning

Integrate sales and marketing under common leadership

Hired new head of sales and marketing

Example Investments and Changes

18

Investment and Cost Reduction Plan:

Cost Alignment & Working Capital Improvements

Improve profitability as sales and marketing initiatives
gain traction

Increase capacity utilization and reduce redundancy
Objectives

Reducing direct and indirect labor costs

6% reduction in headcount from actions in last two quarters

Reducing facility costs

Strategic sourcing; better leverage purchasing power of collective facilities

Expanding shared services initiative

Further streamline inventory levels and accelerate inventory turns
Example Investments and Changes

19

Put new leaders in targeted places to drive improved results

Fulfill vision for development of integrated services
Aftermarket Services and e-Business solutions

Objectives

Recently hired:

-
President,
Sales
and
Marketing
to
drive
go-to
market
strategy

-
President,
Integrated
Services
to
drive
aftermarket
solutions
and
e-Business
capabilities

-
SVP,
Human
Resources
to
strengthen
training
and
talent
development

Example Investments and Changes
Investment and Cost Reduction Plan:
Strengthening Leadership

20

Investment and Cost Reduction Plan:
Already Delivering Results

The Investment and Cost Reduction plan is already contributing to results

For ModusLink's first quarter fiscal 2012 earnings results, the Company reported its highest

gross profit margin in nearly two years and its first operating profit in six quarters

Cost reduction plans, including restructuring actions, are expected to result in approximately \$30 million to \$40 million in annualized cost savings

On track to achieve the expected \$15 million to \$20 million in benefits in fiscal 2012, with further benefit in fiscal 2013

Recently won several new client programs with global brands:

A major global consumer products company

Expected
to
contribute
annualized
revenue
of
approximately
\$60
million
-
largest
program
win
since
before recession

GoPro -

one of the world's fastest growing camera companies

Program utilizes ModusLink's Supply Chain, e-Business and Aftermarket solutions

Two new programs from Sony

Since starting first Sony program a year ago, we've grown relationship to five programs

Example of ModusLink's ability to sell new programs to current clients and underscores opportunity present in existing client base

21

ModusLink is Positioned
For Long-Term Success

Strong liquidity and balance sheet

An articulated plan for investment and cost reduction

Access to a global market

A client base of Fortune 1000 companies that provides additional opportunities for ModusLink's service offerings

Over 50% of our top 30 clients utilize more than one of ModusLink's solutions
ModusLink has a robust financial foundation that provides a competitive advantage and affords us the opportunity to act in the long-term interests of our Company and stockholders

22
Board of Directors
Experienced and Independent

23

ModusLink has a Highly-
Qualified and Independent Board

Seven of eight Board members are independent

Virginia G. Breen

Jeffrey J. Fenton
Director nominee at 2011 Annual Meeting

Thomas H. Johnson

Director nominee at 2011 Annual Meeting

Frank J. Jules
Chairman

Joseph C. Lawler
President and Chief Executive Officer

Edward E. Lucente

Michael J. Mardy

Joseph M. O'Donnell

Half of the current Board members have joined in the past five years

By pursuing this proxy contest, Peerless is seeking to replace two of ModusLink's newest Board members

ModusLink's Board is comprised of seasoned executives,
all of whom are actively engaged in creating value for all stockholders

24
Board is Listening and Taking Action

25

ModusLink's Highly-Qualified
Director Nominees

ModusLink's nominees are experienced, qualified and committed to delivering value for
all stockholders

Tom Johnson:

Member of Board since April 2006

Mr. Johnson was identified by an outside search firm, Spencer Stuart, as part of a nationwide search for director candidates

Mr. Johnson brings more than 15 years of executive experience, including service as the chief executive officer of two large multinational corporations, as well as four public company boards

Since January 2009, Mr. Johnson has served as the Chief Executive Officer of The Taffrail Group, LLC, an international advisory firm

Mr. Johnson is also a director of Coca-Cola Enterprises, Inc., GenOn Energy, Inc. and Universal Corporation
Jeff Fenton:

Member of Board since November 2010

Mr. Fenton was appointed to the Board following the Governance and Nominating Committee's review and evaluation of director candidates

put
forward
by
two
stockholders:
LCV
Capital
Management
and
Raging
Capital
Management

Mr. Fenton brings a proven record of leading large and diverse organizations, developing and executing market leading strategies

Since March 2004, Mr. Fenton has served as Principal of Devonshire Advisors LLC, an investment advisory services firm

Mr. Fenton served as a director of Bluelinx Holdings Inc., Formica Corporation, IAP Worldwide Services and Transamerica Trailer Leasing Co.

Losing these Directors would remove valuable experience and important leadership from the ModusLink Board

26
Peerless Systems and the
Proxy Contest

27

ModusLink has been Reasonable
and Open to a Resolution with Peerless

ModusLink values the opinions of all stockholders and has a track record of
working with stockholders

Engaged in a dialogue with LCV Capital Management and Raging Capital Management that enabled us to avoid the expense and disruption of a proxy contest in 2010

Resulted
in
ModusLink
appointing
stockholder
representation
to
the
Board

Mr.
Fenton,
who
has since been a valuable addition through his various leadership roles

ModusLink's Board and management have tried to pursue a similar approach with Peerless, actively engaging with the investor

Throughout the course of this interaction, and despite concerns about the Peerless nominees, ModusLink made a concerted effort to resolve this matter

Offered Peerless a settlement agreement which included board representation and customary confidentiality and standstill provisions
Despite opportunities to find common ground, Peerless has instead chosen to engage the Company in a disruptive and costly proxy contest

28
Peerless has Not Articulated Any
Strategy or Plan for the Company

29

Peerless Nominees

Not Right for ModusLink

In our view, electing the Peerless nominees could:

Interrupt ongoing implementation of ModusLink's strategic plan;

Disrupt the ongoing strategic alternatives review process;

Reduce the level of relevant experience on the Board; and

Negatively impact stockholder value

30

There Are Concerns Regarding
Peerless Nominee Timothy Brog
Mr. Brog's pattern of violations is troubling
and has no place on ModusLink's Board

Nominee Timothy Brog has a troubling track record of SEC violations and
failure to disclose material information to stockholders:

2006:

Gyrodyne
proxy
contest

Mr.
Brog
was
part
of
a
group
that
received
a
comment
letter

from the Staff of the Securities and Exchange Commission (SEC) noting that because the group failed to file a preliminary proxy statement, the participants in the solicitation had violated Rule 14a-6 of Regulation 14A.

The Staff directed the group to revise its proxy materials to affirmatively indicate the participants had committed a federal securities law violation

2008:

TravelCenters
of
America
proxy
contest

lawsuit
filed
against
Mr.
Brog
related
to
his

failure to disclose the prior federal securities law violations in connection with the Gyrodyne matter

Delaware Court of Chancery ruled in favor of TravelCenters, and deemed Mr. Brog's notice of intent to nominate directors deficient and invalid

2011:

ModusLink
proxy
contest

We
believe

that

Mr.

Brog

is

operating

Peerless

as

an

unregistered investment company in violation of federal securities laws

Based on public filings, we believe Peerless fails several quantitative and qualitative tests under the

Investment Company Act of 1940

We believe Mr. Brog has failed to disclose material information to ModusLink's stockholders in this regard

31
