**Item 7.01 Regulation FD Disclosure**

Cardinal Health, Inc. will issue the following Statement to Cardinal Health Investors:

**Statement to Cardinal Health Investors February 29, 2012**

Earlier today the federal district court denied our motion for a preliminary injunction against the DEA's immediate suspension of our license to ship controlled substances from our Lakeland, Fla., distribution center. We disagree with this decision and have noticed our appeal of this decision to the U.S. Court of Appeals for the D.C. Circuit. Our contingency plans will be immediately activated, and we will make every effort to meet our customers' needs with minimal disruption.

As an investor, we know you will have questions about any potential impact on our company. Based on what we know at this time and the overall performance of Cardinal Health, we are not making any adjustments to the non-GAAP EPS guidance range of \$3.10 - \$3.20 we provided on February 2, 2012.

We have demonstrated a deep commitment in helping fight prescription drug abuse. We work hard to actively prevent drug diversion and have spent millions of dollars to build a system of advanced analytics and on anti-diversion specialists. We have stopped distributing to hundreds of pharmacies determined to pose an unreasonable risk of diversion. The majority of those pharmacies still maintain their DEA registrations to dispense controlled medicines. We have also collaborated with industry experts to create programs to educate young people, parents, teachers and communities about medication safety and the dangers of prescription drug abuse.

We have genuine respect for the work of the DEA, but effectively addressing prescription drug abuse requires a very different approach than does the war on illicit drugs. We want to work collaboratively with all participants in the drug supply chain - including regulators, pharmaceutical manufacturers, distributors, pharmacists, doctors and boards of pharmacy - to combat this serious nationwide issue. We want to be part of a new more effective solution to stop prescription drug abuse, without disrupting legitimate use.

**Cautions Concerning Forward-Looking Statements**

This statement contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, among other things, relating to action taken by the DEA against the Cardinal Health Lakeland distribution center and related legal proceedings. These statements are subject to risks and uncertainties, including that Cardinal Health may be unsuccessful in its effort to overturn the suspension of its Lakeland, Fla. controlled substance license or may have to pay a fine. Cardinal Health is subject to additional risks and uncertainties described in the company's Form 10-K, Form 10-Q and Form 8-K reports (including all amendments to those reports) and exhibits to those reports. This statement reflects management's views as of Feb. 29, 2012. Except to the extent required by applicable law, Cardinal Health undertakes no obligation to update or revise any forward-looking statement.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
