NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS**

1. Description of Business

L-3 Communications Holdings, Inc. derives all of its operating income and cash flows from its wholly-owned subsidiary, L-3 Communications Corporation (L-3 Communications). L-3 Communications Holdings, Inc. (L-3 Holdings and, together with its subsidiaries, referred to herein as L-3 or the Company) is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (ISR) systems, aircraft modernization and maintenance, and national security solutions. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. The Company's customers include the United States (U.S.) Department of Defense (DoD) and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), allied foreign governments, and domestic and foreign commercial customers.

On July 17, 2012, L-3 completed the spin-off of its subsidiary, Engility Holdings, Inc. (Engility) to L-3's shareholders. The spin-off was a tax-free distribution to L-3 shareholders for U.S. federal tax purposes, except for cash received in lieu of fractional shares. L-3 shareholders of record on July 16, 2012 (the record date) received one share of Engility common stock for every six shares of L-3 common stock held on the record date. Engility began trading as an independent publicly traded company on the New York Stock Exchange on July 18, 2012.

Engility included the systems engineering and technical assistance (SETA), training and operational support services businesses that were part of L-3's Government Services segment. L-3 retained the cyber security, intelligence, enterprise information technology (IT) and security solutions businesses that were also part of L-3's Government Services segment, which was renamed National Security Solutions (NSS). The NSS businesses develop unique solutions to address growing challenges for DoD, U.S. Government intelligence agencies, and global security customers. As a result of the spin-off, the assets, liabilities, noncontrolling interests, results of operations and cash flows of the Engility businesses have been reclassified as discontinued operations for all periods presented. See Note 4 for additional information.

The Company has the following four reportable segments: (1) Electronic Systems, (2) C³ISR, (3) Aircraft Modernization and Maintenance (AM&M), and (4) NSS. Financial information with respect to each of the Company's segments is included in Note 20. Electronic Systems provides a broad range of products and services, including components, products, subsystems and systems and related services to military and commercial customers in several niche markets across several business areas, including microwave, power & control systems, integrated sensor systems, aviation products, simulation & training, warrior systems, precision engagement, security & detection, space & propulsion, undersea warfare and marine services. C³ISR provides products and services for the global ISR market, C³ systems, networked communications systems and secure communications products. The Company believes that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. AM&M provides modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. The Company sells these services primarily to the DoD, the Canadian Department of Defense and other allied foreign governments. NSS provides a full range of cyber security, intelligence, enterprise information technology (IT) and security solutions services to the DoD, DoS, U.S. Government intelligence agencies and global security customers.

2. Basis of Presentation

These unaudited condensed consolidated financial statements for the quarterly and year-to-date periods ended September 28, 2012 should be read in conjunction with the audited consolidated financial statements of L-3 Holdings and L-3 Communications included in their Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Principles of Consolidation and Reporting

The accompanying financial statements comprise the consolidated financial statements of L-3 Holdings and L-3 Communications. L-3 Holdings only asset is its investment in the common stock of L-3 Communications, its wholly-owned subsidiary, and its only obligations are: (1) the 3% Convertible Contingent Debt Securities (CODES) due 2035, which were issued by L-3 Holdings on July 29, 2005, (2) its guarantee of borrowings under the Amended and Restated Revolving Credit Facility of L-3 Communications and (3) its guarantee of other contractual obligations of L-3 Communications and its subsidiaries. L-3 Holdings' obligations relating to the CODES have been jointly, severally, fully and unconditionally guaranteed by L-3 Communications and certain of its wholly-owned domestic subsidiaries. Accordingly, such debt has been reflected as debt of L-3 Communications in its consolidated financial statements in accordance with the accounting standards for pushdown accounting. All issuances of and conversions into L-3 Holdings' equity securities, including grants of stock options, restricted stock, restricted stock units and performance units by L-3 Holdings to employees and directors of L-3 Communications and its subsidiaries, have been reflected in the consolidated financial statements of L-3 Communications. As a result, the consolidated financial positions, results of operations and cash flows of L-3 Holdings and L-3 Communications are substantially the same. See Note 22 for additional information regarding the unaudited financial information of L-3 Communications and its subsidiaries.

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X of the SEC. Accordingly, they do not include all of the disclosures required by U.S. GAAP for a complete set of annual audited financial statements. The December 31, 2011 condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. In the opinion of management, all adjustments (consisting of normal and recurring adjustments) considered necessary for a fair presentation of the results for the interim periods presented have been included. The results of operations for the interim periods are not necessarily indicative of results for the full year.

It is the Company's established practice to close its books for the quarters ending March, June and September on the Friday nearest to the end of the calendar quarter. The interim unaudited condensed consolidated financial statements included herein have been prepared and are labeled based on that convention. The Company closes its books for annual periods on December 31 regardless of what day it falls on.

Accounting Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and costs of sales during the reporting period. The most significant of these estimates and assumptions relate to contract revenue, profit and loss recognition, fair values of assets acquired and liabilities assumed in business combinations, market values for inventories reported at lower of cost or market, pension and post-retirement benefit obligations, stock-based employee compensation expense, income taxes, including the valuations of deferred tax assets, litigation reserves and environmental obligations, accrued product warranty costs, and the recoverability, useful

lives and valuation of recorded amounts of long-lived assets, identifiable intangible assets and goodwill. Changes in estimates are reflected in the periods during which they become known. Actual amounts will differ from these estimates and could differ materially.

Sales and profits on contracts that are covered by accounting standards for construction-type and production-type contracts and federal government contractors are recognized using percentage-of-completion (POC) methods of accounting. For the year ended December 31, 2011, sales on such contracts represented approximately 45% of our consolidated net sales, including approximately 35% from fixed-price type contracts and 10% from cost-plus type contracts. For contracts accounted for under contract accounting standards, sales and profits are recognized based on: (1) a POC method of accounting (fixed-price contracts), (2) allowable costs incurred plus the estimated profit on those costs (cost-plus contracts), or (3) direct labor hours expended multiplied by the contractual fixed rate per hour plus incurred costs for material (time-and-material contracts). Sales and profits on fixed-price production contracts under which units are produced and delivered in a continuous or sequential process are recorded as units are delivered based on their contractual selling prices (the units-of-delivery method). Sales and profits on each fixed-price production contract under which units are not produced and delivered in a continuous or sequential process, or under which a relatively few number of units are produced, are recorded based on the ratio of actual cumulative costs incurred to total estimated costs at completion of the contract multiplied by the total estimated contract revenue, less cumulative sales recognized in prior periods (the cost-to-cost method). Under both POC methods of accounting, a single estimated total profit margin is used to recognize profit for each contract over its entire period of performance, which can exceed one year.

Accounting for the sales and profit on these fixed-price type contracts requires the preparation of estimates of (1) the total contract revenue, (2) the total costs at completion, which is equal to the sum of the actual incurred costs to date on the contract and the estimated costs to complete the contract's statement of work, and (3) the measurement of progress towards completion. The estimated profit or loss at completion on a contract is equal to the difference between the total estimated contract revenue and the total estimated cost at completion. The profit recorded on a contract in any period using either the units-of-delivery method or cost-to-cost method is equal to the current estimated total profit margin multiplied by the cumulative sales recognized, less the amount of cumulative profit previously recorded for the contract.

Sales and profits on cost-plus type contracts that are covered by contract accounting standards are recognized as allowable costs are incurred on the contract, at an amount equal to the allowable costs plus the estimated profit on those costs. The estimated profit on a cost-plus type contract is fixed or variable based on the contractual fee arrangement. Incentive and award fees are the primary variable fee contractual arrangement types for the Company. Incentive and award fees on cost-plus type contracts are included as an element of total estimated contract revenues and are recorded to sales when a basis exists for the reasonable prediction of performance in relation to established contractual targets and the Company is able to make reasonably dependable estimates for them.

Sales and profits on time-and-material type contracts are recognized on the basis of direct labor hours expended multiplied by the contractual fixed rate per hour, plus the actual costs of materials and other direct non-labor costs.

Revisions or adjustments to estimates for a contract's revenue, estimated costs at completion and estimated profit or loss are often required as work progresses under a contract, as experience is gained, as facts and circumstances change and as new information is obtained, even though the scope of work required under the contract may not change. Revisions or adjustments may also be required if contract modifications occur. The impact of revisions in profit (loss) estimates for all types of contracts subject to percentage-of-completion accounting are recognized on a cumulative catch-up basis in the period in which the revisions are made. revisions in contract estimates, if significant, can materially affect our results of operations and cash flows, as well as reduce the valuations of receivables and inventories, and in some cases result in liabilities to complete contracts in a loss position. Aggregate net changes in contract estimates increased consolidated operating income by \$75 million, or 7.6%, for the year-to-date period ended September 28, 2012 and \$65 million, or 4.7%, for the year-to-date period ended September 30, 2011.

For a more complete discussion of these estimates and assumptions, see the Annual Report of L-3 Holdings and L-3 Communications on Form 10-K for the fiscal year ended December 31, 2011.

Reclassifications

Effective January 1, 2012, the Company re-aligned a business unit's management and organizational structure, and made related reclassifications between its Electronic Systems and C³ISR segments. The segment results presented in this quarterly report reflect this reclassification. See Note 20 for the prior period sales, operating income, and assets reclassified between segments.

3. New Accounting Standards

Effective January 1, 2012 the Company retrospectively adopted a new accounting standard issued by the Financial Accounting Standards Board (FASB) for the presentation of comprehensive income in financial statements. The adoption of this standard resulted in the presentation of a total for comprehensive income, and the components of net income and other comprehensive income in two separate, but consecutive statements. The adoption of this standard only changed how we present comprehensive income and did not impact the Company's financial position, results of operations or cash flows.

Effective January 1, 2012, the Company adopted a revised accounting standard issued by the FASB allowing companies to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, as a result of the qualitative assessment, it is more likely than not that the fair value of a reporting unit is less than its carrying amount, a more detailed two-step goodwill impairment test will be performed to identify potential goodwill impairment and measure the amount of loss to be recognized, if any. The standard is effective for goodwill impairment tests performed beginning in 2012, and did not have an impact on the Company's financial position, results of operations or cash flows.

4. Dispositions and Acquisitions

Spin-off of Engility

As discussed in Note 1, the Company completed the spin-off of its subsidiary, Engility, on July 17, 2012. In connection with the spin-off, Engility made a cash distribution of \$335 million to L-3. L-3 used a portion of the proceeds to redeem \$250 million of its 6 ³/₈ % Senior Subordinated Notes due 2015 (2015 Notes) on July 26, 2012. See Note 9 for additional information on the redemption of the 2015 Notes. There was no gain or loss recognized by us as a result of the spin-off transaction.

Prior to the completion of the spin-off, L-3 and Engility entered into a Distribution Agreement dated July 16, 2012 and several other agreements that govern certain aspects of L-3's current relationship with Engility. These agreements generally provide that each party is responsible for its respective assets, liabilities and obligations, including employee benefits, insurance and tax related assets and liabilities, whether accrued or contingent. The agreements also describe L-3's commitments to provide Engility with certain services for a period of two to eighteen months in most circumstances.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-Q

L-3 incurred transaction expenses in connection with the spin-off of \$19 million (\$14 million after income taxes) for the year-to-date period ended September 28, 2012 and \$4 million (\$3 million after income taxes) for the year-to-date period ended September 30, 2011, respectively, which have been included in discontinued

operations. In addition, L-3 allocated interest expense for debt not directly attributable or related to L-3's other operations of \$14 million and \$24 million for the year-to-date periods ended September 28, 2012 and September 30, 2011, respectively. Interest expense was allocated in accordance with the accounting standards for discontinued operations and was based on the ratio of Engility net assets to the sum of: (1) total L-3 consolidated net assets and (2) L-3 consolidated total debt.

Statement of operations data classified as discontinued operations related to Engility is provided in the table below:

In connection with the spin-off of Engility, L-3 was required to allocate the goodwill of the former Government Services reporting unit between Engility and NSS based on the relative fair values of each business at the spin-off date in accordance with the accounting standards for goodwill. As a result, based on the relative fair value, L-3 allocated \$1,225 million to Engility.

All of the business acquisitions discussed below are included in the Company's results of operations from their respective dates of acquisition.

2012 Business Acquisitions

On February 6, 2012, the Company acquired the Kollmorgen Electro-Optical (KEO) business for a purchase price of \$205 million, which was financed with cash on hand. KEO develops and manufactures specialized equipment, including submarine photonics systems and periscopes, ship fire control systems, visual landing aids, ground electro-optical and sensor-cueing systems for the U.S. military and allied foreign governments. Based on preliminary purchase price allocations, goodwill of \$137 million was recognized, of which \$69 million is expected to be deductible for income tax purposes. The goodwill was assigned to the Electronic Systems segment. In addition, the Company recognized customer contractual relationships and technology intangibles of \$32 million in the aggregate, with estimated weighted average useful lives of 10 years. The final purchase price, which is expected to be completed by the fourth quarter of 2012, is subject to adjustment based on the closing date net working capital. In addition, the final purchase price allocation is also expected to be completed in the fourth quarter of 2012 and will be based on the final purchase price, final appraisals and other analysis of fair values of acquired assets and liabilities. The Company does not expect differences between the preliminary and final purchase price allocation to have a material impact on its results of operations or financial position.

On April 13, 2012, the Company acquired the assets and liabilities of MAVCO, Inc. (MAVCO) for \$10 million, with cash on hand. MAVCO is an audio, video, lighting and broadcast systems integration business primarily for cruise lines. Based on a preliminary purchase price allocation, goodwill of \$8 million was recognized, all of which is expected to be deductible for income tax purposes. The goodwill was assigned to the Electronics Systems segment. In addition, the Company recognized customer relationships and technology intangibles of \$1 million in the aggregate, with estimated weighted average useful lives of 7 years. The final purchase price allocation is expected to be completed in the fourth quarter of 2012 and will be based on the final purchase price, final appraisals and other analysis of fair values of acquired assets and liabilities. The Company does not expect that differences between the preliminary and final purchase price allocation to have a material impact on its results of operations or financial position.

Effective August 6, 2012, the Company acquired the commercial aircraft simulation business from Thales Group. L-3 renamed the business Link Simulation & Training U.K Limited (Link U.K.). The purchase price of \$134 million was financed with cash on hand. Link U.K. is a leading manufacturer of flight simulation systems for the commercial aviation market. Based on preliminary purchase price allocations, goodwill of \$65 million was recognized, of which \$59 million is expected to be deductible for income tax purposes. The goodwill was assigned to the Electronic Systems segment. In addition, the Company recognized customer contractual relationships and technology intangibles of \$20 million in the aggregate, with estimated weighted average useful lives of 10 years. The final purchase price, which is expected to be completed in the second quarter of 2013, is subject to adjustment based on the closing date net working capital. In addition, the final purchase price allocation is also expected to be completed in the second quarter of 2013 and will be based on the final purchase price, final appraisals and other analysis of fair values of acquired assets and liabilities. The Company does not expect that differences between the preliminary and final purchase price allocations for this acquisition will have a material impact on its results of operations or financial position.

2011 Business Acquisitions and Disposition

During the year ended December 31, 2011, in separate transactions, the Company acquired: (1) the communications and engineering business of ComHouse Wireless L.P. (ComHouse), which provides the Company with cellular wave form modulation technology, and (2) the cargo radiation screening business of Detector Networks International LLL (DNI) for an aggregate purchase price of \$18 million. Both business

acquisitions were financed with cash on hand. Based on the purchase price allocations, which were finalized as of June 29, 2012, the aggregate goodwill recognized for the two acquired businesses was \$19 million, of which \$14 million is expected to be deductible for income tax purposes. The goodwill recognized for these businesses was assigned to the Electronic Systems segment.

In February 2011, the Company divested the Microdyne Corporation business, which was within the Electronic Systems segment. See Note 4 to the audited consolidated financial statements for the year ended December 31, 2011, included in the Company's Annual Report on Form 10-K for additional information regarding these business acquisitions and the disposition.

Unaudited Pro Forma Statements of Operations Data

The following unaudited pro forma Statement of Operations data presents the combined results of the Company and its business acquisitions completed during the year-to-date period ended September 28, 2012 and the year ended December 31, 2011, in each case assuming that the business acquisitions completed during the year-to-date period ended September 28, 2012 and the year ended December 31, 2011 had occurred on January 1, 2011.

reimbursable indirect contract costs under U.S. Government procurement regulations on their U.S. Government contracts (revenue arrangements) as inventoried contract costs. G&A, IRAD and B&P costs are allocated to contracts for which the U.S. Government is the end customer and are charged to costs of sales when sales on the related contracts are recognized. The Company's U.S. Government contractor businesses record the unallowable portion of their G&A, IRAD and B&P costs to expense as incurred, and do not include them in inventoried contract costs.

The table below presents a summary of G&A, IRAD and B&P costs included in inventoried contract costs and the changes to them, including amounts charged to cost of sales by the Company's U.S. Government contractor businesses for the periods presented.

Goodwill. In accordance with the accounting standards for business combinations, the Company records the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition (commonly referred to as the purchase price allocation). The table below presents the changes in goodwill by segment.

⁽¹⁾ The increase in goodwill for the Electronic Systems segment is due to the KEO, MAVCO and Link U.K. business acquisitions. See Note 4 for further discussion regarding these acquisitions.

⁽²⁾ The increases in goodwill presented in the Electronic Systems, AM&M and NSS segments were primarily due to the weakening of the U.S. dollar against the Euro, Canadian dollar and British pound during the year-to-date period ended September 28, 2012.

⁽³⁾ Effective January 1, 2012, the Company re-aligned a business unit's management and organizational structure, as discussed in Note 2, and made a reclassification of goodwill between the Electronic Systems and C³ISR segments during the quarter ended March 30, 2012.

excess will be settled in cash or stock or a combination thereof, at the Company's option. At the current conversion price of \$92.17, the aggregate consideration to be delivered upon conversion would be determined based on 7.5 million shares of L-3 Holdings' common stock. See Note 10 to the audited consolidated financial statements for the year ended December 31, 2011, included in the Company's Annual Report on Form 10-K for additional information regarding the CODES, including conditions for conversion. L-3 Holdings' closing stock price on November 2, 2012 was \$75.85 per share. Through February 1, 2011, the effective interest rate on the CODES was 6.33%. Interest expense related to both the contractual coupon interest and amortization of the discount on the liability component. The Company amortized the discount on the liability component of the CODES through February 1, 2011 which was the first date that the holders of the CODES had a contractual right to require L-3 Holdings to repurchase the CODES. Interest expense for the CODES after February 1, 2011 relates only to the contractual coupon interest. Interest expense recognized was \$5 million each for the third quarter ended September 28, 2012 and September 30, 2011, and \$15 million and \$17 million for the year-to-date periods ended September 28, 2012 and September 30, 2011, respectively, a portion of which was allocated to discontinued operations. The carrying amount of the equity component (conversion feature) of the CODES was \$64 million at September 28, 2012 and December 31, 2011.

On February 3, 2012, L-3 Communications amended and restated its \$1 billion Revolving Credit Facility, which extended the expiration date to February 3, 2017. See Note 10 to the audited consolidated financial statements for the year ended December 31, 2011, included in the Company's Annual Report on Form 10-K for additional information regarding the Amended and Restated Revolving Credit Agreement.

On July 26, 2012 (the redemption date), L-3 Communications used a portion of the proceeds from the spin-off of Engility to redeem \$250 million of its 2015 Notes at a redemption price of 102.125%, plus accrued and unpaid interest, up to but not including the redemption date. In connection with the redemption of the 2015 Notes, the Company recorded a debt retirement charge of \$8 million (\$5 million after income tax, or \$0.05 per diluted share).

On October 15, 2012 (the redemption date), L-3 Communications redeemed the remaining outstanding \$250 million of its 2015 Notes at a redemption price of 101.063%, plus accrued and unpaid interest, up to but not including the redemption date. In connection with the redemption, the Company will record a debt retirement charge of approximately \$5 million (\$3 million after income tax, or \$0.03 per diluted share) in the quarter ending December 31, 2012.

10. Income Taxes

The Company and its subsidiaries file income tax returns in the U.S. Federal jurisdiction and various state and foreign jurisdictions. As of September 28, 2012, the statutes of limitations for the Company's U.S. Federal income tax returns for the years ended December 31, 2009 through 2011 were open. In the third quarter of 2012, the Company reversed previously accrued amounts relating to its provision for income taxes of \$11 million due to the expiration of the statute of limitations for several tax returns, including the Company's 2008 U.S. Federal income tax return as well as certain foreign tax returns. In the second quarter of 2011, the Company reached an agreement with the Internal Revenue Service in connection with the Company's 2006 and 2007 U.S. Federal income tax returns. As a result of this agreement, the Company reversed previously accrued amounts relating to its provision for income taxes by \$12 million. As of September 28, 2012, the Company anticipates that unrecognized tax benefits will decrease by approximately \$21 million over the next 12 months due to the potential resolution of unrecognized tax benefits involving several jurisdictions and tax periods. The actual amount of the decrease over the next 12 months could vary significantly depending on the ultimate timing and nature of any settlement.

Non-current income taxes payable include accrued potential interest of \$11 million (\$7 million after income taxes) at September 28, 2012 and December 31, 2011, and potential penalties of \$7 million at September 28, 2012 and \$8 million at December 31, 2011.

⁽¹⁾ L-3 Holdings CODES had no impact on diluted EPS for the quarterly or year-to-date periods ended September 28, 2012 or September 30, 2011 as the average market price of L-3 Holdings common stock during these periods was less than the price at which the CODES would have been convertible into L-3 Holdings common stock. As of September 28, 2012, the conversion price was \$92.17.

The computation of diluted EPS excluded 3.2 million and 3.5 million of stock options for the quarterly and year-to-date periods ended September 28, 2012, respectively, and 3.3 million and 3.1 million of stock options and restricted stock units for the quarterly and year-to-date periods ended September 30, 2011, respectively, as they were anti-dilutive.

12. Equity

On April 26, 2011, L-3 Holdings Board of Directors approved a new share repurchase program that authorizes L-3 Holdings to repurchase up to \$1.5 billion of its outstanding shares of common stock through April 30, 2013. Repurchases of L-3 Holdings common stock under the share repurchase programs, approved by the Board of Directors, are made at management's discretion in accordance with applicable U.S. federal securities laws in the open market or otherwise. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, legal requirements, other investment opportunities (including acquisitions), market conditions and other factors. All share repurchases of L-3 Holdings common stock have been recorded as treasury shares. L-3 Holdings repurchased 7.2 million shares of its common stock at an average price of \$69.83 per share for an aggregate amount of approximately \$504 million from January 1, 2012 through September 28, 2012. At September 28, 2012, the remaining dollar value under the \$1.5 billion share repurchase program was approximately \$630 million.

From September 29, 2012 through October 31, 2012, L-3 Holdings repurchased 1,019,790 shares of its common stock at an average price of \$73.06 per share for an aggregate amount of \$75 million.

On October 24, 2012, L-3 Holdings Board of Directors declared a quarterly cash dividend of \$0.50 per share, payable on December 17, 2012, to shareholders of record at the close of business on November 19, 2012.

13. Fair Value Measurements

The following table presents the fair value hierarchy level for each of the Company's assets and liabilities that are measured and recorded at fair value on a recurring basis.

(1) Level 1 is based on quoted market prices available in active markets for identical assets or liabilities as of the reporting date. Cash equivalents are primarily held in registered money market funds which are valued using quoted market prices.

(2) Level 2 is based on pricing inputs other than quoted prices in active markets, which are either directly or indirectly observable. The fair value is determined using a valuation model based on observable market inputs, including quoted foreign currency forward exchange rates and consideration of non-performance risk.

(3) Level 3 is based on pricing inputs that are not observable and not corroborated by market data. The Company has no Level 3 assets or liabilities.

At September 28, 2012 and December 31, 2011, the Company's financial instruments consisted primarily of cash and cash equivalents, billed receivables, trade accounts payable, long-term debt (i.e., Senior Notes, Senior Subordinated Notes and CODES) and foreign currency forward contracts. The carrying amounts of cash and cash equivalents, billed receivables and trade accounts payable are representative of their respective fair values because of the short-term maturities or expected settlement dates of these instruments. The carrying amounts and estimated fair values of the Company's long-term debt and foreign currency forward contracts are presented in the table below.

⁽¹⁾ The Company measures the fair value of its long-term debt using Level 2 inputs based primarily on current market yields for its existing debt traded in the secondary market.

⁽²⁾ See Note 15 for additional disclosures regarding the notional amounts and fair values of foreign currency forward contracts.

15. Derivative Financial Instruments

The Company's derivative financial instruments include foreign currency forward contracts, which are entered into for risk management purposes, and an embedded derivative representing the contingent interest payment provision related to the CODES.

Foreign Currency Forward Contracts. The Company's U.S. and foreign businesses enter into contracts with customers, subcontractors or vendors that are denominated in currencies other than their functional currencies. To protect the functional currency equivalent cash flows associated with certain of these contracts, the Company enters into foreign currency forward contracts. The Company's activities involving foreign currency forward contracts are designed to hedge the changes in the functional currency equivalent cash flows due to movements in foreign exchange rates compared to the functional currency. The foreign currencies hedged are primarily the Canadian dollar, the Euro, the British pound and the U.S. dollar. The Company manages exposure to counterparty non-performance credit risk by entering into foreign currency forward contracts only with major financial institutions that are expected to fully perform under the terms of such contracts. Foreign currency forward contracts are recorded in the Company's condensed consolidated balance sheets at fair value and are generally designated and accounted for as cash flow hedges in accordance with the accounting standards for derivative instruments and hedging activities. Gains and losses on designated foreign currency forward contracts that are highly effective in offsetting the corresponding change in the cash flows of the hedged transactions are recorded net of income taxes in accumulated other comprehensive income (loss) (accumulated OCI) and then recognized in income when the underlying hedged transaction affects income. Gains and losses on foreign currency forward contracts that do not meet hedge accounting criteria are recognized in income immediately.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-Q

The effect of gains or losses from foreign currency forward contracts was not material to the unaudited condensed consolidated statements of operations for the quarterly and year-to-date periods ended September 28, 2012 and September 30, 2011. At September 28, 2012, the estimated amount of existing gains that are expected to be reclassified into income within the next 12 months is \$3 million.

16. Commitments and Contingencies

Guarantees

As previously discussed in Note 4, L-3 entered into a Distribution Agreement and several other agreements that govern certain aspects of L-3's relationship with Engility, including employee matters, tax matters, transition services, and the future supplier/customer relationship between L-3 and Engility. These agreements generally provide cross-indemnities that, except as otherwise provided, are principally designed to place the financial responsibility for the obligations and liabilities of each entity with that respective entity. Engility has joint and several liability with L-3 to the U.S. Internal Revenue Service (IRS) for the consolidated U.S. Federal income taxes of L-3's consolidated group for taxable periods in which Engility was a part of that group. However, the

Tax Matters Agreement specifies the portion of this tax liability for which L-3 and Engility will each bear responsibility, and L-3 and Engility have agreed to indemnify each other against any amounts for which the other is not responsible. The Tax Matters Agreement also allocates responsibility between L-3 and Engility for other taxes, including special rules for allocating tax liabilities in the event that the spin-off is determined not to be tax-free. Though valid as between the parties, the Tax Matters Agreement is not binding on the IRS.

Procurement Regulations

A substantial majority of the Company's revenues are generated from providing products and services under legally binding agreements or contracts with U.S. Government and foreign government customers. U.S. Government contracts are subject to extensive legal and regulatory requirements, and from time to time, agencies of the U.S. Government investigate whether such contracts were and are being conducted in accordance with these requirements. The Company is currently cooperating with the U.S. Government on several investigations, including those specified below, from which civil, criminal or administrative proceedings have or could result and give rise to fines, penalties, compensatory and treble damages, restitution and/or forfeitures. The Company does not currently anticipate that any of these investigations will have a material adverse effect, individually or in the aggregate, on its consolidated financial position, results of operations or cash flows. However, under U.S. Government regulations, an indictment of the Company by a federal grand jury, or an administrative finding against the Company as to its present responsibility to be a U.S. Government contractor or subcontractor, could result in the Company being suspended for a period of time from eligibility for awards of new government contracts or task orders or in a loss of export privileges. A conviction, or an administrative finding against the Company that satisfies the requisite level of seriousness, could result in debarment from contracting with the federal government for a specified term. In addition, all of the Company's U.S. Government contracts: (1) are subject to audit and various pricing and cost controls, (2) include standard provisions for termination for the convenience of the U.S. Government or for default, and (3) are subject to cancellation if funds for contracts become unavailable. Foreign government contracts generally include comparable provisions relating to terminations for convenience and default, as well as other procurement clauses relevant to the foreign government.

Litigation Matters

The Company is also subject to litigation, proceedings, claims or assessments and various contingent liabilities incidental to its businesses, including those specified below. Furthermore, in connection with certain business acquisitions, the Company has assumed some or all claims against, and liabilities of, such acquired businesses, including both asserted and unasserted claims and liabilities.

In accordance with the accounting standard for contingencies, the Company records a liability when management believes that it is both probable that a liability has been incurred and the Company can reasonably estimate the amount of the loss. Generally, the loss is recorded at the amount the Company expects to resolve the liability. The estimated amounts of liabilities recorded for pending and threatened litigation are disclosed in Note 8. Amounts recoverable from insurance contracts or third parties are recorded as assets when deemed probable. At September 28, 2012, the Company did not record any amounts for recoveries from insurance contracts or third parties in connection with the amount of liabilities recorded for pending and threatened litigation. Legal defense costs are expensed as incurred. The Company believes it has recorded adequate provisions for its litigation matters. The Company reviews these provisions quarterly and adjusts these provisions to reflect the impact of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular matter. While it is reasonably possible that an unfavorable outcome may occur in one or more of the following matters, unless otherwise stated below, the Company believes that it is not probable that a loss has been incurred in any of these matters. With respect to the litigation matters below for which it is reasonably possible that an unfavorable outcome may occur, an estimate of loss or range of loss is disclosed

when such amount or amounts can be reasonably estimated. Although the Company believes that it has valid defenses with respect to legal matters and investigations pending against it, the results of litigation can be difficult to predict, particularly those involving jury trials. Accordingly, our current judgment as to the likelihood of our loss (or our current estimate as to the potential range of loss, if applicable) with respect to any particular litigation matter may turn out to be wrong. Therefore, it is possible that the financial position, results of operations or cash flows of the Company could be materially adversely affected in any particular period by the unfavorable resolution of one or more of these or other contingencies.

Kalitta Air. On January 31, 1997, a predecessor of Kalitta Air filed a lawsuit in the U.S. District Court for the Northern District of California (the trial court) asserting, among other things, negligence and negligent misrepresentation against Central Texas Airborne Systems, Inc. (CTAS), a predecessor to L-3 Integrated Systems (L-3 IS), in connection with work performed by a predecessor to CTAS to convert two Boeing 747 aircraft from passenger configuration to cargo freighters. CTAS' insurance carrier has accepted defense of this matter and has retained counsel, subject to a reservation of rights by the insurer to dispute its obligations under the applicable insurance policies in the event a judgment is ultimately rendered against CTAS. The work at issue in the lawsuit was performed using Supplemental Type Certificates (STCs) issued in 1988 by the Federal Aviation Administration (FAA). In 1996, following completion of the work, the FAA issued an airworthiness directive with respect to the STCs that effectively grounded the aircraft. On August 11, 2000, the trial court granted CTAS' motion for summary judgment as to negligence, dismissing that claim. In January 2001, after a ruling by the trial court that excluded certain evidence from trial, a jury rendered a unanimous defense verdict in favor of CTAS on the negligent misrepresentation claim. On December 10, 2002, the U.S. Court of Appeals for the Ninth Circuit (the Court of Appeals) reversed the trial court's decisions as to summary judgment and the exclusion of evidence, and remanded the case for a new trial on both the negligence and negligent misrepresentation claims. The retrial ended on March 2, 2005 with a deadlocked jury and mistrial. On July 22, 2005, the trial court granted CTAS' motion for judgment as a matter of law as to negligence, dismissing that claim, and denied CTAS' motion for judgment as a matter of law as to negligent misrepresentation. On October 8, 2008, the Court of Appeals reversed the trial court's dismissal of the negligence claim and affirmed the trial court's ruling as to the negligent misrepresentation claim. As a result, the case was remanded to the trial court to reconsider the negligence claim and for further proceedings on the negligent misrepresentation claim. The trial court held a new hearing on CTAS' motion to dismiss the negligence claim on April 30, 2009, after which it determined to take the matter under advisement. A third jury trial for this matter began on October 31, 2011, during which Kalitta Air sought damages of approximately \$235 million plus an unspecified amount of pre-judgment interest that, in other contexts, has been claimed by Kalitta Air to exceed \$240 million. Following the completion of the third trial on November 30, 2011, the jury rendered a verdict in favor of CTAS, finding no negligence on the part of CTAS. The trial court entered a judgment upon the verdict on March 20, 2012. Kalitta Air has appealed the judgment to the Court of Appeals.

Bashkirian Airways. On July 1, 2004, lawsuits were filed on behalf of the estates of 31 Russian children in the state courts of Washington, Arizona, California, Florida, New York and New Jersey against Honeywell, Honeywell TCAS, Thales USA, Thales France, the Company and Aviation Communications & Surveillance Systems (ACSS), which is a joint venture of L-3 and Thales. The suits relate to the crash over southern Germany of Bashkirian Airways Tupelov TU 154M aircraft and a DHL Boeing 757 cargo aircraft. On-board the Tupelov aircraft were 9 crew members and 60 passengers, including 45 children. The Boeing aircraft carried a crew of two. Both aircraft were equipped with Honeywell/ACSS Model 2000, Change 7 Traffic Collision and Avoidance Systems (TCAS). Sensing the other aircraft, the on-board DHL TCAS instructed the DHL pilot to descend, and the Tupelov on-board TCAS instructed the Tupelov pilot to climb. However, the Swiss air traffic controller ordered the Tupelov pilot to descend. The Tupelov pilot disregarded the on-board TCAS and put the Tupelov aircraft into a descent striking the DHL aircraft in midair at approximately 35,000 feet. All crew and passengers

of both planes were lost. Investigations by the National Transportation Safety Board after the crash revealed that both TCAS units were performing as designed. The suits allege negligence and strict product liability based upon the design of the units and the training provided to resolve conflicting commands and seek approximately \$315 million in damages, including \$150 million in punitive damages. The Company's insurers have accepted defense of this matter and have retained counsel. The matters were consolidated in the U.S. District Court for the District of New Jersey, which has dismissed the actions on the basis of forum non conveniens. The plaintiffs re-filed a complaint on April 23, 2007 with the Barcelona Court's Registry in Spain. On March 9, 2010, the court ruled in favor of the plaintiffs and entered judgment against ACSS in the amount of approximately \$6.7 million, all of which represented compensatory damages. Both ACSS and the plaintiffs appealed the judgment. In May 2012, the appellate court ruled in favor of the plaintiffs and entered judgment against ACSS in the amount of \$48 million. The Company filed an appeal of the judgment with the Supreme Court of Spain on September 28, 2012 because it believes that the ruling and the damages awarded are inconsistent with the law and evidence presented. The Company continues to believe that it is not probable that a loss has been incurred with respect to this matter.

Gol Airlines. A complaint was filed on November 7, 2006 in the U.S. District Court for the Eastern District of New York against ExcelAire, Joseph Lepore, Jan Paul Paladino, and Honeywell. On October 23, 2007, an amended complaint was filed to include Lockheed, Raytheon, Amazon Technologies and ACSS. The complaints relate to the September 29, 2006 airplane crash over Brazil of a Boeing 737-800 operated by GOL Linhas Aereas Inteligentes, S.A. and an Embraer 600 business jet operated by ExcelAire. The complaints allege that ACSS designed the TCAS on the ExcelAire jet, and assert claims of negligence, strict products liability and breach of warranty against ACSS based on the design of the TCAS and the instructions provided for its use. The complaints seek unspecified monetary damages, including punitive damages. The Company's insurers have accepted defense of this matter and have retained counsel. On July 2, 2008, the District Court dismissed the actions on the basis of forum non conveniens on the grounds that Brazil was the location of the accident and is more convenient for witnesses and document availability. On December 2, 2009, the U.S. Court of Appeals for the Second Circuit upheld this decision. Twelve of the plaintiffs re-filed their complaints in the Lower Civil Court in the Judicial District of Peixoto de Azevedo in Brazil on July 3, 2009, but withdrew their complaints in July 2010 without prejudice to their right to re-file them against ACSS. An additional four plaintiffs re-filed their complaints in the Lower Civil Court in Rio de Janeiro before the expiration of the statute of limitations. ACSS has not been served in any of these actions. While the statute of limitations has expired and would bar any additional plaintiffs (beyond the 16 noted above) from re-filing claims directly against ACSS, it would not bar GOL from filing a future suit against ACSS based on litigation claims being pursued by the original plaintiffs against GOL in connection with this matter. The Company is unable to estimate a range of loss that is reasonably possible for this matter because: (i) the proceedings are in early stages; (ii) there are significant factual issues to be resolved; (iii) there is uncertainty as to the outcome of the claims being pursued against GOL; and (iv) the Company's knowledge of the proceedings relating to these claims is limited.

Contributions. For the year ending December 31, 2012, the Company currently expects to contribute cash of approximately \$174 million to its pension plans, and approximately \$13 million to its postretirement benefit plans. The Company contributed cash of \$138 million to its pension plans and \$8 million to its postretirement benefit plans during the year-to-date period ended September 28, 2012.

18. Employee Stock-Based Compensation

During the year-to-date period ended September 28, 2012, the Company granted stock-based compensation under the Amended and Restated 2008 Long Term Performance Plan (2008 LTPP) in the form of stock options, restricted stock units and performance units.

Engility Spin-off Adjustments. As a result of the spin-off of Engility, effective July 17, 2012, all outstanding stock-based compensation awards related to current and former Engility employees were assumed by and transferred to Engility. The share amounts for outstanding stock options, restricted stock units and performance units that remained with L-3, and the strike price for such stock options were adjusted to maintain their aggregate intrinsic value at the date of the spin-off pursuant to the terms of the Company's 2008 LTPP and resulted in no charge to the statement of operations. The conversion ratio for stock options, restricted stock units and performance units that remained with L-3 was 1.04.

Stock Options. The Company granted 811,193 stock options with an exercise price equal to the closing price of L-3 Holdings common stock on the date of grant. The options expire after 10 years from the date of grant and vest ratably over a three-year period on the annual anniversary of the date of grant. The options granted to our Chairman, President and Chief Executive Officer are also subject to performance-based vesting conditions. The weighted average grant date fair value for the options awarded was \$11.12 per option and was estimated using the Black-Scholes option-pricing model. The weighted average assumptions used in the valuation model for this grant are presented in the table below.

Expected holding period (in years)	5.3
Expected volatility	26.5%
Expected dividend yield	3.5%
Risk-free interest rate	1.0%

Restricted Stock Units. The Company granted 715,866 restricted stock units with a weighted average grant date fair value of \$67.48 per share. Restricted stock units automatically convert into shares of L-3 Holdings common stock upon vesting, and are subject to forfeiture until certain restrictions have lapsed, including a three year cliff vesting period for employees and a one year cliff vesting period for non-employee directors, in each case starting on the date of grant.

Performance Units. The Company granted 66,756 performance units with a weighted average grant date fair value per unit of \$67.49. The final payout for these units is based on the achievement of pre-determined EPS goals established by the compensation committee of the Company's Board of Directors for the three-year period ending December 31, 2014. The payout can range from zero to 200% of the original number of units awarded, which are converted into shares of L-3 Holdings common stock based on the then existing closing price at the end of the performance period.

The Company has four segments, which are described in Note 1. The tables below present net sales, operating income, depreciation and amortization and total assets by segment. Certain corporate expenses that had previously been allocated to the Engility businesses were retained by the Company and have been allocated to L-3's four reportable segments. These corporate expenses were \$7 million for the third quarter ended September 30, 2011, and \$10 million and \$20 million for the year-to-date periods ended September 28, 2012 and September 30, 2011 respectively.

- (1) Effective January 1, 2012, the company re-aligned a business unit's management and organizational structure, as discussed in Note 2, and made a reclassification of sales of \$17 million and \$55 million from the C³ISR segment to the Electronic Systems segment for the third quarter and year-to-date periods ended September 30, 2011, respectively. Operating income of \$2 million was reclassified from the C³ISR segment to the Electronic Systems segment for the third quarter period ended September 30, 2011. At December 31, 2011, \$124 million of assets were reclassified from the C³ISR segment to the Electronic Systems segment.

21. Employee Severance and Termination Costs

Consistent with the Company's strategy to continuously improve its cost structure and right-size its businesses, the Company has completed employment reduction actions across several of its businesses to reduce both direct and indirect costs, including overhead and general and administrative costs. As a result of these initiatives, the Company recorded \$19 million in employee severance and other related termination costs for approximately 1,200 employees during the year-to-date period ended September 28, 2012. During the year ended December 31, 2011, the Company recorded a total of \$20 million in employee severance and other termination costs for approximately 1,200 employees. Employee severance and other termination costs are reported within cost of sales on the unaudited condensed consolidated statement of operations. The remaining balance to be paid for these initiatives was \$10 million at September 28, 2012. Information on employee severance and other termination costs incurred by reportable segment for the year-to-date periods ended September 28, 2012 and September 30, 2011 is presented in the table below.

22. Condensed Combining Financial Information of L-3 Communications and Its Subsidiaries

L-3 Communications is a wholly-owned subsidiary of L-3 Holdings. The debt of L-3 Communications, including the Senior Notes, Senior Subordinated Notes and borrowings under amounts drawn against the Amended and Restated Revolving Credit Facility are guaranteed, on a joint and several, full and unconditional basis, by certain of its domestic subsidiaries (the Guarantor Subsidiaries). The debt of L-3 Holdings, including the CODES, are guaranteed on a joint and several, full and unconditional basis, by L-3 Communications and certain of its domestic subsidiaries. See Note 10 to the audited consolidated financial statements for the year ended December 31, 2011, included in the Company's Annual Report on Form 10-K. The foreign subsidiaries and certain domestic subsidiaries of L-3 Communications (the Non-Guarantor Subsidiaries) do not guarantee the debt of L-3 Communications or L-3 Holdings. None of the debt of L-3 Communications has been issued by its subsidiaries. There are no restrictions on the payment of dividends from the Guarantor Subsidiaries to L-3 Communications.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-Q

Prior to the spin-off of Engility on July 17, 2012, Engility Holdings, Inc., Engility Corporation, International Resources Group Ltd. and LinCom Wireless, Inc. were guarantor subsidiaries of the Company. As a result of the spin-off, these entities no longer guarantee the debt of L-3 Communications or L-3 Holdings. As a result, the assets, liabilities, results of operations and cash flows of the Engility businesses have been reclassified from guarantor subsidiaries to L-3 Communications as discontinued operations in the following condensed combining financial information.

ITEM 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS**

Overview and Outlook

Spin-off of Engility

On July 17, 2012, L-3 completed the spin-off of its subsidiary, Engility Holdings, Inc. (Engility) to L-3's shareholders. The spin-off was a tax-free distribution to L-3 shareholders for U.S. federal tax purposes, except for cash received in lieu of fractional shares. L-3 shareholders of record on July 16, 2012 (the record date) received one share of Engility common stock for every six shares of L-3 common stock held on the record date. Engility began trading as an independent publicly traded company on the New York Stock Exchange on July 18, 2012.

Engility included the systems engineering and technical assistance (SETA), training and operational support services businesses that were part of L-3's Government Services segment. L-3 retained the cyber security, intelligence, enterprise information technology (IT) and security solutions businesses that were also part of L-3's Government Services segment, which was renamed National Security Solutions (NSS). The NSS businesses develop unique solutions to address growing challenges for the United States (U.S.) Department of Defense (DoD), U.S. Government intelligence agencies, and global security customers.

In connection with the spin-off, Engility made a cash distribution of \$335 million to L-3. We used a portion of the proceeds to redeem \$250 million of our 6³/₈% Senior Subordinated Notes due 2015 (2015 Notes) on July 26, 2012 and we intend to use the remaining proceeds primarily to repurchase outstanding shares of our common stock. There was no gain or loss recognized by us as a result of the spin-off transaction.

Prior to the completion of the spin-off, L-3 and Engility entered into a Distribution Agreement dated July 16, 2012 and several other agreements that govern certain aspects of our relationship with Engility following the spin-off. These agreements generally provide that each party will be responsible for its respective assets, liabilities and obligations, including employee benefits, insurance and tax-related assets and liabilities, following the spin-off, whether accrued or contingent. The agreements also describe our future commitments to provide Engility with certain services for a period of two to eighteen months in most circumstances.

As a result of the spin-off, the assets, liabilities and non-controlling interests, results of operations and cash flows of the Engility businesses have been classified as discontinued operations for all periods presented. We incurred transaction expenses in connection with the spin-off of \$19 million (\$14 million after income tax) for the year-to-date period ended September 28, 2012 and \$4 million (\$3 million after income tax) year-to-date period ended September 30, 2011, which have been included in discontinued operations. In addition, we allocated interest expense for debt not directly attributable or related to L-3's other operations of \$14 million for the year-to-date period ended September 28, 2012 and \$24 million for the year-to-date period ended September 30, 2011. Interest expense was allocated in accordance with the accounting standards for discontinued operations and was based on the ratio of Engility net assets to the sum of: (1) total L-3 consolidated net assets and (2) L-3 consolidated total debt.

Table of Contents

Statement of operations data classified as discontinued operations related to Engility is provided in the table below:

In connection with the spin-off of Engility, L-3 was required to allocate the goodwill of the former Government Services reporting unit between Engility and NSS based on the relative fair values of each business at the spin-off date in accordance with the accounting standards for goodwill. As a result, based on the relative fair value, L-3 allocated \$1,225 million being allocated to Engility.

L-3's Business

L-3 is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C³ISR) systems, aircraft modernization and maintenance, and national security solutions. L-3 is also a leading provider of a broad range of electronic systems used on

military and commercial platforms. Our

Table of Contents

customers include the DoD and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), allied foreign governments, and domestic and foreign commercial customers.

For the year ended December 31, 2011, we generated sales of \$13.2 billion. Our primary customer was the DoD. The table below presents a summary of our 2011 sales by end customer and the percent contributed by each to our total 2011 sales. We currently expect sales to the DoD, as a percentage of total 2012 sales, to decline by a few percentage points as compared to sales to the DoD as a percentage of total 2011 sales.

	2011 Sales (in millions)	% of 2011 Sales
DoD	\$ 9,711	74%
Other U.S. Government	728	5
Total U.S. Government	10,439	79%
Foreign governments	1,192	9
Commercial foreign	898	7
Commercial domestic	629	5
Total sales	\$ 13,158	100%

We have the following four reportable segments: (1) Electronic Systems, (2) C³ISR, (3) Aircraft Modernization and Maintenance (AM&M), and (4) NSS. Financial information with respect to each of the Company's segments is included in Note 20. Electronic Systems provides a broad range of products and services, including components, products, subsystems and systems and related services to military and commercial customers in several niche markets across several business areas, including microwave, power & control systems, integrated sensor systems, aviation products, simulation & training, warrior systems, precision engagement, security & detection, space & propulsion, undersea warfare and marine services. C³ISR provides products and services for the global ISR (intelligence, surveillance and reconnaissance) market, C³ systems, networked communications systems and secure communications products. The Company believes that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. AM&M provides modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. The Company sells these services primarily to the DoD, the Canadian Department of Defense and other allied foreign governments. NSS provides a full range of cyber security, intelligence, enterprise information technology (IT) and security solutions services to the DoD, DoS, U.S. Government intelligence agencies and global security customers.

Industry Considerations

As described above, sales to the DoD represented approximately 74% of our total 2011 sales. The U.S. Government fiscal year ends on September 30th. From fiscal year (FY) 2000 to FY 2010, the DoD budget, including wartime funding for Overseas Contingency Operations (OCO) grew at a compound annual rate of approximately 9%. The total DoD budget (base and OCO) for FY 2011 was approximately flat compared to fiscal year 2010. During the year ended December 31, 2011, the U.S. Government completed its drawdown of U.S. military troops from Iraq, and began to drawdown troops from Afghanistan, in accordance with the Obama Administration's (the Administration) plan to complete the drawdown from Afghanistan by the end of 2014. While the U.S. is expected to maintain a presence in the Middle East to deter aggression and prevent the emergence of new threats, we expect that there will be a rebalance toward other regions of the world such as the Asia-Pacific theatre. In addition, the U.S. Government has been under increasing pressure to reduce the U.S. fiscal budget deficit and national spending.

In August 2011, Congress enacted the Budget Control Act of 2011 (the BCA). The BCA immediately imposes spending caps that contain approximately \$487 billion in reductions to the DoD base budgets over the next ten years (FY 2012 to FY 2021), compared to previously proposed DoD base budgets for the same fiscal years. An

Table of Contents

automatic sequestration process was also triggered and becomes effective on January 3, 2013, unless modified by the enactment of new law. The sequestration process imposes additional cuts of approximately \$50 billion per year to the currently proposed DoD budgets for each fiscal year beginning with FY 2013 through FY 2021, for which FY 2013 to FY 2017 proposed DoD budgets are presented below. If the sequestration cuts to the DoD budgets occur, we expect that they will have a negative impact on our results of operations and cash flows, and could cause goodwill impairment charges.

On February 13, 2012, the Administration submitted its FY 2013 proposed budget (FY 2013 DoD Plan) to Congress, which complies with the first phase of the BCA imposed spending cuts. The FY 2013 DoD Plan reduces proposed DoD base budgets by \$259 billion for FY 2013 to FY 2017, compared to the previously proposed DoD base budgets. The FY 2013 DoD Plan does not address or provision for the automatic sequestration process. The FY 2013 DoD Plan reflects a revised national security strategy that includes a more disciplined use of resources from: (1) various efficiency initiatives, (2) military force structure reductions, (3) equipment modernization savings, including program terminations, restructuring and deferrals, and (4) military personnel compensation changes. The table below presents the enacted DoD budget (base and OCO) for FY 2012 and the proposed DoD budgets for FY 2013 to FY 2017, as provided in the FY 2013 DoD Plan.

Fiscal Year	Base	OCO (in billions)	Total	Annual Total Budget Change
2012	\$ 530.6	\$ 115.1	\$ 645.7	-6%
2013	\$ 525.4	\$ 88.5	\$ 613.9	-5%
2014	\$ 533.6	\$ 44.2	\$ 577.8	-6%
2015	\$ 545.9	\$ 44.2	\$ 590.1	2%
2016	\$ 555.9	\$ 44.2	\$ 600.1	2%
2017	\$ 567.3	\$ 44.2	\$ 611.5	2%

The FY 2013 DoD Plan continues to focus on advanced ISR, communications, strike aircraft, precision-guided weapons, unmanned systems, networked information technologies, cyber security, special operations forces, missile defense and space programs, and generally, systems and capabilities that are critical to both conventional and irregular warfare, and the ability to project power in denied environments. We believe L-3 is well positioned to benefit from the DoD's focus in several of these areas. The declining DoD budgets, however, will reduce funding for some of our revenue arrangements and generally will have a negative impact on our sales, results of operations and cash flows. Additionally, the planned withdrawal of U.S. military forces from Afghanistan by the end of 2014 is expected to negatively impact our sales related to supporting U.S. military operations in Afghanistan.

In September 2012, Congress passed and the President signed a six-month continuing resolution on appropriations which funds the DoD at the BCA cap level until March 27, 2013.

Key Performance Measures

The primary financial performance measures that L-3 uses to manage its businesses and monitor results of operations are sales and operating income trends. The two main determinants of our operating income are sales and operating margin. We define operating margin as operating income as a percentage of sales. Management believes that these financial performance measures (sales growth and operating margin improvements) are the primary growth drivers for L-3's earnings per common share and net cash from operating activities. Generally, in evaluating our businesses and contract performance, we focus on net sales, operating income and operating margin, and not by type or amount of operating costs. As a result of this approach and the general nature of our operations, the discussion of results of operations focuses on changes in net sales and operating margin.

One of L-3's primary business objectives is to increase sales from organic growth and select business acquisitions. We define organic sales growth as the increase or decrease in sales for the current period compared to the prior period, excluding sales in the: (1) current period from business acquisitions that are included in L-3's actual results of operations for less than twelve months, and (2) prior period from business divestitures that are

Table of Contents

included in L-3's actual results of operations for the twelve-month period prior to the divestiture date. We expect to supplement our organic sales growth by selectively acquiring businesses that: (1) add important new technologies and products, (2) provide access to select customers, programs and contracts, (3) expand our market share and strengthen our businesses and (4) provide attractive returns on investment.

Sales Trend. For the year ended December 31, 2011, consolidated net sales of \$13,158 million declined by 2%, due to a decline in organic sales of 3%, partially offset by net sales from business acquisitions of 1%. For the quarter ended September 28, 2012 (2012 Third Quarter), consolidated net sales of \$3,283 million declined by \$18 million, or 0.5%, due to a decline in organic sales of \$81 million, or 2.4%, partially offset by net sales from acquisitions of \$63 million, or 1.9%, compared to the quarter ended September 30, 2011 (2011 Third Quarter). For the year-to-date period ended September 28, 2012 (2012 Year-to-Date Period), consolidated net sales of \$9,586 million declined by \$29 million, or 0.3%, due to a decline in organic sales of \$159 million, or 1.7%, partially offset by net sales from acquisitions of \$130 million, or 1.4%, compared to the year-to-date period ended September 30, 2011 (2011 Year-to-Date Period).

For the year ended December 31, 2011, our largest contract (revenue arrangement) in terms of annual sales was the Fort Rucker Maintenance Support contract with the U.S. Army Aviation and Missile Life Cycle Management Command (AMCOM), which is included in our AM&M segment. Under this contract, which generated approximately 4% of our 2011 sales, we provide maintenance, logistics and other related sustainment support services for rotary-wing aircraft assigned to Fort Rucker and satellite units in Alabama. On July 24, 2012, we won the AMCOM contract re-competition, which includes a one-year base period through September 30, 2013, and four one-year options, with an estimated total contract value of \$1.98 billion. However, the award has been protested. We expect a decision on the award in the fourth quarter of 2012. We cannot provide any reassurance that we will prevail in the protest.

Operating Income Trend. Operating income for the 2012 Third Quarter was \$331 million, a decrease of 8% from \$359 million for the 2011 Third Quarter. Our operating margin was 10.1% for the 2012 Third Quarter, a decrease of 80 basis points from 10.9% for the 2011 Third Quarter.

Operating income for the 2012 Year-to-Date Period was \$987 million, a decrease of 6% from \$1,045 million for the 2011 Year-to-Date Period. Our operating margin was 10.3% for the 2012 Year-to-Date Period, a decrease of 60 basis points from 10.9% for the 2011 Year-to-Date Period. See Results of Operations, including segment results below for a discussion of operating margin.

We are focused on increasing operating margin, to the extent possible, by reducing our indirect costs and improving our overall contract performance. Our 2012 Third Quarter and Year-to-Date Period operating margin was lower than our prior year comparative period operating margin and we expect our 2012 annual operating margin to decline as compared to 2011. While we are taking actions to increase operating margin, these actions may not be successful. Furthermore, in the future, select business acquisitions and select new business, including contract renewals and new contracts, could have lower operating margins than L-3's operating margin on existing business and contracts. Changes in the competitive environment and DoD procurement practices and reductions in our consolidated sales levels could also result in lower operating margin.

Other Events

2012 Amended and Restated Revolving Credit Facility. On February 3, 2012, we amended and restated our \$1 billion Revolving Credit Facility, which extended the expiration date to February 3, 2017. The terms of the Amended and Restated Revolving Credit Facility are substantially consistent with the terms of this facility prior to its amendment and restatement except that: (1) provisions that previously limited the ability of L-3 Communications to pay dividends, repurchase L-3 Holdings' common stock and make other distributions with respect to any capital stock were eliminated, (2) a provision that previously limited the ability of L-3 Communications to make investments in L-3 Holdings was made less restrictive and (3) the cost of borrowings, loan commitment fees and letter of credit fees were reduced. In addition, the Amended and Restated Revolving Credit Facility provides for uncommitted incremental revolving facilities and additional term loan facilities in an aggregate principal amount of up to \$500 million. See Note 9 of our unaudited condensed consolidated financial statements contained in this quarterly report for additional information regarding the amendment of our \$1 billion Amended and Restated Revolving Credit Facility.

Debt Redemptions. On July 26, 2012 (the redemption date), L-3 Communications used a portion of the proceeds from the spin-off of Engility to redeem \$250 million of its 6³/₈% Senior Subordinated Notes due 2015 (2015 Notes) at a redemption price of 102.125%, plus accrued and unpaid interest, up to but not including the redemption date. In connection with the redemption of the 2015 Notes, we recorded a debt retirement charge of \$8 million (\$5 million after income tax, or \$0.05 per diluted share).

On October 15, 2012 (the redemption date), L-3 Communications redeemed the remaining outstanding \$250 million of its 2015 Notes at a redemption price of 101.063%, plus accrued and unpaid interest up to but not including the redemption date. In connection with the redemption we will record a debt retirement charge of approximately \$5 million (\$3 million after income tax, or \$0.03 per diluted share) in the quarter ending December 31, 2012.

Business Acquisitions and Dispositions

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 summarizes the business acquisitions and business dispositions that we completed during the three years ended December 31, 2011. During the 2012 Year-to-Date Period, we used \$349 million of cash to acquire the Kollmorgen Electro-Optical (KEO) business, MAVCO, Inc. (MAVCO) and the commercial aircraft simulation business from Thales Group (named Link Simulation & Training U.K., Limited (Link U.K.)). All of our business acquisitions are included in our consolidated results of operations from their dates of acquisition. Also, see Note 4 to our unaudited condensed consolidated financial statements contained in this quarterly report for further discussion of the business acquisitions completed during the 2012 Year-to-Date Period.

On July 17, 2012, we completed the previously announced spin-off of our subsidiary, Engility Holdings, Inc. See Overview and Outlook for further discussion of the distribution of proceeds and impact on our financial results and financial position.

Results of Operations

The following information should be read in conjunction with our unaudited condensed consolidated financial statements contained in this quarterly report. Our results of operations for the periods presented are affected by our business acquisitions. See Note 4 to our unaudited condensed consolidated financial statements contained in this quarterly report for a discussion of our 2012 business acquisitions and Note 4 to our audited consolidated financial statements for the year ended December 31, 2011, included in our Annual Report on Form 10-K, for a discussion of our 2011 business acquisitions.

Net Sales: For the 2012 Third Quarter, consolidated net sales of \$3.3 billion were 0.5% lower than the 2011 Third Quarter. Sales growth from the AM&M, C³ISR and Electronic Systems segments was offset by lower sales from the NSS segment. Acquired businesses, which are all included in the Electronic Systems segment, added \$63 million to net sales in the 2012 Third Quarter. Net sales to commercial and foreign government end customers grew 19% to \$808 million for the 2012 Third Quarter compared to \$679 million for the 2011 Third Quarter.

Sales from services, which include services performed by businesses primarily in our AM&M, C³ISR and NSS segments decreased by \$79 million to \$1,368 million, representing approximately 42% of consolidated net sales for the 2012 Third Quarter, compared to \$1,447 million, or approximately 44% of consolidated net sales for the 2011 Third Quarter. Sales from services decreased primarily due to: (1) a decrease in logistic support services due to the competitive loss of a task order for contract field team support services in Southwest Asia for the U.S. Army, (2) a decline in IT support services for select non-DoD U.S. Government agencies due to customer IT spending reductions and competitive contract losses in 2011, and (3) less demand for U.S. Special Operations Command IT support services due to our previous single-award contract converting to several multiple-award contracts, which reduced our work share.

Sales from products, which primarily include products from our Electronic Systems and C³ISR segments, increased by \$61 million to \$1,915 million, representing approximately 58% of consolidated net sales for the 2012 Third Quarter, compared to \$1,854 million, or approximately 56% of consolidated net sales for the 2011 Third Quarter. Sales from products increased primarily due to sales from the KEO and Link U.K. business acquisitions, and organic sales growth primarily for: (1) Platform Systems sales for the new Australia C-27J contract and (2) Microwave Products due to increased deliveries of mobile and ground-based satellite communication systems for the U.S. military and power devices for commercial satellite communication systems. These increases were partially offset by decreases due to Marine & Power Systems due to lower demand primarily for commercial shipbuilding products as well as negative foreign currency translation, lower sales for networked communications systems primarily from fewer deliveries of remote video terminals and reduced shipments of tactical quiet generators for the U.S. Army.

For the 2012 Year-to-Date Period consolidated net sales of \$9.6 billion decreased by \$29 million compared to the 2011 Year-to-Date Period. Higher sales from the C³ISR and AM&M segments were offset by lower sales from the NSS and Electronic Systems segments. Acquired businesses, which are all included in the Electronic Systems segment, added \$130 million to net sales in the 2012 Year-to-Date Period. Net sales to commercial and foreign government end customers grew 12% to \$2,223 million for the 2012 Year-to-Date Period compared to \$1,992 million for the 2011 Year-to-Date Period.

Sales from services decreased by \$17 million to \$4,134 million, representing approximately 43% of consolidated net sales for the 2012 Year-to-Date Period, compared to \$4,151 million, or approximately 43% of consolidated net sales for the 2011 Year-to-Date Period. The net decrease in sales from services was primarily due to trends similar to the 2012 Third Quarter as discussed above. Sales also declined for intelligence support services due to the drawdown of U.S. military forces in Iraq. In addition, sales increased due to higher demand for field maintenance and sustainment services on a U.S. Army rotary wing aircraft contract that was competitively won in September 2011 and for the U.S. C-12 aircraft.

Sales from products decreased by \$12 million to \$5,452 million, representing approximately 57% of consolidated net sales for the 2012 Year-to-Date Period, compared to \$5,464 million for the 2011 Year-to-Date Period, or approximately 57% of consolidated net sales for the 2011 Year-to-Date Period. The net decrease in product sales was primarily due to trends similar to the 2012 Third Quarter as discussed above as well as lower sales for Warrior Systems for night vision and illumination products due to reduced U.S. Army requirements and Precision Engagement due to contracts nearing completion and lower demand. In addition, the decreases were partially offset by organic sales growth from Sensor Systems due to higher sales of airborne EO/IR turrets to the DoD and networked communication systems due to higher volume for manned and unmanned platforms for the DoD.

Table of Contents

See the segment results below for additional discussion of our sales.

Operating income and operating margin: Operating income for the 2012 Third Quarter decreased by \$28 million compared to the 2011 Third Quarter. Operating income as a percentage of net sales (operating margin) decreased by 80 basis points to 10.1% for the 2012 Third Quarter compared to 10.9% for the 2011 Third Quarter primarily due to higher pension expense of \$15 million (\$9 million after income tax, or \$0.09 per diluted share) reduced operating margin by 40 basis points.

Operating income for the 2012 Year-to-Date Period decreased by \$58 million compared to the 2011 Year-to-Date Period. Operating margin decreased by 60 basis points to 10.3% for the 2012 Year-to-Date Period compared to 10.9% for the 2011 Year-to-Date Period. Higher pension expense of \$28 million (\$17 million after income tax, or \$0.17 per diluted share) reduced operating margin by 30 basis points.

See the segment results below for additional discussion of our operating margin.

Net interest expense and other income: Net interest expense and other income increased by \$1 million for the 2012 Third Quarter compared to the same period last year. The 2012 Third Quarter includes a \$3 million (\$2 million after income tax, or \$0.02 per diluted share) non-cash asset impairment charge related to the planned dissolution of an unconsolidated joint venture. Interest expense declined by \$2 million due to lower interest rates on outstanding fixed rate debt.

Net interest expense and other income decreased by \$10 million for the 2012 Year-to-Date Period compared to the same period last year. Lower interest expense of \$13 million on outstanding fixed rate debt was partially offset by the \$3 million non-cash asset impairment charge recorded in the 2012 Third Quarter, related to the planned dissolution of an unconsolidated joint venture.

Debt retirement charge: During the 2012 Third Quarter and Year-to-Date Period, the company recorded a debt retirement charge of \$8 million (\$5 million after income tax, or \$0.05 per diluted share) related to the redemption of \$250 million of the 2015 Notes.

During the 2011 Year-to-Date Period, the company redeemed \$650 million of its 5 ⁷/₈% Senior Subordinated Notes due 2015 and recorded a debt retirement charge of \$18 million (\$11 million after income tax, or \$0.10 per diluted share).

Effective income tax rate: The effective tax rate for the 2012 Third Quarter decreased by 230 basis points compared to the same period last year. The effective tax rate decreased by 390 basis points due to a tax benefit of \$11 million primarily related to the reversal of amounts previously accrued for tax years in which the statutes of limitations expired, partially offset by the expiration of the U.S. Federal research and experimentation tax credit on December 31, 2011.

The effective tax rate for the 2012 Year-to-Date Period increased by 120 basis points compared to the same period last year primarily due to the expiration of the U.S. Federal research and experimentation tax credit on December 31, 2011. The 2012 and 2011 Year-to-Date Periods included tax benefits of \$11 million and \$12 million, respectively, primarily related to the reversal of amounts previously accrued for prior tax years.

Net income from continuing operations attributable to L-3 and diluted earnings per share from continuing operations: Net income from continuing operations attributable to L-3 in the 2012 Third Quarter decreased 9% to \$193 million compared to the 2011 Third Quarter, and diluted earnings per share (EPS) from continuing operations decreased 2% to \$1.98 from \$2.02.

Net income from continuing operations attributable to L-3 in the 2012 Year-to-Date Period decreased 6% to \$570 million compared to the 2011 Year-to-Date Period, and diluted EPS from continuing operations increased 3% to \$5.78 from \$5.62.

Diluted weighted average common shares outstanding: Diluted weighted average common shares outstanding for the 2012 Third Quarter and the 2012 Year-to-Date Period declined by 7% and 8%, respectively. The decrease was due to repurchases of our common stock in connection with our share repurchase program authorized by our Board of Directors, partially offset by additional shares issued in connection with various employee stock-based compensation programs and contributions to employee savings plans made in common stock.

Operating income of \$2.1 million was reclassified from the C³ISR segment to the Electronic Systems segment for the third quarterly period ended September 30, 2011.

Electronic Systems net sales for the 2012 Third Quarter increased by \$9 million, or 1%, compared to the 2011 Third Quarter. Sales increased for: (1) Microwave Products by \$35 million primarily for increased deliveries of mobile and ground-based satellite communication systems for the U.S. military and power devices for commercial satellite communication systems, (2) Sensor Systems by \$30 million primarily from the KEO acquisition and (3) Simulation & Training by \$20 million primarily due to the Link U.K. acquisition. These increases were partially offset by a sales decrease of \$63 million for Marine & Power Systems due to lower

Table of Contents

demand primarily for commercial shipbuilding products, which reduced sales by \$37 million (including \$15 million of negative foreign currency translation), and reduced shipments of tactical quiet generators for the U.S. Army, which reduced sales by \$26 million. Also, sales declined by \$13 million for Precision Engagement due to lower volume from contracts nearing completion during the quarter and lower demand.

Electronic Systems operating income for the 2012 Third Quarter decreased by \$8 million, or 5%, compared to the 2011 Third Quarter. Operating margin decreased by 70 basis points to 11.3%. Sales mix changes reduced operating margin by 40 basis points and higher pension expense of \$4 million reduced operation margin by 30 basis points.

Electronic Systems net sales for the 2012 Year-to-Date period decreased by \$13 million, or 0.3%, compared to the 2011 Year-to-Date period. Sales declined for: (1) Marine & Power Systems by \$105 million primarily due to reduced shipments of tactical quiet generators for the U.S. Army, which reduced sales by \$72 million and \$33 million of negative foreign currency translation, (2) Warrior Systems by \$68 million for night vision and illumination products due to reduced U.S. Army requirements, and (3) Precision Engagement by \$65 million due to contracts nearing completion and lower demand. These declines were partially offset by sales increases of: (1) \$135 million for Sensor Systems, comprised of \$100 million from the KEO acquisition and \$35 million primarily for higher sales of airborne EO/IR turrets for the DoD, (2) \$66 million primarily for Microwave Products due to reasons similar to the 2012 Third Quarter, and (3) \$24 million for the Link U.K. acquisition.

Electronic Systems operating income for the 2012 Year-to-Date period decreased by \$23 million, or 5%, compared to the 2011 Year-to-Date period. Operating margin decreased by 60 basis points to 11.8%. Sales mix changes reduced operating margin by 80 basis points and higher pension expense of \$4 million reduced operating margin by 10 basis points. This decrease was partially offset by improved contract performance, primarily for Displays, Warrior Systems and Precision Engagement, which increased operating margin by 30 basis points.

C³ISR

	Third Quarter Ended				Year-to-Date Ended

Operating margin	10.5%	11.4%	(90) bpts		10.3%	11.5%	(120) bpts	

C³ISR net sales for the 2012 Third Quarter increased by \$11 million, or 1%, compared to the 2011 Third Quarter. Sales for ISR Systems increased by \$49 million primarily due to higher volume for airborne ISR systems. These increases were partially offset by lower sales of \$38 million for networked communication systems primarily from fewer deliveries of remote video terminals and lower volume on the Hawklink contract due to development and low rate initial production work nearing completion.

C³ISR operating income for the 2012 Third Quarter decreased by \$7 million, or 7%, compared to the 2011 Third Quarter. Operating margin decreased by 90 basis points to 10.5%. Higher pension expense of \$10 million reduced operating margin by 110 basis points and sales mix changes reduced operating margin by 40 basis points. This decrease was partially offset by improved contract performance, which increased operating margin by 60 basis points.

C³ISR net sales for the 2012 Year-to-Date period increased by \$167 million, or 7%, compared to the 2011 Year-to-Date period. Sales for ISR Systems increased by \$144 million primarily due to higher volume on airborne ISR systems and increased demand for logistic support and fleet management services. Sales also increased by \$23 million primarily for networked communication systems due to higher volume for manned and unmanned platforms for DoD customers.

Table of Contents

C³ISR operating income for the 2012 Year-to-Date period decreased by \$13 million, or 5%, compared to the 2011 Year-to-Date period. Operating margin decreased by 120 basis points to 10.3%. Higher pension expense of \$19 million reduced operating margin by 70 basis points and sales mix changes reduced operating margin by 80 basis points. These decreases were partially offset by improved contract performance, which increased operating margin by 30 basis points.

AM&M

Operating margin	10.0%	9.7%	9.6%	9.9%	(30) bpts

AM&M net sales for the 2012 Third Quarter increased by \$26 million, or 4%, compared to the 2011 Third Quarter. Platform systems sales increased by \$99 million, partially offset by a decline of \$73 million for logistics support services. The platform systems increase was due primarily to volume on new contracts, including the Australia C-27J and international head-of-state aircraft modification contracts, and increased scope on the EC-130 aircraft for the U.S. Air Force (USAF). Logistics support services decreased due primarily to the competitive loss of a task order for U.S. Army contract field team support services in Southwest Asia.

AM&M operating income for the 2012 Third Quarter increased by \$5 million, or 8%, compared to the 2011 Third Quarter. Operating margin increased 30 basis points to 10.0%. Operating margin increased by 100 basis points due to lower costs related to the Joint Cargo Aircraft (JCA). This increase was partially offset by 50 basis points primarily due to sales mix changes and 20 basis points due to higher pension expense of \$1 million.

AM&M net sales for the 2012 Year-to-Date period increased by \$29 million, or 2%, compared to the 2011 Year-to-Date period. Platform systems sales increased by \$78 million, which was partially offset by a decline of \$49 million for logistic support services. The platform systems increase was due primarily to volume on new contracts, including the Australia C-27J and international head-of-state aircraft modification contracts, and increased scope on the EC-130 aircraft for the USAF. These increases were partially offset by lower JCA volume for the USAF. Logistics support services decreased due primarily to the loss of a task order for U.S. Army contract field team support services in Southwest Asia, partially offset by increased demand for field maintenance and sustainment services on a U.S. Army rotary wing aircraft contract that was competitively won in September 2011 and for U.S. Army C-12 aircraft.

AM&M operating income for the 2012 Year-to-Date period decreased by \$2 million, or 0.9%, compared to the 2011 Year-to-Date period. Operating margin decreased by 30 basis points to 9.6%. The decrease in operating margin was due to a \$6 million, or 30 basis points, net favorable adjustment in the 2011 Year-to-Date period, comprised of a favorable price adjustment for an international modification contract, partially offset by start-up costs for the U.S. Army C-12 aircraft maintenance contract. Pension expense increased by \$5 million, which reduced operating margin by 30 basis points. These decreases were partially offset by 30 basis points primarily due to lower costs related to JCA.

NSS net sales for the 2012 Third Quarter decreased by \$65 million, or 16%, compared to the 2011 Third Quarter. Less demand for U.S. Special Operations Command IT support services, due to our previous single-award contract converting to several multiple-award contracts which reduced our workshare, lowered sales by \$27 million. A decline in IT support services for select non-DoD U.S. Government agencies due to customer IT spending reductions and competitive contract losses in 2011 lowered sales by \$25 million. Sales declined by \$13 million for intelligence support services due to the drawdown of U.S. military forces in Iraq.

NSS operating income for the 2012 Third Quarter decreased by \$18 million, or 55%, compared to the 2011 Third Quarter. Operating margin decreased by 370 basis points to 4.1% primarily due to: (1) lower contract profit rates on re-competitions of existing business and lower sales volume, which reduced operating margin by 200 basis points, (2) a \$4 million inventory write-down for security and safety equipment, which reduced operating margin by 110 basis points, and (3) legal fees of \$2 million related to a supplier dispute, which reduced operating margin by 60 basis points.

NSS net sales for the 2012 Year-to-Date period decreased by \$213 million, or 17%, compared to the 2011 Year-to-Date period. The decrease was primarily due to trends similar to the 2012 Third Quarter. Specifically, lower volumes for IT support services reduced sales by \$84 million, less demand for U.S. Special Operations Command IT support services lowered sales by \$81 million, and the drawdown of U.S. military forces in Iraq lowered sales by \$48 million.

NSS operating income for the 2012 Year-to-Date period decreased by \$20 million, or 26%, compared to the 2011 Year-to-Date period. Operating margin decreased by 70 basis points to 5.4%. Lower sales volume and lower contract profit rates on re-competitions of existing business decreased operating margins by 40 basis points, a \$4 million inventory write-down for security and safety equipment reduced operating margin by 40 basis points, and legal fees of \$3 million related to a supplier dispute reduced operating margins by 30 basis points. These decreases were partially offset by the timing of award fees for acquisition management and IT support services, which increased operating margin by 40 basis points.

Liquidity and Capital Resources

Anticipated Sources and Uses of Cash Flow

At September 28, 2012, we had total cash and cash equivalents of \$514 million as compared to \$764 million at December 31, 2011. While no amounts of the cash and cash equivalents are considered restricted, \$203 million was held by the Company's foreign subsidiaries at September 28, 2012. The repatriation of cash held in non-U.S. jurisdictions is subject to local capital requirements, as well as income tax considerations. Our primary source of liquidity is cash flow generated from operations. We generated \$692 million of cash from operating activities from continuing operations during the 2012 Year-to-Date Period. Significant cash used during the 2012 Year-to-Date Period included \$349 million for the KEO, MAVCO and Link U.K. business acquisitions, \$504 million to repurchase shares of our common stock, and \$149 million for dividends. Also, as discussed under Overview and Outlook Spin-off of Engility, L-3 received a cash contribution of \$335 million as a result of the spin-off, a portion of which was used to redeem \$250 million of the 2015 Notes.

As of September 28, 2012, we also had \$997 million of borrowings available under our \$1 billion Amended and Restated Revolving Credit Facility after reductions of \$3 million for outstanding letters of credit, subject to certain conditions. Our Amended and Restated Revolving Credit Facility expires on February 3, 2017. We currently believe that our cash from operating activities, together with our cash on hand, and available borrowings under our Amended and Restated Revolving Credit Facility will be adequate for the foreseeable future to meet our anticipated requirements for working capital, capital expenditures, defined benefit plan contributions, commitments, contingencies, research and development expenditures, business acquisitions (depending on the size), contingent purchase price payments on previous business acquisitions, program and other discretionary investments, interest payments, income tax payments, L-3 Holdings' dividends and share repurchases.

However, our business may not continue to generate cash flow at current levels. If we are unable to generate sufficient cash flow from operations to service our debt, we may be required to reduce costs and expenses, sell

assets, reduce capital expenditures, reduce dividend payments, refinance all or a portion of our existing debt or obtain additional financing, which we may not be able to do on a timely basis, on satisfactory terms, or at all. Our ability to make scheduled principal payments or to pay interest on or to refinance our indebtedness depends on our future performance and financial results, which, to a certain extent, are subject to general conditions in or affecting the U.S. defense industry and to general economic, political, financial, competitive, legislative and regulatory factors beyond our control.

Balance Sheet

Billed receivables decreased by \$141 million to \$962 million at September 28 2012, from \$1,103 million at December 31, 2011 due to lower sales primarily for NSS, logistics support services, Warrior Systems and Marine & Power Systems, and the timing of billings and collections primarily for ISR systems and Simulation and Training. These decreases were partially offset by \$37 million of acquired billed receivables from the KEO, MAVCO and Link U.K. business acquisitions.

Contracts in process increased by \$488 million to \$2,839 million at September 28, 2012, from \$2,351 million at December 31, 2011. The increase included \$97 million of acquired contracts in process from the KEO and Link U.K. business acquisitions, \$6 million of foreign currency translation adjustments and \$385 million from:

Increase of \$172 million in unbilled contract receivables primarily due to liquidation of progress payments for delivery of simulation & training devices and sales exceeding billings for networked communication systems and AM&M.

Increase of \$213 million in inventoried contract costs primarily due to Australian C-27J aircraft, spare parts for logistics support services and the timing of deliveries for networked communication systems and Precision Engagement products.

L-3's receivables days sales outstanding (DSO) was 75 at September 28, 2012, compared with 73 at December 31, 2011 and 74 at September 30, 2011. The increase in DSO was primarily due to the increase in our net unbilled contract receivables. We calculate our DSO by dividing: (1) our aggregate end of period billed receivables and net unbilled contract receivables, by (2) our trailing 12 month sales adjusted, on a pro forma basis, to include sales from business acquisitions and exclude sales from business divestitures that we completed as of the end of the period, multiplied by the number of calendar days in the trailing 12 month period (364 days at September 28, 2012, 365 days at December 31, 2011 and 371 days at September 30, 2011). Our trailing 12 month pro forma sales were \$13,342 million at September 28, 2012, \$13,169 million at December 31, 2011 and \$13,315 million at September 30, 2011.

The increase in inventories was primarily due to higher inventory for Security and Detection Systems, Warrior Systems and Microwave Products to support customer demand.

Goodwill increased by \$233 million to \$7,705 million at September 28, 2012 from \$7,472 million at December 31, 2011. The table below presents the changes in goodwill by segment.

	Electronic Systems	C ³ ISR	AM&M (in millions)	NSS	Consolidated Total

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-Q

- ⁽¹⁾ The increase in goodwill for the Electronic Systems segment is due to the KEO, MAVCO and Link U.K. business acquisitions. See Note 4 to our unaudited condensed consolidated financial statements contained in this quarterly report for further discussion regarding these acquisitions.

Table of Contents

(2) The increases in goodwill presented in the Electronic Systems, AM&M and NSS segments were due primarily to the weakening of the U.S. dollar against the Euro, Canadian dollar and British pound during the year-to-date period ended September 28, 2012.

(3) Effective January 1, 2012, we re-aligned a business unit's management and organizational structure, as discussed in Note 2 to our unaudited condensed consolidated financial statements, and made a reclassification of goodwill between the Electronic Systems and C³ISR segments during the quarter ended March 30, 2012.

The increase in identifiable intangible assets was due to the recognition of \$53 million of customer contractual relationships and technology intangibles due primarily to the KEO and Link U.K. business acquisitions, partially offset by amortization expense.

The fluctuations in accounts payable and accrued expenses were primarily due to the timing of when invoices for purchases from third party vendors and subcontractors were received and payments were made. The KEO, MAVCO and Link U.K. business acquisitions increased accounts payable by \$22 million and accrued expenses by \$11 million.

The increase in advance payments and billings in excess of costs incurred was primarily due to cash collections on performance based billings related to contracts with foreign customers for Platform Systems and Precision Engagement, and \$46 million of acquired balances from the KEO and Link U.K. business acquisitions.

The decrease in other current liabilities was primarily due to the costs incurred against contracts in process in a loss position and the payments of previously accrued legal settlements.

The decrease in pension and postretirement benefit plan liabilities was primarily due to cash contributions exceeding pension expense (excluding amortization of net losses) during the 2012 Year-to-Date Period. We expect to contribute cash of approximately \$174 million to our pension plans for all of 2012, of which \$138 million was contributed during the 2012 Year-to-Date Period.

Non-current deferred income tax liabilities increased primarily due to amortization of certain goodwill and other identifiable intangible assets for tax purposes.

The increase in other liabilities was primarily due to a note payable entered into during the 2012 Year-to-Date Period for the purchase of enterprise resource planning (ERP) software licenses and higher accrued product warranty costs.

Statement of Cash Flows

2012 Year-to-Date Period Compared with 2011 Year-to-Date Period

The table below provides a summary of our cash flows from operating, investing, and financing activities for the periods indicated.

	Year-to-Date Ended	
	September 28, 2012	September 30, 2011
	(in millions)	
Net cash from operating activities from continuing operations	\$ 692	\$ 749
Net cash used in investing activities from continuing operations	(137)	(133)
Net cash used in financing activities from continuing operations	(883)	(915)
<i>Operating Activities Continuing Operations</i>		

We generated \$692 million of cash from operating activities during the 2012 Year-to-Date, a decrease of \$57 million compared with \$749 million generated during the 2011 Year-to-Date Period. The decrease was due to: (1) a decrease in income from continuing operations of \$37 million, (2) lower non-cash expenses of \$8 million, and (3) \$12 million of more cash used for changes in operating assets and liabilities primarily due to higher income tax payments partially offset by lower interest payments. The net cash used for changes in operating assets and liabilities is further discussed above under Liquidity and Capital Resources Balance Sheet.

Table of Contents

Investing Activities Continuing Operations

During the 2012 Year-to-Date Period, we used \$137 million of cash, including \$349 million primarily for the KEO, MAVCO and Link U.K. business acquisitions, and \$124 million for capital expenditures. The 2012 Year-to-Date Period includes the cash contribution of \$335 million that we received from Engility due to the spin-off.

Financing Activities Continuing Operations

Debt

At September 28, 2012, total outstanding debt was \$3,878 million, of which \$2,940 million was senior debt and \$938 million was subordinated debt and CODES, compared to \$4,125 million at December 31, 2011, of which \$2,938 million was senior debt and \$1,187 million was subordinated debt and CODES. At September 28, 2012, available borrowings under our Amended and Restated Revolving Credit Facility were \$997 million, after reductions for outstanding letters of credit of \$3 million. There were no borrowings outstanding under our Amended and Restated Revolving Credit Facility at September 28, 2012. Our outstanding debt matures between October 15, 2015 and August 1, 2035. See Note 9 to our unaudited condensed consolidated financial statements contained in this quarterly report for the components of our debt at September 28, 2012.

2012 Debt Redemptions. On July 26, 2012 (the redemption date), L-3 Communications used a portion of the proceeds from the spin-off of Engility to redeem \$250 million of its 2015 Notes at a redemption price of 102.125%, plus accrued and unpaid interest, up to but not including the redemption date. In connection with the redemption of the 2015 Notes, we recorded a debt retirement charge of \$8 million (\$5 million after income taxes, or \$0.05 per diluted share).

On October 15, 2012 (the redemption date), L-3 Communications redeemed the remaining outstanding \$250 million of its 2015 Notes at a redemption price of 101.063%, plus accrued and unpaid interest up to but not including the redemption date. In connection with the redemption, we will record a debt retirement charge of approximately \$5 million (\$3 million after income tax, or \$0.03 per diluted share) in the quarter ending December 31, 2012.

Debt Covenants and Other Provisions. The Amended and Restated Revolving Credit Facility, senior notes and senior subordinated notes contain financial and/or other restrictive covenants. See Note 10 to our audited consolidated financial statements for the year ended December 31, 2011, included in our Annual Report on Form 10-K, for a description of our debt and related financial covenants, including dividend payment and share repurchase restrictions and cross default provisions. As of September 28, 2012, we were in compliance with our financial and other restrictive covenants.

Under select conditions, including if L-3 Holdings' common stock price is more than 120% (currently \$110.60) of the then current conversion price (currently \$92.17) for a specified period, the conversion feature of the CODES will require L-3 Holdings, upon conversion, to pay the holders of the CODES the principal amount in cash, and if the settlement amount exceeds the principal amount, the excess will be settled in cash or stock or a combination thereof, at our option. See Note 10 to our audited consolidated financial statements for the year ended December 31, 2011, included in our Annual Report on Form 10-K, for additional information regarding the CODES, including conditions for conversion. L-3 Holdings' closing stock price on November 2, 2012 was \$75.85 per share.

Guarantees. The borrowings under the Amended and Restated Revolving Credit Facility are fully and unconditionally guaranteed by L-3 Holdings and by substantially all of the material wholly-owned domestic subsidiaries of L-3 Communications on an unsecured senior basis. The payment of principal and premium, if any, and interest on the senior notes are fully and unconditionally guaranteed, on an unsecured senior basis, jointly and severally, by L-3 Communications' material wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the senior subordinated notes are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications' wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the CODES are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications and its wholly-owned domestic subsidiaries that guarantee any of its other liabilities.

Table of Contents

Prior to the spin-off of Engility Holdings, Inc., which was completed on July 17, 2012, Engility Holdings, Inc., Engility Corporation, International Resources Group Ltd. and LinCom Wireless, Inc. were guarantor subsidiaries. As a result of the spin-off, these entities no longer guarantee the debt of L-3 Communications or L-3 Holdings.

Subordination. The guarantees of the Amended and Restated Revolving Credit Facility and the senior notes rank senior to the guarantees of the senior subordinated notes and the CODES and rank pari passu with each other. The guarantees of the senior subordinated notes and CODES rank pari passu with each other and are junior to the guarantees of the Amended and Restated Revolving Credit Facility and senior notes.

Equity

Repurchases of L-3 Holdings common stock, under the share repurchase programs approved by the Board of Directors, are made from time to time at management's discretion in accordance with applicable U.S. federal securities laws in the open market or otherwise. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, legal requirements, other investment opportunities (including acquisitions), market conditions and other factors. All share repurchases of L-3 Holdings' common stock have been recorded as treasury shares.

The table below presents our repurchases of L-3 Holdings common stock during the 2012 Year-to-Date Period.

	Total Number of Shares Purchased	Average Price Paid Per Share	Treasury Stock (at cost in millions)
January 1 – March 30, 2012	1,991,467	\$ 69.45	\$ 138
March 31 – June 29, 2012	2,546,642	\$ 69.47	\$ 177
June 30 – September 28, 2012	2,679,735	\$ 70.46	\$ 189

At September 28, 2012, the remaining dollar value under the share repurchase program approved by L-3 Holdings' Board of Directors was \$630 million.

From September 29, 2012 through October 31, 2012, L-3 Holdings repurchased 1,019,790 of its common stock at an average price of \$73.06 per share for an aggregate amount of \$75 million.

During the 2012 Year-to-Date Period, L-3 Holdings' Board of Directors authorized the following quarterly cash dividends:

Date Declared	Record Date	Cash Dividend Per Share	Date Paid	Total Dividends Paid (in millions)
February 7, 2012	March 1, 2012	\$ 0.50	March 15, 2012	\$ 49
April 24, 2012	May 17, 2012	\$ 0.50	June 15, 2012	\$ 49
June 26, 2012	August 17, 2012	\$ 0.50	September 17, 2012	\$ 48

In addition to the dividends paid as shown in the table above, the Company also paid \$3 million of previously accrued dividends related to vested employee stock-based awards. On October 24, 2012, L-3 Holdings' Board of Directors declared a quarterly cash dividend of \$0.50 per share, payable on December 17, 2012, to shareholders of record at the close of business on November 19, 2012.

Legal Proceedings and Contingencies

Forward-Looking Statements

Certain of the matters discussed concerning our operations, cash flows, financial position, economic performance and financial condition, including in particular, the likelihood of our success in developing and expanding our business and the realization of sales from backlog, include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act.

Statements that are predictive in nature, that depend upon or refer to events or conditions or that include words such as expects, anticipates, intends, plans, believes, estimates and similar expressions are forward-looking statements. Although we believe that these statements are based upon reasonable assumptions, including projections of total sales growth, sales growth from business acquisitions, organic sales growth, consolidated operating margins, total segment operating margins, interest expense, earnings, cash flow, research and development costs, working capital, capital expenditures and other projections, they are subject to several risks and uncertainties, and therefore, it is possible that these statements may not be achieved. Such statements will also be influenced by factors which include, among other things:

our dependence on the defense industry and the business risks peculiar to that industry, including changing priorities or reductions in annual DoD budgets and the outcome of potential additional reductions due to the sequestration process;

backlog processing and program slips resulting from delayed funding of the DoD budget;

our reliance on contracts with a limited number of agencies of, or contractors to, the U.S. Government and the possibility of termination of government contracts by unilateral government action or for failure to perform;

the extensive legal and regulatory requirements surrounding our contracts with the U.S. or foreign governments and the results of any investigation of our contracts undertaken by the U.S. or foreign governments, including potential suspensions or debarments;

our ability to retain our existing business and related contracts (revenue arrangements);

our ability to successfully compete for and win new business and related contracts (revenue arrangements) and to win re-competitions of our existing contracts;

our ability to identify and acquire additional businesses in the future with terms, including the purchase price, that are attractive to L-3 and to integrate acquired business operations;

our ability to maintain and improve our consolidated operating margin and total segment operating margin in future periods;

our ability to obtain future government contracts (revenue arrangements) on a timely basis;

the availability of government funding and changes in customer requirements for our products and services;

our significant amount of debt and the restrictions contained in our debt agreements;

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-Q

our ability to continue to retain and train our existing employees and to recruit and hire new qualified and skilled employees, as well as our ability to retain and hire employees with U.S. Government security clearances that are a prerequisite to compete for and to perform work on classified contracts for the U.S. Government;

actual future interest rates, volatility and other assumptions used in the determination of pension benefits and equity-based compensation, as well as the market performance of benefit plan assets;

our collective bargaining agreements, our ability to successfully negotiate contracts with labor unions and our ability to favorably resolve labor disputes should they arise;

the business, economic and political conditions in the markets in which we operate, including those for the commercial aviation, shipbuilding and communications markets;

the DoD's contractor support services in-sourcing and efficiency initiatives;

events beyond our control such as acts of terrorism;

our ability to perform contracts (revenue arrangements) on schedule;

our international operations, including sales to foreign customers;

our extensive use of fixed-price type contracts as compared to cost-plus type and time-and-material type contracts;

the rapid change of technology and high level of competition in the defense industry and the commercial industries in which our businesses participate;

our introduction of new products into commercial markets or our investments in civil and commercial products or companies;

the outcome of litigation matters, particularly in connection with jury trials;

results of audits by U.S. Government agencies, including the Defense Contract Audit Agency, of our sell prices, costs and performance on contracts (revenue arrangements), and our accounting and general business practices;

the impact on our business of improper conduct by our employees, agents, or business partners;

anticipated cost savings from business acquisitions not fully realized or realized within the expected time frame;

the outcome of matters relating to the Foreign Corrupt Practices Act (FCPA) and similar non-U.S. regulations;

ultimate resolution of contingent matters, claims and investigations relating to acquired businesses, and the impact on the final purchase price allocations;

significant increase in competitive pressure among companies in our industry; and

the fair values of our assets, including identifiable intangible assets and the estimated fair value of the goodwill balances for our reporting units, which can be impaired or reduced by other factors, some of which are discussed above.

In addition, for a discussion of these and other risks and uncertainties that could impair our results of operations or financial condition, see Part I Item 1A Risk Factors and Note 19 to our audited consolidated financial statements, in each case included in our Annual Report on Form 10-K for the year ended December 31, 2011.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-Q

Readers of this document are cautioned that our forward-looking statements are not guarantees of future performance and the actual results or developments may differ materially from the expectations expressed in the forward-looking statements.

As for the forward-looking statements that relate to future financial results and other projections, actual results will be different due to the inherent uncertainties of estimates, forecasts and projections and may be better or worse than projected and such differences could be material. Given these uncertainties, you should not place any reliance on these forward-looking statements. These forward-looking statements also represent our estimates and assumptions only as of the date that they were made. We expressly disclaim a duty to provide updates to these forward-looking statements, and the estimates and assumptions associated with them, after the date of this filing to reflect events or changes in circumstances or changes in expectations or the occurrence of anticipated events.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Derivative Financial Instruments, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 for a discussion of our exposure to market risks. There were no material changes to our disclosure about market risks during the 2012 Year-to-Date Period. See Notes 14 and 15 to our unaudited condensed consolidated financial statements contained in this quarterly report for the aggregate fair values and notional amounts of our foreign currency forward contracts at September 28, 2012.

ITEM 4.

CONTROLS AND PROCEDURES

Conclusions Regarding Effectiveness of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 related to L-3 Holdings and L-3 Communications is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 28, 2012. Based upon that evaluation, our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer concluded that, as of September 28, 2012, the design and operation of our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 28, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1.

LEGAL PROCEEDINGS

The information required with respect to this item can be found in Note 16 to our unaudited condensed consolidated financial statements contained in this quarterly report and is incorporated by reference into this Item 1.

ITEM 1A.

RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011, and Management's Discussion and Analysis of Financial Condition and Results of Operations Overview and Outlook Industry Considerations, which could materially affect our business, financial condition or future results. Other than as described in Industry Considerations, there have been no material changes to the risk factors disclosed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
