**Item 7.01. Regulation FD Disclosure.**

Representatives of Dycom Industries, Inc. (the Company) made a slide presentation to investors on November 28, 2012, in connection with the proposed issuance by its wholly owned subsidiary, Dycom Investments, Inc., of approximately \$90.0 million in aggregate principal amount of 7.125% senior subordinated notes due 2021 through a private placement to qualified institutional buyers in the United States pursuant to Rule 144A under the Securities Act of 1933 and outside the United States pursuant to Regulation S under the Securities Act of 1933. A copy of the slide presentation used by the Company is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated by reference herein.

The slide presentation contains the financial measures of EBITDA and Adjusted EBITDA, which are Non-GAAP financial measures within the meaning of Regulation G promulgated by the Securities and Exchange Commission. EBITDA, defined by the Company as net income before interest expense (net of interest income), income taxes, depreciation and amortization, and Adjusted EBITDA, defined by the Company as EBITDA adjusted to exclude gain on sale of assets, stock-based compensation expenses, charges for certain litigation matters, losses associated with the extinguishment of debt, write-off of deferred financing costs, goodwill impairment charges, reversal of certain pre-acquisition related accruals and acquisition-related costs, as well as certain other pro forma acquisition-related adjustments made to pro forma Adjusted EBITDA, are not recognized terms under GAAP and do not purport to be alternatives to net income, operating cash flows, or a measure of earnings. Because all companies do not use identical calculations, the presentation of these Non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. The Company believes these Non-GAAP financial measures provide information that is useful to the Company's investors. The Company believes that this information is helpful in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionate impact on the Company's results of operations in any particular period. Additionally, the Company uses these Non-GAAP financial measures to evaluate its past performance and prospects for future performance. A reconciliation of these Non-GAAP financial measures to the most directly comparable GAAP measures is included in Exhibit 99.1.

The information in the preceding paragraphs, as well as Exhibit 99.1, shall not be deemed filed for purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities of that section. It may only be incorporated by reference into another filing under the Exchange Act or the Securities Act if such subsequent filing specifically references this Current Report on Form 8-K.

the telecommunications industry affecting our customers, the adequacy of our insurance and other reserves and allowances for doubtful accounts, whether the carrying value of our assets may be impaired, the impact of any future acquisitions, the anticipated outcome of other contingent events, including litigation, liquidity needs and the availability of financing, as well as other risks detailed in the Company's other filings with the Securities and Exchange Commission. These filings are available on a web site maintained by the Securities and Exchange Commission at <http://www.sec.gov>. The Company does not undertake to update forward looking statements except as required by law.
