PART I

Item 1. Business

Robert Half International Inc. (the Company) provides specialized staffing and risk consulting services through such divisions as *Accountemps*[®], *Robert Half*[®] Finance & Accounting, *OfficeTeam*[®], *Robert Half*[®] Technology, *Robert Half*[®] Management Resources, *Robert Half*[®] Legal, *The Creative Group*[®], and *Protiviti*[®]. The Company, through its *Accountemps*, *Robert Half Finance & Accounting*, and *Robert Half Management Resources* divisions, is the world's largest specialized provider of temporary, full-time, and project professionals in the fields of accounting and finance. *OfficeTeam* specializes in highly skilled temporary administrative support personnel. *Robert Half Technology* provides information technology professionals. *Robert Half Legal* provides temporary, project, and full-time staffing of attorneys and specialized support personnel within law firms and corporate legal departments. *The Creative Group* provides project staffing in the advertising, marketing, and web design fields. *Protiviti*, which began operations in 2002, is a global business consulting and internal audit firm. *Protiviti*, which primarily employs professionals specializing in risk, advisory and transactional services, is a wholly-owned subsidiary of the Company.

The Company's business was originally founded in 1948. Prior to 1986, the Company was primarily a franchisor, under the names *Accountemps* and *Robert Half* (now called *Robert Half Finance & Accounting*), of offices providing temporary and full-time professionals in the fields of accounting and finance. Beginning in 1986, the Company and its current management embarked on a strategy of acquiring franchised locations. All of the franchises have been acquired. The Company believes that direct ownership of offices allows it to better monitor and protect the image of its tradenames, promotes a more consistent and higher level of quality and service throughout its network of offices and improves profitability by centralizing many of its administrative functions. Since 1986, the Company has significantly expanded operations at many of the acquired locations, opened many new locations and acquired other local or regional providers of specialized temporary service personnel. The Company has also expanded the scope of its services by launching the new product lines *OfficeTeam*, *Robert Half Technology*, *Robert Half Management Resources*, *Robert Half Legal* and *The Creative Group*.

In 2002, the Company hired more than 700 professionals who had been affiliated with the internal audit and business and technology risk consulting practice of Arthur Andersen LLP, including more than 50 individuals who had been partners of that firm. These professionals formed the base of the Company's *Protiviti* Inc. subsidiary. *Protiviti* has enabled the Company to enter the market for business consulting and internal audit services, which market the Company believes offers synergies with its traditional lines of business.

Accountemps

The *Accountemps* temporary services division offers customers a reliable and economical means of dealing with uneven or peak work loads for accounting, tax and finance personnel caused by such predictable events as vacations, taking inventories, tax work, month-end activities and special projects and such unpredictable events as illness and emergencies. Businesses view the use of temporary employees as a means of controlling personnel costs and converting such costs from fixed to variable. The cost and inconvenience to clients of hiring and firing regular employees are eliminated by the use of *Accountemps* temporaries. The temporary workers are employees of *Accountemps* and are paid by *Accountemps*. The customer pays a fixed rate only for hours worked.

Accountemps clients may fill their regular employment needs by using an *Accountemps* employee on a trial basis and, if so desired, converting the temporary position to a regular position. The client typically pays a one-time fee for such conversions.

OfficeTeam

The Company's *OfficeTeam* division, which commenced operations in 1991, places temporary and full-time office and administrative personnel, ranging from word processors to office managers. *OfficeTeam* operates in much the same fashion as the *Accountemps* division.

Robert Half Finance & Accounting

The Company's *Robert Half Finance & Accounting* division specializes in the placement of full-time accounting, financial, tax and banking personnel. Fees for successful placements are paid only by the employer and are generally a percentage of the new employee's annual compensation. No fee for placement services is charged to employment candidates.

Robert Half Technology

The Company's *Robert Half Technology* division, which commenced operations in 1994, specializes in providing information technology contract consultants and placing full-time employees in areas ranging from multiple platform systems integration to end-user support, including specialists in web development, networking, application development, systems integration, database design, security and business continuity, and desktop support.

Robert Half Legal

Since 1992, the Company has been placing temporary and full-time employees in attorney, paralegal, legal administrative and legal secretarial positions through its *Robert Half Legal* division. The legal profession's requirements (the need for confidentiality, accuracy and reliability, a strong drive toward cost-effectiveness, and frequent peak workload periods) are similar to the demands of the clients of the *Accountemps* division.

Robert Half Management Resources

The Company's *Robert Half Management Resources* division, which commenced operations in 1997, specializes in providing senior level project professionals in the accounting and finance fields, including chief financial officers, controllers, and senior financial analysts, for such tasks as financial systems conversions, expansion into new markets, business process reengineering and post-merger financial consolidation.

The Creative Group

The *Creative Group* division commenced operations in 1999 and serves clients in the areas of advertising, marketing and web design and places project consultants in a variety of positions such as creative directors, graphics designers, web content developers, web designers, media buyers, and public relations specialists.

Protiviti

Protiviti is a global business consulting and internal audit firm composed of experts specializing in risk, advisory and transactional services. The firm helps clients solve problems in finance and transactions, operations, technology, litigation, governance, risk and compliance.

Marketing and Recruiting

The Company markets its staffing services to clients as well as employment candidates. Local marketing and recruiting are generally conducted by each office or related group of offices. Local advertising directed to clients and employment candidates consists of radio, websites, social media, job banks and trade shows. Direct marketing through e-mail, regular mail and telephone solicitation also constitutes a significant portion of the Company's total advertising. National advertising conducted by the Company consists primarily of radio, outdoor/billboard, digital and print advertisements in national newspapers, magazines, websites, social media sites and trade journals. Additionally, the Company has expanded its use of job boards in all aspects of sales and recruitment. Joint marketing arrangements have been entered into with major software manufacturers and typically provide for development of proprietary skills tests, cooperative advertising, joint mailings and similar promotional activities. The Company also actively seeks endorsements and affiliations with professional organizations in the business management, office administration and professional secretarial fields. In addition,

the Company conducts public relations activities designed to enhance public recognition of the Company and its services. This includes outreach to journalists, bloggers and social media influencers, and the distribution of thought leadership via print, video, corporate-maintained social media sites and other online properties. Local employees are encouraged to be active in civic organizations and industry trade groups.

Protiviti markets its business consulting and internal audit services to a variety of clients in a range of industries. Industry and competency teams conduct targeted marketing efforts, both locally and nationally, including print advertising and branded speaking events, with support from *Protiviti* management. National advertising conducted by *Protiviti* consists primarily of print advertisements in national newspapers, magazines and selected trade journals. *Protiviti* has programs to share its insights with clients on current corporate governance and risk management issues. It conducts public relations activities, such as distributing press releases, white papers, case studies and newsletters, designed to enhance recognition for the *Protiviti* brand, establish its expertise in key issues surrounding its business and promote its services. *Protiviti* plans to expand both the services and value added content on the *Protiviti.com* website and increase traffic through targeted Internet advertising. Local employees are encouraged to be active in relevant social media communities, civic organizations and industry trade groups.

The Company and its subsidiaries own many trademarks, service marks and tradenames, including the *Robert Half*[®] *Finance & Accounting*, *Accountemps*[®], *OfficeTeam*[®], *Robert Half*[®] *Technology*, *Robert Half*[®] *Management Resources*, *Robert Half*[®] *Legal*, *The Creative Group*[®] and *Protiviti*[®] marks, which are registered in the United States and in a number of foreign countries.

Organization

Management of the Company's staffing operations is coordinated from its headquarters facilities in Menlo Park and San Ramon, California. The Company's headquarters provides support and centralized services to its offices in the administrative, marketing, public relations, accounting, training and legal areas, particularly as it relates to the standardization of the operating procedures of its offices. As of December 31, 2012, the Company conducted its staffing services operations through 349 offices in 42 states, the District of Columbia and 19 foreign countries. Office managers are responsible for most activities of their offices, including sales, local advertising and marketing and recruitment.

The day-to-day operations of *Protiviti* are managed by a chief executive officer and a senior management team with operational and administrative support provided by individuals located in San Ramon and Menlo Park, California. As of December 31, 2012, *Protiviti* had 60 offices in 23 states and 12 foreign countries.

Competition

The Company's staffing services face competition in attracting clients as well as skilled specialized employment candidates. The staffing business is highly competitive, with a number of firms offering services similar to those provided by the Company on a national, regional or local basis. In many areas the local companies are the strongest competitors. The most significant competitive factors in the staffing business are price and the reliability of service, both of which are often a function of the availability and quality of personnel. The Company believes it derives a competitive advantage from its long experience with and commitment to the specialized employment market, its national presence, and its various marketing activities.

Protiviti faces competition in its efforts to attract clients and win proposal presentations. The risk consulting and internal audit businesses are highly competitive. In addition, the changing regulatory environment is increasing opportunities for non-attestation audit and risk consulting services. The principal competitors of *Protiviti* remain the big four accounting firms. Significant competitive factors include reputation, technology, tools, project methodologies, price of services and depth of skills of personnel. *Protiviti* believes its competitive strengths lie in its unique ability to couple the deep skills and proven methodologies of its big four heritage with the customer focus and attention of a smaller organization.

Employees

The Company has approximately 12,000 full-time employees, including approximately 2,500 engaged directly in *Protiviti* operations. In addition, the Company placed approximately 191,000 temporary employees on assignments with clients during 2012. Employees placed by the Company on assignment with clients are the Company's employees for all purposes while they are working on assignments. The Company pays the related costs of employment, such as workers' compensation insurance, state and federal unemployment taxes, social security and certain fringe benefits. The Company provides access to voluntary health insurance coverage to interested temporary employees.

Other Information

The Company's current business constitutes three business segments. (See Note M of Notes to Consolidated Financial Statement in Item 8. Financial Statements and Supplementary Data for financial information about the Company's segments.)

The Company is not dependent upon a single customer or a limited number of customers. The Company's staffing services operations are generally more active in the first and fourth quarters of a calendar year. *Protiviti*, which has been in operation since May 2002, is generally more active in the third and fourth quarters of a calendar year. Order backlog is not a material aspect of the Company's staffing services business. While backlog is of greater importance to *Protiviti*, the Company does not believe, based upon the length of time of the average *Protiviti* engagement, that backlog is a material aspect of the *Protiviti* business. No material portion of the Company's business is subject to government contracts.

Information about foreign operations is contained in Note M of Notes to Consolidated Financial Statements in Item 8. The Company does not have export sales.

Available Information

The Company's Internet address is www.rhi.com. The Company makes available, free of charge, through its website, its Annual Reports on Form 10-K, proxy statements for its annual meetings of stockholders, its Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K, and any amendments to those reports, as soon as is reasonably practicable after such reports are filed with or furnished to the Securities and Exchange Commission. Also available on the Company's website are its Corporate Governance Guidelines, its Code of Business Conduct and Ethics, and the charters for its Audit Committee, Compensation Committee and Nominating and Governance Committee, each of which is available in print to any stockholder who makes a request to Robert Half International Inc., 2884 Sand Hill Road, Menlo Park, CA 94025, Attn: Corporate Secretary. The Company's Code of Business Conduct and Ethics is the Code of Ethics required by Item 406 of Securities and Exchange Commission Regulation S-K. The Company intends to satisfy any disclosure obligations under Item 5.05 of Form 8-K regarding any amendment or waiver relating to its Code of Business Conduct and Ethics by posting such information on its website.

Item 1A. Risk Factors

The Company's business prospects are subject to various risks and uncertainties that impact its business. The most important of these risks and uncertainties are as follows:

The global economic crisis may continue to harm the Company's business and financial condition. The world economy may continue in a prolonged economic downturn characterized by high unemployment, limited availability of credit and decreased consumer and business spending. Given the nature of the Company's business, financial results could be significantly harmed should such a prolonged downturn occur. In the past, the Company's business has suffered during periods of high unemployment as demand for staffing services tends to

significantly decrease during such periods. This impact on the Company's business could be further dramatized given the unprecedented impact it has had and may continue to have on the global labor markets.

Any reduction in global economic activity may harm the Company's business. The demand for the Company's services, in particular its staffing services, is highly dependent upon the state of the economy and upon the staffing needs of the Company's clients. Any variation in the economic condition or unemployment levels of the U.S. or of any of the foreign countries in which the Company does business, or in the economic condition of any region of any of the foregoing, or in any specific industry may severely reduce the demand for the Company's services and thereby significantly decrease the Company's revenues and profits.

The Company's business depends on a strong reputation and anything that harms its reputation will likely harm its results. As a provider of temporary and permanent staffing solutions as well as consultant services, the Company's reputation is dependent upon the performance of the employees it places with its clients and the services rendered by its consultants. If the Company's clients become dissatisfied with the performance of those employees or consultants or if any of those employees or consultants engage in conduct that is harmful to the Company's clients, the Company's ability to maintain or expand its client base may be harmed.

The Company and certain subsidiaries are defendants in several lawsuits alleging various wage and hour related claims that could cause the Company to incur substantial liabilities. The Company and certain subsidiaries are defendants in several actual or asserted class and representative action lawsuits brought by or on behalf of the Company's current and former employees alleging violations of federal and state law with respect to certain wage and hour related matters. The various claims made in one or more of such lawsuits include, among other things, the misclassification of certain employees as exempt employees under applicable law, failure to comply with wage statement requirements and other related wage and hour violations. Such suits seek, as applicable, unspecified amounts for unpaid overtime compensation, penalties, and other damages, as well as attorneys' fees. It is not possible to predict the outcome of these lawsuits. However, these lawsuits may consume substantial amounts of the Company's financial and managerial resources and might result in adverse publicity, regardless of the ultimate outcome of the lawsuits. In addition, the Company and its subsidiaries may become subject to similar lawsuits in the same or other jurisdictions. An unfavorable outcome with respect to these lawsuits and any future lawsuits could, individually or in the aggregate, cause the Company to incur substantial liabilities that may have a material adverse effect upon the Company's business, financial condition or results of operations. In addition, an unfavorable outcome in one or more of these cases could cause the Company to change its compensation plans for its employees, which could have a material adverse effect upon the Company's business.

The Company faces risks in operating internationally. The Company depends on operations in international markets, including Europe, for a significant portion of its business. The financial uncertainty in Europe (including concerns that certain European countries may default in payments due on their national debt) in recent months has adversely affected, and may continue to adversely affect, sales of our services in Europe. To the extent that these adverse economic conditions in Europe continue or worsen, demand for the Company's services may decline, which could significantly harm its business and results of operations. In addition, these international operations are subject to a number of risks, including general political and economic conditions in those foreign countries, the burden of complying with various foreign laws and technical standards and unpredictable changes in foreign regulations, U.S. legal requirements governing U.S. companies operating in foreign countries, legal and cultural differences in the conduct of business, potential adverse tax consequences and difficulty in staffing and managing international operations. In addition, the Company's business may be affected by foreign currency exchange fluctuations. In particular, the Company is subject to risk in translating its results in foreign currencies into the U.S. dollar. If the value of the U.S. dollar strengthens relative to other currencies, the Company's reported income from these operations could decrease.

The Company may be unable to find sufficient candidates for its staffing business. The Company's staffing services business consists of the placement of individuals seeking employment. There can be no assurance that

candidates for employment will continue to seek employment through the Company. Candidates generally seek temporary or regular positions through multiple sources, including the Company and its competitors. Any shortage of candidates could materially adversely affect the Company.

The Company operates in a highly competitive business and may be unable to retain clients or market share. The staffing services business is highly competitive and, because it is a service business, the barriers to entry are quite low. There are many competitors, some of which have greater resources than the Company, and new competitors are entering the market all the time. In addition, long-term contracts form a negligible portion of the Company's revenue. Therefore, there can be no assurance that the Company will be able to retain clients or market share in the future. Nor can there be any assurance that the Company will, in light of competitive pressures, be able to remain profitable or, if profitable, maintain its current profit margins.

The Company may incur potential liability to employees and clients. The Company's temporary services business entails employing individuals on a temporary basis and placing such individuals in clients' workplaces. The Company's ability to control the workplace environment is limited. As the employer of record of its temporary employees, the Company incurs a risk of liability to its temporary employees for various workplace events, including claims of physical injury, discrimination, harassment or failure to protect confidential personal information. While such claims have not historically had a material adverse effect upon the Company, there can be no assurance that such claims in the future will not result in adverse publicity or have a material adverse effect upon the Company. The Company also incurs a risk of liability to its clients resulting from allegations of errors, omissions or theft by its temporary employees, or allegations of misuse of client confidential information. The Company maintains insurance with respect to many of such claims. While such claims have not historically had a material adverse effect upon the Company, there can be no assurance that the Company will continue to be able to obtain insurance at a cost that does not have a material adverse effect upon the Company or that such claims (whether by reason of the Company not having insurance or by reason of such claims being outside the scope of the Company's insurance) will not have a material adverse effect upon the Company.

The Company is dependent on its management personnel and employees and a failure to attract and retain such personnel could harm its business. The Company is engaged in the services business. As such, its success or failure is highly dependent upon the performance of its management personnel and employees, rather than upon technology or upon tangible assets (of which the Company has few). There can be no assurance that the Company will be able to attract and retain the personnel that are essential to its success.

The Company's business is subject to extensive government regulation and a failure to comply with regulations could harm its business. The Company's business is subject to regulation or licensing in many states and in certain foreign countries. While the Company has had no material difficulty complying with regulations in the past, there can be no assurance that the Company will be able to continue to obtain all necessary licenses or approvals or that the cost of compliance will not prove to be material. Any inability of the Company to comply with government regulation or licensing requirements could materially adversely affect the Company. In addition, the Company's temporary services business entails employing individuals on a temporary basis and placing such individuals in clients' workplaces. Increased government regulation of the workplace or of the employer-employee relationship, or judicial or administrative proceedings related to such regulation, could materially adversely affect the Company. In addition, to the extent that government regulation imposes increased costs upon the Company, such as unemployment insurance taxes, there can be no assurance that such costs will not adversely impact the Company's profit margins.

Health care reform could increase the costs of the Company's temporary staffing operations. In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, the Health Care Reform Laws) were signed into law in the United States. The Health Care Reform Laws include a large number of health-related provisions, including requiring most individuals to have health insurance and establishing new regulations on health plans. Although the Health Care Reform Laws do not mandate that employers offer health insurance, beginning in 2014 penalties will be assessed on large employers

who do not offer health insurance that meets certain affordability or benefit requirements. Providing such additional health insurance benefits to the Company's employees, or the payment of penalties if such coverage is not provided, will increase the Company's expense. If the Company is unable to raise the rates it charges its clients to cover this expense, such increases in expense could harm the Company's financial results.

The Company's computer and communications hardware and software systems are vulnerable to damage and interruption. The Company's ability to manage its operations successfully is critical to its success and largely depends upon the efficient and uninterrupted operation of its computer and communications hardware and software systems. The Company's primary computer systems and operations are vulnerable to damage or interruption from power outages, computer and telecommunications failures, computer viruses, security breaches, catastrophic events and errors in usage by the Company's employees.

Failure to maintain adequate financial and management processes and controls could lead to errors in the Company's financial reporting. Failure to maintain adequate financial and management processes and controls could lead to errors in the Company's financial reporting. If the Company's management is unable to certify the effectiveness of its internal controls or if its independent registered public accounting firm cannot render an opinion on the effectiveness of its internal control over financial reporting, or if material weaknesses in the Company's internal controls are identified, the Company could be subject to regulatory scrutiny and a loss of public confidence. In addition, if the Company does not maintain adequate financial and management personnel, processes and controls, it may not be able to accurately report its financial performance on a timely basis, which could cause its stock price to fall.

The demand for the Company's services related to Sarbanes-Oxley or other regulatory compliance may decline. The operations of both the staffing services business and *Protiviti* include services related to Sarbanes-Oxley and other regulatory compliance. There can be no assurance that there will be ongoing demand for these services. For example, the Jumpstart Our Business Startup (JOBS) Act signed into law in April of 2012 allows most companies going public in the U.S. to defer implementation of some of the provisions of Sarbanes-Oxley for up to five years after their initial public offering. This or other similar delays or modifications of the Sarbanes Oxley requirements could decrease demand for *Protiviti*'s services.

Long-term contracts do not comprise a significant portion of the Company's revenue. Because long-term contracts are not a significant part of the Company's staffing services business, future results cannot be reliably predicted by considering past trends or extrapolating past results.

Protiviti may be unable to attract and retain key personnel. *Protiviti* is a services business, and is dependent upon its ability to attract and retain personnel. While *Protiviti* has retained its key personnel to date, there can be no assurance that it will continue to be able to do so.

Protiviti operates in a highly competitive business and faces competitors who are significantly larger and have more established reputations. *Protiviti* operates in a highly competitive business. As with the Company's staffing services business, the barriers to entry are quite low. There are many competitors, some of which have greater resources than *Protiviti* and many of which have been in operation far longer than *Protiviti*. In particular, *Protiviti* faces competition from the "big four" accounting firms, which have been in operation for a considerable period of time and have established reputations and client bases. Because the principal factors upon which competition is based are reputation, technology, tools, project methodologies, price of services and depth of skills of personnel, there can be no assurance that *Protiviti* will be successful in attracting and retaining clients.

Protiviti's operations could subject it to liability. The business of *Protiviti* consists of providing business consulting and internal audit services. Liability could be incurred or litigation could be instituted against the Company or *Protiviti* for claims related to these activities or to prior transactions or activities. There can be no assurance that such liability or litigation will not have a material adverse impact on *Protiviti* or the Company.

Item 1B. Unresolved Staff Comments.

Not applicable.

Item 2. Properties

The Company's headquarters operations are located in Menlo Park and San Ramon, California. As of December 31, 2012, placement activities were conducted through 349 offices located in the United States, Canada, the United Kingdom, Belgium, Brazil, France, the Netherlands, Germany, the Czech Republic, Italy, Luxembourg, Switzerland, Japan, China, Singapore, Australia, New Zealand, Austria, the United Arab Emirates, and Chile. As of December 31, 2012, *Protiviti* had 60 offices in the United States, Canada, Australia, China, France, Germany, Italy, the Netherlands, Japan, Singapore, South Korea, India and the United Kingdom. All of the offices are leased.

Item 3. Legal Proceedings

On April 23, 2010, Plaintiffs David Opalinski and James McCabe, on behalf of themselves and a putative class of similarly situated Staffing Managers, filed a Complaint in the United States District Court for the District of New Jersey naming the Company and one of its subsidiaries as Defendants. The Complaint alleges that salaried Staffing Managers located throughout the U.S. have been misclassified as exempt from the Fair Labor Standards Act's overtime pay requirements. Plaintiffs seek an unspecified amount for unpaid overtime on behalf of themselves and the class they purport to represent. Plaintiffs also seek an unspecified amount for statutory penalties, attorneys' fees and other damages. On October 6, 2011, the Court granted the Company's motion to compel arbitration of the Plaintiffs' allegations. At this stage, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from these allegations and, accordingly, no amounts have been provided in the Company's financial statements. The Company believes it has meritorious defenses to the allegations, and the Company intends to continue to vigorously defend against the allegations.

The Company is involved in a number of other lawsuits arising in the ordinary course of business. While management does not expect any of these other matters to have a material adverse effect on the Company's business, financial condition or results of operations, litigation is subject to certain inherent uncertainties.

Stock Performance Graph

The following graph compares, through December 31, 2012, the cumulative total return of the Company's Common Stock, an index of certain publicly traded employment services companies, and the S&P 500. The graph assumes the investment of \$100 at the beginning of the period depicted in the chart and reinvestment of all dividends. The information presented in the graph was obtained by the Company from outside sources it considers to be reliable but has not been independently verified by the Company.

- (a) This index represents the cumulative total return of the Company and the following corporations providing temporary or permanent employment services: CDI Corp.; Kelly Services, Inc.; ManpowerGroup; and SFN Group Inc./Randstad Holdings NV. Effective September 2, 2011, SFN Group Inc. was acquired by Netherlands-based Randstad Holdings NV. Accordingly, this index reflects the performance of SFN Group prior to such acquisition and the performance of Randstad Holdings thereafter.
