- (1) Senior floating-rate interests (Senior Loans) often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, Senior Loans will have an expected average life of approximately two to four years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility and includes commitment fees on unfunded loan commitments, if any. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London Interbank Offered Rate (LIBOR) and secondarily, the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.
- (2) Amount is less than 0.05%.
- (3) This Senior Loan will settle after January 31, 2013, at which time the interest rate will be determined.
- (4) For fair value measurement disclosure purposes, security is categorized as Level 3.
- (5) Represents a payment-in-kind security which may pay all or a portion of interest in additional par.
- (6) Inverse floating-rate security whose coupon varies inversely with changes in the interest rate index. The stated interest rate represents the coupon rate in effect at January 31, 2013.
- (7) Interest only security that entitles the holder to receive only interest payments on the underlying mortgages. Principal amount shown is the notional amount of the underlying mortgages on which coupon interest is calculated.
- (8) Principal only security that entitles the holder to receive only principal payments on the underlying mortgages.

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-Q

- (9) Weighted average fixed-rate coupon that changes/updates monthly.
- (10) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration. At January 31, 2013, the aggregate value of these securities is \$6,509,799 or 1.9% of the Fund's net assets.
- (11) Adjustable rate mortgage security. Rate shown is the rate at January 31, 2013.
- (12) Variable rate security. The stated interest rate represents the rate in effect at January 31, 2013.
- (13) Inflation-linked security whose principal is adjusted for inflation based on changes in a designated inflation index or inflation rate for the applicable country. Interest is calculated based on the inflation-adjusted principal.

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-Q

- (14) Represents a structured security whose market value and interest rate are linked to the performance of the underlying security.
- (15) Security exempt from registration under Regulation S of the Securities Act of 1933, which exempts from registration securities offered and sold outside the United States. Security may not be offered or sold in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act of 1933. At January 31, 2013, the aggregate value of these securities is \$2,233,863 or 0.7% of the Fund's net assets.
- (16) Non-income producing.
- (17) Security was acquired in connection with a restructuring of a Senior Loan and may be subject to restrictions on resale.
- (18) Security (or a portion thereof) has been pledged to cover collateral requirements on open financial contracts.
- (19) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of January 31, 2013. Net income allocated from the investment in Eaton Vance Cash Reserves Fund, LLC for the fiscal year to date ended January 31, 2013 was \$2,333.

Basis for Consolidation

The Fund seeks to gain exposure to the commodity markets, in whole or in part, through investments in Eaton Vance EVG Commodity Subsidiary, Ltd. (the Subsidiary), a wholly-owned subsidiary of the Fund organized under the laws of the Cayman Islands with the same objective and investment policies and restrictions as the Fund. The Fund may invest up to 25% of its total assets in the Subsidiary. The net assets of the Subsidiary at January 31, 2013 were \$10,075,893 or 3.0% of the Fund's consolidated net assets. The Consolidated Portfolio of Investments includes positions of the Fund and the Subsidiary.

A summary of open financial instruments at January 31, 2013 is as follows:

* If the Fund is the seller of credit protection, the notional amount is the maximum potential amount of future payments the Fund could be required to make if a credit event, as defined in the credit default swap agreement, were to occur. At January 31, 2013, such maximum potential amount for all open credit default swaps in which the Fund is the seller was \$25,696,000.

** The contract annual fixed rate represents the fixed rate of interest received by the Fund (as a seller of protection) or paid by the Fund (as a buyer of protection) annually on the notional amount of the credit default swap contract.

*** Current market annual fixed rates, utilized in determining the net unrealized appreciation or depreciation as of period end, serve as an indicator of the market's perception of the current status of the payment/performance risk associated with the credit derivative. The current market annual fixed rate of a particular reference entity reflects the cost, as quoted by the pricing vendor, of selling protection against default of that entity as of period end and may include upfront payments required to be made to enter into the agreement. The higher the fixed rate, the greater the market perceived risk of a credit event involving the reference entity. A rate identified as Defaulted indicates a credit event has occurred for the reference entity.

(1) Upfront payment is exchanged with the counterparty as a result of the standardized trading coupon.

INR - Indian Rupee

KRW - South Korean Won

At January 31, 2013, the Fund had sufficient cash and/or securities to cover commitments under these contracts.

In the normal course of pursuing its investment objectives, the Fund is subject to the following risks:

Commodity Risk: The Fund invests in commodities-linked derivative investments, including commodity futures contracts and options thereon and forward commodity contracts, that provide exposure to the investment returns of certain commodities. Commodities-linked derivative investments are used to enhance total return and/or as a substitute for the purchase or sale of commodities.

Credit Risk: The Fund enters into credit default swap contracts to manage certain investment risks and/or to enhance total return.

Foreign Exchange Risk: The Fund engages in forward foreign currency exchange contracts, options on currencies, total return swaps and cross-currency swaps to enhance total return, to seek to hedge against fluctuations in currency exchange rates and/or as a substitute for the purchase or sale of securities or currencies. It also enters into forward foreign currency exchange contracts to hedge the currency risks of investments it anticipates purchasing.

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-Q

Interest Rate Risk: The Fund utilizes various interest rate derivatives including futures, interest rate swaps and cross-currency swaps to enhance total return, to seek to hedge against fluctuations in interest rates, and/or to change the effective duration of its portfolio.

The fair value of open derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) by risk exposure at January 31, 2013 was as follows:

Risk	Derivative	Fair Value	
		Asset Derivative	Liability Derivative
Commodity	Futures Contracts*	\$ 129,076	\$
Commodity	Options Purchased	77,190	
		\$ 206,266	\$
Credit	Credit Default Swaps	\$ 3,795,301	\$ (1,162,558)
		\$ 3,795,301	\$ (1,162,558)
Foreign Exchange	Currency Options Purchased	\$ 646,209	\$
Foreign Exchange	Currency Options Written		(424,746)
Foreign Exchange	Forward Foreign Currency Exchange Contracts	1,150,737	(2,643,012)
Foreign Exchange	Total Return Swaps	407	
		\$ 1,797,353	\$ (3,067,758)
Interest Rate	Cross-Currency Swaps	\$	\$ (452,009)
Interest Rate	Futures Contracts*	182,612	
Interest Rate	Interest Rate Swaps	572,954	(472,673)
		\$ 755,566	\$ (924,682)

* Amount represents cumulative unrealized appreciation or (depreciation) on futures contracts in the Futures Contracts table above. The cost and unrealized appreciation (depreciation) of investments of the Fund at January 31, 2013, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 437,310,567
Gross unrealized appreciation	\$ 18,087,647
Gross unrealized depreciation	(2,919,731)
Net unrealized appreciation	\$ 15,167,916

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Edgar Filing: Eaton Vance Short Duration Diversified Income Fund - Form N-Q

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At January 31, 2013, the hierarchy of inputs used in valuing the Fund's investments and open derivative instruments, which are carried at value, were as follows:

Asset Description	Level 1	Level 2	Level 3*	Total
Senior Floating-Rate Interests	\$	\$ 159,690,145	\$ 401,225	\$ 160,091,370

* None of the unobservable inputs for Level 3 assets, individually or collectively, had a material impact on the Fund.

Level 3 investments at the beginning and/or end of the period in relation to net assets were not significant and accordingly, a reconciliation of Level 3 assets for the fiscal year to date ended January 31, 2013 is not presented.

At January 31, 2013, there were no investments transferred between Level 1 and Level 2 during the fiscal year to date then ended.

Total return swaps are valued by obtaining the value of the underlying index or instrument and reference interest rate from a third party pricing service.

In a total return swap, the buyer receives a periodic return equal to the total return of a specified security, securities or index for a specified period of time. In return, the buyer pays the counterparty a variable stream of payments, typically based upon short-term interest rates, possibly plus or minus an agreed upon spread. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Periodic payments received or made are recorded as realized gains or losses. The Fund is exposed to credit loss in the event of nonperformance by the swap counterparty. Risk may also arise from the unanticipated movements in value of exchange rates, interest rates, securities, or the index.

For additional information on the Fund's policy regarding the valuation of investments and other significant accounting policies, please refer to the Fund's most recent financial statements included in its semiannual or annual report to shareholders.

Item 2. Controls and Procedures

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant on this Form N-Q has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant on this Form N-Q has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant's internal controls over financial reporting during the fiscal quarter for which the report is being filed that have materially affected, or are reasonably likely to materially affect the registrant's internal control over financial reporting.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
