Strategic Acquisition of Sprint (U.S.)

On October 15, 2012, the Company and Sprint, the third largest mobile communications operator in the U.S., entered into a series of definitive agreements under which the Company will invest approximately \$20.1 billion (approximately ¥1.65 trillion) in Sprint and make it a subsidiary by purchasing approximately 70% of Sprint shares. Of the \$20.1 billion, \$12.1 billion will be paid to Sprint shareholders and \$8.0 billion of new capital will be used, amongst other purposes, to strengthen Sprint's balance sheet. The Company entered into foreign currency forward contracts for the funds of approximately \$20.1 billion at the rate of ¥82.20 to \$1.00.

Regarding the acquisition procedure of Sprint, the matter is currently under regulatory review* and closing is expected on July 1, 2013, in conjunction with the approval of Sprint shareholders.

* As of the end of April 2013

Current status of Sprint

Sprint's earnings results for the fiscal year ended December 2012 are shown in the chart on the right. Sprint posted a net loss for the fiscal year, mainly due to the posting of temporary costs including an accelerated depreciation of equipment in conjunction with shutting down of the old second generation mobile phone service in June 2013. After terminating its second generation mobile phone service, Sprint plans to introduce LTE service.

Towards creation of synergies at both companies

The Company and Sprint are currently deepening mutual understanding of each other's business environment and operational status by holding frequent meetings between executive management, either face-to-face or through video conferencing systems. This will allow us to generate synergies immediately after acquiring management control in Sprint.
