Item 2.02. Results of Operations and Financial Condition.

In connection with the proposed private offering of senior notes described in Item 7.01 below, the Company prepared a preliminary offering memorandum that is being disseminated only to eligible investors, in which the Company provided certain preliminary second fiscal quarter 2013 financial results as follows:

Recent Results

Set forth below are certain preliminary estimates of the results of operations that we expect to report for our second quarter ended June 30, 2013. Since we have not yet closed our books for our second fiscal quarter, our actual results may differ from these estimates due to the completion of our financial closing procedures, final adjustments and other developments that may arise between now and the time the financial results for our second quarter are finalized.

The preliminary financial data included in this offering memorandum has been prepared by, and is the responsibility of, our management. Samil PricewaterhouseCoopers has not audited, reviewed, compiled or performed any procedures with respect to the accompanying preliminary financial data. Accordingly, Samil PricewaterhouseCoopers does not express an opinion or any other form of assurance with respect thereto.

Based on currently available information, for the three months ended June 30, 2013, we expect revenue to be approximately \$215 million, gross margin to be approximately 33% as a percent of revenue, and Adjusted EBITDA, a non-GAAP financial measure, to be approximately \$39 million. These expected results for the three months ended June 30, 2013 are consistent with management's previously announced guidance on revenue and gross margin, and were driven by smart phones and tablet PCs market, and volume increase of our Power Solution Division.

The following table reconciles our estimated net income to our estimate of Adjusted EBITDA for the quarter ended June 30, 2013 based on the expected results set forth above. See Management's Discussion and Analysis of Financial Condition and Results of Operations in our annual report on Form 10-K for the year ended December 31, 2012 for an explanation of our use of Adjusted EBITDA.

	Three Months Ended June 30, 2013 2012 (In millions)	
Net income	\$ 2	\$ 4.3
Adjustments:		
Depreciation and amortization	8	7.9
Interest expense, net	6	5.6
Income tax expenses	1	3.2
Equity-based compensation expense ^(a)	1	0.5
Foreign currency loss, net ^(b)	21	10.6
Derivative valuation loss (gain), net ^(c)		(0.7)
Secondary offering ^(d)		1.2
Adjusted EBITDA	\$ 39	\$ 32.6

- (a) This adjustment eliminates the impact of non-cash equity-based compensation expenses. Although we expect to incur non-cash equity-based compensation expenses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these non-cash expenses, as supplemental information.
- (b) This adjustment eliminates the impact of non-cash foreign currency translation associated with intercompany debt obligations and foreign currency denominated receivables and payables, as well as the cash impact of foreign currency transaction gains or losses on collection of such receivables and payment of such payables. Although we expect to incur foreign currency translation gains or losses in the future, we believe that analysts and investors will find it helpful to review our operating performance without the effects of these primarily non-cash gains or losses, as supplemental information.
- (c) This adjustment eliminates the impact of gain or loss recognized in income on derivatives, which represents hedge ineffectiveness or derivatives value changes excluded from the risk being hedged. We enter into derivative transactions to mitigate foreign exchange risks. As our derivative transactions are limited to a certain portion of our expected cash flows denominated in USD, and we do not enter into derivative transactions for trading or speculative purposes, we do not believe that these charges or gains are indicative of our core operating performance.

(d) This adjustment eliminates expenses incurred for our secondary offering in May 2012.

We have provided the preliminary results described above primarily because our financial closing procedures for the month and quarter ended June 30, 2013 are not yet complete. As a result, there is a possibility that our final results and reconciliation will vary from these preliminary estimates. We expect to complete our closing procedures for the quarter ended June 30, 2013 in July 2013 and announce full second quarter results on July 30, 2013.
