During 3Q13, Telecom incorporated to its portfolio of La Nube Argentina, a product named *Central Virtual Corporativa*, a virtual IP switching device that allows savings in infrastructure costs. With *Central Virtual Corporativa*, clients manage their communications through a virtual IP PBX hosted in Telecom s Datacenters with the highest level of security.

Revenues related to Internet totaled P\$1,827 million (+ P\$385 million or +26.7% vs. 9M12), due to the increase in the customer base in the quarter together with a commercial offer with higher speeds that can be rendered to the investments executed.

Moreover, in July, Club Arnet had presence in the winter holidays, offering special discounts in the Ski Centers and main touristic centers.

## **Consolidated Operating Costs**

Consolidated Operating Costs, (including Results on disposal of PP&E and write-down of PP&E ), totaled P\$16,590 million in 9M13, an increase of P\$3,352 million, or +25.3% vs. 9M12. The increase is a consequence of higher labor costs, costs of handsets with new features and taxes associated to revenues.

The cost breakdown is as follows:

Employee benefit expenses and severance payments totaled P\$2,996 million (+26.5% vs. 9M12), mainly affected by increases in salaries to the unionized employees due to the new collective bargaining agreement reached at the beginning of 3Q13, as well as increases in salaries to the non-unionized workforce, together with the social security contributions associated to such concepts, and to an increase in the number of unionized employees. Total employees (including temporary employees) at the end of the period totaled 16,660, similar levels to those registered in 9M12.

Interconnection costs and other telecommunication charges (including TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$1,386 million, +14.2% vs. 9M12. This increase resulted from higher Data and SMS roaming costs as well as voice roaming and TLRD charges.

Fees for services, maintenance and materials and supplies amounted to \$1,877 million (+20.1% vs. 9M12), principally due to increases in the maintenance of radiobases, systems and real estate in the mobile business and higher costs associated to suppliers in both fixed and mobile segments.

Taxes and fees with regulatory authorities reached P\$1,954 million (+34.4% vs. 9M12), impacted mainly by a higher volume of revenues, a higher incidence in turnover taxes derived from increases in municipal jurisdictions, higher municipal taxes and higher levies of the regulatory authority.

Commissions (Commissions paid to agents, prepaid card commissions and others) totaled P\$1,607 million (+13.0% vs. 9M12), mainly due to the increase in commissions paid to commercial agents associated with the increase in sales. Agent commissions capitalized as SAC amounted to P\$367 million (+68.3% vs. 9M12).

Cost of handsets sold totaled P\$2,169 million (+42.6% vs. 9M12), due to an increase in the participation of high-end handsets that maximize VAS usage, that resulted in higher unit prices, and hence higher revenues. This was partially compensated by a lower quantity of handset sold. Deferred costs from SAC amounted to P\$223 million (-40.4% vs. 9M12).

Advertising amounted to P\$452 million (-4.8% vs. 9M12), mainly derived from minor commercial expenses and campaigns in comparison to 9M12.

Depreciations and Amortizations reached P\$2,130 million (+10.5% vs. 9M12). PP&E depreciation amounted to P\$1,447 million (+9.2% vs. 9M12); SAC and services connection costs amortization totaled P\$665 million (+13.5% vs. 9M12); and other intangible assets amortization reached P\$18 million (+12.5% vs. 9M12).

Other Costs totaled P\$2,019 million (+56.0% vs. 9M12). This increase was mainly due to costs of VAS that totaled P\$503 million (+138.4% vs. 9M12), related to the increase of those sales, especially in the mobile business. Bad debt expenses reached P\$221 million (+1.4% vs. 9M12) representing 1.3% of consolidated costs and 1.1% of consolidated revenues, while charges related to lawsuits and other contingencies amounted to P\$225 million in 9M13 (+100.9% vs. 9M12). The Results on disposal and write-down of PP&E reached P\$161 million.

#### **Consolidated Financial Results**

Financial results resulted in a gain of P\$377 million, an increase of P\$218 million or +137.1% vs. 9M12. This was mainly due to a gain in net financial interest of P\$428 million in 9M13 (+P\$234 million vs. 9M12) based on a healthy financial position partially compensated by losses for FX results of P\$131 million in 9M13 (vs. losses of P\$29 million in 9M12).

### **Consolidated Net Financial Position**

As of September 30, 2013, Net Financial Position (Cash, Cash Equivalents and financial Investments minus Loans) totaled P\$5,684 million in cash, an improvement of P\$2,987 million vs. Net Financial Position as of September 30, 2012, thanks to the cash generation of the Group.

#### **Capital Expenditures**

During 9M13, the Company invested P\$2,896 million (+32.4 vs. 9M12). This amount was allocated to Fixed Services (P\$1,256 million) and Mobile services (P\$1,640 million). In relative terms, capex reached 14.6% of consolidated revenues.

The main capital expenditures in the fixed business were associated to the reconversion plan of the network that implies the replacement of copper connections with fiber optic cables in different points (FTTC or Fiber to the Cabinet, FTTB or Fiber to the Building and FTTH or Fiber to the Home) to enhance the broadband portfolio and achieve speeds up to 100 Mbps. This evolution to new technologies contributes to optimize service quality in terms of stability and availability, improving significantly the customer experience.
