Notes to Condensed Consolidated Financial Statements

Six Months Ended June 30, 2014 and 2013

Note 1. Overview and Basis of Presentation

Business Sykes Enterprises, Incorporated and consolidated subsidiaries (SYKES or the Company) provides comprehensive outsourced customer contact management solutions and services in the business process outsourcing arena to companies, primarily within the communications, financial services, technology/consumer, transportation and leisure, and healthcare industries. SYKES provides flexible, high-quality outsourced customer contact management services (with an emphasis on inbound technical support and customer service), which includes customer assistance, healthcare and roadside assistance, technical support and product sales to its clients' customers. Utilizing SYKES integrated onshore/offshore global delivery model, SYKES provides its services through multiple communication channels encompassing phone, e-mail, social media, text messaging and chat. SYKES complements its outsourced customer contact management services with various enterprise support services in the United States that encompass services for a company's internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, SYKES also provides fulfillment services including multilingual sales order processing via the Internet and phone, payment processing, inventory control, product delivery and product returns handling. The Company has operations in two reportable segments entitled (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, in which the client base is primarily companies in the United States that are using the Company's services to support their customer management needs; and (2) EMEA, which includes Europe, the Middle East and Africa.

Basis of Presentation The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles or U.S. GAAP) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for any future quarters or the year ending December 31, 2014. For further information, refer to the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission (SEC) on February 20, 2014.

Principles of Consolidation The condensed consolidated financial statements include the accounts of SYKES and its wholly-owned subsidiaries and controlled majority-owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events Subsequent events or transactions have been evaluated through the date and time of issuance of the condensed consolidated financial statements. There were no material subsequent events that required recognition or disclosure in the accompanying condensed consolidated financial statements.

New Accounting Standards Not Yet Adopted

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-08 *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (ASU 2014-08). The amendments in ASU 2014-08 indicate that only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results will be reported as discontinued operations in the financial statements. Currently, a component of an entity that is a reportable segment, an operating segment, a reporting unit, a subsidiary, or an asset group is eligible for discontinued operations

Table of Contents

presentation. The amendments should be applied to all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. The Company does not expect the adoption of ASU 2014-08 to materially impact its financial condition, results of operations and cash flows.

In May 2014, the FASB issued ASU 2014-09 *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09). The amendments in ASU 2014-09 outline a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and indicate that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity should identify the contract(s) with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation. The amendments are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the impact that the adoption of ASU 2014-09 may have on its financial condition, results of operations and cash flows.

In June 2014, the FASB issued ASU 2014-12 *Compensation - Stock Compensation (Topic 718) Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period* (ASU 2014-12). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification (ASC) Topic 718, *Compensation - Stock Compensation* (ASC 718), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. The Company does not expect the adoption of ASU 2014-12 to materially impact its financial condition, results of operations and cash flows.

New Accounting Standards Recently Adopted

In March 2013, the FASB issued ASU 2013-05 *Foreign Currency Matters (Topic 830) Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity* (ASU 2013-05). The amendments in ASU 2013-05 indicate that a cumulative translation adjustment (CTA) is attached to the parent's investment in a foreign entity and should be released in a manner consistent with the derecognition guidance on investments in entities. Thus, the entire amount of the CTA associated with the foreign entity would be released when there has been a sale of a subsidiary or group of net assets within a foreign entity and the sale represents the substantially complete liquidation of the investment in the foreign entity, a loss of a controlling financial interest in an investment in a foreign entity (i.e., the foreign entity is deconsolidated), or a step acquisition for a foreign entity (i.e., when an entity has changed from applying the equity method for an investment in a foreign entity to consolidating the foreign entity). ASU 2013-05 does not change the requirement to release a pro rata portion of the CTA of the foreign entity into earnings for a partial sale of an equity method investment in a foreign entity. The amendments in ASU 2013-05 are effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013. The amendments should be applied prospectively to derecognition events occurring after the effective date. The adoption of ASU 2013-05 on January 1, 2014 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In July 2013, the FASB issued ASU 2013-11 *Income Taxes (Topic 740) Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists* (ASU 2013-11). The amendments in ASU 2013-11 indicate that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed. In situations where a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction or the tax law of the jurisdiction does not require, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The amendments in ASU 2013-11 are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. The adoption of ASU 2013-11 on January 1, 2014 resulted in a \$3.1 million reclassification of a portion of the Company's unrecognized tax benefits from Long-term income tax liabilities to Deferred charges and other assets. See Note 11, Income Taxes, for further information.

Table of Contents**Note 2. Costs Associated with Exit or Disposal Activities*****Fourth Quarter 2011 Exit Plan***

During 2011, the Company announced a plan to rationalize seats in certain U.S. sites and close certain locations in EMEA (the Fourth Quarter 2011 Exit Plan). The details are described below, by segment.

Americas

During 2011, as part of an on-going effort to streamline excess capacity related to the integration of the ICT Group, Inc. (ICT) acquisition and align it with the needs of the market, the Company announced a plan to rationalize approximately 900 seats in the U.S., some of which were revenue generating, and migrated the associated revenues to other locations within the U.S. Approximately 300 employees were affected and the Company has completed the actions associated with the Fourth Quarter 2011 Exit Plan in the Americas.

The major costs incurred as a result of these actions are program transfer costs, facility-related costs (primarily consisting of those costs associated with the real estate leases), and impairments of long-lived assets (primarily leasehold improvements and equipment) estimated at \$1.9 million as of June 30, 2014 (\$1.9 million at December 31, 2013). The Company recorded \$0.5 million of the costs associated with these actions as non-cash impairment charges, while approximately \$1.4 million represents cash expenditures for program transfer and facility-related costs, including obligations under the leases, the last of which ends in February 2017. The Company has paid \$0.9 million in cash through June 30, 2014 under the Fourth Quarter 2011 Exit Plan in the Americas.

The following tables summarize the accrued liability associated with the Americas Fourth Quarter 2011 Exit Plan's exit or disposal activities and related charges for the three months ended June 30, 2014 and 2013 (in thousands):

	Beginning Accrual at April 1, 2014	Charges (Reversals) for the Three Months Ended June 30, 2014	Cash Payments	Other Non-Cash Changes	Ending Accrual at June 30, 2014

Table of Contents**EMEA**

During 2011, to improve the Company's overall profitability and improve its cost structure in the EMEA region by optimizing its capacity utilization, the Company committed to close a customer contact management center in South Africa and a customer contact management center in Ireland, as well as some capacity rationalization in the Netherlands, all components of the EMEA segment. While the Company migrated approximately \$3.2 million of annualized call volumes of the Ireland facility to other facilities within EMEA, the Company did not migrate the remaining call volume in Ireland or any of the annualized revenue from the Netherlands or South Africa facilities, which was \$18.8 million for 2011, to other facilities within the region. The number of seats rationalized across the EMEA region approximated 900 with approximately 500 employees affected by the actions. The Company closed these facilities and substantially completed the actions associated with the EMEA plan on September 30, 2012.

The major costs incurred as a result of these actions are facility-related costs (primarily consisting of those costs associated with the real estate leases), impairments of long-lived assets (primarily leasehold improvements and equipment) and severance-related costs estimated at \$6.7 million as of June 30, 2014 (\$6.7 million as of December 31, 2013). The Company recorded \$0.5 million of the costs associated with these actions as non-cash impairment charges, while approximately \$6.2 million represents cash expenditures for severance and related costs and facility-related costs, primarily rent obligations to be paid through the remainder of the noncancelable term of the leases, the last of which ended in March 2013. The Company has paid \$5.9 million in cash through June 30, 2014 under the Fourth Quarter 2011 Exit Plan in EMEA.

The following tables summarize the accrued liability associated with EMEA's Fourth Quarter 2011 Exit Plan's exit or disposal activities and related charges for the three months ended June 30, 2014 and 2013 (in thousands):

Fourth Quarter 2010 Exit Plan

During 2010, in furtherance of the Company's long-term goals to manage and optimize capacity utilization, the Company committed to and closed a customer contact management center in the United Kingdom and a customer contact management center in Ireland, both components of the EMEA segment (the Fourth Quarter 2010 Exit Plan). These actions were substantially completed by January 31, 2011.

The major costs incurred as a result of these actions were facility-related costs (primarily consisting of those costs associated with the real estate leases), impairments of long-lived assets (primarily leasehold improvements and equipment) and severance-related costs totaling \$2.3 million as of June 30, 2014 (\$2.5 million as of December 31, 2013). The Company recorded \$0.2 million of the costs associated with these actions as non-cash impairment charges, while approximately \$1.9 million represents cash expenditures for facility-related costs, primarily rent obligations to be paid through the remainder of the lease terms, the last of which ended in March 2014, and \$0.2 million represents cash expenditures for severance-related costs. The Fourth Quarter 2010 Exit Plan was settled during the three months ended June 30, 2014. The Company paid \$2.0 million in cash through June 30, 2014 under the Fourth Quarter 2010 Exit Plan.

The following tables summarize the accrued liability associated with the Fourth Quarter 2010 Exit Plan's exit or disposal activities and related charges during the three months ended June 30, 2014 and 2013 (in thousands):

Third Quarter 2010 Exit Plan

During 2010, consistent with the Company's long-term goals to manage and optimize capacity utilization, the Company closed or committed to close four customer contact management centers in The Philippines and consolidated or committed to consolidate leased space in our Wilmington, Delaware and Newtown, Pennsylvania locations (the Third Quarter 2010 Exit Plan). These actions were substantially completed by January 31, 2011.

The major costs incurred as a result of these actions were impairments of long-lived assets (primarily leasehold improvements) and facility-related costs (primarily consisting of those costs associated with the real estate leases) estimated at \$10.5 million as of June 30, 2014 (\$10.5 million as of December 31, 2013), all of which are in the Americas segment. The Company recorded \$3.8 million of the costs associated with these actions as non-cash impairment charges, while approximately \$6.7 million represents cash expenditures for facility-related costs, primarily rent obligations to be paid through the remainder of the lease terms, the last of which ends in February 2017. The Company has paid \$5.2 million in cash through June 30, 2014 under the Third Quarter 2010 Exit Plan.

Note 3. Fair Value

ASC 820 *Fair Value Measurements and Disclosures* (ASC 820) requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. This hierarchy requires the use of observable market data when available. These two types of inputs have created the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Fair Value of Financial Instruments The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash, Short-Term and Other Investments, Investments Held in Rabbi Trust and Accounts Payable The carrying values for cash, short-term and other investments, investments held in rabbi trust and accounts payable approximate their fair values.

Foreign Currency Forward Contracts and Options Foreign currency forward contracts and options, including premiums paid on options, are recognized at fair value based on quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk.

Long-Term Debt The carrying value of long-term debt approximates its estimated fair value as it re-prices at varying interest rates.

Fair Value Measurements ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820-10-20 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

ASC 825 *Financial Instruments* (ASC 825) permits an entity to measure certain financial assets and financial liabilities at fair value with changes in fair value recognized in earnings each period. The Company has not elected to use the fair value option permitted under ASC 825 for any of its financial assets and financial liabilities that are not already recorded at fair value.

Determination of Fair Value The Company generally uses quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access to determine fair value, and classifies such items in Level 1. Fair values determined by Level 2 inputs utilize inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, and inputs other than quoted market prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

If quoted market prices are not available, fair value is based upon internally developed valuation techniques that use, where possible, current market-based or independently sourced market parameters, such as interest rates, currency rates, etc. Assets or liabilities valued using such internally generated valuation techniques are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be some significant inputs that are readily observable.

The following section describes the valuation methodologies used by the Company to measure assets and liabilities at fair value on a recurring basis, including an indication of the level in the fair value hierarchy in which each asset or liability is generally classified.

Table of Contents

Money Market and Open-End Mutual Funds The Company uses quoted market prices in active markets to determine the fair value of money market and open-end mutual funds, which are classified in Level 1 of the fair value hierarchy.

Foreign Currency Forward Contracts and Options The Company enters into foreign currency forward contracts and options over the counter and values such contracts using quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk. The key inputs include forward or option foreign currency exchange rates and interest rates. These items are classified in Level 2 of the fair value hierarchy.

Investments Held in Rabbi Trust The investment assets of the rabbi trust are valued using quoted market prices in active markets, which are classified in Level 1 of the fair value hierarchy. For additional information about the deferred compensation plan, refer to Note 6, Investments Held in Rabbi Trust, and Note 15, Stock-Based Compensation.

Guaranteed Investment Certificates Guaranteed investment certificates, with variable interest rates linked to the prime rate, approximate fair value due to the automatic ability to re-price with changes in the market; such items are classified in Level 2 of the fair value hierarchy.

Certain assets, under certain conditions, are measured at fair value on a nonrecurring basis utilizing Level 3 inputs, like those associated with acquired businesses, including goodwill, other intangible assets and other long-lived assets. For these assets, measurement at fair value in periods subsequent to their initial recognition would be applicable if these assets were determined to be impaired. The adjusted carrying values for assets measured at fair value on a nonrecurring basis (no liabilities) subject to the requirements of ASC 820 were not material at June 30, 2014 and December 31, 2013.

Table of Contents**Note 5. Financial Derivatives**

Cash Flow Hedges The Company has derivative assets and liabilities relating to outstanding forward contracts and options, designated as cash flow hedges, as defined under ASC 815 *Derivatives and Hedging* (ASC 815), consisting of Philippine Peso, Costa Rican Colon, Hungarian Forint and Romanian Leu contracts. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates.

The deferred gains (losses) and related taxes on the Company's cash flow hedges recorded in Accumulated other comprehensive income (loss) (AOCI) in the accompanying Condensed Consolidated Balance Sheets are as follows (in thousands):

	June 30, 2014	December 31, 2013
Deferred gains (losses) in AOCI	\$ (1,205)	\$ (2,704)
Tax on deferred gains (losses) in AOCI	(43)	169
Deferred gains (losses) in AOCI, net of taxes	\$ (1,248)	\$ (2,535)
Deferred gains (losses) expected to be reclassified to Revenues from AOCI during the next twelve months	\$ (1,205)	

Deferred gains (losses) and other future reclassifications from AOCI will fluctuate with movements in the underlying market price of the forward contracts and options.

Net Investment Hedge During the six months ended June 30, 2014 and 2013, the Company entered into foreign exchange forward contracts to hedge its net investment in a foreign operation, as defined under ASC 815. The purpose of these derivative instruments is to protect the Company's interests against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to the Company's foreign currency-based investments in these subsidiaries.

Non-Designated Hedges The Company also periodically enters into foreign currency hedge contracts that are not designated as hedges as defined under ASC 815. The purpose of these derivative instruments is to protect the Company's interests against adverse foreign currency moves pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than the Company's subsidiaries' functional currencies. These contracts generally do not exceed 180 days in duration.

⁽²⁾ Net investment hedge as defined under ASC 815. Purpose is to protect against the risk that the net assets of certain of our international subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to our foreign currency-based investments in these subsidiaries.

⁽³⁾ Foreign currency hedge contract not designated as a hedge as defined under ASC 815. Purpose is to reduce the effects on the Company's operating results and cash flows from fluctuations caused by volatility in currency exchange rates, primarily related to intercompany loan payments and cash held in non-functional currencies.

As of June 30, 2014, the maximum amount of loss due to credit risk that the Company would incur if parties to the financial instruments that make up the concentration failed to perform according to the terms of the contracts was \$1.6 million, based on the gross fair value of the financial instruments.

Master netting agreements exist with each respective counterparty used to transact foreign exchange derivatives. These agreements allow the Company to net settle transactions of the same currency in a single transaction. In the event of default by the Company or one of its counterparties, these agreements include a set-off clause that provides the non-defaulting party the right to net settle all derivative transactions, regardless of the currency and settlement date. However, the Company has elected to present the derivative assets and derivative liabilities on a gross basis in the accompanying Condensed Consolidated Balance Sheets. Additionally, the Company is not required to pledge nor is it entitled to receive cash collateral related to these derivative transactions.

Table of Contents**Note 9. Borrowings**

On May 3, 2012, the Company entered into a \$245 million revolving credit facility (the 2012 Credit Agreement) with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner and Administrative Agent (KeyBank). The 2012 Credit Agreement replaced the Company's previous \$75 million revolving credit facility (the 2010 Credit Agreement) dated February 2, 2010, as amended, which agreement was terminated simultaneous with entering into the 2012 Credit Agreement. The 2012 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants. The Company borrowed \$108.0 million under the 2012 Credit Agreement's revolving credit facility on August 20, 2012 in connection with the acquisition of Alpine Access, Inc. on such date.

The 2012 Credit Agreement includes a \$184 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. The Company is not currently aware of any inability of its lenders to provide access to the full commitment of funds that exist under the revolving credit facility, if necessary. However, there can be no assurance that such facility will be available to the Company, even though it is a binding commitment of the financial institutions.

Borrowings consist of the following (in thousands):

	June 30, 2014	December 31, 2013
Revolving credit facility	\$ 79,000	\$ 98,000
Less: Current portion	-	-
Total long-term debt	\$ 79,000	\$ 98,000

The 2012 Credit Agreement matures on May 2, 2017 and has no varying installments due.

Borrowings under the 2012 Credit Agreement will bear interest at the rates set forth in the Credit Agreement. In addition, the Company is required to pay certain customary fees, including a commitment fee of 0.175%, which is due quarterly in arrears and calculated on the average unused amount of the 2012 Credit Agreement.

The 2012 Credit Agreement is guaranteed by all of the Company's existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all the direct foreign subsidiaries of the Company and those of the guarantors.

In May 2012, the Company paid an underwriting fee of \$0.9 million for the 2012 Credit Agreement, which is deferred and amortized over the term of the loan.

The 2012 Credit Agreement had \$79.0 million of outstanding borrowings as of June 30, 2014, with an average daily utilization of \$90.2 million and \$105.8 million during the three months ended June 30, 2014 and 2013, respectively, and \$93.3 million and \$98.5 million during the six months ended June 30, 2014 and 2013, respectively. During the three months ended June 30, 2014 and 2013, the related interest expense, excluding amortization of deferred loan fees, under our credit agreements was \$0.3 million and \$0.4 million, respectively, which represented weighted average interest rates of 1.3% and 1.5%, respectively. During the six months ended June 30, 2014 and 2013, the related interest expense, excluding amortization of deferred loan fees, under our credit agreements was \$0.6 million and \$0.7 million, respectively, which represented weighted average interest rates of 1.3% and 1.5%, respectively.

Table of Contents**Note 10. Accumulated Other Comprehensive Income (Loss)**

The Company presents data in the Condensed Consolidated Statements of Changes in Shareholders' Equity in accordance with ASC 220 *Comprehensive Income* (ASC 220). ASC 220 establishes rules for the reporting of comprehensive income (loss) and its components. The components of accumulated other comprehensive income (loss) consist of the following (in thousands):

Except as discussed in Note 11, Income Taxes, earnings associated with the Company's investments in its foreign subsidiaries are considered to be indefinitely reinvested and no provision for income taxes on those earnings or translation adjustments have been provided.

Table of Contents**Note 11. Income Taxes**

The Company's effective tax rate was 14.2% and (14.0)% for the three months ended June 30, 2014 and 2013, respectively. The increase in the effective tax rate is primarily due to several factors, including fluctuations in earnings among the various jurisdictions in which the Company operates, none of which are individually material. The difference between the Company's effective tax rate of 14.2% as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in unrecognized tax positions and tax credits, partially offset by the tax impact of permanent differences, adjustments of valuation allowances and foreign withholding taxes.

The Company's effective tax rate was 24.1% and 17.2% for the six months ended June 30, 2014 and 2013, respectively. The increase in the effective tax rate is primarily due to several factors, including fluctuations in earnings among the various jurisdictions in which the Company operates, none of which are individually material. This increase was partially offset by the recognition in 2013 of the retroactive tax impact of The American Taxpayer Relief Act of 2012. The difference between the Company's effective tax rate of 24.1% as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in unrecognized tax positions and tax credits, partially offset by the tax impact of permanent differences, adjustments of valuation allowances and foreign withholding taxes.

The Company has accrued \$15.0 million as of June 30, 2014 and December 31, 2013, excluding penalties and interest, for the liability for unrecognized tax benefits. As of June 30, 2014, \$4.0 million of unrecognized tax benefits have been recorded to *Deferred charges and other assets* in the accompanying Condensed Consolidated Balance Sheet in accordance with ASU 2013-11. The remaining \$11.0 million of the unrecognized tax benefits at June 30, 2014 and the \$15.0 million at December 31, 2013 are recorded in *Long-term income tax liabilities* in the accompanying Condensed Consolidated Balance Sheets.

Earnings associated with the investments in the Company's foreign subsidiaries are considered to be indefinitely reinvested outside of the U.S. Therefore, a U.S. provision for income taxes on those earnings or translation adjustments has not been recorded, as permitted by criterion outlined in ASC 740 *Income Taxes*. Determination of any unrecognized deferred tax liability for temporary differences related to investments in foreign subsidiaries that are essentially permanent in duration is not practicable due to the inherent complexity of the multi-national tax environment in which the Company operates.

In 2013, the Company executed offshore cash movements to take advantage of The American Taxpayer Relief Act of 2012 (the *Act*) passed on January 2, 2013, with retroactive application to January 1, 2012. This Act, which extended the tax provisions of the Internal Revenue Code Section 954(c)(6) through the end of 2013, permitted continued tax deferral on such movements which would otherwise be taxable immediately in the U.S. While the 2013 cash movements related to this law change are not taxable in the U.S., related foreign withholding taxes of \$2.4 million were included in the provision for income taxes in the accompanying Condensed Consolidated Statement of Operations for the six months ended June 30, 2013.

The U.S. Department of the Treasury released the *General Explanations of the Administration's Fiscal Year 2015 Revenue Proposals* in March 2014. These proposals represent a significant shift in international tax policy, which may materially impact U.S. taxation of international earnings. The Company continues to monitor these proposals and is currently evaluating the potential impact on its financial condition, results of operations and cash flows.

The Company is currently under audit in several tax jurisdictions. The Company has received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and the Company paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of fluctuations in the foreign exchange rate, are \$17.2 million and \$17.3 million as of June 30, 2014 and December 31, 2013, respectively, and are included in *Deferred charges and other assets* in the accompanying Condensed Consolidated Balance Sheets. Although the outcome of examinations by taxing authorities is always uncertain, the Company believes it is adequately reserved for these audits and resolution is not expected to have a material impact on its financial condition and results of operations.

Table of Contents

The significant tax jurisdictions currently under audit are as follows:

Tax Jurisdiction	Tax Year Ended
Canada	2003 to 2009
Philippines	2009 and 2010
United States	2011 and 2012

Note 12. Earnings Per Share

Basic earnings per share are based on the weighted average number of common shares outstanding during the periods. Diluted earnings per share includes the weighted average number of common shares outstanding during the respective periods and the further dilutive effect, if any, from stock options, stock appreciation rights, restricted stock, restricted stock units and shares held in a rabbi trust using the treasury stock method.

The numbers of shares used in the earnings per share computation are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Basic:

Total weighted average diluted shares outstanding	42,810	42,954	42,845	43,011
Anti-dilutive shares excluded from the diluted earnings per share calculation	49	7	70	4

On August 18, 2011, the Company's Board authorized the Company to purchase up to 5.0 million shares of its outstanding common stock (the 2011 Share Repurchase Program). A total of 3.5 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

The shares repurchased under the Company's share repurchase programs were as follows (in thousands, except per share amounts):

Total minimum payments required	\$ 19,525

During the six months ended June 30, 2014, the Company entered into agreements with third-party vendors in the ordinary course of business whereby the Company committed to purchase goods and services used in its normal operations. These agreements, which are not cancelable, generally range from one to five year periods and contain fixed or minimum annual commitments. Certain of these agreements allow for renegotiation of the minimum annual commitments based on certain conditions. The following is a schedule of the future minimum purchases remaining under the agreements as of June 30, 2014 (in thousands):

	Amount
2014 (remaining six months)	\$ 7,850

2020 and thereafter	-
Total minimum payments required	\$ 34,600

Except as outlined above, there have not been any material changes to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2013.

Loss Contingency

The Company from time to time is involved in legal actions arising in the ordinary course of business. With respect to these matters, management believes that the Company has adequate legal defenses and/or when possible and appropriate, provided adequate accruals related to those matters such that the ultimate outcome will not have a material adverse effect on the Company's financial position or results of operations.

Table of Contents**Note 14. Defined Benefit Pension Plan and Postretirement Benefits****Defined Benefit Pension Plans**

Split-Dollar Life Insurance Arrangement

In 1996, the Company entered into a split-dollar life insurance arrangement to benefit the former Chairman and Chief Executive Officer of the Company. Under the terms of the arrangement, the Company retained a collateral interest in the policy to the extent of the premiums paid by the Company. The postretirement benefit obligation included in Other long-term liabilities and the unrealized gains (losses) included in Accumulated other comprehensive income in the accompanying Condensed Consolidated Balance Sheets were as follows (in thousands):

	June 30, 2014	December 31, 2013
Postretirement benefit obligation	\$ 62	\$ 81
Unrealized gains (losses) in AOCI ⁽¹⁾	\$ 332	\$ 314

⁽¹⁾ Unrealized gains (losses) are due to changes in discount rates related to the postretirement obligation.

Table of Contents**Note 15. Stock-Based Compensation**

The Company's stock-based compensation plans include the 2011 Equity Incentive Plan, the 2004 Non-Employee Director Fee Plan and the Deferred Compensation Plan. The following table summarizes the stock-based compensation expense (primarily in the Americas), income tax benefits related to the stock-based compensation and excess tax benefits (deficiencies) (in thousands):

⁽²⁾ Included in Income taxes in the accompanying Condensed Consolidated Statements of Operations.

⁽³⁾ Included in Additional paid-in capital in the accompanying Condensed Consolidated Statements of Changes in Shareholders' Equity.

There were no capitalized stock-based compensation costs as of June 30, 2014 and December 31, 2013.

2011 Equity Incentive Plan The Company's Board of Directors (the Board) adopted the Sykes Enterprises, Incorporated 2011 Equity Incentive Plan (the 2011 Plan) on March 23, 2011, as amended on May 11, 2011 to reduce the number of shares of common stock available to 4.0 million shares. The 2011 Plan was approved by the shareholders at the May 2011 annual shareholders meeting. The 2011 Plan replaced and superseded the Company's 2001 Equity Incentive Plan (the 2001 Plan), which expired on March 14, 2011. The outstanding awards granted under the 2001 Plan will remain in effect until their exercise, expiration or termination. The 2011 Plan permits the grant of restricted stock, stock appreciation rights, stock options and other stock-based awards to certain employees of the Company, members of the Company's Board of Directors and certain non-employees who provide services to the Company in order to encourage them to remain in the employment of, or to faithfully provide services to, the Company and to increase their interest in the Company's success.

Stock Appreciation Rights The Board, at the recommendation of the Compensation Committee (the Committee), has approved in the past, and may approve in the future, awards of stock-settled stock appreciation rights (SARs) for eligible participants. SARs represent the right to receive, without payment to the Company, a certain number of shares of common stock, as determined by the Committee, equal to the amount by which the fair market value of a share of common stock at the time of exercise exceeds the grant price. The SARs are granted at the fair market value of the Company's common stock on the date of the grant and vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. The SARs have a term of 10 years from the date of grant. The fair value of each SAR is estimated on the date of grant using the Black-Scholes valuation model that uses various assumptions.

The following table summarizes the assumptions used to estimate the fair value of SARs granted:

	Six Months Ended June 30,	
	2014	2013
Expected volatility	38.9%	45.2%
Weighted-average volatility	38.9%	45.2%
Expected dividend rate	0.0%	0.0%
Expected term (in years)	5.0	5.0
Risk-free rate	1.7%	0.8%

Table of Contents

The following table summarizes SARs activity as of June 30, 2014 and for the six months then ended:

Stock Appreciation Rights	Shares (000s)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (000s)

Fair value of SARs vested	\$ 1,553	\$ 1,298

The following table summarizes nonvested SARs activity as of June 30, 2014 and for the six months then ended:

Nonvested Stock Appreciation Rights	Shares (000s)	Weighted Average Grant-Date Fair Value
Nonvested at January 1, 2014	535	\$ 6.17
Granted	246	\$ 7.20
Vested	(246)	\$ 6.31
Forfeited or expired	(124)	\$ 6.48
Nonvested at June 30, 2014	411	\$ 6.61

As of June 30, 2014, there was \$2.4 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested SARs granted under the 2011 Plan and 2001 Plan. This cost is expected to be recognized over a weighted average period of 1.5 years.

Restricted Shares The Board, at the recommendation of the Committee, has approved in the past, and may approve in the future, awards of performance and employment-based restricted shares (restricted shares) for eligible participants. In some instances, where the issuance of restricted shares has adverse tax consequences to the recipient, the Board may instead issue restricted stock units (RSUs). The restricted shares are shares of the Company's common stock (or in the case of RSUs, represent an equivalent number of shares of the Company's common stock) which are issued to the participant subject to (a) restrictions on transfer for a period of time and (b) forfeiture under certain conditions. The performance goals, including revenue growth and income from operations targets, provide a range of vesting possibilities from 0% to 100% and will be measured at the end of the performance period. If the performance conditions are met for the performance period, the shares will vest and all restrictions on the transfer of the restricted shares will lapse (or in the case of RSUs, an equivalent number of shares of the Company's

Edgar Filing: SYKES ENTERPRISES INC - Form 10-Q

common stock will be issued to the recipient). The Company recognizes compensation cost, net of estimated forfeitures, based on the fair value (which approximates the current market price) of the restricted shares (and RSUs) on the date of grant ratably over the requisite service period based on the probability of achieving the performance goals.

Changes in the probability of achieving the performance goals from period to period will result in corresponding changes in compensation expense. The employment-based restricted shares currently outstanding vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date.

As of June 30, 2014, based on the probability of achieving the performance goals, there was \$17.8 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested restricted shares/RsUs granted under the 2011 Plan and 2001 Plan. This cost is expected to be recognized over a weighted average period of 1.9 years.

2004 Non-Employee Director Fee Plan The Company's 2004 Non-Employee Director Fee Plan (the "2004 Fee Plan"), as amended on May 17, 2012, provided that all new non-employee directors joining the Board would receive an initial grant of shares of common stock on the date the new director is elected or appointed, the number of which will be determined by dividing \$60,000 by the closing price of the Company's common stock on the trading day immediately preceding the date a new director is elected or appointed, rounded to the nearest whole number of shares. The initial grant of shares vested in twelve equal quarterly installments, one-twelfth on the date of grant and an additional one-twelfth on each successive third monthly anniversary of the date of grant. The award lapses with respect to all unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares are forfeited.

The 2004 Fee Plan also provided that each non-employee director would receive, on the day after the annual shareholders meeting, an annual retainer for service as a non-employee director (the "Annual Retainer"). Prior to May 17, 2012, the Annual Retainer was \$95,000, of which \$50,000 was payable in cash, and the remainder was paid in stock. The annual grant of cash vested in four equal quarterly installments, one-fourth on the day following the annual meeting of shareholders, and an additional one-fourth on each successive third monthly anniversary of the date of grant. The annual grant of shares paid to non-employee directors prior to May 17, 2012 vests in eight equal quarterly installments, one-eighth on the day following the annual meeting of shareholders, and an additional one-eighth on each successive third monthly anniversary of the date of grant. On May 17, 2012, upon the recommendation of the Compensation Committee, the Board adopted the Fifth Amended and Restated Non-Employee Director Fee Plan (the "Amendment"), which increased the common stock component of the Annual Retainer by \$30,000, resulting in a total Annual Retainer of \$125,000, of which \$50,000 was payable in cash and the remainder paid in stock. In addition, the Amendment also changed the vesting period for the annual equity award, from a two-year vesting period, to a one-year vesting period (consisting of four equal quarterly installments, one-fourth on the date of grant and an additional one-fourth on each successive third monthly anniversary of the date of grant). The award lapses with respect to all unpaid cash and unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares and unpaid cash are forfeited.

In addition to the Annual Retainer award, the 2004 Fee Plan also provided for any non-employee Chairman of the Board to receive an additional annual cash award of \$100,000, and each non-employee director serving on a committee of the Board to receive an additional annual cash award. The additional annual cash award for the Chairperson of the Audit Committee is \$20,000 and Audit Committee members are entitled to an annual cash

Table of Contents

award of \$10,000. Prior to May 20, 2011, the annual cash awards for the Chairpersons of the Compensation Committee, Finance Committee and Nominating and Corporate Governance Committee were \$12,500 and the members of such committees were entitled to an annual cash award of \$7,500. On May 20, 2011, the Board increased the additional annual cash award to the Chairperson of the Compensation Committee to \$15,000. All other additional cash awards remained unchanged.

The 2004 Fee Plan expired in May 2014, prior to the 2014 Annual Shareholder Meeting. In March 2014, upon the recommendation of the Compensation Committee, the Board determined that, following the expiration of the 2004 Fee Plan, the compensation of non-employee Directors should continue on the same terms as provided in the Fifth Amended and Restated Non-Employee Director Fee Plan, and that the stock portion of such compensation would be issued under the 2011 Plan.

The Board may pay additional cash compensation to any non-employee director for services on behalf of the Board over and above those typically expected of directors, including but not limited to service on a special committee of the Board.

The following table summarizes nonvested common stock share award activity as of June 30, 2014 and for the six months then ended:

As of June 30, 2014, there was \$0.5 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested common stock share awards granted under the 2004 Fee Plan. This cost is expected to be recognized over a weighted average period of 0.7 years.

Deferred Compensation Plan The Company's non-qualified Deferred Compensation Plan (the "Deferred Compensation Plan"), which is not shareholder-approved, was adopted by the Board effective December 17, 1998 and amended on March 29, 2006 and May 23, 2006. It provides certain eligible employees the ability to defer any portion of their compensation until the participant's retirement, termination, disability or death, or a change in control of the Company. Using the Company's common stock, the Company matches 50% of the amounts deferred by certain senior management participants on a quarterly basis up to a total of \$12,000 per year for the president, executive vice presidents and senior vice presidents and \$7,500 per year for vice presidents (participants below the level of vice president are not eligible to receive matching contributions from the Company). Matching contributions and the associated earnings vest over a seven year service period. Deferred compensation amounts used to pay benefits, which are held in a rabbi trust, include investments in various mutual funds and shares of the Company's common stock (see Note 6, Investments Held in Rabbi Trust). As of June 30, 2014 and December 31, 2013, liabilities of \$7.4 million and \$6.4 million, respectively, of the Deferred Compensation Plan were recorded in "Accrued employee compensation and benefits" in the accompanying Condensed Consolidated Balance Sheets.

Additionally, the Company's common stock match associated with the Deferred Compensation Plan, with a carrying value of approximately \$1.8 million and \$1.6 million at June 30, 2014 and December 31, 2013, respectively, is included in "Treasury stock" in the accompanying Condensed Consolidated Balance Sheets.

As of June 30, 2014, there was \$0.1 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested common stock granted under the Deferred Compensation Plan. This cost is expected to be recognized over a weighted average period of 2.4 years.

Table of Contents**Note 16. Segments and Geographic Information**

The Company operates within two regions, the Americas and EMEA. Each region represents a reportable segment comprised of aggregated regional operating segments, which portray similar economic characteristics. The Company aligns its business into two segments to effectively manage the business and support the customer care needs of every client and to respond to the demands of the Company's global customers.

The reportable segments consist of (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and technical staffing and (2) EMEA, which includes Europe, the Middle East and Africa, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and fulfillment services. The sites within Latin America, Australia and the Asia Pacific Rim are included in the Americas segment given the nature of the business and client profile, which is primarily made up of U.S.-based companies that are using the Company's services in these locations to support their customer contact management needs.

Information about the Company's reportable segments is as follows (in thousands):

Note 18. Related Party Transactions

In January 2008, the Company entered into a lease for a customer contact management center located in Kingstree, South Carolina. The landlord, Kingstree Office One, LLC, is an entity controlled by John H. Sykes, the founder, former Chairman and Chief Executive Officer of the Company and the father of Charles Sykes, President and Chief Executive Officer of the Company. The lease payments on the 20-year lease were negotiated at or below market rates, and the lease is cancellable at the option of the Company. There are significant penalties for early cancellation which decrease over time. The Company paid \$0.1 million to the landlord during both the three months ended June 30, 2014 and 2013 and \$0.2 million to the landlord during both the six months ended June 30, 2014 and 2013 under the terms of the lease.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Sykes Enterprises, Incorporated

400 North Ashley Drive

Tampa, Florida

We have reviewed the accompanying condensed consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries (the Company) as of June 30, 2014, and the related condensed consolidated statements of operations and comprehensive income for the three- and six-month periods ended June 30, 2014 and 2013, of changes in shareholders' equity for the six-month period ended June 30, 2014, and of cash flows for the six-month periods ended June 30, 2014 and 2013. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries as of December 31, 2013, and the related consolidated statements of operations, comprehensive income, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 20, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2013 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report and the consolidated financial statements and notes in the Sykes Enterprises, Incorporated (SYKES, our, we or us) Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission (SEC).

Our discussion and analysis may contain forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995) that are based on current expectations, estimates, forecasts, and projections about SYKES, our beliefs, and assumptions made by us. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as believe, estimate, project, expect, intend, may, anticipate, plan, seek, variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives, or goals also are forward-looking statements. These statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including those discussed below and elsewhere in this report. Our actual results may differ materially from what is expressed or forecasted in such forward-looking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any such forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to: (i) the impact of economic recessions in the U.S. and other parts of the world, (ii) fluctuations in global business conditions and the global economy, (iii) currency fluctuations, (iv) the timing of significant orders for our products and services, (v) variations in the terms and the elements of services offered under our standardized contract including those for future bundled service offerings, (vi) changes in applicable accounting principles or interpretations of such principles, (vii) difficulties or delays in implementing our bundled service offerings, (viii) failure to achieve sales, marketing and other objectives, (ix) construction delays of new or expansion of existing customer contact management centers, (x) delays in our ability to develop new products and services and market acceptance of new products and services, (xi) rapid technological change, (xii) loss or addition of significant clients, (xiii) political and country-specific risks inherent in conducting business abroad, (xiv) our ability to attract and retain key management personnel, (xv) our ability to continue the growth of our support service revenues through additional technical and customer contact management centers, (xvi) our ability to further penetrate into vertically integrated markets, (xvii) our ability to expand our global presence through strategic alliances and selective acquisitions, (xviii) our ability to continue to establish a competitive advantage through sophisticated technological capabilities, (xix) the ultimate outcome of any lawsuits, (xx) our ability to recognize deferred revenue through delivery of products or satisfactory performance of services, (xxi) our dependence on trend toward outsourcing, (xxii) risk of interruption of technical and customer contact management center operations due to such factors as fire, earthquakes, inclement weather and other disasters, power failures, telecommunication failures, unauthorized intrusions, computer viruses and other emergencies, (xxiii) the existence of substantial competition, (xxiv) the early termination of contracts by clients, (xxv) the ability to obtain and maintain grants and other incentives (tax or otherwise), (xxvi) the potential of cost savings/synergies associated with acquisitions not being realized, or not being realized within the anticipated time period, (xxvii) risks related to the integration of the acquisitions and the impairment of any related goodwill, and (xxviii) other risk factors which are identified in our most recent Annual Report on Form 10-K, including factors identified under the headings Business, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Summary

We provide comprehensive customer contact management solutions and services to a wide range of clients including Fortune 1000 companies, medium-sized businesses, and public institutions around the world, primarily in the communications, financial services, technology/consumer, transportation and leisure and healthcare industries. We serve our clients through two geographic operating regions: the Americas (United States, Canada, Latin America, Australia and the Asia Pacific Rim) and EMEA (Europe, the Middle East and Africa). Our Americas and EMEA groups primarily provide customer contact management services (with an emphasis on inbound technical support and customer service), which include customer assistance, healthcare and roadside assistance, technical support and product sales to our clients' customers. These services, which represented 98% of consolidated revenues during the three and six months ended June 30, 2014, are delivered through multiple communication channels encompassing phone, e-mail, social media, text messaging and chat. We also provide various enterprise support services in the

Table of Contents

United States (U.S.) that include services for our client s internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, we also provide fulfillment services including multilingual sales order processing via the Internet and phone, payment processing, inventory control, product delivery, and product returns handling. Our complete service offering helps our clients acquire, retain and increase the lifetime value of their customer relationships. We have developed an extensive global reach with customer contact management centers throughout the United States, Canada, Europe, Latin America, Australia, the Asia Pacific Rim and Africa.

(in thousands)	2014		Three Months Ended June 30, 2013		\$ Change
	Amount	% of Revenues	Amount	% of Revenues	
Americas	\$ 256,663	80.1%	\$ 255,163	83.7%	\$ 1,500

Consolidated	\$ 320,498	100.0%	\$ 304,735	100.0%	\$ 15,763

Consolidated revenues increased \$15.8 million, or 5.2%, for the three months ended June 30, 2014 from the comparable period in 2013.

The increase in Americas revenues was primarily due to new contract sales of \$16.0 million and higher volumes from existing contracts of \$2.3 million, partially offset by end-of-life client programs of \$10.6 million and a negative foreign currency impact of \$6.2 million. Revenues from our offshore operations represented 42.3% of Americas revenues, compared to 44.5% for the comparable period in 2013. While operating margins generated offshore are generally comparable to those in the United States, our ability to maintain these offshore operating margins longer term is difficult to predict due to potential increased competition for the available workforce, the trend of higher occupancy costs and costs of functional currency fluctuations in offshore markets. We weight these factors in our continual focus to re-price or replace certain sub-profitable target client programs.

The increase in EMEA s revenues was primarily due to higher volumes from existing contracts of \$9.5 million, new contract sales of \$4.0 million and a positive foreign currency impact of \$2.1 million, partially offset by end-of-life client programs of \$1.3 million.

On a consolidated basis, we had 41,100 brick-and-mortar seats as of June 30, 2014, an increase of 800 seats from the comparable period in 2013. This increase in seats was primarily due to demand growth in EMEA and the Americas, which includes the entry into Colombia. The capacity utilization rate on a combined basis was 79% compared to 75% in the comparable period in 2013. This increase was primarily due to demand growth in both EMEA and the Americas and capacity rationalization.

On a geographic segment basis, 34,800 seats were located in the Americas, an increase of 300 seats from the comparable period in 2013, and 6,300 seats were located in EMEA, an increase of 500 seats from the comparable period in 2013. The consolidated offshore seat count as of June 30, 2014 was 22,200, or 54%, of our total seats, an increase of 200 seats, or 1%, from the comparable period in 2013. Capacity utilization rates as of June 30, 2014 were 77% for the Americas and 89% for EMEA, compared to 74% and 81%, respectively, in the comparable period in 2013, primarily due to demand growth and our on-going capacity rationalization program. We strive to attain an 85% capacity utilization metric at each of our locations.

We plan to add approximately 900 seats on a gross basis in 2014. Approximately 800 seats were added during the six months ended June 30, 2014, with the remainder to be added in the second half of 2014. Total seat count on a net basis for the full year, however, is expected to decrease by approximately 1,500 seats as we continue to rationalize excess capacity.

Consolidated	\$ 221,085	69.0%	\$ 210,141	69.0%	\$ 10,944	0.0%

The increase of \$10.9 million in direct salaries and related costs included a positive foreign currency impact of \$6.1 million in the Americas and a negative foreign currency impact of \$1.5 million in EMEA.

The increase in Americas' direct salaries and related costs, as a percentage of revenues, was primarily attributable to higher compensation costs of 1.0% driven by the ramp up for new and existing client programs principally in the communications vertical and lower demand within the financial services vertical without a commensurate reduction in labor costs, partially offset by lower merger and integration costs of 0.2%, lower auto tow claim costs of 0.1% and lower other costs of 0.6%.

The decrease in EMEA's direct salaries and related costs, as a percentage of revenues, was primarily attributable to lower compensation costs of 2.7% driven by the increase in new client program ramp up costs in the prior period in the communications vertical, partially offset by higher billable supply costs of 0.2% and higher other costs of 0.1%.

The decrease of \$1.2 million in general and administrative expenses included a positive foreign currency impact of \$1.5 million in the Americas and a negative foreign currency impact of \$0.5 million in EMEA.

The decrease in Americas' general and administrative expenses, as a percentage of revenues, was primarily attributable to lower facility-related costs of 0.5%, lower merger and integration costs of 0.3%, lower compensation costs of 0.2% and lower other costs of 0.2%.

The decrease in EMEA's general and administrative expenses, as a percentage of revenues, was primarily attributable to lower facility-related costs of 1.4%, lower compensation costs of 1.3%, lower travel costs of 0.6%, lower equipment and maintenance costs of 0.4% and lower other costs of 0.2%.

The increase of \$0.6 million in Corporate's general and administrative expenses was primarily attributable to higher legal and professional fees of \$0.6 million, higher consulting costs of \$0.3 million and higher-facility related costs of \$0.2 million, partially offset by lower compensation costs of \$0.3 million, lower merger and integration costs of \$0.1 million and lower other costs of \$0.1 million.

Consolidated	\$ 644,927	100.0%	\$ 605,979	100.0%	\$ 38,948

Consolidated revenues increased \$38.9 million, or 6.4%, for the six months ended June 30, 2014 from the comparable period in 2013.

The increase in Americas revenues was primarily due to new contract sales of \$24.9 million and higher volumes from existing contracts of \$17.9 million, partially offset by end-of-life client programs of \$18.8 million and a negative foreign currency impact of \$16.5 million. Revenues from our offshore operations represented 41.4% of Americas revenues, compared to 43.5% for the comparable period in 2013. While operating margins generated offshore are generally comparable to those in the United States, our ability to maintain these offshore operating margins longer term is difficult to predict due to potential increased competition for the available workforce, the trend of higher occupancy costs and costs of functional currency fluctuations in offshore markets. We weight these factors in our continual focus to re-price or replace certain sub-profitable target client programs.

The increase in EMEA s revenues was primarily due to higher volumes from existing contracts of \$24.3 million, new contract sales of \$6.1 million and a positive foreign currency impact of \$3.3 million, partially offset by end-of-life client programs of \$2.3 million.

The increase of \$28.9 million in direct salaries and related costs included a positive foreign currency impact of \$14.4 million in the Americas and a negative foreign currency impact of \$2.4 million in EMEA.

The increase in Americas direct salaries and related costs, as a percentage of revenues, was primarily attributable to higher compensation costs of 0.8% driven by the ramp up for new and existing client programs in the communication vertical, partially offset by lower auto tow claim costs of 0.3%, lower merger and integration costs of 0.1% and lower other costs of 0.2%.

The decrease in EMEA s direct salaries and related costs, as a percentage of revenues, was primarily attributable to lower fulfillment materials costs of 0.5%, partially offset by higher other costs of 0.2%.

The increase in income taxes in 2014 compared to 2013 is due to several factors, including fluctuations in earnings within the various jurisdictions in which we operate, none of which are individually material. This increase was partially offset by a \$2.4 million foreign withholding tax recognized in 2013 related to offshore cash movements from various foreign operations to their foreign parents in response to the American Taxpayer Relief Act of 2012 signed into law on January 2, 2013, with retroactive application to January 1, 2012.

Client Concentration

Our top ten clients accounted for approximately 46.5% and 46.3% of our consolidated revenues in the three and six months ended June 30, 2014, respectively, compared to approximately 46.5% and 46.0% of our consolidated revenues in the three and six months ended June 30, 2013, respectively.

We have multiple distinct contracts with AT&T spread across multiple lines of businesses, which expire at varying dates between 2014 and 2017. We have historically renewed most of these contracts. However, there is no assurance that these contracts will be renewed, or if renewed, will be on terms as favorable as the existing contracts. Each line of business is governed by separate business terms, conditions and metrics. Each line of business also has a separate decision maker such that a loss of one line of business would not necessarily impact our relationship with the client and decision makers on other lines of business. The loss of (or the failure to retain a significant amount of business with) any of our key clients, including AT&T, could have a material adverse effect on our performance. Many of our contracts contain penalty provisions for failure to meet minimum service levels and are cancelable by the client at any time or on short notice. Also, clients may unilaterally reduce their use of our services under our contracts without penalty.

Business Outlook

For the three months ended September 30, 2014, we anticipate the following financial results:

- Revenues in the range of \$328.0 million to \$333.0 million;
- Effective tax rate of approximately 25%;
- Fully diluted share count of approximately 42.8 million;
- Diluted earnings per share of approximately \$0.28 to \$0.31; and
- Capital expenditures in the range of \$18.0 million to \$20.0 million

For the twelve months ended December 31, 2014, we anticipate the following financial results:

- Revenues in the range of \$1,310.0 million to \$1,320.0 million;
- Effective tax rate of approximately 25%;
- Fully diluted share count of approximately 42.8 million;
- Diluted earnings per share of approximately \$1.08 to \$1.15; and
- Capital expenditures in the range of \$48.0 million to \$50.0 million

Not included in this guidance is the impact of any future acquisitions or share repurchase activities.

The revenues outlook for the twelve months ended December 31, 2014 has been lowered due to reduced projected run-rate demand in a client within the financial services vertical due partly to regulatory changes in the client's industry, as we wind down this program due to a lack of sustained demand and profitability. Additionally, there was a delayed ramp up with a client in the communications vertical during the second quarter of 2014, which is not expected to impact the third and fourth quarters of 2014. As a result, we anticipate a revenue range of \$1,310.0 million to \$1,320.0 million versus the previous business outlook range provided of \$1,320.0 million to \$1,335.0 million.

Table of Contents**Liquidity and Capital Resources**

Our primary sources of liquidity are generally cash flows generated by operating activities and from available borrowings under our revolving credit facility. We utilize these capital resources to make capital expenditures associated primarily with our customer contact management services, invest in technology applications and tools to further develop our service offerings and for working capital and other general corporate purposes, including repurchase of our common stock in the open market and to fund acquisitions. In future periods, we intend similar uses of these funds.

On August 18, 2011, the Board authorized us to purchase up to 5.0 million shares of our outstanding common stock (the 2011 Share Repurchase Program). A total of 3.5 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

The shares repurchased under our share repurchase programs were as follows (in thousands, except per share amounts):

	Total Number		Total Cost of	
	of Shares Repurchased	Range of Prices Paid Per Share Low High	Shares Repurchased	
Three Months Ended:				
June 30, 2014	-	\$ - \$ -	\$ -	\$ -
June 30, 2013	272	\$ 15.61 \$ 16.00	\$ 4,294	\$ 4,294
Six Months Ended:				
June 30, 2014	130	\$ 19.92 \$ 19.98	\$ 2,605	\$ 2,605
June 30, 2013	272	\$ 15.61 \$ 16.00	\$ 4,294	\$ 4,294

During the six months ended June 30, 2014, cash increased \$39.3 million from operating activities, \$0.2 million from the release of restricted cash and \$0.1 million from proceeds from grants. The increase in cash was offset by \$24.2 million used for capital expenditures, \$19.0 million to repay long-term debt, \$2.6 million to repurchase common stock and \$0.4 million to repurchase common stock for minimum tax withholding on equity awards, resulting in a \$7.5 million decrease in available cash (including the unfavorable effects of foreign currency exchange rates on cash and cash equivalents of \$0.9 million).

Net cash flows provided by operating activities for the six months ended June 30, 2014 were \$39.3 million, compared to \$5.7 million used by operating activities for the comparable period in 2013. The \$45.0 million increase in net cash flows from operating activities was due to a \$6.5 million increase in net income, a \$3.6 million increase in non-cash reconciling items such as depreciation, amortization, unrealized foreign currency transaction (gains) losses and deferred income taxes and a net increase of \$34.9 million in cash flows from assets and liabilities. The \$34.9 million increase in 2014 from 2013 in cash flows from assets and liabilities was principally a result of a \$24.5 million decrease in accounts receivable, a \$9.4 million decrease in other assets and a \$4.1 million increase in other liabilities, partially offset by a \$1.8 million decrease in deferred revenue and a \$1.3 million decrease in taxes payable. The \$24.5 million decrease in the change in accounts receivable was primarily due to the timing of receivables billings and collections in the six months ended June 30, 2014 over the comparable period in 2013.

Capital expenditures, which are generally funded by cash generated from operating activities, available cash balances and borrowings available under our credit facilities, were \$24.2 million for the six months ended June 30, 2014, compared to \$26.1 million for the comparable period in 2013, a decrease of \$1.9 million. In 2014, we anticipate capital expenditures in the range of \$48.0 million to \$50.0 million, primarily for new seat additions, facility upgrades, maintenance and systems infrastructure.

On May 3, 2012, we entered into a \$245 million revolving credit facility (the 2012 Credit Agreement) with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner and Administrative Agent (KeyBank). The 2012 Credit Agreement replaced our previous \$75 million revolving credit facility dated February 2, 2010, as amended, which agreement was terminated simultaneous with entering into the 2012 Credit

Table of Contents

Agreement. The 2012 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants. At June 30, 2014, we were in compliance with all loan requirements of the 2012 Credit Agreement and had \$79.0 million and \$98.0 million of outstanding borrowings under this facility as of June 30, 2014 and December 31, 2013, respectively, with an average daily utilization of \$90.2 million and \$105.8 million for the three months ended June 30, 2014 and 2013, respectively, and an average daily utilization of \$93.3 million and \$98.5 million for the six months ended June 30, 2014 and 2013, respectively. During the three months ended June 30, 2014 and 2013, the related interest expense, excluding amortization of deferred loan fees, under our credit agreements was \$0.3 million and \$0.4 million, respectively, which represented a weighted average interest rate of 1.3% and 1.5%, respectively. During the six months ended June 30, 2014 and 2013, the related interest expense, excluding amortization of deferred loan fees, under our credit agreements was \$0.6 million and \$0.7 million, respectively, which represented a weighted average interest rate of 1.3% and 1.5%, respectively.

The 2012 Credit Agreement includes a \$184 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. We are not currently aware of any inability of our lenders to provide access to the full commitment of funds that exist under the 2012 Credit Agreement, if necessary. However, there can be no assurance that such facility will be available to us, even though it is a binding commitment of the financial institutions. The 2012 Credit Agreement will mature on May 2, 2017.

Borrowings under the 2012 Credit Agreement will bear interest at the rates set forth in the Credit Agreement. In addition, we are required to pay certain customary fees, including a commitment fee of 0.175%, which is due quarterly in arrears and calculated on the average unused amount of the 2012 Credit Agreement.

The 2012 Credit Agreement is guaranteed by all of our existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all of our direct foreign subsidiaries and those of the guarantors.

We are currently under audit in several tax jurisdictions. We have received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and we paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of fluctuations in the foreign exchange rate, are \$17.2 million and \$17.3 million as of June 30, 2014 and December 31, 2013, respectively, and are included in Deferred charges and other assets in the accompanying Condensed Consolidated Balance Sheets. Although the outcome of examinations by taxing authorities is always uncertain, we believe we are adequately reserved for these audits and resolution is not expected to have a material impact on our financial condition and results of operations.

As of June 30, 2014, we had \$204.5 million in cash and cash equivalents, of which approximately 91.4%, or \$187.0 million, was held in international operations and is deemed to be indefinitely reinvested offshore. These funds may be subject to additional taxes if repatriated to the United States, including withholding tax applied by the country of origin and an incremental U.S. income tax, net of allowable foreign tax credits. There are circumstances where we may be unable to repatriate some of the cash and cash equivalents held by our international operations due to country restrictions. We do not intend nor currently foresee a need to repatriate these funds. We expect our current domestic cash levels and cash flows from operations to be adequate to meet our domestic anticipated working capital needs, including investment activities such as capital expenditures and debt repayment for the next twelve months and the foreseeable future. However, from time to time, we may borrow funds under our 2012 Credit Agreement as a result of the timing of our working capital needs, including capital expenditures. Additionally, we expect our current foreign cash levels and cash flows from foreign operations to be adequate to meet our foreign anticipated working capital needs, including investment activities such as capital expenditures for the next twelve months and the foreseeable future.

If we should require more cash in the U.S. than is provided by our domestic operations for significant discretionary unforeseen activities such as acquisitions of businesses and share repurchases, we could elect to repatriate future foreign earnings and/or raise capital in the U.S through additional borrowings or debt/equity issuances. These alternatives could result in higher effective tax rates, interest expense and/or dilution of earnings. We have borrowed funds domestically and continue to have the ability to borrow additional funds domestically at reasonable interest rates.

Our cash resources could also be affected by various risks and uncertainties, including but not limited to, the risks described in our Annual Report on Form 10-K for the year ended December 31, 2013.

Off-Balance Sheet Arrangements and Other

As of June 30, 2014, we did not have any material commercial commitments, including guarantees or standby repurchase obligations, or any relationships with unconsolidated entities or financial partnerships, including entities often referred to as structured finance or special purpose entities or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Contractual Obligations

The following table summarizes the material changes to our contractual cash obligations as of June 30, 2014, and the effect these obligations are expected to have on liquidity and cash flow in future periods (in thousands):

⁽²⁾ Amounts represent the expected cash payments under our purchase obligations, which include agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Purchase obligations exclude agreements that are cancelable without penalty.

Except for the contractual obligations mentioned above, there have not been any material changes to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K as of and for the year ended December 31, 2013 filed on February 20, 2014.

Critical Accounting Estimates

See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report and Form 10-K for the year ended December 31, 2013 filed on February 20, 2014 for a discussion of our critical accounting estimates.

There have been no material changes to our critical accounting estimates in 2014.

New Accounting Standards Not Yet Adopted

In April 2014, the FASB issued ASU 2014-08 *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (ASU 2014-08). The amendments in ASU 2014-08 indicate that only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results will be reported as discontinued operations in the financial statements. Currently, a component of an entity that is a reportable segment, an operating segment, a reporting unit, a subsidiary, or an asset group is eligible for discontinued operations presentation. The amendments should be applied to all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. We do not expect the adoption of ASU 2014-08 to materially impact our financial condition, results of operations and cash flows.

In May 2014, the FASB issued ASU 2014-09 *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09). The amendments in ASU 2014-09 outline a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and indicate that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity should identify the

contract(s) with a customer, identify the performance obligations in the contract, determine the transaction price,

Table of Contents

allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation. The amendments are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. We are currently evaluating the impact that the adoption of ASU 2014-09 may have on our financial condition, results of operations and cash flows.

In June 2014, the FASB issued ASU 2014-12 *Compensation - Stock Compensation (Topic 718) Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period* (ASU 2014-12). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification (ASC) Topic 718, *Compensation - Stock Compensation* (ASC 718), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. We do not expect the adoption of ASU 2014-12 to materially impact our financial condition, results of operations and cash flows.

U.S. Healthcare Reform Acts

In March 2010, the President of the United States signed into law comprehensive healthcare reform legislation under the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (the Acts). The Acts contain provisions that could materially impact our healthcare costs in the future, thus adversely affecting our profitability. In July 2013, the Internal Revenue Service announced that the employer mandate and reporting provisions of the Acts, which were originally effective January 1, 2014, will be delayed until 2015 and the promised additional guidance has yet to be issued. As a result of the delay, the Company's cost to provide benefits to employees in 2014 will be comparable to our costs in 2013.

Item 3. Quantitative and Qualitative Disclosures About Market Risk**Foreign Currency Risk**

Our earnings and cash flows are subject to fluctuations due to changes in currency exchange rates. We are exposed to foreign currency exchange rate fluctuations when subsidiaries with functional currencies other than the U.S. Dollar (USD) are translated into our USD consolidated financial statements. As exchange rates vary, those results, when translated, may vary from expectations and adversely impact profitability. The cumulative translation effects for subsidiaries using functional currencies other than the U.S. Dollar are included in Accumulated other comprehensive income (loss) in shareholders' equity. Movements in non-U.S. Dollar currency exchange rates may negatively or positively affect our competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors.

We employ a foreign currency risk management program that periodically utilizes derivative instruments to protect against unanticipated fluctuations in earnings and cash flows caused by volatility in foreign currency exchange (FX) rates. Option and forward derivative contracts are used to hedge intercompany receivables and payables, and other transactions initiated in the United States, that are denominated in a foreign currency. Additionally, we employ FX contracts to hedge net investments in foreign operations.

We serve a number of U.S.-based clients using customer contact management center capacity in The Philippines, Canada and Costa Rica, which are within our Americas segment. Although the contracts with these clients are priced in USDs, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine Pesos (PHP), Canadian Dollars, and Costa Rican Colones (CRC), which represent FX exposures. Additionally, our EMEA segment services clients in Hungary and Romania where the contracts are priced in Euros (EUR), with a substantial portion of the costs incurred to render services under these contracts denominated in Hungarian Forints (HUF) and Romanian Leis (RON).

In order to hedge a portion of our anticipated cash flow requirements denominated in PHP, CRC, HUF and RON, we had outstanding forward contracts and options as of June 30, 2014 with counterparties through June 2015 with notional amounts totaling \$118.1 million. As of June 30, 2014, we had net total derivative liabilities associated with these contracts with a fair value of \$0.5 million, which will settle within the next 12 months. If the USD was to weaken against the PHP and CRC and the EUR was to weaken against the HUF and RON by 10% from current period-end levels, we would incur a loss of approximately \$9.3 million on the underlying exposures of the derivative instruments. However, this loss would be mitigated by corresponding gains on the underlying exposures.

Table of Contents

We entered into forward exchange contracts with notional amounts totaling \$51.0 million to hedge net investments in our foreign operations. The purpose of these derivative instruments is to protect against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to our foreign currency-based investments in these subsidiaries. As of June 30, 2014, the fair value of these derivatives was a net liability of \$1.6 million. The potential loss in fair value at June 30, 2014, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$5.3 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We also entered into forward exchange contracts with notional amounts totaling \$63.9 million that are not designated as hedges. The purpose of these derivative instruments is to protect against FX volatility pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than our subsidiaries' functional currencies. As of June 30, 2014, the fair value of these derivatives was a net liability of \$1.7 million. The potential loss in fair value at June 30, 2014, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$5.7 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We evaluate the credit quality of potential counterparties to derivative transactions and only enter into contracts with those considered to have minimal credit risk. We periodically monitor changes to counterparty credit quality as well as our concentration of credit exposure to individual counterparties.

We do not use derivative financial instruments for speculative trading purposes, nor do we hedge our foreign currency exposure in a manner that entirely offsets the effects of changes in foreign exchange rates.

As a general rule, we do not use financial instruments to hedge local currency denominated operating expenses in countries where a natural hedge exists. For example, in many countries, revenue from the local currency services substantially offsets the local currency denominated operating expenses.

Interest Rate Risk

Our exposure to interest rate risk results from variable debt outstanding under our revolving credit facility. We pay interest on outstanding borrowings at interest rates that fluctuate based upon changes in various base rates. As of June 30, 2014, we had \$79.0 million in borrowings outstanding under the revolving credit facility. Based on our level of variable rate debt outstanding during the three and six months ended June 30, 2014, a 1.0% increase in the weighted average interest rate, which generally equals the LIBOR rate plus an applicable margin, would have had an impact of \$0.2 million and 0.5 million, respectively, on our results of operations.

We have not historically used derivative instruments to manage exposure to changes in interest rates.

Fluctuations in Quarterly Results

For the year ended December 31, 2013, quarterly revenues as a percentage of total consolidated annual revenues were approximately 24%, 24%, 25% and 27%, respectively, for each of the respective quarters of the year. We have experienced and anticipate that in the future we will experience variations in quarterly revenues. The variations are due to the timing of new contracts and renewal of existing contracts, the timing and frequency of client spending for customer contact management services, non-U.S. currency fluctuations, and the seasonal pattern of customer contact management support and fulfillment services.

Item 4. Controls and Procedures

As of June 30, 2014, under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time period specified by the SEC's rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We concluded that, as of June 30, 2014, our disclosure controls and procedures were effective at the reasonable assurance level.

Table of Contents

There were no changes in our internal controls over financial reporting during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Part II. OTHER INFORMATION**Item 1. Legal Proceedings**

From time to time, we are involved in legal actions arising in the ordinary course of business. With respect to these matters, we believe that we have adequate legal defenses and/or provided adequate accruals for related costs such that the ultimate outcome will not have a material adverse effect on our future financial position or results of operations.

Item 1A. Risk Factors

For risk factors, see Item 1A, Risk Factors, of our Annual Report on Form 10-K for the year ended December 31, 2013 filed on February 20, 2014.
