Item 2.05 Costs Associated with Exit or Disposal Activities.

On October 28, 2014, Amgen Inc. (the Company) announced the expansion of its restructuring plan that was approved by the Company's Board of Directors on October 17, 2014. This expansion of the Company's restructuring plan will implement additional efficiency initiatives, particularly in the area of shared services, outsourcing and other external expense categories. The Company previously announced its restructuring plan on July 29, 2014.

As part of the expansion of the restructuring plan, the Company will reduce its staffing by between approximately 600 and 1,100 positions in addition to the previously announced staffing reductions. These additional actions will result in pre-tax restructuring charges ranging between approximately \$100 million and \$150 million, which are expected to be incurred primarily in 2015.

Together with the previously announced portion of the Company's restructuring plan, the implementation of the restructuring plan with this expansion will reduce the Company's staff in the aggregate by between approximately 3,500 and 4,000 positions by the end of 2015, resulting in total pre-tax restructuring charges ranging between approximately \$935 million and \$1,035 million. Included in the amounts for total pre-tax restructuring charges are: (i) separation costs ranging between approximately \$535 million and \$585 million with respect to the staff reductions; and (ii) asset-related charges ranging between \$400 million and \$450 million consisting primarily of asset impairments, accelerated depreciation and other related costs resulting from the consolidation of the Company's worldwide facilities. The Company estimates that approximately 55% of the total pre-tax restructuring charges will result in cash outlays, associated primarily with staff separation costs.
