IMPORTANT NOTICE FROM THE BOARD OF TRUSTEES AND

PACIFIC INVESTMENT MANAGEMENT COMPANY LLC

April 15, 2015

DEAR SHAREHOLDER:

As the April 30th annual shareholder meeting of PIMCO Dynamic Credit Income Fund (PCI) rapidly approaches, we ask you to return your **WHITE proxy card as soon as possible**. We recognize that by now you have received a number of communications about the upcoming meeting, but your vote in support of your investment in PCI is important.

Please continue to support your nominees up for election by signing, dating and mailing the WHITE proxy card in the envelope provided with this mailing.

As we have done in our prior communications, we will continue to focus on the truth: **PIMCO and your Board have served shareholders' interests well, which is why just last year, shareholders such as yourself overwhelmingly approved PIMCO's management contract, with 97% (excluding abstentions) voting in favor.** Please consider the facts.

- 1. The Fund has delivered on its primary investment objective by providing attractive and steady distributions, which have not once been reduced.** The Fund currently pays a distribution yield of 8.2%,¹ which exceeds the average yield of the funds in the Fund's Lipper-determined peer group.
- 2. Since inception, PCI has outperformed its peers and indices representing key asset classes in its investment universe** and generated annualized net asset value (NAV) total returns after fees of 8.0%.²
- 3. PIMCO is an industry leader whose interests are aligned with those of shareholders.** Three of the Fund's portfolio managers have earned Morningstar Fixed-Income Manager of the Year awards.³ In addition, senior portfolio managers of the Fund and certain other senior executives invested more than \$2,500,000 at the IPO and have continued to add to their positions since. **They have not sold any of their PCI shares, ever.**
- 4. Your Board's nominees are independent, knowledgeable and have the experience necessary to oversee the Fund effectively.** These are the same Trustees who negotiated a fee and expense reduction last year that is estimated to save you and other shareholders at least \$3,000,000 in expenses in 2015 alone, and who have overseen your Fund while it has outperformed its peers since inception.
- 5. PIMCO and the Board are prepared to pursue any option that benefits all shareholders in the long-run.** PIMCO and the Board formally review the Fund's discount at regular Board meetings. Any actions that improve the discount in the long-run are worth considering and PIMCO and the Board are committed to

evaluating each and every option. However, historical evidence suggests that share repurchases and tender offers generally fail to reduce the discount for very long, if at all, and could force the Fund to liquidate high-yielding assets at an inopportune time or price, which could potentially threaten the Fund's attractive and steady distributions and hurt long-term shareholders.

Most closed-end funds trade at discounts today and there are no magic bullets or costless solutions. There are, however, options that benefit some shareholders at the expense of others. We are committed to avoiding such actions and **we will continue to act in the interest of all shareholders. Ultimately, PIMCO and the Board believe that the best way to close discounts and deliver attractive market price returns is to continue to provide steady distributions and strong NAV returns.**

We appreciate your vote of confidence. We greatly value the trust you have placed in us through your investment and thank you for your continued support.

Sincerely yours,

PETER G. STRELOW

HANS W. KERTESS

President/Principal Executive Officer of the Fund

Chairman of the Board of the Fund
