Form 10-Q  
July 30, 2015

**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**  
**WASHINGTON, D.C. 20549**

**FORM 10-Q**

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

**For the quarterly period ended June 30, 2015**

**OR**

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

**For the transition period from**                      **to**

**Commission file number 001-14875**

**FTI CONSULTING, INC.**

**(Exact Name of Registrant as Specified in its Charter)**

<b>Maryland</b> <b>(State or Other Jurisdiction of</b>	<b>52-1261113</b> <b>(I.R.S. Employer</b>
<b>Incorporation or Organization)</b>	<b>Identification No.)</b>
<b>1101 K Street NW,</b>	
<b>Washington, D.C.</b>	<b>20005</b>
<b>(Address of Principal Executive Offices)</b>	<b>(Zip Code)</b>
<b>(202) 312-9100</b>	
<b>(Registrant's telephone number, including area code)</b>	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web Site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company   
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

<b>Class</b>	<b>Outstanding at July 24, 2015</b>
Common stock, par value \$0.01 per share	41,840,581

**FTI Consulting, Inc. and Subsidiaries**
**Notes to Condensed Consolidated Financial Statements**

(dollar and share amounts in tables expressed in thousands, except per share data)

Unaudited

**1. Basis of Presentation and Significant Accounting Policies**

The unaudited condensed consolidated financial statements of FTI Consulting, Inc., including its consolidated subsidiaries (collectively, the Company, we, our or FTI Consulting ) presented herein, have been prepared in accordance with accounting principles generally accepted in the United States ( GAAP ) and under the rules and regulations of the Securities and Exchange Commission ( SEC ) for interim financial information. Some of the information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules and regulations. Certain prior period amounts have been reclassified to conform to the current period presentation. In management 's opinion, the interim financial statements reflect all adjustments that are necessary for a fair presentation of the results for the interim periods presented. All adjustments made were normal recurring accruals. Results of operations for the interim periods presented herein are not necessarily indicative of results of operations for a full year. These financial statements should be read in conjunction with the consolidated financial statements and the notes contained in our Annual Report on Form 10-K for the year ended December 31, 2014.

**2. Earnings Per Common Share**

Basic earnings per common share are calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per common share adjust basic earnings per common share for the effects of potentially dilutive common shares. Potentially dilutive common shares include the dilutive effects of shares issuable under our equity compensation plans, including stock options and restricted stock, each using the treasury stock method.

---	-------	-------	-------	-------

### **3. New Accounting Standards Not Yet Adopted**

In April 2015, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2015-03, *Simplifying the Presentation of Debt Issuance Costs* which changes the presentation of debt issuance costs in financial statements. ASU 2015-03 requires an entity to present such costs in the balance sheet

as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs will continue to be reported as interest expense. It is effective for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The new guidance will be applied retrospectively to each prior period presented. We do not expect the adoption of this ASU to have a material impact on our consolidated balance sheets.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, or ASU 2014-09, which requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. On July 9, 2015, the FASB deferred the effective date of the standard by one year which would result in the new standard being effective for the Company at the beginning of its first quarter of fiscal year 2018. We have not evaluated the impact of the new standard, including possible transition alternatives, on the Company's financial statements.

#### 4. Special Charges

There were no special charges recorded during the three and six months ended June 30, 2015.

During the three months ended June 30, 2014, we recorded special charges totaling \$9.4 million, of which \$0.6 million was non-cash. The charges consisted of \$7.9 million related to the termination of the Company's corporate airplane lease and \$1.5 million related to the closure of the Company's West Palm Beach executive office and related lease termination.

The total cash outflow associated with the special charges recorded in 2014, 2013 and 2012 is expected to be \$65.1 million, of which \$50.8 million has been paid as of June 30, 2015. Approximately \$2.2 million is expected to be paid during the remainder of 2015, \$3.3 million is expected to be paid in 2016, \$3.1 million is expected to be paid in 2017, \$2.7 million is expected to be paid in 2018, and the remaining balance of \$3.0 million will be paid from 2019 to 2025. A liability for the current and noncurrent portions of the amounts to be paid is included in Accounts payable, accrued expenses and other and Other liabilities, respectively, on the Condensed Consolidated Balance Sheets.

Activity related to the liability for these costs for the six months ended June 30, 2015 is as follows:

	<b>Employee Termination Costs</b>	<b>Lease Costs</b>	<b>Total</b>
<b>Balance at December 31, 2014</b>	\$ 13,759	\$ 4,854	\$ 18,613
Payments	(3,680)	(496)	\$ (4,176)
Foreign currency translation adjustment and other	(168)		\$ (168)
<b>Balance at June 30, 2015</b>	\$ 9,911	\$ 4,358	\$ 14,269

#### 5. Allowance for Doubtful Accounts and Unbilled Services

We record adjustments to the allowance for doubtful accounts and unbilled services as a reduction in revenue when there are changes in estimates of fee reductions that may be imposed by bankruptcy courts and other regulatory institutions, for both billed and unbilled receivables. The allowance for doubtful accounts and unbilled services is also adjusted after the related work has been billed to the client and we discover that collectability is not reasonably assured. These adjustments are recorded to Selling, general and administrative expenses on the Condensed Consolidated Statements of Comprehensive Income and totaled \$3.6 million and \$6.6 million for the three and six months ended June 30, 2015, respectively, and \$4.2 million and \$8.7 million for the three and six months ended

June 30, 2014, respectively.

## 6. Research and Development Costs

Research and development costs related to software development totaled \$4.8 million and \$10.7 million for the three and six months ended June 30, 2015, respectively, and \$4.6 million and \$9.1 million for the three and six months ended June 30, 2014, respectively. Research and development costs are included in Selling, general and administrative expenses on the Condensed Consolidated Statements of Comprehensive Income.

## 7. Financial Instruments

### *Fair Value of Financial Instruments*

We consider the recorded value of certain financial assets and liabilities, which consist primarily of cash equivalents, accounts receivable and accounts payable, to approximate the fair value of the respective assets and liabilities at June 30, 2015 and December 31, 2014, based on the short-term nature of the assets and liabilities. The fair value of our long-term debt at June 30, 2015 was \$740.5 million compared to a carrying value of \$711.0 million. At December 31, 2014, the fair value of our long-term debt was \$735.0 million compared to a carrying value of \$711.0 million. We determine the fair value of our long-term debt primarily based on quoted market prices for our 6<sup>3</sup>/<sub>4</sub>% Senior Notes Due 2020 ( 2020 Notes ) and 6.0% Senior Notes Due 2022 ( 2022 Notes, and together with the 2020 Notes, the Senior Notes ). The fair value of our long-term debt is classified within Level 2 of the fair value hierarchy, because it is traded in less active markets.

For business combinations consummated on or after January 1, 2009, we estimate the fair value of acquisition-related contingent consideration based on the present value of the consideration expected to be paid during the remainder of the earnout period, based on management's assessment of the acquired operations' forecasted earnings. This fair value measure is based on significant inputs not observed in the market and thus represents a Level 3 measurement. Fair value measurements characterized within Level 3 of the fair value hierarchy are measured based on unobservable inputs that are supported by little or no market activity and reflect our own assumptions in measuring fair value.

The significant unobservable inputs used in the fair value measurements of our acquisition-related contingent consideration include our measures of the future profitability and related cash flows of the acquired business or assets, impacted by appropriate discount rates. Significant increases (decreases) in any of these inputs in isolation would result in a significantly lower (higher) fair value measurement. Generally, a change in the assumptions used for the discount rates is accompanied by a directionally opposite change in the fair value measurement and a change in the assumptions used for the future cash flows is accompanied by a directionally similar change in the fair value measurement. The fair value of the contingent consideration is reassessed on a quarterly basis by the Company using additional information as it becomes available.

Any change in the fair value of an acquisition's contingent consideration liability results in a remeasurement gain or loss that is recorded as income or expense, respectively, and is included within Acquisition-related contingent consideration in the Condensed Consolidated Statements of Comprehensive Income. During the three and six months ended June 30, 2015, the Company recorded \$1.7 million gain related to the change in fair value of future contingent consideration payments, of which \$1.5 million related to a termination of a contingent consideration arrangement, for which no future payments will be made. Fair value remeasurement gains of \$0.3 million and \$2.4 million for the three and six months ended June 30, 2014, respectively.

The following table represents the changes in the acquisition-related contingent consideration liability during the three and six months ended June 30, 2015 and 2014, respectively:

(in thousands)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
<b>Beginning balance</b>	\$ 6,331	\$ 6,903	\$ 6,338	\$ 13,329
Acquisition <sup>(1)</sup>				(4,495)
Accretion of acquisition-related contingent consideration	137	255	371	535
Remeasurement of acquisition-related contingent consideration	(1,675)	(261)	(1,675)	(2,383)
Payments	(421)	(314)	(662)	(378)
Unrealized gains (losses) related to currency translation in other comprehensive income		18		(7)
<b>Ending balance</b>	\$ 4,372	\$ 6,601	\$ 4,372	\$ 6,601

<sup>(1)</sup> Includes adjustments during the purchase price allocation period.

#### 8. Goodwill and Other Intangible Assets

The changes in the carrying amounts of goodwill by operating segment for the six months ended June 30, 2015, are as follows:

	Corporate Finance/ Restructuring	Forensic and Litigation Consulting	Economic Consulting	Technology	Strategic Communications	Total
<b>Balances at December 31, 2014:</b>						
Goodwill	\$ 446,066	\$ 238,173	\$ 269,897	\$ 117,967	\$ 333,725	\$ 1,405,828
Accumulated goodwill impairment					(194,139)	(194,139)
<b>Goodwill, net at December 31, 2014</b>	446,066	238,173	269,897	117,967	139,586	1,211,689
Acquisitions	427					427
Foreign currency translation adjustment and other	(2,474)	(758)	(149)	21	(248)	(3,608)
Goodwill	444,019	237,415	269,748	117,988	333,477	1,402,647
Accumulated goodwill impairment					(194,139)	(194,139)
<b>Goodwill, net at June 30, 2015</b>	\$ 444,019	\$ 237,415	\$ 269,748	\$ 117,988	\$ 139,338	\$ 1,208,508

### **Other Intangible Assets**

Other intangible assets with finite lives are amortized over their estimated useful lives. For intangible assets with finite lives, we recorded amortization expense of \$3.0 million and \$6.0 million for the three and six months ended June 30, 2015, respectively, and \$3.5 and \$8.1 million for the three and six months ended June 30, 2014, respectively. Based solely on the amortizable intangible assets recorded as of June 30, 2015, we estimate amortization expense to be \$5.8 million during the remainder of 2015, \$10.6 million in 2016, \$9.8 million in 2017, \$8.2 million in 2018, \$7.6 million in 2019, \$7.4 million in 2020, and \$15.4 million in years after 2020. Actual amortization expense to be reported in future periods could differ from these estimates as a result of new intangible asset acquisitions, finalization of asset valuations for newly acquired assets, changes in useful lives, changes in value due to foreign currency translation, and other factors.

## 9. Debt

The components of debt obligations are presented in the table below:

	June 30, 2015	December 31, 2014
6 <sup>3</sup> / <sub>4</sub> % senior notes due 2020	\$ 400,000	\$ 400,000
6.0% senior notes due 2022	300,000	300,000

<b>Long-term debt, net of current portion</b>	<b>\$ 700,000</b>	<b>\$ 700,000</b>

On June 26, 2015, we entered into a credit agreement (the 2015 Credit Agreement), which effectively amended and extended our prior Credit Agreement, dated November 27, 2012 (the 2012 Credit Agreement). The 2012 Credit Agreement provided for a five-year \$350 million senior secured revolving line of credit maturing on November 27, 2017. The 2015 Credit Agreement provides for a \$550 million senior secured revolving line of credit (the 2015 Credit Facility) maturing on June 26, 2020. We did not incur any early termination or prepayment penalties in connection with the replacement of the 2012 Credit Agreement. At the Company's option, borrowings under the 2015 Credit Facility will bear interest at either one, two or three month LIBOR or an alternative base rate, in each case plus the applicable margin. Borrowings will initially bear interest at LIBOR plus 1.75% per annum, in the case of LIBOR borrowings, or at the alternate base rate plus 0.75% per annum, in the case of base rate loans. After delivering the compliance certificate for the fiscal quarter ended June 30, 2015, the applicable margin will fluctuate between 1.375% per annum and 2.00% per annum, in the case of LIBOR borrowings, or between 0.375% per annum and 1.00% per annum, in the case of base rate borrowings, in each case, based upon the Company's Consolidated Total Leverage Ratio (as defined in the Credit Agreement) at such time.

We will initially be required to pay a commitment fee of 0.30% per annum on the daily unused amount of the facility and a letter of credit fronting fee of 1.75% per annum on the maximum amount available to be drawn under each letter of credit that is issued and outstanding. After delivering the compliance certificate for the fiscal quarter ending June 30, 2015, the commitment fee rate will fluctuate between 0.25% and 0.35% per annum and the letter of credit fee rate will fluctuate between 1.375% and 2.00% per annum, in each case, based upon the Company's Consolidated Total Leverage Ratio.

Under the 2015 Credit Facility, the lenders have a security interest in substantially all of the existing and after acquired assets of FTI Consulting, Inc. and substantially all of our domestic subsidiaries. Subject to certain conditions, at any time prior to maturity, we will be able to invite existing and new lenders to increase the size of the revolving credit facility under the 2015 Credit Agreement or provide new term loans under the 2015 Credit Agreement, in each case, up to a maximum of \$100.0 million plus unlimited amounts so long as the effect of the new increase does not cause the Consolidated Total Leverage Ratio to be greater than 3.50 to 1.00.

The 2015 Credit Agreement governing our 2015 Credit Facility and the indentures governing our Notes contain covenants which, among other things, limit our ability to incur additional indebtedness, create liens, pay dividends on our capital stock, make distributions or repurchases of our capital stock or make specified other restricted payments, consolidate, merge or sell assets or engage in sale-leasebacks, guarantee obligations of other entities and our foreign subsidiaries, make investments and loans, enter into transactions with affiliates or related persons, repay, redeem or

purchase certain indebtedness (or modify the terms thereof), make material changes to accounting and reporting practices and engage in any business other than consulting-related businesses or substantially related, complimentary or incidental businesses. In addition, the 2015 Credit Agreement governing our 2015 Credit Facility includes financial covenants that require us to (i) not to exceed a maximum consolidated total leverage ratio (the ratio of total funded debt to adjusted EBITDA), (and (iii) not to exceed a maximum

consolidated interest coverage ratio (the ratio of adjusted EBITDA minus capital expenditures and cash taxes to cash interest). At June 30, 2015, we were in compliance with all covenants as stipulated in the 2015 Credit Agreement governing our 2015 Credit Facility and the indentures governing our Senior Notes. There were no borrowings outstanding under the Company's 2015 Credit Facility as of June 30, 2015.

## 10. Commitments and Contingencies

### *Contingencies*

We are subject to legal actions arising in the ordinary course of business. In management's opinion, we believe we have adequate legal defenses and/or insurance coverage with respect to the eventuality of such actions. We do not believe any settlement or judgment relating to any pending legal action would materially affect our financial position or results of operations.

## 11. Share-Based Compensation

### *Share-based Awards and Share-based Compensation Expense*

Our officers, employees, non-employee directors and certain individual service providers are eligible to participate in the Company's equity compensation plans, subject to the discretion of the administrator of the plans. During the three months ended June 30, 2015, we granted 124,688 restricted stock awards, 126,070 stock options, 81,016 performance stock units, and 51,369 restricted stock units. During the six months ended June 30, 2015, we granted 244,020 restricted stock awards, 184,933 stock options, 81,016 performance stock units, and 109,665 restricted stock units. During the three months ended June 30, 2015, 43,537 stock options were forfeited prior to the completion of the vesting requirements. These awards are recorded as equity on the Condensed Consolidated Balance Sheet.

Total share-based compensation expense, net of forfeitures, for the three and six months ended June 30, 2015 and 2014 is detailed in the following table:

<b>Comprehensive Income Statement Classification</b>	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>
Direct cost of revenues	\$ 2,234	\$ 3,548	\$ 6,133	\$ 9,370
Selling, general and administrative expenses	2,134	2,773	5,177	6,027
<b>Total share-based compensation expense</b>	<b>\$ 4,368</b>	<b>\$ 6,321</b>	<b>\$ 11,310</b>	<b>\$ 15,397</b>

## 12. Income Taxes

The Company has estimated its annual effective tax rate for the full fiscal year 2015 and applied that rate to its income before income taxes in determining its provision for income taxes for the three and six months ended June 30, 2015. The Company also records discrete items in each respective period as appropriate.

As of June 30, 2015 and December 31, 2014, the liability for uncertain tax positions was \$7.9 million and \$2.8 million respectively. During the six month ended June 30, 2015, the increase in the liability for uncertain tax positions is due to the timing of tax deductions claimed in prior years.

### 13. Segment Reporting

We manage our business in five reportable segments: Corporate Finance/Restructuring, Forensic and Litigation Consulting, Economic Consulting, Technology and Strategic Communications.

Our Corporate Finance/Restructuring segment focuses on strategic, operational, financial and capital needs of businesses around the world and provides consulting and advisory services on a wide range of areas, such as restructuring (including bankruptcy), interim management, financings, mergers and acquisitions, post-acquisition integration, valuations, tax issues and performance improvement.

Our Forensic and Litigation Consulting segment provides law firms, companies, government clients and other interested parties with dispute advisory, investigations, forensic accounting, business intelligence assessments, data analytics, risk mitigation services as well as interim management and performance improvement services for our health solutions practice clients.

Our Economic Consulting segment provides law firms, companies, government entities and other interested parties with analysis of complex economic issues for use in legal, regulatory and international arbitration proceedings, strategic decision making and public policy debates in the U.S. and around the world.

Our Technology segment provides electronic discovery and information management consulting, software and services to its clients. It provides products, services and consulting to companies, law firms, courts and government agencies worldwide. Its comprehensive suite of software and services help clients locate, review and produce electronically stored information, including e-mail, computer files, voicemail, instant messaging, cloud and social media data as well as financial and transactional data.

Our Strategic Communications segment provides advice and consulting services relating to financial and corporate communications and investor relations, reputation management and brand communications, public affairs, business consulting and digital design and marketing.

We evaluate the performance of our operating segments based on Adjusted Segment EBITDA. We define Adjusted Segment EBITDA as a segment's share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We define Total Adjusted Segment EBITDA as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. Although Adjusted Segment EBITDA is not a measure of financial condition or performance determined in accordance with GAAP, we use Adjusted Segment EBITDA to internally evaluate the financial performance of our segments because we believe it is a useful supplemental measure which reflects current core operating performance and provides an indicator of the segment's ability to generate cash.

The table below presents revenues and Adjusted Segment EBITDA for our reportable segments for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
<b>Revenues</b>				
Corporate Finance/Restructuring	\$ 109,113	\$ 104,020	\$ 215,325	\$ 198,002

Unallocated corporate expenses, excluding special charges	(20,101)	(21,386)	(34,182)	(41,779)
Interest income and other	950	1,448	813	2,451
Interest expense	(12,473)	(12,908)	(24,841)	(25,563)
Remeasurement of acquisition-related contingent consideration	1,675	261	1,675	2,383
<b>Income before income tax provision</b>	<b>\$ 35,631</b>	<b>\$ 27,472</b>	<b>\$ 70,974</b>	<b>\$ 55,937</b>

#### 14. Supplemental Condensed Consolidating Guarantor and Non-Guarantor Financial Information

Substantially all of our domestic subsidiaries are guarantors of borrowings under our 2015 Credit Facility and Senior Notes. The guarantees are full and unconditional and joint and several. All of the guarantors are 100%-owned, direct or indirect, subsidiaries. The following financial information presents condensed consolidating balance sheets,

statements of comprehensive income and statements of cash flows for FTI Consulting, all the guarantor subsidiaries, all the non-guarantor subsidiaries and the eliminations necessary to arrive at the consolidated information for FTI Consulting and its subsidiaries. For purposes of this presentation, we have accounted for our investments in our subsidiaries using the equity method of accounting. The principal eliminating entries eliminate investment in subsidiary and intercompany balances and transactions.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following is a discussion and analysis of our consolidated financial condition and results of operations for the three and six months ended June 30, 2015 and 2014 and significant factors that could affect our prospective financial condition and results of operations. This discussion should be read together with the accompanying unaudited condensed consolidated financial statements and related notes and with our Annual Report on Form 10-K for the year ended December 31, 2014. Historical results and any discussion of prospective results may not indicate our future performance. See Forward-Looking Statements.

### **BUSINESS OVERVIEW**

We are a leading global business advisory firm dedicated to helping organizations protect and enhance their enterprise value. We work closely with our clients to help them anticipate, understand, manage and overcome complex business matters arising from such factors as the economy, financial and credit markets, governmental regulation, legislation and litigation. We assist clients in addressing a broad range of business challenges, such as restructuring (including bankruptcy), financing and credit issues and indebtedness, interim business management, forensic accounting and litigation matters, international arbitrations, mergers and acquisitions ( M&A ), antitrust and competition matters, securities litigation, electronic discovery ( e-discovery ), management and retrieval of electronically stored information ( ESI ), reputation management and strategic communications. We also provide services to help our clients take advantage of economic, regulatory, financial and other business opportunities. Our experienced teams of professionals include many individuals who are widely recognized as experts in their respective fields. We believe clients retain us because of our recognized expertise and capabilities in highly specialized areas as well as our reputation for satisfying client needs.

We report financial results for the following five reportable segments:

Our **Corporate Finance/Restructuring** ( **Corporate Finance** ) segment focuses on strategic, operational, financial and capital needs of businesses around the world and provides consulting and advisory services on a wide range of areas, such as restructuring (including bankruptcy), interim management, financings, M&A, post-acquisition integration, valuations, tax issues and performance improvement.

Our **Forensic and Litigation Consulting** ( **FLC** ) segment provides law firms, companies, government clients and other interested parties with dispute advisory, investigations, forensic accounting, business intelligence assessments, data analytics, risk mitigation services as well as interim management and performance improvement services for our health solutions practice clients.

Our **Economic Consulting** segment provides law firms, companies, government entities and other interested parties with analysis of complex economic issues for use in legal, regulatory and international arbitration proceedings, strategic decision making and public policy debates in the United States ( U.S. ) and around the world.

Our **Technology** segment provides e-discovery and information management consulting, software and services to its clients. It provides products, services and consulting to companies, law firms, courts and government agencies worldwide. Its comprehensive suite of software and services help clients locate, review and produce ESI, including e-mail, computer files, voicemail, instant messaging, cloud and social media data as well as financial and transactional data.

Our **Strategic Communications** segment provides advice and consulting services relating to financial and corporate communications and investor relations, reputation management and brand communications, public affairs, business consulting and digital design and marketing.

We derive substantially all of our revenues from providing professional services to both U.S. and global clients. Most of our services are rendered under time-and-expense arrangements that obligate the client to pay us

a fee for the hours that we incur at agreed upon rates. Under this arrangement, we typically bill our clients for reimbursable expenses, which may include the cost of producing our work product and other direct expenses that we incur on behalf of the client, such as travel costs. We also render services for which certain clients may be required to pay us a fixed fee or recurring retainer. These arrangements are generally cancellable at any time. Some of our engagements contain performance-based arrangements in which we earn a success fee when and if certain predefined outcomes occur. This type of success fee may supplement a time-and-expense or fixed-fee arrangement. Success fee revenues may cause variations in our revenues and operating results due to the timing of achieving the performance-based criteria. In our Technology segment, certain clients are also billed based on the amount of data stored on our electronic systems, the volume of information processed or the number of users licensing our Ringtail® software products for use or installation within their own environments. We license certain products directly to end users as well as indirectly through our channel partner relationships. Unit-based revenue is defined as revenue billed on a per-item, per-page, or some other unit-based method and includes revenue from data processing and hosting, software usage and software licensing. Unit-based revenue includes revenue associated with our proprietary software that is made available to customers, either via a web browser ( on-demand ) or installed at our customer or partner locations ( on-premise ). On-demand revenue is charged on a unit or monthly basis and includes, but is not limited to, processing and review related functions. On-premise revenue is comprised of up-front license fees, with recurring support and maintenance. Seasonal factors, such as the timing of our employees and clients vacations and holidays, impact the timing of our revenues.

Our financial results are primarily driven by:

the number, size and type of engagements we secure;

the rate per hour or fixed charges we charge our clients for services;

the utilization rates of the revenue-generating professionals we employ;

the number of revenue-generating professionals;

fees from clients on a retained basis or other;

licensing of our software products and other technology services;

the types of assignments we are working on at different times;

the length of the billing and collection cycles; and

the geographic locations of our clients or locations in which services are rendered.

**Non-GAAP Measures**

In the accompanying analysis of financial information, we sometimes use information derived from consolidated and segment financial information that is not presented in our financial statements and prepared in accordance with U.S. generally accepted accounting principles ( GAAP ). Certain of these measures are considered non-GAAP financial measures under the SEC rules. Specifically, we have referred to:

Segment Operating Income

Total Segment Operating Income

Adjusted EBITDA

Adjusted Segment EBITDA

Total Adjusted Segment EBITDA

Adjusted EBITDA Margin

Adjusted Segment EBITDA Margin

Adjusted Net Income

Adjusted Earnings per Diluted Share

---

We define Segment Operating Income (Loss) as a segment's share of consolidated operating income. We define Total Segment Operating Income (Loss) as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted EBITDA as consolidated net income (loss) before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We define Adjusted Segment EBITDA as a segment's share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We define Total Adjusted Segment EBITDA as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues. We define Adjusted Segment EBITDA Margin as Adjusted Segment EBITDA as a percentage of a segment's share of revenue. We use Adjusted Segment EBITDA to internally evaluate the financial performance of our segments because we believe it is a useful supplemental measure which reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We also believe that these measures, when considered together with our GAAP financial results, provide management and investors with a more complete understanding of our operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. In addition, EBITDA is a common alternative measure of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of our operating results to the operating results of other companies.

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ( Adjusted EPS ) as net income and earnings per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total company operating performance on a consistent basis. We believe that this measure, when considered together with our GAAP financial results, provides management and investors with a more complete understanding of our business operating results, including underlying trends, by excluding the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Consolidated Statements of Comprehensive Income. Reconciliations of GAAP to non-GAAP financial measures are included elsewhere in this filing.

We define acquisition growth as revenue of acquired companies in the first twelve months following the effective date of an acquisition. Our definition of organic growth is the change in revenue excluding the impact of all such acquisitions.

**EXECUTIVE HIGHLIGHTS**

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>

Total number of employees	4,536	4,223	4,536	4,223

**Second Quarter 2015 Executive Highlights*****Revenues***

Revenues for the three months ended June 30, 2015 decreased \$5.2 million, or 1.1%, to \$449.1 million, which included a \$14.2 million, or 3.1% decrease from the estimated negative impact of foreign currency translation, compared to \$454.3 million in the same prior year period. Excluding the impact of foreign currency translation, revenues increased \$9.0 million, or 2.0%. The increase in revenues largely resulted from higher demand for North American distressed and non-distressed engagements in our Corporate Finance segment and due to higher demand and success fees in our FLC health solutions practice. These increases were partially offset by decreased demand for our non-M&A related antitrust and financial economics services in our Economic Consulting segment and lower pass through income in our Strategic Communications segment.

***Adjusted EBITDA***

Adjusted EBITDA for the three months ended June 30, 2015 decreased \$4.1 million, or 6.9%, to \$55.8 million, or 12.4% of revenues, compared to \$59.9 million, or 13.2% of revenues, in the same prior year period. Adjusted EBITDA was unfavorably impacted due to lower utilization in our FLC and Economic Consulting segments, the mix impact of engagements within our Technology segment, and investments in headcount to support certain segments strategic plans for the future. These declines were partially offset by higher demand and higher utilization in North America and the Europe, Middle East and Africa ( EMEA ) region distressed and non-distressed services in our Corporate Finance segment.

***Net Income***

Net income for the three months ended June 30, 2015 increased \$4.5 million to \$21.7 million, compared to \$17.2 million in the same prior year period. Net income for the current quarter was impacted by the segment results described above and also included a \$0.9 million positive impact related to the termination of a contingent consideration arrangement. The prior year quarter included a \$9.4 million special charge related to the termination of an airplane lease and certain office closures.

***Earnings per diluted share and Adjusted EPS***

Edgar Filing: FTI CONSULTING INC - Form 10-Q

Earnings per share for the three months ended June 30, 2015 increased \$0.10 to \$0.52 from \$0.42 in the same prior year period. Earnings per share were impacted by the results as outlined above and the contingent liability reversal, which increased earnings per share by \$0.02. Earnings per share for the three months ended

June 30, 2014 included the impact of the special charge of \$9.4 million, which reduced earnings per share by \$0.14. Adjusted EPS for the three months ended June 30, 2015 were \$0.50 as compared to \$0.55 in the same prior year period.

### *Liquidity highlights*

Cash used in operating activities decreased \$46.4 million, or 60.1%, to \$30.7 million for the six months ended June 30, 2015 compared to \$77.1 million for the same prior year period with higher compensation and forgivable loan payments partially offset by higher cash collections. DSO, which is one measure of the collections cycle, was 104 days at June 30, 2015 compared to 108 days at June 30, 2014 reflecting improved collections. We calculate DSO at the end of each reporting period by dividing net accounts receivable reduced by billings in excess of services provided, by revenue for the quarter, adjusted for changes in foreign exchange rates. We multiply the result by the number of days in the quarter.

Our financing activities during the three months ended June 30, 2015, included entering into the five-year, \$550.0 million 2015 Credit Facility. The 2015 Credit Facility effectively amends and extends the maturity date of the Company's prior \$350.0 million credit facility from November 27, 2017 to June 26, 2020. Borrowings under the 2015 Credit Facility may be used as permitted under the terms of the 2015 Credit Facility to finance working capital, for capital expenditures and for other general corporate purposes, to repay or redeem existing debt, including under the Company's existing credit facilities or senior notes, and for permitted acquisitions. The Company had no outstanding borrowings under the 2015 Credit Facility as of June 30, 2015.

The Company currently intends, on or before October 1, 2015 and subject to market conditions and other factors, to retire its \$400.0 million of 6.75% Notes due 2020 (the 2020 Notes), funded by a combination of approximately \$275.0 million of borrowings under the 2015 Credit Facility and approximately \$140.0 million of cash on hand. While this is its current intention, the Company is not providing a notice of redemption or otherwise making an irrevocable commitment to retire the 2020 Notes as described above, and any such decision will, among other things, be subject to further review and final approval by the Company's Board of Directors. There can be no assurance that the Company will decide to retire the 2020 Notes in the manner described above or at all. Should the Company retire the 2020 Notes, on or before October 1, 2015, it estimates it would incur a charge for early retirement of debt, including remaining unamortized issuance expenses of approximately \$19.0 million before taxes.

### *Headcount*

As of June 30, 2015, our total headcount of 4,536 increased by a net of 132 employees from December 31, 2014 and billable headcount increased a net of 69 employees from the beginning of 2015.

Billable headcount additions for the six-months ended June 30, 2015 are referenced in the table below.

	Corporate Finance/ Restructuring <sup>(1)</sup>	Forensic and Litigation Consulting	Economic Consulting	Technology	Strategic Communications	Total

Edgar Filing: FTI CONSULTING INC - Form 10-Q

- (1) The tax effect takes into account the tax treatment and related tax rate(s) that apply to each adjustment in the applicable tax jurisdiction(s). As a result, the effective tax rate for the adjustments related to special charges for the three and six months ended June 30, 2014 was 41.0%. The tax expense related to the adjustment for special charges for the three and six months ended June 30, 2014 was \$3.8 million, or a \$0.09 impact on diluted earnings per share. During the three and six months ended, June 30, 2015, there were no special charges.
  
- (2) The tax effect takes into account the tax treatment and related tax rate(s) that apply to each adjustment in the applicable tax jurisdiction(s). As a result, the effective tax rates for the adjustments related to the remeasurement of acquisition-related contingent consideration for the three and six months ended June 30, 2015 was 40.0%. The tax expense related to the remeasurement of acquisition-related contingent consideration for the three and six months ended June 30, 2015 was \$0.7 million, or a \$0.02 impact on

diluted earnings per share. The effective tax rates for the adjustments related to the remeasurement of acquisition-related contingent consideration for the three and six months ended June 30, 2014 were 37.2% and 36.5%, respectively. The tax expense related to the remeasurement of acquisition-related contingent consideration for the three and six months ended June 30, 2014 was \$0.1 million with no impact on diluted earnings per share and \$0.9 million, or a \$0.02 impact on diluted earnings per share.

### **Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014**

#### ***Revenues and operating income***

See Segment Results for an expanded discussion of segment revenues and operating income.

#### ***Unallocated corporate expenses***

Unallocated corporate expenses decreased \$10.7 million, or 34.6% to \$20.1 million for the three months ended June 30, 2015 from \$30.8 million for the same prior year period. Excluding the impact of special charges of \$9.4 million recorded during the three months ended June 30, 2014, unallocated corporate expenses decreased \$1.3 million, or 6.0%. The decrease was primarily due to lower third party costs related to strategic development efforts and executive search activities, lower costs related to performance based compensation for U.S. and regional teams, and the termination of the airplane lease and West Palm Beach executive office in 2014, partially offset by increased human resource, information technology and finance spend to support increased services.

#### ***Interest income and other***

Interest income and other, which includes foreign currency transaction gains and losses, decreased by \$0.4 million to \$1.0 million for the three months ended June 30, 2015 from \$1.4 million for the same prior year period. The decrease was primarily due to an increase in net foreign currency transaction losses which were \$0.3 million for the three months ended June 30, 2015 as compared to the net gains of \$0.1 million in the same prior year period. Transaction gains and losses, both realized and unrealized, relate to the remeasurement or settlement of monetary assets and liabilities that are denominated in currency other than an entity's functional currency. These monetary assets and liabilities include cash as well as third party and intercompany receivables and payables.

#### ***Interest expense***

Interest expense decreased \$0.4 million, or 3.1%, to \$12.5 million for the three months ended June 30, 2015 from \$12.9 million for the same prior year period. Interest expense in 2015 was favorably impacted by lower average borrowings.

#### ***Income tax provision***

The effective tax rates for the three months ended June 30, 2015 and June 30, 2014 were 39.1% and 37.2%, respectively. The increase in the effective tax rate for the three months ended June 30, 2015 as compared to the same prior year period, is primarily due to an increase in foreign losses with no tax benefit and certain unfavorable discrete tax adjustments recorded in the three months ended June 30, 2015.

### **Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014**

#### ***Revenues and operating income***

See Segment Results for an expanded discussion of segment revenues and operating income.

*Unallocated corporate expenses*

Unallocated corporate expenses decreased \$16.9 million, or 33.2% to \$34.2 million for the six months ended June 30, 2015 from \$51.1 million for the same prior year period. Excluding the impact of special charges of

\$9.4 million recorded during the three months ended June 30, 2014, unallocated corporate expenses decreased \$7.5 million, or 18.2%. The decrease was primarily due to lower costs related to our U.S. health and welfare plan, decreased third party costs related to strategic development efforts and executive search activities, the termination of the airplane lease and West Palm Beach executive office in 2014, and lower costs related to performance based compensation for U.S. and regional teams partially offset by increased human resource spend to support increased services.

### *Interest income and other*

Interest income and other, which includes foreign currency transaction gains and losses, decreased by \$1.7 million to \$0.8 million for the six months ended June 30, 2015 from \$2.5 million for the same prior year period. The decrease was primarily due to an increase in net foreign currency transaction losses which were \$1.7 million for the six months ended June 30, 2015 as compared to the net losses of \$0.2 million in the same prior year period. Transaction gains and losses, both realized and unrealized, relate to the remeasurement or settlement of monetary assets and liabilities that are denominated in a currency other than an entity's functional currency. These monetary assets and liabilities include cash as well as third party and intercompany receivables and payables.

### *Interest expense*

Interest expense decreased \$0.8 million, or 3.1%, to \$24.8 million for the six months ended June 30, 2015 from \$25.6 million for the same prior year period. Interest expense in 2015 was favorably impacted by lower average borrowings.

### *Income tax provision*

The effective tax rates for the six months ended June 30, 2015 and June 30, 2014 were 36.0% and 36.8%, respectively. The decrease in the effective tax rate for the six months ended June 30, 2015 as compared to the same prior year period is primarily due to a favorable discrete tax adjustment recorded in the six months ended June 30, 2015 related to the impact of 2015 state law changes on our deferred state tax liabilities.

## SEGMENT RESULTS

### *Total Adjusted Segment EBITDA*

The following table reconciles net income to Total Segment Operating Income and Total Adjusted Segment EBITDA for the three and six months ended June 30, 2015 and 2014.

(1) The number of revenue-generating professionals for the Technology segment excludes as-needed professionals, who we employ based on demand for the segment's services. We employed an average of 507 as-needed employees during the three months ended June 30, 2015.

(2) We calculate the utilization rate for our billable professionals by dividing the number of hours that all of our billable professionals worked on client assignments during a period by the total available working hours for all of our billable professionals during the same period. Available hours are determined by the standard hours worked by each employee, adjusted for part-time hours, local country standard work weeks and local country holidays. Available working hours include vacation and professional training days, but exclude holidays. Utilization rates are presented for our segments that primarily bill clients on an hourly basis. We have not presented a utilization rate for our Technology and Strategic Communications segments as most of the revenues of these segments are not generated on an hourly basis.

(3) For engagements where revenues are based on number of hours worked by our billable professionals, average billable rate per hour is calculated by dividing revenues (excluding revenues from success fees, pass-through and outside consultants) for a period by the number of hours worked on client assignments during the same period. We have not presented an average billable rate per hour for our Technology and Strategic Communications segments as most of the revenues of these segments are not based on billable hours.

**Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014**

Revenues increased \$5.1 million, or 4.9%, to \$109.1 million for the quarter ended June 30, 2015 compared to \$104.0 million for the same prior year period, which included 4.0% estimated negative impact from foreign currency translation. Excluding the foreign currency translation impact, revenue increase of 8.9% was driven primarily by higher demand for the segment's distressed and non-distressed service offerings in North America and for our EMEA based transaction advisory services practice, partially offset by a decline in demand in our Asia Pacific bankruptcy and restructuring practices and lower success fees in North America.

## Edgar Filing: FTI CONSULTING INC - Form 10-Q

Gross profit increased \$4.5 million, or 12.4%, to \$41.0 million for the quarter ended June 30, 2015 compared to \$36.5 million for the same prior year period. Gross profit margin increased 2.5 percentage points to 37.6% for the quarter ended June 30, 2015 compared to 35.1% for the same prior year period. The increase in gross margin was due to an increase in higher margin distressed activity coupled with higher utilization in North America, growth in distressed and transaction advisory services practice in EMEA region, which was partially offset by lower restructuring activity in Asia Pacific region.

SG&A expense increased \$1.5 million, or 8.3%, to \$19.7 million for the quarter ended June 30, 2015 compared to \$18.2 million for the same prior year period. SG&A expense was 18.0% of revenues for the quarter ended June 30, 2015, compared to 17.5% for the same prior year period. The increase in SG&A expense was primarily due to higher outside services, recruiting expenses, and travel, meals and entertainment expenses.

Adjusted Segment EBITDA increased \$2.9 million, or 15.2%, to \$22.0 million for the quarter ended June 30, 2015 compared to \$19.1 million for the same prior year period.

**Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014**

Revenues increased \$17.3 million, or 8.7%, to \$215.3 million for the six months ended June 30, 2015 compared to \$198.0 million for the same prior year period, which included 3.7% estimated negative impact from foreign currency translation. Excluding the foreign currency translation impact, the revenue increase of 12.4% was driven primarily by higher demand for the segment's distressed and non-distressed engagements in North America and higher demand and average realized bill rates in our EMEA based transaction advisory services practice, partially offset by a decline in demand in our Asia Pacific practice.

Gross profit increased \$16.8 million, or 25.3%, to \$83.3 million for the six months ended June 30, 2015 compared to \$66.5 million for the same prior year period. Gross profit margin increased to 38.7% for the six months ended June 30, 2015 compared to 33.6% for the same prior year period. The increase in gross margin was due to an increase in higher margin distressed activity coupled with higher utilization in North America, growth in distressed and transaction advisory services practice in EMEA region, which was partially offset by lower restructuring activity in Asia Pacific region.

SG&A expense increased \$2.2 million, or 5.9%, to \$40.2 million for the six months ended June 30, 2015 compared to \$38.0 million for the same prior year period. SG&A expense was 18.7% of revenues for the six months ended June 30, 2015, compared to 19.2% for the same prior year period. The increase in SG&A expense was due to higher outside services, travel, meals and entertainment, recruiting, and business development expenses.

Adjusted Segment EBITDA increased \$14.4 million, or 48.0%, to \$44.5 million for the six months ended June 30, 2015 compared to \$30.1 million for the same prior year period.

(2) Gross profit as a percent of revenues

**Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014**

Revenues increased \$7.1 million, or 5.9%, to \$126.1 million for the three months ended June 30, 2015 compared to \$119.1 million for the same prior year period, including a 1.9% estimated negative impact from foreign currency translation. Excluding the estimated impact of foreign currency translation, revenue increased \$9.4 million, or 7.9%, which was driven by higher demand and success fees in our health solutions practice and increased demand for our investigations and global construction solutions practices, partially offset by declines in our disputes and financial and enterprise data analytics practices.

Edgar Filing: FTI CONSULTING INC - Form 10-Q

Gross profit increased \$0.7 million, or 1.5%, to \$44.4 million for the three months ended June 30, 2015 compared to \$43.7 million for the same prior year period. Gross profit margin decreased to 35.2% for the three months ended June 30, 2015 from 36.7% for the same prior year period. The decrease in gross profit margin is related to lower utilization in most practices and increased investment in new hires to support the EMEA and Asia Pacific investigation practices, partially offset by improved performance and success fees in our health solutions practice.

SG&A expense increased \$2.9 million, or 12.8%, to \$25.3 million for the three months ended June 30, 2015 compared to \$22.5 million for the same prior year period. SG&A expense was 20.1% of revenue for the three months ended June 30, 2015, compared to 18.9% for the same prior year period. The increase in SG&A expense was due to severance related to a Senior Managing Director departure, higher bad debt expenses and outside services.

Adjusted Segment EBITDA decreased by \$2.3 million, or 10.3%, to \$20.0 million for the three months ended June 30, 2015 compared to \$22.3 million for the same prior year period.

**Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2015**

Revenues increased \$8.9 million, or 3.7%, to \$249.4 million for the six months ended June 30, 2015 compared to \$240.5 million for the same prior year period, including a 1.6% estimated negative impact from foreign currency translation. Excluding the estimated impact of foreign currency translation, revenue increased \$12.7 million, or 5.3%, which was driven by higher demand and success fees in our health solutions practice and increased demand for our investigations and global construction solutions practices, which was partially offset by declines in our disputes and financial and enterprise data analytics practices.

Gross profit decreased \$2.3 million, or 2.5%, to \$89.1 million for the six months ended June 30, 2015 compared to \$91.4 million for the same prior year period. Gross profit margin increased to 35.7% for the six months ended June 30, 2015 from 38.0% for the same prior year period. The decrease in gross profit margin is related to lower utilization in most practices and increased investment in new hires to support the EMEA and Asia Pacific investigation practices, partially offset by improved performance and success fees in our health solutions practice.

SG&A expense increased \$4.4 million, or 9.8%, to \$49.0 million for the six months ended June 30, 2015 compared to \$44.6 million for the same prior year period. SG&A expense was 19.6% of revenue for the six months ended June 30, 2015, compared to 18.5% for the same prior year period. The increase in SG&A expense was due to severance related to a Senior Managing Director departure, higher bad debt expenses, recruiting fees and outside services.

Adjusted Segment EBITDA decreased by \$6.7 million, or 13.8%, to \$42.1 million for the six months ended June 30, 2015 compared to \$48.8 million for the same prior year period.

(2) Gross profit as a percent of revenues

### **Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014**

Revenues decreased \$8.5 million, or 7.3%, to \$108.7 million for the three months ended June 30, 2015 compared to \$117.2 million for the same prior year period, which included a 2.8% decrease from the estimated negative impact of foreign currency translation. Revenues increased \$2.1 million, or 1.8%, due to acquisitions as compared to the same prior year period. Excluding the foreign currency translation impact, organic revenue declined \$7.4 million primarily due to decreased demand in our non-M&A related antitrust and financial economics services, partially offset by higher demand for our international arbitration services.

Gross profit decreased \$3.1 million, or 9.6%, to \$29.3 million for the three months ended June 30, 2015 compared to \$32.4 million for the same prior year period. Gross profit margin decreased to 26.9% for the three months ended June 30, 2015 from 27.6% for the same prior year period. The decrease in gross profit margin was the result of lower utilization in our antitrust and financial economics services, partially offset by higher realized bill rates and utilization in our energy practice.

SG&A expense decreased \$0.4 million, or 2.5%, to \$14.9 million for the three months ended June 30, 2015 compared to \$15.2 million for the same prior year period. SG&A expense was 13.7% of revenues for the three months ended June 30, 2015 compared to 13.0% for the same prior year period. The decrease in SG&A expense was due to lower bad debt partially offset by higher technology infrastructure and occupancy costs. Bad debt expense was \$0.8 million or 0.7% of revenues for the three months ended June 30, 2015 compared to \$2.0 million or 1.7% of revenues for the same prior year period.

Adjusted Segment EBITDA decreased \$2.8 million, or 15.2%, to \$15.3 million for the three months ended June 30, 2015, compared to \$18.0 million for the same prior year period.

### **Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014**

Revenues decreased \$9.3 million, or 4.1%, to \$214.8 million for the six months ended June 30, 2015 compared to \$224.1 million for the same prior year period, which included a 2.6% decrease from the estimated negative impact of foreign currency translation. Revenues increased \$4.1 million, or 1.8%, due to acquisitions as compared to the same prior year period. Excluding the foreign currency translation impact, organic revenue declined \$7.6 million primarily due to decreased demand in our non-M&A related antitrust and financial economics services, partially offset by higher demand for our M&A and international arbitration services.

Gross profit decreased \$5.8 million, or 9.5%, to \$55.4 million for the six months ended June 30, 2015 compared to \$61.3 million for the same prior year period. Gross profit margin decreased to 25.8% for the six months ended June 30, 2015 from 27.3% for the same prior year period. The decrease in gross profit margin was the result of lower utilization in our non-M&A related antitrust and financial economics services, partially offset by improved utilization in our M&A services and energy practice.

SG&A expense decreased \$1.8 million, or 5.5%, to \$30.4 million for the six months ended June 30, 2015 compared to \$32.1 million for the same prior year period. SG&A expense was 14.1% of revenues for the six months ended June 30, 2015 compared to 14.3% for the same prior year period. The decrease in SG&A expense was due to lower bad debt and occupancy costs partially offset by higher technology infrastructure costs and acquired SG&A expenses. Bad debt expense was \$2.4 million or 1.1% of revenues for the six months ended June 30, 2015 compared to \$4.6 million or 2.0% of revenues for the same prior year period.

Adjusted Segment EBITDA decreased \$4.2 million, or 13.6%, to \$26.8 million for the six months ended June 30, 2015, compared to \$31.1 million for the same prior year period.

(1) Revenues less direct cost of revenues

(2) Gross profit as a percent of revenues

(3) Includes personnel involved in direct client assistance and revenue generating consultants

**Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014**

Revenues increased \$ 1.1 million, or 1.8%, to \$61.8 million for the three months ended June 30, 2015 compared to \$60.7 million for the same prior year period, which included a 1.0% decrease from the estimated negative impact of foreign currency translation. Excluding the foreign currency translation impact, revenues increased \$1.7 million, or 2.8%, due to higher level of M&A related second requests, partially offset by a decline in cross border investigations and reduced pricing for certain services.

Gross profit decreased \$0.8 million, or 2.9%, to \$27.0 million for the three months ended June 30, 2015 compared to \$27.8 million for the same prior year period. Gross profit margin decreased to 43.6% for the three months ended June 30, 2015 from 45.7% for the same prior year period. The decrease in gross margin percentage was due to lower realized pricing for certain services, investment in global personnel to support future growth opportunities, and

increases in lower margin services as a percentage of total revenues.

SG&A increased \$1.6 million, or 9.9%, to \$18.3 million for the three months ended June 30, 2015 compared to \$16.6 million for the same prior year period. SG&A expense was 29.6% of revenues for the three months ended June 30, 2015 compared to 27.4% for the same prior year period. The increase in SG&A expense was due to increased hiring to support business development and marketing activities and due to increased occupancy expenses. Research and development expense was \$4.8 million for the three months ending June 30, 2015 compared to \$4.6 million for the same prior year period.

Adjusted Segment EBITDA decreased \$2.9 million, or 19.5%, to \$12.2 million for the three months ended June 30, 2015 compared to \$15.1 million for the same prior year period.

**Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014**

Revenues decreased \$4.3 million, or 3.6% to \$116.5 million for the six months ended June 30, 2015 compared to \$120.8 million in the same prior year period, which included a 1.1% decrease from the estimated negative impact of foreign currency translation. Excluding the foreign currency translation impact, revenues decreased \$2.9 million, or 2.4%, due to the wind down of some cross border investigations, conclusion of certain product liability matters, and reduced pricing for certain services, partially offset by increased services volumes related to M&A activity.

Gross profit decreased \$5.8 million, or 10.1%, to \$51.4 million for the six months ended June 30, 2015 compared to \$57.1 million for the same prior year period. Gross profit margin decreased to 44.1% for the six months ended June 30, 2015 from 47.3%, for the same prior year period. The decrease in gross profit margin was due to a change in the mix of revenue with higher margin unit-based revenue comprising a smaller percentage of total revenue, higher costs to support increased document review volumes, along with increased personnel and infrastructure costs to support continued global expansion.

SG&A increased \$3.6 million, or 11.0%, to \$36.3 million for the six months ended June 30, 2015 compared to \$32.7 million for the same prior year period. SG&A expense was 31.2% of revenue for the six months ended June 30, 2015 compared to 37.1% for the same prior year period. The increase in SG&A expense was due to increased investment in business development and research and development personnel, increased occupancy costs related to additional personnel, marketing and travel expenses. Bad debt expense decreased by \$0.8 million due to the increase in recoveries of previously reserved balances.

Research and development expense was \$10.7 million for the six months ended June 30, 2015 compared to \$9.1 million for the same prior year period. The increase in research and development expense is related to new initiatives, partially offset by increased capitalization of software development costs.

Adjusted Segment EBITDA decreased \$10.2 million, or 31.5% to \$22.2 million for the six months ended June 30, 2015 compared to \$32.5 million for the same prior year period.

### **Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014**

Revenues decreased \$9.9 million, or 18.6%, to \$43.4 million for the quarter ended June 30, 2015 compared to \$53.3 million for the same prior year period, which included a 7.3% decrease from the estimated negative impact of foreign currency translation. Excluding the foreign currency translation impact, revenues decreased by \$6.0 million, or 11.3%, predominantly due to a decrease in pass-through income, with the remainder of decrease coming from lower project based revenues in our North America and EMEA regions and decrease in retainer based revenues in our North America region, partially offset by growth in project based revenues in our Asia Pacific region.

Gross profit decreased \$2.4 million, or 12.9%, to \$16.0 million for the quarter ended June 30, 2015 compared to \$18.4 million for the same prior year period. Gross profit margin increased 2.4 percentage points to 36.9% for the quarter ended June 30, 2015 from 34.5% for the same prior year period. The increase in gross profit margin was primarily due to improved revenue mix with a lower proportion of revenues coming from low margin pass-through income.

SG&A expense decreased \$2.3 million, or 17.9%, to \$10.7 million for the quarter ended June 30, 2015 compared to \$13.1 million for the same prior year period. SG&A expense was 24.8% of revenue for the quarter ended June 30, 2015, slightly up from 24.6% of revenue for the same prior year period. The decrease in SG&A was primarily due to reduced overhead staff costs, lower corporate overhead allocations and occupancy costs, partially offset by higher bad debt expense.

Adjusted Segment EBITDA decreased \$0.2 million, or 3.5%, to \$5.6 million for the quarter ended June 30, 2015 compared to \$5.8 million for the same prior year period, which included a 7.4% decrease from the estimated negative impact of foreign currency translation. Excluding the foreign currency translation impact the Adjusted Segment EBITDA increased by \$0.2 million.

### **Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014**

Revenues decreased \$11.0 million, or 11.4%, to \$85.5 million for the six months ended June 30, 2015 compared to \$96.5 million for the same prior year period, which included a 7.1% decrease from the estimated negative impact of foreign currency translation. Excluding the foreign currency translation impact, revenues decreased by \$4.1 million, or 4.3%, due to decrease in lower margin pass-through income.

Gross profit decreased \$2.0 million, or 5.9%, to \$31.8 million for the six months ended June 30, 2015 compared to \$33.8 million for the same prior year period. Gross profit margin increased 2.1 percentage points to 37.1% for the six months ended June 30, 2015 from 35.0% for the same prior year period. The increase in gross profit margin was primarily due to improved revenue mix with lower proportion of revenues coming from low margin pass-through income, lower headcount and staff costs.

SG&A expense decreased \$5.0 million, or 19.2%, to \$21.2 million for the six months ended June 30, 2015 compared to \$26.2 million for the same prior year period. SG&A expense was 24.8% of revenue for the six months ended June 30, 2015, down from 27.2% of revenue for the same prior year period. The decrease in SG&A was primarily due to lower occupancy costs in EMEA, lower corporate allocations, compensation costs and legal fees.

Adjusted Segment EBITDA increased \$2.8 million, or 32.9%, to \$11.4 million for the six months ended June 30, 2015 compared to \$8.6 million for the same prior year period, which included a 8.6% decrease from the estimated negative impact of foreign currency translation. Excluding the foreign currency translation impact the Adjusted Segment EBITDA increased by \$3.6 million, or by 41.6%.

## CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based on our condensed consolidated financial statements, which we have prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Note 1 to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014 describes the significant accounting policies and methods used in preparation of the Consolidated Financial Statements. We evaluate our estimates, including those related to bad debts, goodwill, income taxes and contingencies on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. These results form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The accounting policies that reflect our more significant estimates, judgments and assumptions and which we believe are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

Revenue recognition

Allowance for doubtful accounts and unbilled services

Goodwill and other intangible assets

Business combinations

Share-based compensation

Income taxes

There have been no material changes to our critical accounting policies and estimates from the information provided in Part II, Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies, as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the SEC on February 23, 2015.

### **Goodwill and Other Intangible Assets**

On a quarterly basis, we monitor the key drivers of fair value to detect events or other changes that would warrant an interim impairment test of our goodwill and intangible assets. Factors we consider important which could trigger an interim impairment review include, but are not limited to the following: significant underperformance relative to historical or projected future operating results; a significant change in the manner of our use of the acquired asset or strategy for our overall business; a significant negative industry or economic trend; and our market capitalization relative to net book value. When we evaluate these factors and determine that a triggering event has occurred, we perform an interim impairment analysis.

As of October 1, 2014, the date of our last annual goodwill impairment test, the fair value of all of our reporting units substantially exceeded their respective carrying values. Through our quarterly assessment, we determined that there were no events or circumstances that more likely than not would reduce the fair value of any of our reporting units below their carrying value.

There can be no assurance that the estimates and assumptions used in our goodwill impairment testing will prove to be accurate predictions of the future. If our assumptions regarding forecasted cash flows are not achieved, we may be required to perform the two-step quantitative goodwill impairment analysis prior to our next annual impairment test. In addition, if the aforementioned factors have the effect of changing one of the critical assumptions or estimates we use to calculate the value of our goodwill or intangible assets, we may be required to record goodwill and/or intangible asset impairment charges in future periods, whether in connection with our next annual impairment test or if a triggering event occurs outside of the quarter during which the

annual goodwill impairment test is performed. It is not possible at this time to determine if any future impairment charge would result or, if it does, whether such charge would be material.

## SIGNIFICANT NEW ACCOUNTING PRONOUNCEMENTS

In April 2015, the Financial Accounting Standards Board ( FASB ) issued Accounting Standard Update ( ASU ) 2015-03, *Simplifying the Presentation of Debt Issuance Costs* which changes the presentation of debt issuance costs in financial statements. ASU 2015-03 requires an entity to present such costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs will continue to be reported as interest expense. It is effective for annual reporting periods beginning after December 15, 2015. Early adoption is permitted. The new guidance will be applied retrospectively to each prior period presented. We do not expect the adoption of this ASU to have a material impact on our consolidated balance sheets.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, or ASU 2014-09, which requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. On July 9, 2015, the FASB deferred the effective date of the standard by one year which would result in the new standard being effective for the Company at the beginning of its first quarter of fiscal year 2018. We have not evaluated the impact of the new standard, including possible transition alternatives, on the Company's financial statements.

## LIQUIDITY AND CAPITAL RESOURCES

### Cash Flows

	<b>Six Months Ended</b>	
	<b>June 30,</b>	
	<b>2015</b>	<b>2014</b>
	<b>(dollars in thousands)</b>	
Net cash used in operating activities	\$ (30,731)	\$ (77,104)
Net cash used in investing activities	\$ (18,045)	\$ (37,395)
Net cash provided by financing activities	\$ 7,669	\$ 3,630
DSO	104	108

We have generally financed our day-to-day operations, capital expenditures and acquisition-related contingent payments through cash flows from operations. Generally, during our first quarter of each fiscal year, our cash needs exceed our cash flows from operations due to the payments of annual incentive compensation and acquisition-related contingent payments. Our operating cash flows generally exceed our cash needs subsequent to the first quarter of each year.

Our operating assets and liabilities consist primarily of billed and unbilled accounts receivable, notes receivable from employees, accounts payable, accrued expenses and accrued compensation expense. The timing of billings and collections of receivables as well as payments for compensation arrangements affect the changes in these balances.

DSO is a performance measure used to assess how quickly revenues are collected by the Company. We calculate DSO at the end of each reporting period by dividing net accounts receivable reduced by billings in excess of services provided, by revenue for the quarter, adjusted for changes in foreign exchange rates. We multiply the result by the number of days in the quarter. Our DSO typically reaches its lowest point at December 31st each year and has consistently increased during the following quarters.

***Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014***

Cash used in operating activities decreased \$46.4 million, or 60.1%, to \$30.7 million for the six months ended June 30, 2015 compared to \$77.1 million for the same prior year period, primarily as a result of higher

cash collections and a decrease in the funding of forgivable loans. DSO, which is one measure of the collections cycle, was 104 days at June 30, 2015 compared to 108 days at June 30, 2014 reflecting improved collections.

Net cash used in investing activities for the six months ended June 30, 2015 was \$18.0 million compared to net cash used in investing activities of \$37.4 million for the same prior year period. Payments for acquisitions completed during the six months ended June 30, 2015 were \$0.6 million, net of cash received, compared to \$1.0 million for the same prior year period. There were no payments of acquisition related contingent consideration for the six months ended June 30, 2015, compared to \$14.6 million for the same prior year period. Capital expenditures were \$17.5 million for the six months ended June 30, 2015 compared to \$21.8 million for the same prior year period.

Net cash provided by financing activities for the six months ended June 30, 2015 was \$7.7 million compared to \$3.6 million for the same prior year period. Cash provided by financing activities in the six months ended June 30, 2015 was primarily related to \$8.7 million in cash received from the issuance of common stock under our equity compensation plans and \$2.4 million of refundable deposits related to one of our foreign entities offset by the payment of \$3.1 million in debt financing fees related to the 2015 Credit Facility. Our financing activities for the six months ended June 30, 2014 included payments of \$4.4 million to settle repurchases of the Company's common stock that were made but not settled in the fourth quarter of 2013 and the receipt of \$11.6 million of refundable deposits related to one of our foreign entities.

### ***Capital Resources***

On June 26, 2015, we entered into the five-year \$550.0 million 2015 Credit Facility, which effectively amended and extended our prior Credit Facility, dated November 27, 2012. We did not incur any early termination or prepayment penalties in connection with the replacement of the prior Credit Facility. Borrowings under the 2015 Credit Facility may be used as permitted under the terms of the 2015 Credit Facility to finance working capital, for capital expenditures and for other general corporate purposes, to repay or redeem existing debt, including under the Company's existing credit facilities or senior notes, and for permitted acquisitions.

As of June 30, 2015, our capital resources included \$240.0 million of cash and cash equivalents and available borrowing capacity of \$548.6 million under our 2015 Credit Facility. As of June 30, 2015, we had no outstanding borrowings under our 2015 Credit Facility and \$1.4 million of outstanding letters of credit, which reduced the availability of borrowings under the 2015 Credit Facility. We use letters of credit primarily in lieu of security deposits for our leased office facilities.

The Company currently intends, on or before October 1, 2015 and subject to market conditions and other factors, to retire its \$400.0 million of 6.75% Notes due 2020 (the 2020 Notes), funded by a combination of approximately \$275.0 million of borrowings under the 2015 Credit Facility and approximately \$140.0 million of cash on hand. While this is its current intention, the Company is not providing a notice of redemption or otherwise making an irrevocable commitment to retire the 2020 Notes as described above, and any such decision will, among other things, be subject to further review and final approval by the Company's Board of Directors. There can be no assurance that the Company will decide to retire the 2020 Notes in the manner described above or at all. Should the Company retire the 2020 Notes, on or before October 1, 2015, it estimates it would incur a charge for early retirement of debt, including remaining unamortized issuance expenses of approximately \$19.0 million before taxes.

### ***Future Capital Needs***

We anticipate that our future capital needs will principally consist of funds required for:

operating and general corporate expenses relating to the operation of our businesses;

capital expenditures, primarily for information technology equipment, office furniture and leasehold improvements;

debt service requirements, including interest payments on our long-term debt;

retirement of long-term debt;

compensating designated executive management and senior managing directors under our various long-term incentive compensation programs;

contingent obligations related to our acquisitions;

potential acquisitions of businesses that would allow us to diversify or expand our service offerings; and

other known future contractual obligations.

For the full fiscal year ending December 31, 2015, we anticipate aggregate capital expenditures will range between \$33 million and \$37 million to support our organization, including direct support for specific client engagements. Our estimate takes into consideration the needs of our existing businesses but does not include the impact of any purchases that we make as a result of future acquisitions or specific client engagements that are not currently contemplated. Our capital expenditure requirements may change if our staffing levels or technology needs change significantly from what we currently anticipate, if we purchase additional equipment specifically to support a client engagement or if we pursue and complete additional acquisitions.

For business combinations consummated on or after January 1, 2009, contingent consideration obligations are recorded as liabilities on our Condensed Consolidated Balance Sheets and remeasured to fair value at each subsequent reporting date with an offset to current period earnings. The fair value of future expected contingent purchase price obligations for these business combinations is \$4.4 million at June 30, 2015 with payment dates extending through 2018.

For the last several years, our cash flows from operations have exceeded our cash needs for capital expenditures and debt service requirements. We believe that our cash flows from operations, supplemented by short-term borrowings under our bank credit facility, as necessary, will provide adequate cash to fund our long-term cash needs from normal operations for at least the next twelve months.

Our conclusion that we will be able to fund our cash requirements by using existing capital resources and cash generated from operations does not take into account the impact of any future acquisition transactions or any unexpected significant changes in the number of employees or other expenditures that are currently not contemplated. The anticipated cash needs of our businesses could change significantly if we pursue and complete additional business acquisitions, if our business plans change, if economic conditions change from those currently prevailing or from those now anticipated, or if other unexpected circumstances arise that have a material effect on the cash flow or profitability of our business. Any of these events or circumstances, including any new business opportunities, could involve significant additional funding needs in excess of the identified currently available sources and could require us to raise additional debt or equity funding to meet those needs. Our ability to raise additional capital, if necessary, is subject to a variety of factors that we cannot predict with certainty, including:

our future profitability;

the quality of our accounts receivable;

our relative levels of debt and equity;

the volatility and overall condition of the capital markets; and

the market prices of our securities.

Any new debt funding, if available, may be on terms less favorable to us than our bank credit facility or the indentures that govern our 6<sup>3</sup>/<sub>4</sub>% Senior Notes Due 2020 and 6.0% Senior Notes Due 2022. See Forward-Looking Statements in this Quarterly Report on Form 10-Q and Risk Factors included in Part I Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014.

### ***Off-Balance Sheet Arrangements***

We have no off-balance sheet arrangements, other than operating leases, and we have not entered into any transactions involving unconsolidated subsidiaries or special purpose entities.

### ***Future Contractual Obligations***

There have been no significant changes in our future contractual obligations information as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

### **Forward-Looking Statements**

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, that involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, future capital expenditures, expectations, plans or intentions relating to acquisitions and other matters, business trends and other information that is not historical. Forward-looking statements often contain words such as *estimates*, *expects*, *anticipates*, *projects*, *plans*, *intends*, *believes*, *forecasts* and variations of such words or similar expressions. All forward-looking statements, including, without limitation, management's examination of historical operating trends, are based upon our historical performance and our current plans, estimates and expectations at the time we make them and various assumptions. There can be no assurance that management's expectations, beliefs and projections will result or be achieved. Our actual financial results, performance or achievements could differ materially from those expressed in, or implied by, any forward-looking statements. The inclusion of any forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Given these risks, uncertainties and other factors, you should not place undue reliance on any forward-looking statements.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in, or implied by, this Quarterly Report on Form 10-Q. Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this Quarterly Report on Form 10-Q are set forth under the heading *Risk Factors* included in Part I Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014. Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this Quarterly Report on Form 10-Q include the following:

changes in demand for our services;

our ability to attract and retain qualified professionals and senior management;

conflicts resulting in our inability to represent certain clients;

our former employees joining or forming competing businesses;

our ability to manage our professionals' utilization and billing rates and maintain or increase the pricing of our services and products;

our ability to identify suitable acquisition candidates, negotiate favorable terms, take advantage of opportunistic acquisition situations and integrate the operations of acquisitions as well as the costs of integration;

our ability to adapt to and manage the risks associated with operating in non-U.S. markets;

our ability to replace key personnel, including senior managers and practice and regional leaders who have highly specialized skills and experience;

our ability to protect the confidentiality of internal and client data and proprietary and confidential information;

legislation or judicial rulings, including rulings regarding data privacy and the discovery process;

periodic fluctuations in revenues, operating income and cash flows;

damage to our reputation as a result of claims involving the quality of our services;

fee discounting or renegotiation, lower pricing, less advantageous contract terms and unexpected terminations of client engagements;

competition for clients and key personnel;

general economic factors, industry trends, restructuring and bankruptcy rates, legal or regulatory requirements, capital market conditions, merger and acquisition activity, major litigation activity and other events outside of our control;

our ability to manage growth;

risk of non-payment of receivables;

the amount and terms of our outstanding indebtedness;

risks relating to the obsolescence of, changes to, or the protection of, our proprietary software products and intellectual property rights; and

fluctuations in the mix of our services and the geographic locations in which our clients are located or our services are rendered.

There may be other factors that may cause our actual results to differ materially from our forward-looking statements. All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this Quarterly Report on Form 10-Q and are expressly qualified in their entirety by the cautionary statements included herein. We undertake no obligation to publicly update or revise any forward-looking statements to reflect subsequent events or circumstances and do not intend to do so.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

For information regarding our exposure to certain market risks see Item 7A. Quantitative and Qualitative Disclosures about Market Risk, in our Annual Report on Form 10-K for the year ended December 31, 2014. There have been no significant changes in our market risk exposure during the period covered by this Quarterly Report on Form 10-Q.

**Item 4. Controls and Procedures**

***Evaluation of Disclosure Controls and Procedures.*** An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q was made under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (a) were effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is timely recorded, processed, summarized and reported and (b) included, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

***Changes in Internal Control over Financial Reporting.*** There have not been any changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

### Item 1. Legal Proceedings

From time to time in the ordinary course of business, we are subject to claims, asserted or unasserted, or named as a party to lawsuits or investigations. Litigation, in general, and intellectual property and securities litigation in particular, can be expensive and disruptive to normal business operations. Moreover, the results of legal proceedings cannot be predicted with any certainty and in the case of more complex legal proceedings such as intellectual property and securities litigation, the results are difficult to predict at all. We are not aware of any asserted or unasserted legal proceedings or claims that we believe would have a material adverse effect on our financial condition or results of our operations.

### Item 1A. Risk Factors

There has been no material change in any risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission (the "SEC") on February 23, 2015. We may disclose changes to risk factors or disclose additional factors from time to time in our future filings with the Securities and Exchange Commission. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

*Unregistered sales of equity securities.*

None

*Repurchases of our common stock.*

The following table provides information with respect to purchases we made of our common stock during the second quarter ended June 30, 2015 (in thousands, except per share amounts).

	Total Number of Shares Purchased <sup>(1)</sup>	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program <sup>(2)</sup>	Approximate Dollar Value That May Yet Be Purchased Under the Program
April 1 through April 30, 2015	214	37.59		\$
May 1 through May 31, 2015	3,171	39.64		\$
June 1 through June 30, 2015	6,539	40.50		\$
Total	9,924			\$

- 1) Represents shares of common stock withheld to cover payroll tax withholdings related to the lapse of restrictions on restricted stock.
- 2) The Company's stock repurchase program authorized by the Board of Directors in June 2012 terminated on June 5, 2014.
