TRANSACTION PROPOSALS YOUR VOTE IS VERY IMPORTANT

Dear Stockholders of Charter Communications, Inc. and Time Warner Cable Inc.:

Charter Communications, Inc., or Charter, CCH I, LLC, or New Charter, and Time Warner Cable Inc., or TWC, have entered into an Agreement and Plan of Mergers, dated as of May 23, 2015, which is referred to as the merger agreement, under which both TWC and Charter will become wholly owned subsidiaries of New Charter following a series of merger transactions. If the mergers are completed, each share of TWC common stock (with certain exceptions described in the accompanying joint proxy statement/prospectus) will convert into the right to receive either (at the election of the holder thereof):

\$100 in cash and New Charter Class A common stock equivalent to 0.5409 shares of Charter's existing Class A common stock (that is approximately 0.4891 shares of New Charter Class A common stock after taking into account the exchange ratio discussed in the fifth paragraph of this letter, which will be applied to calculate the actual number of shares of New Charter Class A common stock that TWC stockholders will be entitled to receive if the mergers are completed); or

\$115 in cash and New Charter Class A common stock equivalent to 0.4562 shares of Charter's existing Class A common stock (that is approximately 0.4125 shares of New Charter Class A common stock after taking into account the exchange ratio discussed in the fifth paragraph of this letter, which will be applied to calculate the actual number of shares of New Charter Class A common stock that TWC stockholders will be entitled to receive if the mergers are completed).

If the mergers are completed, each share of TWC common stock held by Liberty Broadband Corporation, which is referred to as Liberty Broadband, and Liberty Interactive Corporation, which is referred to as Liberty Interactive, will convert into the right to receive shares of New Charter Class A common stock equivalent to 1.106 shares of Charter's existing Class A common stock (that is one share of New Charter Class A common stock, after taking into account the exchange ratio discussed in the fifth paragraph of this letter) and neither Liberty Broadband nor Liberty Interactive will have a right to receive cash in respect of its shares of TWC common stock, subject to the terms of the Liberty contribution agreement. This exchange ratio was determined as the share-only equivalent of the mixed cash/stock consideration offered to other TWC stockholders based on the same market price (\$176.95, which was the closing price of Charter Class A common stock on May 20, 2015) that was used to set the exchange ratio payable to the other TWC stockholders. In addition, in connection with the completion of the mergers, New Charter will issue to Liberty Broadband approximately 21.97 million shares of New Charter Class A common stock, for which Liberty Broadband will pay \$4.3 billion (for a total of \$5 billion taken together with the additional \$700 million investment by Liberty Broadband in connection with Charter's transaction with Advance/Newhouse Partnership (as further described below)). Liberty Broadband will invest \$4.3 billion in New Charter based on an equivalent of \$176.95 per share of Charter Class A common stock and will invest \$0.7 billion based on an equivalent of \$172.99 per share of Charter Class A common stock.

Assuming (i) each holder of outstanding TWC common stock elects to receive the \$100 cash option described above, (ii) the per share price of Charter's Class A common stock as of the time of the first and second mergers is \$185.86 (the closing share price of Charter's Class A common stock on July 31, 2015), and (iii) the approximate number of shares of TWC common stock outstanding as of the time of the first and second mergers is 283.0 million shares

(outstanding TWC shares as of July 31, 2015), Charter expects the aggregate equity value of the TWC transactions to the TWC stockholders to be approximately \$57.5 billion, which is comprised of approximately \$29.3 billion of New Charter Class A common stock being issued, approximately \$636 million of New Charter replacement equity awards (pre-combination vesting value) being issued in respect of equity awards held by employees of TWC, approximately \$27.5 billion in cash being paid to TWC stockholders and approximately \$86 million of cash being paid to TWC former employees and non-employee directors who hold equity awards. In addition, Charter expects to assume approximately \$22.6 billion of principal amount of net debt of TWC in connection with the mergers.

The closing price per share of TWC common stock as of May 22, 2015, the last trading day before the public announcement of the merger agreement, was \$171.18. Based on the closing price per share of Charter Class A common stock on May 22, 2015, which was \$175.33, the implied value per share of the merger consideration for TWC stockholders was (i) \$194.84 (assuming the \$100 cash option described above is made by all TWC stockholders), which represents a 13.8% premium to the closing price of TWC common stock as of May 22, 2015, and (ii) \$194.99 (assuming the \$115 cash option described above is made by all TWC stockholders), which represents a 13.9% premium to the closing price of TWC common stock as of May 22, 2015.

If the mergers are completed, each share of Charter's outstanding Class A common stock will convert into the right to receive 0.9042 shares of New Charter Class A common stock. The exchange ratio of 0.9042 will be used to determine the number of shares of New Charter Class A common stock that both TWC stockholders and Charter stockholders will be entitled to receive in the mergers and, therefore, the application of that exchange ratio will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by TWC stockholders or Charter stockholders upon completion of the mergers. In addition, following the completion of the mergers, Charter expects to complete its previously announced transaction with Advance/Newhouse Partnership, or A/N, pursuant to which A/N will contribute the membership interests in Bright House Networks, LLC, or Bright House, and any other assets (other than certain excluded assets and liabilities) primarily related to Bright House's business to Charter Communications Holdings, LLC, a wholly owned indirect subsidiary of Charter, or Charter Holdings, in exchange for cash, common and preferred units of Charter Holdings (which are exchangeable or convertible in certain circumstances for New Charter Class A common stock) and one share of a new class of New Charter common stock (Class B common stock) with voting rights generally intended to reflect A/N's economic interests in New Charter and Charter Holdings. The foregoing transactions described in this paragraph are collectively referred to as the BHN transactions. In addition, in connection with the completion of the BHN transactions, New Charter will issue to Liberty Broadband approximately 3.66 million shares of New Charter Class A common stock if the mergers are consummated, or 4.05 million shares of Charter Class A common stock if the mergers are not consummated, for which Liberty Broadband will pay \$700 million. Based on the number of shares of TWC common stock outstanding as of July 31, 2015, and the number of shares of Charter Class A common stock outstanding as of July 31, 2015, it is expected that, immediately after completion of the mergers, the transactions with Liberty Broadband and the BHN transactions, and depending on the outcome of the election feature described above, TWC stockholders, excluding Liberty Broadband, are expected to own between approximately 41% and 45% of New Charter, A/N is expected to own between approximately 14% and 13% of New Charter, Liberty Broadband is expected to own between approximately 19% and 17% of New Charter and existing Charter stockholders (other than Liberty Broadband) are expected to own between approximately 26% and 24% of New Charter. The shares of TWC common stock are traded on the New York Stock Exchange under the symbol `TWC` and the shares of Charter Class A common stock are traded on the NASDAQ Global Select Market under the symbol `CHTR`. Following the completion of the mergers, it is expected that shares of New Charter Class A common stock will be traded on the NASDAQ Global Select Market under the symbol `CHTR` and New Charter will change its name to Charter Communications, Inc.

Each of TWC and Charter will be holding a special meeting for its respective stockholders to vote on certain matters in connection with the proposed mergers and other transactions. TWC stockholders are cordially invited to attend a special meeting of TWC stockholders to be held on September 21, 2015, at the Auditorium at the New York Institute of Technology, located at 1871 Broadway, New York, New York, at 10:00 a.m., local time. TWC is holding its special meeting of stockholders in order to obtain the stockholder approval necessary to complete the mergers. Charter

stockholders are cordially invited to attend a special meeting of Charter stockholders to be held on September 21, 2015, located at 400 Atlantic Street, Stamford, Connecticut, at 10:00 a.m., local time. Charter is holding its special meeting of stockholders in order to obtain the stockholder approvals necessary to complete the mergers, the Liberty transactions and the BHN transactions. The mergers (and in certain circumstances the BHN transactions) cannot be completed unless TWC and Charter stockholders approve the matters that will be presented at each company's special meeting of stockholders.

Your vote is very important, regardless of the number of shares you own. Whether or not you expect to attend the TWC special meeting or the Charter special meeting in person, please vote or otherwise submit a proxy to vote your shares as promptly as possible so that your shares may be represented and voted at the TWC special meeting or the Charter special meeting. If your shares are held in the name of a bank, broker, nominee or other record holder, please follow the instructions on the voting instruction form furnished to you by such record holder. In addition, at the TWC special meeting, TWC stockholders will be asked to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers, and at the Charter special meeting, Charter stockholders will be asked to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the mergers.

The TWC board of directors unanimously recommends that TWC stockholders vote FOR the adoption of the merger agreement and FOR the TWC advisory compensation proposal. The Charter board of directors unanimously recommends that Charter stockholders vote FOR the adoption of the merger agreement, FOR the approval of each of the stock issuances proposals, FOR the approval of the Liberty transactions proposal, FOR the approval of each of the certificate of incorporation proposals and FOR the Charter advisory compensation proposal.

The accompanying joint proxy statement/prospectus provides important information regarding the special meetings and a detailed description of the merger agreement, the mergers, the Liberty transactions, the BHN transactions and the matters to be presented at the special meetings. We urge you to read the accompanying joint proxy statement/prospectus (and any documents incorporated by reference into the accompanying joint proxy statement/prospectus) carefully. Please pay particular attention to the section entitled Risk Factors, beginning on page 95.

We hope to see you at the special meetings and look forward to the successful completion of the mergers and the other transactions.

Sincerely,

Thomas M. Rutledge

President and Chief Executive Officer, Charter Communications, Inc.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities to be issued under the accompanying joint proxy statement/prospectus or determined that the accompanying joint proxy statement/prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

The accompanying joint proxy statement/prospectus is dated August 20, 2015, and is first being mailed to Charter and TWC stockholders on or about August 20, 2015.

Table of Contents**ADDITIONAL INFORMATION**

The accompanying document is the joint proxy statement of TWC and Charter for the special meetings of stockholders of each of TWC and Charter and the prospectus of New Charter for its shares of New Charter Class A common stock to be issued to TWC and Charter stockholders as consideration in the mergers. The accompanying joint proxy statement/prospectus incorporates important business and financial information about Charter and TWC from documents that are not included in or delivered with the accompanying joint proxy statement/prospectus. This information is available to you without charge upon your written or oral request. You can obtain documents incorporated by reference into the accompanying joint proxy statement/prospectus (other than certain exhibits or schedules to these documents) by requesting them in writing or by telephone from Charter or TWC at the following addresses and telephone numbers:

Charter Communications, Inc.	Time Warner Cable Inc.
400 Atlantic Street	60 Columbus Circle
Stamford, Connecticut 06901	New York, New York 10023
Attention: Investor Relations	Attention: Investor Relations
Telephone: (203) 905-7801	Telephone: (877) 446-3689

In addition, if you have questions about the mergers, the other transactions described above or the accompanying joint proxy statement/prospectus, would like additional copies of the accompanying joint proxy statement/prospectus or need to obtain proxy cards or other information related to the proxy solicitation, please contact MacKenzie Partners, Inc., the proxy solicitor for TWC, toll-free at (800) 322-2885 or collect at (212) 929-5500, or Innisfree M&A Incorporated, the proxy solicitor for Charter, toll-free at (888) 750-5834 or collect at (212) 750-5833. You will not be charged for any of these documents that you request.

If you would like to request documents, please do so no later than five business days before the date of Charter's special meeting of stockholders (which meeting is to be held on September 21, 2015) or five business days before the date of TWC's special meeting of stockholders (which meeting is to be held on September 21, 2015), as applicable.

See [Where You Can Find More Information](#), beginning on page 378 of the accompanying joint proxy statement/prospectus for further information.

**NOTICE OF SPECIAL MEETING OF STOCKHOLDERS OF
CHARTER COMMUNICATIONS, INC.
TO BE HELD ON SEPTEMBER 21, 2015**

To the Stockholders of Charter Communications, Inc.:

NOTICE IS HEREBY GIVEN of a special meeting of stockholders of Charter Communications, Inc., a Delaware corporation (Charter), which will be held on September 21, 2015, at 400 Atlantic Street, Stamford, Connecticut, at 10:00 a.m., local time, for the following purposes:

to consider and vote on a proposal to approve the adoption of the Agreement and Plan of Mergers, dated as of May 23, 2015 (as may be amended, the merger agreement), among Charter, Time Warner Cable Inc. (TWC), CCH I, LLC (New Charter), Nina Corporation I, Inc., Nina Company II, LLC (Merger Subsidiary Two) and Nina Company III, LLC (Merger Subsidiary Three), pursuant to which, among other things, (i) TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter and (ii) Charter will be merged with and into Merger Subsidiary Three, with Merger Subsidiary Three continuing as the surviving entity and a wholly owned subsidiary of New Charter (we refer to this proposal as the Charter merger proposal);

to consider and vote on a proposal to approve the issuance of Class A common stock, par value \$0.001 per share, of New Charter in connection with the mergers contemplated by the merger agreement (the TWC transactions) (we refer to this proposal as the TWC transactions stock issuance proposal);

to consider and vote on a proposal to approve the issuance of (i) a newly created Class B common stock, par value \$0.001 per share, of New Charter or Charter, as applicable, and (ii) common units and preferred units of Charter Communications Holdings, LLC (including shares of Class A common stock of New Charter or Charter, as applicable, which may be issued upon conversion or exchange of such common units or preferred units), in each case in connection with the transactions contemplated by the contribution agreement with Advance/Newhouse Partnership (A/N) (we refer to this proposal as the BHN transactions stock issuance proposal and together with the TWC transactions stock issuance proposal, the stock issuances proposals);

to consider and vote on a proposal to approve the stockholders agreement with A/N and Liberty Broadband Corporation (Liberty Broadband) (including the issuance of shares of New Charter or Charter Class A common stock to Liberty Broadband thereunder), the investment agreement with Liberty Broadband (including the issuance of New Charter Class A common stock to Liberty Broadband thereunder), the contribution agreement with Liberty Broadband and Liberty Interactive Corporation (Liberty Interactive) and other transactions contemplated by the merger agreement and the foregoing agreements with Liberty Broadband and Liberty Interactive, as required by Charter 's existing certificate of incorporation (we refer to this proposal as the Liberty transactions proposal);

to consider and vote on a proposal to approve the adoption of the amended and restated certificate of incorporation (which will include the creation of the new Class B common stock of New Charter or Charter, as applicable) that will either be the amended and restated certificate of incorporation of New Charter if the TWC transactions are consummated or the amended and restated certificate of incorporation of Charter if the TWC transactions are not consummated but the transactions with A/N are consummated (we refer to this proposal as the general certificate of incorporation proposal);

to consider and vote on a proposal to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide that the special approval requirements for certain business combination transactions contained in Article Eighth of Charter s existing certificate of incorporation will only be effective upon the termination of the contribution agreement with A/N and will not apply to any transaction agreed or consummated prior to such time (we refer to this proposal as the certificate of incorporation feature proposal 1);

to consider and vote on a proposal to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will set forth the size and composition requirements for the board of directors that are required by the stockholders agreement with Liberty Broadband and A/N (we refer to this proposal as the certificate of incorporation feature proposal 2);

Table of Contents

to consider and vote on a proposal to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will specify standards for decisions by the board of directors that are required by the stockholders agreement with Liberty Broadband and A/N (we refer to this proposal as the certificate of incorporation feature proposal 3);

to consider and vote on a proposal to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide for certain voting restrictions on Liberty Broadband and A/N as required by the stockholders agreement with Liberty Broadband and A/N (we refer to this proposal as the certificate of incorporation feature proposal 4, and together with the general certificate of incorporation proposal and the certificate of incorporation feature proposals 1, 2 and 3, the certificate of incorporation proposals); and

to consider and vote on a proposal to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the transactions (we refer to this proposal as the Charter advisory compensation proposal).

Copies of the merger agreement, contribution agreement with A/N, stockholders agreement with Liberty Broadband and A/N, Liberty investment agreement, Liberty contribution agreement and the proposed amended and restated certificate of incorporation are attached as Annexes A, B, C, D, E and G, respectively, to the joint proxy statement/prospectus accompanying this notice.

Charter will transact no other business at the special meeting, except such business as may properly be brought before the special meeting or any adjournment or postponement thereof and set forth in the notice for such special meeting or any adjournment or postponement thereof in accordance with Charter s bylaws.

The Charter board of directors has fixed the close of business on August 14, 2015 as the record date for the special meeting or any adjournment or postponement of the Charter special meeting. Only Charter stockholders of record as of the record date are entitled to receive notice of, and to vote at, the special meeting or any adjournment or postponement thereof. A complete list of such stockholders will be available for inspection by any Charter stockholder for any purpose germane to the special meeting during ordinary business hours for the 10 days preceding the special meeting at Charter s offices at the address on this notice. The eligible Charter stockholder list will also be available at the special meeting for examination by any stockholder present at such meeting.

The Charter board of directors unanimously recommends that Charter stockholders vote FOR the approval of the Charter merger proposal, FOR the approval of each of the stock issuances proposals, FOR the approval of the Liberty transactions proposal, FOR the approval of each of the certificate of incorporation proposals and FOR the Charter advisory compensation proposal.

Your vote is very important. Whether or not you expect to attend the special meeting in person, to ensure your representation at the special meeting, we urge you to authorize the individuals named on your proxy card to vote your shares as promptly as possible by (1) accessing the Internet site listed on the proxy card, (2) calling the toll-free number listed on the proxy card or (3) submitting your proxy card by mail by using the provided self-addressed, stamped envelope. If you hold your shares in street name, you should instruct your broker how to vote your shares in accordance with your voting instruction form. Charter stockholders may revoke their proxy in the manner described in the accompanying proxy statement/prospectus before it has been voted at the special meeting.

By order of the Board of Directors,

Richard R. Dykhouse

Executive Vice President, General Counsel and Corporate Secretary

**NOTICE OF SPECIAL MEETING OF STOCKHOLDERS OF
TIME WARNER CABLE INC.**

TO BE HELD ON MONDAY, SEPTEMBER 21, 2015

To the Stockholders of Time Warner Cable Inc.:

A special meeting of stockholders of Time Warner Cable Inc., a Delaware corporation (TWC), will be held on Monday, September 21, 2015, at the Auditorium at the New York Institute of Technology, located at 1871 Broadway, New York, New York, at 10:00 a.m., local time, for the following purposes:

to consider and vote on a proposal to approve the adoption of the Agreement and Plan of Mergers, dated as of May 23, 2015 (as may be amended, the merger agreement), among TWC, Charter Communications, Inc., CCH I, LLC (New Charter), Nina Corporation I, Inc. (Merger Subsidiary One), Nina Company II, LLC (Merger Subsidiary Two) and Nina Company III, LLC, pursuant to which, among other things, (i) Merger Subsidiary One will be first merged with and into TWC, with TWC continuing as the surviving corporation, and (ii) immediately thereafter TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter; and

to consider and vote on a proposal to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers.

A copy of the merger agreement is attached as Annex A to the joint proxy statement/prospectus accompanying this notice.

The TWC board of directors has fixed the close of business on July 28, 2015 as the record date for determination of the stockholders entitled to vote at the TWC special meeting or any adjournment or postponement of the TWC special meeting. Only stockholders of record as of the record date are entitled to notice of, and to vote at, the TWC special meeting or any adjournment or postponement of the TWC special meeting. A complete list of stockholders entitled to vote at the TWC special meeting will be available for a period of ten days prior to the TWC special meeting at the offices of TWC, located at 60 Columbus Circle, New York, New York 10023 for inspection by any stockholder, for any purpose germane to the TWC special meeting, during usual business hours. The stockholder list also will be available at the TWC special meeting for examination by any stockholder present at the TWC special meeting. In accordance with TWC 's bylaws, the TWC special meeting may be adjourned by the Chairman of the meeting.

If you would like to attend the TWC special meeting, because of security procedures, you will need to register in advance to gain admission to the TWC special meeting. You can register by calling (866) 892-8925 toll-free or sending an email with your name and address to: ir@twcable.com by September 18, 2015. In addition to registering in advance, you will be required to present government issued identification (*e.g.*, driver 's license or passport) to enter the meeting. The meeting also will be audiocast live on the Internet at www.twc.com/investors. You may not appoint more than three persons to act as your proxy at the meeting.

If you are a beneficial owner of TWC common stock held in street name, meaning that your shares are held by a broker, bank, nominee or other holder of record, as of the record date, in addition to proper identification, you will

also need to provide proof of ownership as of the record date to be admitted to the TWC special meeting. A brokerage statement or letter from a bank or broker are examples of proof of ownership. If you want to vote your shares of TWC common stock held in street name in person at the TWC special meeting, you will have to obtain a legal proxy in your name from the broker, bank, nominee or other holder of record who holds your shares.

The TWC board of directors unanimously recommends that TWC stockholders vote FOR the adoption of the merger agreement and FOR the TWC advisory compensation proposal.

By order of the Board of Directors,

Marc Lawrence-Apfelbaum

Executive Vice President, General Counsel and Secretary

New York, New York

Table of Contents

INDEX OF DEFINED TERMS

In this joint proxy statement/prospectus:

A/N means Advance/Newhouse Partnership, a New York partnership.

Bright House or BHN means Bright House Networks, LLC, a Delaware limited liability company.

BHN contribution agreement means the Contribution Agreement, dated March 31, 2015, by and among Charter, New Charter, A/N, A/NPC Holdings LLC, and Charter Holdings, as amended on May 23, 2015 and as it may be further amended. A copy of the BHN contribution agreement is attached as Annex B to this joint proxy statement/prospectus.

BHN/Liberty stockholders agreement means the Second Amended and Restated Stockholders Agreement, dated as of May 23, 2015, by and among, Liberty Broadband, A/N, New Charter and Charter, as amended from time to time. A copy of the BHN/Liberty stockholders agreement is attached as Annex C to this joint proxy statement/prospectus.

BHN transactions means the transactions contemplated by the BHN contribution agreement.

Charter means Charter Communications, Inc., a Delaware corporation.

Charter Class A common stock means the Class A Common Stock, par value \$0.001 per share, of Charter.

Charter Holdings means Charter Communications Holdings, LLC, a wholly owned subsidiary of Charter.

Code means the Internal Revenue Code of 1986, as amended.

Communications Act means the Communications Act of 1934, as amended, together with the rules and regulations promulgated thereunder.

DGCL means the Delaware General Corporation Law.

DOJ means the United States Department of Justice.

Exchange Act means the Securities Exchange Act of 1934, as amended, together with the rules and regulations promulgated thereunder.

FCC means the Federal Communications Commission.

first merger means the merger of Merger Subsidiary One with and into TWC, with TWC continuing as the surviving corporation. The first merger is also referred to in the merger agreement as the First Company Merger.

HSR Act means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended.

IRS means the U.S. Internal Revenue Service or any successor thereto, including its agents, representatives and attorneys.

Liberty agreements means the Liberty contribution agreement, the Liberty investment agreement and the BHN/Liberty stockholders agreement.

Liberty Broadband means Liberty Broadband Corporation, a Delaware corporation.

Table of Contents

Liberty contribution agreement means the Contribution Agreement, dated as of May 23, 2015, by and among Charter, New Charter, Merger Subsidiary One, Liberty Broadband and Liberty Interactive, as amended from time to time. A copy of the Liberty contribution agreement is attached as Annex E to this joint proxy statement/prospectus.

Liberty Interactive means Liberty Interactive Corporation, a Delaware corporation.

Liberty investment agreement means the Investment Agreement, dated as of May 23, 2015, by and among Charter, New Charter and Liberty Broadband, as amended from time to time. A copy of the Liberty investment agreement is attached as Annex D to this joint proxy statement/prospectus.

Liberty transactions means the agreements and transactions contemplated by the Liberty agreements, including (i) the issuance of shares of New Charter or Charter Class A common stock to Liberty Broadband pursuant to the Liberty investment agreement and/or the BHN/Liberty stockholders agreement, and (ii) the contribution by Liberty Broadband and Liberty Interactive of their respective shares of TWC common stock to Merger Subsidiary One pursuant to the Liberty contribution agreement and the receipt as part of the mergers of shares of New Charter Class A common stock, as described under Other Agreements BHN/Liberty Stockholders Agreement, Other Agreements Liberty Investment Agreement and Other Agreements Contribution Agreement.

merger agreement means the Agreement and Plan of Mergers, dated as of May 23, 2015, by and among Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two, Merger Subsidiary Three and TWC, as amended from time to time. A copy of the merger agreement is attached as Annex A to this joint proxy statement/prospectus.

Merger Subsidiary One means Nina Corporation I, Inc., a Delaware corporation.

Merger Subsidiary Two means Nina Company II, LLC, a Delaware limited liability company and wholly owned subsidiary of New Charter.

Merger Subsidiary Three means Nina Company III, LLC, a Delaware limited liability company and wholly owned subsidiary of Merger Subsidiary Two.

mergers means the first merger, the second merger and the third merger.

New Charter means CCH I, LLC, a Delaware limited liability company and wholly owned subsidiary of Charter, which will be converted into a Delaware corporation in accordance with Section 265 of the DGCL and renamed Charter Communications, Inc. immediately prior to the consummation of the mergers. After giving effect to the mergers, New Charter will be the new public company that will hold the operations of the combined companies (TWC and Charter and, if the BHN transactions are consummated, Bright House).

New Charter Class A common stock means the Class A common stock, par value \$0.001 per share, of New Charter.

Option A Base Exchange Ratio means 0.5409.

Option B Base Exchange Ratio means 0.4562.

Option A Effective Exchange Ratio means the product of the Option A Base Exchange Ratio (0.5409) multiplied by the Parent Merger Exchange Ratio (0.9042).

Option B Effective Exchange Ratio means the product of the Option B Base Exchange Ratio (0.4562) multiplied by the Parent Merger Exchange Ratio (0.9042).

Table of Contents

Option A Election means the option to receive \$100 in cash and shares of New Charter based on the Option A Effective Exchange Ratio.

Option B Election means the option to receive \$115 in cash and shares of New Charter based on the Option B Effective Exchange Ratio.

Parent Merger Exchange Ratio means 0.9042.

SEC means the U.S. Securities and Exchange Commission.

second merger means the merger of TWC with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity. The second merger is also referred to in the merger agreement as the Second Company Merger.

Securities Act means the Securities Act of 1933, as amended, together with the rules and regulations promulgated thereunder.

third merger means the merger of Charter with and into Merger Subsidiary Three, with Merger Subsidiary Three continuing as the surviving entity. The third merger is also referred to in the merger agreement as the Parent Merger.

TWC means Time Warner Cable Inc., a Delaware corporation.

TWC transactions means the mergers, the other transactions contemplated by the merger agreement and the transactions contemplated by the Liberty investment agreement and the Liberty contribution agreement.

voting agreement means the Voting Agreement, dated as of May 23, 2015, by and between TWC and Liberty Broadband, as amended from time to time. A copy of the voting agreement is attached as Annex F to this joint proxy statement/prospectus.

Table of Contents

QUESTIONS AND ANSWERS ABOUT THE MERGERS, THE LIBERTY TRANSACTIONS, THE BHN TRANSACTIONS AND THE MATTERS TO BE ADDRESSED AT THE SPECIAL MEETINGS

*The following questions and answers are intended to address briefly some commonly asked questions regarding the mergers, the Liberty transactions, the BHN transactions and the matters to be addressed at the special meetings. These questions and answers may not address all questions that may be important to TWC or Charter stockholders. To better understand these matters, and for a description of the legal terms governing the mergers, the Liberty transactions and the BHN transactions you should carefully read this entire joint proxy statement/prospectus, including the attached annexes, as well as the documents that have been incorporated by reference into this joint proxy statement/prospectus. See *Where You Can Find More Information* in this joint proxy statement/prospectus.*

Q: Why am I receiving this document?

A: Charter and TWC have agreed to a series of mergers, pursuant to which both Charter and TWC will become wholly owned subsidiaries of New Charter, which is currently a wholly owned subsidiary of Charter. In the first merger, Merger Subsidiary One will merge with and into TWC, with TWC being the surviving corporation. Immediately following the completion of the first merger, in the second merger, TWC will merge with and into Merger Subsidiary Two, with Merger Subsidiary Two being the surviving entity. Immediately following the completion of the second merger, in the third merger, Charter will merge with and into Merger Subsidiary Three, with Merger Subsidiary Three being the surviving entity. The three mergers described in this joint proxy statement/prospectus are intended to facilitate the combination of Charter and TWC, as well as the completion of the BHN transactions. Following the mergers, Charter and TWC will no longer be publicly held corporations and New Charter will be the only publicly held corporation. The three mergers are illustrated in simplified form (ignoring for clarity, among other things, intervening subsidiaries, the ownership of TWC stockholders in New Charter following the second merger, other subsidiaries not involved in the mergers, and potential post-closing internal reorganizations) in the diagrams below.

First Merger

Second Merger

Table of Contents

Third Merger

Immediately Following Mergers

In addition, following the completion of the mergers, Charter expects to complete the BHN transactions, pursuant to which A/N will contribute the membership interests in BHN and any other assets (other than certain excluded assets) primarily related to BHN's business to Charter Holdings in exchange for cash, common and preferred units of Charter Holdings (which are exchangeable or convertible in certain circumstances for New Charter Class A common stock) and one share of a new class of New Charter common stock (Class B common stock) with voting rights generally intended to reflect A/N's economic interests in New Charter and Charter Holdings. The mergers are not conditioned upon completion of the BHN transactions (including the stock issuance to A/N). The mergers and the BHN transactions are subject to separate conditions, and the mergers may be completed whether or not the BHN transactions are ultimately consummated. The consummation of the BHN transactions is conditioned on the completion of the mergers. However, if the mergers are not completed, Charter and A/N may still be obligated to complete the BHN transactions, as described under "The BHN Contribution Agreement" if the tail condition (which is described in greater detail under "The BHN Contribution Agreement - Conditions to the Completion of the Contribution") is satisfied. **There can be no assurance that the BHN transactions will be completed if the mergers are not completed.**

In order to satisfy the conditions to the completion of the mergers, Charter and TWC stockholders must vote to approve the adoption of the merger agreement and Charter stockholders must vote to approve the stock issuances in connection with the transactions contemplated by the merger agreement, the Liberty investment agreement and the BHN/Liberty stockholders agreement, the Liberty transactions and the amended and restated certificate of incorporation, as described in this joint proxy statement/prospectus.

In order to satisfy the conditions to the completion of the BHN transactions, Charter stockholders must vote to approve the stock issuances in connection with the transactions contemplated by the BHN/Liberty stockholders agreement and the BHN contribution agreement, certain Liberty transactions (including the provisions of the BHN/Liberty stockholders agreement) and the amended and restated certificate of incorporation, as described in this joint proxy statement/prospectus.

TWC is holding a special meeting of stockholders, which is referred to in this joint proxy statement/prospectus as the TWC special meeting, in order to obtain the stockholder approval necessary to complete the mergers. TWC stockholders will also be asked to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers.

Charter is holding a special meeting of stockholders, which is referred to in this joint proxy statement/prospectus as the Charter special meeting, in order to obtain the stockholder approval necessary to complete

Table of Contents

the mergers, the Liberty transactions and the BHN transactions. In addition, Charter stockholders will also be asked to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the mergers.

This document is being delivered to you as both a joint proxy statement of TWC and Charter and a prospectus of New Charter in connection with the mergers, the BHN transactions and the Liberty transactions. It is the proxy statement by which the TWC board of directors is soliciting proxies from TWC stockholders to vote at the TWC special meeting, or at any adjournment or postponement of the TWC special meeting, on the matters described in this joint proxy statement/prospectus. It is also the proxy statement by which the Charter board of directors is soliciting proxies from Charter stockholders to vote at the Charter special meeting, or at any adjournment or postponement of the Charter special meeting, on the matters described in this joint proxy statement/prospectus, including in connection with the mergers, the Liberty transactions and the BHN transactions. In addition, this document is the prospectus by which New Charter will issue shares of New Charter Class A common stock to TWC and Charter stockholders in the mergers.

Your vote is important. We encourage you to vote as soon as possible.

Q: What will TWC stockholders receive in the mergers?

A: If the first merger and the second merger are completed, after giving effect to the first and second mergers and application of the Option A Base Exchange Ratio or the Option B Base Exchange Ratio described in this joint proxy statement/prospectus, each share of TWC common stock outstanding immediately prior to the completion of the first merger (other than certain shares, as described below) will effectively be converted into the right to receive either (at the election of the holder thereof):

\$100 in cash and shares of New Charter Class A common stock equivalent to 0.5409 shares of Charter Class A common stock (the Option A Election); or

\$115 in cash and shares of New Charter Class A common stock equivalent to 0.4562 shares of Charter Class A common stock (the Option B Election).

However, the actual number of shares of New Charter Class A common stock that TWC stockholders (except as described below) will be entitled to receive will be calculated by multiplying the exchange ratios of 0.5409 (which is the Option A Base Exchange Ratio) or 0.4562 (which is the Option B Base Exchange Ratio) specified above by 0.9042 (which is the Parent Merger Exchange Ratio), which will also be the exchange ratio that will be used to determine the number of shares of New Charter Class A common stock that Charter stockholders will be entitled to receive per share of Charter Class A common stock in the third merger as described below. Therefore, the application of the Parent Merger Exchange Ratio to the stock portion of the merger consideration to be received by the TWC stockholders will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by TWC stockholders upon completion of the mergers. The foregoing calculations and mechanics are described in greater detail under The Merger Agreement Merger Consideration. In addition, TWC stockholders (except as described below) will receive cash in lieu of any fractional share of TWC common stock as a result of the mergers, as described under The Merger Agreement Fractional Shares. Shares of TWC common stock held by TWC as treasury stock, held by direct or indirect wholly owned subsidiaries of TWC or Charter (other than Merger Subsidiary One) or

held by Liberty Broadband or Liberty Interactive will not receive the foregoing merger consideration. Liberty Broadband and Liberty Interactive will only receive shares of New Charter Class A common stock as a result of the three mergers, subject to the terms of the Liberty contribution agreement as described in more detail under Other Agreements Liberty Contribution Agreement.

Based on the closing price of a share of Charter Class A common stock on NASDAQ on May 20, 2015, the trading day on which Charter's offer to merge with TWC was based, the merger consideration payable to TWC stockholders represented approximately \$195.71 in value for each share of TWC common stock, or

Table of Contents

approximately \$200 in value for each share of TWC common stock based on the 60-trading day volume weighted average price of Charter Class A common stock ending on such date. Based on the closing price of a share of Charter Class A common stock on NASDAQ on August 18, 2015, the most recent practicable trading day prior to the date of this joint proxy statement/prospectus, the merger consideration payable to TWC stockholders represented approximately \$202.13 in value for each share of TWC common stock in the case of the Option A Election or approximately \$201.14 in value for each share of TWC common stock in the case of the Option B Election. **Because New Charter will issue a fixed number of shares of New Charter Class A common stock in exchange for each share of TWC common stock, the total value of the merger consideration that TWC stockholders will receive in the mergers will depend on the market price of shares of New Charter Class A common stock at the time the mergers are completed. The market price of shares of New Charter Class A common stock when TWC stockholders receive those shares after the mergers are completed could be greater than, less than or the same as the market price of equivalent shares of Charter Class A common stock on the date of this joint proxy statement/prospectus or at the time of the TWC special meeting.**

Q: How do TWC stockholders elect between the two merger consideration options?

A: A form of election, which will be mailed to each holder of record of TWC common stock as of the close of business on the election form record date (as defined below), as well as to stockholders who purchase shares of TWC common stock subsequent to such date and prior to the election deadline (as defined below), if any, will allow record holders of TWC common stock to elect between the two merger consideration options in respect of each share of TWC common stock that they hold.

The election deadline will be 5:00 p.m., local time (in the city in which the exchange agent is located) on the date that Charter and TWC agree is 5 business days prior to the expected closing date. Charter and TWC will publicly announce the anticipated election deadline not more than 20 business days before, and at least 5 business days prior to, the election deadline.

TWC will mail a form of election not less than 20 business days prior to the anticipated election deadline. The election form record date will be the 10th business day prior to the mailing record date.

Q: What do TWC stockholders receive if they do not elect between the two merger consideration options?

A: If a TWC stockholder does not make or submit an election to receive one of the two merger consideration options, such TWC stockholder will only be entitled to receive the merger consideration pursuant to the Option A Election.

Q: What will happen to the shares of TWC common stock held in the TWC Savings Plan?

A: The trust relating to the TWC Savings Plan (the TWC Savings Plan) holds shares of TWC common stock (the Stock Fund). As of the date of this document, such shares are expected to convert into a mix of cash and New Charter Class A common stock as elected in connection with the mergers. The administrator of the TWC Savings

Plan will provide TWC Savings Plan participants invested in the Stock Fund all required information regarding the method and effect of the conversion and election related to the mergers.

Q: What will Charter stockholders receive in the mergers?

A: If the mergers are completed, each share of Charter Class A common stock outstanding immediately prior to the completion of the third merger will be converted into the right to receive 0.9042 shares of New Charter Class A common stock. In addition, Charter stockholders will receive cash in lieu of any fractional shares of New Charter Class A common stock as a result of the mergers, as described under Merger Agreement Fractional Shares. In connection with the mergers, Charter will be reorganized to make New Charter the new holding company of the combined companies. Outstanding Charter shares will be converted into New Charter shares without changing the proportionate interests of each individual Charter stockholder as

Table of Contents

compared to Charter stockholders as a whole. However, the absolute number of shares held by each such stockholder will be reduced to result in the effective exchange ratios agreed with TWC (e.g., so that the 0.4891 shares of New Charter Class A common stock received for each share of TWC common stock by a TWC stockholder who made the Option A Election will equate to 0.5409 shares of Charter's existing Class A common stock). Accordingly, if the mergers are completed, each share of Charter Class A common stock outstanding immediately prior to the completion of the third merger will be converted into the right to receive 0.9042 shares of New Charter Class A common stock. Because the exchange ratio of 0.9042 will be used to determine the number of shares of New Charter Class A common stock that both TWC stockholders and Charter stockholders will be entitled to receive in the mergers, the application of that exchange ratio will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by TWC stockholders or Charter stockholders upon completion of the mergers. The three mergers described in this joint proxy statement/prospectus, including the merger of Charter and Merger Subsidiary Three, are intended to facilitate the combination of TWC and Charter, as well as the completion of the BHN transactions. The Parent Merger Exchange Ratio will also be applied to the stock portion of the merger consideration to be received by the TWC stockholders and, therefore the exchange of shares of Charter for New Charter as described above will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by stockholders of Charter upon completion of the mergers.

Q: As a current employee and holder of options issued by TWC to purchase shares of TWC common stock, or a holder of TWC restricted stock units, what will I receive in the mergers?

A: Upon the completion of the second merger, each outstanding option to purchase shares of TWC common stock awarded by TWC, whether or not exercisable or vested (but excluding any options held by a former employee of TWC, as described in the immediately succeeding answer), will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of TWC common stock subject to such option immediately prior to the completion of the first merger multiplied by (y) the Stock Award Exchange Ratio (as defined below), with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock for such option will be equal to the quotient of (i) the exercise price per share of such option immediately prior to the completion of the first merger divided by (ii) the Stock Award Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as were applicable to the corresponding TWC options immediately prior to the completion of the first merger. The Stock Award Exchange Ratio is determined based on the value a stockholder of TWC who made the Option A Election would receive upon the completion of the mergers. Accordingly, in the merger agreement, Stock Award Exchange Ratio is defined generally as the sum of (i) the product of (A) the Option A Base Exchange Ratio multiplied by (B) the Parent Merger Exchange Ratio and (ii) the product of (A) the quotient of (I) \$100 divided by (II) the volume weighted average per-share price of Charter Class A common stock during the ten full trading days ending on (and including) the trading day preceding the closing date, multiplied by (B) the Parent Merger Exchange Ratio.

Upon the completion of the second merger, each outstanding TWC employee restricted stock unit award (but excluding any such units held by a current or former non-employee director or a former employee of TWC, as described in the immediately succeeding answer), will be converted into the right to acquire the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of TWC common stock underlying such award immediately prior to the completion of the first merger multiplied by (y) the Stock Award Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the

corresponding award immediately prior to the completion of the first merger.

See The Merger Agreement Treatment of TWC Equity Awards.

Table of Contents

Q: As a former employee and holder of options issued by TWC to purchase shares of TWC common stock or TWC restricted stock units, or as a non-employee director and holder of TWC deferred stock units, what will I receive in the mergers?

A: Upon the completion of the second merger, each outstanding option to purchase shares of TWC common stock awarded by TWC held by a former employee of TWC, whether or not exercisable or vested, will be cancelled, and TWC will pay such former employee an amount in cash computed by first determining the number of shares of New Charter Class A common stock to which such former employee would be entitled as if his or her stock options were converted in accordance with the preceding answer, and then multiplying such number by the excess of (i) the quotient of (A) the closing price of a share of Charter Class A common stock on the trading day immediately preceding the first merger, divided by (B) the Parent Merger Exchange Ratio (such quotient, the Charter Adjusted Closing Price) over (ii) the exercise price per share of such option (determined in accordance with the preceding answer). All options held by a former employee of TWC that have a converted per share exercise price equal to or exceeding the Charter Adjusted Closing Price will be immediately cancelled without any right to consideration. All cash payments will be reduced by applicable withholding taxes.

Upon completion of the second merger, each TWC restricted stock unit award (which includes deferred stock units held by non-employee directors) held by (x) a current or former non-employee director or (y) a former employee of TWC will be cancelled, and TWC will pay such holder an amount in cash computed by first determining the number of shares of New Charter Class A common stock to which such person would be entitled if his or her stock units were converted in accordance with the preceding answer, and then multiplying such number by the Charter Adjusted Closing Price. All cash payments will be reduced by applicable withholding taxes.

If any restricted stock unit held by a former employee is subject to 409A of the Code and such former employee is also a specified individual within the meaning of Section 409A of the Code, then no cash payment will be made in respect of such award and instead such award will be converted as set forth above.

See The Merger Agreement Treatment of TWC Equity Awards.

Q: As a holder of options issued by Charter to purchase shares of Charter Class A common stock, or a holder of Charter restricted stock awards or restricted stock units, what will I receive in the mergers?

A: Upon completion of the third merger, each outstanding option, whether or not exercisable or vested, to purchase shares of Charter Class A common stock will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock subject to such option immediately prior to the completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock will be equal to the quotient of (i) the exercise price of such option immediately prior to the completion of the third merger divided by (ii) the Parent Merger Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as applied to the corresponding options immediately prior to completion of the third merger.

Upon completion of the third merger, each outstanding Charter restricted stock award will be converted into an award with respect to the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such award immediately prior to completion of the third merger

multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock awards will be subject to the same terms and conditions as applied to the corresponding awards immediately prior to completion of the third merger.

Upon completion of the third merger, each outstanding Charter restricted stock unit, whether or not vested, will be converted into the right to acquire the number of shares of New Charter Class A common stock

Table of Contents

equal to the product of (x) the number of shares of Charter Class A common stock underlying such unit immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the corresponding units immediately prior to completion of the third merger.

Q: What happens if the mergers are not completed?

A: If the mergers are not completed for any reason, TWC stockholders will not receive any consideration for their shares of TWC common stock. Instead, TWC will remain an independent public company and its common stock will continue to be listed and traded on the New York Stock Exchange.

The consummation of the BHN transactions is conditioned on the completion of the mergers. However, if the mergers are not completed, Charter and A/N may still be obligated to complete the BHN transactions in certain circumstances, as described under *The BHN Contribution Agreement* if the tail condition (which is described in greater detail under

The BHN Contribution Agreement Conditions to the Completion of the Contribution) is satisfied. Generally, the consummation of the BHN transactions is conditioned on the consummation in all material respects of the transactions contemplated by the merger agreement in accordance with the terms of the merger agreement (unless otherwise waived by the applicable parties). However, Charter and BHN did provide in the BHN contribution agreement for consummating the BHN transactions, despite the failure to consummate the mergers, in certain circumstances if TWC enters into an alternative transaction (which must have been proposed to TWC prior to the termination of the merger agreement) within 12 months following a specified termination of the merger agreement (which is described in greater detail under *The BHN Contribution Agreement Conditions to the Completion of the Contribution*). Accordingly, if the mergers are not consummated and TWC does not enter into such alternative transaction within the specified period, unless such condition is otherwise waived, BHN will continue as a joint venture of TWC and A/N, but if TWC does enter into such alternative transaction within the specified period, BHN would be acquired by Charter, in each case on the terms and subject to the conditions of the BHN Contribution Agreement. This exception is referred to as the tail condition. Additionally, TWC has waived its right of first offer under the Third Amended and Restated Partnership Agreement of Time Warner Entertainment-Advance/Newhouse Partnership, dated as of December 31, 2002, between affiliates of TWC and Advance/Newhouse Partnership with respect to the acquisition by New Charter of BHN, irrespective of any termination of the merger agreement; however, the waiver will not apply if the merger agreement is terminated so long as TWC or any of its affiliates has not entered into an agreement or understanding providing for, or consummated, a TWC acquisition proposal (as defined in *The Merger Agreement --No Solicitation by TWC*, except that references in that definition to 25% will be deemed to be references to 50%) within 9 months following the termination of the merger agreement. See *The Merger Agreement-Bright House Right of First Offer* for more information. **There can be no assurance that the BHN transactions will be completed if the mergers are not completed.**

Q: What are TWC stockholders being asked to vote on?

A: TWC stockholders are being asked to vote on the following proposals:

to approve the adoption of the merger agreement, pursuant to which, among other things, (i) Merger Subsidiary One will be first merged with and into TWC, with TWC continuing as the surviving corporation, and (ii) immediately thereafter TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter (we refer to this proposal as the TWC mergers proposal); and

to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers (we refer to this proposal as the TWC advisory compensation proposal).

Table of Contents

The approval of the adoption of the merger agreement by TWC stockholders is a condition to the obligations of TWC, Charter and New Charter to complete the mergers. The approval of the TWC advisory compensation proposal is not a condition to the obligations of TWC, Charter or New Charter to complete the mergers.

Q: Does the TWC board of directors recommend that TWC stockholders adopt the merger agreement?

A: Yes. The TWC board of directors unanimously determined that the merger agreement, the first merger, the second merger and the other transactions contemplated by the merger agreement are fair to and in the best interests of TWC's stockholders and unanimously approved and declared advisable the merger agreement, the first merger, the second merger and the other transactions contemplated by the merger agreement. **The TWC board of directors unanimously recommends that TWC stockholders vote FOR the approval of the adoption of the merger agreement at the TWC special meeting.** See The Transactions TWC's Reasons for the Mergers; Recommendation of the TWC Board of Directors.

Q: What is the specified compensation and why are TWC stockholders being asked to vote on it?

A: The SEC has adopted rules that require TWC to seek an advisory (non-binding) vote on certain specified compensation that is tied to or based on the mergers and that will or may be paid by TWC to its named executive officers in connection with the mergers. See Interests of TWC's Directors and Executive Officers in the Transactions Quantification of Potential Payments to TWC Named Executive Officers in Connection with the Mergers and TWC Proposals TWC Proposal II: TWC Advisory Compensation Proposal.

Q: Does the TWC board of directors recommend that TWC stockholders approve the TWC advisory compensation proposal?

A: Yes. **The TWC board of directors unanimously recommends that TWC stockholders vote FOR the TWC advisory compensation proposal.** See TWC Proposal II: Advisory Vote On Certain Specified Compensation.

Q: What happens if the TWC advisory compensation proposal is not approved?

A: Approval of the TWC advisory compensation proposal is not a condition to completion of the mergers. The vote is an advisory (non-binding) vote. If the mergers are completed, TWC may pay the specified compensation to its named executive officers in connection with the mergers even if TWC stockholders fail to approve the TWC advisory compensation proposal.

Q: What TWC stockholder vote is required for the approval of each proposal at the TWC special meeting, and what happens if I abstain?

A: The following are the vote requirements for the proposals of TWC:

TWC Mergers Proposal: The affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote is required to adopt the merger agreement at the TWC special meeting at which a quorum is present. Accordingly, a TWC stockholder's abstention from voting, the failure of a TWC stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a TWC stockholder's other failure to vote will have the same effect as a vote AGAINST the TWC mergers proposal.

TWC Advisory Compensation Proposal: The affirmative vote of a majority of the votes cast at the TWC special meeting at which a quorum is present by holders of shares of TWC common stock is

Table of Contents

required to approve, on an advisory (non-binding) basis, the TWC advisory compensation proposal. An abstention is not considered a vote cast. Accordingly, assuming a quorum is present, a TWC stockholder's abstention from voting, the failure of a TWC stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a TWC stockholder's other failure to vote will have no effect on the TWC advisory compensation proposal.

Q: What constitutes a quorum for the TWC special meeting?

A: A majority of the votes entitled to be cast for each proposal being present in person or represented by proxy constitutes a quorum for such proposal at the TWC special meeting. Abstentions will be deemed present for the purpose of determining the presence of a quorum. Shares of TWC common stock held in street name with respect to which the beneficial owner fails to give voting instructions to the broker, bank, nominee or other holder of record will not be deemed present at the TWC special meeting for the purpose of determining the presence of a quorum.

Q: Who is entitled to vote at the TWC special meeting, and how many votes does each holder of TWC common stock have?

A: All holders of TWC common stock who held shares as of the record date for the TWC special meeting (the close of business on July 28, 2015) are entitled to receive notice of, and to vote at, the TWC special meeting, provided that those shares remain outstanding on the date of the TWC special meeting. As of the close of business on July 28, 2015, there were 282,974,273 shares of TWC common stock outstanding. Each holder of TWC common stock is entitled to one vote for each share of TWC common stock owned as of the record date.

Q: When and where is the TWC special meeting?

A: The TWC special meeting will be held on September 21, 2015, at the Auditorium at the New York Institute of Technology, located at 1871 Broadway, New York, New York, at 10:00 a.m., local time.

Q: How do I vote my shares at the TWC special meeting?

A: *Via the Internet or by Telephone*

If you hold TWC shares directly in your name as a stockholder of record (that is, if your shares of TWC common stock are registered in your name with Computershare Shareowner Services, TWC's transfer agent), you may vote via the Internet at www.proxyvote.com or by telephone by calling the toll-free number on the back of your proxy card. Votes submitted via the Internet or by telephone must be received by 11:59 p.m. (Eastern Time) on September 20, 2015.

If you hold TWC shares in street name, meaning through a broker, bank, nominee or other holder of record, you may vote via the Internet or by telephone only if Internet or telephone voting is made available by your broker, bank, nominee or other holder of record. Please follow the voting instructions provided by your broker, bank, nominee or other holder of record with these materials.

By Mail

If you hold TWC shares directly in your name as a stockholder of record (that is, if your shares of TWC common stock are registered in your name with Computershare Shareowner Services, TWC's transfer agent), you will need to sign, date and mark your proxy card and return it using the postage-paid return envelope provided or return it to Vote Processing, c/o Broadridge Financial Solutions, Inc., 51 Mercedes Way, Edgewood, New York 11717. Broadridge Financial Solutions, Inc. must receive your proxy card no later than the close of business on September 20, 2015.

Table of Contents

If you hold TWC shares in street name, meaning through a broker, bank, nominee or other holder of record, to vote by mail, you will need to sign, date and mark the voting instruction form provided by your broker, bank, nominee or other holder of record with these materials and return it in the postage-paid return envelope provided. Your broker, bank, nominee or other holder of record must receive your voting instruction form in sufficient time to vote your shares.

In Person

If you hold TWC shares directly in your name as a stockholder of record (that is, if your shares of TWC common stock are registered in your name with Computershare Shareowner Services, TWC's transfer agent), you may vote in person at the TWC special meeting. If you attend the TWC special meeting, you may also submit your vote in person, in which case any votes that you previously submitted whether via the Internet, by telephone or by mail will be superseded by the vote that you cast at the TWC special meeting. Stockholders of record also may be represented by another person at the TWC special meeting by executing a proper proxy designating that person and having that proper proxy be presented to the inspector of election with the applicable ballot at the TWC special meeting.

If you hold TWC shares in street name, meaning through a broker, bank, nominee or other holder of record, you must obtain a legal proxy from that institution and present it to the inspector of elections with your ballot to be able to vote in person at the TWC special meeting. To request a legal proxy, please contact your broker, bank, nominee or other holder of record.

Shares Held in TWC's 401(k) Plan

Under the provisions of the trust relating to the TWC Savings Plan, Fidelity Management Trust Company, as trustee, is required to request your confidential instructions as to how your proportionate interests in the shares of TWC common stock held in the Stock Fund under the TWC Savings Plan is to be voted at the TWC special meeting. Your instructions to Fidelity Management Trust Company will not be divulged or revealed to anyone at TWC. If Fidelity Management Trust Company does not receive your instructions on or prior to 5:00 p.m. (Eastern Time) via a voting instruction card or 11:59 p.m. (Eastern Time) via the Internet or by telephone on September 17, 2015, your interest will be voted at the TWC special meeting in the same proportion as other participants' interests in the TWC Savings Plan for which Fidelity Management Trust Company has received voting instructions.

General

Please carefully consider the information contained in this joint proxy statement/prospectus and, whether or not you plan to attend the TWC special meeting, vote via the Internet, by telephone or by mail so that your shares will be voted in accordance with your wishes even if you later decide not to attend the TWC special meeting.

We encourage you to register your vote via the Internet or by telephone or by mail. Whether your proxy is submitted via the Internet, by telephone or by mail, if it is properly completed and submitted, and if you do not revoke it prior to or at the TWC special meeting, your shares will be voted at the TWC special meeting in the manner set forth in this joint proxy statement/prospectus or as otherwise specified by you. Again, you may vote via the Internet or by telephone until 11:59 p.m. (Eastern Time) on September 20, 2015, or TWC's agent must receive your paper proxy card by mail no later than the close of business on September 20, 2015.

Q: If my shares of TWC common stock are held in street name, will my broker, bank, nominee or other holder of record automatically vote my shares for me?

A: No. If your shares of TWC common stock are held in street name, you must instruct the broker, bank, nominee or other holder of record on how to vote your shares. Your broker, bank, nominee or other holder

Table of Contents

of record will vote your shares only if you provide instructions on how to vote by filling out the voting instruction form sent to you by your broker, bank, nominee or other holder of record with this joint proxy statement/prospectus.

Q: How will my shares be represented at the TWC special meeting, and what will happen if I return my proxy card without indicating how to vote?

A: If you submit your proxy via the Internet, by telephone or by mail, the officers named on your proxy card will vote your shares in the manner you requested if you correctly submitted your proxy. If you sign your proxy card and return it without indicating how to vote on any particular proposal, the shares of TWC common stock represented by your proxy will be voted in favor of that proposal.

Q: Who may attend the TWC special meeting?

A: TWC stockholders as of the record date (the close of business on July 28, 2015), or their authorized representatives, may attend the TWC special meeting. If you would like to attend the meeting, because of security procedures, you will need to register in advance to gain admission to the TWC special meeting. You can register by calling (866) 892-8925 toll-free or sending an email with your name and address to: ir@twcable.com by September 18, 2015. In addition to registering in advance, you will be required to present government issued identification (e.g., driver's license or passport) to enter the meeting. The meeting also will be audiocast live on the Internet at www.twc.com/investors. You may not appoint more than three persons to act as your proxy at the meeting.

If you are a beneficial owner of shares of TWC common stock held in street name by a broker, bank, nominee or other holder of record as of the record date (the close of business on July 28, 2015), in addition to proper identification, you will also need proof of ownership as of the record date to be admitted to the TWC special meeting. A brokerage statement or letter from a bank or broker are examples of proof of ownership. If you want to vote your shares of TWC common stock held in street name in person at the TWC special meeting, you will have to obtain a legal proxy in your name from the broker, bank, nominee or other holder of record who holds your shares.

TWC stockholders may contact TWC's Investor Relations Department toll-free at (877) 446-3689 to obtain directions to the location of the TWC special meeting.

Q: What will happen if TWC stockholders abstain from voting, fail to vote or do not direct how to vote on their proxy?

A: Your vote is very important. The mergers cannot be completed unless TWC stockholders adopt the merger agreement.

For TWC stockholders, an abstention or failure to vote will have the same effect as a vote AGAINST the approval of the adoption of the merger agreement. In addition, if a TWC stockholder holds shares of TWC common stock in street name through a broker, bank, nominee or other holder of record and the stockholder does not give voting instructions to that broker, bank, nominee or other holder of record, that broker, bank, nominee or other holder of record will not

be able to vote the shares on the approval of the adoption of the merger agreement, and such failure to give those instructions will have the same effect as a vote AGAINST the approval of the adoption of the merger agreement.

The TWC board of directors unanimously recommends that TWC stockholders vote FOR the approval of the adoption of the merger agreement.

Table of Contents

Q: Can I revoke my proxy or change my voting instructions with respect to the TWC special meeting?

A: Yes. You may revoke your proxy or change your vote at any time before your proxy is voted at the TWC special meeting. If you are a stockholder of record as of the record date (the close of business on July 28, 2015), you can revoke your proxy or change your vote by:

sending a signed notice stating that you revoke your proxy to the General Counsel of TWC, at TWC's offices at 60 Columbus Circle, New York, New York 10023, Attention: General Counsel, that bears a date later than the date of the proxy you want to revoke and is received prior to the TWC special meeting;

submitting a valid, later-dated proxy by mail that is received prior to the TWC special meeting, or via the Internet or by telephone before 11:59 p.m. (Eastern Time) on September 20, 2015, if you are a TWC stockholder; or

attending the TWC special meeting (or, if the TWC special meeting is adjourned or postponed, attending the adjourned or postponed meeting) and voting in person, which will automatically cancel any proxy previously given, or revoking your proxy in person, but your attendance alone will not revoke any proxy previously given.

If you hold your shares in street name through a broker, bank, nominee or other holder of record, you must contact your brokerage firm, bank, nominee or other holder of record to change your vote or obtain a legal proxy to vote your shares if you wish to cast your vote in person at the TWC special meeting.

Q: What happens if I sell my TWC shares after the record date but before the TWC special meeting?

A: The record date for the TWC special meeting (the close of business on July 28, 2015) is earlier than the date of the TWC special meeting and earlier than the date that the mergers are expected to be completed. If you sell or otherwise transfer your shares of TWC common stock after the record date but before the date of the TWC special meeting, you will retain your right to vote at the TWC special meeting. However, you will not have the right to receive the applicable merger consideration to be received by TWC stockholders in the mergers. In order to receive the applicable merger consideration, you must hold your shares through completion of the mergers.

Q: What do I do if I receive more than one set of voting materials?

A: You may receive more than one set of voting materials, including multiple copies of this joint proxy statement/prospectus, the proxy card or the voting instruction form. This can occur if you hold your shares in more than one brokerage account, if you hold shares directly as a record holder and also in street name, or otherwise through another holder of record, and in certain other circumstances. In addition, if you are a holder of shares of both TWC common stock and Charter Class A common stock, you will receive one or more separate proxy cards or voting instruction cards for each company. If you receive more than one set of voting materials,

please vote or return each proxy or voting instruction separately in order to ensure that all of your shares are voted.

Q: What if I hold shares in both TWC and Charter?

A: If you are both a TWC stockholder and a Charter stockholder, you will receive separate packages of proxy materials from each company. A vote as a TWC stockholder for any of the proposals of TWC will not constitute a vote as a Charter stockholder to approve any of the proposals of Charter, or vice versa. Therefore, please sign, date, mark and return all proxy cards and/or voting instructions that you receive from TWC or Charter, or submit them over the Internet or by telephone.

Table of Contents

Q: What are Charter stockholders being asked to vote on?

A: Charter stockholders are being asked to vote on the following proposals:

to approve the adoption of the merger agreement pursuant to which, among other things, (i) TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter and (ii) Charter will be merged with and into Merger Subsidiary Three, with Merger Subsidiary Three continuing as the surviving entity and a wholly owned subsidiary of New Charter (we refer to this proposal as the Charter merger proposal);

to approve the issuance of Class A common stock, par value \$0.001 per share, of New Charter in connection with the mergers contemplated by the merger agreement (we refer to this proposal as the TWC transactions stock issuance proposal);

to approve the issuance of (i) a newly created Class B common stock, par value \$0.001 per share, of New Charter or Charter, as applicable, and (ii) common units and preferred units of Charter Holdings (including shares of Class A common stock of New Charter or Charter, as applicable, which may be issued upon conversion or exchange of such common units or preferred units), in each case in connection with the BHN transactions (we refer to this proposal as the BHN transactions stock issuance proposal and together with the TWC transactions stock issuance proposal, the stock issuances proposals);

to approve the BHN/Liberty stockholders agreement (including the issuance of shares of New Charter or Charter Class A common stock to Liberty Broadband thereunder), the Liberty investment agreement (including the issuance of New Charter Class A common stock to Liberty Broadband thereunder), the Liberty contribution agreement and other transactions contemplated by the merger agreement and the foregoing agreements with Liberty Broadband and Liberty Interactive, as required by Charter's existing certificate of incorporation (we refer to this proposal as the Liberty transactions proposal);

to approve the adoption of the amended and restated certificate of incorporation (which will include the creation of the new class of Class B common stock of New Charter or Charter, as applicable) that will either be the amended and restated certificate of incorporation of New Charter if the TWC transactions are consummated or the amended and restated certificate of incorporation of Charter if the TWC transactions are not consummated but the BHN transactions are consummated (we refer to this proposal as the general certificate of incorporation proposal);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide that the special approval requirements for certain business combination transactions contained in Article Eighth of Charter's existing certificate of incorporation will only be effective upon the termination of the BHN contribution agreement and will not apply to any transaction agreed or consummated prior to such time (we refer to this proposal as the certificate of

incorporation feature proposal 1);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will set forth the size and composition requirements for the board of directors that are required by the BHN/Liberty stockholders agreement (we refer to this proposal as the certificate of incorporation feature proposal 2);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will specify standards for decisions by the board of directors that are required by the BHN/Liberty stockholders agreement (we refer to this proposal as the certificate of incorporation feature proposal 3);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide for certain voting restrictions on Liberty Broadband and A/N as required by the BHN/Liberty stockholders agreement (we refer to this proposal as the certificate of

Table of Contents

incorporation feature proposal 4, and together with the general certificate of incorporation proposal and the certificate of incorporation feature proposals 1, 2 and 3, the certificate of incorporation proposals); and

to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the transactions (we refer to this proposal as the Charter advisory compensation proposal).

The approval of the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals are conditions to the obligations of TWC, Charter and New Charter to complete the mergers. In addition, the approval of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the stock issuance to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals are conditions to the obligations New Charter, Charter and A/N to complete the BHN transactions. The approval of the Charter advisory compensation proposal is not a condition to the obligations of TWC, Charter or New Charter to complete the mergers and is not a condition to the obligations of Charter, New Charter or A/N to complete the BHN transactions.

The approval of each of the certificate of incorporation proposals is required to approve the adoption of the amended and restated certificate of incorporation. The amended and restated certificate of incorporation will not be filed and become effective if any of the certificate of incorporation proposals is not approved by Charter stockholders. The approval of all of the certificate of incorporation proposals shall constitute the requisite approval of the adoption of the amended and restated certificate of incorporation as required by Delaware law.

Q: Does the Charter board of directors recommend that Charter stockholders approve the Charter merger proposal, each of the stock issuances proposals, the Liberty transactions proposal and each of the certificate of incorporation proposals?

A: Yes. The members of the Charter board of directors unanimously determined that the merger agreement, the mergers, the stock issuances, the Liberty transactions, the amended and restated certificate of incorporation, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement are fair to and in the best interests of Charter and its stockholders and unanimously approved and declared advisable each of the merger agreement and the mergers and the amendments to the certificate of incorporation, and unanimously approved the stock issuances, the Liberty transactions, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement. In addition, the members of the Charter board of directors (other than the directors affiliated with Liberty Broadband) unanimously determined that the Liberty transactions are fair to and in the best interests of Charter and its stockholders and unanimously approved and declared advisable the Liberty transactions. **The Charter board of directors unanimously recommends that Charter stockholders vote FOR the approval of the Charter merger proposal, FOR the approval of each of the stock issuances proposals, FOR the approval of the Liberty transactions proposal and FOR the approval of each of the certificate of incorporation proposals.** See The Transactions Charter s Reasons for the Mergers and Other Transactions; Recommendation of the Charter Board of Directors.

Q: What is the specified compensation and why are Charter stockholders being asked to vote on it?

A: The SEC has adopted rules that require Charter to seek an advisory (non-binding) vote on certain specified compensation that is tied to or based on the transactions and that will or may be paid by Charter to its named executive officers in connection with the transactions. See [Interests of Charter's Directors and Executive Officers in the Transactions](#) [Quantification of Potential Payments to Charter's Named Executive Officers in Connection with the Transactions](#) and [Charter Proposals](#) [Charter Proposal X: Charter Advisory Compensation Proposal](#).

Table of Contents

Q: Does the Charter board of directors recommend that Charter stockholders approve the Charter advisory compensation proposal?

A: Yes. The Charter board of directors unanimously recommends that Charter stockholders vote FOR the Charter advisory compensation proposal. See Charter Proposals Charter Proposal X: Charter Advisory Compensation Proposal.

Q: What happens if the Charter advisory compensation proposal is not approved?

A: Approval of the Charter advisory compensation proposal is not a condition to completion of the mergers or the BHN transactions. The vote is an advisory (non-binding) vote. If the transactions are completed, Charter may pay the specified compensation to its named executive officers in connection with the transactions even if Charter stockholders fail to approve the Charter advisory compensation proposal.

Q: What Charter stockholder vote is required for the approval of each proposal at the Charter special meeting, and what happens if I abstain?

A: The following are the vote requirements for the proposals of Charter:

Charter Merger Proposal: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote at the Charter special meeting at which a quorum is present and, with respect to the second merger, the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present are required to adopt the merger agreement. Accordingly, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have the same effect as a vote against the Charter merger proposal.

Stock Issuances Proposals: The affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve each of the stock issuances proposals. An abstention is not considered a vote cast. Accordingly, assuming a quorum is present, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have no effect on the applicable stock issuances proposal.

Liberty Transactions Proposal: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares of Charter Class A common stock beneficially owned by

Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present is required to approve the Liberty transactions in accordance with Charter's certificate of incorporation, and the affirmative vote of a majority of the votes cast by holders of shares of Charter Class A common stock is required to approve the Liberty transactions proposal (with respect to stock issuances to Liberty Broadband) at the Charter special meeting at which a quorum is present. Accordingly, given the dual-voting requirement, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have the same effect as a vote against the Liberty transactions proposal.

Certificate of Incorporation Proposals: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote at the Charter special meeting at which a quorum is present and the affirmative vote of holders of a majority of the outstanding shares of Charter

Table of Contents

Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present are required to approve each certificate of incorporation proposal at the Charter special meeting at which a quorum is present. Accordingly, given the dual-voting requirement, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have the same effect as a vote against the applicable certificate of incorporation proposals.

Charter Advisory Compensation Proposal: The affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve, on an advisory (non-binding) basis, the Charter advisory compensation proposal. An abstention is not considered a vote cast. Accordingly, assuming a quorum is present, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have no effect on the Charter advisory compensation proposal.

The approval of each of the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals are conditions to the obligations of TWC, New Charter and Charter to complete the mergers. However, for purposes of satisfying the conditions to the closing of the mergers, the certificate of incorporation proposals are required to be approved by a majority of the outstanding shares of Charter Class A common stock excluding shares beneficially owned by Liberty Broadband and its affiliates and associates. The approval of each of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the stock issuance to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals are conditions to the obligations of New Charter, Charter and A/N to complete the BHN transactions. Accordingly, Charter cannot complete the mergers (and in certain circumstances the BHN transactions) unless its stockholders approve the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals as described above.

Q: What constitutes a quorum for the Charter special meeting?

A: The holders of a majority of the voting power of the Charter Class A common stock issued and outstanding and entitled to vote, present either in person or by proxy at the Charter special meeting, will constitute a quorum. Abstentions will be deemed present for the purpose of determining the presence of a quorum. Shares of Charter common stock held in street name with respect to which the beneficial owner fails to give voting instructions to the broker, bank, nominee or other holder of record will not be present at the Charter special meeting for the purpose of determining the presence of a quorum.

Q: Who is entitled to vote at the Charter special meeting, and how many votes does each holder of Charter Class A common stock have?

- A: All holders of Charter Class A common stock who held shares as of the record date for the Charter special meeting (the close of business on August 14, 2015) are entitled to receive notice of, and to vote at, the Charter special meeting, provided that those shares remain outstanding on the date of the Charter special meeting. As of the close of business on July 31, 2015, there were 112,027,916 shares of Charter Class A common stock outstanding. At the close of business on July 31, 2015, there were no shares of Charter Class B common stock, par value \$0.001 per share, outstanding or entitled to vote at the Charter special meeting. Each holder of Charter Class A common stock is entitled to one vote for each share of Charter Class A common stock owned as of the record date.

Table of Contents

Q: When and where is the Charter special meeting?

A: The Charter special meeting will be held on September 21, 2015, located at 400 Atlantic Street, Stamford, Connecticut, at 10:00 am, local time.

Q: How do I vote my shares at the Charter special meeting?

A: If you were a record holder of Charter Class A common stock as of the close of business on the record date of the Charter special meeting, a proxy card is enclosed for your use. Charter requests that you submit your proxy to vote your shares as promptly as possible by (i) accessing the Internet site listed on the proxy card, (ii) calling the toll-free number listed on the proxy card or (iii) submitting your proxy card by mail by using the provided self-addressed, stamped envelope. Information and applicable deadlines for voting through the Internet or by telephone are set forth on the enclosed proxy card. When the accompanying proxy is returned properly executed, the shares of Charter Class A common stock represented by it will be voted at the Charter special meeting or any adjournment or postponement thereof in accordance with the instructions contained in the proxy card. Your Internet or telephone vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned a proxy card. When a stockholder submits a proxy via the Internet or by telephone, his or her proxy is recorded immediately. We encourage you to register your vote via the Internet or by telephone whenever possible. If you submit a proxy via the Internet or by telephone, please do not return your proxy card by mail. If you attend the meeting, you may also submit your vote in person. Any votes that you previously submitted whether via the Internet, by telephone or by mail will be superseded by any vote that you cast at the Charter special meeting or any vote that is submitted by you subsequent to the date of the previous submission.

Your vote is very important, regardless of the number of shares you own. Accordingly, if you were a record holder of Charter Class A common stock as of the record date of the special meeting, please sign and return the enclosed proxy card or vote via the Internet or telephone whether or not you plan to attend the special meeting in person. Proxies submitted through the specified Internet website or by phone must be received by 11:59 p.m. (Eastern Time), on September 20, 2015. If your shares are held in the name of a bank, broker, nominee or other record holder, please follow the instructions on the voting instruction form furnished to you by such record holder.

If your broker, bank or other nominee holds your shares of Charter Class A common stock in street name, you must either direct your nominee on how to vote your shares or obtain a proxy from your nominee to vote in person at the Charter special meeting. Please check the voting form used by your nominee for information on how to submit your instructions to them.

Q: If my Charter shares are held in street name, will my broker, bank, nominee or other holder of record automatically vote my shares for me?

A: No. Under NASDAQ rules, banks, brokers or other nominees who hold shares in street name for a beneficial owner of those shares typically have the authority to vote in their discretion on routine proposals when they have not received instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretion with respect to the approval of matters that NASDAQ determines to be non-routine without specific

instructions from the beneficial owner. It is expected that all proposals to be voted on at the special meeting of Charter stockholders are such non-routine matters, and, therefore brokers do not have discretionary authority to vote on any of the proposals. Broker non-votes occur when a bank, broker or other nominee is not instructed by the beneficial owner of shares to vote on a particular proposal for which the broker does not have discretionary voting power.

If you hold Charter shares in street name through a broker, bank, nominee or other holder of record, you may vote via the Internet or by telephone only if Internet or telephone voting is made available by your broker, bank, nominee or other holder of record. Please follow the voting instructions provided by your broker, bank, nominee or other holder of record with these materials.

Table of Contents

If you hold Charter shares in street name through a broker, bank, nominee or other holder of record, to vote by mail, you will need to sign, date and mark the voting instruction form provided by your broker, bank, nominee or other holder of record and return it in the postage-paid return envelope provided. Your broker, bank, nominee or other holder of record must receive your voting instruction form in sufficient time to vote your shares.

If you hold Charter shares in street name through a broker, bank, nominee or other holder of record, you must obtain a legal proxy from that institution and present it to the inspector of elections with your ballot to be able to vote in person at the Charter special meeting. To request a legal proxy, please contact your broker, bank, nominee or other holder of record.

Q: How will my shares be represented at the Charter special meeting, and what will happen if I return my proxy card without indicating how to vote?

A: If you submit your proxy via the Internet, by telephone or by mail, the officers named on your proxy card will vote your shares in the manner you requested if you correctly submitted your proxy. If you sign your proxy card and return it without indicating how to vote on any particular proposal, the shares of Charter Class A common stock represented by your proxy will be voted in favor of that proposal.

Q: Who may attend the Charter special meeting?

A: Charter stockholders as of the record date (the close of business on August 14, 2015), or their authorized representatives, may attend the Charter special meeting. If you hold shares in your name as of the record date, please be prepared to provide proper identification, such as a driver's license, to gain admission to the Charter special meeting.

If you are a beneficial owner of shares of Charter Class A common stock held in street name by a broker, bank, nominee or other holder of record as of the record date (the close of business on August 14, 2015), in addition to proper identification, you will also need proof of ownership as of the record date to be admitted to the Charter special meeting. A brokerage statement or letter from a bank or broker are examples of proof of ownership. If you want to vote your shares of Charter Class A common stock held in street name in person at the Charter special meeting, you will have to obtain a legal proxy in your name from the broker, bank, nominee or other holder of record who holds your shares.

Q: What will happen if Charter stockholders abstain from voting, fail to vote or do not direct how to vote on their proxy?

A: Your vote is very important. The mergers cannot be completed unless Charter stockholders adopt the merger agreement and approve the TWC transactions stock issuance proposal, the Liberty transactions proposal (including the issuance of shares of New Charter Class A common stock to Liberty Broadband pursuant to the Liberty investment agreement and the BHN/Liberty stockholders agreement and the other provisions of the BHN/Liberty stockholders agreement) and each of the certificate of incorporation proposals. The BHN

transactions cannot be completed unless Charter stockholders adopt the merger agreement (except in certain circumstances) and approve the BHN transactions stock issuance proposal, the Liberty transactions proposal (including the issuance of shares to Liberty Broadband pursuant to the BHN/Liberty stockholders agreement and the other provisions of the BHN/Liberty stockholders agreement) and each of the certificate of incorporation proposals.

For Charter stockholders, an abstention or failure to vote will have the same effect as a vote AGAINST the approval of the adoption of the merger agreement, a vote AGAINST the approval of the Liberty transactions proposal and a vote AGAINST each of the certificate of incorporation proposals. In addition, if a Charter stockholder holds shares of Charter Class A common stock in street name through a broker, bank, nominee or other holder of record and the stockholder does not give voting instructions to that broker, bank, nominee or other holder of record, that broker, bank, nominee or other holder of record will not be

Table of Contents

able to vote the shares on the Charter merger proposal, the Liberty transactions proposal and any of the certificate of incorporation proposals, and such failure to give those instructions will have the same effect as a vote **AGAINST** such proposals. With respect to each of the stock issuances proposals, assuming a quorum is present, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have no effect on the applicable stock issuances proposal.

The Charter board of directors unanimously recommends that Charter stockholders vote **FOR** the approval of the Charter merger proposal, **FOR** each of the stock issuances proposals, **FOR** the approval of the Liberty transactions proposal and **FOR** the approval of each of the certificate of incorporation proposals.

Q. Can I revoke my proxy or change my voting instructions with respect to the Charter special meeting?

A: Yes. You may revoke your proxy or change your vote at any time before your proxy is voted at the Charter special meeting. If you are a stockholder of record as of the record date (the close of business on August 14, 2015), you can revoke your proxy or change your vote by:

 sending a written notice that is received prior to the Charter special meeting stating that you revoke your proxy to the corporate secretary of Charter at 400 Atlantic Street, Stamford, Connecticut 06901 that bears a date later than the date of the proxy you want to revoke;

 properly completing, signing and dating a new proxy card bearing a later date and properly submitting it so that it is received prior to the Charter special meeting;

 visiting the website shown on the Charter proxy card and submitting a new proxy in the same manner that you would submit your proxy via the Internet or by calling the toll-free number shown on the proxy card to submit a new proxy by telephone; or

 attending the Charter special meeting (or if the Charter special meeting is adjourned or postponed, attending the adjourned or postponed meeting) in person and voting your shares.

If you hold your shares in street name through a broker, bank, nominee or other holder of record, you must contact your broker, bank, nominee or other holder of record to change your vote or obtain a legal proxy to vote your shares if you wish to cast your vote in person at the Charter special meeting.

Q. What happens if I sell my Charter shares after the record date but before the Charter special meeting?

A:

The record date for the Charter special meeting (the close of business on August 14, 2015) is earlier than the date of the Charter special meeting and earlier than the date that the mergers are expected to be completed. If you sell or otherwise transfer your shares of Charter Class A common stock after the record date but before the date of the Charter special meeting, you will retain your right to vote at the Charter special meeting. However, you will not have the right to receive the applicable merger consideration to be received by Charter stockholders in the mergers. In order to receive the applicable merger consideration, you must hold your shares through completion of the mergers.

Q: When do you expect to complete the mergers, the BHN transactions and the Liberty transactions?

A: The parties are working to complete the mergers, the BHN transactions and the Liberty transactions by the end of 2015, subject to regulatory approvals and satisfaction (or, to the extent permissible, waiver) of the conditions to the parties' obligations to complete the mergers, the BHN transactions and/or the Liberty transactions, as applicable. However, no assurance can be given as to when, or if, the mergers, the BHN transactions and/or the Liberty transactions will be completed.

Table of Contents

Q: Are the mergers expected to be taxable to TWC or Charter stockholders?

A: Charter and TWC intend for the payment of cash to a holder of shares of TWC common stock in the first merger to be treated as a distribution in partial redemption of such shares subject to the provisions of Section 302(a) of the Code, though this treatment is not free from doubt. In such case, a U.S. holder of shares of TWC common stock will generally recognize gain or loss equal to the difference between the amount of cash received in the first merger (including any cash received in lieu of fractional shares of TWC common stock) and the adjusted tax basis of the shares treated as exchanged for cash. However, U.S. holders who actually or constructively own New Charter Class A common stock other than New Charter Class A common stock received pursuant to the second merger may be treated as having received a dividend instead of having sold or exchanged a portion of their shares of TWC common stock. The cash that a non-U.S. holder of shares of TWC common stock receives generally will be subject to withholding of U.S. federal income tax at a rate of 30%, subject to reduction, exemption, or the availability of a refund if specific requirements are met. However, alternative characterizations are possible. Charter and TWC intend for each of the second merger and the third merger to qualify as a reorganization within the meaning of Section 368(a) of the Code. Accordingly, U.S. holders of shares of the surviving corporation of the first merger or shares of Charter Class A common stock will generally not be subject to U.S. federal income tax as a result of the exchange of such shares for shares of New Charter Class A common stock (except in connection with cash received in lieu of a fractional share of New Charter Class A common stock in the third merger) in the second merger and the third merger, respectively.

Holders of shares of TWC common stock and Charter Class A common stock should read the section titled *Material U.S. Federal Income Tax Consequences of the Mergers* for a more complete discussion of the U.S. federal income tax consequences of the mergers. In addition, all holders of TWC common stock and Charter Class A common stock are urged to consult with their tax advisors regarding the tax consequences of the mergers to them, including the effects of U.S. federal, state and local, non-U.S. and other tax laws.

Q: Do TWC or Charter stockholders have appraisal rights?

A: Subject to the closing of the first merger, record holders of TWC common stock who do not vote in favor of the approval of the adoption of the merger agreement and otherwise comply fully with the requirements and procedures of Section 262 of the DGCL may exercise their rights of appraisal, which generally entitle stockholders to receive a cash payment equal to the fair value of their TWC common stock exclusive of any element of value arising from the accomplishment or expectation of the mergers. A detailed description of the appraisal rights and procedures available to TWC stockholders is included in *Dissenters' Rights to Appraisal*. The full text of Section 262 of the DGCL is attached as Annex P to this joint proxy statement/prospectus. Charter stockholders do not have appraisal rights in connection with the third merger or any other transaction described in this joint proxy statement/prospectus.

Q: Where can I find more information about TWC and Charter?

A: You can find more information about TWC and Charter from the various sources described under the heading Where You Can Find More Information, beginning on page 378 of this joint proxy statement/prospectus.

Table of Contents

SUMMARY

This summary highlights selected information from this joint proxy statement/prospectus. It may not contain all of the information that is important to you. You are urged to read carefully the entire joint proxy statement/prospectus and the other documents referred to or incorporated by reference into this joint proxy statement/prospectus in order to fully understand the merger agreement, the proposed mergers, the Liberty transactions and the BHN transactions. See

Where You Can Find More Information, beginning on page 378 of this joint proxy statement/prospectus. Each item in this summary refers to the page of this joint proxy statement/prospectus on which that subject is discussed in more detail.

The Companies (See Page 116)

Charter Communications, Inc.

Charter is among the largest providers of cable services in the United States, offering a variety of entertainment, information and communications solutions to residential and commercial customers. Charter's infrastructure consists of a hybrid of fiber and coaxial cable plant with approximately 13.0 million estimated passings, with 97% at 550 megahertz or greater and 99% of plant miles two-way active. A national Internet Protocol (IP) infrastructure interconnects Charter markets.

As of June 30, 2015, Charter served approximately 6.4 million residential and commercial customers. Charter sells its video, Internet and voice services primarily on a subscription basis, often in a bundle of two or more services, providing savings and convenience to its customers. Bundled services are available to approximately 98% of Charter's passings, and approximately 62% of Charter's customers subscribe to a bundle of services.

Charter was incorporated as a Delaware corporation on July 22, 1999. The principal trading market for Charter common stock (NASDAQ: CHTR) is the NASDAQ. Charter's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Charter's telephone number is (203) 905-7801, and its website is accessible at www.charter.com.

This joint proxy statement/prospectus incorporates important business and financial information about Charter from other documents that are not included in or delivered with this joint proxy statement/prospectus. For a list of the documents that are incorporated by reference, see Where You Can Find More Information, beginning on page 378 of this joint proxy statement/prospectus.

CCHI, LLC

New Charter is a Delaware limited liability company and a wholly owned subsidiary of Charter. New Charter was organized as a Delaware limited liability company on June 9, 2003. New Charter will be converted into a Delaware corporation immediately prior to the completion of the mergers.

New Charter's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. New Charter's telephone number is (203) 905-7801.

Merger Subsidiary One

Merger Subsidiary One is a Delaware corporation, and formed solely for the purpose of implementing the mergers. Merger Subsidiary One was organized as a Delaware corporation on May 22, 2015. It has not carried on any activities

or operations to date, except for those activities incidental to its organization and undertaken in connection with the transactions contemplated by the merger agreement.

Table of Contents

Merger Subsidiary One's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Merger Subsidiary One's telephone number is (203) 905-7801.

Merger Subsidiary Two

Merger Subsidiary Two is a Delaware limited liability company and a wholly owned subsidiary of Charter, formed solely for the purpose of implementing the mergers. Merger Subsidiary Two was formed as a Delaware limited liability company on May 22, 2015. It has not carried on any activities or operations to date, except for those activities incidental to its formation and undertaken in connection with the transactions contemplated by the merger agreement.

Merger Subsidiary Two's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Merger Subsidiary Two's telephone number is (203) 905-7801.

Merger Subsidiary Three

Merger Subsidiary Three is a Delaware limited liability company and a wholly owned subsidiary of Charter, formed solely for the purpose of implementing the mergers. Merger Subsidiary Three was formed as a Delaware limited liability company on May 22, 2015. It has not carried on any activities or operations to date, except for those activities incidental to its formation and undertaken in connection with the transactions contemplated by the merger agreement.

Merger Subsidiary Three's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Merger Subsidiary Three's telephone number is (203) 905-7801.

Time Warner Cable Inc.

TWC is among the largest providers of video, high-speed data and voice services in the United States, with technologically advanced, well-clustered cable systems located mainly in five geographic areas: New York State (including New York City), the Carolinas, the Midwest (including Ohio, Kentucky and Wisconsin), Southern California (including Los Angeles) and Texas. TWC's mission is to connect its customers to the world simply, reliably and with superior service. As of June 30, 2015, TWC served approximately 15.5 million residential and business services customers who subscribed to one or more of its video, high-speed data and voice services. In addition, TWC's residential services include security and home management services, and TWC's business services include networking and transport services (including cell tower backhaul services) and enterprise-class, cloud-enabled hosting, managed applications and services. TWC also sells video and online advertising inventory to a variety of local, regional and national customers.

TWC was incorporated as a Delaware corporation on March 21, 2003, and TWC and its predecessors have been in the cable business for over 40 years in various legal forms. The principal trading market for TWC common stock (NYSE: TWC) is the New York Stock Exchange. TWC's principal executive offices are located at 60 Columbus Circle, New York, New York 10023. TWC's telephone number is (212) 364-8200, and its website is accessible at www.twc.com.

This joint proxy statement/prospectus incorporates important business and financial information about TWC from other documents that are not included in or delivered with this joint proxy statement/prospectus. For a list of the documents that are incorporated by reference, see "Where You Can Find More Information," beginning on page 378 of this joint proxy statement/prospectus.

Table of Contents

Bright House Networks, LLC

Bright House is a wholly owned subsidiary of Time Warner Entertainment-Advance/Newhouse Partnership (TWE-A/N). TWE-A/N is a partnership between A/N and a subsidiary of TWC. The Bright House systems are managed on a day to day basis by A/N, which is entitled to 100% of the economic benefits of Bright House. TWC and its affiliates provide Bright House with certain programming, engineering and technology services through a services agreement between the parties.

Bright House is a cable operator providing services in the United States with approximately 2.5 million residential and commercial customers as of June 30, 2015. Bright House's business is concentrated in Florida with smaller operations in Michigan, Alabama, Indiana and California. Bright House provides its subscribers with video, Internet and voice services. Bright House also sells local advertising on cable networks.

Bright House was formed as a Delaware limited liability company on July 9, 2002. Bright House's principal executive offices are located at 5823 Widewaters Parkway, East Syracuse, New York 13057. Bright House's telephone number is (315) 463-7675, and its website is accessible at www.brighthouse.com.

The Mergers (See Page 236)

The merger agreement provides for three mergers, following which both Charter and TWC will become wholly owned subsidiaries of New Charter. In the first merger (referred to in the merger agreement as the First Company Merger), Merger Subsidiary One will merge with and into TWC, with TWC continuing as the surviving corporation. Immediately following the completion of the first merger, in the second merger (referred to in the merger agreement as the Second Company Merger), TWC will merge with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity. Immediately following the completion of the second merger, in the third merger (referred to in the merger agreement as the Parent Merger), Charter will merge with and into Merger Subsidiary Three, with Merger Subsidiary Three continuing as the surviving entity. After giving effect to the three mergers, New Charter will be the new public company parent that will hold the operations of the combined companies.

Upon completion of the mergers, TWC common stock will be delisted from the New York Stock Exchange and deregistered under the Exchange Act.

A copy of the merger agreement is attached as Annex A to this joint proxy statement/prospectus. **You should read the merger agreement carefully because it is the legal document that governs the mergers.**

The BHN Transactions (See Page 269)

On March 31, 2015, Charter, New Charter, Charter Holdings, A/N and A/NPC Holdings LLC entered into the BHN contribution agreement, which was amended on May 23, 2015 in connection with the execution of the merger agreement. Pursuant to the BHN contribution agreement, at the closing of the transactions contemplated by that agreement, A/N will contribute to Charter Holdings, a wholly owned subsidiary of Charter, the membership interests of BHN and any property, assets or other rights (other than certain excluded assets and liabilities and non-operating cash) that primarily relate to BHN's business of directly or indirectly owning and operating cable and/or communication systems that provide customers with video, Internet and voice services and other cable communications and/or voice services in specified geographic areas and other revenue-generating activities of BHN and its subsidiaries, including any local news networks (collectively, the BHN business), or that are otherwise reflected on BHN's audited financial statements for the fiscal year ended December 31, 2014 or the notes thereto. At

the closing, Charter Holdings will pay to A/N approximately \$2.0 billion in cash and issue to A/N convertible preferred units of Charter Holdings with a face amount of \$2.5 billion, which will pay a 6% annual preferential dividend (which will be paid quarterly in cash if, as and when declared by the board, provided that, if dividends are suspended at any time, the dividends will accrue until they are paid, with all accrued and unpaid dividends to accrue

Table of Contents

penalty interest at the rate of 6% per annum if not paid in the subsequent quarter), and, if the mergers have not been consummated prior to the consummation of the BHN transactions, approximately 34.3 million common units of Charter Holdings. If the mergers have been consummated prior to the consummation of the BHN transactions, the number of common units to be issued by Charter Holdings to A/N will instead be approximately 31.0 million common units to take into account the Parent Merger Exchange Ratio, and the conversion ratio applicable to the convertible preferred units will also take into account the Parent Merger Exchange Ratio. In addition, New Charter will issue to A/N one share of New Charter Class B common stock, which will initially have a number of votes reflecting the voting power of the Charter Holdings common units (other than those owned by New Charter or Charter) and the convertible preferred units of Charter Holdings on an as-converted, as-exchanged basis, which voting rights are generally intended to reflect A/N's economic interests in New Charter and Charter Holdings.

A copy of the BHN contribution agreement is attached as Annex B to this joint proxy statement/prospectus.

The Liberty Transactions (See Pages 283, 291 and 294)***BHN/Liberty Stockholders Agreement (See Page 283)***

On May 23, 2015, in connection with the execution of the merger agreement and the amendment of the BHN contribution agreement, Charter and New Charter entered into the BHN/Liberty stockholders agreement with Liberty Broadband and A/N. The BHN/Liberty stockholders agreement will replace Charter's existing stockholders agreement with Liberty Broadband, dated September 29, 2014, and supersede the amended and restated stockholders agreement among Charter, New Charter, Liberty Broadband and A/N, dated March 31, 2015. Charter's existing stockholders agreement (as amended by the Liberty investment agreement) with Liberty Broadband will remain in effect until the closing of the BHN transactions or the mergers, whichever occurs earlier, and, in the event the BHN/Liberty stockholders agreement is terminated, will revive and continue in full force and effect. Certain provisions of the BHN/Liberty stockholders agreement became effective upon its execution.

Pursuant to the BHN/Liberty stockholders agreement and in connection with the BHN transactions, Liberty Broadband has agreed to purchase from New Charter or, if the mergers are not consummated prior to the completion of the BHN transactions, Charter, \$700 million of New Charter Class A common stock or Charter Class A common stock, respectively, at the price per share of (i) if the mergers are consummated prior to the BHN transactions, \$172.9963 divided by the Parent Merger Exchange Ratio, which is equal to approximately 3.66 million shares of New Charter Class A common stock, or (ii) if the mergers are not consummated prior to the completion of the BHN transactions, \$172.9963, which is equal to approximately 4.0 million shares of Charter Class A Common Stock. In addition, Liberty Broadband has agreed that it and its affiliates will vote all of their respective shares of Charter Class A common stock in favor of the transactions and matters contemplated by the BHN contribution agreement, the BHN/Liberty stockholders agreement and the merger agreement at Charter's special meeting of stockholders to be held for this purpose.

Under the terms of the BHN/Liberty stockholders agreement, the number of New Charter directors will be fixed at 13, which will include New Charter's chief executive officer. Upon the closing of the BHN transactions, two designees selected by A/N and three designees selected by Liberty Broadband will become members of the board of directors of New Charter. The remaining eight directors (other than the chief executive officer who is expected to become the chairman of the board) will be independent directors selected by the nominating committee of the New Charter board of directors upon approval of both a majority of the nominating committee and a majority of the directors that were not appointed by either A/N or Liberty Broadband. Thereafter, Liberty Broadband will be entitled to designate three nominees to be elected as directors (as long as it maintains at least a 20% voting or equity ownership interest in New Charter) and A/N will be entitled to designate two nominees to be elected as directors (as long as it maintains at least a

11% voting or equity ownership interest in New Charter), provided that each director nominee meets certain applicable requirements or qualifications. Each of A/N and Liberty Broadband will be entitled to nominate at least one director to each of the committees of the New Charter

Table of Contents

board of directors, subject to applicable stock exchange listing rules and certain specified voting or equity ownership thresholds for each of A/N and Liberty Broadband, and provided that the nominating and compensation committees will have at least a majority of directors independent from A/N, Liberty Broadband and New Charter (referred to as the unaffiliated directors). The nominating committee will be comprised of three unaffiliated directors, and one designee of each of A/N and Liberty Broadband. A/N and Liberty Broadband also will have certain other committee designation and other governance rights. Mr. Thomas Rutledge will be offered the positions of CEO and chairman of New Charter with a new five-year employment agreement to be negotiated prior to the closing of the mergers or the BHN transactions, and in the event that Mr. Rutledge does not agree to serve as the chairman then the parties to the BHN/Liberty stockholders agreement will mutually agree on the appointment of a new chairman. The chairman of the board must be independent (as defined in the BHN/Liberty stockholders agreement) from each of Liberty Broadband and A/N, and each of Liberty Broadband and A/N has the right in certain circumstances to have a director designee on any committee formed to search for a CEO candidate or to nominate a chairman of the board.

Each of A/N and Liberty Broadband will be subject to certain limits on acquisitions of shares of New Charter common stock. In addition, any shares owned by A/N or Liberty Broadband in excess of its applicable voting cap (23.5% in the case of A/N; 25.01% in the case of Liberty Broadband, subject to increase up to a certain maximum amount in specified circumstances) must be voted in proportion to the public stockholders of New Charter, other than with respect to certain specified matters. At the closing of the BHN transactions, A/N and Liberty Broadband will enter into an agreement pursuant to which A/N will grant to Liberty Broadband a 5-year irrevocable proxy to vote, subject to certain exceptions, that number of New Charter shares held by A/N that will result in Liberty Broadband having voting power in New Charter equal to 25.01% of the outstanding voting power of New Charter (provided, that the voting power of the proxy shares granted by A/N will be capped at 7.0% of the outstanding voting power of New Charter), as well as a right of first refusal to purchase certain shares from A/N in the event it decides to dispose of such shares. Each of A/N and Liberty Broadband will be subject to certain standstill provisions and shall not be permitted to form a group, within the meaning of Regulation 13D, with each other or otherwise have arrangements or understandings concerning New Charter except as otherwise permitted by the BHN/Liberty stockholders agreement (including, with respect to Liberty Broadband, Liberty Interactive and any third-party investors acquiring shares of Liberty Broadband, to the extent required to provide partial financing for the mergers).

Each of A/N and Liberty Broadband will be entitled to preemptive rights to maintain their respective equity ownership percentages of New Charter in certain specified circumstances and to the extent that each maintains certain specified thresholds of voting or equity ownership in New Charter. Each of A/N and Liberty Broadband will be subject to certain restrictions on their ability to sell, transfer or dispose of their New Charter securities.

The number of directors that each of A/N and Liberty Broadband is entitled to nominate will decrease, and, generally, the other rights of each of A/N and Liberty Broadband will terminate, as such party falls below certain voting or equity ownership thresholds, subject to certain grace periods during which such party can return its equity or voting interest to the applicable threshold. Upon completion of the mergers, the provisions applicable to Charter under the stockholders agreement will become applicable to New Charter.

A copy of the BHN/Liberty stockholders agreement is attached as Annex C to this joint proxy statement/prospectus.

Liberty Investment Agreement (See Page 291)

Pursuant to the Liberty investment agreement, at the closing of the purchase and sale contemplated by that agreement, Liberty Broadband will subscribe for, and New Charter will issue and sell, a number of shares of New Charter Class A common stock equal to the product of (a) the Parent Merger Exchange Ratio and (b) (i) \$4.3 billion divided by (ii) \$176.95, which is equal to approximately 22.0 million shares of New Charter Class A Common Stock.

Table of Contents

A copy of the Liberty investment agreement is attached as Annex D to this joint proxy statement/prospectus.

Liberty Contribution Agreement (See Page 294)

Pursuant to the Liberty contribution agreement, immediately prior to the closing of the first merger, each of Liberty Broadband and Liberty Interactive will contribute to Merger Subsidiary One each share of TWC common stock held by Liberty Broadband or Liberty Interactive, respectively, in exchange for one share of common stock of Merger Subsidiary One. Notwithstanding the foregoing, if Liberty Broadband and Liberty Interactive hold more than 110% of the shares they held as of the date of the Liberty contribution agreement (7,723,357 shares in the aggregate) such excess shares will be treated in the same manner as all other TWC shares pursuant to the merger agreement. In addition, Liberty Broadband and Liberty Interactive also covenant to maintain their share ownership over TWC stock at 99% of their ownership as of the date of the Liberty contribution agreement.

A copy of the Liberty contribution agreement is attached as Annex E to this joint proxy statement/prospectus.

The TWC Special Meeting of Stockholders (See Page 126)

Meeting. The TWC special meeting will be held on September 21, 2015, at the Auditorium at the New York Institute of Technology, located at 1871 Broadway, New York, New York, at 10:00 a.m., local time. At the TWC special meeting, TWC stockholders will be asked to consider and vote on the following proposals:

to approve the adoption of the merger agreement, pursuant to which, among other things, (i) Merger Subsidiary One will be first merged with and into TWC, with TWC continuing as the surviving corporation, and (ii) immediately thereafter TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter; and

to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers.

Record Date. The TWC board of directors has fixed the close of business on July 28, 2015, as the record date for determination of the stockholders entitled to vote at the TWC special meeting or any adjournment or postponement of the TWC special meeting. Only TWC stockholders of record as of the record date are entitled to receive notice of, and to vote at, the TWC special meeting or any adjournment or postponement of the TWC special meeting. As of the close of business on July 28, 2015, there were 282,974,273 shares of TWC common stock outstanding. Each holder of TWC common stock is entitled to one vote for each share of TWC common stock owned as of the record date.

Quorum. The presence at the TWC special meeting, in person or by proxy, of the holders of a majority of the votes entitled to be cast for each proposal as of the record date (the close of business on July 28, 2015) will constitute a quorum for such proposal. Abstentions will be deemed present at the TWC special meeting for the purpose of determining the presence of a quorum. Shares of TWC common stock held in street name with respect to which the beneficial owner fails to give voting instructions to the broker, bank, nominee or other holder of record will not be present at the TWC special meeting for the purpose of determining the presence of a quorum. There must be a quorum for business to be conducted at the TWC special meeting. Failure of a quorum to be represented at the TWC special meeting will necessitate an adjournment or postponement and will subject TWC to additional expense.

Adjournment. In accordance with TWC's bylaws, the TWC special meeting may be adjourned by the Chairman of the meeting. If the TWC special meeting is adjourned, stockholders who have already submitted their proxies will be able to revoke them at any time prior to their use.

Table of Contents

Required Vote. To approve the adoption of the merger agreement, the affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote is required. **TWC cannot complete the mergers unless its stockholders adopt the merger agreement.** Because adoption requires the affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote, **a TWC stockholder's abstention from voting, the failure of a TWC stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a TWC stockholder's other failure to vote will have the same effect as a vote AGAINST the approval of the adoption of the merger agreement.**

To approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers, the affirmative vote of a majority of the votes cast at the TWC special meeting by holders of shares of TWC common stock is required. An abstention is not considered a vote cast. Accordingly, assuming a quorum is present, a TWC stockholder's abstention from voting, the failure of a TWC stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a TWC stockholder's other failure to vote will have no effect on the outcome of any vote to approve the TWC advisory compensation proposal.

Stock Ownership of and Voting by TWC Directors and Executive Officers. As of the record date for the TWC special meeting (the close of business on July 28, 2015), TWC's directors and executive officers and their affiliates beneficially owned and had the right to vote 178,355 shares of TWC common stock at the TWC special meeting, which represents less than 0.1% of the shares of TWC common stock entitled to vote at the TWC special meeting.

It is expected that TWC's directors and executive officers will vote their shares **FOR** the approval of adoption of the merger agreement and **FOR** the TWC advisory compensation proposal, although none of them has entered into any agreement requiring them to do so.

The Charter Special Meeting of Stockholders (See Page 118)

Meeting. The Charter special meeting will be held on September 21, 2015, located at 400 Atlantic Street, Stamford, Connecticut, at 10:00 am, local time. At the Charter special meeting, Charter stockholders will be asked to consider and vote on the following proposals:

to approve the adoption of the merger agreement pursuant to which, among other things, (i) TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter and (ii) Charter will be merged with and into Merger Subsidiary Three, with Merger Subsidiary Three continuing as the surviving entity and a wholly owned subsidiary of New Charter (we refer to this proposal as the Charter merger proposal);

to approve the issuance of Class A common stock, par value \$0.001 per share, of New Charter in connection with the mergers contemplated by the merger agreement (we refer to this proposal as the TWC transactions stock issuance proposal);

to approve the issuance of (i) a newly created Class B common stock of New Charter or Charter, as applicable, and (ii) common units and preferred units of Charter Holdings (including shares of Class A

Common Stock of New Charter or Charter, as applicable, which may be issued upon conversion or exchange of such common units or preferred units), in each case in connection with the BHN transactions (we refer to this proposal as the BHN transactions stock issuance proposal and together with the TWC transactions stock issuance proposal, the stock issuances proposals);

Table of Contents

to approve the BHN/Liberty stockholders agreement (including the issuance of shares of New Charter or Charter Class A common stock to Liberty Broadband thereunder), the Liberty investment agreement (including the issuance of New Charter Class A common stock to Liberty Broadband thereunder), the Liberty contribution agreement and other transactions contemplated by the merger agreement and the foregoing agreements with Liberty Broadband and Liberty Interactive, as required by Charter's existing certificate of incorporation (we refer to this proposal as the Liberty transactions proposal);

to approve the adoption of the amended and restated certificate of incorporation (which will include the creation of the new Class B common stock of New Charter or Charter, as applicable) that will either be the amended and restated certificate of incorporation of New Charter if the mergers are consummated or the amended and restated certificate of incorporation of Charter if the mergers are not consummated but the BHN transactions are consummated (we refer to this proposal as the general certificate of incorporation proposal);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide that the special approval requirements for certain business combination transactions contained in Article Eighth of Charter's existing certificate of incorporation will only be effective upon the termination of the BHN contribution agreement and will not apply to any transaction agreed or consummated prior to such time (we refer to this proposal as the certificate of incorporation feature proposal 1);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will set forth the size and composition requirements for the board of directors that are required by the BHN/Liberty stockholders agreement (we refer to this proposal as the certificate of incorporation feature proposal 2);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will specify standards for decisions by the board of directors that are required by the BHN/Liberty stockholders agreement (we refer to this proposal as the certificate of incorporation feature proposal 3);

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide for certain voting restrictions on Liberty Broadband and A/N as required by the BHN/Liberty stockholders agreement (we refer to this proposal as the certificate of incorporation feature proposal 4, and together with the general certificate of incorporation proposal and the certificate of incorporation feature proposals 1, 2 and 3, the certificate of incorporation proposals); and

to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the transactions (we refer to this proposal as the Charter advisory compensation proposal).

Record Date. The Charter board of directors has fixed the close of business on August 14, 2015, as the record date for determination of the stockholders entitled to vote at the Charter special meeting or any adjournment or postponement

thereof. Only Charter Class A stockholders who held shares as of the record date are entitled to receive notice of, and to vote at, the Charter special meeting or any adjournment or postponement of the Charter special meeting. Each holder of Charter Class A common stock is entitled to one vote for each share of Charter common stock owned as of the record date.

Quorum. The holders of a majority of the voting power of the Charter Class A common stock issued and outstanding and entitled to vote, present either in person or by proxy at the Charter special meeting, will constitute a quorum. Abstentions will be deemed present for the purpose of determining the presence of a quorum. Shares of

Table of Contents

Charter common stock held in street name with respect to which the beneficial owner fails to give voting instructions to the broker, bank, nominee or other holder of record will not be deemed present for the purpose of determining the presence of a quorum. There must be a quorum for business to be conducted at the Charter special meeting. If a quorum is not present or if there are not sufficient votes for the approval of the proposals to be presented at the Charter special meeting, Charter expects that the Charter special meeting will be adjourned to solicit additional proxies. At any subsequent reconvening of the Charter special meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Charter special meeting, except for any proxies that have been effectively revoked or withdrawn prior to the subsequent meeting.

Adjournment. In accordance with Charter's bylaws, the Charter special meeting may be adjourned by the Chairman of the meeting. If the Charter special meeting is adjourned, stockholders who have already submitted their proxies will be able to revoke them at any time prior to their use.

Required Vote. The following are the vote requirements for the proposals of Charter:

Charter Merger Proposal: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote at the Charter special meeting at which a quorum is present and, with respect to the second merger, the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present are required to approve the adoption of the merger agreement.

Stock Issuances Proposals: The affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve each of the stock issuances proposals.

Liberty Transactions Proposal: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares of Charter Class A common stock beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present is required to approve the Liberty transactions in accordance with Charter's certificate of incorporation and the affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve the Liberty transactions (with respect to stock issuances to Liberty Broadband).

Certificate of Incorporation Proposals: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote at the Charter special meeting at which a quorum is present and the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present are required to approve each certificate of incorporation proposal at the Charter special meeting at which a quorum is present.

Charter Advisory Compensation Proposal: The affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve, on an advisory (non-binding) basis, the Charter advisory compensation proposal.

The approval of each of the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals are conditions to the obligations of TWC, New Charter and Charter to complete the mergers. However, for purposes of satisfying the conditions to the closing of the mergers, the certificate of incorporation proposals are required to be approved by a majority of the outstanding shares of Charter Class A common stock excluding shares beneficially owned by Liberty Broadband and its affiliates and associates. The approval

Table of Contents

of each of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the stock issuance to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals are conditions to the obligations of New Charter, Charter and A/N to complete the BHN transactions. Accordingly, Charter cannot complete the mergers (and in certain circumstances the BHN transactions) unless its stockholders approve the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals as described above. A Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have the same effect as a vote AGAINST the Charter merger proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals. With respect to each of the stock issuances proposals, assuming a quorum is present, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have no effect on the applicable stock issuances proposal. The approval of all of the certificate of incorporation proposals is required to approve the adoption of the amended and restated certificate of incorporation. The amended and restated certificate of incorporation will not be filed and become effective if any of the certificate of incorporation proposals is not approved by Charter stockholders. The approval of each of the certificate of incorporation proposals shall constitute the requisite approval of the adoption of the amended and restated certificate of incorporation as required by Delaware law.

Stock Ownership of and Voting by Charter Directors and Executive Officers. As of July 31, 2015, Charter's directors and executive officers and their affiliates beneficially owned and had the right to vote 1,840,621 shares of Charter Class A common stock at the Charter special meeting, which represents approximately 1.63% of the shares of Charter common stock entitled to vote at the Charter special meeting.

It is expected that Charter's directors and executive officers will vote their shares FOR each of the proposals of Charter, although none of them has entered into any agreement requiring them to do so. However, Liberty Broadband, of which John C. Malone, a member of the board of directors of Charter, is the chairman of the board of directors, and Gregory B. Maffei, another member of the board of directors of Charter, is the chief executive officer, has entered into a voting agreement with TWC, as described below.

Voting Agreement (See Page 296)

Concurrently with the execution of the merger agreement, TWC entered into a voting agreement with Liberty Broadband.

Liberty Broadband has agreed to vote all of its shares of Charter Class A common stock (i) in favor of the Charter merger proposal, the TWC transactions stock issuance proposal, each of the certificate of incorporation proposals and the Charter advisory compensation proposal, and (ii) against any corporate action the consummation of which would reasonably be expected to prevent or delay the consummation of the transactions contemplated by the merger agreement.

The voting agreement imposes certain restrictions on Liberty Broadband's right to transfer its shares of Charter Class A common stock, as described under Other Agreement Voting Agreement, beginning on page 296 of this joint proxy statement/prospectus. The voting agreement will terminate upon the earlier to occur of: (i) the completion of the mergers and (ii) the date of termination of the merger agreement in accordance with its terms, subject to the survival of certain obligations of Liberty Broadband for six months beyond such termination

Table of Contents

date if the merger agreement terminates because either (x) approval of Charter's stockholders for the transactions contemplated by the merger agreement is not obtained or (y) Charter intentionally and materially breaches its non-solicitation covenants or certain covenants to call its stockholder meeting in the merger agreement.

As of July 31, 2015, Liberty Broadband held in the aggregate 28,838,718 shares of Charter Class A common stock (representing approximately 25.74% of the outstanding shares of Charter Class A common stock as of such time).

A copy of the voting agreement is attached as Annex F to this joint proxy statement/prospectus.

What TWC Stockholders Will Receive in the Mergers (See Page 237)

If the first merger and the second merger are completed, after giving effect to the first and second mergers and application of the Option A Base Exchange Ratio or the Option B Base Exchange Ratio described in this joint proxy statement/prospectus, each share of TWC common stock outstanding immediately prior to the completion of the first merger (other than certain shares as described below) will effectively be converted into the right to receive either (at the election of the holder thereof):

\$100 in cash and shares of New Charter Class A common stock equivalent to 0.5409 shares of Charter Class A common stock; or

\$115 in cash and shares of New Charter Class A common stock equivalent to 0.4562 shares of Charter Class A common stock.

However, the actual number of shares of New Charter Class A common stock that TWC stockholders (except as described below) will be entitled to receive will be based on the Option A Effective Exchange Ratio and the Option B Effective Exchange Ratio, which are calculated by multiplying the exchange ratios of 0.5409 (which is the Option A Base Exchange Ratio) or 0.4562 (which is the Option B Base Exchange Ratio) specified above by 0.9042 (which is the Parent Merger Exchange Ratio), which will also be the exchange ratio that will be used to determine the number of shares of New Charter Class A common stock that Charter stockholders will be entitled to receive per share of Charter Class A common stock in the third merger. The application of the Parent Merger Exchange Ratio to the stock portion of the merger consideration to be received by TWC stockholders will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by stockholders of TWC upon completion of the mergers. The foregoing calculations and mechanics are described in greater detail under **The Merger Agreement** **Merger Consideration**. Shares of TWC common stock held by TWC as treasury stock, held by direct or indirect wholly owned subsidiaries of TWC or Charter (other than Merger Subsidiary One) or held by Liberty Broadband or Liberty Interactive will not receive the foregoing merger consideration. Liberty Broadband and Liberty Interactive will only receive shares of New Charter Class A common stock as a result of the three mergers, subject to the terms of the Liberty contribution agreement as described in more detail under **Other Agreements** **Liberty Contribution Agreement**.

Example: Based on the exchange ratios contained in the merger agreement, if you own 100 shares of TWC common stock at the time the first two mergers are completed, you will be entitled to receive either (i) \$10,000 in cash and 48 shares of New Charter Class A common stock (which is equivalent to 54 shares of Charter Class A common stock immediately prior to the consummation of the TWC transactions) or (ii) \$11,500 in cash and 41 shares of New Charter Class A common stock (which is equivalent to 45 shares of Charter Class A common stock immediately prior to the consummation of the TWC transactions), and in either case you will also be entitled to receive cash in lieu of

fractional shares as described below.

Table of Contents

Neither TWC nor New Charter will issue any fractional shares in the mergers. Instead, after giving effect to the first two mergers, the total number of shares of New Charter Class A common stock that each TWC stockholder will receive as a result of the first two mergers will be rounded down to the nearest whole number, and each TWC stockholder will receive cash, without interest, for any fractional share of New Charter Class A common stock that he or she would otherwise receive in the mergers. The amount of cash for fractional shares will be calculated by multiplying the fraction of a share of New Charter Class A common stock that the TWC stockholder would otherwise be entitled to receive as a result of the first two mergers by both the Charter Class A common stock closing price as of the trading day immediately prior the closing of the mergers and 0.9042 (which is the exchange ratio that will be applied in the third merger).

The exchange ratios that TWC stockholders will be able to elect to receive for the stock portion of the merger consideration are both fixed, which means that they will not change between now and the date of the mergers, regardless of whether the market price of shares of either Charter Class A common stock or TWC common stock changes. Therefore, the value of the merger consideration will depend on the market price of shares of New Charter Class A common stock at the time TWC stockholders receive shares of New Charter Class A common stock in the mergers. Based on the closing price of a share of Charter Class A common stock on NASDAQ on May 20, 2015, the trading day on which Charter's offer to merge with TWC was based, the merger consideration represented approximately \$195.71 in value for each share of TWC common stock. Based on the closing price of a share of Charter Class A common stock on NASDAQ on August 18, 2015, the most recent practicable trading day prior to the date of this joint proxy statement/prospectus, the merger consideration represented approximately \$202.13 in value for each share of TWC common stock in the case of the Option A Election or \$201.14 in value for each share of TWC common stock in the case of the Option B Election. **The market price of shares of Charter Class A common stock has fluctuated since the date of the announcement of the merger agreement and will continue to fluctuate from the date of this joint proxy statement/prospectus to the date of the TWC special meeting and the date the mergers are completed and New Charter Class A common stock will fluctuate thereafter. The market price of shares of New Charter Class A common stock when received by TWC stockholders upon completion of the mergers could be greater than, less than or the same as the market price of equivalent shares of Charter Class A common stock on the date of this joint proxy statement/prospectus or at the time of the TWC special meeting.**

What Charter Stockholders Will Receive in the Mergers (See Page 238)

If the mergers are completed, each share of Charter Class A common stock outstanding immediately prior to the completion of the third merger will be converted into the right to receive 0.9042 shares of New Charter Class A common stock. New Charter will not issue any fractional shares in the third merger. Instead, the total number of shares of New Charter Class A common stock that each Charter stockholder will receive in the third merger will be rounded down to the nearest whole number, and each Charter stockholder will receive cash, without interest, for any fractional share of New Charter Class A common stock that he or she would otherwise receive in the this merger. The amount of cash for fractional shares will be calculated by multiplying the fraction of a share of New Charter Class A common stock that the Charter stockholder would otherwise be entitled to receive in the third merger by both the Charter Class A common stock closing price as of the trading day immediately prior the closing of the mergers and 0.9042 (which is the Parent Merger Exchange Ratio).

Example: If you own 100 shares of Charter Class A common stock at the time the third merger is completed, you will be entitled to receive 90 shares of New Charter Class A common stock, and you will also be entitled to receive cash in lieu of fractional shares as described below.

The merger of Charter and Merger Subsidiary Three and the exchange of shares of Charter for shares of New Charter is intended to facilitate the completion of the mergers, and the completion of the BHN transactions. The Parent Merger Exchange Ratio of 0.9042 will also be applied to the stock portion of the merger

Table of Contents

consideration to be received by the TWC stockholders and, therefore the exchange of shares of Charter for New Charter as described above will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by stockholders of Charter upon completion of the mergers.

Dissenters Rights of Appraisal (See Page 344)

A TWC stockholder who owned shares of TWC common stock as of July 28, 2015, the record date fixed by the TWC board of directors for the special meeting, will be entitled to dissent from the first merger and seek an appraisal of the fair value of his, her or its shares exclusive of any element of value arising from the accomplishment or expectation of the mergers, but only if he, she or it complies with all requirements of Delaware law (including Section 262 of the DGCL, the text of which can be found in Annex P to this joint proxy statement/prospectus) summarized under the caption Dissenters Rights of Appraisal. Based on the determination of the Delaware Court of Chancery, the appraised fair value of TWC shares may be more than, less than or equal to the value of the merger consideration. The appraised fair value of TWC shares would be paid to the dissenting stockholder only if the first merger is completed and an appraisal proceeding follows. See Dissenters Rights of Appraisal.

Charter stockholders do not have appraisal rights in connection with the third merger or any other transaction described in this joint proxy statement/prospectus.

Treatment of TWC Equity Awards (See Page 240)

TWC Stock Options. At the completion of the second merger, each outstanding option to purchase shares of TWC common stock awarded by TWC, whether or not exercisable or vested (but excluding any options held by a former employee of TWC, as described in the immediately succeeding paragraph), will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of TWC common stock subject to such option immediately prior to the completion of the first merger multiplied by (y) the Stock Award Exchange Ratio (as defined below), with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock for such option will be equal to the quotient of (i) the exercise price per share of such option immediately prior to the completion of the first merger divided by (ii) the Stock Award Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as were applicable to the corresponding TWC options immediately prior to completion of the first merger. The Stock Award Exchange Ratio is determined based on the value a stockholder of TWC who elected to receive \$100 in cash and shares of New Charter Class A common stock equivalent to 0.5409 shares of Charter Class A common stock would receive upon completion of the mergers. Accordingly, in the merger agreement, Stock Award Exchange Ratio is defined generally as the sum of (i) the product of (A) the Option A Base Exchange Ratio multiplied by (B) the Parent Merger Exchange Ratio and (ii) the product of (A) the quotient of (I) \$100 divided by (II) the volume weighted average per-share price of Charter Class A common stock during the 10 full trading days ending on (and including) the trading day preceding the closing date, multiplied by (B) the Parent Merger Exchange Ratio.

At the completion of the second merger, each outstanding option to purchase shares of TWC common stock awarded by TWC and held by a former employee of TWC, whether or not exercisable or vested, will be cancelled, and TWC will pay such former employee an amount in cash computed by first determining the number of shares of New Charter Class A common stock to which such former employee would be entitled as if his or her stock options were converted in accordance with the preceding paragraph, and then multiplying such number by the excess of (i) the quotient of (A) the closing price of a share of Charter Class A common stock on the trading day immediately preceding the first merger, divided by (B) the Parent Merger Exchange Ratio (such quotient, the Charter Adjusted Closing Price) over (ii) the exercise price per share of such option (determined

Table of Contents

in accordance with the preceding paragraph). All options held by a former employee of TWC that have a converted per share exercise price equal to or exceeding the Charter Adjusted Closing Price will be immediately cancelled without any right to consideration. All cash payments will be reduced by applicable withholding taxes.

TWC Restricted Stock Units. At the completion of the second merger, each outstanding TWC employee restricted stock unit award (but excluding any such units held by a current or former non-employee director or a former employee of TWC, as described in the immediately succeeding paragraph), will be converted into the right to acquire the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of TWC common stock underlying such award immediately prior to completion of the first merger multiplied by (y) the Stock Award Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the corresponding award immediately prior to completion of the first merger.

At the completion of the second merger, each TWC restricted stock unit award (which includes deferred stock units held by non-employee directors) held by (x) a current or former non-employee director or (y) a former employee of TWC will be cancelled, and TWC will pay such holder an amount in cash computed by first determining the number of shares of New Charter Class A common stock to which such person would be entitled if his or her stock units were converted in accordance with the preceding paragraph, and then multiplying such number by the Charter Adjusted Closing Price. All cash payments will be reduced by applicable withholding taxes.

If any restricted stock unit held by a former employee is subject to 409A of the Code and such former employee is also a specified individual within the meaning of Section 409A of the Code, then no cash payment will be made in respect of such award and instead such award will be converted in accordance with the preceding paragraph.

TWC 2011 Stock Incentive Plan

Following completion of the mergers, New Charter may make use of shares remaining available for grant under the Time Warner Cable Inc. 2011 Stock Incentive Plan, which is referred to in this joint proxy statement/prospectus as the TWC 2011 Plan, in accordance with NASDAQ rules.

Treatment of Charter Equity Awards (See Page 242)

Charter Stock Options. At the completion of the third merger, each outstanding option, whether or not exercisable or vested, to purchase shares of Charter Class A common stock will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock subject to such option immediately prior to the completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock will be equal to the quotient of (i) the exercise price of such option immediately prior to the completion of the third merger divided by (ii) the Parent Merger Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as were applicable to the corresponding options immediately prior to completion of the third merger.

Charter Restricted Stock Awards. At the completion of the third merger, each outstanding Charter restricted stock award will be converted into an award with respect to the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such award immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange

Table of Contents

Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock awards will be subject to the same terms and conditions as applied to the corresponding awards immediately prior to completion of the third merger.

Charter Restricted Stock Units. At the completion of the third merger, each outstanding Charter restricted stock unit, whether or not vested, will be converted into the right to acquire the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such unit immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the corresponding units immediately prior to completion of the third merger.

Recommendations of the TWC Board of Directors (See Page 152)

After consideration and consultation with its advisors, the TWC board of directors unanimously determined that the merger agreement, the mergers and the other transactions contemplated by the merger agreement are fair to and in the best interests of TWC's stockholders and unanimously approved and declared advisable the merger agreement, the mergers and the other transactions contemplated by the merger agreement. **The TWC board of directors unanimously recommends that TWC stockholders vote FOR the approval of the adoption of the merger agreement.** For the factors considered by the TWC board of directors in reaching this decision, see The Transactions TWC's Reasons for the Mergers; Recommendation of the TWC Board of Directors and TWC Proposals TWC Proposal I: Approval of the Adoption of the Merger Agreement beginning on pages 152 and 317, respectively, of this joint proxy statement/prospectus. In addition, the TWC board of directors unanimously recommends that TWC stockholders vote **FOR** the TWC advisory compensation proposal. See TWC Proposals TWC Proposal II: TWC Advisory Compensation Proposal beginning on page 317 of this joint proxy statement/prospectus.

Recommendations of the Charter Board of Directors (See Page 158)

After consideration and consultation with its advisors, the members of the Charter board of directors unanimously determined that the merger agreement, the mergers, the stock issuances, the Liberty transactions, the amended and restated certificate of incorporation, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement are fair to and in the best interests of Charter and its stockholders and unanimously approved and declared advisable each of the merger agreement and the mergers and the amended and restated certificate of incorporation, and unanimously approved the stock issuances, the Liberty transactions, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement. In addition, the members of the Charter board of directors (other than the directors affiliated with Liberty Broadband) unanimously determined that the Liberty transactions are fair to and in the best interests of Charter and its stockholders and unanimously approved the Liberty transactions. **The Charter board of directors unanimously recommends that Charter stockholders vote FOR the approval of the adoption of the merger agreement, FOR the approval of each of the stock issuances proposals, FOR the approval of the Liberty transactions proposal, FOR the approval of each of the certificate of incorporation proposals and FOR the Charter advisory compensation proposal.** For the factors considered by the Charter board of directors in reaching these decisions and a more detailed discussion of the recommendation of the Charter board of directors that the Charter stockholders approve the foregoing matters, see The Transactions Charter's Reasons for the Mergers and Other Transactions; Recommendation of the Charter Board of Directors, beginning on page 158 of this joint proxy statement/prospectus.

Table of Contents**Opinions of TWC's Financial Advisors (See Page 161)**

For purposes of the respective opinions and related analyses of TWC's financial advisors described in this joint proxy statement/prospectus, (i) transaction means the acquisition of TWC by Charter and (ii) related transactions means the TWC transactions, the BHN transactions and the other transactions contemplated in connection therewith (other than the first merger and the second merger).

Opinion of Allen & Company LLC

TWC has engaged Allen & Company LLC, referred to in this joint proxy statement/prospectus as Allen & Company, as a financial advisor in connection with the proposed transaction. In connection with this engagement, TWC requested that Allen & Company evaluate and render an opinion to the TWC board of directors regarding the fairness, from a financial point of view, to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration to be paid to such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction, Allen & Company rendered to the TWC board of directors an oral opinion, which was confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of that date and based on and subject to the matters described in its opinion, the merger consideration to be paid to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Allen & Company's written opinion, dated May 23, 2015, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is attached to this joint proxy statement/prospectus as Annex L. **Allen & Company's opinion was intended for the benefit and use of the TWC board of directors (in its capacity as such) in connection with its evaluation of the merger consideration from a financial point of view and did not address any other term, aspect or implication of the transaction. Allen & Company's opinion did not constitute a recommendation as to the course of action that the TWC board of directors or TWC should pursue in connection with the transaction or the related transactions, or otherwise address the merits of the underlying decision by TWC to engage in the transaction or the related transactions, including in comparison to other strategies or transactions that might be available to TWC or in which TWC might engage. Allen & Company's opinion does not constitute advice or a recommendation to any stockholder as to the form or relative fairness of the merger consideration to be elected by such stockholder or as to how such stockholder should vote or act on any matter relating to the transaction, the related transactions or otherwise.**

Opinion of Citigroup Global Markets Inc.

TWC also has retained Citigroup Global Markets Inc., referred to in this joint proxy statement/prospectus as Citi, as a financial advisor in connection with the proposed transaction. In connection with this engagement, TWC requested that Citi evaluate the fairness, from a financial point of view, to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration to be received by such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction, Citi delivered to the TWC board of directors an oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of that date and based on and subject to various assumptions, matters considered and limitations and qualifications described in its opinion, the merger consideration to be received by holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Citicorp's written opinion, dated May 23, 2015, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is attached as Annex M to this

Table of Contents

joint proxy statement/prospectus and is incorporated herein by reference. The description of Citi's opinion set forth below is qualified in its entirety by reference to the full text of Citi's opinion. **Citi's opinion was provided for the information of the TWC board of directors (in its capacity as such) in connection with its evaluation of the merger consideration from a financial point of view and did not address any other terms, aspects or implications of the transaction. Citi was not requested to consider, and its opinion did not address, the underlying business decision of TWC to effect the transaction or the related transactions, the relative merits of the transaction and the related transactions as compared to any alternative business strategies or opportunities that might exist for TWC or the effect of any other transaction in which TWC might engage. Citi's opinion is not intended to be and does not constitute a recommendation as to the form or relative fairness of the merger consideration to be elected by such stockholder or as to how any stockholder should vote or act on any matters relating to the proposed transaction, the related transactions or otherwise.**

Opinion of Morgan Stanley & Co. LLC

TWC also has retained Morgan Stanley & Co. LLC, referred to in this joint proxy statement/prospectus as Morgan Stanley, as a financial advisor in connection with the proposed transaction. As part of that engagement, TWC requested that Morgan Stanley evaluate the fairness, from a financial point of view, to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration to be received by such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction, Morgan Stanley rendered its oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the TWC board of directors to the effect that, as of that date and based on and subject to the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Morgan Stanley as set forth in its opinion, the merger consideration to be received by holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Morgan Stanley's written opinion, dated May 23, 2015, which sets forth, among other things, the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Morgan Stanley in connection with its opinion, is attached as Annex N to, and is incorporated by reference into, this joint proxy statement/prospectus. This summary is qualified in its entirety by reference to the full text of such opinion. **Morgan Stanley's opinion was directed to the TWC board of directors and addressed only the fairness from a financial point of view of the merger consideration as of the date of the opinion and did not address any other term or aspect of the merger agreement or the transaction. Morgan Stanley's opinion did not address TWC's underlying business decision to proceed with or effect the transaction or the related transactions, or the relative merits of the transaction and the related transactions as compared to any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or were available. Morgan Stanley expressed no opinion or recommendation as to the form or relative fairness of the merger consideration to be elected by the stockholders of TWC or how the stockholders of TWC or Charter should vote at the stockholders' meetings to be held in connection with the transaction or otherwise.**

Opinion of Financial Advisor to the TWC Independent Directors (See Page 176)

For purposes of the opinion and related analyses of the financial advisor to the TWC independent directors described in this joint proxy statement/prospectus, (i) **transaction** means the acquisition of TWC by Charter and (ii) **related transactions** means the TWC transactions, the BHN transactions and other transactions contemplated in connection therewith (other than the first merger and the second merger).

Table of Contents***Opinion of Centerview Partners LLC***

Centerview Partners LLC, referred to in this joint proxy statement/prospectus as Centerview, was retained as financial advisor to the TWC independent members of the TWC board of directors, referred to in this joint proxy statement/prospectus as the TWC independent directors, in connection with the proposed transaction. In connection with this engagement, Centerview was requested to evaluate the fairness, from a financial point of view, to holders of TWC common stock (other than shares held by TWC as treasury stock, shares owned by Merger Subsidiary One, shares held by any wholly owned subsidiary of TWC or Charter (other than Merger Subsidiary One), dissenting shares, together with shares held by Charter, Liberty Broadband, Liberty Interactive and their respective affiliates, collectively referred to as excluded shares) of the merger consideration to be paid to such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction, Centerview delivered to the TWC board of directors an oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of that date and based on and subject to various assumptions, matters considered and limitations and qualifications described in its opinion, the merger consideration to be paid to holders of TWC common stock (other than excluded shares) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Centerview's written opinion, dated May 23, 2015, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is attached as Annex O and is incorporated herein by reference. The description of Centerview's opinion set forth below is qualified in its entirety by reference to the full text of Centerview's opinion. Centerview's opinion was provided for the information and assistance of the TWC board of directors (in their capacity as directors and not in any other capacity) in connection with and for purposes of its evaluation of the merger consideration from a financial point of view and did not address any other term or aspect of the merger agreement or the transaction. Centerview expressed no view as to, and its opinion did not address, TWC's underlying business decision to proceed with or effect the transaction or the related transactions, or the relative merits of the transaction and the related transactions as compared to any alternative business strategies or transactions that might be available to TWC or in which TWC might engage. Centerview's opinion does not constitute a recommendation to any stockholder of TWC or any other person as to the form or relative fairness of the merger consideration to be elected by such stockholder or how such stockholder or other person should vote with respect to the transaction or otherwise act with respect to the transaction, the related transactions or any other matter.

Opinion of Charter's Financial Advisors (See Page 185)***Opinion of Goldman, Sachs & Co. Rendered in Connection with the TWC Transactions***

On May 23, 2015, at a meeting of the board of directors of Charter, Goldman Sachs rendered its oral opinion, subsequently confirmed in writing, to the effect that, as of May 23, 2015, based upon and subject to the factors and assumptions set forth in Goldman Sachs' written opinion, and taking into account the TWC Acquisition (as defined below), the Parent Merger Exchange Ratio pursuant to the merger agreement was fair from a financial point of view to the holders (other than Liberty Broadband and affiliates of a significant shareholder of Liberty Broadband, which we refer to, collectively, as the Liberty-related entities, and TWC and each of their respective affiliates) of shares of Charter Class A common stock. For purposes of Goldman Sachs' opinion, TWC Acquisition was defined as the acquisition of all of the outstanding shares of common stock of TWC for consideration consisting of cash and shares of New Charter Class A common stock pursuant to the mergers and transactions contemplated by the merger agreement and the Liberty contribution agreement, together with the investment by Liberty Broadband of \$4.3 billion in cash in New Charter in exchange for shares of New Charter Class A common stock as contemplated by the Liberty investment agreement.

Table of Contents

The full text of the written opinion of Goldman Sachs, dated May 23, 2015, which sets forth the assumptions made, procedures followed, matters considered, qualifications and limitations on the review undertaken in connection with the opinion, is attached to this joint proxy statement/prospectus as Annex H. The summary of Goldman Sachs opinion provided in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of Goldman Sachs written opinion. Goldman Sachs advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its consideration of the transactions contemplated by the merger agreement, the Liberty contribution agreement and the Liberty investment agreement, which we refer to, collectively for purposes of this section, as the TWC transactions, and the opinion does not constitute a recommendation as to how any holder of Charter Class A common stock should vote with respect to any portion of the TWC transactions or any other matter.

Opinion of Goldman, Sachs & Co. Rendered in Connection with the BHN transactions

On May 23, 2015, at a meeting of the board of directors of Charter, Goldman Sachs rendered its oral opinion, subsequently confirmed in writing, to the effect that, as of May 23, 2015, based upon and subject to the factors and assumptions set forth in Goldman Sachs written opinion, and taking into account, among other things, the issuance to Liberty Broadband of shares of New Charter Class A common stock pursuant to the BHN/Liberty stockholders agreement, which is referred to as the Liberty \$700 million stock issuance, and the amounts and timing of the payments estimated by Charter to be payable under the tax receivables agreement contemplated by the term sheet referenced below, which we refer to as the tax receivables payments, the aggregate consideration (consisting of approximately \$2.0 billion in cash, preferred units of Charter Holdings with a face amount of \$2.5 billion, 34,279,843 common units of Charter Holdings (or, if the TWC transactions are consummated before the BHN transactions are consummated, 30,992,406 common units of Charter Holdings), and one share of Class B common stock of New Charter), which we refer to as the BHN consideration, to be paid by Charter Holdings and New Charter pursuant to the BHN contribution agreement was fair from a financial point of view to Charter.

The full text of the written opinion of Goldman Sachs, dated May 23, 2015, which sets forth the assumptions made, procedures followed, matters considered, qualifications and limitations on the review undertaken in connection with the opinion, is attached to this joint proxy statement/prospectus as Annex I. The summary of the Goldman Sachs opinion provided in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of Goldman Sachs written opinion. Goldman Sachs advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its consideration of the BHN transactions, and the opinion does not constitute a recommendation as to how any holder of Charter Class A common stock should vote with respect to any portion of the BHN transactions or any other matter.

Opinion of LionTree Advisors LLC in Connection with the TWC Transactions

On May 23, 2015, at a meeting of the Charter board of directors, LionTree Advisors LLC, which we refer to as LionTree, rendered an oral opinion to the Charter board of directors (which was confirmed in writing by delivery of LionTree's written opinion dated May 23, 2015), as to the fairness, from a financial point of view, as of such date, to Charter of the merger consideration to be paid for the TWC common stock (for purposes of such opinion and this summary, other than (i) any such shares held by Liberty Broadband or Liberty Interactive, (ii) any such shares held by dissenting stockholders, (iii) any treasury shares, and (iv) any such shares held by any direct or indirect wholly owned subsidiary of TWC) pursuant to the merger agreement, based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion.

Table of Contents

LionTree's opinion was directed to the Charter board of directors and only addressed the fairness, from a financial point of view, to Charter of the merger consideration to be paid for the TWC common stock pursuant to the merger agreement and did not address any other aspect or implication of the mergers. The summary of LionTree's opinion is described in greater detail under The Transactions Opinions of Charter's Financial Advisors Opinion of LionTree Advisors LLC in Connection with the TWC Transactions beginning on page 204 of this joint proxy statement/prospectus. The full text of its written opinion, which is included as Annex J to this joint proxy statement/prospectus, sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion. The summary of LionTree's opinion provided in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of LionTree's written opinion. However, neither LionTree's opinion nor the summary of its opinion and the related analyses set forth in this joint proxy statement/prospectus constitute a recommendation to any stockholder as to how such stockholder should vote or act on any matter relating to the mergers or any other matter.

Opinion of LionTree Advisors LLC in Connection with the BHN Transactions

On May 23, 2015, at a meeting of the Charter board of directors, LionTree rendered an oral opinion to the Charter board of directors (which was confirmed in writing by delivery of LionTree's written opinion dated May 23, 2015), as to the fairness, from a financial point of view, as of such date, to Charter of the consideration to be paid to A/N for the assets to be acquired pursuant to the BHN contribution agreement, which we refer to as the BHN consideration, based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion.

LionTree's opinion was directed to the Charter board of directors and only addressed the fairness, from a financial point of view, to Charter of the BHN consideration to be paid for the assets to be acquired pursuant to the BHN contribution agreement and did not address any other aspect or implication of the BHN transactions. The summary of LionTree's opinion is described in greater detail under The Transactions Opinions of Charter's Financial Advisors Opinion of LionTree Advisors LLC in Connection with the BHN Transactions beginning on page 211 of this joint proxy statement/prospectus. The full text of its written opinion, which is included as Annex K to this joint proxy statement/prospectus, sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion. The summary of LionTree's opinion provided in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of LionTree's written opinion. However, neither LionTree's opinion nor the summary of its opinion and the related analyses set forth in this joint proxy statement/prospectus constitute a recommendation to any stockholder as to how such stockholder should vote or act on any matter relating to the BHN transactions or any other matter.

For further information, see The Transactions Opinions of Charter's Financial Advisors, beginning on page 185 of this joint proxy statement/prospectus.

Ownership of Shares of New Charter Class A Common Stock After the Mergers, the BHN Transactions and the Liberty Transactions (See Page 133)

Based on the number of shares of TWC common stock, TWC options and TWC restricted stock units, Charter Class A common stock and Charter options, Charter restricted stock awards and Charter restricted stock units outstanding as of July 31, 2015, New Charter expects to (i) issue approximately 142 million shares of New Charter Class A common stock to TWC stockholders (assuming the Option A Election is made by all TWC stockholders) pursuant to the mergers (including approximately 8 million shares to Liberty Broadband and Liberty Interactive in their capacities as

TWC stockholders) and reserve for issuance approximately 7 million additional shares of New Charter Class A common stock in connection with the conversion, exercise or

Table of Contents

settlement of outstanding TWC options and TWC restricted stock units and future equity compensation awards and (ii) issue approximately 101 million shares of New Charter Class A common stock to Charter stockholders pursuant to the mergers and reserve for issuance approximately 2 million additional shares of New Charter Class A common stock in connection with the conversion, exercise or settlement of outstanding Charter options, Charter restricted stock awards and Charter restricted stock units and future New Charter equity compensation awards. The actual number of shares of New Charter Class A common stock to be issued and reserved for issuance pursuant to the mergers will be determined at completion of the mergers based on the TWC stockholder election, the applicable exchange ratios and the number of shares of TWC common stock, TWC options and TWC restricted stock units, Charter Class A common stock and Charter options, Charter restricted stock awards and Charter restricted stock units outstanding at that time. In addition, in connection with the completion of the mergers, New Charter will issue to Liberty Broadband approximately 21.97 million shares of New Charter Class A common, for which Liberty Broadband will pay \$4.3 billion, and in connection with the BHN transactions, New Charter will issue approximately 3.66 million shares (giving effect to the Parent Merger Exchange Ratio) to Liberty Broadband pursuant to the BHN/Liberty stockholders agreement and will issue to A/N one share of New Charter Class B common stock, which will initially have a number of votes reflecting the voting power of the Charter Holdings common units (other than those owned by New Charter or Charter) and the convertible preferred units on an as-converted, as-exchanged basis, which voting rights are generally intended to reflect A/N's economic interests in New Charter and Charter Holdings. In the event the closing of the BHN transactions occurs, but the closing of the mergers does not occur, Charter will issue to Liberty Broadband approximately 4.0 million shares of Charter Class A common stock.

Based on the number of shares of TWC common stock outstanding as of July 31, 2015, and the number of shares of Charter Class A common stock outstanding as of July 31, 2015, it is expected that, immediately after completion of the mergers, the issuance of shares to Liberty Broadband and the completion of the BHN transactions, and depending on the outcome of the election feature described above, TWC stockholders, excluding Liberty Broadband, are expected to own between approximately 41% and 45% of New Charter, A/N is expected to own between approximately 14% and 13% of New Charter, Liberty Broadband is expected to own between approximately 19% and 17% of New Charter and existing Charter stockholders (other than Liberty Broadband) are expected to own between approximately 26% and 24% of New Charter.

If only the mergers are completed, it is expected that former Charter stockholders (excluding Liberty Broadband) will own between approximately 31% and 28% of New Charter Class A common stock and former TWC stockholders (excluding Liberty Broadband) will own between approximately 48% and 53% of New Charter Class A common stock. If only the BHN transactions are completed, it is expected that following the BHN transactions existing Charter stockholders (excluding Liberty Broadband) will own approximately 52% of Charter Class A common stock, Liberty Broadband will own approximately 20% of Charter Class A common stock and A/N will indirectly own approximately 28% of Charter Class A common stock (in each case giving effect to the possible conversion and exchange of the Charter Holdings common units and preferred units to be issued to A/N).

In connection with the TWC transactions, Liberty Broadband and Liberty Interactive entered into a proxy and right of first refusal agreement, pursuant to which, in connection with the closing of the transactions contemplated by the merger agreement, Liberty Interactive will grant Liberty Broadband an irrevocable proxy to vote all New Charter Class A common stock owned beneficially or of record by Liberty Interactive following such closing, with certain exceptions including, among other things, change of control transactions of New Charter, bankruptcy events of New Charter, and an authorization of any new class of securities of New Charter. In addition, at the closing of the BHN transactions, A/N and Liberty Broadband will enter into a proxy agreement pursuant to which A/N will grant to Liberty Broadband a 5-year irrevocable proxy (which we refer to as the A/N proxy) to vote, subject to certain exceptions, that number of shares of New Charter Class A common stock and New Charter Class B common stock, in each case held by A/N (such shares are referred to as the proxy shares), that will result in Liberty Broadband having

voting power in New Charter equal to 25.01% of the outstanding voting power of New Charter, provided,

Table of Contents

that the voting power of the proxy shares will be capped at 7.0% of the outstanding voting power of New Charter. Therefore, giving effect to the Liberty Interactive proxy and the A/N proxy and the voting cap contained in the BHN/Liberty stockholders agreement, Liberty Broadband is expected to have 25.01% of the outstanding voting power in New Charter following the consummation of the TWC transactions and BHN transactions.

Interests of TWC's Directors and Executive Officers in the Transactions (See Page 297)

When considering the recommendation of the TWC board of directors that TWC stockholders vote in favor of the approval of the adoption of the merger agreement, TWC stockholders should be aware that directors and executive officers of TWC have certain interests in the mergers that may be different from or in addition to the interests of TWC stockholders generally. The TWC board of directors was aware of these interests and considered them, among other things, in evaluating and negotiating the merger agreement and the mergers and in recommending that TWC stockholders adopt the merger agreement.

These interests include the following:

Upon the completion of the mergers, all TWC restricted stock unit and option awards covering the issuance of shares of TWC common stock held by active employees will convert into New Charter restricted stock unit and option awards covering the issuance of shares of New Charter Class A common stock in accordance with the methodology set forth in the merger agreement (as described in this joint proxy statement/prospectus) that is designed to preserve the value of such awards and uses the same exchange ratio that applies to TWC stockholders who made the Option A Election in the mergers. The converted awards will otherwise continue on the same terms and conditions that applied to the awards pre-conversion, including vesting conditions and forfeiture provisions.

If a TWC executive officer's employment is involuntarily terminated or he or she resigns for good reason following the completion of the mergers, all restricted stock units and unvested options held by the officer at that time will become 100% vested (a double trigger).

As a measure to encourage employee retention during the pendency of the mergers, all TWC employees who were eligible to receive equity awards (approximately 1,900 employees), including the executive officers, received equity awards in June 2015 that advanced equity awards that would otherwise have been made in 2017. This grant is referred to in this joint proxy statement/prospectus as the 2017 retention grant. The value and vesting periods of the retention grants were designed to mirror what they would have been in respect of the regularly-scheduled 2017 annual grants. The intended value of each employee's 2017 retention grant was intended to equal the value of the employee's long-term incentive target value at the time of grant. The vesting period required for full or partial vesting is the same as it would have been if the regularly-scheduled 2017 grant had been made instead (without performance-based vesting conditions and subject to potential acceleration of vesting upon certain terminations of employment after the completion of the mergers and forfeiture upon certain terminations prior to that time). Pursuant to the merger agreement, before the completion of the mergers, TWC may not make equity grants other than in the ordinary course of business consistent with past practice and subject to the limitation that, in all cases, the aggregate value of (i) the 2017 retention grant (which totaled approximately \$147.6 million at the date of grant) and (ii) other permitted equity awards (but excluding ordinary course equity grants to new hires, newly promoted executives, and

annual equity awards to non-employee directors) made prior to the completion of the mergers cannot exceed \$225 million at the time of grant. TWC does not intend to make additional annual equity grants in 2016 and 2017 with respect to 2016 and 2017, respectively, regardless of whether the mergers are completed or the merger agreement is terminated.

Table of Contents

TWC's executive officers are parties to employment agreements that provide for cash severance payments and benefits in the event of certain terminations of employment. For certain of these officers, the severance is enhanced if such termination occurs in connection with a change in control, such as the completion of the mergers. Pursuant to the terms of the merger agreement, following the completion of the mergers, Charter is required to honor the severance arrangements of TWC's executive officers in accordance with their terms.

As a measure to encourage employee focus on TWC's goals and retention during the pendency of the mergers and thereafter, TWC has awarded a supplemental bonus opportunity to all employees, including its executive officers, who participate in TWC's regular 2015 annual cash incentive plan (approximately 14,000 employees). The supplemental bonus opportunity is equal to 50% of each eligible employee's actual bonus payout under TWC's regular 2015 annual cash incentive plan. While the 2015 annual cash incentive plan bonuses will be paid subject to performance and when such bonuses would normally be paid, any supplemental bonus will generally be paid out on July 1, 2016. The supplemental bonus is generally not payable if the 2015 performance conditions are not met. Under the merger agreement, TWC is permitted to pay out these supplemental bonuses in an amount of up to \$100 million, in the aggregate.

Under the terms of the merger agreement, New Charter is required, for the period beginning on the completion of the mergers and ending on the first anniversary of the completion of the mergers, (i) to provide TWC employees (except those covered by a collective bargaining agreement) with base pay and annual cash bonus opportunities, as applicable, that are no less favorable in the aggregate than those provided to TWC employees immediately prior to the completion of the mergers and (ii) to provide TWC employees (except those covered by a collective bargaining agreement) with commission and cash incentive opportunities, as applicable, that are no less favorable than either those provided to each such TWC employee immediately prior to the completion of the mergers or those provided to similarly situated employees of New Charter or its subsidiaries following the completion of the mergers. The 2017 retention grant and 2015 supplemental bonus are not taken into account in determining whether such compensation is not less favorable than it was before the completion of the mergers.

Upon the completion of the mergers, all equity awards held by TWC's non-employee directors will be cancelled, and TWC will pay such directors a cash amount calculated as described under "The Merger Agreement Treatment of TWC Equity Awards" beginning on page 240 of this joint proxy statement/prospectus.

TWC's directors and executive officers are entitled to continued indemnification and insurance coverage under the merger agreement.

For a more complete description of these interests, see "Interests of TWC's Directors and Executive Officers in the Transactions," "The Merger Agreement Employee Matters" and "The Merger Agreement Indemnification and Insurance," beginning on pages 297, 261 and 260, respectively, of this joint proxy statement/prospectus.

Interests of Charter's Directors and Executive Officers in the Transactions (See Page 312)

When considering the recommendation of the Charter board of directors that Charter stockholders vote in favor of the approval of the adoption of the merger agreement, the stock issuances proposals, the Liberty transactions proposal and each of the certificate of incorporation proposals, Charter stockholders should be aware that directors and executive

officers of Charter have certain interests in the proposed mergers and other transactions that may be different from or in addition to the interests of Charter stockholders generally. The Charter board of directors was aware of these interests and considered them, among other things, in evaluating

Table of Contents

and negotiating the various transaction agreements and the proposed mergers and other transactions, and in making its recommendation that Charter's stockholders vote to approve the various proposals of Charter.

These interests include the following:

Outstanding Charter stock options, restricted stock awards and restricted stock units (including those held by the directors and executive officers) will convert upon completion of the third merger into New Charter stock options, restricted stock awards and restricted stock units of substantially equivalent value, and as a result of the mergers, such awards would be eligible for accelerated vesting under certain circumstances;

Employment agreements between Charter and its executive officers (other than Kevin Howard) and a severance plan that covers Charter's senior vice presidents (including Mr. Howard), each of which were in effect prior to the Charter board of director's evaluation and negotiation of the various transaction agreements, provide for certain benefits upon a qualifying termination of employment of the applicable executive officer (which terminations are not currently anticipated in connection with the mergers);

In connection with the consummation of the proposed mergers and other transactions, Charter's chief executive officer, Thomas Rutledge, is expected to be offered the role of chief executive officer and chairman of New Charter and a new five-year employment agreement with New Charter, the terms of which are expected to be negotiated prior to consummation of the proposed mergers and other transactions; and

Charter's directors and executive officers are entitled to continued indemnification and insurance coverage under the merger agreement.

For a more complete description of these interests, see "Interests of Charter's Directors and Executive Officers in the Transactions" and "The Merger Agreement - Indemnification and Insurance," beginning on pages 312 and 260, respectively, of this joint proxy statement/prospectus.

Listing of Shares of New Charter Class A Common Stock and Delisting and Deregistration of TWC Common Stock (See Page 234)

New Charter will apply for listing on NASDAQ, where shares of Charter Class A common stock are currently traded, of the shares of New Charter Class A common stock to be issued in the mergers and to Liberty Broadband. If the mergers are completed, the shares of New Charter Class A common stock to be issued in the mergers will be listed on NASDAQ, and TWC shares will no longer be listed on the New York Stock Exchange and will be deregistered under the Exchange Act.

Completion of the Mergers is Subject to Certain Conditions (See Page 243)

As more fully described in this joint proxy statement/prospectus and in the merger agreement, the obligation of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three, on the one hand, and TWC, on the other hand, to complete the mergers is subject to the satisfaction or waiver of a number of conditions, including the following:

approval of the adoption of the merger agreement by the affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote;

approval of the adoption of the merger agreement by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock entitled to vote and, with respect to the second merger, the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote;

Table of Contents

approval of the New Charter stock issuance in connection with the mergers contemplated by the merger agreement by the affirmative vote of a majority of votes cast at the Charter special meeting by the holders of Charter Class A common stock;

approval of the BHN/Liberty stockholders agreement (including the issuance of shares of New Charter or Charter Class A common stock to Liberty Broadband thereunder), the investment agreement with Liberty Broadband (including the issuance of New Charter or Charter Class A common stock to Liberty Broadband thereunder), the contribution agreement with Liberty Broadband and Liberty Interactive and the other transactions contemplated by the merger agreement and the foregoing agreements with Liberty Broadband and Liberty Interactive by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock (excluding the shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote and by the affirmative vote of a majority of votes cast at the Charter special meeting by the holders of Charter Class A common stock;

approval of New Charter's amended and restated certificate of incorporation (and each of the related certificate of incorporation proposals) by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote;

expiration or termination of any applicable waiting period (or extension thereof) under the HSR Act relating to the transactions contemplated by the merger agreement (solely with respect to the obligations of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to complete the mergers, without the imposition of any burdensome condition (see The Merger Agreement Reasonable Best Efforts Covenant for a definition of burdensome condition));

(i) adoption of an order, and release of the full text thereof, by the FCC granting its consent to the transfer of control or assignment of the licenses issued by the FCC to TWC or any of its subsidiaries or affiliates, (ii) approval of certain local franchise authorities (LFAs), such that the sum of the aggregate number of video subscribers of TWC belonging to franchise areas for which either (x) no LFA consent is required or (y) if LFA consent is required, such consent shall have been obtained, shall be no less than 85% of the aggregate number of video subscribers of TWC and (iii) authorizations of state public utilities commissions whose consent is required in connection with the transactions contemplated by the merger agreement (solely with respect to the obligations of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to complete the mergers, in each case without the imposition of any burdensome condition) (these requirements are described in more detail under The Transactions Regulatory Approvals Required for the Mergers);

except for the conditions described in the two preceding bullets, (i) absence of (x) any applicable law of a governmental authority of competent jurisdiction enacted or promulgated after the date of the merger agreement in a jurisdiction in which any of TWC, Charter or their respective subsidiaries has substantial operations and (y) any order of a governmental authority of competent jurisdiction that, in each case, (1) imposes any burdensome condition or (2) prohibits completion of the mergers and the violation of which would result in criminal liability, and (ii) the absence of any injunction (whether temporary, preliminary or

permanent) by any governmental authority of competent jurisdiction that imposes a burdensome condition or prohibits completion of the mergers;

effectiveness of the registration statement for the shares of New Charter Class A common stock being issued in the mergers (of which this joint proxy statement/prospectus forms a part) and the absence of any stop order suspending that effectiveness or any proceedings for that purpose pending before the SEC;

approval for the listing on NASDAQ of the shares of New Charter Class A common stock to be issued in the mergers, subject only to official notice of issuance;

accuracy of the representations and warranties made in the merger agreement by the other party, subject to certain materiality thresholds;

Table of Contents

performance in all material respects by the other party of the material obligations required to be performed by it at or prior to completion of the merger;

the absence of a material adverse effect on the other party (see The Merger Agreement Definition of Material Adverse Effect, beginning on page 247 of this joint proxy statement/prospectus for the definition of material adverse effect);

receipt of a certificate executed by an executive officer of the other party as to the satisfaction of the conditions described in the preceding three bullets with respect to such other party; and

delivery of opinions of Wachtell, Lipton, Rosen & Katz, in the case of Charter, and Paul, Weiss, Rifkind, Wharton & Garrison LLP, in the case of TWC, with respect to certain tax aspects of the mergers. Charter and TWC cannot be certain when, or if, the conditions to the mergers will be satisfied or waived, or that the mergers will be completed.

The mergers are not conditioned upon completion of the BHN transactions (or the stock issuance to A/N). The mergers and the BHN transactions are subject to separate conditions, and the mergers may be completed whether or not the BHN transactions are ultimately consummated. The consummation of the BHN transactions is conditioned on the completion of the mergers. However, if the mergers are not completed, Charter and A/N may still be obligated to complete the BHN transactions in certain circumstances, as described under The BHN Contribution Agreement if the tail condition (which is described in greater detail under The BHN Contribution Agreement Conditions to the Completion of the Contribution) is satisfied. **There can be no assurance that the BHN transactions will be completed if the mergers are not completed.**

The Mergers May Not Be Completed Without All Required Regulatory Approvals (See Page 223)

Completion of the mergers is conditioned upon the receipt of certain governmental clearances or approvals, including, but not limited to, the expiration or termination of the waiting period relating to the mergers under the HSR Act, approval of the FCC and certain other governmental consents and approvals from state regulators and franchise authorities.

Under the HSR Act, certain transactions, including the mergers, may not be completed unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-merger notification with the Federal Trade Commission, which is referred to in this joint proxy statement/prospectus as the FTC, and the Antitrust Division of the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration of a 30-calendar-day waiting period following the parties' filings of their respective HSR Act notification forms or the termination of that waiting period. If the DOJ issues a Request for Additional Information and Documentary Material (Second Request) prior to the expiration of the initial waiting period, the parties must observe a second 30-calendar-day waiting period, which would begin to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

Both Charter and TWC are subject to regulation by the FCC under the Communications Act of 1934, as amended, which is referred to in this joint proxy statement/prospectus as the Communications Act. Each company holds a number of licenses and authorizations issued by the FCC for the operation of its business. The FCC must approve the transfer of control of these licenses and authorizations to New Charter as a result of the mergers. The mergers are also

subject to the approval of LFAs with respect to the transfer of control of franchises as a result of the mergers. In addition, Charter and TWC are required to obtain approval of certain state public utility commissions with respect to the transfer of control of certificates of public convenience and necessity for telecommunications services and in connection with financing-related regulatory requirements of some states in connection with the mergers.

Table of Contents

Charter and TWC have agreed to use their respective reasonable best efforts to obtain all regulatory approvals required to complete the mergers. In furtherance of the foregoing, Charter and TWC agreed in the merger agreement to make and not withdraw (i) as promptly as practicable (and not later than 30 business days following the date of the merger agreement), an appropriate filing of a Notification and Report Form pursuant to the HSR Act and all necessary filings to obtain consents from the FCC that are required in connection with the mergers, and (ii) as promptly as practicable (and not later than July 22, 2015), all necessary filings to obtain consents from state regulators and franchise authorities, and all other registrations, declarations, notices and filings with governmental authorities that are required in connection with the mergers.

On June 24, 2015, Charter and TWC submitted their respective Notification and Report Forms under the HSR Act, triggering a 30-calendar-day waiting period expiring on July 24, 2015, unless otherwise extended or early terminated. On July 24, 2015, Charter and TWC received a Second Request, triggering a second 30-calendar-day waiting period, which will begin to run only after both parties have substantially complied with the Second Request, unless early terminated. Charter and TWC have engaged and continue to engage in dialogue with the Antitrust Division of the DOJ to answer questions posed and to provide additional details regarding the mergers.

Charter's obligation to use reasonable best efforts will include such efforts to take any actions and accept any conditions and other remedies to the extent such actions, conditions or other remedies would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the condition (financial or otherwise), business, assets or results of operations of Charter, TWC and their subsidiaries, taken as a whole (but without taking into account the BHN transactions). Each condition, remedy or action that Charter is not required to accept or take is referred to in this joint proxy statement/prospectus as a burdensome condition. Charter and TWC have also agreed not to, and to cause their respective subsidiaries and affiliates not to, (i) take any action that would reasonably be expected to have the effect of materially delaying, impairing or impeding the receipt of any regulatory approvals required in connection with the transactions contemplated by the merger agreement or the completion of the mergers, or (ii) acquire or agree to acquire (by merger, consolidation, acquisition of stock or assets or otherwise), directly or indirectly, any assets, securities (other than securities issued by such party as permitted by the terms of the merger agreement), properties, interests or business in any transaction or series of related transactions if such acquisition would (A) require approval of the FCC or (B) (without the consent of the other party, not to be unreasonably withheld, conditioned or delayed) have a value, or involve the payment of consideration, in excess of \$350 million, subject to certain limited exceptions agreed to by the parties (including the ability of Charter and its subsidiaries to bid on and purchase wireless spectrum). In addition, TWC has agreed not to accept any of the conditions or take any actions in connection with TWC's and Charter's efforts to obtain regulatory approval without Charter's prior written consent.

The regulatory filings described above relate to approvals for the mergers only. Charter and A/N have also agreed to certain regulatory approval covenants relating to the BHN transactions described below.

Completion of the BHN Transactions is Subject to Certain Conditions (See Page 269)

As more fully described in this joint proxy statement/prospectus and in the BHN contribution agreement, the obligation of each party to the BHN contribution agreement to complete the BHN transactions is subject to the satisfaction or waiver of a number of conditions, including the following:

the consummation of the mergers, except in certain circumstances;

expiration or termination of the HSR Act waiting period and receipt of certain regulatory approvals applicable to the completion of the BHN transactions (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition);

Table of Contents

obtaining all of the required consents by the FCC to the transfer to Charter of all FCC licenses, authorizations, permits and consents held by BHN or its subsidiaries and/or used in the BHN business (solely with respect to Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome);

the aggregate number of video customers served by the BHN systems used in the BHN business (i) pursuant to the grandfathering provisions of the Communications Act and (ii) pursuant to each franchise for which (A) no consent is required from any government entity for the completion of the BHN contribution or (B) any such consent is required and has been received (or deemed received under Section 617 of the Communications Act) (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition) shall not be less than 80% of the video customers then served by the BHN systems used in the BHN business; and if less than 100% of such number of video customers, all applicable waiting periods (including extensions) shall have expired with respect to the FCC Forms 394 filed in connection with requests for approvals by local franchising authorities that have not been obtained;

obtaining authorizations from state communications authorities as required for Charter to provide voice and other regulated services in the BHN systems used in the BHN business following the closing (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition), all of which must remain in full force and effect;

the absence of any statute, rule, regulation, executive order, decree, judgment, injunction or other order (whether temporary, preliminary or permanent) in effect that makes unlawful, prohibits, delays, enjoins or otherwise prevents or restricts, the consummation of the BHN transactions, or any pending action that seeks any of the foregoing;

approval of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the stock issuance to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals;

the BHN/Liberty stockholders agreement being valid, binding and enforceable and in full force and effect;

the absence of a material adverse effect on the other party (see The BHN Contribution Agreement Definition of Material Adverse Effect, beginning on page 273 of this joint proxy statement/prospectus for the definition of material adverse effect); and

certain other customary conditions with respect to the accuracy of representations and warranties, performance of covenants and agreements, receipt of certifications with respect to the satisfaction of certain conditions, and delivery of certain other specified certificates, instruments of assignment and transaction documents.

As more fully described in the BHN contribution agreement, the obligation of Charter, New Charter and Charter Holdings to complete the BHN transactions is also subject to the completion by A/N of a restructuring, pursuant to which BHN will transfer to A/N certain excluded assets and A/N shall assume from BHN certain excluded liabilities.

The BHN Transactions May Not Be Completed Without All Required Regulatory Approvals (See Page 225)

Completion of the BHN transactions is conditioned upon the receipt of certain governmental clearances or approvals, including, but not limited to, the expiration or termination of the waiting period relating to the BHN transactions under the HSR Act, approval of the FCC and certain other governmental consents and approvals from state regulators and franchise authorities.

Table of Contents

Under the HSR Act, certain transactions, including the BHN transactions, may not be completed unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-transaction notification with the FTC and the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration of a 30-calendar-day waiting period following the parties' filings of their respective HSR Act notification forms or the termination of that waiting period. If the DOJ issues a Request for Additional Information and Documentary Material prior to the expiration of the initial waiting period, the parties must observe a second 30-calendar-day waiting period, which would begin to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

On June 24, 2015, Charter and Newhouse Broadcasting Corporation (Newhouse), an ultimate parent entity of BHN, submitted their respective Notification and Report Forms under the HSR Act, triggering a 30-calendar-day waiting period expiring on July 24, 2015, unless otherwise extended or early terminated. On July 24, 2015, Charter and Newhouse received a Second Request, triggering a second 30-calendar-day waiting period, which will begin to run only after both parties have substantially complied with the Second Request, unless early terminated. Charter and Newhouse have engaged and continue to engage in dialogue with the Antitrust Division of the DOJ to answer questions posed and to provide additional details regarding the BHN transactions.

Both Charter and BHN are subject to regulation by the FCC under the Communications Act. Each company holds a number of licenses and authorizations issued by the FCC for the operation of its business. The FCC must approve the transfer of control of these licenses and authorizations to New Charter as a result of the BHN transactions. The BHN transactions are also subject to the approval of LFAs with respect to the transfer of control of certain franchises as a result of the BHN transactions. In addition, Charter and A/N are required to obtain approval of certain state public utility commissions with respect to the transfer of control of certificates of public convenience and necessity for telecommunications services as a result of the BHN transactions.

Charter and A/N have agreed to use their respective reasonable best efforts to obtain all regulatory approvals required to complete the BHN transactions. In furtherance of the foregoing, Charter and A/N agreed in the BHN contribution agreement to file, as promptly as practicable (and not later than July 7, 2015), all appropriate applications and requests to obtain consents from the FCC and other government entities in connection with the BHN transactions and to promptly file any additional information requested by any government entity. Charter and A/N have also agreed not to, in bad faith, take any action that would reasonably be expected to have the effect of delaying, impairing or impeding the receipt of any regulatory approvals required in connection with the BHN transactions.

Charter's obligation to use reasonable best efforts will not require Charter, New Charter, Charter Holdings or any of their subsidiaries to divest or otherwise hold separate any businesses, assets or properties, accept conditions or any take any other actions that would apply to or affect any businesses, assets or properties of Charter, New Charter, Charter Holdings or any of their subsidiaries or litigate or participate in the litigation of any proceeding involving the FCC, FTC or DOJ to oppose or defend against any action by any such governmental entity to prevent or enjoin the consummation of the BHN transactions; except such efforts will require Charter, New Charter, Charter Holdings and their respective subsidiaries to engage in divestitures or accept conditions or remedies or take other actions imposed by any such governmental entity to the extent such divestitures, actions, conditions or other remedies are (i) consistent in scope and magnitude with the conditions and actions required or imposed by governmental entities in connection with prior acquisitions of United States domestic cable systems completed in the 12 years prior to May 23, 2015 with an aggregate purchase price of at least \$500 million or (ii) related to franchises, state telecommunication authorizations (other than California) or regional sports networks regardless of whether any such condition or action is required or imposed by a governmental entity in connection with prior acquisitions of United States domestic cable systems completed in the 12 years prior to May 23, 2015 with an aggregate purchase price of at least \$500 million. Each condition,

Table of Contents

remedy or action that Charter is not required to accept or take is referred to in this joint proxy statement/prospectus as a BHN contribution burdensome condition, which is described in greater detail under The BHN Contribution Agreement Reasonable Best Efforts Covenant.

Closing of the Mergers, the BHN Transactions and the Liberty Transactions

The mergers will occur no later than five business days after the conditions to its completion have been satisfied or, to the extent permitted, waived, unless otherwise mutually agreed by the parties to the merger agreement. The BHN transactions will occur no later than five business days after the conditions to its completion have been satisfied or, to the extent permitted, waived, unless otherwise mutually agreed by the parties to the BHN contribution agreement. The parties are working to complete the mergers, the BHN transactions and the Liberty transactions by the end of 2015, subject to regulatory approvals and satisfaction (or, to the extent permissible, waiver) of the conditions to the parties obligations to complete the mergers, the BHN transactions and/or the Liberty transactions, as applicable. However, there can be no assurance as to when, or if, the mergers, the BHN transactions and/or the Liberty transactions will occur or that they will occur by the end of 2015.

No Solicitation by TWC (See Page 251)

As more fully described in this joint proxy statement/prospectus and in the merger agreement, and subject to the exceptions described below, TWC has agreed that neither TWC nor any of its subsidiaries will, nor will TWC or any of its subsidiaries authorize or permit any of its or their officers, directors, employees or representatives to (i) solicit, initiate or take any action to knowingly facilitate or encourage the submission of a TWC acquisition proposal (as defined under The Merger Agreement No Solicitation by TWC, beginning on page 253 of this joint proxy statement/prospectus), (ii) enter into or participate in any discussions or negotiations regarding any such proposal, (iii) furnish any non-public information relating to TWC or its subsidiaries to any third party that is seeking to make, or has made, a TWC acquisition proposal, (iv) except as described below, fail to make, withdraw or modify in a manner adverse to Charter the recommendation of the TWC board of directors in favor of the approval of the adoption of the merger agreement or recommend a TWC acquisition proposal (any action described in this clause (iv) is referred to in this joint proxy statement/prospectus as a TWC adverse recommendation change), (v) fail to enforce or grant any waiver or release under any standstill or similar agreement, (vi) approve any transaction under, or any person becoming an interested stockholder under, the Delaware anti-takeover statute, or (vii) enter into an agreement or other instrument relating to a TWC acquisition proposal. However, so long as TWC and its representatives have otherwise complied with the foregoing requirements, TWC and its representatives may, at any time prior to the adoption of the merger agreement by TWC stockholders, participate in discussions with any third party who has made an unsolicited TWC acquisition proposal after the date of the merger agreement solely to request the clarification of the terms and conditions of the proposal so as to determine whether such proposal is, or could reasonably be expected to lead to, a TWC superior proposal (as defined under The Merger Agreement No Solicitation by TWC, beginning on page 254 of this joint proxy statement/prospectus).

Notwithstanding the foregoing, at any time prior to the adoption of the merger agreement by TWC stockholders, subject to the terms and conditions described in the merger agreement, TWC is permitted to:

engage in negotiations or discussions with any third party that has made, after the date of the merger agreement, a TWC superior proposal or a TWC acquisition proposal that the TWC board of directors determines in good faith, after consultation with its outside legal advisors, could reasonably be expected to lead to a TWC superior proposal by the third party making such TWC acquisition proposal, (ii) furnish to

such third party and its representatives non-public information relating to TWC or any of its subsidiaries pursuant to a customary confidentiality agreement with such third party with terms no less favorable to TWC than those contained in the confidentiality agreement between TWC and Charter (but such confidentiality agreement need not contain a standstill or similar provision that prohibits

Table of Contents

such third party from making any TWC acquisition proposal, acquiring TWC or taking any other action); provided that all such information (to the extent not previously provided or made available to Charter) is provided or made available to Charter prior to or as promptly as practicable (but no later than 24 hours) after the time it is provided or made available to such third party) and (iii) take any action required by applicable law or that any court of competent jurisdiction orders TWC to take; and

the TWC board of directors may make a TWC adverse recommendation change (i) following receipt of a TWC superior proposal or (ii) involving or relating to a TWC intervening event (as defined under The Merger Agreement No Solicitation by TWC, beginning on page 254 of this joint proxy statement/prospectus).

TWC is only permitted to take the actions described above if the TWC board of directors determines in good faith, after considering advice from outside legal counsel, that the failure to take that action would be inconsistent with its fiduciary duties under applicable law. In addition, before taking any of the actions described above, TWC has to notify Charter that it intends to take that action and continue to advise Charter on a current basis of the status and terms of any discussions and negotiations with any third party in connection with a TWC acquisition proposal. Further, the TWC board of directors is not permitted to make a TWC adverse recommendation change in response to a TWC acquisition proposal unless (i) such TWC acquisition proposal constitutes a TWC superior proposal, (ii) TWC promptly notifies Charter, in writing at least five business days before taking that action, of its intention to do so, and attaches the most current version of the proposed agreement under which such TWC superior proposal is proposed to be consummated and the identity of the third party making the TWC superior proposal, and (iii) Charter does not make, within such five-business-day period, an offer that is at least as favorable to the stockholders of TWC as such TWC superior proposal.

In addition, the TWC board of directors is not permitted to make a TWC adverse recommendation change in response to a TWC intervening event unless (i) TWC has provided Charter with written information describing the TWC intervening event in reasonable detail promptly after becoming aware of it and keeps Charter fully informed, on a reasonably current basis, of material developments with respect to such TWC intervening event, (ii) TWC has provided Charter at least five business days prior notice of its intention to make a TWC adverse recommendation change with respect to such TWC intervening event, attaching a reasonably detailed explanation of the facts underlying the determination by the TWC board of directors that a TWC intervening event has occurred and its need to make a TWC adverse recommendation change in light of the TWC intervening event and (iii) Charter does not make, within such five-business-day period, an offer that the TWC board of directors determines would obviate the need for a TWC adverse recommendation change in light of the TWC intervening event.

During any five-business-day period prior to effecting a TWC adverse recommendation change in response to a TWC acquisition proposal or a TWC intervening event, TWC and its representatives must negotiate in good faith with Charter and its representatives regarding any revisions to the terms of the transactions contemplated by the merger agreement proposed by Charter.

If the TWC board of directors withdraws, modifies or qualifies its recommendation in favor of the approval of the adoption of the merger agreement, the merger agreement must nonetheless be submitted to TWC's stockholders for adoption, unless the merger agreement has been terminated in accordance with its terms. See The Merger Agreement Obligation of the TWC Board of Directors to Recommend the Merger Agreement and Call and Hold a Stockholders Meeting, beginning on page 251 of this joint proxy statement/prospectus.

No Solicitation by Charter (See Page 255)

As more fully described in this joint proxy statement/prospectus and in the merger agreement, and subject to the exceptions described below, Charter has agreed that neither Charter nor any of its subsidiaries will, nor will

Table of Contents

Charter or any of its subsidiaries authorize or permit any of its or their officers, directors, employees or representatives to (i) solicit, initiate or take any action to knowingly facilitate or encourage the submission of a Charter acquisition proposal (as defined under The Merger Agreement No Solicitation by Charter, beginning on page 257 of this joint proxy statement/prospectus), (ii) enter into or participate in any discussions or negotiations regarding any such proposal, (iii) furnish any non-public information relating to Charter or its subsidiaries to any third party that is seeking to make, or has made, a Charter acquisition proposal, (iv) except as described below, fail to make, withdraw or modify in a manner adverse to TWC the recommendation of the Charter board of directors in favor of the approval of the adoption of the merger agreement and related proposals or recommend a Charter acquisition proposal (any action described in this clause (iv) is referred to in this joint proxy statement/prospectus as a Charter adverse recommendation change), (v) fail to enforce or grant any waiver or release under any standstill or similar agreement, (vi) approve any transaction under, or any person becoming an interested stockholder under, the Delaware anti-takeover statute, or (vii) enter into an agreement or other instrument relating to a Charter acquisition proposal. However, so long as Charter and its representatives have otherwise complied with the foregoing requirements, Charter and its representatives may, at any time prior to the adoption of the merger agreement by Charter stockholders and approval of the related proposals by Charter stockholders, participate in discussions with any third party who has made an unsolicited Charter acquisition proposal after the date of the merger agreement solely to request the clarification of the terms and conditions of the proposal so as to determine whether such proposal is, or could reasonably be expected to lead to, a Charter superior proposal (as defined under The Merger Agreement No Solicitation by Charter, beginning on page 257 of this joint proxy statement/prospectus).

Notwithstanding the foregoing, at any time prior to the adoption of the merger agreement by Charter stockholders and approval of the related proposals by Charter stockholders, subject to the terms and conditions described in the merger agreement, Charter is permitted to:

engage in negotiations or discussions with any third party that has made, after the date of the merger agreement, a Charter superior proposal or a Charter acquisition proposal that the Charter board of directors determines in good faith, after consultation with its outside legal advisors, could reasonably be expected to lead to a Charter superior proposal by the third party making such Charter acquisition proposal, (ii) furnish to such third party and its representatives non-public information relating to Charter or any of its subsidiaries pursuant to a customary confidentiality agreement with such third party with terms no less favorable to Charter than those contained in the confidentiality agreement between TWC and Charter (but such confidentiality agreement need not contain a standstill or similar provision that prohibits such third party from making any Charter acquisition proposal, acquiring Charter or taking any other action); provided that all such information (to the extent not previously provided or made available to TWC) is provided or made available to TWC prior to or as promptly as practicable (but no later than 24 hours) after the time it is provided or made available to such third party) and (iii) take any action required by applicable law or that any court of competent jurisdiction orders Charter to take; and

the Charter board of directors may make a Charter adverse recommendation change (i) following receipt of a Charter superior proposal or (ii) involving or relating to a Charter intervening event (as defined under The Merger Agreement No Solicitation by Charter, beginning on page 257 of this joint proxy statement/prospectus).

Charter is only permitted to take the actions described above if the Charter board of directors determines in good faith, after considering advice from outside legal counsel, that the failure to take that action would be inconsistent with its fiduciary duties under applicable law. In addition, before taking any of the actions described above, Charter has to

notify TWC that it intends to take that action and continue to advise TWC on a current basis of the status and terms of any discussions and negotiations with any third party in connection with a Charter acquisition proposal. Further, the Charter board of directors is not permitted to make a Charter adverse

Table of Contents

recommendation change in response to a Charter acquisition proposal unless (i) such Charter acquisition proposal constitutes a Charter superior proposal, (ii) Charter promptly notifies TWC, in writing at least five business days before taking that action, of its intention to do so, and attaches the most current version of the proposed agreement under which such Charter superior proposal is proposed to be consummated and the identity of the third party making the Charter superior proposal, and (iii) TWC does not make, within such five-business-day period, an offer to revise the terms of the merger agreement that is at least as favorable to the stockholders of Charter as such Charter superior proposal.

In addition, the Charter board of directors is not permitted to make a Charter adverse recommendation change in response to a Charter intervening event unless (i) Charter has provided TWC with written information describing the Charter intervening event in reasonable detail promptly after becoming aware of it and keeps TWC fully informed, on a reasonably current basis, of material developments with respect to such Charter intervening event, (ii) Charter has provided TWC at least five business days prior notice of its intention to make a Charter adverse recommendation change with respect to such Charter intervening event, attaching a reasonably detailed explanation of the facts underlying the determination by the Charter board of directors that a Charter intervening event has occurred and its need to make a Charter adverse recommendation change in light of the Charter intervening event and (iii) TWC does not make, within such five-business-day period, an offer to revise the terms of the merger agreement that the Charter board of directors determines would obviate the need for an adverse recommendation change in light of the Charter intervening event.

During any five-business-day period prior to effecting a Charter adverse recommendation change in response to a Charter acquisition proposal or a Charter intervening event, Charter and its representatives must negotiate in good faith with TWC and its representatives regarding any revisions to the terms of the transactions contemplated by the merger agreement proposed by TWC.

If the Charter board of directors withdraws, modifies or qualifies its recommendation in favor of the approval of the adoption of the merger agreement and approval of the related proposals by Charter stockholders, the merger agreement and the other related proposals must nonetheless be submitted to Charter's stockholders for adoption and approval, unless the merger agreement has been terminated in accordance with its terms. See *The Merger Agreement* *Obligation of the Charter Board of Directors to Recommend the Merger Agreement and Call and Hold a Stockholders Meeting* beginning on page 254 of this joint proxy statement/prospectus.

Termination of the Merger Agreement (See Page 263)

As more fully described in this joint proxy statement/prospectus and in the merger agreement, and subject to the terms and conditions described in the merger agreement, the merger agreement may be terminated at any time before completion of the mergers in any of the following ways:

by mutual written agreement of Charter and TWC;

by either Charter or TWC, if:

the mergers have not been completed on or before the initial end date (May 23, 2016), which may be extended if all conditions to completion have been satisfied on the initial end date other than certain

conditions relating to regulatory approvals and either Charter or TWC elects to extend the initial end date to November 23, 2016, in which case the merger agreement may be terminated by either Charter or TWC if the mergers have not been completed on or before November 23, 2016; however, the right to terminate the merger agreement at the end date will not be available to any party whose breach of any provision of the merger agreement results in the failure of the mergers to be completed by such time;

Table of Contents

there (i) has been enacted or promulgated after the date of the merger agreement any applicable law (that is final and nonappealable) of any governmental authority of competent jurisdiction in which any of TWC, Charter or their respective subsidiaries has substantial operations or (ii) is in effect any order (that is final and nonappealable) of any governmental authority of competent jurisdiction that, in each case, (A) imposes a burdensome condition or (B) prohibits the consummation of the mergers and the violation of which would result in criminal liability; however, the right to terminate the merger agreement under this paragraph will not be available to any party whose breach of any provision of the merger agreement results in such applicable law, or order being in effect (the provision described in this paragraph being referred to as the law or order termination right);

there is in effect any injunction (that is final and nonappealable) by any governmental authority of competent jurisdiction that (i) imposes a burdensome condition or (ii) prohibits the consummation of the mergers; however, the right to terminate the merger agreement under this paragraph will not be available to any party whose breach of any provision of the merger agreement results in such injunction being in effect (the provision described in this paragraph being referred to as the injunction termination right);

TWC stockholders fail to adopt the merger agreement upon a vote taken on such proposal at a TWC stockholders meeting called for that purpose;

Charter stockholders fail to adopt the merger agreement and approve the related proposals upon a vote taken on such proposals at a Charter stockholders meeting called for that purpose; or

there has been a breach by the other party of any representation or warranty or failure to perform any covenant or agreement that would result in the failure of the other party to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, and such breach has not been cured within 30 days of notice thereof or is incapable of being cured, but only so long as the party seeking to so terminate is not then in breach of its representations, warranties, covenants or agreements contained in the merger agreement, which breach would cause the applicable condition to closing not to be satisfied; or

by Charter, if:

the TWC board of directors makes an adverse recommendation change or fails to reaffirm its recommendation to TWC stockholders in favor of adopting the merger agreement as promptly as practicable (but within 10 business days) after receipt of a written request to do so from Charter following the public announcement of a TWC acquisition proposal (provided that Charter may only make such request once with respect to any such TWC acquisition proposal or any material amendment thereto), in either case only prior to the adoption of the merger agreement by TWC stockholders; or

prior to the adoption of the merger agreement by TWC stockholders, there has been an intentional and material breach by TWC of (i) any of its obligations described under The Merger Agreement No Solicitation by TWC, which breach was authorized or permitted by TWC and results in a third party making a TWC acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of adopting the merger agreement; or

by TWC, if:

the Charter board of directors makes an adverse recommendation change or fails to reaffirm its recommendation to Charter stockholders in favor of adopting the merger agreement and approving the related proposals as promptly as practicable (but within 10 business days) after receipt of a written request to do so from TWC following the public announcement of a Charter acquisition

Table of Contents

proposal (provided that TWC may only make such request once with respect to any such Charter acquisition proposal or any material amendment thereto), in either case only prior to the adoption of the merger agreement and approval of the related proposals by Charter's stockholders; or

prior to the adoption of the merger agreement and approval of the related proposals by Charter stockholders, there has been an intentional and material breach by Charter of (i) any of its obligations described under The Merger Agreement No Solicitation by Charter, which breach was authorized or permitted by Charter and results in a third party making a Charter acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of adopting the merger agreement and approving the related proposals.

Termination Fees (See Page 265)

The merger agreement requires Charter to pay TWC a termination fee of \$1,000,000,000 if:

TWC terminates the merger agreement as a result of the Charter board of directors making an adverse recommendation change or failing to reaffirm its recommendation to Charter stockholders in favor of adopting the merger agreement and approving the related proposals as promptly as practicable (but within 10 business days) after receipt of a written request to do so from TWC following the public announcement of a Charter acquisition proposal (as further described above);

TWC terminates the merger agreement as a result of an intentional and material breach by Charter of (i) any of its obligations described under The Merger Agreement No Solicitation by Charter, which breach was authorized or permitted by Charter and results in a third party making a Charter acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of adopting the merger agreement and approving the related proposals (as further described above); or

(i) TWC terminates the merger agreement as a result of the failure of the Charter stockholders to adopt the merger agreement and approve the related proposals upon a vote taken on such proposals at a Charter stockholders' meeting called for that purpose or as a result of a breach by Charter of its representations or warranties or Charter's failure to perform any covenant or agreement that would result in the failure of Charter to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, (ii) prior to such termination (but after the date of the merger agreement) a Charter acquisition proposal has become publicly known and (iii) within 12 months following such termination, Charter enters into a definitive agreement to consummate such Charter acquisition proposal or such Charter acquisition proposal is consummated. For purposes of this paragraph, Charter acquisition proposal has the meaning set forth under The Merger Agreement No Solicitation by Charter, except that references in that definition to 25% will be deemed to be references to 50%.

The merger agreement requires Charter to pay TWC a termination fee of \$2,000,000,000 if (i) the merger agreement is terminated as a result of the mergers not having been completed on or before the initial end date (May 23, 2016) or the extended end date (November 23, 2016), as applicable, or pursuant to the law or order termination right or injunction

termination right described above under Termination of the Merger Agreement, (ii) at the time of such termination the conditions to the closing of the mergers relating to the HSR Act and FCC order are not satisfied but all other conditions to the completion of the mergers are satisfied (except for the conditions relating to the regulatory approvals and, if either the Charter or TWC stockholder meeting has not occurred, the conditions relating to the receipt of the stockholder approvals of Charter and TWC); provided, however, that the termination fee will not be payable under this paragraph if TWC terminates the merger

Table of Contents

agreement under the law or order termination right or injunction termination right as a result of the imposition of a burdensome condition, and further provided, however, that if the termination fee is payable in connection with a termination of the merger agreement pursuant to the law or order termination right or injunction termination right as described in The Merger Agreement Termination Rights, the amount of the termination fee shall be \$1,000,000,000 if at the time of the termination of the merger agreement the conditions to the completion of the mergers relating to the HSR Act and FCC order have been satisfied and all other conditions to the completion of the mergers are satisfied (except for the conditions relating to the regulatory approvals (other than the HSR Act or the FCC order) and, if either the Charter or TWC stockholder meeting has not occurred, the conditions relating to the receipt of the stockholder approvals of Charter and TWC).

The merger agreement requires TWC to pay Charter a termination fee of \$2,000,000,000 if:

Charter terminates the merger agreement as a result of the TWC board of directors making an adverse recommendation change or failing to reaffirm its recommendation to TWC stockholders in favor of adopting the merger agreement as promptly as practicable (but within 10 business days) after receipt of a written request to do so from Charter following the public announcement of a TWC acquisition proposal (as further described above);

Charter terminates the merger agreement as a result of an intentional and material breach by TWC of (i) any of its obligations described under The Merger Agreement No Solicitation by TWC, which breach was authorized or permitted by TWC and results in a third party making a TWC acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of adopting the merger agreement (as further described above); or

(i) Charter terminates the merger agreement as a result of the failure of the TWC stockholders to adopt the merger agreement upon a vote taken on such proposal at a TWC stockholders meeting called for that purpose or as a result of a breach by TWC of its representations or warranties or TWC's failure to perform any covenant or agreement that would result in the failure of TWC to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, (ii) prior to such termination (but after the date of the merger agreement) a TWC acquisition proposal has become publicly known and (iii) within 12 months following such termination, TWC enters into a definitive agreement to consummate such TWC acquisition proposal or such TWC acquisition proposal is consummated. For purposes of this paragraph, TWC acquisition proposal has the meaning set forth under The Merger Agreement No Solicitation by TWC, except that references in that definition to 25% will be deemed to be references to 50%.

Any termination fee payable by Charter or TWC will only be payable once and not in duplication even though a termination fee may be payable under one or more provisions of the merger agreement. The payment of a termination fee by TWC or Charter pursuant to the merger agreement will be the sole and exclusive remedy of the party receiving the payment for any liabilities, losses or damages arising out of, resulting from or incurred in connection with the merger agreement.

Specific Performance; Remedies (See Page 267)

The parties to the merger agreement are entitled to an injunction or injunctions to prevent breaches of the merger agreement and to enforce specifically the terms and provisions of the merger agreement. This entitlement is in addition to any other remedy to which the parties are entitled at law or in equity.

Table of Contents**Material U.S. Federal Income Tax Consequences of the Mergers (See Page 229)**

As a result of the mergers, holders of shares of TWC common stock will generally recognize gain, if any, but not in excess of the amount of cash received by a holder. The precise characterization of the first merger for U.S. federal income tax purposes is not clear, however. The merger may be treated as a distribution in partial redemption subject to Section 302(a) of the Code, in which case a U.S. holder of shares of TWC common stock would generally recognize gain or loss equal to the difference between the amount of cash received in the first merger (including any cash received in lieu of fractional shares of TWC common stock) and the adjusted tax basis of the shares treated as exchanged for cash. Alternatively, it is possible that the IRS could seek to characterize the exchange of shares of TWC common stock for shares of common stock of the surviving corporation and cash in the first merger as a recapitalization within the meaning of Section 368(a)(1)(E) of the Code. However, U.S. holders who actually or constructively own New Charter Class A common stock other than New Charter Class A common stock received pursuant to the second merger may be treated as having received a dividend equal to the amount of cash received in the first merger. Charter and TWC intend to treat the payment of cash to a U.S. holder of shares of TWC common stock in the first merger as a distribution in partial redemption, although that treatment is not free from doubt. The cash that a non-U.S. holder of shares of TWC common stock receives generally will be subject to withholding of U.S. federal income tax at a rate of 30%, subject to reduction, exemption, or the availability of a refund if specific requirements are met. However, alternative characterizations are possible.

U.S. holders of shares of Charter Class A common stock will generally not be subject to U.S. federal income tax as a result of the exchange in the mergers of such shares for shares of New Charter Class A common stock (except in connection with cash received in lieu of a fractional share of New Charter Class A common stock). It is a condition to TWC's obligation to complete the mergers that TWC receive an opinion from Paul, Weiss, Rifkind, Wharton & Garrison LLP, counsel to TWC, to the effect that the second merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. It is a condition to Charter's obligation to complete the mergers that Charter receive an opinion from Wachtell, Lipton, Rosen & Katz, counsel to Charter, to the effect that each of the second merger and the third merger will qualify as a reorganization within the meaning of Section 368(a) of the Code.

Accounting Treatment (See Page 234)

The mergers and BHN transactions will be accounted for using the acquisition method of accounting with Charter considered the accounting acquirer of TWC and Bright House. The acquisition method of accounting is based on Financial Accounting Standards Board, Accounting Standards Codification, which is referred to in this joint proxy statement/prospectus as ASC 805, Business Combinations, and uses the fair value concepts defined in ASC 820, Fair Value Measurements and Disclosures, which Charter has adopted as required. Charter will record assets acquired, including identifiable intangible assets, and liabilities assumed at their respective fair values at the date of completion of the transactions. Any excess of the purchase price (as described in the notes to the Unaudited Pro Forma Financial Statements, beginning on page 70 of this joint proxy statement/prospectus) over the net fair value of such assets and liabilities will be recorded as goodwill.

The financial condition and results of operations of New Charter after completion of the mergers and BHN transactions will reflect TWC and Bright House after completion of the transactions but will not be restated retroactively to reflect the historical financial condition or results of operations of TWC or Bright House. The earnings of New Charter following completion of the mergers and BHN transactions will reflect acquisition accounting adjustments, including the effect of changes in the carrying value for assets and liabilities on depreciation and amortization expense and additional interest expense from debt used for financing. Indefinite-lived intangible assets, including franchises and goodwill, will not be amortized but will be tested for impairment at least annually, and all tangible and intangible assets including goodwill will be tested for impairment when

Table of Contents

certain indicators are present. If, in the future, New Charter determines that tangible or intangible assets (including goodwill) are impaired, New Charter would record an impairment charge at that time.

Debt Financing for the Mergers and BHN Transactions (See Page 222)

In July 2015, Charter issued \$15.5 billion CCO Safari II, LLC senior secured notes and CCO Safari III, LLC entered into \$3.8 billion of senior secured bank loans. To fund the remaining cash portions of the TWC transactions and BHN transactions, Charter has remaining commitments of approximately \$5.2 billion from banks to provide incremental senior secured term loan facilities and senior unsecured notes, as well as an incremental \$1.7 billion revolving facility. In addition, Charter has committed financing for approximately \$4.3 billion of additional indebtedness, which would be substantially incurred through the issuance of unsecured notes by Charter Communications Operating Holdings, LLC, a subsidiary of Charter (CCOH), if all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$115 cash and the equivalent of 0.4562 shares of Charter Class A common stock for each share of TWC common stock.

Rights of Stockholders as a Result of the Mergers and/or BHN Transactions (See Pages 349 and 355)

TWC and Charter stockholders will have different rights once they become New Charter stockholders due to differences between the organizational documents of Charter, TWC and New Charter. These differences are described in more detail under Comparison of Stockholder Rights, beginning on page 355 of this joint proxy statement/prospectus.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA OF CHARTER**

The following table presents selected historical consolidated financial data of Charter and its subsidiaries. The selected financial data of Charter for each of the years ended December 31, 2014, 2013 and 2012, and as of December 31, 2014 and 2013, are derived from Charter's audited consolidated financial statements set forth in Charter's Annual Report on Form 10-K for the year ended December 31, 2014, which is incorporated by reference into this joint proxy statement/prospectus. The selected financial data of Charter for each of the years ended December 31, 2011 and 2010, and as of December 31, 2012, 2011 and 2010, have been derived from Charter's audited consolidated financial statements for such years, which have not been incorporated by reference into this joint proxy statement/prospectus. The audited financial statements have been audited by KPMG LLP, an independent registered public accounting firm.

The selected financial data of Charter as of June 30, 2015, and for the six months ended June 30, 2015 and June 30, 2014 are derived from Charter's unaudited consolidated financial statements and related notes contained in its Quarterly Report on Form 10-Q for the six months ended June 30, 2015, which is incorporated by reference into this joint proxy statement/prospectus. The selected financial data of Charter as of June 30, 2014 are derived from Charter's unaudited consolidated financial statements for such period, which have not been incorporated by reference into this joint proxy statement/prospectus. The unaudited financial data presented have been prepared on a basis consistent with Charter's audited consolidated financial statements. In the opinion of Charter's management, such unaudited financial data reflect all adjustments, consisting only of normal and recurring adjustments, necessary for a fair presentation of the results for those periods. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year or any future period. The following information should be read in conjunction with the historical consolidated financial statements and related notes (in millions, except per share and share data).

	For and as of the Six Months Ended June 30,		For and as of the Years Ended December 31,

N/A - Not applicable.

(a) Earnings include income (loss) before income taxes plus fixed charges. Fixed charges consist of interest expense and an estimated interest component of rent expense.

Comparability of the above information from year to year is affected by acquisitions and dispositions completed by us including the acquisition of Bresnan Broadband Holdings, LLC and its subsidiaries (Bresnan) in July 2013. See Note 3 to Charter s consolidated financial statements included in Charter s Annual Report on Form 10-K for the year ended December 31, 2014, incorporated by reference in this joint proxy statement/prospectus, for additional information on the acquisition of Bresnan.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA OF TWC**

The following table presents selected historical consolidated financial data of TWC. The selected financial data of TWC for each of the years ended December 31, 2014, 2013 and 2012, and as of December 31, 2014 and 2013, are derived from TWC's audited consolidated financial statements set forth in TWC's Annual Report on Form 10-K for the year ended December 31, 2014, which is incorporated by reference into this joint proxy statement/prospectus. The selected financial data of TWC for each of the years ended December 31, 2011 and 2010, and as of December 31, 2012, 2011 and 2010, have been derived from TWC's audited consolidated financial statements for such years, which have not been incorporated by reference into this joint proxy statement/prospectus. The audited consolidated financial statements have been audited by Ernst & Young LLP, an independent registered public accounting firm.

The selected financial data of TWC as of June 30, 2015, and for the six months ended June 30, 2015 and June 30, 2014 are derived from TWC's unaudited consolidated financial statements and related notes contained in its Quarterly Report on Form 10-Q for the six months ended June 30, 2015, which is incorporated by reference into this joint proxy statement/prospectus. The selected financial data of TWC as of June 30, 2014 are derived from TWC's unaudited consolidated financial statements for such period, which have not been incorporated by reference into this joint proxy statement/prospectus. The unaudited financial data presented have been prepared on a basis consistent with TWC's audited consolidated financial statements. In the opinion of TWC's management, such unaudited financial data reflect all adjustments, consisting only of normal and recurring adjustments, necessary for a fair presentation of the results for those periods. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year or any future period. The following information should be read in conjunction with the historical consolidated financial statements and related notes (in millions, except per share data).

Ratio of earnings to combined fixed charges and preferred dividend requirements(b)	3.0x	3.0x	3.1x	2.8x	3.0x	2.6x	2.6x

- (a) Investment in cable properties represents the total of (i) property, plant and equipment, net, (ii) customer relationships, net, included in intangible assets subject to amortization, net, (iii) intangible assets not subject to amortization, and (iv) goodwill.
- (b) Earnings were calculated by adding (i) pretax net income, (ii) interest expense, (iii) preferred stock dividend requirements of majority-owned companies, (iv) adjustments for partially owned subsidiaries and 50%-owned companies, and (v) the amount of undistributed losses (earnings) of TWC's less than 50%-owned companies. The definition of earnings also applies to TWC's unconsolidated 50%-owned affiliated companies. Fixed charges primarily consist of interest expense. Earnings, as defined, include significant noncash charges for depreciation and amortization primarily relating to the amortization of intangible assets recognized in business combinations.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA OF BRIGHT HOUSE**

The following table presents selected historical consolidated financial data of Bright House. The selected financial data of Bright House for each of the years ended December 31, 2014, 2013 and 2012, and as of December 31, 2014 and 2013, are derived from Bright House's audited consolidated financial statements for the year ended December 31, 2014, which are included in this joint proxy statement/prospectus. The selected financial data of Bright House for each of the years ended December 31, 2011 and 2010, and as of December 31, 2012, 2011 and 2010, have been derived from Bright House's audited consolidated financial statements for such years. The audited financial statements have been audited by KPMG LLP, an independent auditor.

The selected financial data of Bright House as of June 30, 2015, and for the six months ended June 30, 2015 and June 30, 2014 are derived from BHN's unaudited condensed consolidated financial statements and related notes, which are included in this joint proxy statement/prospectus. The selected financial data of Bright House as of June 30, 2014 are derived from Bright House's unaudited condensed consolidated financial statements for such period. The unaudited financial data presented have been prepared on a basis consistent with Bright House's audited consolidated financial statements. In the opinion of Bright House's management, such unaudited financial data reflect all adjustments, subject only to normal and recurring year-end adjustments, necessary for a fair presentation of the results for those periods. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year or any future period. The following information should be read in conjunction with the historical consolidated financial statements and related notes (in millions).

Table of Contents

COMPARATIVE HISTORICAL AND UNAUDITED PRO FORMA PER SHARE DATA

The following table sets forth selected historical and unaudited pro forma combined per share information for Charter and TWC.

Historical Per Share Information of Charter and TWC

The historical per share information of each of Charter and TWC below is derived from the audited consolidated financial statements of each of Charter and TWC as of and for the year ended December 31, 2014 and the unaudited condensed consolidated financial statements of each of Charter and TWC as of and for the six months ended June 30, 2015.

Unaudited Pro Forma Combined per Charter Common Share Data

The unaudited pro forma combined per Charter common share data set forth below gives effect to the mergers under the acquisition method of accounting, as if the transactions had occurred on January 1, 2014, the first day of Charter's fiscal year ended December 31, 2014, in the case of net loss, and at June 30, 2015, in the case of book value per share data, and assuming that each outstanding share of TWC common stock had been converted into Charter Class A common stock based on the exchange ratio assuming TWC stockholders elect to receive \$100 in cash and stock consideration based on the Option A Effective Exchange Ratio.

The unaudited pro forma combined per Charter common share data does not purport to represent the actual results of operations that Charter would have achieved had the companies been combined during these periods or to project the future results of operations that Charter may achieve after the consummation of the mergers.

Unaudited Pro Forma Combined per TWC Equivalent Share Data

The unaudited pro forma combined per TWC equivalent share data set forth below shows the effect of the mergers from the perspective of an owner of TWC common stock. The information was calculated by multiplying the unaudited pro forma combined per Charter common share amounts by the exchange ratio assuming TWC stockholders elect to receive \$100 in cash and stock consideration based on the Option A Effective Exchange Ratio.

Table of Contents**General**

You should read the below information in conjunction with the selected historical consolidated financial information included elsewhere in this joint proxy statement/prospectus and the historical consolidated financial statements of Charter and TWC and related notes that have been filed with the SEC, certain of which are incorporated by reference into this joint proxy statement/prospectus. See Selected Historical Consolidated Financial Data of Charter, Selected Historical Consolidated Financial Data of TWC and Where You Can Find More Information. The unaudited pro forma combined per Charter common share data and the unaudited pro forma combined per TWC equivalent share data is derived from, and should be read in conjunction with, the unaudited pro forma consolidated financial statements and related notes included in this joint proxy statement/prospectus. See Unaudited Pro Forma Consolidated Financial Statements.

N/A not applicable

- (1) Amount is calculated by dividing shareholders' equity by common shares or shares of common stock, as applicable, outstanding.
- (2) Amounts calculated by multiplying unaudited pro forma combined per share amounts by the exchange ratio in the first merger, assuming TWC stockholders elect to receive \$100 in cash and stock consideration based on the Option A Effective Exchange Ratio.
- (3) Amounts calculated based on pro forma financial statements giving effect to the mergers and do not give effect to the BHN transactions.

Table of Contents**COMPARATIVE PER SHARE MARKET PRICE AND DIVIDEND INFORMATION****Market Prices**

The following table sets forth, for the calendar periods indicated, the high and low intra-day sales prices per share of Charter Class A common stock and per share of TWC common stock. Charter Class A common stock is listed on NASDAQ under the symbol CHTR. TWC's common stock is listed on the New York Stock Exchange under the symbol TWC.

	Charter Class A Common Stock		TWC Common Stock	
	High	Low	High	Low
2012:				
First Calendar Quarter	\$ 65.32	\$ 56.05	\$ 81.75	\$ 63.93

Third Calendar Quarter (through August 18, 2015)	\$ 195.46	\$ 168.73	\$ 194.22	\$ 177.88

The following table sets forth the closing price per share of Charter Class A common stock and of TWC common stock as of May 22, 2015, the last trading day before the public announcement of the merger agreement, and as of August 18, 2015, the most recent practicable trading day prior to the date of this joint proxy statement/prospectus. The table also shows the implied value of the merger consideration proposed for each share of TWC common stock as of the same two dates, after giving effect to the exchange ratios in the mergers. This implied value was calculated by multiplying the closing price of a share of Charter Class A common stock on the relevant date by the exchange ratio of 0.5409, and adding the resulting amount to the \$100 cash portion of the merger consideration (for these purposes excluding the application of the Parent Merger Exchange Ratio of 0.9042).

Charter Class A Common Stock	TWC Common Stock	Implied Per Share Value of Merger Consideration
------------------------------------	---------------------	--

May 22, 2015	\$ 175.33	\$ 171.18	\$ 194.84
August 18, 2015	\$ 188.81	\$ 191.10	\$ 202.13

The market prices of shares of Charter Class A common stock and TWC common stock have fluctuated since the date of the announcement of the merger agreement and will continue to fluctuate from the date of this joint proxy statement/prospectus to the date of the TWC special meeting, the date of the Charter special meeting and the date the mergers are completed, and the market prices of shares of New Charter Class A common stock will continue to fluctuate after the date the mergers are completed. No assurance can be given concerning the market prices of Charter Class A common stock and TWC common stock before completion of the mergers or New Charter Class A common stock after completion of the mergers. The exchange ratios are fixed in the merger

Table of Contents

agreement, but the market price of Charter Class A common stock (and therefore the value of the merger consideration) when received by TWC stockholders after the mergers are completed could be greater than, less than or the same as shown in the table above. Accordingly, TWC stockholders are advised to obtain current market quotations for Charter Class A common stock and TWC common stock in deciding whether to vote for the approval of the adoption of the merger agreement.

Dividends

Charter has not paid stock or cash dividends on any of its common stock. Charter (and New Charter) would be dependent on distributions from its subsidiaries if either company were to make any dividends. Covenants in the indentures and credit agreements governing the debt obligations of their subsidiaries restrict their ability to make distributions, and accordingly, limit their ability to declare or pay cash dividends. Future cash dividends, if any, will be at the discretion of Charter's or New Charter's board of directors and will depend upon, among other things, future operations and earnings, capital requirements, general financial condition, contractual restrictions and such other factors as Charter's board of directors may deem relevant.

TWC currently pays a quarterly dividend on TWC common stock of \$0.75 per share, and last declared a quarterly dividend on June 18, 2015, which was paid on July 22, 2015. Under the terms of the merger agreement, during the period before completion of the mergers, TWC is not permitted to declare, set aside or pay any dividend or other distribution other than its regular quarterly cash dividend in the ordinary course of business consistent with past practice in an amount not to exceed \$0.75 per share per quarter.

Any former TWC stockholder who holds the Charter Class A common stock into which TWC common stock has been converted in connection with the mergers will receive whatever dividends are declared and paid on Charter Class A common stock after completion of the mergers. However, no dividend or other distribution having a record date after completion of the mergers will actually be paid with respect to any Charter Class A common stock into which TWC common stock has been converted in connection with the mergers until the certificates formerly representing shares of TWC common stock have been surrendered (or the book-entry shares formerly representing shares of TWC common stock have been transferred), at which time any accrued dividends and other distributions on those shares of Charter Class A common stock will be paid without interest. Subject to the limitations set forth in the merger agreement, any future dividends by Charter will be made at the discretion of the Charter board of directors. Subject to the limitations set forth in the merger agreement, any future dividends by TWC will be made at the discretion of the TWC board of directors. There can be no assurance that any future dividends will be declared or paid by Charter, New Charter or TWC as to the amount or timing of those dividends, if any.

Table of Contents**UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS**

The accompanying unaudited pro forma financial statements as of and for the six months ended June 30, 2015 and for the year ended December 31, 2014 are intended to reflect the impacts of the TWC transactions, the BHN transactions and the Liberty transactions on Charter's consolidated financial statements as if the TWC transactions, BHN transactions and Liberty transactions had occurred as of June 30, 2015 for the unaudited pro forma consolidated balance sheet and as of January 1, 2014 for the unaudited pro forma consolidated statements of operations. The accompanying unaudited pro forma financial statements present the pro forma consolidated financial position and results of operations of Charter based on the historical financial statements and accounting records of Charter, TWC and Bright House and the related pro forma adjustments as described in the accompanying notes. The pro forma adjustments are included only to the extent they are (i) directly attributable to the TWC transactions, the BHN transactions and/or the Liberty transactions, (ii) factually supportable and (iii) with respect to the statements of operations, expected to have a continuing impact on the combined results.

TWC Transactions

In the TWC transactions, TWC stockholders, excluding Liberty Broadband and Liberty Interactive subject to the terms of the Liberty contribution agreement, will have the right to elect to receive either \$100 in cash and shares of New Charter Class A common stock equivalent to 0.5409 shares of Charter Class A common stock for each share of TWC common stock outstanding (the Option A Election) or \$115 in cash and shares of New Charter Class A common stock equivalent to 0.4562 shares of Charter Class A common stock (the Option B Election). The unaudited pro forma financial statements provided herein assume all of the TWC stockholders elect the Option A Election. Liberty Broadband and Liberty Interactive will not receive cash as part of the TWC transactions, but will have the right to receive shares of New Charter Class A common stock equivalent to 1.106 shares of Charter Class A common stock for each share of TWC common stock owned by them. For purposes of these unaudited pro forma financial statements, the TWC preliminary purchase price is assumed to be \$57.5 billion. Based on a per share price of \$185.86, the closing share price of Charter Class A common stock on July 31, 2015, and approximately 283.0 million shares of TWC common stock outstanding as of July 31, 2015, Charter expects to issue shares of New Charter Class A common stock equivalent to 157.4 million shares of Charter Class A common stock valued at approximately \$29.3 billion. Additionally, Charter expects to pay \$27.5 billion in cash to TWC stockholders, which is expected to be financed with new indebtedness of New Charter, the issuance of equity to Liberty Broadband pursuant to the Liberty transactions and cash on hand from TWC. The preliminary purchase price also includes New Charter replacement equity awards with an estimated pre-combination vesting period fair value of \$636 million that will be issued in respect of equity awards held by employees of TWC and \$86 million that will be paid in cash to TWC former employees and non-employee directors who hold equity awards, whether vested or not vested. The fair value of the equity portion of the TWC transactions consideration for accounting purposes will be based on the fair value of Charter Class A common stock at the date of close of the mergers and will be different from the assumed value presented in these unaudited pro forma financial statements. A 5% change in the per share price of Charter Class A common stock will result in a \$1.5 billion change in the fair value of the equity issued and total consideration for accounting purposes. In addition, the amount of equity and cash consideration will vary based on the number of TWC stockholders that elect the Option B Election and receive \$115 in cash and shares of New Charter Class A common stock equivalent to 0.4562 shares of Charter Class A common stock. A 5% decrease in the number of shares held by TWC stockholders electing the Option A Election, who instead elect the Option B Election, will result in a \$217 million reduction in the fair value of equity issued and a \$206 million increase in debt.

The actual number of shares of New Charter Class A common stock that TWC stockholders, excluding Liberty Broadband and Liberty Interactive, will be entitled to receive will be calculated by multiplying the exchange ratios of 0.5409 or 0.4562 specified above by 0.9042 (the Parent Merger Exchange Ratio), which will also be the exchange

ratio that will be used to determine the number of shares of New Charter Class A common stock that Charter stockholders will be entitled to receive per share of Charter Class A common stock. Such exchange ratio is not intended to impact the aggregate value represented by the shares of New Charter Class A

Table of Contents

common stock issued in the TWC transactions; however, it will impact the actual number of shares issued in the TWC transactions. Such impact is reflected in the weighted average common shares outstanding included in the accompanying unaudited pro forma consolidated statements of operations.

BHN Transactions

In the BHN transactions, A/N will receive approximately 34.3 million Charter Holdings common units, approximately 10.3 million Charter Holdings convertible preferred units, both subject to application of the Parent Merger Exchange Ratio, and approximately \$2.0 billion in cash. For purposes of these unaudited pro forma financial statements, the Bright House preliminary purchase price is assumed to be \$10.9 billion. Based on a per share price of \$185.86, the closing share price of Charter Class A common stock on July 31, 2015, the Charter Holdings common units are valued at approximately \$6.4 billion. The issuance of Charter Holdings convertible preferred units are valued for pro forma purposes based on their \$2.5 billion aggregate liquidation preference. The approximately \$2.0 billion cash portion of the BHN transactions will be financed with new indebtedness of New Charter. The BHN transactions exclude certain assets and liabilities such as cash, marketable securities and pension-related assets and liabilities, among others. The fair value of the BHN transactions for accounting purposes will be based on the fair value of the Charter Holdings common units and the Charter Holdings convertible preferred units at the date of close and will be different from the assumed value presented in these unaudited pro forma financial statements. A 5% change in the fair value of the Charter Holdings common units and convertible preferred units will result in a \$443 million change in the fair value of the total consideration for accounting purposes.

Liberty Transactions and Committed Financing

In connection with the TWC transactions, Charter and Liberty Broadband entered into an investment agreement, pursuant to which Liberty Broadband agreed to invest \$4.3 billion in New Charter at the closing of the TWC transactions to partially finance the cash portion of the TWC transactions consideration. New Charter will issue shares to Liberty Broadband equivalent to approximately 24.3 million shares of Charter Class A common stock. In connection with the BHN transactions, Liberty Broadband agreed to purchase at the closing of the BHN transactions \$700 million of New Charter Class A common stock (or, if the mergers are not consummated prior to the completion of the BHN transactions, Charter Class A common stock). New Charter (or, if applicable, Charter) will issue shares to Liberty Broadband equivalent to approximately 4.0 million shares of Charter Class A common stock in connection with such \$700 million investment.

Charter expects to finance the remaining cash portion of the purchase price of the TWC transactions and BHN transactions with additional indebtedness. In July 2015, Charter issued \$15.5 billion CCO Safari II, LLC senior secured notes and CCO Safari III, LLC entered into \$3.8 billion of senior secured bank loans. To fund the remaining cash portions of the TWC transactions and BHN transactions, Charter has remaining commitments of approximately \$5.2 billion from banks to provide incremental senior secured term loan facilities and senior unsecured notes, as well as an incremental \$1.7 billion revolving facility. In addition, the bank commitments provide for a \$4.3 billion bridge facility if all TWC stockholders (other than the Liberty Parties) elect the Option B Election, in the event Charter is unable to issue senior unsecured notes in advance of the closing of the TWC transactions. For purposes of these unaudited pro forma financial statements, Charter has assumed acquisition financing of approximately 90% in new and recently issued first lien debt (including bank debt and senior secured notes) and approximately 10% in unsecured notes at current market interest rates. The indebtedness assumptions used herein are for illustrative purposes only and may not reflect the actual financing when completed.

Basis of Presentation

The unaudited pro forma financial statements are based on (i) the unaudited condensed consolidated financial statements of Charter Communications, Inc. and its subsidiaries as of and for the three and six months

Table of Contents

ended June 30, 2015 contained in Charter's Quarterly Report on Form 10-Q filed with the SEC on August 4, 2015, (ii) the unaudited consolidated financial statements of Time Warner Cable Inc. as of and for the three and six months ended June 30, 2015 contained in TWC's Quarterly Report on Form 10-Q filed with the SEC on July 30, 2015, (iii) the condensed consolidated unaudited financial statements of Bright House Networks, LLC and its subsidiaries as of and for the three and six months ended June 30, 2015 contained in this joint proxy statement/prospectus, (iv) the audited consolidated financial statements of Charter Communications, Inc. and its subsidiaries for the year ended December 31, 2014 contained in Charter's Annual Report on Form 10-K filed with the SEC on February 23, 2015, (v) the audited consolidated financial statements of Time Warner Cable Inc. for the year ended December 31, 2014 contained in TWC's Annual Report on Form 10-K filed with the SEC on February 13, 2015, and (vi) the audited consolidated financial statements of Bright House Networks, LLC and its subsidiaries for the year ended December 31, 2014 contained in this joint proxy statement/prospectus.

The TWC transactions and BHN transactions will be accounted for using the acquisition method of accounting with Charter as the accounting acquirer. The unaudited pro forma financial statements reflect the preliminary assessment of fair values and useful lives assigned to the assets acquired and liabilities assumed. The fair values assigned in the unaudited pro forma financial statements are preliminary and represent Charter's current best estimate of fair values and are subject to revision. The detailed valuation studies necessary to arrive at the required estimates of the fair values for the assets acquired and liabilities assumed have not commenced. Significant assets and liabilities that are subject to preparation of valuation studies to determine appropriate fair value adjustments include property, plant and equipment and identifiable intangible assets, including franchises and customer relationships. Changes to the fair values of these assets and liabilities will also result in changes to goodwill and deferred tax liabilities.

The unaudited pro forma financial statements are provided for illustrative purposes only and are based on available information and assumptions that Charter believes are reasonable and do not purport to represent what the actual consolidated results of operations or the consolidated financial position of Charter would have been had the TWC transactions and BHN transactions occurred on the dates indicated, nor are they necessarily indicative of future consolidated results of operations or consolidated financial position. The actual financial position and results of operations will differ, perhaps significantly, from the pro forma amounts reflected herein due to a variety of factors, including access to additional information, changes in value not currently identified and changes in operating results following the date of the pro forma financial statements.

Items Not Adjusted in the Unaudited Pro Forma Financial Information

The unaudited pro forma financial statements do not reflect all reclassifications or adjustments to conform the TWC or Bright House financial statement presentation or accounting policies to those adopted by Charter. At this time, Charter is not aware of any intercompany transactions that would have a material impact on the unaudited pro forma financial statements that are not reflected in the pro forma adjustments. Further review may identify additional intercompany transactions, reclassifications or differences between the accounting policies of the companies that, when conformed, could have a material impact on the unaudited pro forma financial statements of the combined company.

The unaudited pro forma financial statements do not include any adjustment for liabilities or related costs that may result from integration activities, since management has not completed the process of making these assessments. Significant liabilities and related costs may ultimately be recorded for employee severance or relocation, costs of vacating some facilities and costs associated with other exit and integration activities. The unaudited pro forma statements of operations do not include any revenue or expense synergies or dis-synergies resulting from the TWC transactions and BHN transactions, including programming costs or shared functions and other administrative and overhead allocations, as these adjustments are not factually supportable. The unaudited pro forma statements of operations also do not include an estimated \$615 million and \$30 million of non-recurring costs to be incurred directly

attributable to the TWC transactions and the BHN transactions, respectively, such as escrow interest, investment banking fees and legal fees.

Table of Contents

Charter intends to review the synergies of the combined businesses in advance of and subsequent to the completion of the TWC transactions and BHN transactions, which may result in a plan to reorganize certain of TWC's, Bright House's or Charter's products, network, service operations and organizational structure. The costs of implementing such a plan, if it were to occur, and any resulting future changes in revenue or cost savings have not been reflected in the unaudited pro forma financial statements.

In connection with the BHN transactions, New Charter and A/N will enter into a tax receivable agreement which will apply to an exchange or sale of the Charter Holdings common and convertible preferred units between the parties. The tax receivable agreement will provide for a payment by New Charter to A/N of 50% of the tax benefit that is realized by New Charter from the step-up in tax basis resulting from the future exchange or sale. Charter has not recorded a pro forma adjustment for this contingent consideration obligation in the preliminary purchase price allocation as it is impractical to estimate its fair value since the tax benefit is dependent on uncertain future events that are outside New Charter's control. A future exchange or sale is not based on a fixed and determinable date and the exchange or sale is not certain to occur. If and when an exchange or sale occurs in the future, the undiscounted value of the obligation is estimated to be in the range of zero to \$2 billion depending on measurement of the tax step-up in the future and New Charter's ability to realize the tax benefit in the subsequent periods following the exchange or sale.

The unaudited pro forma financial statements do not reflect adjustments related to the impact of the termination of the transactions Charter entered into with Comcast Corporation in April 2014 as such adjustments are not directly related to the TWC transactions, BHN transactions or Liberty transactions. The transactions Charter entered into with Comcast were terminated in April 2015 and the CCOH Safari, LLC notes and CCO Safari, LLC Term G Loans were subsequently repaid in April 2015. The unaudited pro forma consolidated statements of operations are not adjusted to eliminate approximately \$112 million and \$75 million of interest expense associated with the escrowed debt for the six months ended June 30, 2015 and year ended December 31, 2014, respectively. The unaudited pro forma consolidated statements of operations are also not adjusted to eliminate approximately \$16 million and \$38 million of transaction costs incurred by Charter and \$37 million and \$195 million of transaction costs incurred by TWC directly related to the transactions with Comcast for the six months ended June 30, 2015 and year ended December 31, 2014, respectively.

Table of Contents**Notes to Unaudited Pro Forma Financial Statements****Note 1. TWC Transactions Pro Forma Balance Sheet Adjustments**

The unaudited pro forma consolidated balance sheet has been adjusted to reflect the estimated fair values of the identifiable assets acquired and liabilities assumed in the TWC transactions. The preliminary purchase price is estimated to be approximately \$57.5 billion for purposes of the unaudited pro forma financial statements. The fair value of the equity portion of the TWC transactions consideration for accounting purposes will be based on the fair value of Charter Class A common stock at the date of closing and will be different from the assumed value presented in the unaudited pro forma financial statements. The table below presents the preliminary purchase price for pro forma purposes based on the July 31, 2015 outstanding shares of TWC common stock and equity awards and July 31, 2015 Charter Class A common stock closing price. For purposes of these notes, Liberty means Liberty Broadband and Liberty Interactive.

Preliminary Purchase Price (in millions, except per share data)

Outstanding shares of TWC common stock (excluding Liberty) as of July 31, 2015	275.3
Share exchange ratio	0.5409
Equivalent shares of Charter Class A common stock to be issued (excluding Liberty)	148.9
Charter Class A common stock closing price per share as of July 31, 2015	\$ 185.86
Estimated fair value of Charter Class A common stock to be issued (excluding Liberty)	\$ 27,674
Outstanding shares of TWC common stock held by Liberty as of July 31, 2015	7.7
Share exchange ratio	1.1060
Equivalent shares of Charter Class A common stock to be issued to Liberty	8.5
Charter Class A common stock closing price per share as of July 31, 2015	\$ 185.86
Estimated fair value of Charter Class A common stock to be issued to Liberty	\$ 1,588
Total estimated fair value of Charter Class A common stock to be issued	\$ 29,262
Outstanding shares of TWC common stock (excluding Liberty) as of July 31, 2015	275.3
\$100 cash portion per share	\$ 100.00
Cash paid to TWC stockholders (excluding Liberty)	\$ 27,528
Pre-combination vesting period fair value of New Charter replacement equity awards issued to TWC employees in exchange for TWC equity awards	\$ 636
Cash paid for TWC non-employee equity awards	\$ 86
Total preliminary purchase price	\$ 57,512

The table below presents a preliminary allocation of purchase price to the assets acquired and liabilities assumed as if the TWC transactions had closed on June 30, 2015.

Table of Contents**Preliminary Allocation of Purchase Price (in millions)**

Current assets	\$ 2,064
Property, plant and equipment, net	20,755
Franchises	48,464
Customer relationships, net	17,838
Goodwill	25,792
Other noncurrent assets	1,107
Current liabilities	(3,807)
Long-term debt assumed	(24,540)
Deferred income taxes	(29,784)
Other long-term liabilities	(375)
Noncontrolling interest	(2)
	\$ 57,512

The preliminary estimates are based upon currently available information and prior valuation history. As such, additional assets and liabilities may be identified and reflected in the final purchase price allocation.

Upon completion of the fair value assessment following the closing of the TWC transactions, Charter anticipates the finalized fair values of the net assets acquired will differ from the preliminary assessment outlined above. Generally, changes to the initial estimates of the fair value of the assets acquired and liabilities assumed will be recorded as adjustments to those assets and liabilities and residual amounts will be allocated to goodwill. If upon completion of the valuations, the fair values are 10% greater or less than the amounts included in the preliminary purchase price allocation above, such a change would not likely have a material impact on the financial position or results of operations of New Charter.

The following summarizes the pro forma balance sheet adjustments relating to the TWC transactions.

- (a) Adjustment of \$480 million to cash and cash equivalents represents the use of TWC's cash and cash equivalents to reduce the amount of debt issued to fund the TWC transactions. No fair value adjustments are reflected in accounts receivable, net as they are estimated to be at fair value. Adjustment of \$10 million to prepaid expenses and other current assets represents eliminating the current portion of TWC deferred financing fees as a result of adjusting TWC's long-term debt to fair value.
- (b) For purposes of the preliminary purchase price allocation, Charter assumed a 25% increase to the net book value of TWC's property, plant and equipment. This assumption is based on increases to net book values reflected in valuations previously performed on Charter assets and taking into consideration the recent capital expenditure history of TWC relative to Charter and the status of its all-digital rollout among other factors. The fair values of TWC's franchises and customer relationships were based on previous valuations of Charter assets performed for general business purposes that were allocated to the TWC cable systems by applying a relative percentage of purchase price allocated to the intangible assets. The valuations previously performed on Charter assets represent valuations performed in 2013 for general business purposes and for a significant business combination. Pro forma

valuation metrics derived from previous valuations of Charter assets were used as a basis for determining fair value of TWC assets as such metrics take into consideration market participant assumptions and Charter management's historical valuation methods. Goodwill represents the residual of the purchase price over the fair values of the identified assets acquired and liabilities assumed.

Table of Contents

(c) Other noncurrent assets reflect the following adjustments (in millions).

Adjust TWC's equity investments to estimated fair value	\$ 431
Deferred financing fees associated with newly issued debt	263
Elimination of TWC deferred financing fees relating to assumed TWC debt	(87)
Elimination of Charter's cost investment in a TWC subsidiary	(2)
	\$ 605

The estimated fair value of TWC's equity investments was based on applying implied multiples to estimated cash flows. The implied multiples were estimated based on precedent transactions and comparable companies. Acquisition accounting rules require that the increase in the carrying value of the TWC equity investments be allocated to the underlying net assets of the investees. This allocation has not yet been performed, and for pro forma purposes, is allocated to non-amortizing goodwill of the investees and thus no pro forma adjustment related to these investments is reflected in the unaudited pro forma consolidated statements of operations.

(d) Adjustment of \$28 million to accounts payable and accrued liabilities represents the elimination of current deferred revenue as it is assumed to have no fair value as there are no associated payment obligations or substantive performance obligations.

(e) The TWC long-term debt assumed was adjusted to fair value using quoted market values as of July 31, 2015. This adjustment resulted in an increase in long-term debt of \$1.5 billion. The fair value adjustment to long-term debt is a result of quoted market values of TWC's debt being higher than the face amount of the related debt. The quoted market value of a debt instrument is higher than the face amount of the debt when the market interest rates are lower than the stated interest rate of the debt. In acquisition accounting, this results in an increase in debt and a reduction in interest expense to reflect the lower market interest rate.

The pro forma adjustment to reclassify \$320 million of TWC's current portion of long-term debt to long-term debt is a result of conforming to Charter's balance sheet classification. When Charter has availability to repay debt maturing in the next twelve months with its existing revolving credit facility, which is anticipated to be the case following the TWC transactions, those current maturities are classified as long-term debt.

Long-term debt was also adjusted to reflect new debt raised to fund the TWC transactions.

The following table presents pro forma cash sources and uses as a result of the TWC transactions.

Pro Forma Cash Sources and Uses (in millions)

Sources:	
Proceeds from issuance of long-term debt	\$ 23,712
Proceeds from issuance of Charter Class A common stock to Liberty	4,300
TWC cash and cash equivalents assumed	480

	\$ 28,492
--	-----------

Uses:

Cash portion of purchase price	\$ 27,614
--------------------------------	-----------

Advisor fees and other expenses directly related to the TWC transactions	615
--	-----

Deferred financing fees	263
-------------------------	-----

	\$ 28,492
--	-----------

Table of Contents

(f) Pro forma adjustments to deferred tax liabilities reflect the following (in millions):

Deferred tax liabilities from TWC acquisition accounting adjustments	\$ 17,069
Reduction in valuation allowance on Charter's preexisting deferred tax assets	(3,200)
Other deferred taxes recorded directly to equity	(261)
	\$ 13,608

The TWC transactions are assumed to be a non-taxable business combination for pro forma purposes. A pro forma adjustment was recorded for the deferred tax impact of acquisition accounting adjustments primarily related to property, plant and equipment, franchises, customer relationships and assumed TWC long-term debt. The incremental deferred tax liabilities of \$17.1 billion were calculated based on the tax effect of an approximate \$43.8 billion step-up in book basis of net assets of TWC excluding the amount attributable to goodwill. This deferred tax pro forma adjustment was determined by applying an estimated tax rate of 39%.

In contemplation of the TWC transactions, Charter has performed a preliminary analysis of the valuation allowance recorded on Charter's preexisting deferred tax assets. Based on this analysis, certain of the deferred tax liabilities recognized in connection with the TWC transactions are expected to reverse and provide a source of future taxable income, resulting in a \$3.2 billion reduction of substantially all of Charter's preexisting valuation allowance associated with its deferred tax assets. Such reduction in Charter's valuation allowance is reflected as a reduction to deferred tax liabilities in the pro forma balance sheet as a result of the TWC transactions and was determined by applying an estimated tax rate of 39%. The impact of the reduction in the valuation allowance is not reflected in the unaudited pro forma consolidated statements of operations as it is non-recurring.

Other deferred taxes recorded directly to equity include \$193 million of estimated tax benefit on advisor fees and other transaction expenses, \$34 million of excess tax benefit relating to cash paid for TWC non-employee equity awards and \$34 million of tax benefit upon remeasuring Charter's legacy deferred taxes at a 39.0% New Charter estimated tax rate compared to a 39.5% legacy Charter tax rate due to estimated changes in apportionment factors related to state income taxes. The adjustment to legacy Charter's deferred taxes as a result of the tax rate remeasurement is not reflected in the unaudited pro forma consolidated statements of operations as it is non-recurring.

Deferred taxes recognized in connection with the TWC transactions reflect currently available information as well as estimates and assumptions made in accordance with the basis of presentation of the unaudited pro forma financial statements. The final deferred tax liability recognized in connection with the TWC transactions could be significantly different.

(g) Adjustment of \$397 million to other long-term liabilities represents the elimination of deferred liabilities assumed to have no fair value as there are no associated payment obligations or substantive performance obligations.

(h) Represents the elimination of Charter's noncontrolling interest in a TWC subsidiary.

(i) Pro forma adjustments to controlling interest of shareholders' equity reflects the following (in millions).

Edgar Filing: TIME WARNER CABLE INC. - Form DEFM14A

Elimination of TWC's historical shareholders' equity and accumulated other comprehensive loss	\$ (8,508)
Exchange of New Charter Class A common stock to TWC stockholders (including Liberty)	29,262
Issuance of New Charter Class A common stock to Liberty	4,300
Reduction in valuation allowance on Charter's existing deferred tax assets (see Note 1(f))	3,200
Advisor fees and other expenses directly related to the TWC transactions	(615)
Pre-combination vesting period fair value of New Charter replacement equity awards issued to TWC employees in exchange for TWC equity awards	636
Other deferred taxes recorded directly to equity (see Note 1(f))	261
	\$ 28,536

Table of Contents

Advisor fees and other expenses directly related to the TWC transactions of \$615 million are not reflected in the unaudited pro forma statements of operations and consist primarily of escrow interest, investment banking fees and legal fees.

At closing, TWC employee equity awards will be converted into replacement equity awards with respect to New Charter Class A common stock with an estimated pre-combination vesting period fair value of \$636 million. The estimated fair value of the post-combination portion of the awards totaling \$729 million will be amortized to stock compensation expense over the remaining vesting period of the awards.

Note 2. BHN Transactions Pro Forma Balance Sheet Adjustments

The unaudited pro forma consolidated balance sheet has been adjusted to reflect the estimated fair values of the identifiable assets acquired and liabilities assumed in the BHN transactions. The preliminary purchase price of Bright House is assumed to be approximately \$10.9 billion for purposes of the unaudited pro forma financial statements. The BHN transactions exclude certain assets and liabilities such as cash, marketable securities, pension-related assets and liabilities, and debt, among others. The fair value of the BHN transactions for accounting purposes will be based on the fair value of the Charter Holdings common units and the Charter Holdings convertible preferred units at the date of close and will be different from the assumed value presented in these unaudited pro forma financial statements. The table below presents the preliminary purchase price for pro forma purposes based on the July 31, 2015 Charter Class A common stock closing share price.

Preliminary Purchase Price (in millions, except per share data)

Charter Holdings common units issued to A/N (before the Parent Merger Exchange Ratio)	34.3
Charter Class A common stock closing price per share as of July 31, 2015	\$ 185.86
Estimated fair value of Charter Holdings common units issued to A/N based on Charter share price	\$ 6,371
Estimated fair value of convertible preferred units based on \$2.5 billion aggregate liquidation preference	\$ 2,500
Cash paid to A/N	\$ 2,014
Total preliminary purchase price	\$ 10,885

The table below presents the preliminary allocation of purchase price to the assets acquired and liabilities assumed for the Bright House cable systems as if the BHN transactions had closed on June 30, 2015.

Preliminary Allocation of Purchase Price (in millions)

Current assets	\$ 221
Property, plant and equipment, net	2,705
Franchises	4,710
Customer relationships, net	1,752
Goodwill	1,789

Other noncurrent assets	110
Current liabilities	(402)
	\$ 10,885

The preliminary estimates are based upon currently available information and prior valuation history. As such, additional assets and liabilities may be identified and reflected in the final purchase price allocation.

Table of Contents

Upon completion of the fair value assessment following the closing of the BHN transactions, Charter anticipates the finalized fair values of the net assets acquired will differ from the preliminary assessment outlined above. Generally, changes to the initial estimates of the fair value of the assets acquired and liabilities assumed will be recorded as adjustments to those assets and liabilities and residual amounts will be allocated to goodwill. If upon completion of the valuations, the fair values are 10% greater or less than the amounts included in the preliminary purchase price allocation above, such a change would not likely have a material impact on the financial position or results of operations of New Charter.

The following summarizes the pro forma balance sheet adjustments relating to the BHN transactions.

- (a) Adjustment to current assets represents the elimination of assets not assumed in the BHN transactions, consisting primarily of \$561 million of cash and cash equivalents, \$112 million of short-term marketable securities and related interest receivable. No fair value adjustments are reflected in accounts receivable, net, as carrying value is estimated to approximate fair value.
- (b) For purposes of the preliminary purchase price allocation, Charter assumed a 25% increase to the net book value of Bright House's property, plant and equipment. This assumption is based on increases to net book values reflected in valuations previously performed on Charter assets and taking into consideration differences in capitalization policies, recent capital expenditure history of Bright House relative to Charter and the status of its all-digital rollout, among other factors. The fair values of Bright House's franchises and customer relationships were based on previous valuations of Charter assets that were allocated to the Bright House cable systems by applying a relative percentage of the purchase price allocated to the intangible assets. The valuations previously performed on Charter assets represent valuations performed in 2013 for general business purposes and for a significant business combination. Pro forma valuation metrics derived from previous valuations of Charter assets were used as a basis for determining the fair value of Bright House assets as such metrics take into consideration market participant assumptions and Charter management's historical valuation methods. Goodwill represents the residual of the purchase price over the fair values of the identified assets acquired and liabilities assumed.
- (c) Adjustment to other noncurrent assets represents the elimination of \$376 million of long-term marketable securities not assumed in the BHN transactions and elimination of BHN deferred financing fees of \$2 million, partially offset by an increase of \$32 million to adjust Bright House's equity investments to fair value and \$28 million of deferred financing fees associated with the issuance of new debt as noted below.
- (d) Adjustment to total current liabilities represents the elimination of liabilities not assumed in the BHN transactions consisting of \$3 million of current pension obligation, \$16 million of accrued interest and \$43 million of current portion of long-term debt.
- (e) Adjustment to long-term debt represents the elimination of Bright House's long-term debt not assumed in the BHN transactions and the issuance of new debt to partially fund the BHN transactions. The table below represents the following pro forma cash sources and uses as a result of the BHN transactions.

Pro Forma Cash Sources and Uses (in millions)

Sources:	
Proceeds from the issuance of long-term debt	\$ 2,000
Issuance of New Charter Class A common stock to Liberty	700
	\$ 2,700
Uses:	
Cash portion of purchase price paid to A/N	\$ 2,014
Repayment of Charter Operating revolving credit facility	628
Advisor fees and other expenses directly related to the BHN transactions	30
Deferred financing fees	28
	\$ 2,700

Table of Contents

- (f) The BHN transaction is assumed to be a non-taxable business combination for pro forma purposes. No pro forma adjustment was recorded to net deferred tax liabilities directly attributable to the BHN transactions in the unaudited pro forma consolidated balance sheet. New Charter's difference between book and tax basis in its investment in the Charter Holdings partnership, and underlying net assets, is not anticipated to change following A/N's contribution of the Bright House assets and liabilities. New Charter will record net deferred tax liabilities related to its investment, and its underlying net assets, in Charter Holdings following the BHN transactions based on future differences that arise between book and tax.
- (g) Represents the elimination of \$452 million of pension and other benefits related to long-term liabilities not assumed and the elimination of \$30 million of other long-term deferred liabilities assumed to have no fair value as there are no associated payment obligations or substantive performance obligations.
- (h) Adjustment to noncontrolling interest reflects the following adjustments (in millions).

Issuance of Charter Holdings common units to A/N	\$ 6,371
Issuance of Charter Holdings convertible preferred units to A/N	2,500
	\$ 8,871

Charter Holdings will issue approximately 34.3 million common units, subject to application of the Parent Merger Exchange Ratio, that are exchangeable into New Charter Class A common stock on a one-for-one basis, which are valued at approximately \$6.4 billion for pro forma purposes, based on Charter Class A common stock closing stock price on July 31, 2015 of \$185.86. These units are recorded in noncontrolling interest as permanent equity on the unaudited pro forma consolidated balance sheet. The actual value of the Charter Holdings common units for accounting purposes will be based on the closing price of Charter Class A common stock on the date of closing of the BHN transactions and will be different from the assumed value presented in the unaudited pro forma financial statements.

Charter Holdings will issue approximately 10.3 million convertible preferred units, subject to application of the Parent Merger Exchange Ratio, that are valued for pro forma purposes based on their \$2.5 billion aggregate liquidation preference. These units are recorded in noncontrolling interest as permanent equity on the unaudited pro forma consolidated balance sheet. The preferred units are convertible into Charter Holdings common units based on a conversion feature as defined in the BHN contribution agreement and further exchangeable into New Charter Class A common stock on a one-for-one basis. The actual value of the Charter Holdings preferred units for accounting purposes will be recorded at fair value at the date of closing and will be different from the assumed value presented in the unaudited pro forma financial statements.

- (i) Pro forma adjustment to controlling interest of shareholders' equity reflects the following (in millions).

Elimination of Bright House's historical shareholders' equity and accumulated other comprehensive loss	\$ (2,912)
Issuance of New Charter Class A common stock to Liberty	700

Advisor fees and other expenses directly related to the BHN transactions (30)

\$ (2,242)

Advisor fees and other expenses directly related to the BHN transactions of \$30 million are not reflected in the unaudited pro forma statements of operations and consist primarily of investment banking fees and legal fees.

Table of Contents**Note 3. TWC Transactions Pro Forma Statement of Operations Adjustments**

- (a) Adjustment to revenues and operating costs and expenses reflect the following adjustments for the six months ended June 30, 2015 and year ended December 31, 2014 (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Reclassification to conform to Charter's financial statement classification for processing fees revenue	\$ 108	\$ 201
Elimination of advertising revenue/expense between Charter and TWC	(12)	(28)
Adjustment to both revenues and operating costs and expenses	96	173
Incremental replacement stock award compensation expense	61	169
Elimination of amortization of actuarial gains (losses) and prior service credits for TWC's pension plans	(21)	3
Total adjustment to operating costs and expenses	\$ 136	\$ 345

TWC presents processing fees as a reduction to bad debt expense within operating costs and expenses in the statement of operations. Charter reports such fees as other revenue. As such, a pro forma reclassification was made to conform to Charter's financial statement classification for processing fee revenues.

Incremental replacement stock award compensation expense represents additional expense related to converted TWC equity awards associated with the post-combination vesting period. Compensation expense, following the closing of the TWC transactions, will reflect the \$729 million fair value of the awards as of the closing date and will be recognized over the remaining vesting period. At closing, TWC employee equity awards will be converted into equity awards with respect to New Charter Class A common stock, after giving effect to the Stock Award Exchange Ratio (as defined under "The Merger Agreement Treatment of TWC Equity Awards").

Net actuarial gains (losses) and prior service credits are included in TWC's accumulated other comprehensive loss component of equity and reclassified into the results of operations based on service period assumptions. Because TWC's equity, including accumulated other comprehensive loss, is eliminated in the opening balance sheet pursuant to acquisition accounting, the results for the periods following the TWC transactions will not include any impact from the amortization of these deferred net actuarial gains (losses) and prior service credits.

- (b) Charter increased depreciation and amortization by \$1.5 billion and \$3.7 billion for the six months ended June 30, 2015 and year ended December 31, 2014, respectively, as follows (in millions).

	Six Months Ended June 30, 2015			Year Ended December 31, 2014		
	Depreciation	Amortization	Total	Depreciation	Amortization	Total
TWC pro forma expense based on fair value	\$ 1,729	\$ 1,586	\$ 3,315	\$ 3,459	\$ 3,568	\$ 7,027
TWC historical expense			(1,805)			(3,371)
Total pro forma depreciation and amortization adjustment			\$ 1,510			\$ 3,656

The increase was estimated using a preliminary average useful life of 6 years for property, plant and equipment and 9 years for customer relationships. Customer relationships are amortized using an accelerated method (sum of the years digits) to reflect the period over which the relationships are expected to generate cash flows. Following the acquisition, TWC's pro forma customer relationships of \$17.8 billion

Table of Contents

would result in amortization expense under the accelerated method of \$3.6 billion for year 1, \$3.2 billion for year 2, \$2.8 billion for year 3, \$2.4 billion for year 4, \$2.0 billion for year 5 and \$3.8 billion thereafter. The effect of a one-year decrease in the weighted average useful lives of property, plant and equipment and customer relationships would be an increase to depreciation and amortization expense of approximately \$495 million and \$1.1 billion for the six months ended June 30, 2015 and year ended December 31, 2014, respectively, while the effect of a one-year increase would result in a decrease of approximately \$373 million and \$818 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively. The pro forma adjustments are based on current estimates and may not reflect actual depreciation and amortization once the purchase price allocation is finalized and final determination of useful lives are made.

- (c) For the six months ended June 30, 2015 and year ended December 31, 2014, other operating (income) expenses, net decreased by \$69 million and \$56 million, respectively, as follows (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Elimination of TWC stock compensation expense classified by TWC as merger-related in other operating expense (see Note 3(a))	\$ (19)	\$ (56)
Elimination of Charter transaction costs directly related to the TWC transactions	(8)	
Elimination of TWC transaction costs directly related to the TWC transactions	(42)	
	\$ (69)	\$ (56)

- (d) For the six months ended June 30, 2015 and year ended December 31, 2014, interest expense, net increased by \$432 million and \$862 million, respectively, as follows (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Additional interest expense on new debt issued	\$ (567)	\$ (1,134)
Amortization of deferred financing fees and original issue discount	(12)	(24)
Amortization of net premium as a result of adjusting assumed TWC long-term debt to fair value	138	276
Elimination of amortization related to TWC's previously deferred financing fees and debt discounts	9	20
	\$ (432)	\$ (862)

In July 2015, Charter issued \$15.5 billion CCO Safari II, LLC senior secured notes and CCO Safari III, LLC entered into \$3.8 billion of senior secured bank loans. Although the nature of the remaining debt financing may be secured

through various combinations of bank debt, unsecured notes and secured notes, for pro forma purposes, Charter has assumed issuing unsecured notes at current market rates and borrowings under the Charter Operating revolving credit facility to fund the remaining \$4.4 billion cash portion of the TWC transactions. A 0.125% change in interest rates would increase (decrease) interest expense by \$2 million and \$3 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively.

As noted in Note 1(e) above, TWC long-term debt was adjusted to fair value. The difference between the fair value and the face amount of each borrowing is amortized as an offset to interest expense over the remaining term of each borrowing based on its maturity date. This adjustment results in interest expense that effectively reflects current market interest rates rather than the stated interest rates.

Table of Contents

- (e) As discussed in Note 1(f) above, Charter determined that TWC's reversing deferred tax liabilities provide a source of future taxable income in the combined entity, resulting in a reduction of substantially all of Charter's preexisting valuation allowance. The pro forma adjustment to income taxes includes the incremental pro forma tax benefit relating to the legacy Charter operations under the assumption the Charter tax calculation no longer reflects the effects of the preexisting valuation allowance. Thus, the income tax benefit impact of the pro forma adjustments was determined by applying an estimated New Charter tax rate of 39% to the pro forma loss before taxes of New Charter following the TWC transactions, resulting in a \$193 million and \$519 million income tax benefit in the unaudited pro forma consolidated statements of operations for the six months ended June 30, 2015 and year ended December 31, 2014, respectively. The pro forma income tax benefit does not reflect the effects of any special partnership tax allocations as these effects are currently not estimable.
- (f) Completion of the TWC transactions includes a conversion of all of Charter's existing Class A common stock into 0.9042 shares of New Charter Class A common stock. This Parent Merger Exchange Ratio is applied to all legacy Charter Class A common stock and to shares issued to TWC stockholders and Liberty. This will result in the following adjustment to weighted average common shares outstanding.

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Equivalent Charter shares issued to TWC stockholders	157,441,371	157,441,371
Equivalent Charter shares purchased by Liberty	24,300,650	24,300,650
	181,742,021	181,742,021
Parent Merger Exchange Ratio	0.9042	0.9042
New Charter shares issued in TWC transactions	164,331,135	164,331,135
Reduction of legacy Charter shares outstanding upon conversion from Charter Class A common stock to New Charter Class A common stock	10,702,768	10,382,245
	153,628,367	153,948,890

The amount of shares issued will vary based on the number of TWC stockholders that elect the Option B Election and therefore have the right to receive \$115.00 in cash and shares of New Charter Class A common stock equivalent to 0.4562 shares of Charter Class A common stock. A 5% decrease in the number of shares held by TWC stockholders electing the Option A Election, who instead elect the Option B Election, will result in a decrease in the number of shares issued of approximately 1.2 million shares.

The replacement stock awards, including restricted stock units and stock options, in New Charter were not included for purposes of the computation of pro forma diluted earnings per share because the effect would have been anti-dilutive given the pro forma net loss resulting from the TWC transactions.

Table of Contents**Note 4. BHN Transactions Pro Forma Statement of Operations Adjustments**

- (a) Adjustment to revenues and operating costs and expenses reflect the following adjustments for the six months ended June 30, 2015 and year ended December 31, 2014 (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Reclassification to conform to Charter's financial statement classification for processing fees revenue	\$ 29	\$ 55
Elimination of TWC management fee incurred by Bright House	(73)	(143)
Adjustment to both revenues and operating costs and expenses	(44)	(88)
Adjustment to capitalize residential installation labor and other labor costs to conform to Charter's capitalization accounting policy	(49)	(112)
Elimination of pension plans and costs related to parent company obligations not assumed by Charter in the BHN transactions	(46)	(54)
Reclassification to conform to Charter's financial statement classification for other operating expense	(1)	(3)
Total adjustment to operating costs and expenses	\$ (140)	\$ (257)

Bright House presents processing fees as a reduction to bad debt expense within operating costs and expenses in the statement of operations. Charter reports such fees as other revenue. As such, a pro forma reclassification was made to conform to Charter's financial statement classification for processing fee revenues.

- (b) Charter increased depreciation and amortization by \$157 million and \$385 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively, as follows (in millions).

	Six Months Ended June 30, 2015			Year Ended December 31, 2014		
	Depreciation	Amortization	Total	Depreciation	Amortization	Total
Bright House pro forma expense based on fair value	\$ 225	\$ 156	\$ 381	\$ 451	\$ 350	\$ 801
Bright House historical expense			(224)			(416)

Total pro forma depreciation and amortization adjustment	\$ 157	\$ 385
--	--------	--------

The increase was estimated using a preliminary average useful life of 6 years for property, plant and equipment and 9 years for customer relationships. Customer relationships are amortized using an accelerated method (sum of the years digits) to reflect the period over which the relationships are expected to generate cash flows. Following the acquisition, Bright House's pro forma customer relationships of \$1.8 billion would result in amortization expense under the accelerated method of \$350 million for year 1, \$311 million for year 2, \$273 million for year 3, \$234 million for year 4, \$195 million for year 5 and \$389 million thereafter. The effect of a one-year decrease in the weighted average useful lives of property, plant and equipment and customer relationships would be an increase to depreciation and amortization expense of approximately \$60 million and \$129 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively, while the effect of a one-year increase would result in a decrease of

Table of Contents

approximately \$45 million and \$96 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively. The pro forma adjustments are based on current estimates and may not reflect actual depreciation and amortization once the purchase price allocation is finalized and final determination of useful lives are made.

- (c) For the six months ended June 30, 2015 and year ended December 31, 2014, other operating (income) expenses, net decreased by \$6 million and \$0, respectively, as follows (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Elimination of Charter transaction costs directly related to the BHN transactions	\$ (7)	\$ (3)
Reclassification to conform to Charter's financial statement classification for other operating expense	1	3
	\$ (6)	\$

- (d) For the six months ended June 30, 2015 and year ended December 31, 2014, interest expense, net, increased by \$2 million and decreased by \$3 million, respectively, representing expected change in interest expense on new debt to be incurred to fund the BHN transactions and related amortization of deferred financing fees offset by the elimination of historical interest expense incurred by Bright House as debt is not assumed in the BHN transactions and repayment of Charter Operating's revolving credit facility. For pro forma purposes the \$2.0 billion of debt issued for the BHN transactions was assumed to be based on current market interest rates on bank debt. A 0.125% change in interest rates would increase (decrease) interest expense by \$1 million and \$3 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively.
- (e) The income tax benefit was determined by applying an estimated New Charter tax rate of 39% to pro forma loss before income taxes of New Charter following the TWC transactions and BHN transactions, less the impact on the tax rate as a result of the non-controlling interest allocation of the Charter Holdings partnership which is treated as a permanent item for tax purposes in the combined entities' pro forma tax benefit calculation. The resulting income tax benefit of \$74 million and \$331 million is reflected in the unaudited consolidated statements of operations for the six months ended June 30, 2015 and year ended December 31, 2014, respectively. The resulting effective tax rate of 55% and 42% for the respective periods is a result of the permanent treatment of the noncontrolling interest expense. The pro forma income tax benefit does not reflect the effects of any special partnership tax allocations as these effects are currently not estimable.
- (f) Reflects the following noncontrolling interest adjustment for the six months ended June 30, 2015 and year ended December 31, 2014 as follows (in millions).

Six Months Ended June 30, 2015	Year Ended December 31, 2014
---	---

Charter Holdings pro forma net loss for the TWC transactions and BHN transactions	\$	(134)	\$	(795)
Charter Holdings 6% cash dividend to preferred unit holders		(75)		(150)
Charter Holdings pro forma net loss available for allocation to common unit holders		(209)		(945)
A/N pro forma noncontrolling interest in Charter Holdings excluding preferred units		10%		10%
Noncontrolling interest expense Charter Holdings common units		(21)	\$	(95)
Noncontrolling interest expense Charter Holdings convertible preferred units		75		150
	\$	54	\$	55

Table of Contents

The allocation of Charter Holdings' net income to noncontrolling interest for financial reporting purposes is first allocated to the convertible preferred units for their stated dividend following their aggregate liquidation preference. The residual Charter Holdings net income (loss) is allocated to the common unit holders in Charter Holdings based on the relative economic common ownership interests in Charter Holdings. A/N's relative economic common ownership interest in Charter Holdings used for pro forma purposes is 10%.

- (g) Completion of the TWC transactions includes a conversion of all of Charter's existing Class A common stock into 0.9042 shares of New Charter Class A common stock. This Parent Merger Exchange Ratio is applied to all legacy Charter Class A common stock and to stock issued to Liberty and A/N. This will result in the following adjustment to weighted average common shares outstanding for both the six months ended June 30, 2015 and year ended December 31, 2014.

Equivalent Charter shares purchased by Liberty	4,046,329
Parent Merger Exchange Ratio	0.9042
New Charter shares issued to Liberty	3,658,691

The Charter Holdings common units of 34.3 million (31.0 million units applying the Parent Merger Exchange Ratio of 0.9042) and Charter Holdings convertible preferred units of 10.3 million (9.3 million units applying the Parent Merger Exchange Ratio of 0.9042) to be issued to A/N were not included on an if-converted, if-exchanged basis for purposes of the computation of pro forma diluted earnings per share because the effect would have been anti-dilutive given the pro forma net loss resulting from the TWC transactions and BHN transactions.

Note 5. Supplemental Unaudited Pro Forma Consolidated Financial Statements - BHN Transactions Only

Generally, the consummation of the BHN transactions is conditioned on the completion of the TWC transactions. However, Charter and Bright House may still be obligated to complete the BHN transactions, in certain circumstances if the TWC transactions do not occur. The accompanying supplemental unaudited pro forma financial information as of June 30, 2015 and for the six months ended June 30, 2015 and for the year ended December 31, 2014 is intended to reflect the impacts of the BHN transactions on Charter's consolidated financial statements as if only the BHN transactions had occurred as of June 30, 2015 for the unaudited pro forma consolidated balance sheet and as of January 1, 2014 for the unaudited pro forma consolidated statements of operations. The accompanying supplemental unaudited pro forma financial information presents the pro forma consolidated financial position and results of operations of Charter based on the historical financial statements and accounting records of Charter and Bright House and the related pro forma adjustments upon closing the BHN transactions. The pro forma adjustments are included only to the extent they are (i) directly attributable to the BHN transactions, (ii) factually supportable and (iii) with respect to the statements of operations, expected to have a continuing impact on the combined results.

Supplemental BHN Transactions Pro Forma Balance Sheet and Statement of Operations Adjustments

- (a) Adjustment to current assets represents the elimination of assets not assumed in the BHN transactions, consisting primarily of \$561 million of cash and cash equivalents, \$112 million of short-term marketable securities and related interest receivable. In addition, cash and cash equivalents increased by \$548 million due to excess cash from borrowings needed to fund the cash portion of the purchase price in the BHN transactions. No fair value adjustments are reflected in accounts receivable, net, as carrying value is estimated to approximate fair value.

Table of Contents

- (b) Adjustment to long-term debt represents the elimination of Bright House's long-term debt not assumed in the BHN transactions and the issuance of new debt to partially fund the BHN transactions. The table below represents the following pro forma cash sources and uses as a result of the BHN transactions.

Pro Forma Cash Sources and Uses (in millions)**Sources:**

Proceeds from issuance of long-term debt	\$ 2,000
Issuance of New Charter Class A common stock to Liberty	700
	\$ 2,700

Uses:

Cash portion of purchase price to A/N	\$ 2,014
Repayment of Charter Operating's revolving credit facility	80
Excess cash used for general corporate purposes	548
Advisor fees and other expenses directly related to the BHN transactions	30
Deferred financing fees	28
	\$ 2,700

- (c) Adjustment to revenues and operating costs and expenses reflect the following adjustments for the six months ended June 30, 2015 and year ended December 31, 2014 (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Reclassification to conform to Charter's financial statement classification for processing fees revenue	\$ 29	\$ 55
Adjustment to both revenues and operating costs and expenses	29	55
Adjustment to capitalize residential installation labor and other labor costs to conform to Charter's capitalization accounting policy	(49)	(112)
Elimination of pension plans and costs related to parent company obligations not assumed by Charter in the BHN transactions	(46)	(54)
Reclassification to conform to Charter's financial statement classification for other operating expense	(1)	(3)
Total adjustment to operating costs and expenses	\$ (67)	\$ (114)

BHN presents processing fees as a reduction to bad debt expense within operating costs and expenses in the statement of operations. Charter reports such fees as other revenue. As such, a pro forma reclassification was made to conform

to Charter's financial statement classification for processing fee revenues.

- (d) For the six months ended June 30, 2015 and year ended December 31, 2014, interest expense, net, increased by \$8 million and \$9 million, respectively, representing expected change in interest expense on new debt to be incurred to fund the BHN transactions and related amortization of deferred financing fees offset by the elimination of historical interest expense incurred by Bright House as debt is not assumed in the BHN transactions and repayment of Charter Operating's revolving credit facility. For pro forma purposes the \$2.0 billion of debt issued for the BHN transactions was assumed to be based on current market interest rates on bank debt. A 0.125% change in interest rates would increase (decrease) interest expense by \$1 million and \$3 million for the six months ended June 30, 2015 and year ended December 31, 2014, respectively.

Table of Contents

- (e) The income tax expense was determined by applying an estimated New Charter tax rate of 39% to pro forma income before income taxes of New Charter following the BHN transactions, less the impact on the tax rate as a result of the non-controlling interest allocation of the Charter Holdings partnership which is treated as a permanent item for tax purposes in the combined entities pro forma tax expense calculation. The resulting income tax expense of \$167 million and \$347 million is reflected in the unaudited consolidated statements of operations for the six months ended June 30, 2015 and year ended December 31, 2014, respectively. The resulting effective tax rate of 76% and 60% for the respective periods is a result of the permanent treatment of the noncontrolling interest expense. The pro forma income tax expense does not reflect the effects of any special partnership tax allocations as these effects are currently not estimable.
- (f) Reflects the following noncontrolling interest adjustment for the six months ended June 30, 2015 and year ended December 31, 2014 as follows (in millions).

	Six Months Ended June 30, 2015	Year Ended December 31, 2014
Charter Holdings pro forma net income for the BHN transactions	\$ 221	\$ 580
Charter Holdings 6% cash dividend to preferred unit holders	(75)	(150)
Charter Holdings pro forma net income available for allocation to common unit holders	146	430
A/N pro forma noncontrolling interest in Charter Holdings excluding preferred units	21.4%	21.4%
Noncontrolling interest expense - Charter Holdings common units	31	\$ 92
Noncontrolling interest expense - Charter Holdings convertible preferred units	75	150
	\$ 106	\$ 242

The allocation of Charter Holdings net income to noncontrolling interest for financial reporting purposes is first allocated to the convertible preferred units for their stated dividend following their aggregate liquidation preference. The residual Charter Holdings net income (loss) is allocated to the common unit holders in Charter Holdings based on the relative economic common ownership interests in Charter Holdings. A/N's relative economic common ownership interest in Charter Holdings used for pro forma purposes assuming only the BHN transactions is 21.4%.

- (g) Represents the shares of New Charter Class A common stock purchased by Liberty. The Charter Holdings common units of 34.3 million and Charter Holdings convertible preferred units of 10.3 million to be issued to A/N were not included on an if-converted, if-exchanged basis for purposes of the computation of pro forma diluted earnings per share because the effect would have been anti-dilutive given the pro forma net loss of the combined entities resulting from the BHN transactions.

Table of Contents**RISK FACTORS**

In addition to the other information contained or incorporated by reference into this joint proxy statement/prospectus, including the matters addressed in Cautionary Statement Regarding Forward-Looking Statements, beginning on page 114 of this joint proxy statement/prospectus, you should carefully consider the following risk factors in determining whether to vote for the approval of the adoption of the merger agreement at the TWC special meeting and the Charter special meeting and the approval of the other proposals being presented at the Charter special meeting. You should also read and consider the risk factors associated with each of the businesses of TWC and Charter because these risk factors may affect the operations and financial results of the combined company. These risk factors may be found under (i) Part I, Item 1A, Risk Factors in the Charter 2014 Form 10-K, (ii) Part II, Item 1A, Risk Factors in the Charter Form 10-Q for the second quarter of 2015 (iii) Part I, Item 1A Risk Factors in the TWC 2014 Form 10-K and (iv) Part II, Item 1A, Risk Factors in the TWC Form 10-Q for the second quarter of 2015, each of which is on file with the SEC and all of which are incorporated by reference into this joint proxy statement/prospectus.

If any of the following risks and uncertainties develop into actual events, these events could have a material adverse effect on the business, financial condition or results of operations of, (i) prior to the mergers and/or the BHN transactions, Charter, TWC and/or BHN, as applicable, and (ii) after the mergers and/or the BHN transactions, the combined company. In addition, past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results or trends in future periods.

Risks Related to the Mergers and the BHN Transactions

In the event (i) only the mergers or the mergers and the BHN transactions are completed, former Charter stockholders (excluding Liberty Broadband) and former TWC stockholders (excluding Liberty Broadband) will have significantly lower ownership and voting interest in New Charter following the completion of such transactions than they currently have in Charter and TWC, respectively, and will exercise less influence over management, or (ii) only the BHN transactions are completed, existing Charter stockholders (excluding Liberty Broadband) will have a reduced ownership and voting interest in Charter following the completion of the BHN transactions than they currently have in Charter and will exercise less influence over management.

Based on the number of shares of TWC common stock outstanding as of July 31, 2015, and the number of shares of Charter Class A common stock outstanding as of July 31, 2015, it is expected that, immediately after completion of the mergers, the issuance of shares to Liberty Broadband and the completion of the BHN transactions, and depending on the outcome of the election feature contained in the merger agreement, former Charter stockholders (excluding Liberty Broadband) are expected to own between approximately 26% and 24% of New Charter Class A common stock, former TWC stockholders (excluding Liberty Broadband) are expected to own between approximately 41% and 45% of New Charter Class A common stock, A/N is expected to own indirectly (on an as-converted, as-exchanged basis) between approximately 14% and 13% of New Charter Class A common stock and Liberty Broadband is expected to own between approximately 19% and 17% of New Charter Class A common stock. If only the mergers are completed, it is expected that former Charter stockholders (excluding Liberty Broadband) will own between approximately 31% and 28% of New Charter Class A common stock, former TWC stockholders (excluding Liberty Broadband) will own between approximately 48% and 53% of New Charter Class A common stock and Liberty Broadband will own between approximately 21% and 19% of New Charter Class A common stock. In connection with the mergers, each TWC stockholder and Charter stockholder will become a stockholder of New Charter with a percentage ownership of New Charter that is significantly smaller than the stockholder's percentage ownership in TWC and Charter, respectively. Charter stockholders and TWC stockholders currently have the right to vote for their respective boards of directors and on other matters affecting the applicable company. Consequently, former Charter

stockholders (excluding Liberty Broadband) and former TWC stockholders will be able to exercise less influence over the management, operations and policies of New Charter after the mergers (and the BHN transactions, if applicable) than they currently exercise over the management, operations and policies of Charter and TWC, respectively.

Table of Contents

If only the BHN transactions are completed, it is expected that following the BHN transactions existing Charter stockholders (excluding Liberty Broadband) will own approximately 52% of Charter Class A common stock, Liberty Broadband will own approximately 20% of Charter Class A common stock and A/N will indirectly own (on an as-converted, as exchanged basis) approximately 28% of Charter Class A common stock. Charter stockholders currently have the right to vote for their board of directors and on other matters affecting Charter. Consequently, assuming the mergers are not completed but the BHN transactions are completed, existing Charter stockholders (excluding Liberty Broadband) will be able to exercise less influence over the management, operations and policies of Charter after the BHN transactions than they currently exercise over the management, operations and policies of Charter.

In order to complete the mergers and/or the BHN transactions, Charter along with TWC and Bright House must make certain governmental filings and obtain certain governmental authorizations, and if such filings and authorizations are not made or granted or are granted with conditions to the parties, completion of the mergers and/or the BHN transactions may be jeopardized or the anticipated benefits of the mergers and/or the BHN transactions could be reduced.

The completion of the mergers and/or the BHN transactions are each conditioned upon, among other things, the expiration or early termination of the applicable waiting periods under the HSR Act and the required governmental authorizations, including an order of the FCC with respect to the mergers and/or the BHN transactions, having been obtained and being in full force and effect. Although Charter and TWC have agreed in the merger agreement, and Charter and BHN have agreed in the BHN contribution agreement, to use reasonable best efforts, subject to certain limitations, to make certain governmental filings or obtain the required governmental authorizations, as the case may be, there can be no assurance that the relevant waiting periods will expire or that the relevant authorizations will be obtained. In addition, the governmental authorities with or from which these authorizations are required generally have broad discretion in administering the governing regulations. As a condition to authorization of the mergers and/or the BHN transactions, these governmental authorities may impose requirements, limitations or costs or require divestitures or place restrictions on the conduct of the combined company's business after completion of the mergers and/or the BHN transactions.

Under the terms of each of the merger agreement and BHN contribution agreement, subject to certain exceptions, Charter and its subsidiaries are required to accept certain conditions and take certain actions imposed by governmental authorities and accept any other remedies to the extent such actions, conditions or other remedies would not constitute a burdensome condition (see The Merger Agreement Reasonable Best Efforts Covenant for a definition of burdensome condition with respect to the TWC transactions) or a BHN contribution burdensome condition (see The BHN Contribution Agreement Reasonable Best Efforts Covenant for a definition of BHN contribution burdensome condition with respect to the BHN transactions). There can be no assurance that regulators will not impose conditions, terms, obligations or restrictions and that such conditions, terms, obligations or restrictions will not have the effect of delaying completion of the mergers and/or the BHN transactions or imposing additional material costs on or materially limiting the revenues of New Charter (or, if only the BHN transactions are completed, Charter) following the mergers and/or the BHN transactions, or otherwise adversely affecting the business and results of operations of New Charter or Charter, as applicable, after completion of the mergers and/or the BHN transactions. In addition, there can be no assurance that these conditions, terms, obligations or restrictions will not result in the delay or abandonment of the mergers and/or the BHN transactions.

For a more complete summary of the conditions that must be satisfied or waived prior to completion of the mergers and/or the BHN transactions, see the section entitled The Merger Agreement Conditions to Completion of the Merger and The BHN Contribution Agreement Conditions to the Completion of the Contribution, respectively, beginning on page 243 and page 269, respectively, of this joint proxy statement/prospectus.

Table of Contents

New Charter (or, if only the BHN transactions are completed, Charter) may not realize anticipated cost synergies and growth opportunities.

New Charter (or, if only the BHN transactions are completed, Charter) expects to realize cost synergies, growth opportunities and other financial and operating benefits as a result of the mergers and/or the BHN transactions. The combined company's success in realizing these cost synergies, growth opportunities and other financial and operating benefits, and the timing of this realization, depends on the successful integration of the business operations obtained in the mergers and the BHN transactions. Even if New Charter or Charter, as applicable, is able to integrate the business operations obtained in the mergers and/or the BHN transactions successfully, it is not possible to predict with certainty if or when these cost synergies, growth opportunities and benefits will occur, or the extent to which they actually will be achieved. For example, the benefits from the mergers and/or the BHN transactions may be offset by costs incurred in integrating the new business operations or in obtaining or attempting to obtain regulatory approvals for the mergers and/or the BHN transactions, or increased operating costs that may be experienced as a result of the mergers and/or the BHN transactions. Realization of any benefits and cost synergies could be affected by the factors described in other risk factors and a number of factors beyond New Charter's or Charter's control, as applicable, including, without limitation, general economic conditions, increased operating costs, the response of competitors and vendors and regulatory developments.

If New Charter (or, if only the BHN transactions are completed, Charter) is not able to successfully integrate Charter's business with that of TWC and/or BHN within the anticipated time frame, or at all, the anticipated cost savings and other benefits of the mergers and/or BHN transactions may not be realized fully, or at all, or may take longer to realize than expected. In such circumstances, in the event the mergers (and, if applicable, the BHN transactions) are completed, New Charter may not perform as expected and the value of the New Charter Class A common stock (including the merger consideration) may be adversely affected.

Charter, TWC and BHN have operated and, until completion of the mergers and/or BHN transactions will continue to operate, independently, and there can be no assurances that their businesses can be integrated successfully. After consummation of the mergers and/or the BHN transactions the combined company will have significantly more systems, assets, investments, businesses, customers and employees than each company did prior to the mergers and/or the BHN transactions. It is possible that the integration process could result in the loss of key Charter, TWC and/or BHN employees, the loss of subscribers and customers, the disruption of the companies' ongoing businesses or in unexpected integration issues, higher than expected integration costs and an overall post-completion integration process that takes longer than originally anticipated. The process of integrating TWC, BHN, or TWC and BHN, with the businesses Charter operated prior to the mergers and/or the BHN transactions will require significant capital expenditures and the expansion of certain operations and operating and financial systems. Management of each company will be required to devote a significant amount of time and attention to the integration process before the mergers and/or the BHN transactions are completed. There is a significant degree of difficulty and management involvement inherent in that process. These difficulties include:

integrating the companies' operations and corporate functions;

integrating the companies' technologies, networks and customer service platforms;

integrating and unifying the product offerings and services available to customers;

harmonizing the companies' operating practices, employee development and compensation programs, internal controls and other policies, procedures and processes;

maintaining existing relationships and agreements with customers, providers, programmers and other vendors and avoiding delays in entering into new agreements with prospective customers, providers and vendors;

addressing possible differences in business backgrounds, corporate cultures and management philosophies;

Table of Contents

consolidating the companies' administrative and information technology infrastructure;

coordinating programming and marketing efforts;

coordinating geographically dispersed organizations;

integrating information, purchasing, provisioning, accounting, finance, sales, billing, payroll, reporting and regulatory compliance systems;

integrating and unifying the product offerings and services available to customers, including customer premise equipment and video user interfaces;

completing the conversion of analog systems to all-digital for the systems to be acquired from TWC and BHN;

managing a significantly larger company than before the completion of the mergers and/or the BHN transactions; and

attracting and retaining the necessary personnel associated with the acquired assets.

Even if the new businesses are successfully integrated, it may not be possible to realize the benefits that are expected to result from the mergers and/or the BHN transactions, or realize these benefits within the time frame that is expected. For example, the elimination of duplicative costs may not be possible or may take longer than anticipated, or the benefits from the mergers and/or BHN transactions may be offset by costs incurred or delays in integrating the businesses and increased operating costs. If the combined company fails to realize the anticipated benefits from the transactions, its liquidity, results of operations, financial condition and/or share price may be adversely affected. In addition, at times, the attention of certain members of Charter's, TWC's and/or BHN's management and resources may be focused on the completion of the mergers and/or the BHN transactions and the integration of the businesses and diverted from day-to-day business operations, which may disrupt each company's business and the business of the combined company.

The substantial indebtedness that will be incurred by New Charter in connection with the mergers (and, if applicable, the BHN transactions) could adversely affect New Charter's operations and financial condition after the mergers and the BHN transactions.

As of June 30, 2015, Charter had approximately \$13.9 billion of long-term debt outstanding. Giving effect to the mergers, the BHN transactions, the Liberty transactions and the related financings, New Charter will have a total of approximately \$63.5 billion of long-term debt outstanding (if all TWC stockholders elect the Option A Election) or approximately \$67.6 billion of long-term debt outstanding (if all TWC stockholders elect the Option B Election). As of June 30, 2015, after giving effect to the mergers, the BHN transactions and the related financings, New Charter will have availability under its credit facilities of approximately \$1.6 billion.

New Charter's and its subsidiaries' indebtedness could have negative consequences to New Charter after the mergers (and, if completed, the BHN transactions), such as:

requiring New Charter to dedicate a substantial portion of its cash flow from operating activities to payments on its indebtedness, thereby reducing the availability of cash flow to fund working capital, capital expenditures, research and development efforts, potential strategic acquisitions and other general corporate purposes;

limiting New Charter's ability to obtain additional financing to fund growth, working capital or capital expenditures, or to fulfill debt service requirements or other cash requirements;

exposing New Charter to increased interest expense to the extent New Charter refinances existing debt with higher cost debt;

to the extent that New Charter's debt is subject to floating interest rates, increasing New Charter's vulnerability to fluctuations in market interest rates;

Table of Contents

placing New Charter at a competitive disadvantage relative to competitors that have less debt;

adversely affecting New Charter's relationship with customers and suppliers;

limiting New Charter's flexibility to pursue other strategic opportunities or in planning for, or reacting to, changes in its business, the cable and telecommunications industries, and the economy at large; and

limiting New Charter's ability to buy back New Charter Class A common stock or pay cash dividends. If current debt amounts increase, the related risks that Charter now faces may intensify.

Because of high debt levels, New Charter may not be able to service its debt obligations in accordance with their terms after the mergers (and, if completed, the BHN transactions).

New Charter's ability to meet its expense and debt service obligations contained in the agreements governing New Charter's indebtedness will depend on its future performance, which will be affected by financial, business, economic and other factors, including potential changes in customer preferences, the success of product and marketing innovation and pressure from competitors. Should New Charter's revenues decline after the mergers (and, if completed, the BHN transactions), it may not be able to generate sufficient cash flow to pay its debt service obligations when due. If New Charter is unable to meet its debt service obligations after the mergers (and, if completed, the BHN transactions) or should it fail to comply with its financial and other restrictive covenants contained in the agreements governing New Charter's indebtedness, New Charter may be required to refinance all or part of its debt, sell important strategic assets at unfavorable prices or borrow more money. New Charter may not be able to, at any given time, refinance its debt, sell assets or borrow more money on terms acceptable to New Charter or at all. The inability of New Charter to refinance its debt could have a material adverse effect on New Charter's financial condition and results from operations after the mergers (and, if completed, the BHN transactions).

The existing agreements and instruments governing Charter's existing debt contain restrictions and limitations that could significantly affect its ability to operate its business, as well as significantly affect its liquidity and, after the mergers (and, if completed, the BHN transactions), New Charter will be subject to restrictive debt covenants, which may restrict its operational flexibility.

Charter's existing credit facilities and the indentures governing its debt contain a number of significant covenants that could adversely affect its ability to operate its business, its liquidity, and its results of operations. These covenants restrict, among other things, Charter's and its subsidiaries' ability to:

incur additional debt;

repurchase or redeem equity interests and debt;

issue equity;

make certain investments or acquisitions;

pay dividends or make other distributions;

dispose of assets or merge;

enter into related party transactions; and

grant liens and pledge assets.

After the mergers (and, if completed, the BHN transactions), the agreements governing New Charter's indebtedness will contain additional financial and other restrictive covenants that may be similarly or more restrictive and will limit New Charter's and its subsidiaries' ability to engage in activities that may be in their long-term best interests, including minimum interest coverage and maximum leverage ratios and covenants that may limit the ability of New Charter and its subsidiaries to incur additional indebtedness, create liens, merge or

Table of Contents

consolidate with another company, sell assets and enter into transactions with affiliates. A breach of any of these covenants or New Charter's inability to maintain the required financial ratios could result in a default under the related indebtedness. If a default occurs, the relevant lenders could elect to declare New Charter's indebtedness, together with accrued interest and other fees, to be immediately due and payable. These factors could have a material adverse effect on New Charter's business, financial condition, results of operations, cash flows, and/or share price.

New Charter will be dependent on its cash on hand, cash flow from operations and access to additional liquidity resources to fund its debt obligations, capital expenditures and ongoing operations.

New Charter's ability to service its existing debt and debt incurred in connection with the mergers (and, if completed, the BHN transactions), and to fund its planned capital expenditures and ongoing operations will depend on its ability to continue to generate cash flow and its access to additional liquidity sources. New Charter's ability to continue to generate cash flow will be dependent on many factors, including, among other things:

New Charter's ability to sustain and grow revenues and cash flow from operations by offering video, Internet, voice, advertising and other services to residential and commercial customers, to adequately meet the customer experience demands in its markets and to maintain and grow its customer base, particularly in the face of increasingly aggressive competition, the need for innovation and the related capital expenditures and the economic conditions in the United States;

the impact of competition from other market participants, including but not limited to incumbent cable and telephone companies, direct broadcast satellite operators, wireless broadband and telephone providers, DSL and cable providers and video provided over the Internet;

general business conditions, economic uncertainty or downturn, high unemployment levels and the level of activity in the housing sector;

New Charter's ability to obtain programming at reasonable prices or to raise prices to offset, in whole or in part, the effects of higher programming costs (including retransmission consents);

the development and deployment of new products and technologies; and

the effects of governmental regulation on New Charter's business.

Some of these factors will be beyond New Charter's control. If New Charter is unable to generate sufficient cash flow or New Charter is unable to access additional liquidity sources, New Charter may not be able to service and repay its debt, operate its business, respond to competitive challenges, or fund its other liquidity and capital needs.

New Charter will be dependent on an equity financing from Liberty Broadband to partially finance the mergers.

Charter plans to use the proceeds of \$4.3 billion from the purchase by Liberty Broadband of New Charter Class A common stock to partially fund the mergers. Liberty Broadband will primarily rely on proceeds from third-party

investors to fund the investment in New Charter Class A common stock. Charter cannot guarantee that Liberty Broadband will successfully complete these transactions with such third-party investors. The mergers are not conditioned on the receipt of financing, including financing from Liberty Broadband.

For tax purposes, New Charter (or, if only the BHN transactions are completed, Charter) could experience a deemed ownership change in the future that could limit its ability to use its tax loss carryforwards.

In the past, Charter has experienced ownership changes as defined in Section 382 of the Internal Revenue Code of 1986, as amended (the Code). In general, an ownership change occurs whenever the percentage of

Table of Contents

the stock of a corporation owned, directly or indirectly, by 5-percent stockholders (within the meaning of Section 382 of the Code) increases by more than 50 percentage points over the lowest percentage of the stock of such corporation owned, directly or indirectly, by such 5-percent stockholders at any time over the preceding three years. As a result, Charter is, and following the TWC transactions New Charter (or, if only the BHN transactions are completed, Charter) will be, subject to an annual limitation on the use of its loss carryforwards which existed at November 30, 2009 for the first ownership change and those that existed at May 1, 2013 for the second ownership change. This limitation on the ability to use loss carryforwards, in conjunction with the loss carryforward expiration provisions, could reduce New Charter's or Charter's (as applicable) ability to use a portion of its loss carryforwards to offset future taxable income, which could result in New Charter or Charter (as applicable) being required to make material cash tax payments. New Charter's or Charter's (as applicable) ability to make such income tax payments, if any, will depend at such time on its liquidity or its ability to raise additional capital, and/or on receipt of payments or distributions from Charter Holdings and its subsidiaries.

If Charter or New Charter (as applicable) were to experience a third ownership change as a result of the TWC transactions and/or Liberty transactions contemplated herein or in the future (as a result of purchases and sales of stock by its 5-percent stockholders, new issuances or redemptions of its stock, certain acquisitions of its stock and issuances, redemptions, sales or other dispositions or acquisitions of interests in its 5-percent stockholders), New Charter's or Charter's (as applicable) ability to use its loss carryforwards could become subject to further limitations. Charter's common stock is, and New Charter's (or, if only the BHN transactions are completed, Charter's) common stock will be, subject to certain transfer restrictions contained in its amended and restated certificate of incorporation. These restrictions, which are designed to minimize the likelihood of an ownership change occurring and thereby preserve the ability to utilize loss carryforwards, are not currently operative but could become operative in the future if certain events occur and the restrictions are imposed by New Charter's or Charter's board of directors. However, there can be no assurance that New Charter's or Charter's board of directors would choose to impose these restrictions or that such restrictions, if imposed, would prevent an ownership change from occurring.

Charter, TWC and Bright House may have difficulty attracting, motivating and retaining executives and other employees in light of the mergers and the BHN transactions.

Uncertainty about the effect of the mergers and/or the BHN transactions on Charter, TWC and Bright House employees may impair Charter's, TWC's and Bright House's ability to attract, retain and motivate personnel prior to and following the mergers and/or the BHN transactions. Employee retention may be particularly challenging during the pendency of the mergers and/or the BHN transactions, as employees may experience uncertainty about their future roles with the combined business. In addition, certain employees potentially could terminate their employment for good reason and collect severance if certain specified circumstances set forth in their employment agreements occur following the mergers and/or the BHN transactions, including certain changes in such employees' duties, position, compensation and benefits or primary office location. See *Interests of TWC's Directors and Executive Officers in the Transactions* and *Interests of Charter's Directors and Executive Officers in the Transactions* for a further discussion of some of these issues. If employees of Charter, TWC or Bright House depart, the integration of the companies may be more difficult and the combined company's business following the mergers and/or the BHN transactions may be harmed. Furthermore, New Charter (or, if only the BHN transactions are completed, Charter) may have to incur significant costs in identifying, hiring and retaining replacements for departing employees and may lose significant expertise and talent relating to the businesses of Charter, TWC and/or Bright House, and the combined company's ability to realize the anticipated benefits of the mergers and/or the BHN transactions may be adversely affected. In addition, there could be disruptions to or distractions for the workforce and management associated with activities of labor unions or integrating employees into New Charter.

Table of Contents***A delay in the completion of the mergers and/or the BHN transactions may diminish the anticipated benefits of the mergers and/or the BHN transactions.***

Completion of the mergers and/or the BHN transactions is conditioned upon the receipt of certain governmental consents and approvals, orders, authorizations, and rulings, including the expiration or termination of any applicable waiting period (or extension thereof) under the HSR Act and the adoption of an order, by the FCC and any other requisite governmental entity granting its consent to the mergers and/or the BHN transactions. The requirement to receive these consents and approvals, orders, authorizations and rulings before the mergers could delay the completion of the mergers and/or the BHN transactions if, for example, government agencies request additional information from the parties in order to facilitate their review of the mergers and/or the BHN transactions or require any conditions precedent to granting their approval of the mergers and/or the BHN transactions. In addition, these governmental agencies may attempt to condition their approval of the mergers and/or the BHN transactions on the imposition of conditions that could have a material adverse effect on New Charter (or, if only the BHN transactions are completed, Charter) after the mergers and/or the BHN transactions, including but not limited to its operating results or the value of New Charter Class A common stock (or, if only the BHN transactions are completed, Charter Class A common stock). Any delay in the completion of the mergers and/or the BHN transactions could diminish the anticipated benefits of the mergers and/or the BHN transactions or result in additional transaction costs, including interest expense for debt incurred in anticipation of the mergers and/or the BHN transactions, loss of revenue or other effects associated with uncertainty about the mergers and/or the BHN transactions. Any uncertainty over the ability of the companies to complete the mergers and/or the BHN transactions could make it more difficult for Charter, TWC and Bright House to retain key employees or to pursue business strategies.

Prior to the mergers and/or the BHN transactions, Charter, TWC and/or BHN, as applicable, and after the mergers and/or the BHN transactions, the combined company, will incur significant transaction-related costs in connection with the mergers and/or the BHN transactions.

Prior to the mergers and/or the BHN transactions, Charter, TWC and/or BHN, as applicable, and after the mergers and/or the BHN transactions, the combined company, expect to incur a number of non-recurring costs associated with the mergers and/or the BHN transactions before, at, and after closing the mergers and/or the BHN transactions. If the merger agreement is terminated under certain circumstances, Charter will be required to pay to TWC certain termination fees (see [The Merger Agreement Termination Fees Termination Fees Payable by Charter](#)). If the merger agreement is terminated under certain circumstances, TWC will be required to pay to Charter certain termination fees (see [The Merger Agreement Termination Fees Termination Fees Payable by TWC](#)). If the BHN contribution agreement is terminated under certain circumstances, Charter will be required to pay to Bright House certain termination fees (see [The BHN Contribution Agreement Liquidation Damages](#)). Charter and/or New Charter also will incur transaction fees and costs related to financing (including interest and fees with any pre-funding of the consideration to be paid in the mergers and/or the BHN transactions) and formulating and implementing integration plans, including facilities and systems implementation costs and employment-related costs. Some of these costs have already been incurred or may be incurred regardless of whether the mergers and/or the BHN transactions are completed, including a portion of the fees and expenses of financial advisors and other advisors and representatives and filing fees for this joint proxy statement/prospectus. While many of the expenses that will be incurred, by their nature, are difficult to estimate accurately at the present time, management of Charter continues to assess the magnitude of these costs, and additional unanticipated costs may be incurred in connection with the mergers and integration. There are a number of factors beyond the control of the parties that could affect the total amount or the timing of all of the expected integration expenses. Although the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of the businesses, should offset integration-related costs over time, this net benefit may not be achieved in the near term, or at all. These integration expenses may result in Charter and/or New Charter taking significant charges against earnings following the completion of the mergers and/or the BHN transactions. In addition, if the

mergers and/or the BHN transactions are not consummated, Charter will bear some or all of these costs without the benefit of efficiencies from the integration of the businesses. Such costs could have a material adverse impact on Charter and/or New Charter's financial results.

Table of Contents

Sales of New Charter Class A common stock after the mergers (and, if completed, the BHN transactions) may negatively affect the market price of New Charter Class A common stock.

The shares of New Charter Class A common stock to be issued in the mergers to holders of TWC common stock will generally be eligible for immediate resale. The market price of New Charter Class A common stock could decline as a result of sales of a large number of shares of New Charter Class A common stock in the market after the consummation of the mergers (and, if completed, the BHN transactions) or even the perception that these sales could occur.

Charter's, TWC's and Bright House's business relationships may be subject to disruption due to uncertainty associated with the mergers and/or the BHN transactions.

Parties with which Charter, TWC or Bright House do business may experience uncertainty associated with the mergers and/or the BHN transactions, including with respect to current or future business relationships with Charter, TWC, Bright House or the combined business. Charter's, TWC's and Bright House's business relationships may be subject to disruption as customers, distributors, suppliers, vendors and others may attempt to negotiate changes in existing business relationships or consider entering into business relationships with parties excluding Charter, TWC, Bright House or the combined business. These disruptions, which may exist for an extended period of time if completion of the mergers (and, if completed, the BHN transactions) is delayed, could have an adverse effect on the businesses, financial condition, results of operations or prospects of the combined business, including an adverse effect on New Charter's ability to realize the anticipated benefits of the mergers (and, if completed, the BHN transactions). The risk, and adverse effect, of such disruptions could be exacerbated by a delay in completion of the mergers and/or the BHN transactions or termination of the merger agreement and/or the BHN contribution agreement.

Failure to complete the mergers and/or the BHN transactions could negatively impact the stock price and the future business and financial results of Charter and TWC.

If the mergers and/or the BHN transactions are not completed for any reason, including as a result of TWC stockholders or Charter stockholders failing to approve the necessary proposals, the ongoing businesses of Charter and TWC may be adversely affected and, without realizing any of the benefits of having completed the mergers and/or the BHN transactions, Charter and TWC would be subject to a number of risks, including the following:

Charter and TWC may experience negative reactions from the financial markets, including negative impacts on their respective stock prices;

Charter and TWC may experience negative reactions from their respective customers, regulators and employees;

Charter and TWC will be required to pay certain costs relating to the mergers, whether or not the mergers are completed and Charter will be required to pay certain costs relating to the BHN transactions, whether or not the BHN transactions are completed;

the merger agreement places certain restrictions on the conduct of TWC's and Charter's businesses prior to completion of the mergers; such restrictions, the waiver of which is subject to the consent of the other party (in certain cases, not to be unreasonably withheld, conditioned or delayed), may prevent TWC and Charter from making certain acquisitions, taking certain other specified actions or otherwise pursuing business opportunities during the pendency of the mergers (see "The Merger Agreement - Conduct of Business Pending the Mergers" for a description of the restrictive covenants applicable to TWC and Charter);

the BHN contribution agreement places certain restrictions on the conduct of Charter's business prior to completion of the BHN transactions; such restrictions, the waiver of which is subject to the consent of A/N (in certain cases, not to be unreasonably withheld, conditioned or delayed), may prevent

Table of Contents

Charter from taking certain specified actions or otherwise pursuing business opportunities during the pendency of the BHN transactions (see The BHN Contribution Agreement Conduct of Charter's Business Pending the BHN Transactions for a description of the restrictive covenants applicable to Charter); and

matters relating to the mergers (and with respect to Charter only, matters relating to the BHN contribution), including integration planning, will require substantial commitments of time and resources by Charter and TWC management, which would otherwise have been devoted to day-to-day operations and other opportunities that may have been beneficial to either Charter or TWC as an independent company.

If the mergers and/or the BHN transactions are not completed, the risks described above may materialize and they may adversely affect Charter's and TWC's businesses, financial condition, financial results and stock prices.

In addition, Charter and TWC could be subject to litigation related to any failure to complete the mergers and/or the BHN transactions or related to any enforcement proceeding commenced against Charter or TWC to perform their respective obligations under the merger agreement or against Charter to perform its obligations under the BHN contribution agreement.

The unaudited pro forma consolidated financial statements and prospective financial information included in this joint proxy statement/prospectus are presented for illustrative purposes only and do not represent the actual financial position or results of operations of New Charter following the mergers and/or the BHN transactions. Specifically, the unaudited pro forma consolidated financial statements do not reflect the effect of any divestitures that may be required in connection with the mergers and/or the BHN transactions.

The unaudited pro forma consolidated financial statements and prospective financial information contained in this joint proxy statement/prospectus are presented for illustrative purposes only, contain a variety of adjustments, assumptions and preliminary estimates and do not represent the actual financial position or results of operations of Charter, TWC and BHN prior to the mergers and/or the BHN transactions or that of New Charter for several reasons. Specifically, the unaudited pro forma consolidated financial statements do not reflect the effect of any divestitures that may be required in connection with the mergers and/or the BHN transactions. See the sections entitled Comparative Historical and Unaudited Pro Forma Per Share Data beginning on page 66, Unaudited Pro Forma Consolidated Financial Statements beginning on page 70 and Cautionary Statement Regarding Forward-Looking Statements beginning on page 114. The actual financial positions and results of operations of Charter, TWC and BHN prior to the mergers and/or the BHN transactions and that of New Charter following the mergers and/or the BHN transactions may not be consistent with, or evident from, the unaudited pro forma combined financial statements and prospective financial information included in this joint proxy statement/prospectus. In addition, the estimates and assumptions used in preparing the unaudited pro forma financial statements and prospective financial information included in this joint proxy statement/prospectus may not be realized and may be affected by other factors. Any significant changes in the share price of New Charter may cause a significant change in the purchase price and the pro forma financial statements.

New Charter's inability to successfully acquire and integrate other businesses, assets, products or technologies could harm its operating results.

New Charter intends to continuously evaluate and pursue small and large acquisitions and strategic investments in businesses, products or technologies that it believes could complement or expand New Charter's business or otherwise offer growth or cost-saving opportunities. From time to time, New Charter may enter into letters of intent with companies with which it is negotiating for potential acquisitions or investments, or as to which it is conducting due diligence. An investment in, or acquisition of, complementary businesses, products or technologies in the future could

materially decrease the amount of New Charter's available cash or require it to seek additional equity or debt financing. New Charter may not be successful in negotiating the terms of any

Table of Contents

potential acquisition, conducting thorough due diligence, financing the acquisition or effectively integrating the acquired business, product or technology into New Charter's existing business and operations. New Charter's due diligence may fail to identify all of the problems, liabilities or other shortcomings or challenges of an acquired business, product or technology, including issues related to intellectual property, product quality or product architecture, regulatory compliance practices, revenue recognition or other accounting practices, or employee or customer issues.

Additionally, in connection with any acquisitions New Charter completes, it may not achieve the growth, synergies or other benefits expected to be achieved, and New Charter may incur write-downs, impairment charges or unforeseen liabilities that could negatively affect New Charter's operating results or financial position or could otherwise harm its business. Further, contemplating or completing an acquisition and integrating an acquired business, product or technology, individually or across multiple opportunities, could divert management and employee time and resources from other matters.

If the operating results of TWC and/or BHN before or following the mergers and/or the BHN transactions are less than Charter's and/or New Charter's expectations, or an increase in the capital expenditures to upgrade and maintain those assets as well as to keep pace with technological developments are greater than expected, New Charter (or, if only the BHN transactions are completed, Charter) may not achieve the expected level of financial results from the mergers and/or the BHN transactions.

New Charter (or, if only the BHN transactions are completed, Charter) will derive a portion of its revenues and earnings per share from the operation of TWC and/or BHN following completion of the mergers and/or BHN transactions. Therefore, any negative impact on these companies or the operating results derived from such companies could harm the combined company's operating results.

The businesses of Charter, TWC, BHN and New Charter are characterized by rapid technological change and the introduction of new products and services. New Charter (or, if only the BHN transactions are completed, Charter) intends to make investments in the combined business following the completion of the mergers and/or the BHN transactions and transition toward only using two-way all-digital set-top boxes. The increase in capital expenditures necessary for the transition toward two-way set-top boxes in the business may negatively impact the expected financial results from the mergers and/or BHN transactions. The combined company may not be able to fund the capital expenditures necessary to keep pace with technological developments, execute the plans to do so, or anticipate the demand of its customers for products and services requiring new technology or bandwidth. New Charter's (or, if only the BHN transactions are completed, Charter's) inability to maintain, expand and upgrade its existing or combined businesses could materially adversely affect its financial condition and results of operations.

The mergers and the BHN transactions will be accounted for as an acquisition by New Charter in accordance with accounting principles generally accepted in the United States. Under the acquisition method of accounting, the assets and liabilities of TWC and BHN will be recorded, as of the date of completion of the mergers, the BHN transactions and Liberty transactions, at their respective fair values and added to those of Charter. The reported financial condition and results of operations of New Charter issued after completion of the mergers, the BHN transactions and Liberty transactions will reflect New Charter balances and results after completion of the mergers, the BHN transactions and Liberty transactions, but will not be restated retroactively to reflect the historical financial position or results of operations of New Charter for periods prior to the mergers, the BHN transactions and Liberty transactions. Under the acquisition method of accounting, the total purchase price will be allocated to TWC's and BHN's tangible assets and liabilities and identifiable intangible assets based on their fair values as of the date of completion of the mergers, the BHN transactions and Liberty transactions. The excess of the purchase price over those fair values will be recorded as goodwill. Charter, TWC and BHN expect that the mergers and the BHN transactions will result in the creation of

goodwill based upon the application of the acquisition method of accounting. To the extent the value of goodwill or intangibles becomes impaired, New Charter may be required to incur material charges relating to such impairment. Such a potential

Table of Contents

impairment charge could have a material impact on New Charter's operating results. See Comparative Historical and Unaudited Pro Forma Per Share Data and Unaudited Pro Forma Consolidated Financial Statements.

Risks Related to the Mergers

Completion of the mergers is subject to a number of conditions and if these conditions are not satisfied or waived, the mergers will not be completed.

The obligations of Charter and TWC to complete the mergers are subject to satisfaction or waiver of a number of conditions, including, among others:

approval of the adoption of the merger agreement by the affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote;

approval of the adoption of the merger agreement by the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote and, with respect to the second merger, a majority of the outstanding Charter Class A common stock (excluding the shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote;

approval of the TWC transactions stock issuance proposal by the affirmative vote of a majority of votes cast at the Charter special meeting by the holders of Charter Class A common stock;

approval of the Liberty transactions (including stock issuances pursuant to the Liberty investment agreement and the BHN/Liberty stockholders agreement) by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock (excluding the shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote and by the affirmative vote of a majority of votes cast at the Charter special meeting by the holders of Charter Class A common stock;

approval of each of the certificate of incorporation proposals by a majority of the outstanding shares of Charter Class A common stock entitled to vote (excluding the shares beneficially owned by Liberty Broadband and its affiliates and associates);

expiration or termination of any applicable waiting period (or extension thereof) under the HSR Act relating to the transactions contemplated by the merger agreement (solely with respect to the obligations of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to complete the mergers, without the imposition of any burdensome condition (see The Merger Agreement Reasonable Best Efforts Covenant for a definition of burdensome condition));

(i) adoption of an order, and release of the full text thereof, by the FCC granting its consent to the transfer of control or assignment of the licenses issued by the FCC to TWC or any of its subsidiaries or affiliates,

(ii) approval of certain LFAs, such that the sum of the aggregate number of video subscribers of TWC belonging to franchise areas for which either (x) no LFA consent is required or (y) if LFA consent is required, such consent shall have been obtained, shall be no less than 85% of the aggregate number of video subscribers of TWC and (iii) authorizations of state public utilities commissions whose consent is required in connection with the transactions contemplated by the merger agreement (solely with respect to the obligations of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to complete the mergers, in each case without the imposition of any burdensome condition) (these requirements are described in more detail under The Transactions Regulatory Approvals Required for the Mergers);

except for the conditions described in the two preceding bullets, (i) absence of (x) any applicable law of a governmental authority of competent jurisdiction enacted or promulgated after the date of the merger agreement in a jurisdiction in which any of Charter, TWC or their respective subsidiaries has substantial operations and (y) any order of a governmental authority of competent jurisdiction that, in each case, (1) imposes any burdensome condition or (2) prohibits completion of the mergers and the

Table of Contents

violation of which would result in criminal liability, and (ii) the absence of any injunction (whether temporary, preliminary or permanent) by any governmental authority of competent jurisdiction that imposes a burdensome condition or prohibits completion of the mergers;

effectiveness of the registration statement for the shares of New Charter Class A common stock being issued in the mergers (of which this joint proxy statement/prospectus forms a part) and the absence of any stop order suspending that effectiveness or any proceedings for that purpose pending before the SEC;

approval for the listing on NASDAQ of the shares of New Charter Class A common stock to be issued in the mergers, subject only to official notice of issuance;

accuracy of the representations and warranties made in the merger agreement by the other party, subject to certain materiality thresholds;

performance in all material respects by the other party of the material obligations required to be performed by it at or prior to completion of the mergers;

the absence of a material adverse effect on the other party (see The Merger Agreement Definition of Material Adverse Effect for the definition of material adverse effect);

receipt of a certificate executed by an executive officer of the other party as to the satisfaction of the conditions described in the preceding three bullets with respect to such other party; and

delivery of opinions of Wachtell, Lipton, Rosen & Katz, in the case of Charter, and Paul, Weiss, Rifkind, Wharton & Garrison LLP, in the case of TWC, with respect to certain tax aspects of the mergers.

There can be no assurance that the conditions to closing of the mergers will be satisfied or waived or that the mergers will be completed. There can be no assurance that these conditions will not result in the abandonment or delay of the mergers. The occurrence of any of these events individually or in combination could have a material adverse effect on the companies' results of operations and the trading price of the TWC common stock or Charter Class A common stock.

The mergers are not conditioned upon completion of the BHN transactions or the issuance of shares to A/N. The mergers and the BHN transactions are subject to separate conditions, and the mergers may be completed whether or not the BHN transactions are ultimately consummated. See The Merger Agreement Conditions to Completion of the Merger.

The exchange ratios are fixed and the market price of Charter Class A common stock has fluctuated and will continue to fluctuate. As a result, TWC stockholders cannot be sure at the time they vote on the mergers of the value of the merger consideration they will receive or the value of the TWC common stock they will give up.

Upon completion of the mergers, shares of TWC common stock (with certain exceptions described in this joint proxy statement/prospectus) outstanding immediately prior to the mergers will be converted into the right to receive the merger consideration, as described under The Merger Agreement Merger Consideration, using fixed exchange ratios. Because the exchange ratios are fixed, the value of the merger consideration will depend on the market price of Charter Class A common stock at the time the mergers are completed. The value of the merger consideration has fluctuated since the date of the announcement of the merger agreement and will continue to fluctuate from the date of this joint proxy statement/prospectus to the date of the TWC special meeting and the date the mergers are completed and thereafter. The closing price per share of TWC common stock as of May 22, 2015, the last trading day before the public announcement of the merger agreement, was \$171.18, and the closing price per share has fluctuated as high as \$193.01 and as low as \$175.61 between that date and August 18, 2015. The closing price per share of Charter Class A common stock as of May 22, 2015, the last trading date before the public announcement of the merger agreement, was \$175.33, and the closing price per share has fluctuated as high as \$191.50 and as low as \$167.84 between that date and August 18, 2015. Accordingly, at the time of the TWC special meeting, TWC stockholders will not know or be able to determine

Table of Contents

the market value of the merger consideration they would receive upon completion of the mergers. Stock price changes may result from a variety of factors, including, among others, general market and economic conditions, changes in Charter's and TWC's respective businesses, operations and prospects, market assessments of the likelihood that the mergers will be completed, the timing of the mergers and regulatory considerations. Many of these factors are beyond Charter's and TWC's control.

You are urged to obtain current market quotations for Charter Class A common stock and TWC common stock in deciding whether to vote for the adoption of the merger agreement.

The market price of New Charter Class A common stock after the mergers (and, if completed, the BHN transactions) may be affected by factors different from those affecting shares of Charter or TWC common stock currently.

Upon completion of the mergers, holders of Charter Class A common stock will become holders of shares of New Charter Class A common stock. The businesses of Charter differ from those of TWC in important respects, including the following:

Differences in product penetration and mix, including different approaches to pricing and packaging;

Differences in the geographic operating areas served by Charter, TWC and BHN as well as different presences in those areas, different structures and different competitive factors in those areas;

Differences in the technology platforms and physical plant and property used to deliver the companies' respective products and services, including that Charter's platform has generally been converted to all digital;

Differences in the companies' corporate and organizational structure;

TWC engages in telecom and internet infrastructure businesses, including through its subsidiary DukeNet Communications;

TWC engages in IT and cloud businesses, including through its NaviSite subsidiary, outsourced IT solutions and cloud services;

TWC operates and distributes regional sports networks and local sports, news and lifestyle channels; and

Differences in the potential tax treatment of historical transactions of both Charter and TWC. Accordingly, the results of operations, including capital expenditures, of New Charter after the mergers (and, if completed, the BHN transactions), as well as the market price of New Charter Class A common stock, may be affected by factors different from those currently affecting the results of operations, including capital expenditures, of

Charter and TWC currently. For further information on the businesses of Charter and TWC and certain factors to consider in connection with those businesses, see the documents incorporated by reference into this joint proxy statement/prospectus and referred to under [Where You Can Find More Information](#).

Certain of TWC's directors and executive officers have interests in the transactions that may be different from your interests as a stockholder of TWC.

When considering the recommendation of the TWC board of directors that TWC stockholders vote in favor of the approval of the adoption of the merger agreement, TWC stockholders should be aware that directors and executive officers of TWC have certain interests in the transactions that may be different from or in addition to the interests of TWC stockholders generally. These include severance rights, rights to continuing indemnification and directors' and officers' liability insurance and payment pursuant to certain equity awards. See [Interests of TWC's Directors and Executive Officers in the Transactions](#) for a more detailed description of these interests. The TWC board of directors was aware of these interests and considered them, among other things, in evaluating the mergers and negotiating the merger agreement and in recommending that the TWC stockholders adopt the merger agreement.

Table of Contents

Certain of Charter's directors and executive officers have interests in the transactions that may be different from your interests as a stockholder of Charter.

When considering the recommendation of the Charter board of directors that Charter stockholders vote in favor of the Charter merger proposal, the stock issuances proposals, the Liberty transactions proposal and the certificate of incorporation proposals, Charter stockholders should be aware that directors and executive officers of Charter have certain interests in the transactions that may be different from or in addition to the interests of Charter stockholders generally. These include severance rights, rights to continuing indemnification and directors' and officers' liability insurance and payment pursuant to certain equity awards. See *Interests of Charter's Directors and Executive Officers in the Transactions* for a more detailed description of these interests. The Charter board of directors was aware of these interests and considered them, among other things, in evaluating the mergers and negotiating the merger agreement and in recommending that the Charter stockholders vote to approve the various transaction proposals.

The merger agreement limits TWC's ability to pursue alternatives to the mergers and may discourage other companies from trying to acquire TWC for greater consideration than what Charter has agreed to pay.

The merger agreement contains provisions that make it more difficult for TWC to sell its business to a party other than Charter. These provisions include a general prohibition on TWC soliciting any acquisition proposal or offer for a competing transaction. Further, there are only limited exceptions to TWC's agreement that the TWC board of directors will not withdraw or modify in a manner adverse to Charter the recommendation of the TWC board of directors in favor of the approval of the adoption of the merger agreement, and Charter generally has a right to match any competing acquisition proposals that may be made. Notwithstanding the foregoing, at any time prior to the approval of the adoption of the merger agreement by TWC stockholders, the TWC board of directors is permitted to withdraw or modify in a manner adverse to Charter the recommendation of the TWC board of directors in favor of the approval of the adoption of the merger agreement if it determines in good faith that the failure to take such action would be reasonably likely to be inconsistent with its fiduciary duties to TWC stockholders under applicable law. The merger agreement, however, also requires that TWC submit the adoption of the merger agreement to a vote of TWC's stockholders even if the TWC board of directors changes its recommendation in favor of the approval of the adoption of the merger agreement in a manner adverse to Charter. In the event the TWC board of directors withdraws or modifies in a manner adverse to Charter the recommendation of the TWC board of directors in favor of the approval of the adoption of the merger agreement prior to the merger agreement being adopted by TWC stockholders, Charter may terminate the merger agreement. If Charter terminates under these circumstances, TWC has agreed to pay Charter a \$2 billion termination fee. See *The Merger Agreement - No Solicitation by TWC*.

While TWC believes these provisions and agreement are reasonable and customary and are not preclusive of other offers, the provisions might discourage a third party that has an interest in acquiring all or a significant part of TWC from considering or proposing that acquisition, even if that party were prepared to pay consideration with a higher per-share value than the currently proposed merger consideration.

The merger agreement limits Charter's ability to pursue alternatives to the mergers and may discourage other companies from trying to acquire Charter on terms that would be more favorable to Charter than the merger agreement.

The merger agreement contains provisions that make it more difficult for Charter to pursue alternative transactions. These provisions include a general prohibition on Charter soliciting any acquisition proposal or offer for a competing transaction. Further, there are only limited exceptions to Charter's agreement that the Charter board of directors will not withdraw or modify in a manner adverse to TWC the recommendation of the Charter board of directors in favor of the approval of the adoption of the merger agreement and approval of the related proposals, and TWC generally has a

right to match any competing acquisition proposals that may be made. Notwithstanding the foregoing, at any time prior to the approval of the adoption of the merger agreement and approval of the related proposals by Charter stockholders, the Charter board of directors is permitted to

Table of Contents

withdraw or modify in a manner adverse to TWC the recommendation of the Charter board of directors in favor of the approval of the adoption of the merger agreement and approval of the related proposals if it determines in good faith that the failure to take such action would be reasonably likely to be inconsistent with its fiduciary duties to Charter stockholders under applicable law. The merger agreement, however, also requires that Charter submit the approval of the adoption of the merger agreement and related proposals to a vote of Charter's stockholders even if the Charter board of directors changes its recommendation in favor of the approval of the adoption of the merger agreement and approval of related proposals in a manner adverse to TWC. In the event the Charter board of directors withdraws or modifies in a manner adverse to TWC the recommendation of the Charter board of directors in favor of the approval of the adoption of the merger agreement and approval of related proposals prior to the merger agreement being adopted by the Charter stockholders, TWC may terminate the merger agreement. If TWC terminates under these circumstances, Charter has agreed to pay TWC a \$1 billion termination fee. See *The Merger Agreement No Solicitation by Charter*.

While Charter believes these provisions and agreement are reasonable and customary and are not preclusive of other offers, the provisions might discourage a third party that has an interest in acquiring all or a significant part of Charter from considering or proposing that acquisition.

The shares of New Charter Class A common stock to be received by TWC and Charter stockholders as a result of the mergers will have different rights from shares of TWC common stock and Charter Class A common stock previously held by such stockholders.

Following completion of the mergers, TWC and Charter stockholders will no longer be stockholders of TWC and Charter, respectively, but will instead be stockholders of New Charter. There are important differences between the rights of TWC and Charter stockholders and the rights of New Charter stockholders. See *Comparison of Stockholder Rights* for a discussion of the different rights associated with TWC common stock, Charter Class A common stock and New Charter Class A common stock.

Litigation has been filed against Charter, TWC, the TWC board of directors and the merger subsidiaries. An adverse ruling in such lawsuit may prevent or delay the completion of the mergers or result in the payment of damages following completion of the mergers.

Litigation has been filed against Charter, TWC, the TWC board of directors and the merger subsidiaries in connection with the mergers, which could prevent or delay the completion of the mergers and result in substantial costs to Charter, TWC, and/or New Charter. One of the conditions to completion of the mergers is the absence of any applicable law (including any order) being in effect that prohibits completion of the mergers. Accordingly, if a plaintiff is successful in obtaining an order enjoining completion of the mergers, then such order may prevent the mergers from being completed, or from being completed within the expected time frame. See *The Transactions Litigation Related to the Mergers* for more information.

Risks Related to the BHN Transactions and Liberty Transactions

Liberty Broadband currently has governance rights that give it influence over corporate transactions and other matters. In connection with the BHN transactions, Liberty Broadband's governance rights will be modified and A/N will receive governance rights pursuant to the BHN/Liberty stockholders agreement and amendments to New Charter's or Charter's governing documents, as applicable, and Liberty Broadband and A/N will have influence over corporate transactions and other matters.

Liberty Broadband currently owns a significant amount of Charter Class A common stock and is entitled to certain governance rights with respect to Charter. Members of the Charter board of directors include directors who are also officers and directors of Liberty Broadband, Charter's principal stockholder. Dr. John Malone is the Chairman of Liberty Broadband, and Mr. Greg Maffei is the president and chief executive officer of Liberty Broadband. As of July 31, 2015, Liberty Broadband beneficially held approximately 25.74% of Charter Class A common stock. Pursuant to the stockholders agreement between Liberty Broadband and Charter dated

Table of Contents

March 19, 2013, as amended on October 14, 2014, Liberty Broadband has the right to designate up to four directors as nominees for Charter's board of directors through Charter's 2015 annual meeting of stockholders with one designated director to be appointed to each of the audit committee, the nominating and corporate governance committee and the compensation and benefits committee.

In connection with the BHN transactions, Charter and New Charter entered into the BHN/Liberty stockholders agreement with A/N and Liberty Broadband, which will supersede the existing stockholders agreement in its entirety upon the earlier to occur of the closing of the mergers and the closing of the BHN transactions, unless the BHN contribution agreement is terminated prior to the closing of the BHN transactions. Following the closing of the mergers and the BHN transactions, Charter expects that Liberty Broadband will have an equity interest of between approximately 19% and 20% and A/N will have an equity interest of between approximately 13% and 14%, in each case on an as-converted, as-exchanged basis, in New Charter. In connection with the TWC transactions, Liberty Broadband and Liberty Interactive entered into a proxy and right of first refusal agreement, pursuant to which, in connection with the closing of the transactions contemplated by the merger agreement, Liberty Interactive will grant Liberty Broadband an irrevocable proxy to vote all New Charter Class A common stock owned beneficially or of record by Liberty Interactive following such closing, with certain exceptions. In addition, at the closing of the BHN transactions, A/N and Liberty Broadband will enter into a proxy agreement pursuant to which A/N will grant to Liberty Broadband a 5-year irrevocable proxy (which we refer to as the "A/N proxy") to vote, subject to certain exceptions, that number of shares of New Charter Class A common stock and New Charter Class B common stock, in each case held by A/N (such shares are referred to as the "proxy shares"), that will result in Liberty Broadband having voting power in New Charter equal to 25.01% of the outstanding voting power of New Charter, provided, that the voting power of the proxy shares will be capped at 7.0% of the outstanding voting power of New Charter. Therefore, giving effect to the Liberty Interactive proxy and the A/N proxy and the voting cap contained in the BHN/Liberty stockholders agreement, Liberty Broadband is expected to have 25.01% of the outstanding voting power in New Charter following the consummation of the TWC transactions and BHN transactions. The BHN/Liberty stockholders agreement and New Charter's amended and restated certificate of incorporation will fix the size of the board at 13 directors, and three designees selected by Liberty Broadband and two designees selected by A/N will become members of the New Charter board of directors. Thereafter, Liberty Broadband will be entitled to designate three nominees to be elected as directors and A/N will be entitled to designate two nominees to be elected as directors, in each case provided that each maintains certain specified voting or equity ownership thresholds and each nominee meets certain applicable requirements or qualifications. Liberty Broadband and A/N are required to vote (subject to the applicable voting cap) their respective shares of New Charter Class A common stock and New Charter Class B common stock for the director nominees nominated by the nominating and corporate governance committee of the board of directors, including the respective designees of Liberty Broadband and A/N, and against any other nominees, except that, with respect to the unaffiliated directors, Liberty Broadband and A/N must instead vote in the same proportion as the voting securities are voted by stockholders other than A/N and Liberty Broadband or any group which includes any of them are voted, if doing so would cause a different outcome with respect to the unaffiliated directors.

As a result of their rights under the BHN/Liberty stockholders agreement and their significant equity and voting stakes in New Charter, Liberty Broadband and/or A/N, who may have interests different from those of other stockholders, will be able to exercise substantial influence over certain matters relating to the governance of New Charter, including the approval of significant corporate actions, such as mergers and other business combination transactions.

The BHN/Liberty stockholders agreement will provide A/N and Liberty Broadband with preemptive rights with respect to issuances of New Charter equity in connection with certain transactions, and in the event that A/N or Liberty Broadband exercises these rights, holders of Charter Class A common stock may experience further dilution.

The BHN/Liberty stockholders agreement provides that A/N and Liberty Broadband will have certain contractual preemptive rights over issuances of New Charter equity securities in connection with capital raising

Table of Contents

transactions, merger and acquisition transactions, and in certain other circumstances. Holders of New Charter Class A common stock will not be entitled to similar preemptive rights with respect to such transactions. As a result, if Liberty Broadband and/or A/N elect to exercise their preemptive rights, (i) these parties would not experience the dilution experienced by the other holders of New Charter Class A common stock, and (ii) such other holders of New Charter Class A common stock may experience further dilution of their interest in New Charter upon such exercise.

Completion of the BHN transactions is subject to a number of conditions and if these conditions are not satisfied or waived, the BHN transactions will not be completed.

The obligation of Charter and New Charter and the obligation of A/N to complete the BHN transactions are subject to satisfaction or waiver of a number of conditions, including, among others:

the consummation of the mergers, except in certain circumstances;

expiration or termination of the HSR Act waiting period and receipt of certain regulatory approvals for the BHN transactions (and with respect to Charter's obligations, without the imposition of a BHN contribution burdensome condition);

obtaining all of the required consents by the FCC to the transfer to Charter of all FCC licenses, authorizations, permits and consents held by BHN or its subsidiaries and/or used in the BHN business (solely with respect to Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome);

the aggregate number of video customers served by the BHN systems used in the BHN business (i) pursuant to the grandfathering provisions of the Communications Act and (ii) pursuant to franchises for which (A) no consent is required from any government entity for the completion of the BHN contribution or (B) any such consent is required and has been received (or deemed received under Section 617 of the Communications Act) (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition) shall not be less than 80% of the video customers served by the BHN systems used in the BHN business at the closing; and if less than 100% of such number of video customers, all applicable waiting periods (including extensions) shall have expired with respect to the FCC Forms 394 filed in connection with requests for approvals by local franchising authorities that have not been obtained;

obtaining authorizations from state communications authorities as required for Charter to provide voice and other regulated services in the BHN systems used in the BHN business following the closing (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition);

the absence of any statute, rule, regulation, executive order, decree, judgment, injunction or other order (whether temporary, preliminary or permanent) in effect that makes unlawful, prohibits, delays, enjoins or

otherwise prevents or restricts, the consummation of the BHN transactions or any pending action that seeks any of the foregoing;

approval of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the stock issuance to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals;

the BHN/Liberty stockholders agreement being valid, binding and enforceable and in full force and effect;

with respect to the obligations of Charter, New Charter and Charter Holdings, the absence of a material adverse effect with respect to Bright House;

with respect to A/N s obligations, the absence of a material adverse effect with respect to Charter; and

Table of Contents

certain other customary conditions with respect to the accuracy of representations and warranties, performance of covenants and agreements, receipt of certifications with respect to the satisfaction of certain conditions, and delivery of certain other specified certificates, instruments of assignment and transaction documents.

As more fully described in the BHN contribution agreement, the obligation of Charter, New Charter and Charter Holdings to complete the BHN transactions is also subject to the completion by A/N of a restructuring, pursuant to which BHN will transfer to A/N certain excluded assets and A/N shall assume from BHN certain excluded liabilities.

There can be no assurance that the conditions to closing of the BHN transactions will be satisfied or waived or that the BHN transactions will be completed. The consummation of the BHN transactions is conditioned on the completion of the mergers. However, if the mergers are not completed, Charter and A/N may still be obligated to complete the BHN transactions under certain circumstances, as described under [The BHN Contribution Agreement](#) if the tail condition (which is described in greater detail under [The BHN Contribution Agreement](#) [Conditions to the Completion of the Contribution](#)) is satisfied. **There can be no assurance that the BHN transactions will be completed if the mergers are not completed.**

Other Risks Relating to Charter and TWC

Charter and TWC are, and following completion of the mergers New Charter will be, subject to the risks described in (i) Part I, Item 1A in the Charter 2014 Form 10-K, (ii) Part II, Item 1A in the Charter Form 10-Q for the second quarter of 2015, (iii) Part I, Item 1A in the TWC 2014 10-K and (iv) Part II, Item 1A in the TWC Form 10-Q for the second quarter of 2015, each of which is on file with the SEC and all of which are incorporated by reference into this joint proxy statement/prospectus. See [Where You Can Find More Information](#).

Table of Contents

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this joint proxy statement/prospectus and the documents incorporated by reference herein that are not historical facts are forward-looking statements made within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements may include, without limitation, statements regarding: the proposed transactions between Charter and TWC, the BHN transactions and the Liberty transactions, such as the expected timetable for completing the transactions and the benefits, synergies and costs of such transactions; and the future operations, financial results, operating performance, anticipated business levels, planned activities, anticipated growth, market opportunities, strategies, competition, and other expectations, beliefs, plans, objectives, assumptions or future events with respect to Charter, TWC, Bright House and/or New Charter. These statements are often, but not always, made through the use of words or phrases such as believe, expect, anticipate, should, planned, will, may, intend, estimated, target, opportunity, tentative, positioning, designed, create, predict, project, seek, would, could, upside, increases, and potential, and similar expressions.

All such forward-looking statements involve estimates and assumptions that are subject to risks, uncertainties and other factors that could cause actual results to differ materially from the results expressed in the statements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking statements include but are not limited to:

delays in the completion of the mergers and/or the BHN transactions;

failure to receive necessary stockholder approvals;

the risk that a condition to completion of the mergers, the BHN transactions and/or the Liberty transactions may not be satisfied;

the risk that a regulatory or other approval that may be required for the mergers and/or the BHN transactions is delayed, is not obtained or is obtained subject to conditions that are not anticipated;

New Charter's ability to achieve the synergies and value creation contemplated by the mergers and/or the BHN transactions, including its ability to achieve such synergies within the expected timeframe;

New Charter's ability to promptly, efficiently and effectively integrate the acquired operations, products and employees;

managing a significantly larger company than before the completion of the mergers and/or the BHN transactions;

diversion of management time on issues related to the mergers and the BHN transactions;

changes in Charter s, TWC s or BHN s businesses, future cash requirements, capital requirements, results of operations, revenues, financial condition and/or cash flows;

disruption in the existing employee, supplier, customer and other business relationships of Charter, TWC and BHN as a result of the mergers and/or the BHN transactions;

the increase in indebtedness as a result of the mergers and the BHN transactions, which will increase interest expense and may decrease Charter s operating flexibility;

changes in transaction costs, the amount of fees paid to financial and other advisors and representatives, potential termination fees and the potential payments to TWC s executive officers in connection with the mergers and/or the BHN transactions;

operating costs and business disruption that may be greater than expected;

the ability to retain and hire key personnel and maintain relationships with providers or other business partners pending completion of the mergers and/or the BHN transactions; and

the impact of competition.

Table of Contents

Additionally, Charter, TWC and Bright House operate in highly competitive, consumer-driven and rapidly changing environments. These environments are affected by government regulation; economic, strategic, political and social conditions; competition affecting the industries in which they operate; consumer response to new and existing products and services; technological developments; and, particularly in view of new technologies, the ability to develop and protect intellectual property rights. These risks, as well as other risks associated with TWC, Charter, BHN and New Charter and the transactions described in this joint proxy statement/prospectus are also more fully discussed in the section entitled "Risk Factors" beginning on page 95 of this joint proxy statement/prospectus. For more detailed information on the risks and uncertainties associated with Charter's or TWC's business activities prior to the mergers and/or the BHN transactions, see the risks described in the Charter Form 10-K for the 2014 fiscal year, Charter Form 10-Q for the second quarter of 2015, TWC Form 10-K for the 2014 fiscal year, TWC Form 10-Q for the second quarter of 2015 and other Charter and TWC filings with the SEC available at the SEC's website at www.sec.gov. See the section entitled "Where You Can Find More Information" beginning on page 378 of this joint proxy statement/prospectus.

None of New Charter, Charter or TWC undertake any obligation to update any forward-looking statements. Readers are cautioned not to place undue reliance on any forward-looking statement, which speaks only as of the date on which such statement is made or in the case of documents incorporated by reference, as of the date of the document incorporated by reference.

Table of Contents

THE COMPANIES

Charter Communications, Inc.

Charter is among the largest providers of cable services in the United States, offering a variety of entertainment, information and communications solutions to residential and commercial customers. Charter's infrastructure consists of a hybrid of fiber and coaxial cable plant with approximately 13.0 million estimated passings, with 97% at 550 megahertz or greater and 98% of plant miles two-way active. A national Internet Protocol (IP) infrastructure interconnects Charter markets.

As of June 30, 2015, Charter served approximately 6.4 million residential and commercial customers. Charter sells its video, Internet and voice services primarily on a subscription basis, often in a bundle of two or more services, providing savings and convenience to its customers. Bundled services are available to approximately 99% of Charter's passings, and approximately 62% of Charter's customers subscribe to a bundle of services.

Charter was organized as a Delaware corporation on July 22, 1999. The principal trading market for Charter common stock (NASDAQ: CHTR) is the NASDAQ. Charter's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Charter's telephone number is (203) 905-7801, and its website accessible at www.charter.com.

This joint proxy statement/prospectus incorporates important business and financial information about Charter from other documents that are not included in or delivered with this joint proxy statement/prospectus. For a list of the documents that are incorporated by reference, see "Where You Can Find More Information" beginning on page 378 of this joint proxy statement/prospectus.

CCH I, LLC

New Charter is a Delaware limited liability company and a wholly owned subsidiary of Charter. New Charter was organized as a Delaware limited liability company on June 9, 2003. New Charter will be converted into a Delaware corporation immediately prior to the completion of the mergers.

New Charter's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. New Charter's telephone number is (203) 905-7801.

Merger Subsidiary One

Merger Subsidiary One is a Delaware corporation, and formed solely for the purpose of implementing the mergers. Merger Subsidiary One was organized as a Delaware corporation on May 22, 2015. Merger Subsidiary Three

Merger Subsidiary Three is a Delaware limited liability company and a wholly owned subsidiary of Charter, formed solely for the purpose of implementing the mergers. Merger Subsidiary Three was formed as a Delaware limited liability company on May 22, 2015. It has not carried on any activities or operations to date, except for those activities incidental to its formation and undertaken in connection with the transactions contemplated by the merger agreement.

Merger Subsidiary Three's principal executive offices are located at 400 Atlantic Street, Stamford, Connecticut 06901. Merger Sub Three's telephone number is (203) 905-7801.

Time Warner Cable Inc.

TWC is among the largest providers of video, high-speed data and voice services in the United States, with technologically advanced, well-clustered cable systems located mainly in five geographic areas: New York State (including New York City), the Carolinas, the Midwest (including Ohio, Kentucky and Wisconsin), Southern California (including Los Angeles) and Texas. TWC's mission is to connect its customers to the world simply, reliably and with superior service. As of June 30, 2015, TWC served approximately 15.5 million residential and business services customers who subscribed to one or more of its video, high-speed data and voice services. In addition, TWC's residential services include security and home management services, and TWC's business services include networking and transport services (including cell tower backhaul services) and enterprise-class, cloud-enabled hosting, managed applications and services. TWC also sells video and online advertising inventory to a variety of local, regional and national customers.

TWC was incorporated as a Delaware corporation on March 21, 2003, and TWC and its predecessors have been in the cable business for over 40 years in various legal forms. The principal trading market for TWC common stock (NYSE: TWC) is the New York Stock Exchange. TWC's principal executive offices are located at 60 Columbus Circle, New York, New York 10023. TWC's telephone number is (212) 364-8200, and its website is accessible at www.twc.com.

This joint proxy statement/prospectus incorporates important business and financial information about TWC from other documents that are not included in or delivered with this joint proxy statement/prospectus. For a list of the documents that are incorporated by reference, see "Where You Can Find More Information" beginning on page 378 of this joint proxy statement/prospectus.

Bright House Networks, LLC

Bright House is a wholly owned subsidiary of Time Warner Entertainment-Advance/Newhouse Partnership (TWE-A/N). TWE-A/N is a partnership between A/N and a subsidiary of TWC. The Bright House systems are managed on a day to day basis by A/N, which is entitled to 100% of the economic benefits of Bright House. TWC and its affiliates provide Bright House with certain programming, engineering and technology services through a services agreement between the parties.

Bright House is a cable operator providing services in the United States with approximately 2.5 million residential and commercial customers as of June 30, 2015. Bright House's business is concentrated in Florida with smaller operations in Michigan, Alabama, Indiana and California. Bright House provides its subscribers with video, Internet and voice services. Bright House also sells local advertising on cable networks.

Bright House was formed as a Delaware limited liability company on July 9, 2002. Bright House's principal executive offices are located at 5823 Widewaters Parkway, East Syracuse, New York 13057. Bright House's telephone number is

(315) 463-7675, and its website is accessible at www.brighthouse.com.

THE CHARTER SPECIAL MEETING OF STOCKHOLDERS

This joint proxy statement/prospectus is being provided to Charter stockholders as part of a solicitation of proxies by the Charter board of directors for use at the Charter special meeting. This joint proxy statement/prospectus provides Charter stockholders with important information they need to know to be able to vote, or instruct their brokers or other nominees to vote, at the Charter special meeting.

Date, Time and Location

Together with this joint proxy statement/prospectus, Charter is also sending Charter stockholders a notice of the Charter special meeting and a form of proxy that is solicited by the Charter board of directors for use at the Charter special meeting to be held on September 21, 2015, located at 400 Atlantic Street, Stamford, Connecticut, at 10:00 am, local time, and any adjournments or postponements of the Charter special meeting.

Only Charter stockholders or their proxy holders may attend the Charter special meeting. If you hold shares in your name as of the record date (the close of business on August 14, 2015), please be prepared to provide proper identification, such as a driver's license, to gain admission to the Charter special meeting.

If you are a beneficial owner of Charter Class A common stock held in street name by a broker, bank, nominee or other holder of record as of the record date (the close of business on August 14, 2015), in addition to proper identification, you will also need proof of ownership as of the record date to be admitted to the Charter special meeting. A brokerage statement or letter from a bank or broker are examples of proof of ownership. If you want to vote your shares of Charter Class A common stock held in street name in person at the Charter special meeting, you will have to obtain a legal proxy in your name from the broker, bank, nominee or other holder of record that holds your shares.

Purpose

At the Charter special meeting, Charter stockholders will be asked to consider and vote on the following proposals:

to approve the adoption of the merger agreement pursuant to which, among other things, (i) TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter and (ii) Charter will be merged with and into Merger Subsidiary Three, with Merger Subsidiary Three continuing as the surviving entity and a wholly owned subsidiary of New Charter;

to approve the issuance of Class A common stock of New Charter in connection with the mergers contemplated by the merger agreement;

to approve the issuance of (i) a newly created Class B common stock of New Charter or Charter, as applicable, and (ii) common units and preferred units of Charter Communications Holdings, LLC (including shares of Class A Common Stock of New Charter or Charter, as applicable, which may be issued upon conversion or exchange of such common units or preferred units), in each case in connection with the BHN transactions;

to approve the BHN/Liberty stockholders agreement (including the issuance of shares of New Charter or Charter Class A common stock to Liberty Broadband thereunder), the Liberty investment agreement (including the issuance of New Charter Class A common stock to Liberty Broadband thereunder), the Liberty contribution agreement and other transactions contemplated by the merger agreement and the foregoing agreements with Liberty Broadband and Liberty Interactive, as required by Charter's existing certificate of incorporation;

to approve the adoption of the amended and restated certificate of incorporation (which will include the creation of the new class of Class B common stock of New Charter or Charter, as applicable) that will

Table of Contents

either be the amended and restated certificate of incorporation of New Charter if the mergers are consummated or the amended and restated certificate of incorporation of Charter if the mergers are not consummated but the BHN transactions are consummated;

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide that the special approval requirements for certain business combination transactions contained in Article Eighth of Charter's existing certificate of incorporation will only be effective upon the termination of the BHN contribution agreement and will not apply to any transaction agreed or consummated prior to such time;

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will set forth the size and composition requirements for the board of directors that are required by the BHN/Liberty stockholders agreement;

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will specify standards for decisions by the board of directors that are required by the BHN/Liberty stockholders agreement;

to approve separately a feature of the amended and restated certificate of incorporation of New Charter or Charter, as applicable, that will provide for certain voting restrictions on Liberty Broadband and A/N as required by the BHN/Liberty stockholders agreement; and

to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the transactions.

As of the date of this joint proxy statement/prospectus, the Charter board of directors knows of no other matters that will be presented for consideration at the Charter special meeting other than as described in this joint proxy statement/prospectus. If any other matters properly come before the special meeting of Charter stockholders, and that are set forth in the notice for such special meeting in accordance with Charter's bylaws, or any adjournments of the special meeting are proposed and are properly voted upon, the enclosed proxies will give the individuals that Charter stockholders name as proxies discretionary authority to vote the shares represented by these proxies as to any of these matters; provided, however, that those individuals will only exercise this discretionary authority with respect to matters that were unknown a reasonable time before the solicitation of proxies.

Recommendations of the Charter Board of Directors

After consideration and consultation with its advisors, the members of the Charter board of directors unanimously determined that the merger agreement, the mergers, the stock issuances, the Liberty transactions, the amended and restated certificate of incorporation, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement are fair to and in the best interests of Charter and its stockholders and unanimously approved and declared advisable each of the merger agreement and the mergers and the amended and restated certificate of incorporation, and unanimously approved the stock issuances, the Liberty transactions, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement. In addition, the members of the Charter board of directors (other

than the directors affiliated with Liberty Broadband) unanimously determined that the Liberty transactions are fair to and in the best interests of Charter and its stockholders and unanimously approved the Liberty transactions. **The Charter board of directors unanimously recommends that Charter stockholders vote FOR the approval of the adoption of the merger agreement, FOR the approval of each of the stock issuances proposals, FOR the approval of the Liberty transactions proposal, FOR the approval of each of the certificate of incorporation proposals and FOR the Charter advisory compensation proposal.** For the factors considered by the Charter board of directors in reaching these decisions and a more detailed discussion of the recommendation of the Charter board of directors that the Charter stockholders approve the foregoing matters, see The Transactions Charter's Reasons for the Mergers and Other Transactions; Recommendation of the Charter Board of Directors.

Table of Contents

Charter Record Date; Outstanding Shares; Stockholders Entitled to Vote

The Charter board of directors has fixed the close of business on August 14, 2015, as the record date for determination of the Charter stockholders entitled to vote at the Charter special meeting or any adjournment or postponement of the Charter special meeting. Only Charter stockholders of record as of the record date are entitled to receive notice of, and to vote at, the Charter special meeting or any adjournment or postponement of the Charter special meeting. As of the close of business on July 31, 2015, there were 112,027,916 shares of Charter Class A common stock outstanding and entitled to vote at the Charter special meeting, held by approximately 35 holders of record. At the close of business on July 31, 2015, there were no shares of Charter Class B common stock, par value \$0.001 per share, outstanding or entitled to vote at the Charter special meeting. Each share of Charter Class A common stock shall entitle the holder to one vote on each matter to be considered at the special meeting. A complete list of stockholders entitled to vote at the Charter special meeting will be open to the examination of stockholders on the Charter special meeting date and for a period of ten days prior to the Charter special meeting, during normal business hours, at the offices of Charter, 400 Atlantic Street Stamford, Connecticut 06901.

Quorum

The holders of a majority of the voting power of the Charter Class A common stock issued and outstanding and entitled to vote, present either in person or by proxy at the Charter special meeting, will constitute a quorum. A quorum must be present before a vote can be taken on the Charter merger proposal, each of the stock issuances proposals, the Liberty transactions proposal, each of the certificate of incorporation proposals and the Charter advisory compensation proposal. Abstentions will be deemed present and entitled to vote at the Charter special meeting for the purpose of determining the presence of a quorum. Shares of Charter Class A common stock held in street name with respect to which the beneficial owner fails to give voting instructions to the broker, bank, nominee or other holder of record, and shares of Charter Class A common stock with respect to which the beneficial owner otherwise fails to vote, will not be considered present and entitled to vote at the Charter special meeting for the purpose of determining the presence of a quorum.

If a quorum is not present or if there are not sufficient votes for the approval of the Charter merger proposal, each of the stock issuances proposals, the Liberty transactions proposal and each of the certificate of incorporation proposals, Charter expects that the Charter special meeting will be adjourned to solicit additional proxies. At any subsequent reconvening of the Charter special meeting, all proxies will be voted in the same manner as the manner in which such proxies would have been voted at the original convening of the Charter special meeting, except for any proxies that have been validly revoked or withdrawn prior to the subsequent meeting.

Adjournment

In accordance with Charter's bylaws, the Charter special meeting may be adjourned by the Chairman of the meeting. If the Charter special meeting is adjourned, stockholders who have already submitted their proxies will be able to revoke them at any time prior to their use.

Required Vote

The following are the vote requirements for the proposals of Charter to be presented at the Charter special meeting:

Charter Merger Proposal: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote at the Charter special meeting at which a quorum is present and, with respect to the second merger, the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present are required to approve the adoption of the merger agreement.

Table of Contents

Stock Issuances Proposals: The affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve each of the stock issuances proposals.

Liberty Transactions Proposal: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares of Charter Class A common stock beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present is required to approve the Liberty transactions in accordance with Charter's existing certificate of incorporation and the affirmative vote of a majority of the votes cast by holders of shares of Charter Class A common stock at the Charter special meeting at which a quorum is present is required to approve the Liberty transactions (with respect to stock issuances to Liberty Broadband).

Certificate of Incorporation Proposals: The affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock entitled to vote at the Charter special meeting at which a quorum is present and the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote at the Charter special meeting at which a quorum is present are required to approve each certificate of incorporation proposal.

Charter Advisory Compensation Proposal: The affirmative vote of a majority of the votes cast at the Charter special meeting at which a quorum is present by holders of shares of Charter Class A common stock is required to approve, on an advisory (non-binding) basis, the Charter advisory compensation proposal.

The approval of each of the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals are conditions to the obligations of TWC, New Charter and Charter to complete the mergers. However, for purposes of satisfying the conditions to the closing of the mergers, the certificate of incorporation proposals are required to be approved by a majority of the outstanding shares of Charter Class A common stock excluding shares beneficially owned by Liberty Broadband and its affiliates and associates. The approval of each of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the stock issuance to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals are conditions to the obligations of New Charter, Charter and A/N to complete the BHN transactions. Accordingly, Charter cannot complete the mergers (and in certain circumstances the BHN transactions) unless its stockholders approve the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals as described above. A Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have the same effect as a vote AGAINST the Charter merger proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals. With respect to each of the stock issuances proposals, assuming a quorum is present, a Charter stockholder's abstention from voting, the failure of a Charter stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a Charter stockholder's other failure to vote will have no effect on the applicable stock issuances proposal. The approval of each of the certificate of incorporation proposals is required to approve the adoption of the amended and restated certificate of incorporation. The amended and restated certificate of incorporation will not be filed and become effective if any of the certificate of incorporation proposals is

not approved by Charter stockholders. The approval of all of the certificate of incorporation proposals shall constitute the requisite approval of the adoption of the amended and restated certificate of incorporation as required by Delaware law. Approval of the applicable stock issuances proposal and/or the Liberty transactions proposal will constitute approval of each matter contemplated by such proposal.

Table of Contents

As described under Other Agreement Voting Agreement, TWC entered into a voting agreement with Liberty Broadband, pursuant to which Liberty Broadband has agreed to vote all of its shares of Charter Class A common stock (i) in favor of the Charter stockholder approvals required in connection with the transactions contemplated by the merger agreement, and (ii) against any corporate action the consummation of which would reasonably be expected to prevent or delay the consummation of the transactions contemplated by the merger agreement. In addition, under the BHN/Liberty stockholders agreement, Liberty Broadband must vote all of its shares of Charter Class A common stock in favor of each of the Charter stockholder approvals required in connection with the BHN transactions. As of July 31, 2015, Liberty Broadband held in the aggregate 28,838,718 shares of Charter Class A common stock (representing approximately 25.74% of the outstanding shares of Charter Class A common stock as of such date).

Share Ownership of and Voting by Charter Directors and Executive Officers

As of July 31, 2015, Charter's directors and executive officers and their affiliates beneficially owned and had the right to vote 1,840,621 shares of Charter Class A common stock at the Charter special meeting, which represents approximately 1.63% of the shares of Charter common stock entitled to vote at the Charter special meeting.

It is expected that Charter's directors and executive officers will vote their shares FOR each of the proposals of Charter, although none of them has entered into any agreement requiring them to do so. However, Liberty Broadband, of which John C. Malone, a member of the board of directors of Charter, is the chairman of the board of directors, and Gregory B. Maffei, another member of the board of directors of Charter, is the chief executive officer, has entered into a voting agreement with TWC, as described in this joint proxy statement/prospectus.

Voting of Shares

If you were a record holder of Charter Class A common stock at the close of business on the record date of the Charter special meeting, a proxy card is enclosed for your use. Charter requests that you submit your proxy to vote your shares as promptly as possible by (i) accessing the Internet site listed on the proxy card, (ii) calling the toll-free number listed on the proxy card or (iii) submitting your proxy card by mail by using the provided self-addressed, stamped envelope. Information and applicable deadlines for voting through the Internet or by telephone are set forth on the enclosed proxy card. When the accompanying proxy is returned properly executed, the shares of Charter Class A common stock represented by it will be voted at the Charter special meeting or any adjournment or postponement thereof in accordance with the instructions contained in the proxy card. Your Internet or telephone vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned a proxy card. When a stockholder submits a proxy via the Internet or by telephone, his or her proxy is recorded immediately. We encourage you to register your vote via the Internet or by telephone whenever possible. If you submit a proxy via the Internet or by telephone, please do not return your proxy card by mail. If you attend the meeting, you may also submit your vote in person. Any votes that you previously submitted whether via the Internet, by telephone or by mail will be superseded by any vote that you cast at the Charter special meeting.

If a proxy is returned without an indication as to how the shares of Charter Class A common stock represented are to be voted with regard to a particular proposal, the Charter Class A common stock represented by the proxy will be voted in accordance with the recommendation of the Charter board of directors and, therefore, FOR the Charter merger proposal, FOR for each of the stock issuances proposals, FOR the Liberty transactions proposal, FOR for each of the certificate of incorporation proposals and FOR for the Charter advisory compensation proposal.

Table of Contents

Your vote is very important, regardless of the number of shares you own. Accordingly, if you were a record holder of Charter Class A common stock as of the record date of the special meeting, please sign and return the enclosed proxy card or vote via the Internet or telephone whether or not you plan to attend the special meeting in person. Proxies submitted through the specified Internet website or by phone must be received by 11:59 p.m., Eastern Time, on September 20, 2015. If your shares are held in the name of a bank, broker, nominee or other record holder, please follow the instructions on the voting instruction form furnished to you by such record holder.

If your broker, bank or other nominee holds your shares of Charter Class A common stock in street name, you must either direct your nominee on how to vote your shares or obtain a proxy from your nominee to vote in person at the Charter special meeting. Please check the voting form used by your nominee for information on how to submit your instructions to them.

If you hold Charter shares in street name through a broker, bank, nominee or other holder of record, you may vote via the Internet or by telephone only if Internet or telephone voting is made available by your broker, bank, nominee or other holder of record. Please follow the voting instructions provided by your broker, bank, nominee or other holder of record with these materials.

If you hold Charter shares in street name through a broker, bank, nominee or other holder of record, to vote by mail, you will also need to sign, date and mark the voting instructions form provided by your broker, bank, nominee or other holder of record and return it in the postage-paid return envelope provided. Your broker, bank, nominee or other holder of record must receive your voting instruction form in sufficient time to vote your shares.

If you hold Charter shares in street name through a broker, bank, nominee or other holder of record, you must obtain a legal proxy from that institution and present it to the inspector of elections with your ballot to be able to vote in person at the Charter special meeting. To request a legal proxy, please contact your broker, bank, nominee or other holder of record.

Under NASDAQ rules, banks, brokers or other nominees who hold shares in street name for a beneficial owner of those shares typically have the authority to vote in their discretion on routine proposals when they have not received instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretion with respect to the approval of matters that NASDAQ determines to be non-routine without specific instructions from the beneficial owner. It is expected that all proposals to be voted on at the Charter special meeting are such non-routine matters, and therefore brokers do not have discretionary authority to vote on any of the proposals. Broker non-votes occur when a bank, broker or other nominee is not instructed by the beneficial owner of shares to vote on a particular proposal for which the broker does not have discretionary voting power. Not instructing your bank, broker or other nominee how you wish your shares to be voted will have the same effect as a vote AGAINST the Charter merger proposal, a vote AGAINST the approval of the Liberty transactions proposal and a vote AGAINST each of the certificate of incorporation proposals, but will not have an effect on any of the stock issuances proposals (if a quorum is present) or the Charter advisory compensation proposal (if a quorum is present).

Revocability of Proxies; Changing Your Vote

You may revoke your proxy or change your vote at any time before your shares are voted at the Charter special meeting. If you are a stockholder of record as of the record date (the close of business on August 14, 2015), you can revoke your proxy or change your vote by:

sending a written notice that is received prior to the Charter special meeting stating that you revoke your proxy to the corporate secretary of Charter at 400 Atlantic Street, Stamford, Connecticut 06901, that bears a date later than the date of the proxy you want to revoke;

Table of Contents

properly completing, signing and dating a new proxy card bearing a later date and properly submitting it so that it is received prior to the Charter special meeting;

visiting the website shown on the Charter proxy card and submitting a new proxy in the same manner that you would submit your proxy via the Internet or by calling the toll-free number shown on the proxy card to submit a new proxy by telephone; or

attending the Charter special meeting (or, if the Charter special meeting is adjourned or postponed, attending the adjourned or postponed meeting) in person and voting your shares.

A registered stockholder may revoke a proxy by any of these methods, regardless of the method used to deliver the stockholder's previous proxy.

If you hold your shares in street name through a broker, bank, nominee or other holder of record, you must contact your broker, bank, nominee or other holder of record to change your vote or obtain a legal proxy to vote your shares if you wish to cast your vote in person at the Charter special meeting.

Solicitation of Proxies; Expenses of Solicitation

This joint proxy statement/prospectus is being provided to holders of Charter Class A common stock in connection with the solicitation of proxies by the board of directors of Charter to be voted at the Charter special meeting and at any adjournments or postponements of the Charter special meeting. Charter will bear all costs and expenses in connection with the solicitation of proxies, except that Charter and TWC will each pay 50% of the costs of filing, printing and mailing this joint proxy statement/prospectus. Charter has retained Innisfree M&A Incorporated, a proxy solicitation firm, to assist in the solicitation of proxies in connection with the Charter special meeting at a cost of approximately \$25,000 plus reimbursement of expenses. Upon request, Charter will pay banks, brokers, nominees, fiduciaries or other custodians their reasonable expenses for sending proxy material to, and obtaining instructions from, persons for whom they hold shares. Charter expects to solicit proxies primarily by mail, but directors, officers and other employees of Charter may also solicit in person or by Internet, telephone or mail.

Householding

The SEC has adopted a rule concerning the delivery of annual reports and proxy statements. It permits Charter, with your permission, to send a single notice of meeting and, to the extent requested, a single set of this joint proxy statement/prospectus to any household at which two or more stockholders reside if Charter believes they are members of the same family. This rule is called householding, and its purpose is to help reduce printing and mailing costs of proxy materials.

A number of brokerage firms have instituted householding. If you and members of your household have multiple accounts holding shares of Charter Class A common stock, you may have received a householding notification from your broker. Please contact your broker directly if you have questions, require additional copies of this joint proxy statement/prospectus or wish to revoke your decision to household. These options are available to you at any time.

Other Information

As of the date of this joint proxy statement/prospectus, the Charter board of directors knows of no other matters that will be presented for consideration at the Charter special meeting other than as described in this joint proxy

statement/prospectus. If any other matters properly come before the Charter special meeting, or any adjournments of the Charter special meeting, and that are set forth in the notice for such special meeting in accordance with Charter s bylaws and are proposed and are properly voted upon, the enclosed proxies will give the individuals that Charter stockholders name as proxies discretionary authority to vote the shares represented

Table of Contents

by these proxies as to any of these matters; provided, however, that those individuals will only exercise this discretionary authority with respect to matters that were unknown a reasonable time before the solicitation of proxies.

The matters to be considered at the Charter special meeting are of great importance to the stockholders of Charter. Accordingly, you are urged to read and carefully consider the information contained in or incorporated by reference into this joint proxy statement/prospectus and submit your proxy via the Internet or by telephone or complete, date, sign and promptly return the enclosed proxy in the enclosed postage-paid envelope. If you submit your proxy via the Internet or by telephone, you do not need to return the enclosed proxy card.

THE TWC SPECIAL MEETING OF STOCKHOLDERS

This joint proxy statement/prospectus is being provided to TWC stockholders as part of a solicitation of proxies by the TWC board of directors for use at the TWC special meeting. This joint proxy statement/prospectus provides TWC stockholders with important information they need to know to be able to vote, or instruct their brokers or other nominees to vote, at the TWC special meeting.

Date, Time and Location

Together with this joint proxy statement/prospectus, TWC is also sending TWC stockholders a notice of the TWC special meeting and a form of proxy that is solicited by the TWC board of directors for use at the TWC special meeting to be held on September 21, 2015, at the Auditorium at the New York Institute of Technology, located at 1871 Broadway, New York, New York, at 10:00 a.m., local time, and any adjournments or postponements of the TWC special meeting.

Only TWC stockholders as of the record date or their proxy holders may attend the TWC special meeting. If you would like to attend the TWC special meeting, because of security procedures, you will need to register in advance to gain admission to the TWC special meeting. You can register by calling (866) 892-8925 toll-free or sending an email with your name and address to: ir@twcable.com by September 18, 2015. In addition to registering in advance, you will be required to present government issued identification (e.g., driver's license or passport) to enter the meeting. The meeting also will be audiocast live on the Internet at www.twc.com/investors. You may not appoint more than three persons to act as your proxy at the meeting.

If you are a beneficial owner of TWC common stock held in street name by a broker, bank, nominee or other holder of record as of the record date (the close of business on July 28, 2015), in addition to proper identification, you will also need proof of ownership as of the record date to be admitted to the TWC special meeting. A brokerage statement or letter from a bank or broker are examples of proof of ownership. If you want to vote your shares of TWC common stock held in street name in person at the TWC special meeting, you will have to obtain a legal proxy in your name from the broker, bank, nominee or other holder of record that holds your shares.

Purpose

At the TWC special meeting, TWC stockholders will be asked to consider and vote on the following proposals:

to approve the adoption of the merger agreement, pursuant to which (i) Merger Subsidiary One will be merged first with and into TWC, with TWC continuing as the surviving corporation, (ii) immediately thereafter TWC will be merged with and into Merger Subsidiary Two, with Merger Subsidiary Two continuing as the surviving entity and a wholly owned subsidiary of New Charter; and

to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers.

Under TWC's bylaws, the business to be conducted at TWC's special meeting will be limited to the purposes stated in the notice to TWC stockholders provided with this joint proxy statement/prospectus.

Recommendations of the TWC Board of Directors

After consideration and consultation with its advisors, the TWC board of directors unanimously determined that the merger agreement, the mergers and the other transactions contemplated by the merger agreement are fair to and in the best interests of TWC's stockholders and unanimously approved and declared advisable the merger agreement, the mergers and the other transactions contemplated by the merger agreement. **The TWC board of directors unanimously recommends that TWC stockholders vote FOR the approval of the adoption of**

Table of Contents

the merger agreement. See The Transactions TWC s Reasons for the Mergers; Recommendation of the TWC Board of Directors for a more detailed discussion of the recommendation of the TWC board of directors that TWC stockholders adopt the merger agreement. The TWC board of directors further unanimously recommends that TWC stockholders vote FOR the TWC advisory compensation proposal. See TWC Proposals TWC Proposal II: TWC Advisory Compensation Proposal for a more detailed discussion of the recommendation of the TWC board of directors that TWC stockholders vote for the advisory (non-binding) vote to approve certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers.

TWC Record Date; Outstanding Shares; Stockholders Entitled to Vote

The TWC board of directors has fixed the close of business on July 28, 2015, as the record date for determination of the stockholders entitled to vote at the TWC special meeting or any adjournment or postponement of the TWC special meeting. Only TWC stockholders of record as of the record date are entitled to receive notice of, and to vote at, the TWC special meeting or any adjournment or postponement of the TWC special meeting. As of the close of business on July 28, 2015, there were 282,974,273 shares of TWC common stock outstanding. Each holder of TWC common stock is entitled to one vote for each share of TWC common stock owned as of the record date.

A complete list of stockholders entitled to vote at the TWC special meeting will be available for a period of ten days prior to the TWC special meeting at the offices of TWC, located at 60 Columbus Circle, New York, New York 10023, for inspection by any stockholder, for any purpose germane to the TWC special meeting, during usual business hours. The stockholder list also will be available at the TWC special meeting for examination by any stockholder present at the TWC special meeting.

Quorum

The presence at the TWC special meeting, in person or by proxy, of the holders of a majority of the votes entitled to be cast for each proposal as of the record date (the close of business on July 28, 2015) will constitute a quorum for such proposal. Abstentions will be deemed present at the TWC special meeting for the purpose of determining the presence of a quorum. Shares of TWC common stock held in street name with respect to which the beneficial owner fails to give voting instructions to the broker, bank, nominee or other holder of record will not be considered present at the TWC special meeting for the purpose of determining the presence of a quorum. There must be a quorum for business to be conducted at the TWC special meeting. Failure of a quorum to be represented at the TWC special meeting or at the time of the vote on any proposal will necessitate an adjournment or postponement and will subject TWC to additional expense.

Required Vote

Approval of the adoption of the merger agreement requires the affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote. **TWC cannot complete the merger unless its stockholders approve the adoption of the merger agreement.** Because approval of the adoption of the merger agreement requires the affirmative vote of holders of a majority of the outstanding shares of TWC common stock entitled to vote, **a TWC stockholder s abstention from voting, the failure of a TWC stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a TWC stockholder s other failure to vote will have the same effect as a vote AGAINST the approval of the adoption of the merger agreement.**

Approval, on an advisory (non-binding) basis, of certain specified compensation that will or may be paid by TWC to its named executive officers in connection with the mergers requires the affirmative vote of a majority of the votes

cast at the TWC special meeting by holders of shares of TWC common stock. An abstention is not

Table of Contents

considered a vote cast. Accordingly, assuming a quorum is present, a TWC stockholder's abstention from voting, the failure of a TWC stockholder who holds his or her shares in street name through a broker, bank, nominee or other holder of record to give voting instructions to that broker, bank, nominee or other holder of record or a TWC stockholder's other failure to vote will have no effect on the outcome of any vote to approve the TWC advisory compensation proposal.

Share Ownership of and Voting by TWC Directors and Executive Officers

As of the record date for the TWC special meeting (the close of business on July 28, 2015), TWC's directors and executive officers and their affiliates beneficially owned and had the right to vote 178,355 shares of TWC common stock at the TWC special meeting, which represents less than 0.1% of the shares of TWC common stock entitled to vote at the TWC special meeting.

It is expected that TWC's directors and executive officers will vote their shares **FOR** the approval of the adoption of the merger agreement and **FOR** the TWC advisory compensation proposal, although none of them has entered into any agreement requiring them to do so.

Voting of Shares

Via the Internet or by Telephone

If you hold TWC shares directly in your name as a stockholder of record (that is, if your shares of TWC common stock are registered in your name with Computershare Shareowner Services, TWC's transfer agent), you may vote via the Internet at www.proxyvote.com or by telephone by calling the toll-free number on the back of your proxy card. Votes submitted via the Internet or by telephone must be received by 11:59 p.m. (Eastern Time) on September 20, 2015.

If you hold TWC shares in street name through a broker, bank, nominee or other holder of record, you may vote via the Internet or by telephone only if Internet or telephone voting is made available by your broker, bank, nominee or other holder of record. Please follow the voting instructions provided by your broker, bank, nominee or other holder of record with these materials.

By Mail

If you hold TWC shares directly in your name as a stockholder of record (that is, if your shares of TWC common stock are registered in your name with Computershare Shareowner Services, TWC's transfer agent), you will need to sign, date and mark your proxy card and return it using the postage-paid return envelope provided or return it to Vote Processing, c/o Broadridge Financial Solutions, Inc., 51 Mercedes Way, Edgewood, New York 11717. Broadridge Financial Solutions, Inc. must receive your proxy card no later than the close of business on September 20, 2015.

If you hold TWC shares in street name through a broker, bank, nominee or other holder of record, to vote by mail, you will need to sign, date and mark the voting instruction form provided by your broker, bank, nominee or other holder of record and return it in the postage-paid return envelope provided. Your broker, bank, nominee or other holder of record must receive your voting instruction form in sufficient time to vote your shares.

In Person

If you hold TWC shares directly in your name as a stockholder of record (that is, if your shares of TWC common stock are registered in your name with Computershare Shareowner Services, TWC's transfer agent), you may vote in person at the TWC special meeting. Stockholders of record also may be represented by another person at the TWC special meeting by executing a proper proxy designating that person.

Table of Contents

If you hold TWC shares in street name through a broker, bank, nominee or other holder of record, you must obtain a legal proxy from that institution and present it to the inspector of elections with your ballot to be able to vote in person at the TWC special meeting. To request a legal proxy, please contact your broker, bank, nominee or other holder of record.

When a stockholder submits a proxy via the Internet or by telephone, his or her proxy is recorded immediately. We encourage you to register your vote via the Internet or by telephone whenever possible. If you submit a proxy via the Internet or by telephone, please do not return your proxy card by mail. If you attend the meeting, you may also submit your vote in person. Any votes that you previously submitted whether via the Internet, by telephone or by mail will be superseded by any vote that you cast at the TWC special meeting (although attendance at the TWC special meeting will not by itself revoke a proxy).

If your shares of TWC common stock are held in an account at a broker, bank, nominee or other holder of record, you must instruct the broker, bank, nominee or other holder of record on how to vote your shares. Brokers who hold shares of TWC common stock in street name typically have the authority to vote in their discretion on routine proposals when they have not received instructions on how to vote from the beneficial owner. However, brokers are typically not allowed to exercise their voting discretion on matters that are non-routine without specific instructions on how to vote from the beneficial owner. Under the current rules of the New York Stock Exchange, both of the proposals described in this joint proxy statement/prospectus to be presented at the TWC special meeting are considered non-routine, and therefore brokers do not have discretionary authority to vote on either of these proposals. If your shares of TWC common stock are held in street name, your broker, bank, nominee or other holder of record will vote your shares only if you provide instructions on how to vote by filling out the voting instruction form sent to you by your broker, bank, nominee or other holder of record with this joint proxy statement/prospectus.

If your shares are held in street name, a failure to instruct your broker, bank, nominee or other holder of record how to vote your shares will have the same effect as a vote AGAINST the approval of the adoption of the merger agreement. If your shares are held in street name, a failure to instruct your broker, bank, nominee or other holder of record how to vote your shares will have no effect on the TWC advisory compensation proposal.

Broker non-votes are shares held by a broker that are present in person or represented by proxy at the special meeting, but with respect to which the broker is not instructed by the beneficial owner of such shares how to vote on a particular proposal and the broker does not have discretionary voting power on such proposal. Because brokers do not have discretionary voting authority with respect to either of the proposals described in this joint proxy statement/prospectus to be presented at the TWC special meeting, if a beneficial owner of shares of TWC common stock held in street name does not give voting instructions to the broker, bank, nominee or other holder of record, then those shares will not be present in person or represented by proxy at the TWC special meeting. As a result, it is expected that there will not be any broker non-votes in connection with either of the proposals described in this joint proxy statement/prospectus to be presented at the TWC special meeting.

All shares represented by each properly executed and valid proxy received before the TWC special meeting will be voted in accordance with the instructions given on the proxy. If a TWC stockholder signs a proxy card and returns it without giving instructions, the shares of TWC common stock represented by that proxy card will be voted FOR the approval of the adoption of the merger agreement and FOR the TWC advisory compensation proposal. No TWC stockholder of record may appoint more than three persons to act as his or her proxy at the special meeting.

Your vote is very important, regardless of the number of shares you own. Whether or not you expect to attend the TWC special meeting in person, please vote or otherwise submit a proxy to vote your shares as promptly as

possible so that your shares may be represented and voted at the TWC special meeting. If your shares are held in the name of a bank, broker, nominee or other record holder, please follow the instructions on the voting instruction form furnished to you by such record holder.

Table of Contents

Revocability of Proxies; Changing Your Vote

You may revoke your proxy or change your vote at any time before your shares are voted at the TWC special meeting. If you are a stockholder of record as of the record date (the close of business on July 28, 2015), you can revoke your proxy or change your vote by:

sending a signed notice stating that you revoke your proxy to the General Counsel of TWC, at TWC's offices at 60 Columbus Circle, New York, New York 10023, Attention: General Counsel, that bears a date later than the date of the proxy you want to revoke and is received prior to the TWC special meeting;

submitting a valid, later-dated proxy by Internet, telephone or mail that is received prior to the TWC special meeting; or

attending the TWC special meeting (or, if the TWC special meeting is adjourned or postponed, attending the adjourned or postponed meeting) and voting in person, which will automatically cancel any proxy previously given, or revoking your proxy in person, but your attendance alone will not revoke any proxy previously given.

If you hold your shares in street name through a broker, bank, nominee or other holder of record, you must contact your brokerage firm or bank to change your vote or obtain a legal proxy to vote your shares if you wish to cast your vote in person at the TWC special meeting.

Solicitation of Proxies; Expenses of Solicitation

This joint proxy statement/prospectus is being provided to holders of TWC common stock in connection with the solicitation of proxies by the board of directors of TWC to be voted at the TWC special meeting and at any adjournments or postponements of the TWC special meeting. TWC will bear all costs and expenses in connection with the solicitation of proxies, except that TWC and Charter will each pay 50% of the costs of filing, printing and mailing this joint proxy statement/prospectus. TWC has retained MacKenzie Partners, Inc. for a fee of \$50,000, plus reimbursement of reasonable out-of-pocket expenses to assist in the solicitation of proxies for the TWC special meeting.

In addition to solicitation by mail, directors, officers and employees of TWC or its subsidiaries may solicit proxies from stockholders by telephone, telegram, email, personal interview or other means. Directors, officers and employees of TWC will not receive additional compensation for their solicitation activities, but may be reimbursed for reasonable out-of-pocket expenses incurred by them in connection with the solicitation. Brokers, dealers, commercial banks, trust companies, fiduciaries, custodians and other nominees have been requested to forward proxy solicitation materials to their customers and such nominees will be reimbursed for their reasonable out-of-pocket expenses.

Householding

The SEC has adopted a rule concerning the delivery of annual reports and proxy statements. It permits TWC, with your permission, to send a single notice of meeting and, to the extent requested, a single set of this joint proxy statement/prospectus to any household at which two or more stockholders reside if TWC believes they are members of the same family. This rule is called "householding," and its purpose is to help reduce printing and mailing costs of proxy

materials.

A number of brokerage firms have instituted householding. If you and members of your household have multiple accounts holding shares of TWC common stock, you may have received a householding notification from your broker. Please contact your broker directly if you have questions, require additional copies of this joint proxy statement/prospectus or wish to revoke your decision to household. These options are available to you at any time.

Table of Contents

Adjournment

In accordance with TWC's bylaws, the TWC special meeting may be adjourned by the Chairman of the meeting. If the TWC special meeting is adjourned, stockholders who have already submitted their proxies will be able to revoke them at any time prior to their use.

Other Information

The matters to be considered at the TWC special meeting are of great importance to the stockholders of TWC. Accordingly, you are urged to read and carefully consider the information contained in or incorporated by reference into this joint proxy statement/prospectus and submit your proxy via the Internet or by telephone or complete, date, sign and promptly return the enclosed proxy in the enclosed postage-paid envelope. If you submit your proxy via the Internet or by telephone, you do not need to return the enclosed proxy card.

Table of Contents

THE TRANSACTIONS

General

This joint proxy statement/prospectus is being provided to holders of TWC common stock in connection with the solicitation of proxies by the board of directors of TWC to be voted at the TWC special meeting and at any adjournments or postponements of the TWC special meeting. At the TWC special meeting, TWC will ask its stockholders to vote on (i) a proposal to approve the adoption of the merger agreement and (ii) a proposal to approve, on an advisory (non-binding) basis, certain specified compensation payments that will or may be paid by TWC to its named executive officers in connection with the mergers.

This joint proxy statement/prospectus is being provided to holders of Charter Class A common stock in connection with the solicitation of proxies by the board of directors of Charter to be voted at the Charter special meeting and at any adjournments or postponements of the Charter special meeting. At the Charter special meeting, Charter will ask its stockholders to vote on (i) a proposal to approve the adoption of the merger agreement, (ii) a proposal to approve the stock issuances, (iii) a proposal to approve the Liberty transactions, (iv) a proposal to approve the adoption of the amended and restated certificate of incorporation that will either be the amended and restated certificate of incorporation of New Charter if the mergers are consummated or the amended and restated certificate of incorporation of Charter if the mergers are not consummated but the transactions with A/N are consummated, and, approve separately certain features of either such amended and restated certificate of incorporation and (v) a proposal to approve, on an advisory (non-binding) basis, certain specified compensation that will or may be paid by Charter to its named executive officers in connection with the transactions.

The merger agreement provides for a series of mergers, pursuant to which both Charter and TWC will become wholly owned subsidiaries of New Charter, which is currently a wholly owned subsidiary of Charter. In the first merger, Merger Subsidiary One will merge with and into TWC, with TWC being the surviving corporation. Immediately following the completion of the first merger, in the second merger, TWC will merge with and into Merger Subsidiary Two, with Merger Subsidiary Two being the surviving entity. Immediately following the completion of the second merger, in the third merger, Charter will merge with and into Merger Subsidiary Three, with Merger Subsidiary Three being the surviving entity. Following the mergers, Charter and TWC will no longer be publicly held corporations and New Charter will be the only publicly held corporation.

Table of Contents

The following diagram illustrates in simplified form (ignoring for clarity, among other things, intervening subsidiaries, other subsidiaries not involved in the mergers, and potential post-closing internal reorganizations) the approximate pro forma percentage ownership of New Charter (with respect to A/N, on an as-converted, as-exchanged basis) after the completion of the mergers and BHN transactions assuming (1) that all TWC stockholders elect the Option A Election and (2) that all TWC stockholders elect the Option B Election:

* *As discussed elsewhere in this joint proxy statement/prospectus, after giving effect to the Liberty Interactive proxy and the A/N proxy and the voting cap contained in the BHN/Liberty stockholders agreement, Liberty Broadband is expected to have 25.01% of the outstanding voting power in New Charter following the consummation of the TWC transactions and BHN transactions.*

In addition, following the completion of the mergers, Charter expects to complete the BHN transactions, pursuant to which A/N will contribute the membership interests in BHN and any other assets (other than certain excluded assets and liabilities) primarily related to BHN's business to Charter Holdings in exchange for cash, limited liability company membership interests in Charter Holdings (which are exchangeable in certain circumstances for New Charter Class A common stock) and one share of a new class of New Charter common stock (Class B common stock) with voting rights generally intended to reflect A/N's economic interests in New

Table of Contents

Charter and Charter Holdings. The three mergers described in this joint proxy statement/prospectus are intended to facilitate the combination of TWC and Charter, as well as the completion of the BHN transactions. **The approval of each of the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals are conditions to the obligations of TWC, New Charter and Charter to complete the mergers. However, for purposes of satisfying the conditions to the closing of the mergers, the certificate of incorporation proposals are required to be approved by a majority of the outstanding shares of Charter Class A common stock excluding shares beneficially owned by Liberty Broadband and its affiliates and associates. The approval of each of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the share issuance to Liberty Broadband) and each of the certificate of incorporation proposals are conditions to the obligations of New Charter, Charter and A/N to complete the BHN transactions. Accordingly, Charter cannot complete the mergers (and in certain circumstances the BHN transactions) unless its stockholders approve the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals as described above.** Copies of the merger agreement, the BHN contribution agreement, the BHN/Liberty stockholders agreement, the Liberty investment agreement and the Liberty contribution agreement are attached as Annexes A, B, C, D and E, respectively, to this joint proxy statement/prospectus. You are urged to read these agreements in their entirety because they are the legal documents that govern the mergers and the other transactions described in this joint proxy statement/prospectus. The form of the amended and restated certificate of incorporation will be attached as Annex G to this to this joint proxy statement/prospectus. For additional information about the mergers and the other transactions, see *The Merger Agreement*, *The BHN Contribution Agreement* and the *Other Agreements* beginning on pages 236, 269 and 283, respectively, of this joint proxy statement/prospectus.

Based on customer data as of June 30, 2015, New Charter's footprint will have approximately 48 million passings and 24.3 million customer relationships, including 17.2 million video customers, 20.1 million Internet customers, and 10.0 million voice customers. New Charter will face competition in its footprint from AT&T/DIRECTV with a reported 26.3 million video customers nationally combining the AT&T U-Verse customers and DIRECTV customers; Dish Network with a reported 13.9 million national video customers; and Verizon FiOS with 5.8 million video customers nationwide. New Charter will also face competition from traditional over builders and over the top video providers. With respect to Internet services, New Charter will face competition from a combined AT&T/DIRECTV with a reported 16.0 million Internet customers nationally; Verizon Communications Inc. with a reported 9.2 million Internet customers nationally; and other providers including traditional cable over builders, municipal overbuilds and Google Fiber. The FCC recently approved the AT&T/DIRECTV transaction, and in connection with that approval, AT&T committed to expand fiber to the premises services to 12.5 million locations. Such a build out by AT&T would result in increased additional competition for New Charter. In addition, New Charter will compete with wireless carriers that offer voice service and data plans to their customers. Four national wireless carriers, including Verizon, AT&T, Sprint and T-Mobile, provide voice service and Internet access to their wireless customers. As of June 30, 2015, Verizon reported an estimated 103.7 million postpaid subscribers/connections, AT&T reported an estimated 76.5 million postpaid subscribers/connections, T-Mobile reported an estimated 29.3 million postpaid subscribers/connections and Sprint reported an estimated 30.0 million postpaid subscribers/connections. Cable companies typically compete with each other, at most, only when the franchise territories in which they operate overlap, and the larger cable companies have had only minimal overlapping territories. As a result, the creation of New Charter should not result in significant additional competition, if any, with other cable operators for advertising or commercial customers. With respect to advertising sales, New Charter's broader geographic footprint should make it a more effective competitor to broadcast stations and other sellers of advertising availability.

Table of Contents

The following map of the United States shows the expected footprint of New Charter's operating areas, including Charter's, TWC's and BHN's current footprint:

Based on the number of shares of TWC common stock outstanding as of July 31, 2015, and the number of shares of Charter Class A common stock outstanding as of July 31, 2015, it is expected that, immediately after completion of the mergers, the issuance of shares to Liberty Broadband and the completion of the BHN transactions, and depending on the outcome of the election feature described in this joint proxy statement/prospectus, former TWC stockholders, excluding Liberty Broadband, are expected to own between approximately 41% and 45% of New Charter, A/N is expected to own between approximately 14% and 13% of New Charter on an as-converted, as-exchanged basis, Liberty Broadband is expected to own between approximately 19% and 17% of New Charter and existing Charter stockholders (other than Liberty Broadband) are expected to own between approximately 26% and 24% of New Charter. In connection with the TWC transactions, Liberty Broadband and Liberty Interactive entered into a proxy and right of first refusal agreement, pursuant to which, in connection with the closing of the transactions contemplated by the merger agreement, Liberty Interactive will grant Liberty Broadband an irrevocable proxy to vote all New Charter Class A common stock owned beneficially or of record by Liberty Interactive following such closing, with certain exceptions. In addition, at the closing of the BHN transactions, A/N and Liberty Broadband will enter into a proxy agreement pursuant to which A/N will grant to Liberty Broadband a 5-year irrevocable proxy (which is referred to as the A/N proxy) to vote, subject to certain exceptions, that number of shares of New Charter Class A common stock and New Charter Class B common stock, in each case held by A/N (such shares are referred to as the proxy shares), that will result in Liberty Broadband having voting power in New Charter equal to 25.01% of the outstanding voting power of New Charter, provided, that the voting power of the proxy shares will be capped at 7.0% of the outstanding voting power of New Charter. Therefore, giving effect to the Liberty Interactive proxy and the A/N proxy and the voting cap contained in the BHN/Liberty stockholders agreement, Liberty Broadband is expected to have 25.01% of the outstanding voting power in New Charter following the consummation of the TWC transactions and BHN transactions.

Background of the Mergers and Other Transactions

The industry in which TWC and Charter operate is dynamic and evolving technologically and structurally. Therefore, the board of directors and senior management teams of Charter and TWC regularly review their

Table of Contents

respective company's performance, future growth prospects and overall strategic direction and consider potential opportunities to strengthen their respective businesses and enhance stockholder value. For each company, these reviews have included consideration of investments and potential strategic business combinations and transactions with third parties that would further their respective strategic objectives and could enhance their respective ability to serve customers and create stockholder value, and the potential benefits and risks of those investments and transactions in light of, among other things, the business environment facing the industries in which the companies operate and each company's competitive position.

Comcast-TWC Transaction

In early 2013, as part of its ongoing strategic review activities, Charter came to the belief that significant value could be created through the application of Charter's growth-oriented strategies to the cable assets held by TWC in a combination of the two companies. Between July 10, 2013 and January 13, 2014, Charter made three acquisition proposals to TWC. Each of the proposals made by Charter was at an implied nominal value based on the value of Charter at the time each proposal was made that was lower than the implied nominal value of the consideration offered by Comcast to TWC, as further described below. The TWC board of directors determined each time, after careful consideration of each proposal, that such proposals were not in the best interests of TWC stockholders due to, among other things, the inadequacy of the value of the consideration offered by Charter.

In mid-October 2013, Brian L. Roberts, Chairman and Chief Executive Officer of Comcast Corporation (Comcast), indicated to Robert D. Marcus, then President and Chief Operating Officer of TWC and currently Chairman and Chief Executive Officer of TWC, Comcast's interest in exploring a merger of Comcast and TWC. Over the next several months, Comcast and TWC, together with their respective advisors, engaged in substantive discussions regarding a potential transaction and negotiated the terms of a merger agreement. On February 12, 2014, TWC and Comcast entered into an Agreement and Plan of Merger, by and among TWC, Comcast and Tango Acquisition Sub, Inc. (the Comcast-TWC merger agreement), pursuant to which Comcast agreed, on the terms and subject to the conditions therein, to acquire all of TWC's outstanding common stock in exchange for Comcast common stock (the Comcast-TWC merger), with an implied nominal value of \$158.82 per share of TWC common stock, as of February 12, 2014. The obligations of Comcast and TWC to complete the Comcast-TWC merger were conditioned upon the receipt of applicable regulatory approvals from the DOJ, the FCC and local franchising authorities, among other things.

Comcast-Charter Transaction

Also following execution of the Comcast-TWC merger agreement, on April 25, 2014, Comcast and Charter entered into a binding term sheet providing for a series of transactions (the Divestiture Transactions), including Charter's acquisition of interests in a new spun-off entity holding certain cable systems of Comcast, Charter's acquisition of certain cable systems of TWC, and Comcast's acquisition of certain cable systems of Charter. The closing of the Divestiture Transactions was conditioned upon the closing of the Comcast-TWC merger.

Bright House Transaction

Bright House is a wholly owned subsidiary of Time Warner Entertainment-Advance/Newhouse Partnership (TWE-A/N). TWE-A/N is a partnership formed in 1995 between A/N and Time Warner Cable Enterprises LLC (as a successor to Time Warner Entertainment Company, L.P.), a subsidiary of TWC (TWCE). The Bright House systems are managed on a day to day basis by A/N, which is entitled to 100% of the economic benefits of Bright House. TWC and its affiliates provide Bright House with certain programming, engineering and technology services through a services agreement between the parties. TWCE and A/N are parties to the Third Amended and Restated Partnership

Agreement of Time Warner Entertainment-Advance/Newhouse Partnership, dated as of December 31, 2002 (the Partnership Agreement). Pursuant to the Partnership Agreement, TWCE has a right of first offer over dispositions of Bright House by A/N (the ROFO).

Table of Contents

In early 2014, it was reported in the press that A/N had engaged UBS Securities LLC (UBS) as a financial advisor in light of the ongoing speculation surrounding TWC and the possibility that TWC might be acquired by another cable operator. Shortly thereafter, Charter and Bright House began to discuss the possibility of a strategic transaction.

On April 4, 2014, Bright House sent to Charter a list of guiding principles that it believed should govern a potential combination between Bright House and Charter, including that the combination should provide a source of regular cash flow to A/N as well as appropriate governance and other rights for A/N in the combined company. On April 18, 2014, Charter and Bright House entered into a non-disclosure agreement contemplating the exchange of confidential information between the parties for the purposes of evaluating a potential combination. In May 2014, the board of directors of Charter received an update on these discussions from Charter management.

On June 11, 2014, A/N sent a high-level term sheet for a potential combination between Charter and Bright House to Charter. The term sheet set forth a proposal for A/N to contribute Bright House to a partnership that would hold the combined company's operations (Charter Holdings) in return for consideration comprising \$1 billion in cash, convertible preferred units of Charter Holdings that would deliver cash flow to A/N in the form of preferred dividends, common units of Charter Holdings that would be exchangeable into Charter common stock, and Class B common stock of Charter that would have no economic rights but would entitle A/N to a number of votes to be determined by the number of Charter Holdings common units held (or that would be held upon exchange or conversion of preferred units) by A/N. The term sheet also provided for certain governance rights, including a number of board seats in proportion to A/N's equity ownership and consent rights over certain major corporate actions.

On June 19, 2014, Charter sent a revised version of the term sheet to A/N proposing limits on A/N's influence over Charter following a transaction, particularly in conjunction with the existing share ownership and governance rights of Liberty Media Corporation (Liberty Media), then Charter's largest stockholder. Among other changes, the revised term sheet proposed a voting cap of 23.5% of Charter's outstanding Class A common stock for each of A/N and Liberty Media, that A/N would be permitted to designate three members of Charter's 11-member board of directors for so long as A/N maintained a voting interest of at least 20% in Charter, that board action would require the approval of majorities of two out of three of the groups of directors (i.e., the directors designated by A/N, the directors designated by Liberty Media and the remaining directors), and that A/N and Liberty Media would be prohibited from acting in concert.

On June 26, 2014, representatives of Goldman, Sachs & Co. (Goldman Sachs) and LionTree Advisors, LLC (LionTree), Charter's financial advisors, and representatives of Wachtell, Lipton, Rosen & Katz (Wachtell Lipton), Charter's legal advisor, had a telephonic meeting with representatives of UBS, A/N's financial advisor, and Sullivan & Cromwell LLP (Sullivan & Cromwell) and Sabin, Bermant & Gould LLP (Sabin), A/N's legal advisors, to discuss the governance provisions in the term sheet. On July 2, 2014, A/N sent Charter a presentation regarding the operations and financial condition of Bright House. Over the following month, Charter and A/N exchanged drafts of the term sheet that included the parties' respective positions on call rights over preferred units of Charter Holdings, exceptions to the A/N and Liberty Media voting caps, board designation rights, percentage ownership thresholds at which A/N and Liberty Media would lose board designation and other governance rights and cure periods for falling below such thresholds, consent rights of A/N, exceptions to transfer restrictions, and registration rights.

On July 29, 2014, the Charter board of directors met and discussed the proposed combination with Bright House. Over the next several weeks, the parties continued to exchange drafts of the term sheet setting forth the parties' positions on the topics noted above, as well as the assumption of outstanding Bright House debt and allocation of certain tax attributes and risks and, during this period, representatives of LionTree and Goldman Sachs had calls with representatives of UBS on several occasions to discuss the potential combination. On September 8, 2014, Thomas M. Rutledge, President and Chief Executive Officer of Charter, and other

Table of Contents

representatives of Charter met with Steven A. Miron, Chief Executive Officer of Bright House, and other representatives of A/N and Bright House to discuss further details regarding the governance rights that Bright House would have following consummation of the potential combination. During this meeting, A/N provided Charter with a presentation containing financial and operational information regarding Bright House.

On September 12, 2014, Charter sent a letter to A/N outlining non-binding proposed financial terms for a combination between Charter and Bright House. The letter stated that Charter valued Bright House at an enterprise value of \$9.275 billion. On a cash-free, pension-free basis and on the assumption of Bright House debt of \$514 million at closing, the letter proposed consideration comprising \$1.5 billion in cash, \$2.5 billion of convertible preferred units of Charter Holdings with a 6% coupon and exchangeable into common units of Charter Holdings, common units of Charter Holdings exchangeable into 30.3 million shares of Charter common stock, representing \$4.811 billion at Charter's share price of \$158.80 as of September 11, 2014, and future cash payments for 50% of the cash tax savings realized by Charter from the incremental amortization expense of any tax basis step-up generated from an exchange of Bright House's Charter Holdings common units for Charter Class A common stock. Also included in the letter was a revised version of the term sheet laying out Charter's proposal regarding governance and other terms of the potential combination, and an explanation of Charter's proposed treatment of outstanding issues.

On September 18, 2014, A/N replied to Charter proposing that Charter pay A/N consideration of \$1.5 billion in cash, \$2.5 billion of convertible preferred units of Charter Holdings and common units of Charter Holdings that, together with the convertible preferred units, would imply a pro forma A/N ownership stake in Charter of 30%, on an as-converted, as-exchanged basis. On September 26, 2014, Charter replied, proposing consideration that would imply A/N ownership of Charter of 28.06% and basing its proposal on a price per Charter share of \$154.53 for purposes of valuing Charter equity-linked consideration, and A/N further replied on September 30, 2014 with a proposal for an A/N stake of 28.5% and using the \$154.53 price as the basis for the conversion price of the convertible preferred units. On October 1, 2014, Charter wrote again to Bright House repeating Charter's 28.06% proposal.

On October 9, 2014, A/N proposed to Charter a choice between two separate sets of financial and governance terms for the potential combination depending on whether or not the Divestiture Transactions were completed. On October 13, 2014, representatives of Charter met with representatives of A/N to discuss the parties' positions regarding governance arrangements following the potential combination, including the ownership threshold for A/N and Liberty Media to have consent rights over the selection of the Chairman of Charter, and whether board action would require the approval of a simple majority of all directors or two of three groups of directors designated by A/N, the directors designated by Liberty Media and the remaining directors. The group met again on October 16, and the Charter representatives agreed to continue the negotiations on the basis of a non-binding proposal of a 28.5% pro forma A/N ownership stake in the combined company, contingent on completion of the Comcast transactions. The parties also agreed to a proposal that (subject to certain exceptions) board action following the potential combination would require the approval of a simple majority of an 11-member board rather than two of three of the director groups as described above.

On October 21, 2014, after exchanging a further draft of the non-binding term sheet that laid out the material terms of the potential combination, representatives of Charter and its advisors met with representatives of Bright House and its advisors at the offices of Sabin in New York, New York. The parties agreed that the term sheet was sufficiently advanced that it should be sent to Liberty Media for review.

On October 24, 2014, Liberty Media sent a mark-up of the term sheet to Charter reflecting its comments. Among other changes to the governance arrangements, Liberty Media proposed a number of additional consent rights for Liberty Media, elimination of the voting cap that had been proposed for Liberty Media, and that A/N grant Liberty Media a proxy (the Bright House Proxy) to vote as many of A/N's shares in Charter as would be required to increase

Liberty Media's total voting stake in Charter to 25.01%. Liberty Media's markup also proposed that Charter grant Liberty Media preemptive rights to maintain its pro rata ownership stake in Charter

Table of Contents

after the closing of the combination with Bright House in connection with any issuance of equity securities of Charter after signing, and that Charter grant A/N similar preemptive rights in connection with any post-closing issuances.

Later in the afternoon of October 24, 2014, the members of Charter's board of directors other than the directors designated by Liberty Media (Dr. Malone and Messrs. Huseby, Maffei and Nair) met to discuss the term sheet and also considerations regarding the potential combination with Bright House. During the meeting, the directors also reviewed the potential conflicts of interest of Goldman Sachs and Wachtell Lipton, as well as the potential conflicts of interest of all directors present at the meeting. The independent directors resolved to form a working group comprising Eric L. Zinterhofer, Chairman of Charter, John D. Markley Jr. and Lance Conn to meet as necessary to consider and negotiate the potential transaction. Because LionTree advised the Charter board of directors that they had a substantial historic and ongoing relationship with Liberty, the independent directors of the Charter board of directors negotiated and considered the transactions with Liberty without the participation of LionTree.

Over the course of the next several weeks, Liberty Broadband, which following its spin-off from Liberty Media held the shares of Charter formerly held by Liberty Media, with the advice of Baker Botts L.L.P. (Baker Botts), its legal advisor, and Charter, acting through the independent directors and with the advice of Wachtell Lipton and Goldman Sachs continued to negotiate, without the involvement of A/N, the proposed governance and other terms of the potential combination with Bright House. During the negotiations over the scope and nature of Liberty Broadband's preemptive rights, on November 11, 2014, Liberty Broadband proposed to commit at the signing of the proposed combination to purchase not less than \$650 million of Charter Class A common stock at closing at a price of \$154.53 per share. On November 18, 2014, Mr. Zinterhofer, together with representatives of Goldman Sachs and Wachtell Lipton, met at Mr. Zinterhofer's offices in New York, New York with Gregory B. Maffei, President and Chief Executive Officer of Liberty Broadband and a director of Charter, and Liberty Broadband's advisors to discuss open issues in connection with the potential combination with Bright House, including the grant of preemptive rights allowing Liberty Broadband to maintain its percentage interest in Charter and provisions applying in the event of a change of control of Liberty Broadband. The following day, the independent directors of Charter met to receive an update on developments, discuss the potential combination and negotiations with Liberty Broadband and received a presentation from Goldman Sachs regarding the financial impact on Charter should it proceed with the transaction.

On November 21, 2014, Charter and Liberty Broadband agreed to continue pursuing the potential combination with Bright House on the basis of a revised version of the non-binding term sheet that, among other provisions, provided for pre-emptive rights enabling Liberty Broadband to maintain a 25.01% voting interest in Charter, at closing and in equity issuances thereafter, and for a 13-member board with three Liberty Broadband designees and three A/N designees for as long as each maintained a 20% voting or equity interest in Charter. Later that day, Charter sent the revised term sheet to A/N showing Liberty Broadband's changes since the October 21, 2014 draft. On the same day, counsel to Liberty Broadband sent a term sheet setting forth proposed terms for the Bright House Proxy to A/N's counsel.

On November 25, 2014, each of Mr. Zinterhofer and Dr. John C. Malone, Chairman of Liberty Broadband and a director of Charter, separately had telephone conversations with Mr. Miron to discuss the next steps for the potential combination with Bright House. Mr. Miron advised each of them that A/N was still considering the proposed changes to the term sheet that Charter and Liberty Broadband had negotiated since the October 21, 2014 draft.

On December 10, 2014, A/N sent Charter a one-page summary of threshold issues regarding the changes that had been made to the October 21, 2014 term sheet. A/N expressed a willingness to consider the Bright House Proxy for up to three years and also to consider a 13-member board with Mr. Rutledge as Chairman and certain additional consent rights for A/N and Liberty Broadband, and to continue negotiations on that basis. On December 17, 2014, after conversations between Dr. Malone and Mr. Miron, Mr. Zinterhofer and Mr. Rutledge met with Mr. Miron and other

representatives of A/N and Bright House to discuss the next steps for the potential

Table of Contents

combination. The following day, Charter sent Bright House a summary of certain material terms that were reflected on the October 21, 2014 version of the term sheet, revisions to those terms that had been discussed by Charter and A/N on December 17, 2014, and additional revisions that had been requested by Liberty Broadband. On December 19, 2014, Charter and its advisors met with Liberty Broadband and A/N and their respective financial and legal advisors at the offices of Wachtell Lipton to discuss outstanding issues and consider the next steps for the potential combination. The parties agreed to continue to work to resolve the outstanding issues in connection with the potential combination.

On January 9, 2015, Charter and its advisors met with A/N and its advisors to discuss the proposed Bright House Proxy and also the scope of the transfer restrictions to be imposed on Liberty Broadband following completion of the potential combination. On January 11, 2015, Charter and its advisors discussed these issues with Liberty Broadband and its advisors, and in particular A/N's concerns with potential hedging and pledging by Liberty Broadband of its shares of Charter. Wachtell Lipton sent a revised version of the term sheet to Baker Botts and to Sullivan & Cromwell thereafter.

On January 30, 2015, representatives of Charter and its advisors and representatives of A/N and its advisors met at the offices of Wachtell Lipton to discuss various logistical issues in connection with the potential combination, including the need to conduct mutual diligence by the parties prior to signing, the negotiation of long-form agreements and the preparation of pro forma financial statements that would be filed by Charter with the SEC shortly after signing.

Over the following week, representatives of Wachtell Lipton had several phone calls with representatives of Baker Botts and representatives of Sullivan & Cromwell and, on February 7, 2015, Wachtell Lipton sent a revised version of the term sheet to Baker Botts and Sullivan & Cromwell. On the same day, A/N granted access to Charter and its representatives to a virtual data room containing information about Bright House that had been requested by Charter. The parties exchanged mark-ups of the term sheet over the next several weeks. On February 20, 2015, Wachtell Lipton sent a draft of the BHN contribution agreement to Sullivan & Cromwell and, on February 28, 2015, Sullivan & Cromwell sent a mark-up of the draft BHN contribution agreement to Wachtell Lipton. Among other changes, the mark-up cut back substantially the representations and warranties that Charter had proposed that A/N provide regarding Bright House and its business and limited the scope of indemnification by A/N for breaches of those representations and warranties, and added a termination fee of \$400 million to be paid by Charter in the event of a termination of the BHN contribution agreement following a recommendation by Charter's board of directors against the combination, or if Charter's stockholders voted against the combination.

On March 1, 2015, Mr. Zinterhofer, Mr. Rutledge, and Mr. Maffei met with Mr. Miron in Utah and informed him that, given the recent rise in Charter's stock price, Charter would not be willing to proceed with the potential combination on the basis of a reference price of \$154.53 per share of Charter Class A common stock as the basis for valuing Charter equity-linked consideration, the price that previously had been the basis for discussions.

On March 5, 2015, Charter's board of directors met to discuss the potential combination, including a proposal for the acquisition of Bright House based on the 60-day volume weighted average price of Charter Class A common stock prior to signing as the basis for valuing Charter equity-linked consideration, and pointed out that this would incentivize A/N not to delay its response because the weighted average price would increase day-by-day for as long as Charter's stock price remained higher than \$154.53 per share. On March 11, 2015, Charter sent Bright House a revised draft of the term sheet proposing an acquisition of Bright House by Charter for consideration comprised of \$1.5 billion in cash (and the assumption of \$514 million in debt), \$2.5 billion value of convertible preferred units of Charter Holdings, common units of Charter Holdings that would be exchangeable into Charter Class A common stock valued at \$5.93 billion based on the 60-day weighted average price of Charter Class A common stock prior to public announcement of the transaction, and voting Class B common stock of Charter with no economic rights. The reference price per share for the Liberty Broadband investment, now to be an aggregate investment of \$700 million, in Charter

Class A common stock would be

140

Table of Contents

increased to the same 60-day weighted average price. On March 12, 2015, various news outlets reported that Charter and A/N were discussing the possibility of an acquisition of Bright House by Charter. Mr. Rutledge and Mr. Miron agreed to disregard, by making a corresponding adjustment to the 60-day weighted average price, the effects of those reports on Charter's stock price in determining the price used to value Charter equity-linked consideration to be received by A/N and the reference price for the Liberty Broadband investment.

After a number of phone calls among Wachtell Lipton, Sullivan & Cromwell and Sabin, Wachtell Lipton sent a revised draft of the contribution agreement to Sullivan & Cromwell on March 22, 2015 addressing, among other things, the circumstances under which A/N would be required to pay a termination fee in connection with TWC exercising the ROFO, adjustments for working capital and debt, and the scope of and limitations on indemnification provisions.

On March 24, 2015, the directors of Charter other than those designated by Liberty Broadband met to discuss the potential combination of Bright House and Charter. The directors agreed that Charter should continue to pursue the potential combination on substantially the terms proposed in the March 11, 2015 term sheet.

On March 25, 2015, Wachtell Lipton sent a draft of the BHN/Liberty stockholders agreement to Baker Botts and to Sullivan & Cromwell. On the same day, Sullivan & Cromwell sent a revised draft of the BHN contribution agreement to Wachtell Lipton. Over the next several days, Wachtell Lipton, Baker Botts and Sullivan & Cromwell exchanged drafts of the BHN/Liberty stockholders agreement and Wachtell Lipton and Sullivan & Cromwell exchanged drafts of the BHN contribution agreement, in each case reflecting the ongoing negotiations between the parties.

On March 30, 2015, a meeting of the full Charter board of directors was convened. The board first reviewed the strategic and financial benefits to Charter of the proposed transaction and the terms of the proposed agreements, including the provisions with respect to the required Charter stockholder vote, termination fees, and closing conditions (including FCC and other regulatory approvals, as well as the completion of Charter's pending transactions with Comcast). Representatives of LionTree then reviewed the analysis undertaken by LionTree of the proposed transaction. After a lengthy discussion of the benefits of the proposed transaction, the directors that had been designated by Liberty Broadband voted in favor of the proposed transaction and the resolutions that had been previously circulated, following which they and the representatives of LionTree, which had provided significant services to Liberty Media and Liberty Broadband in the past, then left the meeting. The Charter board of directors then reviewed the negotiations with Liberty Broadband and Bright House regarding the BHN/Liberty stockholders agreement, and the terms of the current draft of the agreement. Representatives of Goldman Sachs then presented an overview of the proposed transaction and their financial analysis of the proposed transaction. After further consideration and consultation with their advisors, all directors present determined that the BHN contribution agreement, the BHN/Liberty stockholders agreement, the contribution of Bright House to Charter and the other transactions contemplated by the BHN contribution agreement and the BHN/Liberty stockholders agreement were fair to and in the best interests of Charter's stockholders and approved and declared advisable the BHN contribution agreement, the BHN/Liberty stockholders agreement and the transactions contemplated by the BHN contribution agreement and the BHN/Liberty stockholders agreement.

The following day, Charter, A/N and certain of their subsidiaries executed and delivered the BHN contribution agreement pursuant to which A/N agreed to sell and contribute all of the membership interests in Bright House and any other assets (other than certain excluded assets and liabilities) primarily related to Bright House's business to Charter Holdings, and Charter, New Charter, A/N and Liberty Broadband executed and delivered the BHN/Liberty stockholders agreement, each dated as of March 31, 2015.

On March 31, 2015, A/N delivered to TWCE a letter (the ROFO Letter) (i) notifying TWCE that it had entered into the BHN contribution Agreement with Charter and (ii) requesting that, pursuant to the Partnership Agreement, TWCE provide written notice either accepting the offer to purchase Bright House on the terms described in the ROFO Letter, rejecting the offer to purchase Bright House or proposing a counter-offer, no later

Table of Contents

than May 13, 2015. Following receipt of the ROFO Letter, Mr. Marcus spoke with Mr. Miron to inform him of TWC's belief that the ROFO Letter did not satisfy the requirements of the Partnership Agreement; Mr. Miron disagreed with Mr. Marcus's position. From late April 2015 until mid-May 2015, Mr. Marcus and Mr. Miron spoke on several occasions about the terms and status of the transaction between A/N and Charter, and potential transactions that TWC was considering. During that period TWC and its advisors reviewed certain materials contained in the virtual data room concerning Bright House that had been made accessible to TWCE upon delivery of the ROFO Letter, and also engaged in discussions with A/N and its advisors regarding, among other things, the terms and status of the transaction between A/N and Charter.

Termination of Comcast-TWC Transaction

On April 17, 2015, Bloomberg and other press outlets reported that the FCC and the DOJ were considering issues of concern in connection with the pending Comcast-TWC merger, including concerns that the Comcast-TWC merger would present risks to competition and innovation given TWC's and Comcast's combined influence in the broadband and pay television businesses and in light of Comcast's ownership of major national programming networks, and reported that staff attorneys at the DOJ were nearing a recommendation that the DOJ should object to the proposed transaction. Representatives of TWC and Comcast met to discuss developments with respect to such reports.

A meeting of the TWC board of directors was held on April 20, 2015 to discuss the press reports and other recent regulatory developments. Representatives of Paul, Weiss, Rifkind, Wharton & Garrison LLP (Paul, Weiss), legal advisor to TWC, were present. The TWC board of directors and members of TWC senior management reviewed the options available to the DOJ and the FCC if they were, in fact, inclined to object to the Comcast-TWC merger, and management's contingency planning if the deal did not proceed. The TWC board of directors and members of TWC senior management then discussed strategic alternatives available to TWC if the Comcast-TWC merger could not be consummated, including continuing to operate as a standalone company or a possible alternative sale of TWC. The TWC board of directors also discussed a potential acquisition of Bright House pursuant to the ROFO Letter. At this same meeting, representatives from Paul, Weiss reviewed with the TWC board of directors its fiduciary duties in considering the recent regulatory developments and the potential strategic alternatives if regulatory approval could not be obtained.

On April 22, 2015, separate meetings were held between representatives of Comcast, TWC, and Charter, on the one hand, and the FCC on the other hand, and between Comcast, TWC and Charter, on the one hand, and the DOJ, on the other hand, during which members of the staffs of the FCC and DOJ expressed various concerns in relation to a combination of Comcast and TWC, including concerns that the Comcast-TWC merger would present risks to competition and innovation given TWC's and Comcast's combined influence in the broadband and pay television businesses and in light of Comcast's ownership of major national programming networks. At the meeting with the FCC, the staff informed the parties that it would recommend issuing a hearing designation order (an HDO) for the transaction, which would have subjected approval of the transaction to a hearing before an administrative law judge. Following briefings by their respective legal advisors, TWC and Comcast concluded that, as a practical matter, issuance of an HDO would make it unlikely that the required regulatory approvals for completion of the Comcast-TWC merger could be obtained because a hearing would have entailed an extremely long process with no guarantee of approval, which would have extended beyond the end date set forth in the Comcast-TWC merger agreement and which would have created a period of substantial uncertainty for both TWC and Comcast pending a decision.

The following day, a representative of Comcast informed TWC that Comcast had contacted representatives of the FCC to confirm whether any conditions or other remedies could be implemented to address the concerns raised by the FCC and that the FCC indicated to Comcast that it was unlikely that any conditions or other remedies would be

available to allay its concerns.

Between April 18, 2015 and April 24, 2015, Mr. Marcus and Mr. Roberts held several telephonic meetings to discuss the status of the regulatory process. On April 23, 2015, they agreed that, subject to the approval of

Table of Contents

their respective boards of directors, it was in the mutual best interest of TWC and Comcast to terminate the Comcast-TWC merger agreement.

On April 24, 2015, the TWC board of directors convened to discuss the most recent regulatory developments during the preceding days. Representatives of Paul, Weiss were present at the meeting. Mr. Marcus informed the TWC board of directors of the meetings held with the FCC and the DOJ and the view of TWC's senior management team that the FCC's planned issuance of an HDO would make it unlikely that the required regulatory approvals for completion of the Comcast-TWC merger could be obtained. Senior management of TWC also informed the TWC board of directors that, based on these developments, Comcast was prepared to agree with TWC to an early termination of the Comcast-TWC merger agreement, which would require both parties' consent. The TWC board of directors and members of its senior management again reviewed strategic alternatives available to TWC if the Comcast-TWC merger could not be consummated, including continuing to operate as a standalone entity, as well as potential strategic transactions. In that regard, members of TWC senior management noted that they had been engaging and discussing with TWC's outside financial and legal advisors in anticipation of a potential transaction opportunity with Charter and a potential transaction with A/N pursuant to the ROFO Letter or otherwise. The TWC board of directors asked questions and, following discussion, authorized management to move forward to effectuate an early termination of the Comcast-TWC merger agreement.

Following the TWC board of directors meeting on April 24, 2015, Comcast and TWC mutually agreed to terminate the Comcast-TWC merger agreement and issued a press release announcing such termination. That same day, Comcast and TWC delivered a notice of termination of the Comcast-TWC merger agreement to Charter and Comcast terminated the Divestiture Transactions with Charter.

Charter-TWC Transaction

Later on April 24, 2015, Mr. Rutledge spoke with Mr. Marcus regarding the termination of the Comcast-TWC merger agreement and expressed interest in engaging with TWC in discussions regarding a potential combination. Mr. Rutledge and Mr. Marcus agreed to meet to further discuss a potential transaction on May 5, 2015 in Chicago, where they would both be attending the annual Internet and Television Expo. Following the call between Mr. Rutledge and Mr. Marcus, at the request of TWC and Charter, TWC's and Charter's respective financial advisors discussed potential process considerations. Mr. Zinterhofer and Dr. Malone separately spoke with Mr. Marcus about this possibility as well.

Also on April 24, 2015, Mr. Marcus spoke with Mr. Miron to inform him that TWCE would be sending A/N a letter in due course to reiterate TWC's belief that the ROFO Letter delivered by A/N did not satisfy the requirements of the Partnership Agreement.

As a result of the termination of the Comcast-TWC merger agreement, pursuant to the BHN contribution agreement and BHN/Liberty stockholders agreement as then in effect, Charter, A/N and Liberty Broadband became obligated to negotiate in good faith potential amendments to those agreements for at least 30 days. On April 24, 2015, Mr. Rutledge spoke with Mr. Maffei and noted Charter's possible interest in pursuing a strategic transaction with TWC, and Mr. Maffei expressed general support for Charter pursuing a transaction with TWC and for continuing discussions with Bright House. Mr. Maffei also noted Liberty Broadband's interest in making a significant additional investment in Charter, including by exchanging its TWC shares for Charter shares, and that Liberty Interactive might consider engaging in a similar transaction, in light of Charter's potential financing needs and Liberty Broadband's desire to maintain its percentage equity interest in Charter, assuming such exchange could occur on a tax-free basis. Charter also began discussions with debt financing sources regarding the financing for any potential transaction.

On April 28, 2015, Charter's board of directors met to discuss potential strategic alternatives in light of the termination of the Comcast-TWC merger agreement, including a potential acquisition of TWC and potentially recommitting to the Bright House transactions. On April 29, 2015, Mr. Rutledge spoke with Mr. Miron who expressed his general support for continuing the Bright House transaction in connection with a Charter merger with TWC.

Table of Contents

In early May 2015, Morgan Stanley & Co. LLC (Morgan Stanley) and Citigroup Global Markets Inc. (Citi), two of TWC's financial advisors (which had been retained in May 2013 and June 2013, respectively, to provide TWC with general financial advice and to assist TWC in considering and responding to Charter's overtures), each informed TWC that they had received a phone call from a representative of a European-based multinational cable and telecommunications company (Company A) indicating that it had an interest in acquiring TWC. Arthur T. Minson, then Chief Financial Officer of TWC, indicated to Morgan Stanley and Citi that Company A should contact TWC directly with its interest.

On May 4, 2015, Charter's board of directors met to review further operational and financial analyses regarding a potential acquisition of TWC and the continuation of the combination with BHN. In addition to reviewing the overall benefits and considerations of these transactions both together and separately, the Charter board of directors considered the ability of Charter to proceed with a TWC transaction either with or without consummation of the Bright House transaction or further equity investment by Liberty Broadband, as well as the financial benefits and considerations of continuing with the Bright House transaction in light of a TWC transaction and the reasons for the board's prior approval of the BHN transactions. Following discussion, the Charter board of directors authorized Charter's management to make an offer to acquire TWC for an implied nominal value of approximately \$172.50 per TWC share based on Charter's share price as of May 4, 2015, consisting of \$100 in cash and 0.387 Charter shares per TWC share, and, separately, reaffirmed the willingness of Charter's board of directors to complete the Bright House transaction on substantially the same economic and governance terms as previously agreed.

On May 5, 2015, Mr. Rutledge and Christopher L. Winfrey, Executive Vice President and Chief Financial Officer of Charter, met with Mr. Marcus and Mr. Minson to discuss pursuing a potential merger. During that discussion, the participants discussed various aspects of a transaction, including regulatory issues and relative valuations of the two companies, and Mr. Rutledge and Mr. Winfrey presented the offer approved by Charter's board of directors on the previous day. Mr. Marcus gave his view that the offer undervalued TWC and that a substantially higher offer would be required in order for Mr. Marcus to recommend a proposal to the TWC board of directors. Mr. Marcus indicated that he would inform the TWC board of directors of Charter's offer, and that he would provide Mr. Rutledge and Mr. Winfrey with guidance as to the value at which TWC might be willing to proceed with a transaction.

That same day, the Chief Executive Officer of Company A (Company A CEO) called Mr. Minson to express Company A's strong interest in exploring a possible transaction with TWC. During that conversation, Mr. Minson and Company A engaged in preliminary discussions regarding the contemplated price that Company A intended to offer to TWC, which Company A CEO specified would be higher than the prices that the press and analysts were speculating that Charter would offer. On May 7, 2015, a representative of Company A CEO contacted Mr. Zinterhofer to inform him that Company A was interested in an acquisition of TWC.

On May 8, 2015, Mr. Minson spoke again with Company A CEO about a potential transaction with TWC. As part of that conversation, Company A CEO indicated that Company A was prepared to consider a potential price per share of TWC within a range of approximately \$180 per share to approximately \$200 per share.

Also on May 8, 2015, a telephonic meeting of the TWC board of directors was convened, at which senior management of TWC updated the TWC board of directors on the May 5, 2015 meeting with Charter, including the proposal made by Charter at such meeting and TWC senior management's view that the proposal undervalued TWC. TWC senior management also informed the TWC board of directors that Company A had emerged as a potential acquirer of TWC. The TWC board of directors also discussed continuing to operate as a standalone company. Finally, the TWC board of directors considered a potential transaction with A/N regarding Bright House, either by responding to the ROFO Letter or otherwise, and either alone or in conjunction with other possible strategic alternatives.

On May 10, 2015, TWC and Company A entered into a mutual non-disclosure and standstill agreement (the Company A NDA).

Table of Contents

On May 10, 2015, Mr. Marcus and Company A's chairman and controlling shareholder (Company A Chairman) discussed by telephone Company A's interest in exploring a potential transaction with TWC. Company A Chairman expressed a strong interest in acquiring TWC and indicated a high degree of confidence in Company A's ability to secure financing and move quickly.

A meeting of the TWC board of directors was held on May 11, 2015. Representatives of Paul, Weiss, Skadden, Arps, Slate, Meagher & Flom (Skadden), legal advisors to the TWC independent directors, Morgan Stanley, Citi and Allen & Company LLC (Allen & Company), financial advisors to TWC (which had been retained in April 2013 to provide TWC with general financial advice and to assist TWC in considering and responding to Charter's overtures), and Centerview Partners LLC (Centerview), financial advisor to the TWC independent directors, were present. In early January 2014, the TWC independent directors determined to retain Skadden and Centerview as additional legal and financial advisors, respectively, based on their view that it would be helpful to receive the separate advice of their own advisors and that it would be good practice to do so. TWC's independent directors are all of the TWC directors other than Mr. Marcus. Centerview was retained to provide the TWC independent directors with general financial advice and to assist the TWC independent directors in connection with their consideration of potential strategic transactions. The TWC board of directors, members of TWC senior management, and TWC's legal and financial advisors discussed recent developments and reviewed management's analysis of four possible courses of action available to TWC: (1) pursuing a transaction with Company A; (2) pursuing a transaction with Charter; (3) responding to the ROFO Letter or otherwise pursuing a transaction with A/N regarding Bright House (either alone or potentially in conjunction with a transaction with either Company A or Charter); and (4) continuing to operate as a standalone company. At this meeting, the TWC board of directors also discussed Morgan Stanley's other engagements on behalf of Company A. After discussion, the TWC board of directors concluded that, given the important role of Morgan Stanley on behalf of TWC since Charter first approached TWC in 2013, and because the Morgan Stanley team involved in the Company A engagements was separate from the team working for TWC, the benefits of Morgan Stanley continuing as a financial advisor to TWC outweighed any actual or perceived conflicts arising from such engagements.

On May 11, 2015, Company A CEO contacted Mr. Minson via electronic mail. Company A CEO emphasized to Mr. Minson that Company A was very serious about pursuing a transaction and was engaging with potential debt financing sources that would provide Company A with all of the financing required for such a transaction on an expedited timeline. That same day, Mr. Marcus and Mr. Minson also met with Company A CEO and discussed, among other things, potential deal structure and terms related to deal certainty. During the meeting, Company A CEO indicated that Company A would be willing to assume responsibility for all regulatory and financing risks in connection with a transaction.

Additionally, on May 11, 2015, TWCE sent a notice to A/N's legal advisors stating its belief, as previously communicated by Mr. Marcus to Mr. Miron, that the ROFO Letter was not a valid Offer Notice as it did not satisfy the requirements for an Offer Notice as set forth in the Partnership Agreement, and, as a result, no action was required of TWCE at that time with respect to the Bright House transaction.

On May 12, 2015, senior management of TWC and Company A, together with representatives of TWC's and Company A's respective advisors, met at the offices of Paul, Weiss to conduct a due diligence review of the business and operations of TWC. Representatives of Company A's potential debt financing sources also attended the meetings. On the morning of May 13, 2015, representatives of senior management of TWC and Company A and representatives of their respective legal advisors met at the offices of Paul, Weiss to discuss certain legal and regulatory considerations in connection with a potential transaction, including regulatory hurdles that would be uniquely attributable to a foreign buyer.

Also on May 13, 2015, Mr. Marcus received a call from Mr. Zinterhofer, indicating that Charter was aware of Company A's interest in acquiring TWC. Mr. Zinterhofer encouraged TWC to begin promptly negotiating a transaction with Charter, and Mr. Marcus informed Mr. Zinterhofer that Charter should put its best foot forward if it

Table of Contents

wanted to pursue a transaction with TWC. Representatives of TWC continued to have discussions with representatives of Company A regarding the potential transaction and TWC impressed upon Company A the competitive nature of the process and the need to present a concrete and actionable proposal for TWC to consider.

Later that day, a telephonic meeting of the TWC board of directors was convened, with representatives of Paul, Weiss, Skadden, Allen & Company, Centerview, Citi and Morgan Stanley in attendance. At the meeting, TWC senior management provided the TWC board of directors with an update regarding the discussions with Company A, including with respect to the legal and regulatory considerations, such as the additional regulatory approval that may be required for a transaction with a non-U.S. buyer. TWC senior management also discussed with the TWC board the regulatory approvals that would be required in connection with a Charter transaction. Mr. Marcus also discussed the operational implications of pursuing each of the potential paths (a transaction with Company A, a transaction with Charter or continuing to operate as a standalone company). The independent members of the TWC board of directors then met separately with representatives of Skadden to discuss the proposed transaction with Company A and other alternatives potentially available to TWC. The TWC board of directors agreed with TWC senior management's recommendation that TWC continue to engage in discussions with both Charter and Company A, including encouraging Charter to make another, more favorable proposal in light of the fact that there were now multiple bidders for TWC.

Additionally on May 13, 2015, TWCE received a letter from the legal advisors to A/N, stating that A/N disagreed with each of the assertions stated in the notice delivered by TWCE on May 11, 2015, and that it believed the ROFO Letter constituted a valid notice pursuant to the terms of the Partnership Agreement.

On May 14, 2015, members of senior management of Company A met with members of senior management of TWC at the offices of Paul, Weiss to discuss Company A's proposed terms for a transaction. At that meeting, Company A indicated that, in a potential acquisition of TWC, it would be willing to pay approximately 75%-85% of the consideration in cash, the majority of which would be funded through incremental leverage at TWC, and the remainder of which would be funded through private equity participation or a rights offering. The remaining 15-25% of the purchase price would be payable in the form of Company A shares delivered to TWC stockholders. Company A also indicated to TWC that it believed it could obtain significant synergies in an acquisition of TWC, that it was confident it could deliver an attractive proposal on the timetable outlined by TWC and its advisors, and that it would have fully committed financing in place prior to entering into an agreement with respect to a potential transaction. Representatives of Company A's financial advisors, a leading investment bank, also attended the meeting and stated that the bank was prepared to commit to the financing of a potential acquisition of TWC by Company A. At that meeting, Company A also indicated that it would not make a formal proposal to acquire TWC until Company A Chairman met in person with Mr. Marcus, which was scheduled to occur on May 20, 2015. In the interest of making progress on a potential transaction pending that meeting, Mr. Minson suggested to Company A that Paul, Weiss would send a draft merger agreement with TWC's proposed terms to Company A's legal advisors the next day. Company A agreed with that suggestion and agreed to respond to the draft merger agreement expeditiously.

Later that day, Company A CEO contacted Mr. Minson by telephone to further discuss Company A's forthcoming bid and the upcoming meeting between Mr. Marcus and Company A Chairman. Members of TWC's senior management also met with three additional banks identified by Company A as potential lenders in connection with a transaction between Company A and TWC. All of the banks confirmed they were prepared to finance such a transaction and would be willing to bridge the cash portion of Company A's bid, including any equity financing, if it were unable to obtain equity commitments in a timely manner. Company A CEO requested a waiver of the provision of the Company A NDA that restricted Company A from sharing information with potential equity financing sources so that Company A could contact specified potential co-investors. TWC provided the waiver to permit Company A to discuss the potential transaction with four private equity firms.

On May 15, 2015, Paul, Weiss delivered an initial draft of a proposed merger agreement to Company A's legal advisors. That same day, as previously authorized by the TWC board of directors, TWC's financial advisors

Table of Contents

contacted Charter's financial advisors to indicate that an alternative transaction was progressing rapidly, encouraged Charter to resubmit a revised offer at a higher price by May 18, 2015 and suggested that a failure to act quickly could result in Charter's loss of an opportunity for a transaction with TWC.

Later that day, Mr. Rutledge called Mr. Miron to request that Bright House publicly announce its willingness to proceed with a transaction with Charter and to deliver a letter to that effect in connection with Charter's revised offer to TWC. Over the course of the following three days, Charter and Bright House, together with their advisors, exchanged and discussed drafts of these proposed communications and discussed potential amendments to the terms of the BHN contribution agreement.

Also on May 15, 2015, Mr. Winfrey contacted Mr. Minson to discuss matters with respect to programming, the tax structure of a potential transaction between Charter and TWC and rating agency considerations.

On May 16, 2015, representatives of Charter and TWC communicated regarding the potential exchange of due diligence information between TWC and Charter. Later that day, Paul, Weiss delivered a draft non-disclosure agreement to Wachtell Lipton.

On May 16, 2015, members of Charter management had a call with members of Liberty Broadband management, including Mr. Maffei, to discuss the potential terms on which Liberty Broadband was interested in making an additional investment in Charter shares to partially finance the cash portion of the consideration to be paid to TWC stockholders and the terms on which Liberty Broadband would consider exchanging TWC shares for Charter shares. Charter also requested that Liberty Broadband provide a support letter to be delivered with Charter's proposal to TWC, reflecting its willingness to make such investment and exchange. Liberty Broadband indicated that Liberty Interactive might be interested in exchanging its shares of TWC stock for shares of Charter stock on the same terms as Liberty Broadband instead of receiving cash and stock consideration. If accomplished these actions would have the effect of further reducing Charter's financing needs. Charter communicated to its debt financing sources the latest developments and continued negotiations regarding debt financing commitments in connection with the transactions.

Also on May 16, 2015, representatives of TWC and Company A, including TWC's and Company A's respective advisors, held a due diligence call. On May 17, 2015, representatives of Company A's legal advisors and representatives of Paul, Weiss discussed the terms of the draft merger agreement.

On May 17, 2015, Mr. Maffei advised Charter that, subject to board approval, in connection with an acquisition of TWC, Liberty Broadband was prepared to invest up to \$4.5 billion at the Charter reference price for the Bright House transaction, approximately \$173 per share. Later that day, the independent directors of Charter's board of directors met to receive an update from Mr. Zinterhofer and Wachtell Lipton regarding the Liberty Broadband investment, including the ongoing discussions regarding the aggregate amount of the investment and the per share price. Discussions continued over the next day as to the pricing and other terms of this investment and, on May 18, 2015, Liberty Broadband delivered a support letter to Charter stating its willingness to invest additional funds to acquire Charter stock without reference to a per share price.

On May 18, 2015, Charter's board of directors met with Charter management and Charter's financial and legal advisors to discuss the submission of a revised offer to TWC. The Charter board of directors reviewed financial and other analyses prepared by Charter's management and financial advisors regarding multiple potential scenarios, including with and without an acquisition of Bright House and/or additional investment by Liberty Broadband. The Charter board of directors also considered the potential terms of a TWC acquisition, including the ability of either party to consider an alternative transaction or otherwise change its board's recommendation to stockholders, as well as risks relating to Charter's commitments to obtain regulatory approvals and the possible payment of a termination fee if

certain regulatory approvals were not obtained. Following discussion, the Charter board of directors authorized Charter management to offer to acquire TWC for an implied nominal value of \$190 per TWC share based on the then-prevailing 60-day volume-weighted average

Table of Contents

price of Charter Class A common stock, consisting of \$100 in cash and 0.485 shares of Charter Class A common stock per share of TWC common stock. The directors designated by Liberty Broadband and LionTree then left the meeting, and the remaining directors of Charter, together with Goldman Sachs and Wachtell Lipton, discussed the potential Liberty Broadband investment and appropriate valuation for that investment, and the terms, including with respect to corporate governance, of the Bright House transaction.

Following this meeting, Charter and Bright House jointly announced in a press release that they remained committed to completing their transaction on the same economic and governance terms and that they had extended their good faith negotiating period for an additional 30 days. In addition, Charter delivered to TWC a revised offer on the terms approved by the Charter board of directors, together with the letter of support from Bright House reaffirming its willingness to proceed with a transaction and a letter of support from Liberty Broadband confirming its willingness to invest approximately \$5.0 billion in connection with a transaction.

On May 18, 2015, representatives of TWC and Company A, together with TWC's and Charter's respective advisors, continued to engage in due diligence and reverse due diligence reviews and exchanged selected financial, technical accounting, legal and other business information.

On May 18, 2015, Mr. Minson spoke with Company A CEO and informed him that TWC had received a revised proposal from Charter and that, as a result, Company A should plan to provide TWC with a written proposal so that the TWC board of directors could consider both bids at its next board of directors' meeting, scheduled for May 21, 2015. Representatives of TWC further informed Company A that the TWC board of directors would make a decision with respect to the proposals received at such meeting. Company A CEO responded that TWC would receive a bid from Company A on the evening of May 20, 2015, after the meeting with Company A Chairman.

On May 19, 2015, the TWC board of directors met telephonically, with representatives of Paul, Weiss, Skadden, Allen & Company, Centerview, Citi and Morgan Stanley in attendance, to review recent developments and to discuss the potential transactions with Company A and Charter. At the meeting, representatives of Paul, Weiss reviewed with the TWC board of directors its fiduciary duties under Delaware law, including and specifically in connection with an analysis of competing bids. In anticipation of evaluating competing proposals from Company A and Charter at its May 21, 2015 meeting, the TWC board of directors, TWC's senior management, and their advisors discussed the issues for consideration in the two potential transactions, including the regulatory approvals that would be required in connection with either deal and an additional regulatory approval that would be required in a transaction with Company A as a result of it being a non-U.S. Company, reviewed certain financial and operational analyses, and discussed the strategic rationale of each proposed transaction, including potential synergies. The independent members of the TWC board of directors then met separately with representatives of Skadden and Centerview to discuss the proposed transactions with Company A and Charter. The TWC board of directors instructed management and TWC's advisors to continue discussions with Charter and Company A on a potential transaction to acquire TWC.

Also on May 19, 2015, as previously authorized by the TWC board of directors, TWC's financial advisors called Charter's financial advisors to provide initial feedback on the Charter proposal. In particular, the TWC advisors indicated that Charter's offer was being evaluated based on Charter's spot price rather than its volume-weighted average price over a longer period, and identified the level of Charter's commitments to obtain regulatory approvals and size of the regulatory termination fee as areas for improvement in Charter's proposal. That same day, Mr. Minson discussed with Mr. Winfrey TWC's expectation that Charter would increase the value of its offer in its revised proposal. In addition, the independent directors of Charter met telephonically, together with Wachtell Lipton, to discuss the feedback from TWC and the ongoing negotiations with Liberty Broadband regarding the per share price at which Liberty Broadband would invest.

On May 20, 2015, Company A Chairman and Company A CEO met with Mr. Marcus and Mr. Minson. The attendees discussed various aspects of a potential transaction. The Company A representatives did not make a

Table of Contents

formal proposal at that meeting, but Company A Chairman indicated that he anticipated submitting a proposal prior to TWC's board of directors meeting scheduled for the next morning and that he was confident that TWC would find such proposal attractive.

Also on May 20, 2015, representatives of TWC and Paul, Weiss held a reverse due diligence call with the General Counsel of Company A and its outside legal advisors.

On May 20 and May 21, 2015, representatives of Charter, including Mr. Rutledge, Mr. Zinterhofer and Goldman Sachs, had several discussions with Mr. Maffei regarding the pricing of the Liberty Broadband investment. On May 20, 2015, Wachtell Lipton began discussions with Baker Botts regarding documentation of both the Liberty Broadband investment and an agreement for Liberty Broadband and Liberty Interactive to exchange their TWC shares for Charter shares, and exchanged drafts of the revised support letter from Liberty Broadband which included a support letter from Liberty Interactive to Liberty Broadband. Charter and Liberty Broadband eventually agreed that Liberty Broadband's \$700 million investment provided for in the original BHN contribution agreement would remain at the approximately \$173 per share price specified in those agreements, while Liberty Broadband's additional investment, which was to be for \$4.3 billion, would be priced at a recent market price, on which the TWC transaction value was also based.

Late in the day on May 20, 2015, Company A's financial advisors contacted representatives of TWC to inform them that Company A would not submit a formal offer at that time. On the morning of May 21, 2015, Company A CEO contacted Mr. Minson and informed him that Company A would not be able to make an offer on the timetable that TWC had specified.

On May 21, 2015, Charter's board of directors met to discuss potential amendments to its offer, including the views of management and its financial advisors and updated financial analyses of a TWC offer at various price points and with or without consummation of the Bright House transaction. In particular, Charter's board considered the possibility of increasing the cash component of the offered consideration and considered the additional financing provided by Liberty Broadband's proposed investment, and further considered a cash election mechanism in order to improve overall value to TWC stockholders by providing a choice as to the form of a portion of the consideration and reducing the exposure of TWC stockholders to a decline in the value of Charter's stock. Following discussion, the Charter board of directors authorized increasing the offer for TWC to an implied nominal value of \$195.71 per TWC share based on the closing price of Charter stock on May 20, 2015, or approximate implied nominal value of \$200 per TWC share based on the then-prevailing 60-day volume-weighted average price of Charter Class A common stock, consisting of an election for each TWC stockholder to receive either \$100 or \$115 in cash, and either 0.5409 Charter shares per TWC share or 0.4562 Charter shares per TWC share, respectively. The Charter board of directors also discussed a regulatory efforts covenant that would require Charter to accept conditions imposed by regulatory authorities as long as such conditions did not result in a material adverse effect on the combined company and increasing the regulatory termination fee for failure to receive federal regulatory approvals to \$2 billion (from Charter's previous offer of \$1 billion) in certain circumstances. Following the meeting, Mr. Rutledge called Mr. Marcus to present a revised offer reflecting these revised terms. Following that conversation, Mr. Rutledge sent Mr. Marcus a written offer reflecting the terms discussed, along with a draft merger agreement.

On May 21, 2015, a meeting of the TWC board of directors was held. Representatives of Paul, Weiss, Skadden, Allen & Company, Centerview, Citi, Morgan Stanley, and Latham & Watkins LLP, FCC Counsel to TWC, were present at the meeting. The TWC board of directors was informed that Company A had determined not to submit a proposal at that time. The TWC board of directors and members of TWC senior management discussed the proposal put forward by Charter on May 21, 2015, including its structure, price and other terms and conditions. Paul, Weiss also described to the TWC board of directors certain key terms that were either in the proposal or would need to be

negotiated, including Charter's proposed standard with respect to obtaining regulatory approvals and terms related to deal certainty, the \$2 billion reverse termination fee for failure to obtain certain regulatory approvals, Charter's right to terminate the proposed agreement only if conditions sought by regulators would have a material adverse effect on the combined company and required approvals by Charter's stockholders. Also discussed was TWC's

Table of Contents

ability to enter into a superior proposal under certain circumstances. During the meeting, each of Allen & Company, Centerview, Citi and Morgan Stanley indicated that it expected to be in a position to render to the TWC board an opinion, subject to customary assumptions and qualifications, regarding the consideration payable in the proposed transaction. Following discussion, the TWC board of directors authorized management to negotiate definitive documents with Charter and requested that TWC's management schedule a follow-up meeting of the TWC board of directors at which the definitive draft documents could be reviewed and considered for approval. Following the TWC board of directors meeting, Mr. Marcus called Mr. Rutledge to inform him that TWC was authorized to proceed on the basis of Charter's May 21 proposal, subject to resolving the then-open issues, and they discussed the process for completing the proposed transaction. Mr. Marcus and Mr. Rutledge had various conversations with respect to specific terms of the transaction from May 21, 2015 leading up to signing the merger agreement on May 23, 2015.

While the TWC board of directors meeting was proceeding, at the request of the board, TWC's financial advisors called Charter's financial advisors to clarify certain terms of Charter's proposal, including matters related to deal certainty, and also to discuss issues regarding the ability of the parties to consider alternative proposals and change the recommendations of their respective boards of directors to their stockholders. Following the meeting, Paul Weiss called Wachtell Lipton to discuss the draft merger agreement. On May 22, 2015, Paul Weiss sent Wachtell Lipton a revised draft merger agreement, and from that point forward the parties began to continuously exchange and discuss drafts of the merger agreement, primarily with respect to the level of commitments that Charter would undertake to obtain regulatory approvals, circumstances in which the regulatory termination fee would be payable, the rights of the parties with respect to the Bright House ROFO, the ability of the parties to consider alternative proposals and change the recommendations of their respective boards of directors to their stockholders, and the mechanics of the election that TWC holders would have in respect of the merger consideration. Also on May 21 and 22, 2015, TWC and Charter finalized the terms of and entered into a mutual non-disclosure agreement, and representatives of TWC and Charter, together with TWC's and Charter's respective advisors, engaged in due diligence sessions and rating agency calls. Additionally, from May 22, 2015 to May 23, 2015, TWC and Liberty Broadband, together with their respective legal advisors, exchanged drafts and negotiated the terms of the voting agreement.

Charter also began continuous negotiations with Liberty Broadband, Liberty Interactive and with Bright House regarding the Liberty agreements and the Bright House agreements, including with respect to adjusting the number of board seats A/N could designate and the percentage ownership thresholds at which A/N would lose board designation and other governance rights, in each case in light of the new pro forma ownership percentages that A/N would have in the combined entity assuming the consummation of the TWC transactions, the elimination of supermajority approval requirements for certain business combinations with interested stockholders from Charter's certificate of incorporation and the circumstances under which A/N would be committed to sell Bright House to Charter in the absence of a Charter and TWC merger. Charter also finalized its negotiations with respect to debt financing commitments during this period.

Also on May 23, 2015, the compensation committee of the TWC board of directors convened telephonically to discuss certain steps that TWC could take to foster operational stability and encourage retention of employees following the signing of a potential Charter merger agreement and to create incentives for employees to continue working toward TWC's operating goals during the pendency of such a merger. At that meeting, the compensation committee authorized TWC senior management to take such steps.

After the meeting of the compensation committee on May 23, 2015, the TWC board of directors met telephonically and TWC's senior management, representatives of Paul, Weiss, Skadden, Allen & Company, Centerview, Citi and Morgan Stanley met in person at the offices of Paul, Weiss to review the proposed transaction with Charter, related financial and operating analysis, and the most recent draft merger agreement and the terms thereof. Prior to the meeting, members of the TWC board of directors received copies of materials prepared by Allen & Company,

Centerview, Citi, Morgan Stanley and Paul, Weiss, including a draft of the proposed merger agreement between Charter and TWC.

Table of Contents

At that meeting, representatives of Paul, Weiss provided a detailed overview of the TWC board of directors' fiduciary duties and legal standards applicable to its decisions and actions with respect to its evaluation of the proposed transaction and reviewed the terms of the draft merger agreement and related documents, including, among others, non-solicitation provisions, board recommendation provisions, covenants, closing conditions, termination rights and termination fees. Representatives from Paul, Weiss also provided a detailed overview to the TWC board of directors of the provisions included in the draft merger agreement relating to the regulatory approvals that would be required in connection with the deal, including a provision that requires Charter to pay TWC a \$2 billion reverse termination fee, in certain circumstances, if the parties failed to obtain the required DOJ or FCC approvals, or a \$1 billion reverse termination fee, in certain circumstances, if the parties failed to obtain certain other required regulatory approvals. Representatives of Paul, Weiss reviewed, and the TWC board of directors then discussed, the compensation arrangements to be implemented in connection with the merger, which had previously been developed and approved by the compensation committee of the TWC board of directors. The TWC board of directors, TWC's senior management, and their advisors again discussed the strategic rationale of the proposed transaction with Charter and the terms of the draft merger agreement, including the ability of the TWC board of directors to change its recommendation following receipt of a superior proposal and, only following the TWC stockholders voting against the deal, to terminate the agreement to accept a superior proposal.

Additionally, Allen & Company, Citi and Morgan Stanley reviewed with the TWC board of directors their joint financial analysis of the merger consideration, and each separately delivered to the TWC board of directors an oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of such date and based on and subject to various assumptions made, procedures followed, matters considered and limitations on the review undertaken, the merger consideration to be received by holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders. In the course of the meeting, the TWC independent directors met in an executive session with representatives of Skadden and Centerview, during which, among other things, Skadden reviewed and discussed various matters with the TWC independent directors, and Centerview reviewed with the TWC independent directors its separate financial analysis of the merger consideration provided for in the transaction. During the meeting, Centerview also delivered an oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of such date and based on and subject to various assumptions made, procedures followed, matters considered and limitations on the review undertaken, the merger consideration to be paid to holders of TWC common stock (other than holders of excluded shares, as defined in such opinion) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

After consideration and consultation with its advisors, including consideration of the factors described below under the section "TWC's Reasons for the Merger; Recommendation of the TWC Board of Directors," the TWC board of directors members present unanimously determined that the proposed merger agreement, the mergers and the other transactions contemplated by the merger agreement are fair to and in the best interests of TWC's stockholders and unanimously approved and declared advisable the merger agreement, the mergers and the other transactions contemplated by the merger agreement. The TWC board of directors also directed that the proposed merger agreement be submitted to the TWC stockholders for consideration and recommended that TWC stockholders adopt the merger agreement. At that meeting, the TWC board of directors also ratified the compensation arrangements and other employment-related matters to be implemented in connection with the mergers, as described above, which arrangements had previously been developed and approved by the compensation committee of the TWC board of directors.

Also on May 23, 2015, Charter's board of directors met on two occasions to receive an update on the status of negotiations and subsequently to consider the entirety of the transactions as negotiated. Charter's board of directors first reviewed the strategic and financial benefits to Charter of the proposed transactions and the terms of the proposed

transactions and financing for the proposed transactions. Representatives of LionTree then reviewed the analysis undertaken by LionTree of the proposed transactions. LionTree also delivered to the Charter board its oral opinion as to the fairness, from a financial point of view, as of such date, to Charter of

Table of Contents

(i) the merger consideration to be paid to the holders of TWC common stock (excluding certain holders as provided in the opinion) pursuant to the merger agreement, and (ii) the BHN consideration to be paid to A/N for the assets to be acquired pursuant to the BHN contribution agreement, in each case, based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion, as more fully described below under the caption **Opinions of Charter's Financial Advisors' Opinion of LionTree Advisors LLC Rendered in Connection with the TWC Transactions** and **Opinions of Charter's Financial Advisors' Opinion of LionTree Advisors LLC Rendered in Connection with the BHN Transactions** and attached as Annex J and Annex K to this joint proxy statement/prospectus. After discussion and consideration and consultation with Charter's advisors, including consideration of the factors described under the section **Charter's Reasons for the Transactions** below in this joint proxy statement/prospectus, the Liberty Broadband-designated directors unanimously voted in favor of determining that the transactions were fair to and in the best interests of Charter's stockholders and approving and declaring advisable these agreements and the transactions contemplated thereby, and then left the meeting together with LionTree. The remaining directors then reviewed the negotiations with Liberty Broadband, Liberty Interactive and Bright House regarding the Liberty agreements and Bright House agreements, and the terms of those agreements, including the risks to Charter and the overall transaction financing if Liberty Broadband were to fail to consummate its new investments in Charter. Representatives of Goldman Sachs then presented an overview of the proposed transactions and their financial analysis of the proposed transactions, and presented its oral opinions as to fairness, as more fully described below under the captions **Opinions of Charter's Financial Advisors' Opinion of Goldman Sachs & Co. Rendered in Connection with the TWC Transactions** and **Opinions of Charter's Financial Advisors' Opinion of Goldman Sachs & Co. Rendered in Connection with the BHN Transactions** and attached as Annex H and Annex I to this joint proxy statement/prospectus. After further consideration and consultation with their advisors, including consideration of the factors described under the section **Charter's Reasons for the Mergers and Other Transactions; Recommendation of the Charter Board of Directors** below in this joint proxy statement/prospectus, the remaining directors unanimously determined that the merger agreement, the amendment to the BHN contribution agreement, the BHN/Liberty stockholders agreement, the Liberty investment agreement and the Liberty contribution agreement and the transactions contemplated thereby were fair to and in the best interests of Charter's stockholders and approved and declared advisable these agreements and the transactions contemplated thereby.

Following final negotiations, the parties executed and delivered the merger agreement, an updated mutual non-disclosure agreement between TWC and Charter, the amendment to the BHN contribution agreement, the BHN/Liberty stockholders agreement, the voting agreement, the Liberty investment agreement and the Liberty contribution agreement. Charter, TWC and Bright House jointly announced the transactions on the morning of May 26, 2015.

TWC's Reasons for the Mergers; Recommendation of the TWC Board of Directors

In evaluating the merger agreement and the mergers, the TWC board of directors consulted with TWC's management and legal and financial advisors and, in reaching its decision at its meeting on May 23, 2015 to approve the merger agreement and the transactions contemplated by the merger agreement and to recommend that TWC's stockholders vote **FOR** the approval of the adoption of the merger agreement, the TWC board of directors considered a variety of factors in respect of the mergers, including the following (not necessarily in order of relative importance):

the knowledge of the board of directors of TWC's business, operations, management, financial condition, earnings and prospects and of Charter's business, operations, management, financial condition, earnings and prospects;

the results of TWC management's due diligence investigation of Charter, and the business practices and experience of Charter and its management;

the strategic commercial advantages of a combination with Charter compared to TWC continuing as a stand-alone company;

Table of Contents

the capabilities of the combined company providing increased scale, a strong financial base and a more diversified services portfolio necessary to increase stockholder value, enhance value to the customers and increase cost savings and other significant operating efficiencies and economies of scale, such as:

combining TWC's recent operating momentum with Charter's track record of growth;

the increased scale of the combined company and the expected result of enhancing sales, marketing and branding power; and

enlarged footprint providing more opportunities to compete in the medium-to-large business-to-business space;

the fact that the implied value of the merger consideration, based on the closing price of Charter common stock on May 20, 2015, which on such date had an implied nominal value of over \$195.71 per share of TWC common stock (based on merger consideration of \$100 per share in cash and 0.5409 of a share of Charter Class A common stock), represented an approximately 9.3x estimated forward multiple of adjusted operating income before depreciation and amortization, which is referred to in this joint proxy statement/prospectus as adjusted OIBDA, for TWC;

that the merger consideration represents a significant premium to TWC's stockholders and is higher than the value of the merger consideration that TWC's stockholders would have received in the Comcast transaction, which was an implied value equal to approximately \$158.82 per share of TWC common stock at the time of the announcement of the TWC-Comcast merger agreement;

the historical trading prices of TWC common stock and Charter Class A common stock;

the performance of the price of Charter Class A common stock since the announcement of the Comcast transaction, in particular relative to the S&P 500, including the price at the time the merger agreement was entered into, which was at the approximate mid-point of certain valuation methodology ranges, including Charter's standalone price target and the 52-week trading price of Charter Class A common stock;

that based on various other valuation methodologies, Charter Class A common stock has the potential for significant appreciation;

the TWC board of directors' belief that the terms of the merger agreement represented the most favorable terms, including price, to TWC and its stockholders that Charter would be willing to agree to, which belief was based on, among other things, the fact that TWC had obtained a substantial increase in the merger consideration to an implied nominal value of over \$195.71 per share of TWC common stock (based on merger consideration of \$100 per share in cash and 0.5409 of a share of Charter Class A common stock), as

of May 20, 2015 (the trading day on which Charter's offer was based), or approximately \$200 per share of TWC common stock based on a 60-day volume weighted average price of Charter's common stock, from Charter's initial proposal having an implied value of \$172.50 per share as of May 4, 2015, as described under Background of the Mergers and Other Transactions;

Charter's offer was the result of a competitive process, resulting in multiple increases in the value of the merger consideration offered by Charter from its original offer submitted to TWC following the termination of the Comcast transaction, as described under Background of the Mergers and Other Transactions;

the potential strategic alternatives available to TWC, including the possibility of remaining a stand-alone entity and executing on TWC's operating plan, a potential strategic acquisition or a potential sale to Company A, and the assessment of the TWC board of directors that no other alternatives reasonably available to TWC were likely to create greater value for TWC stockholders than the mergers, including the fact that Company A, after having actively pursued a transaction with TWC, declined to submit an offer;

that, in connection with the BHN transactions and the additional investment by Liberty Broadband in connection with the mergers and the other transactions contemplated by the merger agreement, the

Table of Contents

leverage ratio of the combined company is expected to be lower than what TWC believed the expected leverage ratio of the combined company would have been in connection with Charter's proposals to acquire TWC in 2013 and 2014;

the TWC board of directors' understanding of the current and future competitive environment in which TWC operates, the potential for consolidation in the sector and the likely effect of these factors on the business, operations, management, financial condition, earnings and prospects of TWC;

the potential risks for TWC as a stand-alone company in a consolidating industry;

the current and expected future landscape of the cable industry, and, in light of the regulatory, financial and competitive challenges facing industry participants, the likelihood that the combined company would be better positioned to meet these challenges if the expected strategic and financial benefits of the transaction were fully realized;

the joint financial presentation of TWC's financial advisors, Allen & Company, Citi and Morgan Stanley, the separate financial presentation of Centerview, financial advisor to the TWC independent directors, and separate opinions of Allen & Company, Centerview, Citi and Morgan Stanley, each dated May 23, 2015, to the TWC board of directors as to the fairness, from a financial point of view and as of the date of the opinions, to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates or, in the case of Centerview's opinion, other than excluded shares) of the merger consideration to be received by such holders pursuant to the merger agreement, which opinions were based on and subject to the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken as more fully described below under "Opinions of TWC's Financial Advisors" and "Opinion of Financial Advisor to the TWC Independent Directors";

the mixed equity and cash nature of the merger consideration offers TWC stockholders the opportunity to participate in the future performance of the combined company, including any synergies to be realized as a result of the mergers, because TWC stockholders are expected to own between approximately 40% and 44% of the outstanding shares of New Charter Class A common stock immediately following completion of the mergers and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement, while also providing each stockholder with a substantial cash payout of either \$100 or \$115 per share of TWC common stock at such stockholder's election;

the expected merger benefits, estimated to be approximately \$800 million in anticipated synergies, including value created by applying programming agreements of TWC to the systems of the combined company;

the opportunity for TWC stockholders to benefit from any increase in the trading price of Charter Class A common stock between the announcement of entering into the merger agreement and the closing of the mergers based upon the fixed exchange ratios for the stock portion of the merger consideration;

that the gain recognized on the transaction (in an amount not to exceed the cash received in the transaction) will be taxable to TWC stockholders as a capital gain, except stockholders of TWC who also own shares of Charter Class A common stock, in which case the gain could be taxable as a dividend;

the fact that the merger agreement permits TWC, subject to certain limitations, to operate in the ordinary course of business and to take the actions contemplated by or reasonably necessary to implement the current operating plan during the period prior to completion of the mergers;

the ability of TWC to implement employee retention and benefit arrangements to address employee retention in connection with the anticipated mergers, while at the same time preserving appropriate incentives and alignment of employees with TWC stockholders during the period prior to completion of the mergers and in light of the possibility that the mergers do not close;

Table of Contents

Charter's agreement to take any actions and accept any conditions and other remedies to the extent such actions, conditions or other remedies would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the condition (financial or otherwise), business, assets or results of operations of the combined company (but not taking into account the BHN transactions), in order to obtain the regulatory approvals required to complete the mergers;

Charter's agreement to pay a reverse termination fee under certain circumstances in which the merger agreement is terminated, including failure to obtain certain regulatory approvals and circumstances relating to a third-party alternative transaction or a change in recommendation by the Charter board of directors;

Charter's agreement (subject to certain agreed exceptions) not to:

take any actions, including any acquisitions, that would materially impair, impede or delay the receipt of regulatory approvals;

make or agree to make any direct or indirect acquisition, or series of related acquisitions, which would require the approval of the FCC; or

make or agree to make any direct or indirect acquisition, or series of related acquisitions, which have a value, or involve the payment of consideration, in excess of \$350 million;

Charter's agreement that TWC would have rights to help develop the strategy and to participate in meetings relating to obtaining regulatory approvals required to complete the mergers;

the TWC board of directors' view that the terms of the merger agreement would not preclude or otherwise limit any third party with the financial capability and strategic interest of acquiring TWC from pursuing a potential superior proposal prior to the TWC stockholder vote. In this regard, the TWC board of directors considered the following:

the ability of the TWC board of directors, in certain circumstances, to change its recommendation to TWC stockholders in favor of the mergers, including in the event of (i) a TWC superior proposal, where the TWC board of directors may take into account a number of factors, including financial, legal and regulatory aspects and the terms and conditions of the proposal, not only whether such offer is of a higher nominal value, in determining whether such offer is superior or (ii) certain intervening events not known or reasonably foreseeable to the TWC board of directors or executive officers at or prior to the time the merger agreement was entered into; and

the ability of the TWC board of directors in certain circumstances to provide material non-public information to, and engage in negotiations with, a third party that makes an unsolicited TWC

acquisition proposal that could reasonably be expected to lead to a TWC superior proposal;

the TWC board of directors' belief that the termination fee payments to be made to Charter upon termination of the merger agreement under specified circumstances are reasonable, customary and not likely to significantly deter another party from making a TWC superior proposal;

the fact that the merger agreement permits TWC to declare and pay to its stockholders dividends in the ordinary course of business consistent with past practice during the period prior to the closing of the mergers, which effectively increases the consideration payable to TWC stockholders through the completion of the mergers; and

the other terms and conditions of the merger agreement and related transaction documents, including, among other things:

the requirement that the Charter board of directors submit the merger agreement and the mergers to the Charter stockholders for consideration notwithstanding the existence of a Charter superior proposal and the Charter board of directors' recommendation of such Charter superior proposal;

the restrictions on Charter's ability to solicit proposals for alternative transactions involving Charter;

Table of Contents

the inability of Charter to terminate the merger agreement in order to accept a Charter superior proposal from a third party;

Charter's obligation to consummate the transactions contemplated by the merger agreement is not subject to the receipt of financing proceeds and that Charter cannot terminate the merger agreement for failure to receive financing; and

the voting agreement from holders of shares of Charter Class A common stock representing approximately 25% of the combined voting power of Charter Class A common stock to vote in favor of the mergers, the stock issuances and each of the certificate of incorporation proposals.

The TWC board of directors also considered a number of uncertainties and risks in its deliberations concerning the mergers and the other transactions contemplated by the merger agreement, including the following (not necessarily in order of relative importance):

the fact that because a portion of the merger consideration is payable in shares of Charter Class A common stock in accordance with a fixed exchange ratio, TWC stockholders will be adversely affected by any decrease in the trading price of Charter Class A common stock prior to completion of the mergers, and may receive less value for their shares upon completion of the mergers than calculated pursuant to the exchange ratio on the date of execution of the merger agreement, which is the date the TWC board of directors met to approve the transaction;

the potential length and uncertainty of the regulatory approval process and, consequently, the period during which TWC may be subject to restrictions in the merger agreement and during which management's attention may be diverted;

the conditions to the merger agreement requiring receipt of certain regulatory approvals and clearances and the risk that regulatory agencies may impose terms and conditions on approvals that could adversely affect the projected financial results of the combined company following the consummation of the mergers;

the significant costs involved in connection with entering into the merger agreement and the substantial time and effort of management required to complete the mergers, which may disrupt TWC's business operations;

the risk that synergies may not be realized or may not be captured to the extent and within the time expected;

the risks and challenges inherent in the combination of two businesses of the size, scope and complexity of Charter and TWC;

the potential for management diversion, and for possible employee attrition, during the period since the termination of the Comcast-TWC merger agreement through the closing of the mergers and the potential effect on TWC's business and relations with customers, service providers and other stakeholders as a result of the announcement of the mergers and the uncertainty regarding whether or not the mergers will be completed;

the limitations imposed in the merger agreement on the conduct by TWC of its business, which could delay or prevent TWC from taking advantage of business opportunities that may arise, and on the solicitation by TWC of alternative acquisition proposals prior to completion of the mergers or termination of the merger agreement;

certain provisions of the merger agreement which could have the effect of discouraging third party offers for TWC, including:

the restriction on TWC's ability to solicit third party proposals for alternative transactions involving TWC;

Table of Contents

the inability for TWC to terminate the merger agreement in order to accept a TWC superior proposal from a third party prior to TWC stockholders voting against the approval of the adoption of the merger agreement;

the requirement for the TWC board of directors to submit the merger agreement to TWC stockholders, even if it has received a third party offer which it considers is superior to the merger consideration being paid by Charter and the TWC board of directors has changed its recommendation; and

termination fees payable by TWC if it enters into a competing transaction under certain circumstances and within a specified period of time within termination of the merger agreement;

the circumstances in which Charter may terminate the merger agreement, including if the TWC board of directors changes its recommendation in favor of the merger; and

various other risks associated with the mergers and the business of Charter, TWC and the combined company described under Risk Factors.

The TWC board of directors determined that overall these potential risks and uncertainties were outweighed by the benefits that the TWC board of directors expects to achieve for its stockholders as a result of the mergers, and that these potential risks could also be mitigated or managed by TWC, Charter or, following the consummation of the mergers, the combined company. The TWC board of directors realized that there can be no assurance about future results, including results considered or expected as disclosed in the foregoing reasons.

During its consideration of the mergers described above, the TWC board of directors was also aware that certain of its directors and executive officers may have interests in the transactions that are different from or in addition to those of stockholders generally, as described in the section entitled Interests of TWC's Directors and Executive Officers in the Transactions.

The above discussion of the material factors considered by the TWC board of directors in its consideration of the mergers and the transactions contemplated by the merger agreement is not intended to be exhaustive, but does set forth the principal factors considered by the TWC board of directors. In light of the number and wide variety of factors considered in connection with the evaluation of the mergers, the TWC board of directors did not consider it practicable to, and did not attempt to, quantify or otherwise assign relative weights to the specific factors it considered in reaching its final decision. The TWC board of directors viewed its position as being based on all of the information available to it and the factors presented to and considered by it. However, some directors may themselves have given different weight to different factors. The factors, potential risks and uncertainties contained in this explanation of TWC's reasons for the mergers and other information presented in this section contain information that is forward-looking in nature and, therefore, should be read in light of the factors discussed in Cautionary Statement Regarding Forward-Looking Statements.

THE TWC BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT TWC STOCKHOLDERS VOTE FOR THE APPROVAL OF THE ADOPTION OF THE MERGER AGREEMENT AND FOR THE TWC ADVISORY COMPENSATION PROPOSAL.

Table of Contents

Charter's Reasons for the Mergers and Other Transactions; Recommendation of the Charter Board of Directors

In reaching its decision to approve and declare advisable the merger agreement, the mergers, the stock issuances, the Liberty transactions, the amended and restated certificate of incorporation, the BHN transactions and the other transactions contemplated by the merger agreement, the Liberty agreements and the BHN contribution agreement and to recommend that Charter stockholders vote **FOR** each of the proposals that will be presented at the Charter special meeting, the Charter board of directors consulted with members of Charter's management as well as with its financial and legal advisors and carefully considered a variety of factors, including the following:

the significant expansion of Charter's operating footprint and growth oriented operating strategy provided by the transactions, which is expected to permit Charter to provide better marketing and service capabilities and pursue additional growth opportunities;

the increased scale of Charter's operations following the transactions, including the fact that the transactions will result in Charter acquiring approximately a net 13 million video customers, increasing Charter's video customer base from 4.3 million in December 2014 to approximately 17.3 million upon completion of the transactions;

the significant cost synergies expected to be realized in the transactions and greater operating efficiencies;

the expectation that the larger scope of the operations will permit accelerated and more efficient technology platform investments, deployment of faster Internet speeds, higher quality video experiences, and improved voice products over a large footprint, and otherwise improve Charter's ability to compete in its industry;

the financial strength of Charter after the transactions and the increased flexibility that this strength should provide, including an ongoing ability to engage in operating, technology, strategic and other initiatives providing stockholder value;

the results of Charter's management's due diligence investigation of each of TWC and Bright House and the reputation, business practices and experience of each of TWC and Bright House and their respective management;

the historical trading prices of TWC common stock and Charter Class A common stock;

the expectation that the transactions will be accretive to Charter's stock price;

the review by the Charter board of directors, with its legal and financial advisors, of the structure of the transactions and the financial and other terms of each of the merger agreement, the Liberty investment agreement, the Liberty contribution agreement, the BHN contribution agreement and the BHN/Liberty stockholders agreement;

the expectation that the transactions collectively, or either the mergers or the BHN transactions individually, will increase Charter's sales and earnings and enhance cash flow generation;

the continuing support of Liberty Broadband as a major investor in Charter and Liberty Broadband's significant new investment at a recent market price, on which the value of the TWC transactions was also based;

the significant equity stake maintained by Charter's existing stockholders in the combined company and the limitation of Liberty Broadband and Bright House designees on Charter's board to a minority of the total number of directors on the Charter board of directors;

the additional governance protections set forth in the BHN/Liberty stockholders agreement, including limitations on acquisitions by Liberty Broadband that are more favorable to Charter than the current arrangements, a covenant by Liberty Broadband and A/N not to form a group with each other with respect to Charter, and provisions regarding transfer restrictions and affiliate transactions;

Table of Contents

the ability of Charter's board of directors to, in certain circumstances and after complying with certain procedures, consider an alternative transaction that it determines to be superior to the mergers or change its recommendation to stockholders with respect to the mergers, as further described below under The Merger Agreement No Solicitation by Charter;

the requirement that the TWC board of directors submit the merger agreement and the mergers to the TWC stockholders for consideration notwithstanding the existence of a TWC superior proposal and the TWC board of directors' change of recommendation with respect to a TWC superior proposal;

the restrictions on TWC's ability to solicit proposals for alternative transactions involving TWC;

the inability of TWC to terminate the merger agreement prior to the TWC stockholder meeting in order to enter into a transaction with a third party with respect to a TWC superior proposal;

the fact that, while Charter is obligated to use its reasonable best efforts to complete the mergers, with respect to obtaining regulatory approvals required to complete the mergers, such efforts standard does not obligate Charter to take any actions or agree to any conditions, to the extent that such action or condition would reasonably be expected to have, individually or in the aggregate, a material adverse effect on the condition (financial or otherwise), business, assets or results of operations of Charter, TWC and their subsidiaries, taken as a whole (but not taking into account the BHN transactions);

the fact that Charter may complete the BHN transactions in certain circumstances even if the merger agreement is terminated;

that because the exchange ratios under the merger agreement are fixed (i.e., such ratios were fixed on May 23, 2015 and will not be adjusted for fluctuations in the market price for Charter Class A common stock or TWC common stock), Charter has greater certainty as to the number of shares of Charter Class A common stock to be issued;

the opinion of LionTree to the effect that, as of the date of LionTree's opinion and subject to the factors, assumptions, qualifications and limitations used by LionTree in reaching its opinion, the merger consideration was fair, from a financial point of view, to Charter, as more fully described below under the caption Opinions of Charter's Financial Advisors Opinion of LionTree Advisors LLC The Mergers and attached as Annex J to this joint proxy statement/prospectus;

the opinion of LionTree to the effect that, as of the date of LionTree's opinion and subject to the factors, assumptions, qualifications and limitations used by LionTree in reaching its opinion, the consideration to be paid by Charter to A/N for the assets to be acquired under the BHN contribution agreement was fair, from a financial point of view, to Charter, as more fully described below under the caption Opinions of Charter's Financial Advisors Opinion of LionTree Advisors LLC The BHN Transactions and attached as Annex K to

this joint proxy statement/prospectus;

the opinion of Goldman Sachs to the effect that, as of the date of Goldman Sachs' opinion and subject to the factors, assumptions and limitations set forth in Goldman Sachs' written opinion, taking into account all of the transactions, the Parent Merger Exchange Ratio (as defined in the written opinion) was fair from a financial point of view to the holders of Charter Class A common stock, all as more fully described below under the caption "Opinions of Charter's Financial Advisors" Opinion of Goldman, Sachs & Co. The Mergers and attached as Annex H to this joint proxy statement/prospectus; and

the opinion of Goldman Sachs to the effect that, as of the date of Goldman Sachs' opinion and subject to the factors, assumptions and limitations set forth in Goldman Sachs' written opinion, taking into account, among other things, the issuances of shares contemplated by the BHN contribution agreement and certain tax receivables payments under the BHN contribution agreement, the aggregate consideration (as defined in the written opinion) to be paid by Charter Holdings and New Charter for the BHN business pursuant to the BHN contribution agreement was fair, from a financial point of view,

Table of Contents

to Charter, all as more fully described below under the caption "Opinions of Charter's Financial Advisors' Opinion of Goldman, Sachs & Co. The BHN Transactions" and attached as Annex I to this joint proxy statement/prospectus.

The Charter board of directors also considered certain countervailing factors in its deliberations concerning the transactions, including:

the dilution of the voting power of Charter's current stockholders that would result from the issuance of New Charter Class A common stock (and securities convertible into or exchangeable for New Charter Class A common stock) to TWC stockholders, A/N and Liberty Broadband, and the issuance of the new class of Charter Class B common stock to A/N;

the substantial indebtedness that Charter, New Charter and their subsidiaries are expected to incur in connection with the transactions and related financing transactions, substantially increasing Charter's and New Charter's indebtedness after the transactions;

the absence of financing conditions or other limitations on recourse if Charter is unable to obtain financing from its debt financing sources or if the Liberty transactions are not consummated;

the challenges inherent to the integration of both TWC and Bright House, extending Charter's business model to a substantially larger organization and realizing on the projected synergies from the combination of TWC, Bright House and Charter;

the risks inherent in seeking regulatory approval from multiple government agencies in multiple jurisdictions and the commitments made in that regard in the merger agreement, including the potential payment of a substantial regulatory termination fee, as more fully described under "The Transactions' Regulatory Approvals Required for the Mergers," "The Transactions' Regulatory Approvals Required for the BHN Transactions" and "The Merger Agreement' Termination Fees;

the possibility that the transactions may not be consummated and the potential adverse consequences if the transactions are not completed, including substantial costs incurred and potential stockholder and market reaction; and

various other risks associated with the transactions and the business of Charter, TWC, Bright House and the combined company described under "Risk Factors."

This discussion of the information and factors considered by the Charter board of directors in reaching its conclusions and recommendation includes the principal factors considered by the Charter board of directors, but is not intended to be exhaustive and may not include all of the factors considered by the Charter board of directors. In view of the wide variety of factors considered in connection with its evaluation of the transactions and the other transactions contemplated by the transaction agreements, and the complexity of these matters, the Charter board of directors did not find it useful and did not attempt to quantify, rank or assign any relative or specific weights to the various factors

that it considered in reaching its determination to approve the transaction agreements and the transactions and to make its recommendation to Charter stockholders. Rather, the Charter board of directors viewed its decisions as being based on the totality of the information presented to it and the factors it considered, including its discussions with, and questioning of, members of Charter's management and outside legal and financial advisors. In addition, individual members of the Charter board of directors may have assigned different weights to different factors.

Certain of Charter's directors and executive officers have financial interests in the transactions that are different from, or in addition to, those of Charter's stockholders generally. The Charter board of directors was aware of and considered these potential interests, among other matters, in evaluating the transactions and in making its recommendation to Charter stockholders. For a discussion of these interests, see [Interests of Charter's Directors and Executive Officers in the Transactions](#).

Table of Contents

THE CHARTER BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CHARTER STOCKHOLDERS VOTE FOR THE APPROVAL OF THE ADOPTION OF THE MERGER AGREEMENT, FOR THE APPROVAL OF EACH OF THE STOCK ISSUANCES PROPOSALS, FOR THE APPROVAL OF THE LIBERTY TRANSACTIONS PROPOSAL, FOR THE APPROVAL OF EACH OF THE CERTIFICATE OF INCORPORATION PROPOSALS AND FOR THE APPROVAL OF THE CHARTER ADVISORY COMPENSATION PROPOSAL.

Opinions of TWC's Financial Advisors

For purposes of the respective opinions and related analyses of TWC's financial advisors described in this joint proxy statement/prospectus, (i) transaction means the acquisition of TWC by Charter and (ii) related transactions means the TWC transactions, the BHN transactions and other transactions contemplated in connection therewith (other than the first merger and the second merger).

Opinion of Allen & Company LLC

TWC has engaged Allen & Company as a financial advisor in connection with the proposed transaction. In connection with this engagement, TWC requested that Allen & Company evaluate and render an opinion to the TWC board of directors regarding the fairness, from a financial point of view, to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration to be paid to such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction, Allen & Company rendered to the TWC board of directors an oral opinion, which was confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of that date and based on and subject to the matters described in its opinion, the merger consideration to be paid to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Allen & Company's written opinion, dated May 23, 2015, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is attached to this joint proxy statement/prospectus as Annex L. **Allen & Company's opinion was intended for the benefit and use of the TWC board of directors (in its capacity as such) in connection with its evaluation of the merger consideration from a financial point of view and did not address any other term, aspect or implication of the transaction. Allen & Company's opinion did not constitute a recommendation as to the course of action that the TWC board of directors or TWC should pursue in connection with the transaction or the related transactions, or otherwise address the merits of the underlying decision by TWC to engage in the transaction and the related transactions, including in comparison to other strategies or transactions that might be available to TWC or in which TWC might engage. Allen & Company's opinion does not constitute advice or a recommendation to any stockholder as to the form or relative fairness of the merger consideration to be elected by such stockholder or as to how such stockholder should vote or act on any matter relating to the transaction, the related transactions or otherwise.**

Allen & Company's opinion reflected and gave effect to Allen & Company's general familiarity with TWC and Charter as well as information which it received during the course of its engagement, including information provided by the managements of TWC and Charter in the course of discussions relating to the transaction as more fully described below. In arriving at its opinion, Allen & Company neither conducted a physical inspection of the properties or facilities of TWC, Charter, New Charter or any other entity nor made or obtained any evaluations or appraisals of the assets or liabilities (contingent, off-balance sheet or otherwise) of TWC, Charter, New Charter or any other entity, or conducted any analysis concerning the solvency of TWC, Charter, New Charter or any other entity.

Table of Contents

In arriving at its opinion, Allen & Company, among other things:

reviewed the financial terms and conditions of the transaction as reflected in a draft, dated May 23, 2015, of the merger agreement;

reviewed certain publicly available historical business and financial information relating to TWC and Charter, including public filings of TWC and Charter and historical market prices and trading volumes for TWC common stock and Charter Class A common stock;

reviewed certain internal financial forecasts, estimates and other financial and operating data of TWC provided to or discussed with Allen & Company by the management of TWC, including certain internal financial forecasts, estimates and other financial and operating data of TWC prepared by the management of TWC for calendar years 2015 and 2016, certain estimates of the management of TWC as to the net operating losses and other tax attributes of TWC and, as directed by and discussed with TWC's management, certain publicly available research analysts' estimates relating to TWC for calendar years 2017 and 2018 as adjusted by the management of TWC, with standalone unlevered after-tax free cash flows for TWC in calendar years 2019 through 2024 extrapolated based on certain assumed growth rates provided by the management of TWC, collectively referred to as the TWC forecasts;

reviewed certain internal financial forecasts, estimates and other financial and operating data of Charter provided to or discussed with Allen & Company by the management of Charter, including certain estimates of the management of Charter as to the net operating losses and other tax attributes of Charter and, as directed by and discussed with the management of Charter, certain publicly available research analysts' estimates relating to Charter for calendar year 2015 and certain publicly available estimates of a research analyst relating to Charter for calendar years 2016 through 2019 as adjusted by the management of Charter, collectively referred to as the Charter forecasts;

held discussions with the managements of TWC and Charter relating to the past and current operations and financial condition and prospects of TWC and Charter;

reviewed the strategic rationale for the transaction and certain information relating to potential cost savings and other benefits anticipated by the management of Charter to result from the transaction and the related transactions;

reviewed the potential pro forma financial impact of the transaction and the related transactions (including the BHN transactions) on the future financial performance of New Charter;

reviewed and analyzed certain publicly available information, including certain stock market data and financial information, relating to selected companies with businesses that Allen & Company deemed

generally relevant in evaluating TWC and Charter;

reviewed certain publicly available financial information relating to selected transactions that Allen & Company deemed generally relevant in evaluating the transaction; and

conducted such other financial analyses and investigations as Allen & Company deemed necessary or appropriate for purposes of its opinion.

In rendering its opinion, Allen & Company relied upon and assumed, with TWC's consent and without independent verification, the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information available to Allen & Company from public sources, provided to or discussed with Allen & Company by TWC, Charter or their respective representatives or otherwise reviewed by Allen & Company. With respect to the TWC forecasts that Allen & Company was directed by the management of TWC to utilize for purposes of its analyses, Allen & Company was advised by such management and Allen & Company assumed, at TWC's direction, that they were reasonably prepared on bases reflecting the best currently available estimates and judgments of such management as to the future operating and financial performance of TWC and the other matters covered thereby. With respect to the publicly available forecasts and estimates reflected in the Charter

Table of Contents

forecasts that Allen & Company was directed by the management of Charter to utilize for purposes of its analyses, Allen & Company was advised by such management and Allen & Company assumed, with TWC's consent, that they reflected reasonable estimates and judgments as to, and were a reasonable basis upon which to evaluate, the future operating and financial performance of Charter and the other matters covered thereby. Allen & Company also was advised by the management of Charter and Allen & Company assumed, with TWC's consent, that the financial forecasts and other estimates reflected in the Charter forecasts relating to Bright House prepared by the management of Charter, the net operating losses and other tax attributes of Charter and the potential cost savings and other benefits anticipated by such management to result from the transaction and the related transactions were reasonably prepared on bases reflecting Charter management's best currently available estimates and judgments. Allen & Company further assumed, with TWC's consent, that the financial results reflected in the TWC forecasts, the Charter forecasts and the other information and data utilized in its analyses would be realized at the times and in the amounts projected. Allen & Company assumed no responsibility for and expressed no view or opinion as to any forecasts, estimates or other information or data, including the TWC forecasts, the Charter forecasts, potential cost savings and other benefits or financial forecasts or other estimates relating to Bright House, or the assumptions on which they were based. Allen & Company assumed, with TWC's consent, that there would be no developments with respect to any of the following matters that would have an adverse effect in any material respect on TWC, Charter, New Charter, the transaction or the related transactions (including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to Allen & Company's analyses or opinion: (i) the related transactions, including the timing thereof and assets, liabilities and financial and other terms involved; (ii) the potential impact on TWC, Charter and New Charter of market and other trends in and prospects for, and governmental, regulatory and legislative policies and matters relating to or affecting, the cable industry; (iii) existing and future relationships, agreements and arrangements with, and the ability to attract and retain, content providers and customers; and (iv) the ability to integrate the businesses of TWC and Charter.

Further, Allen & Company's opinion was necessarily based on economic, monetary, market and other conditions as in effect on, and the information made available to Allen & Company as of, the date of its opinion. It should be understood that subsequent developments may affect the conclusion expressed in Allen & Company's opinion and that Allen & Company assumed no responsibility for advising any person of any change in any matter affecting its opinion or for updating or revising its opinion based on circumstances or events occurring after the date of its opinion.

In connection with its engagement, Allen & Company was not requested to, and it did not, undertake a third-party solicitation process on TWC's behalf with respect to the acquisition of all or a part of TWC. Allen & Company did not express any opinion as to the fairness, financial or otherwise, of the amount, nature or any other aspect of any compensation or consideration payable to any officers, directors or employees of any party to the transaction, or any class of such persons or any other party, relative to the merger consideration or otherwise. Allen & Company did not express any opinion as to the actual value of New Charter Class A common stock (or other securities of New Charter or any other entity) when issued in connection with the transaction or the prices at which New Charter Class A common stock (or other securities of New Charter or any other entity) or TWC common stock would trade or otherwise be transferable at any time.

In addition, Allen & Company did not express any opinion as to any tax or other consequences that might result from the transaction or the related transactions, nor did its opinion address any legal, regulatory, tax or accounting matters, as to which Allen & Company understood that TWC obtained such advice as it deemed necessary from qualified professionals. Allen & Company assumed, with TWC's consent, that (i) the transaction and the related transactions would be consummated in accordance with their respective terms (including the terms of any commitment letters and related financing documents) and all applicable laws, documents and other requirements, without waiver, modification or amendment of any material term, condition or agreement, and (ii) all governmental, regulatory or other consents or approvals necessary for consummation of the transaction and the related transactions would be obtained without

delay, limitation, restriction or condition, including any divestiture requirements, that would have an adverse effect on TWC, Charter, New Charter, the transaction or the

Table of Contents

related transactions (including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to its analyses or opinion. Allen & Company also assumed, with TWC's consent, that the transaction and the related transactions would have the tax treatment contemplated by the merger agreement. Allen & Company further assumed, with TWC's consent, that the final executed merger agreement would not differ in any material respect from the draft reviewed by Allen & Company.

Allen & Company's opinion is limited to the fairness, from a financial point of view and as of its opinion, to holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration (to the extent expressly specified in its opinion). Allen & Company's opinion did not address any other term, aspect or implication of the transaction, including, without limitation, the form or structure of the merger consideration or the transaction, any related transactions or any voting or other agreement, arrangement or understanding entered into in connection with the transaction, the related transactions or otherwise.

Miscellaneous

TWC selected Allen & Company to act as its financial advisor in connection with the transaction based on Allen & Company's reputation and experience. Allen & Company, as part of its investment banking business, is regularly engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, private placements and related financings, negotiated underwritings, secondary distributions of listed and unlisted securities, and valuations for corporate and other purposes. In the ordinary course of business, Allen & Company as a broker-dealer and market maker and certain of its affiliates may invest or have long or short positions, either on a discretionary or non-discretionary basis, for their own account or for those of Allen & Company clients, in the debt and equity securities, or related derivative securities, of TWC, Charter, New Charter or their respective affiliates. The issuance of Allen & Company's opinion was approved by Allen & Company's fairness opinion committee.

In connection with Allen & Company's financial advisory services, TWC has agreed to pay Allen & Company an aggregate cash fee of \$27.5 million, of which \$7.5 million was payable upon delivery of Allen & Company's opinion to the TWC board of directors in connection with the transaction and \$20 million is payable contingent upon consummation of the transaction. TWC also has agreed to reimburse Allen & Company for its reasonable expenses and to indemnify Allen & Company and related parties against certain liabilities, including liabilities under the federal securities laws, arising out of its engagement.

Allen & Company in the past has provided, currently is providing and in the future may provide investment banking services to TWC, Charter, New Charter and/or certain of their respective affiliates or entities in which they have investments, for which services Allen & Company has received and/or may receive compensation, including during the two-year period prior to the date of its opinion, having acted or acting (i) as financial advisor to TWC in connection with certain merger and acquisition transactions or matters, including with respect to Charter's unsolicited acquisition proposal for TWC publicly disclosed in 2014 and the previously announced and terminated Comcast-TWC merger agreement, and (ii) as financial advisor to certain affiliates of Charter, including Liberty Interactive, in connection with certain merger and acquisition transactions or matters. During such two-year period, Allen & Company received for such services an aggregate fee of \$7.5 million from TWC. Also, as TWC was aware, a managing director of Allen & Company (who is not a member of the deal team for the transaction) is a member of the board of directors of Liberty Global plc and Discovery Communications, Inc.

Opinion of Citigroup Global Markets Inc.

TWC also has retained Citi as a financial advisor in connection with the proposed transaction. In connection with this engagement, TWC requested that Citi evaluate the fairness, from a financial point of view, to holders of TWC

common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration to be received by such holders pursuant to the merger agreement. On May 23, 2015, at a

Table of Contents

meeting of the TWC board of directors held to evaluate the transaction, Citi delivered to the TWC board of directors an oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of that date and based on and subject to various assumptions, matters considered and limitations and qualifications described in its opinion, the merger consideration to be received by holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Citi's written opinion, dated May 23, 2015, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is attached as Annex M to this joint proxy statement/prospectus and is incorporated herein by reference. The description of Citi's opinion set forth below is qualified in its entirety by reference to the full text of Citi's opinion. **Citi's opinion was provided for the information of the TWC board of directors (in its capacity as such) in connection with its evaluation of the merger consideration from a financial point of view and did not address any other terms, aspects or implications of the transaction. Citi was not requested to consider, and its opinion did not address, the underlying business decision of TWC to effect the transaction or the related transactions, the relative merits of the transaction and the related transactions as compared to any alternative business strategies or opportunities that might exist for TWC or the effect of any other transaction in which TWC might engage. Citi's opinion is not intended to be and does not constitute a recommendation as to the form or relative fairness of the merger consideration to be elected by such stockholder or as to how any stockholder should vote or act on any matters relating to the transaction, the related transactions or otherwise.**

In arriving at its opinion, Citi, among other things:

reviewed a draft, dated May 23, 2015, of the merger agreement;

held discussions with certain senior officers, directors and other representatives and advisors of TWC and certain senior officers and other representatives and advisors of Charter concerning the businesses, operations and prospects of TWC and Charter;

reviewed certain publicly available and other business and financial information relating to TWC provided to or otherwise discussed with Citi by the management of TWC, including the TWC forecasts;

reviewed certain publicly available and other business and financial information relating to Charter provided to or otherwise discussed with Citi by the management of Charter, including the Charter forecasts, and certain information relating to potential strategic and operational benefits (including the amount, timing and achievability of potential cost savings) anticipated by the management of Charter to result from the transaction and the related transactions;

reviewed the financial terms of the transaction as set forth in the merger agreement in relation to, among other things, current and historical market prices and trading volumes of TWC common stock and Charter Class A common stock; the historical and projected earnings and other operating data of TWC and Charter; and the capitalization and financial condition of TWC and Charter;

considered, to the extent publicly available, the financial terms of certain other transactions which Citi considered relevant in evaluating the transaction;

analyzed certain financial, stock market and other publicly available information relating to the businesses of other companies whose operations Citi considered relevant in evaluating those of TWC and Charter;

evaluated certain potential pro forma financial effects of the transaction and the related transactions (including the BHN transactions) on New Charter; and

conducted such other analyses and examinations and considered such other information and financial, economic and market criteria as Citi deemed appropriate in arriving at its opinion.

Table of Contents

In rendering its opinion, Citi assumed and relied, without independent verification, upon the accuracy and completeness of all financial and other information and data publicly available or provided to or otherwise reviewed by or discussed with Citi and upon the assurances of the managements of TWC and Charter that they were not aware of any relevant information that had been omitted or that remained undisclosed to Citi. With respect to the TWC forecasts that Citi was directed by the management of TWC to utilize for purposes of its analyses, Citi was advised by such management and Citi assumed, with TWC's consent, that they were reasonably prepared on bases reflecting the best currently available estimates and judgments of such management as to the future financial performance of TWC and the other matters covered thereby. With respect to the publicly available financial forecasts and other information and data reflected in the Charter forecasts that Citi was directed by the management of Charter to utilize for purposes of its analyses, Citi assumed, with TWC's consent, that they reflected reasonable estimates and judgments as to, and were a reasonable basis upon which to evaluate, the future financial performance of Charter and the other matters covered thereby. Citi also was advised and Citi assumed, with TWC's consent, that the financial forecasts and other estimates reflected in the Charter forecasts relating to Bright House prepared by the management of Charter, the net operating losses and other tax attributes of Charter and the potential cost savings and other benefits anticipated by such management to result from the transaction and the related transactions, including the amount, timing and achievability thereof, were reasonably prepared and reflected such management's best currently available estimates and judgments. Citi further assumed, with TWC's consent, that the financial results reflected in the TWC forecasts, the Charter forecasts and the other information and data utilized in its analyses would be realized at the times and in the amounts projected. Citi assumed, with TWC's consent, that there would be no developments with respect to any of the following matters that would have an adverse effect in any material respect on TWC, Charter, New Charter, the transaction or the related transactions (including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to Citi's analyses or opinion: (i) the related transactions, including the timing thereof and assets, liabilities and financial and other terms involved; (ii) the potential impact on TWC, Charter and New Charter of market and other trends in and prospects for, and governmental, regulatory and legislative policies and matters relating to or affecting, the cable industry; (iii) existing and future relationships, agreements and arrangements with, and the ability to attract and retain, content providers and customers; and (iv) the ability to integrate the businesses of TWC and Charter.

Citi did not make nor was provided with an independent evaluation or appraisal of the assets or liabilities (contingent, off-balance sheet or otherwise) of TWC, Charter, New Charter or any other entity nor did Citi make any physical inspection of the properties or assets of TWC, Charter, New Charter or any other entity. Citi assumed, with TWC's consent, that the transaction and the related transactions would be consummated in accordance with the terms of the merger agreement and related documents (including commitment letters and related financing documents) and all applicable laws and relevant documents or requirements without waiver, modification or amendment of any material term, condition or agreement and that, in the course of obtaining the necessary governmental, regulatory or third party approvals, consents, releases and waivers for the transaction and the related transactions, no delay, limitation, restriction or condition, including any divestiture requirements, would be imposed that would have an adverse effect on TWC, Charter, New Charter, the transaction or the related transactions (including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to Citi's analyses or opinion. Citi did not express any view or opinion as to the actual value of New Charter Class A common stock (or other securities of New Charter or any other entity) when issued in the transaction or the prices at which New Charter Class A common stock (or other securities of New Charter or any other entity) or TWC common stock would trade or otherwise be transferable at any time. Citi assumed, with TWC's consent, that the transaction and the related transactions would have the tax treatment contemplated by the merger agreement. Representatives of TWC advised Citi, and Citi further assumed, that the final terms of the merger agreement would not vary materially from those set forth in the draft reviewed by Citi. Citi did not express any opinion with respect to accounting, tax, regulatory, legal or similar matters and Citi relied, with TWC's consent, upon the assessments of representatives of TWC and Charter as to such matters.

Citi's opinion addressed only the fairness, from a financial point of view and as of the date of its opinion, of the merger consideration (to the extent expressly specified therein) and did not address any other terms, aspects

Table of Contents

or implications of the transaction, including, without limitation, the form or structure of the merger consideration or the transaction, any related transactions or any voting agreement or other agreement, arrangement or understanding to be entered into in connection with or contemplated by the transaction, the related transactions or otherwise. In connection with its engagement, Citi was not requested to, and Citi did not, undertake a third-party solicitation process on TWC's behalf with respect to the acquisition of all or a part of TWC. Citi expressed no view as to, and its opinion did not address, the underlying business decision of TWC to effect the transaction or the related transactions, the relative merits of the transaction and the related transactions as compared to any alternative business strategies that might exist for TWC or the effect of any other transaction in which TWC might engage. Citi also expressed no view as to, and its opinion did not address, the fairness (financial or otherwise) of the amount or nature or any other aspect of any compensation to any officers, directors or employees of any parties to the transaction, or any class of such persons, relative to the merger consideration or otherwise. Citi's opinion was necessarily based upon information available to Citi, and financial, stock market and other conditions and circumstances existing and disclosed to Citi, as of the date of its opinion. The issuance of Citi's opinion was authorized by Citi's fairness opinion committee.

Miscellaneous

In connection with Citi's services as TWC's financial advisor, TWC has agreed to pay Citi an aggregate fee of \$32.5 million, of which \$7.5 million was payable upon delivery of its opinion and \$25 million is payable contingent upon consummation of the transaction. In addition, TWC has agreed to reimburse Citi for certain expenses, including fees and expenses of counsel, and to indemnify Citi and related parties against certain liabilities, including liabilities under federal securities laws, arising from Citi's engagement.

Citi and its affiliates in the past have provided, currently are providing and in the future may provide investment banking and other financial services to TWC, Charter, New Charter and/or their respective affiliates or entities in which they have investments unrelated to the transaction, for which services Citi and its affiliates have received and would expect to receive compensation including, during the two-year period prior to the date of its opinion, having acted or acting (i) as financial advisor to TWC in connection with certain merger and acquisition transactions and matters, including Charter's unsolicited acquisition proposal for TWC publicly disclosed in 2014 and the previously announced and terminated Comcast-TWC merger agreement, (ii) as an underwriter and/or co-manager in connection with certain securities offerings of Charter and/or its affiliates and (iii) as lender, administrative agent, joint lead arranger, joint bookrunner and/or syndication agent, as applicable, in connection with certain credit facilities of TWC, Charter and/or their respective affiliates. During such two-year period, Citi received for such services aggregate fees of approximately \$13.1 million from TWC and approximately \$9.2 million from Charter. In the ordinary course of business, Citi and its affiliates may actively trade or hold the securities of TWC, Charter and their respective affiliates for their own account or for the account of their customers and, accordingly, may at any time hold a long or short position in such securities. In addition, Citi and its affiliates (including Citigroup Inc. and its affiliates) may maintain relationships with TWC, Charter, New Charter and their respective affiliates.

TWC selected Citi to act as its financial advisor in connection with the transaction based on Citi's reputation, experience and familiarity with TWC and its business. Citi is an internationally recognized investment banking firm that regularly engages in the valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, competitive bids, secondary distributions of listed and unlisted securities, private placements and valuations for estate, corporate and other purposes.

Opinion of Morgan Stanley & Co. LLC

TWC also has retained Morgan Stanley as a financial advisor in connection with the proposed transaction. As part of that engagement, TWC requested that Morgan Stanley evaluate the fairness, from a financial point of view, to holders

of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) of the merger consideration to be received by such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction,

Table of Contents

Morgan Stanley rendered its oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the TWC board of directors to the effect that, as of that date and based on and subject to the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Morgan Stanley as set forth in its opinion, the merger consideration to be received by holders of TWC common stock (other than Charter, Liberty Broadband, Liberty Interactive and their respective affiliates) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Morgan Stanley's written opinion, dated May 23, 2015, which sets forth, among other things, the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Morgan Stanley in connection with its opinion, is attached as Annex N to, and is incorporated by reference into, this joint proxy statement/prospectus. This summary is qualified in its entirety by reference to the full text of such opinion. **Morgan Stanley's opinion was directed to the TWC board of directors and addressed only the fairness from a financial point of view of the merger consideration as of the date of the opinion and did not address any other term or aspect of the merger agreement or the transaction. Morgan Stanley's opinion did not address TWC's underlying business decision to proceed with or effect the transaction or the related transactions, or the relative merits of the transaction and the related transactions as compared to any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or were available. Morgan Stanley expressed no opinion or recommendation as to the form or relative fairness of the merger consideration to be elected by the stockholders of TWC or how the stockholders of TWC or Charter should vote at the stockholders' meetings to be held in connection with the transaction or otherwise.**

In arriving at its opinion, Morgan Stanley, among other things:

reviewed certain publicly available financial statements and other business and financial information of TWC and Charter, respectively;

reviewed certain internal financial projections, estimates and other financial and operating data relating to TWC supplied or otherwise made available to or discussed with Morgan Stanley by the management of TWC, including the TWC forecasts;

reviewed certain internal financial projections, estimates and other financial and operating data relating to Charter supplied or otherwise made available to or discussed with Morgan Stanley by the management of Charter, including the Charter forecasts;

reviewed information relating to certain strategic, financial and operational benefits (including potential cost savings) anticipated from the transaction and the related transactions prepared by the management of Charter;

discussed the past and current operations and financial condition and the prospects of TWC, including information relating to potential cost savings and certain other strategic, financial and operational benefits anticipated from the transaction and the related transactions, with senior executives of TWC;

discussed the past and current operations and financial condition and the prospects of Charter, including information relating to potential cost savings and certain other strategic, financial and operational benefits anticipated from the transaction and the related transactions, with senior executives of Charter;

reviewed the potential pro forma financial impact of the transaction and the related transactions (including the Bright House acquisition) on New Charter's levered free cash flow per share;

reviewed the reported prices and trading activity for TWC common stock and Charter Class A common stock;

compared the financial performance of TWC and Charter and the prices and trading activity of TWC common stock and Charter Class A common stock with that of certain other publicly-traded companies comparable with TWC and Charter, respectively, and their securities;

Table of Contents

reviewed the financial terms, to the extent publicly available, of certain comparable acquisition transactions;

participated in certain discussions and negotiations among representatives of TWC and Charter and their respective financial and legal advisors;

reviewed a draft, dated May 23, 2015, of the merger agreement; and

performed such other analyses, reviewed such other information and considered such other factors as Morgan Stanley deemed appropriate.

Morgan Stanley assumed and relied upon, without independent verification, the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to or discussed with Morgan Stanley by TWC and Charter, and formed a substantial basis for its opinion. With respect to the TWC forecasts that Morgan Stanley was directed by the management of TWC to utilize for purposes of its analyses, Morgan Stanley was advised by such management and Morgan Stanley assumed that they were reasonably prepared on bases reflecting the best currently available estimates and judgments of such management of the future financial performance of TWC. With respect to the publicly available financial projections and estimates reflected in the Charter forecasts that Morgan Stanley was directed by the management of Charter to utilize for purposes of its analyses, Morgan Stanley assumed, with TWC's consent, that they reflected reasonable estimates and judgments as to, and were a reasonable basis upon which to evaluate, the future financial performance of Charter. Morgan Stanley also was advised and Morgan Stanley assumed that the financial forecasts and other estimates reflected in the Charter forecasts relating to Bright House prepared by the management of Charter, the net operating losses and other tax attributes of Charter and certain strategic, financial and operational benefits (including potential cost savings) anticipated from the transaction and the related transactions prepared by such management were reasonably prepared on bases reflecting the best currently available estimates and judgments of such management. Morgan Stanley further assumed that the financial results reflected in the TWC forecasts, the Charter forecasts and the other information and data utilized in its analyses would be realized in the amounts and at the times forecasted. Morgan Stanley assumed, with TWC's consent, that there would be no developments with respect to any of the following matters that would have an adverse effect in any material respect on TWC, Charter, New Charter, the transaction or the related transactions (including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to Morgan Stanley's analyses or opinion: (i) the related transactions, including the timing thereof and assets, liabilities and financial and other terms involved; (ii) the potential impact on TWC, Charter and New Charter of market and other trends in and prospects for, and governmental, regulatory and legislative policies and matters relating to or affecting, the cable industry; (iii) existing and future relationships, agreements and arrangements with, and the ability to attract and retain, content providers and customers; and (iv) the ability to integrate the businesses of TWC and Charter.

In addition, Morgan Stanley assumed that the final executed merger agreement would not differ in any respect material to its analysis or opinion from the draft merger agreement reviewed by it and that the transaction and the related transactions would be consummated in accordance with the terms set forth in the merger agreement and related documents (including commitment letters and related financing documents) and in accordance with all applicable laws and relevant documents or requirements without any waiver, amendment or delay of any terms or conditions, including, among other things, that the transaction and the related transactions would have the tax treatment contemplated by the merger agreement. Morgan Stanley also assumed that in connection with the receipt of all necessary governmental, regulatory or other approvals and consents required for the proposed transaction and the related transactions, no delays, limitations, conditions or restrictions, including any divestiture requirements, would be imposed that would have an adverse effect on TWC, Charter, New Charter, the transaction or the related transactions

(including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to Morgan Stanley's analysis or opinion. Morgan Stanley is not a legal, tax or regulatory advisor. Morgan Stanley is a financial advisor only and relied upon, without independent verification, the assessment of TWC and Charter and their respective legal, tax or regulatory advisors with respect to legal, tax, or regulatory matters.

Table of Contents

Morgan Stanley's opinion was limited to and addressed only the fairness, from a financial point of view and as of the date of its opinion, of the merger consideration (to the extent expressly specified in its opinion). Morgan Stanley was not asked to, nor did its opinion address, any other term or aspect of the merger agreement or the transaction, including the structure or form of the merger consideration or the transaction, any related transactions, any voting agreement or other agreement, arrangement or understanding to be entered into in connection with or contemplated by the merger agreement, related documents or otherwise. In addition, Morgan Stanley expressed no opinion with respect to the fairness of the amount or nature of the compensation to any of TWC's officers, directors or employees, or any class of such persons, relative to the merger consideration to be received by the holders of shares of TWC common stock in the transaction. Morgan Stanley did not make any independent valuation or appraisal of the assets or liabilities of TWC, Charter, New Charter or any other entity, nor was Morgan Stanley furnished with any such valuations or appraisals. Morgan Stanley's opinion was necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to Morgan Stanley as of, the date of its opinion. Events occurring after the date of its opinion may affect Morgan Stanley's opinion and the assumptions used in preparing it, and Morgan Stanley did not assume any obligation to update, revise or reaffirm its opinion. In arriving at its opinion, Morgan Stanley was not authorized to, and it did not, undertake a third-party solicitation process on TWC's behalf with respect to an acquisition, business combination or other extraordinary transaction involving TWC. Morgan Stanley's opinion did not in any manner address the actual value of New Charter Class A common stock (or other securities of New Charter or any other entity) when issued in connection with the transaction or the prices at which TWC common stock or New Charter Class A common stock (or other securities of New Charter or any other entity) would trade or otherwise be transferable following consummation of the transaction or at any time. Morgan Stanley's opinion was approved by a committee of Morgan Stanley investment banking and other professionals in accordance with its customary practice.

Miscellaneous

TWC has agreed to pay Morgan Stanley for its financial advisory services in connection with the transaction an aggregate fee of \$40 million, of which \$7.5 million was paid upon delivery of its opinion and \$32.5 million is payable contingent upon the closing of the transaction. TWC also has agreed to reimburse Morgan Stanley for its expenses incurred in performing its services, including fees, disbursements and other charges of counsel, and to indemnify Morgan Stanley and its affiliates, their respective officers, directors, employees and agents and each person, if any, controlling Morgan Stanley or any of its affiliates against certain liabilities and expenses, including under the federal securities laws, related to or arising out of Morgan Stanley's engagement.

During the two years prior to the date of its opinion, Morgan Stanley has acted or is acting (i) as financial advisor to TWC in connection with certain merger and acquisition transactions or matters, including in respect of TWC's receipt of Charter's unsolicited acquisition proposal for TWC publicly disclosed in 2014 and the previously announced and terminated Comcast-TWC merger agreement, (ii) as underwriter and/or joint book-running manager in connection with certain debt offerings of Charter and (iii) as lender, joint lead arranger, joint bookrunner, co-syndication agent, administrative agent and/or documentation agent in connection with certain credit facilities of TWC, Charter and/or their respective affiliates, and have received fees in connection with such services. During such two-year period, Morgan Stanley received for such services aggregate fees of approximately \$7.6 million from TWC and approximately \$1.6 million from Charter. Morgan Stanley may also seek to provide such services to TWC, Charter, New Charter and/or their respective affiliates or entities in which they have investments in the future and would expect to receive fees for the rendering of these services.

TWC selected Morgan Stanley to act as its financial advisor in connection with the proposed transaction based on Morgan Stanley's reputation, experience and familiarity with TWC and its business. Morgan Stanley is a global financial services firm engaged in the securities, investment management and individual wealth management

businesses. Its securities business is engaged in securities underwriting, trading and brokerage activities, foreign exchange, commodities and derivatives trading, prime brokerage, as well as providing investment banking, financing and financial advisory services. Morgan Stanley, its affiliates, directors and

Table of Contents

officers may at any time invest on a principal basis or manage funds that invest, hold long or short positions, finance positions, and may trade or otherwise structure and effect transactions, for their own account or the accounts of its customers, in debt or equity securities or loans of TWC, Charter, New Charter or any other company, or any currency or commodity, that may be involved in the transaction or the related transactions, or any related derivative instrument.

Summary of Joint Financial Analyses

In connection with the rendering of their respective opinions to the TWC board of directors, Allen & Company, Citi and Morgan Stanley jointly and collaboratively performed a variety of financial and comparative analyses which are summarized below. The preparation of a financial opinion is a complex analytical process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, a financial opinion is not readily susceptible to summary description. Allen & Company, Citi and Morgan Stanley arrived at their respective opinions based on the results of all analyses undertaken and assessed as a whole, and they did not draw, in isolation, conclusions from or with regard to any one factor or method of analysis. Accordingly, the TWC financial advisors believe that the financial analyses and this summary must be considered as a whole.

In performing their financial analyses, the TWC financial advisors considered industry performance, general business, economic, market and financial conditions and other matters existing as of the date of their respective opinions, many of which are beyond TWC's and Charter's control. The assumptions and estimates contained in the financial analyses and the ranges of valuations resulting from any particular analysis are not necessarily indicative of actual values or future results, which may be significantly more or less favorable than those suggested by such analyses. In addition, financial analyses relating to the value of businesses or securities do not purport to be appraisals or to reflect the prices at which businesses or securities actually may be sold. Accordingly, the assumptions and estimates used in, and the results derived from, the financial analyses are inherently subject to substantial uncertainty.

The TWC financial advisors were not requested to, and they did not, determine or recommend the specific consideration payable in the transaction or the related transactions or that any given consideration constituted the only appropriate consideration in the transaction and the related transactions. The type and amount of consideration payable in the transaction and the related transactions were determined through negotiations between TWC and Charter, and the decision to effect the transaction and the related transactions was solely that of the TWC board of directors. The TWC financial advisors' financial analyses and respective opinions were only one of many factors considered by the TWC board of directors in its evaluation of the transaction and the related transactions and should not be viewed as determinative of the views of the TWC board of directors or management with respect to the transaction and the related transactions or the consideration payable in the transaction and the related transactions.

The following is a brief summary of the material financial analyses jointly prepared and reviewed with the TWC board of directors in connection with Allen & Company's, Citi's and Morgan Stanley's respective opinions, each dated May 23, 2015. **The summary set forth below does not purport to be a complete description of the financial analyses performed or factors considered by, and underlying the opinions of, Allen & Company, Citi and Morgan Stanley, nor does the order of the financial analyses described represent the relative importance or weight given to those financial analyses by Allen & Company, Citi and Morgan Stanley. Certain financial analyses summarized below include information presented in tabular format. In order to fully understand the financial analyses, the tables must be read together with the text of each summary as the tables alone do not constitute a complete description of the financial analyses. Considering the data in the tables below without considering all financial analyses or factors or the full narrative description of such analyses or factors, including the methodologies and assumptions underlying such analyses or factors, could create a misleading or incomplete view of the processes underlying the TWC financial advisors' financial analyses and their respective**

opinions. None of TWC,

Table of Contents

Charter, Allen & Company, Citi, Morgan Stanley or any other person assumes responsibility if future results are different from those described, whether or not any such difference is material. For purposes of the financial analyses described below, (i) earnings before interest, taxes, depreciation and amortization, referred to as EBITDA, was calculated net of stock-based compensation and, except as otherwise noted below, the financial analyses relating to TWC and Charter took into account the present value of potential tax savings resulting from various tax attributes, such as net operating losses and step-ups in asset tax bases, collectively referred to as tax attributes, and (ii) the term implied merger consideration refers to an implied aggregate value equivalent to \$194.84 per share based on merger consideration of \$100 per share in cash and 0.5409 of a share of Charter Class A common stock, utilizing, for the stock portion of the consideration, the closing price per share of Charter Class A common stock on May 22, 2015 of \$175.33. Allen & Company, Citi and Morgan Stanley noted that the merger consideration based on the optional election of \$115 per share in cash and 0.4562 of a share of Charter Class A common stock, utilizing, for the stock portion of the consideration, such closing price per share of Charter Class A common stock, implied an aggregate value equivalent to \$194.99 per share.

TWC Financial Analyses***Selected Public Companies Analysis***

Allen & Company, Citi and Morgan Stanley performed a selected public companies analysis of TWC in which such TWC financial advisors reviewed certain financial and stock market information relating to TWC and the following three selected companies that such TWC financial advisors in their professional judgment deemed generally relevant for comparative purposes as publicly traded companies in the cable industry, referred to as the TWC selected companies:

Charter Communications, Inc.

Comcast Corporation (cable business)

Cablevision Systems Corporation

The TWC financial advisors reviewed, among other things, aggregate enterprise values (calculated as fully-diluted market capitalization as of May 22, 2015 plus total debt, plus minority interests, less cash and cash equivalents, less non-cable assets and less tax attributes) as a multiple of estimated EBITDA. The overall low to high next 12 months estimated EBITDA multiples observed for the TWC selected companies as of May 22, 2015 (the last trading day prior to the date on which the TWC board of directors approved the proposed mergers) were 7.0x to 9.2x. The next 12 months estimated EBITDA multiple as of May 22, 2015 observed for TWC was 8.3x. The TWC financial advisors noted that the overall low to high next 12 months estimated EBITDA multiples as of February 11, 2014 (the last trading day prior to the date on which the TWC board of directors approved the proposed merger between TWC and Comcast Corporation) and overall low to high next 12 months estimated EBITDA multiples as of June 13, 2013 (the last trading day prior to published reports initially speculating a potential acquisition proposal by Charter for TWC) observed for the TWC selected companies were 7.9x to 8.9x and 6.0x to 8.2x, respectively. The TWC financial advisors also noted that the next 12 months estimated EBITDA multiple as of February 11, 2014 and next 12 months estimated EBITDA multiple as of June 13, 2013 observed for TWC were 7.2x and 6.2x, respectively. The TWC financial advisors then applied a selected range of estimated EBITDA multiples of 6.75x to 7.75x to TWC's next 12 months (as of May 22, 2015) estimated EBITDA. Financial data of the TWC selected companies were based on Wall

Street research consensus estimates, public filings and other publicly available information. Financial data of TWC was based on the TWC forecasts, Wall Street research consensus estimates, public filings and other publicly available information.

This analysis indicated the following approximate implied per share equity value reference range for TWC common stock as compared to the implied merger consideration:

TWC Implied Per Share Equity

Value Reference Range
\$128 \$157

Implied Merger Consideration
\$194.84

Table of Contents

No company or business used in this analysis is identical to TWC and, accordingly, an evaluation of the results of this analysis is not entirely mathematical. Rather, this analysis involves complex considerations and judgments concerning differences in financial characteristics and other factors that could affect the public trading or other values of the companies or businesses to which TWC was compared.

Selected Precedent Transactions Analysis

Allen & Company, Citi and Morgan Stanley performed a selected precedent transactions analysis of TWC in which such TWC financial advisors reviewed publicly available financial terms of the following 11 selected transactions in the cable industry that such TWC financial advisors in their professional judgment deemed generally relevant for comparative purposes, referred to as the selected transactions:

Announcement Date	Acquiror	Target
May 20, 2015	Altice S.A.	Suddenlink Communications
March 31, 2015	Charter Communications, Inc.	Bright House Networks, LLC
April 28, 2014	Charter Communications, Inc./Comcast Corporation	Greatland Connections Inc. (spin-off and related transactions)
February 13, 2014	Comcast Corporation	Time Warner Cable Inc.
March 19, 2013	Liberty Media Corporation	Charter Communications, Inc. (27% equity stake)
February 7, 2013	Charter Communications, Inc.	Bresnan Broadband Holdings, LLC
July 18, 2012	BC Partners Ltd.	Suddenlink Communications
July 18, 2012	Cogeco Cable, Inc.	Atlantic Broadband
June 1, 2012	Oak Hill Capital Partners	WaveDivision Holdings, LLC
August 14, 2011	Time Warner Cable Inc.	Insight Communications Company, Inc.
June 14, 2010	Cablevision Systems Corporation	Bresnan Broadband Holdings, LLC

In this analysis, the TWC financial advisors reviewed transaction values (calculated as the enterprise value implied for the target company based on the consideration payable in the selected transactions) as a multiple of the target company's one-year forward estimated EBITDA both with and without taking into account tax attributes other than step-ups in asset tax bases. The overall low to high one-year forward estimated EBITDA multiples observed for the target companies were 7.1x to 9.2x adjusted for tax attributes and 7.1x to 9.6x (with a mean of 8.2x) not adjusted for tax attributes. The TWC financial advisors then applied selected ranges of one-year forward estimated EBITDA multiples of 7.75x to 8.5x adjusted for tax attributes and 8.0x to 9.0x not adjusted for tax attributes derived from the selected transactions to corresponding data of TWC. Financial data of the selected transactions were based on Wall Street research consensus estimates, public filings and other publicly available information. Financial data of TWC was based on the TWC forecasts.

This analysis indicated the following approximate implied per share equity value reference ranges for TWC common stock both adjusted and not adjusted for tax attributes as compared to the implied merger consideration:

Implied Per Share		
Equity Value Reference Ranges for TWC		
Adjusted for Tax Attributes	Not Adjusted for Tax Attributes	Implied Merger Consideration

\$157 \$179

\$158 \$187

\$194.84

The TWC financial advisors noted that applying the one-year forward estimated EBITDA multiple observed for the Altice S.A./Suddenlink Communications transaction to corresponding financial data of TWC would indicate an approximate implied per share equity value for TWC common stock of \$199 per share adjusted for tax attributes and \$204 per share not adjusted for tax attributes.

No company, business or transaction used in this analysis is identical to TWC or the transaction and, accordingly, an evaluation of the results of this analysis is not entirely mathematical. Rather, this analysis

Table of Contents

involves complex considerations and judgments concerning differences in financial and operating characteristics that could affect the acquisition or other values of the companies, businesses or transactions to which TWC and the transaction were compared.

Discounted Cash Flow Analysis

Allen & Company, Citi and Morgan Stanley performed a discounted cash flow analysis of TWC in which such TWC financial advisors calculated the estimated present value of the standalone unlevered after-tax free cash flows that TWC was forecasted to generate during the nine-month period ending December 31, 2015 through the full calendar year ending December 31, 2024. Financial data of TWC was based on the TWC forecasts. For purposes of this analysis, stock-based compensation was treated as a cash expense. The terminal value of TWC at the end of the forecast period was estimated by using perpetuity growth rates ranging from 1.0% to 1.5%. The cash flows and terminal values were then discounted to present value (as of March 31, 2015) using discount rates ranging from 6.25% to 7.25%. This analysis indicated the following approximate implied per share equity value reference range for TWC common stock as compared to the implied merger consideration:

TWC Implied Per Share Equity

Value Reference Range
\$133 \$188

Implied Merger Consideration
\$194.84

*Charter Financial Analyses**Selected Public Companies Analysis*

Allen & Company, Citi and Morgan Stanley performed a selected public companies analysis of Charter in which such TWC financial advisors reviewed certain financial and stock market information relating to Charter and the following three selected companies that such TWC financial advisors in their professional judgment deemed generally relevant for comparative purposes as publicly traded companies in the cable industry, referred to as the Charter selected companies:

Comcast Corporation (cable business)

Cablevision Systems Corporation

Time Warner Cable Inc.

The TWC financial advisors reviewed, among other things, aggregate enterprise values (calculated as fully-diluted market capitalization as of May 22, 2015 plus total debt, plus minority interests, less cash and cash equivalents, less non-cable assets and less tax attributes) as a multiple of estimated EBITDA. The overall low to high next 12 months estimated EBITDA multiples observed for the Charter selected companies as of May 22, 2015 (the last trading day prior to the date on which the TWC board of directors approved the proposed mergers) were 7.0x to 8.3x. The next 12 months estimated EBITDA multiple as of May 22, 2015 observed for Charter was 9.2x. The TWC financial advisors noted that the overall low to high next 12 months estimated EBITDA multiples as of February 11, 2014 (the last

trading day prior to the date on which the TWC board of directors approved the proposed merger between TWC and Comcast Corporation) and overall low to high next 12 months estimated EBITDA multiples as of June 13, 2013 (the last trading day prior to published reports initially speculating a potential acquisition proposal by Charter for TWC) observed for the Charter selected companies were 7.2x to 7.9x and 6.0x to 7.5x, respectively. The TWC financial advisors also noted that the next 12 months estimated EBITDA multiple as of February 11, 2014 and next 12 months estimated EBITDA multiple as of June 13, 2013 observed for Charter were 8.9x and 8.2x, respectively. The TWC financial advisors then applied a selected range of estimated EBITDA multiples of 8.0x to 9.0x to Charter's next 12 months (as of May 22, 2015) estimated EBITDA. Financial data of the Charter selected companies were based on Wall Street research consensus estimates, public filings and other publicly available information. Financial data of Charter was based on the Charter forecasts, Wall Street research consensus estimates, public filings and other publicly available information.

Table of Contents

This analysis indicated the following approximate implied per share equity value reference range for Charter Class A common stock as compared to the closing price of Charter Class A common stock on May 22, 2015:

Charter Implied Per Share Equity

Value Reference Range	Charter Closing Stock Price
\$142 \$172	\$175.33

No company or business used in this analysis is identical to Charter and, accordingly, an evaluation of the results of this analysis is not entirely mathematical. Rather, this analysis involves complex considerations and judgments concerning differences in financial characteristics and operating characteristics that could affect the public trading or other values of the companies or businesses to which Charter was compared.

Discounted Cash Flow Analysis

Allen & Company, Citi and Morgan Stanley performed a discounted cash flow analysis of Charter in which such TWC financial advisors calculated the estimated present value of the standalone unlevered after-tax free cash flows that Charter was forecasted to generate during the nine-month period ending December 31, 2015 through the full calendar year ending December 31, 2019. Financial data of Charter was based on the Charter forecasts. For purposes of this analysis, stock-based compensation was treated as a cash expense. The terminal value of Charter at the end of the forecast period was estimated by using perpetuity growth rates ranging from 1.25% to 1.5%. The cash flows and terminal values were then discounted to present value (as of March 31, 2015) using discount rates ranging from 6.25% to 7.25%. This analysis indicated the following approximate implied per share equity value reference range for Charter Class A common stock as compared to the closing price of Charter Class A common stock on May 22, 2015:

Charter Implied Per Share Equity

Value Reference Range	Charter Closing Stock Price
\$174 \$244	\$175.33

Other Factors. Allen & Company, Citi and Morgan Stanley observed certain additional factors that were not considered part of their joint financial analyses with respect to their respective opinions but were referenced for informational purposes, including, among other things, the following:

latest 12 months (as of May 22, 2015) trading prices for TWC common stock, which ranged from approximately \$129 to \$172 per share, as compared to the implied merger consideration of \$194.84 and the closing price of TWC common stock of \$171.18 per share on May 22, 2015;

latest 12 months (as of May 22, 2015) trading prices for Charter Class A common stock, which ranged from approximately \$138 to \$199 per share, as compared to the closing price of Charter Class A common stock of \$175.33 per share on May 22, 2015;

historical trading prices for TWC common stock and Charter Class A common stock from January 1, 2013 to May 22, 2015, as compared to the historical trading prices of Comcast Corporation's Class A common stock and the Standard & Poor's 500 index, which indicated that trading prices for TWC common stock, Charter Class A common stock and Comcast Corporation's Class A common stock and the Standard & Poor's 500 index increased by approximately 76%, 130%, 55% and 49%, respectively, over such period, and historical relative trading prices for TWC common stock and Charter Class A common stock from March 30, 2015 to May 22, 2015, which indicated that trading prices for TWC common stock increased by approximately 14.7% and Charter Class A common stock decreased by approximately 4.4% over such period;

historical exchange ratios for TWC common stock and Charter Class A common stock from January 1, 2013 to May 22, 2015, which indicated an implied exchange ratio as of May 22, 2015 of approximately 0.98x and three-month, six-month and one-year (as of May 22, 2015) average exchange ratios of approximately 0.98x, 0.87x and 0.90x, respectively, as compared to an illustrative implied exchange ratio of approximately 1.106x assuming an all-stock transaction consideration;

Table of Contents

publicly available stock price targets of selected research analysts for TWC common stock and Charter Class A common stock, which indicated standalone stock price targets of such research analysts for TWC common stock of \$138 to \$180 per share (with a mean of \$157 per share and a median of \$150 per share), acquisition stock price targets of such research analysts for TWC common stock of \$166 to \$193 per share (with a mean of \$177 per share and a median of \$175 per share), with one research analyst estimating a year-end pro forma value package of \$198 per share assuming a combination with Charter based on a \$175 per share aggregate merger consideration value of which approximately 60% would be payable in cash, standalone stock price targets of such research analysts for Charter Class A common stock of \$148 to \$205 per share (with a mean of \$177 per share and a median of \$174 per share) and M&A-affected stock price targets of such research analysts for Charter Class A common stock of \$186 to \$230 per share (with a mean of \$207 per share and a median of \$210 per share); and

potential pro forma financial effects of the transaction on, among other things, Charter's calendar years 2016 and 2017 estimated levered free cash flow per share based on, in the case of TWC, the TWC forecasts and, in the case of Charter, the Charter forecasts (including the financial forecasts and other estimates reflected in the Charter forecasts relating to Bright House prepared by the management of Charter) after taking into account potential phased-in and run-rate cost synergies anticipated by the managements of TWC and Charter to result from the transaction and both including and excluding the acquisition of Bright House by Charter which, based on the implied merger consideration of \$194.84 and the closing price of Charter Class A common stock of \$175.33 per share on May 22, 2015, indicated that the transaction could be accretive to Charter's calendar years 2016 and 2017 estimated levered free cash flow per share. Actual results achieved by the combined company may vary from forecasted results and variations may be material.

Opinion of Financial Advisor to the TWC Independent Directors

For purposes of the opinion and related analyses of the financial advisor to the TWC independent directors described in this joint proxy statement/prospectus, (i) *transaction* means the acquisition of TWC by Charter and (ii) *related transactions* means the TWC transactions, the BHN transactions and other transactions contemplated in connection therewith (other than the first merger and the second merger).

Opinion of Centerview Partners LLC

Centerview was retained as financial advisor to the TWC independent members of the TWC board of directors, referred to as the TWC independent directors, in connection with the proposed transaction. In connection with this engagement, Centerview was requested to evaluate the fairness, from a financial point of view, to holders of TWC common stock (other than excluded shares) of the merger consideration to be paid to such holders pursuant to the merger agreement. On May 23, 2015, at a meeting of the TWC board of directors held to evaluate the transaction, Centerview delivered to the TWC board of directors an oral opinion, confirmed by delivery of a written opinion dated May 23, 2015, to the effect that, as of that date and based on and subject to various assumptions, matters considered and limitations and qualifications described in its opinion, the merger consideration to be paid to holders of TWC common stock (other than excluded shares) pursuant to the merger agreement was fair, from a financial point of view, to such holders.

The full text of Centerview's written opinion, dated May 23, 2015, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken, is attached as Annex O and is incorporated herein by reference. The description of Centerview's opinion set forth below is qualified in its entirety by reference to the full text of Centerview's opinion. **Centerview's opinion was provided for the information and assistance of the**

TWC board of directors (in their capacity as directors and not in any other capacity) in connection with and for purposes of its evaluation of the merger consideration from a financial point of view and did not address any other term or aspect of the merger agreement or the transaction. Centerview expressed no view as to, and its opinion did not address, TWC's underlying business decision to proceed with or effect the transaction or the related transactions, or the relative merits

Table of Contents

of the transaction and the related transactions as compared to any alternative business strategies or transactions that might be available to TWC or in which TWC might engage. Centerview's opinion does not constitute a recommendation to any stockholder of TWC or any other person as to the form or relative fairness of the merger consideration to be elected by such stockholder or how such stockholder or other person should vote with respect to the transaction or otherwise act with respect to the transaction, the related transactions or any other matter.

In connection with its opinion, Centerview, among other things:

reviewed a draft of the merger agreement dated May 23, 2015, referred to as the draft merger agreement;

reviewed TWC's Annual Reports on Form 10-K for the years ended December 31, 2014, December 31, 2013 and December 31, 2012, and Charter's Annual Reports on Form 10-K for the years ended December 31, 2014, December 31, 2013 and December 31, 2012;

reviewed certain interim reports to stockholders and Quarterly Reports on Form 10-Q of TWC and Charter;

reviewed certain publicly available research analyst reports for TWC and Charter;

reviewed certain other communications from TWC and Charter to their respective stockholders;

reviewed certain publicly available and other business and financial information relating to TWC provided to or otherwise discussed with Centerview by the management of TWC, including the TWC forecasts;

reviewed certain publicly available and other business and financial information relating to Charter provided to or otherwise discussed with Centerview by the management of Charter, including the Charter forecasts;

reviewed the potential pro forma financial impact of the transaction and the related transactions (including the BHN transactions) on the future financial performance of New Charter;

conducted discussions with members of the senior management and representatives of TWC and Charter regarding their assessments of the TWC forecasts and the Charter forecasts and the strategic rationale for the transaction and the related transactions, including estimates of the management of Charter as to potential cost savings and other benefits anticipated by the management of Charter to be realized from the transaction and related transactions, such estimates referred to as the synergies;

reviewed publicly available financial and stock market data, including valuation multiples, for TWC and Charter and compared that data with similar data for certain other companies, the securities of which are publicly traded, in lines of business that Centerview deemed relevant;

compared certain of the proposed financial terms of the transaction with the financial terms, to the extent publicly available, of certain other transactions that Centerview deemed relevant; and

conducted such other financial studies and analyses and took into account such other information as Centerview deemed appropriate.

Centerview assumed, without independent verification or any responsibility therefor, the accuracy and completeness of the financial, legal, regulatory, tax, accounting and other information supplied to, discussed with, or reviewed by Centerview for purposes of its opinion and, with TWC's consent, relied upon such information as being complete and accurate. In that regard, Centerview assumed, at TWC's direction, that the TWC forecasts that Centerview was directed to utilize for purposes of its analyses were reasonably prepared on bases reflecting the best currently available estimates and judgments of the management of TWC as to the matters covered thereby, that the publicly available financial information reflected in the Charter forecasts that Centerview was directed by the management of Charter to utilize for purposes of its analyses reflected reasonable

Table of Contents

judgments and estimates as to, and were a reasonable basis upon which to evaluate, the future financial performance of Charter and that the financial forecasts and other estimates reflected in the Charter forecasts relating to Bright House prepared by the management of Charter, the net operating losses and other tax attributes of Charter and the synergies were reasonably prepared on bases reflecting the best currently available estimates and judgments of the management of Charter, and Centerview relied, at TWC's direction, on the TWC forecasts, the Charter forecasts, the synergies and such financial forecasts and other estimates relating to Bright House for purposes of its analysis and opinion. Centerview also assumed, at TWC's direction, that the financial results reflected in the TWC forecasts, the Charter forecasts and the other information and data utilized in Centerview's analysis would be realized in the amounts and at the times projected. Centerview expressed no view or opinion as to any such forecasts or other information or data, including the TWC forecasts, the Charter forecasts, the synergies or financial forecasts or other estimates relating to Bright House, or the assumptions on which they were based. Centerview assumed, with TWC's consent, that there would be no developments with respect to any of the following matters that would have an adverse effect in any material respect on TWC, Charter, New Charter, the transaction or the related transactions (including the contemplated benefits thereof) or that otherwise would be meaningful in any respect to its analyses or opinion: (i) the related transactions, including the timing thereof and assets, liabilities and financial and other terms involved; (ii) the potential impact on TWC, Charter and New Charter of market and other trends in and prospects for, and governmental, regulatory and legislative policies and matters relating to or affecting, the cable industry; (iii) existing and future relationships, agreements and arrangements with, and the ability to attract and retain, content providers and customers; and (iv) the ability to integrate the businesses of TWC and Charter.

In addition, at TWC's direction, Centerview did not make any independent evaluation or appraisal of any of the assets or liabilities (contingent, derivative, off-balance sheet or otherwise) of TWC, Charter, New Charter or any other entity, nor was Centerview furnished with any such evaluation or appraisal, and Centerview was not been asked to conduct, and did not conduct, a physical inspection of the properties or assets of TWC, Charter, New Charter or any other entity. Centerview assumed, at TWC's direction, that the final executed merger agreement would not differ in any respect material to Centerview's analysis or opinion from the draft merger agreement reviewed by Centerview. Centerview also assumed, at TWC's direction, that the transaction and the related transactions would be consummated on the terms set forth in the merger agreement and related documents (including commitment letters and related financing documents) and in accordance with all applicable laws and relevant documents or requirements without delay or the waiver, modification or amendment of any term, condition or agreement, the effect of which would be material to Centerview's analysis or opinion and that, in the course of obtaining the necessary governmental, regulatory and other approvals, consents, releases and waivers for the transaction and the related transactions, no delay, limitation, restriction, condition or other change, including any divestiture requirements or amendments or modifications, would be imposed, the effect of which would be material to Centerview's analysis or opinion. Centerview further assumed, at TWC's direction, that the transaction would have the tax treatment contemplated by the merger agreement. Centerview did not evaluate and did not express any opinion as to the solvency or fair value of TWC, Charter, New Charter or any other entity, or the ability of TWC, Charter, New Charter or any other entity to pay their respective obligations when they come due, or as to the impact of the transaction and the related transactions on such matters, under any state, federal or other laws relating to bankruptcy, insolvency or similar matters. Centerview is not a legal, regulatory, tax or accounting advisor, and Centerview expressed no opinion as to any legal, regulatory, tax or accounting matters.

Centerview was not authorized to, and it did not, undertake a third-party solicitation process on TWC's behalf regarding a potential transaction with TWC. Centerview's opinion was limited to and addressed only the fairness, from a financial point of view, as of the date of its opinion, to the holders of TWC common stock (other than excluded shares) of the merger consideration to be paid to such holders pursuant to the merger agreement. Centerview was not asked to, nor did it express any view on, and its opinion did not address, any other term or aspect of the merger agreement or the transaction, including, without limitation, the structure or form of the merger consideration or the

transaction, any related transactions or any voting agreement or other agreements or arrangements contemplated by the merger agreement or entered into in connection with or otherwise

Table of Contents

contemplated by the transaction, the related transactions or otherwise, including, without limitation, the fairness of the transaction and the related transactions or any other term or aspect of the transaction and the related transactions to, or any consideration to be received in connection therewith by, or the impact of the transaction and the related transactions on, the holders of any other class of securities, creditors or other constituencies of TWC or any other party. In addition, Centerview expressed no view or opinion as to the fairness (financial or otherwise) of the amount, nature or any other aspect of any compensation to be paid or payable to any of the officers, directors or employees of TWC or any other party, or class of such persons in connection with the transaction and the related transactions, whether relative to the merger consideration to be paid to the holders of TWC common stock (other than excluded shares) pursuant to the merger agreement or otherwise.

Centerview's opinion was necessarily based on financial, economic, monetary, currency, market and other conditions and circumstances as in effect on, and the information made available to Centerview as of, the date of its opinion, and Centerview does not have any obligation or responsibility to update, revise or reaffirm its opinion based on circumstances, developments or events occurring after the date of its opinion. Centerview expressed no view or opinion as to what the value of New Charter Class A common stock (or other securities of New Charter or any other entity) actually would be when issued pursuant to the transaction or the prices at which TWC common stock or New Charter Class A common stock (or other securities of New Charter or any other entity) would trade or otherwise be transferable at any time, including following announcement or consummation of the transaction and the related transactions. The issuance of Centerview's opinion was approved by Centerview's fairness opinion committee.

Miscellaneous

Centerview is a securities firm engaged directly and through affiliates and related persons in a number of investment banking financial advisory and merchant banking activities. In the past two years prior to the date of its opinion, Centerview provided investment banking or similar services to TWC for which it received compensation, including in connection with the previously announced and terminated Comcast-TWC merger agreement. During such two-year period, Centerview received for such services an aggregate fee of \$8 million from TWC. In the past two years prior to the date of its opinion, Centerview had not provided investment banking or similar services to Charter for which Centerview received compensation. Centerview may provide investment banking and other services to or with respect to TWC, Charter, New Charter or their respective affiliates or entities in which they have investments in the future, for which it may receive compensation. Certain (i) of Centerview's and its affiliates' directors, officers, members and employees, or family members of such persons, (ii) of Centerview's affiliates or related investment funds and (iii) investment funds or other persons in which any of the foregoing may have financial interests or with which they may co-invest, may at any time acquire, hold, sell or trade, in debt, equity and other securities or financial instruments (including derivatives, bank loans or other obligations) of, or investments in, TWC, Charter, New Charter or any of their respective affiliates, or any other party that may be involved in the transaction or the related transactions.

The TWC independent directors selected Centerview as its financial advisor in connection with the transaction based on Centerview's reputation and experience. Centerview is a nationally recognized investment banking firm that has substantial experience in transactions similar to the transaction.

In connection with Centerview's services as the TWC independent directors' financial advisor, TWC has agreed to pay Centerview an aggregate fee of \$27.5 million, of which \$7.5 million is payable in connection with its engagement, \$7.5 million was paid upon the rendering of Centerview's opinion and \$12.5 million is payable contingent upon consummation of the transaction. In addition, TWC has agreed to reimburse certain of Centerview's expenses arising, and indemnify against Centerview and related parties against certain liabilities, including under federal securities laws, that may arise, out of its engagement.

Table of Contents***Summary of Centerview Financial Analysis***

In connection with the rendering of its opinion to the TWC board of directors, Centerview performed a variety of financial and comparative analyses which are summarized below. The preparation of a financial opinion is a complex analytical process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, a financial opinion is not readily susceptible to summary description. Centerview arrived at its opinion based on the results of all analyses undertaken and assessed as a whole, and it did not draw, in isolation, conclusions from or with regard to any one factor or methods of analysis. Accordingly, Centerview believes that the financial analyses and this summary must be considered as a whole.

In performing its financial analyses, Centerview considered industry performance, general business, economic, market and financial conditions and other matters existing as of the date of its opinion, many of which are beyond TWC's and Charter's control. The assumptions and estimates contained in the financial analyses and the ranges of valuations resulting from any particular analysis are not necessarily indicative of actual values or future results, which may be significantly more or less favorable than those suggested by such analyses. In addition, financial analyses relating to the value of businesses or securities do not purport to be appraisals or to reflect the prices at which businesses or securities actually may be sold. Accordingly, the assumptions and estimates used in, and the results derived from, the financial analyses are inherently subject to substantial uncertainty.

Centerview was not requested to, and it did not, determine or recommend the specific consideration payable in the transaction and the related transactions or that any given consideration constituted the only appropriate consideration in the transaction and the related transactions. The type and amount of consideration payable in the transaction and the related transactions were determined through negotiations between TWC and Charter, and the decision to effect the transaction and the related transactions was solely that of the TWC board of directors. Centerview's financial analyses and opinion were only one of many factors considered by the TWC board of directors in its evaluation of the transaction and the related transactions and should not be viewed as determinative of the views of the TWC board of directors or management with respect to the transaction and the related transactions or the consideration payable in the transaction and the related transactions.

The following is a brief summary of the material financial analyses prepared and reviewed with the TWC board of directors in connection with Centerview's opinion, dated May 23, 2015. **The summary set forth below does not purport to be a complete description of the financial analyses performed or factors considered by, and underlying the opinion of, Centerview, nor does the order of the financial analyses described represent the relative importance or weight given to those financial analyses by Centerview. Certain financial analyses summarized below include information presented in tabular format. In order to fully understand the financial analyses, the tables must be read together with the text of each summary as the tables alone do not constitute a complete description of the financial analyses. Considering the data in the tables below without considering all financial analyses or factors or the full narrative description of such analyses or factors, including the methodologies and assumptions underlying such analyses or factors, could create a misleading or incomplete view of the processes underlying Centerview's financial analyses and its opinion. None of TWC, Charter, Centerview or any other person assumes responsibility if future results are different from those described, whether or not any such difference is material.** For purposes of the financial analyses described below, (i) earnings before interest, taxes, depreciation and amortization, referred to as EBITDA, was calculated net of stock-based compensation and, except as otherwise noted below, the financial analyses related to TWC and Charter took into account the present value of potential tax savings resulting from various tax attributes, such as net operating losses and step-ups in asset tax bases, collectively referred to as tax attributes, and (ii) the term implied merger consideration refers to an implied aggregate value equivalent to \$194.84 per share based on merger consideration of \$100 per share

in cash and 0.5409 of a share of Charter Class A common stock, utilizing, for the stock portion of the consideration, the closing price per share of Charter Class A common stock on May 22, 2015 of \$175.33. Centerview noted that the merger consideration based on

Table of Contents

the optional election of \$115 per share in cash and 0.4562 of a share of Charter Class A common stock, utilizing, for the stock portion of the consideration, such closing price per share of Charter Class A common stock, implied an aggregate value equivalent to \$194.99 per share.

TWC Financial Analyses*Selected Public Companies Analysis*

Centerview performed a selected public companies analysis of TWC in which Centerview reviewed certain financial and stock market information relating to TWC and the following three selected companies that Centerview in its professional judgment deemed generally relevant for comparative purposes as publicly traded companies in the cable industry, referred to as the TWC selected companies:

Charter Communications, Inc.

Comcast Corporation (cable business)

Cablevision Systems Corporation

Centerview reviewed, among other things, aggregate enterprise values (calculated as fully-diluted market capitalization as of May 22, 2015 plus total debt, plus minority interests, less cash and cash equivalents, less non-cable assets and less tax attributes) as a multiple of estimated EBITDA. The overall low to high next 12 months estimated EBITDA multiples observed for the TWC selected companies as of May 22, 2015 (the last trading day prior to the date on which the TWC board of directors approved the proposed mergers) were 7.0x to 9.2x. The next 12 months estimated EBITDA multiple as of May 22, 2015 observed for TWC was 8.3x. Centerview also noted that the overall low to high next 12 months estimated EBITDA multiples observed for the TWC selected companies as of February 11, 2014 (the last trading day prior to the date on which the TWC board of directors approved the proposed merger between TWC and Comcast Corporation) were 7.9x to 8.8x. Centerview also noted that the next 12 months estimated EBITDA multiple as of February 11, 2014 observed for TWC was 7.1x. Centerview then applied a selected range of estimated EBITDA multiples of 6.75x to 7.75x to TWC's next 12 months (as of May 22, 2015) estimated EBITDA. Financial data of the TWC selected companies and TWC were based on Wall Street research consensus estimates, public filings and other publicly available information.

This analysis indicated the following approximate implied per share equity value reference range for TWC common stock as compared to the implied merger consideration:

TWC Implied Per Share Equity

Value Reference Range
\$128 \$157

Implied Merger Consideration
\$194.84

No company or business used in this analysis is identical to TWC and, accordingly, an evaluation of the results of this analysis is not entirely mathematical. Rather, this analysis involves complex considerations and judgments concerning differences in financial characteristics and other factors that could affect the public trading or other values of the

companies or businesses to which TWC was compared.

Table of Contents*Selected Precedent Transactions Analysis*

Centerview performed a selected precedent transactions analysis of TWC in which Centerview reviewed publicly available financial terms of the following 11 selected transactions in the cable industry that Centerview in its professional judgment deemed generally relevant for comparative purposes, referred to as the selected transactions:

Announcement Date	Acquiror	Target
May 2015	Altice S.A.	Suddenlink Communications
March 2015	Charter Communications, Inc.	Bright House Networks, LLC
April 2014	Charter Communications, Inc./Comcast Corporation	Greatland Connections Inc. (spin-off and related transactions)
February 2014	Comcast Corporation	Time Warner Cable Inc.
March 2013	Liberty Media Corporation	Charter Communications, Inc. (27% equity stake)
February 2013	Charter Communications, Inc.	Bresnan Broadband Holdings, LLC
July 2012	BC Partners Ltd.	Suddenlink Communications
July 2012	Cogeco Cable, Inc.	Atlantic Broadband
June 2012	Oak Hill Capital Partners	WaveDivision Holdings, LLC
August 2011	Time Warner Cable Inc.	Insight Communications Company, Inc.
June 2010	Cablevision Systems Corporation	Bresnan Broadband Holdings, LLC

In this analysis, Centerview reviewed transaction values (calculated as the enterprise value implied for the target company based on the consideration payable in the selected transactions) as a multiple of the target company's one-year forward estimated EBITDA both with and without taking into account tax attributes other than step-ups in asset tax bases. The overall low to high one-year forward estimated EBITDA multiples observed for the target companies were 6.6x to 9.2x adjusted for tax attributes and 7.1x to 9.6x (with a mean of 8.2x) not adjusted for tax attributes. Centerview then applied selected ranges of one-year forward estimated EBITDA multiples of 7.75x to 8.5x adjusted for tax attributes and 8.0x to 9.0x not adjusted for tax attributes derived from the selected transactions to corresponding data of TWC. Financial data of the selected transactions were based on Wall Street research consensus estimates, public filings and other publicly available information. Financial data of TWC was based on the TWC forecasts.

This analysis indicated the following approximate implied per share equity value reference ranges for TWC common stock both adjusted and not adjusted for tax attributes as compared to the implied merger consideration:

Implied Per Share

Equity Value Reference Ranges for TWC				Implied Merger Consideration
Adjusted for Tax Attributes		Not Adjusted for Tax Attributes		
\$157	\$179	\$158	\$187	\$194.84

No company, business or transaction used in this analysis is identical to TWC or the transaction and, accordingly, an evaluation of the results of this analysis is not entirely mathematical. Rather, this analysis involves complex considerations and judgments concerning differences in financial and operating characteristics that could affect the acquisition or other values of the companies, businesses or transactions to which TWC and the transaction were

compared.

Discounted Cash Flow Analysis

Centerview performed a discounted cash flow analysis of TWC in which Centerview calculated the estimated present value of the standalone unlevered after-tax free cash flows that TWC was forecasted to generate during the nine-month period ending December 31, 2015 through the full calendar year ending

Table of Contents

December 31, 2024. Financial data of TWC was based on the TWC forecasts. For purposes of this analysis, stock-based compensation was treated as a cash expense. The terminal value of TWC at the end of the forecast period was estimated, assuming normalized depreciation expense equal to capital expenditures in perpetuity, by using perpetuity growth rates ranging from 1.0% to 1.5%. The cash flows and terminal values were then discounted to present value (as of May 22, 2015) using discount rates ranging from 6.50% to 7.50%. This analysis indicated the following approximate implied per share equity value reference range for TWC common stock as compared to the implied merger consideration:

TWC Implied Per Share Equity

Value Reference Range
\$130 \$182

Implied Merger Consideration
\$194.84

Charter Financial Analyses*Selected Public Companies Analysis*

Centerview performed a selected public companies analysis of Charter in which Centerview reviewed certain financial and stock market information relating to Charter and the following three selected companies that Centerview in its professional judgment deemed generally relevant for comparative purposes as publicly traded companies in the cable industry, referred to as the Charter selected companies:

Comcast Corporation (cable business)

Cablevision Systems Corporation

Time Warner Cable Inc.

Centerview reviewed, among other things, aggregate enterprise values (calculated as fully-diluted market capitalization as of May 22, 2015 plus total debt, plus minority interests, less cash and cash equivalents, less non-cable assets and less tax attributes) as a multiple of estimated EBITDA. The overall low to high next 12 months estimated EBITDA multiples observed for the Charter selected companies as of May 22, 2015 (the last trading day prior to the date on which the TWC board of directors approved the proposed mergers) were 7.0x to 8.3x. The next 12 months estimated EBITDA multiple as of May 22, 2015 observed for Charter was 9.2x. Centerview noted that the overall low to high next 12 months estimated EBITDA multiples observed for the Charter selected companies as of February 11, 2014 (the last trading day prior to the date on which the TWC board of directors approved the proposed merger between TWC and Comcast Corporation) were 7.1x to 7.9x. Centerview also noted that the next 12 months estimated EBITDA multiple as of February 11, 2014 observed for Charter was 8.8x. Centerview then applied a selected range of estimated EBITDA multiples of 8.0x to 9.2x to Charter's next 12 months (as of May 22, 2015) estimated EBITDA. Financial data of the Charter selected companies and Charter were based on Wall Street research consensus estimates, public filings and other publicly available information.

This analysis indicated the following approximate implied per share equity value reference range for Charter Class A common stock as compared to the closing price of Charter Class A common stock on May 22, 2015:

Charter Implied Per Share Equity

Value Reference Range
\$142 \$178

Charter Closing Stock Price
\$175.33

No company or business used in this analysis is identical to Charter and, accordingly, an evaluation of the results of this analysis is not entirely mathematical. Rather, this analysis involves complex considerations and judgments concerning differences in financial characteristics and other factors that could affect the public trading or other values of the companies or businesses to which Charter was compared.

Table of Contents*Discounted Cash Flow Analysis*

Centerview performed a discounted cash flow analysis of Charter in which Centerview calculated the estimated present value of the standalone unlevered after-tax free cash flows that Charter was forecasted to generate during the nine-month period ending December 31, 2015 through the full calendar year December 31, 2024. Financial data of Charter was based on the Charter forecasts. For purposes of this analysis, stock-based compensation was treated as a cash expense. The terminal value of Charter at the end of the forecast period was estimated, assuming normalized depreciation expense equal to capital expenditures in perpetuity, by using perpetuity growth rates ranging from 1.0% to 1.5%. The cash flows and terminal values were then discounted to present value (as of May 22, 2015) using discount rates ranging from 7.5% to 8.5%. This analysis indicated the following approximate implied per share equity value reference range for Charter Class A common stock as compared to the closing price of Charter Class A common stock on May 22, 2015:

Charter Implied Per Share Equity

Value Reference Range	Charter Closing Stock Price
\$147 \$199	\$175.33

Other Factors. Centerview observed certain additional factors that were not considered part of its financial analyses with respect to its opinion but were referenced for informational purposes, including, among other things, the following:

trading prices for TWC common stock during the 52-week period ended May 22, 2015, which ranged from approximately \$132 to \$171 per share, as compared to the implied merger consideration of \$194.84;

trading prices for Charter Class A common stock during the 52-week period ended May 22, 2015, which ranged from approximately \$140 to \$193 per share, as compared to the closing price of Charter Class A common stock of \$175.33 per share on May 22, 2015;

historical trading prices for TWC common stock and Charter Class A common stock from February 12, 2014 to May 22, 2015 as compared to the Standard & Poor's 500 index, which indicated that trading prices for TWC common stock and Charter Class A common stock and the Standard & Poor's 500 index increased by approximately 26.5%, 27.4% and 16.9%, respectively, over such period;

historical exchange ratios for TWC common stock (less \$100) and Charter Class A common stock from May 22, 2013 to May 22, 2015, which indicated (i) an implied exchange ratio as of May 22, 2015 of approximately 0.406x, (ii) six-month, one-year and two-year (as of May 22, 2015) average implied exchange ratios of approximately 0.292x, 0.292x and 0.237x, respectively, and (iii) low to high implied exchange ratios over the two-year period ended May 22, 2015 of approximately (0.062x) to 0.406x, as compared to the exchange ratio for the stock portion of the merger consideration of 0.541x;

publicly available stock price targets of selected research analysts for TWC common stock and Charter Class A common stock, which indicated standalone stock price targets for TWC common stock of \$138 to \$180 per share and standalone stock price targets for Charter Class A common stock of \$148 to \$205 per share; and

illustrative pro forma financial effects of the transaction on, among other things, Charter's calendar years 2016 and 2017 estimated levered free cash flow per share based on, in the case of TWC, the TWC forecasts and, in the case of Charter, the Charter forecasts (including the financial forecasts and other estimates reflected in the Charter forecasts relating to Bright House prepared by the management of Charter) after taking into account potential synergy phasing and run-rate cost synergies anticipated by the managements of TWC and Charter to result from the transaction which, based on the implied merger consideration of \$194.84 and the closing price of Charter Class A common stock on May 22, 2015 of \$175.33 per share, indicated that the transaction could be accretive to Charter's calendar years 2016 and 2017 estimated levered free cash flow per share. Actual results achieved by the combined company may vary from forecasted results and variations may be material.

Opinions of Charter's Financial Advisors

Opinion of Goldman, Sachs & Co. Rendered in Connection with the TWC Transactions

On May 23, 2015, at a meeting of the board of directors of Charter, Goldman Sachs rendered its oral opinion, subsequently confirmed in writing, to the effect that, as of May 23, 2015, based upon and subject to the factors and assumptions set forth in Goldman Sachs' written opinion, and taking into account the TWC Acquisition (as defined below), the Parent Merger Exchange Ratio pursuant to the merger agreement was fair from a financial point of view to the holders (other than Liberty Broadband and affiliates of a significant shareholder of Liberty Broadband, which we refer to, collectively, as the Liberty-related entities, and TWC and each of their respective affiliates) of shares of Charter Class A common stock. For purposes of Goldman Sachs' opinion, TWC Acquisition was defined as the acquisition of all of the outstanding shares of common stock of TWC for consideration consisting of cash and shares of New Charter Class A common stock pursuant to the mergers and transactions contemplated by the merger agreement and the Liberty contribution agreement, together with the investment by Liberty Broadband of \$4.3 billion in cash in New Charter in exchange for shares of New Charter Class A common stock as contemplated by the Liberty investment agreement.

The full text of the written opinion of Goldman Sachs, dated May 23, 2015, which sets forth the assumptions made, procedures followed, matters considered, qualifications and limitations on the review undertaken in connection with the opinion, is attached to this joint proxy statement/prospectus as Annex H. The summary of Goldman Sachs' opinion provided in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of Goldman Sachs' written opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its consideration of the transactions contemplated by the merger agreement, the Liberty contribution agreement and the Liberty investment agreement, which we refer to, collectively for purposes of this section, as the TWC transactions, and the opinion does not constitute a recommendation as to how any holder of Charter Class A common stock should vote with respect to any portion of the TWC transactions or any other matter.

In connection with rendering the opinion described above and performing its related financial analyses, Goldman Sachs reviewed, among other things:

the merger agreement;

the Liberty contribution agreement and the Liberty investment agreement;

annual reports to stockholders and Annual Reports on Form 10-K of Charter and TWC for the five fiscal years ended December 31, 2014;

certain interim reports to stockholders and Quarterly Reports on Form 10-Q of Charter and TWC;

certain other communications from Charter and TWC to their respective stockholders;

certain publicly available research analyst reports for Charter and TWC;

audited financial statements for Bright House for the three fiscal years ended December 31, 2014;

unaudited financial results for Bright House for the period from January 1, 2015 through February 28, 2015;
and

certain internal financial analyses and forecasts for Charter, certain financial analyses and forecasts for TWC, certain financial analyses and forecasts for Bright House, and certain pro forma financial analyses and forecasts for New Charter giving effect to consummation of the TWC transactions (both with and without giving effect to the BHN transactions, in each case as prepared by the management of Charter and approved for Goldman Sachs use by Charter, which we refer to as the forecasts, including certain operating synergies projected by the management of Charter to result from the TWC transactions and the BHN transactions, as approved for Goldman Sachs use by Charter, which we refer to as the synergies).

Table of Contents

Goldman Sachs held discussions with members of senior management of TWC regarding their assessment of the past and current business operations, financial condition and future prospects of TWC and with members of the senior management of Charter regarding their assessment of the past and current business operations, financial condition and future prospects of TWC, Bright House, Charter and New Charter and the strategic rationale for, and the potential benefits of, the TWC transactions and the BHN transactions; reviewed the reported price and trading activity for the shares of Charter Class A common stock and the shares of TWC common stock, compared certain financial and stock market information for Charter and TWC with similar financial and stock market information for certain other companies the securities of which are publicly traded; reviewed the financial terms of certain recent business combinations in the cable industry and in other industries; and performed such other studies and analyses, and considered such other factors, as Goldman Sachs deemed appropriate.

For purposes of rendering its opinion, Goldman Sachs, with the consent of Charter, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by, Goldman Sachs, without assuming any responsibility for independent verification thereof. In that regard, Goldman Sachs assumed, with the consent of the board of directors of Charter, that the forecasts and the synergies had been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of Charter. Goldman Sachs did not make any independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities) of TWC, Charter, New Charter, Bright House or any of their respective subsidiaries and Goldman Sachs was not furnished with any such evaluation or appraisal. Goldman Sachs assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the TWC transactions (and, if the BHN transactions are consummated, the BHN transactions) will be obtained without any adverse effect on Charter, TWC or Bright House, or on the expected benefits of the TWC transactions or the BHN transactions in any way meaningful to its analysis. Goldman Sachs assumed that the TWC transactions will be consummated on the terms set forth in the merger agreement, the Liberty contribution agreement and the Liberty investment agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis. Goldman Sachs also assumed that, if the BHN transactions are consummated, they will be consummated on the terms set forth in the BHN contribution agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis.

Goldman Sachs' opinion did not address the underlying business decision of Charter to engage in the TWC transactions, or the relative merits of the TWC transactions as compared to any strategic alternatives that may be available to Charter; nor did it address any legal, regulatory, tax or accounting matters. Goldman Sachs' opinion addressed only the fairness from a financial point of view to the holders (other than the Liberty-related entities and TWC and their respective affiliates) of Charter Class A common stock, as of May 23, 2015, the date of Goldman Sachs' opinion and taking into account the TWC Acquisition, of the Parent Merger Exchange Ratio pursuant to the merger agreement. Goldman Sachs did not express any view on, and its opinion did not address, any other term or aspect of the merger agreement or the TWC transactions or any term or aspect of any other agreement or instrument contemplated by the merger agreement or entered into or amended in connection with the TWC transactions, including the fairness of the TWC transactions to, or any consideration received in connection therewith by, the holders of any class of securities, creditors, or other constituencies of Charter; nor as to the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of Charter, New Charter or TWC, or any class of such persons in connection with the TWC transactions, whether relative to the Parent Merger Exchange Ratio pursuant to the merger agreement or otherwise. Goldman Sachs did not express any opinion as to the prices at which the shares of New Charter Class A common stock will trade at any time or as to the impact of the TWC transactions or the BHN transactions on the solvency or viability of Charter, New Charter, TWC or Bright House or the ability of Charter, New Charter, TWC or Bright House to pay their respective obligations when they come due. Goldman Sachs' opinion was necessarily based on economic, monetary, market and other conditions as in

effect on, and the information made available to Goldman Sachs as of, May 23, 2015, the date of its opinion, and Goldman Sachs assumed no responsibility for updating, revising or reaffirming its opinion based on circumstances, developments

Table of Contents

or events occurring after the date of its opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its consideration of the TWC transactions and its opinion does not constitute a recommendation as to how any holder of Charter Class A common stock should vote with respect to any portion of the TWC transactions or any other matter. Goldman Sachs' opinion was approved by a fairness committee of Goldman Sachs.

The following is a summary of the material financial analyses presented by Goldman Sachs to the board of directors of Charter on May 23, 2015 in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Goldman Sachs, nor does the order of analyses described represent relative importance or weight given to those analyses by Goldman Sachs. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Goldman Sachs financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before May 21, 2015 and is not necessarily indicative of current market conditions.

Illustrative Discounted Cash Flow Analyses

Using the forecasts, Goldman Sachs performed illustrative discounted cash flow analyses to derive present values as of December 31, 2015 of:

Charter on a standalone basis;

New Charter on a pro forma basis (giving effect to the consummation of the TWC transactions, but not the BHN transactions), which we refer to as the Combined New Charter/TWC, assuming, alternatively, that (i) all TWC stockholders (other than Liberty Broadband and Liberty Interactive) are paid merger consideration per share of TWC common stock of \$100 in cash and a fraction of a share of New Charter Class A common stock equal to 0.5409 multiplied by the Parent Merger Exchange Ratio, which we refer to as the \$100 cash consideration scenario, and (ii) all TWC stockholders (other than Liberty Broadband and Liberty Interactive) are paid merger consideration per share of TWC common stock of \$115 in cash and a fraction of a share of New Charter Class A common stock equal to 0.4562 multiplied by the Parent Merger Exchange Ratio, which we refer to as the \$115 cash consideration scenario;

New Charter on a pro forma basis (giving effect to the consummation of both the TWC transactions and the BHN transactions), which we refer to as Combined New Charter/TWC/BHN, assuming, alternatively, the \$100 cash consideration scenario and the \$115 cash consideration scenario; and

TWC on a standalone basis, under Charter management.

For purposes of its analysis with respect to each of the foregoing, Goldman Sachs derived an illustrative range of enterprise values as of December 31, 2015 for each of Charter on a standalone basis, Combined New Charter/TWC (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario) and Combined New Charter/TWC/BHN (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario) by applying discount rates ranging from 6.25% to 7.25%, reflecting an estimate of the weighted average cost of capital of

Charter and New Charter, to (a) estimates of the unlevered free cash flows to be generated by the applicable company for the years 2016 through 2019 as reflected in the forecasts, including in the case of Combined New Charter/TWC, Combined New Charter/TWC/BHN and TWC on a standalone basis, under Charter management, the synergies, and (b) a range of illustrative terminal values for the applicable company at the end of 2019. The range of illustrative terminal values was derived by applying illustrative multiples ranging from 6.5x to 7.5x to estimated terminal year earnings before interest, taxes, depreciation and amortization, or EBITDA, adjusted to add equity based compensation cost (consistent with how Charter discloses its EBITDA), which we refer to as Adjusted EBITDA, for the applicable company, as reflected in the forecasts, and in the case of Combined New Charter/TWC, Combined New Charter/TWC/BHN and TWC on a standalone

Table of Contents

basis, under Charter management, the synergies. For purposes of deriving an illustrative range of enterprise values for Charter on a standalone basis, Combined New Charter/TWC and Combined New Charter/TWC/BHN, Goldman Sachs added the present value as of December 31, 2015 (derived using a discount rate of 9.98%) of estimates of tax savings anticipated to be realized from Charter's current net operating losses and other tax attributes, as reflected in the forecasts. For purposes of deriving an illustrative range of enterprise values for Combined New Charter/TWC/BHN, Goldman Sachs added the net present value (derived using a discount rate of 9.98%) as of December 31, 2015 of Charter management's estimates of the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits. For purposes of deriving an illustrative range of enterprise values for Combined New Charter/TWC, Combined New Charter/TWC/BHN and TWC on a standalone basis, under Charter management, Goldman Sachs added Charter management's estimate of the value of certain equity investments held by TWC. For purposes of deriving an illustrative range of enterprise values for TWC on a standalone basis, Goldman Sachs added the present value as of December 31, 2015 (derived using a discount rate of 9.98%) of estimates of tax savings anticipated to be realized from TWC's existing tax attributes, as reflected in the forecasts.

To derive an illustrative range of equity values for each of Charter on a standalone basis, Combined New Charter/TWC (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), Combined New Charter/TWC/BHN (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario) and TWC on a standalone basis, Goldman Sachs subtracted from the range of enterprise values it derived for each such company an estimate of the net debt of the applicable company as of December 31, 2015, as reflected in the forecasts.

Goldman Sachs then divided the illustrative ranges of equity values it derived by the total number of fully diluted shares of common stock of (i) Charter on a standalone basis, (ii) Combined New Charter/TWC anticipated to be outstanding after giving effect to the TWC transactions and without giving effect to the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), (iii) Combined New Charter/TWC/BHN anticipated to be outstanding after giving effect to both the TWC transactions and the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), in each case as provided by Charter management, to derive illustrative present values for a share of Charter Class A common stock on a standalone basis, for 0.9042 of one share of Combined New Charter/TWC giving effect only to the TWC transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), and for 0.9042 of one share of Combined New Charter/TWC/BHN giving effect to both the TWC transactions and the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), and (iv) TWC on a standalone basis, under Charter management.

The illustrative value ranges as of December 31, 2015 derived from the foregoing analyses are as follows:

One share of Charter Class A common stock	\$ 177-\$220
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$100 cash consideration scenario	\$ 171-\$229
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$115 cash consideration scenario	\$ 171-\$233
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$100 cash consideration scenario	\$ 181-\$238
	\$ 181-\$243

0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$115 cash consideration scenario

One share of TWC common stock on a standalone basis, under Charter management \$ 191-\$234

Table of Contents

Illustrative Present Value of Future Share Price Analyses

Goldman Sachs calculated illustrative ranges of implied present values as of December 31, 2015 of one share of Charter Class A common stock on a standalone basis; of 0.9042 of one share of Class A common stock of Combined New Charter/TWC under, alternatively, the \$100 cash consideration scenario and the \$115 cash consideration scenario; and of 0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN under, alternatively, the \$100 cash consideration scenario and the \$115 cash consideration scenario.

For purposes of this analysis, Goldman Sachs derived theoretical future values as of December 31, 2019 by:

applying an illustrative range of one year forward EBITDA multiples of 6.5x to 7.5x to the estimate of 2019 Adjusted EBITDA for the applicable company as reflected in the forecasts, including, in the case of Combined New Charter/TWC and Combined New Charter/TWC/BHN, the synergies;

subtracting an assumed amount of net debt equal to the estimate of 2019 Adjusted EBITDA as reflected in the forecasts, multiplied by the midpoint of Charter management's anticipated range of its leverage ratios;

adding the present value per share as of December 31, 2019 (derived using a discount rate of 9.98%) of estimates of the tax savings anticipated to be realized from Charter's current net operating losses and other tax attributes;

adding, in the case of Combined New Charter/TWC/BHN, the net present value per share (derived using a discount rate of 9.98%) as of December 31, 2019 of Charter management's estimates of the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits;

adding, in the case of Combined New Charter/TWC and Combined New Charter/TWC/BHN, Charter management's estimate of the value per share as of December 31, 2019 of certain equity investments held by TWC; and

dividing the result by Charter management's estimate of the total number of (i) fully diluted shares of Charter Class A common stock anticipated to be outstanding as of December 31, 2019 on a standalone basis, (ii) fully diluted shares of Class A common stock of Combined New Charter/TWC anticipated to be outstanding as of December 31, 2019 giving effect to the TWC transactions and without giving effect to the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), and (iii) fully diluted shares of Class A common stock of Combined New Charter/TWC/BHN anticipated to be outstanding as of December 31, 2019 giving effect to both the TWC transactions and the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), in each case taking into account estimated share repurchases, all as provided by Charter's management.

Goldman Sachs derived present values per share as of December 31, 2015 by applying discount rates ranging from 9.5% to 10.5%, reflecting an estimate of Charter and New Charter's cost of equity, to the theoretical future values per share it derived as described above.

Table of Contents

The illustrative value ranges as of December 31, 2015 derived from the foregoing analyses are as follows:

One share of Charter Class A common stock	\$ 193-\$232
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$100 cash consideration scenario	\$ 198-\$248
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$115 cash consideration scenario	\$ 202-\$256
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$100 cash consideration scenario	\$ 213-\$261
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$115 cash consideration scenario	\$ 209-\$262
<i>Comparable Companies Analysis</i>	

Goldman Sachs calculated and compared (i) (a) the multiple of the transaction value, which we refer to as TV, of TWC based on the aggregate consideration proposed to be paid in the TWC transactions to the estimated 2015 EBITDA for TWC, as reflected in the forecasts, (b) the multiple of the TV of TWC based on the aggregate consideration proposed to be paid in the TWC transactions less the present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes, as reflected in the forecasts, to estimated 2015 EBITDA for TWC, as reflected in the forecasts, (c) the multiple of the TV of TWC based on the aggregate consideration proposed to be paid in the TWC transactions less the present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes, as reflected in the forecasts, to estimated 2015 EBITDA for TWC, as reflected in the forecasts and giving effect to the synergies; (ii) (a) the multiple of the combined TV of TWC and BHN, based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions, to estimated combined 2015 EBITDA for TWC and BHN as reflected in the forecasts, (b) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts, and (c) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts, and giving effect to the synergies; and (iii) multiples of implied enterprise value, adjusted to exclude the present value of tax assets where applicable, which we refer to as adjusted enterprise value, for each of the following selected companies (calculated as described below) to estimated 2015 EBITDA for each of the selected companies:

Charter

TWC

Comcast Corporation

Cablevision Systems Corporation

190

Table of Contents

This analysis was undertaken to assist Goldman Sachs and Charter's board of directors in understanding how the adjusted enterprise value/2015E EBITDA multiples for the selected companies (based on their current trading prices and analyst EBITDA estimates) compared to the TV/2015E EBITDA multiples implied by the aggregate consideration proposed to be paid for TWC in the TWC transactions and the aggregate consideration proposed to be paid for TWC and BHN in the TWC transactions and the BHN transactions. Although none of the selected companies is directly comparable to TWC or BHN (except TWC as compared to itself), the companies included were chosen because they are publicly traded companies in the cable industry with operations that, for purposes of analysis, may be considered similar to certain operations of TWC or BHN.

For purposes of these calculations, Goldman Sachs calculated an implied equity value for each selected company by multiplying the number of fully diluted outstanding shares of that company as reported in its most recent SEC filings by each company's closing share price on May 21, 2015. By adding the net debt amount of each selected company as reported in its most recent public filings as of May 21, 2015 to the implied equity value of such company derived from the foregoing calculations adjusted to deduct the net present value as of December 31, 2015 of estimates of the net tax savings anticipated to be realized by the selected companies based on available information regarding the net present value of their respective tax assets and an implied value of each company's non-cable assets derived based on publicly available information, Goldman Sachs calculated an implied adjusted enterprise value, which we refer to as Adjusted EV, for each company. The multiples for each of the selected companies were calculated using the median 2015 EBITDA estimates for each company published by the Institutional Brokers Estimate System as of May 21, 2015 and, where applicable, adjusted to exclude the 2015 EBITDA from any non-cable assets based on publicly available estimates.

The table below compares the TV/2015E EBITDA multiples implied by the consideration to be paid by New Charter in the TWC transactions without giving effect to the BHN transactions and in the TWC transactions and the BHN transactions, together, calculated with and without accounting for the net present values of any tax assets that are expected to be realized by New Charter and with and without synergies to be realized by New Charter, to the high and low Adjusted EV/2015E EBITDA multiples calculated by Goldman Sachs for the selected companies.

	TWC	TWC (TV Adjusted for Tax Assets)	TWC (TV Adjusted for Tax Assets and synergies)	TWC and BHN	TWC and BHN (TV Adjusted for Tax Assets)	TWC and BHN (TV Adjusted for Tax Assets and synergies)	Selected Companies	
							High	Low
TV or Adjusted EV to 2015E EBITDA	9.4x	9.2x	8.4x	9.1x	8.9x	8.2x	9.0x	6.9x

Selected Precedent Transactions Analysis

Goldman Sachs calculated and compared (i) (a) the multiple of TV of TWC based on the aggregate consideration proposed to be paid in the TWC transactions to the estimated 2015 EBITDA for TWC, as reflected in the forecasts, and (b) the multiple of the TV of TWC based on the aggregate consideration proposed to be paid in the TWC transactions less the present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter

management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes, as reflected in the forecasts, to estimated 2015 EBITDA for TWC, as reflected in the forecasts; (ii) (a) the multiple of the combined TV of TWC and BHN, based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions, to combined estimated 2015 EBITDA for TWC and BHN, as reflected in the forecasts, and (b) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated

Table of Contents

by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts; and (iii) multiples of the implied TV in each of the following selected transactions in the cable industry based on the announced transaction price as a multiple of the target company's estimated EBITDA for the four quarter period after the announcement of the transaction based on Wall Street analyst estimates, which we refer to as Forward EBITDA. With respect to each of the following selected transactions, Goldman Sachs calculated an implied adjusted transaction value by deducting the net present value of the target companies' respective tax assets, to the extent such information was publicly available and applicable.

Date Announced	Target	Acquirer
04/2014	TWC/Comcast Systems	Charter
02/2014	TWC	Comcast Corporation
02/2013	Bresnan Cable Systems	Charter
08/2011	Insight Communications Company, Inc.	TWC
06/2010	Bresnan Communications LLC	Cablevision Corporation

This analysis was undertaken to assist Goldman Sachs and Charter's board of directors in understanding how the TV/Forward EBITDA multiples for the selected transactions compared with the TV/2015E EBITDA multiple implied by the aggregate consideration to be paid in the TWC transactions and in the TWC transactions and the BHN transactions combined. With respect to New Charter and each selected transaction, the EBITDA multiples were calculated both with, and without, accounting for the present values of any tax assets that are expected to be realized by the target company wherever applicable. The table below presents the results of this analysis.

TV/2015E EBITDA		Selected Transactions (TV/Forward EBITDA)		
TWC				
(TV Adjusted for	TWC and BHN	High/Median/Low	High/Median/Low	
Tax Assets)	(TV Adjusted for	High/Median/	(TV Adjusted for	
TWC	Tax Assets)	Low	Tax Assets)

				7.9x/7.1x/5.9x

General

The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth above, without considering the analyses as a whole, could create an incomplete view of the processes underlying Goldman Sachs' opinion. In arriving at its fairness determination, Goldman Sachs considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis considered by it. Rather, Goldman Sachs made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses. No company or transaction used in the above analyses as a comparison is directly comparable to Charter, New Charter, TWC or BHN (except TWC as compared to itself) or to the TWC transactions or the BHN transactions.

Goldman Sachs prepared these analyses for purposes of providing its opinion to the board of directors of Charter as to the fairness from a financial point of view to the holders of shares of Charter Class A common stock (other than the Liberty-related entities and TWC and their respective affiliates), as of May 23, 2015, the date of the opinion, and taking into account the TWC Acquisition, of the Parent Merger Exchange Ratio pursuant to the merger agreement.

These analyses do not purport to be appraisals nor do they necessarily reflect the prices at which businesses or securities actually may be sold. Analyses based upon projections of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors, none of Charter, Goldman Sachs or any other person assumes responsibility if future results are materially different from those forecast.

Table of Contents

The Parent Merger Exchange Ratio was determined through arm's-length negotiations between Charter and TWC and was approved by the board of directors of Charter. Goldman Sachs provided advice to Charter during these negotiations. Goldman Sachs did not, however, recommend any specific amount of consideration to Charter or that any specific amount of consideration constituted the only appropriate consideration for the TWC transactions.

As described above, Goldman Sachs' opinion was one of many factors taken into consideration by the board of directors of Charter in considering the TWC transactions. The foregoing summary does not purport to be a complete description of the analyses performed by Goldman Sachs in connection with the delivery of its fairness opinion to Charter's board of directors and is qualified in its entirety by reference to the written opinion of Goldman Sachs attached as Annex H to this joint proxy statement/prospectus.

Goldman Sachs and its affiliates are engaged in advisory, underwriting and financing, principal investing, sales and trading, research, investment management and other financial and non-financial activities and services for various persons and entities. Goldman Sachs and its affiliates and employees, and funds or other entities they manage or in which they invest or have other economic interests or with which they co-invest, may at any time purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of Charter, New Charter, TWC and any of their respective affiliates and third parties, including the Liberty-related entities, or any currency or commodity that may be involved in the transactions contemplated by the merger agreement, the Liberty contribution agreement and the Liberty investment agreement for the accounts of Goldman Sachs and its affiliates and their customers. Goldman Sachs has acted as financial advisor to Charter in connection with, and has participated in certain of the negotiations leading to, the TWC transactions. At the request of the board of directors of Charter, affiliates of Goldman Sachs have entered into financing commitments and agreements to provide Charter with incremental term loan, revolving credit and bridge loan facilities in connection with the consummation of the TWC transactions, in each case subject to the terms of such commitments and agreements, which is referred to as the TWC transactions financing. Pursuant to such financing transactions, Goldman Sachs expects to receive certain fees. Goldman Sachs has provided certain financial advisory and/or underwriting services to Charter and/or its affiliates from time to time for which its investment banking division has received, and may receive, compensation, including having acted as financial advisor to Charter in connection with the BHN transactions; as joint bookrunner in connection with a senior secured term loan due 2021 (aggregate principal amount \$3.5 billion) provided to a subsidiary of Charter in September 2014; as joint bookrunner in connection with a public offering of 5.50% Senior Unsecured Notes due 2022 (aggregate principal amount of \$1.5 billion) and 5.75% Senior Unsecured Notes due 2024 (aggregate principal amount \$2.0 billion) by a subsidiary of Charter in November 2014; and as joint bookrunner in connection with a public offering of 5.125% Senior Unsecured Notes due 2023 (aggregate principal amount \$1,150,000,000), 5.375% Senior Unsecured Notes due 2025 (aggregate principal amount \$750,000,000) and 5.875% Senior Unsecured Notes due 2027 (aggregate principal amount \$800,000,000) in April 2015. Goldman Sachs also has provided certain financial advisory and/or underwriting services to the Liberty related entities and their respective affiliates from time to time for which its investment banking division has received, and may receive, compensation, including having acted as joint bookrunner with respect to the refinancing of indebtedness of VTR GlobalCom Spa, which we refer to as VTR GlobalCom and certain of its affiliates and the related public offering of 6.875% Senior Secured Notes due 2024 (aggregate principal amount \$1,400,000,000) by VTR Finance B.V. in January 2014; as joint bookrunner with respect to the public offering of 5.500% Senior Secured Notes due 2025 (aggregate principal amount of \$425,000,000), 5.500% Senior Secured Notes due 2025 (aggregate principal amount £430,000,000) and 6.250% Senior Secured Notes due 2029 (aggregate principal amount £225,000,000) by Virgin Media Secured Finance PLC, which we refer to as Virgin Media Secured Finance in March 2014; as financial advisor to Liberty Global plc, which we refer to as Liberty Global, in its acquisition of certain outstanding shares of VTR GlobalCom and VTR Wireless SpA in March 2014; as sole bookrunner with respect to the public offering of 6.250% Senior Secured Notes due 2029 (aggregate principal amount £175,000,000) by Virgin Media Secured Finance in April 2014; as financial advisor to Liberty Global in its acquisition of a 6.400% stake in ITV plc in July 2014; as

financial advisor to Liberty Global with respect to a redemption of certain Senior Secured Notes due 2019 and the public offering of 6.375%

Table of Contents

Senior Secured Notes due 2024 (aggregate principal amount £300,000,000) and 6.000% Senior Secured Notes due 2024 (aggregate principal amount \$500,000,000) in October 2014; as joint bookrunner with respect to the public offering of 4.000% Senior Secured Notes due 2025 (aggregate principal amount £1,000,000,000) and 5.000% Senior Secured Notes due 2025 (aggregate principal amount \$550,000,000) in December 2014 by Unitymedia Hessen GmbH & Co. KG and Unitymedia NRW GmbH; as joint bookrunner with respect to the public offering of 3.45% Senior Notes due 2025 (aggregate principal amount of \$300,000,000) in February 2015 by Discovery Communications LLC; as bookrunner with respect to the public offering of 5.25% Senior Secured Notes due 2026 (aggregate principal amount \$500,000,000) and 4.875% Senior Secured Notes due 2027 (aggregate principal amount £525,000,000) in March 2015 by a subsidiary of Virgin Media Inc.; as bookrunner with respect to the public offering of 5.250% Senior Secured Notes due 2026 (aggregate principal amount of \$500,000,000) in April 2015 by a subsidiary of Virgin Media Inc.; as financial advisor to Telenet Group Holding NV, which we refer to as Telenet, in connection with its acquisition of BASE Company NV in April 2015; and as joint global coordinator in connection with a 8-year term loan (aggregate principal amount of 800 million) made to Telenet in May 2015. Goldman Sachs may also in the future provide financial advisory and/or underwriting services to Charter, New Charter, TWC, the Liberty related entities and their respective affiliates for which its investment banking division may receive compensation.

Charter selected Goldman Sachs as its financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to the TWC transactions. Pursuant to a letter agreement, dated October 9, 2013, the board of directors of Charter engaged Goldman Sachs to act as its financial advisor in connection with the TWC transactions. Pursuant to the terms of this engagement letter, Charter agreed to pay Goldman Sachs fees of approximately \$42.5 million, subject to potential crediting of up to \$10.0 million in respect of fees payable to Goldman Sachs with respect to the TWC transactions financing, all of which is contingent upon the consummation of the TWC transactions. In addition, Charter agreed to reimburse Goldman Sachs for its expenses, including attorneys' fees and disbursements, and to indemnify Goldman Sachs and related persons against certain liabilities that may arise out of its engagement.

Opinion of Goldman, Sachs & Co. Rendered in Connection with the BHN Transactions

On May 23, 2015, at a meeting of the board of directors of Charter, Goldman Sachs rendered its oral opinion, subsequently confirmed in writing, to the effect that, as of May 23, 2015, based upon and subject to the factors and assumptions set forth in Goldman Sachs' written opinion, and taking into account, among other things, the issuance to Liberty Broadband of shares of New Charter Class A common stock pursuant to the BHN/Liberty stockholders agreement, which is referred to as the Liberty \$700 million stock issuance, and the amounts and timing of the payments estimated by Charter to be payable under the tax receivables agreement contemplated by the term sheet referenced below, which we refer to as the tax receivables payments, the aggregate consideration (consisting of approximately \$2.0 billion in cash, preferred units of Charter Holdings with a face amount of \$2.5 billion, 34,279,843 common units of Charter Holdings (or, if the TWC transactions are consummated before the BHN transactions are consummated, 30,992,406 common units of Charter Holdings), and one share of Class B common stock of New Charter), which we refer to as BHN consideration, to be paid by Charter Holdings and New Charter pursuant to the BHN contribution agreement was fair from a financial point of view to Charter.

The full text of the written opinion of Goldman Sachs, dated May 23, 2015, which sets forth the assumptions made, procedures followed, matters considered, qualifications and limitations on the review undertaken in connection with the opinion, is attached to this joint proxy statement/prospectus as Annex I. The summary of the Goldman Sachs opinion provided in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of Goldman Sachs' written opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its

consideration of the BHN transactions, and the opinion does not constitute a recommendation as to how any holder of Charter Class A common stock should vote with respect to any portion of the BHN transactions or any other matter.

Table of Contents

In connection with rendering the opinion described above and performing its related financial analyses, Goldman Sachs reviewed, among other things:

the BHN contribution agreement;

the BHN/Liberty stockholders agreement;

the term sheet attached as Exhibit B to the BHN contribution agreement, which we refer to as the term sheet;

annual reports to stockholders and Annual Reports on Form 10-K of Charter and TWC for the five fiscal years ended December 31, 2014;

certain interim reports to stockholders and Quarterly Reports on Form 10-Q of Charter and TWC;

certain other communications from Charter and TWC to their respective stockholders;

certain publicly available research analyst reports for Charter and TWC;

audited financial statements for Bright House for the three fiscal years ended December 31, 2014;

unaudited financial results for Bright House for the period from January 1, 2015 through February 28, 2015;

certain internal financial analyses and forecasts for Bright House for the fiscal year ending December 31, 2015, as prepared by Bright House management; and

certain internal financial analyses and forecasts for Charter, certain financial analyses and forecasts for Bright House, certain financial analyses and forecasts for TWC, and certain pro forma financial analyses and forecasts for New Charter giving effect to consummation of the BHN transactions (both with and without giving effect to the TWC transactions), in each case as prepared by the management of Charter and approved for Goldman Sachs use by Charter, which we refer to as the forecasts, including certain operating synergies projected by the management of Charter to result from the BHN transactions and the TWC transactions, as approved for Goldman Sachs use by Charter, which we refer to as the synergies.

Goldman Sachs held discussions with members of senior management of Charter regarding their assessment of the past and current business operations, financial condition and future prospects of BHN and Charter and the strategic rationale for, and the potential benefits of, the BHN transactions and the TWC transactions; reviewed the reported price and trading activity for the shares of Charter Class A common stock, compared certain financial and stock

market information for Charter and certain financial information for the business of Bright House with similar financial and stock market information for certain other companies the securities of which are publicly traded; reviewed the financial terms of certain recent business combinations in the cable industry; and performed such other studies and analyses, and considered such other factors, as Goldman Sachs deemed appropriate.

For purposes of rendering its opinion, Goldman Sachs, with the consent of Charter, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by, Goldman Sachs, without assuming any responsibility for independent verification thereof. In that regard, Goldman Sachs assumed, with the consent of the board of directors of Charter, that the forecasts and the synergies had been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of Charter. Goldman Sachs did not make any independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities) of New Charter, Charter, BHN, TWC or any of their respective subsidiaries and Goldman Sachs was not furnished with any such evaluation or appraisal. Goldman Sachs assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the BHN transactions (and, if the TWC transactions are consummated, the TWC transactions) will be obtained without any adverse effect on Charter, New Charter, Charter Holdings, BHN or TWC or on the expected benefits of the BHN

Table of Contents

transactions or the TWC transactions in any way meaningful to its analysis. Goldman Sachs assumed that the BHN transactions will be consummated on the terms set forth in the BHN contribution agreement, as amended, and the BHN/Liberty stockholders agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis. Goldman Sachs also assumed that, if the TWC transactions are consummated, they will be consummated on the terms set forth in the merger agreement, the Liberty contribution agreement and the Liberty investment agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis. Goldman Sachs also assumed that the transaction agreements and the amended and restated certificate of incorporation of New Charter (both as defined in the BHN/Liberty stockholders agreement) will reflect the terms and conditions set forth in the term sheet, without any amendments or modifications the effect of which would be in any way meaningful to its analysis.

Goldman Sachs' opinion did not address the underlying business decision of Charter to engage in the BHN transactions, or the relative merits of the BHN transactions as compared to any strategic alternatives that may be available to Charter; nor did it address any legal, regulatory, tax or accounting matters. Goldman Sachs' opinion addressed only the fairness from a financial point of view to Charter, as of May 23, 2015, the date of Goldman Sachs' opinion, and taking into account, among other things, the Liberty Broadband \$700 million stock issuance and the tax receivables payments, of the BHN consideration to be paid by Charter and Charter Holdings pursuant to the BHN contribution agreement. Goldman Sachs did not express any view on, and its opinion did not address, any ongoing obligations of Charter, New Charter, Charter Holdings, any allocation of the BHN consideration, any other term or aspect of the BHN contribution agreement or the BHN transactions or any term or aspect of any other agreement or instrument contemplated by the contribution agreement or entered into or amended in connection with the BHN transactions, including the fairness of the BHN transactions to, or any consideration received in connection therewith by, the holders of any class of securities, creditors, or other constituencies of Charter; nor as to the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of Charter or Bright House, or any class of such persons in connection with the BHN transactions, whether relative to the BHN consideration to be paid by Charter and Charter Holdings pursuant to the BHN contribution agreement or otherwise. Goldman Sachs did not express any opinion as to the prices at which shares of Charter Class A common stock or the shares of New Charter Class A common stock will trade at any time or as to the impact of the BHN transactions or the TWC transactions on the solvency or viability of Charter, New Charter, Charter Holdings, BHN, A/N or TWC or the ability of Charter, New Charter, Charter Holdings, BHN, A/N or TWC to pay their respective obligations when they come due. Goldman Sachs' opinion was necessarily based on economic, monetary, market and other conditions as in effect on, and the information made available to Goldman Sachs as of, May 23, 2015, the date of its opinion, and Goldman Sachs assumed no responsibility for updating, revising or reaffirming its opinion based on circumstances, developments or events occurring after the date of its opinion. Goldman Sachs' advisory services and opinion were provided for the information and assistance of the board of directors of Charter in connection with its consideration of the BHN transactions and the opinion does not constitute a recommendation as to how any holder of shares of Charter Class A common stock should vote with respect to any portion of the BHN transactions or any other matter. Goldman Sachs' opinion was approved by a fairness committee of Goldman Sachs.

The following is a summary of the material financial analyses presented by Goldman Sachs to the board of directors of Charter on May 23, 2015 in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Goldman Sachs, nor does the order of analyses described represent relative importance or weight given to those analyses by Goldman Sachs. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Goldman Sachs financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before May 21, 2015 and is not necessarily indicative of current market conditions.

Table of Contents*Illustrative Discounted Cash Flow Analyses*

Using the forecasts, Goldman Sachs performed illustrative discounted cash flow analyses to derive present values as of December 31, 2015 of:

Charter on a standalone basis;

New Charter on a pro forma basis (giving effect to the consummation of the TWC transactions, but not the BHN transactions), which we refer to as the Combined New Charter/TWC, assuming, alternatively, that (i) all TWC stockholders (other than Liberty Broadband and Liberty Interactive) are paid merger consideration per share of TWC common stock of \$100 in cash and a fraction of a share of New Charter Class A common stock equal to 0.5409 multiplied by the Parent Merger Exchange Ratio, which we refer to as the \$100 cash consideration scenario, and (ii) all TWC stockholders (other than Liberty Broadband and Liberty Interactive) are paid merger consideration per share of TWC common stock of \$115 in cash and a fraction of a share of New Charter Class A common stock equal to 0.4562 multiplied by the Parent Merger Exchange Ratio, which we refer to as the \$115 cash consideration scenario;

New Charter on a pro forma basis (giving effect to the consummation of the BHN transactions, but not the TWC transactions), which we refer to as Combined New Charter/BHN; and

New Charter on a pro forma basis (giving effect to the consummation of both the TWC transactions and the BHN transactions), which we refer to as Combined New Charter/TWC/BHN, assuming, alternatively, the \$100 cash consideration scenario and the \$115 cash consideration scenario.

For purposes of its analysis with respect to each of the foregoing, Goldman Sachs derived an illustrative range of enterprise values as of December 31, 2015 for each of Charter on a standalone basis, Combined New Charter/TWC (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), Combined New Charter/BHN and Combined New Charter/TWC/BHN (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario) by applying discount rates ranging from 6.25% to 7.25%, reflecting an estimate of the weighted average cost of capital of Charter and New Charter, to (a) estimates of the unlevered free cash flows to be generated by the applicable company for the years 2016 through 2019 as reflected in the forecasts and, in the case of Combined New Charter/TWC, Combined New Charter/BHN and Combined New Charter/TWC/BHN, the synergies, and (b) a range of illustrative terminal values for the applicable company at the end of 2019. The range of illustrative terminal values was derived by applying illustrative multiples ranging from 6.5x to 7.5x to estimated terminal year earnings before interest, taxes, depreciation and amortization, or EBITDA, adjusted to add equity based compensation cost (consistent with how Charter discloses its EBITDA), which we refer to as Adjusted EBITDA, for the applicable company, as reflected in the forecasts, and in the case of Combined New Charter/TWC, Combined New Charter/BHN and Combined New Charter/TWC/BHN, the synergies. For purposes of deriving an illustrative range of enterprise values for Charter on a standalone basis, Combined New Charter/TWC, Combined New Charter/BHN and Combined New Charter/TWC/BHN, Goldman Sachs added the present value as of December 31, 2015 (derived using a discount rate of 9.98%) of estimates of tax savings anticipated to be realized from Charter's current net operating losses and other tax attributes, as reflected in the forecasts. For purposes of deriving an illustrative range of enterprise values for Combined New Charter/BHN and Combined New Charter/TWC/BHN, Goldman Sachs added the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax

savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits. For purposes of deriving an illustrative range of enterprise values for Combined New Charter/TWC and Combined New Charter/TWC/BHN, Goldman Sachs added Charter management's estimate of the value of certain equity investments held by TWC.

To derive an illustrative range of equity values for each of Charter on a standalone basis, Combined New Charter/TWC (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), Combined New Charter/ BHN and Combined New Charter/TWC/BHN (under both the \$100 cash consideration

Table of Contents

scenario and the \$115 cash consideration scenario), Goldman Sachs subtracted from the range of enterprise values it derived for each such company an estimate of the net debt of the applicable company as of December 31, 2015, as reflected in the forecasts.

Goldman Sachs then divided the illustrative ranges of equity values it derived by the total number of fully diluted shares of Class A common stock of (i) Charter on a standalone basis, (ii) Combined New Charter/TWC anticipated to be outstanding after giving effect to the TWC transactions and without giving effect to the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), (iii) Combined New Charter/BHN anticipated to be outstanding after giving effect to the BHN transactions and without giving effect to the TWC transactions, and (iv) Combined New Charter/TWC/BHN anticipated to be outstanding after giving effect to both the TWC transactions and the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), in each case as provided by Charter management, to derive illustrative present values for one share of Charter Class A common stock on a standalone basis, for 0.9042 of one share of Combined New Charter/TWC giving effect to the TWC transactions and without giving effect to the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), for one share of Combined New Charter/BHN giving effect to the BHN transactions and without giving effect to the TWC transactions, and for 0.9042 of one share of Combined New Charter/TWC/BHN giving effect to both the TWC transactions and the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario).

The illustrative value ranges as of December 31, 2015 derived from the foregoing analyses are as follows:

One share of Charter Class A common stock	\$ 177-\$220
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$100 cash consideration scenario	\$ 171-\$229
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$115 cash consideration scenario	\$ 171-\$233
One share of Class A common stock of Combined New Charter/BHN	\$ 190-\$235
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$100 cash consideration scenario	\$ 181-\$238
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$115 cash consideration scenario	\$ 181-\$243

Illustrative Present Value of Future Share Price Analyses

Goldman Sachs calculated illustrative ranges of implied present values as of December 31, 2015 of one share of Charter Class A common stock on a standalone basis; of 0.9042 of one share of Class A common stock of Combined New Charter/TWC under, alternatively, the \$100 cash consideration scenario and the \$115 cash consideration scenario; of one share of Class A common stock of Combined New Charter/BHN; and of 0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN under, alternatively, the \$100 cash consideration scenario and the \$115 cash consideration scenario.

For purposes of this analysis, Goldman Sachs derived theoretical future values as of December 31, 2019 by:

applying an illustrative range of one year forward EBITDA multiples of 6.5x to 7.5x to the estimate of 2019 Adjusted EBITDA for the applicable company as reflected in the forecasts, including in the case of

Combined New Charter/TWC, Combined New Charter/BHN and Combined New Charter/TWC/BHN, the synergies;

subtracting an assumed amount of net debt equal to the estimate of 2019 Adjusted EBITDA as reflected in the forecasts, multiplied by the midpoint of Charter management's anticipated range of its leverage ratios;

Table of Contents

adding the present value per share as of December 31, 2019 (derived using a discount rate of 9.98%) of estimates of the tax savings anticipated to be realized from Charter's current net operating losses and other tax attributes;

adding, in the case of Combined New Charter/ BHN and Combined New Charter/TWC/BHN, the net present value per share as of December 31, 2019 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits;

adding, in the case of Combined New Charter/TWC and Combined New Charter/TWC/BHN, Charter management's estimate of the value per share as of December 31, 2019 of certain equity investments held by TWC; and

dividing the result by Charter management's estimate of the total number of (i) fully diluted shares of Charter Class A common stock anticipated to be outstanding as of December 31, 2019 on a standalone basis, (ii) fully diluted shares of Class A common stock of Combined New Charter/TWC anticipated to be outstanding as of December 31, 2019 giving effect to the TWC transactions and without giving effect to the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), (iii) fully diluted shares of Class A common stock of Combined New Charter/BHN anticipated to be outstanding as of December 31, 2019 giving effect to the BHN transactions and without giving effect to the TWC transactions, and (iv) fully diluted shares of Class A common stock of Combined New Charter/TWC/BHN anticipated to be outstanding as of December 31, 2019 giving effect to both the TWC transactions and the BHN transactions (under both the \$100 cash consideration scenario and the \$115 cash consideration scenario), in each case taking into account estimated share repurchases, all as provided by Charter's management.

Goldman Sachs derived present values per share as of December 31, 2015 by applying discount rates ranging from 9.5% to 10.5%, reflecting an estimate of Charter and New Charter's cost of equity, to the theoretical future values per share it derived as described above.

The illustrative value ranges as of December 31, 2015 derived from the foregoing analyses are as follows:

One share of Charter Class A common stock	\$ 193-\$232
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$100 cash consideration scenario	\$ 198-\$248
0.9042 of one share of Class A common stock of Combined New Charter/TWC, under the \$115 cash consideration scenario	\$ 202-\$256
One share of Class A common stock of Combined New Charter/BHN	\$ 206-\$240
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$100 cash consideration scenario	\$ 213-\$261
0.9042 of one share of Class A common stock of Combined New Charter/TWC/BHN, under the \$115 cash consideration scenario	\$ 209-\$262
<i>Comparable Companies Analysis</i>	

Goldman Sachs calculated and compared (i) (a) the multiple of the transaction value, to which we refer as TV, of BHN based on the aggregate consideration proposed to be paid in the BHN transactions to the estimated 2015 EBITDA for BHN, as reflected in the forecasts, (b) the multiple of the TV of BHN based on the aggregate consideration proposed to be paid in the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated

Table of Contents

by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, (c) the multiple of the TV of BHN based on the aggregate consideration proposed to be paid in the TWC transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated 2015 EBITDA for BHN, as reflected in the forecasts and giving effect to the synergies; (ii) (a) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts, (b) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts, and (c) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts, and giving effect to the synergies; and (iii) multiples of implied enterprise value, adjusted to exclude the present value of tax assets where applicable, which we refer to as adjusted enterprise value, for each of the following selected companies (calculated as described below) to estimated 2015 EBITDA for each of the selected companies:

Charter

TWC

Comcast Corporation

Cablevision Systems Corporation

This analysis was undertaken to assist Goldman Sachs and Charter's board of directors in understanding how the adjusted enterprise value/2015E EBITDA multiples for the selected companies (based on their current trading prices and analyst EBITDA estimates) compared to the TV/2015E EBITDA multiples implied by the aggregate consideration proposed to be paid for BHN in the BHN transactions and the aggregate consideration proposed to be paid for TWC and BHN in the TWC transactions and the BHN transactions. Although none of the selected companies is directly comparable to TWC or BHN (except TWC as compared to itself), the companies included were chosen because they are publicly traded companies in the cable industry with operations that, for purposes of analysis, may be considered similar to certain operations of TWC or BHN.

For purposes of these calculations, Goldman Sachs calculated an implied equity value for each selected company by multiplying the number of fully diluted outstanding shares of that company as reported in its most recent SEC filings by each company's closing share price on May 21, 2015. By adding the net debt amount of each selected company as reported in its most recent public filings as of May 21, 2015 to the implied equity value of such company derived from the foregoing calculations adjusted to deduct the net present value as of December 31, 2015 of estimates of the net tax savings anticipated to be realized by the selected companies based on available information regarding the net present value of their respective tax assets and an implied value of each company's non-cable assets derived based on publicly available information, Goldman Sachs calculated an

Table of Contents

implied adjusted enterprise value, which we refer to as Adjusted EV, for each company. The multiples for each of the selected companies were calculated using the median 2015 EBITDA estimates for each company published by the Institutional Brokers Estimate System as of May 21, 2015 and where applicable, adjusted to exclude the 2015 EBITDA from any non-cable assets based on publicly available estimates.

The table below compares the TV/2015E EBITDA multiples implied by the consideration to be paid by New Charter in the BHN transactions without giving effect to the TWC transactions and in the TWC transactions and the BHN transactions, together, calculated with and without accounting for the net present values of any tax assets that are expected to be realized by New Charter and with and without synergies to be realized by New Charter, to the high and low Adjusted EV/2015E EBITDA multiples calculated by Goldman Sachs for the selected companies.

	BHN (TV Adjusted for Tax Assets)		BHN (TV Adjusted for Tax Assets and synergies)		TWC and BHN (TV Adjusted for Tax Assets)		TWC and BHN (TV Adjusted for Tax Assets and synergies)		Selected Companies High Low	
TV or Adjusted EV to 2015E EBITDA	7.4x	6.7x	6.7x	9.1x	8.9x	8.2x	9.0x	6.9x		

Selected Precedent Transactions Analysis

Goldman Sachs calculated and compared (i) (a) the multiple of the transaction value, which we refer to as TV, of BHN based on the aggregate consideration proposed to be paid in the BHN transactions to the estimated 2015 EBITDA for BHN, as reflected in the forecasts, and (b) the multiple of the TV of BHN based on the aggregate consideration proposed to be paid in the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated 2015 EBITDA for BHN, as reflected in the forecasts; (ii) (a) the multiple of the combined TV of TWC and BHN, based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions, to combined estimated 2015 EBITDA for TWC and BHN, as reflected in the forecasts, and (b) the multiple of the combined TV of TWC and BHN based on the aggregate consideration proposed to be paid in the TWC transactions and the BHN transactions less the net present value as of December 31, 2015 (derived using a discount rate of 9.98%) of Charter management's estimates of the tax savings anticipated to be realized from TWC's existing tax attributes and the tax savings anticipated to be realized by New Charter from the step-up in basis expected to result from the BHN transactions, net of the tax receivables payments estimated by management of Charter to be payable by New Charter in connection with the realization of such benefits, as reflected in the forecasts, to estimated combined 2015 EBITDA for TWC and BHN, as reflected in the forecasts; and (iii) multiples of the implied TV in each of the following selected transactions in the cable industry based on the announced transaction price, as a multiple of the target company's estimated EBITDA for the four quarter period after the announcement of the transaction based on Wall Street analyst estimates, which we refer to as Forward EBITDA. With respect to each of the following selected

transactions, Goldman Sachs calculated an implied adjusted transaction value by deducting the net present value of the target companies' respective tax assets, to the extent such information was publicly available and applicable.

Date Announced	Target	Acquirer
04/2014	TWC/Comcast Systems	Charter
02/2014	TWC	Comcast Corporation
02/2013	Bresnan Cable Systems	Charter
08/2011	Insight Communications Company, Inc.	TWC
06/2010	Bresnan Communications LLC	Cablevision Corporation

Table of Contents

This analysis was undertaken to assist Goldman Sachs and Charter's board of directors in understanding how the TV/Forward EBITDA multiples for the selected transactions compared with the TV/2015E EBITDA multiple implied by the aggregate consideration to be paid in the TWC transactions and in the TWC transactions and the BHN transactions combined. With respect to New Charter and each selected transaction, the EBITDA multiples were calculated both with, and without, accounting for the present values of any tax assets that are expected to be realized by the target company wherever applicable. The table below presents the results of this analysis.

TV/2015E EBITDA BHN		Selected Transactions (TV/Forward EBITDA)			
(TV Adjusted for Tax Assets)		TWC and BHN (TV Adjusted for Tax Assets)		High/Median/ Low	High/Median/Low (TV Adjusted for Tax Assets)
BHN	7.4x	TWC and BHN	9.1x	8.3x/8.1x/7.1x	7.9x/7.1x/5.9x
<i>General</i>					

The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth above, without considering the analyses as a whole, could create an incomplete view of the processes underlying Goldman Sachs' opinion. In arriving at its fairness determination, Goldman Sachs considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis considered by it. Rather, Goldman Sachs made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses. No company or transaction used in the above analyses as a comparison is directly comparable to Charter, New Charter, TWC or BHN (except TWC as compared to itself) or to the BHN transactions or the TWC transactions.

Goldman Sachs prepared these analyses for purposes of providing its opinion to the board of directors of Charter as to the fairness from a financial point of view to Charter, as of May 23, 2015, the date of the opinion, and taking into account, among others things, the Liberty stock issuance and the tax receivables payments, of the BHN consideration to be paid by Charter and Charter Holdings pursuant to the BHN contribution agreement. These analyses do not purport to be appraisals nor do they necessarily reflect the prices at which businesses or securities actually may be sold. Analyses based upon projections of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors, none of Charter, Goldman Sachs or any other person assumes responsibility if future results are materially different from those forecast.

The BHN consideration was determined through arm's-length negotiations between Charter and A/N and was approved by the board of directors of Charter. Goldman Sachs provided advice to Charter during these negotiations. Goldman Sachs did not, however, recommend any specific amount of consideration to Charter or that any specific amount of consideration constituted the only appropriate consideration for the BHN transactions.

As described above, Goldman Sachs' opinion was one of many factors taken into consideration by the board of directors of Charter in considering the BHN transactions. The foregoing summary does not purport to be a complete description of the analyses performed by Goldman Sachs in connection with the delivery of its fairness opinion to Charter's board of directors and is qualified in its entirety by reference to the written opinion of Goldman Sachs attached as Annex I to this joint proxy statement/prospectus.

Goldman Sachs and its affiliates are engaged in advisory, underwriting and financing, principal investing, sales and trading, research, investment management and other financial and non-financial activities and services for various persons and entities. Goldman Sachs and its affiliates and employees, and funds or other entities they manage or in which they invest or have other economic interests or with which they co-invest, may at any time

Table of Contents

purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of Charter, New Charter, A/N and any of their respective affiliates and third parties, including the Liberty-related entities, or any currency or commodity that may be involved in the transactions contemplated by the contribution agreement or the stockholders agreement. Goldman Sachs has acted as financial advisor to Charter in connection with, and has participated in certain of the negotiations leading to, the BHN transactions. Goldman Sachs has provided certain financial advisory and/or underwriting services to Charter and/or its affiliates from time to time for which its investment banking division has received, and may receive, compensation, including having acted as financial advisor to Charter in connection with the TWC transactions and providing Charter with commitments for incremental term loan, revolving credit and bridge loan facilities in connection with the consummation of the TWC transactions; as joint bookrunner in connection with a senior secured term loan due 2021 (aggregate principal amount \$3.5 billion) provided to a subsidiary of Charter in September 2014; as joint bookrunner in connection with a public offering of 5.50% Senior Unsecured Notes due 2022 (aggregate principal amount of \$1.5 billion) and 5.75% Senior Unsecured Notes due 2024 (aggregate principal amount \$2.0 billion) by a subsidiary of Charter in November 2014; and as joint bookrunner in connection with a public offering of 5.125% Senior Unsecured Notes due 2023 (aggregate principal amount \$1,150,000,000), 5.375% Senior Unsecured Notes due 2025 (aggregate principal amount \$750,000,000) and 5.875% Senior Unsecured Notes due 2027 (aggregate principal amount \$800,000,000) in April 2015. Goldman Sachs also has provided certain financial advisory and/or underwriting services to the Liberty-related entities and their respective affiliates from time to time for which its investment banking division has received, and may receive, compensation, including having acted as joint bookrunner with respect to the refinancing of indebtedness of VTR GlobalCom Spa, which we refer to as VTR GlobalCom, and certain of its affiliates and the related public offering of 6.875% Senior Secured Notes due 2024 (aggregate principal amount \$1,400,000,000) by VTR Finance B.V. in January 2014; as joint bookrunner with respect to the public offering of 5.500% Senior Secured Notes due 2025 (aggregate principal amount of \$425,000,000), 5.500% Senior Secured Notes due 2025 (aggregate principal amount £430,000,000) and 6.250% Senior Secured Notes due 2029 (aggregate principal amount £225,000,000) by Virgin Media Secured Finance PLC, which we refer to as Virgin Media Secured Finance, in March 2014; as financial advisor to Liberty Global plc, which we refer to as Liberty Global, in its acquisition of certain outstanding shares of VTR GlobalCom and VTR Wireless SpA in March 2014; as sole bookrunner with respect to the public offering of 6.250% Senior Secured Notes due 2029 (aggregate principal amount £175,000,000) by Virgin Media Secured Finance in April 2014; as financial advisor to Liberty Global in its acquisition of a 6.400% stake in ITV plc in July 2014; as financial advisor to Liberty Global with respect to a redemption of certain Senior Secured Notes due 2019 and the public offering of 6.375% Senior Secured Notes due 2024 (aggregate principal amount £300,000,000) and 6.000% Senior Secured Notes due 2024 (aggregate principal amount \$500,000,000) in October 2014; as joint bookrunner with respect to the public offering of 4.000% Senior Secured Notes due 2025 (aggregate principal amount £1,000,000,000) and 5.000% Senior Secured Notes due 2025 (aggregate principal amount \$550,000,000) in December 2014 by Unitymedia Hessen GmbH & Co. KG and Unitymedia NRW GmbH; as joint bookrunner with respect to the public offering of 3.45% Senior Notes due 2025 (aggregate principal amount of \$300,000,000) in February 2015 by Discovery Communications LLC; as bookrunner with respect to the public offering of 5.25% Senior Secured Notes due 2026 (aggregate principal amount \$500,000,000) and 4.875% Senior Secured Notes due 2027 (aggregate principal amount £525,000,000) in March 2015 by a subsidiary of Virgin Media Inc.; as bookrunner with respect to the public offering of 5.250% Senior Secured Notes due 2026 (aggregate principal amount of \$500,000,000) in April 2015 by a subsidiary of Virgin Media Inc.; as financial advisor to Telenet Group Holding NV, which we refer to as Telenet, in connection with its acquisition of BASE Company NV in April 2015; and as joint global coordinator in connection with a 8-year term loan (aggregate principal amount of 800 million) made to Telenet in May 2015. Goldman Sachs may also in the future provide financial advisory and/or underwriting services to Charter, New Charter, A/N, the Liberty-related entities and their respective affiliates for which its investment banking division may receive compensation.

Charter selected Goldman Sachs as its financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to the BHN transactions. Pursuant to a letter agreement, dated February 22, 2014, the board of directors of Charter engaged Goldman Sachs to act

Table of Contents

as its financial advisor in connection with the BHN transactions. Pursuant to the terms of this engagement letter, Charter agreed to pay Goldman Sachs a fee of \$15,000,000, all of which is contingent upon the consummation of the BHN transactions. In addition, Charter agreed to reimburse Goldman Sachs for its expenses, including attorneys' fees and disbursements, and to indemnify Goldman Sachs and related persons against certain liabilities that may arise out of its engagement.

Opinion of LionTree Advisors LLC in Connection with the TWC Transactions

On May 23, 2015, at a meeting of the Charter board of directors, LionTree Advisors LLC, which we refer to as LionTree, rendered an oral opinion to the Charter board of directors (which was confirmed in writing by delivery of LionTree's written opinion dated May 23, 2015), as to the fairness, from a financial point of view, as of such date, to Charter of the merger consideration to be paid for the shares of TWC common stock (for purposes of such opinion and this summary, other than (i) any such shares held by Liberty Broadband or Liberty Interactive, (ii) any such shares held by dissenting stockholders, (iii) any treasury shares, and (iv) any such shares held by any direct or indirect wholly owned subsidiary of TWC) pursuant to the merger agreement, based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion.

LionTree's opinion was directed to the Charter board of directors and only addressed the fairness, from a financial point of view, to Charter of the merger consideration to be paid for the shares of TWC common stock pursuant to the merger agreement and did not address any other aspect or implication of the mergers. The summary of LionTree's opinion in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of its written opinion, which is included as Annex J to this joint proxy statement/prospectus and sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion. However, neither LionTree's opinion nor the summary of its opinion and the related analyses set forth in this joint proxy statement/prospectus constitute a recommendation to any stockholder as to how such stockholder should vote or act on any matter relating to the mergers or any other matter.

In arriving at its opinion, LionTree, among other things:

reviewed (A) a draft of the merger agreement, (B) a draft of the amendment to the BHN contribution agreement, (C) the BHN contribution agreement prior to such amendment, and (D) a draft of the BHN/Liberty stockholders agreement;

reviewed certain publicly available business and financial information relating to TWC, Bright House, and Charter;

reviewed certain internal financial estimates and other data relating to the business and financial prospects of Charter, TWC and Bright House that were provided to LionTree by the management of Charter and not publicly available, including financial forecasts and estimates for the fiscal year ending 2015 (and, with respect to Bright House, also for the fiscal year ended 2014);

reviewed certain internal financial information and other data relating to the business and financial prospects of Charter, after giving pro forma effect to (A) the mergers and (B) the mergers and the BHN transactions, in each case, that were provided to LionTree (and prepared) by the management of Charter and not publicly available, including financial forecasts and estimates for the fiscal years ending 2015 through 2019 (as well as certain estimates for utilization of tax assets beyond 2019 through the full utilization of such tax assets);

reviewed certain estimates of dis-synergies and synergies, in each case, for (A) the fiscal years ending 2016 through 2019 with respect to Charter and TWC, (B) the fiscal years ending 2016 through 2019 with respect to Charter, TWC, and Bright House, and (C) the fiscal years ending 2014 and 2015 with respect to Charter and Bright House, which we refer to collectively in this section as the transaction effects, prepared by Charter management;

Table of Contents

conducted discussions with members of the senior management of Charter, Bright House and TWC concerning the business and financial prospects of Charter, Bright House and TWC, respectively, as well as the transaction effects;

reviewed current and historical market prices of Charter Class A common stock and TWC's common stock;

reviewed certain publicly available financial and stock market data with respect to certain other companies LionTree believed to be generally relevant;

compared certain financial terms of the mergers and the BHN transactions with the publicly available financial terms of certain other transactions LionTree believed to be generally relevant;

reviewed certain pro forma effects relating to the mergers and the BHN transactions, including the effects of anticipated financings, prepared by Charter management; and

conducted such other financial studies, analyses and investigations, and considered such other information, as LionTree deemed necessary or appropriate.

In connection with its review, LionTree assumed and relied upon, without independent verification, the accuracy and completeness in all material respects of the information provided to or reviewed by it for the purpose of its opinion. In addition, LionTree did not make any independent evaluation or appraisal of any of the assets or liabilities (contingent or otherwise) of Charter, Bright House, or TWC, nor was LionTree furnished with any such evaluation or appraisal. With respect to the financial forecasts, estimates, transaction effects and pro forma effects referred to above, which we refer to in this section collectively as the forecasts, LionTree assumed, based on advice from management of Charter, that each had been reasonably prepared on a basis reflecting the best currently available estimates and judgments of Charter management as to the future financial performance of Charter, Bright House, and TWC, including the transaction effects and pro forma effects. In addition, LionTree assumed that the financial forecasts and estimates referred to above would be achieved at the times and in the amounts projected. LionTree expressed no opinion with respect to such forecasts or estimates, including any transaction effects and pro forma effects. LionTree assumed, with the consent of the Charter board of directors, that for U.S. federal income tax purposes (i) the payment of cash consideration pursuant to the first merger will be treated as a distribution in redemption of TWC common stock subject to the provisions of Section 302(a) of the Code, (ii) the second merger will qualify as a reorganization within the meaning Section 368(a) of the Code and the regulations promulgated thereunder, and (iii) the third merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and the regulations promulgated thereunder. LionTree's opinion is necessarily based on economic, monetary, market and other conditions as in effect on, and the information available to LionTree as of, the date thereof, and did not address any legal, regulatory, taxation, or accounting matters.

In rendering its opinion, LionTree assumed, with the consent of the Charter board of directors, that (i) the final executed form of the merger agreement and the final executed form of the amendment to the BHN contribution agreement would not differ in any material respect from the drafts that LionTree reviewed, (ii) the representations and warranties of the parties to such agreements were true and correct in all material respects, (iii) the parties to such agreements will comply with and perform all material covenants and agreements required to be complied with or performed by such parties under such agreements, and (iv) the transactions will be consummated in accordance with

the terms of such agreements without any adverse waiver or amendment of any material term or condition thereof. LionTree also assumed, with the consent of the Charter board of directors, that all governmental, regulatory or other consents and approvals necessary for the consummation of the transactions will be obtained without any material adverse effect on Charter, TWC, Bright House, or the transactions.

LionTree's opinion was provided for the benefit of the Charter board of directors (in its capacity as such) in connection with, and for the purpose of, its evaluation of the transactions.

Table of Contents

LionTree's opinion did not address the relative merits of the transactions or any related transaction as compared to other business strategies or transactions that might be available to Charter or Charter's underlying business decision to effect the transactions or any related transaction. LionTree was not asked to, nor did it, offer any opinion as to the terms (other than the merger consideration to the extent expressly specified in its opinion) of the merger agreement or any related documents, or the form of the transactions or any related transaction. LionTree was not asked to, nor did LionTree, offer any opinion with respect to any post-closing adjustments to the merger consideration or the consideration to be paid to A/N pursuant to the BHN contribution agreement, which we refer to as the BHN consideration, or any portion thereof (in each case, whether as a result of any working capital adjustment, indemnification obligations, or otherwise), any ongoing obligations of Charter or any of its affiliates (including any obligations with respect to governance, appraisal rights, preemptive rights, voting, registration rights, or otherwise, contained in any agreement related to the transactions, including the BHN contribution agreement or the transaction agreements (as defined in the BHN contribution agreement)), any allocation of the merger consideration or the BHN consideration (or any portion thereof), the fair market value of TWC, Bright House, or the assets to be acquired pursuant to the BHN contribution agreement or any other term or aspect of the merger agreement or the BHN contribution agreement or the transactions or any term or aspect of any other agreement or instrument contemplated by such agreements or entered into or amended in connection with the transactions, including the fairness of the transactions to, or any consideration received in connection therewith by, the holders of any class of securities, creditors, or other constituencies of Charter, Bright House, or TWC. In particular, LionTree was not asked to, nor did LionTree, offer any opinion as to (i) the terms of the transactions between Liberty Broadband and its affiliates, on the one hand, and Charter and its affiliates, on the other hand, that are contemplated by the merger agreement or the BHN contribution agreement, (ii) the terms of the BHN/Liberty stockholders agreement or any of the other transaction agreements (as defined in the BHN contribution agreement), or (iii) the terms of the contemplated amendments to Charter's certificate of incorporation. In addition, LionTree expressed no opinion as to the fairness of the amount or nature of any compensation to be received by any officers, directors or employees of any parties to the transactions, or any class of such persons, relative to the merger consideration or the BHN consideration. LionTree expressed no opinion as to what the value of the equity to be issued to A/N in connection with the BHN transactions (or any portion thereof) or any New Charter Class A common stock will be when issued in connection with the mergers or the prices at which the equity to be issued to A/N in connection with the BHN transactions (or any portion thereof), Charter Class A common stock, or TWC common stock will trade at any time.

In preparing its opinion to the Charter board of directors, LionTree performed a variety of analyses, including those described below. The summary of LionTree's analyses is not a complete description of the analyses underlying LionTree's opinion. The preparation of a fairness opinion involves various quantitative and qualitative judgments and determinations with respect to the financial, comparative and other analytical methods employed and the adaptation and application of these methods to the unique facts and circumstances presented. Consequently, neither a fairness opinion nor its underlying analyses is readily susceptible to summary description. LionTree arrived at its opinion based on the results of all analyses undertaken by it, assessed as a whole, and did not draw, in isolation, conclusions from or with regard to any individual analysis, methodology or factor. Accordingly, LionTree believes that its analyses and the following summary must be considered as a whole and that selecting portions of its analyses, methodologies and factors or focusing on information presented in tabular format, without considering all analyses, methodologies and factors or the narrative description of the analyses, could create a misleading or incomplete view of the process underlying LionTree's analyses and opinion. Each analytical technique has inherent strengths and weaknesses, and the nature of the available information may further affect the value of particular techniques.

In performing its analyses, LionTree considered general business, economic, industry, regulatory and market conditions, financial and otherwise, and other matters as they existed on, and could be evaluated as of, the date of the opinion. LionTree's analyses involved judgments and assumptions with regard to general business, economic, industry, regulatory and market conditions, financial and otherwise, and other matters, many of which are beyond the control of

Charter, such as the impact of competition on the business of Charter and on the industry generally, industry growth and the absence of any material change in the financial condition and

Table of Contents

prospects of Charter or the proposed mergers or the BHN transactions and an evaluation of the results of those analyses is not entirely mathematical. LionTree believes that mathematical derivations (such as determining mean and median) of financial data are not by themselves meaningful and should be considered together with qualities, judgments, and informed assumptions. The estimates contained in Charter's analyses and the implied reference range values indicated by LionTree's analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than those suggested by the analyses. Additionally, any analyses relating to the value of assets, businesses or securities do not purport to be appraisals or to reflect the prices at which businesses or securities actually may be sold, which may depend on a variety of factors, many of which are beyond the control of Charter. Much of the information used in, and accordingly the results of, LionTree's analyses are inherently subject to substantial uncertainty.

LionTree's opinion was provided to the Charter board of directors in connection with its evaluation of the mergers and was only one of many factors considered by the Charter board of directors in evaluating the mergers. Neither LionTree's opinion nor its analyses were determinative of the merger consideration or of the views of the Charter board of directors or management with respect to the mergers or the merger consideration. The type and amount of consideration payable in the mergers were determined through negotiation between Charter and TWC, during which LionTree provided advice to Charter, and the decision to enter into the merger agreement was solely that of the Charter board of directors. LionTree did not, however, recommend any specific type or amount of merger consideration to Charter or the Charter board of directors, nor did it recommend that any specific type or amount of merger consideration constituted the only appropriate consideration for the transaction.

The following is a summary of the material analyses reviewed by LionTree in connection with LionTree's presentation to the Charter board of directors and opinion rendered on May 23, 2015. The order of the analyses does not represent relative importance or weight given to those analyses by LionTree. The analyses summarized below include information presented in tabular format. The tables alone do not constitute a complete description of the analyses. Considering the data in the tables below without considering the full narrative description of the analyses, as well as the methodologies underlying, and the assumptions, qualifications and limitations affecting, each analysis, could create a misleading or incomplete view of LionTree's analyses.

For purposes of its analyses, LionTree reviewed a number of financial and operating metrics, including:

enterprise value, calculated as the value of the relevant company's outstanding equity securities (taking into account its outstanding options, warrants and other convertible securities) based on the relevant company's closing stock price, or equity value, plus net debt (calculated as outstanding indebtedness, preferred stock and capital lease obligations less the amount of cash on its balance sheet) plus interests of others in majority (but not wholly owned) subsidiaries, or minority interests, less interests in entities for which the relevant company owns less than 50% of the equity, or associates, as of a specified date;

adjusted enterprise value, calculated as enterprise value less the net present value of the relevant company's tax attributes;

earnings before interest, taxes, depreciation and amortization, adjusted for certain one-time items and stock-based compensation expense, which we refer to in this section as Adjusted EBITDA; and

Adjusted EBITDA minus capital expenditures, which we refer to in this section as Adjusted EBITDA minus Capex.

Unless the context indicates otherwise, enterprise values and equity values derived from the selected companies analyses described below were calculated using the closing price of Charter common stock, and the common stock of the selected publicly traded companies listed below as of May 22, 2015 (other than Cablevision, for which the closing price on May 19, 2015 was used), and transaction values for the target companies derived from the selected transactions analysis described below were calculated as of the public announcement date of the relevant transaction based on the estimated purchase prices paid in the selected transactions. Accordingly, this information may not reflect current or future market conditions.

Table of Contents

In addition, unless the context indicates otherwise, (i) per share amounts for Charter Class A common stock were calculated on a fully diluted basis, using the treasury stock method; (ii) Pro Forma Charter refers to New Charter after giving effect to the mergers and, where indicated, the BHN transactions; (iii) Option A assumes that all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$100 cash and 0.5409 Charter Class A common shares for each share of TWC common stock; and (iv) Option B assumes that all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$115 cash and 0.4562 Charter Class A common shares for each share of TWC common stock. Estimates of 2015 Adjusted EBITDA for Charter and TWC were based on Charter management projections.

Financial Analyses

Selected Companies Analysis. LionTree calculated certain valuation multiples based on certain financial data for Charter and certain selected companies. The selected companies consisted of publicly traded companies primarily engaged in the U.S. cable industry with enterprise values in excess of \$5 billion. For each of Charter and certain other companies, LionTree calculated valuation multiples, including enterprise value and adjusted enterprise value as a multiple of estimated 2015 Adjusted EBITDA and estimated 2015 Adjusted EBITDA minus CapEx. These multiples were then compared to the multiple implied by the mergers both with and without giving effect to the transaction effects. The list of selected companies and the related multiples for such selected companies and for Charter are set forth below, and compared to the multiples implied by the mergers (with and without the transaction effects):

Implied Multiples:

	Enterprise Value as a Multiple of		Adjusted Enterprise Value as a Multiple of	
	2015E Adjusted EBITDA	2015E Adjusted EBITDA minus Capex	2015E Adjusted EBITDA	2015E Adjusted EBITDA minus Capex
Charter (standalone)	9.8x	19.4x	8.9x	17.6x
Comcast (cable only)	7.0x	10.4x	7.0x	10.4x
TWC	8.5x	16.8x	8.3x	16.4x
Cablevision (cable only)	7.5x	12.8x	7.5x	12.8x
Mergers	9.3x	18.4x	9.1x	18.0x
Mergers with transaction effects			8.2x	14.4x

Table of Contents

Selected Transactions Analysis. LionTree calculated certain valuation multiples based on the estimated purchase prices paid in the following selected publicly announced U.S. cable industry transactions from 2010 to 2015. The selected transactions consisted of publicly announced transactions involving target companies primarily engaged in the U.S. cable industry with transaction values in excess of \$500 million. The calculated multiples included transaction value as a multiple of (i) estimated Adjusted EBITDA for the last twelve-month period, or LTM, and (ii) estimated Adjusted EBITDA for the next twelve-month period, or NTM, in each case, both before and after giving effect to the present value of tax attributes of the target company. The list of selected transactions is set forth below:

Announcement Date	Target	Acquiror
June 2010	Bresnan Broadband Holdings, LLC	Cablevision Systems Corporation
November 2010	Mediacom Communications Corporation	Take Private
August 2011	Insight Communications Company Inc.	Time Warner Cable Inc.
June 2012	Wave Division Holdings LLC	Oak Hill Capital Partners
July 2012	Atlantic Broadband LLC	Cogeco Cable Inc.
July 2012	Suddenlink Communications	BC Partners Limited / CPP Investment Board
February 2013	Bresnan Broadband Holdings, LLC	Charter Communications Inc.
March 2013	Charter Communications, Inc.	Liberty Media Corporation
February 2014	Time Warner Cable Inc.	Comcast Corporation
April 2014	Certain Assets of Time Warner Cable and Comcast	Charter Communications Inc.
March 2015	Bright House Networks	Altice SA
May 2015	Suddenlink Communications	

This analysis indicated the following minimum, mean, and maximum LTM and NTM Adjusted EBITDA multiples (both before and after giving effect to the present value of tax attributes of the target company) for the selected transactions, and compared to the multiples implied by the mergers:

	LTM Multiple		NTM Multiple	
	Enterprise Value	Adjusted Enterprise Value	Enterprise Value	Adjusted Enterprise Value
Selected Transactions				
Minimum	7.1x	6.3x	7.0x	5.4x
Mean	8.5x	7.6x	7.8x	7.0x
Maximum	9.9x	9.6x	9.1x	8.8x
Mergers	9.3x	9.1x	9.2x	9.0x

Table of Contents***Pro Forma Financial Analyses***

DCF Analyses. LionTree performed a discounted cash flow analysis of Pro Forma Charter by calculating the estimated net present value of the unlevered, after-tax free cash flows that Pro Forma Charter was forecasted to generate through 2019 (both with and without the BHN transactions), based on the forecasts. LionTree calculated terminal values for Pro Forma Charter by applying a range of terminal value multiples of 6.5x to 7.5x to Pro Forma Charter's 2019 estimated LTM Adjusted EBITDA. The present values of the cash flows and terminal values, including the net present value of the pro forma tax attributes of the combined company and the transaction effects, were then calculated using discount rates ranging from 6.0% to 7.5% (except for the tax attributes, which were calculated using a 10.0% discount rate). The same analysis was also performed on the forecasted unlevered, after-tax free cash flows and terminal values for standalone Charter. The discounted cash flow analysis indicated the following implied per share equity value reference ranges for Pro Forma Charter (with Option A or Option B, and with or without Bright House), as compared to the implied per share reference ranges for Charter on a standalone basis based on the same discount rates and multiples:

Implied Per Share Equity Reference Range for**Stand-Alone Charter**

\$169.84	\$217.39
----------	----------

Implied Per Share**Equity Reference Range for****Pro Forma Charter (assuming Option A)**

\$166.27	\$230.15
----------	----------

Implied Per Share**Equity Reference Range for****Pro Forma Charter (assuming Option A),****including Bright House**

\$176.22	\$239.68
----------	----------

Implied Per Share**Equity Reference Range for****Pro Forma Charter (assuming Option B)**

\$165.26	\$234.62
----------	----------

Implied Per Share**Equity Reference Range for****Pro Forma Charter (assuming Option B),****including Bright House**

\$176.22	\$244.45
----------	----------

Pro Forma DCF Accretion/Dilution Analysis. LionTree performed discounted cash flow accretion/dilution analyses of Pro Forma Charter by comparing the implied per share equity reference range of Charter on a standalone basis, as discussed above, to the implied per share equity reference range derived from the pro forma discounted cash flow analysis of Pro Forma Charter (with Option A or Option B, and with or without Bright House). The analysis indicated that the transaction could be (i) between approximately (2.1)% and 5.8% accretive to holders of Charter common stock in the case of Option A without Bright House, (ii) between approximately (2.7)% and 7.9% accretive to holders of Charter common stock in the case of Option B without Bright House, (iii) between approximately 3.7% and 10.2% accretive to holders of Charter common stock in the case of Option A with Bright House, and (iv) between approximately 3.7% and 12.4% accretive to holders of Charter common stock in the case of Option B with Bright House.

Other Matters

LionTree was engaged by Charter to act as its financial advisor in connection with the mergers and provide financial advisory services, including an opinion to the Charter board of directors regarding the fairness, from a financial point of view, to Charter of the merger consideration to be paid for the shares of TWC common stock pursuant to the merger agreement. Charter engaged LionTree based on the experience and reputation of LionTree's professionals. LionTree is regularly engaged to provide advisory services in connection with mergers and acquisitions. Pursuant to its engagement letter, Charter will pay LionTree \$32.5 million for its services, which is contingent upon the consummation of the mergers. Charter previously paid LionTree \$2.5 million in connection with LionTree's delivery of a fairness opinion related to Charter's potential acquisition of certain assets from Comcast and TWC, which will be credited against the fee described in the preceding sentence. Charter has also agreed to reimburse LionTree for certain expenses and to indemnify LionTree, its affiliates and certain related parties against certain liabilities and expenses, including certain liabilities under the federal securities laws arising out of or relating to LionTree's engagement.

Table of Contents

In the past, LionTree and its affiliates have provided investment banking services to Charter and its affiliates unrelated to the transactions, for which LionTree and its affiliates received compensation, including having acted as (i) financial advisor to Charter and its affiliates (including Liberty Broadband and its affiliates) in connection with certain merger and acquisition transactions or matters (including the BHN contribution agreement, the merger agreement, and in connection with Charter's potential acquisition of certain assets from Comcast and TWC) and (ii) co-manager in connection with certain debt offerings of Charter and its affiliates. LionTree and its affiliates may also seek to provide such services to Charter and its affiliates (including Liberty Broadband and its affiliates) in the future and expect to receive fees for the rendering of these services. In the ordinary course of business, certain of LionTree's employees and affiliates may hold or trade, for their own accounts and the accounts of their investors, securities of Charter, Bright House, and TWC and, accordingly, may at any time hold a long or short position in such securities.

Opinion of LionTree Advisors LLC in Connection with the BHN Transactions

On May 23, 2015, at a meeting of the Charter board of directors, LionTree rendered an oral opinion to the Charter board of directors (which was confirmed in writing by delivery of LionTree's written opinion dated May 23, 2015), as to the fairness, from a financial point of view, as of such date, to Charter of the consideration to be paid to A/N for the assets to be acquired pursuant to the BHN contribution agreement, which we refer to as the BHN consideration, based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion.

LionTree's opinion was directed to the Charter board of directors and only addressed the fairness, from a financial point of view, to Charter of the BHN consideration to be paid for the assets to be acquired pursuant to the BHN contribution agreement and did not address any other aspect or implication of the BHN transactions. The summary of LionTree's opinion in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of its written opinion, which is included as Annex K to this joint proxy statement/prospectus and sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by LionTree in preparing its opinion. However, neither LionTree's opinion nor the summary of its opinion and the related analyses set forth in this joint proxy statement/prospectus constitute a recommendation to any stockholder as to how such stockholder should vote or act on any matter relating to the BHN transactions or any other matter.

In arriving at its opinion, LionTree, among other things:

reviewed (A) a draft of the merger agreement (B) a draft of the amendment to the BHN contribution agreement, (C) the BHN contribution agreement prior to such amendment, and (D) a draft of the BHN/Liberty stockholders agreement;

reviewed certain publicly available business and financial information relating to Bright House, TWC, and Charter;

reviewed certain internal financial estimates and other data relating to the business and financial prospects of Charter, Bright House, and TWC that were provided to LionTree by the management of Charter and not publicly available, including financial forecasts and estimates for the fiscal year ending 2015 (and, with respect to Bright House, also for the fiscal year ended 2014);

reviewed certain internal financial information and other data relating to the business and financial prospects of Charter, after giving pro forma effect to (A) the BHN transactions and (B) the mergers and the BHN transactions, in each case, that were provided to LionTree (and prepared) by the management of Charter and not publicly available, including financial forecasts and estimates for the fiscal years ending 2015 through 2019 (as well as certain estimates for utilization of tax assets beyond 2019 through the full utilization of such tax assets);

Table of Contents

reviewed certain estimates of dis-synergies and synergies, in each case, for (A) the fiscal years ending 2016 through 2019 with respect to Charter and TWC, (B) the fiscal years ending 2016 through 2019 with respect to Charter, TWC, and Bright House, and (C) the fiscal years ending 2014 and 2015 with respect to Charter and Bright House, which we refer to collectively in this section as the transaction effects, prepared by Charter management;

conducted discussions with members of the senior management of Charter, Bright House and TWC concerning the business and financial prospects of Charter, Bright House and TWC, respectively, as well as the transaction effects;

reviewed current and historical market prices of Charter Class A common stock and TWC's common stock;

reviewed certain publicly available financial and stock market data with respect to certain other companies LionTree believed to be generally relevant;

compared certain financial terms of the mergers and the BHN transactions with the publicly available financial terms of certain other transactions LionTree believed to be generally relevant;

reviewed certain pro forma effects relating to the mergers and the BHN transactions, including the effects of anticipated financings, prepared by Charter management; and

conducted such other financial studies, analyses and investigations, and considered such other information, as LionTree deemed necessary or appropriate.

In connection with its review, LionTree assumed and relied upon, without independent verification, the accuracy and completeness in all material respects of the information provided to or reviewed by it for the purpose of its opinion. In addition, LionTree did not make any independent evaluation or appraisal of any of the assets or liabilities (contingent or otherwise) of Charter, Bright House, or TWC, nor was LionTree furnished with any such evaluation or appraisal. With respect to the financial forecasts, estimates, transaction effects and pro forma effects referred to above, which we refer to in this section collectively as the forecasts, LionTree assumed, based on advice from management of Charter, that each had been reasonably prepared on a basis reflecting the best currently available estimates and judgments of Charter management as to the future financial performance of Charter, Bright House, and TWC including the transaction effects and pro forma effects. In addition, LionTree assumed that the financial forecasts and estimates referred to above would be achieved at the times and in the amounts projected. LionTree expressed no opinion with respect to such forecasts or estimates, including any transaction effects and pro forma effects. LionTree assumed, with the consent of the Charter board of directors, that for U.S. federal income tax purposes (i) the payment of cash consideration pursuant to the first merger will be treated as a distribution in redemption of TWC common stock subject to the provisions of Section 302(a) of the Code, (ii) the second merger will qualify as a reorganization within the meaning Section 368(a) of the Code and the regulations promulgated thereunder, and (iii) the third merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and the regulations promulgated thereunder. LionTree's opinion is necessarily based on economic, monetary, market and other conditions as in effect on, and the information available to LionTree as of, the date thereof, and did not address any legal, regulatory, taxation, or accounting matters.

In rendering its opinion, LionTree assumed, with the consent of the Charter board of directors, that (i) the final executed form of the merger agreement and the final executed form of the amendment to the BHN contribution agreement would not differ in any material respect from the drafts that LionTree reviewed, (ii) the representations and warranties of the parties to such agreements were true and correct in all material respects, (iii) the parties to such agreements will comply with and perform all material covenants and agreements required to be complied with or performed by such parties under such agreements, and (iv) the transactions will be consummated in accordance with the terms of such agreements without any adverse waiver or amendment of any material term or condition thereof. LionTree also assumed, with the consent of the Charter board of directors, that all governmental, regulatory or other consents and approvals necessary for the consummation of the transactions will be obtained without any material adverse effect on Charter, TWC, Bright House, or the transactions.

Table of Contents

LionTree's opinion was provided for the benefit of the Charter board of directors (in its capacity as such) in connection with, and for the purpose of, its evaluation of the transactions.

LionTree's opinion did not address the relative merits of the transactions or any related transaction as compared to other business strategies or transactions that might be available to Charter or Charter's underlying business decision to effect the transactions or any related transaction. LionTree was not asked to, nor did it, offer any opinion as to the terms (other than the BHN consideration to the extent expressly specified in its opinion) of the BHN contribution agreement or any related documents, or the form of the transactions or any related transaction. LionTree was not asked to, nor did LionTree, offer any opinion with respect to any post-closing adjustments to the merger consideration or the BHN consideration or any portion thereof (in each case, whether as a result of any working capital adjustment, indemnification obligations, or otherwise), any ongoing obligations of Charter or any of its affiliates (including any obligations with respect to governance, appraisal rights, preemptive rights, voting, registration rights, or otherwise, contained in any agreement related to the transactions, including the BHN contribution agreement or the transaction agreements (as defined in the BHN contribution agreement)), any allocation of the merger consideration or the BHN consideration (or any portion thereof), the fair market value of TWC, Bright House, or the assets to be acquired pursuant to the BHN contribution agreement, or any other term or aspect of the merger agreement or the BHN contribution agreement or the transactions or any term or aspect of any other agreement or instrument contemplated by these agreements or entered into or amended in connection with the transactions, including the fairness of the transactions to, or any consideration received in connection therewith by, the holders of any class of securities, creditors, or other constituencies of Charter, Bright House, or TWC. In particular, LionTree was not asked to, nor did LionTree, offer any opinion as to (i) the terms of the transactions between Liberty and its affiliates, on the one hand, and Charter and its affiliates, on the other hand, that are contemplated by the merger agreement or the BHN contribution agreement, (ii) the terms of the BHN/Liberty stockholders agreement or any of the other transaction agreements (as defined in the BHN contribution agreement), or (iii) the terms of the contemplated amendments to Charter's certificate of incorporation. In addition, LionTree expressed no opinion as to the fairness of the amount or nature of any compensation to be received by any officers, directors or employees of any parties to the transactions, or any class of such persons, relative to the merger consideration or the BHN consideration. LionTree expressed no opinion as to what the value of the equity to be issued to A/N in connection with the BHN transactions (or any portion thereof) or any New Charter Class A common stock will be when issued in connection with the transactions or the prices at which the equity to be issued to A/N in connection with the BHN transactions (or any portion thereof), Charter Class A common stock, or TWC common stock will trade at any time.

In preparing its opinion to the Charter board of directors, LionTree performed a variety of analyses, including those described below. The summary of LionTree's analyses is not a complete description of the analyses underlying LionTree's opinion. The preparation of a fairness opinion involves various quantitative and qualitative judgments and determinations with respect to the financial, comparative and other analytical methods employed and the adaptation and application of these methods to the unique facts and circumstances presented. Consequently, neither a fairness opinion nor its underlying analyses is readily susceptible to summary description. LionTree arrived at its opinion based on the results of all analyses undertaken by it, assessed as a whole, and did not draw, in isolation, conclusions from or with regard to any individual analysis, methodology or factor. Accordingly, LionTree believes that its analyses and the following summary must be considered as a whole and that selecting portions of its analyses, methodologies and factors or focusing on information presented in tabular format, without considering all analyses, methodologies and factors or the narrative description of the analyses, could create a misleading or incomplete view of the process underlying LionTree's analyses and opinion. Each analytical technique has inherent strengths and weaknesses, and the nature of the available information may further affect the value of particular techniques.

In performing its analyses, LionTree considered general business, economic, industry, regulatory and market conditions, financial and otherwise, and other matters as they existed on, and could be evaluated as of, the date of the

opinion. LionTree's analyses involved judgments and assumptions with regard to general business, economic, industry, regulatory and market conditions, financial and otherwise, and other matters, many of which

Table of Contents

are beyond the control of Charter, such as the impact of competition on the business of Charter and on the industry generally, industry growth and the absence of any material change in the financial condition and prospects of Charter or the proposed mergers or the BHN transactions, and an evaluation of the results of those analyses is not entirely mathematical. LionTree believes that mathematical derivations (such as determining mean and median) of financial data are not by themselves meaningful and should be considered together with qualities, judgments, and informed assumptions. The estimates contained in Charter's analyses and the implied reference range values indicated by LionTree's analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than those suggested by the analyses. Additionally, any analyses relating to the value of assets, businesses or securities do not purport to be appraisals or to reflect the prices at which businesses or securities actually may be sold, which may depend on a variety of factors, many of which are beyond the control of Charter. Much of the information used in, and accordingly the results of, LionTree's analyses are inherently subject to substantial uncertainty.

LionTree's opinion was provided to the Charter board of directors in connection with its evaluation of the BHN transactions and was only one of many factors considered by the Charter board of directors in evaluating the BHN transactions. Neither LionTree's opinion nor its analyses were determinative of the BHN consideration or of the views of the Charter board of directors or management with respect to the BHN transactions or the BHN consideration. The type and amount of consideration payable in the BHN transactions were determined through negotiation between Charter and A/N, during which LionTree provided advice to Charter, and the decision to enter into the BHN transactions was solely that of the Charter board of directors. LionTree did not, however, recommend any specific type or amount of consideration to Charter or the Charter board of directors, nor did it recommend that any specific type or amount of consideration constituted the only appropriate consideration for the transaction.

The following is a summary of the material analyses reviewed by LionTree in connection with LionTree's presentation to the Charter board of directors and opinion rendered on May 23, 2015. The order of the analyses does not represent relative importance or weight given to those analyses by LionTree. The analyses summarized below include information presented in tabular format. The tables alone do not constitute a complete description of the analyses. Considering the data in the tables below without considering the full narrative description of the analyses, as well as the methodologies underlying, and the assumptions, qualifications and limitations affecting, each analysis, could create a misleading or incomplete view of LionTree's analyses.

For purposes of its analyses, LionTree reviewed a number of financial and operating metrics, including:

enterprise value, calculated as the value of the relevant company's outstanding equity securities (taking into account its outstanding options, warrants and other convertible securities) based on the relevant company's closing stock price, or equity value, plus net debt (calculated as outstanding indebtedness, preferred stock and capital lease obligations less the amount of cash on its balance sheet) plus interests of others in majority (but not wholly owned) subsidiaries, or minority interests, less interests in entities for which the relevant company owns less than 50% of the equity, or associates, as of a specified date;

adjusted enterprise value, calculated as enterprise value less the net present value of the relevant company's tax attributes; and

earnings before interest, taxes, depreciation and amortization, adjusted for certain one-time items and stock-based compensation expense, which we refer to in this section as Adjusted EBITDA.

Unless the context indicates otherwise, enterprise values and equity values derived from the selected companies analyses described below were calculated using the closing price of Charter common stock, and the common stock of the selected publicly traded companies listed below as of May 22, 2015 (other than Cablevision, for which the closing price on May 19, 2015 was used), and transaction values for the target companies derived from the selected transactions analysis described below were calculated as of the public announcement date of the relevant transaction based on the estimated purchase prices paid in the selected transactions. Accordingly, this information may not reflect current or future market conditions.

Table of Contents

In addition, unless the context indicates otherwise, (i) per share amounts for Charter common stock were calculated on a fully diluted basis, using the treasury stock method; (ii) Pro Forma Charter refers to New Charter after giving effect to the BHN transactions and, where indicated, the mergers; (iii) Reference Price refers to a value of \$173 per share of Charter Class A common stock; (iv) Spot Price refers to a value of \$175.33 per share of Charter Class A common stock (the closing price on May 22, 2015); (v) QoE Effective EBITDA refers to Adjusted EBITDA with certain additional adjustments, including adjustments for certain Bright House cost allocations, pension expenses, and certain differences in classification and reporting methodologies between Bright House and Charter; (vi) Option A assumes that all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$100 cash and 0.5409 Charter Class A common shares for each share of TWC common stock; and (vii) Option B assumes that all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$115 cash and 0.4562 Charter Class A common shares for each share of TWC common stock. Estimates of 2015 Adjusted EBITDA for Charter and Bright House were based on Charter management projections.

Financial Analyses

Selected Companies Analysis. LionTree calculated certain valuation multiples based on certain financial data for Charter and certain selected companies. The selected companies consisted of publicly traded companies primarily engaged in the U.S. cable industry with enterprise values in excess of \$5 billion. For each of Charter and certain other companies, LionTree calculated valuation multiples, including enterprise value and adjusted enterprise value as a multiple of estimated Adjusted EBITDA for 2014 and 2015. These multiples were then compared to the multiple implied by the BHN transactions both with and without giving effect to the transaction effects. The list of selected companies and the related multiples for such selected companies and for Charter are set forth below, and compared to the multiples implied by the BHN transactions (with and without the transaction effects):

Implied Multiples:

	Enterprise Value as a Multiple of		Adjusted Enterprise Value as a Multiple of	
	2014A Adjusted EBITDA	2015E Adjusted EBITDA	2014A Adjusted EBITDA	2015E Adjusted EBITDA
Charter (standalone)	10.7x	9.8x	9.7x	8.9x
Comcast (cable only)	7.5x	7.0x	7.5x	7.0x
TWC	8.7x	8.5x	8.5x	8.3x
Cablevision (cable only)	7.5x	7.5x	7.5x	7.5x
BHN transactions (based on QoE Effective EBITDA) at Reference Price	7.3x	7.2x	6.5x	6.4x
BHN transactions (based on QoE Effective EBITDA) at Spot Price	7.4x	7.3x	6.6x	6.5x
BHN transactions (based on QoE Effective EBITDA) at Reference Price with transaction effects	7.3x	7.2x	6.5x	6.4x
BHN transaction (based on QoE Effective EBITDA) at Spot Price with transaction effects	7.4x	7.3x	6.6x	6.6x

Table of Contents

Selected Transactions Analysis. LionTree calculated certain valuation multiples based on the estimated purchase prices paid in the following selected publicly announced U.S. cable industry transactions from 2010 to 2015. The selected transactions consisted of publicly announced transactions involving target companies primarily engaged in the U.S. cable industry with transaction values in excess of \$500 million. The calculated multiples included transaction value as a multiple of (i) estimated Adjusted EBITDA for the last twelve-month period, or LTM, and (ii) estimated Adjusted EBITDA for the next twelve-month period, or NTM, in each case, both before and after giving effect to the present value of tax attributes of the target company. The list of selected transactions is set forth below:

Announcement Date	Target	Acquiror
June 2010	Bresnan Broadband Holdings, LLC	Cablevision Systems Corporation
November 2010	Mediacom Communications Corporation	Take Private
August 2011	Insight Communications Company Inc.	Time Warner Cable Inc.
June 2012	Wave Division Holdings LLC	Oak Hill Capital Partners
July 2012	Atlantic Broadband LLC	Cogeco Cable Inc.
July 2012	Suddenlink Communications	BC Partners Limited / CPP Investment Board
February 2013	Bresnan Broadband Holdings, LLC	Charter Communications Inc.
March 2013	Charter Communications, Inc.	Liberty Media Corporation
February 2014	Time Warner Cable Inc.	Comcast Corporation
April 2014	Certain Assets of Time Warner Cable and Comcast	Charter Communications Inc.
March 2015	Bright House Networks	Altice SA
May 2015	Suddenlink Communications	

This analysis indicated the following minimum, mean, and maximum LTM and NTM Adjusted EBITDA multiples (both before and after giving effect to the present value of tax attributes of the target company) for the selected transactions, and compared to the multiples implied by the BHN transactions:

	LTM Multiple		NTM Multiple	
	Enterprise Value	Adjusted Enterprise Value	Enterprise Value	Adjusted Enterprise Value
Selected Transactions				
Minimum	7.1x	6.3x	7.0x	5.4x
Mean	8.5x	7.6x	7.8x	7.0x
Maximum	9.9x	9.6x	9.1x	8.8x
BHN transactions (based on QoE Effective EBITDA) at Reference Price	7.3x	6.5x	7.2x	6.4x
BHN transactions (based on QoE Effective EBITDA) at Reference Price with transaction effects	7.3x	6.5x	7.2x	6.4x
BHN transactions (based on QoE Effective EBITDA) at Spot Price	7.4x	6.6x	7.3x	6.5x
	7.4x	6.6x	7.3x	6.6x

BHN transactions (based on QoE Effective EBITDA) at
Spot Price with transaction effects

Pro Forma Financial Analyses

DCF Analyses. LionTree performed a discounted cash flow analysis of Pro Forma Charter by calculating the estimated net present value of the unlevered, after-tax free cash flows that Pro Forma Charter was forecasted to generate through 2019 (both with and without the TWC and BHN transactions), based on the forecasts. LionTree calculated terminal values for Pro Forma Charter by applying a range of terminal value multiples of 6.5x to 7.5x to Pro Forma Charter's 2019 estimated LTM Adjusted EBITDA. The present values of the cash flows and

Table of Contents

terminal values, including the net present value of the pro forma tax attributes of the combined company and the transaction effects, were then calculated using discount rates ranging from 6.0% to 7.5% (except for the tax attributes, which were calculated using a 10.0% discount rate). The same analysis was also performed on the forecasted unlevered, after-tax free cash flows and terminal values for standalone Charter. The discounted cash flow analysis indicated the following equity value reference ranges for Pro Forma Charter (without TWC or with TWC assuming Option A or Option B), as compared to the implied per share reference ranges for Charter on a standalone basis based on the same discount rates and multiples:

Implied Per Share Equity Reference Range for**Stand-Alone Charter**

\$169.84 \$217.39

Implied Per Share**Equity Reference Range for****Pro Forma Charter (without TWC)**

\$189.27 \$239.25

Implied Per Share**Equity Reference Range for****Pro Forma Charter****including TWC (assuming Option A)**

\$176.22 \$239.68

Implied Per Share**Equity Reference Range for****Pro Forma Charter****including TWC (assuming Option B)**

\$176.22 \$244.45

Pro Forma DCF Accretion/Dilution Analysis. LionTree performed discounted cash flow accretion/dilution analyses of Pro Forma Charter by comparing the implied per share equity reference range of Charter on a standalone basis, as discussed above, to the implied per share equity reference range derived from the pro forma discounted cash flow analysis of Pro Forma Charter (without TWC or with TWC assuming Option A or Option B). The analysis indicated that the transaction could be (i) between approximately 10.1% and 11.4% accretive to holders of Charter common stock in the case of Bright House without TWC, (ii) between approximately 3.7% and 10.2% accretive to holders of Charter common stock in the case of Bright House and TWC (assuming Option A), and (iii) between approximately 3.7% and 12.4% accretive to holders of Charter common stock in the case of Bright House and TWC (assuming Option B).

Other Matters

LionTree was engaged by Charter to act as its financial advisor in connection with the BHN transactions and provide financial advisory services, including an opinion to the Charter board of directors regarding the fairness, from a financial point of view, to Charter of the BHN consideration to be paid for the assets to be acquired pursuant to the BHN contribution agreement. Charter engaged LionTree based on the experience and reputation of LionTree's professionals. LionTree is regularly engaged to provide advisory services in connection with mergers and acquisitions. Pursuant to its engagement letter, Charter will pay LionTree \$15 million for its services, which is contingent upon the

consummation of the BHN transactions. Charter has also agreed to reimburse LionTree for certain expenses and to indemnify LionTree, its affiliates and certain related parties against certain liabilities and expenses, including certain liabilities under the federal securities laws arising out of or relating to LionTree's engagement.

In the past, LionTree and its affiliates have provided investment banking services to Charter and its affiliates unrelated to the transactions, for which LionTree and its affiliates received compensation, including having acted as (i) financial advisor to Charter and its affiliates (including Liberty Broadband and its affiliates) in connection with certain merger and acquisition transactions or matters (including the BHN contribution agreement, the merger agreement, and in connection with Charter's potential acquisition of certain assets from Comcast and TWC) and (ii) co-manager in connection with certain debt offerings of Charter and its affiliates. LionTree and its affiliates may also seek to provide such services to Charter and its affiliates (including Liberty Broadband and its affiliates) in the future and expect to receive fees for the rendering of these services. In the ordinary course of

Table of Contents

business, certain of LionTree's employees and affiliates may hold or trade, for their own accounts and the accounts of their investors, securities of Charter, Bright House, and TWC and, accordingly, may at any time hold a long or short position in such securities.

TWC Forecasts

In May 2015, TWC made available to Charter and Charter's financial advisor certain internal financial forecasts, estimates and other financial and operating data of TWC prepared by the management of TWC for calendar years 2015 and 2016 (the 2015/2016 TWC Internal Forecasts).

In addition to the 2015/2016 Internal Forecasts, the following information was provided to or discussed with the TWC board of directors in its evaluation of the mergers and was provided to or discussed with the TWC financial advisors and the financial advisor to the TWC independent members of the TWC board of directors for their use and reliance in connection with their respective financial analyses and opinions described in the section titled "Opinions of TWC's Financial Advisors" and "Opinion of Financial Advisor to the TWC Independent Directors": (i) certain estimates of the management of TWC as to the net operating losses and other tax attributes of TWC (together with the 2015/2016 TWC Internal Forecasts, the TWC Internal Forecasts) and (ii) certain publicly available research analysts' estimates relating to TWC for calendar years 2017 and 2018 prepared by averaging information provided from several analysts as adjusted by the management of TWC (the TWC Guided Forecasts) and, together with the TWC Internal Forecasts, the TWC Forecasts), with standalone unlevered after-tax free cash flows for TWC in calendar years 2019 through 2024 extrapolated based on certain assumed growth rates provided by the management of TWC. The TWC Forecasts (other than the TWC Guided Forecasts) were not intended for public disclosure at the time they were prepared. The unaudited prospective financial information described in clause (ii), together with the TWC Internal Forecasts, are referred to below and sometimes referred to elsewhere in this joint proxy statement/prospectus as the TWC Forecasts. The prospective financial information in the TWC Internal Forecasts and the adjustments to and extrapolations of the TWC Guided Forecasts was based on numerous variables and assumptions made by TWC's management at the time they were prepared with respect to industry performance, general business, economic, regulatory, market and financial conditions and other future events, as well as matters specific to TWC. Some or all of such assumptions that have been made regarding, among other things, the timing of certain occurrences or impacts, may have changed since the date the prospective financial information was prepared. The prospective financial information in the TWC Internal Forecasts and the adjustments to and extrapolations of the TWC Guided Forecasts summarized below reflect various assumptions and estimates that TWC's management made in good faith, including, without limitation: (i) an economic environment, competitive environment and regulatory requirements consistent with conditions existing and known at the time of preparation of the projections, (ii) revenue growth of 5.5% 2014-2016 CAGR, (iii) operating expenses before depreciation, amortization and mergers-related and restructuring costs growth of 5.7% 2014-2016 CAGR, (iv) an increase in total operating expenses before depreciation, amortization and mergers-related and restructuring costs as a percentage of revenue to 64.2% in 2016, and (v) a decrease in capital expenditures as a percentage of revenue from 18.0% in 2014 to 17.9% of revenue in 2015 and 16.7% of revenue in 2016. These assumptions are inherently uncertain, were made as of the time the prospective financial information was prepared, and may not necessarily be reflective of actual results, either now or in the future, in light of changed circumstances, economic conditions, or other developments.

The following table presents a summary of the TWC Forecasts:

TWC Forecasts (in millions)	
TWC Internal Forecasts	TWC Guided Forecasts

	2015E	2016E	2017E	2018E
Revenue	\$ 23,807	\$ 25,409	\$ 26,482	\$ 27,937
Adjusted OIBDA(1)	8,350	9,100	9,494	10,043
Capital Expenditures	4,250	4,250	4,179	4,208

Table of Contents

(1) Adjusted OIBDA means Operating Income before depreciation of tangible assets and amortization of intangible assets (OIBDA) excluding the impact, if any, of noncash impairments of goodwill, intangible and fixed assets; gains and losses on asset sales; and mergers-related and restructuring costs.

In addition, the extrapolated standalone unlevered after-tax free cash flows for fiscal years 2015 through 2024 (i) utilized by the TWC financial advisors were as follows (in millions): 2015E: \$2,060; 2016E: \$2,701; 2017E: \$3,058; 2018E: \$3,385; 2019E: \$3,537; 2020E: \$3,696; 2021E: \$3,862; 2022E: \$3,949; 2023E: \$4,038; and 2024E: \$4,129; and (ii) utilized by Centerview were as follows (in millions): 2015E (excluding Q1): \$1,624; 2016E: \$2,626; 2017E: \$2,983; 2018E: \$3,310; 2019E: \$3,537; 2020E: \$3,696; 2021E: \$3,863; 2022E: \$3,950; 2023E: \$4,038; and 2024E: \$4,129.

Adjusted OIBDA and unlevered free cash flow, as referenced above, may be considered non-GAAP financial measures. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as used in the TWC Forecasts may not be comparable to similarly titled amounts used by other companies or persons.

The inclusion of information about the TWC Forecasts in this joint proxy statement/prospectus should not be regarded as an indication that any of TWC, Charter or any other recipient of this information considered, or now considers, it to be necessarily predictive of actual future results or material information, and, in fact, both Charter and TWC view the prospective financial information as non-material because of the inherent risks and uncertainties associated with such forecasts. The information about the TWC Forecasts included in this joint proxy statement/prospectus is presented solely to give TWC stockholders access to the information that was made available to TWC, Charter or their respective financial advisors.

The TWC Forecasts are each subjective in many respects and thus subject to interpretation. While presented with numeric specificity, the TWC Forecasts reflect numerous estimates and assumptions with respect to industry performance and competition, general business, economic, market and financial conditions and matters specific to TWC's business, including the factors listed under Risk Factors of this joint proxy statement/prospectus, all of which are difficult to predict and many of which are beyond TWC's control. In particular, the publicly available research analysts' estimates reflected in the TWC Forecasts were not internally prepared or adopted by TWC management. The information was prepared by independent analysts not affiliated with TWC, for purposes unrelated to the management of TWC's business or the mergers. Many of the assumptions reflected in the TWC Forecasts are subject to change and the TWC Forecasts do not reflect revised prospects for TWC's business, changes in general business or economic conditions or any other transaction or event that has occurred or that may occur and that was not anticipated at the time such financial information was prepared. TWC has not updated, nor does TWC intend to update or otherwise revise, the TWC Forecasts. There can be no assurance that the results reflected in any of the TWC Forecasts will be realized or that actual results will not materially vary from the TWC Forecasts. In addition, the TWC Forecasts cover multiple years and such information by its nature becomes less predictive with each successive year. Therefore, the inclusion of the TWC Forecasts in this joint proxy statement/prospectus should not be relied on as necessarily predictive of actual future events nor construed as financial guidance.

TWC stockholders are urged to review TWC's most recent SEC filings for a description of risk factors with respect to TWC's business. You should read Cautionary Statement Regarding Forward-Looking Statements for additional information regarding the risks inherent in forward-looking information such as the financial projections.

The TWC Forecasts were not prepared with a view toward complying with GAAP (including because certain metrics are non-GAAP measures as discussed above, and the TWC Forecasts do not include footnote disclosures as may be

required by GAAP), the published guidelines of the SEC regarding projections or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information. Neither TWC's independent registered public accounting firm, nor any

Table of Contents

other independent accountants, have compiled, examined, or performed any procedures with respect to the TWC Forecasts, nor have they expressed any opinion or any other form of assurance on the TWC Forecasts or the achievability of the results reflected in the TWC Forecasts, and they assume no responsibility for, and disclaim any association with, the TWC Forecasts. Ernst & Young LLP reports incorporated by reference into this joint proxy statement/prospectus relate to TWC's historical financial information, respectively. They do not extend to the prospective financial information and should not be read to do so. Certain of the financial projections set forth herein may be considered non-GAAP financial measures. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as used in the TWC Forecasts may not be comparable to similarly titled amounts used by other companies or persons.

For the reasons described above, readers of this joint proxy statement/prospectus are cautioned not to place undue, if any, reliance on the TWC Forecasts. TWC has not made any representation to the other or any other person in the merger agreement concerning any of the TWC Forecasts.

The information about the TWC Forecasts set forth above does not give effect to the mergers and also does not take into account the effect of any failure of the mergers to be consummated.

Charter Forecasts

Charter does not as a matter of course make public forecasts as to future performance, earnings or other results, and Charter is especially reluctant to disclose forecasts for extended periods due to the unpredictability of the underlying assumptions and estimates. However, in connection with the Charter board of directors' consideration of its recommendation with respect to transactions described in this joint proxy statement/prospectus, in May 2015, Charter provided to the Charter board of directors and Charter's financial advisors non-public, internal financial forecasts regarding Charter's, TWC's and Bright House's anticipated future operations for fiscal years 2015 to 2019. The internal financial forecasts were not prepared with a view toward public disclosure, nor were they prepared with a view toward compliance with published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial forecasts. Neither Charter's independent registered public accounting firm, nor any other independent accountants, have examined, compiled or otherwise applied procedures to the financial forecasts presented herein and, accordingly, do not express an opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the prospective financial information. The reports of Charter's independent registered public accounting firm incorporated by reference in this joint proxy statement/prospectus relate to Charter's historical financial information. They do not extend to the prospective financial information and should not be read to do so. The summary of these internal financial forecasts is not being included in this joint proxy statement/prospectus to influence Charter stockholders' decision whether to vote for the proposals being presented at the Charter special meeting, but for informational purposes because these internal financial forecasts were considered by the Charter board of directors and financial advisors for purposes of evaluating the transactions described in this joint proxy statement/prospectus.

These internal financial forecasts were prepared by Charter from July 2014 through March 2015 in respect of the BHN transactions and in May 2015 in respect of the TWC transactions, with May 2015 updates for the BHN transactions forecasts relating to the TWC transactions using numerous variables and assumptions, based upon the information available to Charter at those times. When the internal financial forecasts were prepared, Charter management had not completed its diligence with respect to the TWC transactions. Charter management used audited financial statements for the year ended December 31, 2014 for TWC and Bright House, as well as other public information available for TWC. The Charter assets were assumed to develop financially consistent with its internal plans. Forecasts for revenue, Adjusted EBITDA and capital expenditures for TWC and Bright House were based on the assumption that Charter's

operating strategy will be implemented at TWC and Bright House. Therefore the historical financial development of Charter, during the 2012-2015 timeframe, and Charter's expectation for the future financial development of Charter systems, served as a guideline for the TWC and

Table of Contents

Bright House forecasts. However, TWC and Bright House are unique assets with market specific characteristics that may be different from Charter and there can be no assurance that TWC and Bright House will achieve similar growth rates. Charter also included estimated programming synergies, overhead and capital expenditure synergies for New Charter in the forecasts. The internal financial forecasts were prepared assuming a January 1, 2016 closing for the financial development of New Charter but are shown as if closing had occurred on January 1, 2015. Given their one-time or short-term nature, however, the internal financial forecasts included herein do not include M&A transaction costs or all integration costs.

While Charter management believed the assumptions used in developing the internal financial forecasts to be reasonable in light of the circumstances at the time they were made, the variables and assumptions on which the internal financial forecasts were based are inherently uncertain and many are beyond the control of Charter's management. Important factors that may affect actual results and cause the internal financial forecasts to not be achieved include, but are not limited to, risks and uncertainties relating to the business of each company (including each company's ability to achieve strategic goals, objectives and targets over applicable periods, including before closing), industry performance, the regulatory environment, general business and economic conditions and other factors described or incorporated by reference in Risk Factors and Cautionary Statement Regarding Forward-Looking Statements. The internal financial forecasts also reflect assumptions as to certain business decisions that are subject to change. As a result, actual results may differ materially from those contained in these internal financial forecasts, and there can be no assurance that the projections will be realized.

The inclusion of these internal financial forecasts in this joint proxy statement/prospectus, however, should not be regarded as an indication that any of Charter, New Charter, TWC, Bright House or their respective affiliates, advisors or representatives considered the internal financial forecasts to be predictive of actual future events, and the internal financial forecasts should not be relied upon as such. The internal financial forecasts were prepared by Charter for its own purposes and were not internally prepared or adopted, nor were they reviewed, by TWC or Bright House. None of Charter, New Charter, TWC, or Bright House or their respective affiliates, advisors, officers, directors, partners or representatives can give any assurance that actual results will not differ from these internal financial forecasts, and none of them undertakes any obligation to update or otherwise revise or reconcile these internal financial forecasts to reflect circumstances existing after the date the internal financial forecasts were generated or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the projections are shown to be in error. None of Charter, New Charter, TWC or Bright House intends to make publicly available any update or other revision to these internal financial forecasts. None of Charter, New Charter or their respective affiliates, advisors, officers, directors, partners or representatives has made, makes or is authorized in the future to make any representation to any stockholder or other person regarding Charter's or New Charter's ultimate performance compared to the information contained in these internal financial forecasts or that forecasted results will be achieved. Charter and New Charter have made no representation to TWC or Bright House, in the transaction agreements or otherwise, concerning these internal financial forecasts.

Subject to the above, a summary of the forecasts regarding projected anticipated future operations for fiscal years 2015 to 2019 after giving effect to the TWC transactions and/or the BHN transactions is set forth below (in millions).

Charter, giving effect to the TWC transactions and the BHN transactions:

	2015	2016	2017	2018	2019
Revenue	\$ 37,507	\$ 39,503	\$ 42,209	\$ 45,690	\$ 49,283
Adjusted EBITDA ¹	13,328	14,556	15,974	17,811	19,541

Capital Expenditures	6,516	6,463	6,916	6,479	5,829
----------------------	-------	-------	-------	-------	-------

Table of Contents

New Charter, giving effect to the TWC transactions, but not the BHN transactions:

	2015	2016	2017	2018	2019
Revenue	\$ 33,547	\$ 35,499	\$ 37,925	\$ 41,034	\$ 44,240
Adjusted EBITDA ¹	11,901	13,029	14,289	15,926	17,461
Capital Expenditures	5,888	5,778	6,201	5,834	5,239

Charter, giving effect to the BHN transactions, but not the TWC transactions:

	2015	2016	2017	2018	2019
Revenue	\$ 13,716	\$ 14,734	\$ 15,866	\$ 17,222	\$ 18,582
Adjusted EBITDA ¹	4,909	5,333	5,815	6,430	7,029
Capital Expenditures	2,352	2,420	2,470	2,376	2,317

- 1 Adjusted EBITDA is defined as net income (loss) plus net interest expense, income taxes, depreciation and amortization, stock compensation expense (gain) loss on extinguishment of debt, loss on derivative instruments, net and other operating (income) expenses, such as merger and acquisition costs, special charges and (gain) loss on sale or retirement of assets. As such, it eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of Charter's and New Charter's businesses as well as other non-cash or nonrecurring items, and is unaffected by the expected New Charter capital structure or investment activities.

Debt Financing for the Mergers and BHN Transactions

Charter expects to finance part of the consideration for the TWC transactions and BHN transactions with additional indebtedness of approximately \$24 billion. This additional indebtedness is expected to be in the form of new senior secured bank loans, senior secured notes and unsecured indebtedness, subject to market conditions. This amount assumes that all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$100 cash and the equivalent of 0.5409 shares of Charter Class A common stock for each share of TWC common stock. Charter has committed financing for approximately \$4.3 billion of additional indebtedness, which would be substantially incurred through the issuance of unsecured notes by Charter Communications Operating Holdings, LLC, a subsidiary of Charter (CCOH), if all TWC stockholders (other than Liberty Broadband and Liberty Interactive) elect, in accordance with the merger agreement, to receive \$115 cash and the equivalent of 0.4562 shares of Charter Class A common stock for each share of TWC common stock.

New Bank Loans

On or about August 21, 2015, Charter's subsidiary Charter Communications Operating, LLC (CCO) is expected to incur \$1.0 billion in senior secured term loans maturing on or about August 21, 2021 (the Term H Loans) and \$2.8 billion in senior secured term loans maturing on or about January 21, 2023 (the Term I Loans and collectively with the Term H Loans, the Term Loans). Immediately following the incurrence of the Term Loans by CCO, the proceeds of such loans will be assigned to CCO Safari III, LLC (the Escrow Borrower) and placed into escrow. The release of the proceeds to CCO (the Bank Escrow Release) will be subject to the satisfaction of certain conditions, including the closing of the TWC transactions. Substantially concurrently with the Bank Escrow Release, the Term Loans will become obligations of CCO and the Escrow Borrower will merge into CCO.

Following the Bank Escrow Release, the Term Loans will be guaranteed by CCO's holding company CCOH and CCO's subsidiaries including, after giving effect to the TWC transactions and BHN transactions, the subsidiaries of CCO holding the operating assets of TWC and Bright House. In addition, following the Bank Escrow Release, the Term Loans will be secured by a perfected first priority security interest in substantially all of the assets of CCO and the guarantors, subject to certain customary exceptions. The liens will be (i) pari passu with the liens on the collateral securing the CCO senior secured notes described below and any permitted refinancing thereof and (ii) pari passu with the liens on the collateral on Charter's existing credit facilities and any permitted refinancings thereof. The pari passu ranking of the security interests will be set forth in a customary intercreditor agreement.

Table of Contents***New Senior Secured Notes***

On July 23, 2015, CCO Safari II, LLC (the Escrow Issuer) issued \$2.0 billion aggregate principal amount of 3.579% Senior Secured Notes due 2020 (the 2020 Notes), \$3.0 billion aggregate principal amount of 4.464% Senior Secured Notes due 2022 (the 2022 Notes), \$4.5 billion aggregate principal amount of 4.908% Senior Secured Notes due 2025 (the 2025 Notes), \$2.0 billion aggregate principal amount of 6.384% Senior Secured Notes due 2035 (the 2035 Notes), \$3.5 billion aggregate principal amount of 6.484% Senior Secured Notes due 2045 (the 2045 Notes) and \$500 million aggregate principal amount of 6.834% Senior Notes due 2055 (the 2055 Notes and, together with the 2020 Notes, the 2022 Notes, the 2025 Notes, the 2035 Notes and the 2045 Notes, the Notes). The gross proceeds of the offering and sale of the Notes are being held in escrow. The release of the proceeds to the Company (the Escrow Release) will be subject to the satisfaction of certain conditions, including the closing of the TWC transactions. Substantially concurrently with the Escrow Release, the Notes will become obligations of CCO and Charter Communications Operating Capital Corp. and the Escrow Issuer will merge into CCO. Following the Escrow Release, the Notes will be guaranteed by CCOH and CCO's subsidiaries, including, after giving effect to the TWC transactions and the BHN transactions, the subsidiaries of CCO holding the operating assets of TWC and Bright House. In addition, the Notes will be secured by a perfected first priority security interest in substantially all of the assets of CCO and the guarantors, subject to certain customary exceptions. The liens will be (i) pari passu with the liens on the collateral securing the new bank loans described above and any permitted refinancing thereof and (ii) pari passu with the liens on the collateral on Charter's existing credit facilities and any permitted refinancings thereof. The pari passu ranking of the security interests will be set forth in a customary intercreditor agreement.

The offering and sale of the Notes resulted in net proceeds of approximately \$15.5 billion. The net proceeds of this issuance, together with the proceeds of the new CCO senior secured bank loans, new unsecured CCOH notes described below and additional borrowings under the CCO revolving credit facility, will be used to fund the cash portion of the purchase price for the TWC transactions and the BHN transactions, to pay related fees and expenses and for general corporate purposes.

Assumed TWC Indebtedness

In addition, in connection with the completion of the TWC transactions, Charter expects to assume approximately \$23 billion in aggregate principal amount of TWC's senior notes and debentures with varying maturities. These notes and debentures will be, upon closing of the TWC transactions and, if applicable, the BHN transactions, secured (i) pari passu with the liens on the collateral securing the new bank loans described above and the new senior secured notes described above and any permitted refinancing thereof and (ii) pari passu with the liens on the collateral on Charter's existing credit facilities and any permitted refinancings thereof. The pari passu ranking of the security interests will be set forth in a customary intercreditor agreement.

Additional CCOH Notes

Charter expects to fund part of the purchase price for the transactions with additional notes issued (or assumed, following the consummation of the TWC transactions) by CCOH. These notes are expected to be general unsecured obligations of CCOH, structurally subordinated to all debt and other liabilities (including trade payables) of CCOH's subsidiaries, including the indebtedness described above. In the event CCOH is unable to issue unsecured notes, CCOH is expected to draw on its commitment for a 364 day unsecured loan facility.

Regulatory Approvals Required for the Mergers

Completion of the mergers is conditioned upon the receipt of certain governmental clearances or approvals, including the expiration or termination of the waiting period relating to the mergers under the HSR Act, approval of the FCC and receipt of certain other governmental consents and approvals from certain state and local authorities.

Table of Contents

U.S. Antitrust Filing

Under the HSR Act, certain transactions, including the mergers, may not be completed unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-merger notification with the FTC, and the Antitrust Division of the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration or termination of a 30-calendar-day waiting period following the parties' filings of their respective HSR Act notification forms or the termination of that waiting period. If the DOJ issues a Request for Additional Information and Documentary Material prior to the expiration of the initial waiting period, the parties must observe a second 30-calendar-day waiting period, which would begin to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

On June 24, 2015, Charter and TWC submitted their respective Notification and Report Forms under the HSR Act, triggering a 30-calendar-day waiting period expiring on July 24, 2015, unless otherwise extended or early terminated. On July 24, 2015, Charter and TWC received a Second Request, triggering a second 30-calendar-day waiting period, which will begin to run only after both parties have substantially complied with the Second Request, unless early terminated. Charter and TWC have engaged and continue to engage in dialogue with the Antitrust Division of the DOJ to answer questions posed and to provide additional details regarding the mergers.

At any time before or after the mergers are completed, the DOJ could take action under the antitrust laws in opposition to the mergers, including seeking to enjoin completion of the mergers, condition completion of the mergers upon the divestiture of assets of Charter, TWC or their respective subsidiaries or impose restrictions on New Charter's post-mergers operations. In addition, U.S. state attorneys general could take action under the antitrust laws as they deem necessary or desirable in the public interest, including, without limitation, seeking to enjoin the completion of the mergers or permitting completion subject to regulatory concessions or conditions. Private parties may also seek to take legal action under the antitrust laws under some circumstances.

FCC Approval

Under the Communications Act, and as a condition to, and before the completion of, the transaction, the FCC must approve the transfer of control of certain licenses and authorizations in connection with the transactions contemplated by the merger agreement. In connection with such approval, the FCC must determine whether New Charter is qualified to control these licenses and authorizations and whether such transfer of control is consistent with the Communications Act and FCC rules and would serve the public interest, convenience and necessity. In order to obtain FCC approval, Charter and TWC are required to file applications for FCC consent to the transfer of control of the FCC licenses and authorizations in connection with the mergers. Charter and TWC filed such applications in accordance with the merger agreement on June 25, 2015.

State and Local Approvals

Under the terms of the merger agreement, the completion of the mergers is subject to approval of the LFAs and approval of certain state public utility commissions. Certain franchise agreements require notification to and approval by the LFAs of transactions such as the merger, in order to review New Charter's legal, financial and technical qualifications. With respect to LFAs, Charter and TWC have agreed that satisfaction of the relevant closing condition will require that the sum of the aggregate number of video subscribers of TWC belonging to franchise areas for which either (i) no LFA consent is required or (ii) if LFA consent is required, such consent shall have been obtained, shall be no less than 85% of the aggregate number of video subscribers of TWC. In addition, Charter and TWC are required to obtain approval of certain state public utility commissions, which have jurisdiction over authorizations to provide telecommunications services. As a general matter, those state commissions, consistent with their states' laws, must

determine whether New Charter is qualified to control these authorizations and whether the transfer of control of such authorizations is consistent with the public interest, convenience and necessity and, in some cases, must approve the encumbrance of TWC assets contemplated by the mergers.

Table of Contents

Between July 2, 2015 and July 15, 2015 Charter and TWC submitted applications in 14 states where approval for the transaction is required. In three of these states, BHN was a party to the application as approval was also required for the transfer of control of licenses from BHN to Charter. As of the date of this joint proxy statement/prospectus, three have granted approval and the remaining are still pending.

On or about July 2, 2015, TWC and Charter, collectively and in some cases individually, filed applications seeking consent to transfer control of video licenses with approximately 640 local franchising authorities in TWC's and/or Charter's existing service areas. As of the date of this joint proxy statement/prospectus, 20 have granted approval and the remaining are still pending.

Other Governmental Approvals

Charter and TWC are not aware of any material governmental approvals or actions that are required for completion of the mergers other than those described in this section. It is presently contemplated that if any such additional governmental approvals or actions are required, those approvals or actions will be sought. There can be no assurance, however, that any additional approvals or actions will be obtained.

Efforts to Obtain Regulatory Approvals

Charter and TWC have agreed in the merger agreement to use their respective reasonable best efforts, subject to certain limitations, to make certain governmental filings or obtain the required governmental authorizations, as the case may be. Charter's obligation to use reasonable best efforts will include such efforts to take any actions and accept any conditions and other remedies to the extent such actions, conditions or other remedies would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the condition (financial or otherwise), business, assets or results of operations of Charter, TWC and their subsidiaries, taken as a whole (but without taking into account the BHN transaction).

These requirements are described in more detail under "The Merger Agreement - Reasonable Best Efforts Covenant."

Charter and TWC have also agreed not to, and to cause their respective subsidiaries and affiliates not to, (i) take any action that would reasonably be expected to have the effect of materially delaying, impairing or impeding the receipt of any regulatory approvals required in connection with the transactions contemplated by the merger agreement or the completion of the mergers, or (ii) acquire or agree to acquire (by merger, consolidation, acquisition of stock or assets or otherwise), directly or indirectly, any assets, securities (other than securities issued by such party as permitted by the terms of the merger agreement), properties, interests or business in any transaction or series of related transactions if such acquisition would (A) require approval of the FCC or (B) (without the consent of the other party, not to be unreasonably withheld, conditioned or delayed) have a value, or involve the payment of consideration, in excess of \$350 million, subject to certain limited exceptions agreed to by the parties (including the ability of Charter and its subsidiaries to bid on and purchase wireless spectrum). In addition, TWC has agreed not to accept any of the conditions or take any actions in connection with TWC's and Charter's efforts to obtain regulatory approval without Charter's prior written consent.

There can be no assurances that any of the regulatory approvals described above will be obtained and, if obtained, there can be no assurance as to the timing of such approvals, the ability to obtain such approvals on satisfactory terms or the absence of any litigation challenging such approvals.

Regulatory Approvals Required for the BHN Transactions

Completion of the BHN transactions is conditioned upon the receipt of certain governmental clearances or approvals, including the expiration or termination of the waiting period relating to the BHN transactions under the HSR Act, approval of the FCC and receipt of certain other governmental consents and approvals from certain state and local authorities.

Table of Contents***U.S. Antitrust Filing***

Under the HSR Act, certain transactions, including the BHN transactions, may not be completed unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-transaction notification with the FTC, and the Antitrust Division of the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration or termination of a 30-calendar-day waiting period following the parties' filings of their respective HSR Act notification forms or the termination of that waiting period. If the DOJ issues a Request for Additional Information and Documentary Material prior to the expiration of the initial waiting period, the parties must observe a second 30-calendar-day waiting period, which would begin to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

On June 24, 2015, Charter and Newhouse Broadcasting Corporation (*Newhouse*), an ultimate parent entity of BHN, submitted their respective Notification and Report Forms under the HSR Act, triggering a 30-calendar-day waiting period expiring on July 24, 2015, unless otherwise extended or early terminated. On July 24, 2015, Charter and Newhouse received a Second Request, triggering a second 30-calendar-day waiting period, which will begin to run only after both parties have substantially complied with the Second Request, unless early terminated. Charter and Newhouse have engaged and continue to engage in dialogue with the Antitrust Division of the DOJ to answer questions posed and to provide additional details regarding the BHN transactions.

At any time before or after the BHN transactions are completed, the DOJ could take action under the antitrust laws in opposition to the BHN transactions, including seeking to enjoin completion of the BHN transactions, condition completion of the BHN transactions upon the divestiture of assets of Charter, BHN or their respective subsidiaries or impose restrictions on New Charter's post-transaction operations. In addition, U.S. state attorneys general could take action under the antitrust laws as they deem necessary or desirable in the public interest, including, without limitation, seeking to enjoin the completion of the BHN transactions or permitting completion subject to regulatory concessions or conditions. Private parties may also seek to take legal action under the antitrust laws under some circumstances.

FCC Approval

Under the Communications Act, and as a condition to, and before the completion of, the BHN transactions, the FCC must approve the transfer of control of certain licenses and authorizations in connection with the transactions contemplated by the BHN contribution agreement. In connection with such approval, the FCC must determine whether New Charter is qualified to control these licenses and authorizations and whether such transfer of control is consistent with the Communications Act and FCC rules and would serve the public interest, convenience and necessity. In order to obtain FCC approval, Charter and A/N are required to file applications for FCC consent to the transfer of control of the FCC licenses and authorizations in connection with the BHN transactions. Charter and A/N filed such applications in accordance with the merger agreement on June 25, 2015.

State and Local Approvals

Under the terms of the BHN contribution agreement, the completion of the BHN transactions is subject to approval of the LFAs and approval of certain state public utility commissions. Certain franchise agreements require notification to and approval by the LFAs of transactions such as the BHN transaction, in order to review New Charter's legal, financial and technical qualifications. With respect to LFAs, Charter and A/N have agreed that (a) the aggregate number of video customers served by Bright House (i) pursuant to the grandfathering provisions of the Communications Act and (ii) pursuant to each franchise for which (A) no consent is required from any government entity issuing such franchise for the completion of the BHN transactions or (B) any such consent is required and has

been received (or deemed received under Section 617 of the Communications Act) (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition), shall be no less than 80% of the video customers served by Bright House at the closing, and (b) if less than 100% of such number of video customers, all applicable waiting periods

Table of Contents

(including extensions) shall have expired with respect to the FCC Forms 394 filed in connection with requests for approvals by local franchising authorities that have not been obtained. In addition, Charter and A/N are required to obtain approval of certain state public utility commissions, which have jurisdiction over authorizations to provide telecommunications services. As a general matter, those state commissions, consistent with their states' laws, must determine whether New Charter is qualified to control these authorizations and whether the transfer of control of such authorizations is consistent with the public interest, convenience and necessity and, in some cases, must approve the encumbrance of assets by New Charter upon the consummation of the BHN transactions.

Between July 2, 2015 and July 15, 2015 Charter and TWC submitted applications in 14 states where approval for the transaction is required. In three of these states, BHN was a party to the application as approval was also required for the transfer of control of licenses from BHN to Charter. As of the date of this joint proxy statement/prospectus, three have granted approval and the remaining are still pending.

On or about July 2, 2015, Charter and BHN also filed applications seeking consent to transfer control of video licenses with approximately 21 local franchising authorities in BHN's service area. As of the date of this joint proxy statement/prospectus, no approvals have yet been granted.

Other Governmental Approvals

Charter and A/N are not aware of any material governmental approvals or actions that are required for completion of the BHN transactions other than those described in this section. It is presently contemplated that if any such additional governmental approvals or actions are required, those approvals or actions will be sought. There can be no assurance, however, that any additional approvals or actions will be obtained.

Efforts to Obtain Regulatory Approvals

Charter and A/N have agreed in the BHN contribution agreement to use their respective reasonable best efforts, subject to certain limitations, to make certain governmental filings or obtain the required governmental authorizations, as the case may be. Charter's obligation to use reasonable best efforts will include such efforts to take any actions and accept any conditions and other remedies to the extent such actions, conditions or other remedies are (i) consistent in scope and magnitude with the conditions and actions required or imposed by governmental entities in connection with prior acquisitions of United States domestic cable systems completed in the past 12 years with an aggregate purchase price of at least \$500 million or (ii) related to franchises, state telecommunication authorizations (other than California) or regional sports networks regardless of whether any such condition or action is required or imposed by a governmental entity in connection with prior acquisitions of United States domestic cable systems completed in the 12 years prior to May 23, 2015 with an aggregate purchase price of at least \$500 million. Each condition, remedy or action that Charter is not required to accept or take is referred to in this joint proxy statement/prospectus as a BHN contribution burdensome condition.

Charter and A/N have agreed to use their respective reasonable best efforts to obtain all regulatory approvals required to complete the BHN transactions. In furtherance of the foregoing, Charter and A/N agreed in the BHN contribution agreement to file, as promptly as practicable (and not later than July 7, 2015), all appropriate applications and requests to obtain consents from the FCC and other government entities in connection with the BHN transactions and to promptly file any additional information requested by any government entity. Charter and A/N have also agreed not to, in bad faith, take any action that would reasonably be expected to have the effect of delaying, impairing or impeding the receipt of any regulatory approvals required in connection with the BHN transactions.

There can be no assurances that any of the regulatory approvals described above will be obtained and, if obtained, there can be no assurance as to the timing of such approvals, the ability to obtain such approvals on satisfactory terms or the absence of any litigation challenging such approvals.

Table of Contents

Charter Public Interest Commitments

As part of the regulatory approval process, Charter, TWC and BHN submitted a public interest statement to the FCC to further demonstrate the public benefits of the Transactions. In connection with the public interest statement and a filing Charter made with the FCC on July 15, 2015, Charter made commitments regarding the following items:

Investments within four years of closing the Transactions

Invest at least \$2.5 billion in the build-out of networks into commercial areas

Build one million line extensions to homes in the franchise areas of New Charter

Deploy over 300,000 out-of-home WiFi access points

Internet and interconnection

Comply with the Open Internet rules that prohibit blocking, throttling, and paid prioritization for three years from the closing of the Transactions without regard to the outcome of ongoing litigation regarding FCC's Open Internet rules

Maintain a settlement-free interconnection policy until December 31, 2018

Refrain from instituting usage-based pricing for Internet service for three years from the closing of the transactions

Build on BHN's low-income broadband program and make a service available across New Charter footprint within three years of closing

Product and operations

Transition TWC's and BHN's networks to all-digital within 30 months of closing and enable at least 60 Mbps download speeds for New Charter's Internet service and improve the video product by adding HD and on-demand options

Consistent packaging and pricing strategy to be transitioned to Charter's current model within 12 months of closing for TWC and BHN markets that are already all-digital at closing; same offering for all other areas once those systems have been converted to all-digital

Continue to insource call center and field technician jobs, including returning TWC call center jobs to the U.S.

With respect to the settlement-free interconnection policy (the Policy), Charter committed in its July 15, 2015 letter to the FCC to enter into an agreement to exchange Internet traffic with any entity providing content to Charter customers. The material terms of Charter's obligations are: (1) to enter into an interconnection contract with an applicant meeting the technical criteria specified in Charter's peering policy; (2) not to charge the interconnecting party money for exchanging Internet traffic pursuant to that contract; (3) to upgrade interconnection capacity with the interconnecting party within 90 days after a certain traffic threshold is met; and (4) to maintain interconnection contracts entered into pursuant to the Policy until at least December 31, 2018. If a party enters into an interconnection contract with Charter pursuant to the Policy, that party's obligations include several items that assist Charter and the interconnecting party in transmitting traffic on a settlement-free basis efficiently across the interconnected networks including: (1) not to charge Charter money for exchanging Internet traffic; (2) to interconnect at each of the Charter points of presence listed in the Policy and at any additional Charter point of presence within 90 days of its establishment; (3) to maintain a minimum traffic exchange of 3 Gbps (95th percentile) at each Charter point of presence in the dominant direction as measured on a monthly basis; (4) to deliver traffic to the Charter point of presence closest to the location at which the corresponding Internet customer traffic terminates; (5) to label the data traffic in ways that assist Charter in efficiently managing its network; and (6) to upgrade interconnection capacity with Charter within 90 days after a certain traffic threshold is met. Charter may also suspend an interconnection arrangement in certain circumstances including security reasons or if the interconnecting party sends traffic in excess of certain maximums based on the growth

Table of Contents

in the traffic of the interconnecting party. Charter may choose to extend the policy and the interconnection agreements under the policy but does not have any current plans whether to extend the policy or the underlying agreements. Under the open Internet rules adopted by the FCC, the FCC has determined that interconnection arrangements are subject to oversight under a just and reasonable standard and that the FCC will consider the reasonableness of Internet traffic exchange arrangements on a case by case basis. Charter believes its interconnection policy is fully consistent with the FCC open Internet rules although the FCC may choose to assess Charter's interconnection policy or interconnection agreements pursuant to the open Internet rules.

Appraisal Rights

Stockholders of TWC are entitled to statutory appraisal rights under Delaware law in connection with the first merger. This means that TWC stockholders are entitled to have the value of their shares of TWC common stock exclusive of any element of value arising from the accomplishment or expectation of the merger determined by the Delaware Court of Chancery and to receive payment based on that valuation. The ultimate amount that TWC stockholders will receive as a dissenting stockholder in an appraisal proceeding may be more than, the same as or less than the amount that such stockholder would have received under the merger agreement.

To exercise appraisal rights, TWC stockholders must submit a written demand for appraisal to TWC before the vote is taken on the merger agreement and such stockholder must not vote in favor of the approval of the adoption of the merger agreement. TWC stockholders' failure to follow exactly the procedures specified under Delaware law will result in the loss of appraisal rights. See Dissenters' Rights of Appraisal and Section 262 of the Delaware General Corporation Law attached as Annex P to this joint proxy statement/prospectus for more information.

Charter stockholders do not have appraisal rights in connection with the third merger or any other transaction described in this joint proxy statement/prospectus.

Material U.S. Federal Income Tax Consequences of the Mergers

The following is a discussion of the material U.S. federal income tax consequences of the mergers to U.S. holders and non-U.S. holders (each as defined below) of TWC common stock, and to U.S. holders of Charter Class A common stock.

Except where specifically indicated, this discussion addresses only U.S. holders of TWC common stock or Charter Class A common stock, as applicable, who hold their stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address any non-income taxes or any foreign, state or local tax consequences of the mergers. This discussion does not address all aspects of U.S. federal income taxation that may be relevant to holders of TWC common stock or Charter Class A common stock, as applicable, in light of their particular circumstances or to holders subject to special rules (including controlled foreign corporations, passive foreign investment companies, companies that accumulate earnings to avoid U.S. federal income tax, tax-exempt organizations, financial institutions, brokers or dealers in securities, insurance companies, regulated investment companies, real estate investment trusts, persons who hold TWC common stock or Charter Class A common stock as part of a hedging or conversion transaction or as part of a short-sale or straddle, certain U.S. expatriates, persons whose functional currency is not the U.S. dollar, partnerships or other pass-through entities for U.S. federal income tax purposes or persons who acquired TWC common stock or Charter Class A common stock pursuant to the exercise of options or otherwise as compensation), nor does it address the consequences of the mergers with respect to shares of TWC common stock held by Liberty Broadband or Liberty Interactive. In addition, this discussion does not address any alternative minimum tax nor does it address any tax consequences arising under the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010.

This discussion is based on the Code, applicable Treasury regulations, administrative interpretations and court decisions, each as in effect as of the date of this joint proxy statement/prospectus and all of which are subject to change, possibly with retroactive effect. Any such change could affect the validity of this discussion.

Table of Contents

For purposes of this discussion, a U.S. holder is a beneficial owner of shares of TWC common stock or Charter Class A common stock, as applicable, that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust (i) that is subject to the primary supervision of a court within the United States and all the substantial decisions of which are controlled by one or more U.S. persons or (ii) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (or an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds TWC common stock or Charter Class A common stock, the tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partners of partnerships holding TWC common stock or Charter Class A common stock should consult their own tax advisors.

As used herein, a non-U.S. holder means a beneficial owner of shares of TWC common stock or Charter Class A common stock, as applicable, that is neither (i) a U.S. holder, nor (ii) a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes).

THE FOLLOWING DISCUSSION DOES NOT PURPORT TO BE A COMPLETE ANALYSIS OR DISCUSSION OF ALL OF THE POTENTIAL TAX CONSEQUENCES OF THE MERGERS. PLEASE CONSULT YOUR OWN TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES TO YOU OF THE COMBINATION, INCLUDING TAX RETURN REPORTING REQUIREMENTS AND THE APPLICABILITY AND EFFECT OF U.S. FEDERAL, STATE, LOCAL AND FOREIGN INCOME AND OTHER TAX LAWS IN LIGHT OF YOUR PARTICULAR CIRCUMSTANCES.

General

The discussion below constitutes the opinion of Paul, Weiss, Rifkind, Wharton & Garrison LLP, counsel to TWC, as to the material U.S. federal income tax consequences of the mergers to U.S. holders and non-U.S. holders, as applicable, of TWC common stock, as well as the opinion of Wachtell, Lipton, Rosen & Katz, counsel to Charter, as to the material U.S. federal income tax consequences of the mergers to U.S. holders of Charter Class A common stock, in each case subject to the limitations, exceptions, assumptions, qualification and beliefs, described herein.

Each of the second merger and the third merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. The characterization of the first merger for U.S. federal income tax purposes is not clear. The payment of cash to a U.S. holder of shares of TWC common stock in the first merger may be treated as a distribution in partial redemption of such shares subject to the provisions of Section 302(a) for U.S. federal income tax purposes.

Alternatively, it is possible that the IRS could seek to characterize the exchange of shares of TWC common stock for shares of common stock of the surviving corporation and cash in the first merger as a recapitalization within the

meaning of Section 368(a)(1)(E) of the Code.

It is a condition to TWC's obligation to complete the mergers that TWC receive an opinion from Paul, Weiss, Rifkind, Wharton & Garrison LLP, counsel to TWC, to the effect that the second merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. It is a condition to Charter's obligation to complete the mergers that Charter receive an opinion from Wachtell, Lipton, Rosen & Katz, counsel to Charter, to the effect that each of the second merger and the third merger will qualify as a reorganization within the meaning of Section 368(a) of the Code.

Table of Contents

These opinions will be based on customary assumptions and representations from TWC, Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three. If any of the assumptions or representations is incorrect, incomplete or inaccurate or is violated, the validity of the opinions described above may be affected and the tax consequences of the combination could differ from those described in this joint proxy statement/prospectus. Neither TWC nor Charter intends to obtain a ruling from the IRS on the tax consequences of the combination.

U.S. Federal Income Tax Consequences to U.S. Holders of TWC Common Stock

As a result of the first merger, a holder of shares of TWC common stock will generally recognize gain, if any, but not in excess of the amount of cash received by a holder. The precise characterization of the first merger for U.S. federal income tax purposes is not clear, however, because there is no binding authority analyzing a similar situation. The merger may be treated as a redemption transaction, in which case the payment of cash to a U.S. holder of shares of TWC common stock in the first merger would be treated as a distribution in partial redemption of such shares subject to the provisions of Section 302(a) of the Code for U.S. federal income tax purposes. Alternatively, it is possible that the IRS could seek to characterize the exchange of shares of TWC common stock for shares of common stock of the surviving corporation and cash in the first merger as a recapitalization within the meaning of Section 368(a)(1)(E) of the Code. Charter and TWC intend to treat the payment of cash to a U.S. holder of shares of TWC common stock in the first merger as a distribution in partial redemption of such shares subject to the provisions of Section 302(a) for U.S. federal income tax purposes, although that treatment is not free from doubt.

Partial Redemption Under Section 302. If the first merger is deemed a partial redemption under Section 302, then except as set forth below with respect to U.S. holders of shares of TWC common stock who actually or constructively own shares of New Charter Class A common stock, a U.S. holder of shares of TWC common stock will generally be treated as if the U.S. holder exchanged a portion of its shares of TWC common stock for the cash received in the first merger and will recognize gain or loss equal to the difference between the amount of such cash (including any cash received in lieu of fractional shares of TWC common stock) and the adjusted tax basis of the shares treated as exchanged for cash. The gain or loss will be a capital gain or loss. In general, capital gain or loss with respect to shares redeemed will be long-term capital gain or loss if the holding period for such shares is more than one year as of the date of the mergers. The ability to deduct capital losses is subject to limitations. If a holder acquired shares of TWC common stock at different times or at different prices, the holder should consult the holder's tax advisor regarding the manner in which gain or loss should be determined.

In some cases, if a U.S. holder actually or constructively owns New Charter Class A common stock other than New Charter Class A common stock received pursuant to the second merger, the cash received in the first merger could be treated as having the effect of a distribution of a dividend under the tests set forth in Section 302, in which case such gain would be treated as dividend income. Specifically, such a U.S. holder will need to satisfy one of the substantially disproportionate test, the not essentially equivalent to a dividend test or the complete termination test. The first merger generally will result in a substantially disproportionate redemption with respect to a U.S. holder of shares of TWC common stock if the percentage of the outstanding shares of New Charter Class A common stock actually and constructively owned by the U.S. holder immediately after the mergers is less than 80% of the percentage of the shares of TWC common stock actually and constructively owned by the U.S. holder immediately before the mergers. The receipt of cash in the first merger will be treated as not essentially equivalent to a dividend if the reduction in a U.S. holder's proportionate interest in New Charter as a result of the mergers (when compared to the U.S. holder's proportionate interest in TWC immediately before the mergers) constitutes a meaningful reduction of the U.S. holder's proportionate interest given the U.S. holder's particular facts and circumstances. The IRS has indicated in a published revenue ruling that even a small reduction in the percentage interest of a shareholder whose relative stock interest in a publicly held corporation is minimal and who exercises no control over corporate affairs should constitute a

meaningful reduction. A U.S. holder of shares of TWC common stock may be able to satisfy the complete termination test if such holder sells or otherwise disposes of all of such holder's shares of TWC common stock contemporaneously with the completion of the first

Table of Contents

merger and as part of a single integrated plan which includes participation by such holder in the first merger, as discussed below. However, there is some uncertainty as to whether the complete termination test applies in such circumstances. Because the possibility of dividend treatment depends upon each holder's particular circumstances, including the application of constructive ownership rules, U.S. holders of TWC common stock should consult their tax advisor regarding the application of the foregoing rules to their particular circumstances.

If a U.S. holder does not satisfy any of the Section 302 tests described above, the receipt of cash (including the receipt of cash in lieu of fractional shares of TWC common stock) in the first merger will be treated as a dividend distribution to the U.S. holder with respect to the U.S. holder's shares of TWC common stock (which may be taxable for individual U.S. holders at favorable rates applicable to qualified dividends, if certain holding period and other requirements are met) to the extent of the U.S. holder's share of TWC's current and accumulated earnings and profits (as determined under U.S. federal income tax principles). To the extent the amount received by a U.S. holder exceeds the U.S. holder's share of TWC's current and accumulated earnings and profits (as determined under U.S. federal income tax principles), the excess, first, will be treated as a tax-free return of capital to the extent, generally, of the U.S. holder's adjusted tax basis in the U.S. holder's shares of TWC common stock with respect to which the distribution is received, and any remainder will be treated as capital gain (which may be long-term capital gain).

Recapitalization Under Section 368(a)(1)(E). If the first merger is deemed a recapitalization under Section 368(a)(1)(E), U.S. holders of shares of TWC common stock generally will recognize gain, but not loss, in an amount equal to the lesser of (i) the cash received (excluding any cash received in lieu of a fractional share, as discussed below) or (ii) the excess, if any, of (A) the sum of cash received pursuant to the mergers and the fair market value of the shares of common stock of the surviving corporation received by such holder over (B) such holder's tax basis in the holder's existing shares of TWC common stock. Any such gain will be capital gain provided that one of the Section 302 tests described above is satisfied. The Section 302 tests generally will be applied in the manner described above. If none of the Section 302 tests are satisfied, the U.S. holder's gain generally will be treated as a dividend distribution to the extent of such holder's ratable share of TWC's current and accumulated earnings and profits (as determined under U.S. federal income tax principles) and then as capital gain. If the first merger is treated as a recapitalization within the meaning of Section 368(a)(1)(E) of the Code, a U.S. holder who receives cash in lieu of a fractional share of TWC common stock generally will recognize capital gain or loss in the amount equal to the difference between the amount of cash received in lieu of the fractional share and the tax basis allocated to such fractional share of TWC common stock.

Tax Basis and Holding Period of Shares Received. The aggregate tax basis of the shares of New Charter Class A common stock ultimately received in the mergers will depend upon the characterization of the first merger. If the first merger is treated as a partial redemption under Section 302, the adjusted tax basis will be the adjusted tax basis in the shares of TWC common stock exchanged, less the tax basis allocated to the portion of the shares of TWC common stock attributable to cash received in the mergers. If the first merger is treated as a recapitalization under Section 368(a)(1)(E), the adjusted tax basis will be the adjusted tax basis in the shares of TWC common stock exchanged, less the amount of cash received in the mergers, plus the amount of gain recognized in the mergers. The holding period of the shares of New Charter Class A common stock received in the mergers will include the holding period of the shares of TWC common stock exchanged.

U.S. Federal Income Tax Consequences to Non-U.S. Holders of TWC Common Stock

Payments of cash to a non-U.S. holder (or such holder's agent) of shares of TWC common stock in the mergers will be subject to withholding of U.S. federal income tax at a rate of 30%, unless a reduced rate of withholding is applicable pursuant to an income tax treaty or an exemption from withholding is applicable because such payments are effectively connected with the non-U.S. holder's conduct of a trade or business within the United States (and, if an

income tax treaty applies, the payments are generally attributable to a United States permanent establishment maintained by such non-U.S. holder). In order to claim a reduction of or an exemption from withholding tax, a non-U.S. holder must provide a validly completed and executed IRS Form W-8BEN or

Table of Contents

W-8BEN-E, as applicable (with respect to income tax treaty benefits) or IRS Form W-8ECI (with respect to amounts effectively connected with the conduct of a trade or business within the United States) claiming such reduction or exemption before the payment is made. A non-U.S. holder that qualifies for an exemption from withholding by delivering IRS Form W-8ECI generally will be subject to U.S. federal income tax on income derived from the exchange of shares of TWC common stock pursuant to the mergers at the rates applicable to U.S. holders. Additionally, in the case of a corporate non-U.S. holder, such income may be subject to branch profits tax at a rate of 30% (or a lower rate specified in an applicable income tax treaty). Exchanging non-U.S. holders can obtain the applicable IRS forms from the IRS website at www.irs.gov.

Moreover, a non-U.S. holder may be eligible to obtain a refund of all or a portion of any tax withheld if such holder meets the substantially disproportionate, the not essentially equivalent to a dividend, or the complete termination test described in the section titled U.S. Federal Income Tax Consequences to U.S. Holders of TWC Common Stock Partial Redemption Under Section 302. Non-U.S. holders of TWC common stock should consult their own tax advisors regarding the particular tax consequences to them of the mergers, including the application of U.S. federal income tax withholding, their potential eligibility for a withholding tax reduction or exemption, and the refund procedure.

U.S. Federal Income Tax Consequences to U.S. Holders of Charter Class A Common Stock

Subject to the discussion below relating to the receipt of cash in lieu of fractional shares, a U.S. holder of Charter Class A common stock:

will not recognize any gain or loss upon the exchange of shares of Charter Class A common stock for shares of New Charter Class A common stock in the mergers;

will have a tax basis in the New Charter Class A common stock received in the mergers equal to the tax basis of the Charter Class A common stock surrendered in exchange therefor; and

will have a holding period for shares of New Charter Class A common stock received in the mergers that includes its holding period for its shares of Charter Class A common stock surrendered in exchange therefor.

Cash in Lieu of Fractional Shares

No fractional shares of New Charter Class A common stock will be distributed to holders of Charter Class A common stock in connection with the mergers. A U.S. holder that receives cash in lieu of a fractional share of New Charter Class A common stock as a part of the mergers will generally recognize a capital gain or loss measured by the difference between the cash received for such fractional share and the portion of the U.S. holder's tax basis in the shares of Charter Class A common stock allocable to the fractional share. Such capital gain or loss will generally be long term capital gain or loss if the holding period for such shares of Charter Class A common stock is more than one year. Long term capital gain of certain non-corporate taxpayers, including individuals, is generally taxed at preferential rates. The deductibility of capital losses is subject to limitations.

Backup Withholding

Backup withholding at the applicable rate (currently 28%) may apply with respect to certain cash payments unless the holder of the TWC common stock or Charter Class A common stock, as applicable, receiving such payments (i) is an

exempt holder (generally, corporations, tax-exempt organizations, qualified pension and profit-sharing trusts, individual retirement accounts, or nonresident aliens who, when required, provide certification as to their status) or (ii) provides a certificate containing the holder's name, address, correct federal taxpayer identification number and a statement that the holder is exempt from backup withholding. Backup withholding does not constitute an additional tax, and any amounts withheld from payments to a holder under the backup withholding rules will be allowed as a refund or credit against the holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Table of Contents

Accounting Treatment

The mergers and BHN transactions will be accounted for using the acquisition method of accounting with Charter considered the accounting acquirer of TWC and Bright House. The acquisition method of accounting is based on Financial Accounting Standards Board, Accounting Standards Codification, which is referred to in this joint proxy statement/prospectus as ASC 805, Business Combinations, and uses the fair value concepts defined in ASC 820, Fair Value Measurements and Disclosures, which Charter has adopted as required. Charter will record assets acquired, including identifiable intangible assets, and liabilities assumed at their respective fair values at the date of completion of the transactions. Any excess of the purchase price (as described in the notes to the Unaudited Pro Forma Financial Statements) over the net fair value of such assets and liabilities will be recorded as goodwill.

The financial condition and results of operations of New Charter after completion of the mergers and BHN transactions will reflect TWC and Bright House after completion of the transactions but will not be restated retroactively to reflect the historical financial condition or results of operations of TWC or Bright House. The earnings of New Charter following completion of the mergers and BHN transactions will reflect acquisition accounting adjustments, including the effect of changes in the carrying value for assets and liabilities on depreciation and amortization expense and additional interest expense from debt used for financing. Indefinite-lived intangible assets, including franchises and goodwill, will not be amortized but will be tested for impairment at least annually, and all tangible and intangible assets including goodwill will be tested for impairment when certain indicators are present. If, in the future, New Charter determines that tangible or intangible assets (including goodwill) are impaired, New Charter would record an impairment charge at that time.

Listing of Shares of New Charter Class A Common Stock and Delisting and Deregistration of TWC Common Stock

Under the terms of the merger agreement and the Liberty agreements, Charter is required to use its reasonable best efforts to cause the shares of New Charter Class A common stock to be issued in the mergers and to Liberty Broadband to be approved for listing on NASDAQ, subject to official notice of issuance. It is a condition to the parties obligations to complete the mergers and certain of the Liberty transactions that such approval is obtained, subject to official notice of issuance. Accordingly, an application will be made to have the shares of New Charter Class A common stock to be issued in the mergers and to Liberty Broadband approved for listing on NASDAQ, where shares of Charter Class A common stock are currently traded.

If the mergers are completed, there will no longer be any publicly held shares of TWC common stock. Accordingly, TWC common stock will no longer be listed on the New York Stock Exchange and will be deregistered under the Exchange Act.

Litigation Relating to the Mergers

In connection with the formerly proposed Comcast-TWC merger, eight putative class action complaints were filed on behalf of purported TWC stockholders in the New York Supreme Court (the NY Actions) and the Court of Chancery of the State of Delaware. These complaints named as defendants TWC, the members of the TWC board of directors, Comcast and Comcast's merger subsidiary. The complaints generally alleged, among other things, that the members of the TWC board of directors breached their fiduciary duties to TWC stockholders during merger negotiations and by entering into the merger agreement and approving the merger, and that Comcast aided and abetted such breaches of fiduciary duties. The complaints further alleged that the joint proxy statement/prospectus filed by Comcast with the SEC on March 20, 2014 was misleading or omitted certain material information. The complaints sought, among other relief, compensatory damages in an unspecified amount, injunctive relief and costs and fees. The parties entered into a

settlement agreement, conditioned *inter alia* on the consummation of the Comcast-TWC merger. Now that the Comcast-TWC merger agreement has been terminated, the settlement is no longer operative, although the plaintiffs have the right to petition the court for the award of attorneys' fees and TWC has the right to oppose that application.

Table of Contents

Following the announcement of the mergers on May 26, 2015, on June 29, 2015, the parties in the NY Actions filed a stipulation agreeing that plaintiffs could file a Second Consolidated Class Action Complaint (the Second Amended Complaint), and dismissing with prejudice Comcast and Comcast's merger subsidiary. After the court so ordered the stipulation, the plaintiffs in the NY Actions filed the Second Amended Complaint on July 1, 2015. The Second Amended Complaint names as defendants TWC, the members of the TWC board of directors, Charter and the merger subsidiaries. The Second Amended Complaint generally alleges, among other things, that the members of the TWC board of directors breached their fiduciary duties to TWC stockholders during the Charter merger negotiations and by entering into the merger agreement and approving the mergers, and that Charter and its subsidiaries aided and abetted such breaches of fiduciary duties. The complaint seeks, among other relief, injunctive relief enjoining the stockholder vote on the mergers, unspecified declaratory and equitable relief, compensatory damages in an unspecified amount, and costs and fees.

TWC, the TWC board of directors, Charter and the merger subsidiaries believe the claims asserted against them are without merit and intend to defend against this lawsuit vigorously.

Table of Contents

THE MERGER AGREEMENT

The following is a summary of the material terms and conditions of the merger agreement. This summary may not contain all the information about the merger agreement that is important to you. The summary in this section and elsewhere in this joint proxy statement/prospectus is qualified in its entirety by reference to the merger agreement attached as Annex A to, and incorporated by reference into, this joint proxy statement/prospectus. You are encouraged to read the merger agreement in its entirety because it is the legal document that governs the mergers.

Structure of the Mergers

The merger agreement provides for three mergers, following which both Charter and TWC will become wholly owned subsidiaries of New Charter. In the first merger (referred to in the merger agreement as the First Company Merger), Merger Subsidiary One will merge with and into TWC, with TWC being the surviving corporation. Immediately following the completion of the first merger, in the second merger (referred to in the merger agreement as the Second Company Merger), TWC will merge with and into Merger Subsidiary Two, with Merger Subsidiary Two being the surviving entity. Immediately following the completion of the second merger, in the third merger (referred to in the merger agreement as the Parent Merger), Charter will merge with and into Merger Subsidiary Three, with Merger Subsidiary Three being the surviving entity. After giving effect to the three mergers, New Charter will be the new public company parent that will hold the operations of the combined companies.

Upon completion of the second and third mergers, the certificate of incorporation and bylaws of TWC and Charter will be replaced by the limited liability company agreements of Merger Subsidiary Two and Merger Subsidiary Three, respectively. Following the completion of the merger, TWC common stock will be delisted from the New York Stock Exchange and deregistered under the Exchange Act.

Completion and Effectiveness of the Mergers

The mergers will be completed and become effective at such time as the applicable certificate of mergers are duly filed with the Delaware Secretary of State (or at such later time as agreed to by the parties and specified in the applicable certificate of merger). Unless another date and time are agreed to by the parties, completion of the mergers will occur as soon as possible, but no later than five business days following satisfaction or, to the extent permissible, waiver, of the conditions to completion of the closing (other than those conditions that by their nature are to be satisfied at completion of the closing, but subject to the satisfaction or, to the extent permissible, waiver of such conditions) described under Conditions to Completion of the Mergers.

The parties are working to complete the mergers by the end of 2015, subject to regulatory approvals and satisfaction (or, to the extent permissible, waiver) of the conditions to the parties obligations to complete the mergers. However, completion of the mergers is subject to the satisfaction or, to the extent permissible, waiver of the conditions summarized below. There can be no assurances as to when, or if, the mergers will occur. If the mergers are not completed on or before May 23, 2016 (which is the initial end date), either Charter or TWC may terminate the merger agreement, unless all conditions to the closing have been satisfied (other than those conditions that have been waived, to the extent permissible, and other than those conditions that by their nature are to be satisfied at completion of the closing) on the initial end date other than certain conditions relating to regulatory approvals and either Charter or TWC elects to extend the initial end date to November 23, 2016, in which case, if the mergers are not completed on or before November 23, 2016, either Charter or TWC may terminate the merger agreement. The right to terminate the merger agreement on the end date will not be available to Charter or TWC if that party s breach of any provision of the merger agreement resulted in the failure of the mergers to be completed by that date. See Conditions to Completion of

the Mergers and Termination of the Merger Agreement.

Table of Contents**Merger Consideration*****Merger Consideration Generally***

If the first merger and the second merger are completed, after giving effect to the first merger and the second merger and application of the Option A Base Exchange Ratio and the Option B Base Exchange Ratio, each share of TWC common stock outstanding immediately prior to the completion of the first merger (other than certain shares described below) will effectively be converted into the right to receive either (at the election of the holder thereof):

\$100 in cash and shares of New Charter Class A common stock equivalent to 0.5409 shares of Charter Class A common stock; or

\$115 in cash and shares of New Charter Class A common stock equivalent to 0.4562 shares of Charter Class A common stock.

However, the actual number of shares of New Charter Class A common stock that TWC stockholders (except as described below) will be entitled to receive will be calculated by multiplying the exchange ratios of 0.5409 (referred to in the merger agreement as the Option A Base Exchange Ratio) or 0.4562 (referred to in the merger agreement as the Option B Base Exchange Ratio) specified above by 0.9042 (referred to in the merger agreement as the Parent Merger Exchange Ratio), which will also be the exchange ratio that will be used to determine the number of shares of New Charter Class A common stock that Charter stockholders will be entitled to receive per share of Charter Class A common stock in the third merger. The application of the Parent Merger Exchange Ratio to the stock portion of the merger consideration to be received by TWC stockholders will not impact the aggregate value represented by the shares of New Charter Class A common stock to be received by stockholders of TWC upon completion of the mergers. The foregoing calculations and mechanics are described in greater detail below. Shares of TWC common stock held by TWC as treasury stock, held by direct or indirect wholly owned subsidiaries of TWC or Charter (other than Merger Subsidiary One) or held by Liberty Broadband or Liberty Interactive will not receive the foregoing merger consideration. Liberty Broadband and Liberty Interactive will only receive shares of New Charter Class A common stock as a result of the three mergers, subject to the terms of the Liberty contribution agreement as described in more detail under Other Agreements Liberty Contribution Agreement.

TWC Stockholders Merger Consideration

At completion of the first merger, each share of TWC common stock outstanding immediately prior to completion of the first merger (except for certain shares described below) will be converted into the right to receive either (at the election of the holder thereof):

\$100 in cash and a number of shares of TWC common stock equal to 0.5409 multiplied by 0.9042 (referred to as the Option A Election); or

\$115 in cash and a number of shares of TWC common stock equal to 0.4562 multiplied by 0.9042 (referred to as the Option B Election).

The 0.9042 multiplication factor is the exchange ratio used to determine the number of shares of New Charter Class A common stock that Charter stockholders will be entitled to receive in the third merger. In the first merger, cash will be paid for any fractional shares of TWC common stock as a result of the application of the applicable exchange ratio, as described under Fractional Shares. Shares of TWC common stock held by TWC as treasury stock, held by direct or indirect wholly owned subsidiaries of TWC or Charter (other than Merger Subsidiary One) or held by the Liberty Parties will not receive the foregoing merger consideration. Each share of common stock of Merger Subsidiary One outstanding immediately prior to completion of the first merger (which will only include shares of Merger Subsidiary One owned by the Liberty Parties, as described under Other Agreements Liberty Contribution Agreement) will be converted into the right to receive one share of common stock of TWC.

Table of Contents

At the completion of the second merger, each share of TWC common stock outstanding immediately prior to the completion of the second merger (which will only include shares issued in the first merger) will be converted into the right to receive one share of New Charter Class A common stock.

As described under *Other Agreements Liberty Contribution Agreement*, as a result of the completion of the first and second mergers, the Liberty Parties will receive one share of New Charter Class A common stock (which is equivalent to 1.106 shares of Charter Class A common stock after giving effect to the exchange ratio in the third merger) for each share of TWC common stock owned by them immediately prior to the completion of the first merger.

Charter Stockholders Merger Consideration

At the completion of the third merger, each share of Charter Class A common stock outstanding immediately prior to the completion of the third merger will be converted into the right to receive 0.9042 shares of New Charter Class A common stock. In the third merger, cash will be paid for any fractional shares of New Charter Class A common stock as a result of the application of the exchange ratio, as described under *Fractional Shares*.

Adjustments

If, between the date of the merger agreement and completion of the first merger, any change in the outstanding shares of capital stock of TWC or Charter occurs as a result of any reclassification, recapitalization, stock split, combination, exchange or readjustment of shares or any stock dividend thereon with a record date during such period (but excluding any such change that results from the exercise of stock options or other equity awards, the settlement of restricted or deferred stock units or the grant of equity-based compensation in accordance with the merger agreement), the merger consideration and any other amounts payable pursuant to the merger agreement will be appropriately and proportionately adjusted to eliminate the effect of such event thereon.

Fractional Shares

No fractional shares of TWC common stock will be issued to any holder of shares of TWC common stock upon completion of the first merger. Instead, all fractional shares of TWC common stock that a holder of shares of TWC common stock would otherwise be entitled to receive as a result of the first merger will be aggregated and, if a fractional share results from that aggregation, the holder will be entitled to receive cash in an amount determined by multiplying that fraction by the Charter closing price on the trading day immediately prior to the first company merger effective time, as adjusted to take account of the Parent Merger Exchange Ratio.

No fractional shares of New Charter Class A common stock will be issued to any holder of shares of Charter Class A common stock upon completion of the third merger. Instead, all fractional shares of New Charter Class A common stock that a holder of shares of Charter Class A common stock would otherwise be entitled to receive as a result of the third merger will be aggregated and, if a fractional share results from that aggregation, the holder will be entitled to receive cash in an amount determined by multiplying that fraction by the Charter closing price on the trading day immediately prior to the third company merger effective time, as adjusted to take account of the Parent Merger Exchange Ratio.

No interest will be paid or accrued on cash payable in lieu of fractional shares of TWC common stock or New Charter Class A common stock.

Election Procedures

A form of election, which will be mailed to each holder of record of TWC common stock as of the close of business on the election form record date (as defined below), as well as to stockholders who purchase shares of

Table of Contents

TWC common stock subsequent to such date and prior to the election deadline (as defined below), if any, will allow record holders of TWC common stock to make an Option A or Option B election in respect of each share of TWC common stock that they hold.

The election deadline will be 5:00 p.m., local time (in the city in which the exchange agent is located) on the date that Charter and TWC agree is 5 business days prior to the expected closing date. Charter and TWC will publicly announce the anticipated election deadline not more than 20 business days before, and at least 5 business days prior to, the election deadline.

TWC will mail a form of election not less than 20 business days prior to the anticipated election deadline. The election form record date will be the 10th business day prior to the mailing record date.

TWC stockholders who wish to elect either the Option A Election or Option B Election in respect of the merger consideration they will receive should carefully review and follow the instructions set forth in the form of election. If it is determined that any purported election was not properly made, the purported election will be deemed to be of no force or effect and the holder making the purported election will be deemed to have made the Option A Election for these purposes, unless a proper election is subsequently made on a timely basis. If a TWC stockholder does not make a valid election (or an election is revoked and another one is not validly and timely made by a holder), the merger consideration paid to such holder will be based on the Option A Election.

To make a valid election, each TWC stockholder must submit a properly completed form of election so that it is actually received by the exchange agent at or prior to the election deadline in accordance with the instructions on the form of election. The form of election must be accompanied by any additional documents specified in the form of election (which will include certificates representing TWC common stock). Generally, an election may be revoked or changed by written notice received by the exchange agent prior to the election deadline accompanied by a properly completed and signed revised form of election or the withdrawal prior to the election deadline of the documents previously provided to the exchange agent. TWC stockholders will not be entitled to make, revoke or change any election following the election deadline. After an election is validly made with respect to any shares of TWC common stock, any subsequent transfer of such shares of TWC common stock shall automatically revoke such election. Subject to the terms of the merger agreement, the exchange agent will have reasonable discretion to determine if any election is not properly or timely made.

Procedures for Surrendering TWC and Charter Stock Certificates

The conversion of TWC common stock and Charter Class A common stock into the right to receive the applicable merger consideration will occur automatically at completion of the mergers. Prior to the date the form of election is mailed to TWC stockholders, Charter will appoint an exchange agent reasonably acceptable to TWC to handle the receipt of election forms and exchange of certificates or book-entry shares representing shares of TWC common stock or Charter Class A common stock for the applicable merger consideration. Charter or New Charter will make available to the exchange agent (i) the shares of New Charter Class A common stock, (ii) cash to pay for the aggregate cash portion of the merger consideration and (iii) cash in lieu of fractional shares, in each case comprising the applicable merger consideration payable in respect of TWC common stock or Charter Class A common stock. Promptly (but not later than 10 business days) after completion of the mergers, New Charter will, or will cause the exchange agent to, send a letter of transmittal to (i) each person who is a record holder of TWC common stock at completion of the first two mergers for use in the exchange and instructions explaining how to surrender TWC stock certificates or transfer uncertificated shares of TWC common stock to the exchange agent and (ii) each person who is a record holder of Charter Class A common stock at completion of the third merger for use in the exchange and instructions explaining how to surrender Charter stock certificates or transfer uncertificated shares of Charter Class A

common stock to the exchange agent.

TWC stockholders who submit a properly completed letter of transmittal, together with their share certificates (in the case of certificated shares) or other evidence of transfer requested by the exchange agent (in

Table of Contents

the case of book-entry shares), will receive, in exchange for their shares of TWC common stock converted in both the first and second mergers, the applicable amount of cash and shares of New Charter Class A common stock as specified in such stockholders' election form (or if no election form was received or invalidly or untimely submitted, such amounts will be based on the Option A Election). The shares of New Charter Class A common stock constituting part of such merger consideration will be delivered to TWC stockholders in book-entry form unless a physical certificate is required under applicable law. After completion of the first two mergers, each certificate that previously represented shares of TWC common stock and each uncertificated share of TWC common stock that previously was registered to a holder on TWC's stock transfer books will only represent the right to receive the merger consideration (i.e., cash and shares of New Charter Class A common stock) into which those shares of TWC common stock have been converted as a result of the first two mergers and, if applicable, specified in a validly submitted election form.

Charter stockholders who submit a properly completed letter of transmittal, together with their share certificates (in the case of certificated shares) or other evidence of transfer requested by the exchange agent (in the case of book-entry shares), will receive, in exchange for their shares of Charter Class A common stock converted in the third merger, the applicable amount of shares of New Charter Class A common stock. The shares of New Charter Class A common stock constituting part of such merger consideration will be delivered to Charter stockholders in book-entry form unless a physical certificate is required under applicable law. After completion of the third merger, each certificate that previously represented shares of Charter Class A common stock and each uncertificated share of Charter Class A common stock that previously was registered to a holder on Charter's stock transfer books will only represent the right to receive the merger consideration (i.e., shares of New Charter Class A common stock) into which those shares of Charter Class A common stock have been converted.

None of Charter, New Charter nor TWC will be responsible for transfer or other similar taxes and fees incurred by holders of TWC common stock or Charter Class A common stock in connection with the mergers. Those taxes and fees, if any, will be the sole responsibility of such holders. In addition, if there is a transfer of ownership of TWC common stock or Charter Class A common stock that is not registered in the records of TWC's or Charter's transfer agent, respectively, payment of the applicable merger consideration as described above will be made to a person other than the person in whose name the certificate or uncertificated share so surrendered is registered only if the certificate is properly endorsed or otherwise is in proper form for transfer or the uncertificated shares are properly transferred, and the person requesting such payment must pay to the exchange agent any transfer or other taxes to be paid or satisfy the exchange agent that any transfer or other taxes have been paid or that no payment of those taxes is necessary.

After completion of the mergers, neither Charter, New Charter nor TWC will pay dividends with a record date after completion of the mergers to any holder of any TWC or Charter stock certificates or uncertificated shares of TWC common stock or Charter Class A common stock until the applicable holder surrenders or transfers the TWC or Charter stock certificates or uncertificated shares of TWC common stock or Charter Class A common stock (as applicable) in accordance with the merger agreement. However, once those certificates or uncertificated shares are surrendered or transferred, New Charter will pay to the holder, without interest, any dividends that have been declared after completion of the mergers on the shares of New Charter Class A common stock into which those TWC or Charter shares have been converted.

Treatment of TWC Equity Awards***TWC Stock Options***

At the completion of the second merger, each outstanding option awarded by TWC, whether or not exercisable or vested (but excluding any options held by a former employee of TWC, as described in the immediately succeeding

paragraph), to purchase shares of TWC common stock will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of TWC common stock subject to such option immediately prior to the completion of the first merger

Table of Contents

multiplied by (y) the Stock Award Exchange Ratio (as defined below), with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock will be equal to the quotient of (i) the exercise price of such option immediately prior to the completion of the first merger divided by (ii) the Stock Award Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as were applicable to the corresponding options immediately prior to completion of the first merger. The Stock Award Exchange Ratio was determined based on the value a stockholder of TWC who made the Option A Election would receive upon completion of the mergers. Accordingly, in the merger agreement, Stock Award Exchange Ratio is defined generally as the sum of (i) the product of (A) the Option A Base Exchange Ratio multiplied by (B) the Parent Merger Exchange Ratio and (ii) the product of (A) the quotient of (I) \$100 divided by (II) the volume weighted average per-share price of Charter Class A common stock during the ten full trading days ending on (and including) the trading day preceding the closing date, multiplied by (B) the Parent Merger Exchange Ratio.

At the completion of the second merger, each outstanding option awarded by TWC and held by a former employee of TWC, whether or not exercisable or vested, to purchase shares of TWC common stock will be cancelled, and TWC will pay such former employee an amount in cash computed by first determining the number of shares of New Charter Class A common stock to which such former employee would be entitled as if his or her stock options were converted in accordance with the preceding paragraph, and then multiplying such number by the excess of (i) the quotient of (A) the closing price of a share of Charter Class A common stock on the trading day immediately preceding the first merger, divided by (B) the Parent Merger Exchange Ratio (such quotient, the Charter Adjusted Closing Price) over (ii) the exercise price per share of such option (determined in accordance with the preceding paragraph). All options held by a former employee of TWC that have a converted per share exercise price equal to or exceeding the Charter Adjusted Closing Price will be immediately cancelled without any right to consideration. All cash payments will be reduced by applicable withholding taxes.

TWC Restricted Stock Units

At the completion of the second merger, each outstanding TWC employee restricted stock unit, whether or not vested (but excluding any such units held by a current or former non-employee director or a former employee of TWC, as described in the immediately succeeding paragraph), will be converted into the right to acquire the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of TWC common stock underlying such unit immediately prior to completion of the first merger multiplied by (y) the Stock Award Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the corresponding units immediately prior to completion of the first merger.

At the completion of the second merger, each TWC restricted stock unit award (which includes deferred stock units held by non-employee directors) held by (x) a current or former non-employee director or (y) a former employee of TWC, whether or not vested, will be cancelled, and TWC will pay such holder an amount in cash computed by first determining the number of shares of New Charter Class A common stock to which such person would be entitled if his or her stock units were converted in accordance with the preceding paragraph, and then multiplying such number by the Charter Adjusted Closing Price. All cash payments will be reduced by applicable withholding taxes.

TWC 2011 Stock Incentive Plan

Following the completion of the mergers, New Charter may make use of shares remaining available for grant under the Time Warner Cable Inc. 2011 Stock Incentive Plan, which is referred to in this joint proxy statement/prospectus as the TWC 2011 Plan, in accordance with NASDAQ rules.

Table of Contents**Treatment of Charter Equity Awards*****Charter Stock Options***

At the completion of the third merger, each outstanding option, whether or not exercisable or vested, to purchase shares of Charter Class A common stock will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock subject to such option immediately prior to the completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock will be equal to the quotient of (i) the exercise price of such option immediately prior to the completion of the third merger divided by (ii) the Parent Merger Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as were applicable to the corresponding options immediately prior to completion of the third merger.

Charter Restricted Stock Awards

At the completion of the third merger, each outstanding Charter restricted stock award will be converted into an award with respect to the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such award immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock awards will be subject to the same terms and conditions as applied to the corresponding awards immediately prior to completion of the third merger.

Charter Restricted Stock Units

At the completion of the third merger, each outstanding Charter restricted stock unit, whether or not vested, will be converted into the right to acquire the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such unit immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the corresponding units immediately prior to completion of the third merger.

Charter 2009 Stock Incentive Plan

Following the completion of the mergers, New Charter may make use of shares remaining available for grant under the Charter Communications, Inc. Amended and Restated 2009 Stock Incentive Plan, which is referred to in this joint proxy statement/prospectus as the Charter 2009 Plan, in accordance with NASDAQ rules.

Listing of Shares of Charter Class A Common Stock

The merger agreement obligates Charter to use its reasonable best efforts to cause the shares of New Charter Class A common stock to be issued as part of the consideration for the mergers to be listed on NASDAQ, subject to official notice of issuance. Approval for listing on NASDAQ of the shares of New Charter Class A common stock issuable in the mergers, subject only to official notice of issuance, is a condition to the obligations of Charter and TWC to complete the mergers.

Table of Contents

Conditions to Completion of the Mergers

Mutual Conditions to Completion

The obligation of each party to the merger agreement to effect the closing is subject to the satisfaction or waiver of the following conditions:

approval of the adoption of the merger agreement by the affirmative vote of a majority of the outstanding shares of TWC common stock entitled to vote;

approval of the adoption of the merger agreement by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock and, with respect to the second merger, the affirmative vote of holders of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote;

approval of the New Charter stock issuance in connection with the merger agreement by the affirmative vote of a majority of votes cast at the Charter special meeting by the holders of Charter Class A common stock;

approval of the Liberty transactions (including stock issuances pursuant to the Liberty investment agreement and the BHN/Liberty stockholders agreement) by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock (excluding the shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote and by the affirmative vote of a majority of votes cast at the Charter special meeting by the holders of Charter Class A common stock;

approval of New Charter's certificate of incorporation (and each of the related certificate of incorporation proposals) by the affirmative vote of a majority of the outstanding shares of Charter Class A common stock (excluding shares beneficially owned by Liberty Broadband and its affiliates and associates) entitled to vote;

expiration or termination of any applicable waiting period (or extension thereof) under the HSR Act relating to the transactions contemplated by the merger agreement (solely with respect to the obligations of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to complete the mergers, without the imposition of any burdensome condition (see Reasonable Best Efforts Covenant for a definition of burdensome condition));

(i) adoption of an order, and release of the full text thereof, by the FCC granting its consent to the transfer of control or assignment of the licenses issued by the FCC to TWC or any of its subsidiaries or affiliates, (ii) approval of certain LFAs, such that the sum of the aggregate number of video subscribers of TWC belonging to franchise areas for which either (x) no LFA consent is required or (y) if LFA consent is required, such consent shall have been obtained, shall be no less than 85% of the aggregate number of video subscribers of TWC and (iii) authorizations of state public utilities commissions whose consent is required in

connection with the transactions contemplated by the merger agreement (solely with respect to the obligations of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to complete the mergers, in each case without the imposition of any burdensome condition) (these requirements are described in more detail under "The Transactions - Regulatory Approvals Required for the Mergers");

except for the conditions described in the two preceding bullets, (i) absence of (x) any applicable law of a governmental authority of competent jurisdiction enacted or promulgated after the date of the merger agreement in a jurisdiction in which any of TWC, Charter or their respective subsidiaries has substantial operations and (y) any order of a governmental authority of competent jurisdiction that, in each case, (1) imposes any burdensome condition or (2) prohibits completion of the mergers and the violation of which would result in criminal liability, and (ii) the absence of any injunction (whether temporary, preliminary or permanent) by any governmental authority of competent jurisdiction that imposes a burdensome condition or prohibits completion of the mergers;

Table of Contents

effectiveness of the registration statement for the shares of New Charter Class A common stock being issued in the mergers (of which this joint proxy statement/prospectus forms a part) and the absence of any stop order suspending that effectiveness or any proceedings for that purpose pending before the SEC; and

approval for the listing on NASDAQ of the shares of New Charter Class A common stock to be issued in the mergers, subject only to official notice of issuance.

Additional Conditions to Completion for the Benefit of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three

In addition, the obligation of each of Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three to effect the closing is subject to the satisfaction or waiver of the following conditions:

the accuracy (subject only to de minimis exceptions) as of the date of the merger agreement and as of completion of the mergers (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time) of certain representations and warranties made in the merger agreement by TWC regarding its capitalization;

the accuracy (in all material respects in the case of representations and warranties that are not qualified by materiality or material adverse effect) as of the date of the merger agreement and as of completion of the mergers (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time) of certain representations and warranties made in the merger agreement by TWC regarding, among other matters, its corporate existence, its corporate authority relative to the merger agreement and the mergers, the absence of certain conflicts with its organizational documents, certain capitalization matters, the absence of any event, occurrence, development or circumstance occurring since December 31, 2014 to the date of the merger agreement and continuing which, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on TWC, fees payable to its financial advisors in connection with the mergers, the opinions of its financial advisors and the inapplicability of certain antitakeover laws;

the accuracy of all other representations and warranties made in the merger agreement by TWC (disregarding any materiality or material adverse effect qualifications contained in such representations and warranties) as of the date of the merger agreement and as of completion of the mergers (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time), except for any such inaccuracies that have not had and would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on TWC;

performance in all material respects by TWC of the material obligations required to be performed by it at or prior to completion of the mergers;

the absence of any event, occurrence, development or state of circumstances or facts occurring since the date of the merger agreement and continuing which, individually or in the aggregate, has had or would reasonably

be expected to have a material adverse effect on TWC;

receipt of a certificate executed by an executive officer of TWC as to the satisfaction of the conditions described in the preceding five bullets; and

receipt of an opinion from Wachtell, Lipton, Rosen & Katz, dated as of the date of completion of the mergers, to the effect that, on the basis of facts, representations and assumptions set forth in such opinion that are consistent with the state of facts existing at the date of completion of the mergers, (i) the second merger will qualify as a reorganization within the meaning of Section 368(a) of the Code and (ii) the third merger will qualify as a reorganization within the meaning of Section 368(a) of the Code.

Table of Contents

Additional Conditions to Completion for the Benefit of TWC

In addition, the obligation of TWC to effect the closing is subject to the satisfaction or waiver of the following conditions:

the accuracy (subject only to de minimis exceptions) as of the date of the merger agreement and as of completion of the mergers (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time) of certain representations and warranties made in the merger agreement by Charter regarding its capitalization;

the accuracy (in all material respects in the case of representations and warranties that are not qualified by materiality or material adverse effect) as of the date of the merger agreement and as of completion of the mergers (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time) of certain representations and warranties made in the merger agreement by Charter regarding, among other matters, its corporate existence, its corporate authority relative to the merger agreement and the mergers, the absence of certain conflicts with its organizational documents, certain capitalization matters, the absence of any event, occurrence, development or circumstance occurring since December 31, 2014 to the date of the merger agreement and continuing which, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on Charter, fees payable to its financial advisors in connection with the mergers, the opinions of its financial advisors and the inapplicability of certain antitakeover laws;

the accuracy of all other representations and warranties made in the merger agreement by Charter (disregarding any materiality or material adverse effect qualifications contained in such representations and warranties) as of the date of the merger agreement and as of completion of the mergers (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time), except for any such inaccuracies that have not had and would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on Charter;

performance in all material respects by Charter, New Charter, Merger Subsidiary One, Merger Subsidiary Two and Merger Subsidiary Three of the material obligations required to be performed by them at or prior to completion of the mergers;

the absence of any event, occurrence, development or circumstance occurring since the date of the merger agreement and continuing which, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on Charter;

receipt of a certificate executed by an executive officer of Charter as to the satisfaction of the conditions described in the preceding five bullets; and

receipt of an opinion from Paul, Weiss, Rifkind, Wharton & Garrison LLP, dated as of the date of completion of the mergers, to the effect that, on the basis of facts, representations and assumptions set forth in such opinion that are consistent with the state of facts existing at the date of completion of the mergers, the second merger will qualify as a reorganization within the meaning of Section 368(a) of the Code.

Representations and Warranties

The merger agreement contains a number of representations and warranties made by TWC and Charter made solely for the benefit of the other, and that are subject in some cases to important exceptions and qualifications, including, among other things, as to materiality and material adverse effect. Furthermore, the assertions embodied in those representations and warranties are qualified by information in the confidential disclosure schedules that the parties have exchanged in connection with signing the merger agreement, which disclosure schedules will not be reflected in the merger agreement or otherwise publicly disclosed. The confidential disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the merger agreement. See [Definition of Material Adverse Effect](#) for a definition of material adverse effect applicable to each company. The representation and warranties

Table of Contents

were used for the purpose of allocation of risk between the parties to the merger agreement rather than establishing matters of fact. For the foregoing reasons, these descriptions, representations and warranties should not be read alone. The representations and warranties in the merger agreement relate to, among other things:

corporate existence, good standing and qualification to do business;

corporate power and authority to execute and deliver the merger agreement and, subject to the approval of TWC and Charter stockholders, as applicable, to perform and comply with their respective obligations thereunder and consummate the transactions contemplated thereby;

governmental actions necessary to complete the mergers;

absence of any conflict with or violation or breach of organizational documents, laws or regulations or agreements as a result of the execution, delivery or performance of the merger agreement and completion of the mergers;

capital structure;

absence of preemptive or other similar rights or any debt securities having the right to vote with TWC or Charter stockholders, as applicable, on any matters;

corporate existence, good standing, qualification to do business and capital structure of subsidiaries;

SEC filings, the absence of misstatements or omissions from such filings and compliance with the Sarbanes-Oxley Act of 2002;

disclosure controls and procedures and internal controls over financial reporting;

fair presentation of financial statements;

information provided by a party for inclusion in disclosure documents to be filed with the SEC in connection with the mergers;

conduct of business in the ordinary course of business consistent with past practices and absence of any event, occurrence, development or circumstance that has had or would reasonably be expected to have,

individually or in the aggregate, a material adverse effect, in each case since December 31, 2014;

absence of undisclosed liabilities;

compliance with laws, court orders and permits;

absence of pending or threatened legal proceedings and investigations;

tax matters and tax treatment of the mergers;

employees and employee benefit plans and labor matters;

solvency;

franchises;

absence of any undisclosed broker's or finder's fees payable in connection with the mergers;

inapplicability of antitakeover statutes; and

receipt of opinions from financial advisors.

TWC also makes representations and warranties relating to, among other things, material contracts, intellectual property, properties, environmental matters, and cable system and subscriber information.

Charter also makes representations and warranties relating to, among other things, Charter's financing for the mergers.

The representations and warranties in the merger agreement do not survive completion of the mergers.

Table of Contents

See Explanatory Note Regarding the Merger Agreement and the Summary of the Merger Agreement: Representations, Warranties and Covenants in the Merger Agreement Are Not Intended to Function or Be Relied on as Public Disclosures.

Definition of Material Adverse Effect

Many of the representations and warranties in the merger agreement are qualified by material adverse effect.

For purposes of the merger agreement, material adverse effect means, with respect to Charter or TWC, as the case may be, a material adverse effect on (i) the condition (financial or otherwise), business, assets or results of operations of that party and its subsidiaries, taken as a whole, or (ii) the ability of that party to consummate the transactions contemplated by the merger agreement, in each case other than any effect resulting from:

changes in the financial or securities markets or general economic or political conditions in the United States or any foreign jurisdiction except to the extent having a materially disproportionate effect on that party and its subsidiaries, taken as a whole, relative to other participants in the industry in which that party and its subsidiaries operate;

changes (including changes of applicable law) or conditions generally affecting the industry in which that party and its subsidiaries operate except to the extent having a materially disproportionate effect on that party and its subsidiaries, taken as a whole, relative to other participants in the industry in which that party and its subsidiaries operate;

acts of war, sabotage or terrorism or natural disasters (including hurricanes, tornadoes, floods or earthquakes) except to the extent having a materially disproportionate effect on that party and its subsidiaries, taken as a whole, relative to other participants in the industry in which that party and its subsidiaries operate;

the announcement or consummation of the transactions contemplated by the merger agreement, including the impact thereof on the relationships, contractual or otherwise, of that party or any of its subsidiaries with employees, labor unions, customers, suppliers or partners (except with respect to certain representations or warranties and related conditions that are intended to address the consequences of the announcement or consummation of the transactions contemplated by the merger agreement);

any failure by that party and its subsidiaries to meet any internal or published budgets, projections, forecasts or predictions in respect of financial performance for any period (but not any fact, change, event or occurrence contributing to that failure and not otherwise excluded from the definition of material adverse effect);

any change in the price of that party's common stock on the New York Stock Exchange or NASDAQ, as applicable (but not any facts or occurrences contributing to that change (other than changes in the trading

price of the other party's common stock) and not otherwise excluded from the definition of material adverse effect);

any changes in United States generally accepted accounting principles (or authoritative interpretations of United States generally accepted accounting principles);

any litigation or legal proceedings relating to the merger agreement, the mergers or the other transactions contemplated by the merger agreement to the extent directly relating to the negotiations between the parties and the terms and conditions of the merger agreement;

the termination of the merger agreement between TWC and Comcast Corporation, the announcement of the termination of such agreement or the failure to consummate the transactions contemplated by such agreement; and

compliance with the terms of, or the taking of any action required by, the merger agreement.

Table of Contents**Conduct of Business Pending the Mergers**

In general, except (i) as expressly contemplated by the merger agreement, (ii) as set forth in the confidential disclosure schedules delivered to the other party concurrently with execution of the merger agreement, (iii) as consented to by the other party (in the case of actions by Charter, such consent not to be unreasonably withheld, conditioned or delayed by TWC), (iv) in the case of actions by TWC, as contemplated by or reasonably necessary to implement TWC's operating plan as presented to Charter (or, with respect to any initiative therein, reallocations among line items within such initiative that are not in the aggregate more burdensome to TWC in any material respect), (v) in the case of actions by Charter, as contemplated by the BHN contribution agreement or the Liberty investment agreement or to effect Liberty exchange or investment or the BHN transactions or (vi) as required by applicable law, from the date of the merger agreement until completion of the mergers, TWC, Charter and their respective subsidiaries are required to conduct their respective business in all material respects in the ordinary course consistent with past practice and to use commercially reasonable efforts to preserve intact their respective business organization, maintain its relationships with third parties and maintain in effect its material foreign, federal, state and local licenses, permits, consents, franchises, approvals and authorizations.

Without limiting the generality of the foregoing, except (i) as expressly contemplated by the merger agreement, (ii) as set forth in TWC's confidential disclosure schedule delivered to Charter concurrently with execution of the merger agreement, (iii) as consented to by Charter (in the case of actions by TWC in the fourth through tenth bullets and the sixteenth bullet below, such consent not to be unreasonably withheld, conditioned or delayed), (iv) as contemplated by or reasonably necessary to implement TWC's operating plan as presented to Charter (or, with respect to any initiative therein, reallocations among line items within such initiative that are not in the aggregate more burdensome to TWC in any material respect) or (v) as required by applicable law, and subject to specified exceptions and qualifications described in the merger agreement, from the date of the merger agreement through completion of the mergers, each of TWC and each of its subsidiaries is not permitted to, among other things:

amend its organizational documents;

(i) split, combine or reclassify any shares of capital stock of TWC or its subsidiaries, (ii) declare, set aside or pay any dividend or other distribution (whether in cash, stock or property or any combination thereof) in respect of any shares of capital stock of TWC or its subsidiaries, or (iii) redeem, repurchase or otherwise acquire any shares of capital stock of TWC or its subsidiaries, other than (w) dividends by TWC's wholly owned subsidiaries, (x) regular quarterly cash dividends with customary record dates and payment dates on shares of TWC common stock, in an amount not to exceed \$0.75 per share of TWC common stock per quarter, (y) repurchases of shares of TWC common stock in the ordinary course of business consistent with past practice pursuant to TWC's share repurchase program and (z) repurchases of shares of TWC common stock in connection with the exercise of options or the vesting or settlement of restricted stock units, in each case that are outstanding on the date of the merger agreement or are issued or granted after the date of the merger agreement, as permitted by the immediately succeeding bullet;

(i) issue, deliver or sell, or authorize the issuance, delivery or sale of, (A) any shares of capital stock or other voting securities of or other ownership interests in TWC or any of its subsidiaries, (B) or securities convertible or exchangeable into shares of capital stock or other voting securities of or other ownership interests in TWC or any of its subsidiaries, (C) any options, calls, warrants or other rights to acquire any

such shares of capital stock, voting securities or securities convertible into or exchangeable for capital stock or other voting securities of or other ownership interests in TWC or (D) restricted shares, stock appreciation rights, performance units, contingent value rights, phantom stock or similar securities or rights issued or granted by TWC or any of its subsidiaries, which are referred to in this joint proxy statement/prospectus as TWC Securities, other than (w) the issuance of TWC common stock upon the exercise of TWC stock options or settlement of TWC restricted stock units, (x) annual director equity grants made in accordance with the merger agreement, (y) equity grants to new hires or promoted employees in the ordinary course of business consistent with past practice and (z) the grant of TWC restricted stock units as long as the aggregate value of all such units does not exceed a

Table of Contents

specified cap, and so long as such grants are made on terms and conditions in the ordinary course of business consistent with past practices and other terms agreed to by the parties, or (ii) amend any term of any TWC Securities (in each case, whether by merger, consolidation or otherwise);

incur any capital expenditures, except for capital expenditures not in excess of \$200,000,000 in the aggregate in any twelve-month period;

acquire any assets, securities, properties, interests or businesses, other than (i) supplies and materials in the ordinary course of business consistent with past practice, (ii) pursuant to contracts or arrangements in effect on the date of the merger agreement, (iii) leases or subleases under which TWC or one of its subsidiaries is the tenant entered into in the ordinary course of business and (iv) acquisitions with a purchase price (including assumed indebtedness) not in excess of \$100,000,000 in the aggregate;

sell, license, lease or otherwise transfer, or create or incur any lien on, any of TWC's or its subsidiaries' assets, securities, properties, interests or businesses, other than (i) sales of inventory or obsolete equipment in the ordinary course of business consistent with past practice, (ii) sales with a purchase price not in excess of \$100,000,000 in the aggregate, (iii) pursuant to contracts or arrangements in effect on the date of the merger agreement, (iv) leases or subleases under which TWC or one of its subsidiaries is the lessor entered into in the ordinary course of business or (v) certain permitted liens;

make any loans, advances, capital contributions or investments, other than (i) in the ordinary course of business consistent with past practice, (ii) investments or capital contributions made alongside Charter or any of its affiliates or (iii) loans, advances or capital contributions to, or investments in, wholly owned subsidiaries of TWC;

incur any indebtedness for borrowed money or guarantees thereof, or issue or sell any debt securities, other than (i) indebtedness under TWC's existing revolving credit agreement, (ii) up to \$2,000,000,000 of indebtedness to refinance certain existing indebtedness (which amount will be reduced by any refinanced indebtedness incurred under clause (i) of this bullet), (iii) guarantees by TWC of indebtedness of any of its wholly owned subsidiaries and (iv) commercial paper issued in the ordinary course of business;

(i) other than in the ordinary course of business, enter into any agreement or arrangement that limits or restricts in any material respect TWC or any of its subsidiaries from engaging or competing in any line of business, in any location or with any person, or (ii) enter into any agreement or arrangements that would so limit or restrict any upstream affiliates of TWC following completion of the mergers;

other than in the ordinary course of business, (i) enter into, amend or modify in any material respect or terminate certain material contracts, or waive, release or assign any material rights thereunder, or (ii) enter into, amend, modify or terminate any programming service distribution agreement;

without prior consultation with Charter, (i) recognize any material new union, works council or other similar employee representative, except as required by law, or (ii) enter into any material collective bargaining agreement, or renew or enter into any material mid-term modification (excluding certain resolutions of grievances relating to or interpretations of a collective bargaining agreement) of any such existing agreement;

grant to any director or officer of TWC any increase in change in control, severance, retention or termination pay, other than any increase in a severance benefit arising directly from an increase in annual salary or annual cash bonus opportunity to the extent such increase is permitted by the merger agreement;

(i) increase the annual salary of any employee of TWC or its subsidiaries who holds the title of Executive Vice President or greater by more than 5% in the aggregate in any fiscal year, except as required by the terms of any existing agreement, or (ii) increase the cash bonus opportunity of any employee of TWC or its subsidiaries who holds the title of Executive Vice President or greater;

Table of Contents

however, TWC is permitted to provide the supplemental bonus opportunity described in Interests of TWC's Directors and Executive Officers in the Transactions 2015 Supplemental Bonus Opportunity;

(i) other than as required by an existing agreement, adopt or amend any cash bonus plan or other variable compensation plan with a performance measurement period of greater than 12 months (excluding any period principally relating to an employee's obligation to be employed on the payment date), (ii) establish or adopt any Title IV plan, excess benefit plan, deferred compensation plan, severance or change in control plan or employee benefit plan that provides post-retirement health, medical, life insurance or death benefits to retired, current or former employees, directors or consultants of TWC or any of its subsidiaries, other than as part of an acquisition of any other company or business that is permitted or consented to under the merger agreement, (iii) fail to continue to make all contributions required to be made to any company plan that is a Title IV plan (other than a multiemployer plan) or (iv) amend the benefit formula under any company plan that is a Title IV plan (other than a multiemployer plan) to increase the benefit accrual applicable to any participant or beneficiary thereof under such plan;

change TWC's method of financial accounting, except as required by concurrent changes in United States generally accepted accounting principles or Regulation S-X under the Exchange Act;

settle, or offer or propose to settle, (i) any litigation, investigation, arbitration, proceeding or other claim involving or against TWC or its subsidiaries or (ii) any stockholder litigation or dispute against TWC or any of its officers or directors, except, in each case, where the sum of the amount paid in settlement plus the financial impact to TWC and its subsidiaries of any other terms of such settlement does not exceed \$100,000,000 (after giving effect to any reasonably expected indemnification proceeds);

adopt or publicly propose a plan of complete or partial liquidation of TWC or any significant subsidiary or resolutions providing for or authorizing such a liquidation or dissolution;

knowingly and intentionally take any action that would reasonably be expected to make any representation or warranty of TWC in the merger agreement inaccurate in any material respect at, or immediately prior to, completion of the mergers;

take certain other actions as previously agreed to by the parties; or

agree, resolve or commit to do any of the foregoing.

Without limiting the generality of the first paragraph of this section (under Conduct of Business Pending the Mergers), except (i) as expressly contemplated by the merger agreement, (ii) as set forth in Charter's confidential disclosure schedule delivered to TWC concurrently with execution of the merger agreement, (iii) as consented to by TWC or (iv) as required by applicable law, and subject to certain exceptions and qualifications described in the merger agreement, from the date of the merger agreement through completion of the mergers, Charter and each of its subsidiaries is not permitted to, among other things:

amend its organizational documents;

(i) split, combine or reclassify any shares of capital stock of Charter or any of its subsidiaries, (ii) declare, set aside or pay any dividend or other distribution (whether in cash, stock or property or any combination thereof) in respect of any shares of capital stock of Charter or its subsidiaries, or (iii) redeem, repurchase or otherwise acquire any securities of Charter or any of its subsidiaries, other than (x) dividends by any of Charter's wholly owned subsidiaries, (y) redemptions, repurchases or other acquisitions or offers for such actions in connection with the vesting or settlement of equity based compensation, or (z) repurchases of shares of Charter Class A common stock in the ordinary course of business consistent with past practice pursuant to Charter's share repurchase program;

issue, deliver or sell, or authorize the issuance, delivery or sale of, (A) any shares of capital stock or other voting securities of or other ownership interests in Charter or any of its subsidiaries, (B) or

Table of Contents

securities convertible or exchangeable into shares of capital stock or other voting securities of or other ownership interests in Charter or any of its subsidiaries, (C) any options, calls, warrants or other rights to acquire any such shares of capital stock, voting securities or securities convertible into or exchangeable for capital stock or other voting securities of or other ownership interests in Charter or (D) restricted shares, stock appreciation rights, performance units, contingent value rights, phantom stock or similar securities or rights issued or granted by Charter or any of its subsidiaries, which are referred to in this joint proxy statement/prospectus as Charter Securities, in each case for less than the market value of such securities, other than equity-based compensation or pursuant to the Charter stockholders agreement;

adopt or publicly propose a plan of complete or partial liquidation or resolutions providing for or authorizing such a liquidation or a dissolution, restructuring, recapitalization or reorganization;

knowingly and intentionally take any action that would reasonably be expected to make any representation or warranty of Charter inaccurate in any material respect at, or immediately prior to, completion of the mergers; or

agree, resolve or commit to do any of the foregoing.

Obligation of the TWC Board of Directors to Recommend the Merger Agreement and Call and Hold a Stockholders Meeting

As soon as reasonably practicable, and no later than 40 days after the effectiveness of the registration statement for the shares of Charter Class A common stock being issued in the mergers (of which this joint proxy statement/prospectus forms a part), TWC has agreed to call and hold a meeting of its stockholders for the purpose of obtaining the vote of TWC stockholders necessary to approve and adopt the merger agreement. Without the prior written consent of Charter, TWC may not adjourn or postpone the meeting of its stockholders. However, TWC is permitted to adjourn or postpone the meeting of its stockholders without Charter's prior written consent (i) for the absence of a quorum, (ii) after consultation with Charter, if the failure to adjourn or postpone the meeting would reasonably be expected to be a violation of applicable law for the distribution of any required supplement or amendment to the joint proxy statement/prospectus, (iii) after consultation with Charter, for a single period not to exceed 10 business days, to solicit additional proxies for the approval of the adoption of the merger agreement or (iv) for a maximum of 10 business days if TWC has delivered to Charter the notice described in the third paragraph of the section **No Solicitation by TWC**. In addition, Charter may require TWC to adjourn or postpone the meeting of TWC stockholders once for a period not to exceed 30 calendar days (but prior to the date that is two business days prior to the initial end date) to solicit additional proxies for the approval adoption of the merger agreement.

The TWC board of directors unanimously recommends that TWC stockholders vote **FOR** the approval of the adoption of the merger agreement. The TWC board of directors, however, can (i) withdraw, modify or qualify in a manner adverse to Charter its recommendation that TWC stockholders approve and adopt the merger agreement, or (ii) recommend a competing acquisition proposal, in each case under specified circumstances as discussed under **No Solicitation by TWC**. However, if the TWC board of directors so withdraws, modifies or qualifies its recommendation in favor of the approval of the adoption of the merger agreement, the merger agreement must nonetheless be submitted to TWC stockholders for adoption, unless the merger agreement has otherwise been terminated in accordance with its terms.

No Solicitation by TWC

Subject to the exceptions described below, TWC has agreed that neither TWC nor any of its subsidiaries will, nor will TWC or any of its subsidiaries authorize or permit any of its or their officers, directors, employees, investment bankers, attorneys, accountants, consultants or other agents or advisors, which are collectively referred to in this joint proxy statement/prospectus as representatives, to, directly or indirectly: (i) solicit, initiate or take any action to knowingly facilitate or encourage the submission of any TWC acquisition proposal (as

Table of Contents

defined below), (ii) enter into or participate in any discussions or negotiations with, furnish any non-public information relating to TWC or any of its subsidiaries or afford access to the business, properties, assets, books or records of TWC or any of its subsidiaries to, otherwise knowingly cooperate in any way with, or knowingly assist, participate in, facilitate or encourage any effort by any third party that is seeking to make, or has made, a TWC acquisition proposal, (iii) fail to make, withdraw or modify in a manner adverse to Charter the recommendation of the TWC board of directors that TWC stockholders vote in favor of the approval of the adoption of the merger agreement or recommend a TWC acquisition proposal (any action described in this clause (iii) is referred to in this joint proxy statement/prospectus as a TWC adverse recommendation change), (iv) fail to enforce or grant any waiver or release under any standstill or similar agreement with respect to any class of equity securities of TWC or any of its subsidiaries, unless the TWC board of directors determines after consulting with its outside legal counsel that failure to waive such provision would be inconsistent with its fiduciary duties under applicable law (except that TWC is not required to enforce any provision of any such agreement that would prohibit a third party from communicating confidentially a TWC acquisition proposal to the TWC board of directors), (v) approve any transaction under, or any person becoming an interested stockholder under, Section 203 of the DGCL, or (vi) enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement, option agreement or other similar instrument relating to an acquisition proposal (other than a confidentiality agreement to the extent permitted as described below). Any violation of the restrictions on TWC set forth in the preceding sentence by any representative of TWC or any of its subsidiaries will be treated as a breach by TWC. However, so long as TWC and its representatives have otherwise complied in all material respects with the foregoing, TWC and its representatives may, at any time prior to the approval of the adoption of the merger agreement by TWC stockholders, participate in discussions with any third party who has made a TWC acquisition proposal after the date of the merger agreement solely to request the clarification of the terms and conditions of the proposal so as to determine whether the TWC acquisition proposal is, or could reasonably be expected to lead to, a TWC superior proposal (as defined below).

Notwithstanding the foregoing, but subject to the terms and conditions described below, at any time prior to the adoption of the merger agreement by TWC stockholders:

TWC, directly or indirectly through advisors, agents or other intermediaries, may (i) engage in negotiations or discussions with any third party that, subject to TWC's compliance with the solicitation restrictions described in the first paragraph of this section (under "No Solicitation by TWC") has made, after the date of the merger agreement, a TWC superior proposal or a TWC acquisition proposal that the TWC board of directors determines in good faith, after consultation with its outside legal advisors, could reasonably be expected to lead to a TWC superior proposal by the third party making such TWC acquisition proposal, (ii) furnish to such third party and its representatives non-public information relating to TWC or any of its subsidiaries pursuant to a customary confidentiality agreement with such third party with terms no less favorable to TWC than those contained in the confidentiality agreement between TWC and Charter (but such confidentiality agreement need not contain a standstill or similar provision that prohibits such third party from making any TWC acquisition proposal, acquiring TWC or taking any other action); provided that all such information (to the extent not previously provided or made available to Charter) is provided or made available to Charter prior to or as promptly as practicable (but no later than 24 hours) after the time it is provided or made available to such third party and (iii) take any action required by applicable law or that any court of competent jurisdiction orders TWC to take; and

the TWC board of directors may make an adverse recommendation change (i) following receipt of a TWC superior proposal or (ii) involving or relating to a TWC intervening event (as defined below).

TWC is only permitted to take the actions described in the preceding two bullets if the TWC board of directors determines in good faith, after considering advice from outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under applicable law.

In addition, the TWC board of directors is not permitted to take any of the actions described in the two bullets above unless TWC has delivered to Charter written notice advising Charter that it intends to take such

Table of Contents

action, and, after taking such action, if such action is in connection with a TWC acquisition proposal, TWC continues to advise Charter, on a current basis, of the status and terms of any discussions and negotiations with the applicable third party. TWC must also notify Charter promptly (but in no event later than 24 hours) after receipt by TWC (or any of its representatives) of any TWC acquisition proposal, any written indication from a third party that such third party is considering making a TWC acquisition proposal or any written request for information relating to TWC or any of its subsidiaries or for access to the business, properties, assets, books or records of TWC or any of its subsidiaries by any third party that has indicated that it is considering making, or has made, a TWC acquisition proposal. TWC must, within 24 hours of receipt, provide such notice orally and in writing and must identify the third party making, and the material terms and conditions of, any such TWC acquisition proposal, indication or request, and must promptly (but in no event later than 24 hours of its receipt) provide to Charter copies of all material correspondence and written materials sent or provided to TWC or any of its subsidiaries that describes any terms or conditions of any TWC acquisition proposal. TWC is required to keep Charter reasonably informed, on a reasonably current basis, of the status and details of any such acquisition proposal, indication or request.

In addition, the TWC board of directors is not permitted to make an adverse recommendation change in response to a TWC acquisition proposal unless (i) such TWC acquisition proposal constitutes a TWC superior proposal, (ii) TWC promptly notifies Charter, in writing at least five business days before taking that action, of its intention to do so, and attaches the most current version of the proposed agreement under which such TWC superior proposal is proposed to be consummated and the identity of the third party making the TWC superior proposal, and (iii) Charter does not make, within such five business day period after receipt of the written notification, an offer that is at least as favorable to the stockholders of TWC as such TWC superior proposal. Any amendment to the financial terms or other material terms of such TWC superior proposal requires a new written notification from TWC and commences a new notice period under the preceding sentence, except that such new notice period will be for three business days rather than five business days.

The TWC board of directors is not permitted to make an adverse recommendation change in response to a TWC intervening event unless (i) TWC has provided Charter with written information describing the intervening event in reasonable detail promptly after becoming aware of it and keeps Charter fully informed, on a reasonably current basis, of material developments with respect to such intervening event, (ii) TWC has provided Charter at least five business days prior notice of its intention to make an adverse recommendation change with respect to such TWC intervening event, attaching a reasonably detailed explanation of the facts underlying the determination by the TWC board of directors that an intervening event has occurred and its need to make an adverse recommendation change in light of the TWC intervening event and (iii) Charter does not make, within such five-business-day period, an offer that the TWC board of directors determines would obviate the need for an adverse recommendation change in light of the TWC intervening event.

During any five-business-day period prior to effecting an adverse recommendation change in response to a TWC acquisition proposal or a TWC intervening event, TWC and its representatives must negotiate in good faith with Charter and its representatives regarding any revisions to the terms of the transactions contemplated by the merger agreement proposed by Charter.

TWC acquisition proposal means, other than the transactions contemplated by the merger agreement, any offer or proposal relating to (i) any acquisition or purchase, direct or indirect, of 25% or more of the consolidated assets of TWC and its subsidiaries or 25% or more of any class of equity or voting securities of TWC or any of its subsidiaries whose assets, individually or in the aggregate, constitute 25% or more of the consolidated assets of TWC, (ii) any tender offer or exchange offer (including a self-tender offer) that, if consummated, would result in a third party beneficially owning 25% or more of any class of equity or voting securities of TWC or any of its subsidiaries whose assets, individually or in the aggregate, constitute 25% or more of the consolidated assets of TWC or (iii) a merger,

consolidation, share exchange, business combination or other similar transaction involving TWC or any of its subsidiaries whose assets, individually or in the aggregate, constitute 25% or more of the consolidated assets of TWC.

Table of Contents

TWC intervening event means any material event, change, effect, development or occurrence occurring or arising after the date of the merger agreement that (i) was not known or reasonably foreseeable to the TWC board of directors or executive officers as of or prior to the date of the merger agreement and (ii) does not relate to or involve a TWC acquisition proposal; provided that (x) no action taken by either party pursuant to the affirmative covenants described in the section Reasonable Best Efforts Covenant, or the consequences of any such action, shall constitute, be deemed to contribute to or otherwise be taken into account in determining whether there has been a TWC intervening event and (y) no event, change, effect, development or occurrence that would fall within any of the exceptions to the definition of material adverse effect, as such definition relates to Charter, shall constitute, be deemed to contribute to or otherwise be taken into account in determining whether there has been a TWC intervening event.

TWC superior proposal means a bona fide, unsolicited written TWC acquisition proposal for at least a majority of the outstanding shares of TWC common stock or all or substantially all of the consolidated assets of TWC and its subsidiaries that the TWC board of directors determines in good faith, after consultation with a financial advisor of nationally recognized reputation and outside legal counsel and taking into account all material financial, legal, regulatory and other aspects of such proposal, including the terms and conditions of the TWC acquisition proposal, (i) is on terms and conditions more favorable to TWC's stockholders than the transactions contemplated by the merger agreement (taking into account any proposal by Charter to amend the terms of the merger agreement) and (ii) is reasonably likely to be consummated and, if a cash transaction (whether in whole or in part), has financing, if any, that is then fully committed or reasonably determined to be available by the TWC board of directors.

TWC has agreed to, and to cause its subsidiaries and its and their representatives to, terminate any and all existing activities, discussions or negotiations, if any, with any third parties and their representatives and financing sources conducted prior to the date of the merger agreement with respect to any TWC acquisition proposal, and to promptly request that each third party that has executed a confidentiality agreement within the 24 month period prior to the date of the merger agreement, in connection with considering a TWC acquisition proposal, return or destroy all confidential information about TWC that was furnished by or on behalf of TWC or any of its subsidiaries (and all analyses and other materials prepared by or on behalf of such third parties that contains, reflects or analyzes that information).

Voting of Shares by Charter

Charter has agreed to vote all shares of TWC common stock beneficially owned by it or any of its subsidiaries (other than such shares held by employee benefit plans) in favor of adoption of the merger agreement at the TWC special meeting.

Obligation of the Charter Board of Directors to Recommend the Merger Agreement, the Stock Issuances, the Liberty Transactions and the New Charter Certificate of Incorporation and Call and Hold a Stockholders Meeting

As soon as reasonably practicable, and no later than 40 days after the effectiveness of the registration statement for the shares of Charter Class A common stock being issued in the mergers (of which this joint proxy statement/prospectus forms a part), Charter has agreed to call and hold a meeting of its stockholders for the purpose of obtaining the vote of Charter stockholders necessary to approve and adopt the merger agreement, approve the stock issuances, approve the amended and restated certificate of incorporation and, unless previously approved, approve the other transactions contemplated by the merger agreement and the Liberty transactions. Without the prior written consent of TWC, Charter may not adjourn or postpone the meeting of its stockholders. However, Charter is permitted to adjourn or postpone the meeting of its stockholders (i) for the absence of a quorum, (ii) after consultation with TWC, if the failure to adjourn or postpone the meeting of stockholders would reasonably be expected to be a violation of

applicable law for the distribution of any required supplement or amendment to this joint proxy statement/prospectus, (iii) after consultation with TWC, for a single period not to exceed 10 business days, to solicit additional proxies for the approval of the matters being presented by Charter

Table of Contents

at its stockholder meeting or (iv) for a maximum of 10 business days if Charter has delivered to TWC the notice described in paragraph 3 of the section **No Solicitation by Charter**. In addition, TWC may require Charter to adjourn or postpone the meeting of TWC stockholders once for a period not to exceed 30 calendar days (but prior to the date that is two business days prior to the initial end date) to solicit additional proxies for the approval of the matters being presented by Charter at its stockholder meeting.

The Charter board of directors unanimously recommends that Charter stockholders vote **FOR** the approval of the adoption of the merger agreement and the approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals. The Charter board of directors, however, can (i) withdraw, modify or qualify in a manner adverse to TWC its recommendation that Charter stockholders approve and adopt the merger agreement and approve the TWC transactions stock issuance proposal, the Liberty transactions and each of the certificate of incorporation proposals, or (ii) recommend a competing acquisition proposal, in each case under specified circumstances as discussed under **No Solicitation by Charter**. However, if the Charter board of directors so withdraws, modifies or qualifies its recommendation in favor of the approval of the adoption of the merger agreement or approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal or any of the certificate of incorporation proposals, all of the foregoing matters must nonetheless be submitted to Charter stockholders for adoption and approval, unless the merger agreement has otherwise been terminated in accordance with its terms.

No Solicitation by Charter

Subject to the exceptions described below, Charter has agreed that neither Charter nor any of its subsidiaries will, nor will Charter or any of its subsidiaries authorize or permit any of its or their representatives to, directly or indirectly: (i) solicit, initiate or take any action to knowingly facilitate or encourage the submission of any Charter acquisition proposal (as defined below), (ii) enter into or participate in any discussions or negotiations with, furnish any non-public information relating to Charter or any of its subsidiaries or afford access to the business, properties, assets, books or records of Charter or any of its subsidiaries to, otherwise knowingly cooperate in any way with, or knowingly assist, participate in, facilitate or encourage any effort by any third party that is seeking to make, or has made, a Charter acquisition proposal, (iii) fail to make, withdraw or modify in a manner adverse to TWC the recommendation of the Charter board of directors that Charter stockholders vote in favor of approval of the adoption of the merger agreement and in favor of the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals or recommend a Charter acquisition proposal (any action described in this clause (iii) is referred to in this joint proxy statement/prospectus as a Charter adverse recommendation change), (iv) fail to enforce or grant any waiver or release under any standstill or similar agreement with respect to any class of equity securities of Charter or any of its subsidiaries, unless the Charter board of directors determines after consulting with its outside legal counsel that failure to waive such provision would be inconsistent with its fiduciary duties under applicable law (except that Charter is not required to enforce any provision of any such agreement that would prohibit a third party from communicating confidentially a Charter acquisition proposal to the Charter board of directors), (v) approve any transaction under, or any person becoming an interested stockholder under, Section 203 of the DGCL, or (vi) enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement, option agreement or other similar instrument relating to an acquisition proposal (other than a confidentiality agreement to the extent permitted as described below). Any violation of the restrictions on Charter set forth in the preceding sentence by any representative of Charter or any of its subsidiaries will be treated as a breach by Charter. However, so long as Charter and its representatives have otherwise complied in all material respects with the foregoing, Charter and its representatives may, at any time prior to the approval of the adoption of the merger agreement and approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals by Charter stockholders, participate in discussions with any third party who has made a Charter acquisition proposal after the date of the merger agreement solely to request

the clarification of the terms and conditions of the proposal so as to determine whether the Charter acquisition proposal is, or could reasonably be expected to lead to, a Charter superior proposal (as defined below).

Table of Contents

Notwithstanding the foregoing, but subject to the terms and conditions described below, at any time prior to the adoption of the merger agreement and approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals by Charter stockholders:

Charter, directly or indirectly through advisors, agents or other intermediaries, may (i) engage in negotiations or discussions with any third party that, subject to Charter's compliance with the solicitation restrictions described in the first paragraph of this section (under "No Solicitation by Charter") has made, after the date of the merger agreement, a Charter superior proposal or a Charter acquisition proposal that the Charter board of directors determines in good faith, after consultation with its outside legal advisors, could reasonably be expected to lead to a Charter superior proposal by the third party making such Charter acquisition proposal, (ii) furnish to such third party and its representatives non-public information relating to Charter or any of its subsidiaries pursuant to a customary confidentiality agreement with such third party with terms no less favorable to Charter than those contained in the confidentiality agreement between TWC and Charter (but such confidentiality agreement need not contain a "standstill" or similar provision that prohibits such third party from making any Charter acquisition proposal, acquiring Charter or taking any other action); provided that all such information (to the extent not previously provided or made available to TWC) is provided or made available to TWC prior to or as promptly as practicable (but no later than 24 hours) after the time it is provided or made available to such third party and (iii) take any action required by applicable law or that any court of competent jurisdiction orders Charter to take; and

the Charter board of directors may make an adverse recommendation change (i) following receipt of a Charter superior proposal or (ii) involving or relating to a Charter intervening event (as defined below). Charter is only permitted to take the actions described in the preceding two bullets if the Charter board of directors determines in good faith, after considering advice from outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under applicable law.

In addition, the Charter board of directors is not permitted to take any of the actions described in the two bullets above unless Charter has delivered to TWC written notice advising TWC that it intends to take such action, and, after taking such action, if such action is in connection with a Charter acquisition proposal, Charter continues to advise TWC, on a current basis, of the status and terms of any discussions and negotiations with the applicable third party. Charter must also notify TWC promptly (but in no event later than 24 hours) after receipt by Charter (or any of its representatives) of any Charter acquisition proposal, any written indication from a third party that such third party is considering making a Charter acquisition proposal or any written request for information relating to Charter or any of its subsidiaries or for access to the business, properties, assets, books or records of Charter or any of its subsidiaries by any third party that has indicated that it is considering making, or has made, a Charter acquisition proposal. Charter must, within 24 hours of receipt, provide such notice orally and in writing and must identify the third party making, and the material terms and conditions of, any such Charter acquisition proposal, indication or request, and must promptly (but in no event later than 24 hours of its receipt) provide to TWC copies of all material correspondence and written materials sent or provided to Charter or any of its subsidiaries that describes any terms or conditions of any Charter acquisition proposal. Charter is required to keep TWC reasonably informed, on a reasonably current basis, of the status and details of any such acquisition proposal, indication or request.

In addition, the Charter board of directors is not permitted to make an adverse recommendation change in response to a Charter acquisition proposal unless (i) such Charter acquisition proposal constitutes a Charter superior proposal, (ii) Charter promptly notifies TWC, in writing at least five business days before taking that action, of its intention to

do so, and attaches the most current version of the proposed agreement under which such Charter superior proposal is proposed to be consummated and the identity of the third party making the Charter superior proposal, and (iii) TWC does not make, within such five business day period after receipt of the written notification, an offer to revise the terms of the merger agreement that is at least as favorable to the stockholders of Charter as such Charter superior proposal. Any amendment to the financial terms or other

Table of Contents

material terms of such Charter superior proposal requires a new written notification from Charter and commences a new notice period under the preceding sentence, except that such new notice period will be for three business days rather than five business days.

The Charter board of directors is not permitted to make an adverse recommendation change in response to a Charter intervening event unless (i) Charter has provided TWC with written information describing the intervening event in reasonable detail promptly after becoming aware of it and keeps TWC fully informed, on a reasonably current basis, of material developments with respect to such intervening event, (ii) Charter has provided TWC at least five business days prior notice of its intention to make an adverse recommendation change with respect to such Charter intervening event, attaching a reasonably detailed explanation of the facts underlying the determination by the Charter board of directors that an intervening event has occurred and its need to make an adverse recommendation change in light of the Charter intervening event and (iii) TWC does not make, within such five-business-day period, an offer to revise the terms of the merger agreement that the Charter board of directors determines would obviate the need for an adverse recommendation change in light of the Charter intervening event.

During any five-business-day period prior to effecting an adverse recommendation change in response to a Charter acquisition proposal or a Charter intervening event, Charter and its representatives must negotiate in good faith with TWC and its representatives regarding any revisions to the terms of the transactions contemplated by the merger agreement proposed by TWC.

Charter acquisition proposal means, other than the transactions contemplated by the merger agreement, the Liberty transactions or the Bright House contribution agreement, any offer or proposal relating to (i) any acquisition or purchase, direct or indirect, of 25% or more of the consolidated assets of Charter and its subsidiaries or 25% or more of any class of equity or voting securities of Charter or any of its subsidiaries whose assets, individually or in the aggregate, constitute 25% or more of the consolidated assets of Charter, (ii) any tender offer or exchange offer (including a self-tender offer) that, if consummated, would result in a third party beneficially owning 25% or more of any class of equity or voting securities of Charter or any of its subsidiaries whose assets, individually or in the aggregate, constitute 25% or more of the consolidated assets of Charter or (iii) a merger, consolidation, share exchange, business combination or other similar transaction involving Charter or any of its subsidiaries whose assets, individually or in the aggregate, constitute 25% or more of the consolidated assets of Charter.

Charter intervening event means any material event, change, effect, development or occurrence occurring or arising after the date of the merger agreement that (i) was not known or reasonably foreseeable to the Charter board of directors or executive officers as of or prior to the date of the merger agreement and (ii) does not relate to or involve a Charter acquisition proposal; provided that (x) no action taken by either party pursuant to the affirmative covenants described in the section Reasonable Best Efforts Covenant, or the consequences of any such action, shall constitute, be deemed to contribute to or otherwise be taken into account in determining whether there has been a Charter intervening event and (y) no event, change, effect, development or occurrence that would fall within any of the exceptions to the definition of material adverse effect, as such definition relates to TWC, shall constitute, be deemed to contribute to or otherwise be taken into account in determining whether there has been a Charter intervening event.

Charter superior proposal means a bona fide, unsolicited written Charter acquisition proposal for at least a majority of the outstanding shares of Charter Class A common stock or all or substantially all of the consolidated assets of Charter and its subsidiaries that the Charter board of directors determines in good faith, after consultation with a financial advisor of nationally recognized reputation and outside legal counsel and taking into account all material financial, legal, regulatory and other aspects of such proposal, including the terms and conditions of the Charter acquisition proposal, (i) is on terms and conditions more favorable to Charter's stockholders than the transactions contemplated by the merger agreement (taking into account any proposal by TWC to amend the terms of the merger

agreement) and (ii) is reasonably likely to be consummated and, if a cash transaction (whether in whole or in part), has financing, if any, that is then fully committed or reasonably determined to be available by the Charter board of directors.

Table of Contents

Charter has agreed to, and to cause its subsidiaries and its and their representatives to, terminate any and all existing activities, discussions or negotiations, if any, with any third parties and their representatives and financing sources conducted prior to the date of the merger agreement with respect to any Charter acquisition proposal, and to promptly request that each third party that has executed a confidentiality agreement within the 24 month period prior to the date of the merger agreement, in connection with considering a Charter acquisition proposal, return or destroy all confidential information about Charter that was furnished by or on behalf of Charter or any of its subsidiaries (and all analyses and other materials prepared by or on behalf of such third parties that contains, reflects or analyzes that information).

Voting of Shares by TWC

TWC has agreed to vote all shares of Charter Class A common stock beneficially owned by it or any of its subsidiaries (other than such shares held by employee benefit plans) in favor of the approval of the adoption of the merger agreement and the approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals at the Charter special meeting.

Reasonable Best Efforts Covenant

Charter and TWC have agreed to use their respective reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, and assist and cooperate with the other in doing, all things necessary, proper or advisable under applicable law to complete the mergers and the other transactions contemplated by the merger agreement, including preparing and filing as promptly as practicable all necessary, proper or advisable governmental or third-party filings, notices and other documents and obtaining and maintaining all necessary, proper or advisable governmental or third-party approvals, consents, registrations, permits, authorizations and other confirmations to consummate the mergers and the transactions contemplated by the merger agreement.

In furtherance of the foregoing, Charter and TWC have agreed to make and not withdraw: (i) as promptly as practicable (and not later than July 7, 2015), an appropriate filing of a Notification and Report Form pursuant to the HSR Act and all necessary filings to obtain consents from the FCC that are required in connection with the merger, and (ii) as promptly as practicable (and not later than July 22, 2015), all necessary filings to obtain consents from state regulators and franchise authorities, and all other registrations, declarations, notices and filings with governmental authorities, in each case that are required in connection with the mergers. Charter and TWC have agreed that Charter will take the lead in scheduling and strategic planning for any meeting with any governmental authority under the HSR Act or other applicable laws, the making of any filings, the process for receipt of any necessary approvals and the resolution of any investigation or other inquiry from a governmental authority. Without limiting the foregoing, except as prohibited by applicable law, the parties have agreed, to the extent reasonably practicable, to consult with each other prior to taking any material substantive positions with respect to the filings under the HSR Act or other applicable laws, and, to the extent reasonably practicable, to permit review and consider in good faith comments on any documents to be submitted to any governmental authority, and to coordinate in preparing and exchanging information and promptly provide the other party with copies of all filings, presentations or submissions (and a summary of any oral presentations) made by such party to any governmental authority relating to the merger agreement or transactions contemplated thereby under the HSR Act or other applicable laws. Subject to certain exceptions, the parties have agreed not to participate in any substantive meetings or conversations with any governmental authorities without the other party present.

Charter's obligation to use reasonable best efforts will require Charter to take any actions and accept any conditions and other remedies to the extent such actions, conditions or other remedies would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the condition (financial or otherwise), business, assets or

results of operations of Charter, TWC and their subsidiaries, taken as a whole (but without taking into account the BHN transaction). Each condition, remedy or action that Charter is not required to accept or take is referred to in this joint proxy statement/prospectus as a burdensome condition.

Table of Contents

TWC has agreed to work in good faith in connection with Charter's efforts to obtain regulatory approval in a manner that Charter believes in good faith is in the best interests of the combined company and its stockholders. In addition, TWC has agreed not to accept any of the conditions or take any actions in connection with TWC's and Charter's efforts to obtain regulatory approval without Charter's prior written consent.

The merger agreement also provides that no party is required to commit to or effect any action or accept any condition contemplated above that is not conditioned upon completion of the mergers.

Charter and TWC have also agreed not to, and to cause their respective subsidiaries and affiliates not to, (i) take any action that would reasonably be expected to have the effect of materially delaying, impairing or impeding the receipt of any regulatory approvals required in connection with the transactions contemplated by the merger agreement or the completion of the mergers, or (ii) acquire or agree to acquire (by merger, consolidation, acquisition of stock or assets or otherwise), directly or indirectly, any assets, securities (other than securities issued by such party as permitted by the terms of the merger agreement), properties, interests or business in any transaction or series of related transactions if such acquisition would (A) require approval of the FCC or (B) (without the consent of the other party, not to be unreasonably withheld, conditioned or delayed) have a value, or involve the payment of consideration, in excess of \$350 million, subject to certain limited exceptions agreed to by the parties (including the ability of Charter and its subsidiaries to bid on and purchase wireless spectrum to the extent that it would not reasonably be expected to have the effect of materially delaying, impairing or impeding the receipt of any regulatory approval required in connection with the transactions contemplated by the merger agreement or the closing of the mergers).

Joint Proxy Statement/Prospectus and Registration Statement Covenant

Charter, New Charter and TWC have agreed to prepare and file a joint proxy statement/prospectus and a registration statement with the SEC as promptly as practicable and to use their respective reasonable best efforts to cause the registration statement to become effective under the Securities Act of 1933, as amended, which is referred to in this joint proxy statement/prospectus as the Securities Act, as soon after such filing as practicable and to keep the registration statement effective as long as is necessary to consummate the mergers. This joint proxy statement/prospectus must include (i) the recommendation of the TWC board of directors in favor of approval of the adoption of the merger agreement, except to the extent the TWC board of directors has made an adverse recommendation change as described under "No Solicitation by TWC," and (ii) the recommendation of the Charter board of directors in favor of approval of the adoption of the merger agreement and approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and each of the certificate of incorporation proposals.

TWC and Charter have agreed to cooperate in setting a mutually acceptable date for the TWC stockholder meeting and the Charter stockholder meeting, so as to enable them to occur on the same date (if practicable), and in setting dates for their respective annual meetings of stockholders. TWC and Charter have also agreed to use their reasonable best efforts to cause the joint proxy statement/prospectus to be mailed to their respective stockholders as promptly as practicable after the registration statement becomes effective, and to ensure that the registration statement and joint proxy statement/prospectus comply as to form in all material respects with the rules and regulations promulgated by the SEC under the Securities Act and the Exchange Act.

Bright House Right of First Offer Waiver

In the merger agreement, TWC and Time Warner Cable Enterprises LLC (on behalf of themselves and their affiliates and any successors in interest) irrevocably and unconditionally waived all of their respective rights under the rights of first offer provisions under the Third Amended and Restated Partnership Agreement of Time Warner Entertainment Advance/Newhouse Partnership, dated as of December 31, 2002, between affiliates of TWC and

Advance/Newhouse Partnership with respect to the combination of BHN and New Charter, irrespective of any termination of the merger agreement; provided that, this waiver will not be applicable

Table of Contents

following the termination of the merger agreement so long as TWC or any of its affiliates has not entered into an agreement or understanding providing for, or consummated, a TWC acquisition proposal (as defined above under No Solicitation by TWC, except that references in that definition to 25% will be deemed to be references to 50%) within 9 months following the termination of the merger agreement.

Indemnification and Insurance

The merger agreement provides that, from and after completion of the mergers, New Charter will indemnify and hold harmless and provide advancement of expenses to the present and former officers and directors of TWC and Charter and their respective subsidiaries and any individual who is, as of the date of the merger agreement (or commences prior to completion of the mergers) serving at the request of TWC or Charter or any of their respective subsidiaries as a director or officer of another entity, who are collectively referred to in this joint proxy statement/prospectus as indemnified persons, in respect of (i) acts or omissions occurring at or prior to completion of the mergers, (ii) the fact that such indemnified person is or was a director or officer, or is or was serving at the request of TWC or Charter or any of their respective subsidiaries as a director or officer of another entity prior to completion of the mergers, and (iii) the merger agreement and the transactions contemplated by the merger agreement, in each case to the fullest extent permitted by Delaware law or any other applicable law or as provided under TWC's or Charter's (as applicable) or their respective subsidiaries' organizational documents.

New Charter has agreed that, from and after completion of the mergers, it will cause to be maintained in effect provisions in its and its subsidiaries' organizational documents regarding elimination of liability of directors, indemnification of officers, directors and employees and the advancement of expenses with respect to matters existing or occurring at or prior to completion of the mergers that are no less advantageous to the intended beneficiaries than the corresponding provisions in existence on the date of the merger agreement in TWC's, Charter's and their subsidiaries' organizational documents, as applicable.

New Charter has agreed to either (i) continue to maintain in effect for six years after completion of the mergers TWC's and Charter's directors' and officers' insurance policies and fiduciary liability insurance policies, which are collectively referred to in this joint proxy statement/prospectus as D&O Insurance, in place as of the date of the merger agreement or (ii) purchase comparable D&O Insurance for such six-year period, in each case with respect to any claim related to any period of time at or prior to completion of the mergers with coverage not less than the existing coverage and other terms, conditions, retentions and limits of liability that are at least as favorable as those contained in the applicable D&O Insurance in effect as of the date of the merger agreement. Notwithstanding the foregoing, New Charter is not required to expend for such policies an aggregate premium amount in excess of 300% of the amount per annum TWC or Charter (as applicable) paid in its last full fiscal year, and if the aggregate premiums of such insurance coverage exceed that amount, New Charter will be obligated to obtain a policy with the greatest coverage available, with respect to matters occurring prior to completion of the mergers, for a cost not exceeding that amount.

At TWC's option, TWC may purchase, prior to completion of the mergers, a six-year prepaid tail policy with coverage not less than the existing coverage and other terms, conditions, retentions and limits of liability that are at least as favorable as those contained in the applicable D&O Insurance in effect as of the date hereof, in which event New Charter will not have any obligations under the immediately preceding paragraph, provided that the aggregate premium for such policies may not exceed 300% of the amount per annum TWC paid in its last full fiscal year. In the event that TWC elects to purchase such a tail policy, New Charter has agreed to maintain such tail policy in full force and effect and continue to honor the obligations thereunder.

The rights of each indemnified person described in this section of this joint proxy statement/prospectus are in addition to any rights such person may have under TWC's or Charter's (or any of their respective subsidiaries') organizational

documents, under Delaware law or any other applicable law or under any agreement between such indemnified person and TWC (or any of its subsidiaries).

Table of Contents

Employee Matters

The merger agreement provides that New Charter will provide, or cause to be provided, to each employee of TWC and its subsidiaries who continues to be employed by New Charter or its subsidiaries (including TWC, as the surviving corporation, and its subsidiaries) immediately following completion of the mergers (other than any employees included in a collective bargaining unit covered by a collective bargaining agreement, who are referred to in this joint proxy statement/prospectus as TWC represented employees), such employees being referred to in this joint proxy statement/prospectus as TWC covered employees, and together with TWC represented employees, TWC continuing employees, with:

for one year following completion of the mergers, base pay and annual cash bonus opportunities, as applicable, that are no less favorable in the aggregate than provided to each such TWC covered employee immediately prior to completion of the mergers;

for one year following completion of the mergers, commission and cash incentive opportunities that are no less favorable than either those provided to each such TWC covered employee immediately prior to the completion of the mergers or those provided to similarly situated employees of New Charter or its subsidiaries following completion of the mergers; and

until December 31, 2016, employee benefits that are no less favorable in the aggregate than provided to each such TWC covered employee immediately prior to completion of the mergers.

For purposes of determining whether the pay, opportunities and benefits referred to in the immediately preceding three bullets are no less favorable in the aggregate, long-term cash incentive compensation, equity compensation, defined benefit pension plan benefits, severance, retention (including, for the avoidance of doubt, the supplemental bonus opportunity described in Interests of TWC's Directors and Executive Officers in the Transactions and any supplemental bonus opportunity payable in connection with the merger agreement or the terminated merger transaction between TWC and Comcast), sale, stay, or change in control payments or awards or any similar compensation or benefit, shall not be taken into account. With respect to union represented employees, New Charter shall retain any and all of the rights and obligations it may have pursuant to applicable law.

In addition, as of completion of the mergers, New Charter will, or will cause one of its subsidiaries to, for the benefit of each TWC covered employee, (i) honor all contracts providing for severance to the extent and in accordance with their terms, (ii) honor, without amendment, certain scheduled employment agreements, and (iii) honor, without amendment, all plans providing for severance during the period from completion of the mergers through the first anniversary thereof, or for any longer period during which such amendments are prohibited under the terms of the applicable plan, as long as such contract or plan is set forth on TWC's confidential disclosure schedules delivered in connection with the merger agreement.

To the extent that TWC covered employees become eligible to participate in employee benefit plans maintained by New Charter or any of its subsidiaries, then, for purposes of determining (i) eligibility to participate and vesting and (ii) solely with respect to any plan that provides for severance, vacation or paid-time off benefits, for purposes of benefit accrual, service with TWC or any of its subsidiaries prior to completion of the mergers shall be treated as service with New Charter or any of its subsidiaries to the extent recognized by TWC and its subsidiaries prior to completion of the mergers. However, service with TWC or any of its subsidiaries shall not be recognized to the extent

that such recognition would result in any duplication of benefits, and New Charter is not required to provide credit for such service for eligibility, vesting or benefit accrual purposes under any equity compensation plan, defined benefit pension plan or postretirement medical plan.

In addition, the merger agreement provides that New Charter or its subsidiaries, as applicable, will use commercially reasonable efforts to (i) waive all limitations as to preexisting conditions, exclusions and waiting periods with respect to participation and coverage requirements applicable to TWC continuing employees under any welfare plans maintained by New Charter or its subsidiaries and (ii) provide TWC continuing employees

Table of Contents

with credit for any co-payments and deductibles paid during the plan year in which completion of the mergers occurs in satisfying any applicable deductible or out-of-pocket requirements under such welfare plans.

To the extent required by any TWC employee benefit plan or applicable law, New Charter will, or will cause one of its subsidiaries to, expressly assume such plan and all obligations thereunder. At the request of New Charter prior to completion of the mergers (and so long as the conditions described in the section Conditions to Completion of the Mergers have been satisfied, other than conditions that are by their nature to be satisfied at completion of the mergers), TWC will terminate or cause the termination of any U.S. tax-qualified defined contribution plans provided to current and former employees of TWC and its subsidiaries in compliance with applicable laws.

Charter and TWC will coordinate in good faith to develop a mutually agreed communications strategy with respect to employees of TWC and its subsidiaries. Except for communications substantially in accordance with this strategy, (i) without the prior written consent of TWC (such consent not to be unreasonably withheld, conditioned or delayed), Charter shall not, and shall cause its affiliates not to, contact, meet or otherwise communicate with any director, officer or employee of TWC or any of its subsidiaries, either on an individual or group basis and (ii) Charter shall provide TWC with a reasonable right to comment on and approve (such approval not to be unreasonably withheld, conditioned or delayed) any written communications by Charter intended for distribution (whether individual or broad-based) to current or former directors, officers or employees of TWC or its affiliates prior to the completion of the mergers regarding the transactions contemplated by the merger agreement.

Under the terms of the merger agreement, none of the matters described under this section of this joint proxy statement/prospectus will (i) be construed as the establishment, amendment or modification of any employee benefit plan, (ii) prohibit the amendment, modification, merger or termination after completion of the mergers of any employee benefit plan, (iii) create any third-party beneficiary or other rights in any current or former employee, director or other individual contractor of TWC and its subsidiaries (including any beneficiary or dependent thereof) or (iv) obligate New Charter or any of its affiliates to maintain any particular employee benefit plan or retain the employment services of any current or former employee, director or other individual contractor.

Tax Matters

As more fully described in the merger agreement, TWC has agreed that, unless Charter otherwise consents (which consent may not be unreasonably withheld, conditioned or delayed), and subject to certain exceptions and qualifications described in the merger agreement, neither TWC nor any of its subsidiaries will: (i) make or change any material tax election, (ii) change any annual tax accounting period, (iii) adopt or change any method of tax accounting, (iv) enter into any material closing agreement, (v) consent to any extension or waiver of the limitations period applicable to any tax claim or assessment, (vi) file any material amended tax returns or claims for material tax refunds, (vii) surrender any material tax claim, audit or assessment, (viii) surrender any right to claim a material tax refund, offset or other reduction in tax liability, or (ix) take any action or omission with respect to taxes, in each case, if any such action or omission would materially increase the tax liability or accrual of tax liability or materially reduce any tax asset or accrual of tax asset under FASB Interpretation No. 48 of TWC or any of its subsidiaries.

In addition, the merger agreement provides that each of Charter, New Charter and TWC will use its reasonable best efforts to cause (i) the payment of the cash consideration pursuant to the first merger to be treated as a distribution in redemption of TWC common stock subject to the provisions of Section 302(a) of the Code, (ii) second merger to qualify as a tax-free reorganization pursuant to Section 368(a) of the Code, and (iii) third merger to qualify as a tax-free reorganization pursuant to Section 368(a) of the Code, and no party shall take any action reasonably likely to cause the mergers not so to qualify or be treated.

Table of Contents

Other Agreements

The merger agreement contains certain other covenants and agreements, including covenants and agreements requiring, among other things, and subject to certain exceptions and qualifications described in the merger agreement:

TWC and Charter to provide the other party and its representatives with reasonable access to such party's offices, properties, books and records and other information as may be reasonably requested;

TWC and Charter to notify the other of any stockholder litigation against TWC or Charter or the members of their respective board of directors. TWC has agreed to give Charter the opportunity to participate in the defense or settlement of any such litigation involving TWC and, except as required by law, TWC may not settle, agree to undertakings or approve any waiver that may be sought in such litigation without the prior written consent of Charter (which consent may not be unreasonably withheld, conditioned or delayed);

Subject to certain exceptions, the parties to consult with each other before issuing any press release, making any public statement, scheduling a press conference or taking certain other actions, in each case with respect to the merger agreement or the mergers;

Subject to certain exceptions, Charter agreed not to amend, supplement, modify or waive any provision or remedy under the debt commitment obtained for the debt financing of the mergers or under the definitive agreements relating to such debt financing that, among other things specified in the merger agreement, reduces the aggregate amount of the debt financing below an amount, together with the amount of any equity financing, required to pay the cash portion of the merger consideration and related expenses or imposes new or additional conditions to such debt financing;

TWC and its subsidiaries to use commercially reasonable efforts to provide such assistance with the debt financing as is reasonably requested by Charter or its representatives; and

Upon Charter's written request, TWC and Charter to reasonably cooperate to restructure the transactions contemplated by the merger agreement if actions required to treat the TWC's subsidiaries as disregarded from their owner for U.S. federal income tax purposes or contribute TWC's assets and interests in its subsidiaries to subsidiaries of New Charter following the closing date would result in a cost that is material to Parent.

Termination of the Merger Agreement

The merger agreement may be terminated at any time before completion of the mergers, whether before or after TWC or Charter stockholders have adopted the merger agreement, in any of the following ways:

by mutual written agreement of Charter and TWC;

by either Charter or TWC, if:

the mergers have not been completed on or before the initial end date (May 23, 2016), which may be extended if all conditions to completion have been satisfied on the initial end date other than certain conditions relating to regulatory approvals and either Charter or TWC elects to extend the initial end date to November 23, 2016, in which case the merger agreement may be terminated by either Charter or TWC if the mergers have not been completed on or before November 23, 2016; however, the right to terminate the merger agreement at the end date will not be available to any party whose breach of any provision of the merger agreement results in the failure of the mergers to be completed by such time;

there (i) has been enacted or promulgated after the date of the merger agreement any applicable law (that is final and nonappealable) of any governmental authority of competent jurisdiction in which any of TWC, Charter or their respective subsidiaries has substantial operations or (ii) is in effect any order (that is final and nonappealable) of any governmental authority of competent

Table of Contents

jurisdiction that, in each case, (A) imposes a burdensome condition or (B) prohibits the consummation of the mergers and the violation of which would result in criminal liability; however, the right to terminate the merger agreement under this paragraph will not be available to any party whose breach of any provision of the merger agreement results in such applicable law, or order being in effect (the provision described in this paragraph being referred to as the law or order termination right);

there is in effect any injunction (that is final and nonappealable) by any governmental authority of competent jurisdiction that (i) imposes a burdensome condition or (ii) prohibits the consummation of the mergers; however, the right to terminate the merger agreement under this paragraph will not be available to any party whose breach of any provision of the merger agreement results in such injunction being in effect (the provision described in this paragraph being referred to as the injunction termination right);

TWC stockholders fail to adopt the merger agreement upon a vote taken on such proposal at a TWC stockholders meeting called for that purpose;

Charter stockholders fail to approve and adopt the merger agreement and approve the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals upon a vote taken on such proposals at a Charter stockholders meeting called for that purpose; or

there has been a breach by the other party of any representation or warranty or failure to perform any covenant or agreement that would result in the failure of the other party to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, and such breach has not been cured within 30 days of notice thereof or is incapable of being cured, but only so long as the party seeking to terminate pursuant to this paragraph is not then in breach of its representations, warranties, covenants or agreements contained in the merger agreement, which breach would cause the applicable condition to closing not to be satisfied; or

by Charter, if:

the TWC board of directors makes an adverse recommendation change or fails to reaffirm its recommendation to TWC stockholders in favor of approving and adopting the merger agreement as promptly as practicable (but within 10 business days) after receipt of a written request to do so from Charter following the public announcement of a TWC acquisition proposal (provided that Charter may only make such request once with respect to any such TWC acquisition proposal or any material amendment thereto), in either case only prior to the approval adoption of the merger agreement by TWC s stockholders; or

prior to the approval of the adoption of the merger agreement by TWC stockholders, there has been an intentional and material breach by TWC of (i) any of its obligations described under No Solicitation by

TWC, which breach was authorized or permitted by TWC and results in a third party making a TWC acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of approving and adopting the merger agreement; or

by TWC, if:

the Charter board of directors makes an adverse recommendation change or fails to reaffirm its recommendation to Charter stockholders in favor of approving and adopting the merger agreement and approving the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals as promptly as practicable (but within 10 business days) after receipt of a written request to do so from TWC following the public announcement of a Charter acquisition proposal (provided that TWC may only make such request once with respect to any such Charter acquisition proposal or any material amendment thereto), in either case only

Table of Contents

prior to the approval of the adoption of the merger agreement and approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals by Charter's stockholders; or

prior to the approval of the adoption of the merger agreement and approval of the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals by Charter stockholders, there has been an intentional and material breach by Charter of (i) any of its obligations described under No Solicitation by Charter, which breach was authorized or permitted by Charter and results in a third party making a Charter acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of approving and adopting the merger agreement and approving the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals.

If the merger agreement is validly terminated, the merger agreement will become void and of no effect without liability of any party (or any stockholder, director, officer, employee, agent, consultant or representative of any party) to the other, except that certain designated provisions will survive termination, including the obligations of the parties to pay the applicable termination fees as described below. However, except in the case of a payment of a termination fee described below (which will be the sole and exclusive remedy for any breach of the merger agreement by the party receiving the applicable termination fee for any liabilities, losses or damages arising out of, resulting from or incurred in connection with the merger agreement), none of the parties to the merger agreement will be relieved or released from any liabilities or damages resulting from the willful breach by a party of its representations, warranties, covenants or agreements contained in the merger agreement. The merger agreement defines willful breach as an intentional and willful breach, or an intentional and willful failure to perform, in each case that is the consequence of an act or omission by a party with the actual knowledge that the taking of such act or failure to take such action would cause a material breach of the merger agreement.

Termination Fees***Termination Fees Payable by Charter***

The merger agreement requires Charter to pay TWC a termination fee of \$1,000,000,000 if:

TWC terminates the merger agreement as a result of the Charter board of directors making an adverse recommendation change or failing to reaffirm its recommendation to Charter stockholders in favor of approving and adopting the merger agreement and approving the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals as promptly as practicable (but within 10 business days) after receipt of a written request to do so from TWC following the public announcement of a Charter acquisition proposal (as further described above);

TWC terminates the merger agreement as a result of an intentional and material breach by Charter of (i) any of its obligations described under No Solicitation by Charter, which breach was authorized or permitted by Charter and results in a third party making a Charter acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of approving and adopting the merger agreement and approving the TWC

transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals (as further described above); or

(i) TWC terminates the merger agreement as a result of the failure of the Charter stockholders to approve and adopt the merger agreement and approve the TWC transactions stock issuance proposal, the Liberty transactions proposal and the certificate of incorporation proposals upon a vote taken on such proposals at a Charter stockholders meeting called for that purpose or as a result of a breach by Charter of its representations or warranties or Charter's failure to perform any covenant or agreement that would result in the failure of Charter to satisfy the applicable condition to the closing related to accuracy of

Table of Contents

representations and warranties or performance of covenants, (ii) prior to such termination (but after the date of the merger agreement) a Charter acquisition proposal has become publicly known and (iii) within 12 months following such termination, Charter enters into a definitive agreement to consummate such Charter acquisition proposal or such Charter acquisition proposal is consummated. For purposes of this paragraph, Charter acquisition proposal has the meaning set forth under No Solicitation by Charter, except that references in that definition to 25% will be deemed to be references to 50%.

The merger agreement requires Charter to pay TWC a termination fee of \$2,000,000,000 if (i) the merger agreement is terminated as a result of the mergers not having been completed on or before the initial end date (May 23, 2016) or the extended end date (November 23, 2016), as applicable, or pursuant to the law or order termination right or injunction termination right described above under Termination Rights, and (ii) at the time of such termination the conditions to the closing of the mergers relating to the HSR Act and FCC order are not satisfied but all other conditions to the completion of the mergers are satisfied (except for the conditions relating to the regulatory approvals and, if either the Charter or TWC stockholder meeting has not occurred, the conditions relating to the receipt of the stockholder approvals of Charter and TWC); provided, however, that the termination fee will not be payable under this paragraph if TWC terminates the merger agreement under the law or order termination right or injunction termination right as a result of the imposition of a burdensome condition, and further provided, however, if the termination fee is payable in connection with a termination of the merger agreement pursuant to the law or order termination right or injunction termination right described above under Termination Rights, the amount of the termination fee shall be \$1,000,000,000 if at such time of the termination of the merger agreement the conditions to the completion of the mergers relating to the HSR Act and FCC order have been satisfied.

Termination Fees Payable by TWC

The merger agreement requires TWC to pay Charter a termination fee of \$2,000,000,000 if:

Charter terminates the merger agreement as a result of the TWC board of directors making an adverse recommendation change or failing to reaffirm its recommendation to TWC stockholders in favor of approving and adopting the merger agreement as promptly as practicable (but within 10 business days) after receipt of a written request to do so from Charter following the public announcement of a TWC acquisition proposal (as further described above);

Charter terminates the merger agreement as a result of an intentional and material breach by TWC of (i) any of its obligations described under No Solicitation by TWC, which breach was authorized or permitted by TWC and results in a third party making a TWC acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (ii) its obligations to call and hold a meeting of its stockholders for purposes of approving and adopting the merger agreement (as further described above); or

(i) Charter terminates the merger agreement as a result of the failure of the TWC stockholders to approve and adopt the merger agreement upon a vote taken on such proposal at a TWC stockholders meeting called for that purpose or as a result of a breach by TWC of its representations or warranties or TWC's failure to perform any covenant or agreement that would result in the failure of TWC to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, (ii) prior to such termination (but after the date of the merger agreement) a TWC acquisition proposal has become publicly known and (iii) within 12 months following such termination, TWC enters into a definitive

agreement to consummate such TWC acquisition proposal or such TWC acquisition proposal is consummated. For purposes of this paragraph, TWC acquisition proposal has the meaning set forth under No Solicitation by TWC, except that references in that definition to 25% will be deemed to be references to 50%.

Any termination fee payable by Charter or TWC will only be payable once and not in duplication even though a termination fee may be payable under one or more provisions of the merger agreement. The payment of

Table of Contents

a termination fee by TWC or Charter pursuant to the merger agreement will be the sole and exclusive remedy of the party receiving the payment for any liabilities, losses or damages arising out of, resulting from or incurred in connection with the merger agreement.

Expenses

Except as otherwise provided in the merger agreement, the merger agreement provides that each of Charter and TWC will pay its own costs and expenses in connection with the transactions contemplated by the merger agreement. However, Charter and TWC have agreed that each party will pay 50% of (i) any filing fees due in connection with filings required under the HSR Act or any other competition laws, and (ii) any filing fees and printing and mailing costs for this joint proxy statement/prospectus.

Specific Performance; Remedies

The parties to the merger agreement are entitled to an injunction or injunctions to prevent breaches of the merger agreement and to enforce specifically the terms and provisions of the merger agreement. This entitlement is in addition to any other remedy to which the parties are entitled at law or in equity.

Third-Party Beneficiaries

The merger agreement is not intended to and does not confer upon any person other than the parties to the merger agreement any rights or remedies, except:

the right of TWC, on behalf of its stockholders, to pursue damages and other relief in the event of Charter's intentional and willful breach, or an intentional and willful failure to perform, in each case that is the consequence of an act or omission with the actual knowledge that the taking of such act or failure to take such action would cause a material breach of the merger agreement;

the right of the indemnified persons to enforce the obligations described under Indemnification and Insurance; and

the absence of liability of any stockholder, director, officer, employee, agent, consultant or representative of any party if the merger agreement is validly terminated, as described above in the last paragraph under Termination of the Merger Agreement.

Amendments; Waivers

Any provision of the merger agreement may be amended or waived before completion of the mergers if the amendment or waiver is in writing and is signed, in the case of an amendment, by each party to the merger agreement or, in the case of a waiver, by each party against whom the waiver is to be effective, provided that, after obtaining the required TWC or Charter stockholder approval, the parties may not amend or waive any provision of the merger agreement if such amendment or waiver would require further approval of TWC or Charter stockholders under applicable law unless such approval has first been obtained.

**Explanatory Note Regarding the Merger Agreement and the Summary of the Merger Agreement:
Representations, Warranties and Covenants in the Merger Agreement Are Not Intended to Function or Be
Relied on as Public Disclosures**

The merger agreement and the summary of its terms in this joint proxy statement/prospectus have been included to provide information about the terms of the merger agreement. The merger agreement and the summary of its terms are not intended to provide any other factual information about Charter, New Charter, TWC or any of their respective subsidiaries or affiliates. The representations, warranties, covenants and agreements contained in the merger agreement were made only for purposes of that agreement and as of specific dates; were

Table of Contents

made solely for the benefit of the parties to the merger agreement; may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures; may not have been intended to be statements of fact, but rather, as a method of allocating contractual risk and governing the contractual rights and relationships between the parties to the merger agreement; and may be subject to standards of materiality applicable to contracting parties that differ from those applicable to investors. Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of Charter, New Charter, TWC or any of their respective subsidiaries or affiliates. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the merger agreement, which subsequent information may or may not be fully reflected in Charter's or TWC's public disclosures.

Table of Contents**THE BHN CONTRIBUTION AGREEMENT**

On March 31, 2015, Charter, New Charter and A/N entered into the BHN contribution agreement, which was amended on May 23, 2015 in connection with the execution of the merger agreement. Pursuant to the BHN contribution agreement, at the closing of the transactions contemplated by that agreement, A/N will contribute to Charter Holdings, a wholly owned subsidiary of Charter, all of the outstanding limited liability company membership interests of BHN and any property, assets or other rights (other than certain excluded assets and liabilities and non-operating cash) that primarily relate to the BHN business, or that are otherwise reflected on BHN's audited financial statements for the fiscal year ended December 31, 2014 or the notes thereto. At the closing, Charter Holdings will pay to A/N approximately \$2.0 billion in cash and issue to A/N convertible preferred units of Charter Holdings with a face amount of \$2.5 billion, which will pay a 6% coupon, and approximately 34.3 million common units of Charter Holdings. If the mergers are consummated prior to the consummation of the BHN transactions, the number of common units to be issued by Charter Holdings to A/N will instead be approximately 31.0 million common units to take into account the Parent Merger Exchange Ratio, and the conversion ratio of the convertible preferred units will also take into account the Parent Merger Exchange Ratio. In addition, New Charter will issue to A/N one share of New Charter Class B common stock, which will initially have a number of votes reflecting the voting power of the Charter Holdings common units (other than those owned by New Charter or Charter) and the convertible preferred units on an as-converted, as-exchanged basis, which voting rights are generally intended to reflect A/N's economic interests in New Charter and Charter Holdings.

Conditions to the Completion of the Contribution

The obligations of each party to the BHN contribution agreement to effect the closing are subject to the satisfaction or waiver of the following conditions:

expiration or termination of any applicable waiting period under the HSR Act relating to the transactions contemplated by the BHN contribution agreement (solely with respect to the obligations of each of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition);

the aggregate number of video customers served by the BHN systems used in the BHN business (i) pursuant to the grandfathering provisions of the Communications Act and (ii) pursuant to each franchise for which (A) no consent is required from any government entity for the completion of the BHN contribution or (B) any such consent is required and has been received (or deemed received under Section 617 of the Communications Act) (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition), shall not be less than 80% of the video customers then served by the BHN systems; and if less than 100% of such number of video customers, all applicable waiting periods (including extensions) shall have expired with respect to the FCC Forms 394 filed in connection with requests for approvals by local franchising authorities that have not been obtained;

obtaining all of the required consents by the FCC to the transfer to Charter of all FCC licenses, authorizations, permits and consents held by BHN or its subsidiaries and/or used in the BHN business (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome);

obtaining authorizations from state communications authorities as required for Charter to provide voice and other regulated services in the BHN systems used in the BHN business following the closing (solely with respect to the obligations of Charter, New Charter and Charter Holdings, without the imposition of a BHN contribution burdensome condition), all of which must remain in full force and effect;

the absence of any law, rule, executive order, decree, judgment, injunction or other order (whether temporary, preliminary or permanent) which makes unlawful, prohibits, delays, enjoins or otherwise prevents or restrains the completion of the BHN transactions, or any pending action that seeks any of the foregoing;

Table of Contents

the consummation of the transactions contemplated by the merger agreement in all material respects in accordance with the terms of the merger agreement (provided that this condition will not apply from and after any time that all of the following have occurred: (i) the merger agreement is terminated (A) because TWC stockholders do not approve the adoption of the merger agreement at a meeting called for that purpose, (B) prior to receiving the approval of the adoption of the merger agreement by TWC stockholders, because the TWC board of directors makes an adverse recommendation change or fails to reaffirm its recommendation to TWC stockholders in favor of approving the adoption of the merger agreement as promptly as practicable (but in any event within 10 business days) after receipt of a written request to do so from Charter following the public announcement of a TWC acquisition proposal, (C) because TWC breaches its representations and warranties or fails to perform any covenant or agreement under the merger agreement in a manner that would cause the applicable condition in the merger agreement not to be satisfied and such breach is not cured within 30 days of notice thereof or is incapable of being cured within such time period, or (D) as a result of an intentional and material breach by TWC prior to the TWC stockholders having adopted the merger agreement of (x) any of its obligations described under The Merger Agreement No Solicitation by TWC, which breach was authorized or permitted by TWC and results in a third party making a TWC acquisition proposal that is reasonably likely to materially interfere with or delay completion of the mergers, or (y) its obligations to call and hold a meeting of its stockholders for purposes of adopting the merger agreement (as further described above), (ii) prior to such termination a TWC acquisition proposal (as defined above under No Solicitation by TWC, except that all references in that definition to 25% will be deemed to be references to 50%) was made, and (iii) TWC enters into a definitive agreement to consummate such TWC acquisition proposal within 12 months of the termination (the circumstances in the foregoing clauses (i), (ii) and (iii) are referred to in this joint proxy statement/prospectus as the tail condition));

approval of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the share issuances to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals; and

the BHN/Liberty stockholders agreement being valid, binding and enforceable and in full force.

Additional Conditions to the Completion of the BHN Transactions for the Benefit of Charter, New Charter and Charter Holdings

In addition, the obligation of each of Charter, New Charter and Charter Holdings to effect the closing of the BHN transactions is subject to the satisfaction or waiver of the following conditions:

the accuracy of the representations and warranties of A/N (subject to a material adverse effect qualification, with the exception of certain specified representations);

performance in all material respects by A/N of the covenants and agreements to be performed by A/N at or prior to the closing;

the absence of any event, occurrence, circumstance, development or condition that, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on BHN;

the completion of a restructuring pursuant to which BHN will transfer to A/N certain excluded assets and A/N shall assume from BHN certain excluded liabilities;

receipt of a certificate executed by an authorized officer of A/N as to the satisfaction of the conditions described in the preceding four bullets; and

delivery by A/N of specified certificates, instruments of assignment and transaction documents.

Table of Contents

Additional Conditions to the Completion of the BHN Contribution for the Benefit of A/N

In addition, the obligation of A/N to effect the closing of the BHN transactions is subject to the satisfaction or waiver of the following conditions:

the accuracy of the representations and warranties of Charter (subject to a material adverse effect qualification, with the exception of certain specified representations);

performance in all material respects by Charter of the covenants and agreements to be performed by it at or prior to the closing;

the absence of any event, occurrence, circumstance, development or condition that, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on Charter;

receipt of a certificate executed by an authorized officer of Charter as to the satisfaction of the conditions described in the preceding three bullets; and

delivery by Charter of specified certificates, instruments of assignment and transaction documents.

Charter Obligations Regarding Stockholder Meeting and Recommendation

Under the BHN contribution agreement, Charter is obligated to take all action necessary to cause a meeting of its stockholders to be called and held as soon as reasonably practicable for the purpose of obtaining approvals of its stockholders for approval of each of the BHN transactions stock issuance proposal, the Liberty transactions proposal (as it relates to the BHN/Liberty stockholders agreement and the share issuances to Liberty Broadband in connection with the BHN transactions) and each of the certificate of incorporation proposals. Charter is obligated to include in this joint proxy statement/prospectus the recommendation of its board of directors in favor of these approvals and use its reasonable best efforts to obtain these approvals, except as set forth below.

Charter's board of directors is not restricted from withdrawing, modifying or qualifying its recommendation in favor of the above approvals if it determines in good faith, after consultation with its outside legal counsel and financial advisor, that failure to take such action would be inconsistent with its fiduciary duties under applicable law. However, no such change in recommendation may be made until at least three business days after A/N receives notice from Charter advising that the board of directors of Charter intends to make such change and the basis for such change. Regardless of any such change in recommendation, Charter must still hold a meeting of stockholders for the purpose of obtaining the above approvals.

Representations and Warranties

The BHN contribution agreement contains a number of representations and warranties made by A/N and Charter, made solely for the benefit of the other, and that are subject in some case to important exceptions and qualifications, including, among other things, as to materiality and material adverse effect. Furthermore, the assertions embodied in those representations and warranties are qualified by information publicly filed with the SEC by Charter and in the

confidential disclosure schedules that the parties have exchanged in connection with the signing of the BHN contribution agreement, which disclosure schedules will not be reflected in the merger agreement or otherwise publicly disclosed. The confidential disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the BHN contribution agreement. See The BHN Contribution Agreement Definition of Material Adverse Effect for a definition of material adverse effect applicable to each company. The representations and warranties are used to allocate risk between the parties to the BHN contribution agreement rather than for establishing matters of fact. For the foregoing reasons, these descriptions, representations and warranties should not be read alone.

Representations and Warranties of A/N

The representations and warranties given by A/N in the BHN contribution agreement relate to, among other things:

corporate existence, good standing and qualification to do business;

Table of Contents

ownership of equity interests in BHN;

corporate power and authority to execute and deliver the BHN contribution agreement and related agreements, and to perform obligations under the BHN contribution agreement and related agreements;

governmental actions necessary to approve the BHN transactions;

absence of any conflict with or violation or breach of organizational documents, material contracts, franchises, leases or demising leases or laws to which BHN is subject or governmental authorizations of BHN;

binding effect of the BHN contribution agreement;

accuracy of audited financial statements, maintenance of books and records, the preparation of financial statements based on such books and records and in accordance with GAAP and the fair presentation of the consolidated financial condition of BHN and its subsidiaries in the financial statements and the maintenance of internal controls over financial reporting;

conduct of the BHN business in the ordinary course and compliance with certain agreed restrictions on interim operations, absence of any event, occurrence, circumstance, development or condition that, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect, in each case since December 31, 2014;

absence of undisclosed liabilities, subject to certain exceptions;

absence of material pending or threatened legal proceedings or investigations;

franchises and governmental authorizations;

disclosure of material contracts, the binding effect of such material contracts and the absence of defaults and breaches thereunder;

real property and tangible personal property;

benefit plans and labor relations;

FCC, copyright compliance and rate regulation;

environmental matters;

taxes;

compliance with laws in all material respects;

subscribers and system information;

programming;

intellectual property;

bonds;

organizational documents of BHN and its subsidiaries;

accuracy of information about A/N and BHN provided for inclusion in the proxy statement to be filed with the SEC and distributed to Charter stockholders in connection with the BHN transactions;

absence of undisclosed finders fees;

transactions between BHN and A/N and its affiliates;

investment intent; and

insurance matters.

Table of Contents

Representations and Warranties of Charter

The representations and warranties given by Charter in the BHN contribution agreement relate to, among other things:

corporate existence, good standing and qualification to do business;

capitalization;

corporate power and authority to execute and deliver the BHN contribution agreement and related agreements, and to perform obligations under the BHN contribution agreement and related agreements;

governmental actions necessary to approve the BHN transactions;

absence of any conflict with or violation or breach of organizational documents, material contracts or laws to which Charter is subject or governmental authorizations of Charter;

binding effect of the BHN contribution agreement;

SEC filings, compliance of such filings with securities laws and the preparation of financial statements in accordance with GAAP;

conduct of the Charter business in the ordinary course and compliance with certain restrictions on interim operations, absence of any event, occurrence, circumstance, development or condition that, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect, in each case since December 31, 2014;

absence of undisclosed liabilities, subject to certain exceptions;

absence of material pending or threatened legal proceedings or investigations;

absence of undisclosed finders' fees;

compliance with laws in all material respects; and

availability of funds.

Definition of Material Adverse Effect

Many of the representations and warranties in the BHN contribution agreement are qualified by material adverse effect. The absence of any event, occurrence, circumstance, development or condition that, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on BHN or Charter, respectively, is a condition to the obligations of Charter and A/N, respectively, to close the transactions contemplated by the BHN contribution agreement.

For the purpose of the BHN contribution agreement, material adverse effect means, with respect to A/N or Charter, as the case may be, an effect that (i) is materially adverse to the business, results of operations, financial condition, cash flows, assets or liabilities of such party and its subsidiaries, taken as a whole, excluding any such effect to the extent resulting from or arising out of:

any change in international, national, region or industry-wide economic or business conditions (including financial and capital market conditions), except that this exception will not apply to the extent that the adverse effect on such party resulting from the foregoing is disproportionate relative to the adverse effects on the other participants in the multichannel video programming, high-speed data or telephony industries in the United States;

changes or conditions generally affecting the multichannel video programming, high-speed data or telephony industries, except that this exception will not apply to the extent that the adverse effect on such party resulting from the foregoing is disproportionate relative to the adverse effects on the other participants in the multichannel video programming, high-speed data or telephony industries in the United States;

Table of Contents

any attack on, or by, outbreak or escalation of hostilities or acts of war, sabotage or terrorism or natural disasters or any other national or international calamity, except to the extent the foregoing causes any damage or destruction to or renders unusable any facility or property of such party, except that this exception will not apply to the extent that the adverse effect on such party resulting from the foregoing is disproportionate relative to the adverse effects on the other participants in the multichannel video programming, high-speed data or telephony industries in the United States;

the execution of the BHN contribution agreement or the announcement, pendency or completion of the transactions contemplated by the BHN contribution agreement or, in the case of Charter, the merger agreement (including, in each case, the impact thereof on, any loss of, or adverse change in, the relationship, contractual or otherwise, of the applicable party and its subsidiaries with their respective employees, customers, distributors, partners or suppliers or any other person with whom they transact business that is proximately caused thereby);

any failure by such party or any of its subsidiaries, in and of itself, to meet any internal or published projections, forecasts or predictions in respect of financial performance (except that this shall not prevent any party from asserting that any fact, change, event, occurrence or effect that may have given rise or contributed to such change may be taken into account in determining whether there has been a material adverse effect);

any actual or proposed change in law or interpretations of such law, except that this exception will not apply to the extent that the adverse effect on such party resulting from the foregoing is disproportionate relative to the adverse effects on the other participants in the multichannel video programming, high-speed data or telephony industries in the United States;

changes in GAAP (or authoritative interpretations thereof), except that this exception will not apply to the extent that the adverse effect on such party resulting from the foregoing is disproportionate relative to the adverse effects on the other participants in the multichannel video programming, high-speed data or telephony industries in the United States;

with respect to a material adverse effect relative to Charter only, any change in the price of Charter Class A common stock (except that this shall not prevent any party from asserting that any fact, change, event, occurrence or effect that may have given rise or contributed to such change may be taken into account in determining whether there has been a material adverse effect); or

compliance with the terms of, the taking of any action required by, or the taking of any action prohibited by, the BHN contribution agreement, other than any obligation to operate in the ordinary course of business; or (ii) would prevent such party or its affiliates from consummating the transactions contemplated by the BHN contribution agreement.

Conduct of the BHN Business Pending the Contribution

Generally, until the closing of the BHN transactions, except as contemplated by the BHN contribution agreement, required by law, set forth on the confidential disclosure schedules or as consented to in writing by Charter, A/N shall cause BHN and its subsidiaries to conduct the BHN business in the ordinary course consistent with past practices, including by using commercially reasonable efforts to (i) operate the BHN business consistent with its operating budget, preserve intact the BHN business and its relationships with customers, suppliers, programming providers, creditors and employees and (ii) use commercially reasonable efforts to retain BHN's franchises and renew any expiring material governmental authorizations that expire prior to the closing date.

Table of Contents

Without limiting the generality of the foregoing, and subject to certain exceptions, until the completion of the BHN transactions, A/N shall cause BHN and its subsidiaries not to, among other things:

incur, create or assume certain encumbrances on any assets of BHN that will remain in existence at the closing;

sell, lease, license, transfer, encumber, or otherwise dispose of any systems used in the BHN business, headends, subscribers or other material assets of BHN, in each case having a fair market value in excess of \$2,000,000 or other than in the ordinary course of business, or equity interests in any entity that is not a subsidiary of BHN;

(i) enter into, modify, renew, suspend, abrogate, terminate or amend material programming contracts applicable solely to BHN or its subsidiaries, (ii) excluding material programming agreements, enter into any lease or material contract (as defined in the BHN contribution agreement) or, other than in the ordinary course of business, modify, renew, suspend, abrogate, terminate or amend in any material respect any such lease or any material contract, or (iii) enter into, modify, renew, suspend, abrogate, terminate or amend in any material respect any governmental authorization, other than renewals and extension in the ordinary course and on substantially the same terms;

fail to timely file valid requests for renewal under Section 626 of the Communications Act with respect to all BHN franchises that will expire within 36 months after any date between the date of the BHN contribution agreement and the completion of the BHN transactions;

modify, suspend, abrogate, amend or terminate any of the organizational documents of BHN or its subsidiaries;

authorize or issue any equity interest or class of equity interests in BHN or its subsidiaries or cancel, redeem or repurchase any of the membership interests in BHN;

make any loans, advances or capital contributions to, or investments in, any person other than to or in BHN or any wholly owned subsidiary thereof;

except as required under applicable law or the terms of any benefit plan in effect as of the date of the BHN contribution agreement, (i) grant, provide or increase (or commit to do the foregoing) any severance or termination payments or benefits to any BHN business employees, current or former directors, employees or other service providers of BHN or its subsidiaries; (ii) subject to certain exceptions, increase in any manner the compensation or benefits of any BHN employee or other current or former directors, employees or other service providers of the BHN business; (iii) subject to certain exceptions, become a party to, establish, adopt, terminate, amend (or commit to doing any of the foregoing) any new benefit plan or accelerate the vesting

of, or lapse of restrictions on, any compensation for the benefit of any BHN employee or current or former director, employee or other service provider of BHN and its subsidiaries; (iv) establish, adopt, enter into or amend any collective bargaining agreement, plan, trust, fund, policy or arrangement for the benefit of any BHN employee or other current or former director, employee or other service provider of BHN or its subsidiaries or any of their respective beneficiaries; or (v) cause the funding of any rabbi trust or similar arrangement or take any action to fund or in any other way secure the payment of compensation or benefits under any BHN benefit plan;

transfer the employment duties of any BHN employee to a different business unit of A/N so that such employee would no longer be a BHN employee or transfer the employment duties of any non-BHN employee to BHN or one of its subsidiaries so that such employee would become a BHN employee, or hire any individual who would be a BHN employee with annual compensation in excess of \$400,000;

settle or compromise any claim, action, arbitration, dispute or other proceeding except if (i) the amount paid in settlement or compromise and the financial impact of the settlement or compromise on BHN and its subsidiaries does not exceed \$1,000,000 and (ii) such settlement does not impose any ongoing liability on BHN or its affiliates;

Table of Contents

sell, assign, transfer, encumber or otherwise dispose of any equity interests in BHN or any of its subsidiaries to any person or entity other than Charter or its designee, or cause or permit BHN or any of its subsidiaries to engage in any merger, consolidation or other restructuring or recapitalization event, or liquidate or terminate the existence of BHN or any of its subsidiaries;

other than in the ordinary course of business or as required by the terms of any contract entered into prior to the BHN contribution agreement, acquire any system that would be a system used in the BHN business upon such acquisition, or any headend, subscriber, person or business or all or substantially all assets of any person or business or any other assets;

(i) make any change in accounting policies, practice or procedures from those used to prepare the audited financial statements for the fiscal year ended December 31, 2014, unless such change is required by GAAP, (ii) make any change in the management of payables, receivables or working capital or modify credit policies other than in the ordinary course of business, (iii) fail to maintain working capital in the ordinary course of business, or (iv) accelerate the collection of receivables or delay the payment of payables or prepaid expenditures, in each case other than in the ordinary course of business;

fail to file, in a manner consistent with past practice, all tax returns required to be filed on or before the closing date;

except in the ordinary course of business, make or rescind any material tax election, settler or compromise any material tax claim, surrender any right to claim a material tax refund, enter into any closing agreement, file any amendment (except as required by law) to previously filed tax returns, waive or extend any statute of limitation with respect to material taxes or change any material tax accounting method;

other than in the ordinary course of business, engage in any business other than the BHN business and ancillary businesses;

convert any billing system used in the BHN business;

except for (i) promotional offers, pricing of new Internet tier speeds and pricing of new products and (ii) rate increases set forth in the confidential A/N disclosure schedules or the BHN operating budget, change the rate charged for any level of cable television, telephone or high speed data services;

defer beyond the closing certain specified capital expenditures that are scheduled to be made before closing, provided that A/N shall not be deemed to be in breach of this covenant if BHN and its subsidiaries make at least 92.5% of such scheduled capital expenditures;

fail to maintain (i) inventory, plant replacement materials and customer premises equipment for the BHN systems in the ordinary course of business, (ii) and continue regular purchase activity of such systems in the ordinary course of business and (iii) customer premises equipment of a quantity sufficient to enable Charter to conduct the BHN business, as conducted by A/N as of the date of the BHN contribution agreement, for at least 45 days after closing;

knowingly take, cause or permit to be taken or omit to take any action that would reasonably be expected to materially delay or prevent or impede the consummation of the BHN transactions or the mergers;

enter into, modify, renew, suspend, abrogate, terminate or amend any transaction or contract with any person or entity affiliated with A/N or any person or entity affiliated with such person, except (i) as provided by the BHN contribution agreement to occur at the closing or in connection with the pre-closing restructuring of A/N's and BHN's assets and liabilities, or (ii) actions related to the compensation or benefit of BHN employees or current or former directors, employees or other service providers of BHN or its subsidiaries that are expressly permitted pursuant to the terms of the BHN contribution agreement; or

authorize, agree or commit to doing any of the foregoing.

Table of Contents

Conduct of Charter's Business Pending the Closing of the BHN Transactions

Generally, until the closing of the BHN transactions, except as contemplated by the BHN contribution agreement or the merger agreement, required by law, set forth on the confidential disclosure schedules or as consented to in writing by A/N, Charter will and will cause its subsidiaries to (i) conduct its business in the ordinary course consistent with past practice, including by using commercially reasonable efforts to preserve intact such business and its relationship with customers, suppliers, programming providers, creditors and employees and (ii) use commercially reasonable efforts to retain Charter's franchises and renew any material governmental authorizations that expire prior to the closing date.

Without limiting the generality of the foregoing, and subject to certain exceptions, until the completion of the BHN transactions, Charter shall not, and shall cause its subsidiaries not to, among other things:

knowingly take, cause or permit to be taken or omit to take any action that would reasonably be expected to prevent or materially delay or impede the consummation of the BHN transactions or the mergers;

modify, suspend, abrogate or amend or terminate any of the organizational documents of Charter, New Charter or Charter Holdings, other than those (except with respect to the certificate of incorporation of Charter) that are not material;

except in connection with any compensatory equity award or for any transactions by a wholly owned subsidiary of Charter which will remain a wholly owned subsidiary of Charter after such transaction, (i) authorize or issue any equity interest or class of equity interest in Charter or its subsidiaries, except as contemplated by the BHN/Liberty stockholders agreement or (ii) reclassify, split, combine, subdivide, cancel or redeem, repurchase, or otherwise acquire, directly or indirectly, any equity interest or class of equity interests in Charter or its subsidiaries, except for cancellations of equity interests of Charter held by Charter or any of its subsidiaries or repurchases of equity interests of Charter;

declare, set aside or make any dividend or other distribution to its stockholders, whether cash or stock;

engage in any material business other than the business of Charter and its subsidiaries;

liquidate or terminate the existence of Charter, New Charter or Charter Holdings; or

authorize, enter into any agreement or commitment to do any of the foregoing.

Reasonable Best Efforts Covenant

Charter and A/N have agreed to use their respective reasonable best efforts, subject to certain limitations, to make certain governmental filings or obtain the required governmental authorizations, as the case may be, required to complete the BHN transactions. In furtherance of the foregoing, Charter and A/N agreed in the BHN contribution

agreement to file, as promptly as practicable (and not later than July 7, 2015), all appropriate applications and requests to obtain consents from the FCC and other government entities in connection with the BHN transactions and to promptly file any additional information requested by any government entity. Charter and A/N have also agreed not to, in bad faith, take any action that would reasonably be expected to have the effect of delaying, impairing or impeding the receipt of any regulatory approvals required in connection with the BHN transactions.

Charter's obligation to use reasonable best efforts will not require Charter, New Charter, Charter Holdings or any of their subsidiaries to divest or otherwise hold separate any businesses, assets or properties, accept conditions or any take any other actions that would apply to or affect any businesses, assets or properties of Charter, New Charter, Charter Holdings or any of their subsidiaries or litigate or participate in the litigation of any proceeding involving the FCC, FTC or DOJ to oppose or defend against any action by any such governmental entity to prevent or enjoin the consummation of the BHN transactions; except such efforts will require Charter, New Charter, Charter Holdings and their respective subsidiaries to engage in divestitures or accept conditions or remedies or take other actions imposed by any such governmental entity to the extent such

Table of Contents

divestitures, actions, conditions or other remedies are (i) consistent in scope and magnitude with the conditions and actions required or imposed by governmental entities in connection with prior acquisitions of United States domestic cable systems completed in the 12 years prior to May 23, 2015 with an aggregate purchase price of at least \$500 million or (ii) related to franchises, state telecommunication authorizations (other than California) or regional sports networks regardless of whether any such condition or action is required or imposed by a governmental entity in connection with prior acquisitions of United States domestic cable systems completed in the 12 years prior to May 23, 2015 with an aggregate purchase price of at least \$500 million. Each condition, remedy or action that Charter is not required to accept or take is referred to in this joint proxy statement/prospectus as a BHN contribution burdensome condition.

Survival of Representations, Warranties, Covenants and Agreements and Indemnification

The representations and warranties of A/N with respect to the following matters will survive for 18 months following the closing of the BHN transactions: financial statements; absence of changes (including material adverse effect and compliance with certain covenants); absence of undisclosed liabilities; no material litigation, claims or investigations; material contracts; A/N and its affiliates (other than BHN and its subsidiaries) not having ownership of or the right to use any property, assets or rights (other than certain excluded assets and non-operating cash) primarily related to the BHN business; benefit plans; compliance with laws; certain intellectual property matters; accuracy of information provided by A/N for inclusion in this joint proxy statement/prospectus; and undisclosed affiliate transactions. The representations and warranties of Charter with respect to the following matters will survive for 18 months following the closing of the BHN transactions: financial statements; absence of changes (including absence of a material adverse effect and compliance with certain covenants); absence of undisclosed liabilities; no material litigation, claims or investigations; and compliance with laws. Certain fundamental representations of each of A/N and Charter and A/N's representations and warranties as to no outstanding indebtedness as of closing other than trade working capital incurred in the ordinary course of business, as to no obligation to contribute to multiemployer plans and as to taxes will survive the closing for the applicable statutes of limitations period plus 60 days. A/N's representations and warranties relating to environmental matters will survive for four years following the closing. All other representations and warranties will not survive the closing. All covenants and agreements of the parties contemplated to be performed prior to or at the closing will terminate 18 months following closing and those to be performed after the closing will terminate on the earlier of (i) the performance of such covenant or agreement or (ii) the expiration of the applicable statute of limitations plus 60 days.

A/N will indemnify Charter, New Charter, Charter Holdings and their respective subsidiaries against all losses incurred or sustained by, or imposed upon these parties based on, arising out of or by reason of any inaccuracy or breach of the representations and warranties of A/N (other than those that do not survive the closing), any breach of any covenant or agreement to be performed by A/N and any assets and liabilities expressly excluded from the BHN contribution. Charter Holdings will indemnify A/N and its affiliates against any and all losses incurred or sustained by, or imposed upon, A/N and its affiliates based on, arising out of, or by reason of any inaccuracy or breach of any representations and warranties of Charter (other than those that do not survive the closing) and any breach of any covenant or agreement to be performed by Charter. The indemnification obligations of each party for breaches of representations and warranties (other than fundamental representations and warranties) are subject to a deductible of \$50 million and are generally capped at \$2.625 billion, except for certain representation and warranties which are subject to a lower cap of \$1 billion. Indemnification for breaches of fundamental representations and warranties of each party is not subject to the deductible or caps.

Table of Contents

Employee Matters

The contribution agreement provides that Charter will provide, or cause to be provided, to each employee of BHN and its subsidiaries who continues to be employed by Charter or its affiliates (including BHN and its subsidiaries) immediately following completion of the BHN transactions, such employees being referred to in this joint proxy statement/prospectus as BHN continuing employees, with:

for one year following completion of the BHN transactions, base pay and annual bonus opportunities that are no less favorable in the aggregate than provided to each such BHN continuing employee immediately prior to completion of the BHN transactions;

for one year following completion of the BHN transactions, commission opportunities that are no less favorable than either those provided to each such BHN continuing employee immediately prior to the completion of the BHN transactions or those provided to similarly situated employees of Charter and its affiliates following completion of the BHN transactions; and

for one year following completion of the BHN transactions, employee benefits (other than severance) that are no less favorable in the aggregate than provided to each such BHN continuing employee immediately prior to completion of the BHN transactions.

In addition, Charter will pay a prorated annual bonus to any BHN continuing employee who is involuntarily terminated, other than for cause or due to death or disability, on or after the completion of the BHN transactions and during the year in which such completion occurs. For purposes of determining whether the pay, opportunities and benefits referred to in the immediately preceding three bullets are no less favorable in the aggregate, long-term cash incentive compensation, equity compensation, defined benefit pension plan benefits, retention, sale, stay, or change in control payments or awards or any similar compensation or benefit, will not be taken into account. In addition, the BHN continuing employees will be permitted to continue in a specified BHN health benefits plan, life insurance plan and disability plan until the end of the applicable plan year during which the completion of the BHN transactions occurs.

To the extent that BHN continuing employees become eligible to participate in employee benefit plans maintained by Charter or any of its affiliates, then, for purposes of determining eligibility to participate and vesting, service with BHN or any of its subsidiaries prior to completion of the BHN transactions will be treated as service with Charter and its subsidiaries. However, service with BHN or any of its subsidiaries will not be recognized to the extent that such recognition would result in any duplication of benefits, and Charter is not required to provide credit for such service under any defined benefit pension plan, postretirement welfare plan or other benefit plan under which similarly situated employees of Charter and its subsidiaries do not receive credit for prior service or that is grandfathered or frozen with respect to benefits or participation.

In addition, the BHN contribution agreement provides that Charter will use commercially reasonable efforts to (i) waive all limitations as to preexisting conditions, exclusions and waiting periods with respect to participation and coverage requirements applicable to BHN continuing employees under any welfare plans maintained by Charter or its affiliates to the extent waived under a corresponding benefit plan of BHN as of the completion of the BHN contribution and (ii) provide continuing employees with credit for any co-payments, deductibles and similar payments paid during the plan year in which completion of the BHN contribution occurs in satisfying any applicable deductible

or out-of-pocket requirements under such welfare plans.

Under the BHN contribution agreement, to the extent reasonably practicable, prior to making any broadly-distributed written or oral communications to the directors, officers or employees of BHN or any of its subsidiaries pertaining to material post-transaction compensation or benefit matters that are affected by the BHN transactions, BHN consult with Charter regarding the content of the intended communication, and will consider any feedback in good faith. Charter will have a reasonable period of time to review and comment on the communication, which comments BHN will consider in good faith.

Table of Contents

Under the terms of the BHN contribution agreement, none of the matters described under this section of this joint proxy statement/prospectus will (i) require New Charter or its affiliates to continue the employment of any BHN continuing employee for a period following the completion of the BHN transactions, (ii) create any third-party beneficiary or other rights in any person other than the parties to the BHN contribution agreement or (iii) be interpreted as an amendment to any employee benefit plan of Charter or any of its affiliates (including BHN and its subsidiaries).

Further, under the BHN contribution agreement, A/N will retain liabilities relating to certain employee benefit plans in which the BHN employees participated prior to completion of the BHN transactions, including pension plans and cash-based long-term incentive awards outstanding as of the execution of the contribution agreement. Upon completion of the BHN transactions, New Charter will assume liabilities relating to certain other employee benefit plans in which the BHN employees participated prior to completion of the BHN transactions, including cash-based long-term incentive awards granted following the execution of the contribution agreement and short-term cash incentive bonuses that become due following completion of the BHN transactions.

Termination of the BHN Contribution Agreement

The BHN contribution agreement may be terminated at any time before completion of the BHN transactions, in the following ways:

by mutual consent of A/N and Charter;

by either Charter or A/N if:

the BHN transactions have not been completed on or before the initial end date (March 31, 2016), which may be extended if all conditions to completion have been satisfied on this initial end date other than the conditions relating to receipt of all required regulatory approvals, or if the Charter stockholder approvals required under the BHN contribution agreement have not been obtained, and either party elects to extend the initial end date to September 30, 2016 (the second end date), except that the end date will automatically be extended until the later of (i) the third business day following the end date set out in the merger agreement, as it may be extended pursuant to the terms of the merger agreement (see Merger Agreement Termination of the Merger Agreement), or (ii) the expiration of 12 months following the termination of the merger agreement unless the tail condition (as defined above) is no longer capable of satisfaction; provided, however, that the right to so terminate the agreement or to elect to extend the end date of the agreement will not be available to any party who has breached in any material respect any of its covenants or agreements under the BHN contribution agreement in a manner that has proximately caused the failure of the closing to occur by the applicable end date;

any decree, judgment, injunction or other order permanently restraining, enjoining or otherwise prohibiting completion of the BHN transactions has been issued and become final and non-appealable; provided, however, that the right to terminate the BHN contribution agreement under this paragraph will not be available to any party who has breached in any material respect any of its covenants or agreements under the BHN contribution agreement in a manner that has proximately caused such

decree, judgment, injunction or other order to be issued or come into effect;

the Charter stockholder approvals required under the BHN contribution agreement have not been obtained at the meeting of Charter stockholders set for such approval, including any adjournment or postponement of such meeting; or

the merger agreement is terminated and the tail condition is no longer capable of satisfaction;

Table of Contents

by A/N, if:

(i) there has been a breach of any representation, warranty, covenant or agreement made by Charter in the BHN contribution agreement or any such representation or warranty shall have become untrue as of and as though made on any date after the date of the BHN contribution agreement, (ii) such breach or untruth would cause the applicable closing condition related to the accuracy of representations and warranties or performance of covenants not to be satisfied and (iii) such breach is not curable or, if curable, has not been cured by Charter within 30 days after notice is given by A/N to Charter; or

the Charter board has made an adverse recommendation change and the Charter stockholder approvals required under the BHN contribution agreement have not yet been obtained; or

by Charter, if (i) there has been a breach of any representation, warranty, covenant or agreement made by A/N in the BHN contribution agreement or any such representation or warranty shall have become untrue as of and as though made on any date after the date of the BHN contribution agreement, (ii) such breach or untruth would cause the applicable closing condition related to the accuracy of representations and warranties or performance of covenants not to be satisfied and (iii) such breach is not curable or, if curable, has not been cured by A/N within 30 days after notice is given by Charter to A/N.

If the BHN contribution agreement is terminated in accordance with its terms it will become void and will have no effect and no party to the BHN contribution agreement will have any liability to the other party or parties thereto or their respective affiliates, directors, officers or employees, except for breaches that arose prior to the termination of the BHN contribution agreement and for certain specified provisions that will survive the termination of the BHN contribution agreement, including the obligations of Charter to pay to A/N a liquidated damages payment in certain circumstances, as described below.

Liquidated Damages Payable by Charter

The BHN contribution agreement requires Charter to pay to A/N liquidated damages of \$100 million if the BHN contribution agreement is terminated (i) by either party for a failure to obtain the Charter stockholder approvals required under the BHN contribution agreement after the board of directors of Charter has changed its recommendation (in respect of the issuance of New Charter Class B common stock or common or preferred units of Charter Holdings to A/N) that Charter stockholders approve the BHN transactions, or (ii) by A/N because of such a change in recommendation (in respect of the issuance of New Charter Class B common stock or common or preferred units of Charter Holdings to A/N) before such Charter stockholder approvals have been obtained.

A copy of the BHN contribution agreement is attached as Annex B to this joint proxy statement/prospectus.

Explanatory Note Regarding the BHN Contribution Agreement and the Summary of the BHN Contribution Agreement: Representations, Warranties and Covenants in the BHN Contribution Agreement Are Not Intended to Function or Be Relied on as Public Disclosures

The BHN contribution agreement and the summary of its terms in this joint proxy statement/prospectus have been included to provide information about the terms of the BHN contribution agreement. The BHN contribution agreement and the summary of its terms are not intended to provide any other factual information about Charter, New Charter, Charter Holdings, A/N, BHN or any of their respective subsidiaries or affiliates. The representations,

warranties, covenants and agreements contained in the BHN contribution agreement were made only for purposes of that agreement and as of specific dates set forth therein; were made solely for the benefit of the parties to the BHN contribution agreement; may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures; may not have been intended to be statements of fact, but rather, as a method of allocating contractual risk and governing the contractual rights and relationships between the parties to the BHN contribution agreement; and may be subject to standards of materiality applicable

Table of Contents

to contracting parties that differ from those applicable to investors. Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of Charter, New Charter, Charter Holdings, A/N, BHN or any of their respective subsidiaries or affiliates. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the BHN contribution agreement, which subsequent information may or may not be fully reflected in Charter's public disclosures.

Table of Contents**OTHER AGREEMENTS****BHN/Liberty Stockholders Agreement**

In connection with the execution of the merger agreement and the amendment to the BHN contribution agreement, Charter and New Charter entered into the BHN/Liberty stockholders agreement with Liberty Broadband and A/N, each of which we refer to individually in this section as an investor party. The BHN/Liberty stockholders agreement will replace Charter's existing stockholders agreement with Liberty Broadband, dated March 19, 2013 (as amended on September 29, 2014), and supersede the amended and restated stockholders agreement among Charter, New Charter, Liberty Broadband and A/N, dated March 31, 2015. Charter's existing stockholders agreement (as amended by the Liberty investment agreement) with Liberty Broadband will remain in effect until the closing of the BHN contribution or the mergers, whichever occurs earlier, and, in the event the BHN contribution agreement is terminated (which will cause the termination of the BHN/Liberty stockholders agreement), will revive and continue in full force and effect. Certain provisions of the BHN/Liberty stockholders agreement became effective upon its execution. References in this section to New Charter will be deemed to be references to Charter if the mergers are not completed but the BHN transactions are completed.

Liberty Broadband Stock Purchase

Pursuant to the BHN/Liberty stockholders agreement and in connection with the BHN transactions, Liberty Broadband has agreed to purchase from New Charter or, if the mergers are not consummated prior to the completion of the BHN transactions, Charter, \$700 million of New Charter Class A common stock or Charter Class A common stock, respectively, at the price per share of (i) if the mergers are consummated prior to the BHN transactions, \$172.9963 divided by the Parent Merger Exchange Ratio, which is equal to approximately 3.66 million shares of New Charter Class A common stock, or (ii) if the mergers are not consummated prior to the completion of the BHN transactions, \$172.9963, which is equal to approximately 4.05 million shares of Charter Class A Common Stock.

Pre-Closing Voting Agreement

Liberty Broadband has agreed that it and its affiliates will vote all of their respective shares of Charter Class A common stock in favor of the transactions and matters contemplated by the BHN contribution agreement, the BHN/Liberty stockholders agreement and the merger agreement at Charter's special meeting of stockholders to be held for these purposes.

Size and Composition of the New Charter Board of Directors

The BHN/Liberty stockholders agreement requires that the number of directors of New Charter be fixed in the amended and restated certificate of incorporation at thirteen.

Upon the completion of the BHN transactions, two designees selected by A/N and three designees selected by Liberty Broadband will become members of the board of directors of New Charter. The remaining eight directors (other than the chief executive officer, who is expected to become the chairman of the board) will be independent directors, all of whom will be selected by the nominating committee of the New Charter board of directors upon approval of both a majority of the nominating committee and a majority of the directors that were not appointed by either A/N or Liberty Broadband. The directors that were not appointed by either A/N or Liberty Broadband are referred to as the unaffiliated directors.

Thereafter, each investor party will be entitled to designate a certain number of nominees for election to the board of directors as follows:

three director nominees, if such investor party's equity interest or voting interest in New Charter is greater than or equal to 20%;

Table of Contents

two director nominees, if such investor party's equity interest and voting interest in New Charter are both less than 20% but such investor party's equity interest or voting interest is greater than or equal to 15%; however, A/N will be entitled to nominate two director nominees if it owns an equity interest or voting interest in New Charter of 11% or more; and

one director nominee, if such investor party's equity interest and voting interest in New Charter are both less than 15% but such investor party's equity interest or voting interest is greater than or equal to 5%.

If an investor party's equity interest and voting interest in New Charter are both less than 5%, such investor party will not be entitled to nominate any director nominees. These designation provisions will be included in the amended and restated certificate of incorporation of New Charter, subject to the limitations set forth in the BHN/Liberty stockholders agreement.

In no event will either investor party or both investor parties collectively have the right to nominate pursuant to the BHN/Liberty stockholders agreement a number of directors that, assuming the election or appointment, as applicable, of such nominees, would result in the number of directors selected by A/N and/or Liberty Broadband being equal to or greater than 50% of the total number of seats on the New Charter board of directors.

A director selected by A/N or Liberty Broadband must, at the time of nomination and at all times thereafter until such individual's service on the board of directors ceases, meet any applicable requirements or qualifications under applicable law or applicable stock exchange rules. The nominating committee, New Charter or the board of directors of New Charter will not be required to appoint upon the closing date of the BHN transactions or nominate and recommend (i) a proposed director nominee (other than an existing Liberty-Broadband nominated director) if, as determined in good faith by the unaffiliated directors, service by such nominee as a director would reasonably be expected to fail to meet the independence standard of any stock exchange on which New Charter's voting securities are listed or traded or otherwise violate applicable law, stock exchange rules or the corporate governance guidelines of New Charter (consistently applied), or (ii) an A/N selected director (who was identified to Charter prior to the filing of this joint proxy statement/prospectus (in definitive form)) or an existing Liberty Broadband nominated director if, as determined in good faith by the unaffiliated directors, service by such nominee as a director would reasonably be expected to violate applicable law or applicable stock exchange rules, and in each such case New Charter must provide the applicable investor party that designated or nominated such director with a reasonable opportunity to designate or nominate a replacement.

Committees of the Board of Directors of New Charter

The BHN/Liberty stockholders agreement provides that each of A/N and Liberty Broadband will be entitled to select at least one of the directors nominated by such investor party for appointment to each of the committees (other than any chief executive officer search committee) of the New Charter board of directors so long as the applicable investor party is then entitled to nominate at least two director nominees to the New Charter board of directors, subject to any such director meeting the independence and other requirements under applicable law, such committee's charter and applicable stock exchange rules for such committee.

The BHN/Liberty stockholders agreement also provides that the nominating and compensation committees of the New Charter board of directors will have at least a majority of unaffiliated directors.

In addition, the BHN/Liberty stockholders agreement provides that in connection with any search for a new chief executive officer of New Charter or nomination of a chairman of the board of directors of New Charter (other than as described below), the board of directors of New Charter will create a five-person search committee consisting of

(x) one director selected by A/N so long as A/N's equity or voting interest in New Charter is equal to or greater than 11%, (y) one director selected by Liberty Broadband so long as Liberty Broadband's equity or voting interest in New Charter is equal to or greater than 15% and (z) three unaffiliated directors (or more unaffiliated directors if A/N and/or Liberty Broadband lose the aforementioned appointment rights). Any selection or other action by the search committee or nomination will require the affirmative vote of at least three

Table of Contents

of the five directors constituting such committee; however, neither the A/N appointed director nor the Liberty Broadband appointed director will be entitled to cast a vote with respect to any person considered for a position by the search committee that is affiliated or otherwise associated with such party or its respective affiliates and the required approval in respect of such a person will be the unanimous vote of the other directors then serving on the search committee.

Chief Executive Officer of New Charter and Chairman of the Board of Directors

Mr. Thomas Rutledge will be offered the positions of chief executive and new chairman of New Charter with a new five-year employment agreement to be negotiated prior to the closing of the mergers or the BHN transactions, and in the event that Mr. Rutledge does not agree to serve as the new chairman then the parties to the BHN/Liberty stockholders agreement will mutually agree on the appointment of a new chairman.

The BHN/Liberty stockholder agreement requires that the chairman of the New Charter board of directors be independent (as defined in the BHN/Liberty stockholders agreement) from each of Liberty Broadband and A/N.

Voting Matters by the Board of Directors

The BHN/Liberty stockholders agreement provides, and the amended and restated certificate of incorporation of New Charter will provide, that the New Charter board of directors must act by majority vote of the full board, subject to the following bullets. The BHN/Liberty stockholders agreement provides, and the amended and restated certificate of incorporation of New Charter will provide, that:

for so long as A/N or Liberty Broadband has a voting or equity interest in New Charter equal to or greater than 20%, any change of control of New Charter will require the approval of (i) a majority of the full board of directors and (ii) a majority of the unaffiliated directors;

any transaction involving either A/N or Liberty Broadband or their respective affiliates or associates and New Charter (with limited exceptions) or any transaction in which A/N or Liberty Broadband (or any of their respective affiliates or associates) will be treated differently from the holders of New Charter Class A common stock or Class B common stock will require the approval of (i) a majority of the unaffiliated directors plus (ii) a majority of the directors designated by the party without such a conflicting interest; however, the approval requirement in this clause (ii) will not apply to ordinary course programming and distribution agreements and related ancillary agreements entered into on an arms length basis; and

any amendment to the amended and restated certificate of incorporation of New Charter will require the approval of (i) a majority of the full board and (ii) a majority of the unaffiliated directors.

In addition, the BHN/Liberty stockholders agreement provides, and the amended and restated certificate of incorporation of New Charter will provide, that decisions of unaffiliated directors will exclude any directors who are not independent (as defined in the BHN/Liberty stockholders agreement) of New Charter, Liberty Broadband and A/N.

Voting Rights and Limits of Liberty Broadband and A/N

The BHN/Liberty stockholders agreement provides, and the amended and restated certificate of incorporation will provide, that any New Charter shares owned by A/N or Liberty Broadband in excess of its applicable voting cap (as defined below) must be voted in the same proportion as all other votes cast by the public stockholders of New Charter in respect of all matters, excluding the following matters:

any vote of New Charter's stockholders on a change of control or sale of all or substantially all of New Charter's assets;

Table of Contents

any vote of New Charter's stockholders to approve a bankruptcy plan or pre-arranged financial restructuring with the creditors of New Charter or Charter Holdings;

any vote of New Charter stockholders to approve the creation of a new class of shares of New Charter or a new class of units of Charter Holdings;

with respect to each investor party, any vote of New Charter's stockholders to approve any matter not in the ordinary course and relating to a transaction involving the other investor party or any of its affiliates; and

any vote of New Charter's stockholders in respect of any resolution that would in any way diminish the voting power of the New Charter Class B common stock compared to the voting power of the New Charter Class A Common Stock; however, this exclusion will apply with respect to Liberty Broadband only if such a resolution would also in any way diminish the voting power of the New Charter shares that are subject to the A/N proxy, as described below.

For purposes of the BHN/Liberty stockholders and the amended and restated certificate of incorporation of New Charter, "voting cap" means the following:

in the case of Liberty Broadband, the greater of (x) the greater of 25.01% and 0.01% above the highest voting interest percentage of any other person or group (which will not exceed 23.5% in the case of A/N) and (y) 23.5%, increased one-for-one to a maximum of 35% for each permanent reduction (as defined in the BHN/Liberty stockholders agreement) in A/N's equity interest (on an as-converted, as-exchanged basis) in New Charter below 15%; and

in the case of A/N, 23.5%, increased one-for-one to a maximum of 35% for each permanent reduction (as defined in the BHN/Liberty stockholders agreement) in Liberty Broadband's equity interest in New Charter below 15%.

A/N Proxy

At the closing of the BHN transactions, A/N and Liberty Broadband will enter into a proxy agreement pursuant to which A/N will grant to Liberty Broadband a 5-year irrevocable proxy (which we refer to as the A/N proxy) to vote, subject to certain exceptions, that number of shares of New Charter Class A common stock and New Charter Class B common stock, in each case held by A/N (such shares are referred to as the "proxy shares"), that will result in Liberty Broadband having voting power in New Charter equal to 25.01% of the outstanding voting power of New Charter, provided, that the voting power of the proxy shares will be capped at 7.0% of the outstanding voting power of New Charter. The proxy agreement provides that Liberty Broadband may not vote the proxy shares on any of the excluded matters described above under "Voting Rights and Limits of Liberty Broadband and A/N" or any proposed change to the terms of the New Charter Class B common stock.

The A/N proxy will terminate, among other circumstances, in the event that Liberty Broadband transfers shares of New Charter other than in connection with certain permitted transfers.

In addition, in the proxy agreement, A/N will grant to Liberty Broadband, for so long as the A/N proxy is in effect, a right of first refusal, subject to certain limitations, to purchase all or a portion of any common units of Charter Holdings or shares of New Charter Class A common stock that A/N proposes to transfer (other than to affiliates of A/N) that constitute either (i) shares representing the first 7.0% of the outstanding voting power of New Charter held by A/N or (ii) shares representing the last 7.0% of the outstanding voting power of New Charter held by A/N. The right of first refusal does not apply to transfers by A/N in connection with a change of control of New Charter. In addition, Liberty Broadband may not exercise the right of first refusal to the extent that the shares purchased would result in its ownership of securities exceeding the voting or ownership caps set forth in the BHN/Liberty stockholders agreement.

Table of Contents***Consent Rights of Liberty Broadband and A/N***

The BHN/Liberty stockholders agreement provides that for as long as the equity interest or voting interest of New Charter held by an investor party is greater than or equal to 20%, New Charter will not, without the prior written consent of such investor party (i) incur indebtedness (other than to refinance existing indebtedness without any increase in principal amount as described in more detail in the BHN/Liberty stockholders agreement), if immediately following such incurrence New Charter's leverage ratio (as defined in the BHN/Liberty stockholders agreement) would exceed 5.0x (provided that Liberty Broadband will not have this consent right if it has breached its obligations to purchase New Charter Class A common stock pursuant to the Liberty investment agreement) and (ii) fundamentally change its business or material investments to an extent that would constitute a significant departure from New Charter's existing business or voluntarily liquidate, dissolve or wind-up New Charter or Charter Holdings.

The BHN/Liberty stockholders agreement also provides that for as long as the equity interest or voting interest of New Charter held by A/N is greater than or equal to 20% (or, in the case of the first bullet below, 11%), without A/N's prior written consent:

New Charter will not sell or transfer, or enter into any agreement to sell or transfer, all or a majority of the membership interests in Bright House or the assets underlying the membership interests immediately prior to the closing of the BHN transactions within (i) the two-year period following the closing of the BHN transactions, if such sale or transfer would occur on a basis other than a predominately tax-deferred basis or (ii) the seven-year period following the closing date of the BHN transactions, if such sale or transfer would not occur on a predominately tax-deferred basis; and

Charter Holdings will not issue any additional preferred units of any class having a liquidation preference equal or superior to that of the preferred units to be issued to A/N in connection to the BHN transactions. Notwithstanding the second bullet above, pursuant to the terms of the preferred units, A/N will have a veto right over any such issuance for as long as A/N continues to hold at least 66 ²/₃% of the preferred units issued to A/N at the closing of the BHN transactions.

Limitation on New Charter Class B Common Stock Voting Rights

The amended and restated certificate of incorporation of New Charter will provide that the New Charter Class B common stock will not have voting rights on any matter to the extent that any A/N party (which includes A/N, any Newhouse person (as defined in the BHN/Liberty stockholders agreement) and any of their respective affiliates), or any group including one or more A/N parties, beneficially owns more than 49.5% of the outstanding New Charter Class A Common Stock. In addition, the amended and restated certificate of incorporation will also provide that New Charter Class B common stock and Charter Holdings units beneficially owned by any A/N party will not be convertible into or exchangeable for New Charter Class A common stock to the extent that such conversion or exchange would result in any A/N party, or any group including one or more A/N parties, having beneficial ownership of more than 49.5% of the outstanding New Charter Class A common stock.

Limitations on Share Acquisition and Ownership

The BHN/Liberty stockholders agreement provides that from and after the closing of the BHN transactions, unless an exemption or waiver is otherwise approved by the unaffiliated directors, each A/N party and each Liberty party (which

includes Liberty Broadband and its affiliates) will not, and will use reasonable best efforts to cause its representatives not to, directly or indirectly, acquire (through beneficial ownership of or otherwise) any capital stock of New Charter or any subsidiary of New Charter or other derivative securities issued by New Charter or any subsidiary of New Charter, in each case in excess of the ownership cap.

Table of Contents

The ownership cap is defined to mean:

in respect of A/N, the greatest of (i) A/N's equity interest in New Charter issued at the closing of the BHN transactions (which includes units of Charter Holdings), (ii) 25% and (iii) the voting cap (as defined above) applicable to the A/N parties; and

in respect of Liberty, the greater of (i) 26% and (ii) the voting cap (as defined above) applicable to the Liberty parties.

The BHN/Liberty stockholders agreement also provides that from and after the closing of the BHN transactions, if New Charter or any of its subsidiaries repurchases, redeems or buys back any shares of New Charter Class A common stock and following such transaction an investor party's equity interest would exceed its ownership cap, such investor party will participate in such transaction to the extent necessary so that such investor party's equity interest does not exceed its applicable ownership cap following such transaction (in which case the New Charter board of directors will adopt resolutions exempting under Rule 16b-3 under the Exchange Act any such sale by an investor party to New Charter required by this provision.

Standstill Provisions

The BHN/Liberty stockholders agreement also provides that following the closing of the BHN transactions, unless otherwise approved, or an exemption or waiver is otherwise approved, by the unaffiliated directors, and subject to the exceptions specified below and certain exceptions related to the Liberty parties' actions in connection with the TWC transactions, each A/N party and each Liberty party will not and will use reasonable best efforts to cause its representatives not to, directly or indirectly take certain actions with respect to New Charter, including certain actions regarding (i) the solicitation of proxies relating to the election of directors, (ii) voting trusts or similar arrangements, (iii) stockholder proposals, (iv) the granting of proxies (other than the A/N proxy), (v) the formation of a 13D group, (vi) seeking control or influencing management other than through participation on the board of directors and the applicable board committees as contemplated by the BHN/Liberty stockholders agreement, (vii) acquiring or proposing to acquire voting securities of New Charter in excess of the ownership cap, (viii) entering into discussions, negotiations, arrangements or understandings with respect to any of the foregoing actions or advising third parties with respect to such actions, (ix) public requests for permission to engage in any of the foregoing actions or (x) contesting the validity of these provisions.

The standstill restrictions described above will not be applicable (subject to the resumption of the standstill restrictions under certain circumstances) to an investor party in certain cases, including if New Charter enters into certain merger or other business combination transactions, certain tender offers or exchange offers for New Charter capital stock, certain solicitations by New Charter of merger or business combination proposals, and certain announcements by New Charter that it is seeking to sell itself, or the applicable investor party's equity interest in New Charter being equal to or less than 5%.

The BHN/Liberty stockholders agreement also provides that from and following the closing of the BHN transactions, unless otherwise approved, or an exemption or waiver is otherwise approved, by the unaffiliated directors, each A/N party and each Liberty party has agreed not to, and agreed to use reasonable best efforts to cause its representatives not to, directly or indirectly, form a group subject to the reporting requirements of Section 13(d) of the Exchange Act with the other investor party or otherwise have any arrangements or understandings concerning New Charter except for the arrangements set forth in the BHN/Liberty stockholders agreement and in the A/N proxy, subject to certain

exceptions specified in the BHN/Liberty stockholders agreement.

Transfer Restrictions

Following the closing of the BHN transactions, each of A/N and Liberty Broadband will be subject to certain restrictions on their ability to sell, transfer or dispose of their capital stock in New Charter and Charter

Table of Contents

Holdings, subject to certain exceptions set forth in the BHN stockholders agreement, which include, with respect to Charter Class A common stock and Charter Holdings preferred units, transfers pursuant to a widely-distributed underwritten public offering pursuant to the registration rights agreement that will be entered into by Charter, New Charter, Liberty Broadband and A/N at the closing of the BHN transactions, offerings and sales pursuant to Rule 144 under the Securities Act, certain block sales, transfers approved by a majority of the unaffiliated directors, sales between Liberty Broadband and A/N and their respective affiliates (subject to the equity ownership caps described above and certain pricing limitations), transfers approved by a majority of the stockholders of New Charter (other than affiliates of A/N and Liberty Broadband), sales pursuant to a tender offer for all of the outstanding Charter Class A common stock on a fully diluted basis and certain other exceptions (including with respect to hedging and pledging) specified in the BHN/Liberty stockholders agreement. The Charter Class B common stock will not be transferable by A/N. Liberty Broadband also has the right to engage in certain spin off transactions to its stockholders. In addition, any transfer by A/N of Charter Holdings preferred units will be subject to such transfer not causing Charter Holdings to be treated as a publicly traded partnership for federal tax purposes and will be contingent on New Charter obtaining an opinion of its counsel to such effect.

The BHN/Liberty stockholders agreement also provides that in the event of a change of control of New Charter that is approved in accordance with the first bullet under Voting Matters by the Board of Directors, the A/N parties will exchange their common and preferred units of Charter Holdings for New Charter Class A common stock to the extent that such exchange is contemplated by the terms of such change of control transaction.

Stockholder Rights Plan

The BHN/Liberty stockholders agreement provides that New Charter and the board of directors of New Charter will not adopt a stockholder rights plan unless such plan by its terms exempts or, at the time of adoption of such plan New Charter and the board of New Charter take action reasonably necessary to exempt, any accumulation of capital stock by Liberty Broadband or A/N, or certain specified transferees of Liberty Broadband and A/N, up to and including an investor party's equity interest that is less than or equal to the applicable ownership cap; however, this restriction will cease to apply with respect to an investor party when such investor party's equity interest is permanently reduced, in the case of Liberty Broadband, below 15% or, in the case of A/N, below 11%.

The amended and restated certificate of incorporation of New Charter will provide that any decision with respect to a stockholder rights plan, including whether to implement a stockholder rights plan, will be made by a majority of the unaffiliated directors.

Preemptive Rights and Top-Up Rights

The BHN/Liberty stockholders agreement provides that after the closing of the BHN transactions, if New Charter proposes to issue any equity securities of New Charter in a capital raising transaction (as defined below), each of Liberty Broadband and A/N (for so long as such investor party's equity interest in New Charter is equal to or greater than 10%), will have the right to purchase, in whole or in part, for cash a number of such securities that will be determined based on such investor party's pro rata equity interest in New Charter (which is intended to allow such investor party to maintain its percentage ownership interest in New Charter after giving effect to the issuance). The BHN/Liberty stockholders agreement defines a capital raising transaction as any offering of shares of New Charter Class A common stock (or any securities convertible into or exchangeable or exercisable for shares of New Charter Class A common stock) for cash, whether registered under the Securities Act or otherwise (other than pursuant to a stockholders rights plan).

In addition, the BHN/Liberty stockholders agreement provides that, subject to certain exceptions and limitations, until the fifth anniversary of the closing of the BHN transactions, if New Charter proposes to issue

Table of Contents

any equity securities of New Charter (other than in a capital raising transaction and other than any issuance pursuant to the exercise, conversion or exchange of any equity securities the issuance of which previously gave rise to a preemptive right under the BHN/Liberty stockholders agreement) and so long as Liberty has a 17.01% equity interest in New Charter, Liberty will have preemptive rights to purchase, in whole or in part, for cash, that number of new securities equal to the lesser of (x) the number of securities that will be determined based on Liberty Broadband's pro rata equity interest in New Charter (which is intended to allow Liberty Broadband to maintain its percentage ownership interest in New Charter after giving effect to the issuance) and (y) the number of securities that, after giving effect to the issuance, will result in Liberty Broadband having an equity interest in New Charter of 25.01%. Subject to Liberty's exercise of its preemptive rights in respect of an issuance described in the foregoing sentence, A/N will also have certain preemptive rights in the case of such issuance so long as it holds an equity interest of 10% or more in New Charter.

In addition, if Liberty Broadband's or A/N's equity interest or voting interest in New Charter falls below the thresholds specified in the BHN/Liberty stockholders agreement, the BHN/Liberty stockholders agreement allows Liberty Broadband and A/N in certain circumstances and subject to certain limitations to restore its respective equity interest or voting interest to the applicable thresholds.

New Charter Business Combination Provision

The amended and restated certificate of incorporation will provide that the "business combinations" provision to be set out in Article Eighth of the amended and restated certificate of incorporation will only be effective upon the termination of the BHN contribution agreement and not apply to (and will waive any noncompliance with such provision or any comparable predecessor provision) any transaction agreed or consummated prior to such time.

Termination

The BHN/Liberty stockholders agreement will terminate as follows:

in its entirety, with the mutual written agreement of New Charter and each investor party;

with respect to an investor party, upon certain breaches by New Charter or the investor party of the BHN/Liberty stockholders agreement, in each case subject to specified notice and cure periods;

with respect to an investor party, upon such investor party having an equity interest in New Charter of less than 5%;

in its entirety, upon termination of the BHN contribution agreement prior to the closing of the BHN transactions; or

with respect to Liberty Broadband, upon the occurrence of a Liberty change of control (as defined in the BHN/Liberty stockholders agreement).

Amendment and Modification

The BHN/Liberty stockholders agreement may be amended, modified and supplemented only by a written instrument signed by New Charter and, at any time that A/N has an equity interest equal to or greater than 11%, A/N, and by each other investor party (if any) that has an equity interest equal to or greater than 15%; however, any amendment, modification or supplement that would adversely affect an investor party will require the consent of such investor party. The authorization of any amendment, modification or supplement to the BHN/Liberty stockholders agreement by New Charter will require the prior approval of a majority of the unaffiliated directors.

The BHN/Liberty stockholders agreement further provides that the prior written consent of A/N (as the only holder of New Charter Class B common stock) shall be required for any amendment of the amended and restated

Table of Contents

certificate of incorporation or bylaws of New Charter that would adversely affect the New Charter Class B common stock held by any A/N party in a significant manner as compared to other existing shares of New Charter Class A Common Stock. The BHN/Liberty stockholders agreement also provides that so long as the A/N proxy is in effect, the approval of Liberty Broadband will be required for any amendment to the amended and restated certificate of incorporation or the bylaws of New Charter that would affect the number of votes represented by the proxy shares adversely in a significant manner as compared to other existing shares of New Charter Class A common stock or that would change the terms of the proxy shares.

A copy of the BHN/Liberty stockholders agreement is attached as Annex C to this joint proxy statement/prospectus. The foregoing summary of the BHN/Liberty stockholders agreement may not contain all of the information about the BHN/Liberty stockholders agreement that is important to you. The summary in this section and elsewhere in this joint proxy statement/prospectus is qualified in its entirety by reference to the BHN/Liberty stockholders agreement attached as Annex C to, and incorporated by reference into, this joint proxy statement/prospectus. You are encouraged to read the BHN/Liberty stockholders agreement in its entirety.

Liberty Investment Agreement

Pursuant to the Liberty investment agreement, at the closing contemplated under that agreement, Liberty Broadband will subscribe for, and New Charter will issue and sell, a number of shares of New Charter Class A common stock equal to the product of (a) the Parent Merger Exchange Ratio and (b) (i) \$4.3 billion divided by (ii) \$176.95, which is equal to approximately 21.97 million shares.

Representations and Warranties of the Parties to the Liberty Investment Agreement

The Liberty investment agreement includes customary representations and warranties. The representations and warranties made by Charter and New Charter in the Liberty investment agreement relate to, among other things:

corporate existence, good standing and execution and enforceability of the Liberty investment agreement;

requisite stockholder approvals;

due authorization and issuance of the shares subject to the Liberty stock issuance;

non-contravention;

the compliance with the Exchange Act and accuracy of Charter's filings with the SEC;

accuracy of the information included in this joint proxy statement/prospectus;

absence of pending or threatened action, suit, investigation or proceeding;

no status as an investment company, as such term is defined in the United States Investment Company Act of 1940, as amended; and

exemption of the shares subject to the Liberty stock issuance from the liability provisions of Section 16(b) of the Exchange Act.

The representations and warranties made by Liberty Broadband in the Liberty investment agreement relate to, among other things:

corporate existence, good standing and execution and enforceability of the Liberty investment agreement;

non-contravention;

accuracy of the information supplied in writing by Liberty Broadband or any of its affiliates for inclusion in this joint proxy/statement prospectus;

Table of Contents

sufficiency of funds to consummate the investment; and

absence of pending or threatened action, suit, investigation or proceeding.

Amendments to the Existing Stockholders Agreement

The Liberty investment agreement also amends the existing stockholders agreement with Liberty Broadband, dated March 19, 2013 (as amended on September 29, 2014), to provide that (i) Charter will continue to include Liberty's designees to the Charter board of directors in Charter management's slate for nominees for election as a director through Charter's 2019 annual meeting, (ii) certain provisions of the standstill are waived to permit the transactions contemplated by the merger agreement, the Liberty contribution agreement, the Liberty investment agreement and a proxy and right of first refusal agreement with Liberty Interactive, and (iii) to provide for director compensation for each of Liberty's designees on Charter's board of directors to the same extent received by other directors. The BHN/Liberty stockholders agreement will replace Charter's existing stockholders agreement with Liberty Broadband, dated March 19, 2013 (as amended on September 29, 2014) and supersede the amended and restated stockholders agreement among Charter, New Charter, Liberty Broadband and A/N, dated March 31, 2015. Except for certain provisions and agreements in the BHN/Liberty stockholders agreement that went into effect on May 23, 2015, the existing stockholders agreement (as amended by the Liberty investment agreement) will remain in effect until the closing of the BHN contribution or the mergers, whichever occurs earlier, and, in the event the BHN/Liberty stockholders agreement is terminated, will revive and continue in full force and effect.

Covenants of the Parties to the Liberty Investment Agreement

The Liberty investment agreement also includes a number of covenants, including that:

Charter will use the proceeds from the Liberty investment agreement to fund a portion of the cash consideration for the transactions contemplated by the merger agreement;

the parties will use reasonable best efforts to consummate the transactions contemplated by the Liberty investment agreement and secure regulatory approvals, provided that no party will be required to (x) hold separate or divest assets, businesses or interests of such party or accept limitations on such party's freedom of action with respect to future acquisitions of assets or existing or future business or activities or full rights of ownership, possession and use of any asset now owned or acquired in the future, (y) agree to any other adverse or burdensome conditions to satisfy the objection of any governmental entity or (z) incur any financial obligation imposed or required by any governmental entity, in each case that would have or would reasonably be expected to have a material adverse effect on Liberty Broadband;

Charter will conduct its business in the ordinary course of business consistent with past practice and will not issue or authorize to issue or sell any shares of any class or series of capital stock, limited liability company interests, or other equity interests of Charter or New Charter other than issuances of equity compensation awards in the ordinary course of business consistent with past practice;

Charter waived the standstill provisions of the existing stockholders agreement with Liberty Broadband with respect to certain agreements, arrangements and understandings among Liberty Broadband, Liberty Interactive and third party investors in connection with the mergers;

the amended and restated certificate of incorporation of New Charter, in effect at the completion of the mergers, will not include Article Eighth of Charter's existing certificate of incorporation, pertaining to New Charter's transactions with interested stockholders;

Charter will not amend, waive or modify, in any material respect that is adverse to Liberty Broadband, any provision of the merger agreement without the prior written consent of Liberty Broadband, which will not be unreasonably withheld, conditioned or delayed; provided that an amendment, modification or waiver that (i) is reasonably likely to result in an increase in the total number of shares of New

Table of Contents

Charter Class A common stock outstanding following the completion of the mergers or (ii) is reasonably likely to result in a reduction to the effective exchange rate at which the Liberty parties have agreed to exchange their shares of TWC common stock pursuant to the Liberty contribution agreement will be deemed material and Liberty Broadband will be entitled to withhold consent to such amendments, waivers and modifications in its sole discretion;

the board of directors of New Charter will exempt the Liberty Broadband investment from Section 203 of the DGCL immediately upon the conversion to a corporation;

Liberty Broadband will use its reasonable best efforts to cause each of LIC, JANA Nirvana Master Fund, Ltd., JANA Master Fund, Ltd. and Coatue Offshore Master Fund, Ltd. to perform their respective obligations under investment agreements of these parties with Liberty Broadband, the proceeds of which will fund Liberty Broadband's obligations under the Liberty investment agreement and that Liberty Broadband will not terminate, waive or amend any such agreements which would delay or make less likely the consummation of these investments, and will not exercise any right or election that would have the effect of reducing the investments of these third parties without obtaining alternative financing in an equivalent amount or as required by the applicable investment agreement;

New Charter and Charter will cooperate and consult with Liberty Broadband in connection with the preparation of an analysis and methodology to determine whether Charter and/or New Charter is or will be, or has any plan or intention to become, a United States real property holding corporation, as defined in Section 897(c)(2) of the Code, which we refer to as USRPHC, as of the closing date of the Liberty investment, including as a result of the transactions contemplated by the mergers and/or the BHN transactions; and

the parties will negotiate in good faith to execute a customary registration rights agreement with respect to Liberty Broadband's common stock of New Charter.

Conditions to the Consummation of the Liberty Investment

Liberty Broadband's obligations under the Liberty investment agreement are subject to several conditions, including:

accuracy of Charter's and New Charter's representations and warranties contained in the Liberty investment agreement in all material respects (except certain representations and warranties with respect to validity of the shares to be issued under the Liberty investment agreement, which must be accurate in all respects);

compliance by Charter and New Charter with their covenants in the Liberty investment agreement in all material respects (and in the case of the covenant to effect certificate of incorporation feature proposal 1, in all respects);

the receipt of stockholder approvals required by the merger agreement and approval of the issuance of shares pursuant to the Liberty investment agreement;

delivery by New Charter of the shares subject to the Liberty investment agreement;

satisfaction of conditions set forth in the merger agreement;

expiration or termination of the applicable waiting period under the HSR Act; and

the approval of New Charter Class A common stock for listing on the NASDAQ.

Charter's obligations under the Liberty investment agreement are subject to several conditions, including:

accuracy of Liberty Broadband's representations and warranties contained in the Liberty investment agreement in all material respects;

compliance by Liberty Broadband with its covenants in the Liberty investment agreement in all material respects;

Table of Contents

the receipt of the stockholder approvals required by the merger agreement and approval of the issuance of shares pursuant to the Liberty investment agreement;

payment by Liberty Broadband of the aggregate amount due for the shares subject to the Liberty investment agreement; and

the closing of the transactions contemplated by the merger agreement.

Termination of the Liberty Investment Agreement

The Liberty investment agreement is terminable as follows:

by mutual written consent of the parties;

by Charter, New Charter or Liberty Broadband if the breach of the representations and warranties or failure to perform the covenants and agreements on the part of the other party is not capable of being cured and would cause any of the applicable conditions to closing not to be satisfied;

by any party if there is a final non-appealable order of a governmental entity restraining, enjoining or otherwise prohibiting the consummation of the transactions contemplated by the Liberty investment agreement; or

upon the termination of the merger agreement in accordance with its terms.

If the Liberty investment agreement is validly terminated, then each of the parties will be relieved of its duties and obligations arising from the agreement after the date of the termination; however, the termination will not relieve any party of liability for a breach under the agreement.

A copy of the Liberty investment agreement is attached as Annex D to this joint proxy statement/prospectus. The foregoing summary of the Liberty investment agreement may not contain all of the information about the Liberty investment agreement that is important to you. The summary in this section and elsewhere in this joint proxy statement/prospectus is qualified in its entirety by reference to the Liberty investment agreement attached as Annex D to, and incorporated by reference into, this joint proxy statement/prospectus, which updates and supersedes the version previously filed by Charter. You are encouraged to read the Liberty investment agreement in its entirety.

Liberty Contribution Agreement

Pursuant to the Liberty contribution agreement, immediately prior to the closing of the mergers, each of Liberty Broadband and Liberty Interactive will contribute to Merger Subsidiary One each share of TWC common stock held by Liberty Broadband or Liberty Interactive, respectively, in exchange for one share of common stock of Merger Subsidiary One. Notwithstanding the foregoing, if Liberty Broadband and Liberty Interactive hold more than 110% of the shares they held as of the date of the Liberty contribution agreement (7,723,357 shares in the aggregate) such excess shares will be treated in the same manner as all other TWC shares pursuant to the merger agreement. In

addition, Liberty Broadband and Liberty Interactive also covenant to maintain their share ownership over TWC stock at 99% of their ownership as of the date of the Liberty contribution agreement.

Representations and Warranties

The representations and warranties made by Liberty Broadband and Liberty Interactive in the Liberty contribution agreement relate to, among other things:

non-contravention, no third-party approvals, subject to certain exceptions, and execution and enforceability of the agreement; and

ownership of the shares subject to the agreement.

Table of Contents

The representations and warranties made by Charter, New Charter and Merger Subsidiary One in the Liberty contribution agreement relate to, among other things:

corporate existence, good standing and authority to consummate the agreement and to consummate the transactions contemplated thereby;

non-contravention, no third-party approvals, subject to certain exceptions, and execution and enforceability of the agreement;

sufficiency of authorized shares of Merger Subsidiary One; and

activities, outstanding securities, liabilities and assets of Merger Subsidiary One.

Covenants of the Parties to the Liberty Contribution Agreement

The Liberty contribution agreement also includes a number of covenants, including:

that if the issuance of shares pursuant to the Liberty contribution agreement would violate any rules or regulations of any governmental or regulatory agency having jurisdiction or any other material law, rule regulation, order, judgment or decree applicable to the parties, then the parties agree (i) to cooperate with and assist each other in the filing of requisite applications and giving requisite notices and (ii) to use their respective reasonable best efforts to obtain, and assist each other in obtaining, such consents, approvals and waivers and (iii) to take such other actions, including supplying all information necessary for any filing, as may be reasonably requested by any affected party, so that the consummation of the issuance does not constitute or result in a violation;

that each party agrees not to take any action or enter into any agreement restricting or limiting in any material respect its ability to timely and fully perform all of its material obligations under the agreement;

that the boards of directors of Charter and New Charter will exempt the acquisition of the shares subject to the agreement from the liability provisions of Section 16(b) of the Exchange Act; and

that Charter, New Charter and Merger Subsidiary One will not amend, modify or waive in any material respect, without the approval of Liberty Broadband and Liberty Interactive, (i) any provision of the merger agreement (A) that is reasonably likely to result in a reduction to the number of New Charter Class A common stock that the Liberty parties will be entitled to receive at the closing or (B) that is reasonably likely to affect the intended tax treatment of the mergers, or (ii) the condition to the obligation of the Charter parties to consummate the mergers requiring the delivery of the opinion of Wachtell, Lipton, Rosen & Katz.

Conditions to the Completion of the Exchange of Shares

The Liberty contribution agreement is conditioned on the satisfaction, waiver or capability of satisfaction of the conditions set out in the merger agreement.

Termination of the Liberty Contribution Agreement

The Liberty contribution agreement will (i) terminate automatically if the merger agreement is terminated in accordance with its terms and (ii) is terminable by Charter, New Charter and Merger Subsidiary One, on the one hand, and Liberty Broadband and Liberty Interactive, on the other hand, upon a material breach of any representation or warranty or failure to perform any covenant or agreement under the Liberty contribution agreement on the part of the other parties.

A copy of the Liberty contribution agreement is attached as Annex E to this joint proxy statement/prospectus. The foregoing summary of the Liberty contribution agreement may not contain all of the information about the Liberty contribution agreement that is important to you. The summary in this section and elsewhere in this joint proxy statement/prospectus is qualified in its entirety by reference to the Liberty contribution agreement

Table of Contents

attached as Annex E to, and incorporated by reference into, this joint proxy statement/prospectus. You are encouraged to read the Liberty contribution agreement in its entirety.

Voting Agreement

Concurrently with the execution of the merger agreement, TWC entered into the voting agreement with Liberty Broadband. As of July 31, 2015, Liberty Broadband held in the aggregate 28,838,718 shares of Charter Class A common stock (representing approximately 25.74% of the outstanding shares of Charter Class A common stock).

The following is a summary of the material terms of the voting agreement. This summary may not contain all of the information about the voting agreement that is important to you. The summary in this section and elsewhere in this joint proxy statement/prospectus is qualified in its entirety by reference to the voting agreement included as Annex F to, and incorporated by reference into, this joint proxy statement/prospectus. You are encouraged to read the voting agreement in its entirety.

Voting

Liberty Broadband has agreed with TWC that it will vote (or cause to be voted), in person or by written consent, all shares of Charter Class A common stock held by Liberty Broadband (i) in favor of the Charter merger proposal, the TWC transactions stock issuance proposal, the Liberty transactions proposal, each of the certificate of incorporation proposals and the Charter advisory compensation proposal, and (ii) against any corporate action the consummation of which would reasonably be expected to prevent or delay the consummation of the transactions contemplated by the merger agreement.

Restrictive Covenants

Liberty Broadband has agreed with TWC, subject to certain customary exceptions, (i) not to directly or indirectly, sell, transfer, pledge, encumber, assign, distribute, gift or otherwise dispose of any shares of Charter Class A common stock or any interest in, or voting rights with respect to, such shares or any other equity or voting securities of Charter, whether existing at the time of the voting agreement or thereafter authorized and issued, or enter into any contract, option or other arrangement or understanding (including any voting trust or agreement) with respect thereto, (ii) not to grant any proxy (revocable or irrevocable), power of attorney or other authorization with respect to any of Liberty Broadband's shares of Charter Class A common stock that is inconsistent with the agreements described in the preceding paragraph and (iii) to comply with certain non-solicitation provisions of the merger agreement as if it were Charter.

Representations and Warranties

Each of the parties to the voting agreement has made customary representations and warranties, including with respect to (i) authority to enter into and carry out its obligations under, and enforceability of, the voting agreement and (ii) the absence of any conflicts or required consents that would interfere with such party's ability to perform its obligations under the voting agreement.

Termination

The voting agreement will automatically terminate upon the earlier to occur of: (i) completion of the mergers and (ii) the termination of the merger agreement in accordance with its terms. However, certain of Liberty Broadband's voting obligations and restrictive covenants will survive for six months past the termination date of the voting

agreement if the merger agreement is terminated because either (x) approval of Charter's stockholders for the transactions contemplated by the merger agreement is not obtained or (y) (i) Charter intentionally and materially breaches its non-solicitation covenants in the merger agreement or (ii) Charter intentionally fails to call a meeting of its stockholders no later than 40 days after the effective date of the registration statement of which this joint proxy statement/prospectus forms a part.

Table of Contents

INTERESTS OF TWC S DIRECTORS AND EXECUTIVE OFFICERS IN THE TRANSACTIONS

When considering the recommendation of the TWC board of directors that TWC stockholders vote in favor of the approval and adoption of the merger agreement, TWC stockholders should be aware that directors and executive officers of TWC have certain interests in the mergers that may be different from or in addition to the interests of TWC stockholders. The TWC board of directors was aware of these interests and considered them, among other things, in evaluating the mergers and negotiating the merger agreement. The TWC board of directors considered these interests in recommending that the TWC stockholders adopt the TWC mergers proposal. These interests are discussed below.

As of the date of this joint proxy statement, TWC s executive officers are:

Robert D. Marcus, Chairman and Chief Executive Officer;

Dinesh C. Jain, Chief Operating Officer;

William F. Osbourn, Jr., Senior Vice President, Controller, Chief Accounting Officer and acting co-Chief Financial Officer;

Matthew Siegel, Senior Vice President, Treasurer, and acting co-Chief Financial Officer;

Ellen M. East, Executive Vice President and Chief Communications Officer;

Marc Lawrence-Apfelbaum, Executive Vice President, General Counsel and Secretary;

Gail G. MacKinnon, Executive Vice President and Chief Government Relations Officer; and

Peter C. Stern, Executive Vice President and Chief Product, People and Strategy Officer.

Treatment of TWC Equity Awards in the Mergers In General

Options Held by Current Employees. At the completion of the second merger, each outstanding option to purchase shares of TWC common stock awarded by TWC, whether or not exercisable or vested (but excluding any options held by a former employee of TWC), will be converted into an option to acquire shares of New Charter Class A common stock at an adjusted exercise price, as described in detail in The Merger Agreement Treatment of TWC Equity Awards beginning on page 240 of this joint proxy statement/prospectus.

Restricted Stock Units Held by Current Employees. At the completion of the second merger, each outstanding TWC employee restricted stock unit award (but excluding any such units held by a current or former non-employee director or a former employee of TWC) will be converted into a restricted stock unit award with respect to shares of New Charter Class A common stock as described in detail in The Merger Agreement Treatment of TWC Equity Awards

beginning on page 240 of this joint proxy statement/prospectus.

Options Held by Former Employees. At the completion of the second merger, each outstanding option to purchase shares of TWC common stock awarded by TWC and held by a former employee of TWC, whether or not exercisable or vested, will be cancelled, and TWC will pay such former employee an amount in cash computed as described in detail in *The Merger Agreement Treatment of TWC Equity Awards* beginning on page 240 of this joint proxy statement/prospectus. All cash payments will be reduced by applicable withholding taxes.

Restricted Stock Units Held by Former Employees and Non-Employee Directors. Except as described in *The Merger Agreement Treatment of TWC Equity Awards* beginning on page 240 of this joint proxy statement/prospectus, at the completion of the second merger, each TWC restricted stock unit award (which includes deferred stock units held by non-employee directors) held by (x) a current or former non-employee director or (y) a former employee of TWC, will be cancelled, and TWC will pay such holder an amount in cash computed as described in detail in such section. All cash payments will be reduced by applicable withholding taxes.

Table of Contents

Following completion of the mergers, New Charter may, in accordance with NASDAQ rules, make use of shares remaining available for grant under the Time Warner Cable Inc. 2011 Stock Incentive Plan, which is referred to in this joint proxy statement/prospectus as the TWC 2011 Plan.

Options and Restricted Stock Units Held by Executive Officers

The table below shows, as of August 7, 2015, (a) the options to acquire TWC common stock and (b) the restricted stock units, including the 2017 retention grants (described below) and the other restricted stock units, held by TWC's Chief Executive Officer, Chief Operating Officer and the other six executive officers (identified above, as a group). These options and restricted stock units held by TWC's executive officers, were granted pursuant to the Time Warner Cable Inc. 2006 Stock Incentive Plan, as amended, which is referred to in this joint proxy statement/prospectus as the 2006 Plan, and the TWC 2011 Plan, and award agreements thereunder, which are referred to in this joint proxy statement/prospectus as the Employee Equity Arrangements. In addition, employment agreements with the executive officers contain provisions addressing certain terms of the options and other equity awards (such terms, together with the Employee Equity Arrangements, are referred to in this joint proxy statement/prospectus as the Officer Equity Arrangements). All options and restricted stock units held by TWC's executive officers, including those received by them as part of the retention grant, were granted pursuant to the Officer Equity Arrangements.

As described above in The Merger Agreement Treatment of TWC Equity Awards beginning on page 240 of this joint proxy statement/prospectus, upon the completion of the second merger, TWC option and restricted stock unit awards held by TWC's executive officers will convert into options and restricted stock units, as applicable, with respect to New Charter Class A common stock.

Under the Officer Equity Arrangements, a change in control by itself does not result in any vesting or settlement of any of the executive officers' options or restricted stock units; however, if an executive officer's employment is terminated, either by TWC without cause (as defined in the respective Officer Equity Arrangements) or by the executive officer for good reason (discussed below), at any time during the term of the applicable employment agreement, then such awards will become fully vested. Depending on their respective titles, roles, responsibilities, compensation, and work location, as applicable, immediately after the completion of the mergers, the executive officers may have the right to assert good reason, resign and collect severance benefits, as described below, following such time. The vesting of the options and restricted stock units, along with certain other payments and benefits that could be due to the executive officers in connection with a change in control (including the payment of severance as described below), could be subject to a Golden Parachute Modified Cutback (described below); however, based on the recent share prices of Charter Class A common stock and other assumptions required under applicable laws, TWC does not expect that any awards' vesting will be subject to the Golden Parachute Modified Cutback.

For illustrative purposes, if the completion of the mergers were to have occurred on August 7, 2015, the latest practicable date prior to the filing of this joint proxy statement/prospectus, the tables below show the value the executive officers would receive in respect of their (a) options and (b) restricted stock units assuming that they each convert to options and restricted stock units, as applicable, in respect of New Charter Class A common stock in the mergers as described in The Merger Agreement Treatment of TWC Equity Awards beginning on page 240 of this joint proxy statement/prospectus, and applying the same assumptions used in Quantification of Potential Payments to TWC Named Executive Officers in Connection with the Mergers beginning on page 307 of this joint proxy statement/prospectus. These assumptions include an assumed price per share of Charter Class A common stock of \$177.82 (the average closing market price of a share of Charter Class A common stock on NASDAQ over the first five business days following the first public announcement of the merger agreement) as both the closing price of a share of Charter Class A common stock on the day immediately prior to the date of completion of the second merger and also the volume weighted average per-share price of Charter Class A common stock during the ten full trading

days ending on the trading day preceding the completion of the mergers

Table of Contents

for purposes of calculating the Stock Award Exchange Ratio. These stock option values reflect the aggregate spread of the converted option immediately following completion of the second merger.

<i>ing</i>										

TWC Retention and Incentive Measures

In light of the extraordinary merger related events beginning in late 2013, TWC concluded that its standard executive compensation programs alone would not be adequate to retain and motivate key executives through a period of great uncertainty. In response, as discussed in more detail below, TWC made certain adjustments to its compensation programs designed to preserve and incentivize its key talent while maintaining stockholder alignment and the pay-for-performance features of TWC's standard compensation programs.

Table of Contents

TWC believes that these changes to its compensation programs were critical to achieving the superior operating results it obtained during this prolonged period of merger activity and to its ability to enter into the merger agreement with Charter on the favorable terms it achieved following the termination of the Comcast transaction, all of which have greatly benefited stockholders.

Retention Equity Awards **Restricted stock unit awards that advanced the grant of annual equity awards that TWC employees would otherwise have been granted in each of 2015, 2016 and 2017**

ü *Retention Incentive* The value, vesting schedule and forfeiture provisions of the retention awards were designed to mirror the value and terms of awards that would have been made to eligible employees had these awards otherwise been granted on TWC's scheduled annual grant dates for 2015, 2016 and 2017

In connection with the mergers with Charter, the 2017 retention grant (in June 2015) was advanced to create the same level of retention incentives as in the Comcast-TWC merger (grants in February 2014)

No additional annual equity awards were made with respect to 2015 or are anticipated with respect to 2016 or 2017, except in the very limited circumstances described below

ü *Double-trigger vesting provisions* The 2015 retention awards are, due to the passage of time, equivalent to ordinary course annual awards that would otherwise have been made in February 2015
 Since it was not consummated, the Comcast-TWC transaction had no impact on the vesting schedules of the 2015 and 2016 retention awards (made in February 2014)

All the retention awards remain outstanding as ongoing retention incentives, subject to the vesting schedules that were approved at the time such grants were made

ü *Performance-Based* The awards do not vest automatically upon the closing of the mergers, but are subject to a double trigger
 Stock-based incentive awards align the interests of TWC employees with those of TWC stockholders and are inherently performance-based

ü *Broad-Based*

Granted to all employees who were eligible to participate in TWC's equity program (approximately 1,900 employees), including the executive officers

ü *Effective*

TWC successfully retained senior management during the pendency of the Comcast-TWC merger

These awards continue to address retention challenges in light of the pending mergers

2015 Supplemental Bonus Opportunity

An increase to an employee's annual bonus opportunity by 50% of such employee's actual payout under TWC's 2015 annual cash incentive plan

ü *Retention Incentive*

Paid, if performance thresholds achieved, on July 1, 2016; designed to incentivize employees through the expected pendency of the mergers

ü *Performance-Based*

Paid out only upon the achievement of certain performance thresholds

ü *Broad-Based*

Granted to all employees who participate in TWC's regular 2015 annual cash incentive plan (approximately 14,000 employees), including the executive officers

ü *Effective*

A similar program for 2014 successfully incentivized record operational and solid financial success in that year and provided ancillary retention benefits during the pendency of the Comcast-TWC merger

Table of Contents*Charter Transaction Retention Grants*

On May 23, 2015, the compensation committee of the TWC board of directors approved retention equity awards for all employees of TWC who were eligible to receive equity-based compensation awards (approximately 1,900 employees), including the executive officers. The awards were intended to address employee retention in connection with the anticipated mergers with Charter, while at the same time preserving appropriate incentives and alignment of employees with TWC stockholders in light of the possibility that the mergers may not close. The awards were granted on June 2, 2015. These awards are referred to in this joint proxy statement/prospectus as the 2017 retention awards.

These retention grants were designed to advance the annual equity awards that the employees would otherwise have received in 2017, and the value of each retention award is intended to reflect the expected target value of such 2017 awards and, accordingly, had an intended value equal to the employee's long-term incentive target value at the time of grant. The retention grant consisted of restricted stock units subject to service-based vesting. The vesting schedule was designed to mirror the vesting schedule that would have applied to the annual equity grants had they been made in 2017, without imposing any performance conditions, and will vest in equal 50% increments on February 13, 2020 and February 13, 2021. Similarly, the availability of accelerated and pro rata vesting of awards that could apply under normal course awards where holders meet certain service and age requirement or are terminated from employment involuntarily, respectively, was delayed until the date on which the grants would otherwise have been made. As a result of their terms, these awards were not intended to be, and are not, equivalent to annual awards that might have been made during 2015, nor should they be considered as additive to the advanced 2015 retention awards made in 2014 (as further described in the succeeding paragraph).

Other Restricted Stock Unit Awards.

In February 2014, in connection with its proposed merger with Comcast Corporation, TWC made retention grants of restricted stock units subject to service-based vesting designed to advance the annual equity awards that the employees would otherwise have received in 2015 and 2016. These awards are referred to in this joint proxy statement/prospectus as the 2015 and 2016 retention awards. The vesting schedule was designed to mirror the vesting schedule that would have applied to the annual equity grants had they been made in 2015 and 2016, without imposing any performance conditions. The 2015 retention awards vest 50% on February 12, 2018 and 50% on February 12, 2019. The 2016 retention awards vest 50% on February 12, 2019 and 50% on February 12, 2020. As a result of the passage of time, the 2015 retention awards are equivalent to awards that would have otherwise been granted as annual awards in February 2015.

The compensation committee of the TWC board of directors believed that the retention awards needed to be sufficiently meaningful to the employees so that forfeiture would represent a significant deterrent to leaving employment with TWC and to limit the ability and willingness of other employers to make up the value of the awards in order to entice the departure of TWC's employees. Pursuant to the terms of the 2016 and 2017 retention awards, if an employee's employment is terminated without cause prior to February 13, 2016 and 2017, respectively, and prior to the completion of the mergers, that employee will forfeit the entire retention award.

Restricted stock units granted as annual long-term incentive compensation in respect of each of the 2014 fiscal year and prior fiscal years included performance-based vesting conditions, which have been met, as well as service-based vesting criteria, generally requiring service through the third and fourth anniversaries of the date of grant for full vesting.

TWC did not make additional annual equity grants in 2015 and does not intend to make additional annual equity grants with respect to 2016 or 2017, regardless of whether the mergers close or the merger agreement is terminated,

absent an increase in the employee's responsibilities. Following the completion of the mergers, New Charter will determine whether to grant additional equity awards to TWC employees. Pursuant to the merger agreement, before the completion of the mergers, TWC may not make equity grants other than in the ordinary course of business consistent with past practice and subject to the limitation that, in all cases, the aggregate value of (i) the 2017 retention grant (which totaled approximately

Table of Contents

\$147.6 million at the time of grant) and (ii) other permitted equity awards (but excluding ordinary course equity grants to new hires, newly promoted executives, and annual equity awards to non-employee directors) made prior to the completion of the mergers cannot exceed \$225 million at the time of grant.

Section 162(m) of the Code, which is referred to in this joint proxy statement/prospectus as Section 162(m), generally disallows a tax deduction to public corporations for compensation in excess of \$1 million in any one year with respect to each of its Chief Executive Officer and three most highly paid executive officers (other than the Chief Financial Officers), who are referred to in this joint proxy statement/prospectus as Section 162(m) covered employees, with the exception of compensation that qualifies as performance-based compensation. As disclosed in TWC's proxy statement dated May 18, 2015, in connection with its 2015 annual meeting of stockholders, the compensation committee of the TWC board of directors considers Section 162(m) implications in making compensation recommendations and in designing compensation programs for the executives. However, the compensation committee of the TWC board of directors retains the discretion to pay compensation that is not deductible when it determines such compensation to be in the best interests of TWC and its stockholders. Because the vesting schedule of the 2015 and 2016 retention awards and the 2017 retention awards do not include performance conditions, these retention awards are not considered performance-based for purposes of Section 162(m) and will therefore be subject to the deduction limitations of Section 162(m) applicable to Section 162(m) covered employees for the year in which the retention awards vest. After the mergers are completed, TWC expects that the holders of the retention awards will not be Section 162(m) covered employees of New Charter in respect of the year in which the completion of the mergers occurs, so the Section 162(m) limitations would not apply in that year. Such holders would have to become Section 162(m) covered employees of New Charter for the limitations to apply.

2015 Supplemental Bonus Opportunity

On May 23, 2015, the compensation committee of the TWC board of directors approved a supplemental bonus opportunity for all employees, including executive officers, who participate in TWC's regular 2015 annual cash incentive plan (approximately 14,000 employees). The supplemental bonus opportunity was intended to enhance employee retention during the pendency of the mergers and thereafter, while preserving incentives designed to keep employees focused on executing on TWC's operating plan.

The supplemental bonus opportunity is equal to 50% of each eligible employee's actual bonus payout under TWC's regular 2015 annual cash incentive plan. For example, an employee with a payout, based on actual performance, of \$10,000 under the regular 2015 annual cash incentive plan would be entitled to a payment, under the supplemental bonus opportunity, of an additional \$5,000. Payments under the supplemental bonus opportunity will be determined by reference to the same performance thresholds and process as under the regular 2015 annual cash incentive plan except that any supplemental bonus payments will generally be paid on July 1, 2016 (by New Charter or TWC, depending on the timing of the completion of the mergers).

In light of the success of a similar program in 2014, the compensation committee of the TWC board of directors believed that meaningfully increasing the size of the potential cash bonus opportunity for 2015 for the general employee population, as well as the executive officers, was essential to motivate, reward and retain participants in light of TWC's goals and circumstances. The compensation committee of the TWC board of directors believed that mirroring the 2015 bonus program and goals in the supplemental bonus program reinforced the criticality of achieving, and exceeding, the performance objectives despite the potential Charter mergers distractions and additional responsibilities. In addition, the timing of the payment of the bonus would also serve to reinforce the retention of senior management through the closing of the mergers and beyond if the mergers close prior to July 1, 2016.

If, prior to July 1, 2016, an executive officer's employment is terminated either by TWC without cause or by the executive officer for good reason (as such terms are defined in the respective Officer Equity Arrangements), such executive officer will be eligible to receive (i) if such termination occurs in calendar year

Table of Contents

2015 prior to the completion of the mergers, a prorated portion of the supplemental bonus through the date of such termination or (ii) if such termination occurs in calendar year 2015 but following the completion of the mergers, the full value of the supplemental bonus he or she would have otherwise received had his or her employment continued through December 31, 2015, with such amounts, whether payable pursuant to prong (i) or prong (ii), to be paid on July 1, 2016.

Pursuant to the merger agreement, TWC's aggregate payments under the supplemental bonus opportunity may not exceed \$100 million. The supplemental bonus opportunity will not be considered part of a TWC executive officer's target bonus for purposes of calculating severance payments (see more detailed discussion on severance, below). TWC executive officers' target supplemental bonus opportunities are set out below:

Executive Officer	2015 Target Supplemental Bonus Opportunity
Robert D. Marcus	\$ 2,500,000
Dinesh C. Jain	\$ 1,250,000
All Other Executive Officers as a Group (6 persons)	\$ 1,357,309

Residential Video Subscriber Additions Bonus

In addition, to encourage employee focus on quarterly residential video subscriber net additions in 2015, as in 2014, the compensation committee of the TWC board of directors approved an additional bonus opportunity equal to 5% of each participant's 2015 annual target cash bonus under TWC's 2015 annual cash bonus plan if in any quarter of 2015, TWC experienced a net increase in residential video subscribers, which was payable only with respect to one such quarter. Such additional bonus opportunity is referred to in this joint proxy statement/prospectus as a Residential Video Subscriber Additions Bonus. This Residential Video Subscriber Additions Bonus was achieved in the first quarter of 2015 and, as a result, the annual cash bonus for participants in TWC's 2015 annual cash bonus plan has been increased by 5% of their annual target bonus. In light of TWC's success in the first quarter of 2015 and to continue to motivate participants to work to add customers, the compensation committee of the TWC board of directors approved a new Residential Video Subscriber Additions Bonus with the same terms but only with respect to the second quarter of 2015. Messrs. Marcus and Jain were not eligible to receive this additional Residential Video Subscriber Additions Bonus in respect of the second quarter of 2015. This Residential Video Subscriber Additions Bonus was not achieved in the second quarter of 2015. The impact of any Residential Video Subscriber Additions Bonuses has not been included in the table above.

Potential Severance Payments and Benefits to Executive Officers

TWC has entered into employment agreements with each of its executive officers, which, among other things, specify the severance payments and benefits to be provided upon various circumstances of termination of employment. From the execution of the merger agreement through the date of this joint proxy statement/prospectus, neither TWC nor Charter has entered into any new employment agreements with TWC's executive officers, whether in connection with the mergers or otherwise. As discussed below, each of such agreements has been amended effective as of July 31, 2015.

Information regarding certain potential severance payments and benefits to TWC's named executive officers that are related to the mergers is provided below under "Quantification of Potential Payments to TWC Named Executive Officers in Connection with the Mergers." As explained in that section, four of TWC's current executive officers,

Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern, were also named executive officers of TWC for 2014. The severance rights of Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern are described in that section. TWC's other four executive officers who are not also named executive officers would be entitled to severance payments and benefits under their employment agreements as follows:

accrued but unpaid bonus for any previously completed fiscal year, based on actual results for the year;

Table of Contents

pro rata bonus for service during the year of termination, based on actual results for the year;

for Mses. East and MacKinnon, 36 months, and for Messrs. Osbourn and Siegel, 18 months, of continued salary and bonus payments, paid on TWC's normal payroll payment dates for salary, where the bonus component is set at target;

for Ms. East and Messrs. Osbourn and Siegel the aggregate salary and target bonus used are the greater of (i) the amounts in effect at termination or (ii) the amounts in effect on the effective date of his or her employment agreement; and

for Ms. MacKinnon, the salary and target bonus used are those in effect at termination; and

for Mses. East and MacKinnon, 36 months, and for Messrs. Osbourn and Siegel, 18 months, of continued participation in TWC's health and welfare benefit plans.

For Mses. East and MacKinnon the above severance payments and benefits are triggered if employment is terminated without cause or if the executive officer resigns for good reason, which are collectively referred to in this joint proxy statement/prospectus as Qualifying Terminations, either (i) within 24 months following a change in control or (ii) following TWC's execution of a merger, acquisition, sale or other agreement providing for a change in control but before 24 months following a change in control (or, if earlier, the expiration or termination of such agreement without a change in control). If a Qualifying Termination occurs outside of the time periods described above, the severance payments and benefits due are lower than the amounts above (e.g., they are provided severance for a 24-month period versus a 36-month period). For Messrs. Osbourn and Siegel, the above severance payments and benefits are triggered upon any Qualifying Termination, regardless of whether there is also a change in control.

All of the severance payments and benefits set forth above are subject to the Golden Parachute Modified Cutback, which, generally, applies to first reduce cash-based payments and then to equity award vesting.

As a condition to receiving these severance payments and benefits, the executive officer must (i) execute, deliver and not revoke a release of claims and (ii) abide by the restrictive covenants detailed below. The agreements require each of the executive officers to abide by (i) perpetual restrictive covenants relating to non-disclosure and non-disparagement, (ii) a one-year covenant not to solicit TWC's customers, independent contractors, joint venturers or suppliers, (iii) a one-year covenant not to solicit certain former employees, and (iv) a non-competition covenant during the officer's employment term and for 24 months (18 months for Messrs. Osbourn and Siegel) following termination.

See Options and Restricted Stock Units Held by Executive Officers and 2015 Supplemental Bonus Opportunity above for a description of the impact of an executive officer's Qualifying Termination on their respective Officer Equity Arrangements and their 2015 supplemental bonus opportunity award.

Good reason generally means any of the following occurrences without the executive officer's consent:

for Mses. East and MacKinnon, a material violation with respect to such executive officer's authority, functions, duties, powers, responsibilities or place of employment;

a failure to cause any successor to all or substantially all of the business and assets of TWC expressly to assume TWC's obligations under the employment agreement;

a material breach of the employer's obligations under the employment agreement; or

for Ms. MacKinnon, a material violation with respect to her reporting relationship.

Each executive officer must provide TWC (or New Charter, as its successor) with written notice of the circumstances giving rise to good reason within 90 days of the occurrence of such circumstances and TWC or New Charter, as applicable, has 30 days from receipt of such notice to cure. If TWC (or New Charter, as its

Table of Contents

successor) does not cure the circumstances which gave rise to good reason within the 30-day cure period, the executive officer must terminate his or her employment as of the expiration of the cure period in order to resign for good reason.

Pursuant to the merger agreement, the employment agreements of Mses. East and MacKinnon and Messrs. Osbourn and Siegel have been amended effective as of July 31, 2015, to extend their terms through December 31, 2017 and to expand the scope of the "good reason" resignation rights thereunder. Pursuant to this amendment, "good reason" includes circumstances in which, during the period beginning as of the completion of the mergers and ending on the earlier of the second anniversary of the completion of the mergers and the expiration of the term of the executive's employment agreement (such period referred to in this joint proxy statement/prospectus as the change in control protection period): (i) the executive officer's base salary or target total direct compensation (i.e., the sum of base salary and target annual bonus and long-term incentive compensation) are reduced without the executive officer's consent, and (ii) the executive officer's target annual cash bonus is substituted with long-term incentive compensation in an amount representing in excess of 50% of the executive officer's target annual cash bonus in effect as of immediately prior to the completion of the mergers. In addition, for Mses. East and MacKinnon, "good reason" includes the executive officer no longer reporting directly to the chief executive officer of New Charter during the change in control protection period. These amendments are referred to in this joint proxy statement/prospectus as the Compensation and Reporting Amendments.

In addition, pursuant to the merger agreement, the employment agreements of Mses. East and MacKinnon and Messrs. Osbourn and Siegel have been amended to provide that a termination of employment without cause will be deemed to have occurred, if, during the change in control protection period, New Charter (A) (i) offers the executive officer a position or (ii) relocates the executive officer's existing position, which, in either case, will result in either (x) an increased commute each way of at least 40 miles more than the current distance between the executive officer's home and then current work location or (y) a commute each way of at least 50 miles between the executive officer's home and the proposed work location, and (B) the executive officer promptly rejects in writing such offer or relocation requirement. New Charter shall have 30 days from receipt of such rejection to cure by rescinding the offer or revoking the relocation, and, if New Charter does not cure, the executive officer must terminate his or her employment as of the expiration of the 30-day cure period in order for the resignation to constitute a termination without cause. This amendment is referred to in this joint proxy statement/prospectus as the Relocation Amendment.

Depending on their respective titles, roles, responsibilities, compensation, and work location, as applicable, immediately after the completion of the mergers, the executive officers may have the right to assert good reason, resign and collect severance benefits as described above, following such time.

Post-Closing Obligations of New Charter under the Merger Agreement

New Charter is obligated under the merger agreement to honor certain TWC compensation plans and agreements and to provide TWC employees, including the executive officers, with specified levels of compensation until the first anniversary of the completion of the mergers and specified levels of benefits until December 31, 2016. New Charter has agreed to honor all contracts providing for severance in accordance with their terms and to honor, without amendment, all plans providing for severance for the period beginning on the completion of the mergers and ending on the first anniversary of the completion of the mergers (or for any longer period required under any such plan). With respect to its commitment to honor compensation levels, New Charter has agreed (i) to provide TWC employees (except those covered by a collective bargaining agreement) with base pay and annual cash bonus opportunities, as applicable, that are no less favorable in the aggregate than those provided to TWC employees immediately prior to the completion of the mergers and (ii) to provide TWC employees (except those covered by a collective bargaining agreement) with commission and cash incentive opportunities, as applicable, that are no less favorable than either

those provided to each such TWC employee immediately prior to the completion of the mergers or those provided to similarly situated employees of New

Table of Contents

Charter or its subsidiaries following the completion of the mergers. See The Merger Agreement Employee Matters beginning on page 261 of this joint proxy statement/prospectus for more detail about these employee-related interests.

Restricted Stock Unit and Deferred Stock Units Held by Non-Employee Directors

As of August 7, 2015, TWC's non-employee directors held an aggregate of 30,834 deferred stock units and 188,633 restricted stock units, which were granted pursuant to the 2006 Plan and the 2011 Plan, including the amendments thereto and award agreements thereunder, which are referred to in this joint proxy statement/prospectus as the Director Equity Arrangements.

Under the Director Equity Arrangements, upon a change in control of TWC, as defined therein, restricted stock units and deferred stock units held by such directors will become payable, along with any retained distributions credited thereto (generally to reflect dividends or distributions other than regular cash dividends), if applicable, and are settled as soon as practicable following such change in control. The completion of the mergers will be a change in control under the Director Equity Arrangements, and such awards will be cancelled in exchange for a cash payment which will be determined in accordance with the methodology described in The Merger Agreement Treatment of TWC Equity Awards beginning on page 240 of this joint proxy statement/prospectus.

In addition, to the extent such payment (a) constitutes a parachute payment under Section 280G of the Code and (b) would be subject to the excise tax imposed by Section 4999 of the Code, then such payment shall either be made (i) in full or (ii) in such lesser amount that would result in no portion thereof being subject to the Section 4999 excise tax, whichever of the foregoing (taking into account all applicable taxes), results in the individual's receipt on an after-tax basis, of the greatest amount of total compensation, notwithstanding that all or some portion of the payments may be taxable under Section 4999. This provision, including as applied under any other plans, agreements or arrangements to any executive officer or other vesting or payment events, is referred to in this joint proxy statement/prospectus as a Golden Parachute Modified Cutback. For illustrative purposes, if the completion of the mergers were to have occurred on August 7, 2015, the latest practicable date prior to the filing of this joint proxy statement/prospectus, no equity awards held by any of the non-employee directors would be cut back.

For illustrative purposes, if the completion of the mergers were to have occurred on August 7, 2015, the latest practicable date prior to the filing of this joint proxy statement/prospectus, the aggregate cash-out value of all deferred stock units and restricted stock units for all non-employee directors would be approximately \$43.0 million in the aggregate (calculated as required under the merger agreement and using the average closing market price of a share of Charter Class A common stock on NASDAQ over the first five business days following the first public announcement of the merger agreement of \$177.82) as both the closing price of a share of Charter Class A common stock on the day immediately prior to the date of completion of the second merger and also the volume weighted average per-share price of Charter Class A common stock during the ten full trading days ending on the trading day preceding the completion of the mergers for purposes of calculating the stock award exchange ratio.).

Beneficial Ownership of Directors and Executive Officers

TWC's executive officers and directors hold shares of TWC common stock, which will be treated like all other shares of TWC common stock in the mergers. See Certain Beneficial Owners of TWC Common Stock Security Ownership by the TWC Board of Directors and Executive Officers beginning on page 327 of this joint proxy statement/prospectus for further details.

Indemnification; Directors and Officers Insurance

Under the merger agreement, certain former directors and officers of TWC will have rights to indemnification and expense advancement from New Charter and Charter has agreed to cause New Charter to

Table of Contents

maintain directors' and officers' insurance policies and fiduciary liability insurance policies or purchase tail coverage, in each case for a six-year period. See "The Merger Agreement - Indemnification and Insurance" beginning on page 260 of this joint proxy statement/prospectus for further details.

Quantification of Potential Payments to TWC Named Executive Officers in Connection with the Mergers

The information below is intended to comply with Item 402(t) of Regulation S-K, which requires disclosure of information about compensation for each TWC named executive officer that is based on or otherwise relates to the mergers. Under applicable SEC rules, TWC's named executive officers are required to consist of TWC's executive officers who, during 2014, served as TWC's principal executive officer and principal financial officer and the three most highly compensated executive officers who were serving as such at the end of 2014. For 2014, TWC's named executive officers were:

Robert D. Marcus, who served as Chairman and Chief Executive Officer during 2014;

Dinesh C. Jain, who served as Chief Operating Officer during 2014;

Arthur T. Minson, Jr., who served as Executive Vice President and Chief Financial Officer during 2014;

Marc Lawrence-Apfelbaum, who served as Executive Vice President, General Counsel and Secretary during 2014; and

Peter C. Stern, who served as Executive Vice President and Chief Product, People and Strategy Officer during 2014.

To the extent that any of TWC's named executive officers' compensation arrangements are described in "Interests of Directors and Executive Officers of TWC in the Transactions" beginning on page 297 of this joint proxy statement/prospectus, they are incorporated herein by reference. The amounts set forth in the table below, which represent an estimate of each named executive officer's transaction-related compensation, as of August 7, 2015 assume the following:

that the consummation of the mergers constitutes a change in control for purpose of the applicable compensation plan or agreement;

that the change in control was consummated on August 7, 2015, the latest practicable date prior to the filing of this joint proxy statement/prospectus;

each named executive officer's employment is terminated without cause or with good reason immediately following the change in control; and

the value of the vesting acceleration of the named executive officers' equity awards is calculated assuming (i) a price per share of Charter Class A common stock of \$177.82 (the average closing market price of a share of Charter Class A common stock on NASDAQ over the first five business days following the first public announcement of the merger agreement, in accordance with SEC rules) as both the closing price of a share of Charter Class A common stock on the day immediately prior to the date of completion of the second merger and also the volume weighted average per-share price of Charter Class A common stock during the ten full trading days ending on the trading day preceding the completion of the mergers for purposes of calculating the stock award exchange ratio and (ii) the conversion of TWC equity awards into equity awards with respect to New Charter Class A common stock as described in "The Merger Agreement Treatment of TWC Equity Awards" beginning on page 240 of this joint proxy statement/prospectus.

Table of Contents

The amounts reported below are estimated based on multiple assumptions that may or may not actually occur, including the assumptions described above, and elsewhere in this joint proxy statement/prospectus. As a result, the transaction-related compensation, if any, to be received by a named executive officer may materially differ from the amounts set forth below.

Name	Cash(1)(2)	Equity(3)	Perquisites/ Benefits(4)	Other(5)	Totals
Robert D. Marcus	\$ 22,650,000	\$ 67,126,648	\$ 396,156	\$ 2,625,000	\$ 92,797,804
Dinesh C. Jain	\$ 12,075,000	\$ 21,871,081	\$ 78,025	\$ 1,312,500	\$ 35,336,606
Marc Lawrence-Apfelbaum	\$ 4,309,500	\$ 14,797,071	\$ 326,163	\$ 341,250	\$ 19,773,984
Peter C. Stern	\$ 4,309,500	\$ 12,120,665	\$ 162,136	\$ 341,250	\$ 16,933,551
Arthur T. Minson, Jr. (6)				\$ 5,000,000	\$ 5,000,000

- (1) The amounts in this column reflect continuation of annual base salary and target bonus in effect on the assumed date of termination for a 36-month period for Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern. Base salaries as of the assumed effective time of the transaction (August 7, 2015) are as follows: Mr. Marcus (\$1,500,000), Mr. Jain (\$1,000,000), Mr. Lawrence-Apfelbaum (\$650,000) and Mr. Stern (\$650,000). The most recent target annual bonuses as of August 7, 2015 are as follows: Mr. Marcus (\$5,000,000), Mr. Jain (\$2,500,000), Mr. Lawrence-Apfelbaum (\$650,000) and Mr. Stern (\$650,000). These severance amounts are double trigger payments, payable if the executive officer resigns for good reason (see discussion below) or is terminated by TWC without cause within (i) 24 months following the effective date of a change in control or (ii) following TWC's execution of an agreement contemplating a change in control but before the date that is 24 months after a change in control (or, if earlier, the expiration or termination of such change in control agreement without a change in control). Assuming a termination of employment on August 7, 2015, the amounts also include a pro-rata target bonus (incorporating the achievement of the Residential Video Subscriber Additions Bonus in respect of the first quarter of 2015) for the year of termination which are as follows: Mr. Marcus (\$3,150,000), Mr. Jain (\$1,575,000), Mr. Lawrence-Apfelbaum (\$409,500) and Mr. Stern (\$409,500). Ultimately, such bonus amounts would be paid based on actual performance. These amounts reflect the full amount of cash severance payable to these officers assuming termination occurs immediately following the completion of the mergers. In the case of Messrs. Marcus, Jain, and Stern, only a portion of this amount reflects an increase to severance payments from what they would have been had no change in control occurred.
- (2) The compensation arrangements of each of Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern provide for a Golden Parachute Modified Cutback. Based on the assumptions listed above, for Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern, neither the severance amounts nor any amounts in this table have been reduced because the officers in all cases would have had a better after-tax result had all amounts been paid in full.
- (3) The amounts in this column reflect the value (spread value in the case of options) in respect of restricted stock units and unvested options that would vest, in each case, in accordance with the merger agreement and without regard to applicable tax withholding. The amounts for each named executive officer represent the following amounts: Mr. Marcus: \$53,437,009 for 272,374 restricted stock units and \$13,689,639 for 121,502 unvested options; Mr. Jain: \$21,871,081 for 111,479 restricted stock units; Mr. Lawrence-Apfelbaum: \$10,780,663 for 54,953 restricted stock units and \$4,016,408 for 35,445 unvested options; and Mr. Stern: \$9,235,230 for 47,078 restricted stock units and \$2,885,435 for 25,651 unvested options.

Table of Contents

- (4) The amounts in this column include (i) for all executive officers, continuation of health and welfare benefits for a 36-month period, (ii) in addition, for Mr. Marcus, continued supplemental life insurance coverage and financial services during his 36-month severance period, (iii) in addition, for Mr. Lawrence-Apfelbaum, continued supplemental life insurance coverage, and executive level outplacement services during his 36-month severance period and one year of office space and secretarial services, and (iv) in addition, for Mr. Stern, executive level outplacement services during his 36-month severance period. The table below identifies and quantifies the individual perquisites and benefits for each of Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern.

Name	Financial Planning	Healthcare Continuation	Life Insurance	Outplacement Services	Office Space	Total Perquisites
Robert D. Marcus	\$ 300,000	\$ 71,964	\$ 24,192			\$ 396,156
Dinesh C. Jain		\$ 78,025				\$ 78,025
Marc Lawrence-Apfelbaum		\$ 66,138	\$ 49,065	\$ 90,000	\$ 120,960	\$ 326,163
Peter C. Stern		\$ 72,136		\$ 90,000		\$ 162,136
Arthur T. Minson, Jr.						

- (5) The amounts in this column reflect the 2015 supplemental bonus opportunity, based on target bonus on August 7, 2015, the assumed date of completion of the mergers, incorporating the achievement of the Residential Video Subscriber Additions Bonus in respect of the first quarter of 2015. These supplemental bonus opportunities are single trigger.
- (6) Mr. Minson resigned from his position as Executive Vice President and Chief Financial Officer of TWC and from his employment, effective as of June 1, 2015. Pursuant to the terms of a letter agreement dated May 28, 2015, between TWC and Mr. Minson, upon the closing of the mergers, if such closing occurs prior to January 1, 2017, and as long as Mr. Minson has complied with his obligations to provide certain advisory services and complied with the restrictive covenants set forth in his employment agreement, TWC will pay Mr. Minson a lump-sum cash payment of \$5 million. If the proposed mergers with Charter do not close before January 1, 2017, Mr. Minson will not be entitled to this payment.

For additional information regarding compensation arrangements with directors and other executive officers, please see *Interests of Directors and Executive Officers of TWC in the Transactions* beginning on page 297 of this joint proxy statement/prospectus, which is incorporated herein by reference.

TWC's Employment Agreements with its Named Executive Officers

TWC has entered into employment agreements with each of its named executive officers. These agreements, along with the Employee Equity Arrangements, cover the payments that would be due to these individuals in connection with the proposed transaction. The following provides a summary of material terms, conditions and circumstances under which the payments for Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern are triggered.

Pursuant to each named executive officer's employment agreement, if the officer resigns for good reason (see discussion below) or is terminated by TWC without cause, the officer is entitled to the payments and benefits under their employment agreements described below:

accrued but unpaid bonus for the preceding fiscal year, based on actual results for the year;

pro rata bonus for service during the year of termination, based on actual results for the year;

continued salary and target bonus payments, paid on TWC's normal payment dates for salary, with aggregate salary and target bonus amounts set at the greater of (i) amounts effective at termination, and (ii) amounts effective on effective date of the officer's employment agreement;

continued participation in TWC's health and welfare benefits and certain cable services during the 36-month severance period;

Table of Contents

for Mr. Marcus, continued supplemental life insurance coverage and financial services during the 36-month severance period;

for Mr. Lawrence-Apfelbaum, continued supplemental life insurance coverage and executive level outplacement services during the 36-month severance period and one year of office space and secretarial services; and

for Mr. Stern, executive level outplacement services during the 36-month severance period.

For Messrs. Marcus, Jain, and Stern, the above severance payments and benefits are triggered if the officer's termination occurs either (i) within 24 months following a change in control or (ii) following TWC's execution of a merger, acquisition, sale or other agreement providing for a change in control but before 24 months following a change in control (or, if earlier, the expiration or termination of such agreement without a change in control). If such termination occurs outside of the time periods described above, the severance payments and benefits due are lower than the amounts above (e.g., they are provided severance for a 24-month period versus a 36-month period). For Mr. Lawrence-Apfelbaum, the above severance payments and benefits are triggered upon any Qualifying Termination, regardless of whether there is also a change in control.

See The Merger Agreement Treatment of TWC Equity Awards beginning on page 240 of this joint proxy statement/prospectus and 2015 Supplemental Bonus Opportunity above for a description of the impact of a named executive officer's Qualifying Termination on their respective Employee Equity Awards and their 2015 supplemental bonus opportunity award.

Good reason generally means any of the following occurrences without the officer's consent:

a material violation with respect to such officer's authority, functions, duties, powers, responsibilities or place of employment;

a failure to cause any successor to all or substantially all of the business and assets of TWC expressly to assume the obligations of TWC under the employment agreement;

a material breach of the employer's obligations under the employment agreement; or

for Messrs. Marcus and Jain, a material violation with respect to his reporting relationship.

For Mr. Marcus, good reason also includes (i) TWC's failure to nominate him for re-election to the TWC board of directors or Mr. Marcus otherwise ceasing to be a member of the TWC board of directors other than in connection with his removal as a director for cause under TWC's bylaws and (ii) the failure to elect Mr. Marcus as Chairman of the TWC board of directors or Mr. Marcus otherwise ceasing to be the Chairman of the TWC board of directors other than in connection with his removal as a director for cause under TWC's bylaws, subject to certain exceptions if cessation occurs under requirements of law.

Each named executive officer must provide TWC (or New Charter, as its successor) with written notice of the circumstances giving rise to good reason within 90 days of the occurrence of such circumstances and TWC or New Charter, as applicable, has 30 days from receipt of such notice to cure. If TWC (or New Charter, as its successor) does not cure the circumstances which gave rise to good reason within the 30-day cure period, the named executive officer must terminate his employment as of the expiration of the cure period in order to resign for good reason.

Pursuant to the merger agreement, the employment agreements of Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern have been amended to include the Relocation Amendment and the Compensation and Reporting Amendments, to the extent applicable to the executive, and to extend their terms through December 31, 2017, as described above in Potential Severance Payments and Benefits to Executive Officers.

Depending on their respective titles, roles, responsibilities, compensation, and work location, as applicable, immediately after the completion of the mergers, Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern may have the right to assert good reason, resign and collect the above severance benefits following such time.

Table of Contents

The severance payments and benefits set forth above for Messrs. Marcus, Jain, Lawrence-Apfelbaum and Stern are subject to the Golden Parachute Modified Cutback, which, generally, applies to first reduce cash-based payments and then to equity vesting.

As a condition to receiving these severance payments and benefits, the named executive officer must (i) execute, deliver and not revoke a release of claims and (ii) abide by the restrictive covenants detailed below. The agreements require each of the executive officers to abide by (i) perpetual restrictive covenants relating to non-disclosure and non-disparagement (mutual non-disparagement in the case of Messrs. Marcus, Jain and Lawrence-Apfelbaum), (ii) a one-year covenant relating to non-solicitation of TWC's customers, independent contractors, joint venturers or suppliers, (iii) a one-year covenant relating to non-solicitation of certain former employees, and (iv) covenants relating to non-competition during their employment terms and for 24 months following the end of their employment terms.

Mr. Minson resigned from his position as Executive Vice President and Chief Financial Officer of TWC and from his employment, effective as of June 1, 2015. Pursuant to the terms of a letter agreement dated May 28, 2015 between Mr. Minson and TWC, Mr. Minson will serve as an advisor to TWC during the period (the advisory period) from June 1, 2015 through the first to occur of December 31, 2016 and the closing, or abandonment, of the mergers. During the advisory period, Mr. Minson has agreed to assist in the planning for closing of the mergers and related transactions, the integration of TWC's operations with those of Charter, and other activities related to the mergers.

As consideration for his services, TWC paid Mr. Minson a one-time lump-sum cash payment of \$5 million shortly following his resignation, subject to his execution and non-revocation of a release of claims in favor of TWC and affiliated parties. During his advisory period, Mr. Minson will remain subject to all restrictions on his ability to engage in competitive behavior and solicit TWC's employees, pursuant to the terms of his employment agreement. He will be prohibited from hiring any TWC employees during the advisory period without TWC's consent. Mr. Minson is entitled to no further compensation as an employee of TWC and he has forfeited all of his outstanding unvested TWC equity awards.

Upon the closing of the mergers, if such closing occurs prior to January 1, 2017, and as long as Mr. Minson has complied with his obligations to provide the services and with the restrictive covenants described above, TWC will be obligated to pay Mr. Minson a lump-sum cash payment of \$5 million. If the proposed mergers with Charter do not close before January 1, 2017, Mr. Minson will not be entitled to this second payment.

Table of Contents**INTERESTS OF CHARTER S DIRECTORS AND EXECUTIVE OFFICERS IN THE TRANSACTIONS**

When considering the recommendation of the Charter board of directors that Charter stockholders vote in favor of the adoption of the merger agreement and the approval of each of the stock issuances proposals, the Liberty transactions proposal and each of the certificate of incorporation proposals, Charter stockholders should be aware that directors and executive officers of Charter have certain interests in the proposed mergers and other transactions that may be different from or in addition to the interests of Charter stockholders generally. The Charter board of directors was aware of these interests and considered them, among other things, in evaluating and negotiating the various transaction agreements and the proposed mergers and other transactions, and in making its recommendation that Charter s stockholders vote to approve the various transaction proposals. These interests are described in further detail below.

Charter s current executive officers are: Thomas M. Rutledge, President and Chief Executive Officer; Christopher L. Winfrey, Executive Vice President and Chief Financial Officer; John Bickham, Chief Operating Officer; Donald F. Detampel, Jr., Executive Vice President and President, Commercial Services; Richard R. Dykhouse, Executive Vice President, General Counsel and Corporate Secretary; Jonathan Hargis, Executive Vice President, Chief Marketing Officer; and Kevin D. Howard, Senior Vice President Finance, Controller and Chief Accounting Officer.

Treatment of Charter Equity Awards

Charter Stock Options. At completion of the third merger, each outstanding option, whether or not exercisable or vested, to purchase shares of Charter Class A common stock will be converted into an option to purchase the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock subject to such option immediately prior to the completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. The exercise price per share of New Charter Class A common stock will be equal to the quotient of (i) the exercise price of such option immediately prior to the completion of the third merger divided by (ii) the Parent Merger Exchange Ratio, rounded up to the nearest whole cent. Such converted options will be subject to the same terms and conditions as were applicable to the corresponding options immediately prior to completion of the third merger.

Charter Restricted Stock Awards. At completion of the third merger, each outstanding Charter restricted stock award will be converted into an award with respect to the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such award immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock awards will be subject to the same terms and conditions as applied to the corresponding awards immediately prior to completion of the third merger.

Charter Restricted Stock Units. At completion of the third merger, each outstanding Charter restricted stock unit, whether or not vested, will be converted into the right to acquire the number of shares of New Charter Class A common stock equal to the product of (x) the number of shares of Charter Class A common stock underlying such unit immediately prior to completion of the third merger multiplied by (y) the Parent Merger Exchange Ratio, with any fractional shares rounded down to the next lower whole share of New Charter Class A common stock. Such converted restricted stock units will be subject to the same terms and conditions as applied to the corresponding units immediately prior to completion of the third merger.

Enhanced Vesting Terms. The award agreements governing Charter's performance-vesting equity awards held by employees provide for automatic, full vesting upon a change in control, such as the mergers, to the extent that the performance conditions are satisfied in connection with the change in control. Any awards that do not vest would be forfeited unless otherwise determined by the compensation committee of the board of directors of

Table of Contents

Charter. It is currently expected that all applicable performance conditions will be satisfied upon completion of the mergers. In addition, the award agreements governing Charter's time-vesting equity awards held by employees provide for full (as opposed to prorated) vesting upon a termination of employment by Charter without cause or a resignation for good reason within 30 days prior to, or 13 months (12 months in the case of Kevin Howard) following, the consummation of a change in control. Charter's equity-based awards held by its non-employee directors are not subject to enhanced vesting in connection with a change in control or termination of service thereafter.

For an estimate of the amounts that would become payable to each of Charter's named executive officers in settlement of their unvested equity-based awards, see Quantification of Payments and Benefits to Charter's Named Executive Officers below. Charter estimates that the aggregate amount that would become payable to Charter's two executive officers other than its named executive officers in settlement of their unvested equity awards if the effective time of the mergers was August 7, 2015 and each experienced a termination of employment by Charter without cause or a resignation for good reason at such time, based on a price per share of Charter Class A common stock of \$177.82 (the average closing price of a share of Charter Class A common stock on the five business days following the first public announcement of the merger agreement), is \$6,555,026.

Employment Agreements***Existing Employment Agreements***

Charter is currently party to employment agreements with each of its executive officers other than Mr. Howard, who participates in a severance plan described below. Other than for Mr. Rutledge, each of these employment agreements are expected to continue to apply following completion of the mergers. These employment agreements, which were in effect prior to the Charter board of directors' evaluation and negotiation of the various transaction agreements, provide for the following severance benefits upon an involuntary termination of employment by Charter without cause or a resignation for good reason, whether or not in connection with a change in control:

Severance Payment. A cash severance payment equal to the product of (a) 2.5 (for Messrs. Rutledge and Bickham) or 2.0 (for all other applicable executive officers), multiplied by (b) the executive officer's annual base salary and target annual bonus, which severance payment is payable in equal installments over two years following the date of termination (or, in the event of a termination of employment within two years following a change in control such as the proposed mergers, in a lump sum);

Health Insurance. A lump sum payment equal to the cost of health, dental and vision insurance benefit continuation under COBRA for (a) 30 months for Mr. Rutledge and (b) 24 months for the other executive officers;

Prorated Annual Bonus. In the case of Messrs. Rutledge and Bickham, a prorated annual bonus for the year of termination; and

Outplacement. In the case of Messrs. Detampel, Dykhouse, Hargis and Winfrey, reimbursement for up to one year of executive-level outplacement services.

As a condition of receiving the severance benefits under the employment agreements, each of the executive officers must execute a release of claims and comply with restrictive covenants concerning noncompetition and nonsolicitation of customers and employees for one to two years following the applicable date of termination and perpetual nondisparagement.

Although it is not currently anticipated that any of Charter's executive officers will experience a termination of employment in connection with the completion of the mergers, for an estimate of the amounts that would become payable to each of Charter's named executive officers under their employment agreements if a severance-qualifying termination of employment were to occur immediately following consummation of the

Table of Contents

mergers, see Quantification of Payments and Benefits to Charter's Named Executive Officers below. Charter estimates that the aggregate amount that would become payable to Richard Dykhouse under his employment agreement if the effective time of the mergers was August 7, 2015 and he incurred a severance-qualifying termination of employment on that date and immediately following consummation of the mergers, is \$1,705,699.

Severance Plan for Senior Vice Presidents

Charter currently sponsors a severance plan for its senior vice presidents, including Kevin Howard. This plan, which was in effect prior to the Charter board of directors' evaluation and negotiation of the various transaction agreements, would provide a participant with the following severance benefits upon an involuntary termination of employment by Charter without cause, whether or not in connection with a change in control:

Severance Payment. A cash severance payment equal to the participant's annual base salary and target annual bonus, which severance payment is payable in equal installments over one year following the date of termination;

Health Insurance. A lump sum payment equal to the cost of health, dental and vision insurance benefit continuation under COBRA for one year;

Outplacement. Executive-level outplacement services for one year; and

Prorated Annual Bonus. In addition, although not contemplated by the severance plan, in the ordinary course of business, Charter would expect to pay a prorated bonus to an executive officer upon an involuntary termination of employment by Charter without cause or a resignation for good reason.

As a condition of receiving the severance benefits under the severance plan, each participant must execute a release of claims and comply with restrictive covenants concerning noncompetition, nonsolicitation and nondisparagement.

Although it is not currently anticipated that any of Charter's executive officers will experience a termination of employment in connection with the completion of the mergers, Charter estimates that the aggregate amount that would become payable to Kevin Howard under the severance plan if the effective time of the mergers was August 7, 2015 and he incurred a severance-qualifying termination of employment on that date and immediately following consummation of the mergers, is \$707,541.

New Employment Agreement for Thomas Rutledge

In connection with the consummation of the proposed mergers and other transactions, Charter's chief executive officer, Thomas Rutledge, is expected to be offered the role of chief executive officer and chairman of New Charter and a new five-year employment agreement with New Charter, the terms of which are expected to be negotiated prior to consummation of the proposed mergers and other transactions.

Beneficial Ownership of Directors and Executive Officers

Charter's directors and executive officers hold shares of Charter Class A common stock, which will be treated like all other shares of Charter Class A common stock in the mergers. See Certain Beneficial Owners of Charter Class A Common Stock Security Ownership by the Charter Board of Directors and Executive Officers beginning on page 330 of this joint proxy statement/prospectus for further details.

Indemnification and Insurance

Pursuant to the terms of the merger agreement, following the effective time, New Charter will indemnify present and former directors and officers of Charter in connection with any claim arising out of actions or omissions occurring at or prior to the effective time to the fullest extent permitted under law, as described in The Merger Agreement Indemnification and Insurance.

Quantification of Potential Payments to Charter s Named Executive Officers in Connection with the Transactions

The information below is intended to comply with Item 402(t) of Regulation S-K, which requires disclosure of information about compensation for each of Charter s named executive officer that is based on or otherwise relates to the mergers. Under applicable SEC rules, Charter s named executive officers are required to consist of Charter s executive officers who, during 2014, served as Charter s principal executive officer and principal financial officer and the three most highly compensated executive officers who were serving as such at the end of 2014. For 2014, Charter s named executive officers were:

Thomas M. Rutledge, who served as President and Chief Executive Officer during 2014;

Christopher L. Winfrey, who served as Executive Vice President and Chief Financial Officer during 2014;

John Bickham, who served as Chief Operating Officer during 2014;

Donald F. Detampel, Jr., who served as Executive Vice President and President, Commercial Services during 2014; and
