Dear valued Envivio customers and partners,

This morning we announced that Envivio entered a definitive agreement to be acquired by Ericsson, the leading provider of communications technology and services, and the market leader in video. We are excited about this transaction and for the future of Envivio. The uniting of Envivio's pioneering software solutions and Ericsson's strength in the marketplace is a great combination for our employees, customers and stockholders. Ericsson and Envivio share a similar vision for the future of video processing and the shift to virtualized software-based solutions. We believe that Ericsson brings tremendous resources, a broad product and solutions portfolio, and a global sales and services reach with scale to accelerate the worldwide adoption of our software-based solutions.

Moving forward, as part of Ericsson's TV and Media portfolio, Envivio will continue to develop our current software-based solutions for video processing, delivery and monetization. As part of Ericsson, we will also have access to greater financial and human resources, and be able to combine to create a much broader product and solutions portfolio. As a valued customer, we want to assure you that we are dedicated to providing the same quality of products, service and support as you have come to expect from our company. We intend to make this transition as smooth as possible and are taking great efforts to ensure that there is no impact to your operations.

We want to thank everyone who has played a role in Envivio's success over the past 15 years. We appreciate your business and look forward to continuing to work with you in the future. Should you have any questions or concerns, please reach out to your local sales representative or contact us directly at [info@envivio.com](mailto:info@envivio.com).

A press release regarding the transaction is also available on the website [www.envivio.com](http://www.envivio.com).
