Allegion plc (the "issuer") is offering \$300,000,000 in aggregate principal amount of its 5.875% Senior Notes due 2023 (the "notes").

The issuer will pay interest on the notes on March 15 and September 15 of each year, beginning on March 15, 2016. The notes will mature on September 15, 2023. The notes will be issued only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

At any time on and after September 15, 2018, the issuer may redeem the notes, in whole or in part, at the redemption prices set forth in this prospectus. At any time prior to September 15, 2018, the issuer may redeem all or a portion of the notes at a "make-whole" redemption price set forth in this prospectus, plus accrued and unpaid interest to, but not including, the redemption date. In addition, at any time prior to September 15, 2018, the issuer has the option to, on one or more occasions, redeem up to 35% of the aggregate principal amount of the notes at a redemption price equal to 105.875% of the principal amount of the notes redeemed, plus accrued and unpaid interest thereon to, but not including, the redemption date, with the net cash proceeds of certain equity offerings. See "Description of the Notes" Optional Redemption.

The notes will be the issuer's senior unsecured indebtedness and will rank equally with all of its existing and future senior unsecured indebtedness and effectively junior to its existing and future secured indebtedness (including indebtedness with respect to its senior secured credit facilities, as described herein) to the extent of the value of the assets securing such indebtedness. The notes will be guaranteed on a senior unsecured basis by certain of the issuer's subsidiaries that are or become guarantors or borrowers under the issuer's senior secured credit facilities or that guarantee certain other debt of the issuer or a guarantor, as further described herein. The guarantees will be senior unsecured obligations of each guarantor and will rank equally with all of such guarantor's existing and future senior unsecured obligations and effectively junior to such guarantor's existing and future secured obligations to the extent of the value of the assets securing such obligations. The notes will be structurally subordinated to all of the existing and future liabilities, including trade payables, of the issuer's existing and future subsidiaries that do not guarantee the notes.

The notes are a new issue of securities with no established trading market. We intend to apply to list the notes on the New York Stock Exchange (the "NYSE"). If the application is approved, we expect trading in the notes on the NYSE to begin within 30 days after the original issue date of the notes.

Investing in the notes involves substantial risks. Please read **Risk Factors** beginning on page 23 of this prospectus and the risk factors included in our periodic reports that we file with the Securities and Exchange Commission before you invest in the notes.

On December 1, 2013, we became a stand-alone public company after Ingersoll Rand completed the separation of these businesses from the rest of Ingersoll Rand by transferring these businesses from Ingersoll Rand to us and the issuance of our ordinary shares directly to Ingersoll Rand's shareholders (the "Spin-off"). We are headquartered in Dublin, Ireland, with our North American corporate office in Carmel, Indiana. We employ approximately 8,500 people and have a global manufacturing footprint with 26 production facilities in 13 countries. For the fiscal year ended December 31, 2014, we generated revenues and Adjusted EBITDA of \$2,118 million and \$440 million, respectively. Our Industry

We estimate the size of the global markets we serve was approximately \$30 billion in revenue in 2014, which included \$26 billion for mechanical hardware and electronic security products and more than \$5 billion for time, attendance and workforce productivity systems and systems integration, with compound annual growth of about 1 to 2% over the past three years. These growth rates primarily reflect cyclical challenges in the commercial and residential construction markets throughout North America and Europe, as certain developing economies experienced higher growth rates during this period. Additionally, growth in electronic security products and solutions continues to outperform the industry as a whole, as end-users adopt newer technologies in

Table of Contents

their facilities. We expect the security products industry will benefit from favorable long-term demographic trends, such as continued urbanization of the global population, increased concerns about safety and security and technology-driven innovation.

The security products markets are highly competitive and fragmented throughout the world, with a number of large multi-national companies and thousands of smaller regional and local companies. This high fragmentation primarily reflects local regulatory requirements and highly variable end-user needs. We believe our principal global competitors are Assa Abloy AB, DORMA Holding GmbH, Kaba Holding AG, and Stanley Black & Decker Inc. We also face competition in various markets and product categories throughout the world, including from Spectrum Brands Holdings, Inc. in the North American residential market. As we move into more technologically-advanced product categories, we may also compete against smaller, more specialized competitors.

Our success depends on a variety of factors, including brand and reputation, product breadth, quality and delivery capabilities, price and service capabilities. As many of our businesses sell through wholesale distribution, our success also depends on building and partnering with a strong channel network. Although price often serves as an important customer decision criterion, we also compete based on the breadth and quality of our products and solutions, our ability to custom-configure solutions to meet individual end-user requirements and our global supply chain.

Our Competitive Strengths

Portfolio of Market-Leading Brands

Many of our brands have established leadership positions in their markets and product categories, while also having longstanding reputations for innovation and quality. Several of our brands created their respective product categories, including Schlage (cylindrical locks), Von Duprin (exit devices), LCN (door closers) and CISA (electrically controlled locks). We believe that our Schlage locks, Von Duprin exit devices and LCN closers rank No. 1 in their respective categories in North America, and CISA security products rank No. 1 in its product category in Italy. We also believe that many other of our brands rank No. 2 or No. 3 in their primary geographies, including Kryptonite (U.S.), Bricard (France), Briton (United Kingdom) and Interflex (Germany). The strength of these brands in their primary geographies has allowed us to extend many of them into new markets.

We sell products under more than 25 brand names around the world. We believe that employing specific brands in targeted markets creates strong relationships with those brands.

Global, Diversified Product Offering

We offer an extensive and versatile portfolio of mechanical and electronic products to meet the needs of our end-users, including products in a broad range of styles and colors with a variety of specific functionalities. For example, we can deliver more than 70 million unique configurations of our Von Duprin exit devices for our end-users, and we generally ship any sized order within one week from receipt of the order.

Our portfolio of products and solutions also positions us favorably as the security products industry becomes increasingly electronic. We offer wireless access and biometric access control solutions, electro-magnetic locks, electric latches and automatic door operators, in addition to numerous other supporting components. Our electronics strategy includes designing products that employ interoperable, non-proprietary technologies, which we believe provides end-users with a level of flexibility that they prefer. For example, our Schlage NDE with ENGAGE series provides an easy-to-install open architecture product at price points approaching those of mechanical locks. We are also investing in our residential solutions and preparing for a keyless world, with our Schlage Connect, Touch and

Sense products.

Table of Contents***Expertise Required to Design Custom-Configured Solutions for Our End-Users***

The functional needs, regulatory requirements and aesthetics of every door opening and the related room must be considered when determining their security requirements. As a result, no standard opening exists. Through the long operating history of our businesses, we have developed the expertise required to address a wide range of entryway security needs. We combine product breadth and depth with aesthetics and functionality to benefit our customers and fulfill their diverse and often complex needs. We have deep building code expertise, which is important given most of the markets we serve have complex national, regional and local building codes and standard-making bodies that require end-users to adhere to specific safety requirements. The long operating history of our businesses provides us with a depth of experience that allows us to identify and deliver the right security solutions that meet these requirements and the end-users particular needs. We employ global teams of specification writers who work with end-users, architects, contractors and distribution partners to design solutions tailored to their unique needs, while meeting the applicable building codes and standards.

Long History of Delivering Innovative and High-Quality Products and Solutions

We believe we have a highly regarded reputation for product development and innovation, built over the long operating history of our businesses. For example, Von Duprin, which was established in 1908, was awarded the first exit device patent in 1909; Schlage, which was established in 1920, was awarded the first patents granted for the cylindrical lock and the push-button lock; and CISA, established in 1926, devised the first electrically controlled lock.

We have built upon our brand-creation heritage and strong reputation for innovation by continually improving our award-winning product lines and introducing new mechanical and electronic security products. We employ several hundred engineers around the world who work to support and build on our existing product portfolio. Recent examples of successful product launches are illustrated in the table below:

Product Launch	Year	Innovation
Schlage NDE Series wireless commercial lock	2014	Designed to be easy to install, connect, manage and use with ENGAGE connectivity platform
Schlage Touch, Connect, Sense	2014/15	New residential electronic locking platforms that provide for keyless entry (Touch), connected locking (Connect) and integration with the Apple HomeKit platform (Sense)
AX Platform	2014	The first exit device that meets California's stringent maximum force requirements
CISA eSigno Platform	2013	Allows hotel owners to choose easily between different product types compatible with a single modular platform
aptiQ Mobile Platform	2013	A new generation of access control that allows users to replace wallets, keys and cards with smart-phone based credentials

Robust Network of Value-Added Channel and Distribution Relationships

We sell our products through diverse distribution and retail channels, ranging from specialty distribution to wholesalers. We have also built a strong network of more than 7,000 channel partners that help our end-users find the right solutions for their needs. Our channel partners that sell to customer and institutional end-users helped fulfill and

install orders to more than 30,000 end-users in 2014.

Table of Contents

Important to the success of these relationships, we support our partners by working directly with architects, contractors and security consultants to help design solutions that meet the functional, regulatory and aesthetic needs of end-users. We educate our channel partners and our end-users on our total cost of ownership value proposition, which emphasizes the quality and durability of our products. These consultative relationships result in increased knowledge and appreciation for the benefits of our products and solutions.

We also sell through a variety of retail channels, ranging from large do-it-yourself home improvement centers to small, specialty showroom outlets. We work with our retail partners on developing marketing and merchandising strategies to maximize their sales per square foot of shelf space.

We leverage our brand leadership positions, dedicated account resources and ongoing collaboration with our channel partners, to develop targeted marketing strategies and activities that maximize return on investment, anticipate long-term consumer trends and drive product development decisions.

Enterprise Excellence Capabilities that Enable a Highly Variable Product Mix While Exceeding Customer Expectations

The successful design and completion of any door opening solution requires close coordination among the end-user, the installer and the manufacturer. Larger projects, which involve thousands of different parts and precise end-user specifications, amplify this complexity because supply must meet demanding construction timetables.

Our global manufacturing scale, experience and operational capabilities enable us to deliver a high-quality end-user experience. We operate 26 production facilities worldwide and primarily manufacture our products and systems in regions of use to deliver them on a timely basis. For several product lines, including Schlage, Von Duprin and LCN, we ship our products, on average, in less than one week from receipt of an order, regardless of configuration. Our enterprise capabilities enable us to better meet our end-users' needs by allowing us to make rapid production adjustments. We believe our enterprise excellence program is an important element of our ability to deliver strong financial performance and to continue to re-invest in our growth initiatives. We define enterprise excellence as our lean operations, specifically our ability to reduce waste and shorten cycle times in all facets of our business, from production to customer ordering to cash processes.

To date, our programs have been successful. For example, our accessories business has increased on-time delivery rates to more than 95%, enabling double-digit growth. In addition, our CISA key systems business has increased on-time delivery rates to more than 95% helping drive high single-digit growth in a flat market.

Strong Financial Performance and Cash-Generation Capabilities

We have maintained strong operating profit margins and cash-flow generation, despite challenging economic conditions in some of our largest geographic markets in recent years. Since 2000, for example, our average adjusted EBITDA margin has been more than 20%, reflecting consistent performance regardless of underlying economic conditions. We are able to translate this strong operating performance into available cash: our available cash flow (defined as cash from operations less capital expenditures) averaged more than 100% of net earnings from 2012-2014.

Experienced Management Team

We have a highly experienced executive management team with a track record of operational excellence and extensive industry expertise. Our Chief Executive Officer, David Petratis, joined Allegion in 2013, after having served as Chairman, President and CEO of Quanex Building Products and CEO of North American operations for Schneider

Electric. He has a substantial background in the building products industry, as well as strong experience with operations and lean manufacturing, distribution and channel marketing and management, the

merger and acquisition process and strategy development. Our Chief Financial Officer, Patrick Shannon, joined Allegion in 2013, having previously served as Ingersoll Rand's Vice President and Treasurer as well as in various other corporate finance roles within Ingersoll Rand since 2002. Tim Eckersley, our President of the Americas region, was named to his role in 2013, having previously served as President Commercial Americas within Ingersoll Rand's Security Technology segment since 2007. He has also served in senior roles at Nokia and Comsearch. Lucia Veiga Moretti joined Allegion in 2014 as President of the EMEA region, after holding 25 years of progressively senior roles at Delphi Automotive Corporation. William Yu, our President of the Asia-Pacific region, joined Allegion after 16 years at Ingersoll Rand in various leadership roles within the Security Technologies, Industrial Technologies and Climate Solutions sectors.

Our Business Strategy

Expand in Core Markets

With leadership positions in our markets and significant expertise, we possess insight into both end-user needs and regulatory requirements in key market segments, including education (university and primary), healthcare, government, general commercial and residential (single- and multi-family). We have developed specific value propositions across these segments and will continue to leverage our knowledge and experience to identify key opportunities that better serve our end-users. We have also invested in underserved areas of our markets in the past two years. For example, we have invested in both front-end and product capabilities to enhance our position in the U.S. repair and replace commercial market. As part of our effort to improve profitability of our European operations, we are investing in enhancing our specification and new construction capabilities in that region.

Innovation in New and Existing Product Categories

End-users are shifting gradually toward the electronic control of their security products and solutions. We believe that electronic-related product sales are growing at nearly twice the rate of traditional mechanical solutions. We believe we are a leading global manufacturer and marketer of electro-mechanical locks. We intend to leverage this position and expand our global capabilities in other product categories through continued product development and investments, while maintaining our position as innovation leader in our legacy categories. Our recent successes serve as a testament to our commitment: the 2014 launch of Schlage NDE with ENGAGE that combines electronic lock security with the ease of mechanical lock installation, and was awarded a platinum award from ADEX design as well as the A+ award from Architizer; the launches of Schlage's Touch, Connect and Sense platforms in 2014 and 2015 enhance keyless entry and wireless connectivity capabilities of our residential locking platform; and the European launch of our CISA hospitality platform in 2013 that allows hotel owners to choose easily between different product types compatible with a single modular platform.

Opportunistic Acquisitions

A disciplined approach to acquisitions is an important part of our growth strategy. The security products industry is highly fragmented, particularly in developing markets and emerging technology product segments. This creates numerous acquisition opportunities. We are targeting acquisitions that will broaden our product portfolio as well as expand our geographic footprint and emerging technologies. Since the date of the Spin-off, we have added several strong companies to our portfolio that are indicative of the execution of this strategy. This includes our recently completed acquisitions of SimonsVoss Technologies GmbH (SimonsVoss), a leading European electronic locking provider, AXA Stenman Holding B.V. (AXA), a leading portable locking and home security company based in the Netherlands, and Milre Systek Co., Ltd. (Milre), an electronic locking provider based in South Korea. We have completed six other acquisitions and/or investments since the date of the Spin-off, with transactions in each of our

geographic regions.

Enterprise Excellence

The foundation of the business value transformation process at Allegion is rooted in the Allegion business system and our enterprise excellence initiatives. Enterprise excellence focuses on providing superior value to our customers and, by doing so, using these capabilities as competitive advantages to improve the overall customer experience. The application of enterprise excellence principles encompasses all areas and functions of Allegion. For example, our customer care and sales organizations focus on reducing issues per quoted order and reducing quote creation cycle time. In addition, our product management teams are involved with all product value streams and are the key drivers in defining customer-oriented value stream objectives. We have seen demonstrable success in this strategy. For example, our accessories business has increased on-time delivery rates to more than 95%, enabling double-digit growth. In addition, our CISA key systems business has increased on-time delivery rates to more than 95% helping drive high single-digit growth in a flat market.

Growth in Emerging Markets

We believe the global security products market provides a multitude of future growth opportunities as safety demands increase and security requirements and sophistication levels evolve. We also believe that long term, economically developing markets will grow faster than the global market average as countries achieve enhanced living standards and experience continued urbanization. We believe our significant industry experience, deep knowledge of commercial and residential building codes and track record of innovation give us unique opportunities to help shape the security products industry in these markets. We are committed to opportunistically investing further in attractive developing markets, including opening additional sales and specifications offices, investing in localized product and supply-chain capabilities and working with local partners and code-making bodies to promote effective and consistent safety and security standards.

Recent Developments

Acquisitions

On September 1, 2015, we acquired SimonsVoss for approximately \$236.4 million. SimonsVoss, headquartered in Munich, Germany, is an electronic lock company in the European electronic market segment. On September 1, 2015, we acquired AXA for approximately \$208.3 million. AXA, headquartered in Veenendaal, the Netherlands, manufactures and sells a branded portfolio of bicycle locks and lights as well as a wide variety of window and door hardware. We funded the acquisition of SimonsVoss and AXA using \$400.0 million of borrowings under our senior secured revolving credit facility (the Acquisition Borrowings) and cash on hand.

In addition, on July 31, 2015, we acquired Milre for approximately \$25.0 million. Milre, headquartered in South Korea, is an electronic lock manufacturer in the Asian electronic market segment.

We refer to our acquisitions of SimonsVoss, AXA and Milre as the Acquisitions. SimonsVoss, AXA and Milre generated combined revenue and EBITDA of approximately \$161.1 million and \$35.6 million, respectively, in 2014.

Divestitures

On September 7, 2015, we entered into a definitive agreement to sell a majority ownership in our system integration brand in our Asia Pacific portfolio (the SI Business). We will retain a 15% ownership interest in the SI Business, and the divestiture is expected to close in the fourth quarter of 2015. In connection with this divestiture, we expect to record a non-cash charge of approximately \$80 million to \$90 million. See Unaudited Pro Forma Condensed

Combined Financial Data for important information regarding the pro forma effect of the sale of the SI Business on our historical financial data.

Table of Contents

On August 28, 2015, we announced the divestiture of our majority ownership in our Venezuelan business to the minority owner. In connection with this divestiture, we will record a non-cash charge currently estimated to be \$26 million, which primarily represents cumulative currency translation adjustments that have been deferred in equity and will be reclassified to a loss in our net earnings from continuing operations.

Credit Facility Amendment

Following our completion of this offering, we expect to amend our existing senior secured credit facilities to extend their maturity from 2019 to 2020 and to modify certain covenants. We expect our senior secured credit facilities, as amended, to provide for (i) a senior secured Term A facility in an aggregate principal amount of \$938.4 million due in 2020 and (ii) a \$500.0 million senior secured revolving credit facility maturing in 2020. We do not expect to incur any additional borrowings in connection with the amendment of our senior secured credit facilities. The terms of our amended senior secured credit facilities are still being negotiated and remain subject to changes. In addition, our entry into the amendments to our senior secured credit facilities is subject to a number of conditions, including market conditions. This offering is not conditioned upon the closing of the amendments to our senior secured credit facilities. See *Description of Other Indebtedness* for additional information regarding our senior secured credit facilities.

Sources and Uses

We intend to use the net proceeds from this offering, as well as cash on hand, to repay approximately \$300.0 million of the Acquisition Borrowings.

We refer to the Acquisition Borrowings, this offering and the use of proceeds thereof as described herein as the Financing Transactions. We refer to the Financing Transactions and the Acquisitions, collectively, as the Transactions.

The following table illustrates the estimated sources and uses of funds for this offering. Actual amounts may vary from our estimates depending on several factors, including, among other things, differences in our estimates of fees, expenses and other costs.

In the event that any such withholding or deduction is so required, we will pay to each beneficial owner such additional amounts as may be necessary to ensure that the net amount received by the holder after such withholding or deduction (and after deducting any taxes on the additional amounts) will equal the amounts which would have been received by the holder had no such withholding or deduction been required, subject to certain exceptions set forth under <i>Description of the Notes Additional Amounts</i>.</p>

Table of Contents

See Description of the Notes Optional Redemption.

Tax Redemption

If, as a result of certain tax law changes, the issuer or a guarantor would be obligated to pay additional amounts in respect of withholding taxes or other charges as described above under Additional Amounts with respect to the notes, and such obligation cannot be avoided by taking reasonable measures available to the issuer or a guarantor, the issuer may redeem the notes in whole, but not in part, at a price equal to 100% of the principal amount thereof plus accrued and unpaid interest, if any, and additional amounts, if any, to the date of the redemption. See Description of the Notes Redemption for Taxation Reasons.

Change of Control

Upon a change of control (as defined under Description of the Notes), the issuer will be required to make an offer to purchase the notes. The purchase price will equal 101% of the principal amount of the notes on the date of purchase plus accrued interest to, but not including, the purchase date. We may not have sufficient funds available at the time of any change of control to make any required debt repayment (including repurchases of the notes). See Risk Factors Our ability to repurchase the notes upon a change of control may be limited.

Ranking

The notes will rank senior in right of payment to our future subordinated debt. The notes will rank equally to all of our other unsecured and unsubordinated indebtedness, but will effectively be subordinated to all of our secured indebtedness, including the senior secured credit facilities, to the extent of the value of the assets securing that indebtedness. The notes will also be structurally subordinated to all liabilities of our subsidiaries that do not guarantee the notes. For additional information about certain circumstances under which the guarantees will be released, see Description of the Notes Certain Covenants Effectiveness of Covenants and Description of the Notes Guarantees.

As of June 30, 2015, on an as-adjusted basis giving effect to the Transactions, the notes would have been effectively subordinated to approximately \$1,038.4 million of secured indebtedness of the issuer and the subsidiary guarantors (described below in Guarantees) and there would have been undrawn availability under our revolving credit facility of approximately \$372.7 million, after giving effect to \$27.3 million of outstanding and undrawn letters of credit, which would have reduced available borrowings, all of which would be secured indebtedness.

Guarantees

The notes will be fully and unconditionally guaranteed on a senior unsecured basis by each restricted subsidiary of the issuer that guarantees

obligations, or is a borrower, under the senior secured credit facilities or that guarantees other series of capital markets debt securities of the issuer or a guarantor issued in an aggregate principal amount of \$100.0 million or more. Any guarantee of the notes will be automatically released in the event such guarantee is released under

Table of Contents

the senior secured credit facilities. The guarantees will rank equally to all other unsecured and unsubordinated indebtedness of the guarantors, but will be effectively subordinated to all of the secured indebtedness of the guarantors to the extent of the value of the assets securing that indebtedness.

Allegion US Holding Company Inc., Schlage Lock Company LLC and Von Duprin LLC will guarantee the notes upon their issuance. For the fiscal year ended December 31, 2014 and the six months ended June 30, 2015, these subsidiaries represented approximately 61.1% and 69.3% of our total net revenues, 87.5% and 106.9% of our total income before income taxes and 77.5% and 88.8% of our Adjusted EBITDA, respectively, and as of June 30, 2015, these subsidiaries represented approximately 39.7% of our total assets and 39.5% of our total liabilities, in each case after giving effect to intercompany eliminations.

The guarantees of the guarantors will be automatically released if the notes are rated investment grade (as defined in the Indenture) by Moody's Investors Service, Inc. ("Moody's") and Standard & Poor's Ratings Services ("S&P") and in certain other circumstances. See Description of the Notes Certain Covenants Effectiveness of Covenants and Description of the Notes Guarantees.

Certain Covenants

The terms of the notes restrict our ability and the ability of certain of our subsidiaries (as described in Description of the Notes Certain Covenants) to:

incur, assume or guarantee additional debt or issue certain preferred shares;

pay dividends on or make other distributions in respect of our capital stock or make other restricted payments;

make certain investments;

sell or transfer certain assets;

create liens on certain assets to secure debt;

consolidate, merge, sell, or otherwise dispose of all or substantially all of our assets;

enter into certain transactions with affiliates; and

designate our subsidiaries as unrestricted.

These covenants are subject to a number of important qualifications, limitations and exceptions. See [Description of the Notes](#) [Certain Covenants](#). Certain covenants are also subject to termination in the event that the notes have investment grade ratings from both Moody's and S&P.

Use of Proceeds

We will use the proceeds of this offering and cash on hand to repay approximately \$300.0 million under our revolving credit facility.

standards of due diligence with respect to, the registration statement and this prospectus. impairment charges; gains on the sale of property; charges related to the devaluation of the Venezuelan bolivar; restructuring expenses; costs incurred as part of the Spin-off; and merger and acquisition costs related to the acquisition of SimonsVoss, AXA and Milre. We believe that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA are appropriate to provide additional information to investors about unusual items that we do not expect to continue in the future. As a result, we believe that Adjusted EBITDA is a useful supplement to net earnings for both us and our investors in evaluating the operating performance of our company. However, EBITDA and Adjusted EBITDA are not recognized terms under GAAP and do not purport to be alternatives to net earnings as a measure of operating performance. Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow for management's discretionary use, as they do not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Because not all companies use identical calculations, these presentations of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. The following table reconciles EBITDA and Adjusted EBITDA to Net earnings (loss).

In addition, the definition of EBITDA in the Indenture will permit us to make other adjustments to EBITDA, including with respect to: fees and expenses related to financing activities, acquisitions and dispositions; non-cash charges, including certain impairments; projected cost savings, operational improvements and synergies; and litigation costs and expenses. Because the definition of EBITDA as defined in the Indenture permits additional addbacks to those presented here, we would expect that EBITDA as defined for purposes of the notes would be substantially higher than Adjusted EBITDA as presented in this prospectus. This will have important consequences for holders of the notes because EBITDA as defined for purposes of the notes is an important metric for our ability to incur additional debt, including secured debt, and make restricted payments such as dividends and certain types of investments. Accordingly, investors should not place undue reliance on our presentation of Adjusted EBITDA in this

prospectus. See Risk Factors The calculation of EBITDA under the Indenture permits certain estimates and assumptions that may differ materially from actual results.

- (f) Adjusted EBITDA for the twelve months ended June 30, 2015 has been calculated by subtracting Adjusted EBITDA for the six months ended June 30, 2014 from Adjusted EBITDA for the year ended December 31, 2014 and adding Adjusted EBITDA for the six months ended June 30, 2015.

RISK FACTORS

You should carefully consider the risks described below, together with all the other information included or incorporated by reference in this prospectus, in evaluating us and the notes offered hereby. The risks associated with our business can be found in our Annual Report on Form 10-K for the year ended December 31, 2014, which is incorporated by reference herein. If any of the risks described below actually occurs, our business, financial condition, results of operations and cash flows could be materially and adversely affected. Any such adverse effect may adversely affect our ability to repay the notes and as a result you could lose all or part of your investment in the notes. Our business may also be adversely affected by risks and uncertainties not known to us or risks that we currently believe to be immaterial.

Our substantial leverage could harm our business by limiting our available cash and our access to additional capital and, to the extent of our variable rate indebtedness, exposing us to interest rate risk.

Following the Financing Transactions, we will continue to have substantial levels of outstanding indebtedness. As of June 30, 2015, on an as-adjusted basis giving effect to the Transactions, we would have had approximately \$1,652.3 million of indebtedness, and we would have had approximately \$372.7 million of additional borrowings available under our senior secured revolving credit facility, after giving effect to \$27.3 million of outstanding and undrawn letters of credit, which would have reduced available borrowings. Our indebtedness will result in substantial interest expense and may limit our ability to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions, restructuring and general corporate or other purposes, limit our ability to adjust to changing market conditions and place us at a competitive disadvantage compared to our less leveraged competitors. Further volatility in the credit markets would adversely impact our ability to obtain favorable terms on financing in the future. In addition, a substantial portion of our cash flows from operations will be dedicated to the payment of principal and interest on our indebtedness and will not be available for other purposes, including our operations, capital expenditures, payment of dividends, share repurchase programs and future business opportunities. We may be more vulnerable than a less leveraged company to a downturn in the general economic conditions or in our business, or we may be unable to carry out capital spending that is important to our growth. We may be vulnerable to interest rate increases, as certain of our borrowings, including those under our senior secured credit facilities, will be at variable rates. We can give no assurance that our business will generate sufficient cash flow from operations, that revenue growth or operating improvements will be realized, or that future borrowings will be available under our senior secured credit facilities in an amount sufficient to enable us to service our indebtedness or to fund other liquidity needs.

We may not be able to generate sufficient cash to service all of our indebtedness and may be forced to take other actions to satisfy our obligations under our indebtedness, which actions may not be successful.

Our ability to make scheduled payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. Our cash interest payments for 2014 were approximately \$45.0 million, and we expect that amount to increase based on the debt anticipated to be incurred as part of the Financing Transactions. We may not be able to maintain a level of cash flow from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay capital expenditures, reduce or eliminate the payment of dividends, sell assets, seek additional capital or seek to restructure or refinance our indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. In the absence of such operating results and resources, we

could face substantial liquidity problems and might be required to sell material assets or operations to attempt to meet our debt service and other obligations. The terms of the credit agreement governing our senior secured credit facilities, the indenture governing the 5.75% Senior Notes due 2021 (the 2013 Notes) and the Indenture contain or will contain customary financial covenants that may

Table of Contents

restrict our ability to use the proceeds from asset sales. We may not be able to consummate those asset sales to raise capital or sell assets at prices that we believe are fair, and proceeds that we do receive may not be adequate to meet any debt service obligations then due.

Despite our expected levels of indebtedness, we may still be able to incur substantially more debt, which could further exacerbate the risks associated with our substantial leverage.

We may be able to incur substantial additional indebtedness in the future. Although the terms of the credit agreement governing our senior secured credit facilities, the indenture governing the 2013 Notes and the Indenture contain or will contain customary restrictions on the incurrence of additional indebtedness, these restrictions will be subject to a number of qualifications and exceptions, and the indebtedness incurred in compliance with these restrictions could be substantial. In addition, our revolving credit facility will permit borrowings of up to \$372.7 million on an as-adjusted basis giving effect to the Transactions, after giving effect to \$27.3 million of outstanding and undrawn letters of credit, which would have reduced available borrowings. If we incur additional debt above the levels we expect after giving effect to the Financing Transactions, the risks associated with our leverage, including those described above, would increase.

The terms of our debt covenants could limit how we conduct our business and our ability to raise additional funds.

The terms of the credit agreement governing our senior secured credit facilities, the indenture governing the 2013 Notes and the Indenture will restrict us from taking certain actions that we may think are in the best interests of our shareholders. A breach of the covenants or restrictions could result in a default under the applicable indebtedness. As a result of these restrictions, we may be:

limited in how we conduct our business;

limited in our ability to pay dividends or make other distributions to our shareholders;

unable to raise additional debt or equity financing to operate during general economic or business downturns; or

unable to compete effectively or to take advantage of new business opportunities.

These restrictions may affect our ability to grow in accordance with our plans.

These covenants and restrictions could affect our ability to operate our business, and may limit our ability to react to market conditions or take advantage of potential business opportunities as they arise. Additionally, our ability to comply with these covenants may be affected by events beyond our control, including general economic and credit conditions and industry downturns, and the other factors described in Part I, Item 1A, captioned "Risk Factors," of our Annual Report on Form 10-K for the year ended December 31, 2014, incorporated by reference into this prospectus.

If we fail to comply with the covenants in our credit facilities and are unable to obtain a waiver or amendment, an event of default would result, and the lenders could, among other things, declare outstanding amounts due and payable, refuse to lend additional amounts to us, and require deposit of cash collateral in respect of outstanding letters

of credit, which may trigger a cross-default on the notes. If we were unable to repay or pay the amounts due under our senior secured credit facilities, the lenders could, among other things, proceed against the collateral granted to them to secure such indebtedness, which would reduce the amount of cash-generating assets available to service interest payments on the notes or pay the principal thereon when due and/or reduce the pool of assets available to holders of the notes in a bankruptcy situation.

Table of Contents

The guarantees and many of the restrictive covenants contained in the Indenture will be terminated if the notes are rated investment grade by Moody's and S&P and no default has occurred and is continuing.

Many of the covenants in the Indenture will be terminated if the notes are rated investment grade (as defined in the Indenture) by Moody's and S&P, provided that at such time no default with respect to the notes has occurred and is continuing. There can be no assurance that the notes will ever be rated investment grade or that if they are rated investment grade, that the notes will maintain such ratings. Termination of these covenants would allow us to engage in certain transactions that would not be permitted while these covenants were in force and these transactions will not result in an event of default. See Description of the Notes Certain Covenants Effectiveness of Covenants.

In addition, a subsidiary guarantor will be automatically released from its guarantee under certain circumstances, including if the notes are rated investment grade by both Moody's and S&P (for the avoidance of doubt, the guarantees will never be reinstated thereafter, even if the credit ratings assigned to the notes later fall below investment grade). See Description of the Notes Guarantees and Description of the Notes Certain Covenants Effectiveness of Covenants. the guarantee of a subsidiary is released, the noteholders will be structurally subordinated to the claims of creditors of such subsidiary. See The notes will be structurally subordinated to the existing and future liabilities of certain of our subsidiaries which are not guaranteeing the notes.

The notes and the related guarantees will not be secured by any of our assets or the assets of the guarantors and therefore will be effectively subordinated to our and their existing and future secured indebtedness.

The notes and the related guarantees will be general unsecured obligations ranking effectively junior in right of payment to all existing and future secured debt, including borrowings under our senior secured credit facilities to the extent of the collateral securing such debt. In addition, our senior secured credit facilities, the indenture governing the 2013 Notes and the Indenture will permit the incurrence of additional debt in certain circumstances, some of which may be secured debt. In the event that we are declared bankrupt, become insolvent or are liquidated or reorganized, creditors whose debt is secured by our and the guarantors' assets will be entitled to the remedies available to secured creditors under applicable laws, including the foreclosure of the collateral securing such debt, before any payment may be made with respect to the notes or the guarantees. As a result, there may be insufficient assets to pay amounts due on the notes, and holders of the notes may receive less, ratably, than holders of secured indebtedness. As of June 30, 2015, on an as-adjusted basis giving effect to the Transactions, the notes would have been effectively subordinated to approximately \$1,038.4 million of our secured indebtedness, and we would have had approximately \$372.7 million of additional borrowings available under our senior secured revolving credit facility, after giving effect to \$27.3 million of outstanding and undrawn letters of credit, which would have reduced available borrowings.

The notes will be structurally subordinated to the existing and future liabilities of certain of our subsidiaries which are not guaranteeing the notes.

The notes offered hereby will not be guaranteed by certain of our current and future subsidiaries, including all of our foreign subsidiaries. In addition, a subsidiary guarantor will be released from its guarantee under certain circumstances. See Description of the Notes Guarantees and Description of the Notes Certain Covenants Effectiveness of Covenants. As a result, the notes will be structurally subordinated to all existing and future liabilities of such non-guarantor subsidiaries. Our rights and the rights of our creditors to participate in the assets of any non-guarantor subsidiary in the event that such a subsidiary is liquidated or reorganized will be subject to the prior claims of such subsidiary's creditors. As a result, all indebtedness and other liabilities, including trade payables, of our non-guarantor subsidiaries, whether secured or unsecured, must be satisfied before any of the assets of such subsidiaries would be available for distribution, upon a liquidation or otherwise, to us in order for us to meet our obligations with respect to the notes. To the extent that we may be a creditor with recognized claims against any non-guarantor subsidiary, our

claims would still be subject to the prior claims of such subsidiary's creditors to the extent that they are secured or senior to those held by us. Subject to

Table of Contents

restrictions contained in financing arrangements, our non-guarantor subsidiaries may incur additional indebtedness and other liabilities, all of which would rank structurally senior to the notes.

Allegion US Holding Company Inc., Schlage Lock Company LLC and Von Duprin LLC will guarantee the notes upon their issuance. For the fiscal year ended December 31, 2014 and the six months ended June 30, 2015, these subsidiaries represented approximately 61.1% and 69.3% of our total net revenues, 87.5% and 106.9% of our total income before income taxes and 77.5% and 88.8% of our Adjusted EBITDA, respectively, and as of June 30, 2015, these subsidiaries represented approximately 39.7% of our total assets and 39.5% of our total liabilities, in each case after intercompany eliminations.

Our ability to repurchase the notes upon a change of control may be limited.

We will be required under the Indenture to make an offer to repurchase the notes and the existing notes upon a change of control (as defined in the Indenture). A change of control also would constitute a default under our senior secured credit facilities. Therefore, upon the occurrence of a change of control, the lenders under our senior secured credit facilities would have the right to accelerate their loans, and if so accelerated, we would be required to pay all of our outstanding obligations under such facilities. We may not be able to pay you the required price for your notes at that time because we may not have available funds to pay the repurchase price. In addition, the terms of other existing or future debt may prevent us from paying you. There can be no assurance that we would be able to repay such other debt or obtain consents from the holders of such other debt to repurchase these notes. Any requirement to offer to purchase any outstanding notes may result in us having to refinance our outstanding indebtedness, which we may not be able to do. In addition, even if we were able to refinance our outstanding indebtedness, such financing may be on terms unfavorable to us. In addition, certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a Change of Control under the Indenture. See Description of the Notes Repurchase at the Option of Holders Change of Control.

Our variable rate indebtedness may expose us to interest rate risk, which could cause our debt costs to increase significantly.

As discussed under Description of Other Indebtedness, a portion of our borrowings will be term loans or revolving credit facility borrowings with variable rates of interest which expose us to interest rate risks. We will be exposed to the risk of rising interest rates to the extent that we fund our operations with short-term or variable-rate borrowings. As of June 30, 2015, on an as-adjusted basis giving effect to the Transactions, we would have had approximately \$1,652.3 million of aggregate debt outstanding, including approximately \$1,038.4 million of floating-rate term loans and revolving credit facility borrowings and \$600.0 million of the fixed-rate senior notes, including the notes offered hereby, and we would have had approximately \$372.7 million of additional borrowings available under our senior secured revolving credit facility, after giving effect to \$27.3 million of outstanding and undrawn letters of credit, which would have reduced available borrowings. Based on the amount of floating-rate debt that we expect to be outstanding after giving effect to the Financing Transactions, a 1% rise in interest rates would result in an incremental annual interest expense of approximately \$10.5 million (excluding the impact of our interest rate swaps). If the London Interbank Offered Rate (LIBOR) increases in the future then the floating-rate debt could have a material effect on our interest expense.

Our being subject to certain fraudulent transfer and conveyance statutes may have adverse implications for the holders of the notes.

If, under relevant federal and state fraudulent transfer and conveyance statutes, in a bankruptcy or reorganization case or a lawsuit by or on behalf of our unpaid creditors or the guarantors, a court were to find that, at the time the notes

were issued by us or guaranteed by the guarantors:

We issued or the guarantors guaranteed the notes with the intent of hindering, delaying or defrauding current or future creditors, we or the guarantors received less than reasonably equivalent value or fair consideration for issuing or guaranteeing the notes, as applicable; and

Table of Contents

We or the guarantors, as the case may be,

were insolvent or were rendered insolvent by reason of the incurrence or guarantee, as applicable, of the indebtedness constituting the notes,

were engaged, or about to engage, in a business or transaction for which our assets constituted unreasonably small capital,

intended to incur, or believed that we would incur, debts beyond our ability to pay as such debts matured, or

were a defendant in an action for money damages, or had a judgment for money damages docketed against us if, in either case, after final judgment the judgment is unsatisfied, such court could avoid or subordinate the notes and the relevant guarantee to presently existing and future indebtedness of us or the guarantors, as the case may be, and take other action detrimental to the holders of the notes, including, under certain circumstances, invalidating the notes or the guarantees.

The measure of insolvency for purposes of the foregoing considerations will vary depending upon the law of the jurisdiction that is being applied in any such proceeding. Generally, however, we or any guarantor would be considered insolvent if, at the time we incur or guarantee, as the case may be, the indebtedness constituting the notes, either:

the sum of our debts, including contingent liabilities, is greater than our assets, at a fair valuation; or

the present fair saleable value of our assets is less than the amount required to pay the probable liability on our total existing debts and liabilities, including contingent liabilities, as they become absolute and matured. We cannot give you any assurance as to what standards a court would use to determine whether we or a guarantor, as the case may be, were solvent at the relevant time, or whether, whatever standard was used, the notes or guarantees would not be avoided on another of the grounds described above.

As a public limited company incorporated in Ireland, we are subject to Irish insolvency law under which certain categories of preferential debts could be paid in priority to the claims of the holders of the notes upon liquidation.

Liquidation. As a public limited company incorporated in Ireland, we may be wound up under Irish law. Upon a liquidation of an Irish company, certain categories of preferential debts (including the Revenue Commissioners in the case of certain unpaid taxes) and the claims of secured creditors would be paid in priority to the claims of unsecured creditors. If we become subject to an insolvency proceeding and if we have obligations to creditors that are treated under Irish law as creditors that are senior relative to the holders of the notes, the holders of the notes may suffer losses as a result preferential during such insolvency proceedings.

Examinership. Examinership is a legal mechanism in Ireland for the temporary protection and potential rescue or reconstruction of an ailing but potentially viable Irish company. An Irish company, its directors, its shareholders who hold, at the date of presentation of the relevant petition, not less than one-tenth of its voting share capital, or a contingent, prospective or actual creditor, are each entitled to petition the Irish High Court for the appointment of an examiner.

While a company is in examinership, it may not be wound up, creditors may not enforce their claims or their security in respect of the company or its assets, and proceedings cannot be issued or potentially continued against it without the leave of the Irish High Court. Further, a company in examinership cannot discharge any liability incurred by it before the presentation to the Irish High Court of a petition for examinership except in strictly defined circumstances. The examiner, once appointed, has the power to set aside contracts and certain

Table of Contents

arrangements entered into by the company after his appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to his appointment.

Where possible, an examiner will formulate proposals for a compromise or scheme of arrangement in respect of a company in examinership (the Proposals) which the examiner believes will ensure the survival of the company or the whole or any part of its undertaking as a going concern. The Proposals will detail, among other things, how each class of creditor is to be treated in the context of the examinership and in particular the dividend, if any, they are to receive. A scheme of arrangement may be approved by the Irish High Court when at least one class of creditors, whose interests are impaired under the Proposals, has voted in favor of the Proposals and the Irish High Court is satisfied that such Proposals are fair and equitable in relation to any class of members or creditors who have not accepted the Proposals and whose interests would be impaired by the implementation of the scheme of arrangement and the Proposals are not unfairly prejudicial to any interested party.

If, for any reason, an examiner was appointed to us while any amounts due under the notes were unpaid, the primary risks to the holders of the notes would include the following:

the Trustee, on behalf of the holders of the notes, would not be able to initiate proceedings to enforce rights under the notes against us during the period of examinership;

a scheme of arrangement may be approved involving the writedown of the debt owed by us to the holders of the notes irrespective of their views;

an examiner may seek to set aside any negative pledge given by us prohibiting the creation of security or the incurring of borrowings by us to enable the examiner to borrow to fund us during the protection period; and

in the event that a scheme of arrangement is not approved and we subsequently go into liquidation, the examiner's remuneration and expenses and the claims of certain other creditors referred to above (including the Irish Revenue Commissioners in the case of certain unpaid taxes) will take priority over the amounts due by us to the holders of the notes.

The lenders under our senior secured credit facilities will have the discretion to release the guarantors under the senior secured credit facilities in a variety of circumstances, or such guarantors may be automatically released, which will cause those guarantors to be automatically released from their guarantees of the notes.

While any obligations under our senior secured credit facilities remain outstanding, any guarantee of the notes may be released without action by, or consent of, any holder of the notes or the trustee under the Indenture, if the related guarantor is no longer a guarantor of obligations under the senior secured credit facilities. See Description of the Notes. The lenders under our senior secured credit facilities will have the discretion to release the guarantees under the senior secured credit facilities in a variety of circumstances and, in some circumstances, such guarantors will be automatically released. You will not have a claim as a creditor against any subsidiary that is no longer a guarantor of the notes, and the indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries will effectively be senior to claims of holders of the notes. See Description of the Notes Guarantees.

An active trading market for the notes may not develop.

The notes constitute new issues of securities, for which there is no existing market. Although we intend to apply for listing of the notes for trading on the NYSE, no assurance can be given that the notes will become or will remain listed. Even if the notes are listed, an active trading market may not develop. In addition, the liquidity of any trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for these notes, prevailing interest rates and changes in our consolidated financial condition, results of operations or prospects. A liquid trading market in the notes may not develop, which could decrease the amounts you would otherwise receive upon a sale or disposition of the notes and your ability to transfer the notes may be limited.

Table of Contents

If a trading market for the notes does develop, changes in our credit ratings or the debt markets could adversely affect the market price of the notes.

The price for the notes depends on many factors, including:

our credit ratings;

prevailing interest rates being paid by, or the market prices for debt securities issued by, other companies similar to us;

our financial condition, financial performance and prospects; and

the overall conditions of the general economy and the financial markets.

The conditions of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Such fluctuations could have an adverse effect on the price of the notes.

Investors in the notes may be unable to enforce judgments obtained in U.S. courts against the issuer.

Some of the directors and executive officers of the issuer and the guarantors are non-residents of the United States, and a portion of the assets of the guarantors and these persons are located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon these nonresident persons or to enforce against the guarantors or these non-resident persons in U.S. courts judgments obtained in U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States. See Service of Process and Enforcement of Liabilities.

The calculation of EBITDA under the Indenture permits certain estimates and assumptions that may differ materially from actual results.

The calculation of EBITDA under the Indenture allows us to add back certain non-cash, non-operating or non-recurring charges that are deducted in calculating net earnings, even though these are expenses that may recur, vary greatly and are difficult to predict and can represent the effect of long-term strategies as opposed to short-term results. In addition, certain of these expenses can represent the reduction of cash that could be used for other corporate purposes. Further, although not included in the calculation of Adjusted EBITDA presented in this prospectus, the calculation of EBITDA under the Indenture will allow us to add estimated cost savings and operating synergies related to operational changes, including as a result of acquisitions and dispositions, our lean manufacturing processes and restructurings. We will also be permitted to exclude one-time transition expenditures that we anticipate we will need to incur to realize cost savings before such savings have occurred. As a result of these adjustments, we may be able to incur more debt or pay dividends or make other restricted payments in amounts greater than would be permitted without such adjustments.

Because the calculation of EBITDA under the Indenture will permit certain estimates and assumptions that may differ materially from actual results, we will be permitted to incur debt and pay dividends or make other restricted payments based on such estimates even if those estimates are not achieved in the timeframe anticipated or at all. Accordingly,

investors should not place undue reliance upon the calculation of EBITDA in accordance with the Indenture.

In addition, EBITDA is not a presentation made in accordance with GAAP, is not a measure of financial condition, liquidity or profitability and should not be considered as an alternative to net earnings (loss) determined in accordance with GAAP or operating cash flows determined in accordance with GAAP.

Table of Contents

The notes may be subject to Irish withholding tax.

On the date of this prospectus, the notes have not been listed on the NYSE. While we will use our reasonable best efforts to cause the notes to be listed on the NYSE, we cannot assure you that the notes will be listed, or if listed, that such listing will be maintained for the term of the notes. If the notes are not listed on a recognized stock exchange as defined in Section 64 of the Taxes Consolidation Act 1997 (a "Recognized Stock Exchange") or any of the other conditions in Section 64 of the Taxes Consolidation Act 1997 are not met on any interest payment date in respect of the notes, then the issuer will, subject to the availability of another exemption, be required to deduct Irish withholding tax (currently at the rate of 20%) from payments of interest on the notes, unless the interest is paid in the ordinary course of the issuer's business, the issuer can identify the holders of the notes, and the holders of the notes are (1) companies that are resident in a Relevant Territory (where a Relevant Territory is a Member State of the European Union ("EU") other than Ireland or a country with which Ireland has a double taxation agreement) that (i) imposes a tax that generally applies to interest receivable in that Relevant Territory by companies from sources outside that Relevant Territory or (ii) where the interest payable is exempted from the charge to Irish income tax under the terms of a double tax agreement that is either in force or will come into force once all ratification procedures have been completed, provided that in the case of either (i) or (ii), the interest is not paid in connection with an Irish branch or agency of the holders of the notes, or (2) another exemption from Irish withholding tax applies.

The issuer may be required to pay Additional Amounts (as defined in "Description of the Notes - Additional Amounts") to holders of the notes subject to such withholding tax (see "Description of the Notes - Additional Amounts"). In addition, the issuer may be entitled to redeem the notes upon the occurrence of certain changes to relevant Irish tax laws affecting the issuer's obligation to pay Additional Amounts (see "Description of the Notes - Redemption for Taxation Reasons").

If the notes are successfully listed on the NYSE, but subsequently it becomes impracticable or unduly burdensome for us to maintain such a listing, then (following consultation with the underwriters) we will use our reasonable best efforts to cause the notes to be listed on another Recognized Stock Exchange, as we may decide. If the notes are not listed on a Recognized Stock Exchange, however, on any interest payment date in respect of the notes, the issuer will be required to deduct Irish withholding tax other than as set out above. See "Material Tax Considerations - Irish Tax Considerations" for a further discussion of the Irish tax consequences with respect to the notes.

We expect our senior secured credit facilities, as amended, to provide for (i) a senior secured Term A facility in an aggregate principal amount of \$938.4 million due in 2020 and (ii) a \$500.0 million senior secured revolving credit facility maturing in 2020. We do not expect to incur any additional borrowings in connection with the amendment of our senior secured credit facilities. The terms of our amended senior secured credit facilities are still being negotiated and remain subject to change. In addition, our entry into the amendments to our senior secured credit facilities is subject to a number of conditions, including

market conditions. This offering is not conditioned upon the closing of the amendments to our senior secured credit facilities. See [Description of Other Indebtedness](#) for additional information regarding our senior secured credit facilities.

- (2) Gives effect to the Acquisition Borrowings and the application of the net proceeds of this offering to repay \$300.0 million of the Acquisition Borrowings.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our ratio of earnings to fixed charges (i) on a historical basis for the five fiscal years ended December 31, 2014 and the six months ended June 30, 2015 and (ii) on a pro forma basis for the year ended December 31, 2014 and the six months ended June 30, 2015, after giving effect to the Acquisition Borrowings, the issuance of the notes in this offering and the application of the net proceeds from this offering as described in Use of Proceeds, and assuming the foregoing transactions had been completed as of the first day of each of the periods mentioned above. The pro forma ratios do not necessarily reflect what our actual ratios of earnings to fixed charges would have been had these transactions occurred as of those dates or predict our ratio of earnings to fixed charges for any future period. As of the date of this prospectus, we have no preferred stock outstanding, and accordingly, the ratio of earnings to combined fixed charges and preferred stock dividends is equal to the ratio of earnings to fixed charges and is not disclosed separately.

- (1) The ratio of earnings to fixed charges was computed by dividing earnings by fixed charges for the periods indicated where earnings consists of (1) earnings from continuing operations before income taxes plus (2) fixed charges. Fixed charges consist of (a) interest on all indebtedness, (b) amortization of premiums, discounts and capitalized expenses related to indebtedness and (c) an interest component representing the estimated portion of rental expense that management believes is attributable to interest.

DESCRIPTION OF OTHER INDEBTEDNESS

Following our completion of this offering, we expect to amend our existing senior secured credit facilities to extend their maturity from 2019 to 2020 and to modify certain covenants. We expect our senior secured credit facilities, as amended, to provide for (i) a senior secured Term A facility in an aggregate principal amount of \$938.4 million due in 2020, and (ii) a \$500.0 million senior secured revolving credit facility maturing in 2020. We do not expect to incur any additional borrowings in connection with the amendment of our senior secured credit facilities. The following is a summary of the terms of our senior secured credit facilities assuming our entry into these amendments. The terms of our amended senior secured credit facilities are still being negotiated and remain subject to changes. In addition, our entry into the amendments to our senior secured credit facilities is subject to a number of conditions, including market conditions. This offering is not conditioned upon the closing of the amendments to our senior secured credit facilities.

Senior Secured Credit Facilities

Term A Loan. The issuer and Allegion US Holding Company Inc. will be co-borrowers of a Term A Facility in an aggregate principal amount of \$938.4 million (the loans under such Term A Facility, the "Term A Loans"). Amounts borrowed under the Term A Facility that are repaid or prepaid may not be reborrowed.

The Term A Facility will amortize in quarterly installments, with the first such installment due on December 31, 2015, at the following rates per annum: 5% in 2015, 2016, 2017 and 2018 and 10% in 2019 and 2020, with the final installment due on October 15, 2020.

Revolver. The five-year senior secured revolving credit facility will permit borrowings of up to \$500 million. The senior secured revolving credit facility will be comprised of two tranches: a tranche available in U.S. dollars and a tranche available in U.S. dollars, euros, pounds sterling and other currencies to be agreed from time to time. Borrowings under the multi-currency tranche will be capped at \$100 million. The senior secured revolving credit facility will mature and the commitments thereunder will terminate on October 15, 2020. Amounts repaid under the senior secured revolving credit facility may be reborrowed.

Guarantees and Collateral. The indebtedness, obligations and liabilities under the senior secured credit facilities will be fully and unconditionally guaranteed jointly and severally on a senior secured basis by certain of Allegion plc's current and future restricted subsidiaries, and will be secured, subject to permitted liens and other exceptions and exclusions and subject to the termination and release of security interests if we receive investment grade ratings from each of Moody's and S&P (with reinstatement of all such security interests if we lose either investment grade rating), by a first-priority lien on substantially all the present and after-acquired tangible and intangible assets of each borrower and each domestic guarantor (including (i) a perfected pledge of all of the capital stock of Allegion US Holding Company Inc. and each direct, wholly-owned material restricted subsidiary held by each borrower or any guarantor (subject to certain limitations with respect to foreign subsidiaries) and (ii) perfected security interests in, and mortgages on, accounts, inventory, equipment, general intangibles, commercial tort claims, investment property, intellectual property, material fee-owned real property, letter-of-credit rights, intercompany notes and proceeds of the foregoing, except for certain excluded assets).

Mandatory Prepayments. The Term A Facility will require the following amounts to be applied to prepay the Term A Loans, subject to certain thresholds, exceptions and reinvestment rights:

100% of the net cash proceeds from the incurrence of indebtedness by us and our restricted subsidiaries (other than permitted debt);

100% of the net cash proceeds of all non-ordinary course asset sales or other dispositions of property by us and our restricted subsidiaries (including casualty insurance and condemnation proceeds, but with exceptions for sales of inventory and other ordinary course dispositions, obsolete or worn-out property, property no longer useful in the business and other exceptions);

50% of excess cash flow with stepdowns to 25% and 0% based on certain leverage levels.

Table of Contents

Mandatory prepayments of the Term A Facility will be applied to the remaining installments thereof as directed by the borrowers.

Voluntary Prepayments. The borrowers may voluntarily prepay outstanding Term A Loans in whole or in part at any time without premium or penalty, subject to the payment of customary breakage costs in the case of LIBOR rate loans. Optional prepayments of the Term A Facility will be applied to the remaining installments thereof as directed by the borrowers.

Commitments under the senior secured revolving credit facility may be reduced in whole or in part at any time without premium or penalty.

Covenants. The senior secured credit facilities will contain certain covenants that, among other things, limit or restrict the ability of Allegion plc and certain of its restricted subsidiaries to (subject to certain qualifications and exceptions):

create liens and encumbrances;

incur additional indebtedness;

merge, dissolve, liquidate or consolidate;

make acquisitions, investments, advances or loans;

dispose of or transfer assets;

pay dividends or make other payments in respect of their capital stock;

amend certain material governance or debt documents;

redeem or repurchase capital stock or prepay, redeem or repurchase certain debt;

engage in certain transactions with affiliates;

enter into certain speculative hedging arrangements; and

enter into certain restrictive agreements.

In addition, we will be required to comply with (a) a maximum ratio of total consolidated indebtedness (net of unrestricted cash up to \$150 million) to consolidated EBITDA and (b) a minimum ratio of consolidated EBITDA to consolidated interest expense (net of interest income).

Interest Rates and Fees. Outstanding borrowings under the senior secured credit facilities accrue interest, at the option of the borrowers, at a per annum rate of (i) a LIBOR rate plus the applicable margin or (ii) a base rate plus the applicable margin. The applicable margin for borrowings under the senior secured revolving credit facility and the Term A Facility will be subject to a corporate credit rating-based pricing grid with the applicable margin for LIBOR loans ranging from 1.375% to 1.875%.

During an event of default, overdue principal under the senior secured credit facilities may bear interest at a rate 2.00% in excess of the otherwise applicable rate of interest. The borrowers will pay certain fees with respect to the senior secured credit facilities, including a commitment fee on the undrawn portion of the Revolver ranging from 0.20% to 0.30%, depending on the corporate credit rating.

DESCRIPTION OF THE NOTES

General

Certain terms used in this description are defined under the subheading **Certain Definitions**. In this description, (i) the term **Issuer** refers only to Allegion plc and not to any of its Affiliates and (ii) the terms **we**, **our** and **us** each refer to Issuer and its consolidated Subsidiaries.

The Issuer will issue \$300.0 million aggregate principal amount of 5.875% Senior Notes due 2023 (the **notes**) under an indenture to be dated as of the Issue Date (the **Indenture**) among the Issuer, the Guarantors and Wells Fargo Bank, National Association, as Trustee. The terms of the notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act. Copies of the form of the Indenture may be obtained from the Issuer upon request.

The following description is only a summary of the material provisions of the Indenture and does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indenture, including the definitions therein of certain terms used below. We urge you to read the Indenture because it, not this description, defines your rights as Holders of the notes.

The notes:

will be unsecured senior debt obligations of the Issuer;

will be *pari passu* in right of payment with all existing and future Senior Indebtedness (including the Senior Credit Facilities) of the Issuer and the Guarantors;

will be effectively subordinated to all Secured Indebtedness of the Issuer and the Guarantors (including the Senior Credit Facilities) to the extent of the value of the assets securing such Indebtedness;

will be senior in right of payment to any future Subordinated Indebtedness (as defined with respect to the notes) of the Issuer and the Guarantors;

will be initially guaranteed on a senior unsecured basis by each Restricted Subsidiary of the Issuer that incurs or guarantees any Obligations under the Senior Credit Facilities; and

will be structurally subordinated to all existing and future Indebtedness and other claims and liabilities, including preferred stock, of Subsidiaries of the Issuer that are not Guarantors.

We completed our Spin-off from Ingersoll Rand plc on December 1, 2013. For the purposes of this Description of the Notes and the Indenture, and the interpretation thereof, the Spin-off shall be deemed to have occurred immediately prior to October 4, 2013, and for all periods prior to the consummation of the Spin-off, the Issuer, its Subsidiaries and the other Subsidiaries of Ingersoll Rand plc transferred to the Issuer as part of the Spin-off will be deemed to have

been Restricted Subsidiaries of the Issuer.

Guarantees

Each Restricted Subsidiary of the Issuer that incurs or guarantees Obligations under the Senior Credit Facilities or any other series of capital markets debt securities of the Issuer or a Guarantor issued in an aggregate principal amount of \$100.0 million or more, will initially jointly and severally guarantee, as primary obligors and not merely as sureties, on a senior unsecured basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Issuer under the Indenture and the notes, whether for payment of principal of or interest on the notes, expenses, indemnification or otherwise, on the terms set forth in the Indenture by executing the Indenture. We refer to these Restricted Subsidiaries of the Issuer that Guarantee the notes as the

Subsidiary Guarantors. Each of the Guarantees will be a general unsecured obligation of the relevant Guarantor and will rank equal in right of payment to all existing and future Senior Indebtedness of each such Guarantor and will be effectively subordinated to all Secured Indebtedness of each such entity (including each Guarantor's guarantee of Indebtedness or Obligations under our Senior Credit Facilities) to the extent of the value of the assets securing such Indebtedness and will be senior in right of

Table of Contents

payment to all existing and future Subordinated Indebtedness of each such entity. The notes will be structurally subordinated to Indebtedness and other liabilities of Subsidiaries of the Issuer that do not Guarantee the notes.

Not all of the Issuer's Subsidiaries will Guarantee the notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, such non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuer or any other Guarantor. Three Subsidiaries of the Issuer, Allegion US Holding Company Inc. ("US Holdings"), Von Duprin LLC and Schlage Lock Company LLC, will guarantee the notes upon their issuance. For the fiscal year ended December 31, 2014 and the six months ended June 30, 2015, these Subsidiaries represented approximately 61.1% and 69.3% of our total net revenues, 87.5% and 106.9% of our net income before income taxes and 77.5% and 88.8% of our Adjusted EBITDA, respectively, and as of June 30, 2015, these Subsidiaries represented approximately 39.7% of our total assets and 39.5% of our total liabilities, in each case after giving effect to intercompany eliminations. See "Risk Factors" The notes will be structurally subordinated to the existing and future liabilities of certain of our subsidiaries which are not guaranteeing the notes.

The obligations of each Subsidiary Guarantor under its Guarantee will be limited as necessary to prevent such Guarantee from constituting a fraudulent conveyance under applicable law and, therefore, are limited to the amount that such Subsidiary Guarantor could guarantee without such Guarantee constituting a fraudulent conveyance; this limitation, however, may not be effective to prevent such Guarantee from constituting a fraudulent conveyance. If a Guarantee was rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor, and, depending on the amount of such indebtedness, a Subsidiary Guarantor's liability on its Guarantee could be reduced to zero. See "Risk Factors" Our being subject to certain fraudulent transfer and conveyance statutes may have adverse implications for the holders of the notes.

Each Guarantor that makes a payment under its Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor's *pro rata* portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

Any Guarantee by a Subsidiary Guarantor of the notes shall provide by its terms that it shall be automatically and unconditionally released and discharged upon:

- (i) (a) any sale, exchange or transfer (by merger or otherwise) of (I) the Capital Stock of such Guarantor (including any sale, exchange or transfer), after which the applicable Guarantor is no longer a Restricted Subsidiary or (II) all or substantially all of the assets of such Guarantor, which sale, exchange or transfer is made in compliance with the applicable provisions of the Indenture,
- (b) the release or discharge of the guarantee by, or direct obligation of, such Guarantor with respect to the Senior Credit Facilities or capital markets debt securities that resulted in the creation of such Guarantee,
- (c) the designation of any Subsidiary Guarantor as an Unrestricted Subsidiary in compliance with the applicable provisions of the Indenture,

- (d) exercise of the legal defeasance option or covenant defeasance option by the Issuer as described under Legal Defeasance and Covenant Defeasance or the Issuer's obligations under the Indenture being discharged in accordance with the terms of the Indenture,
- (e) the merger or consolidation of any Guarantor with and into the Issuer or another Guarantor that is the surviving Person in such merger or consolidation, or upon the liquidation of such Guarantor following the transfer of all of its assets to the Issuer or another Guarantor;
- (f) as described under Amendment, Supplement and Waiver ; or
- (g) the occurrence of the Covenant Termination Event (as defined below); and

Table of Contents

(ii) such Guarantor delivering to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction have been complied with.

Ranking

Senior Indebtedness versus Notes

The Indebtedness evidenced by the notes and the Guarantees will be unsecured and will rank *pari passu* in right of payment to all Senior Indebtedness of the Issuer or the relevant Guarantor, as the case may be. Secured Indebtedness and other secured obligations of the Issuer and the Guarantors (including obligations with respect to the Senior Credit Facilities) will be effectively senior to the notes to the extent of the value of the assets securing such debt or other obligations.

As of June 30, 2015, on an as-adjusted basis giving effect to the Transactions, the notes would have ranked *pari passu* with approximately \$1,652.3 million of Senior Indebtedness of the Issuer and the Subsidiary Guarantors and the notes would have been effectively subordinated to approximately \$1,038.4 million of secured indebtedness of the Issuer and the Subsidiary Guarantors. In addition, as of June 30, 2015, on an as-adjusted basis giving effect to the Transactions, we would have had approximately \$372.7 million of additional borrowings available under our senior secured revolving credit facility, after giving effect to \$27.3 million of outstanding and undrawn letters of credit, which would have reduced available borrowings.

Although the Indenture will contain limitations on the amount of additional Indebtedness that the Issuer and the Restricted Subsidiaries may incur, under certain circumstances the amount of such Indebtedness could be substantial and, in certain circumstances, such Indebtedness may be Secured Indebtedness. See Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Certain Covenants Liens.

Liabilities of Subsidiaries versus Notes

The Issuer does not directly have any operations. All of our operations are conducted through Subsidiaries of the Issuer or US Holdings. Some of the Issuer's Subsidiaries are not Guaranteeing the notes, and, as described above under Guarantees, Guarantees may be released under certain circumstances. In addition, the Issuer's future Subsidiaries may not be required to Guarantee the notes. Claims of creditors of any non-guarantor Subsidiaries of the Issuer, including trade creditors and creditors holding indebtedness or guarantees issued by such non-guarantor Subsidiaries, and claims of preferred stockholders of such non-guarantor Subsidiaries generally will have priority with respect to the assets and earnings of such non-guarantor Subsidiaries over the claims of our creditors, including Holders of the notes, even if such claims do not constitute Senior Indebtedness. Accordingly, the notes will be structurally subordinated to creditors (including trade creditors) and preferred stockholders, if any, of such non-guarantor Subsidiaries.

Although the Indenture limits the incurrence of Indebtedness and the issuance of Disqualified Stock and preferred stock by certain of our Subsidiaries, such limitation is subject to a number of significant exceptions and qualifications and the Indebtedness incurred and Disqualified Stock and preferred stock issued in compliance with the covenants could be substantial. Moreover, the Indenture does not impose any limitation on the incurrence or issuance by such subsidiaries of liabilities that are not considered Indebtedness or Disqualified Stock or preferred stock under the Indenture. See Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock.

Additional Amounts

The Issuer and each Guarantor will be required to make all payments under or with respect to the notes and each Guarantee, as applicable, free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto) (hereinafter "Taxes") imposed or levied by or on behalf of (i) Ireland or any

Table of Contents

political subdivision or any authority or agency therein or thereof having power to tax, (ii) any other jurisdiction in which the Issuer or any Guarantor is organized or is otherwise resident for tax purposes or any political subdivision or any authority or agency therein or thereof having the power to tax, (iii) any jurisdiction from or through which payment on the notes or any Guarantee or any political subdivision or any authority or agency therein or thereof having the power to tax is made or (iv) any jurisdiction in which a Guarantor that actually makes a payment on the notes or its Guarantee is organized or otherwise considered to be a resident for tax purposes, or any political subdivision or any authority or agency therein or thereof having the power to tax (each a Relevant Taxing Jurisdiction), unless the withholding or deduction of such Taxes is required by law or by the interpretation or administration thereof.

If the Issuer or any Guarantor is so required to withhold or deduct any amount for or on account of Taxes imposed by a Relevant Taxing Jurisdiction from any payment made under or with respect to the notes or any Guarantee, as applicable, the Issuer or such Guarantor will be required to pay such additional amounts (Additional Amounts) as may be necessary so that the net amount received by a Holder (including Additional Amounts) after such withholding or deduction will not be less than the amount such Holder would have received if such Taxes had not been withheld or deducted; *provided, however*, that the foregoing obligation to pay Additional Amounts does not apply to (1) any Taxes that would not have been so imposed but for the existence of any present or former connection between the Holder, applicable recipient of payment or beneficial owner of the note or any payment in respect of such note (each, a relevant holder) (or between a fiduciary, settlor, beneficiary, member or shareholder of, or possessor of power over, the relevant holder, if the relevant holder is an estate, nominee, partnership, trust, corporation or other business entity) and the Relevant Taxing Jurisdiction (including being a citizen or resident or national of, or carrying on a business or maintaining a permanent establishment in, or being physically present in, the Relevant Taxing Jurisdiction, but other than a connection arising solely from the acquisition, ownership or holding of such note or the receipt of any payment in respect thereof); (2) any estate, inheritance, gift, sales, use, value added, excise, transfer, personal property tax or similar tax, assessment or governmental charge; (3) any Taxes imposed as a result of the failure of the relevant holder of the notes to comply with a timely request in writing of the Issuer (such request being made at a time that would enable such relevant holder acting reasonably to comply with that request), to provide information concerning such relevant holder's nationality, residence, identity or connection with any Relevant Taxing Jurisdiction, if and to the extent that due and timely compliance with such request under applicable law, regulation or administrative practice would have reduced or eliminated such Taxes with respect to such relevant holder; (4) any Taxes that are payable other than by deduction or withholding from a payment on the notes; (5) any Taxes that would not have been so imposed if the relevant holder had presented the note for payment (where presentation is required) to, or otherwise accepted payment from, another paying agent in a member state of the European Union; (6) any Taxes that are required to be deducted or withheld pursuant to Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of November 26-27, 2000 on taxation of savings income or any law implementing or complying with, or introduced in order to conform to such Directives; or (7) any Taxes withheld or deducted pursuant to Sections 1471 through 1474 of the Internal Revenue Code of 1986, or any comparable or successor version of such Sections, any U.S. Treasury regulations promulgated thereunder, any official interpretations thereof or any agreements or treaties (including any law implementing any such agreement or treaty) entered into in connection with the implementation thereof; nor will the Issuer or any Guarantor pay Additional Amounts (a) if the payment could have been made without such deduction or withholding if the note had been presented for payment (where presentation is permitted or required for payment) within 30 days after the date on which such payment or such note became due and payable or the date on which payment thereof is duly provided for, whichever is later, (b) with respect to any payment on a note to any holder who is a fiduciary or partnership (including an entity treated as a partnership for tax purposes) or any Person other than the sole beneficial owner of such payment, to the extent that a beneficiary or settlor with respect to such fiduciary, a member of such a partnership or the beneficial owner of such payment would not have been entitled to the Additional Amounts had such beneficiary, settlor, member or beneficial owner been the actual holder of such note, or (c) in respect of any note where such withholding or deduction is

imposed as a result of any combination of clauses (1), (2), (3), (4), (5), (6), (7), (a), (b) and (c) of this paragraph.

The Issuer and each Guarantor will make any required withholding or deduction and remit the full amount deducted or withheld to the Relevant Taxing Jurisdiction in accordance with applicable law. The Issuer will provide the Trustee, for the benefit of the holders, with official receipts evidencing the payment of the Taxes with respect to which Additional Amounts are paid. If, notwithstanding the Issuer's efforts to obtain such receipts, the same are not obtainable, the Issuer will provide the Trustee with other evidence. In no event, however, shall the Issuer be required to disclose any information that the Issuer reasonably deems to be confidential.

If the Issuer or any Guarantor is or will become obligated to pay Additional Amounts under or with respect to any payment made on the notes or any Guarantee, as applicable, at least 30 days prior to the date of such payment, the Issuer will deliver to the Trustee an Officer's Certificate stating that Additional Amounts will be payable and the amount so payable and such other information necessary to enable the paying agent to pay Additional Amounts to holders on the relevant payment date. Whenever in the Indenture there is mentioned, in any context:

(x) the payment of principal or interest;

(y) redemption prices or purchase prices in connection with a redemption or purchase of notes; or

(z) any other amount payable on or with respect to any of the notes or any Guarantee; such reference shall be deemed to include payment of Additional Amounts as described under this heading to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The Issuer will pay any present or future stamp, court or documentary taxes or any other excise, property or similar taxes, charges or levies that arise in any Relevant Taxing Jurisdiction from the execution, delivery, enforcement or registration of the notes, the Indenture, any Guarantee or any other document or instrument in relation thereof, and will agree to indemnify the holders for any such taxes paid by such holders. The obligations described under this heading will survive any termination, defeasance or discharge of the Indenture and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Issuer or any Guarantor is organized or resident for tax purposes or any political subdivision or taxing authority or agency thereof or therein (each of which shall also be treated as a Relevant Taxing Jurisdiction). Principal, Maturity and Interest

The Issuer will issue \$300.0 million of notes in this offering. The notes will mature on September 15, 2023. The Issuer may issue additional notes from time to time after this offering under the Indenture (Additional Notes). Any offering of Additional Notes is subject to the covenant described below under the caption Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock. The notes offered hereby and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context requires otherwise, references to notes for all purposes of the Indenture and this Description of the Notes include any Additional Notes that are actually issued; *provided*, that Additional Notes will not be issued with the same CUSIP, common code or ISIN, as applicable, as existing notes unless such Additional Notes are fungible with existing notes for U.S. federal income tax purposes.

Interest on the notes will accrue at the rate of 5.875% per annum and will be payable semi-annually in arrears on March 15 and September 15 commencing on March 15, 2016, to Holders of record on the immediately preceding March 1 and September 1, as the case may be. Interest on the notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from and including the Issue Date. Interest on the notes will be computed on the basis of a 360-day year comprised of twelve 30-day months. Principal of, premium, if any, and interest on the notes will be payable at the office or agency of the Issuer maintained for such purpose as described under Paying Agent and Registrar for the Notes or, at the option of the Issuer,

Table of Contents

payment of interest may be made by check mailed to the Holders of the notes at their respective addresses set forth in the register of Holders; *provided*, that all payments of principal, premium, if any, and interest with respect to the notes represented by one or more global notes registered in the name of or held by The Depository Trust Company or its nominees will be made by wire transfer of immediately available funds to The Depository Trust Company. The notes will be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Issuer is not required to make any mandatory redemption or sinking fund payments with respect to the notes. However, under certain circumstances, the Issuer may be required to offer to purchase notes as described under the caption Repurchase at the Option of Holders. We may at any time and from time to time purchase notes in the open market, negotiated transactions or otherwise.

Redemption for Taxation Reasons

The Issuer is entitled to redeem the notes, at its option, at any time in whole but not in part, at 100% of the principal amount thereof, plus accrued and unpaid interest (and additional interest, if any), to the date of redemption (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), in the event the Issuer or a Guarantor has become or would become obligated to pay, on the next date on which any amount would be payable with respect to the notes, any Additional Amounts as a result of:

- (1) a change in or an amendment to the laws (including any regulations, protocols or rulings promulgated and treaties enacted thereunder) of any Relevant Taxing Jurisdiction affecting taxation; or
- (2) any change in or amendment to, or the introduction of, any official position regarding the application, administration or interpretation of such laws, regulations, treaties or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment is announced or becomes effective on or after the date of the Indenture and the Issuer or Guarantor, as applicable, cannot avoid such obligation by taking reasonable measures available to it; provided, that for this purpose reasonable measures shall not include any change in the Issuer's or Guarantor's jurisdiction of organization or location of its principal executive office. Notice of such redemption (which notice shall be irrevocable) shall be delivered electronically or mailed by first-class mail, postage prepaid, at least 10 but not more than 60 days before the redemption date to each Holder of notes at such Holder's registered address or otherwise in accordance with the procedures of The Depository Trust Company. Notwithstanding the foregoing, no such notice of redemption will be given (i) earlier than 90 days prior to the earliest date on which the Issuer or applicable Guarantor would be obliged to make such payment of Additional Amounts and (ii) unless at the time such notice is given, such obligation to pay such Additional Amounts remains in effect.

Before the Issuer mails or delivers notice of redemption of the notes as described above, the Issuer will deliver to the Trustee an Officer's Certificate stating that the Issuer or applicable Guarantor cannot avoid its obligation to pay Additional Amounts by taking reasonable measures available to it and that all conditions precedent to the redemption have been complied with. The Issuer will also deliver an Opinion of Counsel to the effect that the Issuer or applicable Guarantor would be obligated to pay Additional Amounts as a result of a change in tax laws or regulations or a new application or interpretation of such laws or regulations and that all conditions precedent to the redemption have been complied with.

The foregoing will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to an Issuer or a Guarantor is incorporated or organized or any political subdivision or taxing authority or agency thereof or therein.

Table of Contents**Optional Redemption**

At any time prior to September 15, 2018, the Issuer may redeem all or a part of the notes, upon written notice as described under the heading **Selection and Notice**, at a redemption price equal to 100% of the principal amount of the notes redeemed *plus* the Applicable Premium as of, and accrued and unpaid interest, if any, to, but excluding, the date of redemption (the **Redemption Date**), subject to the rights of Holders of record of notes on the relevant record date to receive interest due on the relevant interest payment date.

On and after September 15, 2018, the Issuer may redeem the notes, in whole or in part, upon notice as described under the heading **Selection and Notice**, at the redemption prices (expressed as percentages of principal amount of the notes to be redeemed) set forth below, *plus* accrued and unpaid interest thereon, if any, to, but excluding, the applicable Redemption Date, subject to the right of Holders of record of notes on the relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on September 15 of each of the years indicated below:

Year	Percentage
2018	104.406%
2019	102.938%
2020	101.469%
2021 and thereafter	100.000%

In addition, until September 15, 2018, the Issuer may, at its option, upon notice as described under the heading

Selection and Notice, on one or more occasions redeem up to 35% of the aggregate principal amount of notes issued under the Indenture at a redemption price equal to 105.875% of the aggregate principal amount thereof, *plus* accrued and unpaid interest thereon, if any, to, but excluding, the applicable Redemption Date, subject to the right of Holders of record of notes on the relevant record date to receive interest due on the relevant interest payment date, with the net cash proceeds of one or more Equity Offerings to the extent such net cash proceeds are received by or contributed to the Issuer; *provided*, that at least 65% of the sum of the aggregate principal amount of notes originally issued under the Indenture (including any Additional Notes issued under the Indenture after the Issue Date) remains outstanding immediately after the occurrence of each such redemption; *provided further*, that each such redemption occurs within 120 days of the date of closing of each such Equity Offering.

Any redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, which shall be set forth in the related notice of redemption, including, but not limited to, completion of an Equity Offering, other offering or other transaction or event. In addition, if such redemption is subject to satisfaction of one or more conditions precedent, such notice shall describe each such condition, and if applicable, shall state that, in the Issuer's discretion, the Redemption Date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the Redemption Date, or by the Redemption Date as so delayed. If any such condition precedent has not been satisfied, the Issuer shall provide written notice to the Trustee prior to the close of business one Business Day prior to the redemption date. Upon receipt of such notice, the notice of redemption shall be rescinded or delayed, and the redemption of the notes shall be rescinded or delayed as provided in such notice. Upon receipt, the Trustee shall provide such notice to each Holder in the same manner in which the notice of redemption was given.

The Issuer and its affiliates may acquire notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the Indenture.

Selection and Notice

With respect to any partial redemption or repurchase of notes made pursuant to the Indenture, if less than all of the notes are to be redeemed at any given time, selection of such notes for redemption will be made by the

Table of Contents

Trustee (a) if the notes are listed on any securities exchange, in compliance with the requirements of the principal securities exchange on which the notes are listed, (b) on a *pro rata* basis to the extent practicable or such other method that the Trustee deems fair and appropriate or (c) by lot or such other similar method in accordance with the procedures of The Depository Trust Company; *provided*, that no notes of \$2,000 or less shall be redeemed or repurchased in part.

Notices of purchase or redemption shall be delivered electronically or mailed by first-class mail, postage prepaid, at least 10 but not more than 60 days before the purchase or redemption date to each Holder of notes at such Holder's registered address or otherwise in accordance with the procedures of The Depository Trust Company, except that redemption notices may be mailed or sent more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the Indenture. If any note is to be purchased or redeemed in part only, any notice of purchase or redemption that relates to such note shall state the portion of the principal amount thereof that has been or is to be purchased or redeemed.

If any notes are to be purchased or redeemed in part only, the Issuer will issue a new note (or cause to be transferred by book entry) in principal amount equal to the unredeemed portion of the original note in the name of the Holder thereof upon cancellation of the original note. Notes called for redemption become due on the date fixed for redemption, unless such redemption is conditioned on the happening of a future event. On and after the redemption date, unless the Issuer defaults in payment of the redemption price, interest shall cease to accrue on notes or portions thereof called for redemption, unless such redemption is conditioned on the happening of a future event and such redemption is delayed or rescinded as a result thereof.

Repurchase at the Option of Holders

Change of Control

The Indenture will provide that if a Change of Control occurs, unless the Issuer has, prior to or concurrently with the time the Issuer is required to make a Change of Control Offer (as defined below), delivered electronically or mailed a redemption notice with respect to all the outstanding notes as described under *Optional Redemption or Satisfaction and Discharge*, the Issuer will make an offer to purchase all of the notes pursuant to the offer described below (the *Change of Control Offer*) at a price in cash (the *Change of Control Payment*) equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to, but excluding, the date of purchase, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date. No later than 30 days following any Change of Control, the Issuer will send notice of such Change of Control Offer by first class mail or overnight mail, with a copy to the Trustee sent in the same manner, to each Holder of notes to the address of such Holder appearing in the security register with a copy to the Trustee or otherwise in accordance with the procedures of The Depository Trust Company, with the following information:

- i. that a Change of Control Offer is being made pursuant to the covenant entitled *Change of Control*, and that all notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer;
- ii. the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is mailed or sent (the *Change of Control Payment Date*);

- iii. that any note not properly tendered will remain outstanding and continue to accrue interest;
- iv. that, unless the Issuer defaults in the payment of the Change of Control Payment, all notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;
- v. that Holders electing to have any notes purchased pursuant to a Change of Control Offer will be required to surrender such notes, with the form entitled Option of Holder to Elect Purchase on the

Table of Contents

reverse of such notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

- vi. that Holders will be entitled to withdraw their tendered notes and their election to require the Issuer to purchase such notes; *provided*, that the paying agent receives, not later than the expiration time of the Change of Control Offer, electronic transmission (in PDF), facsimile transmission or letter (sent in the same manner provided in the Change of Control Offer) setting forth the name of the Holder of the notes, the principal amount of notes tendered for purchase, and a statement that such Holder is withdrawing its tendered notes and its election to have such notes purchased;
- vii. that if the Issuer is purchasing less than all of the notes, the Holders of the remaining notes will be issued new notes and such new notes will be equal in principal amount to the unpurchased portion of the notes surrendered. The unpurchased portion of the notes must be equal to \$2,000 or an integral multiple of \$1,000 in excess thereof;
- viii. if such notice is delivered prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control, and, if applicable, shall state that, in the Issuer's discretion, the Change of Control Payment Date may be delayed until such time as the Change of Control shall occur, or that such redemption may not occur and such notice may be rescinded in the event that the Issuer shall determine that such condition will not be satisfied by the Change of Control Payment Date, or by the Change of Control Payment Date as so delayed; and
- ix. the other instructions, as determined by us, consistent with the covenant hereunder, that a Holder must follow.

While the notes are in global form and the Issuer makes an offer to purchase all of the notes pursuant to the Change of Control Offer, a Holder shall exercise its option to elect for the purchase of the notes through the facilities of The Depository Trust Company, subject to its rules and regulations.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuer will, to the extent permitted by law,

- i. accept for payment all notes issued by it or portions thereof properly tendered pursuant to the Change of Control Offer;
- ii.

deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all notes or portions thereof so tendered; and

- iii. deliver, or cause to be delivered, to the Trustee for cancellation the notes so accepted together with an Officer's Certificate stating that all notes or portions thereof have been tendered to and purchased by the Issuer.

The Senior Credit Facilities will provide, and future credit agreements or other agreements relating to Indebtedness to which the Issuer (or one of its affiliates) becomes a party may provide, that certain change of control events with respect to the Issuer or its Subsidiaries would constitute a default thereunder (including a Change of Control under the Indenture). If we experience a change of control event that triggers a default under our Senior Credit Facilities, we may seek a waiver of such default or seek to refinance our Senior Credit Facilities. In the event we do not obtain such a waiver or refinance the Senior Credit Facilities, such default could

Table of Contents

result in amounts outstanding under our Senior Credit Facilities being declared due and payable. Our ability to pay cash to the Holders of notes following the occurrence of a Change of Control may be limited by our then existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases of the notes.

In the event that we make a Change of Control Payment, the paying agent will promptly mail to each Holder of the notes the Change of Control Payment for such notes, and the Trustee will promptly authenticate a new note (or cause to be transferred by book entry) equal in principal amount to any unpurchased portion of the notes surrendered, if any; *provided*, that each such new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. The Issuer will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The Change of Control purchase feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of the Issuer and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Issuer and the Underwriters. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under

Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Certain Covenants Liens. Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders of the notes protection in the event of a highly leveraged transaction.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by us and purchases all such notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of the making of such Change of Control Offer.

If Holders of not less than 90% in aggregate principal amount of the outstanding notes validly tender and do not withdraw such notes in a Change of Control Offer and the Issuer, or any third party making a Change of Control Offer in lieu of the Issuer as described above, purchases all of the notes validly tendered and not withdrawn by such Holders, the Issuer or such third party will have the right, upon not less than 10 days nor more than 60 days prior notice, *provided*, that such notice is given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all notes that remain outstanding following such purchase on a date (the Second Change of Control Payment Date) at a price in cash equal to the applicable Change of Control Payment in respect of the Second Change of Control Payment Date.

The definition of Change of Control includes a disposition of all or substantially all of the assets of the Issuer to any Person. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of all or substantially all of the assets of the Issuer. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of notes may require the Issuer to make an offer to repurchase the notes as described above.

Table of Contents

The provisions under the Indenture relating to the Issuer's obligation to make an offer to repurchase the notes as a result of a Change of Control, including the definition of Change of Control, may be waived or modified with the written consent of the Holders of a majority in principal amount of the notes outstanding.

Asset Sales

The Indenture will provide that the Issuer will not, and will not permit any Restricted Subsidiary to, consummate, directly or indirectly, an Asset Sale, unless:

- (1) the Issuer or such Restricted Subsidiary, as the case may be, receives consideration (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) at the time of such Asset Sale at least equal to the Fair Market Value (as determined at the time of contractually agreeing to such Asset Sale) of the assets sold or otherwise disposed of; and
- (2) except in the case of a Permitted Asset Swap, at least 75% of the consideration from such Asset Sale and all other Asset Sales since the Issue Date, on a cumulative basis received by the Issuer or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents; *provided*, that the amount of:
 - (a) any liabilities (as reflected on the Issuer's most recent consolidated balance sheet, or if incurred or accrued subsequent to the date of such balance sheet, such liabilities that would have been reflected on the Issuer's consolidated balance sheet if such incurrence or accrual had taken place on or prior to the date of such balance sheet, as determined in good faith by the Issuer) of the Issuer, other than liabilities that are by their terms subordinated to the notes, that are assumed by the transferee of any such assets (or are otherwise extinguished in connection with the transactions relating to such Asset Sale) and for which the Issuer and all such Restricted Subsidiaries have been validly released by all applicable creditors in writing,
 - (b) any securities, notes or other obligations or assets received by the Issuer or such Restricted Subsidiary from such transferee that are converted by the Issuer or such Restricted Subsidiary into cash or Cash Equivalents, or by their terms are required to be satisfied for cash or Cash Equivalents (to the extent of the cash or Cash Equivalents received), in each case, within 180 days following the closing of such Asset Sale, and
 - (c) any Designated Non-cash Consideration received by the Issuer or such Restricted Subsidiary in such Asset Sale having an aggregate Fair Market Value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) not to exceed 6.0% of Consolidated Total Assets at the time of the receipt of such Designated Non-cash Consideration, with the Fair Market Value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value,

shall be deemed to be cash for purposes of this provision and for no other purpose.

Within 365 days after the Issuer's or any Restricted Subsidiary's receipt of the Net Proceeds of any Asset Sale, the Issuer or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale:

- (1) to the extent the Issuer or such Restricted Subsidiary elects or is required by the terms of any Credit Facility, any Senior Indebtedness of the Issuer or any Guarantor, or any Indebtedness that would appear as a liability upon a balance sheet of a Restricted Subsidiary that is not a Guarantor, to prepay, repay or purchase any such Indebtedness (in each case other than Indebtedness owed to the Issuer or a Restricted Subsidiary); *provided, however*, that in connection with any such prepayment, repayment or purchase of Indebtedness, the Issuer or such Restricted Subsidiary will retire such Indebtedness and will cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased;
- (2) to the extent the Issuer or such Restricted Subsidiary elects, to reinvest in Additional Assets (including by means of an investment in Additional Assets by a Restricted Subsidiary with Net Proceeds received

by the Issuer or another Restricted Subsidiary) within 365 days from the later of the date of such Asset Sale and the date of receipt of such Net Proceeds, *provided*, that the Issuer and its Restricted Subsidiaries will be deemed to have complied with this clause (2) if and to the extent that, within 365 days after the Asset Sale that generated the Net Proceeds, the Issuer or such Restricted Subsidiary has entered into and not abandoned or rejected a binding agreement to consummate any such investment described in this clause (2) with the good faith expectation that such Net Proceeds will be applied to satisfy such commitment within 180 days of such commitment (an *Acceptable Commitment*) and, in the event any *Acceptable Commitment* is later cancelled or terminated for any reason before the Net Proceeds are applied in connection therewith, the Issuer or such Restricted Subsidiary enters into another *Acceptable Commitment* (a *Second Commitment*) within 180 days of such cancellation or termination; *provided further*, that if any *Second Commitment* is later cancelled or terminated for any reason before such Net Proceeds are applied, then such Net Proceeds shall constitute *Excess Proceeds*; or

(3) any combination of the foregoing.

Within ten Business Days after the date that the balance of any Net Proceeds not invested or applied in the timeframe and as permitted by clauses (1), (2) and (3) above (any such Net Proceeds, whether from one or more Asset Sales,

Excess Proceeds) exceeds \$75.0 million, the Issuer shall make an offer to all Holders of the notes, and, if the Issuer or any Restricted Subsidiary elects, or is required by the terms of any Senior Indebtedness of the Issuer or any Guarantor or Indebtedness of any other Restricted Subsidiary (*Pari Passu Indebtedness*), to the holders of such *Pari Passu Indebtedness* (an *Asset Sale Offer*), to purchase the maximum aggregate principal amount of notes and such *Pari Passu Indebtedness*, (with respect to the notes only) in denominations of \$2,000 initial principal amount and multiples of \$1,000 thereafter, that may be purchased out of the *Excess Proceeds* at an offer price, in the case of the notes, in cash in an amount equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture. In the event that the Issuer or a Restricted Subsidiary prepays any *Pari Passu Indebtedness* that is outstanding under a revolving credit or other committed loan facility pursuant to an *Asset Sale Offer*, the Issuer or such Restricted Subsidiary shall cause the related loan commitment to be permanently reduced in an amount equal to the principal amount so prepaid.

The Issuer will commence an *Asset Sale Offer* for the notes by transmitting electronically or by mailing the notice required pursuant to the terms of the Indenture, with a copy to the Trustee. To the extent that the aggregate amount of notes and, if applicable, *Pari Passu Indebtedness* tendered pursuant to an *Asset Sale Offer* is less than the *Excess Proceeds* (or, in the case of an *Asset Sale Offer* being effected in advance of being required to do so by the Indenture, the amount of Net Proceeds to be applied in such *Asset Sale Offer*), the Issuer may use any remaining *Excess Proceeds* (or such amount offered) in any manner not prohibited by the Indenture. If the aggregate principal amount of notes and, if applicable, *Pari Passu Indebtedness* surrendered in an *Asset Sale Offer* exceeds the amount of *Excess Proceeds*, the Issuer shall determine the aggregate principal amount of notes to be purchased or repaid on a *pro rata* basis based on the accreted value or principal amount of the notes or such *Pari Passu Indebtedness* tendered, and the Trustee shall select the notes to be purchased or repaid on a *pro rata* basis based on the accreted value or principal amount of the notes tendered or by lot or such similar method in accordance with the procedures of The Depository Trust Company; *provided*, that no notes of \$2,000 or less shall be repurchased in part. Upon completion of any such *Asset Sale Offer*, the amount of *Excess Proceeds* shall be reset at zero, and in the case of an *Asset Sale Offer* being effected in advance of being required to do so by the Indenture, the amount of Net Proceeds to be applied in such *Asset Sale Offer* shall be excluded in subsequent calculations of *Excess Proceeds*.

Pending the final application of any Net Proceeds pursuant to this covenant, the Issuer or the applicable Restricted Subsidiary may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

Table of Contents

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The provisions under the Indenture relative to the Issuer's obligation to make an offer to repurchase the notes as a result of an Asset Sale may be waived or modified with the written consent of the Holders of a majority in principal amount of the notes outstanding.

The Senior Credit Facilities limit, and future credit agreements or other agreements relating to Indebtedness to which the Issuer (or one of its Affiliates) becomes a party may prohibit or limit, the Issuer from purchasing any notes pursuant to this Asset Sales covenant. In the event the Issuer is contractually prohibited from purchasing the notes, the Issuer or one of its Affiliates, as the case may be, may seek the consent of its lenders to the purchase of the notes or may attempt to refinance the borrowings that contain such prohibition. If the Issuer or one of its Affiliates, as the case may be, does not obtain such consent or repay such borrowings, the Issuer will remain contractually prohibited from purchasing the notes. In such case, the Issuer's failure to purchase tendered notes would constitute a Default under the Indenture.

Certain Covenants

Effectiveness of Covenants

Set forth below are summaries of certain covenants contained in the Indenture. Following the first day that (i) the notes have Investment Grade Ratings from both of the Rating Agencies, (ii) no Default or Event of Default under the Indenture has occurred and is continuing and (iii) the Issuer has delivered an Officer's Certificate to the Trustee certifying that the conditions set forth in clauses (i) and (ii) above are satisfied (the occurrence of the events described in the foregoing clauses (i), (ii) and (iii) being collectively referred to as the "Covenant Termination Event"), the Issuer and its Restricted Subsidiaries will no longer be subject to, and will be permanently released from their obligations under, the following provisions of the Indenture:

- (1) Limitation on Restricted Payments ;
- (2) Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock ;
- (3) Transactions with Affiliates ;
- (4) Note Guarantees ;
- (5) Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries ;

(6) Repurchase at the Option of Holders Asset Sales ;

(7) clauses (4) and (5) of the first paragraph of Merger, Consolidation or Sale of All or Substantially All Assets ;
and

(8) clause (6) of the first paragraph of Events of Default and Remedies
(collectively, the Terminated Covenants), regardless of any subsequent changes in the ratings of the notes.

Upon the occurrence of the Covenant Termination Event, the Guarantees of each of the Guarantors will be automatically released. See Guarantees.

The Trustee shall have no obligation to independently determine or verify if a Covenant Termination Event has occurred or notify the holders of the Covenant Termination Event. The Trustee may provide a copy of such Officer's Certificate to any holder of Notes upon request.

There can be no assurance that the notes will ever achieve an Investment Grade Rating or that any such rating will be maintained.

 - (2) the Fixed Charge Coverage Ratio of the Issuer and the Restricted Subsidiaries is equal to or greater than the Fixed Charge Coverage Ratio immediately prior to such acquisition, merger or consolidation; or
 - (3) the Consolidated Total Debt Ratio of the Issuer and the Restricted Subsidiaries is equal to or less than the Consolidated Total Debt Ratio immediately prior to such acquisition, merger or consolidation;
- (15) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business;
- (16) Indebtedness of the Issuer or any Restricted Subsidiary supported by a letter of credit issued pursuant to any Credit Facility, in a principal amount not in excess of the stated amount of such letter of credit;
- (17) (1) any guarantee by the Issuer or a Restricted Subsidiary of Indebtedness or other obligations of any Restricted Subsidiary so long as, in the case of a guarantee by a Restricted Subsidiary that is not a Guarantor, such Indebtedness could have been incurred directly by the Restricted Subsidiary providing such guarantee, or
- (2) any guarantee by a Restricted Subsidiary of Indebtedness of the Issuer, *provided*, that such guarantee is incurred in accordance with the covenant described below under Note Guarantees ;
- (18) Indebtedness of the Issuer or any of its Restricted Subsidiaries consisting of (i) the financing of insurance premiums or (ii) take or pay obligations contained in supply arrangements, in each case incurred in the ordinary course of business;
- (19) Indebtedness of the Issuer or any of its Restricted Subsidiaries undertaken in connection with Cash Management Services and related activities with respect to any Subsidiary or joint venture in the ordinary course of business;

(20) Indebtedness issued by the Issuer or any of its Restricted Subsidiaries to future, current or former officers, directors, managers and employees thereof, their respective estates, spouses or former spouses, in each case to finance the purchase or redemption of Equity Interests of the Issuer or any direct or indirect parent company of the Issuer to the extent described in clause (4) of the second paragraph under the caption Limitation on Restricted Payments; and

(21) Indebtedness of the Issuer or any of its Restricted Subsidiaries representing deferred compensation to officers, directors, managers and employees thereof incurred in the ordinary course of business.

For purposes of determining compliance with this covenant:

(a) in the event that an item of Indebtedness, Disqualified Stock or preferred stock (or any portion thereof) meets the criteria of more than one of the categories of permitted Indebtedness, Disqualified Stock or preferred stock described in clauses (1) through (21) above or is entitled to be incurred pursuant to the first paragraph of this covenant, the Issuer, in its sole discretion, may divide, classify or later reclassify (based on circumstances existing on the date of such reclassification) such item of Indebtedness, Disqualified Stock or preferred stock (or any portion thereof) and will only be required to include the amount and type of such Indebtedness, Disqualified Stock or preferred stock in one of the above

Table of Contents

clauses or paragraphs; *provided*, that all Indebtedness outstanding or committed to under the Senior Credit Facilities on or prior to the Issue Date will be treated as incurred on the Issue Date under clause (1) of the preceding paragraph; *provided further*, that the Issuer shall not be permitted to reclassify all or any portion of any Secured Indebtedness unless the Lien is also permitted to be incurred, and is incurred, with respect to such Secured Indebtedness as so reclassified; and

- (b) at the time of incurrence, the Issuer will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraph above.

Accrual of interest or dividends, the accretion of accreted value, the accretion or amortization of original issue discount and the payment of interest or dividends in the form of additional Indebtedness, Disqualified Stock or preferred stock will not be deemed to be an incurrence of Indebtedness, Disqualified Stock or preferred stock for purposes of this covenant. Any Refinancing Indebtedness and any Indebtedness incurred to refinance Indebtedness incurred pursuant to clauses (1) and (12) above shall be permitted to include additional Indebtedness, Disqualified Stock or preferred stock incurred to pay premiums (including reasonable tender premiums), defeasance costs, accrued and unpaid interest, fees and expenses in connection with such refinancing.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in another currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed, in the case of revolving credit debt; *provided*, that if such Indebtedness is incurred to Refinance other Indebtedness denominated in another currency, and such Refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such Refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed (i) the principal amount of such Indebtedness being Refinanced plus (ii) the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses incurred in connection with such Refinancing.

The principal amount of any Indebtedness incurred to Refinance other Indebtedness, if incurred in a different currency from the Indebtedness being Refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such Refinancing.

The Indenture will not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Senior Indebtedness as subordinated or junior to any other Senior Indebtedness merely because it has a junior priority with respect to the same collateral.

Liens

The Issuer will not, and will not permit any Guarantor to, directly or indirectly, create, incur, assume or suffer to exist any Lien (except Permitted Liens) that secures obligations under any Indebtedness or any related Guarantee on any asset or property of the Issuer or any Guarantor, or any income or profits therefrom, or assign or convey any right to receive income therefrom, unless the notes (or the related Guarantee in the case of Liens of a Guarantor) are equally and ratably secured with (or, in the event the Lien relates to Subordinated Indebtedness, are secured on a senior basis to) the obligations so secured.

Any Lien created for the benefit of the Holders of the notes pursuant to the preceding paragraph shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon (i) the release and discharge of the Lien that gave rise to the obligation to secure the notes (the Initial Lien) or (ii) any sale, exchange or

transfer to any Person not an Affiliate of the Issuer of the property or assets secured by the Initial Lien, or of all of the Capital Stock held by the Issuer or any Restricted Subsidiary in, or all or substantially all the assets of, any Guarantor creating such Initial Lien.

The Issuer will not consolidate or merge with or into or wind up into (whether or not the Issuer is the surviving Person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

- (1) the Issuer is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than the Issuer) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a Person organized or existing under the laws of the United States, any state thereof or the District of Columbia, Bermuda or any Member State of the European Union (such Person, as the case may be, being herein called the Successor Issuer);

- (3) immediately after such transaction, no Default exists;
- (4) immediately after giving pro forma effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the Applicable Measurement Period,
 - (A) the Issuer would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock or
 - (B) the Fixed Charge Coverage Ratio for the Issuer and the Restricted Subsidiaries would be equal to or greater than the Fixed Charge Coverage Ratio for the Issuer and the Restricted Subsidiaries immediately prior to such transaction;
- (5) each Guarantor, unless it is the other party to the transactions described above shall have by supplemental indenture confirmed that its Guarantee shall apply to such Person's obligations under the Indenture and the notes; and
- (6) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture and an Opinion of Counsel stating that the Indenture constitutes the legal, valid and binding obligation of the Issuer or Successor Issuer, as applicable.

The Successor Issuer will succeed to, and be substituted for, the Issuer under the Indenture and the notes and the Issuer will automatically be released and discharged from its obligations under the Indenture and the notes.

Notwithstanding the foregoing clauses (3) and (4) of the first paragraph of this covenant,

- (a) any Restricted Subsidiary may consolidate with, merge into or sell, assign, transfer, lease, convey or otherwise dispose of all or part of its properties and assets to the Issuer or any Guarantor; and

Subject to certain limitations described in the Indenture governing release of a Guarantee upon the sale, disposition or transfer of a Subsidiary Guarantor, no Subsidiary Guarantor will, and the Issuer will not permit any such Subsidiary Guarantor to, consolidate or merge with or into or wind up into (whether or not such Subsidiary Guarantor is the surviving Person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

assignment, transfer, lease, conveyance or other disposition will have been made is a Person organized or existing under the laws of the United States, any state thereof or the District of Columbia or Bermuda or any Member State of the European Union (such Person, as the case may be, being herein called the Successor Person);

- (2) the Successor Person, if other than such Subsidiary Guarantor, expressly assumes all the obligations of such Subsidiary Guarantor under the Indenture and such Subsidiary Guarantor's related Guarantee pursuant to supplemental indentures or other documents or instruments in form and substance reasonably satisfactory to the Trustee;
- (3) immediately after such transaction, no Default exists; and
- (4) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture and an Opinion of Counsel stating that the Indenture and Guarantees, as applicable, constitute legal, valid and binding obligations of the applicable Subsidiary Guarantor, subject to customary exceptions; or

- (B) the transaction is an Asset Sale that is made in compliance with the covenant described under Repurchase at the Option of Holders' Asset Sales.

Subject to certain limitations described in the Indenture, the Successor Person will succeed to, and be substituted for, such Subsidiary Guarantor under the Indenture and such Subsidiary Guarantor's Guarantee and such Subsidiary Guarantor will automatically be released and discharged from its obligations under the Indenture and such Subsidiary Guarantor's Guarantee. Notwithstanding the foregoing, any Subsidiary Guarantor may (i) merge into or transfer all or part of its properties and assets to another Guarantor or the Issuer, (ii) merge with an Affiliate of the Issuer solely for the purpose of reincorporating or reorganizing the Subsidiary Guarantor under the laws of the United States, any state thereof or the District of Columbia so long as the amount of Indebtedness of the Issuer and its Restricted Subsidiaries is not increased thereby or (iii) convert into a Person organized or existing under the laws of a jurisdiction in the United States.

Transactions with Affiliates

The Issuer will not, and will not permit any Restricted Subsidiary to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Issuer (each of the foregoing, an Affiliate Transaction) involving aggregate payments or consideration in excess of \$5.0 million, unless:

- (a) such Affiliate Transaction is on terms that are not materially less favorable to the Issuer or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm's-length basis; and

- (b) the Issuer delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate payments or consideration in excess of \$15.0 million, a resolution adopted by the majority of the board of directors of the Issuer approving such Affiliate Transaction and set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with clause (a) above.

For purposes of determining compliance with this covenant: (i) the priority of any preferred stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common equity shall not be deemed a restriction on the ability to make distributions on Capital Stock and (ii) the subordination of loans or advances made to the Issuer or a Restricted Subsidiary to other Indebtedness incurred by the Issuer or any such Restricted Subsidiary shall not be deemed a restriction on the ability to make loans or advances.

Note Guarantees

The Issuer will not permit any of its Restricted Subsidiaries, other than a Guarantor or a special purpose Restricted Subsidiary formed in connection with a Receivables Facility, to guarantee the payment of (i) the Senior Credit Facilities or (ii) any other capital markets debt securities of the Issuer or a Guarantor in an aggregate principal amount that exceeds \$100.0 million (other than Indebtedness payable to the Issuer or a Restricted Subsidiary) unless:

(a) such Restricted Subsidiary within 30 days executes and delivers a supplemental indenture substantially in the form provided as an exhibit to the Indenture providing for a Guarantee by such Restricted Subsidiary; *provided*, that, if such Indebtedness is by its express terms subordinated in right of payment to the notes or such Guarantor's Guarantee of the notes, any such guarantee of such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Restricted Subsidiary's Guarantee with respect to the notes substantially to the same extent as such Indebtedness is subordinated to the notes; and

Table of Contents

(b) such Restricted Subsidiary waives and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Issuer or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Guarantee; *provided*, that this covenant shall not be applicable to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary.

Reports and Other Information

The Indenture will provide that, notwithstanding that the Issuer may not be required to be or remain subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, the Issuer will file with the SEC (unless such filing is not permitted under the Exchange Act or by the SEC), so long as the notes are outstanding, the annual reports, information, documents and other reports that the Issuer is required to file with the SEC pursuant to such Section 13(a) or 15(d) or would be so required to file if the Issuer were so subject.

Notwithstanding the foregoing, the Issuer will not be obligated to file such reports with the SEC if the SEC does not permit such filing, so long as the Issuer provides such information to the Trustee and the Holders by the date the Issuer would be required to file such information pursuant to the preceding paragraph. The requirements set forth in this paragraph and the preceding paragraph may be satisfied by delivering such information to the Trustee and posting copies of such information on a website (which may be nonpublic and may be maintained by the Issuer or a third party) to which access will be given to Holders.

Events of Default and Remedies

The following events constitute Events of Default under the Indenture with respect to the notes:

- (1) default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of, or premium, if any, on the notes issued under the Indenture;
- (2) default for 30 days or more in the payment when due of interest on or with respect to the notes issued under the Indenture;
- (3) the failure to perform or comply with any of the provisions described under Merger, Consolidation and Sales of All or Substantially All Assets ;
- (4) failure by the Issuer or any Restricted Subsidiary for 60 days after the receipt of written notice given by the Trustee or the Holders of not less than 25% in principal amount of the notes then outstanding (with a copy to the Trustee) to comply with any of its obligations, covenants or agreements (other than a default referred to in clauses (1), (2) and (3) above) contained in the Indenture or the notes;
- (5) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuer or any Restricted Subsidiary or the

payment of which is guaranteed by the Issuer or any Restricted Subsidiary, other than Indebtedness owed to the Issuer or any Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the notes, if both:

- (A) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity, and
- (B) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$75.0 million or more at any one time outstanding;

Table of Contents

- (6) failure by the Issuer or any Significant Subsidiary to pay final judgments aggregating in excess of \$75.0 million (net of amounts covered by insurance policies issued by reputable insurance companies), which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;
- (7) certain events of bankruptcy or insolvency with respect to the Issuer or any Significant Subsidiary; or
- (8) the Guarantee of any Guarantor that is a Significant Subsidiary shall for any reason cease to be in full force (except as contemplated by the terms thereof or by the Indenture) and effect or be declared null and void or any responsible officer of any Guarantor that is a Significant Subsidiary denies that it has any further liability under its Guarantee or gives notice to such effect, other than by reason of the termination of the related Indenture or the release of any such Guarantee in accordance with the Indenture.

If any Event of Default (other than of a type specified in clause (7) above with respect to the Issuer) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in principal amount of the then outstanding notes issued under the Indenture may declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding notes issued under the Indenture to be due and payable immediately.

Upon the effectiveness of such declaration, such principal and interest will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (7) of the first paragraph of this section with respect to the Issuer, all outstanding notes will become due and payable without further action or notice. The Indenture will provide that the Trustee may withhold from the Holders notice of any continuing Default or Event of Default, except a Default or Event of Default relating to the payment of principal, premium, if any, or interest, if it determines that withholding notice is in their interest.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding notes issued thereunder by notice to the Trustee may on behalf of the Holders of all of the notes waive any existing Default or Event of Default and its consequences under the Indenture (except a continuing Default or Event of Default in the payment of interest on, premium, if any, or the principal of any such note held by a non-consenting Holder) and rescind any acceleration and its consequences with respect to the notes, *provided*, such rescission would not conflict with any judgment of a court of competent jurisdiction and all amounts owing to the Trustee have been repaid. In the event of any Event of Default specified in clause (5) above, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the Holders, if within 20 days after such Event of Default arose,

- (x) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged, or
- (y) the holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default or
- (z) if the default that is the basis for such Event of Default has been cured.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the notes unless such Holders have offered to the Trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a note may pursue any remedy with respect to the Indenture or the notes unless:

- (1) such Holder has previously given the Trustee notice that an Event of Default is continuing;

Table of Contents

- (2) Holders of at least 25% in principal amount of the outstanding notes have requested the Trustee to pursue the remedy;
- (3) such Holders have offered the Trustee security or indemnity satisfactory to it against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity satisfactory to it against any loss, liability or expense; and
- (5) Holders of a majority in principal amount of the outstanding notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee with respect to the notes. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a note or that would involve the Trustee in personal liability.

The Indenture will provide that the Issuer is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Issuer is required, within ten Business Days, upon becoming aware of any Default or Event of Default, to deliver to the Trustee a statement specifying such Default or Event of Default.

No Personal Liability of Directors, Managers, Officers, Employees and Stockholders

No director, manager, officer, employee, incorporator or stockholder of the Issuer or any Guarantor or any of their parent companies, if any, as such, shall have any liability for any obligations of the Issuer or the Guarantors under the notes, the Guarantees or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the SEC that such a waiver is against public policy.

Legal Defeasance and Covenant Defeasance

The obligations of the Issuer and the Guarantors under the Indenture and the notes will terminate (other than certain obligations) and will be released upon payment in full of all of the notes issued under the Indenture. The Issuer may, at its option and at any time, elect to have all of its obligations discharged with respect to the notes issued under the Indenture and have the Issuer's and each Guarantor's obligation discharged with respect to its Guarantee of the notes (Legal Defeasance) and cure all then existing Events of Default except for

- (1) the rights of Holders of notes issued under the Indenture to receive payments in respect of the principal of, premium, if any, and interest on the notes when such payments are due solely out of the trust created pursuant to the Indenture;

- (2) the Issuer's obligations with respect to notes issued under the Indenture concerning issuing temporary notes, registration of such notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the Trustee, and the Issuer's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, the Issuer may, at its option and at any time, elect to have its obligations and those of each Guarantor released with respect to substantially all of the restrictive covenants that are described in the Indenture (Covenant Defeasance) and thereafter any omission to comply with such obligations shall not constitute a

Default with respect to the notes. In the event Covenant Defeasance occurs, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Issuer) described under Events of Default and Remedies will no longer constitute an Event of Default with respect to the notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the notes issued under the Indenture:

- (1) the Issuer must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the notes, cash (in U.S. dollars), Government Securities, or a combination thereof, in such amounts as will be sufficient, in the written opinion of a nationally recognized firm of independent public accountants delivered to the Trustee, to pay the principal of, premium, if any, and interest due on the notes issued under the Indenture on the stated maturity date or on the redemption date, as the case may be, of such principal, premium, if any, or interest on the notes and the Issuer must specify whether the notes are being defeased to maturity or to a particular redemption date;
- (2) in the case of Legal Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel in the United States reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions,
 - (A) the Issuer has received from, or there has been published by, the United States Internal Revenue Service a ruling or
 - (B) since the issuance of the notes, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such opinion of counsel in the United States shall confirm that, subject to customary assumptions and exclusions, the Holders of the notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;
- (3) in the case of Covenant Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel in the United States reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions, the Holders of the notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;
- (4) no Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness, and, in each case the granting of Liens in connection therewith) with respect to the notes shall have occurred and be continuing on the date of such deposit;

- (5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under the Senior Credit Facilities or any other material agreement or instrument (other than the Indenture) to which, the Issuer or any Guarantor is a party or by which the Issuer or any Guarantor is bound (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith);

- (2) no Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith) with respect to the Indenture or the notes issued thereunder shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of, or constitute a default under the Senior Credit Facilities or any other material agreement or instrument (other than the Indenture) to which the Issuer or any Guarantor is a party or by which the Issuer or any Guarantor is bound (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith);

Except as provided in the next two succeeding paragraphs, the Indenture, the notes issued thereunder and any related Guarantee may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the notes then outstanding and issued under the Indenture, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, the notes, and any existing Default or Event of Default or compliance with any provision of the Indenture or the notes issued thereunder may be waived with the consent of the Holders of a majority in principal amount of the then outstanding notes issued under the Indenture, other than notes beneficially owned by the Issuer or its Affiliates (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, the notes).

The Indenture will provide that, without the consent of each Holder of notes affected thereby, an amendment or waiver may not, with respect to any notes issued under the Indenture and held by a non-consenting Holder:

- (1) reduce the principal amount of the notes whose Holders must consent to an amendment, supplement or waiver;

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Neither the Issuer nor any of its Restricted Subsidiaries may, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the notes unless such consideration is offered to be paid and is paid to all Holders that consent, waive or agree to amend in the time frame set forth in solicitation documents relating to such consent, waiver or amendment.

These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company organized under the laws of the State of New York, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participating organizations (collectively, the participants) and to facilitate the clearance and settlement of transactions in those securities between participants through electronic book-entry changes in accounts of its participants. The participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (collectively, the indirect participants). Persons who are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the participants and indirect participants.

DTC has also advised us that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes, DTC will credit the accounts of participants designated by the underwriters with portions of the principal amount of the Global Notes; and
- (2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the participants) or by the participants and the indirect participants (with respect to other owners of beneficial interests in the Global Notes).

Investors in the Global Notes who are participants in DTC's system may hold their interests therein directly through DTC. Investors in the Global Notes who are not participants may hold their interests therein indirectly through organizations which are participants in such system. All interests in a Global Note may be subject to the procedures and requirements of DTC. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons will be limited to that extent. Because DTC can act only on behalf of participants, which in

Table of Contents

turn act on behalf of indirect participants, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of an interest in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest and premium, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the Indenture. Under the terms of the Indenture, we and the Trustee will treat the persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither we, the Trustee nor any agent of us or the Trustee has or will have any responsibility or liability for:

- (1) any aspect of DTC's records or any participant's or indirect participant's records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership interests in the Global Notes; or
- (2) any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the participants and the indirect participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the participants or the indirect participants and will not be the responsibility of DTC, the Trustee or us. Neither we nor the Trustee will be liable for any delay by DTC or any of its participants in identifying the beneficial owners of the notes, and we and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the notes, DTC reserves the right to exchange the Global Notes for definitive notes in registered certificated form ("Certificated Notes"), and to distribute such notes to its participants.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants, it is under no obligation to perform such procedures, and such procedures may be discontinued or

changed at any time. Neither we, the Trustee nor any agent of us or the Trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes if:

- (1) DTC (A) notifies us that it is unwilling or unable to continue as depositary for the Global Notes or (B) has ceased to be a clearing agency registered under the Exchange Act and, in each case, a successor depositary is not appointed;
- (2) we, at our option, notify the Trustee in writing that we elect to cause the issuance of the Certificated Notes;
or
- (3) there has occurred and is continuing a default with respect to the notes.

In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depositary (in accordance with its customary procedures).

Exchange of Certificated Notes for Global Notes

Certificated Notes may not be exchanged for beneficial interests in any Global Note unless the transferor first delivers to the Trustee a written certificate (in the form provided in the Indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such notes.

Same-Day Settlement and Payment

We will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, and interest, if any) by wire transfer of immediately available funds to the accounts specified by the Global Note holder. We will make all payments of principal, interest and premium, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

MATERIAL TAX CONSIDERATIONS

Certain U.S. Federal Income Tax Consequences

The following is a summary of certain U.S. federal income tax consequences of the purchase, ownership and disposition of the notes as of the date hereof. Except where noted, this summary deals only with notes that are held as capital assets by a U.S. holder (as defined below) who acquired our notes upon original issuance at their initial offering price.

A U.S. holder means a person that is for U.S. federal income tax purposes any of the following:

an individual citizen or resident of the U.S.;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S., any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the U.S. and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the Code), and regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income tax consequences different from those summarized below. This summary does not address all aspects of U.S. federal income taxes and does not address the effects of the Medicare contribution tax on net investment income or foreign, state, local or other tax considerations that may be relevant to U.S. holders in light of their particular circumstances. In addition, it does not represent a detailed description of the U.S. federal income tax consequences applicable to you if you are subject to special treatment under the U.S. federal income tax laws. For example, this summary does not address:

tax consequences to holders who may be subject to special tax treatment, such as dealers in securities or currencies, traders in securities that elect to use the mark-to-market method of accounting for their securities, financial institutions, regulated investment companies, real estate investment trusts, partnerships or other pass-through entities for U.S. federal income tax purposes, tax-exempt entities or insurance companies;

tax consequences to persons holding the notes as part of a hedging, integrated, constructive sale or conversion transaction or a straddle;

tax consequences to holders of the notes whose functional currency is not the U.S. dollar; or

alternative minimum tax consequences, if any.

If a partnership holds our notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our notes, you should consult your tax advisors.

Payments of Interest

Interest on a note will generally be taxable to you as ordinary income at the time it is paid or accrued in accordance with your method of accounting for tax purposes. In addition to interest on the notes (which includes any Irish tax withheld from the interest payments you receive), you will be required to include in income any Additional Amounts paid in respect of such Irish tax withheld. You may be entitled to deduct or credit this tax, subject to certain limitations (including that the election to deduct or credit foreign taxes applies to all of your foreign taxes for a particular tax year). Interest income (including any Additional Amounts) on a note generally

Table of Contents

will be considered foreign source income and, for purposes of the U.S. foreign tax credit, generally will be considered passive category income. You will generally be denied a foreign tax credit for foreign taxes imposed with respect to the notes where you do not meet a minimum holding period requirement during which you are not protected from risk of loss. The rules governing the foreign tax credit are complex. You are urged to consult your tax advisors regarding the availability of the foreign tax credit under your particular circumstances.

Sale, Exchange, Retirement or other Disposition of Notes

Your adjusted tax basis in a note will, in general, be your cost for that note. Upon the sale, exchange, retirement or other disposition of a note, you will recognize gain or loss equal to the difference between the amount you realize upon the sale, exchange, retirement or other disposition (less an amount equal to any accrued but unpaid interest, which will be taxable as interest income to the extent not previously included in income) and the adjusted tax basis of the note. Such gain or loss will be capital gain or loss and will generally be treated as U.S. source gain or loss. Capital gains of non-corporate U.S. holders (including individuals) derived in respect of capital assets held for more than one year are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

Backup Withholding and Information Reporting

Generally, information reporting requirements will apply to all payments we make to you and the proceeds from a sale of a note paid to you, unless you are an exempt recipient. Additionally, if you fail to provide your taxpayer identification number, or in the case of interest payments, fail either to report in full dividend and interest income or to make certain certifications, you may be subject to backup withholding.

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability provided the required information is timely furnished to the Internal Revenue Service (the IRS).

Certain U.S. holders are required to report information relating to an interest in the notes, subject to certain exceptions (including an exception for notes held in accounts maintained by certain financial institutions), by attaching a complete IRS Form 8938, Statement of Specified Foreign Financial Assets, with their tax return for each year in which they hold an interest in the notes. You are urged to consult your own tax advisors regarding information reporting requirements relating to your ownership of the notes.

The above description is not intended to constitute a complete analysis of all tax consequences relating to the ownership of notes. Prospective purchasers of notes should consult their own tax advisors concerning the tax consequences of their particular situations.

Irish Tax Considerations

The following is a summary of the principal Irish tax consequences for individuals and companies of ownership of the notes based on the laws and practice of the Irish Revenue Commissioners currently in force in Ireland and on discussions and correspondence with the Irish Revenue Commissioners. Legislative, administrative or judicial changes may modify the tax consequences described below. It deals with holders who beneficially own the notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding the notes, such as dealers in securities, trusts, insurance companies, related parties, collective investment schemes and individuals who have or may be deemed to have acquired the notes by virtue of an office or employment. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the

notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Table of Contents

Taxation of Holders of the Notes

Withholding Tax

In general, tax at the standard rate of income tax (currently 20%), is required to be withheld from payments of Irish source interest which should include interest payable on the debt securities issued by Irish incorporated or Irish tax-resident entities. No such entity will be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a debt security so long as the relevant debt security is a quoted Eurobond, namely a security which is issued by a company (such as Allegion), is listed on a recognized stock exchange (such as the NYSE) and carries a right to interest. To the extent that any Irish incorporated or Irish tax-resident entities make a payment of interest, we expect that the relevant debt securities will be listed on the NYSE or another recognized stock exchange. Provided that the debt securities issued by Irish incorporated or Irish tax-resident entities are interest bearing and are listed on a recognized stock exchange, interest paid on them can be paid free of withholding tax provided:

the person by or through whom the payment is made is not in Ireland; or

the payment is made by or through a person in Ireland and either:

the debt security is held in a clearing system recognized by the Irish Revenue Commissioners; DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognized; or

the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form.

Thus, so long as the notes continue to be quoted on a recognized stock exchange and are held in a recognized clearing system, interest on the notes can be paid by any paying agent acting on behalf of Irish incorporated or Irish tax-resident entities without any withholding or deduction for or on account of Irish income tax. However, if the notes are not listed on a recognized stock exchange (such as the NYSE) or any of the other conditions in Section 64 of the Taxes Consolidation Act 1997 are not met on any interest payment date in respect of the notes, then we will, subject to the availability of another exemption, be required to deduct Irish withholding tax (currently at the rate of 20%) from payments of interest on the notes. If the notes continue to be quoted but cease to be held in a recognized clearing system, interest on the notes may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

Encashment Tax

In certain circumstances, Irish tax will be required to be withheld at the standard rate of income tax (currently 20%) from interest on any note, where such interest is collected or realized by a bank or encashment agent in Ireland on behalf of any holder. There is an exemption from encashment tax where the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank.

Income Tax and Levies

Notwithstanding that a holder may receive interest on the debt securities free of withholding tax, the holder may still be liable to pay Irish tax with respect to such interest. Holders resident or ordinarily resident in Ireland who are individuals may be liable to pay Irish income tax, pay related social insurance (PRSI) contributions, and the universal social charge in respect of interest they receive on the notes.

Interest paid on the notes has an Irish source and therefore is within the charge to Irish income tax. In the case of holders who are non-resident individuals such holders may also be liable to pay the universal social charge in respect of interest they receive on the notes.

Table of Contents

Ireland operates a self-assessment system in respect of tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

There are a number of exemptions from Irish income tax available to certain non-residents. First, interest payments made by an Irish resident entity in the ordinary course of its business are exempt from income tax provided the recipient is not resident in Ireland and is a company resident in a Relevant Territory which imposes a tax that generally applies to interest receivable in that Relevant Territory by companies from sources outside that Relevant Territory or, where the interest is exempted from the charge to Irish income tax under the terms of a double tax agreement which is either in force or which will come into force once all ratification procedures have been completed. Second, interest paid by an Irish tax-resident or Irish incorporated entity free of withholding tax under the quoted Eurobond exemption is exempt from income tax, where the recipient is a person not resident in Ireland and resident in a Relevant Territory. For these purposes, Relevant Territory means a Member State of the EU (other than Ireland) or a country with which Ireland has signed a double tax treaty and residence is determined under the terms of the relevant double tax treaty or in any other case, the law of the country in which the recipient claims to be resident. Interest falling within either of the above exemptions is also exempt from the universal social charge.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the notes are held or attributed, may have a liability to Irish corporation tax on the interest.

Relief from Irish income tax may also be available under the specific provisions of a double tax treaty between Ireland and the country of residence of the recipient.

Interest on the notes which does not fall within the above exemptions is within the charge to income tax, and, in the case of holders of the notes who are individuals, is subject to income tax, PRSI and the universal social charge. In the past the Irish Revenue Commissioners have not pursued liability to income tax in respect of persons who are not regarded as being resident in Ireland except where such persons have a taxable presence of some sort in Ireland or seek to claim any relief or repayment in respect of Irish tax. However, there can be no assurance that the Irish Revenue Commissioners will apply this treatment in the case of any holder.

Capital Gains Tax

A holder of notes will not be subject to Irish tax on capital gains on a disposal of the notes unless such holder is either resident or ordinarily resident in Ireland or carries on a trade or business in Ireland through a branch or agency in respect of which the notes were used or held.

Capital Acquisitions Tax

A gift or inheritance comprising of notes will be within the charge to capital acquisitions tax (which subject to available exemptions and reliefs will be levied at 33%) if either (i) the disposer or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the disposer is domiciled in Ireland irrespective of his residence or that of the donee/successor) on the relevant date or (ii) if the notes are regarded as property situate in Ireland (i.e. if the notes are physically located in Ireland or if the register of the debt securities is maintained in Ireland).

Stamp Duty

The issue of the notes will not give rise to a charge to Irish stamp duty.

The transfer of the notes will not give rise to a charge to stamp duty where the notes meet all of the following conditions (which we expect to be the case):

they do not carry a right of conversion into stocks or marketable securities (other than loan capital) of a company having a register in Ireland or into loan capital having such a right;

Table of Contents

they do not carry rights of the same kind as shares in the capital of a company, including rights such as voting right, a share in the profits or a share in the surplus on liquidation;

they are not issued for a price which is not less than 90% of their nominal value; and

they do not carry a right to a sum in respect of repayment or interest which is related to certain movements in an index or indices (based wholly or partly and directly or indirectly on stocks or marketable securities) specified in any instrument or other document relating to loan capital.

The transfer of the notes solely by way of delivery will not give rise to a charge to stamp duty.

Where no exemption applies, the transfer of the notes will give rise to a charge to Irish stamp duty at the rate of one percent of the higher of the market value or the consideration paid.

EU Savings Directive

Ireland has implemented the EU Savings Directive on the taxation of savings income into national law. Accordingly, any Irish paying agent making an interest payment on behalf of the issuer to an individual or certain residual entities resident in another Member State of the European Union or certain associated and dependent territories of a Member State will have to provide details of the payment and certain details relating to the holder (including the holder's name and address) to the Irish Revenue Commissioners who in turn is obliged to provide such information to the competent authorities of the state or territory of residence of the individual or residual entity concerned. Allegion plc will be entitled to require holders of the notes to provide any information regarding their tax status, identity or residency in order to satisfy the disclosure requirements in the Savings Directive. Holders of the notes will be deemed by their subscription to have authorized the automatic disclosure of such information by Allegion plc or any other person to the relevant tax authorities.

On March 24, 2014 the Council of the European Union adopted a directive amending the EU Savings Directive which intends, when implemented, to amend and broaden the scope of the disclosure requirements. Member States have until January 1, 2016 to adopt national legislation necessary to comply with the amending directive. Notwithstanding the foregoing, on October 15, 2014 the European Commission stated that, in order to have just one standard of automatic information exchange and to avoid legislative overlaps with the proposed revision of the Administrative Cooperation Directive (introducing a new and enhanced standard of automatic information exchange), it is now considering the repeal of the EU Savings Directive. On March 18, 2015 the European Commission published a Proposal for a Council Directive repealing the EU Savings Directive. Adoption of the Proposal is expected in the forthcoming months. These revisions potentially could come into effect in 2017.

Taxation of Payments Under the Guarantees

Payments in the nature of interest, by any Irish incorporated or Irish tax-resident entity, under the guarantee may be liable to Irish tax. No such entity will be obliged to make any deduction or withholding for or on account of Irish tax provided that the payment under the guarantee is in respect of interest payable on a note to which the quoted Eurobond exemption described above applies.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of the notes by employee benefit plans that are subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code, or provisions under any other federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code (collectively, Similar Laws), and entities whose underlying assets are considered to include plan assets of any such plan, account or arrangement (each, a Plan).

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an ERISA Plan) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan.

In considering an investment in the notes of a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary's duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets (as well as those plan assets that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts or an entity deemed to hold the assets of such plans) with persons or entities who are parties in interest, within the meaning of ERISA, or disqualified persons, within the meaning of Section 4975 of the Code, unless an exemption is available. The fiduciary of a Plan that proposes to purchase and hold any of the notes should consider, among other things, whether such purchase and holding may involve (i) the direct or indirect extension of credit between a Plan and a party in interest or a disqualified person, (ii) the sale or exchange of any property between a Plan and a party in interest or a disqualified person, or (iii) the transfer to, or use by or for the benefit of, a party in interest or disqualified person, of any Plan assets. Such parties in interest or disqualified persons could include, without limitation, the issuer, the underwriters or any of their respective affiliates.

A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the ERISA Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. The acquisition and/or holding of the notes by an ERISA Plan with respect to which an issuer, an underwriter or a guarantor is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption.

In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or PTCEs, that may provide exemptive relief for direct or indirect prohibited transactions resulting from the sale, purchase or holding of the notes. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by

independent qualified professional asset managers, PTCE 90-1 respecting insurance

Table of Contents

company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts, and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions, provided that neither the issuer of the notes nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any ERISA Plan involved in the transaction and provided further that the ERISA Plan pays no more than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Governmental plans, non-U.S. plans and certain church plans, while not subject to the prohibited transaction provisions of ERISA and Section 4975 of the Code, may nevertheless be subject to Similar Laws which may affect their investment in the notes. Any fiduciary of a governmental, non U.S. or such a church plan considering an investment in the notes should consult with its counsel before purchasing the notes to consider the applicable fiduciary standards and to determine the need for, and, if necessary, the availability of, any exemptive relief under any applicable Similar Laws.

Because of the foregoing, the notes should not be purchased or held by any person investing plan assets of any Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under ERISA and the Code or similar violation of any applicable Similar Laws.

Representation

Accordingly, by the acquisition and holding of a Note, or any interest in a Note, each person who authorizes such acquisition and holding and each subsequent transferee will be deemed to have represented and warranted that either (i) no portion of the assets used to acquire or hold the Note, or any interest therein, constitutes assets of any Plan or (ii) the acquisition and holding of the notes by such purchaser or transferee will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering purchasing the notes (and holding the notes) on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase and holding of the notes.

Purchasers of the notes have the exclusive responsibility for ensuring that their purchase and holding of the notes complies with the fiduciary responsibility rules of ERISA and does not violate the prohibited transaction rules of ERISA, the Code or applicable Similar Laws. We make no representation as to whether an investment in the notes is appropriate for any Plan in general or whether such investment is appropriate for any particular plan or arrangement.

sale or otherwise transfer or dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to any of our securities that are substantially similar to the notes, or publicly disclose the intention to make any such offer, sale, pledge, disposition or filing.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

The notes are new issues of securities, and there is currently no established trading market for the notes. We intend to apply for the notes to be listed on the NYSE. If the notes are not listed on the NYSE, we intend to list the notes on another securities exchange. If such listing is obtained, we will have no obligation to maintain such listing, and we may delist the notes at any time. In addition, the underwriters have advised us that they intend to make a market in the notes prior to commencement of any trading on September 16, 2015, but they are not obligated to do so. The underwriters may discontinue any market-making in the notes at any time in their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices you receive when you sell will be favorable.

In connection with the offering, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

Conflicts of Interest

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us and to persons and entities with relationships to us, for which they received or will receive customary fees and expenses. For example, certain of the underwriters and their respective affiliates are lenders or agents under our senior secured credit facilities. If the underwriters or their respective affiliates have a lending relationship with us, certain of those underwriters and their respective affiliates routinely hedge, and certain other of the underwriters and their respective affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, which may include the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities or instruments of ours (directly, as collateral securing other obligations or otherwise) or persons and entities with relationships with us. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in

respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and

instruments. In addition, from time to time, certain of the underwriters and their respective affiliates may effect transactions for their own account or the account of customers, and hold on behalf of themselves or their customers, long and/or short positions in our debt or equity securities or loans, and may do so in the future.

The net proceeds from the offering will be used to repay borrowings under our revolving credit facility, as described under Use of Proceeds. As a result, J.P. Morgan Securities LLC, Goldman, Sachs & Co., Wells Fargo Securities, LLC, Credit Suisse Securities (USA) LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, BNP Paribas Securities Corp. and Citigroup Global Markets Inc. or their respective affiliates will receive 5% or more of the net proceeds of the offering. Accordingly, these underwriters are deemed to have a conflict of interest within the meaning of Rule 5121 and the offering will be conducted in compliance with the applicable requirements of Rule 5121. Rule 5121 requires that a qualified independent underwriter, as defined in Rule 5121, participate in the preparation of the registration statement and prospectus and exercise the usual standards of due diligence with respect thereto. PNC Capital Markets LLC has agreed to act as a qualified independent underwriter for the offering. Aside from its relative portion of the underwriting discount set forth on the cover page of this prospectus, PNC Capital Markets LLC will not receive any additional fees for serving as a qualified independent underwriter in connection with this offering. We have agreed to indemnify PNC Capital Markets LLC against certain liabilities incurred in connection with acting as a qualified independent underwriter, including liabilities under the Securities Act. In addition, no underwriter that has a conflict of interest within the meaning of Rule 5121 will confirm sales to any account over which it exercises discretionary authority without the specific prior written approval of the account holder.

LEGAL MATTERS

The validity of the issuance of the notes and the related guarantees will be passed upon for us by Simpson Thacher & Bartlett LLP with respect to U.S. legal matters, and by Arthur Cox, special Irish counsel, with respect to Irish legal matters. The underwriters have been represented by Cravath, Swaine & Moore LLP. Certain matters concerning the laws of Indiana will be passed upon by Ice Miller LLP.

EXPERTS

The financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control Over Financial Reporting) incorporated in this prospectus by reference to our Annual Report on Form 10-K for the year ended December 31, 2014 have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

SERVICE OF PROCESS AND ENFORCEMENT OF LIABILITIES

Allegion has been advised by its Irish counsel, Arthur Cox, that a judgment for the payment of money rendered by a court in the United States would not be automatically enforceable in Ireland. There is no treaty between Ireland and the United States providing for the reciprocal enforcement of foreign judgments. In order to enforce a monetary judgment obtained in the United States in Ireland, separate proceedings have to be issued seeking an Irish judgment in the terms of the U.S. judgment. A summary procedure is available in circumstances where an applicant can establish that:

the U.S. judgment is for a definite sum;

the U.S. judgment is final and conclusive; and

the U.S. judgment is of a court which, as a matter of Irish law, is of competent jurisdiction.

Even if the matters referred to above are established by an applicant, an Irish court may on certain grounds refuse to enforce the U.S. judgment. These grounds include:

the U.S. judgment having been obtained by fraud;

the U.S. judgment violating Irish public policy;

the U.S. judgment being in breach of natural justice; or

the U.S. judgment being irreconcilable with an earlier judgment.

It may be difficult for a securityholder to effect service of process within the U.S. or to enforce judgments obtained against Allegion plc in U.S. courts. Allegion plc has agreed that it may be served with process with respect to actions based on offers and sales of securities made in the United States and other violations of U.S. securities laws by having Schlage Lock Company LLC, a Delaware limited liability company and wholly-owned subsidiary of Allegion plc, be its U.S. agent appointed for that purpose. Schlage Lock Company LLC is located at 11819 North Pennsylvania Street, Carmel, Indiana 46032. A judgment obtained against Allegion plc in a U.S. court would be enforceable in the United States but could be executed upon only to the extent Allegion plc has assets in the United States. An act that results in Allegion plc or its respective directors or officers being in breach of the civil liability provisions of U.S. law would not, by virtue of the breach of U.S. law, be actionable before a court in Ireland, although such act may potentially give rise to a cause of action under the local laws of Ireland.
