CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

1. BACKGROUND AND BASIS OF PRESENTATION

Background

CommScope Holding Company, Inc., along with its direct and indirect subsidiaries (CommScope or the Company), is a global provider of essential infrastructure solutions for wireless, business enterprise and residential broadband networks. The Company's solutions and services for wired and wireless networks enable high-bandwidth data, video and voice applications. CommScope's global leadership position is built upon innovative technology, broad solution offerings, high-quality and cost-effective customer solutions and global manufacturing and distribution scale.

On August 28, 2015, the Company completed the acquisition of TE Connectivity's Telecom, Enterprise and Wireless business, also referred to as Broadband Network Solutions (BNS), in an all-cash transaction valued at approximately \$3.0 billion. In June 2015, the Company borrowed \$2.75 billion that was used, along with cash on hand, to fund the BNS acquisition. See Note 2 for additional discussion of the BNS acquisition and Note 5 for additional discussion of the financing transactions.

Basis of Presentation

The Condensed Consolidated Balance Sheet as of September 30, 2015, the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) for the three and nine months ended September 30, 2015 and 2014, and the Condensed Consolidated Statements of Cash Flows and Stockholders' Equity for the nine months ended September 30, 2015 and 2014 are unaudited and reflect all adjustments of a normal recurring nature that are, in the opinion of management, necessary for a fair presentation of the interim period financial statements. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

The BNS acquisition was accounted for using the acquisition method of accounting and the BNS results of operations are reported in the Company's unaudited condensed consolidated financial statements from August 28, 2015, the date of acquisition, through their fiscal period ended September 25, 2015. Therefore, the Company's consolidated results of operations for the three and nine months ended September 30, 2015 do not include the results of operations of BNS from September 26, 2015 to September 30, 2015.

The unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) for interim financial information and are presented in accordance with the applicable requirements of Regulation S-X. Accordingly, these financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements. The significant accounting policies followed by the Company are set forth in Note 2 within the Company's audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 (the 2014 Annual Report). These interim condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements.

In addition, the Company reaffirms the use of estimates in the preparation of the financial statements as set forth in the audited consolidated financial statements in the 2014 Annual Report, particularly related to estimates used in the preliminary purchase price allocation for the BNS acquisition. The BNS purchase price was allocated to acquired assets and assumed liabilities based on their estimated fair value at the acquisition date. Tangible assets and liabilities are recorded at their estimated fair values based on observable market values, if available, or using management judgment. Separable intangible assets must be identified, valued and assigned an estimated useful life, and the valuation of such assets is generally based on methods that involve estimates and judgment. The valuations of such assets will be updated as additional information becomes available. Management's judgments and estimates are subject to significant uncertainty.

As of June 30, 2015, the Company adopted new accounting guidance that requires debt issuance costs related to a recognized debt liability be reported as a deduction from the carrying amount of that debt liability. In August 2015, this guidance was clarified to add that debt issuance costs related to line of credit arrangements can be presented as an asset regardless of whether there are outstanding borrowings. The guidance has been applied retrospectively to the prior period presented. The adoption of this accounting guidance reduced the Company's other noncurrent assets and long-term debt by the amount of unamortized debt issuance costs. As of September 30, 2015 and December 31, 2014, this amount was \$101.4 million and \$38.8 million, respectively.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)****Concentrations of Risk and Related Party Transactions**

Net sales to Anixter International Inc. and its affiliates (Anixter) accounted for approximately 13% of the Company's total net sales during both the three and nine months ended September 30, 2015. Net sales to Anixter accounted for approximately 11% of the Company's total net sales during the both three and nine months ended September 30, 2014. Sales to Anixter primarily originate within the Enterprise segment. Other than Anixter, no direct customer accounted for 10% or more of the Company's total net sales for the three or nine months ended September 30, 2015 or 2014.

Accounts receivable from Anixter represented approximately 10% of accounts receivable as of September 30, 2015. Other than Anixter, no direct customer accounted for 10% or more of the Company's accounts receivable as of September 30, 2015.

As of September 30, 2015, funds affiliated with The Carlyle Group (Carlyle) owned 32.1% of the outstanding shares of common stock of CommScope.

Product Warranties

The Company recognizes a liability for the estimated claims that may be paid under its customer warranty agreements to remedy potential deficiencies of quality or performance of the Company's products. These product warranties extend over periods ranging from one to twenty-five years from the date of sale, depending upon the product subject to the warranty. The Company records a provision for estimated future warranty claims as cost of sales based upon the historical relationship of warranty claims to sales and specifically-identified warranty issues. The Company bases its estimates on assumptions that are believed to be reasonable under the circumstances and revises its estimates, as appropriate, when events or changes in circumstances indicate that revisions may be necessary. Such revisions may be material.

The following table summarizes the activity in the product warranty accrual, included in other accrued liabilities:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Product warranty accrual, beginning of period	\$ 15,194	\$ 21,795	\$ 17,054	\$ 24,838
Accrual assumed in BNS acquisition	1,900		1,900	
Provision for warranty claims	2,054	2,504	5,968	7,435
Warranty claims paid	(3,127)	(4,776)	(8,901)	(12,750)
Product warranty accrual, end of period	\$ 16,021	\$ 19,523	\$ 16,021	\$ 19,523

Commitments and Contingencies

The Company is either a plaintiff or a defendant in pending legal matters in the normal course of business, including various matters assumed as part of the BNS acquisition. Management believes none of these legal matters will have a material adverse effect on the Company's business or financial condition upon final disposition.

In addition, the Company is subject to various federal, state, local and foreign laws and regulations governing the use, discharge, disposal and remediation of hazardous materials. Compliance with current laws and regulations has not had, and is not expected to have, a materially adverse effect on the Company's financial condition or results of operations.

Asset Impairments

Goodwill is tested for impairment annually or at other times if events have occurred or circumstances exist that indicate the carrying value of a reporting unit with goodwill may exceed its fair value. For the Microwave Antenna Group (Microwave) reporting unit in the Wireless segment, management considered the lower than expected levels of sales and operating income during 2015 and the effect of market conditions on the projected future operations of the business. Based on this information, during the three months ended September 30, 2015, management determined that an indicator of possible impairment existed. A step one goodwill impairment test was performed using a discounted cash flow (DCF) valuation model. Significant assumptions in the DCF model are the annual revenue growth rate, the annual operating income margin and the discount rate used to determine the present value of the cash flow projections. The discount rate was based on the estimated weighted average cost of capital as of the test date for market participants in

Table of Contents

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

the industry in which the Microwave reporting unit operates. Based on the estimated fair values generated by the DCF model, the Microwave reporting unit did not pass step one of the goodwill impairment test. A preliminary step two analysis was performed and an estimated goodwill impairment charge of \$74.4 million was recorded during the three months ended September 30, 2015. The step two valuation is expected to be finalized in the fourth quarter and any revision to the impairment charge will be recorded at that time. The discount rate used in the 2015 impairment test was 10.5% compared to 11.0% used in the 2014 annual goodwill impairment test.

Results for the three and nine months ended September 30, 2014, included an estimated goodwill impairment charge of \$7.0 million for the Microwave reporting unit.

Property, plant and equipment and intangible assets with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable, based on the undiscounted cash flows expected to be derived from the use and ultimate disposition of the assets. Assets identified as impaired are carried at estimated fair value. There were no significant long-lived asset impairments identified during the three or nine months ended September 30, 2015. During the nine months ended September 30, 2014, as a result of revisions to the business plan for a particular product line, the Company determined that certain intangible assets in the Broadband segment were no longer recoverable and a \$7.2 million impairment charge was recorded.

During the three months ended September 30, 2015, the Company determined that a note receivable related to a previous divestiture was likely impaired and a \$10.9 million impairment charge was recorded in the Broadband segment.

Income Taxes

The effective income tax rate for the three and nine months ended September 30, 2015 reflected the impact of impairment charges for which minimal tax benefits were recorded. The effective income tax rate was favorably affected by the impact of earnings in foreign jurisdictions that are generally taxed at rates lower than the United States (U.S.) statutory rate, benefits recognized from adjustments related to prior years' tax returns and a reduction in tax expense related to uncertain tax positions. These benefits were partially offset by losses in certain jurisdictions where the Company did not recognize tax benefits due to the likelihood of them not being realizable.

The effective income tax rate for the three and nine months ended September 30, 2014 was lower than the statutory rate primarily due to a reduction in tax expense related to the reduction in reserves for uncertain tax positions as well as the impact of earnings in foreign jurisdictions that are taxed at lower rates than the U.S. statutory rate. The benefits to the income tax rate were partially offset by the impact of losses in certain jurisdictions where the Company did not recognize tax benefits due to the likelihood of them not being realizable and the provision for state income taxes. For the three months ended September 30, 2014, there was a slight decrease in valuation allowances while for the nine months ended September 30, 2014 there was a modest increase in valuation allowances as a result of changes in profitability in various jurisdictions. The effective income tax rate for the three and nine months ended September 30, 2014 was also affected by asset impairment charges recorded during those periods for which no tax benefit was

recognized and gains from changes in the estimated fair value of contingent consideration payable that were not subject to tax.

Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is based on net income divided by the weighted average number of common shares outstanding plus the dilutive effect of potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding equity-based awards (stock options, performance share units and restricted stock units). Certain outstanding equity-based awards were not included in the computation of diluted earnings per share because the effect was either antidilutive or the performance conditions were not met (5.3 million shares and 1.5 million shares for the three and nine months ended September 30, 2015, respectively, and 2.5 million shares and 2.4 million shares for the three and nine months ended September 30, 2014, respectively). Antidilutive securities for the three months ended September 30, 2015 included 4.4 million shares of equity-based awards which would have been considered dilutive if the Company had not been in a net loss position.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The following table presents the basis for the earnings per share computations (per share amounts not in thousands):

Recent Accounting Pronouncements

In September 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-16, *Business Combinations*. The guidance requires that acquirers in a business combination recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period that the adjustment amounts are determined and eliminates the requirement to retrospectively account for these adjustments. It also requires additional disclosure about the effects of the adjustments on prior periods. The guidance is effective for the Company as of January 1, 2016, however, the Company expects to adopt this guidance in the fourth quarter of 2015.

In July 2015, the FASB issued ASU No. 2015-11, *Inventory*. The guidance requires that inventory be measured at the lower of cost and net realizable value, which is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This guidance simplifies the prior guidance by eliminating the options of measuring inventory at replacement cost or net realizable value less an approximate normal profit margin. This guidance is effective for the company as of January 1, 2017, with early application permitted. The Company has not yet determined when it will adopt the new accounting standard, but the impact is expected to be immaterial.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*. This guidance defines how companies report revenues from contracts with customers and also requires enhanced disclosures. In July 2015,

the FASB issued ASU No. 2015-14 deferring the effective date by one year, with early adoption on the original effective date permitted. The Company will be required to adopt the standard as of January 1, 2018 and early adoption is permitted as of January 1, 2017. The Company has not determined the transition approach that will be utilized or estimated the impact of adopting the new accounting standard.

2. ACQUISITIONS

Broadband Network Solutions

On August 28, 2015, the Company acquired TE Connectivity's BNS business in an all-cash transaction. The Company paid \$3,021.2 million (\$2,957.5 million net of cash acquired) and recorded an asset of \$17.3 million in other current assets on the Condensed Consolidated Balance Sheet for an estimated net refund of the purchase price based on the working capital acquired and pension obligations assumed. For the period following the acquisition of BNS, sales of \$141.1 million and an operating loss of \$81.6 million were reflected in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) for the three and nine months ended September 30, 2015. BNS is a reporting segment as of September 30, 2015.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The purchase price for BNS was assigned to assets acquired and liabilities assumed based on their estimated fair values as of the date of acquisition, and any excess was allocated to goodwill as shown in the following table (in millions):

	Estimated Fair Value
Cash and cash equivalents	\$ 63.7
Accounts receivable	252.9
Inventories	266.4
Other current assets	40.0
Property, plant and equipment	247.6
Goodwill	1,242.8
Identifiable intangible assets	1,150.0
Other noncurrent assets	22.3
Current liabilities	(224.2)
Noncurrent pension liabilities	(30.5)
Other noncurrent liabilities	(27.1)
 Net acquisition cost	 \$ 3,003.9

The goodwill arising from the preliminary purchase price allocation of the BNS acquisition is believed to result from the Company's reputation in the marketplace and assembled workforce. A significant portion of the goodwill is expected to be deductible for income tax purposes.

Various valuation techniques were used to estimate the fair value of the assets acquired and the liabilities assumed which use significant unobservable inputs, or Level 3 inputs as defined by the fair value hierarchy. Using these valuation approaches requires the Company to make significant estimates and assumptions. The estimated fair values are expected to change as the Company completes its valuation analyses and purchase price allocation.

The table below summarizes the preliminary valuations of the intangible assets acquired that were determined by management to meet the criteria for recognition apart from goodwill and determined to have finite lives. The values presented below are preliminary estimates and are subject to change as management completes its valuation of the BNS acquisition.

Estimated Fair Value (in millions)	Weighted Average Estimated Useful Life (in years)
---	--

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

Customer contracts and relationships	\$	675.0	12
Trademarks		150.0	9
Patents and technologies		325.0	7
Total amortizable intangible assets	\$	1,150.0	

There were certain foreign assets acquired and liabilities assumed in the BNS acquisition for which title has not yet transferred although the consideration was paid as part of the overall purchase price discussed above. The Company expects these transfers to be fully completed by mid-2016 and does not anticipate any significant risks to executing such transfers. In the interim, TE Connectivity will continue to conduct the business operations, as directed by and for the sole benefit or detriment of CommScope. For the three and nine months ended September 30, 2015, net sales related to the BNS operations that have not formally transferred were included in the Company's consolidated net sales and represented less than 2% of the Company's total net sales. As of September 30, 2015, the investment in these BNS operations was reported in other non-current assets on the Condensed Consolidated Balance Sheet. The total assets related to these operations represented less than 1% of the Company's total assets as of September 30, 2015.

The BNS amounts included in the following pro forma information are based on their historical results prepared on a carve-out basis of accounting and, therefore, may not be indicative of the actual results when operated as part of CommScope. The pro forma adjustments represent management's best estimates based on information available at the time the pro forma information was prepared and may differ from the adjustments that may actually have been required.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

Accordingly, the pro forma financial information should not be relied upon as being indicative of the results that would have been realized had the acquisition occurred as of the date indicated or that may be achieved in the future.

The following table presents consolidated results of operations for CommScope for the three and nine months ended September 30, 2015 and 2014 as though the BNS acquisition had been completed as of January 1, 2014 (in millions, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Revenue	\$ 1,247.3	\$ 1,503.6	\$ 3,835.8	\$ 4,476.5
Net income (loss)	(21.9)	92.9	73.6	111.3
Net income (loss) per diluted share	(0.12)	0.48	0.38	0.58

These pro forma results reflect adjustments for net interest expense for the debt related to the acquisition; depreciation expense for property, plant and equipment that has been marked up to its estimated fair value; amortization for intangible assets with finite lives identified separate from goodwill; equity-based compensation for equity awards issued to BNS employees; and the related income tax impacts of these adjustments.

The pro forma results for the three and nine months ended September 30, 2015 exclude \$59.8 million and \$80.1 million, respectively, of transaction and integration costs related to the BNS acquisition and \$30.5 million of additional cost of goods sold related to the inventory mark up included in the purchase price allocation as these costs are nonrecurring to the Company.

Alifabs Group

In July 2014, the Company acquired two businesses of United Kingdom-based Alifabs Group (Alifabs) for \$48.8 million (\$46.7 million, net of cash acquired). Alifabs is a designer and supplier of enclosures, monopoles, smaller streetworks towers and tower solutions for the United Kingdom telecommunications, utility and energy markets. Sales of Alifabs products reflected in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) were \$9.8 million and \$30.2 million for the three and nine months ended September 30, 2015, respectively, and \$9.6 million for the three and nine months ended September 30, 2014.

Redwood Systems, Inc.

In July 2013, the Company acquired Redwood Systems, Inc. (Redwood), for an initial payment of \$9.8 million and contingent consideration payable in 2015 that had an estimated fair value of \$12.4 million as of the acquisition date. During the year ended December 31, 2014, the estimated fair value of the liability for contingent consideration was reduced to zero and no payments have been or will be made. During the nine months ended September 30, 2014, the

Company recorded a \$12.7 million reduction in SG&A expense resulting from the adjustment to the estimated fair value of contingent consideration payable related to the Redwood acquisition.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)****3. GOODWILL**

The following table presents goodwill by reportable segment, including goodwill that resulted from the BNS acquisition (in millions):

	Wireless	Enterprise	Broadband	BNS	Total
Goodwill, gross, as of December 31, 2014	\$ 833.1	\$ 653.8	\$ 86.3	\$	\$ 1,573.2
Preliminary purchase price allocations				1,242.8	1,242.8
Foreign exchange	(3.4)			(0.5)	(3.9)
Goodwill, gross, as of September 30, 2015	829.7	653.8	86.3	1,242.3	2,812.1

Work in process	141,048	105,739
Finished goods	288,102	170,960
	\$ 554,835	\$ 367,185

Investments

The Company owns shares of Hydrogenics Corporation (Hydrogenics), a publicly traded company that supplies hydrogen generators and hydrogen-based power modules and fuel cells for various uses. These shares are accounted

for as available-for-sale securities and are carried at fair value with changes in fair value recorded, net of tax, in other comprehensive income (loss). This investment is recorded in other noncurrent assets on the Condensed Consolidated Balance Sheets.

The following table presents information related to the Company's investment in Hydrogenics:

	September 30, 2015	December 31, 2014
Shares owned	1,332	1,534
Cost basis	\$ 997	\$ 1,150
Fair value	\$ 10,737	\$ 20,392
Pretax unrealized gain in accumulated other comprehensive income (loss)	\$ 9,740	\$ 19,242

The following table provides information related to the sale of shares in Hydrogenics:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Shares sold		95	202	595

6.00% Senior Notes Due 2025

In June 2015, CommScope Technologies Finance LLC, a wholly owned subsidiary of the Company and an unrestricted subsidiary as defined in the indentures governing the 2021 Notes and the 2024 Notes and the agreements governing the senior secured credit facilities, issued \$1.5 billion of 6.00% Senior Notes due June 15, 2025 (the 2025

Notes). Interest is payable on the 2025 Notes semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2015. The Company used the proceeds of the offering of the 2025 Notes, together with cash on hand and borrowings under the senior secured term loan facility due December 2022, to finance the acquisition of the BNS business.

Concurrent with the consummation of the BNS acquisition, CommScope Technologies Finance LLC merged with and into CommScope Technologies LLC (a wholly owned subsidiary of the Company), with CommScope Technologies LLC continuing as the surviving entity. CommScope Technologies LLC became the issuer of the 2025 Notes, and the 2025 Notes are guaranteed on a senior unsecured basis by CommScope, Inc. and its domestic restricted subsidiaries, subject to certain exceptions. The 2025 Notes and guarantees are effectively junior to all of the Company's and the guarantors' existing and future secured debt, including the 2020 Notes (as defined below) and the senior secured credit facilities, to the extent of the value of the assets securing such secured debt. In addition, the 2025 Notes are structurally subordinated to all existing and future liabilities (including trade payables) of the Company's subsidiaries that do not guarantee the 2025 Notes, including indebtedness incurred by certain of the Company's non-U.S. subsidiaries under the revolving credit facility.

The 2025 Notes may be redeemed prior to maturity under certain circumstances. Upon certain change of control events, the 2025 Notes may be redeemed at the option of the holders at 101% of their face amount, plus accrued and unpaid interest. Prior to June 15, 2020, the 2025 Notes may be redeemed at a redemption price equal to 100% of their principal amount, plus a make-whole premium (as defined in the indenture governing the 2025 Notes), plus accrued and unpaid interest. On or prior to June 15, 2018, under certain circumstances, the Company may also redeem up to 40% of the aggregate principal amount of the 2025 Notes at a redemption price of 106.0%, plus accrued and unpaid interest, using the proceeds of certain equity offerings.

In connection with issuing the 2025 Notes, the Company incurred costs of approximately \$2.8 million and \$35.8 million during the three and nine months ended September 30, 2015, respectively, which were recorded as a reduction of the carrying amount of the debt and are being amortized over the term of the notes.

Table of Contents

CommScope Holding Company, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(In thousands, unless otherwise noted)

4.375% Senior Secured Notes Due 2020

In June 2015, CommScope, Inc., a direct wholly owned subsidiary of the Company, issued \$500.0 million of 4.375% Senior Secured Notes due June 15, 2020 (the 2020 Notes). Interest is payable on the 2020 Notes semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2015.

The Company used the net proceeds of the offering of the 2020 Notes, together with cash on hand, to repay the entire principal amount outstanding under the term loan due 2017 and a portion of the principal amount outstanding under the term loan due 2018.

The 2020 Notes are guaranteed on a senior secured basis by CommScope Holding Company, Inc. and its domestic restricted subsidiaries, subject to certain exceptions, and secured by security interests that secure indebtedness under the Company's term loan facility.

The 2020 Notes may be redeemed prior to maturity under certain circumstances. Upon certain change of control events, the 2020 Notes may be redeemed at the option of the holders at 101% of their face amount, plus accrued and unpaid interest. Prior to June 15, 2017, the 2020 Notes may be redeemed at a redemption price equal to 100% of their principal amount, plus a make-whole premium (as defined in the indenture governing the 2020 Notes), plus accrued and unpaid interest. Prior to June 15, 2017, under certain circumstances, the Company may also redeem up to 40% of the aggregate principal amount of the 2020 Notes at a redemption price of 104.375%, plus accrued and unpaid interest, using the proceeds of certain equity offerings.

In connection with issuing the 2020 Notes, the Company incurred costs of approximately \$1.5 million and \$8.4 million during the three and nine months ended September 30, 2015, respectively, which were recorded as a reduction of the carrying amount of the debt and are being amortized over the term of the notes.

Senior Secured Credit Facilities

In May 2015, the Company amended its asset-based revolving credit facility to, among other things, expand the facility from \$400.0 million to \$550.0 million and extend the maturity date to May 2020, subject to acceleration under certain circumstances. In connection with this amendment, the Company incurred costs of approximately \$0.2 million in the nine months ended September 30, 2015, which were recorded in other noncurrent assets and are being amortized over the term of the revolving credit facility. As of September 30, 2015, the Company had no outstanding borrowings under its revolving credit facility and the Company did not borrow under its revolving credit facility during the nine months ended September 30, 2015. As of September 30, 2015, the Company had availability of approximately \$324.2 million under its revolving credit facility, after giving effect to borrowing base limitations and outstanding letters of credit. The expanded facility is expected to be reflected in the Company's availability once the additional collateral resulting from the BNS acquisition is added to the borrowing base.

In June 2015, the Company used the proceeds from the 2020 Notes issuance to repay \$500.0 million of its existing term loans. In addition, CommScope Finance LLC (a wholly owned subsidiary of the Company and an unrestricted subsidiary as defined in the agreements governing the senior secured credit facilities) borrowed an additional \$1.25 billion, less \$3.1 million of original issue discount, in a term loan due December 2022 (the 2022 Term Loan). The Company used the proceeds from the 2022 Term Loan, together with cash on hand and proceeds from the issuance of the 2025 Notes, to finance the acquisition of the BNS business. Concurrent with the consummation of the BNS acquisition, the 2022 Term Loan was assumed by CommScope, Inc. as a term loan under its senior secured credit facilities.

The 2022 Term Loan has scheduled maturities of \$12.5 million per year due in equal quarterly installments with the balance due at maturity. The current portion of long-term debt reflects \$12.5 million of repayments under the 2022 Term Loan. The interest rate is, at the Company's option, either (1) the base rate (as described in the 2014 Annual Report) plus a margin of 2.00% or (2) one-, two-, three- or six-month LIBOR or, if available from all lenders, twelve-month LIBOR (selected at the Company's option) plus a margin of 3.00%, subject to a LIBOR floor of 0.75%.

During the nine months ended September 30, 2015, the Company repaid \$502.2 million of its existing senior secured term loans. In connection with the repayment of existing term loans, \$6.7 million of original issue discount and debt issuance costs were written off and included in interest expense. The Company incurred costs of approximately \$2.9 million and \$29.6 million during the three and nine months ended September 30, 2015, respectively, related to the additional borrowings under the term loan facility. These costs were recorded as a reduction of the carrying amount of the debt and are being amortized over the term of the 2022 Term Loan.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

No portion of the senior secured term loans was reflected as a current portion of long-term debt as of September 30, 2015 related to the potentially required excess cash flow payment because the amount that may be payable in 2016, if any, cannot currently be reliably estimated. There was no excess cash flow payment required in 2015 related to 2014.

Other Matters

The following table summarizes scheduled maturities of long-term debt as of September 30, 2015 (in millions):

	Remainder of 2015	2016	2017	2018	2019	Thereafter
Scheduled maturities of long-term debt	\$ 3.2	\$ 12.5	\$ 12.5	\$ 374.4	\$ 12.5	\$ 5,046.9

The Company's non-guarantor subsidiaries held approximately \$2,989 million, or 38%, of total assets and approximately \$470 million, or 7%, of total liabilities as of September 30, 2015 and accounted for approximately \$420 million, or 43%, and \$1,173 million, or 44%, of net sales for the three and nine months ended September 30, 2015, respectively. As of December 31, 2014, the non-guarantor subsidiaries held approximately \$1,089 million, or 22%, of total assets and approximately \$282 million, or 8%, of total liabilities. For the three and nine months ended September 30, 2014, the non-guarantor subsidiaries accounted for approximately \$420 million, or 42%, and \$1,123 million, or 37%, of net sales, respectively. All amounts presented exclude intercompany balances.

CommScope, Inc. is a guarantor of the 2025 Notes and the issuer of each of the 2021 Notes, the 2024 Notes and the 2020 Notes. The balance sheet and income statement amounts for CommScope, Inc. are substantially identical to those of the Company other than interest expense and total debt. Interest expense for CommScope, Inc. does not reflect the interest expense incurred in connection with the senior PIK toggle notes. For the three month periods ended September 30, 2015 and 2014, interest expense related to the senior PIK toggle notes was \$9.5 million (\$6.1 million, net of tax). For the nine month periods ended September 30, 2015 and 2014, interest expense related to the senior PIK toggle notes was \$28.5 million (\$18.2 million net of tax). Total debt for CommScope, Inc. and its subsidiaries as of September 30, 2015 was \$4,813.0 million, which does not include the senior PIK toggle notes.

The weighted average effective interest rate on outstanding borrowings, including the amortization of debt issuance costs and original issue discount, was 5.46% at September 30, 2015 and 5.38% at December 31, 2014.

6. DERIVATIVES AND HEDGING ACTIVITIES

The Company uses forward contracts to hedge a portion of its exposure to balances denominated in currencies other than the functional currency of various subsidiaries and to manage exposure to certain planned foreign currency expenditures in order to mitigate the impact of changes in exchange rates. As of September 30, 2015, the Company had outstanding foreign exchange contracts with maturities of up to eight months and aggregate notional values of \$327 million (based on exchange rates as of September 30, 2015). Unrealized gains and losses resulting from these

contracts are recognized in other income (expense), net and partially offset corresponding foreign exchange gains and losses on the balances being hedged. These instruments are not held for speculative or trading purposes. These contracts are not designated as hedges for hedge accounting and are marked to market each period through earnings.

The following table presents the balance sheet location and fair value of the Company's derivatives:

	Balance Sheet Location	Fair Value of Asset (Liability)	
		September 30, 2015	September 30, 2014
Foreign currency contracts	Prepaid expenses and other current assets	\$ 1,027	\$ 1,165
Foreign currency contracts	Other accrued liabilities	(3,141)	(3,584)
Total derivatives not designated as hedging instruments		\$ (2,114)	\$ (2,419)

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The pretax impact of the foreign currency forward contracts, both matured and outstanding, on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) is as follows:

Foreign Currency Forward Contracts	Location of Gain (Loss)	Gain (Loss) Recognized
Three Months Ended September 30, 2015	Other expense, net	\$ (5,871)
Three Months Ended September 30, 2014	Other expense, net	\$ (3,500)

7. FAIR VALUE MEASUREMENTS

The Company's financial instruments consist primarily of cash and cash equivalents, trade receivables, trade payables, available-for-sale securities, debt instruments and foreign currency contracts. For cash and cash equivalents, trade receivables and trade payables, the carrying amounts of these financial instruments as of September 30, 2015 and December 31, 2014 were considered representative of their fair values due to their short terms to maturity. The fair value of the Company's available-for-sale securities was based on quoted market prices. The fair values of the Company's debt instruments and foreign currency contracts were based on indicative quotes.

Fair value measurements using quoted prices in active markets for identical assets and liabilities fall within Level 1 of the fair value hierarchy, measurements using significant other observable inputs fall within Level 2, and measurements using significant unobservable inputs fall within Level 3.

The carrying amounts, estimated fair values and valuation input levels of the Company's available-for-sale securities, foreign currency contracts, and debt instruments as of September 30, 2015 and December 31, 2014, are as follows:

	September 30, 2015		December 31, 2014		
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Valuation Inputs
Assets:					
Available-for-sale securities	\$ 10,737	\$ 10,737	\$ 20,392	\$ 20,392	Level 1
Foreign currency contracts	1,027	1,027	1,165	1,165	Level 2
Liabilities:					
6.00% senior notes due 2025	1,500,000	1,436,250			Level 2
5.50% senior notes due 2024	650,000	614,250	650,000	640,250	Level 2
5.00% senior notes due 2021	650,000	632,125	650,000	643,500	Level 2
Senior PIK toggle notes due 2020	550,000	561,000	550,000	566,500	Level 2
4.375% senior secured notes due 2020	500,000	495,000			Level 2

Senior secured term loan due 2022, at par	1,250,000	1,249,969			Level 2
Senior secured term loan due 2018, at par	361,875	361,187	518,438	513,254	Level 2
Senior secured term loan due 2017, at par			345,625	342,169	Level 2
Foreign currency contracts	3,141	3,141	3,584	3,584	Level 2

During the three and nine months ended September 30, 2015, the Company recorded a pretax goodwill impairment charge of \$74.4 million related to the Wireless segment as a result of reduced expectations of future cash flows from one of its reporting units. The valuation supporting the goodwill impairment charge is based on Level 3 valuation inputs. Also, during the three and nine months ended September 30, 2015, the Company recorded an impairment charge of \$10.9 million to reduce a note receivable in the Broadband segment to its estimated fair value. The valuations supporting the impairment charges were based on Level 3 valuation inputs.

8. SEGMENTS AND GEOGRAPHIC INFORMATION

Following the BNS acquisition, management is operating the Company in the following four reportable segments, which align with the manner in which the business is managed: Wireless, Enterprise, Broadband and Broadband Network Solutions (BNS). Management intends to re-evaluate reportable segments as a result of the integration of the BNS business.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The Wireless segment provides merchant radio frequency (RF) wireless network connectivity solutions, metro cell solutions and small cell distributed antenna systems (DAS) solutions. These solutions, marketed primarily under the Andrew brand, enable wireless operators to deploy both cell sites and small cell DAS solutions to meet 2G, 3G and 4G cellular coverage and capacity requirements. Macro cell site solutions can be found at wireless tower sites and on rooftops and include base station antennas, microwave antennas, hybrid fiber-feeder cables, coaxial cables, connectors, amplifiers, filters and backup power solutions. Metro cell solutions can be found outdoors on street poles and on other urban structures and include RF delivery, equipment housing and concealment solutions. These fully integrated outdoor systems consist of specialized antennas, filters/combiners, backhaul solutions, intra-system cabling and power distribution systems, all minimized to fit an urban environment. The small cell DAS solutions are composed of distributed antenna systems that allow wireless operators to extend and enhance cellular coverage and capacity in challenging network conditions such as commercial buildings, urban areas, stadiums and transportation systems.

The Enterprise segment provides connectivity and network intelligence for commercial buildings and data centers. These solutions include optical fiber and twisted pair structured cabling applications, intelligent infrastructure software, network rack and cabinet enclosures, intelligent building sensors, advanced LED lighting control systems and network design services.

The Broadband segment consists of cable and communications equipment that support the multi-channel video, voice and high-speed data services provided by cable operators. The segment's products include coaxial and fiber-optic cables, fiber-to-the-home equipment, amplifiers, splitters, conduit and headend solutions for the network core.

The BNS segment provides fiber-optic and copper connectivity for telecom, enterprise and wireless networks as well as small cell DAS solutions for the wireless market. The BNS telecom business primarily consists of fiber-to-the-X (FTTx) solutions and central office connectivity and equipment, including fiber optic connectors, fiber management systems, splice closures, couplers and splitters, high-density cable assemblies and complete cabling systems. The enterprise business primarily consists of fiber and copper connectivity, data center solutions, outlets, patch cords and panels and cable assemblies for use in office, data center, factory and residential applications. The wireless business consists of radio frequency distribution and distributed antenna systems to enhance wireless coverage and capacity.

The following table provides summary financial information by reportable segment (in millions):

	September 30, 2015	December 31, 2014
Identifiable segment-related assets:		
Wireless	\$ 2,252.7	\$ 2,372.8

Consolidated amortization	\$ 54.3	\$ 44.8	\$ 143.7	\$ 133.4
---------------------------	---------	---------	----------	----------

- (1) Operating income for the three months ended September 30, 2015 and 2014 includes transaction and integration costs of \$0.6 million and \$1.7 million, respectively. Transaction and integration costs for the nine months ended September 30, 2015 and 2014 were \$10.3 million and \$2.9 million, respectively. Operating income includes restructuring charges of \$1.3 million and \$5.9 million for the three months ended September 30, 2015 and 2014, respectively. Restructuring charges for the nine months ended September 30, 2015 and 2014 were \$4.0 million and \$8.7 million, respectively. Operating income includes impairment charges of \$74.4 million and \$7.0 million for the three months and nine months ended September 30, 2015 and 2014, respectively.
- (2) Operating income for the three months ended September 30, 2015 and 2014 includes transaction and integration costs of \$0.3 million and \$0.7 million, respectively. Transaction and integration costs for the nine months ended September 30, 2015 and 2014 were \$6.0 million and \$1.2 million, respectively. Operating income for the three and nine months ended September 30, 2014 includes gains of \$0.7 million and \$12.7 million, respectively, from adjustments to the estimated fair value of contingent consideration related to the Redwood acquisition.
- (3) Operating income for the three months ended September 30, 2015 and 2014 includes transaction and integration costs of \$0.2 million and \$0.3 million, respectively. Transaction and integration costs for the nine months ended September 30, 2015 and 2014 were \$6.0 million and \$0.6 million, respectively. Operating income includes restructuring charges of \$0.2 million and \$1.6 million for the three months ended September 30, 2015 and 2014, respectively. Restructuring charges for the nine months ended September 30, 2015 and 2014 were \$1.3 million and \$2.9 million, respectively. Operating income includes impairment charges of \$10.9 million for the three and nine months ended September 30, 2015, and impairment charges of \$7.2 million for the nine months ended September 30, 2014.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

(4) Operating income for the three and nine months ended September 30, 2015 includes transaction and integration costs of \$59.8 million, restructuring charges of \$5.3 million and purchase accounting charges related to the mark-up of inventory of \$30.5 million.

(5) Excludes amortization of debt issuance costs and original issue discount.

Sales to customers located outside of the U.S. comprised 48.9% and 50.2% of total net sales for the three and nine months ended September 30, 2015, respectively, compared to 47.3% and 42.5% for the three and nine months ended September 30, 2014, respectively. Sales by geographic region, based on the destination of product shipments, were as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
United States	\$ 497.3	\$ 527.1	\$ 1,326.9	\$ 1,726.6
Europe, Middle East and Africa	196.4	189.6	533.1	547.6
Asia Pacific	187.0	181.2	537.4	470.0
Central and Latin America	65.6	64.4	197.3	183.5
Canada	26.3	38.1	70.6	74.0
Consolidated net sales	\$ 972.6	\$ 1,000.4	\$ 2,665.3	\$ 3,001.7

9. RESTRUCTURING COSTS

Prior to the acquisition and integration of the BNS business, the Company initiated restructuring actions to realign and lower its cost structure primarily through workforce reductions and other cost reduction initiatives at various facilities, including the cessation of manufacturing operations at the Joliet, Illinois; Statesville, North Carolina; and Guangzhou, China facilities. Much of the production capacity from these facilities has been shifted to other existing facilities or unaffiliated suppliers. In 2015, following the acquisition of BNS, the Company initiated various restructuring actions to integrate the BNS operations.

The Company's net pretax restructuring charges, by segment, were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Wireless	\$ 1,312	\$ 5,852	\$ 4,000	\$ 8,706

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

Enterprise	(3)	(31)	(46)	101
Broadband	219	1,567	1,339	2,870
BNS	5,340		5,340	
Total	\$ 6,868	\$ 7,388	\$ 10,633	\$ 11,677

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The activity within the liability established for these restructuring actions was as follows:

	BNS	Employee- Related Costs	Lease Termination Costs	Fixed Asset Related Costs	Total
Balance as of June 30, 2015	\$	\$ 1,707	\$ 7,595	\$	\$ 9,302
Additional charge recorded	5,340	821	508	199	6,868
Liabilities assumed in BNS acquisition	9,000				9,000
Cash paid	(762)	(935)	(352)	1	(2,048)
Foreign exchange and other non-cash items	(14)			(200)	(214)
Balance as of September 30, 2015	\$ 13,564	\$ 1,593	\$ 7,751	\$	\$ 22,908
Balance as of December 31, 2014	\$	\$ 3,822	\$ 8,243	\$	\$ 12,065
Additional charge recorded	5,340	3,077	769	1,447	10,633
Liabilities assumed in BNS acquisition	9,000				9,000
Cash paid	(762)	(5,217)	(1,261)	(247)	(7,487)
Foreign exchange and other non-cash items	(14)	(89)		(1,200)	(1,303)
Balance as of September 30, 2015	\$ 13,564	\$ 1,593	\$ 7,751	\$	\$ 22,908
Balance sheet classification as of September 30, 2015					
Other accrued liabilities	\$ 13,564	\$ 1,593	\$ 2,076	\$	\$ 17,233
Other noncurrent liabilities			5,675		5,675
Total liability	\$ 13,564	\$ 1,593	\$ 7,751	\$	\$ 22,908

As of August 28, 2015, the Company assumed a liability of \$9.0 million for BNS employee-related restructuring actions initiated prior to the acquisition. Subsequent to the acquisition, the Company recognized \$5.3 million of employee-related restructuring charges in the three and nine months ended September 30, 2015. Employee-related costs include the expected severance costs and related benefits as well as one-time severance benefits that are accrued over the remaining period employees are required to work in order to receive such benefits.

Lease termination costs relate to the discounted cost of unused leased facilities, net of anticipated sub-rental income.

Fixed asset related costs include non-cash impairments or disposals of fixed assets associated with restructuring actions in addition to the cash costs to uninstall, pack, ship and reinstall manufacturing equipment and the costs to

prepare the receiving facility to accommodate relocated equipment. These costs are expensed as incurred. Cash paid is net of proceeds received from the sale of related assets.

As a result of restructuring and consolidation actions, the Company owns unutilized real estate at various facilities in the U.S. and internationally. The Company is attempting to sell or lease this unutilized space. Additional impairment charges may be incurred related to these or other excess assets.

Additional pretax costs of \$1.0 million to \$2.0 million are expected to be incurred to complete previously announced initiatives. Cash payments of \$3.0 million to \$4.0 million are expected by the end of 2015 with additional payments of \$20.0 million to \$21.0 million between 2016 and 2022. As a result of the BNS integration, additional restructuring actions are expected to be taken and the resulting charges and cash requirements could be material.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)****10. EMPLOYEE BENEFIT PLANS**

	Pension Benefits		Other Postretirement Benefits	
	Three Months Ended		Three Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Service cost	\$ 429	\$ 115	\$ 7	\$ 24
Interest cost	3,127	3,344	161	225
Recognized actuarial loss (gain)	204	71	(283)	(84)
Amortization of prior service credits			(2,457)	(2,494)
Expected return on plan assets	(3,814)	(3,825)		
Net periodic benefit income	\$ (54)	\$ (295)	\$ (2,572)	\$ (2,329)

	Nine Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Service cost	\$ 645	\$ 344	\$ 21	\$ 71
Interest cost	9,010	10,028	482	675
Recognized actuarial loss (gain)	545	213	(848)	(253)
Amortization of prior service credits			(7,372)	(7,482)
Expected return on plan assets	(10,778)	(11,469)		
Net periodic benefit income	\$ (578)	\$ (884)	\$ (7,717)	\$ (6,989)

The estimated fair value of the BNS pension liabilities assumed in the acquisition was \$30.5 million. These estimates are preliminary and are expected to change. The difference between the preliminary estimates and the actual liabilities may be material.

The Company contributed \$8.8 million and \$19.5 million to its pension and other postretirement benefit plans during the three and nine months ended September 30, 2015, respectively. During the remainder of 2015, the Company anticipates making additional contributions of approximately \$1.0 million to these plans.

11. STOCKHOLDERS EQUITY**Equity-Based Compensation Plans**

As of September 30, 2015, \$47.5 million of total unrecognized compensation costs related to non-vested stock options, restricted stock unit awards (RSUs) and performance share units (PSUs) are expected to be recognized over a remaining weighted average period of 1.7 years. There were no significant capitalized equity-based compensation costs at September 30, 2015.

During the nine months ended September 30, 2015, Carlyle sold a portion of its investment in the Company which triggered an acceleration of vesting of certain equity-based awards. The Company recorded equity-based compensation expense of \$5.3 million as a result of the acceleration of vesting.

On August 28, 2015, the Company granted 0.4 million RSUs and 0.2 million stock option awards to BNS employees. These awards carry substantially the same terms as the Company's other equity-based awards except a provision that fully vests the award if the transferred employee is terminated by the Company prior to the first anniversary of the closing of the BNS acquisition.

Stock Options

Stock options are awards that allow the recipient to purchase shares of the Company's common stock at a fixed price. Stock options are granted at an exercise price equal to the Company's stock price at the date of grant. These awards generally vest over one to five years following the grant date and have a contractual term of ten years.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The following table summarizes the stock option activity (in thousands, except per share amounts):

	Shares	Weighted Average Option Exercise Price Per Share	Weighted Average Grant Date Fair Value Per Share	Aggregate Intrinsic Value
Outstanding as of June 30, 2015	8,569	\$ 7.92		
Granted	237	\$ 27.69	\$ 14.34	
Exercised	(637)	\$ 6.79		\$ 15,462
Forfeited	(4)	\$ 5.74		
Outstanding as of September 30, 2015	8,165	\$ 8.59		\$ 175,597
Exercisable at September 30, 2015	7,112	\$ 7.25		\$ 162,016
Expected to vest	1,050	\$ 17.60		\$ 13,576
Outstanding as of December 31, 2014	10,411	\$ 7.32		
Granted	529	\$ 29.38	\$ 13.74	
Exercised	(2,756)	\$ 7.72		\$ 61,726
Forfeited	(19)	\$ 18.46		
Outstanding as of September 30, 2015	8,165	\$ 8.59		\$ 175,597

The exercise prices of outstanding options at September 30, 2015 were in the following ranges:

Range of Exercise Prices	Options Outstanding Weighted Average Remaining Contractual Shares (in thousands)	Life (in years)	Weighted Average Exercise Price Per Share	Options Exercisable Weighted Average Exercise Price Per Share
\$2.96 to \$5.35	722	2.5	\$ 3.70	722 \$ 3.70
\$5.36 to \$5.67	667	6.4	\$ 5.57	593 \$ 5.57

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

\$5.68 to \$8.54	4,454	5.3	\$	5.74	4,004	\$	5.74
\$8.55 to \$8.90	1,299	4.5	\$	8.65	1,299	\$	8.65
\$8.91 to \$23.00	542	8.3	\$	22.55	489	\$	23.00
\$23.01 to \$33.12	481	9.1	\$	30.54	5	\$	23.10
\$2.96 to \$33.12	8,165	5.4	\$	8.59	7,112	\$	7.25

The Company uses the Black-Scholes model to estimate the fair value of stock option awards. Key inputs and assumptions used in the model include the grant date fair value of common stock, exercise price of the award, the expected option term, stock price volatility, the risk-free interest rate and the Company's projected dividend yield. The Company believes that the valuation technique and the approach utilized to develop the underlying assumptions are appropriate in estimating the fair values of its stock options. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by employees who receive equity awards. Subsequent events are not indicative of the reasonableness of the original estimates of fair value made by the Company.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)**

The following table presents the weighted average assumptions used to estimate the fair value of stock option awards granted.

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Expected option term (in years)	5.0	5.0	5.6	5.0
Risk-free interest rate	1.5%	1.7%	1.6%	1.5%
Expected volatility	43.0%	45.0%	43.0%	45.0%
Expected dividend yield	%	%	%	%
Weighted average exercise price	\$ 27.69	\$ 23.10	\$ 29.38	\$ 23.02
Weighted average fair value at grant date	\$ 14.34	\$ 9.49	\$ 13.74	\$ 9.41

Performance Share Units

PSUs are stock awards in which the number of shares ultimately received by the employee depends on Company performance against specified targets. Such awards vest and shares are issued over three years if the performance targets are met. The fair value of each PSU is determined on the date of grant based on the Company's stock price. Over the performance period, the number of shares that are expected to be issued is adjusted upward or downward based upon the probable achievement of performance targets. The ultimate number of shares issued and the related compensation cost recognized will be based on the final performance metrics compared to the targets specified in the grants.

The following table summarizes the PSU activity (in thousands, except per share data):

	Performance Share Units	Weighted Average Grant Date Fair Value Per Share
Outstanding and non-vested as of June 30, 2015	184	\$ 30.76
Forfeited	(3)	\$ 30.76
Outstanding and non-vested as of September 30, 2015	181	\$ 30.76

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

Outstanding and non-vested as of December 31, 2014		\$	
Granted	184	\$	30.76
Forfeited	(3)	\$	30.76
Outstanding and non-vested as of September 30, 2015	181	\$	30.76

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, unless otherwise noted)****Restricted Stock Units**

RSUs entitle the holder to shares of common stock after a one to three-year vesting period, in general. The fair value of the awards is determined on the grant date based on the Company's stock price. The RSUs granted to BNS transferred employees followed the remaining vesting schedule of their forfeited TE Connectivity award which was a four-year vesting period.

The following table summarizes the RSU activity (in thousands, except per share data):

	Restricted Stock Units	Weighted Average Grant Date Fair Value Per Share
Outstanding and non-vested as of June 30, 2015	1,328	\$ 28.70
Granted	386	\$ 31.88
Forfeited	(11)	\$ 28.04
Outstanding and non-vested as of September 30, 2015	1,703	\$ 29.42
Outstanding and non-vested as of December 31, 2014	372	\$ 22.99
Granted	1,372	\$ 31.07
Vested and shares issued	(3)	\$ 18.80
Forfeited	(38)	\$ 26.90
Outstanding and non-vested as of September 30, 2015	1,703	\$ 29.42

Other

Although share unit awards may, at the Company's discretion, be settled in stock, they have historically been settled in cash and are accounted for as liability awards. Share unit award expense of \$3.7 million and \$3.4 million for the nine months ended September 30, 2015 and 2014, respectively, is included in equity-based compensation as an adjustment to reconcile net income to net cash generated by operating activities on the Condensed Consolidated Statements of Cash Flows. As of September 30, 2015, there were no share unit awards remaining outstanding.

12. SUBSEQUENT EVENT

On October 1, 2015, the Company acquired the assets and assumed certain liabilities of Airvana LP (Airvana), a privately-held leader in small cell solutions for wireless networks, for approximately \$45 million. Airvana provides 4G LTE and 3G small cell solutions that enable communication and access to information and entertainment in challenging and high-value environments, such as offices, public venues and homes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following narrative is an analysis of the three and nine months ended September 30, 2015 compared to the three and nine months ended September 30, 2014. The discussion is provided to increase the understanding of, and should be read in conjunction with, the unaudited condensed consolidated financial statements and accompanying notes included in this document as well as the audited consolidated financial statements, related notes thereto and management's discussion and analysis of financial condition and results of operations, including management's discussion and analysis regarding the application of critical accounting policies as well as the risk factors, included in our 2014 Annual Report on Form 10-K.

We discuss certain financial measures in Management's Discussion and Analysis of Financial Condition and Results of Operations, including Adjusted Operating Income and Adjusted EBTIDA, that differ from measures calculated in accordance with generally accepted accounting principles in the United States (GAAP). See Reconciliation of Non-GAAP Measures included elsewhere in this quarterly report for more information about these non-GAAP financial measures, including our reasons for including the measures and material limitations with respect to the usefulness of the measures.

Overview

We are a global provider of essential infrastructure solutions for wireless, business enterprise and residential broadband networks. Our solutions and services for wired and wireless networks enable high-bandwidth data, video and voice applications. Our global position is built upon innovative technology, broad solution offerings, high-quality and cost-effective customer solutions and global manufacturing and distribution scale.

On August 28, 2015, we completed the acquisition of TE Connectivity's Broadband Network Solutions (BNS) business in an all-cash transaction valued at approximately \$3.0 billion. The BNS business provides fiber optic and copper connectivity for wireline and wireless networks and also provides small-cell distributed antenna system (DAS) solutions for the wireless market. For the twelve month period from September 27, 2014 through September 25, 2015, the BNS business generated annual revenues of approximately \$1.7 billion. We believe the transaction will accelerate our strategy to drive profitable growth by expanding our business into attractive adjacent markets and to broaden our position as a leading communications infrastructure provider. In addition, the acquisition will provide greater geographic and business diversity. The results of the BNS business are included in our consolidated results of operations from the date of acquisition, August 28, 2015, through September 25, 2015, their fiscal period-end.

In June 2015, we borrowed \$2.75 billion to fund the BNS acquisition. During the three and nine months ended September 30, 2015, we incurred transaction and integration costs of \$60.8 million and \$82.1 million, respectively, primarily related to the BNS acquisition and integration activities. We will continue to incur transaction and integration costs and such costs may be material. In addition, we expect to incur restructuring charges to integrate the BNS acquisition and those costs may be material.

CRITICAL ACCOUNTING POLICIES

Our critical accounting policies or significant accounting estimates are disclosed in our 2014 Annual Report on Form 10-K. An addition to these critical accounting policies since December 31, 2014 is the estimation of the purchase price allocation related to the acquisition of BNS.

Purchase Price Allocation

Recording the acquisition and the required purchase price allocation under GAAP requires estimates and considerable judgment. The net assets acquired have been preliminarily recorded at their estimated fair value at the acquisition date. Tangible assets and liabilities are recorded at their fair values based on observable market values, if available, or based on management judgment. Separable intangible assets must be identified, valued and given an estimated useful life. In the absence of market transactions, the valuation of such assets is generally based on methods that are subjective in nature. Management's judgments and estimates are subject to significant uncertainty.

Table of Contents**COMPARISON OF RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2015 WITH THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014**

	Three Months Ended September 30,					
	2015		2014		Dollar Change	% Change

(1) See Reconciliation of Non-GAAP Measures.

Net sales

	Three Months Ended				Nine Months Ended			
	September 30,		Change		September 30,		Change	
	2015	2014	\$	%	2015	2014	\$	%
	(dollars in millions)							
Net sales	\$ 972.6	\$ 1,000.4	\$ (27.8)	(2.8)%	\$ 2,665.3	\$ 3,001.7	\$ (336.4)	(11.2)%
Domestic net sales	497.3	527.1	(29.8)	(5.7)	1,326.9	1,726.6	(399.7)	(23.1)
International net sales	475.3	473.3	2.0	0.4	1,338.4	1,275.1	63.3	5.0

Net sales for the three and nine months ended September 30, 2015 included sales from the BNS business of \$141 million. See the discussion under the BNS segment in the section titled Segment Results for further details. Excluding the BNS business, the decrease in net sales for the three and nine months ended September 30, 2015 compared to the

corresponding prior year periods was primarily attributable to lower net sales in the United States (U.S.) mainly as a result of decreased spending by certain domestic wireless operators. For the three months ended September 30, 2015 compared to the prior year period, net sales in the Central and Latin America (CALA) region, the Europe, Middle East and Africa (EMEA) region and the Asia Pacific (APAC) region all decreased. For the nine months ended September 30, 2015 compared to the prior year period, in addition to the decline in the U.S., net sales in the EMEA region were lower primarily due to the negative impact of foreign exchange rate changes. These decreases were partially offset by increases in both the APAC and CALA regions compared to the prior year period.

Including the BNS business, net sales to customers outside the U.S. comprised 48.9% and 50.2% of total net sales for the three and nine months ended September 30, 2015 compared to 47.3% and 42.5% for the three and nine months ended September 30, 2014, respectively. Foreign exchange rate changes had a negative impact of approximately 3% on net sales for both the three and nine months ended September 30, 2015 compared to the same 2014 periods.

From a segment perspective, the year-over-year decrease in net sales for the three and nine months ended September 30, 2015 was due to lower net sales in our Wireless and Broadband segments, partially offset by higher net sales in our Enterprise segment and the addition of the BNS business (fully reported in the BNS segment). For further details by segment, see the section titled **Segment Results** below.

Table of Contents**Gross profit, SG&A expense and R&D expense**

	Three Months Ended		Change		Nine Months Ended		Change	
	September 30,	September 30,	\$	%	September 30,	September 30,	\$	%
	2015	2014			2015	2014		
	(dollars in millions)							
Gross profit	\$ 338.9	\$ 362.5	\$ (23.6)	(6.5)%	\$ 946.8	\$ 1,111.8	\$ (165.0)	(14.8)%
Gross margin percent	34.8%	36.2%			35.5%	37.0%		
SG&A expense	203.8	121.4	82.4	67.9	460.3	355.5	104.8	29.5
As a percent of sales	21.0%	12.1%			17.3%	11.8%		
R&D expense	31.1	30.8	0.3	1.0	86.8	95.8	(9.0)	(9.4)
As a percent of sales	3.2%	3.1%			3.3%	3.2%		
Gross profit (net sales less cost of sales)								

Gross profit for the three and nine months ended September 30, 2015 was negatively affected by BNS purchase accounting adjustments of \$30.5 million, primarily related to the mark-up of inventory to its estimated fair value less the estimated costs associated with its sale. Excluding this additional cost, gross margin percent was 38.0% and 36.7% for the three and nine months ended September 30, 2015. The increase in gross margin percent for the three months ended September 30, 2015 compared to the prior year period was primarily due to favorable product mix and lower material costs offset partially by lower sales volumes. The slight decrease in gross margin percent for the nine months ended September 30, 2015 was due to the impact of lower sales volumes year-to-date, partially offset by favorable product mix and lower material costs in the third quarter.

Selling, general and administrative expense

Selling, general and administrative (SG&A) expense for the three and nine months ended September 30, 2015 increased compared to the prior year periods primarily due to an increase of \$58.1 million and \$77.5 million, respectively, of transaction and integration costs mainly resulting from the BNS acquisition. In addition, the inclusion of the BNS business contributed an additional \$27.3 million in SG&A expense for the three and nine months ended September 30, 2015 when compared to the prior year periods. During the three and nine months ended September 30, 2014, we recorded a \$0.7 million and \$12.7 million reduction in SG&A expense, respectively, resulting from an adjustment to the estimated fair value of contingent consideration payable related to a 2013 acquisition.

Excluding transaction and integration costs, the addition of the BNS business and the adjustments to contingent consideration payable, SG&A expense was \$3.7 million and \$12.8 million lower for the three and nine months ended September 30, 2015, respectively, compared to the prior year periods. This decrease was primarily attributable to lower variable compensation costs that were offset partially by higher bad debt expense.

Research and development

Research and development (R&D) expense increased slightly for the three months ended September 30, 2015 and decreased for the nine months ended September 30, 2015 compared to the prior year periods. The increase for the three months ended September 30, 2015 was a result of the addition of BNS. Excluding BNS, R&D expense decreased for the three and nine months ended September 30, 2015 by \$5.5 million and \$14.8 million, respectively. The decreases for both periods compared to the prior year periods was primarily a result of a decline in variable compensation costs and benefits from cost savings initiatives in the Broadband and Wireless segments. R&D activities

generally relate to ensuring that our products are capable of meeting the evolving technological needs of our customers, bringing new products to market and modifying existing products to better serve our customers.

Table of Contents**Amortization of purchased intangible assets, Restructuring costs and Asset impairments**

	Three Months Ended		Change		Nine Months Ended		Change	
	September 30, 2015	2014	\$	%	September 30, 2015	2014	\$	%
(dollars in millions)								
Amortization of purchased intangible assets	\$ 54.3	\$ 44.8	\$ 9.5	21.2%	\$ 143.7	\$ 133.4	\$ 10.3	7.7
Restructuring costs, net	6.9	7.4	(0.5)	(6.8)	10.6	11.7	(1.1)	(9.4)
Asset impairments	85.3	7.0	78.3	NM	85.3	14.2	71.1	NM

Amortization of purchased intangible assets

The amortization of purchased intangible assets was higher in the three and nine months ended September 30, 2015 compared to the prior year periods primarily due to the additional amortization resulting from the BNS acquisition.

Restructuring costs

The restructuring costs recorded in the three months ended September 30, 2015 were primarily related to integrating the BNS business. The restructuring costs recognized in 2014 and the first half of 2015 were primarily related to our continued efforts to realign and lower our overall cost structure.

We expect to incur additional pretax costs of \$1.0 million to \$2.0 million to complete actions announced to date. As a result of the BNS integration, additional restructuring actions are expected to be identified and the resulting charges and cash requirements are expected to be material.

Asset impairments

During the three months ended September 30, 2015 and 2014, we recorded goodwill impairment charges of \$74.4 million and \$7.0 million, respectively, in the Wireless segment, primarily as a result of lower projected future operating results for the Microwave Antenna Group (Microwave) reporting unit. During the three months ended September 30, 2015, we determined a note receivable related to a previous divestiture was likely impaired and recorded a charge for \$10.9 million in the Broadband segment. During the nine months ended September 30, 2014, as a result of revisions to the business plan for a particular product line, we determined that certain intangible assets in the Broadband segment were no longer recoverable and recorded a \$7.2 million impairment charge.

Net interest expense, Other income (expense), net and Income taxes

	Three Months Ended		Change		Nine Months Ended		Change	
	September 30, 2015	2014	\$	%	September 30, 2015	2014	\$	%
(dollars in millions)								
Net interest expense	\$ (72.1)	\$ (35.1)	\$ (37.0)	105.4%	\$ (155.4)	\$ (138.8)	\$ (16.6)	12.0%
Other income (expense), net	(8.3)	1.4	(9.7)	NM	(5.6)	(90.6)	85.0	NM
Income tax (expense) benefit	42.1	(20.9)	63.0	NM	5.2	(82.9)	88.1	NM

NM Not meaningful

Net interest expense

In June 2015, we issued \$1.5 billion of 6.0% senior notes due 2025 (the 2025 Notes), a \$1.25 billion term loan due 2022 (the 2022 Term Loan) and \$500.0 million of 4.375% senior secured notes due 2020 (the 2020 Notes). The proceeds from the 2025 Notes and the 2022 Term Loan were used to fund the BNS acquisition. We incurred \$36.1 million and \$41.5 million of incremental interest expense in the three and nine months ended September 30, 2015, respectively, as a result of this acquisition-related debt. The proceeds from

Table of Contents

the 2020 Notes were used to repay a portion of our existing term loans. In connection with this repayment, \$6.7 million of original issue discount and debt issuance costs were written off and included in interest expense in the nine months ended September 30, 2015.

In May 2014, we issued \$1.3 billion of new senior notes at a weighted average stated interest rate of 5.25% and used substantially all of the net proceeds to redeem \$1.1 billion of 8.25% senior notes that were due in 2019 (the 2019 Notes). In connection with the redemption of the 2019 Notes in June 2014, we wrote off \$19.1 million of debt issuance costs to interest expense.

Our weighted average effective interest rate on outstanding borrowings, including the amortization of debt issuance costs and original issue discount was 5.46% as of September 30, 2015, 5.38% as of December 31, 2014 and 5.36% as of September 30, 2014.

Other income (expense), net

Foreign exchange losses of \$7.7 million and \$7.8 million were included in other income (expense), net for the three and nine months ended September 30, 2015, respectively, compared to losses of \$0.4 million and \$3.4 million for the three and nine months ended September 30, 2014, respectively.

During the nine months ended September 30, 2015, we sold portions of our investment in Hydrogenics that resulted in pretax gains of \$2.7 million which were recorded in other income (expense), net. During the three and nine months ended September 30, 2014, we sold a portion of our investment in Hydrogenics that resulted in pretax gains of \$2.0 million and \$8.8 million, respectively, which were recorded in other income (expense), net. Other income (expense), net for the nine months ended September 30, 2014 included our share of losses in our equity investments of \$1.5 million.

In connection with the redemption of the 2019 Notes in the nine months ended September 30, 2014, we recorded a redemption premium of \$93.9 million, which was included in other income (expense), net.

Income taxes

Our effective income tax rate for the three and nine months ended September 30, 2015 reflected the impact of impairment charges for which minimal tax benefits were recorded. The effective income tax rate was favorably affected by the impact of earnings in foreign jurisdictions that are generally taxed at rates lower than the U.S. statutory rate, benefits recognized from adjustments related to prior years' tax returns and a reduction in tax expense related to uncertain tax positions. These benefits were partially offset by losses in certain jurisdictions where we did not recognize tax benefits due to the likelihood of them not being realizable.

Our effective income tax rate for the three and nine months ended September 30, 2014, respectively, was lower than the statutory rate primarily due to a reduction in tax expense related to the reduction in reserves for uncertain tax positions as well as the impact of earnings in foreign jurisdictions that are taxed at lower rates than the U.S. statutory rate. The benefits to the income tax rate were partially offset by the impact of losses in certain jurisdictions where we did not recognize tax benefits due to the likelihood of them not being realizable and the provision for state income taxes. For the three months ended September 30, 2014, there was a slight decrease in valuation allowances while for the nine months ended September 30, 2014 there was a modest increase in valuation allowances as a result of changes in profitability in various jurisdictions. The effective income tax rate for the three and nine months ended September 30, 2014 was also affected by asset impairment charges recorded during those periods for which no tax benefit was recognized and gains from changes in the estimated fair value of contingent consideration payable that

were not subject to tax.

NM Not meaningful

Wireless Segment

We provide merchant RF wireless network connectivity solutions, metro cell solutions and small cell DAS solutions. Our solutions, marketed primarily under the Andrew brand, enable wireless operators to deploy both cell sites and small cell DAS solutions to meet 2G, 3G and 4G cellular coverage and capacity requirements. Our macro cell site solutions can be found at wireless tower sites and on rooftops and include base station antennas, microwave antennas, hybrid fiber-feeder cables, coaxial cables, connectors, amplifiers, filters and backup power solutions. Our metro cell solutions can be found outdoors on street poles and on other urban structures and include RF delivery, equipment housing and concealment. These fully integrated outdoor systems consist of specialized antennas, filters/combiners, backhaul solutions, intra-system cabling and power distribution, all minimized to fit an urban environment. Our small

cell DAS solutions are composed of distributed antenna systems that allow wireless operators to increase spectral efficiency and thereby extend and enhance cellular coverage and capacity in challenging network conditions such as commercial buildings, urban areas, stadiums and transportation systems.

The Wireless segment experienced a substantial decrease in net sales for the three and nine months ended September 30, 2015 compared to the prior year periods, primarily as a result of lower sales in the U.S. due to a slowdown in spending by certain domestic wireless operators. For the three months ended September 30, 2015, the Wireless segment also experienced lower net sales in the EMEA and APAC regions that were partially offset by higher net sales in the CALA region. In addition to the slowdown in the U.S. during the nine months ended September 30, 2015, Wireless net sales were lower in the EMEA region but partially offset by higher sales in the APAC and CALA regions when compared to the prior year periods. The Alifabs acquisition provided incremental net sales to the Wireless segment EMEA region of \$20.6 million during the nine months ended September 30, 2015. Foreign exchange rate changes had a negative impact of approximately 5% on Wireless segment net sales for both the three and nine months ended September 30, 2015 compared to the prior year periods.

Table of Contents

Wireless segment operating income and non-GAAP adjusted operating income decreased substantially for the three and nine months ended September 30, 2015 compared to the prior year periods as a result of lower sales volumes. In addition to the decline in sales, Wireless segment operating income was negatively affected by a goodwill impairment charge of \$74.4 million during the three months ended September 30, 2015. An impairment charge of \$7.0 million was also taken in the three months ended September 30, 2014 in the Microwave reporting unit. These impairment charges are not reflected in non-GAAP adjusted operating income.

While our sales to wireless operators can be volatile, we expect longer term demand for our Wireless products to be positively affected by wireless coverage and capacity expansion in emerging markets and growth in mobile data services (including 4G deployments) in developed markets. Uncertainty in the global economy or a particular region or consolidation among wireless operators may slow the growth or cause a decline in capital spending by wireless operators and negatively impact our net sales.

Enterprise Segment

We provide enterprise connectivity solutions for commercial buildings and data centers. We provide voice, video, data and converged solutions that support mission-critical, high-bandwidth applications including storage area networks, streaming media, data backhaul, cloud applications and grid computing. These comprehensive solutions, sold primarily under the SYSTIMAX and Uniprise brands, include optical fiber and twisted pair structured cable solutions, intelligent infrastructure software, network rack and cabinet enclosures, intelligent building sensors, advanced LED lighting control systems and network design services.

Enterprise segment net sales for the three months and nine months ended September 30, 2015 were higher than the prior year period mainly due to increases in the EMEA, North America and APAC regions partially offset by lower net sales in the CALA region. Foreign exchange rate changes had a negative impact of approximately 2% and 1% for the three and nine months ended September 30, 2015, respectively, as compared to the same periods in 2014.

Enterprise segment operating income and non-GAAP adjusted operating income increased for the three and nine months ended September 30, 2015 compared to the prior year periods primarily due to higher sales volumes and favorable product mix. Operating income for the three and nine months ended September 30, 2014 reflected gains of \$0.7 million and \$12.7 million, respectively, related to adjustments to contingent consideration payable that were not included in non-GAAP adjusted operating income.

We expect near-term and long-term demand for Enterprise products to be driven by global information technology and data center spending as the ongoing need for bandwidth and intelligence in the network continues to create demand for high-performance structured connectivity solutions in the enterprise market. Uncertain global economic conditions, variability in the levels of commercial construction activity, uncertain levels of information technology spending and reductions in the levels of distributor inventories may negatively affect demand for our products.

Broadband Segment

We provide cable and communications products that support the multi-channel video, voice and high-speed data services provided by multi-system operators (MSOs). We believe we are the leading global manufacturer of coaxial cable for hybrid fiber coaxial networks globally and a leading supplier of fiber optic cable for North American MSOs.

Broadband segment net sales were lower in most geographic areas for the three months ended September 30, 2015 compared to the prior year period, with larger declines in the CALA and North America regions. Broadband segment net sales were slightly lower for the nine months ended September 30, 2015 compared to the prior year period as a

result of lower sales in the CALA region that were partially offset by higher sales in North America. Foreign exchange rate changes had a negative impact of approximately 1% on Broadband segment net sales for the nine months ended September 30, 2015 as compared to the prior year period.

Broadband segment operating income decreased for the three months ended September 30, 2015 compared to the prior year periods primarily as a result of a \$10.9 million impairment charge related to a note receivable from a previous divestiture. Non-GAAP adjusted operating income for the Broadband segment decreased slightly for the three months ended September 30, 2015 as a result of lower sales volumes partially offset by lower material costs. Broadband segment operating income and non-GAAP adjusted operating income increased for the nine months ended September 30, 2015 compared to the prior year period as a result of lower material costs, favorable mix and the benefit of cost reduction initiatives. The \$10.9 million impairment charge discussed above negatively impacted Broadband segment operating income for the nine months ended September 30, 2015 but the Broadband segment also reported an

Table of Contents

impairment charge of \$7.2 million for the nine months ended September 30, 2014 related to certain intangible assets that were determined to no longer be recoverable. These impairment charges are not reflected in non-GAAP adjusted operating income.

We expect demand for Broadband products to continue to be influenced by ongoing maintenance requirements of cable networks, cable providers' competition with telecommunication service providers, consolidation in the broadband service provider market and activity in the residential construction market. Spending by our Broadband customers on maintaining and upgrading networks is expected to continue to be influenced by uncertain regional and global economic conditions.

BNS Segment

The BNS segment provides fiber-optic and copper connectivity for telecom, enterprise and wireless networks as well as small cell DAS solutions for the wireless market. The BNS telecom business primarily consists of fiber-to-the-X (FTTx) solutions and central office connectivity and equipment, including fiber optic connectors, fiber management systems, splice closures, couplers and splitters, high-density cable assemblies and complete cabling systems. The enterprise business primarily consists of fiber and copper connectivity, data center solutions, outlets, patch cords and panels and cable assemblies for use in office, data center, factory and residential applications. The wireless business consists of radio frequency distribution and distributed antenna systems to enhance wireless coverage and capacity.

We believe the acquisition of BNS will accelerate our strategy to drive profitable growth by expanding our business into attractive adjacent markets and broadening our position as a leading communications infrastructure provider. In addition, the acquisition will provide us with greater geographic and business diversity. The results of the BNS segment are included in our consolidated results of operations from the date of acquisition, August 28, 2015, through September 25, 2015, their fiscal period end.

Net sales to customers outside the U.S. comprised 58.4% of total BNS segment net sales for the three and nine months ended September 30, 2015. These net sales to international customers were primarily to customers in the APAC and EMEA regions.

For the three and nine months ended September 30, 2015, operating income for the BNS segment was negatively affected by purchase accounting adjustments of \$30.5 million, primarily related to the mark-up of inventory to its estimated fair value less the estimated costs associated with its sale and by transaction and integration costs of \$59.8 million. These charges are not reflected in non-GAAP adjusted operating income.

We expect the BNS segment to be positively affected by the global deployment of fiber optic solutions for FTTx and data center applications. The ongoing demand for fiber solutions is expected to be somewhat offset by decelerating demand for copper solutions in networks.

LIQUIDITY AND CAPITAL RESOURCES

The following table summarizes certain key measures of our liquidity and capital resources.

			%
September 30, 2015	December 31, 2014	Dollar Change	Change
		(dollars in millions)	

Edgar Filing: CommScope Holding Company, Inc. - Form 10-Q

Cash and cash equivalents	\$ 618.0	\$ 729.3	\$ (111.3)	(15.3)%
Working capital, ⁽¹⁾ excluding cash and cash equivalents and current portion of long-term debt of \$12.6 million and \$9.0 million at September 30, 2015 and December 31, 2014, respectively	981.2	631.5	349.7	55.4
Availability under revolving credit facility	324.2	321.7	2.5	0.8
Long-term debt, including current portion	5,355.5	2,668.9	2,686.6	100.7
Total capitalization ⁽²⁾	6,674.0	3,976.5	2,697.5	67.8
Long-term debt, including current portion, as a percentage of total capitalization	80.2%	67.1%		

- (1) Working capital consists of current assets of \$2,350.5 million less current liabilities of \$763.9 million as of September 30, 2015. Working capital consists of current assets of \$1,827.6 million less current liabilities of \$475.8 million as of December 31, 2014.
- (2) Total capitalization includes long-term debt, including the current portion, and stockholders' equity.

Table of Contents

Our principal sources of liquidity on a short-term basis are cash and cash equivalents, cash flows provided by operations and availability under credit facilities. In May 2015, we amended our asset-based revolving credit facility to, among other things, expand the facility from \$400.0 million to \$550.0 million and extend the maturity date to May 2020, subject to acceleration under certain circumstances. On a long-term basis, our potential sources of liquidity also include raising capital through the issuance of debt and/or equity. The primary uses of liquidity include debt service requirements (including voluntary debt repayments), funding working capital requirements (primarily inventory and accounts receivable, net of accounts payable and other accrued liabilities), funding acquisitions, paying acquisition integration costs, capital expenditures, paying restructuring costs, income tax payments (including the cost of repatriation), and funding pension and other postretirement obligations.

The decrease in cash and cash equivalents during the nine months ended September 30, 2015 was primarily driven by funding the BNS acquisition and acquisition-related payments offset partially by positive operating performance. The increase in working capital, excluding cash and cash equivalents and current portion of long-term debt, is primarily due to the addition of the BNS business into our working capital structure. The net change in total capitalization during the nine months ended September 30, 2015 primarily reflects the increase in long-term debt that was utilized to fund a substantial portion of the BNS acquisition.

Cash Flow Overview

	Nine Months Ended September 30,		Dollar Change
	2015	2014	
	(dollars in millions)		
Net cash generated by (used in) operating activities	\$ 185.7	\$ 161.6	\$ 24.1
Net cash used in investing activities	\$ (2,993.4)	\$ (69.4)	\$ (2,924.0)
Net cash generated by financing activities	\$ 2,710.9	\$ 190.9	\$ 2,520.0

Operating Activities

During the nine months ended September 30, 2015, we generated \$185.7 million of cash through operating activities compared to \$161.6 million during the nine months ended September 30, 2014. Cash flow from operations for the nine months ended September 30, 2015 includes the payment of transaction and integration costs primarily related to the BNS acquisition of \$71.6 million. Cash flow from operations for the nine months ended September 30, 2014 included the payment of a \$93.9 million premium related to redeeming the 2019 Notes. Excluding the transaction and integration costs paid in 2015 and the premium payment in 2014, we generated nearly equal amounts of cash through operating activities for the nine months ended September 30, 2015 and 2014. Cash paid for interest was \$40.2 million lower in the nine months ended September 30, 2015 than in the prior year period, primarily as a result of a change in the timing of interest payments.

Investing Activities

During the nine months ended September 30, 2015 we acquired the BNS business and paid \$2,957.5 million, net of cash acquired, using a combination of cash on hand and proceeds from the issuance of long-term debt. During the nine months ended September 30, 2014, we paid \$45.0 million, net of cash acquired, in connection with the Alifabs acquisition and we also received \$4.7 million related to the final determination of the iTRACS purchase price.

Investment in property, plant and equipment during the nine months ended September 30, 2015 was \$39.4 million, of which \$11.1 million is related to capital spending to support the BNS integration. The remainder of the investment in property, plant and equipment was primarily related to supporting improvements to manufacturing operations as well as investments in information technology (including software developed for internal use).

During the nine months ended September 30, 2015 and 2014, we received proceeds of \$2.8 million and \$9.2 million, respectively, related to the sale of a portion of our investment in Hydrogenics Corporation. During the nine months ended September 30, 2014, we paid \$15 million for the purchase of a non-controlling interest in a company developing high-speed transceivers and photonic integrated circuit products.

Table of Contents

Financing Activities

During the nine months ended September 30, 2015, we received \$500.0 million from the issuance of the 2020 Notes which was used, together with cash on hand, to repay \$500.0 million of our existing term loans. In addition, we issued \$1.5 billion of 2025 Notes and borrowed \$1.25 billion under the 2022 Term Loan. The proceeds from the 2025 Notes and the 2022 Term Loan were used to fund a substantial portion of the BNS acquisition. In connection with these financing transactions and the amendment of our revolving credit facility, we incurred \$74.0 million of debt issuance costs, of which \$73.9 million was paid during the nine months ended September 30, 2015.

As of September 30, 2015, we had no outstanding borrowings under our revolving credit facility and the remaining availability was approximately \$324.2 million, reflecting a borrowing base of \$349.4 million reduced by \$25.2 million of letters of credit issued under the revolving credit facility. We expect increased capacity as the additional collateral resulting from the BNS acquisition is added to the borrowing base. During the nine months ended September 30, 2015, we received proceeds of \$21.3 million and recognized \$19.2 million of excess tax benefits related to the exercise of stock options.

During the nine months ended September 30, 2014, we issued \$1.3 billion of new senior notes at a weighted average interest rate of 5.25%. Proceeds from the new senior notes were used to redeem the entire \$1.1 billion of outstanding 2019 Notes. In connection with issuing the new senior notes, we paid financing costs of approximately \$23.3 million during the nine months ended September 30, 2014. Also during the nine months ended September 30, 2014, we borrowed and repaid \$15.0 million under our revolving credit facility and repaid \$6.6 million of our senior secured term loans. During the nine months ended September 30, 2014, we received proceeds of \$10.8 million and recognized \$10.6 million of excess tax benefits related to the exercise of stock options.

Future Cash Needs

We expect that our primary future cash needs will be debt service requirements (including voluntary debt repayments), funding working capital requirements (primarily inventory and accounts receivable, net of accounts payable and other accrued liabilities), funding acquisitions, paying acquisition integration costs, capital expenditures, paying restructuring costs, income tax payments (including the cost of repatriation) and funding pension and other postretirement obligations. We paid \$7.5 million of restructuring costs during the nine months ended September 30, 2015 and expect to pay an additional \$3.0 million to \$4.0 million by the end of 2015 and an additional \$20.0 million between 2016 and 2022 related to restructuring actions that have been initiated. Any future restructuring actions would likely require additional cash expenditures and such requirements may be material. As of September 30, 2015, we have an unfunded obligation related to pension and other postretirement benefits of \$45.3 million including an estimated \$30.5 million in pension liabilities assumed in connection with the BNS acquisition. We made contributions of \$19.5 million to our pension and other postretirement benefit plans during the nine months ended September 30, 2015 and currently expect to make additional contributions of approximately \$1.0 million during the balance of 2015. Contributions made during the nine months ended September 30, 2015 include those required to comply with an agreement with the Pension Benefit Guaranty Corporation (PBGC). As of September 30, 2015, we have made all the contributions required in our agreement with the PBGC. We expect that our noncurrent employee benefit liabilities will be funded from existing cash balances and cash flow from future operations.

We may voluntarily repay existing debt or repurchase our senior notes or our senior PIK toggle notes, if market conditions are favorable and the applicable indenture and the senior secured credit facilities permit such repayment or repurchase.

Although there are no financial maintenance covenants under the terms of our senior notes or senior PIK toggle notes, there is a limitation, among other limitations, on certain future borrowings based on an adjusted leverage ratio or a fixed charge coverage ratio. These ratios are based on financial measures similar to Adjusted EBITDA as presented in this Quarterly Report on Form 10-Q (see Reconciliation of Non-GAAP Measures), which also give pro forma effect to certain events, including acquisitions, synergies and cost savings initiatives. For the twelve months ended September 30, 2015, our pro forma Adjusted EBITDA, as measured pursuant to indentures governing our notes, was \$957.0 million, which included the impact of the BNS acquisition (\$225.0 million) and cost reduction initiatives (\$7.9 million) so that the impact of the acquisition and cost reduction initiatives are fully reflected in the twelve-month period used in the calculation of the ratios. In addition to limitations under these indentures, our senior secured credit facilities contain customary negative covenants. We believe we are in compliance with the covenants under our indentures and senior secured credit facilities at September 30, 2015.

Table of Contents

As of September 30, 2015, approximately 53% of our cash and cash equivalents was held outside the U.S. Income taxes have been provided on a significant portion of our accumulated foreign earnings such that there would be no significant tax cost to repatriate such earnings. The cash tax requirements to repatriate existing funds may vary from year to year.

We believe that our existing cash, cash equivalents and cash flows from operations, combined with availability under our revolving credit facility, will be sufficient to meet our presently anticipated future cash needs. We may, from time to time, increase borrowings under our revolving credit facility or issue securities, if market conditions are favorable, to meet our future cash needs or to reduce our borrowing costs.

CONTRACTUAL OBLIGATIONS

During the nine months ended September 30, 2015, CommScope Technologies Finance LLC (a wholly owned subsidiary of the Company) issued the 2025 Notes (\$1.5 billion) and CommScope Finance LLC (a wholly owned subsidiary of the Company) borrowed under the 2022 Term Loan (\$1.25 billion). The proceeds from the 2025 Notes and 2022 Term Loan, together with cash on hand, were used to fund the Company's acquisition of BNS.

Also during the nine months ended September 30, 2015, CommScope, Inc., a direct wholly owned subsidiary of the Company, issued the 2020 Notes (\$500.0 million) and used the proceeds of the offering to repay the entire principal amount outstanding under the term loan due 2017 and a portion of the principal amount outstanding under the term loan due 2018.

The following table summarizes our contractual obligations as of September 30, 2015:

Contractual Obligations	Amount of Payments Due per Period				
	Total Payments Due	Remainder of 2015	2016-2017	2018-2019	Thereafter
	(in millions)				
Long-term debt, including current maturities (a)	\$ 5,462.0	\$ 3.2	\$ 25.0	\$ 386.9	\$ 5,046.9
Interest on long-term debt (a)(b)	2,066.9	125.3	552.4	527.1	862.1
Operating leases	114.8	6.4	54.1	28.1	26.2
Purchase obligations (c)	10.1	9.3	0.8		
Pension and other postretirement benefit liabilities (d)	18.0	1.0	5.2	4.5	7.3
Restructuring costs, net (e)	15.2	2.7	12.5		
Unrecognized tax benefits (f)					
Total contractual obligations	\$ 7,687.0	\$ 147.9	\$ 650.0	\$ 946.6	\$ 5,942.5

(a) No prepayment or redemption of any of our long-term debt balances has been assumed. Refer to Note 5 in the Notes to Condensed Consolidated Financial Statements included in this Form 10-Q and Note 6 in the Notes to Consolidated Financial Statements included in our 2014 Annual Report for information regarding the terms of our long-term debt agreements.

(b)

Interest on long-term debt excludes the amortization of debt issuance costs and original issue discount. Interest on variable rate debt is estimated based upon rates in effect as of September 30, 2015.

- (c) Purchase obligations include minimum amounts owed under take-or-pay or requirements contracts. Amounts covered by open purchase orders are excluded as there is no contractual obligation until goods or services are received.
- (d) Amounts reflect expected contributions related to payments under the postretirement benefit plans through 2024 and expected pension contributions of \$0.2 million during the remainder of 2015 (see Note 10 in the Notes to Consolidated Financial Statements included in our 2014 Annual Report).
- (e) Future restructuring payments exclude payments due under lease arrangements which are included in operating leases above.
- (f) Due to the uncertainty in predicting the timing of tax payments related to our unrecognized tax benefits, \$55.7 million has been excluded from the presentation. We anticipate a reduction of up to \$12.4 million of unrecognized tax benefits during the next twelve months.

Table of Contents**Reconciliation of Non-GAAP Measures**

We believe that presenting certain non-GAAP financial measures enhances an investor's understanding of our financial performance. We further believe that these financial measures are useful financial metrics to assess our operating performance from period to period by excluding certain items that we believe are not representative of our core business. We also use certain of these financial measures for business planning purposes and in measuring our performance relative to that of our competitors. We believe these financial measures are commonly used by investors to evaluate our performance and that of our competitors. However, our use of the terms Adjusted Operating Income and Adjusted EBITDA may vary from that of others in our industry. These financial measures should not be considered as alternatives to operating income (loss), net income (loss) or any other performance measures derived in accordance with U.S. GAAP as measures of operating performance or operating cash flows or as measures of liquidity.

We also believe presenting results for the twelve months ended September 30, 2015 provides an additional tool for assessing our recent performance. Such amounts are unaudited and are derived by subtracting the data for the nine months ended September 30, 2014 from the data for the year ended December 31, 2014 and then adding the data for the nine months ended September 30, 2015.

Consolidated

	Three Months Ended September 30, 2015 2014		Nine Months Ended September 30, 2015 2014		Year Ended December 31, 2014	Twelve Months Ended September 30, 2015
	(dollars in millions)					
Operating income (loss)	\$ (42.5)	\$ 151.0	\$ 160.0	\$ 501.2	\$ 577.4	\$ 236.2
Adjustments:						
Amortization of purchased intangible assets	54.3	44.8	143.7	133.4	178.3	188.6

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q or any other oral or written statements made by us or on our behalf may include forward-looking statements which reflect our current views with respect to future events and financial performance. These forward-looking statements are generally identified by their use of such terms and phrases as intend, goal, estimate, expect, project, projections, plans, anticipate, should, could, designed to, foreseeable future, scheduled, outlook, guidance and similar expressions although not all forward-looking statements contain such terms. This list of indicative terms and phrases is not intended to be all-inclusive.

These statements are subject to various risks and uncertainties, many of which are outside our control, including, without limitation, our dependence on customers' capital spending on communication systems; concentration of sales among a limited number of customers or distributors; changes in technology; our ability to fully realize anticipated benefits from prior or future acquisitions or equity investments; industry competition and the ability to retain customers through product innovation, introduction and marketing; risks associated with our sales through channel partners; possible production disruptions due to supplier or contract manufacturer bankruptcy, reorganization or restructuring; the risk our global manufacturing operations suffer production or shipping delays causing difficulty in meeting customer demands; the risk that internal production capacity and that of contract manufacturers may be insufficient to meet customer demand or quality standards for our products; our ability to maintain effective information management systems and to successfully implement major systems initiatives; cyber-security incidents, including data security breaches or computer viruses; product performance issues and associated warranty claims; significant international operations and the impact of variability in foreign exchange rates; our ability to comply with governmental anti-corruption laws and regulations and export and import controls worldwide; our ability to compete in international markets due to export and import controls to which we may be subject; potential difficulties in realigning global manufacturing capacity and capabilities among our global manufacturing facilities, including delays or challenges related to removing, transporting or reinstalling equipment, that may affect our ability to meet customer demands for products; possible future restructuring actions; possible future impairment charges for fixed or intangible assets, including goodwill; increased obligations under employee benefit plans; cost of protecting or defending intellectual property; changes in laws or regulations affecting us or the industries we serve; costs and challenges of compliance with domestic and foreign environmental laws and the effects of climate change; changes in cost and availability of key raw materials, components and commodities and the potential effect on customer pricing; risks associated with our dependence on a limited number of key suppliers; our ability to attract and retain qualified key employees; allegations of health risks from wireless equipment; availability and adequacy of insurance; natural or man-made disasters or other disruptions; income tax rate variability and ability to recover amounts recorded as value-added tax receivables; labor unrest; risks of not realizing benefits from research and development projects; substantial indebtedness and maintaining compliance with debt covenants; our ability to incur additional indebtedness; ability of our lenders to fund borrowings under their credit commitments; changes in capital availability or costs, such as changes in interest rates, security ratings and market perceptions of the businesses in which we operate, or the ability to obtain capital on commercially reasonable terms or at all; our ability to generate cash to service our indebtedness; our ability to integrate the BNS business on a timely and cost effective manner; our reliance on TE Connectivity for transition services for the BNS business; our ability to realize expected growth opportunities and cost savings from the BNS business; and other factors beyond our control. These and other factors are discussed in greater detail in our 2014 Annual Report on Form 10-K. Although the information contained in this Quarterly Report on Form 10-Q represents our best judgment as of the date of this report based on information currently available and reasonable assumptions, we can give no assurance that the expectations will be attained or that any deviation will not be material. Given these uncertainties, we caution you not to place undue reliance on these forward-looking statements, which speak only as of the date made. We are not undertaking any duty or obligation to update this information to reflect developments or information obtained after the date of this report, except as otherwise may be required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Other than the changes disclosed below, there have been no material changes in the interest rate risk, commodity price risk or foreign currency exchange rate risk information previously reported under Item 7A of our 2014 Annual Report on Form 10-K, as filed with the SEC on February 20, 2015.

Table of Contents*Interest Rate Risk*

The table below summarizes the expected interest and principal payments associated with our variable rate debt outstanding as of September 30, 2015 (mainly the \$1.61 billion of variable rate term loans). The principal payments presented below are based on scheduled maturities and assume no borrowings under the revolving credit facility. The interest payments presented below assume the interest rate in effect as of September 30, 2015. The impact of a 1% increase in the interest rate index (taking into account the impact of the LIBOR floor on the term loans) on projected future interest payments on the variable rate debt is also included in the table below.

	Remainder of 2015	2016	2017	2018	2019	There- after
	(dollars in millions)					
Principal and interest payments on variable rate debt	\$ 18.2	\$ 72.3	\$ 71.9	\$ 421.8	\$ 59.0	\$ 1,330.4
Average cash interest rate	3.74%	3.74%	3.74%	3.86%	3.86%	3.77%
Impact of 1% increase in interest rate index	\$ 2.8	\$ 11.1	\$ 11.0	\$ 8.6	\$ 8.4	\$ 24.7

We also have \$3.85 billion aggregate principal amount of fixed rate senior notes and senior PIK toggle notes. The table below summarizes our expected interest and principal payments related to our fixed rate debt at September 30, 2015 (assuming we make all of our interest payments on the senior PIK toggle notes at the 6.625% cash-pay interest rate).

	Remainder of 2015	2016	2017	2018	2019	There- after
	(dollars in millions)

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report.

Based on that evaluation, our CEO and CFO have concluded that these disclosure controls and procedures are designed to provide reasonable assurance that information that we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Management's evaluation and conclusion as to the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report excludes any evaluation of the

internal control over financial reporting of BNS. SEC guidance permits the exclusion of an evaluation of the effectiveness of a registrant's disclosure controls and procedures as they relate to the internal control over financial reporting for an acquired business during the first year following such acquisition. We acquired TE Connectivity's BNS business on August 28, 2015. The BNS business constitutes 10% of total assets and 15% of revenues of the consolidated financial statement amounts as of and for the three months ended September 30, 2015.

The CEO and the CFO, with assistance from other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report and, based on their evaluation, have concluded that the disclosure controls and procedures were effective as of such date.

Table of Contents

Changes in Internal Control over Financial Reporting

In conjunction with the integration of BNS, the Company is making changes to processes, policies and other components of its internal control over financial reporting, including the consolidation of such operations into the Company's financial statements. During the integration period the Company will be relying on TE Connectivity to provide various services under transition service agreements. Management continues to make changes to the design of the control procedures relating to BNS and assess their effectiveness. Except for the activities described above, there have been no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
