CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the documents incorporated by reference in this prospectus supplement contain statements regarding F.N.B.'s outlook for earnings, revenues, expenses, capital levels, liquidity levels, asset levels, asset quality and other matters regarding or affecting F.N.B. and its future business and operations that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements are typically identified by words such as believe, plan, expect, anticipate, see, look, intend, outlook, project, forecast, estimate, goal, will, should and other similar words and expressions. Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time.

These forward-looking statements involve certain risks, uncertainties and assumptions. The ability of F.N.B. to predict results or the actual effects of its plans and strategies is inherently uncertain. Accordingly, actual results may differ materially from anticipated results. Some of the factors that may cause actual results or earnings to differ materially from those contemplated by the forward-looking statements include, but are not limited to, those discussed under the heading Risk Factors in our most recently filed Annual Report on Form 10-K and Quarterly Reports on Form 10-Q and elsewhere, which are incorporated by reference in this prospectus supplement, as well as the factors identified below.

F.N.B.'s forward-looking statements are subject to the following principal risks and uncertainties:

Our businesses, financial results and balance sheet values are affected by business and economic conditions, including the following:

Changes in interest rates and valuations in debt, equity and other financial markets.

Disruptions in the liquidity and other functioning of U.S. and global financial markets.

The impact of federal regulatory agencies that have oversight or review of F.N.B.'s business and securities activities, including the bank regulatory examination and supervisory process.

Actions by the Federal Reserve, U.S. Treasury and other government agencies, including those that impact money supply and market interest rates.

Slowing or reversal of the rate of growth in the economy and employment levels and other economic factors that affect our liquidity and the performance of our loan portfolio, particularly in the markets in which we operate.

Changes in customer preferences and behavior, whether due to changing business and economic conditions, legislative and regulatory initiatives, or other factors.

Legal and regulatory developments could affect our ability to operate our businesses, financial condition, results of operations, competitive position, reputation, or pursuit of attractive acquisition opportunities. Reputational impacts could affect matters such as business generation and retention, liquidity, funding, and ability to attract and retain management. These developments could include:

Changes resulting from legislative and regulatory reforms, including broad-based restructuring of financial industry regulation; changes to laws and regulations involving tax, pension, bankruptcy, consumer protection, and other industry aspects; and changes in accounting policies and principles. We will continue to be impacted by extensive reforms provided for in the Dodd-Frank Wall Street Reform and Consumer Protection Act and otherwise growing out of the recent financial crisis, the precise nature, extent and timing of which, and their impact on us, remains uncertain.

Results of the regulatory examination and supervisory process.

Changes to regulations governing bank capital and liquidity standards, including the Dodd-Frank Act, Volcker rule, Dodd-Frank stress testing rules (DFAST) and Basel III initiatives.

Table of Contents

Impact on business and operating results of any costs associated with obtaining rights in intellectual property, the adequacy of our intellectual property protection in general and our operational or security systems or infrastructure, or those of third-party vendors or other service providers, and rapid technological developments and changes.

Business and operating results are affected by judgments and assumptions in our analytical and forecasting models, our reliance on the advice of experienced outside advisors and our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through effective use of third-party insurance, derivatives, swaps, and capital management techniques, and to meet evolving regulatory capital standards.

As demonstrated by our acquisitions, we grow our business in part by acquiring, from time to time, other financial services companies, financial services assets and related deposits. These acquisitions often present risks and uncertainties, including, the possibility that the transaction cannot be consummated; regulatory issues; cost or difficulties involved in integration and conversion of the acquired businesses after closing; inability to realize expected cost savings, efficiencies and strategic advantages; the extent of credit losses in acquired loan portfolios; the extent of deposit attrition; and the potential dilutive effect to our current shareholders.

Competition can have an impact on customer acquisition, growth and retention and on credit spreads and product pricing, which can affect market share, deposits and revenues. Industry restructuring in the current environment could also impact our business and financial performance through changes in counterparty creditworthiness and performance, and the competitive and regulatory landscape. Our ability to anticipate and respond to technological changes can also impact our ability to respond to customer needs and meet competitive demands.

Business and operating results can also be affected by widespread disasters, dislocations, terrorist activities, cyber-attacks or international hostilities through their impacts on the economy and financial markets. Forward-looking statements speak only as of the date made. Unless required by applicable law or regulation, F.N.B. undertakes no obligation to update any forward-looking statements to reflect subsequent events or circumstances.

DESCRIPTION OF THE PLAN

Introduction

This prospectus supplement contains an overview of plan participants' rights under the Metro Bancorp, Inc. Amended and Restated 2006 Employee Stock Option and Restricted Stock Plan, which was assumed by F.N.B. Corporation upon completion of the merger of Metro Bancorp, Inc. with and into F.N.B. As a result of that merger, the awards granted under that plan relate to shares of F.N.B. common stock instead of shares of Metro Bancorp, Inc. common stock.

The description of the plan in this supplement is merely a summary of key terms and conditions of the plan. This prospectus supplement does not contain all of the terms and conditions of the official plan documents for the plan, and is expressly qualified by reference to the plan documents for the plan and the terms and conditions of a specific grant or award. In the event of any inconsistency between this prospectus supplement, any plan documents or the terms and conditions of a grant or award, the plan documents and the terms and conditions of the grant or award will govern. See

Where You Can Find Additional Information on page S-15 for instructions on how to obtain copies of the plan documents.

Background Information About the Merger

On August 4, 2015, F.N.B. Corporation and Metro Bancorp, Inc. entered into an Agreement and Plan of Merger. The merger agreement provided for F.N.B. to acquire Metro by merger: Metro would merge with and into F.N.B., with F.N.B. being the surviving corporation. The merger agreement also addressed the treatment of the outstanding equity-based interests in Metro, such as the shares of Metro common stock and the stock options and other awards that are based on Metro common stock. F.N.B. and Metro agreed that when the parties merge, Metro would cancel all of its outstanding shares of common stock, and F.N.B. would issue shares of its common stock to the Metro shareholders as consideration. F.N.B. and Metro also agreed that the outstanding awards under the Metro Bancorp, Inc. Amended and Restated 2006 Employee Stock Option and Restricted Stock Plan would convert into awards relating to F.N.B. common stock and F.N.B. would assume the obligations of Metro under that plan.

As a result, when Metro merged into F.N.B. on February 13, 2016, the following changes to the outstanding shares of Metro common stock and stock plan awards occurred:

(1) Cancellation of Shares of Common Stock; Exchange Ratio

The outstanding shares of Metro common stock (excepting any shares held by F.N.B., Metro and their subsidiaries) were converted into the right to receive 2.373 shares of F.N.B. common stock for each cancelled share of Metro common stock, plus cash in lieu of any fractional shares of F.N.B. common stock that otherwise would be issued to the Metro shareholders. The exchange ratio of 2.373 shares of F.N.B. common stock for one share of Metro common stock represents the merger consideration payable by F.N.B. to the Metro shareholders. Shares of Metro common stock held by F.N.B., Metro and their subsidiaries were cancelled without exchanging any merger consideration.

(2) Treatment of Options

The outstanding options issued under the Metro Bancorp, Inc. Amended and Restated 2006 Employee Stock Option and Restricted Stock Plan no longer can be exercised for shares of Metro common stock. Each option was converted into an option to acquire shares of F.N.B. common stock under the same terms and conditions that were in effect immediately before the merger, except for the following adjustments made to reflect the exchange ratio:

The number of shares of F.N.B. common stock purchasable under the option will be equal to the number of shares of Metro common stock for which the option was previously exercisable multiplied by 2.373 (and rounded down to the nearest whole number of shares of F.N.B. common stock).

The exercise price will be equal to the exercise price per share in effect immediately before the merger divided by 2.373 (and rounded up to the nearest whole cent).

S-7

Table of Contents

As mentioned above, F.N.B. assumed Metro's obligations under the Metro Bancorp, Inc. Amended and Restated 2006 Employee Stock Option and Restricted Stock Plan once the merger was completed. F.N.B. will continue to administer the plan until all outstanding options are exercised or expire. No new options or other awards will be granted under the plan. This prospectus supplement is being sent to holders of currently outstanding awards under the plan who were former employees of Metro at the time of the merger.

Administration of the Plan

Since the merger, the plan is being administered by the Compensation Committee of F.N.B.'s Board of Directors. Subject to the terms of the plan, the Compensation Committee has the authority to interpret the terms of the plan and make all decisions related to the operation of the plan. The members of the Compensation Committee are recommended by the Nominating and Corporate Governance Committee of the Board of Directors in consultation with the Chairman of the Board of Directors, and approved by the full Board of Directors. The Compensation Committee is comprised of at least three members of F.N.B.'s Board of Directors who are not currently employees of F.N.B. The members of the Compensation Committee serve for such terms as the Board of Directors may determine and until their successors are duly qualified and appointed. The Compensation Committee is constituted to satisfy the disinterested administration standard set forth in Rule 16b-3 promulgated under the Securities Exchange Act of 1934. However, the Compensation Committee may have one member who does not qualify as an "outside director" under Section 162(m) of the Internal Revenue Code, so long as such person does not vote on compensation-related matters.

Governing Law

To the extent not governed by federal law, the plan and the terms of all awards will be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania.

Non-Qualified and Unfunded Status of the Plan

The plan is unfunded and does not give the participants any rights that are superior to those of F.N.B.'s general creditors. The plan is not subject to the provisions of the Employment Retirement Income Security Act of 1974 and is not qualified under Section 401(a) of the Internal Revenue Code of 1986.

Available Shares for the Plan

F.N.B. has reserved a total of 1,309,561 shares of its common stock for issuance pursuant to outstanding awards under the plan. This total includes the 1,078,191 shares which are being offered under this prospectus supplement. F.N.B. may settle any awards using newly issued shares of F.N.B. common stock, shares of F.N.B. common stock that are held in treasury or shares of F.N.B. common stock purchased on the open market or in private transactions.

Types of Awards Outstanding

The only awards outstanding under the plan are stock options, including incentive stock options (ISOs) and nonstatutory, or "non-qualified", stock options (NQSOs). Each award is evidenced by an award agreement that specifies the number of shares subject to the award, the date of grant of the award, the vesting period and conditions to vesting, and the other terms and conditions of the award prescribed by Metro's Compensation Committee.

Stock Options

Generally. A stock option allows its holder to purchase a certain amount of common stock at a fixed price, commonly referred to as the exercise price, during a prescribed period of time. The plan permitted Metro to

S-8

Table of Contents

grant either ISOs or NQSOs. The difference between an ISO and a NQSO is mainly based on how they are taxed. See U.S. Federal Income Tax Consequences beginning on page S-10 for more information about the tax treatment of ISOs and NQSOs.

Option Term. The term of a stock option is the period of time from the grant date to the date the option is scheduled to expire. The specific term of a stock option, whether it is an ISO or a NQSO, is set forth in the award agreement for the option. Under the plan, Metro was permitted to award options with term lengths of up to 10 years from the grant date. However, the maximum term length is limited to five years for an ISO grant to a participant who owns more than 10% of the total combined voting power of all classes of stock of Metro or any of its subsidiaries.

Unless otherwise specified in a participant's award agreement, awards were granted with a vesting rate not exceeding 25% per year, with the first installment vesting one year after the date of grant, subject to any accelerated vesting provided for in the award agreement. Each stock option must be exercised during a specified period following the date on which the award is granted (as provided in each participant's award agreement); otherwise the stock option will be forfeited. All stock options under the plan held by Metro's employees were vested and exercisable prior to the merger.

Exercise Procedure. To exercise a stock option, the participant must follow the procedures established by the Compensation Committee of F.N.B.

Payment Methods. Shares purchased upon exercise of a stock option must be paid for either in cash or by other means permitted under the plan or the participant's award agreement.

Effect of Termination of Service

Termination of the participant's employment has the following effect on the participant's award:

Reason for Termination

Any termination (other than due to Retirement, death, disability or for misconduct)

Retirement

Death

Effect on Stock Option Award

If a participant's employment is terminated (other than due to Retirement, death, or disability or for misconduct) all stock options held by the participant may be exercised for three months following termination.

All stock options are exercisable for three years in the case of NQSOs or three months in the case of ISOs from Retirement, as defined in the Plan. However, if the remaining term is shorter than the specified post-termination exercise period at the time of Retirement, the stock option will only remain exercisable for that shorter period.

All stock options are exercisable for three years following termination of employment due to death, provided that in order to receive ISO tax treatment for stock options exercised by the heirs or devisees of the participant, the participant's death must have occurred while the participant was employed or within three

months of termination and no stock option will be eligible for treatment as an ISO in the event the stock option is exercised more than one year following termination due to death. However, if the remaining term of the stock option is shorter than

S-9

Table of Contents

Reason for Termination

Effect on Stock Option Award

three years at the time of termination of service, the stock option only will remain exercisable for that shorter period.

Total & Permanent Disability

All stock options are exercisable for up to one year following termination of employment due to disability, provided that no stock option will be eligible for treatment as an ISO in the event the stock option is exercised more than one year following termination due to disability. However, if the remaining term of the stock option is shorter than a year at the time of termination of service, the stock option only will remain exercisable for that shorter period.

For misconduct

All stock options that have not been exercised will expire and be forfeited.

In the case of terminations other than due to death, disability or for misconduct, at the close of the scheduled post-termination exercise period it is expected that such period will be extended for any then unexercised and outstanding stock options until February 13, 2017.

Nontransferability of Awards

A participant generally may not transfer his or her stock options in any manner.

Effect of Changes in Capital Structure of F.N.B.

If F.N.B. undergoes a change in par value, combination, split-up, reclassification, distribution of dividend payable in stock or the like, the Compensation Committee of F.N.B. is authorized to make an equitable adjustment to the number and kind of securities that may be delivered in respect of outstanding stock options, and may also make adjustments in the terms and conditions of the stock options.

No Employment or Other Rights Conferred by an Award

No award shall give the participant any of the rights of a shareholder of F.N.B. unless and until the shares of common stock subject to the award are, in fact, issued to such person in connection with such award. Nothing in a plan or any award granted pursuant to a plan will confer on a participant any right to be or to continue in the employ of F.N.B. or any of its subsidiaries or shall interfere in any way with the right of F.N.B. or any of its subsidiaries to terminate the employment of a participant at any time.

Tax Withholding Obligations

F.N.B. has tax withholding obligations that may arise relative to the awards granted under the plan. F.N.B. will deduct, withhold or require a participant to pay to F.N.B. an amount sufficient to satisfy the federal, state and local taxes (including the participant's FICA obligation) required by law to be withheld upon the occurrence of a taxable event with respect to an award granted under the plan (*e.g.*, exercise of an option). If permitted by the Compensation Committee of F.N.B. and the participant's award agreement, F.N.B. may satisfy its tax withholding obligations by withholding from the exercise or settlement of the participant's award, a number of shares of stock having a fair market

value equal to the minimum statutory amount required to be withheld. Each participant should refer to his or her own individual award agreement for additional information about the tax withholding procedures that apply to his or her award.

U.S. Federal Income Tax Consequences

The following discussion is only a summary of the United States federal income tax consequences of outstanding awards under the plan. Because it is a summary, it may not contain all the information that may be

S-10

Table of Contents

important to each plan participant or that are based upon a participant's individual circumstances. For example, this summary does not address all alternative minimum tax concerns. Statements made herein are based upon current provisions of the Internal Revenue Code, and the rules and regulations thereunder, to which participants should refer. No assurance can be given that legislative, regulatory or judicial changes will not occur (possibly with retroactive effect), which would modify the information below. This discussion relates only to United States federal income tax consequences as applied to awardees who are residents or citizens of the United States and does not address tax consequences under foreign, state, or local laws or estate tax consequences.

The following discussion was written on the understanding that it would be used to explain to each plan participant the general United States federal income tax consequences of the awards under the plan. The discussion was not written and is not intended to be used by any person, and cannot be used by any person, for purposes of avoiding penalties under the Internal Revenue Code. Each plan participant should consult an independent tax advisor as to the tax consequences of the various awards under the plan based on the participant's particular circumstances.

Non-qualified Stock Options

A participant does not recognize income at the time of grant of a non-qualified stock option, and Metro would not have been entitled to a deduction at that time. When the non-qualified stock option is exercised, the participant will recognize ordinary income equal to the excess of the fair market value of the shares on the date of exercise over the exercise price, if any. The participant's tax basis in these shares will equal the exercise price paid plus the amount recognized by the participant as ordinary income. F.N.B. will generally be entitled to a federal income tax deduction, in F.N.B.'s tax year in which the non-qualified stock option is exercised, equal to the ordinary income recognized by the participant as described above. If the participant holds the shares acquired pursuant to the exercise of a non-qualified stock option for more than one year after the exercise of the option, the capital gain or loss realized upon the sale of these shares will be a long-term capital gain or loss. The participant's holding period for the shares acquired upon the exercise of a non-qualified stock option will begin on the day following exercise.

Incentive Stock Options

A participant does not recognize income at the time of grant of an ISO, and Metro would not have been entitled to a deduction at that time. If the ISO is exercised during employment, or within three months thereafter (or one year in the case of a permanently and totally disabled employee or deceased employee), the participant will not recognize any income and F.N.B. will not be entitled to a deduction. However, the excess of the fair market value of the shares on the date of exercise over the exercise price may be includible in computing the participant's alternative minimum taxable income.

Generally, if the participant disposes of the shares acquired by exercise of an ISO within either two years of the date of grant or one year of the date of exercise, *i.e.* makes a disqualifying disposition, the participant will recognize ordinary income, and F.N.B. will be entitled to a deduction, equal to the excess of the fair market value of these shares on the date of exercise over the exercise price (limited generally to the gain on the sale). The balance of any gain or loss will be treated as a capital gain or loss to the participant. If the shares are disposed of after the two-year and one-year periods described above, F.N.B. will not be entitled to any deduction, and the entire gain or loss for the participant will be treated as a long-term capital gain or loss.

Options which do not qualify for treatment as ISOs will be treated as non-qualified stock options.

Payment with Shares

When shares subject to an award are used to satisfy any minimum required tax withholding, the participant will generally recognize gain or loss with respect to those shares. In this situation, the participant will recognize a short-term capital gain or loss, as the case may be, equal to the difference between the amount of the minimum required tax withholding satisfied by the shares over the participant's tax basis, if any, in those shares.

If the participant uses shares he or she owns to pay, in whole or part, the exercise price of an option, no gain or loss will be recognized with respect to these shares. In this situation, however, the tax basis of the shares

Table of Contents

received upon exercise will be the tax basis of the shares delivered as payment, share for share, to the extent the number of shares received equals the number of shares delivered as payment. In addition, the holding period of the shares received will include the holding period of the shares delivered as payment. The tax basis of the balance of shares received in excess of the number of shares delivered by the participant will be equal to the sum of the amount of the exercise price paid in cash, if any, plus any amount the participant is required to recognize as income as a result of the exercise. The holding period for any excess shares will commence on the day following exercise. It should be noted, however, that if payment of the exercise price of an ISO is made with shares acquired by an earlier exercise of an ISO, and those shares have not been held for the required holding periods discussed above under U.S. Federal Income Tax Consequences Incentive Stock Options, payment in shares will result in a disqualifying disposition, such that the participant will recognize ordinary income.

For More Information

Each participant should consult with his or her own tax advisor for information about how the participant's awards will be taxed.

Expiration or Termination of the Plan; Term Length

The plan has a term of ten years, running from January 1, 2006 to December 31, 2015. The Plan terminated on December 31, 2015. The term of the plan is the period of time during which awards may be granted under the plan. However, F.N.B. does not intend to grant any new awards under the plan.

The expiration or termination of the plan does not affect the validity of any award that is outstanding or the expiration or termination date of any award.

Table of Contents**DESCRIPTION OF F.N.B. CAPITAL STOCK**

The following summary of F.N.B. capital stock, including the common stock to be issued upon exercise of the options, is not complete and is qualified by reference to the F.N.B. articles of incorporation and the F.N.B. bylaws. You are urged to read the applicable provisions of Florida law, the F.N.B. articles of incorporation and the F.N.B. bylaws and U.S. federal law governing bank holding companies carefully and in their entirety.

Common Stock

F.N.B. is authorized to issue up to 500,000,000 shares of common stock, par value \$0.01 per share. As of February 15, 2016, there were 209,445,037 shares of F.N.B. common stock outstanding. As of December 31, 2015, F.N.B. had reserved 2,062,471 shares of common stock for issuance under its employee stock plans (excluding the equity-based compensation plans formerly sponsored by Metro) and dividend reinvestment and stock purchase plan. In addition, F.N.B. has reserved a total of 1,028,148 shares of common stock for issuance upon exercise of two warrants that were initially issued to the U.S. Department of the Treasury, all of which are immediately exercisable by the warrant holders that purchased the warrants from the U.S. Treasury in an auction process. The first warrant was issued by F.N.B. to the U.S. Department of the Treasury (the U.S. Treasury) under the Capital Purchase Program of the U.S. Treasury, expires on January 9, 2019 and is exercisable for up to 651,042 shares at an exercise price of \$11.52 per share. The second warrant was originally issued by Annapolis Bancorp, Inc. to the U.S. Treasury under the Capital Purchase Program and was converted into a warrant to purchase shares of F.N.B. common stock upon F.N.B.'s acquisition of Annapolis Bancorp in April 2013. The second warrant expires in 2019 and, as of December 31, 2015, is exercisable for up to 377,106 shares of F.N.B. common stock at an exercise price of \$3.24 per share.

Voting and Other Rights. The holders of F.N.B. common stock are entitled to one vote per share, and in general a majority of the votes cast with respect to a matter is sufficient to authorize action upon such matter. Directors are elected by a majority of votes cast (except in a contested election, in which case directors are elected by a plurality of votes cast), and each shareholder entitled to vote in an election of directors is entitled to vote each share of stock for as many persons as there are directors to be elected. In elections of directors, shareholders do not have the right to cumulate their votes. In the event of a liquidation, holders of F.N.B. common stock are entitled to receive pro rata any assets legally available for distribution to shareholders with respect to shares held by them, subject to any prior rights of the holders of any of shares of F.N.B. preferred stock then outstanding. F.N.B. common stock does not carry any preemptive rights, redemption privileges, sinking fund privileges or conversion rights.

Distributions. The holders of F.N.B. common stock are entitled to receive such dividends or distributions as the F.N.B. board of directors may declare out of funds legally available for such payments, subject to any prior rights of any of F.N.B.'s then outstanding preferred stock. F.N.B.'s payment of distributions is subject to the restrictions of Florida law applicable to the declaration of distributions by a business corporation. A corporation generally may not authorize and make distributions if, after giving effect thereto, it would be unable to meet its debts as they become due in the usual course of business or if the corporation's total assets would be less than the sum of its total liabilities plus the amount that would be needed, if it had been dissolved at the time of distribution, to satisfy claims upon dissolution of shareholders who have rights superior to the rights of the holders of its common stock. F.N.B. may pay stock dividends, if any are declared, from authorized but unissued shares.

As a holding company, F.N.B. relies primarily on dividends from its subsidiaries as a source of funds to meet its corporate obligations. F.N.B.'s ability to pay dividends to shareholders is largely dependent on dividends from its subsidiaries, principally its banking subsidiary, First National Bank of Pennsylvania. The right of F.N.B. to participate in any distribution of earnings or assets of its subsidiaries is subject to the prior claims of creditors of those subsidiaries. Under U.S. federal law, the amount of dividends that a national bank such as First National Bank of

Pennsylvania may pay in a calendar year is dependent on the amount of net income for the current year combined with its retained net income for the two preceding years. Also, bank regulators have the authority to prohibit First National Bank of Pennsylvania from paying dividends if the bank regulators determine that it is in an unsafe or unsound condition or that the payment would be an unsafe and unsound banking practice.

Preferred Stock

F.N.B.'s board of directors is authorized to provide for the issuance by F.N.B. of up to 20,000,000 shares of preferred stock, par value \$0.01 per share, without shareholder approval unless otherwise required. F.N.B.'s board of directors is authorized to determine the rights, qualifications, limitations and restrictions of each series of F.N.B. preferred stock at the time of issuance, including, without limitation, rights as to dividends, voting, liquidation preferences and convertibility into shares of F.N.B. common stock. If so determined by F.N.B.'s board of directors, shares of F.N.B. preferred stock may have dividend, redemption, voting and liquidation rights that take priority over its common stock, and may be convertible into F.N.B. common stock.

Series E Preferred Stock. On October 31, 2013, pursuant to action by its board of directors, F.N.B. amended its articles of incorporation to fix the designations, preferences, limitations and relative rights of its Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series E (the *Series E Preferred Stock*). As of February 15, 2016, there were 110,877 shares of Series E Preferred Stock issued and outstanding.

The terms of the Series E Preferred Stock provide that holders of the Series E Preferred Stock are entitled to receive, if, when and as declared by the F.N.B. board of directors, non-cumulative cash dividends at a rate per annum equal to 7.25% payable quarterly in arrears. No dividends may be paid on F.N.B.'s common stock or other junior stock unless all the full dividends for the latest dividend period have been declared and paid on all outstanding shares of the Series E Preferred Stock. F.N.B. may, at its option, redeem the Series E Preferred Stock on or after February 15, 2024, in whole or in part, at a redemption price equal to the liquidation amount per share (\$1,000) plus the per share amount of any declared and unpaid dividends. The Series E Preferred Stock is also redeemable at F.N.B.'s option upon the occurrence of certain events affecting the treatment of the Series E Preferred Stock for purposes of the capital adequacy guidelines or regulations of the Federal Reserve Board or other appropriate federal banking agency. In the event of a liquidation, dissolution or winding-up of F.N.B., the holders of the Series E Preferred Stock will be entitled to receive an amount per share equal to the liquidation amount per share (\$1,000), plus any declared and unpaid dividends prior to the payment of the liquidating distribution, after satisfaction of liabilities or obligations to creditors and subject to the rights of holders of any shares of capital stock ranking senior to the Series E Preferred Stock, but before any distribution of assets is made to holders of F.N.B. common stock or any other class or series of F.N.B. capital stock ranking junior to the Series E Preferred Stock with respect to distributions on liquidation, dissolution or winding-up.

Holders of the Series E Preferred Stock have no voting rights except in limited circumstances, including: the right to elect two directors, whose seats will be automatically added to the then-current board of directors of F.N.B. in certain circumstances where dividends have not been paid for six or more quarterly dividend periods; the right to vote on the authorization, creation or issuance of shares of a class or series of stock that is senior to the Series E Preferred Stock with respect to payment of dividends or as to distributions upon the liquidation, dissolution or winding-up of F.N.B.; the right to vote on amendments to the F.N.B. articles of incorporation which adversely affect the rights, preferences, privileges or special powers of the Series E Preferred Stock; and the right to vote on a binding share exchange or re-classification involving the Series E Preferred Stock or a merger or consolidation of F.N.B. unless the Series E Preferred Stock remains outstanding or is exchanged for preference securities that are not materially less favorable than the terms of the Series E Preferred Stock.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the information incorporated by reference herein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that are based on our current expectations and projections about future events. We intend for these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the Private Securities Litigation Reform Act of 1995, and we are including this note for purposes of those safe harbor provisions. You can identify these forward-looking statements from our use of the words may, will, should, could, would, plan, potential, project, believe, intend, anticipate, expect and similar expressions. All statements in this prospectus and the information incorporated by reference herein not dealing with historical results are forward-looking and are based on various assumptions. Accordingly, those statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by those statements. Those risks and uncertainties include, but are not limited to, those which may be set forth in an accompanying prospectus supplement and under Risk Factors in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2014 and in the other periodic reports we subsequently file from time to time with the SEC. Our forward-looking statements are subject to the following principal risks and uncertainties:

Our businesses, financial results and balance sheet values are affected by business and economic conditions, including the following:

Changes in interest rates and valuations in debt, equity and other financial markets.

Disruptions in the liquidity and other functioning of U.S. and global financial markets.

The impact of federal regulatory agencies that have oversight or review of our business and securities activities.

Actions by the Board of Governors of the Federal Reserve System, U.S. Treasury and other government agencies, including those that impact money supply and market interest rates.

Changes in customers, suppliers and other counterparties performance and creditworthiness which adversely affect loan utilization rates, delinquencies, defaults and counterparty ability to meet credit and other obligations.

Slowing or reversal of the rate of growth in the economy and employment levels and other economic factors that affect our liquidity and the performance of our loan and lease portfolio, particularly in the markets in which we operate.

Changes in customer preferences and behavior, whether due to changing business and economic conditions, legislative and regulatory initiatives, or other factors.

Legal and regulatory developments could affect our ability to operate our businesses, financial condition, results of operations, competitive position, reputation, or pursuit of attractive acquisition opportunities. Reputational impacts could affect matters such as business generation and retention, liquidity, funding, and ability to attract and retain management. These developments could include:

Changes resulting from legislative and regulatory reforms, including broad-based restructuring of financial industry regulation; changes to laws and regulations involving tax, pension, bankruptcy, consumer protection, and other industry aspects; and changes in accounting policies and principles. We will continue to be impacted by extensive reforms provided for in the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, and otherwise growing out of the recent financial crisis, the precise nature, extent and timing of which, and their impact on us, remains uncertain.

Results of the regulatory examination and supervisory process.

Changes to regulations governing bank fees and business practices, capital and liquidity standards, including due to the Dodd-Frank Act, the Volcker rule of that act and Basel III initiatives.

Table of Contents

Impact on business and operating results of any costs associated with obtaining rights in intellectual property, the adequacy of our intellectual property protection in general and our operational or security systems or infrastructure, or those of third-party vendors or other service providers and rapid technological developments and changes.

Business and operating results are affected by judgments and assumptions in our analytical and forecasting models and our reliance on the advice of experienced outside advisors and our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through effective use of third-party insurance, derivatives, swaps, and capital management techniques, and to meet evolving regulatory capital standards.

As demonstrated by our acquisitions, we grow our business in part by acquiring, from time to time, other financial services companies, financial services assets and related deposits. These acquisitions often present risks and uncertainties, including, the possibility that the transaction cannot be consummated; regulatory issues; cost or difficulties involved in integration and conversion of the acquired businesses after closing; inability to realize expected cost savings, efficiencies and strategic advantages; the extent of credit losses in acquired loan portfolios; the extent of deposit attrition; and the potential dilutive effect to our current shareholders.

Competition can have an impact on customer acquisition, growth and retention and on credit spreads and product pricing, which can affect market share, deposits and revenues. Industry restructuring in the current environment could also impact our business and financial performance through changes in counterparty creditworthiness and performance, and the competitive and regulatory landscape. Our ability to anticipate and respond to technological changes can also impact our ability to respond to customer needs and meet competitive demands.

Business and operating results can also be affected by widespread disasters, dislocations, terrorist activities, cyber-attacks or international hostilities through their impacts on the economy and financial markets. Forward-looking statements speak only as of the date made. We do not assume any duty and do not undertake to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements are made.
