Safe Harbor Statement This presentation contains certain forward-looking statements that are intended to be covered by the safe harbors created by the Private Securities Litigation Reform Act of 1995. When we use words such as "anticipate," "intend," "plan," "believe," "estimate," "expect," or similar expressions, we do so to identify forward-looking statements. Examples of forward-looking statements include the plans and objectives of management for future operations, including those relating to future growth of our business activities and availability of funds, and estimates of the impact of material weaknesses in our internal control over financial reporting, and are based on current expectations that involve assumptions that are difficult or impossible to predict accurately and many of which are beyond our control. Actual results may differ materially from those expressed or implied in these statements as a result of significant risks and uncertainties, including, but not limited to, the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement, including as a result of any downgrade in the A.M. Best Financial Strength Rating of the Company's insurance subsidiaries below "A", which risk may be heightened due to the fact that such ratings are currently "under review with negative implications" and that the Company has previously disclosed material weaknesses in its internal controls over financial reporting, the inability to obtain the requisite stockholder approval for the proposed merger or the failure to satisfy other conditions to completion of the proposed merger, risks that the proposed transaction disrupts current plans and operations, the ability to recognize the benefits of the merger, the amount of the costs, fees, expenses and charges related to the merger, non-receipt of expected payments from insureds or reinsurers, changes in interest rates, changes in tax laws, the effect of the performance of financial markets on our investment portfolio, the amounts, timing and prices of any share repurchases made by us under our share repurchase program, development of claims and the effect on loss reserves, accuracy in projecting loss reserves, the cost and availability of reinsurance coverage, the effects of emerging claim and coverage issues, changes in the demand for our products, our degree of success in integrating acquired businesses, the effect of general economic conditions, state and federal legislation, regulations and regulatory investigations into industry practices, our ability to timely and effectively remediate the material weakness in our internal control over financial reporting and implement effective internal control over financial reporting and disclosure controls and procedures in the future, access to public markets to raise debt or equity capital, risks associated with conducting business outside the United States, the impact of Brexit, developments relating to existing agreements, disruptions to our business relationships with Maiden Holdings, Ltd. or National General Holdings Corp., breaches in data security or other disruptions with our technology, any inability to keep pace with technological advances, heightened competition, changes in pricing environments, changes in asset valuations and the results of legal proceedings. Additional information about these risks and uncertainties, as well as others that may cause actual results to differ materially from those projected, is contained in our filings with the SEC, including our Annual Report on Form 10-K and our quarterly reports on Form 10-Q. The projections and statements in this presentation speak only as of the date of this presentation and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Going Private Delivers Highest Value for AmTrust Stockholders All cash offer provides unaffiliated stockholders immediate liquidity at a significant, certain premium to AmTrust's unaffected closing stock price on January 9, 2018(1) Robust, independent diligence process by Special Committee, formed by independent directors of AmTrust, to ensure value was maximized Highest price available following two-month process No alternative acquisition proposals identified during process Shifts the business risks and uncertainties faced by the Company to the buyer group as AmTrust undertakes transformation program to achieve sustainable profitability (1) The last trading day prior to the public announcement to acquire all common shares outstanding of AmTrust that the Karfunkel-Zyskind Family did not already own or control.

Transaction Highlights Stone Point Capital, the Karfunkel Family and the CEO to Acquire AmTrust Financial Services, Inc. (“AmTrust” or the “Company”) AmTrust has entered into a definitive agreement with Evergreen Parent, L.P. (“Evergreen Parent”), an entity formed by private equity funds managed by Stone Point Capital LLC (“Stone Point”), together with Barry Zyskind, Chairman and CEO of AmTrust, George Karfunkel and Leah Karfunkel (collectively, the “Karfunkel-Zyskind Family”), in which Evergreen Parent will acquire the ~45% of the Company's issued and outstanding common shares that the Karfunkel-Zyskind Family and certain of its affiliates and related parties do not presently own or control. The transaction values the fully diluted equity of the Company at approximately \$2.7 billion, excluding the Company's outstanding preferred stock. To support the transaction offer price of \$13.50 per share, the Karfunkel-Zyskind Family agreed to increase the cap on the reserve adjustment and to cause the Company to pay Stone Point a transaction fee. \$13.50 per share in cash provides significant, immediate and certain premium to unaffiliated stockholders Represents a 33% premium to the unaffected closing common stock price of \$10.15 on January 9, 2018, the last trading day prior to the public announcement to acquire all common shares outstanding of AmTrust that the Karfunkel-Zyskind Family did not already own or control Represents a 34% premium to price 1-month prior to January 9, 2018 (\$10.08) Represents a 22% premium to 90-day VWAP through January 9, 2018 (\$11.03)(1) Negotiations resulted in an increase to the merger consideration of \$1.25 from the per share consideration offered in the initial proposal, representing an increase of greater than 10% No alternative acquisition proposals identified during process All cash transaction at significant premium given risks Value to the unaffiliated stockholders of the Company continuing as an independent public company would not be as great as the merger consideration, due to the public market’s emphasis on short-term performance and the potential risks and uncertainties associated with the near-term prospects of the Company (1) Calculated as the average of daily volume weighted average prices.

Process Overview Note: Please refer to our definitive proxy materials on Form DEF-14A as filed with the SEC on May 4, 2018. The \$13.50 per share merger consideration and other terms and conditions of the Merger Agreement resulted from extensive negotiations between the Special Committee and its advisors, and the buyer group and their counsel. The Special Committee met more than 28 times since inception. Considered the range of risks and potential likelihood of achieving greater value for stockholders via strategic alternatives to the merger. Since the public announcement of the transaction proposal, none of the Company, the Karfunkel-Zyskind Family, the Special Committee or any of the Special Committee's independent legal and financial advisors received any inbound inquiries from third parties related to potential alternative acquisition proposals. The Special Committee consists of independent and disinterested directors. Rigorous legal and financial diligence conducted by experienced, internationally recognized independent advisors, with extensive experience in similar transactions. Financial advisors Deutsche Bank Securities, Inc. ("Deutsche Bank"). Legal advisors Willkie Farr & Gallagher LLP ("Willkie"). Merger Agreement allows the Board or the Special Committee to consider and respond to unsolicited third-party acquisition proposals. Merger Agreement cannot be amended without the approval of the Special Committee. Transaction requires approval by holders of a majority of the unaffiliated shares. Process was rigorous and objective with the goal of maximizing stockholder value. Rigorous review by the Special Committee. Procedural safeguards favorable to stockholders and fairness of merger.

Key Special Committee Activities and Events November 16 – November 17 Mr. Zyskind advised the Board of Stone Point's interest in a potential transaction at a meeting of the Board on November 16, 2017 At the meeting, the Board determined to permit Stone Point to conduct due diligence in connection with a potential going-private transaction On November 17, 2017, Stone Point entered into a confidentiality agreement with the Company and thereafter commenced its due diligence investigation December 27 Mr. Zyskind indicated to the Board that, at the request of certain representatives of Stone Point, Mr. Zyskind was seeking the Board's approval to permit Stone Point to discuss a potential transaction with the Karfunkel-Zyskind family, including the possible submission of a joint indication of interest to the Board regarding a potential acquisition of the outstanding shares of common stock of the Company not held or controlled by the Karfunkel-Zyskind Family and its affiliates and certain related parties In connection with the foregoing, Mr. Zyskind requested that the independent directors of the Board grant a waiver under Section 203 of the DGCL to permit discussions between Stone Point and the Karfunkel-Zyskind Family regarding such potential proposal December 28 The Board holds a telephonic meeting to discuss the formation of a special committee to consider the Section 203 waiver request and to consider any indication of interest that may be submitted by Stone Point and the Karfunkel-Zyskind Family, as well as other strategic alternatives available to the Company After discussion, the Board designated the Special Committee and appointed as its independent members Donald T. DeCarlo, Susan C. Fisch, Abraham Gulkowitz and Raul Rivera, the first three of whom are independent members of the audit committee of the Board and the fourth an independent member of the compensation committee of the Board Although the Special Committee was initially formed to consider the Section 203 waiver request, the Board also discussed its expectation that the Special Committee would engage an independent financial advisor and independent counsel to assist the Special Committee, further evaluate the independence of each member of the Special Committee with such counsel and, if in the future the Special Committee expected Stone Point and the Karfunkel-Zyskind Family to make a formal proposal, to request such additional authority and powers as the Special Committee, with the advice of its counsel, determined to be necessary or appropriate to evaluate such as proposal and other strategic alternatives available to the Company. Later that day, the Special Committee members met with the audit committee's independent counsel to discuss the formation and role of the Special Committee and resolved to grant a revocable waiver under Section 203 to permit Stone Point to discuss a potential transaction with the Karfunkel-Zyskind Family Source: Definitive proxy statement filed with the SEC by AmTrust on May 4, 2018 11

Key Special Committee Activities and Events January 2 Special Committee interviews several law firms including Willkie, Farr & Gallagher and after discussion retains Willkie January 4 Special Committee interviews several potential financial advisors to the Special Committee, including Deutsche Bank Throughout Early January Representatives of Willkie meets representatives of the Company to discuss the legal due diligence process in respect of the potential proposal Counsel to the Trident Funds, Skadden, Arps, Slate, Meagher & Flom LLP (“Skadden”), and counsel to the Karfunkel-Zyskind Family, Paul, Weiss, Rifkind, Wharton & Garrison LLP (“Paul, Weiss”), negotiate joint bidding arrangements related to a potential proposal to acquire the outstanding shares of common stock not held or controlled by the Karfunkel-Zyskind Family and its affiliates and certain related parties January 8 Paul, Weiss contacts Willkie and requests that the Special Committee permit the Karfunkel-Zyskind Family to make a proposal together with funds managed by Stone Point to acquire the outstanding shares of Common Stock not held or controlled by the Karfunkel-Zyskind Family and its affiliates and certain related parties The Special Committee meets with Willkie to, among other things, discuss the request received from Paul, Weiss. Following discussion, the Special Committee resolves to permit funds managed by Stone Point and the Karfunkel-Zyskind Family to make such an acquisition proposal to the Board January 9 The Board adopts the resolutions proposed by the Special Committee. Among other things, the resolutions ratified the appointment of Mr. DeCarlo, Ms. Fisch, Mr. Gulkowitz and Mr. Rivera as members of the Special Committee, including the appointment of Mr. DeCarlo as chairman of the Special Committee The Board authorizes the Special Committee to evaluate a proposal from the Karfunkel-Zyskind Family and any other bidder affiliated or working with the Karfunkel-Zyskind Family and, if the Special Committee were to deem it appropriate and advisable, to negotiate and make recommendations to the Board with respect to such a proposal and a potential transaction January 9 Receipt of proposal by Stone Point and the Karfunkel-Zyskind Family to acquire all of the outstanding common shares of AmTrust that are not currently owned or controlled by the Karfunkel-Zyskind Family for \$12.25 per share (the “Initial Proposal”); initial proposal was conditional upon approval of independent special committee, “majority of the minority” stockholder approval and other procedural standards established under Delaware law. March 1 Transaction announcement

Full Range of Strategic Alternatives Considered	Scenario Description	Potential benefits	Considerations	Status Quo
Continue to execute on the current business plan	Minority stake continues to be owned by public stockholders	Advantages of being public including access to equity capital markets and public currency	Benefit from remedial actions that are already underway	Risks to executing management plan
Regulators and clients	Impact of continued distraction from public markets	Sale to Third Party	Explore 100% sale of AmTrust to a third party strategic or financial buyer	Since announcement of offer on January 9, 2018 no strategic or financial buyers have contacted the Company, the Special Committee or their respective financial advisors
Could facilitate price discovery	Strategic buyers may identify potential synergies through consolidation of AmTrust's platform	Family stockholders have stated they do not intend to sell stake and their intent not to vote their shares in favor of an alternative transaction	Further management distraction and required extensive due diligence for a broad sale process	Recapitalization / share buybacks
Lever up balance sheet and / or return excess capital to stockholders	Buybacks would be accretive to book value per share, earnings per share and ROE given Company's current trading levels	Attractive financing environment	Company has limited / no incremental leverage capacity or excess capital	Any additional leverage or reduction in capital would likely put further pressure on AmTrust's A.M. Best rating (already on negative watch)
Reinsurance	Recapture all / part of premium ceded to enhance earnings	Increase earnings and profitability of the Company	Complicated and time-intensive to negotiate and execute	Unclear ability to capture better economics given likely tradeoffs on terms and conditions
M&A	Undertake strategic M&A to enhance positioning of company	Supplement organic growth via accretive M&A	Company has communicated to regulators and rating agencies that it has limited near-term plans for M&A	Resumption of M&A activity would likely put pressure on ratings
Would distract from ongoing initiatives to right-size the business and restore profitability	Source: Based on Special Committee discussions with financial and legal advisors, including on February 28, 2018. Agenda AmTrust Overview Evergreen Transaction Result of Robust Process Removes Significant Business Risks and Uncertainties Summary

Provides Unaffiliated Stockholders with Certain Value and Removes Risk In addition to providing immediate liquidity at a significant premium, the transaction provides certain value to unaffiliated stockholders and shifts the business risk and uncertainties faced by the Company to the buyer group, including: Ongoing reputational and business pressures faced by the Company Slower growth, including higher than expected loss and combined ratios for fiscal 2017 and Q4 2017 and the likelihood that such performance would be sustained for a longer than originally anticipated period of time negatively impacting the Company's premium growth, underwriting margins and profitability; Material weaknesses the Company identified in its internal controls over financial reporting, which could result in adverse publicity, further litigation or action by governmental entities; Risk of a potential ratings downgrade by A.M. Best below "A", especially in light of the fact that such ratings are "under review with negative implications", which would likely reduce the amount of business the Company is able to write; The Company is named as defendants in various legal actions, including securities class action lawsuits; The Company has been responding to an investigation by the SEC. Transaction transfers all risks and uncertainties of the business to the buyer group

AmTrust Sell-Side Analyst Perspectives “Good time to be private...AFSI has been in the process of effectively recapitalizing itself in light of ongoing reserve charges...this has happened in the context of the company seeking to remedy control weaknesses... AFSI has a significant global franchise that has a good chance to move past these issues and grow again in the future. The franchise may weather the volatility around this period better as a private company.” -B. Riley FBR (Randy Binner); March 1, 2018 “We can surmise that AFSI management is concerned that short-term headlines may continue to keep pressure on shares...By taking some of these issues out of the publicly traded limelight, the company can remain focused on evolving to the company into a more mature insurance platform and less distracted by share volatility. Given the recent reserve charges in the past two years, the market would not be shocked to see an additional charge... We could see a raised offer between \$13 and \$13.50 per share.” -Compass Point Research & Trading (Ken Billingsley); January 12, 2018 “We believe the \$13.50 offer price (116% of 4Q17 BVPS) will be accepted, since we think the shares would struggle to reach that level if AmTrust remains a public company... AFSI hasn't fully fixed its material financial control weaknesses...We believe difficult P&C market conditions and uncertainty about AmTrust's core earnings prospects will limit near-term outperformance.” -Keefe, Bruyette & Woods (Meyer Shields); March 19, 2018 Note: Permission to use quotes neither sought nor obtained.

AmTrust Sell-Side Analyst Perspectives (cont'd) "We are Neutral on AFSI with a price target near tangible book value. We have reservations around AFSI reserve deficiency following their 2017 pretax adverse charge of ~\$420M and based on our recent reserve analysis. AFSI has a significant global franchise that has a good chance to move past these issues and grow again in the future. The franchise may weather the volatility around this period better as a private company. We reiterate our Neutral rating." -B. Riley FBR (Randy Binner); May 18, 2018 "At this point, (absent a settlement between the current bidders and Mr. Icahn) we think that if the going-private transaction is disrupted, AFSI shares are much more likely to trade down significantly (we note that they closed at \$10.15 on January 9, 2018, before the initial \$12.25 go-private offer was disclosed) rather than up. We don't know whether the Zyskind/Karfunkel family and Stone Point Capital will agree to another bid increase, and we don't expect a third-party bid, given the Zyskind/Karfunkel family's current majority ownership of AFSI." -Keefe, Bruyette & Woods (Meyer Shields); May 17, 2018 Note: Permission to use quotes neither sought nor obtained.
