CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated or deemed to be incorporated by reference in this prospectus supplement and the accompanying prospectus contain certain forward-looking statements about the Company within the meaning of the Private Securities Litigation Reform Act of 1995, which relate to future, not past, events. All statements other than statements of historical fact included in this document are forward-looking statements. These forward-looking statements are based on the current beliefs and expectations of the Company's management and are subject to known and unknown risks and uncertainties. Forward-looking statements, which address the Company's expected business and financial performance and financial condition, among other matters, contain words such as: expects, anticipates, intends, plans, believes, estimates, will, plans, projects, could, should, would, seek, forecast, or other similar expressions.

Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Although the Company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that the expectations will be attained or that any deviation will not be material. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. The Company undertakes no obligation to update or revise any forward-looking statements.

Forward-looking statements involve a number of risks and uncertainties, and actual results or events may differ materially from those projected or implied in those statements. Factors that could cause actual results or events to differ materially from these forward-looking statements include, but are not limited to, those discussed under the caption **Risk Factors** in the Company's most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q, as well as the following additional factors:

external economic forces that could have a material adverse impact on the Company's advertising revenues and results of operations;

the ability of the Company's radio stations to compete effectively in their respective markets for advertising revenues;

the ability of the Company to respond to changes in technology, standards and services that affect the radio industry;

audience acceptance of the Company's content, particularly its radio programs;

the Company's substantial debt levels and the potential effect of restrictive debt covenants on the Company's operational flexibility and ability to pay dividends;

the Company's dependence on federally issued licenses subject to extensive federal regulation;

the risk that the Company's Federal Communications Commission (FCC) broadcasting licenses and/or goodwill could become impaired;

the failure or destruction of the internet, satellite systems and transmitter facilities that the Company depends upon to distribute its programming;

disruptions or security breaches of the Company's information technology infrastructure;

actions by the FCC or new legislation affecting the radio industry;

the loss of key personnel;

the fact that the Company is controlled by the Beasley family, which creates difficulties for any attempt to gain control of the Company;

our ability to integrate acquired businesses and achieve fully the strategic and financial objectives related thereto and their impact on our financial condition and results of operations; and

other economic, business, competitive, and regulatory factors affecting the businesses of the Company, including those set forth in the Company's filings with the SEC.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Additional risk factors that we may disclose in documents that we file with the SEC that are incorporated or deemed to be incorporated by reference in this prospectus supplement and the accompanying prospectus prior to the completion of this offering could also cause actual results to differ materially from our expectations. We do not intend, and undertake no obligation, to update any forward-looking statement.

USE OF NON-GAAP FINANCIAL MEASURES

To supplement our financial information presented in accordance with GAAP, we use the following non-GAAP financial measures to clarify and enhance an understanding of the historical results of our entire business: pro forma net revenue, station operating income, pro forma station operating income, EBITDA, Adjusted EBITDA, Credit Agreement Adjusted EBITDA and free cash flow (collectively, the Non-GAAP Financial Measures). We believe that the presentation of these Non-GAAP Financial Measures enhances an investor's understanding of our financial performance. We further believe that these Non-GAAP Financial Measures are useful financial metrics to assess our operating performance from period to period by excluding certain items that we believe are not representative of our core business or adjusting for the effect of acquisitions or dispositions. We use these Non-GAAP Financial Measures for business planning purposes and in measuring our performance relative to that of our competitors. We believe these Non-GAAP Financial Measures are commonly used by investors to evaluate our performance and that of our competitors. However, our use of such Non-GAAP Financial Measures may vary from that of others in our industry. These Non-GAAP Financial Measures should not be considered as alternatives to net revenue, operating income (loss), net income (loss), earnings per share, net cash provided by operating activities or any other performance measures derived in accordance with GAAP.

EBITDA consists of net income (loss) attributable to us before interest expense, income tax expense (benefit) and depreciation and amortization. Adjusted EBITDA consists of EBITDA adjusted for non-operating income or expense and the impact of certain non-cash, nonrecurring or other items that are included in net income and EBITDA that we do not consider indicative of our ongoing operating performance. Credit Agreement Adjusted EBITDA consists of Adjusted EBITDA adjusted for the impact of additional items permitted under the definition of Consolidated EBITDA in the credit agreement governing the Company's credit facilities. We believe that making such adjustments provides investors meaningful information to understand our operating results and analyze financial and business trends on a period-to-period basis.

EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA have important limitations as analytical tools and you should not consider them in isolation or as substitutes for analysis of our results as reported under GAAP. Some of these limitations are:

EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA (i) do not reflect the significant interest expense on our debt, (ii) exclude impairments and adjustments for step-up amortization, and (iii) do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA do not reflect any cash requirements for such replacements; and

other companies in our industry may calculate EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA differently than we do, limiting their usefulness as comparative measures.

We compensate for these limitations by relying primarily on our GAAP results and using EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA only supplementally.

In calculating EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA, we add back certain non-cash, nonrecurring and other items and make certain adjustments that are based on assumptions and estimates. In addition, in evaluating EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA, you should be aware that in the future we may incur expenses similar to those eliminated in this presentation. Our presentation of EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items.

Table of Contents

We define station operating income (SOI) as net revenue less station operating expenses. We define station operating expenses as cost of services and selling, general and administrative expenses. SOI is a measure widely used in the radio broadcast industry.

The Company recognizes that because SOI is not calculated in accordance with GAAP, it is not necessarily comparable to similarly titled measures used by other companies. However, our management believes that SOI provides meaningful information to investors because it is an important measure of how effectively we operate our business (operate radio stations) and assists investors in comparing our operating performance with that of other radio companies.

We define free cash flow (FCF) as SOI less corporate general and administrative expenses, interest expense, current income tax expense and capital expenditures. We add back stock-based compensation expense incurred at the radio stations, amortization of loan fees, and interest income.

The Company recognizes that because FCF is not calculated in accordance with GAAP, it is not necessarily comparable to similarly titled measures used by other companies. However, management believes that FCF provides meaningful information to investors because it is a measure of the amount of cash that is available to the Company after required investments in working capital and property and equipment and assists investors in comparing our operating performance with that of other radio companies.

Pro forma net revenue and pro forma SOI assume that any acquisitions and dispositions completed during the reporting period had occurred on the first day of the reporting period. Therefore, we add net revenue and SOI generated by acquired radio stations to actual net revenue and actual SOI as if those stations had been acquired on the first day of the reporting period, and we deduct net revenue and SOI generated by sold radio stations as if they had been sold on the first day of the reporting period. Pro forma net revenue is disclosure required by GAAP in notes to financial statements for any significant business combination and is considered by the SEC to provide meaningful information to investors. Pro forma revenue and pro forma SOI provide management with relevant information in the current reporting period that can be used for projections and more meaningful comparisons with actual net revenue and actual SOI in future reporting periods.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights certain information contained elsewhere in this prospectus supplement or the prospectus or in the documents incorporated herein or therein. This summary does not contain all of the information that you should consider in your evaluation of an investment in our Class A common stock. You should read carefully this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference, including the information set forth under Risk Factors, before making an investment decision.

Our Company

We are a radio broadcasting company whose primary business is operating radio stations throughout the United States. We own and operate 63 radio stations in the following radio markets: Atlanta, GA, Augusta, GA, Boston, MA, Charlotte, NC, Detroit, MI, Fayetteville, NC, Fort Myers-Naples, FL, Las Vegas, NV, Middlesex, NJ, Monmouth, NJ, Morristown, NJ, Philadelphia, PA, Tampa-Saint Petersburg, FL, West Palm Beach-Boca Raton, FL, and Wilmington, DE.

We seek to secure and maintain a leadership position in the markets we serve by developing market-leading clusters of radio stations in each of our markets. We operate our radio stations in clusters to capture a variety of demographic listener groups, which we believe enhances our radio stations' appeal to a wide range of advertisers. In addition, we have been able to achieve operating efficiencies by consolidating office and studio space where possible to minimize duplicative management positions and reduce overhead expenses. Current FCC rules and regulations do not permit us to add any more radio stations to our existing cluster in the Augusta, GA radio market.

On November 1, 2016 we completed the acquisition of Greater Media, Inc. (Greater Media), pursuant to the merger agreement, dated as of July 19, 2016 by and among the Company, Greater Media, Beasley Media Group 2, Inc., an indirect wholly-owned subsidiary of the Company (Merger Sub), and Peter A. Bordes, Jr., as the Stockholders Representative (the Merger Agreement). On the closing date, Merger Sub was merged with and into Greater Media, with Greater Media surviving the merger as an indirect wholly-owned subsidiary of the Company (the Merger). As a result of the Merger, the Company added 21 radio stations in the Boston, MA, Detroit, MI, Charlotte, NC (later divested), Middlesex, NJ, Monmouth, NJ, Morristown, NJ and Philadelphia, PA markets.

Recent Developments

WXTU-FM Acquisition

We have entered into a definitive agreement to acquire WXTU-FM in Philadelphia, Pennsylvania from Entercom Communications Corp. for \$38.0 million in cash. Excluding one-time transaction costs, the acquisition of WXTU-FM is expected to be immediately accretive to our free cash flow without materially altering our net leverage after accounting for the acquisition and this offering. We intend to fund the acquisition through borrowings under our revolving credit facility and cash generated from operations.

The acquisition of WXTU-FM highlights our focus on premium local programming and content and is complementary to our six other radio stations and digital operations in the Philadelphia market, the ninth largest radio market in the country.

For the twelve months ended March 31, 2018, WXTU-FM generated approximately \$10.2 million of net revenue and approximately \$4.5 million of station operating income. After giving effect to anticipated synergies resulting from the acquisition, we believe that WXTU-FM would have contributed approximately \$5.5 million of incremental station

operating income to the Company over the same period on a pro forma basis.

An investment in our Class A common stock involves risks. You should carefully consider all of the information contained or incorporated by reference in this prospectus supplement before deciding whether to invest in our Class A common stock. In particular, you should carefully consider the risks and uncertainties described below as well as those described in our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q, and any subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K we file after the date of this prospectus supplement and before the termination of this offering. The occurrence of any of these risks might cause you to lose all or part of your investment in the offered securities.

Risks Related to Our Class A Common Stock and this Offering

The trading price of our Class A common stock may be volatile or may decline regardless of our operating performance and you may not be able to resell your shares at or above the offering price.

The market price of our Class A common stock may fluctuate significantly in response to a number of factors, most of which we cannot control, including:

our operating and financial performance and prospects;

our quarterly or annual earnings or those of other companies in our industry;

the public's reaction to our press releases, our other public announcements and our filings with the SEC;

quarterly variations in our operating results compared to market expectations;

changes in, or failure to meet, earnings estimates or recommendations by research analysts who track our common shares or the stock of other companies in our industry;

adverse publicity about us, the industries we participate in or individual scandals;

announcements of new offerings by us or our competitors;

stock price performance of our competitors;

the limited trading market for our Class A common stock;

the failure of research analysts to cover our Class A common stock;

fluctuations in stock market prices and volumes;

default on our indebtedness;

actions by competitors;

changes in senior management or key personnel;

changes in financial estimates by securities analysts;

negative earnings or other announcements by us or other companies in our industry;

downgrades in our credit ratings or the credit ratings of our competitors;

incurrence of indebtedness or issuances of capital stock;

our ability to consummate acquisitions and successfully integrate and operate acquired businesses;

the potential adverse impact of recent U.S. tax legislation on our financial condition, results of operations and cash flows;

global economic, legal and regulatory factors unrelated to our performance;

our dependence on federally issued licenses subject to extensive federal regulation;

Table of Contents

the risk that our FCC broadcasting licenses and/or goodwill could become impaired;

the failure or destruction of the internet, satellite systems and transmitter facilities that we depend upon to distribute its programming;

disruptions or security breaches of our information technology infrastructure; and

actions by the FCC or legislation affecting the radio industry.

Volatility in the market price of our common stock may prevent investors from being able to sell their Class A common stock at or above the offering price.

As a result, you may suffer a loss on your investment. In addition, stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies in our industry. In the past, stockholders have instituted securities class action litigation following periods of market volatility. If we were involved in securities litigation, we could incur substantial costs and our resources and the attention of management could be diverted from our business.

There may not be an active market for our Class A common stock, making it difficult for you to sell your stock.

Historically, our stock has not been actively traded, and it may not be actively traded in the future. An illiquid market for our stock may result in price volatility and poor execution of buy and sell orders for investors. Our stock price and trading volume have fluctuated widely for a number of reasons, including some reasons that may be unrelated to our business or results of operations. This market volatility could depress the price of our Class A common stock without regard to our operating performance. In addition, our operating results may be below expectations of public market analysts and investors. If this were to occur, the market price of our Class A common stock could decrease, perhaps significantly.

Our share price may decline due to the large number of shares eligible for future sale.

The market price of our Class A common stock could decline as a result of sales of a large number of shares of Class A common stock in the market after this offering or the perception that such sales could occur. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

Shares of common stock held by our executive officers, directors and certain other holders of our Class A common stock are subject to lock-up agreements that restrict their ability to transfer shares of our Class A common stock to sell or transfer any of our Class A common stock or securities convertible into, exchangeable for, exercisable for or repayable with our Class A common stock, for 90 days after the date of this prospectus supplement without first obtaining the written consent of the representative for the underwriters, subject to customary exceptions. See

Underwriting No Sales of Similar Securities for more information. After this period, shares of our Class A common stock held by such executive officers, directors and other holders will become freely transferable, subject to the restrictions under the Securities Act. Stockholders who are subject to any of the lock-up agreements described above may be permitted to sell shares prior to the expiration of the applicable lock-up agreement in certain circumstances, including as the result of the waiver or termination of such lock-up agreement.

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 424B3

As of July 9, 2018, subject to the restrictions under the Securities Act and under the lock-up agreements described above, the 16,662,743 shares of our Class A common stock issuable upon conversion of outstanding Class B common stock are eligible for sale.

In connection with the Merger, we entered into a registration rights agreement pursuant to which we registered 5,422,993 shares of our Class A common stock issued pursuant to the Merger Agreement to the former

stockholders of Greater Media. Of those registered shares, 4,084,834 remain available for sale and 3,126,147 are being offered pursuant to this prospectus supplement (3,595,069 if the underwriters exercise in full their option to purchase additional shares).

While we currently pay a quarterly cash dividend to our stockholders, we may change our dividend policy at any time and we may not continue to declare cash dividends.

Although we currently pay a quarterly cash dividend to our stockholders, we have no obligation to do so, and our dividend policy may change at any time. Returns on stockholders' investments will primarily depend on the appreciation, if any, in the price of our Class A common stock. The amount and timing of dividends, if any, are subject to capital availability and periodic determinations by our board of directors that cash dividends are in the best interest of our stockholders and are in compliance with all applicable laws and any other contractual agreements limiting our ability to pay dividends.

Under the credit agreement governing our revolving credit facility and term loan, we are restricted from paying cash dividends in certain circumstances, and we expect these restrictions to continue in the future. Our ability to pay dividends may also be restricted by the terms of any future credit agreement or any future debt or preferred equity securities of ours or of our subsidiaries. Future dividends, including their timing and amount, may be affected by, among other factors: general economic and business conditions; our financial condition and operating results; our available cash and current anticipated cash needs; capital requirements; contractual, legal, tax and regulatory restrictions and implications on the payment of dividends by us to our stockholders; and such other factors as our board of directors may deem relevant.

Our dividend payments may change from time to time, and we may not continue to declare dividends in any particular amounts or at all. The reduction in or elimination of our dividend payments could have a negative effect on our stock price.

If securities analysts do not publish research or reports about our business or if they downgrade our Company or our sector, the price of our Class A common stock could decline.

The trading market for our Class A common stock depends in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrades our Company or our industry, or the stock of any of our competitors, the price of our Class A common stock could decline. If one or more of these analysts ceases coverage of our Company, we could lose visibility in the market, which in turn could cause the price of our Class A common stock to decline.

If we raise additional capital through the issuance of new Class A common stock at a price lower than the offering price, you will incur dilution.

If we raise additional capital through the issuance of new Class A common stock at a lower price than the offering price, you will be subject to dilution, which could cause you to lose all or a portion of your investment. If we are unable to access the public markets in the future, or if our performance or prospects decrease, we may need to consummate a private placement or public offering of our Class A common stock at a lower price than the offering price.

We may issue shares of preferred stock in the future, which could make it difficult for another company to acquire us or could otherwise adversely affect holders of our Class A common stock, which could depress the price of our Class A common stock.

Our amended and restated certificate of incorporation authorizes us to issue one or more series of preferred stock. Our board of directors has the authority to determine the preferences, limitations and relative rights of the

S-14

Table of Contents

shares of preferred stock and to fix the number of shares constituting any series and the designation of such series, without any further vote or action by our stockholders. Our preferred stock could be issued with voting, liquidation, dividend and other rights superior to the rights of our Class A common stock. The potential issuance of preferred stock may delay or prevent a change in control of us, discourage bids for our Class A common stock at a premium to the market price, and materially and adversely affect the market price and the voting and other rights of the holders of our Class A common stock.

Our Chairman of the Board controls Beasley Broadcast Group, Inc. and members of his immediate family own a substantial equity interest in Beasley Broadcast Group, Inc. Their interests may conflict with yours.

George G. Beasley is generally able to control the vote on all matters submitted to a vote of stockholders. Without the approval of Mr. Beasley, we will be unable to consummate transactions involving an actual or potential change in control, including transactions in which you might otherwise receive a premium for your shares over then current market prices. As of July 9, 2018, shares of our Class A and Class B common stock that Mr. Beasley beneficially owns represent 60.9% of the total voting power of all classes of our common stock. Members of his immediate family also own significant amounts of Class B common stock. Mr. Beasley will be able to direct our management and policies, except with respect to those matters requiring a class vote under the provisions of our amended certificate of incorporation, third amended and restated bylaws or applicable law.

Historically, we have entered into certain transactions with George G. Beasley, members of his immediate family and affiliated entities that may conflict with the interests of our stockholders now or in the future. See Item 7 Management Discussion and Analysis of Financial Condition and Results of Operation Related Party Transactions and Note 15 to the accompanying financial statements in our most recent Annual Report on Form 10-K.

Future sales by George G. Beasley or members of his family of our Class A common stock could adversely affect its market price.

George G. Beasley and members of his family beneficially own the majority of all outstanding shares of Class B common stock, which is convertible to Class A common stock on a one-for-one basis. The market for our Class A common stock could change substantially if George G. Beasley and members of his family convert their shares of Class B common stock to shares of Class A common stock and then sell large amounts of shares of Class A common stock in the public market.

These sales, or the possibility that these sales may occur, could make it more difficult for us to raise capital by selling equity or equity-related securities in the future.

Future sales of our Class A common stock by the former stockholders of Greater Media could adversely affect its market price.

In connection with the Merger, after post-closing adjustments, we issued 4,084,834 shares of Class A common stock to the former stockholders of Greater Media. As of July 9, 2018, the former stockholders of Greater Media own approximately 14.9% of the outstanding shares of our common stock and approximately 37.7% of the outstanding shares of our Class A common stock. After giving effect to this offering, including the sale of 3,126,147 shares being offered by the selling stockholders pursuant to this prospectus supplement (3,595,069 if the underwriters exercise in full their option to purchase additional shares), the former stockholders of Greater Media will own approximately 3.5% of the outstanding shares of our common stock and approximately 8.8% of the outstanding shares of our Class A common stock (or approximately 1.8% of the outstanding shares of our common stock and approximately 4.5% of the outstanding shares of our Class A common stock if the underwriters exercise in full their option to purchase additional

shares).

These sales, or the possibility that these sales may occur, could make it more difficult for us to raise capital by selling equity or equity-related securities in the future.

S-15

Table of Contents

The difficulties associated with any attempt to gain control of our Company may adversely affect the price of our Class A common stock.

Due to his large holdings of our common stock, George G. Beasley and members of his family control whether any change of control of the Company will occur. Moreover, some provisions of our amended certificate of incorporation, fourth amended and restated bylaws and Delaware law could make it more difficult for a third party to acquire control of us, even if a change of control could be beneficial to you. In addition, the Communications Act of 1934, as amended, and FCC rules and policies limit the number of stations that one individual or entity can own, directly or by attribution, in a market. FCC approval for transfers of control of FCC licensees and assignments of FCC licenses are also required. Because of the limitations and restrictions imposed on us by these provisions and regulations, the trading price of our Class A common stock may be adversely affected.

DIVIDEND POLICY

We intend to continue to pay quarterly cash dividends on our Class A and Class B common stock. We paid quarterly cash dividends in an aggregate annual amount of \$4.1 million in 2016 and \$5.1 million in 2017. We paid cash dividends of \$1.3 million during the three months ended March 31, 2018, \$1.4 million during the three months ended June 30, 2018 and \$1.4 million on July 6, 2018. The declaration and payment of any future dividends will be at the sole discretion of our board of directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our board of directors deems relevant.

In addition, the credit agreement governing our revolving credit facility and term loan restricts our ability to pay cash dividends to holders of our common stock. For more details, see the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2018, which is incorporated by reference in this prospectus supplement.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following discussion is a summary of the material U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the purchase, ownership and disposition of our Class A common stock acquired pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the Code), Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the IRS), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder of our Class A common stock. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance that the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our Class A common stock.

This discussion is limited to Non-U.S. Holders that hold our Class A common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder's particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

U.S. expatriates and former citizens or long-term residents of the United States;

persons subject to the alternative minimum tax;

persons holding our Class A common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;

banks, insurance companies, and other financial institutions;

real estate investment trusts or regulated investment companies;

brokers, dealers or traders in securities;

controlled foreign corporations, passive foreign investment companies, and corporations that accumulate earnings to avoid U.S. federal income tax;

partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);

tax-exempt organizations or governmental organizations;

persons deemed to sell our Class A common stock under the constructive sale provisions of the Code;

persons who hold or receive our Class A common stock pursuant to the exercise of any employee stock option or otherwise as compensation;

tax-qualified retirement plans; and

qualified foreign pension funds as defined in Section 897(1)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our Class A common stock, the tax treatment of such entity or arrangement and an owner in such entity or arrangement will depend on the status of the owner, the activities of such entity or arrangement and certain determinations made at the owner level. Accordingly, entities or arrangements treated as partnerships for U.S. federal income tax purposes holding our Class A common stock and the owners in such entities or arrangements should consult their own tax advisors regarding the U.S. federal income tax consequences to them of purchasing, owning and disposing of our Class A common stock.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of a Non-U.S. Holder

For purposes of this discussion, a Non-U.S. Holder is any beneficial owner of our Class A common stock that is neither a U.S. person nor an entity treated as a partnership for U.S. federal income tax purposes. A U.S. person is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

an individual who is a citizen or resident of the United States;

a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more United States persons (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions

As described in the section entitled Dividend Policy, we intend to continue to pay quarterly cash dividends on our Class A and Class B common stock. If we make distributions of cash or property on our Class A common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a Non-U.S. Holder's adjusted tax basis in its Class A common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under Sale or Other Taxable Disposition.

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder of our Class A common stock will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes to the applicable withholding agent a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their own tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such dividends are attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States.

Any such effectively connected dividends will be subject to U.S. federal income tax on a net income basis at regular graduated U.S. federal income tax rates. A Non-U.S. Holder that is or is treated as a corporation for U.S.

Table of Contents

federal income tax purposes also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected dividends, as adjusted for certain items. Non-U.S. Holders should consult their own tax advisors regarding any applicable tax treaties that may provide for different rules.

Sale or Other Taxable Disposition

A Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other taxable disposition of our Class A common stock unless:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable);

the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or

our Class A common stock constitutes a U.S. real property interest ("USRPI") by reason of our status as a U.S. real property holding corporation ("USRPHC") for U.S. federal income tax purposes.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at regular graduated U.S. federal income tax rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

A Non-U.S. Holder described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on gain derived from the sale or other taxable disposition, which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we currently are not, and do not anticipate becoming, a USRPHC. Because the determination of whether we are a USRPHC depends, however, on the fair market value of our USRPIs relative to the fair market value of our non-U.S. real property interests and our other business assets, there can be no assurance we currently are not a USRPHC or will not become one in the future. Even if we are or were to become a USRPHC, gain arising from the sale or other taxable disposition by a Non-U.S. Holder of our Class A common stock will not be subject to U.S. federal income tax if our Class A common stock is regularly traded, as defined by applicable Treasury Regulations, on an established securities market, and such Non-U.S. Holder owned, actually or constructively, 5% or less of our Class A common stock throughout the shorter of the five-year period ending on the date of the sale or other taxable disposition or the Non-U.S. Holder's holding period.

Non-U.S. Holders should consult their own tax advisors regarding potentially applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of dividends on our Class A common stock will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E or W-8ECI, or otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any dividends on our Class A common stock paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition

of our Class A common stock within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the certification described above and does not have actual knowledge or reason to know that such holder is a United States person, or the holder otherwise establishes an exemption. Proceeds of a disposition of our Class A common stock conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or "FATCA") on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, or gross proceeds from the sale or other disposition of, our Class A common stock paid to a foreign financial institution or a non-financial foreign entity (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any substantial United States owners (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain specified United States persons or United States-owned foreign entities (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of dividends on our Class A common stock, and will apply to payments of gross proceeds from the sale or other disposition of such stock on or after January 1, 2019.

Prospective investors should consult their own tax advisors regarding the potential application of withholding under FATCA to their investment in our Class A common stock.

The underwriters are offering the shares subject to their acceptance of the shares of Class A common stock from the selling stockholders and subject to prior sale. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts; Expenses

The underwriters have advised us and the selling stockholders that they propose initially to offer the shares to the public at the public offering price set forth on the cover of this prospectus supplement and to dealers at that price less a concession not in excess of \$0.27 per share. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the public offering price, underwriting discounts and commissions and proceeds before expenses to the selling stockholders. The information assumes either no exercise or full exercise by the underwriters of their option to purchase additional shares of our Class A common stock from the selling stockholders, as applicable.

We estimate expenses payable by us in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately \$500,000, which includes certain expenses incurred by the underwriters and the selling stockholders in connection with this offering that will be reimbursed by us. We have agreed to reimburse the underwriters for certain expenses incurred by them in connection with this offering, which are currently estimated to be \$20,000. We have also agreed, pursuant to the registration rights agreement with the selling stockholders, to reimburse the selling stockholders for certain of their expenses in connection with this offering.

Option to Purchase Additional Shares

The selling stockholders have granted the underwriters an option to purchase up to an additional 468,922 shares of Class A common stock at the public offering price, less the underwriting discounts and commissions, within 30 days from the date of this prospectus supplement. If the underwriters exercise this option, each underwriter will be obligated, subject to conditions contained in the underwriting agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

No Sales of Similar Securities

In connection with this offering, we, each selling stockholder, certain other of our stockholders, and our directors and officers have agreed with the underwriters that, subject to certain exceptions, without the prior written consent of Guggenheim Securities, LLC on behalf of the underwriters, we and they will not, for the period ending 90 days after the date of this prospectus supplement (the "restricted period") offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of, directly or indirectly, any shares of our Class A common stock or any other securities convertible into or exercisable or exchangeable for Class A common stock; enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of our Class A common stock, whether any such transaction is to be settled by delivery of Class A common stock or such other securities, in cash or otherwise. NASDAQ Global Market Listing

Our Class A common stock is listed on the Nasdaq Global Market under the symbol BBGI.

Price Stabilization and Short Positions

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our Class A common stock. However, the representative may engage in transactions that stabilize the price of the Class A common stock, such as bids or purchases to peg, fix or maintain that price.

S-28

Table of Contents

In connection with the offering, the underwriters may purchase and sell our Class A common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option described above. The underwriters may close out any covered short position by either exercising their option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option granted to them. Naked short sales are sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our Class A common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of Class A common stock made by the underwriters in the open market prior to the closing of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our Class A common stock or preventing or retarding a decline in the market price of our Class A common stock. As a result, the price of our Class A common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on The NASDAQ Global Market, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Class A common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Passive Market Making

Any underwriters who are qualified market makers on The NASDAQ Global Market may engage in passive market making transactions in the securities on The NASDAQ Global Market in accordance with Rule 103 of Regulation M, during the business day prior to the pricing of the offering, before the commencement of offers or sales of the securities. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded. Passive market making may stabilize the market price of the securities at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at any time.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Some of the

underwriters and certain of their affiliates may in the future engage in investment banking and other commercial dealings in the ordinary course of business with us and our affiliates, for which they may in the future receive customary fees, commissions and expenses.

S-29

Table of Contents

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Neither the company nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information

ABOUT THE COMPANY

We are a radio broadcasting company whose primary business is operating radio stations throughout the United States. Inclusive of announced divestitures, we own and operate 69 radio stations in the following radio markets: Atlanta, GA, Augusta, GA, Boston, MA, Charlotte, NC, Detroit, MI, Fayetteville, NC, Fort Myers-Naples, FL, Greenville-New Bern-Jacksonville, NC, Las Vegas, NV, Philadelphia, PA, Middlesex, NJ, Monmouth, NJ, Morristown, NJ, Tampa-Saint Petersburg, FL, West Palm Beach-Boca Raton, FL, and Wilmington, DE.

We seek to secure and maintain a leadership position in the markets we serve by developing market-leading clusters of radio stations in each of our markets. We operate our radio stations in clusters to capture a variety of demographic listener groups, which we believe enhances our radio stations' appeal to a wide range of advertisers. In addition, we have been able to achieve operating efficiencies by consolidating office and studio space where possible to minimize duplicative management positions and reduce overhead expenses.

On November 1, 2016 we completed our merger with Greater Media, Inc. ("Greater Media") pursuant to an Agreement and Plan of Merger (the "Merger Agreement") dated July 19, 2016, under which we acquired all of the issued and outstanding common stock of Greater Media for an aggregate purchase price of approximately \$240 million, subject to a purchase price adjustment related to the sale of Greater Media's tower assets and other customary post-closing purchase price adjustments and inclusive of the repayment of approximately \$82 million of Greater Media's outstanding debt and the payment of certain transaction expenses (the "Merger"). The proceeds paid to the stockholders of Greater Media in the Merger consisted of (i) approximately \$94.4 million in cash and (ii) \$25 million in shares of the Company's Class A common stock, which is equal to 5,422,993 shares at a fixed value of \$4.61 per share.

The selling stockholders listed in this prospectus are former stockholders of Greater Media that received shares of the Company's Class A common stock as a result of the Merger. At the closing of the Merger, the Company entered into a Registration Rights Agreement with such stockholders and BFTW LLC (the "Registration Rights Agreement"), requiring the Company, not later than twenty days following the closing of the Merger, to file a shelf registration statement on Form S-3 with the SEC with respect to the resale of the shares of the Company's Class A common stock received by such stockholders in the Merger. In addition, such stockholders are entitled to unlimited piggyback registration rights with respect to the registration of any equity securities of the Company, subject to certain limitations.

These registration rights are subject to conditions and limitations, including the right of the underwriters of an offering to limit the number of shares held by such selling stockholders to be included in such offering. Subject to certain exceptions, the Company is generally required to bear all expenses of registration (other than underwriting discounts and commissions and certain travel expenses). The Registration Rights Agreement also places indemnity obligations on the Company, to indemnify the selling stockholders, under certain circumstances, and on the selling stockholders, to indemnify the Company under certain circumstances.

These forward-looking statements are based on the current beliefs and expectations of the Company's management and are subject to known and unknown risks and uncertainties. Words or expressions such as expects, anticipates, intends, plans, believes, estimates, may, will, plans, should, would, seek, forecast, or other similar expressions help identify forward-looking statements.

Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Although the Company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that the expectations will be attained or that any deviation will not be material. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. The Company and Greater Media undertake no obligation to update or revise any forward-looking statements.

Forward-looking statements involve a number of risks and uncertainties, and actual results or events may differ materially from those projected or implied in those statements. Factors that could cause actual results or events to differ materially from these forward-looking statements include, but are not limited to:

the ability to successfully combine the businesses of the Company and Greater Media and the ability to successfully integrate the stations acquired in the asset exchange with CBS Radio;

the ability of the Company to achieve the expected cost savings, synergies and other benefits from the acquisition of Greater Media and the asset exchange with CBS Radio within the expected time frames or at all;

the incurrence of significant transaction -related fees and costs in connection with the acquisition of Greater Media;

the incurrence of unexpected costs or liabilities relating to the integration of Greater Media and the stations acquired in the asset exchange with CBS Radio;

the risk that the acquisition of Greater Media may not be accretive to the Company's current stockholders;

the risk that the acquisition of Greater Media may prevent the Company from acting on future opportunities to enhance stockholder value;

the impact of the issuance of the Merger Shares in connection with the acquisition of Greater Media;

the risk that any identifiable intangible assets recorded due to the acquisition of Greater Media could become impaired;

external economic forces that could have a material adverse impact on the Company's advertising revenues and results of operations;

the ability of the Company's radio stations to compete effectively in their respective markets for advertising revenues and respond to changes in technology, standards and services that affect the radio industry;

the Company's substantial debt levels;

the loss of key personnel; and

other economic, business, competitive, and regulatory factors affecting the businesses of the Company and Greater Media generally, including those set forth in the Company's filings with the SEC.

All written and oral forward-looking statements attributable to the Company or Greater Media or persons acting on behalf of the Company or Greater Media are expressly qualified in their entirety by such factors. For additional information with respect to these factors, please see the section entitled "Where You Can Find More Information; Incorporation by Reference" beginning on page 2 of this registration statement.

Table of Contents**SELLING STOCKHOLDERS**

We are registering the resale from time to time by the selling stockholders of up to 5,422,993 shares of our Class A common stock (collectively referred to as the selling stockholders) in one or more offerings. The selling stockholders acquired the shares of Class A common stock owned by them in connection with the Merger described above under the heading About the Company.

The following table sets forth certain information as of December 29, 2016 regarding the beneficial ownership of our Class A common stock by the selling stockholders named in the table below, who may offer, in the aggregate, up to 5,422,993 shares of our Class A common stock. We do not know if, when or in what amounts the selling stockholders may offer their shares for sale. The selling stockholders may sell some, all or none of the shares held by them. The selling stockholders reserve the right to accept or reject, in whole or in part, any proposed sale of any shares of our Class A common stock currently held by the selling stockholders. Because the number of shares the selling stockholders may offer and sell is not presently known, we cannot estimate the number of shares that will continue to be held by the selling stockholders. This table, however, presents the maximum number of shares of Class A common stock that each selling stockholder may offer pursuant to this prospectus and the number of shares of Class A common stock, if any, that each selling stockholder would beneficially own after the sale of such maximum number of shares, assuming no acquisitions of additional shares of Class A common stock take place.

Beneficial ownership is determined in accordance with Rule 13d-3(d) of the Exchange Act and includes voting or investment power with respect to our securities.

Underwriters, dealers and agents participating in the distribution of the Class A common stock may be deemed to be underwriters within the meaning of the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of the Class A common stock may be deemed to be underwriting discounts and commissions. We may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof and to reimburse those persons for certain expenses.

The selling stockholders may sell shares of the Class A common stock directly to purchasers. In this case, they may not engage underwriters or agents in the offer and sale of such shares.

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the Class A common stock. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the Class A common stock by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the Class A common stock at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The specific terms of any lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.

The underwriters, dealers and agents may engage in transactions with us, or perform services for us, in the ordinary course of business for which they receive compensation.

We are not aware of any plans, arrangements or understandings between any of the selling stockholders and any underwriter, broker-dealer or agent regarding the sale of shares of our Class A common stock by the selling

stockholders. We cannot assure you that the selling stockholders will sell any or all of the shares of our Class A common stock offered by them pursuant to this prospectus. In addition, we cannot assure you that the selling stockholders will not transfer, devise or gift the shares of our Class A common stock by other means not described in this prospectus. Moreover, shares of Class A common stock covered by this prospectus that qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus.

From time to time, one or more of the selling stockholders may pledge, hypothecate or grant a security interest in some or all of the shares owned by them. The pledgees, secured parties or persons to whom the shares have been hypothecated will, upon foreclosure, be deemed to be selling stockholders. The number of a selling stockholder's shares offered under this prospectus will decrease as and when it takes such actions. The plan of distribution for that selling stockholder's shares will otherwise remain unchanged. In addition, a selling stockholder may, from time to time, sell the shares short, and, in those instances, this prospectus may be delivered in connection with the short sales and the shares offered under this prospectus may be used to cover short sales.

A selling stockholder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the shares in the course of hedging the positions they assume with that selling stockholder, including, without limitation, in connection with distributions of the shares by those broker-dealers. A selling stockholder may enter into option or other transactions with broker-dealers that involve the delivery of the shares offered hereby to the broker-dealers, who may then resell or otherwise transfer those securities.

A selling stockholder which is an entity may elect to make a pro rata in-kind distribution of the shares of our Class A common stock to its members, partners or shareholders. In such event we may file a prospectus supplement to the extent required by law in order to permit the distributees to use the prospectus to resell the Class A common stock acquired in the distribution. A selling stockholder which is an individual may make gifts of shares of our Class A common stock covered hereby. Such donees may use the prospectus to resell the shares or, if required by law, we may file a prospectus supplement naming such donees.
