Reclassifications

Certain reclassifications and format changes have been made to the prior period condensed consolidated financial statements to conform to the presentation for the six months ended September 30, 2018, which include 1) the reclassifications of interest expense from Long-term debt to Payables under repurchase agreements and securities lending transactions within interest expense in the condensed consolidated statements of income, and 2) reclassifications of equity investment securities from Available-for-sale securities and Other investment securities to a new line labeled as Equity securities within the Investment securities in the condensed consolidated balance sheet to report all marketable and nonmarketable equity investment securities separately from Available-for-sale debt securities and Held-to-maturity debt securities.

Accounting Changes

The MUFG Group early adopted new guidance on restricted cash in the second half of the fiscal year ended March 31, 2018, retrospectively. The adoption of the guidance resulted in reclassification of restricted cash balances into cash and cash equivalents on the consolidated statements of cash flows. In addition, the MUFG Group included cash and due from banks and interest-earning deposits in other banks in cash and cash equivalents in the consolidated statements of cash flows, resulting in interest-earning deposits in other banks no longer being reflected in investing activities. Upon adoption, the MUFG Group recorded an increase of ¥3,049 million in Net cash used in operating activities and an increase of ¥727,688 million in Net cash provided by investing activities for the six months ended September 30, 2017.

The MUFG Group adopted new guidance which requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. This guidance also allows only the service cost component to be eligible for capitalization when applicable. The MUFG Group retrospectively adopted this guidance on April 1, 2018, and there was no material impact on its financial position and results of operation.
