CYBERADS, INC.

Notes to Consolidated Financial Statements
June 30, 2005

1. Summary of significant accounting policies

Business: CyberAds, Inc. ("CyberAds") was incorporated in the state of Florida on April 12, 2000. In 2004, the Company earned commissions from selling approved contracts to subscribers for cellular telephone service. In 2005, management of the Company has devoted their attention toward seeking profitable products.

Principles of consolidation: The accompanying consolidated financial statements include the accounts of CyberAds and it's wholly owned subsidiary IDS. All significant intercompany balances have been eliminated in consolidation. The operations of IDS are currently dormant.

Interim reporting: The Company's year-end for accounting and tax purposes is December 31. In the opinion of Management, the accompanying consolidated financial statements as of June 30, 2005 and 2004 and for the three and six months then ended, consisting of only normal recurring adjustments, except as noted elsewhere in the notes to the consolidated financial statements, necessary to present fairly its financial position, results of its operations and cash flows. The results of operations for the three and six months ended June 30, 2005 and 2004 are not necessarily indicative of the results to be expected for the full year.

Property and equipment: Property and equipment are stated at cost less accumulated depreciation. Depreciation is provided for over the estimated useful life of the assets of five to seven years. Leasehold improvements are amortized over the lesser of the original term of the related lease or their estimated useful life.

Marketing rights: Marketing rights are stated at cost and will be amortized over 10 years, the term of the rights.

Revenue recognition: In 2004, the Company recorded revenue on a "net" basis when contracts were submitted to master dealers. The phones were shipped from the dealers to the subscriber and the Company did not bear the risk of loss on the cellular phone.

Share based payments: The Company uses a fair value based method of accounting for stock based compensation to employees. The Company also accounts for stock options and warrants issued to non-employees for services under the fair value method of accounting.

Net income (loss) per common share: Net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. The weighted average number of common stock shares outstanding was 37,297,277 for the three months ended June 30, 2005 (18,799,403 for the three months ended June 30, 2004) and 31,754,365 for the six months ended June 30, 2005 (18,562,590 for the six months ended June 30, 2004).

Notes to Consolidated Financial Statements
June 30, 2005

1. Summary of significant accounting policies (continued)

Net income (loss) per common share (continued): Convertible debentures, convertible preferred stock, common stock options, and common stock to be issued are considered common stock equivalents. Common stock equivalents have not been included in the computation of diluted loss per share as the effect on net loss per common share would be anti-dilutive.

Use of Estimates: The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Accordingly, upon settlement, actual results may differ from estimated amounts.

2. Operations

During the six months ended June 30, 2005, management of the Company negotiated to purchase rights to market the Xboard(TM), a jet-powered personal watercraft. During the six months ended June 30, 2005, the Company collected \$153,450 from the resale of those rights.

Management also plans to continue restructuring debt, seeking profitable products, reducing operating expenses, and seeking additional capital and debt financing until operations achieve profitability. Management of the Company believes the above actions, along with other plans, will allow them to continue operations and ultimately achieve profitability. Until then, the Company is dependent upon its ability to obtain additional capital and debt financing. The consolidated financial statements as of June 30, 2005 do not reflect adjustments relating to the recorded asset amounts, or the amounts of liabilities that would be necessary should the Company not be able to continue in existence.
